Prime Minister

MESSAGE

Guided by the principle of Antyodaya, our Government is dedicated to the poor, marginalized and those left behind. We are working towards empowering them to become our soldiers in the war against poverty. Numerous measures and schemes have been initiated – from making school toilets to setting up IITs, IIMs and AIIMS; from providing a vaccination cover to our children to initiating a people-driven Swachh Bharat mission; from ensuring a minimum pension to our labourers to providing social security to the common man; from enhancing support to our farmers hit by natural calamities to defending their interests at WTO; from empowering one and all with self attestation to delivering subsidies directly to people's banks; from universalizing the banking system to funding the unfunded small businesses; from irrigating fields to rejuvenating Ma Ganga; from moving towards 24x7 power to connecting the nation through road and rail; from building homes for the homeless to setting up smart cities, and from connecting the North-East to prioritizing development of Eastern India.

Our objective is to transform quality of life, infrastructure and services. Together we shall build the India of your dreams and that of our freedom fighters. In this, I seek your blessings and continued support.

Always in your Service.
Jai Hind!

(Narendra Modi)

"I measure the progress of a community by the degree of progress, which women have achieved."

All India Council of Skills and Vocational Studies, and National Council of Open Schools, making organizations and come together to give new direction to society and whole nation with announcement new venture AICSVS. This serves as center point of its all programs and activities and focuses on Education and Training for women and children of the nation also arrange Career counseling for holistic development and facilitating gainful employment after vocational training to youth and woman is integral part of our programs.

We give importance or primarily focus on providing better education facilities & assistance to the deprived children and woman. With the support of our volunteers, partners, we have been able to provide these facilities and assistance to children, woman and the other needy people of society. Our programs provide an innovative experience where students work on cutting-edge, industry-sponsored projects. We launched new projects for educating youth, after complete the industrial and vocational course candidate can apply for career making opportunities.

I have read from UNFPA that Education is one of the most important means of empowering women with the knowledge, skills and self-confidence necessary to participate fully in the development process. More than 40 years ago, the Universal Declaration of Human Rights asserted that "everyone has the right to education". In 1990, Governments meeting at the World Conference on Education for All in Jomtien, Thailand, committed themselves to the goal of universal access to basic education. But despite notable efforts by countries around the globe that have appreciably expanded access to basic education, there are approximately 960 million illiterate adults in the world, of who two thirds are women. More than one third of the world's adults, most of them women, have no access to printed knowledge, to new skills or to technologies that would improve the quality of their lives and help them shape and adapt to social and economic change. There are 130 million children who are not enrolled in primary school and 70 percent of them are girls.

We always work for better education opportunities for every woman of our nation, our students have made an Indelible mark in the field of Information Technology and made us proud. Our faculty members are hard-working, qualified and dynamic, whose expertise spans the range of disciplines in Information Technology stream creating a very healthy work-culture. We believe in building career, enriching minds and provide a remarkable experience that lasts for a life time. Any useful ideas and suggestions are always welcome.

providing quality education without any cost to the unprivileged and underprivileged section of the society to educate technically and vocationally with the industry and market friendly course contents, and making them self-depend and empowered students, women, physically challenged, youths as present scenario.

"Coming together is a beginning. Keeping together is progress. Working together is success." -Henry Ford

With Best Regards 

Honable Dr. Saurabh Pandey
President - AICSVS™

Learners Today, Leaders Tomorrow

I am confident that you will find a pathway to a bright future in a chosen career or profession with **ALL INDIA COUNCIL OF SKILLS AND VOCATIONAL STUDIES**

Education is beneficial when any course is done by the recognized institution/ organization. **ALL INDIA COUNCIL OF SKILLS AND VOCATIONAL STUDIES** is the educational development organization of combining excellence with innovation, places a high value on providing its students with a fulfilling educational experience in their chosen career or discipline. It is the Leading group of Institutions working globally with the aim to develop knowledge and Skills of each and every person, and always willing to invent, innovate and renovate itself with the changing times. In continuation of its education service to the nation, we become a pioneer in providing the best it education & training in collaboration with state and National Government or International. Our prime goal of providing quality education to our students and the meeting the need for skilled professionals in the country and out of India. The academic rigor propels them to acquire greater professional competence. They have also been exposed to training and real world projects. Technological changes also demand that institutions must consider the market scenario, and adjust the contents and delivery of education matching the expectations of the business houses. So what defines our students, faculty and community members?

Above all, it's our belief in possibility and our unshakable optimism. It's a connection to others near and far. It's a hunger that pushes us to tackle challenges and pursue progress. It's the conviction that together we can create a world of good. Join us on the journey and fulfill our aim and goal. My aim to educate every youth of my country with a high profile identity from every city, town, village of India.

