

The New Generation Physical Security and Smart Building Platform

Verkada's A&E New Construction team works alongside you during the design phase, to evaluate building and security systems and ensure customer requirements are met or exceeded. Designed with simplicity in mind, Verkada begins with a single pane of glass to eliminate complexities and scale easily across any number of sites.

Command Platform

Manage devices, users and sites from a single pane of glass — accessible from a simple web browser or mobile app.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Access Control

Easily manage doors and employee credentials with Global Access and Active Directory integrations.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Air Quality Sensors

Monitor environments for air quality, temperature, humidity, motion, noise, smoke and vape emissions.

Guest

Personalize the check-in experience with custom sign-in flows, complete with security and health screens.

Intercom

Answer calls from anywhere with sharp intercom video, clear audio and four smart receiver methods.

Mailroom

Streamline mailroom management and safeguard assets with native camera integration.

Cellular Gateway

Deploy Verkada devices in hard-to-wire or remote locations. Use the Verkada data plan or bring your own.

Why Verkada?

No NVRs or DVRs
– up to 365 days of
onboard storage

Unlimited user seats
and cloud archiving

Up to 10-year warranty
and predictable
renewal costs

24/7 technical support
via email, phone
or live chat

**Easy multi-site
management**
with cloud-based
software

Automatic updates
to unlock features and
maintain security

Key benefits

Automate your building security

Connect to existing systems and automate your security operations using Verkada's API, webhooks and RTSP streams.

Simple to install, use and maintain

Easily install plug-and-play devices that operate at 20 kbps – requires no NVRs, servers, or complex configurations.

Retain value over time

Always evolving, the Verkada system automatically updates with the latest software and firmware enhancements.

Seamless integration across devices

Video security natively integrates across the product ecosystem, enabling a seamless end user experience.

Evolving technology stack

Over-the-air updates contain the latest software and firmware enhancements, so the system is continuously improving over time.

Built for teams

Set tiered, role-based access and empower team members with an intuitive, easy-to-use software platform.

Customer stories

Belron International

"I love automation. What stood out about Verkada was the native integration between video and access control, along with the ease of use and management."

Ash Hussain,
IT Lead

Clwdalyn Housing Association

"We have a large footprint and variety of buildings to secure, so integrating cameras with access control is beneficial for us. Being able to combine all our physical security needs onto one platform was a key driver in our decision to go with Verkada."

Nick Peers,
IT Technical Manager

Virgin Hyperloop

"Verkada is a modern solution that's innovative and constantly evolving, adding new features and functionalities – you don't realize what you're missing until it's there."

Dawn Armstrong,
VP of IT

*Customer count is being kept the same as last quarter because Sales Ops is changing how they measure customers (counting 'active customers' rather than 'customers who have purchased over \$X') so we're expecting the number to go down with the new methodology.
