

Medical Practices Offering Early Treatment to COVID Patients

DISCLAIMER: AAPS makes no claims or representations about the accuracy of the below list or the care from any entity listed. Reliance on this list is at the sole discretion of any visitor to this page. (If you are a medical practice that would like to be added to this list, please see this link: <https://bit.ly/covidearlytx>)

Alabama Lifestyle Medicine Birmingham, Alabama

Contact: info@ALLifestylemed.com or (205)223-1890

<https://ALLifestylemed.com>

I use FLCCC/McCullough/Bartlett protocols to prevent, treat both acute and long COVID, and vaccine injuries. I can see patients in all 50 states, however non-residents of AL/TN/FL will incur an extra \$35 charge. A 30-min visit is \$149, and insurance is not accepted, however receipt can be used for taxes.

Other states where licensed: All 50

We see and treat all patients of any age, to include COVID patients.

Be-Well Medicine Kenai, Alaska

Contact: 1(833) 848-2633

<https://be-wellmedicine.com>

Be-Well Medicine is a medical practice specializing in anti-aging, functional and metabolic medicine. Our practice focuses on designing custom treatment programs based on unique health histories, specialized lab tests, individual risk assessments, and customized therapies that allow us to help our patients achieve and maintain optimal levels of performance. The basis of anti-aging, longevity, and functional medicine is to reverse the causes of aging by reducing oxidative stress by free radicals, improving hormone levels, stopping immunological deterioration, supporting genetic mutations, and improving cellular function. Services include complex medical cases, environmentally acquired illness, nutrigenetics, bioidentical hormone replacement including pellets, healthy family programs, integrative approach to special needs children, micronutrient testing, personalized nutrition and supplements, obesity treatments and we offer early treatment protocols for the treatment of COVID 19. We are accepting new patients across the lifespan. We are now offering membership programs, self-pay options, and Paypal.

**Real Health Arizona
Phoenix, Arizona**

Contact: realhealth411@gmail.com & 602-565-9273

Instructions: We serve Arizona patients for prevention, treatment of Covid, and long haulers. We offer evening and weekend telemed appointments. We work with independent pharmacies that are happy to fill these prescriptions. We have actual customer service – you can talk with us. To start, send us a brief email at realhealth411@gmail.com and we will email to you a Covid FAQ and a New Patient form so we can understand what you need and schedule an appointment. We respond to most emails within hours. We are often able to do same-day or next-day appointments.

**Health Associates Medical Group
Sacramento, California**

Contact: For an appointment call 916-489-4400

<http://www.kwikermedical.com>

We are a cash based clinic providing primary care and integrative therapies for more than 38 years including diet and lifestyle change, nutritional supplementation, and intravenous nutritional therapies (Vit C, multivitamin/minerals, glutathione, NAD, H2O2, amino acids & B complex IM injections). Kirk Hamilton PA-C (39 years in practice) has been using a multi-sequenced drug and nutrient therapy approach since August of 2021 to treat early Covid patients (combining AAPS & I Mask protocols) after treating himself successfully. He now is treating Post-Vaccine Syndrome patients, Long-Haul Covid patients in addition to continuing treating Early Covid patients. He encourages patients to be prepared and set-up a Preventive Covid Visit which can include access to appropriate anti-viral medications, nutrients, oral/nasal hygiene instruction, co-morbidity risk factor reduction, as well as acquiring necessary home supplies and plans so when a Covid infection occurs it is more effectively treated and less challenging and stressful resulting in a better patient outcome. While a primary goal is to get patients back to 100% of their pre-covid health status for energy, stamina and strength, cognition and memory, frequently after several months people are in better overall health than pre-covid because of lifestyle change and positive integrative therapies bringing them to a higher state of wellness. The new patient Covid treatment visit; preventive Covid visit; post-Covid (Long Hauler) or Vaccine Syndrome visits are 60 minutes and costs \$295. Further visits are at our normal office charges. Labs can be ordered through Quest Diagnostics or Lab Corp billed to insurance or paid cash at lab cost. Nutritional supplements can be shipped to patients if desired. E-prescribing is used to send prescriptions to local pharmacies near the patient or pharmacies that will ship medications to the patient overnight if necessary. Kirk Hamilton PA-C is constantly updating and refining his approach as new research and clinical experience dictate. Updated 6/30/22

