

SIMRAN

SUSTAINABILITY IN EVERY STITCH

LEATHER MANUFACTURERS

From Our Tannery to Your Brand

We truly embrace the Michelin concept: 'Any restaurant can only serve delicious food if it has its own kitchen.' By having our own tannery, we control every step of the process, from raw materials to the finished product. We are leather artisans, ensuring every piece is crafted with the utmost care.

Rajan Arora (Our CEO)

HIGHLIGHTS OF OUR EXCELLENCE

Heritage & Quality

Founded in 1972, Simran is a second-generation, family-owned business steeped in artisanal leather craftsmanship. Leather is our DNA, and we live, love, and breathe it.

Industry Leader

Simran has grown to become a B2B leader in the leather apparel industry, boasting a strong reputation for quality and expertise.

Sustainable & Compliant

Our 100,000 sq ft, audited manufacturing facilities operate under stringent quality parameters and prioritize transparency and sustainability.

Global Reach

We have a production capacity of 0.2 million units annually, supplying 61 brands across 11 countries worldwide.

Vertical Integration

Unlike others, Simran owns and operates its own tannery, allowing us to carefully monitor quality, experiment with new tanning techniques, and develop innovative leather materials. This ensures consistent, high-quality products for our clients.

Fashion Forward

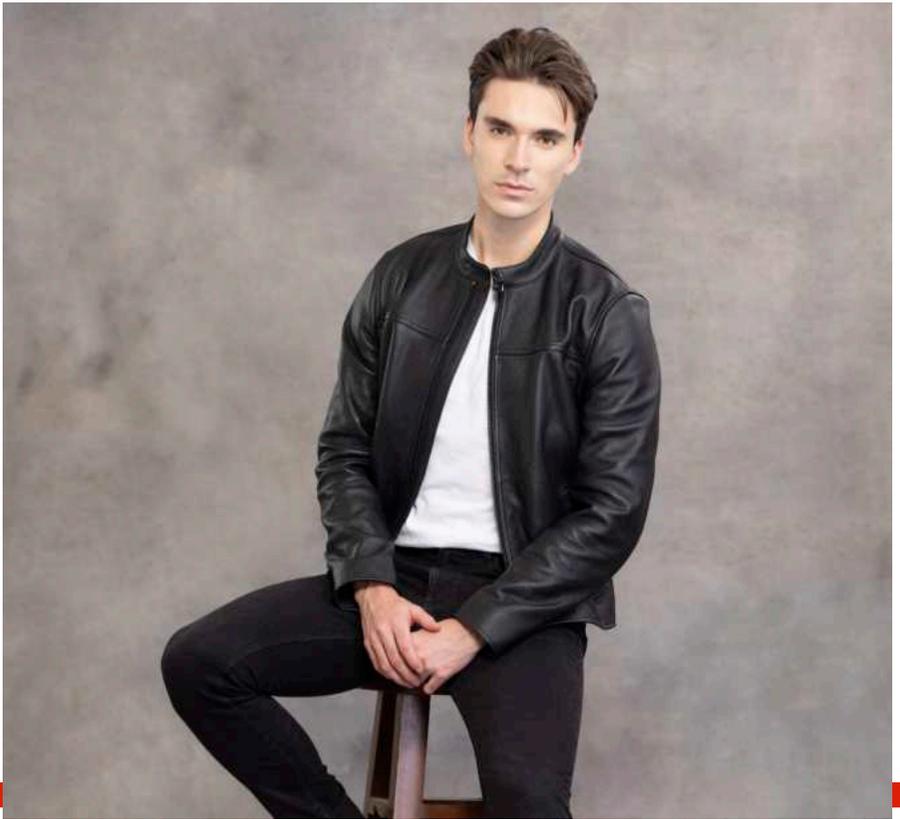

Our young and dynamic team collaborates strategically with fashion houses in major cities like New York, Paris, and London, keeping us at the forefront of fashion trends.

Technical Expertise

We go beyond simply manufacturing. Our team provides technical proposals for each style, recommending the most appropriate leather quality for optimal results, saving our clients valuable time and resources.

Global Presence, Localized Service

Operating our own tannery and manufacturing facilities guarantees consistent quality, while our strategic sales partners in key locations (Paris, London, Dallas, Hering, Hamburg, and Melbourne) provide exceptional localized client service.

