

More Reports of Nightmares : V-Safe Free Text

The third installment of V-Safe free text data has been released (15th April 2024). Another 390,000 reports have been provided. There are yet more reports of strange, vivid nightmares following the vaccine.

Why is a “harmless” drug injected into the deltoid muscle causing vivid nightmares ? Is it affecting the brain ? Is this related to the high incidence of “brain fog” following COVID vaccination ?

When we look at VAERS data over the last 33 years – and look at the incidence of **abnormal dreams** following 100 different vaccines, we find that ONLY Covid 19 vaccine is associated with a significant excess of + 54%. This is the lower confidence limit, so there is a 97.5% chance that the incidence will exceed +54%.

Covid and HPV vaccines are the only two vaccines associated with **nightmares**. Covid 19 vaccines are associated with a +41% excess incidence.

BRAIN FOG INDICATES COGNITIVE CHANGES

An effect on brain and cognition is suggested by the very high incidence of **brain fog** following Covid 19 vaccination. Notice how HPV appears also to have a significant association.

FEELINGS OF SUFFOCATION

There is a very strong association of Covid 19 vaccines with **obstructive sleep apnea**. This is where sleep is disturbed by loss of breathing.

SNORING

Sudden onset of snoring is one of the symptoms of Apnea. Here is what the Mayo Clinic says -

“Snoring is often associated with a sleep disorder called obstructive sleep apnea (OSA). Not all snorers have OSA, but if snoring is accompanied by any of the following symptoms, it may be an indication to see a doctor for further evaluation for OSA:

- *Witnessed breathing pauses during sleep*
- *Excessive daytime sleepiness*
- *Difficulty concentrating*
- *Morning headaches*
- *Sore throat upon awakening*
- *Restless sleep*
- *Gasping or choking at night*
- *High blood pressure*
- *Chest pain at night*
- *Your snoring is so loud it's disrupting your partner's sleep*
- *In children, poor attention span, behavioral issues or poor performance in school*

OSA often is characterized by loud snoring followed by periods of silence when breathing stops or nearly stops. Eventually, this reduction or pause in breathing may signal you to wake up, and you may awaken with a loud snort or gasping sound.

You may sleep lightly due to disrupted sleep. This pattern of breathing pauses may be repeated many times during the night.

People with obstructive sleep apnea usually experience periods when breathing slows or stops at least five times during every hour of sleep.”

<https://www.mayoclinic.org/diseases-conditions/snoring/symptoms-causes/syc-20377694>

DYSYPNEA

Apnea is related to another symptom – **nocturnal dyspnea**. Dyspnea (pronounced “DISP-nee-uh”) is the word healthcare providers use for **feeling short of breath**. You might describe it as not being able to get enough air (“air hunger”), chest tightness or working harder to breathe.

RESPIRATORY FAILURE

Covid 19 vaccines are associated with a high incidence of respiratory disorders.

Symptom	% increase
Chronic Respiratory Failure 1294%	1294
Respiratory tract congestion 1127%	1127
Acute Respiratory Failure + 723 %	723
Respiratory symptom 543%	543
Respiratory Failure 406%	406
Painful Respiration 345%	345
Cardio-respiratory arrest 265%	265
Respiratory Fatigue 252 %	252
Agonal Respiration + 251%	251
Severe acute respiratory syndrome 218%	218
Upper respiratory tract congestion 192%	192
Respiratory tract oedema 159%	159
Respiration abnormal 134%	134
Lower Respiratory TRact Congestion 130%	130
Acute Respiratory Distress Syndrome + 129%	129
Increased viscosity of upper respiratory secretion 12	122
Respiratory Tract irritation 115%	115

This table shows the % increase in the incidence of these symptoms with Covid vaccines compared to all other vaccines combined.

These symptoms are not confined to sleep but also occur during waking.

Respiratory failure is the most common symptom. It occurs about 12 times more with Covid vaccines compared to other vaccines. This is most probably due to micro-clotting in the lung capillaries, reducing oxygen concentration in the blood.

OXYGEN SATURATION

Select Symptom: Oxygen saturation decreased

If there is decreased oxygen uptake during sleep this might give rise to apnea, dyspnea.

A full list of respiratory disorders following Covid 19 vaccination is provided in APPENDIX J.

SLEEP PARALYSIS

Nocturnal dyspnea and apnoea are similar to **atonia** – otherwise known as **sleep paralysis**

- Sleep paralysis is a brief loss of muscle control just after falling asleep or before waking up.
- Sleep paralysis frequently involves hallucinations or a feeling of suffocation.
- No one knows exactly what causes sleep paralysis, but it is linked to sleep disorders and certain mental health conditions.

<https://www.sleepfoundation.org/parasomnias/sleep-paralysis>

Atonic seizures are strongly associated with HPV vaccine

Select Symptom: Atonic seizures

Show 10 entries Search:

Vaccine	Lower Confidence Limit of Proportional Reporting Ratio
HPV2	23.713170567520056

Showing 1 to 1 of 1 entries Previous 1 Next

The main symptoms of sleep paralysis are –

1. **Paralysis** : Being unable to move or speak during awakening.
2. **Sounds** : Imagined sounds such as humming, hissing, static, zapping and buzzing noises.^[5]
3. **Voices** : Other sounds such as voices, whispers and roars are also experienced.

4. **Pressure** : It has also been known that one may feel pressure on their chest and intense pain in their head during an episode.^[6]
5. **Fear** : These symptoms are usually accompanied by intense emotions such as fear and panic.^[7]
6. People also have sensations of being dragged out of bed or of flying, numbness, and feelings of electric tingles or vibrations running through their body.^[8]
7. **Presence** : Sleep paralysis may include hallucinations, such as an intruding presence or dark figure in the room, these are commonly known as sleep paralysis demons,
8. **Suffocation** : It may also include suffocating or the individual feeling a sense of terror, accompanied by a feeling of pressure on one's chest and difficulty breathing.

NIGHT-SIDE OF NATURE

Catherine Crowe made a study of paranormal phenomena during sleep -

<https://www.gutenberg.org/files/54532/54532-h/54532-h.htm>

However, it is not yet shown that sleep paralysis, nocturnal suffocation, apnoea, dyspnea, abnormal dreams or nightmares are due to any supernatural cause – though they would have been so interpreted in past ages. <https://www.youtube.com/watch?v=ZuPvkoDiSr0>

Rather we can begin by looking at the effect of the vaccines on brain function and respiration.

One thing seems certain – something that produces all these cognitive and pulmonary effects does not stay in the deltoid muscle.

APPENDIX A : V-SAFE FREE TEXT REPORTS : Keyword “dream”

Inability to sleep; strange dreams

Vivid dreams

Bad dreams

Depression. Im not a depressive type - at all. Terrifying dreams. Very real.

Weird dream, almost a nightmare, of giving covid vaccine to a cat.

Vivid dreams last night. Unusual for me.

Yesterday (day after shot) I had extreme fatigue and very cold. Slept under two blankets for 3 hours. I Had weird and bizarre dreams. Woke up and have felt fine since.

Weird dreams last night, I rarely remember dreaming.

Dreams that relate to what Ive been experiencing the last 24 hours (I normally dont have dreams)

Really strange vivid dreams. Someone delivered cooked macaroni in a duffel bag to my doorstep. Ive never had such a vivid dream in my life.

Sharp pain in leg causing one toe to twitch for a few seconds, odd vivid dream

Vivid dreams

Weird dreams

Very weird, lifelike dreams

Since i have had the vaccine i cannot sleep well. Dreaming weird dreams and quite restless. Very unususl for me. Im a good sleeper and rarely have bad dreams or restless nights. May be no connection. Will see how tonight goes.

Sleep disturbance and vivid dreams

Vivid dreams

Poor sleep & vivid dreams

Abnormal dreaming

Restlessness last night and weird dreams, decreased appetite

Bad dreams almost every night since Sunday night when I got at the shot

Nightmare dreams

Weird dreams

Night sweats, strange dreams

Vivid dreams

Vivid dreams! Happened w. both shots

Deep sleep with vivid dream upon awaking

Crazy dreams and forgot to say that on the first day my lips were tingling as if they were swelling but didn't look swollen at any point. Everything has been very minor and less than any other vaccines.

More vivid dreams at night!

Vivid dreams

Very Lucid Dreams, difficulty staying asleep

Difficulty staying asleep and vivid dreams

Vivid dreams

Yesterday after the vaccine, I napped and woke up seeing clapping hands. I opened my eyes wider and they got bigger. Then I closed my eyes tightly cuz I thought I was still dreaming. When I opened my eyes I thought I saw a bouquet of colorful flowers in the air above me. So I closed my eyes again then I had normal vision. This morning I had a swollen neck on my left side. Since I got vaccine. I was woozy in walking until later.

Horrible stressful dreams.

Vivid dreams

I noted I have been dreaming more than before. Also restless during my night sleep.

Possibly strange or vivid dreams

Weird dreams and insomnia

Vivid unusual dreams

Took a nap, very strange dreams

Vivid dreams (nightmares)

Just weird dreams.

Extremely vivid & graphic/disturbing dreams last night and the night before (forgot to report yesterday). Onset of chills was yesterday after reporting symptoms, worse yesterday than today.

Strange dreams, difficulty sleeping

Bizarre dreams

Odd dreams

Not sleeping through the night, vivid dreams

Lucid dreams at night.

Intense, vivid dreams/nightmares

Very vivid dreams

Odd Covid dreams but nothing else

Vivid dreams

Extremely vivid dreams

I have experienced lucid dreaming every night since the first injection, but I don't know if it's related to the injection or considered a side effect

Intense Dreams

Extremely bizarre dreams

An erection that lasted two hours and vivid erotic dreams.

Bazaar dreams nightly.

Vivid, bizarre dreams

Wacky, intense dreams the last few days.

Weird vivid dreams

Vivid dreams x3 nights

Weird dreams

Difficulty sleeping/vivid dreams

Vivid dreams

Wild dreams, deep sleep

Weird dreams

Lucid dreams

Two nights of extremely vivid dreams. Not negative but also not typical for me.

Vivid dreams

I am sure the shot has caused me distress while trying to sleep. Restless horrible dreams. Getting better. Took a nap yesterday. Upon waking I saw an ostrich peeking up over the sofa at me. Half awake. I am a rational person. No dementia. This was just too weird. Hope for a good night tonight. What will happen with the second dose.

Weird dreams in color every night since the shot. Stopped last night.

Bad dreams

Night sweats and very vivid dreams

Sweaty during sleep, very vivid dreams throughout the night

A little dizzy. Strange dreams last night

Strange/disturbing vivid dreams

Vivid dreams last night

Extremely strange and vivid dreams

Vivid dreams

Since 2nd vaccine, I have vivid dreams about 2 hrs before I wake up. Usually don't remember dreams.

Vivid dreams

Nightmare dreams

Unusual dreams and sleeping pattern

Disturbed sleep. I don't know if it was from sore arm or from odd dreams

Vivid dreams

vivid/waking dream

Vibrant dreams....could just be the moon.

Tinnitus, Vivid Dreams, Brain Fog

Still having vivid dreams!

Vivid dreams, night sweats

I had my 2nd vaccine a week ago and I feel fine. The day after my 2nd vaccine I had all of the flu symptoms, fever, headache, fatigue, no appetite, etc. I had shooting pains during the night with weird dreams. It took a few days to feel good.

Bad Dream

Vivid dreams

Significant fatigue the night I got the vaccine, and also the afternoon the day after I got vaccine. Took nap and felt better. Also - I had very usually vivid and bizarre dreams the night of receiving both dose 1 & dose 2... did not impact my life but just found it to be strange. So happy to be vaccinated though! Thank you

Don't know if it's related but since I had the shot my dreams are more intense and they are often related to covid in some way.

Nightmares (I don't typically dream)

Unusual dreams

Vivid dreams

Shakes and weird dreams

Sore throat, bad dreams, emotional lability since injection

Weird vivid dreams (I never dream), and all my friends who got their first dose this week are having similar dreams

I experienced vivid nightmares the past two nights. I only mention this as I usually don't dream at all.

Vivid dreams

Stiffness out of proportion to activities, vivid dreams

Night sweats and vivid dreams

Vivid dreams

Poor sleep with terrible dreams

Strange dreams. Unusual for me.

Weird dreams

Sleep was impaired, did not sleep well. When I did sleep I had exaggerated dreams. Also felt faint this am. Went back to bed.

Weird dreams

More dreams than usual

Crazy dreams lastnite

Vivid dreams.

Bizarre dreams

Vivid dreams, back ache

Very odd dreams all night. (Reporting because this also happened to a co worker who got moderna vaccine, within the week after receiving it)

Bad dreams last night, very unusual to dream at all

Bizarre dreams

Vivid dreams

Rigors, sensory sensitivity, fever dreams, lower back ache

Vivid dreams

Vivid dreams probably unrelated

Sore throat, not sleeping well last few days. Weird dreams

Arm sore and very crazy dreams and did not sleep well last 2 nights

Abnormally vivid dreams

Intense dreams then cant go back to sleep

Very intense dreams

The first night I was awakened by vivid dreams. 4 of my friends said the same thing.

Night one had bad dreams, no other issues

Vivid dreams

Usually vivid dreams (x3 nights)

Bad dreams; back to back to back

Did not sleep well. More dreams than usual.

Scary dreams last night. Probably not related.

Wild dreams

Last night I had an accident in bed . I was dreaming I went to the bathroom and I did . This has never happened before . It was only urine and it woke me up immediately but the blanket sheets and pad were wet. Slightly swollen tongue and irritated on the top slightly . Stiffer than normal neck .

Congestion; Vivid dreams

Vivid dreams

Strange dreams

Vivid dreams

Vivid dreams- severe. Anxiety- moderate

I've had bad dreams

Vivid dreams and sleep walking.

Vivid dreams

Very vivid dreams since got vaccinated.

Crazy dreams

I had weird dreams last night. Not sure if it had to do with shot thought I'd mention

Dreams

Very weird dreams

Vivid dreams for at least 2hrs per night since 2nd vaccine

Odd dreams.

Very vivid horrid dreams 2 nights in a row since receiving vaccine

Vivid dreams

Vivid dreams

Poor sleep, COVID dreams last night

Bad dreams last night

Usually vivid dreams

Intense and vivid dreams since the second vaccine

Vivid dreams

Strange, delirious, dreams.

Very realistic dreams, woke not knowing what was real

The vomiting was last night, after breaking out in drenching sweat. Temp confirmed fever mid-day yesterday. Light-headed. Still queasy today w/chills still. Weak. Soft stools and weird dreams day 3.

Anxiety, increased dreams

I had REALLY crazy dreams last night...

Crazy dreams

Weird dreams

Another vibrant dream night. Crazy dreams.

Really weird dreams last night

Vivid dreams

I almost passed out in the middle of the night a few times on the way to and from the bathroom. I do take a lot of meds, so it very well could have been the combo of everything. My sleep was very disrupted, weird dreams. Not a typical night.

Vivid dreams and loss of appetite

Weird dreams first two nights wondering if this has been common

Vivid dreams

Vivid dreams

Night sweat overnight, vivid dreams

Feverish dreams

Dreams intense

Vivid dreams since second vaccine disrupting sleep

Vivid dreams

Strange, vivid dreams

Vivid dreams

I did have very vivid and weird dreams last night

Vivid dreams over night, light headed over night

Fewer dreams and not as strange. Slept much better last nite. Able to resume light eating w/o nausea. Light-headedness about gone.

Wild dreams in color last night

Folks, the only impact was I got the shot at 3:00 p.m. and slept horribly like I had consumed a pot of coffee. And when I did sleep, the dreams were crazy.

Crazy dreams

Hallucinatory dreams

Wired dreams

Intense dreams all night (I don't usually dream at all).

Up all night weird dreams

Sleeplessness dreams

sleeplessness time perception wierd dreams

Strange dreams last night

Weird dreams last night

Vivid dreams

restless sleep with dreams

Nightmares. Odd dreams

More strange dreams

Very strange dreams since the first night of the vaccine.

Strange vivid dreams

Vivid dreams

Trouble sleeping with really weird dreams

Unusually vivid dreams since vaccination. Same as after the first shot

Vivid dreams/

Night sweats, fever dreams, and bruising at the injection site.

Mysterious bruise on the injection arm, 10 inches from site. Jittery night like adrenaline with lots of dreaming. Lots of stomachs pressure and gas. Otherwise, fine.

Bizarre dreams since getting the shot.

I had really weird dreams the night after my second shot

Vivid dreams

I have been dreaming.

Insomnia vivid dreams

Very vivid dreams ! Never have any o can remember and now I am having many strange dreams

Strange dreams last night. My father in law and husband also experienced this. I can tell I had a shot in my arm but it is very mild and I would not classify as painful

Weird vivid dreams

Much higher heart rate (30-60bpm increase). Vivid dreams. Difficulty sleeping.

Swelling tongue and inside lips, swollen lymph glands left neck and arm pit, brain fog, strange dreams, hair loss

Vivid dreams

Unusual dreams

Since vaccine sleeping deeply with more intense dreams (not nightmares just vivid)

Weird dreams

Abnormally vivid dreams

Weird dreams

More vivid than normal dreams

Very strange dreams last night

Weird dreams def ended; slept well. No light-headedness but weak. Still xxx fatigued. Mind is much clearer. Temp normal tho up last nite after almost normal during the day.

Woke up at 1 am after going to bed at 9:30. Weird dreams that included skin warts. My pillow was moist from sweat. I didnt have a fever when I woke up at 1 am. Went right back to sleep and went to my job at 6:30 the next morning

weird dreams

Head fog. Feel almost in a dream state

Vivid dreams

I had really vivid dreams last night, hard to wake up.

Ive had a few weird dreams. Not sure if its related

Vivid dreams, sleep talking

Maybe fatigue and lucid dreams, occured the last week before 2nd vaccine. I'm usually well rested and don't recall dreams. Every night I've had extreme nightmares.

Very active and bizarre dreams!

Not sleeping well, wierd dreams

Restless sleep and strange dreams

crazy vivid dreams unlike anything I havd experienced before.

Crazy dream

Weird dreams

Weird dreams

I felt lousy last night, almost 24 hours to the minute. Exhausted, nauseous, like the flu. Slept 12 hours with bad dreams. But feel much better today.

Vivid dreams

Insomnia w strange dreams

Vivid dreams for five nights

Strange dream last night and some confusion this morning. Nit like me.

Crazy dreams. Dont know if thats related, but I thought it might be notable because Ive heard similar things from others.

Strange dreams

More vivid dreams

Lower back pain and vivid dreams

I continue to have vivid exaggerated dreams. Similar to when I took malaria prevention.

Vivid dreams

After the first shot I started to have very vivid dreams. This is just now resolving

Very vivid dreams (not a dreamer usually)

Bad dreams

Bizarre dreams, axillary and cervical lymph node swelling/tenderness

Intense dreams, muscle weakness, excessive thirst

Vivid dreams

Vivid dreams

Wild Dreams

Unusual dreams

Since the second dose was administered I have consistently had vivid lucid dream in which takes me a few moments when I wake to regain orientation.

Very vivid dreams!!

Anxiety dream

Noticed lots of dreams. Usually only dream from meds or being sick.

Sore throat, vivid dreams

Weird bad dreams

Fever dreams/delusions, cough, extreme feeling of dehydration/thirst,

Increased vivid dreams

In the last 24 hours I had vivid dreams unlike any other night , I also was experiencing hallucinations. I also experience on and off hot flashes

Vivid aggressive dreams but not violent

weird dreams

Weird dreams

Unusual dreams but not unpleasant

Fever dreams

Have not had any dizziness since Sunday. Still have exaggerated vivid dreams and ability to sleep is so so.

Bad dreams, difficulty sleeping since 2/2. Day of vaccine

My temp was 95.1 f for 6 hrs after my 11 am vaccine...at 10pm it went up to 100f...had some fever hallucinations...wild dreams all night. I spent most of the day napping today...but...not complaining about it though. Thank you

Ive been unable to get out of bed until today. Head fogginess, was incoherent for 48 hours with strange dreams. Worst Ive ever felt from any illness. Unable to function still. Bed to couch. Havent eaten in 60 hours due to nausea.

Vivid dreams

Vivid dreams

Have been having very vivid dreams that interfere with sleep for the past week

Ive been very tired all week but didnt realize it may be related to the shot til today. Just FYI. Ive been going to bed earlier than normal and sleeping very hard, having vivid dreams and having a hard time waking up.

Strange dreams bringing on racing heart

Vivid dreams

Vivid dreams and trouble staying asleep

Vivid dreams, irritability

Weird dreams-- vivid

Vivid dreams again.

Crazy dreams last night. Left arm had aberrant shaped in dream.

Fever dreams

very strange dreams and I am waking up a little bit tired

Vivid dreams, bursts of energy

Wild nightmares and dreams

Vivid dreams

Weird sleep patterns/dreams

Extreme thirst, bad dreams

Vivid dreams

Very vivid dreams last night

Vivid dreams since getting the second dose

Extremely clear, distorted dreams

Vivid dreams persist

Bad dreams

Abnormally weird dreams that woke me up at least three times last night. Not usual.

Experiencing vivid dreams in the past days since getting the first dosage

Weird dreams since first vaccination, weirdest just after vaccination. Not disturbing, just weirder than usual

Urinary frequency, crazy dreams

Crazy dreams

Vivid dreams

Vivid dreams last night

The first night I had some bad dreams??

Dreams

Vivid strange dreams,

Horrible dreams

Vivid dreams

Eyes are painful, feel hot. Wild dreams

Having very weird dreams! But be the fever

Weird dreams

Vivid dreams, restless mind, menstrual irregularity

Some usually vivid dreams last night, in color.

Sleep has been very disrupted and I have had very strange dreams

Vivid dreams. I never dream usually!

Vivid, detailed but not frightening dreams

Dreams

Crazy dreams last night

Weird dreams.

Sweats and odd dreams

Crazy dreams and some paranoia.

Dreams every night

Only dream

It has been strange that after the 1st and 2nd vaccine the second and third nights I have had extremely vivid dreams while sleeping. Not sure if side effect or just felt relieved enough to dream?

Very weird dreams last night

Strange dream the night of the vaccind

Last 4 nights nightmare type dreams. This is not a common thing with me. Just mentioning it!

Vivid Dreams

Fever dream woke up sweat and soaked

Vivid dreams, very thirsty

Wierd dreams last night

Night sweats from fever breaking, weird dreams

Swollen lymph nodes in neck on side of injection. Fatigue. Insomnia. Weird dreams - all abnormal for me at baseline

Vivid dreams. Happened first night too.

Vivid dreams

Trouble sleeping, vivid dreams

Vivid dreams/nightmares for the past 3 days

Odd dreaming: lucid dream/hallucination (very abnormal for me).

Strange dreams

Weird dreams @48 hours.last few days all well.

I have been having some head pain but not like a headache more like pain near my temples. Also the first night I had bad dreams and only the first night and I rarely have any dreams.

Bizarre dreams

Hard time sleeping and weird dreams

Vivid dreams/nightmares

Difficulty sleeping, vivid dreams

Just tiredness and I have wired dreams

Intense dreams causing poor sleep each night since shot

Vivid dreams

My dreams have been especially vivid.

The night of the day I got the shot, February 3, I had a headache, and had very weird dreams. The next morning, February 4 I was fine, but I wanted to tell you this.

Weird dreams

Sinus pressure, vivid dreams (same with first dose daily up until approx 1.5 weeks after dose)

Vivid dreams

Mental cloudiness/dream-like state/sedation, lightheadedness

I don't know if this is relevant, but I've been having some very heavy sleep/dreams after getting the vaccine.

Vivid dreams

Dreamed a lot the last few days

Vivid dreams and brain zaps

Trouble sleeping with odd dreams

Vivid dreams

Bad dreams

Anxiety and vivid bad dreams

Vivid dreams, nightmares for 3 nights in a row

Vivid dreams, restless mind

Vivid dreams

Bad dreams, restlessness during bedtime.

Loss of appetite, weight loss, insomnia, dizziness, pulsating headache, when able to sleep bizarre dreams

Vivid dreams

Excessive dreaming when asleep; dizziness, visual focus problems

Where dreams night 1, 2 post vaccine

First and second night, had weird dreams/nightmares.

Vivid Dreams

Weird dreams

Fever dreams / insomnia

Dreams

This is weird but very vivid dreaming that didn't occur before the vaccine but am tracking it for now vaccine

Vivid Strange dreams each night

Waking up from vivid dreams

Vivid dreams. Sticky stool

Just very intense dreams that keep my heart rate up while sleeping

Still vividly dreaming

Vivid dreams

Vivid dreams

I got the vaccine on 2/6 and have had issues regulating body temp and have had crazy dreams since then.

I have had very bad nightmares since getting the vaccine, at first I thought it was coincidence however its been nightly since getting the shot, honestly I dont know if this is a reaction or not but I have not had dreams or nightmares in years and these have been intense so I just thought it wouldnt hurt to say so something, I havent made any lifestyle changes and dont take any meds or drugs so its just strange and its been a full week

Weird dreams

Vivid dreams

Very strange vivid dreams

3 mornings in a row vivid disturbing dreams woke me up

headaches and muscle aches come in the evenings along with fatigue that is worse in evenings. many more dreams than before vaccination.

Vivid dreams

Vivid dreams

After the first dose I had very lucid weird dreams. Second dose did not have dreams.

Dreams. Every night vivid dreams since shot. Several other people I talked to have had same really weird dreams and nightmares, restless sleep.

Very odd funny dreams

Strange dreams

Unusual dreams

I had some wild dreams and restless night last night and Friday night

Increased dreams. Not sure if its related at all, but something I noticed.

Wired dreams continue

Fever dreams causing poor sleep; noticeable paleness and looking unwell, was sent home from work

Vivid dreams

Strange dreams

Morbid dreams & hallucinations

Vivid dreams

Bad dreams last night

Horrible vivid dreams

Weird dreams

I received the shot Saturday 9:00 am. I wanted to report that Saturday Night was miserable with fever and chills crazy dreams, feeling dehydrated, and a really bad headache. Yesterday, Sunday, I felt slightly better but continue to have a headache throughout the day. Today I feel much better but with a very slight headache.

I had very weird dreams all night the first night after the shot.

VERY vivid dreams each night since the second dose

Earache and lymph pain on left (injection) side; weird/vivid dreams.

Numerous dreams since vaccine.

Vivid dreams

Increased sinus congestion, buzzing in head, bad dreams and fighting something with arms and legs in sleep

Vivid dreams

Im still having strange vivid dreams like I did with the first shot

Vivid dreams since vaccination

Vivid dreams/Nightmares

Constipation, intestinal gases (meteorism), intestinal discomfort, barely could sleep at night - woke up 3 times which I never usually do, had weird dreams

I mentioned brain fog on day 2. Also, I experienced really vivid dreams at night.

Tingling wrist and hand of vaccinated arm, vivid dreams

Sweats, weird dreams

Night sweats, weird dreams.

Cough, vivid dreams

Loss of appetite, poor sleep, bizarre dreams

A few dreams at night

Insomnia and vivid dreams

Wierd dreams last night

I dreamed about rabid animals.

Vivid dreams (also had after dose 1)

Dream

Strange dreams at night resulting in interrupted sleep

Vivid dreams last night/bad sleep

Vivid dreams at night since injection

Weird dreams last night. Similar to nightmares after first Pfizer vaccine.

Strange dreams

Leg pain. Really strange and vivid dreams. Last night I slept for only two hours. Restless legs

After both shots I had a couple of nights of very strange dreams -qualitatively different from any I've had before

Vivid dreams

Weird dreams

Strange dreams and night sweats

Bad dreams

I didn't check in on previous days. I had headache, bodyache, fatigue, and sleep issues with weird dreams. Onset was 18-24 after vaccine. Lasted 1 whole day.

Bizarre and vivid fever dreams last night

Very intense and unpleasant dreams last night.

Bad dreams

Vivid dreams

Vivid dreams

Restless sleep. Vivid dreams

Weird dreams

Vivid dreams

Unusually vivid dreams continue

Evening of both shots had vivid weird dreams and horrible night sleep. Some of my colleagues report same. Have not seen this ever mentioned.

Very vivid dreams in color. Reminds me of years ago when I took chantix

I have vivid dreams every night

Vivid dreams

Anxiety dreams, excess sweating

Weird dreams

I don't if anyone has said this I had the most clear,crazy,wierd dream last pm,like I can see at all now.really long,crazy wild dream.very memorable and clear.nothing bad,dream not a nightmare

Strange dreams

Weird dreams

APPENDIX B : V-SAFE FREE TEXT REPORTS : Keyword “nightmare”

Terrible nightmares last night!

