# TENABLE UNIVERSITY INSTRUCTIONS

## Log in to Tenable University

1. Using an HTML5-compliant browser, navigate to  
<https://university.tenable.com/>

If a Tenable Support Portal or Tenable Community login exists, the same credentials can be used to access Tenable University. Otherwise, click the **Create an Account** tab to create a new account.

CUSTOMER NOTE: Please login with your Tenable credentials. If you need to create an account, please use the 'Create an Account' tab.

Log In      Create an Account

Don't remember your password?

If you are a Partner, [please go here](#) for registration and sign-in.

LOG IN >

## Setting Local Time Zone and Updating Profile

Once logged into a Tenable University account, updating the user profile to the local time zone is recommended.

2. Click the **User Menu** in the upper-left corner of the main dashboard.

Welcome to Tenable University!

Tenable now offers Specialist Certification for Tenable Vulnerability Management, Tenable Security Center, and Tenable OT Security! You can learn more about Tenable's education and certification program [here](#). Premium content requires an enrollment code to access, and this code is provided after purchase. For pricing or to make a purchase, please visit our [website](#) or contact [sales](#).

On-Demand Courses

Product Introduction (Free)

Introduction to Tenable Cloud Security      Introduction to Tenable One      Introduction to Tenable Attack Surface Management

EN      EN      EN

3. Then, click the **My profile** icon.

4. On the next screen, click the **Preferences** section and select the local **Time Zone** from the drop-down menu.
5. Click the **Save Changes** button.
6. Click the **Personal Info** section to enter the **First** and **Last Name** in the appropriate fields.
7. Click the **Save Changes** button.

## Using an Enrollment Code

When training is purchased, enrollment codes are sent via email to the organization's primary contact. This email contains all enrollment codes for as many instructional seats as purchased. Here is an example of the email:

### Tenable Training Enrollment Codes

Thank you for your recent Tenable Education purchase.

Your enrollment code(s) are:

**Enrollment Code(s):**

If you are not the end-user, please forward ONE enrollment code each, and the instructions below, to the individual(s) who will attend. For questions or assistance, please contact your CSM. You can find their name in your [Support Portal](#).

In addition, you can access your enrollment codes through the [Tenable Community](#).

**INSTRUCTIONS:**

Your training **must** be completed before the VALID THROUGH date noted next to each enrollment code. This means self-enrolling and attending the course prior to the 'valid through' date.

For ILT and OD Courses: - Create or login to your [Tenable University](#) account and apply your training Enrollment Code.

For Written and Practical Exams: - Create or login to your [Tenable University](#) account and apply your training Enrollment Code.

For a detailed walkthrough of the process, please refer to our enrollment [instructions document](#).

Reference Order ID: 268781727

Reference PO Number: 123

Since an enrollment code is assigned to the individual who uses it, one code should be distributed to each person wishing to attend training. Then, *that* individual needs to use the enrollment code. Enrollment codes are entered on the [My Enrollment Codes](#) page of Tenable University.

8. For Virtual Classes or On-Demand classes, enter the enrollment code in the **Redeem a Code** field, and then click the **Redeem** button. For certification exams, **do not enter enrollment codes here**. Instead, follow the [Certification Instructions](#).

## Enrollment Code Management

Redeem a code, choose your course, and manage enrollments.

Refresh

### Redeem a Code

Enter your enrollment code

Redeem

After a successful redemption, your codes will appear below.

[View Enrollment Code Help & Instructions](#)

If the provided enrollment code is valid, a confirmation will appear indicating that it has been redeemed.

## Enrollment Code Management

Redeem a code, choose your course, and manage enrollments.

Refresh

### Redeem a Code

Enter your enrollment code

Redeem

After a successful redemption, your codes will appear below.

**Code redeemed successfully!**

[View Enrollment Code Help & Instructions](#)

If the code is not accepted, please contact Tenable at [university@tenable.com](mailto:university@tenable.com).

