Zunair Ali - CTO/ Co-Founder

It's hardly possible to reduce costs through low rates in the modern, dynamic IT environment. Low rates tend to result in excessive time spent. We at Technupur don't practice reducing development costs by hiring low-paid employees. Instead, we raise productivity — delivering more in less time. This results in a lower cost per deliverable (new application functionality, stable infrastructure, and resolved user issues).

WHY CHOOSE

TECHNUPUR

QUALITY | RELIABILITY | PERFORMANCE

EXPERIENCE YOU CAN RELY ON

With 7+ years of proven success, our expert designers, developers, and QA engineers have delivered 500+ projects across diverse industries, consistently achieving outstanding outcomes for our clients.

DOMAIN EXPERTS

Our team of 100+ seasoned developers brings deep hands-on expertise across software development domains, maintaining a 99% client satisfaction rate by delivering solutions tailored to industry-specific needs.

LATEST TECH STACKS

Our developers are skilled in the most in-demand programming languages, frameworks, and libraries, including .NET, Python, Flutter, Swift, and Xamarin. Whatever your technology needs, we have the right expertise.

UNCOMPROMISED QUALITY

Our rigorous testing processes ensure every solution we deliver is bug-free, reliable, and high-performing. From functionality testing to performance optimization, every deliverable meets the highest standards of excellence.

100% TRANSPARENCY

Stay informed at every stage of the project lifecycle. We provide regular updates on scope, milestones, and timelines, while actively incorporating client input to deliver a satisfying project experience from start to finish.

100% CONFIDENTIALITY

Your confidentiality is always respected. We value the privacy of every client and partner, handling all project details and business information with the utmost care and discretion to protect sensitive data.