Pain in under arms bilaterally and shoulder. Nightmares last night which is not my normal at all.

restless night last night. No pain. No nightmares. Just a lot of awake/asleep, tossing & turning.
Uncomfortable

Weird dream, almost a nightmare, of giving covid vaccine to a cat.

Nightmares and Panic attack

Nightmares

Fever, nightmares

Sleep disturbances/ Nightmares.

Nightmares

Nightmare dreams

Still having almost nightly nightmares since 1/5/21 (first dose date)

Nightmares

Horrific, vivid nightmares

Nightmares

Had bad night and Anxiousness at nightmares

I had a nightmare screaming

Nightmares

Vivid dreams (nightmares)

Anxiety, nightmares

Intense, vivid dreams/nightmares

Loss of appetite, nightmares

Nightmares, some anxiety

I had nightmares all night. I got my second dose on jan 28 NOT 29

Nightmares

Nightmares

Nightmares

Nightmares

Nightmares- not usual for me. I took a four-hour nap after my 8 hours of sleep and feel better now.

Nightmares

Nightmares

Nightmare dreams

Vivid nightmares/ difficulty sleeping

Nightmares (I don't typically dream)

Had a nightmare awaken me during the night

I experienced vivid nightmares the past two nights. I only mention this as I usually don't dream at all.

Nightmares

Crazy nightmares during the night. Similar to ones I have when I have a fever.

Nightmares

I had severe new nightmares last night, and haven't had nightmares in many years

Nightmare the next day

Vivid nightmares for the last few nights. Forgot to mention previously.

I'm having nightmares every night

Felt irritable and anxious and had nightmares for a few days after vaccination but may be unrelated.

Insomnia nightmares

Nightmares

During previous night bad vivid nightmares. Anxiousness. Easily tired.

Nightmares

Nightmares

I've had vivid nightmares every night since getting the vaccine.

Unusual nightmares, late period cycle (I'm not pregnant tubal ligation 2016)

nightmares-moderate (for two nights)

Tachycardia, mild panic, nightmare

Nightmares x 2 nights

Insomnia and nightmares

Nightmares

Very bad nightmares

I HAVE NOT BEEN ABLE TO SLEEP SINCE GETTING THE SECOND SHOT. IM SO FUCKING EXHAUSTED. nightmares, restlessness, itchy, I wake up every 45 minutes. Its hell.

Two nights of bad nightmares

Nightmares

Just curious if there have been reports of nightmares. I was vaccinated on Thursday and had vivid nightmares Friday and Saturday night.

Lots of nightmares only

Strange nightmares since injection, indigestion

Nightmares, hot flushes

I am still having nightmares- very unusual for me except if I am running a fever. I have had not fever.

Thirst and nightmares

nightmares, excessive sweating

Vivid nightmares

nightmare about having covid

Restless night having nightmares about fires, drowning, etc. After getting out of bed in morning & walking 25ft to the BR, I felt faint & needed to lie on floor to avoid passing out.

After 1st injection I had chills for 2 days, night sweats, and nightmares. Severe arm pain. After 2nd injection fatigue on the second day and minimal arm pain.

Nightmares

Nightmares during sleep

Nightmares. Odd dreams

Nightmare

Not sleeping at night! Nightmares but may just be me!

Nightmares

Nightmares

Thirst nightmares when sleeping

Experiencing some nightmares most every night since shot. Nothing scary but bizarre.

slight sore arm. some nightmares

Nightmares with both doses, extremely hungry with 2nd dose

Not able to sleep. Nightmares. 3 days

Since vaccine sleeping deeply with more intense dreams (not nightmares just vivid)

Nightmares

Maybe fatigue and lucid dreams, occurred the last week before 2nd vaccine. I'm usually well rested and don't recall dreams. Every night I've had extreme nightmares.

Bad nightmares vivid nightmares with both shots

Vivid nightmares, which may not be a symptom, but are unusual for me.

Nightmares

Insomnia and nightmares

Nightmares, dizziness

nightmares

Vivid nightmares

Nightmares

Horrible nightmares since day 1 of vaccine

Very vivid nightmares every night since Ive gotten the second dose. I never had nightmares before.

Violent nightmare (had after last vaccination also)

Vivid nightmares

Nightmare about a spider- woke up crying from it (never do that!)

I still have facial and neck rash, my face is beginning to peel, feels burnt. I started taking steroids prescribed by my doctor last night. This has been a nightmare.

My arm really hurt night of my 2nd shot, so about 12-14 hours afterward. I also had a nightmare that night featuring Toni Collette.

Insomnia/ nightmares

Flushing of face nightmare tremor

Nightmares still have

Nightmares from fever.

Nightmare

Wild nightmares and dreams

nightmares last night

Nightmares and insomnia

Nightmares

Continued nightmares every night since second dose

Vivid nightmares

Nightmares, had it with the first vaccine but didn't think it could have been from the vaccine until i got the second dose and am having them again.

Nightmares x 3 nights post 2nd vaccine

Nightmare last night. Dont know if either symptoms are related for now. Could be all the Girl Scout cookies I ate.

Nightmares

I awoke at 4am trembling and chilly. That was be related to the nightmare i had had - or the temperature drop into the teens last night.

Nightmares

Lucid nightmare

Nightmares

Thursday night I had the sweats in bed and nightmares. Woke up with no fever Friday morning.

scary nightmares

Sore throat, nightmares

Nightmares

Nightmare woke up hot and with high heart rate

Nightmares and seeing things out of the corner of my eye

Delirium/ nightmares all last nite

Feb 4 and 5 my taste buds were off. Food and drink tasted like soup to me. But today good tastes good again! And I FINALLY had a hood nights sleep with no nightmares.

Last 4 nights nightmare type dreams. This is not a common thing with me. Just mentioning it!

Very real, painful nightmares

Vivid dreams/nightmares for the past 3 days

Vivid nightmares

Vivid dreams/nightmares

Nightmares

After contacting my doctor, i got a script to help get rid of my hives. They were a real nightmare.

Thirsty and had severe nightmares

Numerous vibrant and violent nightmares

Nightmares last night

Fast heart beat last evening. Nightmare last night. Light headiness.

Very vivid nightmares

Vivid nightmares last night. Little to no sleep

Vivid dreams, nightmares for 3 nights in a row

Nightmare

Can the vaccine cause nightmares?

First and second night, had weird dreams/nightmares.

I have RA so these are normal. Yesterday and day before I did experience terrible nightmares beside my other reactions.

Nightmares

I have had very bad nightmares since getting the vaccine, at first I thought it was coincidence however its been nightly since getting the shot, honestly I dont know if this is a reaction or not but I have not had dreams or nightmares in years and these have been intense so I just thought it wouldnt hurt to say so something, I havent made any lifestyle changes and dont take any meds or drugs so its just strange and its been a full week

Nightmares

really weird dreams and nightmares, restless sleep.

Nightmares

Nightmares first, second & third night after Modeno vaccine.

Vivid dreams/Nightmares

Very itchy the area of redness hurts...my arms hurts....sometimes a little headache then goes away then comes back...lightheaded....a little nausea goes away....not sleeping very well...why after 9 days I feel more sick I thought I was over with it then bam my arm got red hurting the area was half my arm with redness but nowhere else I do feel more sick at night time though...I think my second shot is going to be worse and that is scary for me right now or is it my age of 71...this is so weird for me because I dont get sick often but this has been a nightmare for me..I want to feel better in a hurry ...I dont like this at all

Unusual difficult sleeping, nightmares

Nightmares and light sleep

Cough, nightmares

Nightmares since 2/6/21

Nightmare

Vivid nightmares

Weird dreams last night. Similar to nightmares after first Pfizer vaccine.

Nightmares,

Lengthy nightmare last night

Night sweats, nightmares

I've been having very vivid nightmares ever since I got the vaccine. They are quite frightening.

Nightmares

Terrible nightmares

Nightmares that wake me up in the middle of the night with a terrible headache.

Nightmares experiences morning after shot

Restless sleep and nightmares for a second night in a row

i dnt if anyone has said this i had the most clear,crazy,wierd dream last pm,like i can see at all now.really long,crazy wild dteam.very memorable and clear.nothing bad,dream ot a nightmare

APPENDIX C : V-SAFE FREE TEXT REPORTS : Keyword “hallucination”

SYSTEMIC_REACTION_OTHER

Mild hallucinations and dizziness

Hallucination

Yes the day after I had my shot I ran a fever that was 101.5 for a total of 48 hours and had hallucinations.

Hallucinations?

terror, flu like symptoms, migraines, auditory hallucinations, loss of appetite, muscle spasms, exacerbation of existing conditions

Visual hallucinations

I got sick the same day as I was vaccinated. Flu symptoms. Fever and hallucinations at night. Feel a little better today but still in bed. I dont know if i got sick from the vaccine or caught something from my grandchildren. Took a COVID test yesterday, it was negative.

loss of appetite, minor visual hallucinations (lights reflecting oddly)

Syncope, hallucination, bone pain, kidney inflammation

Olfactory hallucinations

Muscular spasms (rigors) hallucinations, emotional upset, mental confusion, sore throat, fatigue

Mild visual hallucinations

Hallucinations the day of shot

Dizzy, hallucinations

Hallucinations

Hallucinations

90 minutes after my shot I noticed cognitive malfunction. I became extremely tired with photo sensitivity. I woke up 15 minutes later and had a minor visual hallucination - the first in my life. I was dizzy, slurry and completely altered for about 20 hours. After that, I just had moderate pain at the site of the injection.

Dizzy. Hallucinations. Shooting pains in entire arm.

Four hours after I got the vaccine I experienced what I can only describe as hallucinations. I would look at my wall and see bright turquoise balls all over it. Then the color would change to a bright pink. After I woke up this morning the blue and pink color is gone and now its a light green. Its not floaters in my eyes. It actually looks like the walls are covered in a fungus..

blurred vision, dry mouth, water loss, hallucination of round blue spots connected everywhere

Hallucinations

I have had hallucinations in the evening for the past 3 days. I have never had this. I have no history of illegal drug use. I have notified my doctor, but have yet to hear from her.

Rash now under arm feels like a sunburn lots of aches and pains and a terrible headache still, constant ibuprofen/Tylenol to manage, fever with hallucinations Sunday night, constant nausea

Hallucinatory dreams

I had full body aches, fever, & hallucinations, about 13 hours after receiving the 2nd vaccine.

Confusion, hallucinations

Hallucinations 12 hours after the shot

Hallucinated the night after receiving infection, forgot to tell y'all

These all happened the day after the 2nd vaccine . After the first I hallucinated !

The Hallucinations have changed. Instead of seeing bright blue and pink dots all over the walls, its changed to a green color. Theyre not docs now it just looks like scratches everywhere.

Anxiety, visual and auditory hallucinations, jaw pain

Short hallucinations in the middle of the night

Hallucinations

I still have the hallucinations. I am now seeing a lighter blue when I look at a plain wall would like scratches all over it. Im trying to make an appointment with an ophthalmologist.

Insomnia, hallucinations

In the last 24 hours I had vivid dreams unlike any other night , I also was experiencing hallucinations. I also experience on and off hot flashes

Very bad migrainous headache, congested nose, pleuritic chest pain, very time i take breath ny chest hurt, some dry cough, didnt sleep at night, loss of appetite, i had episodes of unpleasant rubbery smell (olfactory hallucination) retroorbital pain

Heart palpitations, coughing, arm got to touch at the injection site, cold sweat, maybe smell hallucination?

My temp was 95.1 f for 6 hrs after my 11am vaccine...at 10pm it went up to 100f...had some fever hallucinations...wild dreams all night. I spent most of the day napping today...but...not complaining about it though. Thank you

Hallucinations

Hallucinations

I am still seeing the hallucinations.

Hallucinations

Hallucinations

The clinic gave me the wrong dose of the vaccine. I was given Pfizer and should have gotten Moderna. Also had hallucinations last night

Hallucinations

I am still seeing hallucinations. Im seeing an aqua blue colored lines all over my walls.

Visual Hallucinations with fever

Hallucinating (bugs)

Odd dreaming: lucid dream/hallucination (very abnormal for me).

Hallucinations, short term memory loss, disorganized mental status (speaking gibberish, not speaking real words)

I got the second dose on 2/5. That night, I had a fever up to 103.6, major body pains, a measles like rash on both legs, excruciating head ache, chills, and almost felt like I was hallucinating. It was bad. I dont think Ill ever take this vaccine again. Today is day 2, I still have a headache (but tolerable) and body aches. Had a temp this morning but it seems to be getting better as the day goes on.

Hallucination

Since day 2 I've had hallucinatory effects - like I'm out of my head. First day I wasn't making sense and knew it, it's been getting better daily and is very mild today. Forgot to report

Hallucinations

I am still seeing hallucinations. I see your friend aqua blue color like scratches all over the walls.

I am still seeing hallucinations, an aqua blue color or scratches when I look at my walls. I have an appointment with the ophthalmologist tomorrow

Hallucinations

These symptoms occurred in the first 24 hours after injection. Additionally had mild hallucinations

LSD like hallucinations for the past four days

Morbid dreams & hallucinations

Hallucinations

Hallucinations

High fever last night, body aches, hallucinations

Hearing voices (hallucinations)

Hallucinations. Odd body odor

On Sunday had a hallucination for 5 minutes then it went away

Back froze up entire night , body was ice cold , Hallucinating next day & Spacey , achy, weak stomach , cold & still headache ..

Hallucinations

APPENDIX D : V-SAFE FREE TEXT REPORTS : Keyword “brain fog”

Brain fog

Brain fog - Mild

Brain fog

Brain fog

Minimal Dizziness Brain fog

brain fog

Brain fog

Sore throat, brain fog

Brain Fogginess- slower reaction time when driving

Tingling in neck and feet, dizziness at times, muscle twitches in neck at times, all teeth have hurt especially the front top teeth, brain fog worse today. itches

Some brain fog

Brain fog this morning. Focusing was difficult.

Brain fog

Brain fog

Brain fog

Brain fog

Dizzy, brain fog, shaking

Brain fog

Brain fog

Brain fog

Brain fog

On the first night after my shot that morning I experienced one degree of fever with chills and brain fog. I continue to have brain fog off and on every day. It happens out of the blue and my mind is blank for several seconds. Even in the middle of doing a task my mind will go blank and I have to pause for a few seconds until I remember what I was doing.

A bit of brain fog, likely related to the fatigue

Brain fog

Brain fog (word finding issues, decreased concentration) - did have COVID between vaccinations

A bit brain fog

Brain fog

Brain fog

Brain fog, dizziness, asthma, shortness of breath

Brain fog

Yesterday afternoon and today, just felt off and in a brain fog

Brain fog

Had a little dizziness and brain fog last night

Brain fog and euphoria

Brain fog, stuffy nose and ears

Strange incident of Brain Fog last night. Not certain it was related but maybe.

Brain fog

Brain fog

Brain fog

Brain fog

Only had symptoms for 36 hrs after shot. Had fever for 12 hrs. Had fatigue, muscle ache, headache and felt like I was hit by a truck for 36 hrs. Post shot. Have had headaches and brain fog since November when I had covid.

Mild brain fog

Brain fog

Approximately 6 hrs after receiving my 2nd dose I experienced severe symptoms which included: fatigue, severe pain in all joints, burning pain in lungs, eyes, bladder, throat. Fever 100.4 with Tylenol and ibuprofen, brain fog, insomnia (probably due to pain) . The symptoms had a sudden onset and were completely gone 48 hrs later upon awakening.

Brain fog

Brain fog

Brain fog

Brain fog

I AM NOTICING SOME BRAIN FOG A BIT OF TROUBLE WITH FOCUS BUT MOSTLY PROBLEMS WITH NUMBERS OR SIMPLE COMPUTATIONS, BEYOND MY USUAL. MY ARM INJECTION SITE DOUBLED ON SIZE FROM YESTERDAY AND I WAS CONCERNED FOR POSSIBLE CELLULITIS. THEY LOOKED AT THE PICTURES I SENT. I AM SUPPOSED TO TRY WARM SOAKS, TYLENOL FOR DISCOMFORT AND ALSO HYDROCORTISONE CREAM.

Brain fog - forgetfulness

I had a weird feeling that's difficult to describe about 5 minutes after receiving the vaccine. It was the same feeling I had when I got my flu vaccine last October. It lasted less than 15 seconds. Mostly a brain fog.

brain fog

Brain fog

Brain fog

Brain fog

Burning mouth syndrome, photosensitivity, severe brain fog- all of this within 3 hours of the injection lasting 36 hours. You never asked me about day 1 and 2 post injection.

Brain fog

Low blood pressure, plugged ears, brain fog

Brain fog

Brain fog, a bit out of breath.

Brain fog improving slightly

Brain fog/confusion

Brain fog, dizziness

Brain fog

Brain fog

Brain fog

Itching in first injection site, brain fog

Tongue felt funny but got better as the day went on. Had a couple issues with brain fog/ word recall

Brain fog. Dizziness

Brain fog

Numbness, tingling, brain fog, limited pain sensations

Brain fog

Groggy/brain fog last few days

Mild brain fog

Brain fog

Brain fog last 3 days

Major confusion, brain fog

Brain fog yesterday

This is day 4. I did not receive this until today. The day after receiving my 2nd dose I could not raise my arm I received injection in. Inexperienced debilitating muscle aches and pains. My entire body hurt to the point I was not able to work. I had brain fog unlike anything I've ever experienced. The 2nd day after receiving the shot I had pain at injection site and mild arm pain at injection site. Day 3 was arm pain at injection site and shoulder pain in same arm. Day 4 has been overwhelming tiredness and sleepiness. I have been unable to keep my eyes open all day long.

Brain fog

Brain fog, hard to concentrate

Brain fog

Brain fog

Brain fog

Brain fog, slight decreased mental acuity

Brain fog

Dizziness, brain fog

Brain fog

Brain fog, cant think clearly dizzy and stumbling at times

A little stuffy nose today. But i have lots of allergies and that may not be related to vaccine. Also i want to comment on day of vaccine, i dont think i added any comments that day. On my way home after 15 minute wait, a few miles down road i got a "flush" feeling, warm all over, head really "foggy", and heart pounding. I pulled off into a parking lot to compose myself. After sitting a few minutes i decided to go ahead home. I felt very exhausted and brain foggy, and head was throbbing, but no tightness in throat or other allergic reaction type stuff. Moving around made it worse, so i tried to lay down for a while but couldnt sleep. Just rested. Arm started hurting after about 8 hours. Its much better today. Still feel tired. Have not had any fever since shot.

Brain fog last night

brain fog

Brain fog

Between 48 and 96 hours after the second dose, felt a brain fog enough that I was not able to do all my professional tasks I planned to do.

Brain fog, left eye feeling a little swollen under bottom lid.

brain fog

Brain fog

Brain fog

Brain fog

Brain fog, anxiety

On day 2 after the second vaccination, I was sore and stiff all over. I bent down to pick something up and on the way up I felt dizzy which stayed for a few hours. I also started feeling nauseous. I felt like I had brain fog as well. I couldnt stay at work, I went home and slept. On day 3 I was fine, just some soreness around the incision site.

Dizziness, brain fog

Brain fog

Confusion, brain fog

Brain fog

Brain fog

Brain fog

Brain fog has accompanied tiredness, now seems to be lessening.

Slight brain fog only minimal appetites

Brain fog

Mild brain fog

Brain fog, lightheadedness with standing

Brain fog

Brain fog

The day of my vaccine I felt fatigue, brain fog and chills and moderate arm tenderness-they got worse as the day went on and 12 hours post vaccine I was in bed with a fever chills and sweats, dizziness body/joint aches. 24 hours post vaccine I felt better but still fatigued with body aches and joint pain, arm tenderness and now redness some chills (no fever) and slight headache

Brain fog

Head pressure, brain fog

Slight brain fog

Brain fog

Brain fog

Not sure if headache/fatigue/brain fog is from vaccination or head injury 2 days ago

Brain fog. Difficult to focus

Felt flu like symptoms and Brain fog in morning

Ringling in ears, brain fog, dizziness, off balance, stuffy nose

Brain Fog

Brain fog

Brain fog

Sore tongue, brain fog, ears buzzing

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Dizziness, irritability, brain fog

Brain fog

Hot hands and feet at bedtime, and brain fog

Dizziness, loss of appetite, brain fog; 6-24hrs after 2nd shot: fever 102, severe aches, sweet things tasted salty, massive headache; 24-48hr: same symptoms but moderate; Asian female, other Asian & Hispanic friends also more severe symptoms than our white friends, why is the CDC not collecting race/ethnicity data?? Please add!

Brain fog

Brain fog-hard to think

Labored breathing and brain fog

Tingling in chest, slight chest pressure, brain fog, swollen lymph nodes in neck and tenderness

I had Covid before I think in March where it went to my brain and left me with serious brain fog for several months. Today it did something to my brain as well. I traveled somewhere so far out of my body... like an acid trip- but I started meditating and pulled myself back. 3 ibuprofen must have helped. Much better now. Tired!

Brain fog

brain fog

Brain fog

brain fog

Brain fog

Brain fog, having hard time concentrating

Brain Fog

Brain fog

Brain fog

Brain Fog

Brain fog, trouble finding words & red blotches on face 20 min after vaccine; extreme nausea & extreme headache 90 min after vaccine

Brain fog

A little brain fog

Brain fog

Dizziness, brain fog

Brain fog- reduced cognitive sharpness

Arm bruise at injection site. A bit of brain fog

Brain fog

Brain fog episodes

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Dizzyness, brain fog

Brain fog, mental fog, cant concentrate or think straight

Brain fog

Brain fog

Brain fog

Brain fog

Major brain fog, ligh and sound sensitivity like a migraine but head pain not that bad. Could not have worked a job With dire consequences if their were lapses in concentration

Brain fog

Mild brain fog

These symptoms started 1/25/21. Incredibly tired, slight cough not and then, body aches, nauseous feeling, loss of appetite, some dizziness, headaches, brain fog

Rapid heartbeat, short breath, fingers cold, brain fog, light headed

Have noticed a brain fog and increased anxiety and depression since the second dose

Tachycardia and brain fog; felt lightheaded

The sensation of brain fog Ive had since receiving second vaccine dose finally lifted about 10:00 AM today

Brain Fog

Weakness, brain fog, no appetite, very tired, no energy, cant concentrate. Something is off. I HATE feeling like this. Damn vaccine.

Brain fog

Brain fog

Constipation, brain fog, uncoordinated.

I signed up too late to report symptoms I had. They started 12 hours after the shot and lasted 24 hours. Fever 100-103, every bone hurt, chills, vomiting. When those ended, for the next 48 hours I had dizziness and brain fog and enlarged, tender lymph nodes in the armpit of the arm I received injection.

Brain Fog - Mild

Brain fog

Brain fog

Intermittent elevated heart rate (Since subsided). Shortness of breath (Since subsided). Chest tightness (Since subsided). Trouble focusing/ brain fog (Current)

Brain fog

Brain fog

Brain fog, intermittent cough

Had a kind of brain fog today

Brain fog

Yesterday and today Brain fog - hard to focus / concentrate

Brain Fog - Mild

Brain fog and elevated glucose levels

Ringling in ears; tachycardia/increase in POTS symptoms; brain fog

Brain fog

Mild brain fog and slight tongue numbness

Brain fog

Brain fog, strange taste in my throat

Brain fog, mental fatigue

Brain fog

Brain fogginess

Brain fog

Brain fog

Brain fog

i had covid on 12.25.2020. had mild symptoms. fever for 1 day and lost sense of taste and smell. general lower energy for a few days. sense of smell and taste returned a week later and regained all senses. general brain fog for 2 weeks that has went away.

Swollen glands, brain fog, dizziness, cant think, off balance, shaky, sweaty, no energy

When I first got it, had vomiting extreme fatigue and brain fog. As well as feverish

Brain fog, visual changes, difficulty remembering

Brain fogginess resolving

trouble focusing, brain fog, dizzy

A little trouble concentrating/kind of a brain fog.

loss of taste, runny nose, brain fog, loss of appetite

Brain fog, fatigue

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Brain Fog

Brain fog

Vertigo or brain fog

Hot flashes with sweating but NO fever, brain fog

Brain fog

Brain fog and pins and needles in the arm of injection site

Brain fog

Brain fog

Brain fog

Still a bit unsteady/off Balance, and brain fog

Brain fog

Brain fog

Skin sensitivity, brain fog, tachycardia up to 150

Brain fog for a few days

Day of and day after vac but not after 48 hrs had minor chills , low grade headache,tiredness and intermittent nausea , sharp sudden abd pain, and brain fog...all symptoms disappeared then returned hours later viciously

A little brain fog

I had swollen lymph nodes in injection arm for 4 days. Finally gone. Still struggling with brain fog

Brain fog

Dizziness, earache, blurry vision, brain fog

Cold like symptoms, brain fog

Brain fog

brain fog

Brain fog - have had it daily, same as when I had covid. Just didn't think to list it until now.

Brain fog. Not thinking clearly.

Brain fog

brain fog

Brain fog today. Yesterday, after reporting, all of my symptoms returned to severe

Brain fog

My vax was on 1/27- on 1/28 I had fatigue and intermittent flushing - also brain fog symptoms resolved on 1/29

Brain fog

Brain fog this morning but has since gone away

Brain fog

Brain fog

Brain fog, slight lightheadedness

Brain fog

Brain Fog

Irritability and brain fog

Dizziness brain foggy

1st and 2nd days I had headache, brain fog and general malaise.

Rash on face (cheeks), brain fog

Brain fog

Brain fog (l.e forgetting words)

Brain fog

Brain fog- attention issues.

Brain Fog

Mild brain fog, hard to focus

Had brain fog and mild headache day after vaccine. Also general malaise, mild. Very similar to first vaccine except for the general malaise this time.

Brain fog

brain fog

Brain Fog

Brain fog, teeth chattering, excessive sweating

brain fog

Brain fog decreased but dizziness developed later in the day yesterday.

Brain fog

brain fog

Stiff neck, and brain fog

Brain fog

Brain fog

Brain fog/a little dizzy feeling

Brain fog

A little brain foggy

Brain fog

Still a little what I call post migraine symptoms: sound sensitive, and little bit of brain fog, much much less than days 3-4

Brain fog

Brain fog

Lightheadedness, brain fog

Dizziness and brain fog

Dizziness, asthmatic cough exacerbation, brain fog, weakness

Brain Fog

Mild brain fog

Brain fog; diaphoresis

Brain fog

Brain fog

Dizziness, mental fog, brain fog

Cognitive deficits... specifically short term memory issues and a "brain fog

Brain fog, watery eyes

Brain fog

Pulse ox was 95-96 last night, currently 98-99. Significant brain fog, ex- had to go back to my ofc 2x when leaving bc I kept forgetting items I needed that were right in front of me. Didn't eat for 47 hrs -no appetite and nauseated

Brain fog, bruising at injection site

Brain fog, woozy

Brain fog

I had about 20 mins of brain fog about 2 hours after the shot and it was obvious. But it went away and did not recur as of 13 hours post vaccination. I also have extreme energy after the brain fog. No fatigue yet.

My joint pain went away and my brain fog cleared. Best i have been in months.

Brain fog

Brain fog

sweating, dizzy, brain fog

Chills,brain fog,body aches,exhausted

Brain fog or hazy feeling

Swelling tongue and inside lips, swollen lymph glands left neck and arm pit, brain fog, strange dreams, hair loss

Little brain fog in morning, gone by afternoon

Brain fog

Brain fog or out of it feeling

The night of the injection I had a fever of 101 for 6 hours before it broke, without medication. I did go to work but had to leave at noon due to extreme fatigue, muscle aches and brain fog. I went to bed when I got home and slept fine then was back to normal and able to go back to work Friday.

Brain fog

Brain fog, can't focus

Brain fog

Brain fog, dizziness

Brain Fog

Brain fog

After the 1st round I did not get my period. I got my period 2 days before the 2nd dose. I have been filling up diva cups and pads more than I ever have before. Intense cramping in lower abdominal. Brain fog and runny nose.

Yesterday (2/2/2021) experienced a brain fog, abnormal amount of forgetfulness and inattentiveness.

Chest pain, shortness of breath, brain fog

Brain fog

Brain fog, dizziness, loss of appetite

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Numbness in tongue, numbness in thumb, brain fog, heaviness in legs, joint stiffness

Brain fog, dizziness m, difficulty paying attention

Brain fog and slowness

Brain fog

Brain fog, palpitations

Brain fog

Brain fog.

Ive had severe brain fog since getting the shot yesterday and have felt dizzy periodically since yesterday along with my chest and lungs being tight and sore

Brain fog

Had brain fog for 3 days after vaccination and didnt realize it so didnt report it and cant figure out how to change the data now

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Dizziness- Brain fog. Dizziness came on 52 hours after vaccine. Came on while driving and had to pull over and wait for someone to come get me.

