HiTech Minerals and Chemicals Group

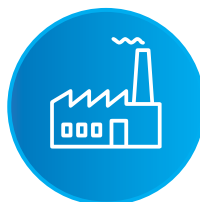

HiTech Minerals Group (HTMC) is acknowledged as India's leading non-metallic Industrial Minerals House. From our abundant and high-quality mineral reserves, we mine and process various minerals for wide range of Industries and Applications. All minerals are processed and curated in dedicated and Industry specific manufacturing facilities to enrich and enhance the desired and relevant properties. The Group also constantly endeavours to upgrade the infrastructure and enhance the offerings to meet and exceed Customers' and Industry requirements.

The Group enjoys the trust and confidence of customers across the globe built over decades of Service, consistent Quality, dedication and professionalism and unwavering commitment to service the customers wherever and whenever.

The Group also takes pride in having a committed and professional team who work with full freedom to provide solutions and service the customers with full dedication and knowhow.

Vision

We aim to be a leading Minerals & Chemicals Conglomerate; committed to ethical & responsible business practices; delivering exceptional quality to a diversified customer base; achieving this through the collective energies of our people.

Mission

Our Mission is to become that one big player in a highly fragmented industry through increased aggregation, catering to industry wide customers through just in time supply chains at optimized cost by employing our considerable and evolving technical, manufacturing and logistics capabilities.

Leading Minerals
PRODUCER & SUPPLIER

THE CHAIRMAN SPEAKS

"I have never dreamt about success. I have always worked for it." Welcome to HiTech Minerals and Chemicals Group. I would like to give a note of thanks to all those who have been an integral part of this wonderful journey to steer the success story of the Company which has progressively been built upon its core objective to benefit customers in a responsible way.

