

- Locally owned and operated since 2001
- Accredited member of the Better Business Bureau Maintaining an A+ Rating
- State certified technicians and applicators. All technicians and applicators keep accreditation with the Tennessee department of agriculture by testing and continuing education.
- With 100 + years of staff experience we have become experts in our field of turf and plant management.
- We currently service well over 10,000,000 square feet of lawns, commercial properties and athletic fields throughout Middle Tennessee.
- Highly focused on advancements in our industry ranging from new techniques, products and processes which provide and a higher quality of service and care.

### **ALL ESTATE PROGRAMS INCLUDE:**

- Monthly service checks on the property to ensure proper preventative care as well as treatments to (Turf areas, ornamental tree's & shrubs, Mulched beds)
- Services will include a proper fertility regimen focusing on current, past or up-coming weather conditions for the turf areas and the tree's & shrubs.
- We focus on a preventative approach in treating our lawns for unwanted weeds and vegetation. Post care will be applied when and where needed.
- Mulched beds will be treated monthly (spraying and pulling weeds) to keep mulched areas healthy and a neat appearance. (We recommend mulching twice per year to help keep a good pre-emerge barrier in place). This also helps with overall plant health.
- Only the highest quality grade of commercial products will be used to treat your property ensuring to keep the property healthy, a manicured appearance, creating a great value for your residence or commercial property.
- Winter deep root feeding and preventative disease control for your ornamental landscape is crucial in keeping plants happy and healthy, giving new growth in the spring. This is included with all of our estate services.