Brain fog

Brain fogginess

Brain fog, disoriented

Brain fog

Brain fog

Brain fog

Congestion, light-headed, brain fog

My husband and I both got vaccinated and forgot to mention previously that we had 2 days of brain fog and heightened emotions. Those two issues arent on the list but we figured you should know.

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog

Tremendous brain fog

brain fog and headache yesterday(day after injection)

Brain fog, tinnitus (but am a long hauler, this is not new)

Sleep disruption (last night); dizziness; brain fog

Brain fog

Last 3-4 days aching, insomnia, brain fog

Extreme brain fog

Brain fog

Brain fog and hands shaking

Brain fog

Brain fog for 2 hrs and then cleared up

Shaky, loss of appetite, brain fog

Dry mouth, brain fog

Have a bit of brain fog

Brain fog

Brain fog

Sob, brain fog, but long hauler and have those symptoms from covid before ever getting vaccine.

Brain fog

Brain fog

Brain fog

Fatigue is mental as well as physical (brain fog)

I did forget to mention that the next day after my shot, i was highly emotional... i felt like just crying & i had brain fog too... but thats all gone now.. it was just on the next day after my vaccination.. thanks

Brain fog

I did experience brain fog more days

Slightly dizzy and brain fog moderate

Brain fog

Brain fog

Brain fog

Persisting fatigue and brain fog; intermittent dizziness/lightheadedness

Brain fog

Brain fog

Brain fog

Brain fog

Brain fog and tinnitus

Brain Fog

Brain fog - past couple of days?

Brain fog, lightheadedness

Brain fog/dizziness

Brain fog, overwhelmed easily and confuse easily.

Brain fog

Brain fog

Mild to moderate "brain fog": will forget what I am saying or thinking mid-sentence and be physically unable to speak for 10-20 seconds

Brain fog

Slight brain fog

Brain fog

Brain fog!

Brain fog

Dizziness and brain fog

I forgot to mention brain fog yesterday which has resolved

Teeth sensitivity and pain, brain fog, swelling under armpit. Burning in chest area. Now sweating profusely under armpit of injection site.

Brain fog

Brain fog, buzzing , pounding in head at times

A little brain fog

Brain fog(slight)

Dizziness, brain fog

Brain fog

Brain fog

Feel better than after the first shot. Some brain fog and just kind of sick feeling.

Dizzy and brain fog.

Brain fog

Really jittery--some 'brain fog'

Severe Anxiety and Brain fog

Brain fog

Brain fog

A bit of brain fog

Yes. I received my 2nd shot on Feb 4th. Since Feb 4th, so on the 4th, 5th & 6th I had the following symptoms: severe headache, swollen lymph nodes, sinus pressure, nasal congestion, dizziness, heaviness in chest, nausea, severe body aches, extreme fatigue & brain fog. I missed one day of work. I have a timeline if you are interested.

Headache and brain fog yesterday only

Very Tiny bit achey. Brain fog. Needed to nap.

Major brain fog. Cannot think

Brain fog

Brain fog

Brain fog mild

Forgetfulness, brain fog

brain fog

Brain Fog

Friday, the 5th, I had forgetfulness and brain fog slightly. A couple of days I have had light headedness and fatigue for a few minutes at a time.

Just a little bit of brain fog.

A little bit of brain fog / lightheadedness

5 days after second vaccine felt flu like symptoms for about 24 hours and brain fog

Brain fog

Blurred vision, brain fog

Some itching of skin. I also have experienced a kind of brain fog for about three days. I didn't realize it, but it has been persistent.

Brain fog

Brain fog and slowness

Brain fog

Dizziness, brain fog

Brain fog and emotionality

Brain fog feeling

Brain fog/depression

Brain fog

Brain fog

Brain Fog, though 50% less than from 1st dose. Muscle & Joint Pain are 6-7 on Pain Scale while on my prescription medications: 4mg Tizanidine 3xDay, 20mg Adderall 2xDay, 50mg Diclofenac Potassium 2xDay, 10mg/325mg Hydrocodone/Acetaminophen 4-6hrs as needed, 1mg Lorazepam 3xDay for Agoraphobia w/Panic Disorder. Have Chronic pain from 2TBIs, 1st from Decompression Sickness Type 2 w/Severe Neurological Involvement (80% Hemiparesis Right Side Body, resolved with treatments) requiring 2x7.5hr Hyperbaric Treatments in (b)(6) MX & 4x2.5hr follow up treatments at (b)(6). 2nd TBI from MVA 4weeks after last Hyperbaric Treatment for Dive Accident, MVA caused mild coup-contrecoup. Left with lifelong symptoms from TBIs, & TBI caused Mild Neurocognitive Disorder.

A little brain fog

Brain fog, dizziness

Not sure if related. Brain Fog

Brain fog

Brain fog

Brain fog

Brain fog , irritability

Brain fog

Brain fog

Brain fog, lack of appetite

General brain fog and slowed reactions

Brain fog

I have no symptoms today. I had significant fatigue the day after my shot. I had an episode of night sweats the 3rd day after my shot. And, on the 4th day after my shot, I had a sense of brain fog upon awakening. This brain fog/dullness lasted approximately 5 hours and then resolved. I had 2 sores on my tongue 5 days after my shot; these sores are gradually resolving.

Brain fog

Brain fog

brain fog, vertigo

Brain fog, generally unwell

Just a bit of brain fog.

Bad headache, brain fog, fatigue about 18 hours after 2nd dose, lasting 12 hours

Brain fog

Brain fog

Brain fog as what they seem to be calling it.

Low energy. Slight brain fog all week.

Some brain fog

Brain fog, shooting pain

Brain fog

Brain fog

Brain fog, decreasing as day went on.

Brain fog, may be unrelated to the vaccine

dizziness, brain fog

brain fog

brain fog"--trouble concentrating

Brain fog.

Still a little bit of brain fog.

A little brain fog

Eye twitching and brain fog

Brain fog

Brain fog

Brain fog

Brain Fog

Brain fog

Brain fog

The 'brain fog' that I had W ->S seems to have lifted. I get a similar 'brain fog' after a normal flu shot for about the same time period. Last Sat simply had no energy and spent the day on the sofa watxhing.movies; so not me :)

Brain fog

Super stiff neck, feeling of absolute exhaustion and brain fog.

Brain fog, feeling out of it and generally off

Brain fog

Brain fog

Had brain fog immediately after shot same as first time tho I didnt realize it was related and would like to know why?

I hate to think its the vaccine but I have become increasingly more tired over the last few days. And I have the worst brain fog which is unusual. I dont want to think its the vaccine though.

Brain Fog

Brain fog. Seemed forgetful

Brain fog

Brain fog

The first week I felt dizzy, brain fog and mild balance issues.

Brain Fog

Brain fog

Brain fog

Brain fog, clumsy (dropping things) , getting my words jumbled up, saying different words than i intend to

Tachycardia, brain fog

Brain fog

Brain Fog

Slight "brain fog" earlier today. Now resolved.

Brain fog

sense of smell is more intense and brain fog, hard to do simple tasks

Brain fog, concentration problems

Brain fog

Extreme fatigue and brain fog. Cant recall things at work. Im worried

Brain Fog & Dizziness

Brain Fog

I have been brain foggy since Saturday or Sunday, cant concentrate.

Unbearable headache, chills, Nausea day after injection. Brain fog and headaches on and off for a week following second injection

Sinus pressure and brain fog

Brain fog

Still have moderate brain fog symptoms

APPENDIX E : V-SAFE FREE TEXT REPORTS : Keyword “apnea”

Fibromyalgia, OA, RA, Sleep Apnea, Sciatica, Degenerative Discs, I dont think the way I feel today has much to do with the vaccine

Runny nose (moderate), but this may be from my sleep apnea machine.

Fibromyalgia, OA, RA, Sleep Apnea, degenerative discs

Sleep apnea

Arthritis, sleep apnea , achelasia

I have sleep apnea and chronic headaches, so my symptoms are probably not from the vaccine.

I also have narcolepsy and sleepy apnea, i've been more sleepy

Multiple Sclerosis, Tachycardia, Sleep Apnea, Lymphedema, GERD

Occasional reflexive apnea, as if in a room with a smoker in it (when this is not the case)

No spleen. Have sleep apnea

I had the pain previously, but it exacerbated. My tiredness could be linked to my sleep apnea

Just very very tired. Feels like I can barely keep my eyes open. I have Narcolepsy and sleep apnea

Diabetes, Rheumatoid Arthritis, Asthma, Sleep Apnea

These symptoms are not new. I have arthritis, fibromyalgia, definitive disc disorder and sleep apnea.. The items listed are usually a constant the severity does change.

Diabetic, mitral prolapse, Sleep Apnea, Allergy All Sulfites Sulfates & Sulfur

Migraines daily, fatigue due to sleep apnea

Diabetes Sleep Apnea Arthritis Glaucoma

Diabetes, sleep apnea

Dealing with sleep apnea

Chronic migraine. Sleep apnea

Ive noticed my sleep apnea episodes have been increasing

History of chronic migraine Sleep apnea

APPENDIX F : V-SAFE FREE TEXT REPORTS : Keyword “breath”

It hurts to breath

General fogginess or dizziness. Strange feeling. Also easily short of breath

Breathing difficulty

Shortness breath

Coughing shortness of breath

Still having mild difficulty getting deep breaths .

my breathing was very rapid for about 3 mins

Shortness of breathe

Shortness of breath while wearing mask

Coughing, dizzy, shortness in breath

Night sleeping breathing difficulties but after 2 days cleared up! OKAY now!

I still have to take deep breath once in awhile

Difficulty catching my breath at times and pulse oximeter readings between 92-94 at times but later gets up to 97-99.

Back and chest hurt when I breath, like I have a lot of pressure

A little short of breath.

Shallow breathing

Shortness of breath-yesterday

Still have a little shortness of breath but better.

Mild shortness of breath

Shortness of breath, cough, itchy feeling in my chest,

Burning in chest while breathing

Throat felt tight & pressure in my sternum area creating shortness of breath

Mild shortness of breathing

Shortness of breath

Short of Breath

Shortness of breath.

I have copd and am still kind of short of breath.

Cough, asthma like chest constriction impacting breathing

Very slight breathing problems

Chest wall tenderness and occasional shortness of breath

Mild chest pain / difficult to breathe

Heavy chest feeling and slightly uncomfortable taking deep breaths

Shortness of Breathe

Short of breath

Shortness of breath, foggy head

Shortness of breath

Shortness of breath.

Shortness of breath

Cough/soar throat / shortness of breath at times

Short of breath

Shortness of breathe

Shortness of breath

Shortness of breath

Shortness of breath

Shortness of breath

Immediately following the vaccine I had a sensation of my throat swelling. I alerted dear physician and they asked me to stay for observation for about two hours. I have since come home and can tin you to feel a bit of a construction in my throat. But I have had no trouble breathing or swallowing

Shortness of breath

Rapid heart beat and mild shortness of breath

Breathing felt tight

Shortness of breath

Shortness of breath in the morning and cough throughout the day

On the 26th during the night i had chills trouble breathing and on the 27th by morning i felt fine and i went to work at 7am but less than 2 hours into my shift my symptoms returned i was having headaches and so i let my charge nurse know i was feeling bad they sent me home later in the day after i got home i started having chills again and i gradually became feverish my temp went up to 100.4 but by this morning 1-28 my temp went down to 97.8 and i now feel better

Shortness of breath and chest pain

Shortness of breath

Odd chest tightness. Did not impact breathing just slightly uncomfortable

Loss of appetite and shortness of breath.

Dizziness, some shortness of breath (most likely related to asthma)

Severe symptoms of breathing problems when I first woke up

Shortness of breath

Shortness of breath resolved with inhalers

Slight shortness of breath

Shortness of breath

Chest pain when breathing in

Difficulty breathing

Shortness of breath & wheezing

Shortness of breath

Short of breath

Difficulty breathing, fast heartrate, tingling sensation throughout body more prevalent in the legs

Shortness of breath and had tingly numb like pain in foot, leg, arm, and hand on left side same side I got my shot and my hand had some spells where it turned purplish in color when I was very numb and tingly never looked at my foot or Leg but my arm looked ok hand but hand and foot hurt and tingled the most I dont know why

Difficulty of breathing. Had to go to ER for severe allergic reaction

I have Covid-19. Got my positive test results last night. Also have had ear aches, congestion, shortness of breath, cough, sneezing

Draining in my throat causing the breathy dry cough

Shortness of breath mild

Short breathe

Brain fog, dizziness, asthma, shortness of breath

severe: shortness of breath/trouble breathing; Moderate: cough

Shortness of breath, insomnia

Gurgling when I breathe

Chest feels heavy hard to breathe

Shortness of breath, could be my allergies

2 hrs after yesterday check in felt weak faint and had a little trouble breathing with mask on/ came on suddenly while shopping - got worse

Hard to breath

Some difficulty breathing

Today I am better but yesterday I experienced shortness of breath. I am a type 1 diabetic and it scared me a little bit. As the day progressed it subsided.

a little short of breath but that could be due to daily stress

Short of breath

Shortness of breath with exertion,nasal stuffiness

Shortness of breath

Shortness of breath

I feel like I have been short of breath with pain in my back and chest and extra mucus. It is similar to when I am exposed to things Im allergic to.

Slight shortness if breath

Minor difficulty breathing at times.

Mild:shortness of breath, phlegm, stuffy nose

Chest pain, upper back pain, hard to breath

Mild Just a little out of breath at times but comes & goes only for today

Difficulty with deep breathing

Difficult to breath deeply

Have to catch my breath when going up stairs fast.

Somewhat short of breath.

Shortness of breath at times with activity

Shortness of breath

I had some shortness of breath last night in the evening. I was quite tired so that may have been why. I do have asthma.

Shortness of breath

Occasional shortness of breath

First day about 10 hours after shot felt super dizzy and slightly out of breath next morning slightly out of breath and super dizzy like I was going to fall down or faint hasnt reoccurred since.

Eyes burning. Some shortness of breath

Congestion breathing

Palpitations and shortness of breath

Palpitations and when taking deep breathes, I have a sharp pain near diaphragm that makes me cough

Heart palpitations, stabbing pain around heart upon deeper breath, muscle cramps

Felt congestion like when i have breathed in dust.

Shortness of breath, hoarseness

I had to go to the ER last night for chest tightness and pressure. It felt like I couldn't breathe. They gave me a breathing treatment, inhaler, and steroids

Chest and upper back pain. Shortness of breath

I'm not sure if my issue is related to my shot or not but the last few days my breathing has been off. I have made an appointment with my Primary.

Shortness of breath

Feeling jittery again and very anxious, so bad it affected my ability to drive . Also felt short of breath at times

Some low key shortness of breath

Slight difficulty breathing particularly at night

Shortness of Breath

Loose stool but not diarrhea; shortness of breath with some wheezing when exhaling

Shortness of breath

Short of breath climbing stairs

Shortness of breath

Slight cough breathing but have asthma needed rescue inhaler 1x

Enlarged axillary lymph node approximately 2.5x5 cm, chest pain, rib cage pain and difficulty breathing on day after shot. Muscle pain in mid back near spine lasted 3 days.

Shortness of breath. Coughing fits. Congestion

Chest pain, shortness of breath, foggy

Stuffy nose on 1 side at night. It's hard to breathe When wear mask

Shortness of breath, congestion

Cough, some shortness of breath

I was dizzy, and was out of breath really easily

Shortness of breath

Still some shortness of breath not as bad as earlier in the week.

Out of breathe

Brain fog, a bit out of breath.

Short period of shortness of breath, dry nose

Some shortness of breath like yesterday

Having a hard time breathing while wearing a mask and talking

On & off headaches, no appetite, dry throat, shortness of breath

Difficulty breathing (mild)

Short of breath

Pain in chest when breathing

Harsh Cough, shortness of breath, sore throat

Axillary lymphadenopathy. Near syncope, shortness of breath

Runny nose, shortness of breathe, cough

Dizziness, short of breath

Short of breath with activity

Out of breath with just a little exertion

Neck swollen/sore at lymph node .. mildly out of breath. Small odd cough.. not all the time. But on movement

Difficulty catching my breath.

Shivering, a little short of breath

Chest pain/shortness of breath

Shortness of breath

Heaviness on my chest, lung area. Feel like I'm not getting a full breath.

A little shortness of breath & dizziness. Moderate symptoms but just for a hour or so.

Pain in sinus membrane area. Short of breathe sometimes. Lung pain

Last night while driving home (8.5 hours after vaccine) I became dizzy, my chest got tight, I felt like I couldn't get a good breath in and my throat felt like it was starting to swell. It was very scary. This also happened 5 days after my first vaccine but I didn't report it because I didn't think they were related.

Mild shortness of breath

Breathing difficulties/Asthma Attacks

Chest pain, shortness of breath, metallic taste in mouth

Cough, shortness of breath at times

Fast heart rate shortness of breath

Shortness of breath (lasting 1-2sec)

I went to Urgent care due to short breath and lightheadedness. All the examination is normal, not sure the cause.

Short of breath, dizzy, heart racing

Shortness of breath

Breathlessness

Shortness of breath

Runny nose, shortness of breath

Pain when breathing/in chest

Shortness of breath, chest pain, heart burn that lasted for 12 hours

Shortness of breath, back pain, intermittent sharp pain in pelvic/abdominal area

Shortness of breath, feeling as though I were going to faint

Shortness of breath

Minor breathing issues

Short of breath

Shortness of breath

taste in mouth and throat immediately after shot and 15 minutes after like a scratchy throat. No wheezing no shortness of breath it went away.

Neck pain and difficulty breathing

Dry mouth, shortness of breath

I find it strange that since I received my first moderna dose I have not needed to take my asthma medication at all, I feel that I can breathe significantly better

Out of breath doing house chores

Labored Breathing

Very slight breathing difference (noticed breathing is slightly heavier)

Low temperature 91.6, Fast heart rate and shortness of breath

Dizziness Short of breath and tachycardia with walking up stairs , bending down , standing up from a squatting position. I tried to work today as I work remotely from home while typing an email I became dizzy, hands got pale felt like I was going to pass out had to stop working and lay down.

Shortness of breath, er visit

Congestion, shortness of breath

Shortness of breath improving, pulse ox improved to 92%, productive cough and sputum,

Shortness of breath with activity, tachycardia (90s-low 100)

Intermittent sensation of shortness of breath

Shortness of breath

Difficulty breathing earlier today

Hurts when i take a deep breath

Shortness of breath

difficulties taking a deep breath

Tightness in chest, labored breathing

Continued tightness in chest needing to take deep breaths

Short of breath, swelling of face, neck (trachea area), pain chest

Shortness of Breath

Shortness of breath/anxiety

Shortness of breath and rapid breathing and heart palipitations

Chest pain/shortness of breath

Difficulty taking a full breath

Had some trouble catching my breathe last night

Difficulty breathing

Chest pain and heavy breathing.

Increase in heart rate and a little short of breath

Heart pain, breathing seems labored.

Shaking, hyperventilating, hard time breathing

Shortness of breath

Shortness of breath

Shortness of breath, lightheadedness

Shortness of breath

Cough and shortness of breath.

Chest tightness, shortness of breath

Shortness of breath

Cough and shortness of breath

Shortness of breathe with exertion

Shortness of breath

Shortness of breath

Shortness of breath

shortness of breath

Difficulty in breathingin emergency room.

Pain in the bones. Heart pain. Difficulty to breath. All ok now.

Shortness of breath

Trouble breathing

Shortness of breath

Heavy breathing after mild exertion (ie walking my dog)

Breathlessness

Tightness in sternum on and off but no breathing issues and BP normal for me. This started yesterday afternoon and continues all day today.

Shortness of breath, palpitations

Chest pain more intense when I breathe, slight cough

Shortness of breath with exertion

High heart rate, mucousy feeling in chest, breathing feels weird (no shortness of breath tho)

Shortness of breath. Chest pressure

Coughing, sore throat, sore chest when coughing, shortness of breath

Short of breath

Difficulty breathing

Shortness of breath

Short of breath. Swollen throat

Short of breath

Hard to breathe every once in awhile. Had more issues last night.

Short of breathe, angina

Coughing And shortness of breathing

My health heart breathing chronic pain are all a daily occurrence for me but I will say none have been worse since I got the vaccine.

Difficulty breathing

Stil exhibit difficulty breathing. Continuing taking benadryl every 4hrs

Bad breath

Shortness of breath

Cough and shortness of breath last night which resolved

Mild short of breath

Heaviness in chest and tightness when I breathe in. A month ago I was given 2 shots back to back, so this passed Monday I was given my 2nd shot, but actually makes 3. I am concerned about this. My problems are affecting my job and daily life.

Shortness of breath, dizziness, light sensitivity, weird taste in my mouth

Sore throat, dry cough when take deep breathe and cough intermittently.

Sweating and chills. my clothes are wet from sweating. Rash from injection site spread to lower arm last night. Rash appeared on back and abdomen in shower. Brain fog, slightly tight to breathe. Elevated heart rate

Had shortness of breath and sweating an high blood pressure

Shortness of breath

Trouble breathing

Period of shortness of breath

Shortness of breath; dry cough

Backache, hot flashes, chest pain, shortness of breath with activity, mild cough

Sinuses cleared and drained easier to breathe - my extracted gum area was tender (strange) went away -

Yes. I received the vaccine at approximately 1:30 pm MST yesterday. At 10:30 pm I awakened to feelings in my thigh, like it was swelling inside. It never progressed to point of restricting breathing, but it was very scary and real. I could still feel it this morning but seems gone now.

Back pain. Shortness of breath. Swollen and painful lymph node.

Shortness of breath around 11 hours post. Took two puffs of asthma inhaler and symptoms resolved.

Sudden vomiting shortness of breath

Shortness of breath

Rapid heart rate, breathing heavily (such as after a run)

Lightheaded and needing to take a deep breath about every five minutes

Hard time breathing

Shortness of breath

Shortness of breathe, increased heart rate

A little heaviness in chest with deep breaths

Slept 7 hrs today. Dizzy ness,& shortness of breath & weak

Shortness of breath

A little short of breath

Shortness of breath

Difficulty breathing

I have asthma and I feel like my breathing has been not 100 percent

Pain when breathing deep

Short of breath, sore throat, raspy voice

Shortness of breath

Shortness of breath

Tremors, dizziness, unable to concentrate, heavy breathing, sweating, resting heart rate 106

Mild shortness of breath; better than yesterday.

Shortness of breath

hard to breathe

Asthma, occasional shortness of breath

Congestion, shortness of breath

Hard to breathe

High heart rate and some shortness of breath

Shortness of breath with activity, increased HR at rest and with activity

Mild shortness of breath

Still very minor shortness of breath

Short of breath, syncope

Short of breath

Slight tightness of chest, out of breath easier than usual

Moderate: Difficulty breathing

Short of breath

breathing

Heart arrhythmia, breathlessness

Shortness of breathe

Since first dose, I get winded much easier than usual. No difficulties breathing or anything like that. Just have no lung capacity when exercising.

Shortness of breath (could be allergies from recent rain...)

Pain with deep breath

Shortness of breath

Still having shortness of breath & cough..have mild to moderate emphysema.gh was diagnosed with mild to mod its been going on almost all day. I was diagnosed with enphazemia

shortness of breath during the nite required rescue inhaler & steroidal inhaler

Shortness of breathe

Short of breath. Airway issues. Using inhaler q 2

Some increase shortness of breath had to use rescue inhaler

Difficulty breathing/shortness of breath

Dry throat hard to breath

Shortness of breath

Shortness of breath

A little breathless

Shortness of breath and black out feeling

Moderate shortness of breath with minimal activity

Shortness of breath

Shortness of breathe

Itchiness all over my body. Trouble breathing when being very active.

Just a little Poke feeling in my heart walking up 3 steps into my house but sat diet right away did not get dizzy nor short of breath thus time

The day after the vaccine I would have reported my symptoms as severe: chest pain, mild shortness of breath, aches, fatigue and fever

Tightness of breath

Severe shortness of breath, hypertension, dizziness

On 1/27 shortless of breath & rapid heart beat

Shortness of breath. Getting covid test today

Last night I had shortness of breath and wheezing

I have been itching all over my body for the past three days, Ive also had shortness of breath during these three days with a slight cough.

A little shortness of breath

Shortness of breath

Shortness of Breath mild

Please note day 1 (1/25) had headache, Shortness of breath and Fatigue. Day 2 same as day 1 but NO shortness of Breath but heart pain and high BP, Day 3 only fatigue. Day 4 feel better.

Coughing, shortness breath

Had breath less ness after 4 days

Mild shortness of breath

Heart palpitations difficulty breathing

Shortness of breath

Heart beating fast chest tight out of breath

shortness of breath

Autoimmune responses, crazy high blood pressure, tremors, hot, cold, splotchy skin, purple toes, stop breathing while sleeping, have to cough to breathe in sleep, arrhythmia, crazy heart issues, shortness of breathe sometimes while heart going crazy. Had reaction right after 2nd dose, paramedics called. Has happened every morning since, lasts for hours. Longhauler symptoms. Never had covid. Immediate family member is a longhauler. My body responding to vaccine same as theirs did to COVID. Heart monitor is en route from doc. Brain fog. Weakness. Exhaustion. So many symptoms.....

I am asthmatic with a highly reactive airway. For two days post injection I had mild chest pain after a few breath. Has resolved but something to be aware of.

I forgot to report shortness of breath on the night of injection. Subsided within a couple hours.

Pain in back shoulders when I breath in

Score throat hard to breathe

Shortness of breath has gotten lessen

Chest pain, shortness of breath.

Out of breath light headed

Back pain, light headed, dizzy, shortness of breath

Short of breath

Spike in BP and shortness of breathe. Feel like Im vibrating at times.

Fullness on left side of throat, clavicle area without difficulty swallowing or breathing. Had it with my first shot too, but forgot until I experienced it again this time.

Upper back aches when breathing. Slight runny nose.

Chest pain difficulty breathing

I just recovered from bronchitis 2 weeks prior and the first day of vaccine I coughed a few hour had blood in mucus but two days after vaccine my lungs feel better then Ive ever felt I can take deep breath and no more wheezing I actually feel better. Just tired and a little bit of dizzy but thats it. Yes

Shortness of breathe

out of breath

Tachycardia and shortness of breath

Difficulty breathing, on a ventilator

Shortness of breath

Lightheaded (accompanied fever), mild asthma response/shortness of breath

Shortness of breath

Cough and mild shortness of breath, like when I had Covid

Shortness of breath

Shortness of breathe

Severe allergic reaction including difficulty breathing

About an hour after both shots I had a burst of energy and coughed up mucus. I have had asthma since I was sickened with similar behaving virus they couldnt identify back in 2014. Took me almost 6 years to rid all secondary issues aside from asthma. I still have that. But after the vaccine the first time I was able to breathe better than in years without needing inhaler .. lasted only 2 weeks. Again this time same thing happened, lungs cleared, breathing great. Its weird but I dont expect it to last.

Constipation/gas, shortness of breath

Lung congestion and trouble breathing. I have been on O2 assist since Wed at 9 pm. breathing. I have been using O2 to help since Wednesday jan

Short of breath

Shortness of breath

Itchy hands and feet, cough and wheezy breathing worse

shortness of breath during night but that has subsided. Onset of symptoms was last night and thru the night. Some improvement today. Taking Tylenol.

Tightness in chest when I try to take a deep breath. It forces me to cough.

Shortness of breath

Lower back pain like kidney area, and shortness of breath today.

Shortness of breath

Lung pain, hard to take a deep breath, face tingling

Shortness of breath

Shortness of breath

Still short of breath and wheezing

Shortness of breath, wheeze, cough, congestion

Still short of breath on exertion.

Around 5 hours post injection, had shortness of breath for 1 hour. Same experience after the 1st dose

Still slightly short of breath

Had shortness of breath for 2 days after

Hyper aware of heart and breathing. This might be anxiety though.

hard to breathe

Shortness of breath swelling on my left side. I had to end up going to the doctor. I cant breathe and my hands and face are swelled.

Breathing

Short of breath, numbness hands, swollen and sore in armpit and surrounding area.

Short of breath

Shortness of breath with activities.

Cough, shortness of breath

Since midnight I have had lots of Flem and trouble breathing.

Chest pain, shortness of breath

Shortness of breath

Throat and swallowing feel a bit strange but no difficulty breathing.

Rash on arm not at injection site. Also a little bit of increased heart rate and shortness of breath

Bruising at injection site and sore arm/shoulder. After injection tingling of lips and cheeks flushed but went away within 15 minutes. Slight feeling of chest pressure but no issues with breathing.