We providing quality education without any cost to the unprivileged and underprivileged section of the society to educate technically and vocationally with the industry and market friendly course contents, and making them self-depend and empowered students, women, physically challenged, youths as present scenario. I started my life started Life from small village of tribal community and facing to many challenge during education due to community thinking and financial problems. The major problems I faced as school education was not good because in village and around 10kms area there was no high school and his all primary classmates left the education and started working as labor in farms but he continue with education as pedestrian to go school and in the way cross two rivers by swim with books. After completing high school work hard in farms to earn some money to purchase study material for poor students because their parents was not able afford school fees and material expenses for those students. And decided to educate every citizen of the nation especially underprivileged section of the society and now I'm active in this sector socially and educating people with the vision of empowerment of the Nation and worldwide. As I am the part of tribal community and saw very closed the struggle and life style of slums, illiteracy, uneducated and unemployed people, they always fighting with life to live and I want to be a part of inspiration/ example for those people for rise a lamplight in their life, So that faced problems and challenges at every step to educate and serve people because. Every problem and challenge teaches me to do different and stronger planning before started every task.

I thinks that people they working to serve the society and educate people are always with better opportunity to presence as mentor of the society and self-development. It's also the source to flow positive energy in every section of society to working for humanities and social awareness by the education and development profession. I also analyze many more opportunities in social and education sector always with me.

A system that is made by me in this sector is always makes me and this service unique, I always work in my discipline and searching works something challenging after scrutiny of any project I have good communication skills to present it in front of people.

I learned from the entrepreneurship that nothing is impossible in this universe but we have to find the problem issue and think about how can be solved and what plan we have for that and dream the profession/ occupation that make it easier, with a stronger plan it can be achieved as we wish.

I am sure that our student will find a pathway to a bright future to a chosen career or any profession they also can get enough knowledge to face any demand and challenges that an employer may have on them. I wish for their great success and bright future and hope for their better tomorrow.

With Best Regards

Dr. Narayan Yadav
Person of Versatility

Director General, Registrar and Chief Executive Officer SKILLS AND VOCATIONAL STUDIES

M.Sc, MBA, P.hD

Skills

Skill development is the process of identifying your skill gaps and Developing and honing those skills, It is important because skills determine the ability to execute plans effectively and gain something every time you hit the floor. But what is even more important than picking the skill gaps is realizing your own skills. You can never think of developing or working on your skills if you are unaware of their mere existence within you. And once you do know what's inside you, you can think of many ways to let that bug out and give it wings to fly. Talent is what you have naturally, but skill is developed only by hours and hours of beating on your craft. In this direction All AICSVS always doing the proper training to the students by various kind of Training and education programs at training center, affiliated under AICSVS. **AICSVS Skills "Academy of skill Development"** is the Joint Venture of AICSVS Running in Collaboration with AICSVS, We are proving the fact and useful Training and Education to the students mainly the youth Generation of India with world class facilities to fulfill the aim of "Empowering lives through Education in India". Many industries are arranging training programs for their employees. These training programs are of two types. First type of programs are related to job activities other programs focus on developing soft skills which help in the growth of individual experts in the area of management normally conduct such programs on soft skills. In other to fulfill the need of industries curriculum is designed in consultation with industries. Depending upon the advancement in technology, appropriate contents are included so that students become aware of recent development in relevant fields. While revising the present's curriculum, search conferences and made specific suggestions. Our main objective to improve All kind of skills by providing training in field for Reading, Listening, Observation, Communication, Presentation, Leadership, Interpersonal, Entrepreneur, Employability skills and the Skills of information search to each and every person of India.

DISTANCE AND CORRESPONDENCE EDUCATION

Distance Education/ Distance Learning is the education of students who may not always be physically present at a University/ College/ School. Traditionally, this usually involved correspondence courses wherein the student corresponded with the school via post. Today it involves online education. A distance learning program can be completely distance learning, or a combination of distance learning and traditional classroom instruction (called hybrid or blended). Open Online Courses (OOCs), offering large-scale interactive participation and open access through the World Wide Web or other network technologies, are recent developments in distance education. A number of other terms (distributed learning, e-learning, online learning, virtual classroom etc.) are used roughly synonymously with distance education. **AICSVS School of Distance and Correspondence Education** provides Career Guidance Counseling about various kind of the courses and affiliated universities in the world, and for betterment in the education all study and training centers are providing admission guidance with the help of coordinator team. Distance learning may lead to better career and scope if grabbed it seriously and efficiently. In developing Countries like India, distance education has an enormous scope. It is consistently increasing with the passage of years. When it comes to employment, students concern about jobs and career scope is automatically raised. Employment opportunities and jobs in India after distance learning is vast. Many students have illusion about the validity of their degree. They think that they do not get the good job with distance learning as compared if he/she opted regular courses. Students this is not true. Your degree is also valid. The Distance Education Bureau of the UGC in its norms and guidelines has clearly mentioned that distance education courses approved by DEB are valid for the employment and services under the Central Government of India.

