

International Public Notice: Writ of Error and Notice of Liability

By Anna Von Reitz

As we have adequately explained to the world in two earlier International Public Notices sent to all the appropriate Principals and Agents, the British Territorial United States. and its personnel known as U.S. Citizens, do not represent us in any substantive capacities related to our physical and material assets apart from serving as: (1) our Trustees on the High Seas and Navigable Inland Waterways when we actually put to sea; (2) those responsible for the Territorial duties outlined under the Northwest Ordinance; (3) those designated to regulate the interstate manufacture, sale, and transportation of alcohol, tobacco, and firearms.

It follows that they do not represent us as the Receivers or Beneficiaries of the UNITED STATES bankruptcy, either.

As usual, they went behind our backs, misrepresented themselves as our "representatives" in these matters, did not provide notice of the bankruptcy or otherwise "fully inform" their employers, and continued to operate as rogue entities.

Everyone in receipt of this International Public Notice has cause to know that we are Americans and are State Nationals --- not U.S. Citizens --- and that our Government is in Session.

Everyone in receipt of this Writ of Error and Notice of Liability has cause to know that their proposed settlement of the UNITED STATES bankruptcy in their own favor is a constructive fraud attempting to defraud the actual

Parties of Interest and the Lawful Inheritors/Beneficiaries of both (1) the British Territorial "Persons" --- corporate franchises of the United States of America, Inc., created under the False Registration scheme that misidentifies American babies as U.S. Citizens, and, (2) subsequently, the "US PERSONS" that were derived from the purported Estates of these British Territorial "Persons" who never actually existed.

What begins as fraud, ends as fraud.

The Perpetrators have again outsmarted themselves.

They thought that by secretly seizing upon American babies and changing their political status to that of British Territorial "U.S. Citizens" and by later listing our names as "lost at sea, presumed dead" ----and having these fictional entities declared legally dead, they could separate us from our lawful and legal interest in our own names and assets, and prevent us from claiming back our "reversionary trust interest" and dissolving these fictitious British Territorial "Persons" named after us.

But we've done so, just the same.

They also colluded with the Holy Roman Empire service providers to establish third party Municipal franchises in our NAMES, which purportedly held the Estates of these fictional British Territorial U.S. Citizens--- which would, in theory, allow them to claim all the assets held in these federal municipal ESTATE trusts, if any such British Territorial U.S. Citizen ever existed, or was ever "lost at sea".

But having failed the First Cause, they have also failed the Second Cause.

There never was any actual British Territorial U.S. Citizen named Anna Maria Riezinger, and my Mother lived long enough to record her Testimony in the form of an Unrebutted Affidavit that stands on the Public Records of Jackson County, Wisconsin, repudiating any claim or supposition that I was ever a US Person or U.S. Citizen, either one.

Like millions of other Americans, I have been the victim of a complex clandestine identity theft scheme resulting in human trafficking on paper --- both known crimes.

Both fictional entities, the civilly dead U.S. Citizen named after Anna Maria Riezinger, and the federal municipal trust, ANNA MARIA RIEZINGER purportedly containing "her" assets, have to be dissolved as if they never were.

I am owed back all right, title, interest, and substance attached to my Good Name and national sovereignty, including any and all beneficial interest in the federal Cestui Que Vie Trust established under my name, and likewise, any and all right, title, interest, and substance thought to be vested in any prior fictional British Territorial Person, a U.S. Citizen "franchise" merely named after me.

As I am alive and have proven that I am both alive and am the adult woman, Anna Maria Riezinger, who was born on [June 6th 1956](#), in Neillsville, Wisconsin, and have a Medical Doctor's Affidavit to prove it, there can be no contest over any aspect of my claim. My Mother's Witness seeming to agree that I was ever a U.S. Citizen is firmly rebutted and the similar Witness of Dr. Robert Krohn is also contraindicated by the signed Testimony/Affidavit of Dr. Ilona Farr. A similar roster of evidences applies to my husband, James Clinton Belcher.

So there you have it, two lies do not make a single truth.

Two fictional identities attached to a single baby in an attempt to latch onto her and her lawful estate, remain two big fat fraudulent self-interested lies that have been handed back to the Perpetrators responsible for the existence of these fictional foreign "persons" named after me, together with a claim against their Usufructuary Duty to hold me and my estate harmless from any charge or ill-effect resulting from the existence of either one of these foreign franchise corporations.

The entire enchilada is owed back to me, unharmed, made good, and intact ---- and in my proper ownership, too, under my proper sovereignty.

I was the "presumed donor" at the head of the line, first in time, that was misrepresented as a British Territorial U.S. Citizen franchise, dba "Anna Maria Riezinger, Inc."

This British Territorial franchise corporation was named after me and created while I was a baby in my cradle. The citizenship contract allowing this was totally undisclosed to my Mother and unconscionable to me, and so, was invalid from the start.

When this fictional British Territorial "Person" named after me was declared bankrupt and civilly dead, I was already the inheritor and beneficiary of the municipal Cestui Que Vie ESTATE trust identified as ANNA MARIA RIEZINGER that resulted from "her" death, as well as my purportedly "waived" estate as a Wisconsinite.

I didn't voluntarily waive my birthright as a Wisconsinite and neither did my Mother on my behalf. We did not create an infant decedent estate for the benefit of the Queen. We did not knowingly or voluntarily participate in any of this and we claimed back my reversionary trust interest(s) via Unrebutted Affidavit that has been standing on the Public Record for over twenty years.

Any Pretense or self-interested Presumption notwithstanding, I am the Naked Owner of my estate(s) and nobody and nothing comes between me and the Living God.

And the same is true of 320 million other Americans.

Our States of the Union have always been Third Parties with respect to the combatants in the so-called American Civil War, which was in fact an illegal and immoral Mercenary Conflict staged by States-of-States business organizations that were service providers and subcontractors of States.

There isn't an excuse in this world or the next, for any Pretense that "I" fought on either side of this purported "war" or that any combatant therein has any material interest in my Estate/ESTATE, is owed any war reparations, or is my custodian.

The persons making these absurd claims are my Employees and I have not given them any authorization to represent me in these matters.

The Officers of the Joint Chiefs and the Officers of the International Courts and the Bank for International Settlements and all other responsible Parties in receipt of this communication are fully liable and informed and must take immediate action to correct this situation on my behalf and on behalf of 320 million other Americans who have been attacked and defrauded by these British Bunko Artists.
