

## MILLENIUM DRAIN SEAL

### Features

- Millenium Drain Seals are manufactured with durable nylon and EPDM rubber and can be compressed to form a secure seal between roof drain stems and existing plumbing drains
- The flexible rubber is expanded by tightening internal stainless steel screws thereby stopping water leakage at the connection in the event of water backup in the drain
- Available in sizes 3", 4", 5" and 6"
- Are an ideal fit with all Millenium Retrofit Copper drains
- Manufactured with highest quality materials and exact tolerances
- Easy to install and a watertight connection
- 3 independent stainless steel bolts prevent "spinning" seal during installation
- Hardened brass base prevent stripping
- 1 3/4" to 2" Coupling with stainless steel MJ Clamps for secure retrofit connection