Asia Book of World Records

We work with leading global brands and businesses to break world records as part of bespoke marketing campaigns. Let our team help engage your audience through unforgettable moments of sheer amazement and wonder, whilst delivering bottom-line results. Working with **MISSION** To document the incredible. By crowning new generations of record holders and sharing their authentic stories, we aim to break boundaries, and entertain and inform the world. Integrity of our records, assessing claims with objectivity and enthusiasm and free from prejudice or bias. This integrity extends to our people, the way we act, the way we do business and the way we make decisions. National Council of Open Schooling Research and Training राष्ट्रीय मुक्त विद्यालयी शिक्षा अनुसंधान एवं प्रशिक्षण परिषद

Open learning and open schooling are broad terms which describe learning which is 'open' in terms of timing, location, teaching roles, instructional methods, modes of access, and any other factors related to learning processes. **NCOSRT** was intended to be a medium of making education easy for students who are unable to attend regular classes. The challenge before us was to make the instructional. delivery of curriculum convenient and as effective as regular classes for the students. It had to be a well-planned and organized extended learning endeavor which allowed students to pursue other activities without affecting their learning. Reaching out to them through the online medium was an excellent way to deliver educational resources and nullify the location constraint. The National policy on Education suggested strengthening of **NCOSRT** for extending open learning facilities in a phased manner at secondary and Sr. Secondary levels all over the country and abroad as an independent system with its own curriculum and examination leading to awarding of certificates. This was intended to address the needs of students on working professionals in India and abroad to further the cause of spreading education. The way our instructional deliver and online facilitation of educational courses have expanded in India and abroad, it is a fulfillment of our aspiration to play a pivotal role on making education convenient for students all over the world. You can choose subjects from the scheme of studies given in table.

HONORARY DOCTORATE : Principles & Criteria For Candidate Selection General Principles

CRITERIA FOR SELECTION : The following specific criteria are used by the Honorary Degrees Committee in its consideration of candidates. The Committee's goal each year is to present a slate of recipients across a range of academic disciplines and non-academic areas of achievement. Honorary degree recipients, when possible, will be chosen to match the purposes of the Convocation at which the degree is to be granted. Those in category (a). will predominate if possible those in categories (b) and (c) will normally number less than half of the recipients in category (a) unless the Convocation is being called for a special reason

- The University normally will give preference to honoring individuals who have made outstanding contributions in the sciences, humanities, and professions in which the University itself is active.
- Recognition will be given to those whose exceptional accomplishments have contributed to enhancing culture and society in Canada or elsewhere in the world.
- The University on occasion will honor those who have made extraordinary contributions to the development of the University or the region or have achieved international standards of excellence.

GLOBAL INTERNATIONAL UNIVERSITY awards honorary degrees on a selective basis to distinguished individuals who merit exceptional recognition for substantial achievement and distinction in a field or activity consonant with the mission of the university or the independent colleges as articulated in the statement of purpose. Through its choice of honorary degree recipients, the university and independent Colleges of universities makes a public declaration of its own values. This award is distinct from other awards offered by the universities in that it is not limited to, while not excluding, alumni or those making a direct impact on the university or Colleges. Our honorary doctorate degrees are awarded to leaders of national and international eminence in their areas of endeavor.

This unique honorary doctorate recognizes profound contributions in the arts, science and technology, education, politics and law, public service, humanitarian pursuits, religion and moral leadership, and civil rights. The honorary doctorate recognize and encourage ideas, values, and accomplishments of individuals from all walks of life who significantly contribute to discussion and debate of thought, science, humanitarian pursuits, beauty, freedom, social development, international development and sustainable education. The honorary degree will stem from a legitimate, renowned university. Universities use this program to raise funds for some of its research projects. The universities maintain a complete and permanent record on each honorary doctor and responds promptly to requests for validation when authorized by the recipient of the university.

■ Who Can Apply?

Foreign citizens, PIO (Persons of Indian Origin), OCI (Overseas Citizens of India), NRI (Non Resident Indian) students and NRI sponsored students can apply under the Foreign/ NRI category. These candidates are not required to take the entrance examinations conducted for resident Indian students.

■ How to Apply?

The Office of International Admissions of AICSVS is the nodal point for international students. Foreign/ NRI students will generally

be admitted at the beginning of academic year commencing in every month batch of every year. admissions are based on merit and grades obtained in the qualifying examination (equivalent to the 10+2 examinations of India). International students seeking admission to PG program should have Under Graduate degree equivalent to Indian Graduate Degree.

■ Categories of Foreign Students

Foreign Students: Students holding the passport issued by foreign countries including people of Indian origin (who have acquired the nationality of foreign country) are classified as foreign students.

Non Resident Indians (NRI): A student who has studied his qualifying examination (equivalent to the 10+2 of India) from a school or college (outside India) will be considered as NRI students.

NRI Sponsored Students: An NRI sponsored student is an Indian citizen whose direct blood relative (Parents, Grand Parents, Parent's direct Brother/Sister or Candidate's direct Brother/Sister) is an NRI.

