# ASTERA

Astera is a pioneering brand in wireless LED lighting solutions, committed to enhancing creative workflows across the entertainment, film, and events industries. With a focus on innovation and user-centric design, Astera's products offer exceptional quality, reliability, and versatility. The brand prioritizes color fidelity and efficiency, allowing professionals to achieve outstanding results in various applications, from concerts and festivals to film and television productions. Astera's dedication to excellence and continuous improvement positions it as a trusted partner for lighting professionals seeking cutting-edge solutions.

## 100% WIRELESS

**App**

AsteraApp offers intuitive and fast control of complex lighting setups and is also used to change DMX settings of the lights as well as monitor them out of a distance.

**Max. 20h**

Advanced battery technology and control let you set the battery runtime to up to 20 hours. You can be sure that your Astera fixture won't run out of juice before your production is finished.

**Wireless DMX**

Each of our lights has a CRMX module from LumenRadio built in, offering you the most reliable DMX technology on the market.

**All-weather**

All Astera fixtures are housed in weatherproof enclosures to ensure they can be used outdoors without concerns.

# ASTERA ECOSYSTEM

## Effortless Lighting Control

Experience the Astera Ecosystem, a seamless integration of Astera Lights, Bluetooth Transmitters, the Astera App, and essential Prep Tools for efficient lighting control.

**ASTERA LIGHTS:** Wireless LED fixtures with advanced connectivity and wireless CRMX for superior control.

**ASTERA APP:** Powerful control tool for creating scenes, adjusting settings, and managing presets effortlessly.

**BLUETOOTH BRIDGE:** Connect a light or transmitter box via Bluetooth and send data from there to all lights in range.

**WIRED DMX:** Most lights support traditional wired DMX control for reliable operation in larger setups.

**WIRELESS DMX:** Since 2015, Astera has integrated LumenRadio's CRMX technology into every light. Thanks to recent upgrades, CRMX<sup>2</sup> with RDM is supported, as well as W-DMX protocols.

**ASTERA BOX:** AsteraBox and AsteraBox WiFi connect controllers to luminaires via reliable UHF communication, ensuring extended range and synchronized feedback. They work with any DMX console, serve as CRMX transmitters, and pair with smart devices for light control and monitoring.

**PREPBOX & PREPCASE:** Quick programming in the charging case. Assign DMX, switch to blue mode, and pair fixtures via a battery-powered control pad, ensuring reliable control for film sets and events.

# TITAN LED ENGINE

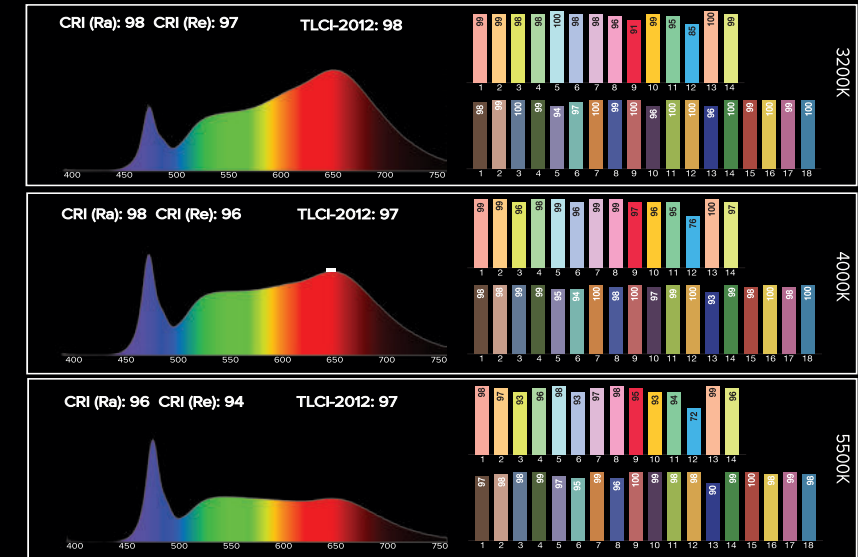

## THE HEART OF PRECISION

At the core of the Titan LED engine lies a groundbreaking algorithm, designed to ensure every light is individually calibrated during Astera's meticulous manufacturing process. This innovation transforms raw photometric data into unmatched performance, guaranteeing:

**EXCEPTIONAL COLOR ACCURACY:** Enjoy vivid, true-to-life hues and consistent results across all fixtures.

**OPTIMIZED PERFORMANCE:** Deliver brilliant whites and rich, saturated colors while maximizing high CRI and extending battery life.

During operation, an advanced temperature compensation system continuously monitors each LED chip, fine-tuning the balance of red, green, blue, mint, and amber LEDs. The result is flawless, even lighting in any condition. With Titan LED engine technology, every detail works seamlessly to deliver precision and performance you can rely on.

Helios Tube

## HYPERION TUBE

### TWICE THE LENGTH, TWICE THE POWER

Hyperion Tube is double the length, with more LEDs, batteries, brightness, and pixels. It offers the same high-quality light with App, CRMX, on-tube control, and wired DMX.

- 92 W LED Power Draw
- Pixel: 32
- 2 m

## TITAN TUBE

### THE ULTIMATE LED TUBE

Titan Tube is the ultimate LED for filmmakers and creatives, offering tunable whites, vibrant colors, indoor/outdoor use, AC or battery power, and control via AsteraApp, wired, or wireless DMX.

- 48 W LED Power Draw
- Pixel: 16
- 1 m

## HELIOS TUBE

### SHORTER TUBE FOR MORE PORTABILITY AND FLEXIBILITY

Helios Tube offers all Titan Tube features in a smaller, portable format with 8 pixels, half the brightness, and just over half the length, while matching Titan Tube's colors and brightness.

- 24 W LED Power Draw
- Pixel: 8
- 0.5 m