Only the first night after 30 min sleep then mucus drainage down wind pipe causing choking. Woke up with gurgling in chest with each breath cause excessive coughing until cleared. After that no further reactions. Am fine since then.

Shortness of breath x 2 hours

Short of breath

Tightness in chest, shortness of breath

Difficulty breathing and sinus pain

very weak, a bit short of breath, couldn't sleep last night due to vomiting and diarrhea, slight fever coming down now 98.9

Tongue swelling, jaw pain, difficulty breathing

Tightening of chest and more difficulty in breathing

Shortness of breath

Labor of breathing

Still short of breathe at times

Shortness of breath

It might be muscle skeletal related, but when I take a deep breath I feel pain in my rear right ribs and right lung.

sometimes not able to take a very deep breath, but I have do asthma which can flare up. I use an inhaler.

Chest area and shortness of breath when being active.

Heavy breathing

Shortness of breath; Cant take a full breath; pale

Had trouble breathing for a little while

Short of breath, chest pain

Shortness of breath last night and today

It felt hard to breathe in my left lung (only the day after ; it has went away since)

Nausea and like if congested trouble breathing

Hot flashes and shortness of breath

A little short of breath but may be allergins

Chest heaviness, slight shortness of breath

Tightness in chest for about 30 min following injection, but not serious. Was still able to breathe. This went away completely after about 30 minutes. Arm is sore, but not severe.

Hard to breath

Dizziness and shortness of breathe

Shortness of breath

Shortness of breath and lymph node sore under armpit

Running out of breath when Active

Little out of breath when working yesterday was worse

She has had he above symptoms along with shortness of breath and, respiratory difficulties prior to vaccine.

On Wednesday evening, 1/27/21, I began to feel flu-like symptoms beginning approx 5:15 PM PST. Symptoms included: body aches, skin sensitivity, fatigue, chest discomfort when breathing in deeply. Thought for sure I was coming down with the flu. Woke up Thursday and didnt experience any of those symptoms.

30 minutes after vaccine I had increased Hr, shortness of breath dizziness and throat tightening

Shortness of breath

Shortness of breath

Mild Labored breathing

Chest pain, shortness of breath, dizziness

Shortness of breath/cough

Short of breath and low blood pressure last night

Out of breath

Some trouble breathing

Pain with breathing

Shortness of breath, Lips and mouth tingling

Breathing & no sleep

Lump in my throat and some trouble breathing.

My breathing is harder, chest doesnt hurt. Just less limited

Trouble breathing

labored breathing

Shortness of breath for 40 mins

Shortness of breath.

Labored breathing

Tingling all over, short of breath at times

Occasional shortness of breath

Labored breathing

sudden bad breath for a short time immediately after vaccine and then metal taste off and on

Tightness of chest but may be residual as I have a doctor working on my shortness of breath.

Shortness of breath

Woke from a nap and had a hard time breathing for about 5 minutes. Felt like my throat was closed off.

Yes, I had shortness of breath in my first hour after the shot.

After getting vaccine, I experience a weird sensation in face area, no trouble breathing though. I left the facility where I got the injection after 30 minutes and was driving home. My face felt the same sensation while waiting, but I noticed the skin felt tight. I looked in rear view mirror. My face was swollen a bit in the cheeks, sides of nose, and around eyes, it was pink too...no trouble breathing. Thank goodness!

Transient shortness of breath. Less than a few minutes.

My Throat felt like it was closing..I had trouble talking. had to breathe thur my nose.

Breathing a little harder.

Shortness of breath

Shortness of breath

Decrease in heart rate (BPM) and night time some difficultly with deep breaths more shallow breathing

Feel slightly out of breath; dizzy and tingling in hands

Breathing

EXTREME shortness of breath and I fainted at work cant go to er since they cant help and are booked with seven hour wait times

Some difficulty breathing

Shortness of breath

Shortness of breath

Short of breath

Chest pressure difficulty breathing probably caused by anxiety about the vaccine

Shortness of breath

Swollen tongue, numbness in extremities, shortness of breath with any physical exertion.

Slight chest pain with deep breaths

cough and a little hard to breathe for about an hour

Shortness of breathe

Shortness of breath, palpitations

Shortness of breath

Shortness of breath

Shortness of breath. Still have some after 6-7 hours. Some accelerated heart beat

Breathing issues still present but energy still pretty good

Confusion shortness of breath

Difficulty breathing

Occasional shortness of breath, mild gas pains (could be related to something I ate)

Shortness of breath

Shortness of breath with exertion

Sometimes feels like I'm stifling when I breathe since Monday

Shortness of breath, blurred vision

Shortness of breath if walked for 15 steps with medium paced

Yesterday I failed to tell breathing issue

Shortness of breath

Slight chills and sick breath for a short period of time

Back and rib cage ache felt with deep breathing but not limiting my normal breathing

Having a hard time breathing, many asthma attacks

Dizziness and shortness of breath

Difficulty breathing/wheezing even when using flovent and albuterol

Shortness of Breath

Shortness of breath

Chest pain, sore throat, palpitations and shortness of breath

Shortness of breathe

Short of breath

Slight difficulty breathing, feels a little heavy in the lungs

Shortness of breath

Short of breath

Burning sensation while breathing

Shortness of breath

tachycardia and rapid breathing

Heavy, short breaths

Forgot to include yesterday - mild chest tightness and coughing when I take a deep breath

Short of breath

Lessened lung capacity to breathe deep

Breathing labored more than usual

Mild breathing issue. Could be asthma related

Shortness of breath

Shortness of breath

dizziness, shortness of breath, both mild

Shortness of breath, dry cough

Shortness of breath

Some pain 3-4 below my neck in the front when I breathe that is also sore if I press that area....

heart palpitations and shortness of breath

A bit short of breath

Severe shortness of breath and wheezing

Shortness of breath and heart palpitations

Shortness of breath/chest tightness

Shortness of breath

I have asthma and I am having to use my breather more than normal.

I have firm lumps on either side of my trachea. I do not have any trouble breathing, however.

Continued asthma symptoms, shortness of breath. Low voltage feeling , burning throughout body

Shortness of breath

Typical resting heart rate is 69, but 15-20 minutes after shot heart rates was 130 without exertion; arm of injection feels like rubber band around it; chest pain; tongue feels thick in mouth, but no trouble breathing

I have asthma. I have had some difficulty breathing. Yesterday and day after he shit on Wed. Were the days with most difficulty. Dont know if this is the reaction or not.

Occasional chest pain when breathing in

Shortness of breath

Yesterday evening I had mild symptoms for a couple of hours, fever, chills, fatigue general malaise and even a bit of breathing difficulty. All of this began about 8 hours after the shot.

Slight shortness of breath

One episode of shortness of breath last night that woke me up

I have severe asthma and there is a heaviness in my chest. I had to use my inhaler. Couldnt take a full breath.

Still cough, sputum, shortness of breath, pulse ox 92, neg pcr, chest discomfort

Slightly short of breath

Pre-existing / underlying condition - Dyspnea / shortness of breath - more severe

Some difficulty breathing

Shortness of breath

Difficult breathing but i am asthmatic

Light headed, short of breath

Shortness of breath

Shortness of breath

Lung tightness and shortness of breathe

Shortness of breath

Shortness of breath

Shortness of breath

It was hurting to breath yesterday afterwards and evening

Shortness of breath

Cough shortness of breath

Shortness of breath

Panick Attack, Shortness of Breath, Sweating, Sleepless

Shortness of breath

Foul breath

Shortness of breath is better

A little out of breath, palpitations. and slightly lightheaded occasionally.

Shortness of breath with exertion. Irritated throat

Heavy breathing

Shortness of breath

Shortness of breath, chest pain

Asthma, cough, shortness of breath

Shortness of breath

Shortness of breath

Shortness of breath

Choking. Air passage closed. Could not catch my breath

Mild shortness of breath , but fine after taking a deep breath. Happens a few times in a day, but getting better.

Chest pain, shortness of breath

Coughing/breathing issues

Chest tightness, palpitations, shortness of breath.

Dizziness, chest pain and shortness of breath

Short of breath

Shortness of breath

Cannot breathe through my nose and have lost all sense of smell.

Bloating, generally swelling, tightness in my chest and throat, difficult taking deep breathe, tingling on the bottoms of my feet and both palms of hands, ringing in the ears

I have a scent sensitivity. Symptoms range from fuzzy feeling on tongue to difficulty breathing. I did experience a mild reaction of fuzzy feeling tongue for approximately 45 minutes which resolved on its own before I had the opportunity to take a claritin

waves of slight breathlessness before getting up this am

Last night 1/29 at 11:00 PM EST I felt tightness on my throat, thickness feelings on my face (both sides) above my jaw and around my ears. I have blisters on the back of my throat, sores on my tongue and inner lower lip. I went to bed could barely breathe on my nose, both sides feels tingling and thick. I took Benadryl.

Shortness of breath

Lungs still fill like they are burnt and little hard to breathe.

Breathing is labored. Breathing heavier than I normally do

Slight shortness of breath

Chest tightness And shortness of breath

Easily short of breath

Shortness of breath

I feel like can't take a deep breath and my O2 sat is a little low

Fatigue, shortness of breath on mild exertion

Shortness of breath

Sudden shortness of breath

Short of breath

Shortness of breath oxygen good

Since day after second vaccine trouble with breathing through various masks cloth surgical etc new issue feel short of breath working harder to breathe

Hurts to take a deep breath.

Shortness of breath on exertion

Shortly after going to bed last night I couldn't take a deep breath. This lasted for a couple of minutes but then breathing returned to normal. Nothing since.

I was laying a floor in the attic and became tired and encountered shortness of breath. I had to cease the project and spent a over 90 minutes attempting to access vsafe.cdc.gov to register. All in all both experiences were not pleasant.

Very heavy chest, difficulty breathing - Positive covid test

Quick to get Short of breath when walking up hill

Cough, congestion, difficulty breathing

Difficulty breathing

Cough wheezing shortness of breath

Short of breath today and yesterday

Some shortness of breath.

Short of breath

Shortness of breath. Took Benadryl.

Chest heaviness - no breathing problem though.

I havent mentioned this but I have a strange feeling in my lungs. Almost a wheezing; hard to describe but my breathing seems a little heavy. Dont know if its anything.

rash on face & out of breath

Breathing

Right after I got the shot my whole arm felt like pins and needles were in it. I felt flushed, lightheaded and some trouble breathing. It went away in a few hours.

Short of Breath

Shortly after I received the injection I had rapid heartbeat, shortness of breath. The nurses monitored my vitals until they returned to normal. I am not sure if I should receive the second shot or not!

I didn't report it on my first text, because it didn't happen that day (the day after my first dose). However, about 30 mins after I received my first dose I had a moment where I felt like I couldn't breathe and I had been hit in the chest. My heart was fluttering and I felt like the wind had been knocked out of me. It passed after about 20 seconds. It was unnerving.

Chest heaviness and PVCs shortness of breath

Short bouts of shortness of breath. Actually began yesterday.

Slight chest heaviness with deep breath still

Shortness of breath

short of breath

Out of breath

Shortness of breath, numbness in upper lip

The 28&29th Jan, I felt fatigue and short of breath. Today, I am feeling better.

still have side effects from the allergic reaction with the tight chest and needing breathing treatments on my nebulizer. it is better.

Sharp pain in my ribs it takes my breath away

Breathing

Rush thru my body. Panic and breathing problem

Yes. I had a reaction. I have asthma. Abt 25 mins. after my vaccine, I got tight in my chest which lasted about 45-60 mins. then it went away. The next day about noon, I got tight in my chest and started having difficulty breathing. I knew the asthma was back. I went to my Dr. on Friday

Heart beating fast chest tight bad Abdominal pain. Trouble breathing i feel like i got covid 19 all over again but worse

First cardio workout after vaccine...harder to catch my breath

I was out of breath today from usual activity but I'm unsure if it's related to the vaccine

Breathing poor, in hospital

Breathlessness

Shortness of breath and dizziness

Dizziness, motion sickness, weakness and shakiness, a feeling of emptiness in my chest, feeling to tired to breathe.

Short of breath

A little short of breath and palpitations.

Memory clarity cloudy, difficulty breathing at night & runny nose, as well as stuffy at night

Shortness of breath--medium intensity

Chest tightness/short of breath

Shortness of breath

Shortness of breath and wheezing early this morning but I have asthma.

Asthma symptoms, short of breath last 2 days and have had to use inhalers, this is not usual for me. (Did not get your form to report yesterday).

Anxiety, bouts of shortness of breath

Dizziness/vertigo/chest pressure/chest pain/hard time breathing

Asthma attack upon rising this morning required breathing treatment x2

Slight shortness of breath earlier this morning

Mild shortness of breath for past 3 days

The day of the vaccine, I started feeling itchy, particularly on my back, back side of my arms by my armpits and on my neck. It not only itched but was uncomfortable. The breaking out looked red and like a bite or acne not a rash. Friday I began with pain in my lower tummy above the groin area. This radiated in my right side. Saturday morning. My doctor at Urology specialists told me to start on Monday Frobisher in case it was a UTI. I dont want to go to the hospital due to Covid. The pain has let up. I have not had fever. I need to get some blood work and see whats going on. Do my symptoms sound little ke it might be an allergic reaction to the vaccine. No breathing problems.

Cough, shortness of breath, asthma

Short of breath

Dizzy, slight shortness of breath

Shortness of breath

Labored Breathing, And Had a case of Hard Sweats serving in Church this Morning, And pain in Left Arm, from very little Exertion

Itchy eyes, face with slight tiny rash,NO trouble with breathing

Breathing a little off

Some shortness of breathe , took. Mucinex

Shortness of breathe

Short of breath, difficult to sleep.

Shortness of breath

Short of breath with mild exertion

Shortness of breath

Lots of confusion but the shortness of breath is slightly better

Shortness of breath, tachycardia, palpitations

Cough, labored breathing

Injection area warm to the touch, extreme fatigue and out of breath when completing daily tasks

Shortness of breath

Chest pain, hard to breathe like a lump in my throat and shalliw breaths, heating pad on xhest
fid help.

Night 2 I woke up at 3 am and was having bizarre pain. It was like pin point pain coming and got every 5 to 10 seconds . In my toes the jump to my arm then jump to my eye. It was just like a flash pin prick. Scared me. My breathing was fine. After an hour I thought to get an antihistamine if this is some sort of reaction. Took 50 of Benadryl. Last another hour then I fell to sleep. Woke up snd it was gone. Just so weird. Maybe nerve pain. I have no idea

Chest pain, shortness breath, swelling in face, need to take 2 Zyrtec and 2 Famotidine and have epi pen if needef

Shortness of breath

Increased heart rate, mild shortness of breath

Cough, allergies, shortness of breath

This whole time....out of breath n spms elevated heart rate. But not consistantly.

Increased heart rate, shortness of breath

I am always tired and have shortness of breath from past lung cancer (non-smoker) but nothing new from the vaccine. I get headaches from allergies also so headache may not be related to the vaccine

Shortness of breath from fatigue. Mild ear ache on the right side. Mild sore throat in the right side.

Cough, still short of breath

moderate tiredness late yesterday and into this morning. Felt a little breathy for a bit.

I have some metallic taste in my mouth, a decrease taste and for some reason I have a mild cough, tightness in my chest with some shortness of breath.

Minor feelings of asthmatic breathing (I have asthma)

Shortness of breath slight sore throat

A little short of breath

Shortness of breath

Chest and throat pain when taking deep breaths

Sore with deep breathes

Breathy, dry cough, moments of dizziness

Wind knocked out feeling, breathing with effort

Shortness of breath

shortness of breath, but that's normal

heart pounding in chest, rapid breathing, pulse oxygen normally 99 to 100 was 95 to 96 Saturday 1-30-2021 & 97 to 98 Sunday 1-31-2021

Snowstorm kept inside so no shortness of breath/no activity.

Shortness of breath going upstairs.

Pain in the middle of my upper back when breathing

Shortness of breath

Slight chest tightness... but Day of injection I had severe chills. The next day I had body aches weakness fatigue. Slight short of breath. Headaches severe.. by Friday morning 1/29, i felt much better.

Panic attacks, shortness of breath, chest tightness on and off
difficulty breathing

Shortness of breath/light headed

Moderate Shortness of breath.

today 01/31/2021 i feel much better. last three days I was bed ridden slept 24 hrs a day. high fever and hurting but feel much better today. I believe I had Pneumonia and it seems the vaccine helped fight it. my lungs are clearing up from mucus and i can finally breath. I live in (b)(6) Alaska (b)(6) so no doctors to see.

Lip and mouth sores mild increase in shortness of breath

Itchiness all over body, some shortness of breathe while working that did not happen before

Difficulty breathing and weakness

Tightness around Ribcage that makes deep breaths a little painful. Didn't realize I sigh a lot. Also burning eyes. Eye drops do not help, but closing them or cool compresses for 5-10 minutes does. Nothing serious just things that are not normal and not comfortable.

Shortness of breath

Difficulty breathing deeply

Mild Cough, mild difficulty to breath similar to congestion.

Pain in center of chest that takes my breath away

Overall completely muscle joint pain. Coughing where I tasted blood only the morning. Short breath.

Short of breath some times

Shortness of breath with minimal exertion

My back has sharp pain and my ribs hurt it knocks my breath away

Difficulty breathing; cough

Shortness of breath

Shortness of breath

Shortness of breath and elevated heartbeat when exercising. It felt like I had asthma.

Shortness of breath, fatigue. Mild joint pain

Shortness of breath, mild

Shortness of breath

I have experienced several side effects but Five days after my vaccine, I experienced not being able to breathe or swallow. It was totally alarming. I thought I might die and I live alone. I finally was able to swallow and breathe after approximately 15 seconds which seemed like longer. I got dressed to go to ER. I called a nurse line and she told me to go as my neck was tight around front and both sides.

Shortness of breath

Shortness of breath, cough, runny and stopped up nose

Some soreness and some pain with moderate or deep breathing in the same area....

Shortness of breath

Shortness of breath, dizziness

Seemed a little out of breath with exertion

Shortness of breath, shakiness, tingling extremities, cloudy head

Shortness of breath

Chest tightness/shortness of breath

Shortness of breath

Short of breath, increased heart rate

Short of breath

Shortness of breath

Shortness of breath

Feel like I cant get a deep breath

Sinus pressure, shortness of breath

Shortness of breath

Labored breathing but okay right now.

Anaphylaxis requiring 911 treatment. Hives and swelling of face lips tongue , difficulty breathing. slightly out of breath infrequently and significantly less than yesterday

Out of breath and chest pain.

shortness of breath

Shortness of breath

A bit short of breath

Short of breath

My throat swelled during the night. I spent at least 2 hours coughing to clear my throat of an unusual excess of mucus being produced in my throat. I have asthma so Ive had breathing issues before, pretty regularly bu this scared me. 12 hours later my throat and esophagus are raw.

Severe Short of breath

Shortness of breath

Cough, congestion, shortness of breath, wheezing

Shortness of breath

Shortness of breath

Shortness of breathe,rapid heart rate

Throat tightness, tingling in lips and mouth. I continue to take prednisone and antihistamines to help with shortness of breath and hives that started 30 min after the injection.

Shortness of breath, chest discomfort, dizziness

Shortness of breath in the might but nothing at all during the day today.

shortness of breath

Mild shortness of breath/ tight chest

Hot flashes, night sweats. Ive woken up multiple times since getting the vaccine where I woke up in a dead sweat panic because I couldnt breath from being so hot. Im not sure if its related to the vaccine or because my period is coming.

Short of breath after shower and when up moving around

Bouts of shivering all over, cough, short of breath. These were present thru the night and all but shivering have stopped.

Shortness of breath

Oxygen saturation normally 98-99 was 92-93 all day today. No trouble breathing.

Short ness of breath li

Still slightly short of breath

Rib discomfort and achiness. No breathing problems though.

A bit of shortness of breath at night

Tightness in chest area making breathing a little stressed.

Shortness of breath

Shortness of breath

A little shortness of breath off and on

Shortness of breath

Sinus tract infection, swelling to left face, stuffy nose with difficult to breathe.

Breathing and severe torso pain

Shortness of breath

Short of breath

Extremely poor Breathing/Asthma/lungs feel like they are on fire since yesterday. Sinus Drainage.

Sporadic shortness of breath. Mild symptom.

Some trouble breathing.

Shortness of breath

Difficulty breathing

slept a lot two days after, fever, hives, still get out of breath easily

Runny nose, occasional shortness of breath - I have had these symptoms since shortly after vaccine 1

Occasional shortness of breath lasting about 10-15 seconds

Mild chest heaviness short of breath

Mild intermittent breathiness and cough

Slight sharp pain when breathing

Heart Discomfort; Breathing Discomfort

Slight cough and shortness of breath Mild

Stuffy nose, shortness of breath when out on a walk

Shortness of breath with activity

Ongoing shortness of breath since after first dose

Shortness of breath

Shortness of breath

Shortness of breathe

The day after my injection I was taken to the ER. I became extremely lightheaded, out of breath, pale, nauseous, and fell, My heart rate was 132 before dropping to 106. At the ER, then my blood pressure dropped severely and didn't return to normal for some time. I was tested for everything, including an ecg, several blood workups, brain ct, and chest xray. The only abnormal test result was an elevated white blood cell count. They determined there was no other infection and it must be from a previous Covid infection and the vaccine.

Shortness of breath

Shortness of breath

Short breath

Short of breath

Trouble with breathing slightly

Shortness of breath - moderate, increased heart rate - mild

Shortness of breath

Dry cough, out of breath when moving

Breathing short of breath easily

Slight headache wearing mask from 8 to 5 I think is part of problem. I find breathing through my mouth often.

Slight shortness of breath, less appetite- mild symptoms

Difficult to swallow difficulty breathing

Migraines, difficulty breathing; intermittent sore throat & stuffy nose

Mild tachycardia, chest pain, shortness of breath

Struggling with breathing

Breathing is tight

Shortness of breath

Dizziness, vertigo, chest pressure/pain, catching breath

104. Temperature the day of and day after. Weakness and joint soreness day after shot. Huge headache for 2 days like a migraine. Some shortness of breath.

Shortness of breath

Palpitations, shortness of breath

Shortness of breathe

Erratic heartbeat and short of breath

Shortness of breath

Shortness of breath.

Left lung hurts when breathing in. Sharp pain.

Maybe a bit more shortness of breath.

Shortness of breath

Mild shortness of breath

Little breathing issue

I felt short of breath, but I'm not sure if that was from the shot.

Got a bad fibro flair within 3 days of the shot. Breathing was affected but doing better. Today is a bad pain day. Rough moving and working.

Bouts of can't catch my breath

Chest muscles felt tight and couldn't take a deep breath so I am now in ER at the (b)(6) hospital getting labs, an EKG chest x-ray

Burning with deep breath

While running noticed some shortness of breath usually a sign of inflammation

Short of Breath

Some breathing problems. Have mild asthma

Wheezing, shortness of breath

Shortness of breath

Difficulty breathing

Short of breath

periodic shortness of breath last nite

Saturday night to Sunday night significant joint pain all over...headache...breathless if moving...exhaustion...slept 28 out of 36 hours

Chest pain& shortness of breath

chest pain, difficulty of breathing

Last night I smelt a chemical smell in my kitchen several times. No one else could smell anything. This morning I was light headed and dizzy for a couple hours. I became short of breath, heart rate increase to around 110 bpm, and blood pressure was 148/68. The shortness of breath and fast heart rate only lasted about a minute or two.

Shortness of breath

Short of breath

Shortness of breath

Trouble breathing

Had chest tightness and shortness of breath the day after the second injection-went to the emergency room for treatment

Feeling out of breath (as if anxious)

My right leg has milder discomfort, still have some ringing in my head, feeling a little shaky, less shortness of breath but over all improving daily

Trouble breathing

Short of breath

Slight shortness of breath but nebulizer helped

Only happened a few times about 40 minutes after vaccine but a deep cough that sounds like a wheeze. Breathing is normal now.

Shortness of breath

Slight shortness of breath

Shortness of breath/throat

Anxiety and mild shortness of breath (feels related to anxiety)

I still have spots on the back of my throat, burning sensation on my esophagus, and having shortness of breath when walking around. I am on prednisone and Benadryl.

Short of breath

Dizzy and shortness of breath

A little shortness of breath.....but I had a heart attack and experience that with exertion in cold weather.

A little short of breath

Shortness of breath, loss of taste and smell, tested negative for covid

Breathing. Used a nebulizer

Lower back pain, shortness of breath

Left flank pain has spread to include left back. I guess this is muscle pain but it localized- only hurts when I move or breathe deeply.

Woke up in middle of night felt I had to take deep breaths felt anxiety

A bit short of breath in the morning but better later in the day.

Cant breathe in full volume

Felt hard to breathe at times - winded.

No staminashortness of breath when exerting even slightly

Shortness of breath

Shortness of breath

Could breathe normal but seemed like I still couldnt get enough oxygen. Woke up at 3:30 am next morning gasping for air and couldnt go back to sleep. Had to take several deep breaths every minute or so do for about 4 hours then subsided.

Short of breath

Throat swelling day of shot and shortness of breath day after. All now gone and resolved.

Breathless after doing mild tasks

Shortness of breath, hives, swelling of hands

Shortness of breath

Chest tightness. Trouble breathing. Same as other days.

Short of breath

Loss of smell, a little shortness of breath

Short of breath when doing light physical activity.

Short of breath

Out of breath after little physical exercise

Shortness of breath

A little difficulty taking in deep breaths

Shortness of breath

Shortness of breath

Shortness of breath, POTS symptoms

Elevated heart rate, near fainting, shortness of breath tightness in my chest and tightness in my throat

Shortness of breath

5 minutes after getting the vaccine I felt like I couldn't breathe I got nauseous and very dizzy EMT was with me for 45 minutes after the vaccine as my blood pressure was 204/111

A little chest pain like breathing is tight

Dizziness, shortness of breath

Cough shortness of breath

Short of breathe and no appetite

Work if breathing is harder with activity and madk since second vaccine . Cant put my finger on it something feels different

Feeling 50% better than i was yesterday. Did not have the itchy rashy flairup. My breathing issue was mostly better than yesterday.

Shortness of breath with exertion

Swollen glands, sinus infection, sneezing, ear infection, chest pain, stuffy nose, difficulty breathing, fatigue, extreme soreness at injection site, rash at injection site, body aches and soreness

Difficulty breathing, chest pain, vertigo

Shortness of breath, dizziness

Dizzy, short of breath

Shortness of breath

Trouble breathing

My arm is sore at the vaccination site. I feel feverish and tired. My energy is low. I am cold but not having chills. My mouth is very dry. I have been experiencing shallow breath since Sunday(two days after I received my injection).

Sore throat, chest pain, trouble breathing

Shortness of breath

The following day, Jan 28, I woke with a lot of tightness & pressure on my chest. Could breath OK. Temp of 99.6, fatigue, and mild joint pain. I pushed orange juice, water and took 2 Advil. Much better that afternoon. And OK the next day.

Feel out of breath but oxygen is normal

Mild cough with slight lung pain, shortness of breath

Short of breath, tightness when breathing in

Coughing, shortness of breath

Already 7 days with nose congestion can't breath qt nights cant sleep

Shortness of breath and wheezing

Short of breath and irregular heart beat at 3 AM

Shortness of breath

Nausea from SSRI, probably; slight trouble breathing, but I have asthma and theres a lot of pollen in air today

Dizziness,shortness of breathe

Shortness of breath

A little shortness of breath but it subsided

Shortness of breath

stuffy nose, hard of breathing

Shortness of breath

Shortness of breath, asthma symptoms

Some difficulty breathing

Short of breath occasionally.

Had hard time breathing for about 5 minutes and my oxygen levels were low

Heavyness in chest when breathing

Yesterday I was short of breath for half of the day.

Shortness of breath continuing, nasal congestion continuing.

Shortness of breath that is positional

Felt dizzy and short of breath several times today.

Shortness of breath

Shortness of breath palpitations

Shortness of breath

Cough, tight breath

Trouble breathing due to asthma

Breathing issues

Nothing today. 24 hrs after my shot I had the chills, shortness of breath & was sluggish.

@ 12 hrs I was really sick. Fever 101.8 extreme body aches, headache, trouble breathing severe

Im not sure if its the vaccine side effect but I havent been able to sleep since Saturday night. I didnt report this Sunday because I thought it may be my pregnancy but I dont think it is. I have trouble falling asleep. And if I do close my eyes I start feeling my heart rate rise, I feel like either my blood pressure drops suddenly or rises as well. Im not sure how to explain it but I start feeling anxiety. I have to sit up and take deep breaths. Then I lay back down. But I cant seem to be able to lay in bed for the whole night without having to sit up. Also when my my heart rate rises I feel like little pinches on the left side of my chest. Again, Im not sure what to do because its only at night when Im ready to sleep.

