# ✸ BLUEDIAL

motionics
Motionics, LLC

Bluetooth Low Energy technology

Multi-gage capability

Data Saving

Continuous recording and plotting

Rechargeable

Multi-platform software capability

Precise measurement. Entirely wireless.

MultiGage

Motionics software allows the user to monitor multiple measurement devices at once on an iOS, Android, or Windows device.

You can plot the data in a user-interaction-enabled graph, and save and export data. Data can be recorded continuosly or with single capture.