**CORE Verified
Mining Operation**

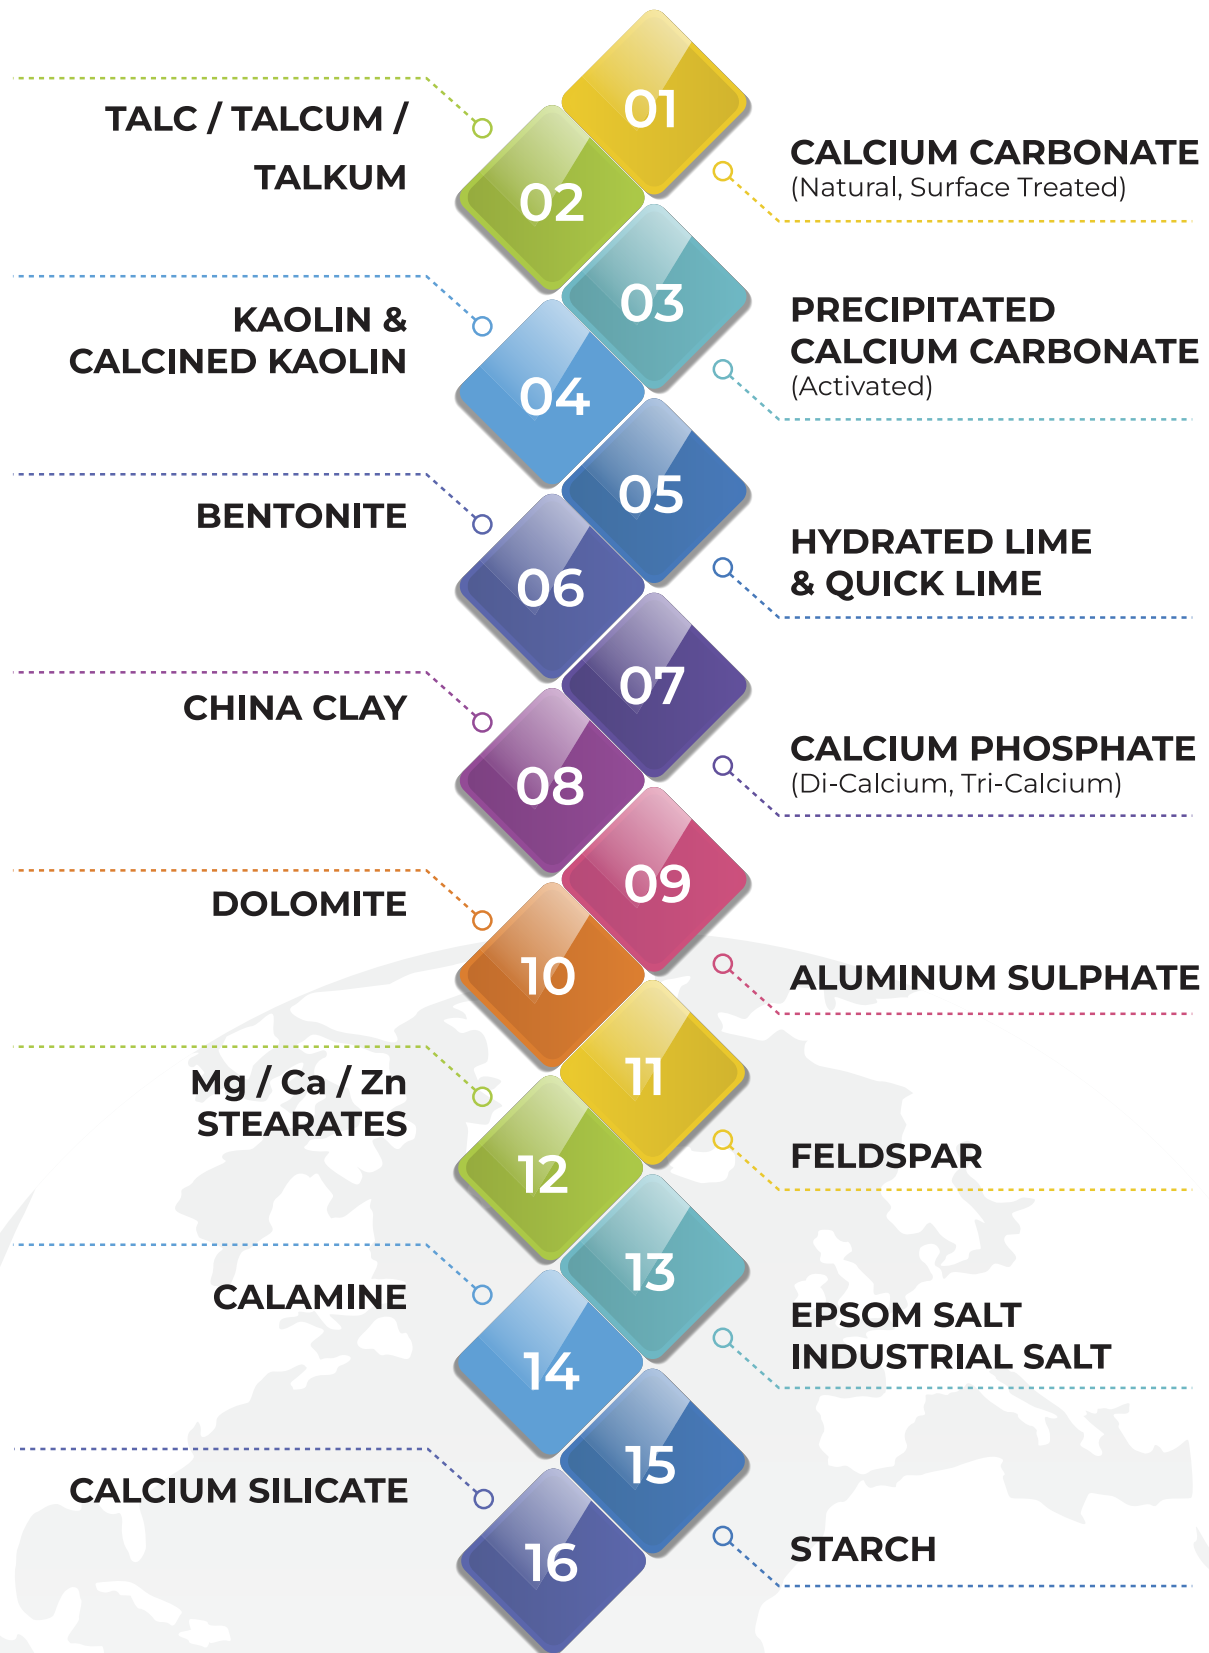

With a team of qualified professionals filled with the right business acumen, today, HTMC Group is fully geared to meet the demands of the global market. We have laid a strong foundation in the markets we operate with our vision to produce high and consistent quality everyday use minerals. All our business operations are proportionally related to our primary goal of placing customer on top with an unwavering commitment to offer the best to them. Every member of the group works dedicatedly towards realization of this vision. The core principles and values of the company continue to be the foundation for HTMC Group. Additionally, our environmentally friendly approach is consistent - we have been actively pursuing renewable energy sources, conserving precious resources water and preserving the environment around our mining & industrial sites. We embark on strong focus on improving our services and set new benchmarks to bring about paradigm shift, thus keeping our organization always ahead of the curve. The fundamental pillars of our success remain our skilled, dedicated, talented and motivated people who continue to harness their diverse synergies and give just the very best to help the company remain ahead of curve. I take this opportunity to thank my team who are committed to stringent delivery standards and deliver the one thing that our customers want most - 'QUALITY GOODS AND SERVICES'. I am confident that our pioneering entrepreneurial spirit will help us to expand our global footprint and we will continue to advance on the growth path.

Sandeep Baid | Chairman

OUR PRODUCTS

With deep experience in Industrial Minerals backed with our own Mines and state of the art Manufacturing faculties, we are able to offer best in Quality and impeccable products for wide range of Industries and Applications.

ALL MINERALS UNDER **ONE ROOF**

With decades of experience and professional team, HiTech Minerals Group has deep and wide exposure and experience of mining and processing various Industrial Minerals. Our combined expertise and understanding of minerals give us an added advantage to service bulk to small customers across industries and geographies. With industry specific dedicated processing units, the group is able to meet and exceed the industry specific requirements in terms of Infrastructure, Quality and Documentation. Clubbed with product specific expertise, the Group can answer and solve any technical issue or challenge our customers may face.