■ Steps to Get Admission

Step 1: — Obtain the application form by either of the following options: Send us your request for admission on verify@aicsvs.org (Please note the application form for Resident Indian students and foreign students are different.)

Step 2: Filling the Form — Fill up the application form and submit it to the Office of Admissions. If the final marks/ results are available, then attach the results. If the marks/ grades are not known or not available at the time of filling the application, please indicate "Results awaited" in the marks/ grades column. Candidates are expected to send their final results to the University as soon as it is available to ascertain their eligibility. It is to be noted that the application will be considered only if the marks/grades are made available to the University within the stipulated time.

Step 3: Document attachment —

- Certified copy (English translated) of the marks/ grade sheet of the qualifying examination
- Certified copy of the grade equivalent to marks by Boards/Schools Copy of the Passport
- Proof of NRI/OCI/PIO status of the student/ parents/ sponsor
- 4 Passport size photographs (recent)
- Application fee of US \$ 50 or equivalent Indian Rupees in the form of a bank Challan / DD or demand draft in favor of 'AICSVS

Step 4: When the application is received, the candidate will be sent a letter of acknowledgement with an application number. Students will also be intimated if additional information is required.

Step 5: — The admissions packet with all necessary information will be sent to the candidate. After receiving the admission packet student proceed to the Indian Embassy for student VISA.

Step 6: — Students are advised to reach AICSVS Campus 1-2 days prior to the commencement of classes and report to the Office of Admissions, University of Technology for submission of their official or original mark sheets/transcripts and other documents as listed in the admission letter. Thereafter candidates will be issued and 'Admission Order'. Only after the admission formalities are completed students will be permitted to move into the allotted hostels.

Step 7: Registration at FRO — It is part of the normal mandatory process that all foreign students holding foreign citizenship have to register with the Foreigner's Registration Office (FRO) within the stipulated time frame of their arrival in India. A student who is a PIO/ OCI Card holder is also required to register with the FRO. AICSVS will provide the necessary assistance in this regard.

Distance education, also known as distance learning, is the education of students who may not always be physically present at a school. Traditionally, this usually involved correspondence courses wherein the student corresponded with the school via mail. Today, it usually involves online education. A distance learning program can be completely distance learning, or a combination of distance learning and traditional classroom instruction (called hybrid or blended). Massive open online courses (MOOCs), offering large-scale interactive participation and open access through the World Wide Web or other network technologies, are recent educational modes in distance education. A number of other terms (distributed learning, e-learning, m-learning, online learning, virtual classroom etc.) are used roughly synonymously with distance education.

■ Registration Process

Candidates may apply for admission online, gain information regarding admission procedure, call our counselors or chat with us.

The prospective students are required to submit the admission form duly filled up and signed by them along with the mandatory documents and the applicable fees required for admission process. The mandatory documents and online fees receipt can be submitted online by email to the university or can be couriered.

- ☞ Letter of Undertaking, if Required (as per case requirement and norms of the council)
- ☞ For further details, please visit our official website.

■ Important Note -

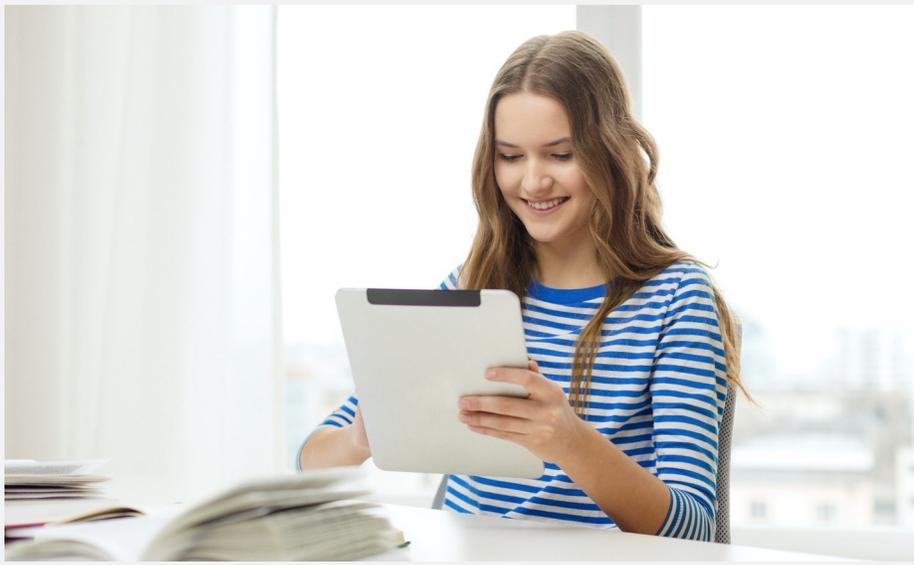

- ☞ The eligibility criteria for every program is clearly mentioned on our website under the programs. The student should ensure that they

satisfy the eligibility norms for the program they wish to enroll.