**Marcus Wheeler, MD
Bakersfield, California**

Contact: 832-859-5332

I have been doing Integrated Medicine since 1984. Licensed since 1970. Doing Nutrition, Wellness Care & Non-linear Scanning (BioStar) with bioresonance for health. I do not take patients unless they are willing to get well! No insurance since they 'forbid' helping patients and demand drug care only! Wake up Americans! Your body wants to be healthy & well so why do you stay with doctors employed by insurance to keep you sick for their profit? Come get a scan, find out what is really wrong and how to get your health back on track. All health problems start with an emotional wound or conflict but the discovery will help you be well! Coming to Hawaii? This is a wonderful place to visit, have a scan and learn how to be well in the healing island of Hawaii. Other states where licensed: California

We currently are a medical home - required to be able to take most insurances - therefore to become a patient and be seen you need to live within 50 miles of our office and have an insurance that we can take. In some cases, we can accept cash payment. We have CLIA certification/waiver to run rapid (15 minute) COVID-19 tests to see if you are infected with SARS-CoV2 and if you are ill you would not be in the main office space until proven to be negative for COVID-19. We then can do a complete evaluation and take care of you as we normally would do.

Classical Homeopathy. Tele-medicine. Homeopathy is a System of Natural Medicine based upon the ancient principle of like cures like. Homeopathic remedies work in harmony with your immune system. Homeopathy is completely safe and non-toxic. There are no dangerous side effects associated with Homeopathic remedies, as there often are with pharmaceutical drugs. Homeopathy is all natural. Homeopathy is not addictive. Even babies and pregnant women can use Homeopathy without the dangerous side effects or interactions with prescription drugs or herbs or vitamins. Homeopathic remedies are based on natural ingredients found in the world around us. It is in the body's intrinsic nature to maintain equilibrium between all its systems. When this balance is thrown off, the body shows symptoms of illness. These symptoms, then, are an effort of the body to regain the lost balance of its systems. Homeopathy helps support and restores this process of re-balancing and works in harmony with your immune system to help you eliminate and heal, in a natural way, those things which are not natural for you, to help you live a healthy and happy life! Tina Louise Buie has been an advocate of Homeopathy for over 30 years; since becoming intrigued with it's healing power with her own three children. Currently, she is in private practice as a

Classical Homeopath. A graduate of the American Medical College of Homeopathy, Tina studied under the acclaimed Dr. Todd Rowe. Her advanced education has included study under such world-renowned homeopaths such as Jeff Baker of Hawaii and Massimo Mangavali of Italy. In addition to her private practice, Tina is currently on faculty at the American Medical College of Homeopathy. Tina is also a Master Herbalist, Certified in Microcurrent Therapy, and is an International Board Certified Lactation Consultant (IBCLC). She is experienced with mothers, infants and children.

All Covid patients are provided televisits after initial interview and scheduling. COVID testing is not performed in our office but is helpful for treatment guidance and recommended if suspected. Treatment is tailored to age, history and not solely dependent on active symptoms. Prevention of later complication is a critical element of our approach. We also give early supportive care to symptomatic individuals on a case-by-case basis. No insurance accepted as payment

though we provide paperwork and online data for filing.

Michael K. Turner, MD, offers compassionate, integrative health care services in Richland, Washington, and the Tri-Cities area. Patients receive personalized, research-based care to optimize their health and wellness, as well as resolve any ongoing

problems. Dr. Turner is a board-certified physical medicine and rehabilitation specialist with more than a decade of clinical experience. Dr. Turner offers a comprehensive range of services, including Sports Medicine, Anti-Aging Medicine, Men's Health, and testosterone therapy. He also provides innovative regenerative medicine therapies like platelet-rich plasma (PRP) and prolotherapy injections to help patients optimize their health and wellness. He frequently works with patients suffering from fibromyalgia and chronic fatigue. Dr. Turner is a member of the FLCCC alliance and has successfully treated thousands of COVID and Long COVID patients using his own integrative approach combined with FLCCC protocols. Whether patients have a chronic pain condition, low energy, or simply desire to feel their best. Dr. Turner takes a holistic approach to wellness. Patients benefit from personalized treatment plans designed to enhance their total wellness, addressing the root cause of symptoms instead of merely masking them with medication. Dr. Turner welcomes new patients and offers telemedicine appointments for the convenience of his patients. Get started on your journey to better health today!