## ON-DEMAND INSTRUCTIONS

Once the code is redeemed (see instructions above), a course can then be selected for enrollment. In the screenshot below, the 'OD' type indicates that any of the available premium on-demand courses may be chosen.

KevinUniversalTest11042025-od	OD	Redeemed	Nessus Fundamentals On-Demand	08/01/2025	08/01/2028	Actions locked for On-Demand
UniversalTest10142025-ilt	ILT	Redeemed	Tenable Security Center Specialist	08/01/2025	08/01/2026	<a href="#">Reset Code</a>

Once the desired course has been selected, click the **Enroll** button. Please note that the course cannot be changed after enrollment.

## VIRTUAL CLASS INSTRUCTIONS

Once the code is redeemed (see instructions above), a course can then be selected for enrollment. In the screenshot below, the 'ILT' type indicates that any of the available premium instructor-led courses may be chosen.

KevinUniversalTest11042025-od	OD	Redeemed	Nessus Fundamentals On-Demand	08/01/2025	08/01/2028	Actions locked for On-Demand
		<b>Enroll</b>				
UniversalTest10142025-ilt	ILT	Redeemed	Tenable Security Center Specialist	08/01/2025	08/01/2026	<b>Reset Code</b>
		<b>Enroll</b>				

Once the desired course has been selected, click the **Enroll** button. Next, click the **Choose session** button from the pop-up to select the desired date and time to attend. Additional details can be found in the [Register for a Session](#) section.

**You're enrolled!**

You're enrolled in Tenable Security Center Specialist (Instructor-Led). Next: open the course page to schedule a session. If you aren't yet ready to schedule your session, you can come back here later.

**Choose Session** **Done**

## Change a Class

If an instructor-led course was selected and a different class is preferred, the course can be unenrolled from and another selected, provided that:

- The code has not expired, been completed, or been marked as not attended
- The previously chosen session dates have not passed

**For example**, if switching from a Tenable Vulnerability Management course to a Tenable Cloud Security course, click the **Unenroll** button to enable selection of an alternative instructor-led course.

## Register for a Session

Once enrollment in the desired course is complete, registration for a course session is required.

1. Click the course name in the table to schedule it.
2. Click the **CHOOSE SESSION** button:

**Enrollment options**

**Enrolled**

**Missing session enrollment**  
Select a session and enroll

**CHOOSE SESSION**

**Course details**

**Time to complete**  
90 days from your last session

**Course ID**  
W-602L41

3. From the list, select the desired session and click **CONFIRM**.

4. The status of the enrollment code will update to reflect the scheduled session.
5. Select the desired session, noting the region and the dates on which each session is offered.

 Tenable Security Center Expert

Participants in this premium two-day course will build on their previous Tenable Security Center Specialist instruction to advance their usage of the Tenable Security Center platform's powerful capabilities. Content for the instructor-led course includes deploying Tenable Security Center in large and extremely large-scale environments, tuning Tenable Security Center for maximum performance, using the Tenable Security Center API with pyTenable, and importing Tenable Security Center data into Tenable Lumin for Cyber Exposure risk analysis.

**Please Note:** Classes listed in the **LATAM** region will be taught in Spanish.

Tenable Security Center Expert

Session: [VIRTUAL | America/New\\_York | AMER | SC EXPERT](#)

This course is not yet completed.

[OVERVIEW](#) [CONTENT](#)

⚠ You must attend at least 2/2 events to complete this session

Date	Session	Time	Location
07/24/2024	Day 1 - VIRTUAL   America/New_York   AMER   SC EXPERT	08:00 AM - 04:00 PM (GMT -05:00) America/Chicago	
07/25/2024	Day 2 - VIRTUAL   America/New_York   AMER   SC EXPERT	08:00 AM - 04:00 PM (GMT -05:00) America/Chicago	

**Course Description**

Participants in this premium two-day course will build on their previous Tenable Security Center Specialist instruction to advance their usage of the Tenable Security Center platform's powerful capabilities. Content for the instructor-led course includes deploying Tenable Security Center in large and extremely large-scale environments, tuning Tenable Security Center for maximum performance, using the Tenable Security Center API with pyTenable, and importing Tenable Security Center data into Tenable Lumin for Cyber Exposure risk analysis.