- ☞ The candidate has to ensure that their education / qualifying Certificate/ Degree has been issued from a recognized university/board only. It should be recognized by regulatory authority of Government of India.
- ☞ The name mentioned on 10th Std. Mark Sheet has to match the name mentioned on the degree certificate / degree mark sheets.
- ☞ The name mentioned on admission form should be exactly the same as it is mentioned on 10th Std. Mark Sheet.
- ☞ In case of name change / deferred name (10th Std. and Degree Certificate or Mark sheet) a name change document/affidavit has to be submitted to the Council for processing.
- ☞ Submission of documents and payments to council is subject to eligibility criteria as per the guideline of the Council.
- ☞ The admission would be processed as per the information provided by the student and in case of any discrepancy in the same, the university would have the right to cancel the admission and the fees paid would be forfeited.
- ☞ Upon receipt of all the documents with applicable fees the documents are scrutinized by the course administrators. It is then forwarded to the enrolment department for final verification and processing the admission for generation of enrolment number.
- ☞ The student support are then initiated and study material is dispatched within 60 working days from date of generation of enrolment number and not from date of document/ fees submission to the university. The timeline taken by courier company for delivery time may be additional to the above timelines.

■ Provisional Admission

- ⇒ The students would be provided with reference numbers initially and would be guided by the provisional admission policy as mentioned below:
- ⇒ The students would receive the acknowledgement letter with reference number along with study material and login credentials of the learning management system, while the enrollment number would be communicated to the students on their registered email id. This would be subject to fees clearances in council account.
- ⇒ While applying for the course, the prospective student should ensure that they are eligible for admission to respective program as per the guidelines of the council.
- ⇒ Based on eligibility criteria and after scrutiny of documents, an enrollment number would be generated by the university enrollment department and only then a student would then be a registered student of the council.
- ⇒ The student under provisional category who have received the reference / provisional numbers would not be allowed to appear for exams till they are confirmed enrolled. For special cases based on reference numbers, in case the students are allowed for appearing in exams then their results would be kept on hold till they have satisfied their eligibility norms and this would happen only after the enrollment number has been issued by the council.
- ⇒ It is the students responsibility to submit all required documents on time after they have applied for AICSVS distance education program.
- ⇒ Submission of application form, documents and fees does not entitle the student to be considered as a registered student of the council.
- ⇒ For pending documents, if any which the enrollment team requires, it would be communicated to the students by the support team.

■ Girl Child Higher Education Promotion Scholarship Scheme

- Scholarship Equivalent to last Exam % of Tuition Fees*
- Scholarship of Overall Rs. 20,000 in 3 Year Regular Diploma Courses.
- Scholarship of Overall Rs. 10,000 in 2 Year Regular Diploma Courses.
- Scholarship Overall Course Fees of 35% in 1 Year, 2 Year and 3 Year Regular Diploma Courses.

■ Special Scholarship For Education Promotion in Specific Regions

- Student From Kashmir, Leh, Ladakh & Kargil – 40% of Tuition Fees
- Student From North Eastern States – 25% of Tuition Fees

■ Special Scheme for Defense Wards

- Wards of War Martyrs – 50% of Tuition Fees
- Wards of Defense Personnel / Ex-Serviceman – 30 of Tuition Fees

Advancement in Information Technology has led to changes in teaching and learning processes of many educational institutions across the globe, which provides reliable, convenient and easily accessible environment that is conducive for learning. This study carried out an assessment of AICSVS E-Learning System to study the flaws associated with its existing utilization analysis process/methods of the system as well to determine the requirement to be considered for the development of a framework for utilization analysis process. The utilization analysis of E-Learning Systems is associated with a lot of potentials: monitoring of users activities on the learning management system for the purpose of continue improvement of the E-learning System in order to enhance users experience on the platform. It can also provide up to date information which can be useful to the council management to make an effective and efficient decision which can transform teaching and learning processes positively in the University. We therefore developed e-learning utilization analysis framework based on the findings of this study. All the parameters considered in the newly developed framework are very significant and could be useful for future design of e-learning systems. eLearning, or electronic learning, is the delivery of learning and training through digital resources. Although eLearning is based on formalized learning, it is provided through electronic devices such as computers, tablets and even cellular phones that are connected to the internet. This makes it easy for users to learn anytime, anywhere, with few, if any, restrictions. Basically, eLearning is training, learning, or education delivered online through a computer or any other digital device. Self-regulated learning refers to several concepts that play major roles in learning, and which have significant relevance in e-learning. explains that in order to develop self-regulation, learning courses should offer opportunities for students to practice strategies and skills by themselves. Selfregulation is also strongly related to a student's social sources such as parents and teachers. Moreover, Steinberg (1996) found that high-achieving students usually have high-expectation parents who monitor their children closely. With the academic environment, self-regulated learners usually set their academic goals and monitor and react themselves in process in order to achieve their goals. Moreover, academic self-regulation also helps students develop confidence in their ability to perform well in e-learning courses.