INDUSTRIES WE SERVE

HiTech Minerals Group cater to wide range of industries and product applications with wide range of minerals sourced from our captive & leased mines and processed in our dedicated manufacturing units. With our deep understanding of minerals, we also endeavor to explore and widen the industrial applications of our offerings in a sustainable way there by staying relevant for a long haul.

FOOD

INFRASTRUCTURE

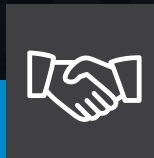

HiTech Minerals and Chemicals Group has state-of-the-art Infrastructure across its entire operations and the facilities are continuously upgraded with the latest technologies to address requirements of new materials and applications, demanding quality and hygiene standards and also meet the growing volume requirements.

- All Food, Pharma and Cosmetic Production on dedicated SS Lines
- Entire Operation under Positive Pressure
- Dedicated Applications Labs and R&D Centre
- In House Sterilisation Facility
- In House Micro Lab
- Fully equipped Instrumentation lab
- 24 x 7 Operations 365 Day a year
- InHouse Shipping and Logistics Team
- All exports Stuffed and Sealed in the Factory
- Full Documentation and Technical Support
- IP/BP/USP/EP/JP/FCC compliance across materials
- US DMF Registered Manufacturing
- CORE compliant Mining Operations

QUALITY ASSURANCE

PRINCIPLES OF QUALITY POLICY

Putting the safety of our consumers and our products first

We have mandatory quality standards in place against which compliance is verified through regular audits and self-assessments. These standards ensure we design, manufacture and supply products that are safe and of excellent quality.

Putting consumers and customers at the heart of our business

We actively engage with our customers translating their needs and requirements into our products and services, thus creating customer value wherever we position our products.

QUALITY IS A SHARED RESPONSIBILITY

Quality and consumer safety is the responsibility of every employee of our company. The drive for Quality, in all that we do, is a passion reflected in our brand development, manufacturing and customer service processes. We provide leadership, promote transparency and share best practice and we have effective working relationship with suppliers and business associates.

