

Tenable One Exposure Management Platform Introduction Course

Tenable University

Course overview

The Tenable One Exposure Management Platform Introduction consists of a series of short, on-demand lessons providing the fundamental building blocks for implementing Continuous Threat Exposure Management (CTEM) and the Tenable One Exposure Management Platform to identify exposures, prioritize remediations and reduce risk across your modern attack surface, as well as assess and improve the success of your organization's exposure management program. This Introductory-level course is available for no cost at [Tenable University](#).

This course is available as an On-Demand Training (ODT). Tenable presents the components of Tenable One and navigation within the workspace. Content includes basic overviews and demonstrations of the features and capabilities of Tenable One: inventory, third-party connectors, aggregated risk-view analytics, and breach and attack path mitigation. The course features a blend of lectures and demonstrations, all designed to promote active engagement and enhance learning outcomes.

Audience

This course is suited for professionals interested in learning basic operational use of Tenable One.

Prerequisites

None.

Key benefits

- **Product-based demonstrations**
View practical, real-world demos showing Tenable products in realistic scenarios
- **On-demand scheduling**
Watch the self-paced video course on your schedule
- **Strong foundational knowledge**
Complete this course to learn how to implement the Tenable One Exposure Management platform to identify the true exposures threatening your organization

 - Summary

About Tenable

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for over 40,000 customers around the globe. Learn more at tenable.com.
