

Eskill STANDARD USER ROLES

These are eSkill's User Roles:

- **Administrator:** This role has unlimited power in using the eSkill product and all of its features. This type of user can access the full customer portal (Dashboard), update the account subscription, manage users, create/view/edit/delete all assessments (even if the assessment was created by another user), and can view/delete scores.
- **Individual:** This user type can manage (create/view/edit/delete) only his or her assessments and associated scores.
- **Read-only:** This user type has access to a limited version of the Dashboard, and cannot make any change to the assessments, scores, subscription, or users. He or she can see all the assessments and scores but cannot edit/delete any of them.
- **Individual Read-Only:** This user type can only view his or her assessments and associated scores. He or she has access to a limited version of the Dashboard and cannot make any changes to the assessments and scores, or edit/delete any of them.
- **Reviewer:** If your account is enabled for Team Scoring, you will notice a new role listed for creating reviewers or adding the reviewer capability to existing accounts.
Note that when you select the reviewer role, you will see an additional checkbox labeled "do not send account notification."