The lessons are developed by highly qualified faculty members across the universities and are continually edited and reviewed, primarily by discipline expert Fellows employed to edit, oversee and coordinate the content. The content goes through several levels of rigorous peer reviewing and academic vetting to ensure quality and standardization. AICSVS also contains multimedia repository in form of audio, video and short films to expose students to new technologies in pedagogy.

■ E-Learning-Digital Training System by AICSVS

All India Council of Skills and Vocational Studies providing Electronic Learning System on Student Login Portal for self learning and assessment training At AICSVS dedicated course content area is provided for easy access based on the year, course and department. Registered students get secure and free access to course.

Faculty authors the content and keeps the course content and presentations ready before the class session is conducted. Students can access this content later from home and hostels. At the end of day the faculty would post one or more questions based on current day's class topic. Students would reply to these questions in an online forum which is evaluated by the faculty before the next class session. As the topics are completed, an online test is conducted in a dedicated 'E-Learning' where all students would answer the test and real time evaluation and result posting is done by the system. Assignment submissions and links to external resources such as useful content posted by other universities and online streaming of video are provided.

■ Highlights of E-Learning-Digital Training System by AICSVS -

Course Content: Students and Teacher can see detailed and described syllabus Course content shows as per the student course. Which are designed by highly qualified subject teachers and trainers.

Groups: Students and Teacher can Make and manage group within the groups or course.

Forums: Students and Teacher can Ask and answer for questions, publish ideas, get peer opinion and feedback. Discuss on topics covered in class room.

Manage Media: Students and Teacher can Share media between members. Build your own media pool or a digital library.

Online Tests: Teacher can Create and participate in online tests, get evaluated automatically and post results.

Feedback Forms: Students and Teacher can Create and participate in online surveys and feedbacks. Get automated feedback results during seminars, class room sessions.

Online Calendar: Students and Teacher can Manage personal and course calendar. Synchronize course calendar from multiple departments you are part of calendar with your personal email calendar.

Assessment Learning : Its helps to students and Teachers to create and Manage course previous examinations and assessments. And Students can also practice for assessment management timing and questionnaire.

Practice of Similar Contents Online : Students and Teacher can do practice with working in various applications are in built in the system.

AICSVS's
Class 8th

School Examination
(VIIIth Standard)

The examinations of Class 8th are conducted twice in a year in accordance with the syllabus prescribed by the Board. After passing the examination, A Certificate of qualification is awarded by the Board.

Eligibility Criteria In the VIIIth class) course those who have completed 14 years of age as on 1st Aug. of the year in which admission is sought for on the basis of and declaration to the effect that the candidate has studied enough to be able to pursue 8th Class certificate course under the open learning mode.

Duration : 1 year

AICSVS'S
Class 10th

School Examination
(Xth Standard)

Secondary School Examination Certificate (Metric, i.e. Xth class) the examinations are conducted twice in a year in accordance with the syllabus prescribed by the Board. After passing the examination, A Certificate of qualification is awarded by the Board.

Eligibility Criteria In the Secondary School Certificate (10th class) course those who have completed 16 years of age as on 1st April of the year in which admission is sought for on the basis of and declaration to the effect that the candidate has studied enough to be able to pursue secondary certificate course under the open learning mode.

Formal qualification is not required for secondary Level Course.

Or
8th class passed or its equivalent exam from any recognized Board.