Cant breathe very well but, put on the oxygen and a few minutes my oxygen level is normal. Just cant walk from here to there without panting to get my breathe

Still have mild shortness of breath - 3rd day of this symptom

Shortness of breath

Pulse ox below 90, difficulty breathing, cough negative COVID pcr and rapid test x2, one more pcr pending, went to er on medical advise.

Shortness of breath

Difficulty breathing

Shortness of breath

Throat and nasal tightness. No trouble breathing but some feeling of difficulty swallowing. My entire face became numb and tingling within 30 minutes of shot. Its now been a little over 2 hours post injection and my nose and forehead still have some numbness. I feel like I was very close to anaphylaxis. If I had not premedicated with ibuprofen and Zyrtec this morning I feel certain this reaction would have been much worse. It was scary.

Hard to take a deep breathe

Slight breathing difficulty

Shortness of breath with activity and sweating profusely with minimal activity

Still experiencing a little blurred vision & labored Breathing... minor headaches , a little unsteady

Cotton mouth/metallic taste. Slight difficult breathing.

Shortness of breath

MildShortness of breath

Short breath

I am wheezing with slight shortness of breath

Shortness of breath

Shortness of breath

Mild shortness of breath

My breathing has changed. Somewhat relaxed feeling.

Chest pain and shallow breathing

Out of breath easily

Oxygen level dropped to 93% Shortness of breath

Cough. Congestion, shortness of breath

another episode of shortness of breath last nite necessitating rescue inhalant

Shortness of Breath

Shortness of breath mild

Just something strange. Last night nose and throat dried up and had little difficulty breathing. But today I'm fine. Don't know if related to shot.

Breathing issues

After the shot in the parking lot I felt like I couldn't breathe well and coughing my head off with I got very hot turned on AC to cool down. Neck tightness still bothers me.

Shortness of breath which I also felt after the first dose (this made me concerned so I got tested for Covid today as well but that was negative)

Shortness of breath

Intermittent elevated heart rate (Since subsided). Shortness of breath (Since subsided). Chest tightness (Since subsided). Trouble focusing/ brain fog (Current)

Breathing issues

Shortness of breath

Short of breath heart racing

I had a throat dryness when I first got the second shot. I could breathe and swallow but it was kind of dry and tight. Forgot to report that. It's gone now.

Short of breath, heart palpitations on the first day of shot

Hard to breathe

I've had a sharp pain in my chest about 80% of the time I breathe since yesterday. I have had this pain before but it normally lasts for just a few minutes. This is the first time it has persisted. It began last night and lasted until about noon today. Not enough to wake me once I fell asleep but I definitely felt it while awake.

Cold air sensation when breathing in.

Shortness of breath

dizziness and heart fluttering that almost took my breath away

Difficulty breathing

Chest pain/shortness of breath

Shortness of breath

Severe difficulty breathing. Extreme congestion.

The area around my sternum hurt for a while and was worse when I would breathe

Heavy breathing

HBP difficulty breathing

shivering, fast breathing

Short breath

Fast heart rate. Short of breath

Shortness of breath probably afib

Sinusitis and shortness of breath

Heart palpitations and difficulty breathing

Less diarrhea and breathing better however still not my normal

This morning for 5 hours my lungs hurt to breathe. I had shortness of breath. I kept yawning. It went away after 5 hours.

Sore throat, congestion, feels hard to breathe at times

Shortness of breath that causes cough

Trouble breathing

Asthma related shortness of breath

Light headed, slow breathing & throat tightening

Some, mild difficulties breathing/airway tightness (I have asthma and it felt like a mild asthma exacerbation).

weird breathing pattern

Dizzy, light headed, shortness of breath

Shortness of breath

Slight shortness of breath

My ribs hurt as if I have had labored breathing but I'm breathing fine!

Shortness of breath and palpitations

Breathing issues maybe allergies

I feel like I fatigue quicker when working out, which also includes a shortness of breath feeling.

Shortness of Breath and Lightheadedness

Light headed... labored breathing. Had to call 911

Coughing, shortness of breath

Slight shortness of breath

I did not report 24 hours after shot I was wheezing for about 1 hour. No difficulty breathing just wheezing. I do not have asthma

Palpitations, shortness of breath and tachycardia minimal exertion

Out of breath

Tingling in fingers of arm injected. Shortness of breath

Short of breath

Shortness of breath

Shortness of breath

I feel winded. Sometimes short of breath

Mild shortness of breath

Shortness of breath

Short of breath at times.

Post covid syndrome, breathing issues, heart pounding, sever exhaustion

Chest pain, shortness of breath, raised blood pressure

Having shortness of breath and some chest pains since receiving vaccines

Shortness of breath, cough, hypoxia sao2 88-92%, breathing fast

Shortness of breath

Shortness of breath/tight chest

Palpitations and a little short of breath but I think it was a anxiety attack because it passed fast

Day after severe shortness of breath and wheezing. Lasted about 15 min. Day two after vaccine, extreme pain in right ear, neck and upper chest. Day 3 better, nut muscle pain in neck and upper chest so bad I could not bend over. Yesterday, day 4, I went to PC dr. He said he thought the muscle soreness was from vaccine, but we are following up with chest xray and cardiologist.

Shortness of breath, chest pains

Short of breath

Pain in my lungs (constant - not when breathing in or out - for 5 minutes

Extreme low back pain and leg pain. Leg weakness hard to walk and shortness of breath. Frequent urinating and severe dizziness and blurred vision

After both the first and second doses, there have been sporadic times of not being able to take a full breath. Not in an alarming way, but just the lack of being able to take that very full breath.

Labored breathing

A little tightness in upper most chest--may not be related. No shortness of breathe or fast pulse.

A little hard time breathing these past few days. Dry throat.

Cough, shortness of breath, lung/chest pain

Shortness of breath

A little trouble breathing

Shortness of breath occasionally

Shortness of breath but still a good color

Mild focused pain in upper chest. Breathing is fine.

Short of breath

Shortness of breath, mild

Shortness of breath

I need to report that the day of my first vaccination I had a reaction about 30 minutes after the shot. I became hot throughout my body and became short of breath this lasted about 15 seconds and then I had no symptoms from then on

Short of breath/lung pain

a bit difficult to take a normal breath

Chest tightness, sore throat, trouble breathing

Shortness of breath

I have experienced shortness of breath for the past few days.

Slight chest pain when breathing

Shortness of breath

Difficulty breathing

Started menstrual cycle two weeks early, the day I got the vaccine, tachycardia, indigestion, shortness of breath

For 1/29/21 (10:00 P.M. E.S.T) Meant to include that I had a slight reaction: (Mild) Difficulty breathing. But went away 1/30/21 (6:00 A.M. E.S.T)

Tightness when breathing in

Cough. Shortness of breath with no explanation

Shortness of breath

Breathless

A little short of breath

Earlier today I had that tightness when breathing. I have asthma

shortness of breath

Breathless when exercising

Shortness of breath

Tested positive for Covid 19, congestion and shortness of breath

1/30- vomiting x2; 1/31-Shortness of breath; 2/1-mild headache

Hard to breathe deeply

Difficult breathing at 5 A.M. while sleeping. Had to use my nebulizer, since i have Asthma & Bronchiectasis.

My arm cant move excel for a couple of small moves. I cant life it up, & only feels less pain at my side with arm bent to my body. Its so much pain my breathing is hard @times. Im doing my best to avoid panic attacks. I feel like Im sick, tired & want to lay down. ttacks.

Shortness of breath

Mild Shortness of breath, dry cough

Stuggling to breathe

SHortness of breath but could be due to other factors

Shortness of breath, after doing stuff like going up the steps. Sweaty on and off today, mild.

Shortness of breath

A little trouble taking a deep breath while on a treadmill yesterday. Similar feeling I had in the spring after believing I had COVID in January.

Sore throat, swollen glands, difficulty breathing, stiff neck

Short of breath

Shortness of breath, chest tightness

Shortness of Breath

2/1 shortness of breath, significant. Lightheadedness followed by chills

Cramping/spasming Pain in chest below sternum when taking deep breaths or moving

Elevated heart rate and short of breath

My axillary lymph node is extremely swollen causing pain at my left lung and heart. Taking deep breath is painful.

Nostrils burning sensation when I breathe

It made me sleepy sleep most of day of the shot a little short of breath but it was not bad to cause alarm

Shortness of breath

Shortness of breath - chest tightness

Shortness of breath, tachycardia

Shortness of breath

Breathing difficulties

Enviromental toxins in home, caughing cant catch breath been going on for lots of months

Loss of breath

A little hard to breathe

Shortness of breath-more than normal

mild shortness of breath

Slight difficulty breathing

Shortness of breath

Difficulty breathing

Shortness of breath

Trouble breathing

Brain fog, shortness of breath

Cough, congestion, sore eyes, shortness of breath

Still having some mild shortness of breath- 4th day

Shortness of breath

None as of 3 hrs. after 2nd vaccine. First vaccine was not good. High fever, chills, fatigue, and labored breathing.

Slight trouble breathing

Short of breathe

Chest feels heavy and slight shortness of breath. Extreme fatigue.

Pulse ox 90 -92 without oxygen, using oxygen 12 hours per day, chest pain and cough, shortness of breath

Still have shortness of breath

Shortness of breath in the morning

Today I was having a bit of a tight feeling in my chest. I dont normally have that sort of feeling. My oxygen sats were fine as was my BP. Hopefully this feeling will pass. For a while it seemed hard to take a deep breath.

Heavy breathing

Chest heaviness, short of breath

Shortness of breath

Mild shortness of breath

Chest pain, pain when breathing

Shortness of breath

Difficulty breathing this morning

Immediately after injection I felt funny- proceeded to get hot and face flushed and throat felt funny - had no difficulty breathing or swallowing. Was monitored for 30+ minutes then left. Wondering if I should get second shot

I feel like I cant catch my breath when walking.

Shortness of breath

Really bad upper back pain and trouble breathing

Yesterday, I experienced a fast heart rate, with shortness of breath for several hours. Symptoms occurred approximately 3 hours after my 2nd shot

Shortness of breath

Shortness of breath

Tingling sensation in face and hands, dizziness, hard time catching breath

Actually Today.. Ive begun to gradually feel a tad Less Messed Up, then the 3 days Prior, about Sunday, I wasnt sure if I was Living or Dying.. I served at Church, Putting Connect Cards in the Auditorium, Nothing Strenuously taxing.. and I broke into a Surface Skin Sweat.. That Not only had me Overheated, but I was doing All I could to Breathe, and Burning Up.. So I stripped off My outside Shirt , and sat Down to cool Off and Allow my Breath to level off, Cuz I had to Drive me and my grandson ,On the Freeway home.. in (b)(6) ! I ended Up lying down the Rest of the Day.. and After 2 Ibuprofen and a Rescue inhaler, as my Blood pressure came back down.. I was able to sleep.

Uncomfortable with deep breaths

Severe sharp right upper back pain with deep breaths, coughing or sneezing

Shortness of breath and cough

Shortness of breath. It's ok

Shortness of breath, chest feels heavy.

Last night the stuffy nose problem started to where i could hardly breath and was having to take deep open mouth breaths off and on. I decided to start taking claritin again. Yesterday was my 1st pill in a couple months. Last night i also took Fluticasone Propionate nasal spray. This helped open my sinuses and worked great most of the day. I will do the same tonight.

Mild pain when deep breaths

The very first evening after I got the shot my nostrils plugged up completely like I was coming down with a heavy cold. I was also cold. Eventually before going to bed I took a Mucinex . I was better the next morning could breathe through my nose again. Never did get a cold as days progressed. Other than the symptoms I have previously reported, nothing not on your list. Could not figure out why my nostrils plugged up just like I was getting a heavy cold the first night and never developed into a cold. Reaction to shot?

shortness of breath and rapid heartbeat

Shortness of Breath

Difficult breathing

Shortness of breath while using stairs and activities that are exercise related.

Previous days had chills,aches, chest tightness, out of breath easily and fluid retention

chest pain, trouble breathing

Lung congestion and shortness of breath

Shortness of breath

Shortness of breath , loss of appetite ,kidney pain

Mild Shortness of Breath

Shortness of breath

Hard time breathing

I have a little shortness of breath in the morning since I got the shot I usually by 1 PM thats gone. I dont know if it is just worrying that I might have a reaction or if it is from the actual shot.

Palpitations & Shortness of breath

Shortness of breath on exertion with High heart rate for me 115. With rest came down after 15.

Dizziness, tight painful chest when i breathe

Elevated blood pressure and shortness of breath

Shortness of breathe

Esophagus feels dry and tightens up now and then. I drink more water and take deep breaths and take Tylenol. This started happening 4 days ago.

Shortness of breath

Extreme back itching, shortness of breath

Chest heaviness and shortness of breath

Hard to catch my breath, get out of breath faster

Difficulty breathing

Shortness of breath

Breathing much better

Shortness of breath

Shortness of breath

Shortness of breath

Shortness of breath palpitations off an on

Shakey and some shortness of breath

Wheezing and shortness of breath

Better than yesterday overall, but breathing is worse. At 6:30pm I had to go to my room to hook up to my cpap. Almost felt like it lung wasn't working well and pain in rt side middle back. Now I'm on cpap and breathing is easier.

Pain right side of chest. Breathing- not good-from asthma?

Shortness of breath

Breathing issues

Shortness of breath. Less than yesterday.

Mild shortness of breath and burning in my chest

Shortness of breath

Runny nose, chest heavy with deep breaths

Shortness of breath and cough

Cough shortness of breath and dizziness

Tightness in my chest with my breathing. I gave asthma. It's that type of heavy ness with breathing. I didn't feel this way at all yesterday. I'm not wheezing and not coughing at all.

Throat tightening and difficulty catching my breath

Chest heaviness. Feeling the need to take deep breaths

Short of breath

Very mild. A very slight shortness of breath.

I've had some shortness of breath ever since getting the second vaccine and saw my PCP today.

Feel like I can't take a deep breath

Swollen lymph glands in throat and feeling like there's a stone in my throat. Can breathe and swallow with no problem. I've had this on and off since the first shot. It lasts between 12-24 hrs, then gone.

A little More short of breath going up stairs

Shortness of breath - I have had more episodes of shortness of breath since vaccination - I do have asthma

Short of breath

Left ear - hear a faint repetitive sound, almost like short breaths. Weird to hear this, only when I lie down

Shortness of breath

Shortness of breath

Short of breath when sitting around or just walking

Trouble breathing, low oxygen, increased heart rate, feeling faint (was in ER last night)

shortness of breath

Shallow breathing, hard to take deep breathe in

Slight shortness of breath for about an hour after but then fine

Mild shortness of breath

Slight difficulty breathing

Pressure feeling like I had cold. Sinus, ear pressure, but not issues breathing or hearing.

Shortness of breath more so than I have

Shortness of breath

Shortness of breath

Minor itching a little shortness of breath

Chest tightness into the evening of my vaccine. It was hard to catch my breath.

Lightheaded, dizzy, full body weakness, feeling like I'm going to pass out. Chest heaviness and having a hard time breathing because of my body aches.

Felt like anxiety/panic attack for about an hour or two. Felt like heart was pounding/racing but resting heart rate was 90bpm felt like high blood pressure but did not take it. A little lightheaded. Felt difficult to take a deep breath like someone sitting on my chest

Dry cough, shortness of breath

Still a weird sensation when breathing, like breathing in very cold air.

Breathing/cough

Left flank pain radiating under left ribs. Short of breath when going up stairs

Shortness of breath and confusion

Heavy chest, shortness of breath

Chest pain, shortness of breath, brain fog

shortness of breath, dizziness

Shortness of breath, chest tightness

Pain when taking deep breaths/trouble breathing deeply

An update. Yesterday I woke up with my ears ringing. One ear felt plugged and I was very light headed. I could hear, but only out of one ear. When I exercised and did my breath work I felt better but sitting was weird. So today Im back to

Chest pain and shortness of breath

Shortness of breath, back itching

Short of breath.

Shortness of breath but SPO2 levels have been stable

It hurts to breathe. I keep sending you reports but you ignore them

Shortness of breath

Mild shortness of breath while running today

Increased heart rate 90-110(bpm) and shortness of breath

Chest heaviness and shortness of breathe

Dizzy, 121/92, difficulty breathing.

I have bee sort of breathe since I got the shot. I have COPD.

Short of breath when doing chores

Shortness of breath

Tightness in the chest when breathing.

Shortness of breath

Slight Pain in lungs when taking deep breath in

Stiff neck, rapid breathing

Shortness of breath

Shortness of breath, pert persistent, tight chest

Short of breath when climbing stairs

Shortness of breath

Having a difficult time taking a deep, cleansing breath. I might be anxious about something.

Shortness of breath

Throat swelling, shortness of breath, trouble breathing.

My breathing is short and chest pain on my upper right chest

Shortness of breath

Mild pain in lungs with deep breaths

feels like I have allergies; stuffed up (though can breathe). Bit tired

Shortness of breath

Weird in my chest almost like short of breathe

Very tired. Shortness of breath. Have slept most of the day.

Shortness of breath while exercising

During the first two days I had pain in my right back/shoulder. It also hurt to breathe deeply. It was going in two days. I didnt report it before as I have no way of knowing if it was related to the vaccine.

Little hard to breath and bad acid reflux

Shortness of breath

shortness of breath

Breathing much better today.

Shortness of breath

Hard to breathe deep

Hard to catch my breath periodically

shortness of breath, cough

Other: runny nose, mild Short of breath

Shortness of breath, slight chest pressure/pain (better than yesterday), raised blood pressure (20 bpm)

At the time of the injection , I had breathing issues. I had to use my inhaler and waited an hour before I felt good enough to leave.

Shortness of breath

Sinusitis, intense face and bridge of nose pressure and pain. Cant breath through nose.

Shortness of breath

Mild shortness of breath for half a day during physical exertion

Shortness of breath when outside for a walk

Shortness of breath

Shortness of breath

I have developed viral myocarditis with sudden cardiac death and an ICD implant. The myocarditis is suspected as result of COVID in March 2020. Following my first vaccine I developed many of the same symptoms I had with COVID. I had discussed with my physician. Suspected I was a long hauler. After the initial vaccine the fatigue and shortness of breath worsened. I was unable to walk a flight of stairs. On January 12 I had to call 911 for syncope and chest pain. I coded 3 times was on the vent twice. I feel that recognizing long term cardiac conditions are poorly studied and followed. I continued with uncontrolled hypertension. I had a long term history of vertigo which had become almost intolerable since COVID and after the initial vaccine. It is suspected my vertigo was related to self limiting ventricular tachycardia. The result of viral myocarditis.

Having a little difficult breathing and sometimes rapid heart beating

I developed a mild cough this morning and my throat/chest hurts to take a deep breath

Rapid heart rate, breathing issues

Breathing issues

Shortness of breath

Slight shortness of breath

I felt chest pain I wasn't able to breathe normal it started about probably 25hrs after the 2nd vaccine. I was feeling headache my eyes were kind of burning thing along with headache. All these were after 2nd vaccine. Headache started after getting vaccine after an hour or so

A little shortness of breath but could just be my asthma

Shortness of breath! Not sure if it's the shot. Had it for a while. Tested negative 3 times for Covid!

Elevated heart rate, shortness of breath, dizziness

Numbness of mouth and tongue. Slight labored breathing. Dizziness. All happened 15-45 min after shot

Little breathing issue.

Problems breathing, oxygen level of 92 several times

Stuffy nose. Shortness of breath

Some shortness of breath

Running nose, itchy eyes, shortness of breath.

I realized that I am having a bit of shortness of breath when I am walking, which is different from my usual functioning. No chest discomfort or dyspraxia, just a tiny bit harder to get a full deep breath with activity.

Shortness of breathe

Stuffy nose, sore throat shortness of breath

Stress breathing, sore throat, no appetite, trouble swallowing

Hard time getting my breathe when walking

Sore throat, shortness of breath

Some breathing issues. Simulator chest tightness like asthma

Shortness of breath

Shortness of breath

Heavy chest shortness of shortness of breath

Shortness of breath

On 2/1 am had significant shortness of breath and dizziness that lasted approx 2 hrs then sporadically for a few more hrs. Nothing today.

Slight shortness of breath

Shortness of breath

Sometime I cant breath

Shortness of breath

Raspy voice, shortness of breath with activity

Mild breathing problems

Felt hot and couldn't get a breath in.

Nasal congestion. Asthma lungs. Cough. Short of breath. Fatigue

Im short of breath today but I think its because of construction work/dust And I have COPD

Little harder to breath

Shortness of breath

Shortness of breath

Some Shortness of breath

Some shortness of breath and fatigue.

tight chest affecting breathing but no congestion or cough

Shortness of breath 6 hrs after I got vaccine. It only lasted 12 hours.

Weird ache when breathing (I have asthma)

Short of breath 2 times and blurred vision once

A little short of breath today

Short of breath

Having difficulty breathing. But I also have COPD but this seems different.

Shortness of breath

Shortness of Breath

Shortness of breath intermittent. Tightness in chest

Shortness of breath, briefly

Mild shortness of breath

Can't breathe

Chest pain. Breathing is harder.

Difficulty breathing & migraine

Rapid heart beat on the next day after vaccine when I went on a fitness walk. Symptom got better than when cleaning bending, etc it returned. Only lasted maybe a few seconds and then went away. My shortness of breath happened twice from 7:00 am to 5:15 pm PST.

Breathing pipe still tender

Runny nose, neck lymph nodes swelling, shortness of breath, sinus drainage

Coughing, dizziness, and shortness of breath.

Shortness of breath

Shortness of breath.

Short of breath

Some shortness of breath

Chest pain and shortness of breath

Shortness of breath (but Im also a Covid long hauler)

Mild shortness of breath

Bean sized lymph node in my neck by my collar bone in the side of the injection A little hard to breathe

Tachycardia and shortness of breath

Shortness of breathe

Cough, shortness of breath, congestion

Stuffiness & shortness of breath

Shortness of breath for few hours

Cough, some difficulty breathing (comes and goes)

Breathing uncomfortable

Mild- Noticed some shortness of breath for last several days but it is likely unrelated to vaccine

Shortness of breath

Shortness of breath upon exertion

Slight shortness of breath

Getting a head cold , some shortness of breath. Started diuretic and Mucinex

Shortness of breath mild

Slight shortness of breath

Breathing sometimes a bit difficult.

Shortness of breath/tight chest could be unrelated??

Shortness of breathe

Shortness of breath

Breathlessness

Just feel weak and harder time breathing than usual

Short of breath

Shortness of breathe mild cough and runny nose

Shortness of breath

Shortness of breath and chest discomfort with deep breaths

Previous day. Exercise Fatigue. Some shortness of breath while playing tennis.

Little shortness of breath

Some shortness of breath/palpitations

Breathing free issues

3 episodes of uncontrollable shaking and difficulty breathing. Lasts about 20 minutes. I have taken a Xanax with the last two episodes which appears to help.

Shortness of breath

Shortness of breath

Stuffy breathing, stopped up nostrils. Chest feels heavy.

Short of breath, cough, hoarse

Slight shortness of breath, but I have been wearing two masks.

Slightly short of breath

Shakey, breathing more difficult, stomach queasy. I have Parkinsons

Tightness to breathe

Heaviness in my chest but no problems breathing

Breathing is hard yesterday and today. Like its heavy. Nothing else; no fever, no body aches, just pressure.

Feel of shortness of breath for an hour or so.

still shortness of breath

Shortness of breath & dizziness r occurring less

Swelling between armpit and breast. Hurts to take a deep breath, shortness of breath

Shortness of breath and chest tightness

Shortness of breath

Shortness of breathe with any activity

Extreme bloating/shortness of breath - I think I need to try to walk more.

Felt like I was out of breath and slight chest pain

Felt shortness of breath

Shortness of breath

Abnormal taste like horrible bad breath with a metallic taste unaffected by brushing teeth

Coughing/labored breathing

Short of breath

Light headed minor shortness of breath

Still slightly short of breath but better than yesterday.

Mild labored breath.

Short of breath

Shortness of breath-I have asthma

Shortness of breath

Shortness of breath

Shortness of breath

Pain in chest when taking deep breath

I'd get out of breath at times since 3rd/4th day of vaccination

Short breath, cough, and tingle in airways

Shortness of breath when going great distance.

Trouble breathing

Slight shortness of breath

Shortness of breath-asthma like

Chest hurts and hard to breathe.

Difficulty breathing. Donated blood yesterday

I had an allergic reaction 8 min after getting the vaccine. I am allergic to bees and I had the same allergic reaction I have to bee stings. Felt dizzy, rapid breathing and rapid heart rate. Took three Benadryl capsules that alleviated my allergic reaction.

Shortness of breath, runny nose, cough

About twenty or thirty minutes after getting my vaccine (after the 15 minute observation period), I felt some unusual sensations around my tongue, throat, head, and face. My tongue and throat especially felt odd, as if they were slightly swollen and tingly. This triggered some anxiety and panic in me, although I could still easily breathe. During this time, I also felt very lightheaded and dizzy. After a while (one to two hours?), the sensations subsided, along with the anxiety they had provoked.

Shortness of breath

Shortness of breath

Shortness of breath

Very Mild shortness of breath

Abnormal breathing. Pain in lower back left side

Shortness of breath. Asthma is exacerbated.

I did feel like I was a little short of breath when I walked but still felt fine

Violent shaking chills and rapid breathing.

Mild chest pain which I can feel more when taking deep breaths

Shortness of breath

Allergic reaction. Chest tightness, difficulty breathing, dizziness, nausea

I had some trouble catching my breathe today while doing sedentary tasks like laying or sitting down. Since its not listed above though Im not sure if its related to the shot.

Short of breath

Shortness of breath

Short of breath, dizzy, excessive yawning

Sore chest, hard to breathe with pain in my chest and lung muscles

Shortness of breath, chest tightness

Dizziness, loss of appetite, shortness of breath.

Mild Shortness of breath

Chest heaviness and burning. Shortness of breath

Short of breath

Shortness of breath

Shortness of breath, dry cough, dizziness

Mild Short of breath maybe second to asthma history

Very weak Light headedness, rapid breathing, near fainting difficult to walk, unable to speak much above a whisper, not able to use hands properly-could not hold a glass, needed mouth open to get enough air to breath, fingertips pulsating then some fingernail beds purple, chills, shaking uncontrollably until Tylenol started working.

Shortness of breath

Shortness of breath-mild

Shortness of breath

Shortness of breath

Shortness of breath

About 1 hr after injection felt pressure in throat neck bone area. Could eat drink breath but hurt mildly to talk. Last from around 12 noon to 6 pm. Never felt anything like that pressure.

Some shortness of breath while walking

Shortness of breath

Mild, Yesterday during the day after the injection I was more SOB than usual for most of the day, chest pain slight about an hour or so after injection, I do have pulmonary hypertension, but am not usually short of breath. I would consider this all mild. Am fine today.

Slightly out of breath

Chest pain- stabbing pain hard to take deep breath

Mild short breathless

very mild shortness of breath and throat thickening 15 minutes after injection of second dose only

Shortness of breath

Short of breath, dizziness

Slight shortness of breath

After waiting the 20 min I left the pharmacy, on my way back to work I developed a funny taste in my mouth and my upper lip started to tingle. Once back at work I mentioned it to my Co worker pulled my mask up and she noted my lip was swollen. No breathing issues. At home last night the tingling continued I took a Benadryl 25 mg. During middle of night woke with fever and joint pain.

Shortness of breath

Short of breath- mild. Used rescue inhaler.

Breathing issues and fainted

Shortness of breath(heart is likely cause)

Tight chest, shortness of breathe

Abdominal pain was during the night last night and it was under my left rib cage when I breathed in. Not a problem since i got up today but it made sleeping last night uncomfortable.

Shortness of breath

A little of shortness of breath

Lung pain/shortness of breath

Little short to breath

Shortness of breath. Unusual since after a two mile walk I was fine. But later as I did light housekeeping I became light headed and short of breath. A mild form of what was experienced the first morning after vaccination

occasionally, soreness in upper right of my chest which dissipates with a few long, slow breaths.

Mild shortness of breath

Difficulty breathing due to asthma, dizzy, sweating, chest tightness, severe fatigue and muscle soreness

Breathless

Shortness of breath

Im not fatigued or tired, but since the vaccine, when I exercise I feel a pressure in my chest when breathing heavily.

I feel like I have something stuck in my chest. But I can breathe fine.

