Product Description

ShurStep provides maximum skid resistance on a wide variety of floor types and surfaces, including the powder-coated paint finishes found on lawnmowers, truck beds, snowmobiles and other commercial products.

Shurstep features a self-adhesive backing that applies in seconds and adheres to any smooth, clean, dry surface.

- Low-profile, ant-slip material stabilizes dangerous, slippery areas
- Ideal for use on lawn tractors, vehicles, stairs, food service indoor/outdoor areas and more
- Feature an adhesive system that bonds to powder-coated paint and raw concrete
- Provide high-strength and water resistance
- Available in General Purpose (80 grit)
