WHAT IS A HACKATHON?

A hackathon is an event where individuals come together to collaboratively work on projects, typically involving software development. Participants, often known as hackers, form teams to brainstorm, design, and build innovative solutions to specific problems within a limited timeframe.

Hackathons provide an excellent environment for learning, networking, and showcasing skills in technology and creativity.

WHAT IS HACKPOST GUIDE?

Hackpost Guide is a web app designed to foster interest in hacking and software development among students. We offer a range of resources, including tutorials, guides, and community support, to help students succeed in hackathons and develop their programming skills. Since our debut, we have had over 4,000 page views and 800 visitors from 75 countries using our app. Our platform is dedicated to creating an inclusive and supportive environment for beginners and experienced hackers alike. You can find more information here: www.hackpost.guide.

OUR GOALS

1

Inspire Interest in STEM: Encourage middle and high school students to explore and develop a passion for science, technology, engineering, and mathematics.

2

Enhance Problem-Solving and Teamwork Skills: Equip participants with essential skills that extend beyond computer science, fostering collaborative and analytical abilities.

3

Challenge Advanced Students: Provide a platform for experienced students to test and expand their skills through complex and innovative projects.

4

Support Beginners in Programming: Create a welcoming and supportive environment for newcomers, ensuring they have a positive and motivating experience in their initial programming endeavors.

WHY SPONSOR THE HACKPOST GUIDE HACKATHON?

The Hackpost Guide Hackathon is a virtual event running for 2 weeks, created with the goal of helping students, particularly beginners, dive into the world of hacking and software development. By sponsoring our hackathon, you will be supporting an event that:

- Encourages STEM education: Your sponsorship helps us provide resources and prizes that motivate students to explore and pursue STEM fields.
- Promotes diversity and inclusion: We aim to create a welcoming environment for students of all backgrounds, encouraging more diverse participation in technology.
- Builds future innovators: By supporting our hackathon, you contribute to the development of future leaders and innovators in technology.
- Increases brand visibility: Your company will gain exposure to a young, tech-savvy audience, enhancing your brand's reputation as a supporter of education and innovation.
- Networking opportunities: Engage with talented students and potential future employees, showcasing your company's commitment to supporting educational initiatives.