Shortness of Breath on exertion

I have felt a little short of breath since last Friday but it is quite a bit sharper today

Sudden shortness of breath

Shortness of breath, stuffy nose

Shortness of breath when moving, sweats,

Shortness of breath

Everything migraine related. Dizziness, sensitivity to light, back ache, increased heart rate going past 100 bpm, slight shortness of breath.

Shortness of breath

Slight breathing issues - took inhaler

Anaphylaxis, shortness of breath, cough, hives, tongue tingling and swelling, elevated heart rate, dizziness

Breathing issues

Asthma shortness of breath

Shortness of breath

When I first got the shot the top of my mouth felt fuzzy, hummed for about 30 minutes. Shortness of breath & light headedness lasted a couple of minutes.

Shortness of breath

Short of breath

Short of breath

Felt a little short of breathe, but wasn't super concerning

Coating on tongue and shortness of breath

Lungs feel strange when breathing

Uncontrollable shaking at 2-4 am and shortness of breath

Shortness of breath

shortness of breath, pain on inspiration

Cough shortness of breath

Hard to breath at timed

Shortness of breath

Breathing issue

Breathing was labored

My lungs slightly hurt when I take deep breaths

Shaking, difficulty breathing

Mild Shortness of breath

Shortness of breath (less than yesterday)

Trouble breathing. I have copd.

I have severe asthma. Today I am coughing & having some shortness of breath. That is common for me - asthma, not vaccination.

Easily be short of breath

Awakened during the night short of breath

I have had fairly severe swelling of the lymph nodes in my neck/throat and under my chin. It's been difficult to swallow at times and has mildly affected my breathing. I now just feel like I have a ping pong sized ball stuck in my throat. It is unpleasant. Worse at night when Benadryl and NSAIDs wear off. It started the night of Day 1 and has continued throughout Day 2 & 3. Today has been more tolerable.

Chest hurts, lungs hurt to take deep breaths

Cheat hurt, difficult breathing

Short of breath

Went to the ER affected my heart! Very high blood pressure low oxygen, hard to breathe, etc...

Still have a cough from my positive test on 12/21/20 with shortness of breath

Mild Shallow breathing

Shortness of breath

Shortness of breath

Shortness of breath - Mild

Vertigo, shortness of breath

Fever, Heart pounding, shortness of breathe

Pvc and shortness of breath

Shortness of breath

Chest pain breathing in

Hot flashes and chest tight like short of breath

Shortness of breath when working out

Short of breath/tight chest

Short breath

Out of breath easily

shortness of breath

Shortness of Breath

Shortness of breath

Shortness of breath, difficulty breathing, chest pain

Shortness of breath and palpitations

Lightheadedness and shortness of breath, however it resolved within an hour, now Im feeling just fine

Metal taste in mouth after getting vaccine, coughing, sore throat, chest congestion, shortness of breathe, feeling very cold then hot, lack of appetite

Slightly short of breath

Hard to breathe

Shortness of breath that gives me panic attacks

8 hrs post 2nd shot I had 101+ fever, severe headache, nausea, -this lated 36 hrs. From day 2 post 2nd injection through day 5 I had recurrent prolonged tachycardia and shortness of breath. Finally today, post shot day 7, the tachycardia and SOB have subsided.

Shortness of Breath

Shortness of breath

I feel like the congestion from my head is trying to get to my lungs. It is slightly difficult to catch my breath. The symptoms are only noticeable, nothing I am worried about.

Shortness of breath

Difficult to take a deep breath when exercising

Short of breath

Trouble breathing

Back pain shortness of breath

Shortness of breath, chest heaviness, tachycardia

Shortness of breath w/exertion

Shortness of breath

Cough, trouble breathing

Both sides toward the upper back. Hard to breath

Short of breath

Trouble breathing

Fatigue, tired shortness of breath on exertion.

Shortness of breath and cough

Short of breath

I have been noticing a pain on my left side near my breast that hurts especially when I breathe in. I have noticed it for the past several days but did not connect that it might have anything to do with the vaccination. I am not short of breath, or have any other problems but I do have this pain on the left breast near my armpit. As I said not sure if there's any connection but thought I might report it

Shortness of breath

Shortness of breath

Shortness of breath, congestion, cough. Swabbed for flu and COVID both negative

Shortness of breath

Bad breath bile taste.

Runny nose, sore throat, shortness of breath

Shortness of breathe

Some shortness of breath

Difficulty breathing cough blurred vision

Short of breath

Breathing problems

Last night I was a little congested so I was having trouble breathing. I think I got anxiety from having trouble breathing and my heart started to race. I had to sit up and breathe for a good while before I eventually fell back asleep after I elevated my head.

Shortness of breath

Shortness of breath

Shortness of breath

Short of breath; starbursts in right eye

Short of breath

Some breathing issues

Shortness of breath

I have breathing issues to begin with but if I walk it's harder than normal but not impossible

Difficulty breathing (asthma)

Brief period of shortness of breath

Slightly labored breathing after injection

Breathlessness

Cough, shortness of breath

Shortness of breath

Short of breath

Difficulty breathing

Shortness of breath

Shortness of breath

Trouble breathing

Breathing not good. Went to ER. May be pneumonia. Put me on antibiotic.

110-120 resting heart rate, shortness of breath

Right after the injection my heart fluttered for about 10 minutes and I often was breathing in deeply involuntarily. But it disappeared after about 20 minutes.

Just shortness of breath/asthma...and more congestion than usual but could be non-related

Extreme sweating, labored breathing, heaviness on chest, disoriented, lethargic

Occasional shortness of breath

Shortness of breath and heart palpitations

Discomfort with heavy breathing

Shortness of breath

Lungs hurt when breathing

Slight discomfort when breathing

Slight heaviness with breathing - would not consider shortness of breath, just harder to take deeper breaths

Shortness of breath

Dizziness and shortness of breath and weakness

Shortness of breath

Shortness of breath

Dizziness, weakness, heart racing, shortness of breath

Rapid heart rate, trouble breathing, chest tightness, sore throat

Odd chest pain today. Feels almost eclectic-like?? Comes and goes seemingly randomly, does not affect heart rate or breathing, hurts causes random pain

Shortness of breath

Pain breathing

Mild difficult breathing

heavy breathing at times

Severe asthma; Went to ER last night for severe pain breathing.

Moderate cough. Moderate difficulty breathing and heavy/tight chest. Increased asthma sx, decreased pulse ox

At times short of breath

Shortness of breath

Shortness of breath but I have asthma

Chest heaviness/pain, confusion, lethargy, shortness of breath

Shortness of breath

Labored breathing, taste flavors are altered. , swollen tongue throat

Coughing, heavy chest, shortness of breath.9

Dizziness, shortness of breath, injection arm tingling

I felt like my throat was sore & I had to make extra effort to breathe last night

Mild difficulty in breathing

Some shortness of breath but not sure if this is just due to an asthma exacerbation this time of the year

Chest pain, tightness and difficulty breathing since 2 weeks after 1st dose

Short of breath

Shortness of breath

Shortness of breath

Chest pain when breathing/coughing

Fast heart rate and shortness of breath

I still notice shortness of breath off and on, but its not consistent so theres no telling if its related.

Elevated heart rate mild breathing shortness of breath

Allergic reaction to vaccine. Caused breathing issue

Shortness of breath

Shortness of breath

Shortness of breath

For the first few minutes after the first shot i felt a little tingly and was breathing a little heavier. Thought it might be due to some anxiety. It went away.

Breathing not that great. Weather cold.

Shortness of breath, palpitations

Elevated heart rate , shortness of breath

Mild Shortness of breath

Mild shortness of breath

Short of breath

Shortness of breathe

Shortness of breath

Side pain, trouble getting full breath

Pleural pain, hurts to breathe, congestion

Shortness of breath - I have asthma

When i breathe it feels like im breathing in smoke/ it burns a bit

Coughing and shortness of breath

Slight tightness and pressure left lung area; intermittent dry cough.nasal drip;shortness of breath; red cheeks

Shortness of breath on exertion

Tight chest when breathing deep.

Palpitations, tachycardia, shortness of breath

a little shortness of breath

Jitters, shortness of breath

Mild shortness of breath with activity and some dizziness

Breathing a little labored

Chest tightening, lack of deep breathe

Shortness of breath

Continued odd cold burning feeling when breathing

Shortness of breath

Tightness in chest and short of breath, dizzy

Short of breath

Difficulty breathing and heart palpitations.

Severe difficulty breathing, rapid heartbeat

Pain in both arms and chest(not cardiac) when I take a breath, not the worst pain but noted, the other noticeable change is Im muscle stiff. The day after the shot I was at severe level. Also very tired and slept a good portion of the day away. The only other thing that I noticed was a peculiar taste in my mouth shortly after the shot it went away within 10-15 minutes.

Difficulty breathing from bad respiratory infection

Face tingle, heaviness with breathing

Short of breath, actually in hospital for diagnostics

Shorty of breath

Still struggling to breathe. Dr gave me antibiotic shot and steroid shot, on inhalers

Ive continued to feel winded and get more out of breath easier since my quarantine was finished.

Feeling short of breath at times

Felt like dehydrated, throat and chest when took breath. I drank 2 1/2bottles of water in morning and then started feeling better. I drank bottle before and hour after shot .

Some difficulty swallowing and shortness of breath but monitoring right now

Short of breath

Short of breath, dont no if its from my lung disease or what, I have Idiopathic Pulmonary Fibrosis

Moderate shortness of breath

Shortness of breath

About 7 min after I received the injection I experienced a burning feeling in my injection site on my left arm, this burning sensation went to my chest, I than experienced an increase in my HR from 74 to the 120s. This HR was short lived and decreased to the 90s. My mouth had a metallic taste and my blood pressure was found to be elevated at 140/72 which abnormal for me. After about 10 min blood pressure went down to 115/78. I never was short of breath. my O2 sat was 100% on room air. One hour after my shot, my symptoms had subsided.

Chest tightness, productive cough, shortness of breath with exertion

Mild short of breath, mild shakiness

Shortness of breath

Slight trouble breathing. My albuterol helped

runny nose, spine pain, shortness of breathe

Shortness of breath

Slightly short of breath

Shortness of breathe but not as bad as yesterday

Trouble breathing, throat closing up, light headed

Severe Shortness of Breath

Shortness of breath

Shortness of breathe

Shortness of breath

Shortness of breath

I experience some shortness of breath off n on today but nothing severe.

Feeling like I cant breathe very deep-although I can.

Breathing much better than yesterday when he almost went into respiratory failure

Shortness of breath

Shortness of breath

Shortness of breath

Severe throat pain, dizziness, shortness of breath

Sore back on side of shot making it a little bit hard to breathe

Problems breathing

Lower back pain when breathing and dry mouth.

Laborious breathing and heart racing

Shortness of breath/ anxiety feeling in chest

Chest tightness and shortness of breath

Difficulty breathing yesterday and feeling foggy

Shortness of breath

Shortness of breath on going

shortness of breath, chest pain, dry cough

I had trouble breathing and swallowing. It felt like I couldnt swallow.

Difficulty breathing

Shortness of breath, skin hurts (like nerve pain)

Shortness of breath

Increased shortness of breath

I have CHF and I have shortness of breath not shot relates

Shortness of breath, chest tightness, high heart rate (same as yesterday)- moderate

Difficulty breathing, wheezing, shortness of breath

Breathing

Shortness of breath

Difficult breathing

shortness of breath

Shortness of breath requiring Albuterol Mild

Shortness of breath wen I take a deep breath and exhale triggering cough

Shortness of breath

My throat felt swollen inside after shot and still does but this is a problem Ive had the past three months. It was getting a tiny bit better but after shot it felt more swollen again like when I first got this. I can breathe fine though. Just a little more swelling in my throat like when I first got this condition. I have seen ent and gastric doctors for this

Shortness of breath

Yesterday i started having shortness of breath and chest pain. Today no chest pain, still mild shortness of breath and mild.

Painful breathing

According to Apple Watch, it alerted me that heart rate jumped to 120 while sleeping and this was onset of not feeling well. Felt like I had to take deeper breaths at times throughout the day as well.

Shortness of breath

Little bit short of breath about 45 minutes to 1 hour after the injection.

Very bad migrainous headache, congested nose, pleuritic chest pain, very time i take breath ny chest hurt, some dry cough, didnt sleep at night, loss of appetite, i had episodes of unpleasant rubbery smell (olfactory hallucination) retroorbital pain

Shortness of breath but not uncommon for me.

Most serious conditions appeared approx. 12 hours after second vaccine...to include brief but shortness of breath

Shortness of breath

Shortness of breath, heaviness in chest

A little anxiety- rapid heart rate, and breathing

Difficulty Drawing in a full breath

Still having extra hard time breathing, and 1st headache in 50 yrs

Muscle cramps in my chest on the right side, when i breathe in.

Mild shortness of breath

Some shortness of breath

Chest tightness, shortness of breath

Asthma, trouble breathing, fast heart beat

shortness of breath

Short of breath

Difficulty breathing, chest and back pain

Shortness of breath

Hurts to take a deep breath

Short of breath

Sore throat, cough, breathing, phlegm

Yesterday, I couldnt catch my breath 2 different times. I had panic attacks

Shortness and breath

Difficulty breathing, tight chest

Slight shortness of breath

Difficulty with catching breath when talking and mild cough. Exactly the same as it felt when I had Covid except for more mild. Also Are use a heart rate monitor and my heart rate is sitting in the 80s and 90s which is usually in the 60s again the same as when I had Covid. This is important.

Palpitations shortness of breath

Intermittent, mild shortness of breath. I use my emergency inhaler.

Mild shortness of breath

Trouble breathing

Cough. Shortness of breath.

Shortness of breath

Shortness of breath

Shallow breathing

Shortness of breath with moderate activity, clamminess

Breathing is a bit better.

Shortness of breath, low back pain

Feeling of my heart pounding, shortness of breath. But this has happened before I got the vaccine as well (I have anxiety/ocd).

Hard to breathe (throat itching), better after diphenidramine

Shortness of breath

A little shortness of breath right after I had my first vaccine. It lasted about 15 minutes.

Light headed. Short of breath probably due to broncos

Felt like I needed my inhaler, like I was short of breath after a run

Shortness of breath

Shortness of breathe

Difficulty breathing

shortness of breath

Palpitations, shortness of breath, elevated heart rate

Shortness of breath

Hard to breathe. Like bronchitis

Dizziness shortness of breath high heart rate

Shortness of breath

I did have shortness of breath on 2/2 for the day, along with being fatigued. I noticed my fatigue was mainly when I was walking and going up stairs.

Last night a little out breathe walking 2 flights of stairs

Cough, chest pain and burning with deep breath

Chest pressure/congestion/breathing problems

some shortness of breath

Short of breath, but gad gone on twi different waljs with my dogs and overdressed.

To note: on day 4, my sao2 was 95 when i had shortness of breath. I lost 6 lbs. Covid test negative. I had covid in march 2020

Back pain when breathing, breakout from n95, suffering from UTI

Shortness of breath and just feels funny.

Yesterday after the vaccine, about 5 minutes later I had a metallic taste in my mouth. 30 minutes later my tongue felt like I had anesthesia from the dentist. It last 15-20 minutes. Five minutes after my tongue it also effected my face and lips and it stopped when my tongue did . I

have had a headache since 10 minutes after the vaccine. I have been taking Tylenol. I did Not have any problems breathing, no hives, no rash, no wheezing.

Shortness of breath

I forgot to report that yesterday I was feeling short of breath.

Chest has felt heave for past few days. Have to use my inhaler several times. Any exertion and its a little tough to breathe

Coughing, shortness of breath

Shortness of breath

Shortness of breath

Shortness of breath

Breathlessness

Shortness of breath

Short of breath

Since the day after, I have had pain in my shoulder joint and over into my shoulder blade. It still hurts when I take a deep breath from the right side of my chest right through to my shoulder blade.

Very out of breath, rapid beating heart.

Shortness of breath

Shortness of breath

Sweating, loss of appetite, out of breath

Shortness of breath last night

Shortness of breath

Short of breath

Shortness of breath

Shortness of breath

shortness of breath

Still a little short of breath since I got the vaccine.

Trouble breathing, anxiety

Labored breathing

Shortness of breathe

Slight pressure in chest during breath

Brief shortness of breath and intermittent itching but no rash

Shortness of breath but improved from yesterday

I had an episode of fell of numbness and tingling of my mouth tongue and throat about 20-25 minutes post vaccination. I had no difficulty breathing and it seems to have resolved. No medical treatment of medication received.

Shortness of breath, slight burning in chest

Last year trouble breathing

Short of breath

Shortness of breath

a little breathing problem

Cough and feel like lungs are constricting. Cant speak continuously without stopping to take a breath.

In the night I got very high fever with chills, I was struggling to breathe, thirsty throat, at least for an hour. After that I had low fever and headache and weekness.

Shortness of breath

Short of breath on and off

Shortness of breath

Shortness of breath

Shortness of breath

Short of breath lightheaded rapid pulse

Shortness of breath

Breathing

Shortness of breath

Shortness of breath

Chest tightness and some shortness of breath

Yesterday my lips and tongue felt like they were swelling. That went away. This morning when I woke up I was having a hard time breathing. Got better by mid morning.

Shortness of breath

Extreme dizziness, heart flutters & heart pressure, hard to breath, deep lung dry cough, extreme thirst, innability to eat, no appetite, light sensitivity, no bowel movement, ringing in ears

Shortness of breath

Went for a mountain bike ride today. Did 2 good climbs and was out of breath. Normally not that much. Was fine after though

Lungs felt heavy from my back but could breath completely normally.

Chest pressure and difficulty breathing

Severe, uncontrollable sneezing episode of about 7 hours and itching in throat last night. Definitely not like mere allergies. Maybe its not related, but I was miserable and my nasal passages were so swollen that I had to breathe through my mouth. Benadryl helped but did nothing completely quell the episode.

Breathing problems, decreased pulse ox, sever dizziness and lightheaded

Shortness of breath

Mild shortness of breath and mild dizziness

Bad breath and body odor. I had more severe symptoms the first two days after the 2nd vaccine.

Short of breath going up steps

Shortness of breath

Lose my breath on simple tasks

Trouble breathing racing heart

Pressure behind my eyes and it made my asthma bother me feels like im breathing in glass had to take inhaler sever times

Ive had a lot of anxiety since receiving the vaccine. I am finding that at night Im having a hard time getting that deep relaxed breath (like when you yawn) which is also causing anxiety. Ive been pretty irritable. Today is the first day Ive felt a little less anxious.

Cough, shortness of breath, congestion

Breathing difficulties

Mild shortness of breathe

Shortness of breath

Shortness of breath. Rapid heartbeat.

My severe asthma is acting up with more shortness of breath than I would like. Less coughing today - Ill take it. Not Vaccination related.

Chest hurting and trouble breathing

Mild shortness of breath

Shortness of breath and chest pain/tightness

Elevated heart rate, shortness of breath, discomfort in chest

Shortness of breath

Sore chest feels like i have breathe in cold air

When I was given the shot I completely stopped breathing. I was given epi

Slight shortness of breath, stuffy nose.

Accelerated heart rate, Shortness of breath when walking around

shortness of breath

On Wednesday night I felt tightness of chest and breath which continued through Thursday with sever fatigue and headache - it feels better today, Friday but this was after I felt almost Normal on Wednesday morning until in the evening when the deifficukty breathing started

Shortness of breath

A little bit short of breath but not bad.

Would like to report yesterday about 30 minutes after receiving 2nd dose, left eye started feeling numb, but started to subside after about 15 minutes and applying my cool fingers over my eye. My BP was elevated, but also started decrease after sitting still and just focusing on my breathing. Throughout the rest of the day, the symptoms of my left eye were mild. During the night I experienced some chills and moderate pain at injection site. Woke up this morning with severe headache and nausea. After several hours the headache began to subside on its own.

Cough, short of breath

Slight shortness of breath

Labored breathing

Breathing is heavy

Shortness of breath

Shortness of breath

Alittle short on breath

Coughing fit-slightly swollen gland on right side of neck which seems connected to the cough-slight shortness of breath

Short of breath, chest tightness

Mild shortness of breath

Shortness of breath

When I breathe in through nose it burns

Hurts a tiny bit to take a deep breath

Shortness of breath and fluttering.

Shortness of breath going up stairs

After leaving the (b)(6) site, about one hour later I experienced mild palpitations and breathlessness(again just mildly)

shortness of breath, anxiety

Out of breath quickly

Tightness in chest, severe sweating, shortness of breath, disoriented,

Tightness in throat, shortness of breath, feeling of hopelessness

Difficulty breathing, chest tightness

Short of breath.

Slight chest cough/difficulty breathing

Shortness of breath

Short Of Breath

Mild shortness of breath, occasionally pain in shoulder and chest

Pain and numbness and tingling radiating down to fingertips. Chest pressure, shortness of breath and tightness in throat. Tingling to lips and tongue.

Pain when breathing - right side

Pain with deep breaths, resolved after took hydrocodone

Shortness of breath

Increased heart rate, balance problems, increased breathing problems

Shortness Of Breath

After receiving injection left side of face numb lips tingled and hard to get breath of air fully.
After 1/29 For next 5 days roller coaster of headaches body aches fever chills nausea numb face
subsided 1st night still sick day 7

Short of Breath

Shortness of breath in my chest and chest pain

Difficulty breathing

Tough to take a deep breath which might be due to an episode of GERD

Last night I had difficulty breathing for about a 1 minute span

shortness of breath

Mild tachycardia, feel slight shortness of breath but wearing full ppe incl. Faceshield, n95,
surgical mask

Trouble breathing

Tachycardia and chest pressure and some shortness of breath

Shortness of breath on occasion

Dizzy, short of breath weird chemical taste in my mouth

Possibly mild shortness of breath

Yesterday, after my check in, I experienced severe pain in my upper back, ribs and sternum. It hurt to to breath in. That went away during the night. Just wanted to report in case its happening to others.

Shortness of breath

I have chronic bronchitis. Rough night with breathing troubles. Not sure if shot related because this sometimes happens to me.

Slight tightness when breathing in

Trouble breathing

Slightly short of breath

Shortness of breath

Inability to sleep for several hours. I collapsed and fainted on my way to the restroom overnight. When I regained consciousness, I experienced temporary loss of vision and motor skills while sweating profusely despite simultaneous severe chills. I also experienced severe shortness of breath while recovering from this episode. Partial memory loss of this episode. I required assistance of family to stand from my collapse and to return to bed. I achieved very little sleep.

Shortness of breath @ 1:30 sat for 10 min

Tightness of n chest when I take a breathe like a burning

Trouble breathing - like asthma

Mild shortness of breath

Difficulty breathing, heart palpitations

Shortness of breath (got a COVID test on 2/4 and it was negative)

Out of breath a few times

Breathing does not seem up to normal capacity; sometimes it hurts to breathe deeply

Mild cough almost lungs spasming. Stridor like breathing episodes.

Dizzy & shortness of breath

Out of breath

Shortness of breath

High heart rate and shortness of breath.

Throat slightly itchy 8+ hours post vaccine, gone in an hour after taking Zyrtec and Albuterol MDI. Slightly increase in heart rate and slightly short of breath.

Out of breath easily.

Tachypnea, weakness, difficulty swallow and breathing through the nose

Sneezing and runny nose since 3 am. Mouth breathing now

A little short breathe after the shot for few seconds

Breathing issues but mild so far.

Whenever I take a very deep breath, I cough.

Shortness of breath

Sharp chest pain, shortness of breath

Very mild shortness of breath

Shortness of breath

Chest pain with deep breath

Above symptoms happened when I did what would normally be a very easy mountain bike ride for me. I got dizzy, very out of breath and nauseated going up a normally easy hill. Also experiencing back pain today, also not normal for me.

Shortness of breath

Cant walk across the room then gasping for breathe!

Out of breath

Last night I experienced a short period of feeling hard to breathe. No pain or discomfort. Felt like I wasnt getting enough oxygen. Deliberately took deep, slow breaths. The feeling went away shortly and have felt fine ever since.

Shortness of breath.

Nasal congestion and shortness of breath

Not sure if it's related but i find myself taking deep, relaxing breathes. No difficulty breathing, it has been a busy, long workday today

Difficulty breathing, swallowing, dizziness

Shortness of Breath

Pain at injection site, shortness of breath

Slight shortness of breath, sinus pressure

Short of breath mild

Hard breath, heart rate high 140

Shortness of breath upon exertion

stuffy nose, sore throat, shortness of breath

Shortness of breath

I have had constant chest pain the last couple days and it hurts to take a deep breath

Shortness of breath and weakness

Shortness of breath, could be residual from the anaphylactic reaction and my EIB. Still using Benadryl Q6hrs and inhaler. O2 is 99% HR is in the 70s.

Seems like I'm unable to get full lung of breath

Shortness of breath

Unable to take a deep breath

Lack of breath

Short of breath and dizzy

Coughing, shortness of breath (due to asthma)

Weak, can't stand for too long without feeling out of breath/like I'm gonna pass out

Chest pain when breathing deeply or stretching arms

Wheezing, shortness of breath

Short of breath, chills had to call dr yesterday and he put me on prednisone

I can't breathe

Hoarseness, shortness of breath

Shortness of breath, tingling fingertips

shortness of breath

Left side in the back and left side under my rib cage sharp pain and difficult to take a deep breath only last several seconds

Shortness of breath

chest tightness, shortness of breath

I missed giving some issues for the 1st 36 hrs. Breathing, Oxygen levels were concerning with more than itching in throat. Was going to call emergency if oxygen level went to 89. For today all is fine.

Last night hard to breathe. I have asthma. Passed by this morning.

Shortness of breath with chest discomfort

Chest tightness, shortness of breath

Chest and base of throat pain when I breathe in

Shortness of breath, tachycardia, nerve pain in arm of injection

Trouble breathing and very weak dizzy

Hard time breathing, left chest pain

short of breath

Shortness of breath

Shortness of breathe ~ mild

Shortness of breath

Facial flushing, short of breath

Difficulty breathing

issues with breathing but didn't last

Short of breath and cough

Shortness of breath, stuffy nose

Difficulty breathing. Used my inhaler 3x today... not common for me to even use it... its more once in awhile

ear pain, sore throat, shortness of breath

Shortness of breathe with running and biking/exercise

Difficultly breathing

Coughing and some shortness of breath.

Breathing issues

Shortness of breath/chest tight

Pain when taking a full breath, lack of appetite

Shortness of breath

Dry cough, slight shortness of breath

Overnight, I experienced an episode where it was hard to breathe. It lasted at least 30 minutes.

Shortness of breath, lightheadedness

PVCs and mild shortness of breath

Shortness of breath

High heart rate 132, dizzy, hard to breathe, chest pain

Two episodes of shortness of breath

Shortness of breath, chest tightness

Breathing

Shortness of breath and coughing

Shortness of breath, irregular heart rate

Difficulty breathing

Shortness of breath and pressure in chest

HR between 100-132, only taken from Apple Watch - no pain and no shortage of breath. Didn't bother me at all.

Trouble breathing

Shortness of breath

Increased heart rate and shortness of breath

Unusual shortness of breath

Short breath, could not sleep

Itchy and chest tightness and short of breath,

Shortness of breath both days

Short of breath

Tachycardia and slightly short of breath with hot feeling in chest

Shortness of breath chest tightness

Shortness of breath and chest tightness

Shortness of breath (SOB), lightheaded

Last night after I had the shot yesterday morning I got super tired and my heart fluttered and felt like I couldn't breathe for a second.

Tightness in chest/shortness of breath

Short of breath, low oxygen, low grade fever

Mild Chest pain when I take deep breath. Like mild pleurisy. Still able to exercise.

Shortness of breath

Shortness of breath

Short of breath

InThe first 24 hours I ran a fever I had severe shaking and chills shortness of breath extreme weakness and bodyaches I came to work the next morning and after one hour at work they sent me home and I slept all day very tired today much better 90% different

Mild- Short of breath

Chest pain and difficulty breathing

Shortness of breath with pain on deep inspirations and nasal congestion

Shortness of breath in the AM

Pain in back when I take a deep breath, cough, mucus drainage

Increased shortness of breath

Runny nose, short of breath, no appetite

Hard to breathe

Short of breath, orthostatic hypotension

Tachycardia, hypertension, shortness of breath, chest pain

At times getting a full breath. No swelling that I notice but just intermittent enough to mention.

Shortness of breath

Difficult to breathe

Shortness of breath, chest pain, sore throat

Shortness of breath and cough

chest pain, shortness of breath

a little shortness of breath and just a slight headache

Painful breathing

a little shortness of breath

Shortness of breath

Shortness of breath in the early morning

Labored breathing

Shortness of breath

Some shortness of breath and increased heart rate

Some shortness of breath

Dizziness, mental fog, some diff breathing, some chest pain

Shortness of breath when walking.

