FileHorse.com – One stop location for the latest software

If you're looking for one location from where you can download all the latest Windows and Mac software – you're probably looking for FileHorse.com. Whether you have just (re)installed Windows operating system, bought a new Mac or you're looking for some new web application FileHorse.com is the ultimate solution.

Selection of hand-picked Windows and Mac software on FileHorse is made to cover needs of most people. All programs on the site are split into several categories to help you find or discover software you need easily. Software descriptions, screenshots and change logs are always kept up to date with latest versions of software. Our site has archives of previous versions so besides being able to download latest you can also download older versions of software. And that might come handy! If you have got used to some good old versions of some programs and now you can't find them anywhere – FileHorse has them all! All software on our site is tested against viruses and it's spyware free so you don't have to worry about it. We also host all those files on our dedicated servers so all our download links will always work.

Design of the site is refreshingly clean, modern and very user friendly. The site itself is designed with speed in mind and uses technologies used by Google and Facebook to achieve great page loading and file download speeds in order to improve user experience. Navigating through the site is easy and logical and you will find your way in a breeze.

New software is added few times a day and visiting the site is great way to keep you updated with latest releases and builds. You can follow FileHorse on Twitter or "like" its Facebook page in order to get updated without coming to the site directly. You can also add RSS feed to your reader or if you like getting mails you can subscribe by email and get daily updates straight into your inbox.

More and more applications are moving to web. You don't have to download and install a program to use it - you just need to visit web site and perform those tasks online but finding those is not easy. So we have developed probably the best directory of web applications online where you can find the sites that help you finish tasks without buying or installing software. So besides saving money it will also save your time and your hard disk space.
