

TFORCE LOGISTICS FUEL SURCHARGE TABLE - CANADA

- Fuel surcharge will be based on a fuel price of \$0.95 CAD per litre (the “Base Price”), and that cost of fuel may be subject to significant levels of fluctuation
- Fuel will be adjusted at the beginning of each month (to apply to the upcoming month) to reflect the increase in the price of unleaded fuel based on the average retail price including taxes for the prior month as supplied by Kalibrate
 - This information is available at <http://charting.kentgrouppltd.com>
- The following formula will be used to determine the fuel surcharge to be applied;
 - For every one (1) cent per litre increase in fuel price, a fuel surcharge of 0.33% will be levied.
- Note: Fuel surcharge percentages and associated trigger points are subject to change without notice