Shortness of breath

Shortness of breath during exertion

Runny nose, short of breath

Breathing

Shortness of breath, tingling around my mouth

Dizzy and short of breath and a migraine

Mild tightness in my breathing. Autoimmune dx

Pain breathing in

Because I'm asthmatic I'm feeling shortness of breath but not wheezing. Also I'm being sleeping all day and all night and my eyes are watery and runny nose and some sneezing

Shortness of breath and cough

Slight cough, shortness of breath

Low blood pressure, almost fainted and shortness of breath

An echo when I am breathing breathing a little heavier than usual

Short of breath

Shortness of breath, body sweats with no fever.

Mild Cough and not be able to take deep breath

Rash on abdomen (began yesterday morning), slight tachycardia, shortness of breath, chest tightness. I also have anxiety but I am medicated and I don't think it was the anxiety although it feels like I am on the verge of a panic attack for most of the day

A bit shortness of breath.

Shortness of breath

Dizziness, shortness of breath

Coughing, shortness of breath

Shortness of breath

Chest pain, shortness of breath

Vaccination site was too crowded. That is the most exposed to possible virus I have been in all year. It was scary to breathe. I will not return. Stuffy air, thousands of people breathed in that room.

Some mild awkwardness in my upper chest near my throat. May be related to my mild asthma or reflux. Don't have any difficulty breathing really. Pulse ox 96-97 generally and breathing with peak flow meter is good (for me). Took antacid (and 4 baby aspirin just in case) and was better., at least temporarily. Pulmonologist not concerned but I was.

Nerve pain, shortness of breath

Shortness of breath

slight shortness of breath

Slight shortness of breath after walking up multiple flights of stairs. Can as n normally walk up about 90 steps no problem

Its been hard taking deep breaths at night

Difficulty lifting left arm due to pain, slight swelling in left hand, no appetite, severe headache, slight dizziness and difficulty breathing occasionally.

Some chest tightness. Slight shortness of breath. Pains, aches and fatigue are part of usual health issues.

Shortness of breath

Dizziness, shortness of breath

Reactive airway symptoms (cough); shortness of breath; mucus in airway

I have to breathe shallow or I cough.

Sore throat. Chest congestion, cough, shortness of breath

Short of breath

So the first day that I received the vaccine. I was sweating, hands shaking and I was super weak. Shortness of breath as well. The 2nd day I had bodyache, chills, headache, fever and I would barely walk on my own.

Orthostatic hypotension, shortness of breath when walking or climbing stairs

Throat feeling swollen, but breathing and swallowing are fine.

Sore throat feeling mild difficulty breathing

Shortness of breath - mild

Trouble breathing

Slight trouble breathing

Shallow breathing night of 2/4/21 for about 2 hours

Difficulty breathing after walking short distance

Heart palpitations and troubling breathing went to ER

Shortness of breath approx 45mins after vaccine , possibly anxiety

Shortness of breath

Some swelling of my face, some difficulty swallowing and shortness of breath and I am still monitoring

Mild tightness in my chest, breathing normal

difficulty breathing and unproductive cough

Dizziness, mild shortness of breath

Shortness of breath

short of breath

Chest pain, shortness of breath, lymphadenopathy (left supraclavicular nodes - confirmed by doctor today)

Short of breath

Some shortness of breath

Shortness of breath and tachycardia

Stuffy nose, shortness of breath

Mild shortness of breath and cough.

difficulty of breathing. i curreny have asthma flare up

Hard breathing

Shortness of breath

Shortness of breath

Shortness of breath

Loss of breath/ restricted feeling in my chest

Chest pains, trouble breathing, lower right abdominal/side/back pain and swelling, dizziness.

Shortnes of breath, chest tightness. Could too COPD/ASTHMATIC

Dizzy, BP up and down, chest pain with difficulty breathing. BP feels like its the factor to breathing and dizziness.

Mild shortness of breath

Shortness of breath.

Shortness of breath and shaking for about 2 hours

Mild shortness of breath

Cant catch my breath after any kind of activity

little out of breath walking up hills not noticeable otherwise

Shortness of breath, feel like fever but temp ok. Shivering while feeling hot.

Severe chest and upper back pain, shortness of breath -went to ER

Difficulty breathing, asthma, itchiness in throat and mouth

Severe pain in rib area making it difficult to breathe. Just spent 6 hours in the ER

Rapid heart rate & breathing. Done an xray & has pneumonia

A period of shortness of breath, shivering, and feeling weak this morning that lasted for a couple of hours.

Short of breath

Bp went up, shortness of breath

Short of breath and chest tightness as well as cough.

Shortness of breath. Dry cough.

Shortness of breath but better than previous day

Short of breath and chest pain

Increased heart rate, and slight shortness of breath. Awareness, but not concern.

Dizziness, short of breath

Short of breath

Taking my breath away, like holding my breath. Three times from yesterday to today. Mild.

Lethargy. Shortness of breath

Shortness of breath

Still having sharp stabbing random pains throughout my body the come and go within seconds but take my breath away

Breathless

Felt a little dizzy for 3-4 minutes once during the day but it passed once I sat down and breathed for a while

Shortness of breath

Dizzy, short of breath

My glands in my neck are very swollen. It feels weird to talk or swallow. It is not painful and I am able to do all my normal activities. I am not having any breathing problems due to it.

Heart pounding. Short of breath and before meal

Hard to catch breath

Shortness of breath

Just a little shortness of breath because I have been moving around

Trouble breathing

Shortness of breath and cough

Fatigue with cardio activities. More breathless with a mile walk.

Short of breath

Short of breath

My chest felt very tight and a heavy feel (about 8 hours after my shot) . My throat also felt very dry and parched. This was bedtime so I tried to relax and sleep some. At 6:45 am , I got up and my vest was still heavy. It was harder for me to breathe than normal. I used my inhaler, put Vicks

Vaporub on my chest, and did 12 deep breathing exercises . I drank a bunch of water and at that point the tightness was gone.

Had shortness of breath at night and experiencing Chest discomfort

Mild Cough and slightly short of breath

Shortness of breath

Slight shortness of breath.

Shortness of breath. Swollen subclavicular lymph nodes.

Shortness of breath

Shortness of breath (more than usual)

Slight shortness of breath

Shortness of breath

I have been experiencing lower back pain every night since my injection on Wednesday. The pain level raises when taking deep breathes.

Avid reflux, slight shortness of breath

Mild breathing trouble

Shortness of breath, raised heart rate, chest pain

Hypotension, short of breath

Shortness of breath, sharp pain when I breathe on left side

Difficulty breathing at 1am due to pain throughout torso. Hurt to breathe in. Oxygen went to 94. Oxygen has since gone back up.

Shortness of breath and cough

When I went for my walk today, I seemed to get out of breath more than usual.

Hypertension, tachycardia, shortness of breath

Congestion, shortness of breath

Shortness of breath

Mild Shortness of breath

Seems a little harder to breath

Severe waves of dizziness immediately after the vaccine administration along with shortness of breath and elevated pulse. The SOB and elevated pulse normalized within about 20 minutes but the dizziness waves lasted about 90 minutes and then periodically throughout the day, though each subsequent wave was lessened in severity and duration.

Some shortness of breath and heart rate jumping up and down

Shortness of breath

Started having shortness of breath 27Jan. Was diagnosed with very low iron 1Feb

Still feeling of of breath

Shortness of breath mild

Shortness of breath

Mild shortness of breath

Last night I had random spasms all over my body like electric shocks that escalated to total rigid body with locked jaw and fisted hands. I could finally take a breath and get it to calm for 5-6 seconds then it repeated every 30 seconds for 2 hrs. While not frightening it was totally exhausting.

Shortness of breath

As of last night In hospital for collapsing at home, gasping for breath, and weakness.

a little breathlessness

Shortness of breath

Shortness Of Breathe and heart racing

Difficult breathing

Coughing later in the afternoon and some shortness of breath.

Dizziness, difficult breathing,

Shortness of breath, sore throat

Shallow breathing triggered asthma sought medical care

Shortness of breath

Shortness of breath

Strained breathing

Shortness of breath

Shortness of breath

Short of breath about 9 hours after vaccine. Same time pain was worse in arm and fatigue. Went away after about 5 hours

Short of breath, cough

Out of breath, anxiety

Shortness of breath

Shortness of breath for the week, especially in the very early morning

Shortness of breath. Cough.

Shortness of breath, pain middle of back 3-4/10 cough

I get out of breath easily since the second dose. I thought it was accompanying the fatigue, but I'm better today. I still get out of breath after walking a short distance.

Shortness of breath

Difficulty breathing, trigger asthma attack, dizziness

Shortness of breath.

Slight tightness in my breathing, but it passed away,

Shortness of breath while pushing grocery cart began after COVID illness

Shortness of breath

Very short of breath, O2 = 93-96

Shortness of breath, phlegm.

Shortness of breath

Cold like symptoms. Cough, swollen lymph nodes, stuffy nose, breathing difficulties, teeth and gum sensitivity,

Sore throat and ears. Shortness of breath.

Shortness of breath and cough

Rapid heart rate, difficulty breathing

Shortness of breath - mild

Shortness of breath

Tachycardia, breathing heavily. Dizziness.

Shortness of breath

shortness of breath, heart palpitations

Shortness of breath

Labored breathing

Mild shortness of breath

Low blood pressure, shortness of breath

Labored breathing, right kidney pain, right Lung pain

Easily out of breath with exertion

Lower lungs felt sore..as well as my area when I breathe in

Sore throat, sinus congestion, shortness of breath

Short of breath after walking

Sore throat, shortness of breath

Shortness of breath

Slight shortness of breath

Dizziness, out of breath

Shortness of breath

I woke up in Friday morning gasping for breath and heart fluttering. I went to the ER. Later, I went to see my family doctor. He prescribed Tramadol-acetaminophen 36.5-325. Take 1 tablet by mouth every 4 hours as needed for pain. He also prescribed Clonidine HCL 0.1. Take only if my blood pressure is above 175/105. I just took one. My pressure was 204/94.

my abdominal pain hurts a lot it hurts when I breathe out it wont let me finish breathing. I take pills but they dont help should I make an appointment?

Shallow breathing

Shortness of breath

Severe Coughing and shortness of breath

Shortness of breath, cough

Went for short walk and I felt Im getting out of breath.

Difficulty breathing related to asthma

Feels like my throat is closing up, breathing

These symptoms started Thursday night and continued up to to Friday night. tingling, like frostbite, in my fingertips. Numbness of face. Chills and sweating. It seemed like my chest was tight, no problems breathing. I also noticed my INR numbers seemed to have dropped since the first shot.

Occasional shortness of breath

Extreme pain in chest while breathing or moving torso

Flushing, swollen lips abd eyes, tachycardia up to 125 bpm, shortness of breath

Last night had stabbing pain when breathing

Trouble breathing

Itching last night still having breathing issues

I had a little difficulty breathing but am better now

Problems breathing/asthma flare up

Shortness of breath

Trouble breathing

Flushed cheeks and shortness of breath

My body was shaking so hard from the chills I had trouble breathing

Shortness of breath. 69 - 88 % had to use my inhaler to get to regulate. Pushes fluids 4 bottles 2 hours monitor my vital signs etc. I'm a nurse

Difficulty breathing and chest pains

Run out of breathe easy while cleaning

Painful breathing

Shortness of breath

Pain in upper right back that hurts when I take a deep breath

Not concerning, but a medicinal taste in my mouth and medicinal smell on my breath.

After 2nd vaccine had above symptoms plus intense mid back-sternal sharp spasm pains making it difficult to take a deep breath

post-nasal drip; wheeze/difficulty breathing

Difficult talking deep breaths, tight chest

Hard to take a full breath

Worsened shortness of breath

Some shortness of breath when lying down and exercising

Still a little cough and short of breath

shortness of breath

Chest has been bothering me, as well as breathing at times.

Immediately after my shot I had increased pressure over my nasal and upper cheeks. Then I had a tightness in my throat, but not to the extent that it affected my breathing. When I got home I saw that I had a fine, pink rash on the front of my neck and upper chest and on the back of my neck and upper back. The rash area feels like a sunburn when touched by my clothes.

A little short of breath

A little breathless for a few minutes a couple of times

Shortness of breath

Shortness of breath

On and off Cough and a slight shortness of breath

Slight shortness of breath with moderate activity

Breathing difficulty that required extra inhaler use

17 hrs after injection, sudden onset of the following symptoms woke me in the night: Chills/nausea/pain/body aches. I vomited multiple times. I took pepto bismol and it was useless. Tylenol did not resolve fever or pain. I had a fever from 100.4f-102.7f for 18+ hours. Ondansetron improved nausea but did not resolve it. Yesterday, I was dizzy, nauseated, weak with balance difficulty & general malaise but I was finally able to eat at dinner time. I've been constipated since onset of symptoms. Mild intermittent HAs are ongoing. My lungs and throat are uncomfortable today with increased but mild difficulty breathing. I missed work on Thursday.

Mild shortness of breath and dizziness.

Stiff neck, can't take deep breaths without feeling like coughing

Shortness of breath

Slight breathing issues..could be allergies though

Shortness of breath with exertion

deep breathing is hard at times

Shortness of breath, again

Trouble taking deep breaths

A little Shortness of breath

Shortness of breath- worsening underlying heart failure symptoms

Trouble breathing

SHORTNESS OF BREATH

Some shortness of breath

I sweat extremely bad had to change my cloths 3 times like someone pour water on me had a hard time breathing but it past in a few hours

Shortness of breath

I continue with shortness of breath & coughing from severe asthma. Not related to vaccination.

At 3:00 AM I woke up feeling like I couldn't breathe. I think it was because I had acid reflux and may have inhaled some it. I coughed vigorously and was able to breathe after about 10 seconds ago. I felt burning in my esophagus related to my heartburn. I drank water and sat up watching television for about 45 minutes until I felt well enough to go back to sleep. I don't think this was related to the vaccine because it did happen once before but I can't be certain. I considered going to an urgent care but when I woke up I felt much better. I was still wheezing slightly but that gradually subsided as the day went on.

chest pain, shortness of breath

Breathing issues

Shortness of breath, general aching in the arm where I received the injection

Short of breath

Short of breath on exertion that wouldnt cause shortness of breath.

Felt hard to breathe, chest pressure late last night early this morning

Shortness of breath

Shortness of breath

Trouble breathing last night. Fine when Im upright.

Shortness of breath

Trouble breathing and cough

Labored breathing

Shortness of breath

I had hives on my left arm (the arm I received my 2nd vaccine dose in) around the crease of my elbow. So far, it has lasted for 5 hours and seemed to gradually move upward toward my injection site. It was most itchy/painful 2-3 hours in, but it is now beginning to go away (hopefully). I did not take any antihistamines or anti inflammatory medications to combat the hives. I am labeling it as severe because the hives were covering about 30% of my arm at one point, but I never experienced any trouble breathing or other symptoms of an allergic reaction.

Difficulty breathing

Difficulty breathing

After 15 hours I had bad chills with difficulty of breathing

Lightheadedness(moderate), shortness of breath (mild)

Increased resting heart rate (136bpm) & shortness of breath

Shortness of breath

Difficulty breathing

Heavy breathing. Felt fine all day but think I got anxious then the heavy breathing led to the headache.

Shortness of breath, dizzy

Shaking and difficulty breathing

Shortness of breath

Heavy breathing

Finding it hard to catch my breath after doing something active

Trouble breathing , weak all over

Still having pain deep in upper right chest, shoulder joint and blade when I take a deep breath but improving

Shortness of breath during exercise

Shortness of breath

Breath shortness

Slight shortness of breath

Shortness of breath and oxygen level as low as 87

Shortness breath

Intermittent breathing...like mild asthma

A little shortness of breath.

A little short of breath.

Chest discomfort, shortness of breath

Chest pain, shortness of breath, lightheadedness

Shortness of breath

Cough. Shortness of breath

Chest pain and shortness of breath

Wheezing During deep breaths

Severe pain in upper chest like spasms after vomiting. It lasted approximately 30 minutes. I would have called 911 had it not resolved because breathing was painful.

Shortness of breath, wheezing

Trouble deep breathing/coughing

Trouble breathing

Short of breath - pre existing.

Had trouble breathing during the night. It woke me up and went away when I sat up. Came back when I laid down. Lasted about 2 hrs

Short of breath

Shortened of breath

Shortness of breath

Shortness of breathing

Shortness of breath and dry cough

Shortness of breath

Loss of breathe once. Very mild

Shortness of breath

Shortness of breath

Burning in chest. Out of breath moderate

Blurry vision difficulty breathing cough

Chest pain, trouble breathing

sinus swelling, asthma related breathing problem

Short of breath

Trouble with breathing

Mild shortness of breath

Cough shortness of breath

The day of the vaccination, my breathing was a little difficult so it took 10 mg of Prednisone and today I'm breathing better

Shortness of breath

Racy pulse and a little shortness of breath

Glad to avoid COVID if the vaccine hit this hard. Hurt too much to sleep. Overnight was bad. Had burning sensation in muscles on left half of body. Shoulder to foot. Pain usually doesn't bother me much but wow this hit me overnight. Sinuses reacted. Breathed through mouth.

Shortness of breath

Just a little short of breath while doing housework at times. I'm probably just trying to catch up on it too fast.

Pain while breathing at the bottom of my rib cage and sternum

Shortness of breath. Left side Throat & jaw pain

Tight chest, shortness of breath

Chest tightness, short of breath and I have Sickle Cell Anemia

Shortness of breath, raised BP, chest pain

Short Of Breath

Breathing better... Had been very tough since vaccine. Does have severe COPD

Shortness of breath

Shortness of breath my left lung seems tight

Shortness of breath

Having hard time taking a deep breath

A little breathless during 2 mile walk

Hard breathing

Mild shortness of breathe

Shortness breath

Sore in upper chest and throat when breathing deeply especially when lying down

Feeling flushed; short of breath during activity

Congestion, cough and shortness of breath

Chest pain, shortness of breath, severe dizziness

Shortness of breath, chest pressure, throat tightness and pain.

Fast heartbeat, shortness of breath,

Cough, pain with breathing

shortness of breath

Shortness of breath

48 hours moderate anxiety and shortness of breath

Shortness of breath

Shortness of breath upon light exertion

Out of breathe

Tachypnea, shortness of breath, armpit pain on vacc side

Short of breath walking very short distance

Pain in throat in glands. Does not interfere with breathing just swallowing

Hurts to breathe, even my scalp hurts. My glands have all swollen and feel like theyre going to explode

Shortness of breath

Short of breath with walking and activity

Sinus congestion, skipping breaths every now and again.

Earache and cough when breathing deep

Cough and shortness of breath

Yesterday some shortness of breath walking uphill. More than usual. Yesterday evening about 10 seconds very dizzy. Today in a.m. dizzy again. Mild dizziness and slight nausea continued throughout the day. Temperature normal. Pulse middle 60's.

Elevated BP, pressure, shortness of breath

Wheezing, shortness of breath

Short of breath

I have COPD Im having shortness of breath more than usual I cannot Walk as far as I used to without losing my breath my oxygen level has been running from 90 to 93 and normal is 93 to 95

Shortness of breath, brain fog, insecure to drive a car due perception

Tightness when breathing. I had to go to the ER after I received my vaccine yesterday for nausea, trouble breathing, faint, headache, heart palpitations. I still feel a little tightness when breathing today.

Nausea, during nite I woke up & felt like I couldnt breath. Since last evening I also feel like Im getting a cold. Sinuses stuffed up, Sorre throat chest congestion last nite only.

Shortness of breath, lung pain when I woke up

Breathing- I dont think its related.

Shortness of breath

Some shortness of breath when walking and sweating. Passes after after I take 1-2 minute breather from my mask.

Shortness of breath

Still occasional short of breath & chest & temple pressure

Chest is tight and hurts to breathe.

Tired and short of breath. Not sure if its from the vaccine

Shortness of breath

Difficulty breathing, congestion

Hard to take deep breath

Dizziness, difficult to keep mask on felt a little out of breath

Shortness of breath

Shortness of breath

The night I got my shot while I was working I was more short of breath than usual. Just only that night.

Lump in throat; short of breath

Neuropathy, pulmonary fibrosis(with shortness of breath), possible hip bursitis

My husband is 80 just had quaD bypass has copd i do beleive it affectex his breathing for 48 hours.

Difficulty breathing

Slightly short of breath

Short of breath

Shortness of breath

Mild shortness of breath

Trouble taking a deep breath; winded

Minor breathing problems

Difficulty breathing

Shortness of breath

Difficulty breathing

Shortness of breath

Shortness of breath

Breathing is still not normal

profuse nasal drainage, restricted breathing and pale yellowish phlegm alongside coughing

Shortness of breath

I feel like I have the flu but I am breathing fine, no coughing.

Shortness of breath

Shortness of breath walking

Short of breath

Shortness of breath, tremors, foggy headed

Asthma cough, tightness, short of breath

Shortness of breath

Breathing, and generally weak

a little short of breath

Shortness of breath

Feel like I can't take a deep breath.

Shortness of breath (moderate), tachycardia (moderate)

Short of Breath - low oxygen levels, lightheaded

I had shortness of breath on the day of the vaccine and the day after

Breathing has been more difficult yesterday and today

Shortness of breath

Shortness of breath like when I had Covid...can't get a deep breath. Metallic taste on mouth like I get on and off when I feel like this

Shortness of breath

Sore throat, shortness of breath

Difficulty breathing & sleeping, due to post-nasal drip. Getting out of breath more, with exercise.

Out of breath; chest hurt

Chest pressure & shortness of breath

Shortness of breath

Breathing w/sob and cough

My lymph nodes in my neck are really swollen making it difficult to speak and swallow. Its not painful and Im not having any difficulty breathing.

Shortness of breath

Slight shortness of breath, loss of appetite

Had also shortness of breath

Bad night last night. Shortness of breath. Chest and back hurt.

Have swollen lymph node in L neck, R not swollen. Short of breath easily.

Shortness of breath

Shortness of breath

Trouble breathing last night. Took inhaler

Shortness of breath with walking

Labored Breathing

A little out of breathe for awhile. Headache gone

Hurts to breath

Shortness of breath

Shortness of breath

Dizzy, short of breath, heart palpitations, cough

Shortness of breath and light headedness

Short of breath this morning and last night.

If myself having to take more deep breaths and with that a mild cough. Mild

Shortness of breath

Shortness of breath

Chest pain, shortness of breath

Shortness of breath mild

Photosensitivity, shortness of breath

Shortness of breath

Falling short of breath

Shortness of breath at times

I had a fever of 101Â°F last night and mild difficulty breathing

Shortness of breath, weakness

Shortness of breath

Sore throat, cough, some shortness of breath but all mild.

Breathing is better but still heavy

Some pain breathing

Light headed. Shortness of breath when active.

Heart beat in air, upon standing gets worse. Extreme fatigue. Feel short of breath at times, waves of hot flashes

Shortness of breath, cough, raspy voice, paresthesias

Breathing

Heavy chest/sharp pain when breathing in and tummy upset

Shortness of breath, pain when inhaling and expanding my lungs all the way

Shortness of breath

Breathing problems

Dry cough, trouble breathing, tinnitus

Shortness of breath / fast heart rate for about one hour. Went away.

Shortness of breath, heavy chest, post-nasal drip, allergies symptoms because body busy with vaccine work

Shortness of breath when doing light house chores, pressure on chest, faster heart beats

Shortness of breath

Shortness of breath

Trouble breathing, I have asthma.

Short of breath , fluid retention in lungs

Swollen surprackavicular lymph nodes, slight shortness of breath

Coughing and shortness of breath

Cough, shortness of breath, wheezing

Chest hurting, coughing, trouble breathing

Mild cough and shortness of breath

Shortness of breath when walking

Short of breath

Breathing felt like was running

Shortness of breath

Breathlessness

I think my diaphragm is paralyzed. Deep diaphragmatic breathing results in sharp right shoulder pain and diaphragm is not expanding on the right hand side

Hard to breathe

Mild difficulty breathing

Short or breath on and off but I have asthma

Dizzy, cough feels like yesring my chest. Running nose won't stop,hard to catch.breath

Difficulty taking a deep breath, heart racing and pounding

Severe back and rib pain, especially when breathing

Breathing

Some shortness of breath

Some discomfort with taking deep breaths

Shortness Breath

Pain when breathing in. Stabbing pain in back on left side.

Shortness of breath

Difficulty breathing

:Some' shortness of breath after walking dog.

5 hours after the injection I had 2 scary reactions. Increased heartbeat... 85 bpm compared to normal 65 bpm. Also had extreme shortness of breath. C-PAP machine eased my breathing, pulse came back down to normal after 4 to 6 hours. Was also woozy and disoriented during this time.

Shortness of breath

Breathlessness

Hard to breathe

Short of breath on exertion (slow jog)

Shortness of breath

Shortness of breath

Felt shortness of breath, but not severe, mild

Some slight shortness of breath

Shortness of breath

Severe asthma with shortness of breath & coughing continues, not vaccine related

Slight shortness of breath after waking.

Shortness of breath

Couldnt breathe

Slightly shortness of breath

Shortness of breath

Flushing, shortness of breath on exertion, loss of appetite, dry mouth

Difficulty breathing

I am feeling kind of out of breath but i have asthma so i don't know if its cause of that

Shortness of breath last night during sleep.

I woke up at 4am in need of taking a breath because I had stop breathing.

Short of breath

Shortness of breath but not as bad as yesterday. Its better

Sharp pains in chest area when breathing deeply

Short of breath

Tight chest/difficulty breathing last night and today.

Difficulty breathing, bruising at injection site

Shortness of breath, sore throat

Breathing is easier, almost normal

Sore throat trouble breathing

Difficulty breathing, wheezing, coughing extreme dizziness

Shortness of breath

Short of breath

Pressure in chest, throat 2 days. When breath in like a asthma feel but not having an attack

I have had strange stomach/flank pain consistently on my right side since Friday through Sunday, sharp whenever I took a deep breath. No idea if related symptom or not. Never had this before though.

Shortness of breath

I develop aszma suddenly had azsma whwn i was a child havent had know issues with my breathing niw abt 2 weeks got to follow up with a lung doc i dont know if the shot causeing my problem or what

Short of breath

Shortness of breath periodically

Difficulty breathing

Shortness of breath

Sore throat, breathing discomfort

Shortness of breath

Fainting out of breath

Shortness of breath

Shortness of breath

Shortness of breath, wheezing, slightly high blood pressure

Shortness of breath

Shortness of breath, chest pains, chest congestion, green phlegm.

Short breathing

Shortness of breath, fever, itchy/ puffy right eye

I have high blood pressure, heart disese, cronic stage 3 kidney disese, morbid obesity, shortness of breath, and I am on 8mg/day of coumadin.

Shornes of breath

When I first got the vaccine I had bad aches throughout my body. I felt nauseous and woozy for a little bit. I also felt fatigued and out of breath. After I took tylenol I felt way better. My symptoms went away within 1/2 a day of getting the vaccine.

Seem to have a little bit of a hard time breathing this morning for about two hours then the I was fine

Shortness of breath.

Difficulty getting a deep breath.

Shortness of breath an hard to breath

I felt like I was getting a cold past 3 days & night before last I woke up in middle of night & felt like I was being suffocated. I have asthma but was not congested, I just felt like I couldnt breath!
Today Im feeling much better thats past 3 days.

Cough, shortness of breath

Shortness of breath

Pain on my right shoulder blade hurts when taking in a deep d breath

Burning sensation while breathing heavily

Mild allergic reaction to facial moisturizer; less frequent shortness of breath; heart beat still more elevated than pre-vaccination

Slight shortness of breath

Hot flashes, when I exert myself I my heart races and I get out of breath and feel exhausted.

Shortness of breath, increased HR

Short of breath

Tight Chest, shallow breathing

Shortness of breath

Shortness of breath

mild & brief shortness of breath 11 hours after 2nd dose

Slight shortness of breath

Slight difficulty to breath.

Shortness of breath

Shortness of breath

Palpitations here abd there hard time breathing

Coughing and significant shortness of breath

Some shortness of breath

Shortness of breath

Shortness of breath

Immediately after receiving the vaccine, I felt light-headed and like I could possibly pass out. I told the nurse and she told me that I might just be anxious and that I should take some deep breaths. She checked my pulse and looked at my face and said that I looked ok. I took deep breaths and felt better. The nurse checked me a couple of more times. The same thing happened one more time after I got home. I have had a couple of panic attacks in the past and I felt the same way then, but I don't feel like I was anxious today.

Pressure on chest. Hard to take big breaths.

Congested breathing, not my normal stamina, cough, and sometimes tingling in my mouth.

A few skipped heart beats possibly...but no pain or shortness of breath.