Duration : 1 year

AICSVS'S
Class 12th

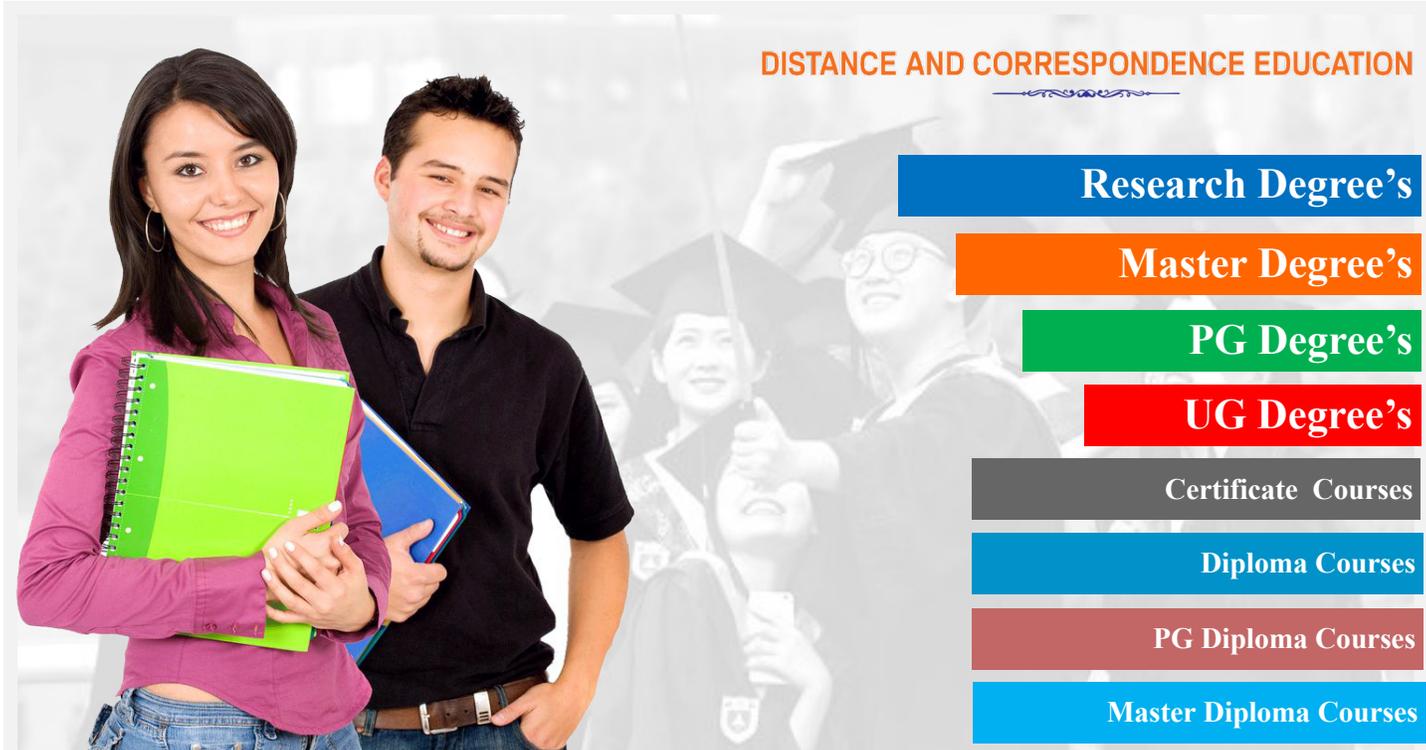

School Examination
(XIIth Standard)

Senior Secondary School Examination (Intermediate-i.e. XIIth Class). The examinations are conducted twice in a year in accordance with the syllabus prescribed by the Board. After passing the examination, A Certificate of qualification is awarded by the Board.

Eligibility Criteria In the Secondary School Certificate (12th class) course those who have completed 18 years of age as on 1st Aug. of the year in which admission is sought for after qualifying in the entrance test prescribed to pursue senior/ higher secondary courses under the open distance learning mode.

Or
10th class passed or its equivalent exam from any recognized Board.
2 years gap is Essentially required after passing Secondary examination.

Duration : 1 year

Diploma Programs

Duration - 1 Year Eligibility - Xth

- ☞ **Diploma in** - Taxation, Investment, Accounting & Finance, Cost Accounting, Capital Markets of Merchandise Banking..etc
- ☞ Advertising Management / Agricultural Management / Banking & Finance/ E- Commerce / Finance / Human Resource / Information Technology /Insurance & Risk Management / International Business / Marketing Management / Operations Management / Pharmaceutical Management /Production Management / Project Management / Retail Management /Risk Management / Rural Management / Supply Chain Management /Technology Management / Disaster Management / Material Management/ Risk Management / Hospital Management / Event Management / Fire And Safety Management/ Hospital and Health Care Management/Hotel Management/ Agriculture/ Aviation.. etc.
- ☞ Dairy Technology / Food Production / Jewelry Designing / Multimedia /Printing Technology / Textile Designing / Food Preservation Technology / Multimedia & Animation / Catering Technology / Digital Animation
- ☞ Apparel Production, Quality Control, Costume Control, Fashion Accessory Design & Technology, Fashion Industry, Fashion Styling & Photography, Product Design & Dew. For Fashion Industry, Textile Design, Fashion
- ☞ Diploma in Social work/ Vastu Shastra/ Jyothishyam
- ☞ **DCA** - Diploma in Computer Application, **D.Lib** - Diploma in Library Sciences, **DJMC**—Diploma in Journalism and Mass Communication, Diploma in Agriculture,

Duration - 6 Semester Eligibility - Xth

- ☞ **Diploma in** - Architectural Assistantship Engineering / Automobile Engineering /Chemical Engineering / Civil Engineering / Computer Science & Engineering / Electrical Engineering / Electricals & Electronics Engineering / Electronics & Communication Engineering / Information Technology Engineering / Instrumental Technology Engineering / Mechanical Engineering / Metallurgical Engineering / Mining Engineering.