OUR ETHOS

Where Quality Meets Responsibility

We believe in creating exceptional leather apparel that transcends trends. We are not just artisans; we are stewards, committed to the future of our craft and the well-being of our planet.

Uncompromising Quality, Ethically Sourced

OEKO-TEX® Leather Standard Certified

Our leathers meet the highest standards for human-ecological safety, ensuring both quality and responsible practices throughout the entire supply chain.

LWG® Gold Certified Tanneries

We possess tanneries that prioritize environmental responsibility, adhering to the strictest protocols set by the Leather Working Group.

Ever-Green® Certified Leather:

Every piece of leather we use is a verified byproduct of the meat industry, ethically sourced and minimizing environmental impact.

Sustainability as Our Ethos

Inspired by the philosophy “with great power comes great responsibility,” Simran embraced sustainability in 2006 - long before it became a trend.

Environmental science, ethical sourcing, and social accountability are woven into the very fabric of our company culture.

Transparency is paramount, and our commitment is reflected in every aspect of our operations.

Traceability You Can Trust

The leather used in your garments can be traced back to its farm origins. This meticulous tracking system, along with swing tickets issued with every unit, ensures complete transparency and peace of mind.

European Quality, Global Standards

We take our commitment to responsible practices a step further. All tanning agents, dyes, and finishes used during processing are European-sourced and comply with the strictest REACH® and Afirm® standards.

This ensures our leather is eco-friendly, consumer-friendly, and human-friendly, adhering to all relevant regulations.

People Matter

Social and worker welfare are paramount at Simran. Our manufacturing sites are SA8000:2015 certified (by BVQI), guaranteeing ethical labor practices and a safe working environment for our employees.

Simran International Export (India) Pvt Ltd

OUR QUALITY

A Commitment Beyond the Surface

We believe quality goes far deeper than a simple stitch. It's about the detailed craftsmanship, the enduring materials, and the sustainable practices that weave a garment unlike any other. Here's what sets Simran apart:

Building Blocks of Excellence

We don't settle for ordinary trims. We treat them as the foundation upon which exceptional garments are built. Our "Brick & Mortar" approach ensures every detail is carefully manufactured to stand the test of time. This translates to long-lasting pieces you can cherish for years to come, backed by our industry-leading 2-year guarantee.

Fashion with Conscience

We're passionate about creating beautiful fashion with a conscience. That's why we source only the finest, certified materials with minimal environmental impact. Our renowned down fillers and regular fillers boast 100% recycled polyester fibers, manufactured by the renowned Freudenberg® from Germany, a leader in sustainable textiles.

Recycled Materials

Our dedication to sustainability extends to every aspect of a Simran garment. We prioritize recycled materials whenever possible, using certified recycled polyester for interlinings and fusings, all manufactured by the trusted Freudenberg®.

Simran International Export (India) Pvt Ltd

OUR QUALITY

A Commitment Beyond the Surface

Eco-Friendly Hardware

Even the zippers on our garments reflect our commitment to a greener future. We use certified sustainable zippers with recycled tapes, eco-friendly polishing, and recycled alloy components (unless a specific vendor is designated). This ensures smooth operation without compromising the environment.

Stitches: Thread with a Story

We don't take even the smallest details for granted. Every stitch on a Simran garment is made with a recycled polyester blend thread by Coats® UK. This not only reduces environmental impact but also ensures color consistency, as each unit is dyed to match the fabric perfectly.

Linings - Fabrics Reborn

The linings of our garments are a testament to our commitment to a circular economy. We use 100% recycled fabrics woven from yarns derived from recycled plastic bottles. Additionally, we offer linings made from recycled clothing by European companies, giving new life to pre-consumer and post-consumer waste.

OUR QUALITY

A Commitment Beyond the Surface

Packaging - Boxes That Care

Our commitment to sustainability extends beyond the garment itself. All the cardboard boxes and paper used in our packaging are certified recycled, ensuring responsible waste management and minimizing our environmental footprint.

Buttons - Quality Conscience

Even the buttons on our garments reflect our dedication to quality and sustainability. We use high-quality buttons from Prym® Germany (unless a specific vendor is chosen), ensuring both durability and a touch of European flair.

Adhesives: Preserving the Planet

To preserve rubber trees and minimize pollution, we use non-rubber and non-polluting adhesives from Nan-pao Korea. This ensures our garments are assembled with minimal environmental impact.
