THE HOME OF SIZE REDUCTION

WWW.ZERMA-AMERICA.COM

SALES@ZERMA-AMERICA.COM

**POWERED BY
GERMAN
ENGINEERING**

The GSL slow speed granulators of the 180 series are mainly used in injection and blow molding processes as beside the press machines to grind runners and sprues. The resulting granules are then immediately reintroduced into the production process. The machines can be used for rejected products in the inline recycling process as well. Different hopper and base frame designs make it possible to integrate the machine with most types of injection molding machines and robots.

ADVANTAGES OF THE GSL 180 SERIES SLOW SPEED GRANULATOR

- Direct driven staggered rotor
- Easy access for maintenance and cleaning
- Small foot print
- Special knife design makes adjustment unnecessary
- Slow rotor speed creates less noise and dust
- Easily customizable to suit different applications

UNITS ARE IN STOCK AND READY TO SHIP

CALL 847-291-1300 FOR MORE INFORMATION

9120 Centerlinks Commerce Drive, Unit 4 Fort Myers, FL 33912

High quality equipment and customized solutions for your needs in recycling and extrusion

Thanks to our vast experience in the plastic industry and of our selected OEMs, IRS can offer you:

- recycling / upcycling systems for plastics
- extrusion systems
- filtration systems
- washing systems
- drying systems
- size reduction equipment

 **GAMMA MECCANICA**
RECYCLING LINES FOR PLASTIC MATERIALS

 **BRUNO FOLCIERI**
Granulators for Plastic Materials

 **PLASMAQ**
Recycling and recovery equipment

 **BD PLAST®**
FILTERING SYSTEMS

INNOVATIVE ROBOTICS LINE FOR PLASTICS INJECTION MOLDING !

H5 Series !

Heavy Payload , Low ceiling !

H5 SERIES

- Molding Machine Size : 750 ~ 4,000 Tons
- Full Servo Robot up with 5 Axis AC Digital Servo.
- Industry First !. reverse (1 Axis) + Articulated Robot (4 Axis)
- Heavy Payload, Low ceiling & Less foot print
- Application : Basic Take out, Stacking, Insert Over Molding, Gate cutting, 2ndary automation!
- Features : High Strength Steel Frame, Powerful AC servo Motor, High Precision NSK Liner Motion Guide.

H5-C10 Controller

- 7" Wide Touch Screen
- ARM Cortex-A8 CPU, DDR2 512 MB
- Body Attached I.O box
- High-Performance EtherCAT Communication
- User-Friendly Icon-Based Control Screen.
- Developed with 30 years experience in the plastics molding industry.
- CE Certified Components, ISO 9001 Quality Production.

EPIK SERIES (Single or Double Arm Model)

- Molding Machine Size : 200 ~ 800 Tons
- Single or Double Arm Model (3~7 Axis AC Servo Control)
- Control : HYK-70 (Keba) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation, Sprue Picking
- Features : High Strength Steel Frame, High Strength AC servo Motor, Low Noise NSK Liner Motion Guide

HYK-70 (KEBA) Controller

- 7" Wide Touch Screen
- 1.2 GHz, ARM Cortex-A9 Core
- Ergonomic Design,
- High-Performance EtherCAT Communication
- High Quality Components, ISO 9001 Quality Production.
- User-Friendly Icon-Based Control Screen.
- Mode and teaching type programming for beginner mode
- Line by line programming for expert mode

ISO9001 QUALITY

CE CERTIFIED

EPIK-W SERIES (Flat Front Style Robot)

- Molding Machine Size : 400 ~ 4,000 Tons
- Flat Front style Robot with Single Arm Model
- Control : HYK-70 (KEBA) Controller
- Application : Basic Take out, Stacking, Insert Over Molding, In Mold Labeling and Other 2ndary Automation.
- Features : Longer parts handling, Low ceiling.

UNIK- SERIES (Mini Servo Robot)

- Molding Machine Size : 50 ~ 200 Tons
- Single or Double Arm Model
- Control : HYK-70 (KEBA) Controller
- Application : Take out, Stacking, Gate cutting, 2ndary Automation, Light Application.

NEO series

Design drives change.

Tederic, Your Global Partner

No matter where you are located in the world, Tederic can provide you with premium, high-quality plastic injection molding machines and exceptional after sales service and parts support.

In addition to the Tederic headquarters in China, we have 4 overseas subsidiaries, and our distributors and agents are located in 38 countries around the world.

The all new NEO Series

The **NEO** family of premium injection molding machines are designed to offer stable, precise, efficient and energy saving performance.

Excellent specifications, Industry 4.0 ready controller, and leading brand componentry, all used in conjunction with cutting-edge design, produce machines that are perfect for even the most demanding applications.

SAFETY FIRST!

RHINOFEET™ FOR A SAFER SHOP FLOOR!

From molds on the floor to tools on the bench, Progressive's RhinoFeet offer a simple solution to elevate and store heavy items:

- Eliminates the trip hazard of wood and skids strewn about the plant.
- Cleaner approach that improves 5S standards.
- Conveniently stores within reach magnetically.