**Please Note:** Classes listed in the **LATAM** region will be taught in Spanish.

**Please Note:** Self-enrollment in a session is available until 11:59 PM on the day before the course start date (in the session's time zone). Once the start day arrives, registration closes automatically, and no changes can be made.

## Changing Enrolled Session

If attendance is not possible for a registered class session, two options are available. If a new preferred session has already been identified, registration can be changed directly to that session. If the original session cannot be attended but a new session has not yet been selected, unenrollment is possible, allowing another session to be chosen later.

To change or unenroll from a session, navigate to the course in Tenable University. If a session is already registered, the following icons will appear in the upper-right corner of the page:

If a new preferred session has already been identified, select **Change session enrollment**.

To unenroll from the current session and choose another later, select **Unenroll from session**. This action removes the existing session enrollment, allowing another session to be selected at a later time using the same process applied for the initial selection.

## Next Steps

Before the class begins, proper preparation is required. Students should have a basic understanding of TCP/IP networking, operating systems security, and common client/server applications.

Broadband internet access is required, along with a current PDF viewer, and an updated web browser (like Google Chrome, Apple Safari or Mozilla Firefox). Students must also have an advanced text editor available, such as Notepad++, Atom, Light Table, or Bluefish.

Please see the table below for technical requirements and use the test links to ensure compatibility before training begins.

Requirement	Reference Information	Test Links
<b>Adobe Reader</b>	<a href="https://get.adobe.com/reader/">https://get.adobe.com/reader/</a>	<a href="https://helpx.adobe.com/reader.html">https://helpx.adobe.com/reader.html</a>
<b>Zoom Conferencing</b>	<a href="#">Zoom Getting Started</a>	<a href="#">Zoom Conference Test</a>
<b>Lab Connectivity</b>	Some Tenable products have web interfaces on certain ports	<a href="https://lab-test.labs.university.tenable.com/">https://lab-test.labs.university.tenable.com/</a>

## On the Day of Class

When class time arrives, log in to Tenable University and return to the course. The **Upcoming** button will be replaced with a **Join Webinar (Zoom Session)** button, which allows entry into the class up to 15 minutes before the start time.

The screenshot shows the Tenable University course overview page. At the top, there is a dark blue header bar with the Tenable Security Center logo. Below the header, the course title is listed as 'Tenable Security Center Expert' with a session detail: 'Session: VIRTUAL | America/New\_York | AMER | SC EXPERT'. To the right of this, there is a trophy icon with the text 'This course is not yet completed.' Below the header, there are two tabs: 'OVERVIEW' (which is selected) and 'CONTENT'. A prominent orange bar at the top of the main content area contains a warning message: '⚠ You must attend at least 2/2 events to complete this session'. Below this bar, the date '07/24/2024' is shown, followed by a box containing session details: 'Day 1 - VIRTUAL | America/New\_York | AMER | SC EXPERT' (with times '08:00 AM - 04:00 PM (GMT -05:00) America/Chicago)'). To the right of this box is a button labeled 'UPCOMING' with a dropdown arrow. The overall layout is clean and modern, typical of a learning management system interface.

## Completion Certificate

After all sessions of a course have been attended, a button will appear allowing the Certificate of Completion to be downloaded. Navigate to the course and click the button shown below.

## Where are My Codes?

If the **My Enrollment Codes** page is displayed and no codes appear, an enrollment code must be redeemed first. If codes have been assigned to the organization, a clickable notification may appear:

### Enrollment Code Management

[Refresh](#)

#### Redeem a Code

Enter your enrollment code

[Redeem](#)

After a successful redemption, your codes will appear below.

Code redeemed successfully!