QUALITY CONTROL

OUR COMMITMENT

To win consumer's confidence and loyalty, we need to consistently deliver safe products of excellent quality. We understand different needs of our consumers and strive to develop and deliver superior products to ensure we remain the preferred choice.

And by applying consistently high standards, we are able to do things right first time, cut waste, reduce costs and drive profitability.

BUILDING AND MAINTAINING EXCELLENT SYSTEMS TO ENSURE THE QUALITY AND SAFETY OF OUR PRODUCTS

We proactively and continuously develop and upgrade our systems and process to ensure Quality and Safety throughout the whole value chain. We provide appropriate training and resources, and ensure that we fulfill our quality objectives and targets. We regularly measure and improve our performances using both internal and external benchmarks.

We actively upgrade our quality policy and have a quality assurance department in place to ensure consistency and visibility of quality standards, processes and performance indicators across our entire business at all levels.

CERTIFICATIONS & APPRECIATIONS

HTMC continues to embark on new journey with sheer dedication and passion to excel. In addition to providing innovative, high quality products and services to our clients, the company has certifications which assures that the very best will reach out to its customers.

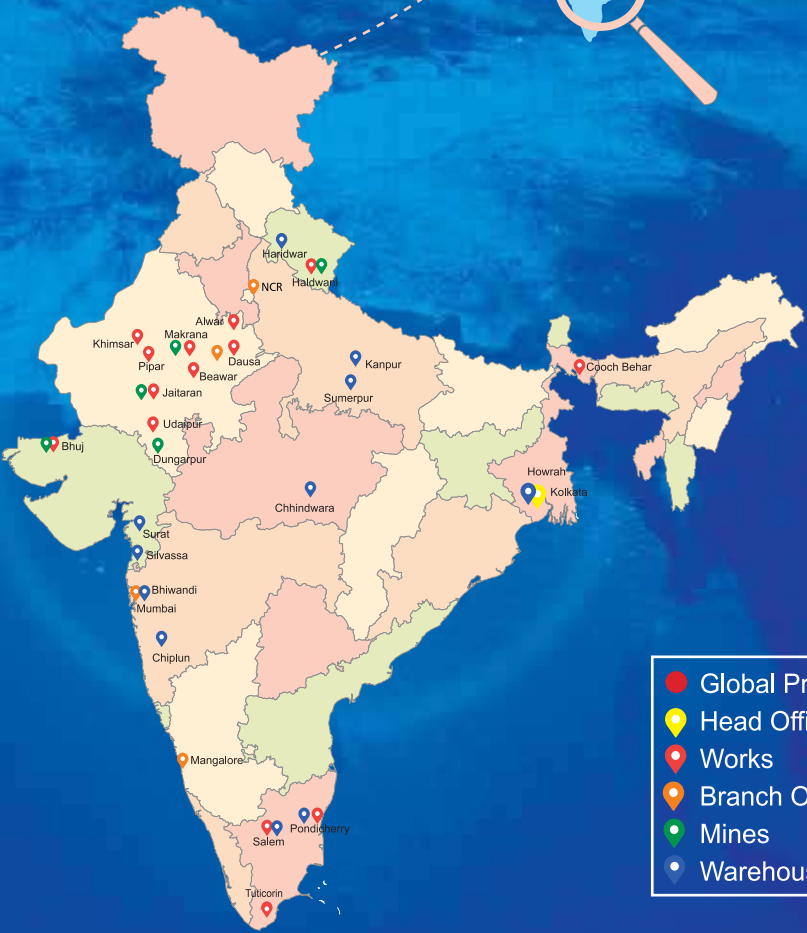

OUR CHANNEL PARTNERS

Given our large operations and wide market we do have reputed and dependable partnerships across geographies to handle Bulk Supplies and JIT supplies to our customers. Some of these associates are specialized and dedicated to specific and critical industries like Food, Pharma, etc. in compliance with local regulations and requirements.
