

We provide a comprehensive & established system of care in a personal & warm residence for substance abuse & mental health participants.

Words of Strength:

When you have setbacks and failures, you can't overreact to them.

Enthusiasm is common; Grit is rare.

Our potential is one thing. What we do with it is quite another.

When you keep searching for ways to change your situation for the better, you stand a chance. When you stop searching, assuming they can't be found, you are guaranteed to lose.

Grit Grounds Recovery Homes

Our mission is to assist participants in gaining a healthy and sober lifestyle by providing a safe and sober environment for them to live.

**GRIT
GROUNDS**

Let us help YOU.

Substance abuse and mental health issues can destroy families and lead to societal problems including domestic violence, unemployment, homelessness and crime.

Fix your Path

Our recovery homes are committed to helping individuals achieve permanent sobriety by focusing on the restoration of physical, emotional and mental health. Learn how to deal with setbacks and struggles. Create a plan to succeed in society. Surround yourself with those that build you up and show you a rewarding life.

Accountability is the Key

“Your homes are the greatest. They are affordable, clean, safe, newer, and an easy place for me to center myself on my recovery.”

Grit and Endurance are Rare

We want to help those involved in our program succeed in their goals, not only in recovery, but short and long term personal goals as well. The program and rules that we have established, were created to help improve our participants sense of accountability and responsibility.

Focus on What Works for you

Homeless, unemployed, enslaved and broken, I decided to change my life around and give myself a chance. I moved into sober living, was blessed with an amazing job, found a support system and worked and continue to work an honest program of recovery. I have been drug/alcohol free for 18 months now, and I have never been happier. I got involved with a 12 Step Program, and have accumulated an amazing sponsor, wonderful friends (some of which I consider family). Life is better than I ever imagined possible, I am clean, happy, and finally free.

Key Offerings

A dedicated environment to help you in your recovery. Attention focused on completing your responsibilities in order to put your life on a positive track.
