

# Purpose-built FinOps for the Public Sector

State and local government and education (SLED) organizations are rapidly adopting cloud infrastructure to modernize services and deliver better outcomes for citizens and students. However, managing cloud costs across distributed teams, complex procurement processes, and strict budget cycles presents significant challenges. Ternary for Public Sector empowers SLED organizations to manage cloud spend with transparency, accountability, and control.

## Why Ternary

Ternary for Public Sector provides all essential FinOps features, such as multi-cloud visibility, allocation, optimization, and forecasting, plus advanced multi-tenant functionality designed specifically for central IT teams that act as cloud service brokers. With Ternary, central IT teams can seamlessly offer cloud services and infrastructure from the department or agency level down to individual business units.

## Business Unit Breakdown

Name	User Cost	Billed Cost
Department 1	\$820,056.98	\$820,056.98
Department 2	\$556,495.02	\$556,495.02
Department 3	\$282,810.74	\$282,810.74

## Featured customer

*“Implementing Ternary as our multi-cloud FinOps platform has greatly improved cost transparency and accountability. With Ternary, the Department of Technology operates as a central service provider, efficiently managing cloud subaccounts for various city and county agencies. This enables us to allocate and monitor cloud spending with greater efficiency and control. Their team’s proactive support ensures that we maximize value and achieve our FinOps goals.”*

- Darryl Hammond, Principal IS Engineer, City of San Francisco

## A trusted partner for your success

With Ternary, all customers get access to our team of FinOps Certified Practitioners who will guide you through your FinOps journey. Our customer success service is free of charge. It provides you with a customer success manager who will assist you throughout the implementation process and support you on an ongoing basis to help you achieve your desired mission outcomes.

Drive mission outcomes with multi-cloud cost efficiency.
