Overview

Verkada DK11 Demo Kit: Bring the plug–and–play simplicity of Verkada's cloud–based physical security platform to a self–contained demo environment for you to deploy, trial and explore.

The DK11 features a Verkada 4–door AC41 Access Controller, Verkada's new AD32 multiformat bluetooth Door Reader, a Verkada CM41 Mini Dome Camera, 5 Verkada Prox Cards, and a fully electrified door with a maglock, DPI, REX and lockdown button. This configuration allows users to experience the benefits of Verkada's cloud–managed access control solution in an easy, simplified way.

Key features

- A completely electrified door featuring a maglock, door contact & request–to–exit sensor and a AD32 Door Reader.

- Full door access control with AC41 Door Controller.
- Integrated video with CM41 Mini Dome Camera.

- Unlimited access to cloud–based software management platform.
- Panic button to trigger lockdown.

FAQs

How much does the DK11 Demo Kit cost?

The DK11 is available free of cost on a trial basis and for purchase for an MSRP price of $4,199.00

Do I need to buy a camera and door license if I buy the DK11?

No. The DK11 comes with 1 AC41 Door Controller, 1 AD32 Door Reader and 1 CM41 Mini Dome Camera and a free 3 year door license and a free 3 year camera license.

If I trial a DK11, how long can I keep the DK11 Demo Kit?

The DK11 is available on a 30-day trial basis. If you need more time to evaluate Verkada's products, or to request an extension, please contact sales@verkada.com. Partners will also be able to purchase the DK11 starting in July 2022.

How long does it take to set up the DK11?

The DK11 can be set up and configured in under 10 minutes. Additionally, you can customize your DK11 settings to mirror the specific needs of your organization and use case in Verkada Command to explore the full capabilities of Verkada Access Control.

How do I upgrade from the DK11 to Verkada Access Control?

Once you have set up and configured the DK11, you can seamlessly expand to Verkada Access control by following the same install and set up process on your actual building. The DK11, AC41 Door Controller, CM41 Mini Dome Camera, and Verkada Command cloud–based software management platform are the same as the Verkada hardware product's you'll install on your organization's building.

I have just received my DK11, how do I set it up?

Detailed setup instructions and troubleshooting can be found in the DK11 setup video available here: https://www.verkada.com/demokit/.
