

Building Bridges Hackathon

SUBMISSION PROCESS

Draft project submission deadline

16:00 - Feb. 6.

When creating a draft project, please give a name to your project, name the challenge you are working on, and submit a short description of your proposed solution.

Final submission

11:00 - Feb. 7.

To submit your project, please follow these steps:

- Create a 1-minute video pitch and upload it **AS A PRIVATE VIDEO** to YouTube (The video can have you talking, a live app demo (if you have one), some cool animation, etc... whatever fits best)
- And/or create a presentation that you can perform if your team gets into the finalists
- Make a private GitHub repo under SEON organization
- Upload the YouTube video, and/or the presentation, and the repo in your dedicated folder, that we shared with you at the beginning of the competition.

Building Bridges Hackathon

SUBMISSION PROCESS

Evaluation process

After the final submission deadline, the dedicated jury members will have to evaluate the projects in the different challenges. As soon as they go through all the projects we will announce the top 3 teams from both challenges (6 teams in total) at 1:00 pm that will get into the finalists.

As the second round of the evaluation, the 6 finalist teams get to pitch their solution in a 7-minute presentation followed by a 3-minute Q&A section.

After all the finalist teams have pitched their solution, the jury will select the top 3 overall solutions.

The winners will be announced at the Closing Ceremony.