[View Enrollment Code Help & Instructions](#)

#### My Codes

Your organization has 6 codes assigned to it

Code	Type ▾	Status	Product	Valid From	Valid To	Actions
------	--------	--------	---------	------------	----------	---------

A pop-up similar to the following will appear:

### Organization Codes

Summary of enrollment code statuses assigned to your organization. If you wish to redeem an unused code, please reach out to one of the following service contacts.

**Status summary**

Unused (3)    Expired    Redeemed    Subscribed

**Type summary**

ILT (3)    OD (2)    EXAM

**Expiration summary**

2026-08-01 (4)    2027-06-28    2028-08-01

Expired    Expiring ≤30 days    Future

**Service contacts**

[sc1@tenable.com](mailto:sc1@tenable.com)    [sc2@tenable.com](mailto:sc2@tenable.com)

**Close**

In this example, the overview indicates that the organization has five assigned codes, three of which are currently unused. Two codes are designated for on-demand courses and three for instructor-led training.

To redeem a code, contact one of the service contacts listed at the bottom of the pop-up and request a code.

If listed as the services contact for any enrollment codes, the view will be enhanced to display the individual enrollment codes available.

# CERTIFICATION INSTRUCTIONS

## Proctoring Service

Tenable uses ProctorU to proctor certification exams. Instructions are provided below. For assistance, please contact ProctorU via their chat at <https://auto.proctoru.com/chat/>

## ProctorU Technical Requirements

Before the exam, confirm that ProctorU's technical requirements are met.

Browser:

- Google Chrome or Firefox; please disable the pop-up blocker

Equipment:

- Personal desktop or laptop computer (**required**)
- Built-in or external webcam
- Built-in or external microphone
- Built-in or external speakers
- Ability to use a video conferencing app, such as Zoom or GoToMeeting

## Navigating to Tenable University

An email from Tenable will be sent containing the enrollment code. This enrollment code enables scheduling and completion of the exam.

7. First, log in to <https://university.tenable.com>

8. Click this icon at the top-left corner of the screen.
9. Then, click **My Certification Exams**. The page will then redirect to **Manage My Exam**.

10. Enter the exam code in the **Enrollment Code** text field and click **Redeem Enrollment Code**.

11. Under **My Exams**, click **Go to Exam Portal**. The page will then redirect to the **ProctorU** page.

12. On the ProctorU page, click the **Sign in** button. The page will then redirect to the **Account Settings** page.

13. Complete the profile for ProctorU and click the **Update Account** button. The page will then redirect to the main **ProctorU** page.

Account updated.

12 : 26 AM PM

Submit Search

2. Once the date and time have been selected, click **Submit Search**.
3. From here, select a session. Then, schedule it by clicking the **Schedule** button. Once the exam has been scheduled with the proctor, a **Successful Registration** prompt will appear.

A screenshot of a web browser displaying a receipt page from proctorU. The URL in the address bar is https://api.proctoru.com/students/order/receipt?id=64816418. The page header includes the proctorU logo and a "Select language" dropdown. The main content area shows a green banner stating "Reservation complete." and "Your order was successful!". Below this, there are two sections: "Here are some resources to help you get ready" (with links to "Download Guardian Browser" and "Check Out Our Online Guides") and "Order #64816418" (with a "See Details" link and a "Take it soon" button). A "Print Receipt" button is located in the top right corner of the main content area. At the bottom of the page, there are links for "ProctorU", "My Account", and "Support", along with social media icons for Twitter and Facebook. A copyright notice at the bottom right states "ProctorU, Inc. All rights reserved. © Copyright 2025".

If any problems occur, please email [university@tenable.com](mailto:university@tenable.com). Be sure to provide the **Enrollment Code**!

## Installing the Guardian Browser

**The Guardian Browser must be installed in order to take the exam!** Without it, the exam will not function.

Here is the link to install the Guardian Browser: <https://guardian.measurelearning.com/>

**NOTE:** Using a personal computer that is not connected to a company network is highly recommended.

## ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for approximately 44,000 customers around the globe. Learn more at [tenable.com](https://www.tenable.com).