PG Diploma Programs

Duration - 1 Year Eligibility - Graduation

- ☞ **Post Graduate Diploma in** - Copywriting, Publishing, Industrial Psychology, Regional Languages, English, Population Studies,
- ☞ Advertising Management / Agricultural Management / Banking & Finance/ E- Commerce / Finance / Human Resource / Information Technology /Insurance & Risk Management / International Business / Marketing Management / Operations Management / Pharmaceutical Management /Production Management / Project Management / Retail Management /Risk Management / Rural Management / Supply Chain Management /Technology Management / Disaster Management / Material Management/ Risk Management / Hospital Management / Event Management / Fire And Safety Management/ Hospital and Health Care Management/Hotel Management/ Agriculture/ Aviation/Valuation/ Real Estate. Etc.
- ☞ Dietetics and Applied Nutrition / Food Processing and Preservation /Hotel Management / Perfumery and Cosmetics Management / Remote Sensing Technology
- ☞ **Post Graduate Diploma in** Computer Application, Post Graduate Diploma in Journalism and Mass Communication, Post Graduate Diploma Yoga and Naturopathy
- ☞ **Post Graduate Diploma in** Environmental Science/ Water Resource Management/ Environmental Resource Management 1 Year Graduation

Free Education

With @AICSVS & NCOSRT

-: Course Duration :-

15 Hours (Minimum 7 Days and Maximum 20 Days)

-: Medium of Instruction :-

English, Hindi and All Official Languages of India

-: Eligibility Criteria :-

Nominated digitally illiterate person from every eligible rural and urban area Student, Housewife, Businessman, Govt. Employee and Each and every citizen of India can take education / Training

-: Age Criteria :-

Between 14 to 60 years.

-: Enrolment Fees :-

SC, ST, OBC, SBC, BPL, Minority, Female, Physically Challenged, Widow Candidate : Rs. 120/- Only
 Other Categories & General Candidate : Rs. 160/- Only
 (Without Training kit Rs. 50/- Only Per Student)
 No any Fees For Training, Exam and Certification

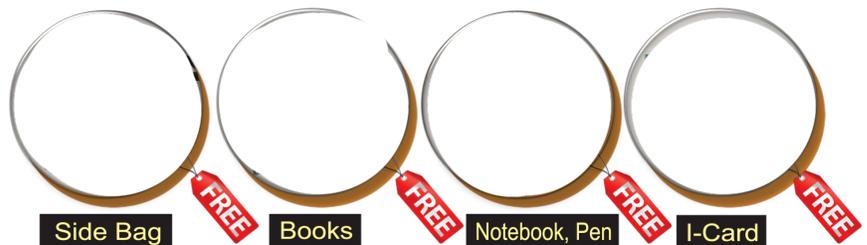

About NCOSRT

निरन्तर बढ़ते कदम...

डिजिटल साक्षरता की ओर...

Many programs has been held by AICSVS Organization Under National Council of Open Schooling Research and Training and AICSVS for the purpose of enhancing or spreading over COMPUTER AND INFORMATION TECHNOLOGY EDUCATION By continuing this series, in order to provide FREE education to students, AICSVS is forging ahead with a new Program "PROMOTE E-SHIKSHA YOJNA" which is a Project Approved by AICSVS. Many Programs are being held by AICSVS for orphans, Unemployed and handicapped children & students, woman empowerment, Vocational training by way of which students can forge ahead in their life. As India is growing in the field of IT and there is a heavy demand in various sectors like Hotels, Share Market, Retail Market, Malls, Banking, Finance, Schools, Colleges, Coaching's, Hospitals, Private Offices etc. Under "PROMOTE E-SHIKSHA YOJNA" a Student, Housewife, Businessman, Govt. Employees and Each and every person of India, can take education / Training and with their efforts & active part they can contribute in wiping out unemployment from the country and can also give their contribution in teaching their own children about computers. Under this program, 10 Million students are to be provided with digital education. The purpose of this program is to make the future of poor and unemployed students bright & safe by providing them Digital education, so that they have a better career ahead. Under this program. Students will be provided Training with study material to Making every person digitally literate is one of the integral components of the Prime Minister's vision of "Digital India" with Fulfilling AICSVS's aim to Educational Development in India. PROMOTE E- SHIKSHA YOJNA (KNSY) is the scheme Powered by AICSVS to make approximate Ten million people in rural and urban areas, across States/UTs, digitally literate. The Scheme would empower the citizens in rural and Urban areas by training them to operate computer or digital access devices (like tablets, smart phones, Personal Computer, Electronic Devices, Daily Routine Electronic equipment's etc.), send and receive e-mails, browse Internet, access Government services, search for information, undertake digital payment etc. and hence enable them to use the Information Technology and related applications especially Digital Payments to actively participate in the process of nation building. The Scheme aims to bridge the digital divide, specifically targeting the rural population including the marginalized sections of society like Scheduled Castes (SC) / Scheduled Tribes (ST), Minorities, Below Poverty Line (BPL), women and differently-abled persons and minorities.

Digital India New India

Continuous Moving Steps, Towards Digital Literacy.....