Tightness around left lung. Affects breathing

Shortness of breath, coughing

Extreme chest wall tightness, making it very painful just breathing.

Breathing was different for a few hours after the shot: heavier chest and also harder to swallow lump in my throat

Shortness of breath, wheezing

Shortness of breath but may be due to allergies

Out of breath easy

Shortness of breath moderate

Breathing

Shortness of breath

Dizziness, short of breath

Bloated, difficult breathing

Repeated from the previous day's back pain, to where it takes my breath away at times!

Short of breath with exercise

Shortness of breath

Some shortness of breath with moderate activity

Hurts taking a deep breath (right lung)

One night I could feel my heart racing for about 2 minutes. I took several deep breaths and had no more problems.

Shortness of breath

Shortness of breath

Mild breathing discomfort

shortness of breath, sore throat, stuffy nose and sinus pressure with fluid in ears

Fever (T 102.2), shortness of breath

Shorten of breath

Shortness of breath after climbing stairs. Usually, I have no problem doing this.

Breathlessness

Slight intermittent shortness of breath

Feeling exhausted throughout the day. Hopefully it will pass after this week along with change in breathing. Taking Cingulars to help.

Dry cough, but no wheezing, felt like going to stop breathing 1 st day, worse feeling in my 74 years.

Cough and shortness of breath

Heart palpitations and feeling of shortness of breath

Pain on top of my stomach that radiated up my left side across my heart and took my breath away. It felt like a tugging sensation when I tried to walk

Shortness of breath after approximately 100meters of walking

I get out of breath just walking thru the house

Shortness if breath with mild activity. Off work currently after ICD placement for sudden cardiac death related to viral myocarditis from COVID.

Previously mentioned breathing issue and one transient episode of dizziness

Mild breathing tightness

Shortness of breath

Mild shortness of breath

Easily short of breath and very emotional since shot. Didn't know if related to report past days.

Pain breathing in

hard to get a good breath

Sore throat on fire!! Difficulty breathing. Went to the doctors today and diagnosed with COVID-19. I was exposed at least a week before I got vaccinated. I also have a frothy clear liquid coming in my throat

Still short of breath more than usual. Using inhaler

Breathing feels off

Slight shortness of breath and right eye feels funny..

Labored breathing

Shortness of breath

Shortness of breath

Shortness of breath

Shortness of breath, sore throat, cough, congestion

Lip swelling, chest pain with deep breaths

Feb 3, 2021 Received Moderna vaccine. About 5 min after started to have tingling/pricky feeling go down both facial cheeks, then around my mouth, both lips and the VERY top of my tongue. No rash, no swelling of tongue or face, no difficulty breathing, no fast heart rate. Was able to swallow water. Lasted about 25 minutes. Then that feeling stayed under my lower lip for an additional 35 minutes, but it was only slightly. Then took a Pepcid and it seemed to then go away from under my lower lip. I did not feel as if I need to go back in the pharmacy to inform them. When I got home and my lower lip still had the sensation. I did call the pharmacist and asked if I could take Benadryl. She said take both, but didn't take Benadryl. Was driving to my daughter's to stay the eve and night. Received vaccine at (b)(6) PA (b)(6) lot (b)(6). No problems now.

Abnormal breathing

Pre-Covid vax, usual heart rate (resting) between 68-72 bpm, but post- 2nd vax dose, increased to 84-98 bpm. At higher end, feels like heart is racing and I feel like I'm getting short of breath. This occurs randomly.

Shortness of breath

Difficult breathing

Shortness of breath

Shortness of breath, cough

Shortness of breath (moderate), tachycardia (moderate)

Shortness of breath

Slight difficulty in breathing

Breathing difficulties

Shortness of breath, tight chest.

I feel my baseline today which with pulmonary sarcoidosis is shortness of breathe and aches and pains but I feel I'm over the vaccine side effects.

Short of breath and coughing associated with strep dx

Chest pain/discomfort/shortness of breath

Mildly painful on deep breaths

Feels different when I take a deep breath. Like I just ran 10 miles outside in the cold.

Shortness of breath

Sinus burning, feels like Ive been punched in the face. Some discomfort when taking deep breaths; I feel out of breath

Breathing issues but i think its allergies

Short of breath

Shortness of breath

Short of breath

Still some shortness of breath and cough

Shortness of breath

Cough and shortness of breath

Occasional shortness of breath

Tired & get short of breath some with moderate walking a short distance. I also have COPD, and have been told I had some Heart damage from the Covid-19 this past Nov. in 2020.

Shortness of Breath with activity (I.e. walking)

Shortness of breath, chest tightness, itchy mouth

Chest pain and shortness of breath

Chest pain and difficulty breathing

Foggy mind. Pressure in upper chest; not so easy to breathe, but could be from allergies; hard to tell. Keep meaning to add ringing in ears in the updates, which hasn't stopped.

Coughing and shortness of breath

Shortness of breath, dry cough

A bit out of breath, Heavy feeling in my chest but no congestion

Shortness of breath

Severe restless leg syndrome that wasnt isolated to the legs. (Also arms and hips) muscle contractions/spasms in the leg and arms that made it unbearable not to move my body. Started at approximately 10pm 2/6/2021 these symptoms subsided at approximately 4 pm after many remedies used. Unable to sleep at all. Severe neck stiffness and pain. This pain was burning hot and searing pain. Didnt subside till 3 pm. 2/7/2021. Pain was around the back and sides of the neck. Tremors and shakes of hands and feet. Severe pain in feet and ankles when attempting to walk. Bones in feet and ankles felt like glass as if they were going to break. Needed assistance to walk. Heart rate exceeded 180 BPM just when going up stairs in the house. High heart rate and significant shortness of breath with exertion.

Shortness of breath

Heart seems to be racing all day. Dizziness and a little shortness of breath. Very hard to complete tasks at work as normal

shortness of breath

Out of breath

Shortness of breath

Very slight nausea, some slight tightness in breathing

Difficulty breathing last night felt like airways were closing. Lasted about 5 mins then was ok.

Chest tightness, slightly more difficult to breathe, mild throat swelling

Shortness of breath

Breathing a little heavier than normal

Shortness of breath and dry cough

Short of breath

Heart palpitations and shortness of breath

Shortness of breath when walking

Labored breathing post injection at 18 hours No appetite

Congestion, coughing, light headed, out of breath

short of breath

Brink of shortness of breath

Shortness of breath

Short of breath on exertion

Breathing better

Shortness of Breath

Short of breath/chest tightness as the day went

Physical labor causes some unusual heavy breathing. Onset of headache behind the eyes during physical labor.

Shoetness of breath

Slightly labored breathing

A little shortness of breath last evening

Immediately following and for a few hours after I believe my breathing was shallower, but not concerning. In the evening I believe I was more drowsy than usual.

One thing I have had a runny nose for 8 days and some shortness of breath also.

Shortness of breath

Shortness of breath

Shortness of breath

Falling short of breath

Flushing, cough, shortness of breath

Im holding my breath but the overall pain I have been experiencing for almost a year was gone today

Coughing and shortness of breath

Shortness of breath

Shortness of breath

tingling on cheeks, around mouth - no issues breathing and no swelling

Shortness of breath

Shortness of breath

Shortness of breath, bronchitis and congestion.

Shortness of breath

Shortness of breath very early this morning but now it is gone

High blood pressure, shortness of breath

Unrelated but feel like can not take a full breath in no WOB.

Tightening in chest; shallow breathing

Outside right breast pain with deep breathing.

I should have reported yesterday a feeling several times of wanting to catch a deeper breath. Yesterday I was out of breath once (only) in trying to speak with someone although I had only walked about 100 feet on level surface. That didn't happen today but occasionally I feel a need for a deeper breath, it happened when I was on a walk. I have atrial tachycardia but this has been unusual, I realized.

Chest pain, problems with breathing

Breathing has been a sort at times but nothing too serious

Cough, winded breathing, headaches, swollen throat

Mild shortness of breath

Tingling and shortness of breath

I wanted you to know that after my first vaccination my sinuses cleared up like they never had before. My chronic post nasal drip stopped. I can smell better and I can breathe through my nose. It's like a miracle. I just had my second dose of the vaccine this noon. About four hrs later I felt like I took a strong sinus pill and I continue to breathe through my nose clearly. This has hardly happened in my life. Ife and

Dizziness, shortness of breath

Breathing and chest tension, but I've had several medical appointments for my diabetes: education classes and blood sugar/glucose levels to determine my eligibility for a wearable test/medication meter. Nothing to do with the shot. I'm out of shape because I can't get out to walk, cold weather, snow, ice.

Dizziness, shortness of breath, increased heart rate

Short of breath

At times shortness of breath

Difficulty breathing due to asthma

Some restriction of airway. Difficulty breathing through nose.

Asthma/difficultly breathing

Tightness/shortness of breath

Shortness of breath

Very hard time breathing. Felt very heavy and weighted on my chest

Shortness of breath

Shortness of breath

Shortness of breath

Heart palpitations worse on and off and heart rate jumping troubling breathing

A little shortness of breath.

shortness Of breath

Difficulty taking a deep breath

Shortness of breath

Shortness of breath (mild panic attack feeling)

Shortness of breath, dont know if its related or not

Shortness of breath

Runny nose, shortness of breath upon mild activity but I do have COPD and I have muscle pain that started around injection sight and so far has traveled up through my shoulder and neck. The redness and itching is mostly on arm of the injection and on front of my neck. is

A slight cough and slight shortness of breathe

Breathing issues, coughing, wheezing

Short of breath, nasal congestion

Dizzy, short of breath

A little breathless

Felt slight short of breath which went away

Shortness of breath

Difficulty breathing

Blurry vision difficulty breathing

Shortness of breath off and on

Very mildly run out of breath due to weakness

Shortness of breath perhaps exacerbation of usual asthma

Shortness of breath

Rapid pulse and shortness of breath while at rest lasting 1 hour occurring 49 hours after injection

Coughing, shortness of breath & some wheezing today due to severe asthma, not vaccination.

Throat briefly became very warm shortly after receiving vaccine. No trouble breathing or swallowing, just oddly hot like I was drinking a hot beverage.

Blood pressure and oxygen levels have fluxusted a good oxy 95 but last evening it went to 90-91 I got up and took deep breaths and it went back up. Felt like anxiety attack

I have had an increased about of needed breathing treatments from day one.

Same slight breathing deficiencies on exercise. Mild

Shortness of breath

Wheezing shortness of breath

Shortness of breath

Short of breath with exertion

Chest tightness and hard breathing

Shortness of breath

Hurts when breathing in deep

I breathe is hard

Cough shortness of breath

Still have shortness of breath that comes and goes

Heavy chest/ breathing no asthma attacks

A little shortness of breath

Chest pain, shortness of breath

All of my skin feels on fire and Im short of breath....I am a Registered Nurse

Shortness of breath

Short for breath

A little Chest pain/a little shortness of breath

Labored breathing

Slight breathing difficulty

Shortness of breath

Did some work outs and it wasnt that it was difficult to breath but it did feel like I wasnt getting enough oxygen

Difficulty breathing

Trouble breathing, chest tightness

Unable to take a deep breath

Shortness of breath

Couldn't breathe

Out of breath

Heavy breathing

Chest pain, heart palpitations, shortness of breath

Labored breathing

I have COPD but no smoking. The last week I have had increased coughing and loss of breath

Short of breath Do i have Covid

Trouble breathing

Shortness of breath

I woke up this morning with a cold sweat. Ive been really tired and havent felt 100%. I realized the abdominal discomfort/ feeling is under my left rib cage area and I really only feel it when I sit in certain positions or take a deep breath in one of those positions. I took ibuprofen later in the evening in hopes of feeling 100% tomorrow.

Dizziness; short of breath

Shortness of breath after 30 minutes slow walk - this was not the case pre vaccine.

Shortness of breath

Shortness of breath

Little tightness in my chest so slight restriction on deep breaths

Shortness of breath with mild exertion

Shortness of breath, wheezing

Chest pain, occasional shortness of breath

Short of breath the last 2 days.

Slight shortness of breath while taking extended walk ing

Short of breath with exertion from moving through house. Sternum and rib pain for a couple hours.

Shortness of breath

Little short of breath last two days doc called in a inhaler

sometimes it's been hard to catch my breath after normal exertion.

Soreness of roof of mouth today. But could be from breathing sawdust yesterday while working.

Pain when I took a deep breath

Moderate URI symptoms. Nasal congestion and runny nose making it difficult to breath. No SOB
shortness of breath

Still has breathing issues worse than usual

Shortness of breath

Asthma today the 9th, difficulties to breath

Shortness of breath

Chest breathing

Slight shortness of breath

Dizziness shortness of breath

Harder to breathe

Coughing from shortness of breath, lightness in lower lung area

Difficulty catching a deep breath

Shortness of breath

Shortness of breath

Mild Shortness of breath

Some mild shortness of breath and congestion

Shortness of breath

Shortness of breath

Shortness of breath

A little difficulty breathing

My muscles in my body are out of control. The ones on my back, which is concentrated on my right middle back are taking my breathe away when they spasm. Now my arms are joining in and it's pain that is arresting. Not sure what to do?)

CONSTIPATION!!! Since day one... I have ibs...gastric bypass bass surgery with hypoglycemia GERDIve been taking stool softeners and laxatives this is unreal!!!! I usually go at the least twice if not 4-5 times a day. Im drinking and pushing fluids. Still no appetite. Some how its weird but my memory seems better. I tested neg in March probably tested too soon but as a nurse I really thought I was about to die. Had hand shimmers weird memory confusion ... like I was in a fog. But now I feel like my minds back. Thank the universe the GODs what ever I still have these moments hot flash SOB trying to breathe calming my self knowing Im nurse I have the tools I know the next step. But then I think about the patients... as a high risk OB nurse at a school of medicine... they dont know what to check... wait ... do they even has a blood pressure cuff , a pulse ox or even a glucometer .. Unfortunately maybe not the struggle has been real... the red tap... etc And then our pts with our insurance... they are sorry screwed. Most cant even get their meds to stay alive... or god forbid they had covid lovenox to help prevent them from dying from a blood clot. This is too scary ... keep wearing my mask Ill keep helping my pts searching for resorouces.

Shortness of breath that got progressively worse after 15 minutes of injection

107 pulse, shortness of breath

Shortness of breath

Difficulty breathing

Cough up very slight amount of phlegm about every 30-40 min. One cough clears it. No trouble breathing.

Shortness of breath

Breathing is still different since having covid-19, & Reduced energy

Shortness of breath and chest tightness

Over the course of the second and third day after my vaccination the pain and slowly crept from the injection site through my body up my neck to the leg on the same side to the other leg to the other arm. It was kind of scary like it was taking over my body. I had one bout of coughing and shortness of breath that was also kind of scary. Fatigue. Dizziness a bit today no choice for that so I just chills headache because it was the closest thing.

Cough & shortness of breath

Difficulty Breathing

Some shortness of breath mild

Breathing problems during the night. Slight fever.

Shortness of breath

Shortness of breath but improved since yesterday

Yesterday had breathing problems and irregular heart rate.

Slight shortness of breath

Breathing issues

Shortness of breath

Itching, hives and some breathing issues

Slight Short of breath

Shortness of breath

Shortness of breath

Shortness of breath

Trouble breathing every day since vaccine

Short of breath

Shortness of breath

Normal shortness of breath due to emphysema

severe pain in left arm overnight, went away with breathing pad this am

I'm in the hospital for shortness of breath which I have been reporting for a week.

Breathing Difficulties that Night Til The Nxt While Day of Fri /Feb.5,2021

Breathy when walking

Slight shortness of breath but maybe because I was talking to another patient

Shortness of breath

Increased intermittent shortness of breath

Had a brief second of sharp/heavy pain in my lungs- lasted only 10 seconds or so- but took my breath away. Chest pain gone now

Some shortness of breath in the morning

Short of breath

Head foginess/disorientation, coldness in injection arm hand and fingers, minor esophagus restriction, tightness of chest and minor labored breathing

Scratchy throat, light cough, mild shortness of breath, stuffy head

Short of breath, tachycardia 24-48 hours after 2nd vaccine

Mild shortness of breath

Left lung hurts when taking deep breath-started yesterday

Trouble breathing. CopD, ra lung, bronchiectasis problems

Shortness of breath

Shortness of breath and dizzy

Mild chest pain with heavy breathing

Shortness of breath

Shortness of breath

With both shots the first minute I had shortness of breath but then it went away after one minute

I didnt know what shortness of breath was and I actually had that for the first three days after the second vaccine

Shortness of breath like mild asthma

Chest/lungs feel irritated when I take a deep breath it make me have a dry cough

A little short of breath

Chest was so tight it was difficult to breathe

Shortness of breath

Not today or but the day after I had all of the above besides those including shortness of breath

Shortness of breath edema

Slight shortness of breath

Trouble breathing

Breathing seems easier. Lungs are more sensitive to cold air, room temp feels like im breathing in freezing air.

Short of breath a couple times today

One day after passed out, and for next two days short of breath while walking etc

Still have shortness of breath and pain in left lung

I am Experiencing trouble breathing

Left side of my body hurts, and short breathing and breast hurt

Difficulty Breathing

Chest wall pain with shortness of breath

Asthma - hurts when i breath

Shortness of breath

I had a mild reaction (hypertension, short of breath, diaphoresis) and was kept for monitoring and given 25 mg benadryl

Cough, shortness of breath, dizziness

APPENDIX G : V-SAFE FREE TEXT REPORTS : Keyword “respirat”

Flareup of respiratory allergy

upper respiratory + lungs congestion and phlegm. Also, I tested positive for Covid today with Rapid Covid test.

Heart palpitations and fast respirations

Yesterday I had anaphylaxis with stridor and respiratory distress was treated in ED

Upper respiratory congestion, with mild productive cough(modest amt clear, mucous secretions)

Little headache, little upper respiratory

Respiratory allergies

I have a Upper Respiratory Infection, not related to my vaccine

Sore throat, slight chest tightness, like the beginning of a respiratory infection. Also, the symptom check from yesterday should change headache to severe. It was 8-9/10 and made me tearful by 8pm last night. Also had a fever and woke up in a pool of sweat early this morning. Yesterday, I was barely able to get out of bed. But I am feeling 95% better today.

Respiratory

Upper respiratory tightness/ feeling of getting a cold

Continuing to cough some with upper respiratory congestion.

She has had the above symptoms along with shortness of breath and, respiratory difficulties prior to vaccine.

Mild upper respiratory congestion remains, occasional cough, some production of sputum

Still have eye lid dropping but a little better than yesterday. Still weakness in legs. Respiration slightly diminished.

Falta de respiracion

Rapid resting HR/ Respiratory rate

I've had upper respiratory allergy symptoms-itchy nose, sneezing-that I think are related to the headache and not related to the vaccine.

I *always* have joint pains and respiratory problems

Coughing and respiratory issues

Respiratory distress

Possibly coming down with upper respiratory infection.

Dry cough & upper respiratory infection

Feel like Upper respiratory infection starting

Sore throat; upper respiratory irritation

respiratory pressure and occasional cough, similar, but milder, than I felt the second week I had covid. Noticeable but not debilitating.

Sore throat, went to doctor yesterday. Upper Respiratory Infection

Respiratory

Congestion- mild cold-like upper respiratory symptoms

Symptoms of upper respiratory infection.

Respiratory issue moderate but continuing to slowly increase

Respiratory exacerbation of autoimmune condition

Went to doctor, treated for upper respiratory infection

Respiratory difficulties.

Not today but upper respiratory (sneezing runny nose) for two days following shot

I have a upper respiratory infection, I get every year around this time, I am on antibiotics

Slight upper respiratory congestion, possibly due to common cold

Mild respiratory

Respiratory congestion in my chest, occasional hacking cough but nothing is coming up.

I currently have an upper respiratory infection. I had a Covid test today and waiting on results

Upper respiratory symptoms cold like.

Sinus/chest congestion, did not work today or tomorrow, went to dr. Negative covid/flu.

Sinus/upper respiratory.

Moderate Short of breath pain in upper respiratory area

Respiratory

Last week I was diagnosed with bronchitis and fluid by my ears. I was coughing a great deal. Then I had a freak accident by my chair and hurt my ribs. Yesterday I went to the Respiratory Clinic. The chest X-rays showed I had two broken ribs. They are straight breaks so no concern that anything would pierce my lung. This morning they called and said my Covid test was positive. I am supposed to quarantine until I'm finished coughing.

For a couple of days post-vaccination, I experienced slight respiratory involvement, as though my asthma had had modestly "flared up", with an occasional non-productive cough, some tightness in my chest, all of which subsided after a few days. Still, however, I have some itching at the injection site, especially if I just 'touch' or 'rub' the area. It's fading now.

Trachea felt irritated like a start of a lower respiratory infection.

Presi³n en el pecho leve y un poco de dificultad al respirar

Symptoms of an upper respiratory infection. Fever sore upper lip

Sneezing, congestion, etc. like an upper respiratory condition .

Tongue and throat itching. No respiratory problems.

Still having respiratory discomfort. X-ray Friday to make sure previously diagnosed covid-related pneumonia hadn't rekindled.

Upper respiratory congestion, ringing in ears

Upper respiratory symptoms

Upper respiratory congestion

Sinus headache but I have respiratory allergies.

Upper respiratory issues

Respiratory discomfort, tho not as bad as yesterday.

Still on antibiotics for upper respiratory infection

Respiratory tightness, I am an asthmatic

Al caminar no puedo respirar bien me canso pronto

Currently have an upper respiratory infection. Tested negative for Covid

Developed a upper respiratory infection, a cold. Mild cough when speaking or exercising.

Excess mucus in respiratory track.

Slight respiratory issues

Almost went into respiratory failure. Arms & legs shaking real hard. HB

Respiratory issues

Upper respiratory

I was diagnosed with covid yesterday. So i was infected when i received the vaccine. I had to go to the er with respiratory distress. This is where i was diagnosed.

I think I already had a respiratory virus before the vaccination, so it has made the tiredness feeling even greater

Respiratory issues remain.

nasal congestion, upper respiratory tightness

I think Im getting a upper respiratory infection

Respiratory congestion

Respiratory issues

now alot of upper respiratory issues

Difficulty breathing from bad respiratory infection

Breathing much better than yesterday when he almost went into respiratory failure

I was very ill within 12 hours chills ,respiratory symptoms like heavy chest stayed in bed 2 days and had to call in sick on Monday .Chilled all night

Upper respiratory symptoms, possibly sinus infection. Coughing a bit of yellow mucus.

Slightly congested upper and lower respiratory

Respiratory tightness. Asthma like.

Respiratory issues

Cold nose, respiratory

Tearing eyes, runny nose, rapid respirations

I'm getting over an upper respiratory virus

Mild respiratory symptoms

I have the common cold upper respiratory and drainage with a cough. I assume I got this common cold from my 2 youngest grandchildren!

Very swollen/painful left underarm lymph node, extremely elevated Nightly RHR and respiratory rate.

Respiratory issues

respiratory discomfort

I have a congested upper respiratory, it feels like a natural progression from after shot symptoms.

Tightness of my respirations

Respiratory tightness

Upper respiratory infection

Respiratory shortness of breath

Upper respiratory congestion

Respiratory

Cough and respiratory symptoms

Respiratory

I have some respiratory symptoms that may be related to ongoing conditions.

Uncontrollable shaking, increased blood pressure, respiratory distress - went to the ER last night and today

Respiratory distress and poor appetite

On an antibiotic for upper respiratory infection.

I began Amoxicillin yesterday for phlegm congestion in throat and slight discomfort like a respiratory or bronchitis. No coughing except to clear the throat.

Had some upper respiratory drainage, icky stuff I had to cough and spit out. But one that brief episode was over, seem to be okay.

Respiratory through early today

First day it was like a full blown respiratory response almost like an allergic reaction. I took zyrtec and was better. Then was hot for a few hours then cold. Arm itched but not enough to scratch. Headache for 5 minutes. Second day arm and legs were sore. Also lower back sore. Extreme fatigue for two days.

Elevated heart rate, elevated blood pressure, swollen tongue, lightheaded, difficulty speaking, sweating, elevated respiration rate

Upper respiratory congestion

My asthma is flared up or something similar. Upper respiratory burns. End of nose has tingles.

Upper respiratory congestion is improving.

Upper respiratory infection. I get bronchitis 2-3 times a year. I think it's that and not related to the vaccine.

Some respiratory symptoms that maybe related to ongoing conditions

Sinus and respiratory

Respiratory stuffiness/fullness

Upper Respiratory Infection

Sore throat, some stuffiness and a little upper respiratory congestion feeling

Still mild wheezy cough but upper respiratory congestion is mostly gone.

Excessive Mucus upper respiratory tract, need to be coughed up

Allergy-like upper respiratory: sneezing, runny nose, scratchy throat (I had them yesterday too and forgot to report them)

Respiratory issues

I am coughing a lot. Wondering if my resistance is down & I caught a cough or upper respiratory?

Slight respiratory congestion, possibly related to allergies

Developed hives next day after shot. Hives were only on respiratory tract. Same hives I get when I have upper respiratory infection. They resolved in a day and a half. After the 1st dose I got them too on day 3 but thought it was coincidence. Just found it interesting.

Cough and slight shortness of breath. I have no history of asthma or respiratory issues

On antibiotics for upper respiratory infection

Respiratory issues which may not be a result of the vaccine

I have covid. Am experiencing respiratory distress.

Bronchitis upper respiratory infection unrelated to vaccine

Slight irritation of throat and feeling upper respiratory irritation might develop - no cough or wheeze

Respirations were quick (17/min) and shallow while resting

Upper respiratory congestion with sputum

Today I feel worse & feel like I'm getting a bad upper respiratory infection. Yesterday I felt really good. It feels like it's trying to settle in my chest. I don't feel like doing anything except sit on couch.

I have covid. I am having intense respiratory issues.

Some respiratory breathing issues the past 3 days, I am an asthmatic, so I had to start taking my inhaler

Respiratory drainage

Tachycardia, high respiratory rate, dizziness, tremors

Upper respiratory tightness, cough

Weakness coughing and some respiratory distress

Nasal congestion upper respiratory congestion

Respiratory

Respiratory

Little more coughing from my respiratory system from having covid-19. Tested negative on 2/2/21

Tengo fibrosis pulmonar y siempre siendo cansancio y fatiga por no poder respirar bien cuando estoy en movimiento.

Excess nasal and upper respiratory mucus

Upper respiratory infection

12 hours after second Moderna, I had fever with Tmax 104, severe myalgias, HA, nausea. This improved by 48 hours. My first check in was second day after vaccine and did not give me a chance to report high fever on day 1. I had no respiratory sx and am fine now.

APPENDIX H : **V-SAFE FREE TEXT REPORTS : Keyword “dyspnea”**

Dyspnoea

Dyspnea

Dyspnea on exertion

I didnt have the option to record symptoms the day after receiving the vaccine but had significant fatigue, mild exertion dyspnea, and mild headache on Saturday 1/23 after receiving dose 2 on 1/22

Mild dyspnea

Allergy induced Asthma- but improving. General dyspnea but oxygen levels normal. Edema and mild crepitus in arm below injection. Weird nerve sensations in hand- likely related to swelling in upper arm.

Dyspnea

Chest pain, dyspnea.

So inc dyspnea he pf copd

Dyspnoea

Mild dyspnea with exertion

Pre-existing / underlying condition - Dyspnea / shortness of breath - more severe

Tachycardia , dyspnea

Mild on and off dyspnea, metallic taste

Dyspnea, dizziness

Dyspnoea, chest tightness

Tachycardia dyspnea

Dyspnea, tachycardia.

Some dyspnea

Cough, runny nose and dyspnea

Decreased appetite .the tiredness is severe but not exhaustion. A little dyspnea

Dyspnea , tachycardia

Dyspnea on Exertion

Dyspnea , tachycardia

Sinus pain/pressure, dry cough, dyspnea with mild exertion

Dyspnea on significant exertion, cough, expiratory wheeze, loss of appetite

Cough & dyspnea

Slight dyspnea

Dyspnea

Dyspnea

Mild dyspnea: coughing

Cough & mild dyspnea

Blister near injection site, dyspnea on exertion

Dyspnea

Frequent coughs and nocturnal dyspnea

Dyspnea on exertion secondary to current asthma episode

Arm soreness started 2 hours after vaccine, fever 12 hours after, chills and severe body pain 16-17 hours after, severe headache 20 hours after accompanied by temporary dyspnea

Dyspnea hypertension tachycardia

Dyspnea on exertion

Burning on different sites of body , ear pain, mild dyspnea

Dyspnea

Dyspnea on exertion

Dyspnea

Dyspnea

Still having asthma exacerbation with dyspnea, wheezing and cough

Dyspnea upon exertion
