

AllyConnectApp Usage Policy

You agree that by accessing AllyAlign Health interoperability APIs (AllyConnectApp), you are agreeing to comply with HIPAA regulations for use of member PHI/PII information.

By registering an application with AllyAlign, you acknowledge that you have understood and agree to be bound by the AllyConnectApp Terms of Service.

If you are developing using our production access API on behalf of an organization, you represent and warrant that you have full legal authority to register an Application on behalf of that organization and bind it to these Terms. If you are not authorized, you may not accept the Terms; nor you may use the registration for another Application or on behalf of another organization.

Scope and Intent

AllyConnectApp is available to developers as follows:

(1) since there is no registration required, by using the "**Public access APIs**" in your application(s), you agree to the Terms of Service.

(2) by registering your application, supplying truthful information, and agreeing to abide by the Terms of Service, the "**Patient access APIs**" can be used to access production data of members who have provided the appropriate consent.