Call 1-800-269-6653 for a free sample, and visit our website for a product video and more info.

Change Injection Molds Faster

with SMED Friendly Products

SWAP® Valves

Shave 15 to 20 minutes from each mold change. Quickly and cleanly clear cooling water lines between mold changes using shop air.

- 1-inch and 2-inch models available in brass
- 1-inch model reinforced nylon body shown
- Full port design for maximum water flow
- Reduces slip hazard by keeping shop floors dry.
- Optional positive lock eliminates accidental valve handle movement.
- Optional air separator removes residual air from cooling water lines.

DUOFLOW® Anodized Aluminum Manifolds

Simplify water hook-up to a single supply and return connection. Mount manifolds directly to molds in storage.

FasTie® Quick Ejector Tie-In

Connects and disconnects mold and press ejector systems in a snap without modifications to mold or press.

Follow the QR Code to watch the SWAP Valve Animation

ASK FOR CLEAN PLAST® PURGE COMPOUNDS AND NEWLY RELEASED MOLD CARE PRODUCTS!

“DON’T just purge to purge, PURGE TO CLEAN using the original **CLEAN PLAST®** purging compound. Contact me today to arrange for a FREE purge trial at your plant and see the difference a **CLEAN PLAST®** PURGE will make.” –*Rochelle Lemieux, President*

- **CLEAN PLAST®** is safe to Purge through Hot Runners including pre-form molds!
- **CLEAN PLAST®** is safe for all resins including PET Bottle grade.
- **CLEAN PLAST®** has no harmful abrasives or solvents!
- **CLEAN PLAST®** ingredients are GRAS by the FDA.
- **CLEAN PLAST®** cleans Screws, Barrels, Accumulators, Hot Runners and Stack Molds.
- **CLEAN PLAST®** can be used in Injection Molding, Extrusion, and Blow Molding.

MOLD CARE

Along with purging products, Clean Plast® also offers a line of mold care sprays that can be used for mold and tool applications. Our mold care products consist of: CPMC100 Mold Cleaner and Degreaser, our environmentally friendly CPMC101 Go Green® Mold Cleaner, CPMC200 Mold Rust Preventive, CPMC300 Heavy-Duty Mold Release, CPMC301 Food Safe Mold Release, and CPMC400 Silicone Mold Release. The 2023 Buyers' Guide will be out this summer

Have you signed up to be listed yet?

Plastics HOTLINE

The 2023 Buyers' Guide will be included
in the August Print & Digital Issue

Receive a FREE Basic Listing + Logo if you run an ad in the August 2023 issue. **Deadline for a Buyers' Guide Listing is July 25, 2023.**

Be Listed as a **FEATURED SUPPLIER** in Plastic Hotline's 2023 Buyers' Guide!

Be part of our Featured Suppliers alpha section at the beginning of the printed (and digital) edition in August with your company name, logo, 30 word description, phone, and email of your choice + additional exposure as a Featured Supplier in our Buyers' Guide Digital Edition eblast!

Add-On to one of the packages below: **\$150**

2023 Buyers' Guide Print & Online Listing Packages:

BASIC LISTING:

- Includes company name, address, phone/fax, URL
- Listed in up to 3 product categories
- [View a sample on our Online Buyers' Guide](#)

Total: \$75/12 month package

DELUXE LISTING:

- Basic listing plus...
- Boldface listing in print and online
- Logo in print & digital edition of August Annual Buyers' Guide issue
- Unlimited product categories in print & online
- Social media graphics in your listing with links
- Your video in online listing for a year
- [View a sample on our Online Buyers' Guide](#)

Total: \$195/12 month package

THE BEST LISTING:

- Deluxe listing plus...
- Company description online (up to 300 words)
- Appear at the top of all buyers' guide categories when searching
- 2 product images in your online buyers' guide listing
- 2 spec sheets in your online buyers' guide listing
- 2 videos in your online buyers' guide listing

Total: \$395/12 month package

The collage features the 2022 Buyers' Guide cover at the top, which includes the text: "Use our Buyers' Guide to find industry suppliers for all of your plastics needs. Also visit our online Buyers' Guide (www.plasticshotline.com/buyers-guide) for more information about these companies and more." Below the cover are several featured supplier advertisements:

- CLEAN PLAST**: "PLURGE FAST Clean Plast® Purge Compounds PO Box 1503 Noblesville, IN 46061 317-770-3680 | Fax: 888-228-3865 Info@cleanplast.com www.cleanplast.com CLEAN PLAST® PURGE COMPOUND is a specially developed, ready-to-use purging compound. Used for cleaning screws, barrels, nozzles, and hot runners to remove burned material, color hang-ups, deposits, and black specks during color and/or material changes."

ColorStream™

plastrac

The Blending Revolution is Here!

Increases Safety

**Reduces Costs on
Time/Labor/Energy**

**Slashes Costs of
Capital Equipment**

Quick Color Changes

On the Plant Floor!!

Our patented, modular, virtually maintenance-free system moves blending and color changing to ground level. No more catwalks, scissor lifts, ladders, or climbing to swap out canisters or perform maintenance. And because it is cart-based, ColorStream can move easily between multiple machines.
