Help Prevent Diversion. Protect Your People and Pharmacy Supply Chain.

Improved Visibility and Traceability for Medication Handling

Hospitals and clinics face increasing pressure to prevent drug diversion and meet the evolving expectations set by the DEA for controlled substances. Cloud-based physical security enhances medication oversight at scale, helping healthcare providers ensure compliance, enhance patient safety, and reduce operational risks.

Key Benefits

Enhance medication visibility

Improve traceability from receiving to dispensing with integrated security cameras, intercoms, and access control. Automatically view footage associated with each door event.

Integrate video with ADS & PMS systems

Connect video footage to your automated dispensing or pharmacy management systems via open APIs to efficiently audit and investigate medication issues.

Maintain staff and patient privacy

Maintain patient privacy and support HIPAA compliance by blurring faces on live footage, blocking sensitive areas, and tiering user permissions.

Rapidly investigate with AI

Find answers fast with flexible search options. Search across your entire camera fleet in real time using motion detection, reverse image search, or plain-text descriptions.

Reconstruct a timeline of events, instantly

No more guessing. Automatically build a timeline of events, showing where someone appeared across multiple cameras and on a floorplan.

Audit processes more effectively

Audit key processes from medication preparation to waste management. Use video insights to enhance staff training and minimize the risk of errors.

Why Verkada?

No NVRs or DVRs – up to 365 days of onboard storage

Unlimited user seats and cloud archiving

Up to 10–year warranty and predictable renewal costs

24/7 technical support via email, phone or live chat

**Easy multi–site management** with cloud–based software

Automatic updates to unlock features and maintain security

Connect Third-Party Event Data with Verkada Video Footage

Verkada Helix connects your pharmacy and medication dispensing data to security footage through open APIs, making audits and investigations faster and easier.

Drug Name, Order ID, Lot Number, Serial Number, NDC, Expiry, etc.

Automatic Dispensing Systems (ADS)

Pharmacy Management Systems

Real-Time Location System (RTLS) Data

Helix

Prescription Order ID, Date, etc.

Tag ID, Patient ID, etc.

Recommended Solutions

Video Security

AI-enabled cameras offer 24/7 recording, up to 365 days of onboard storage, and industry-leading image quality. No DVRs or NVRs needed – just a PoE connection.

Alarms

Protect satellite clinics and pharmacies from after-hours break-ins with live agent monitoring and video verification. Maximize visibility into every alarm with a cloud-based alarm system.

Access Control

Manage door access across facilities with granular role-based permissions and double-badge requirements to help prevent unauthorized access and misuse of controlled substances.

Video Intercom

Answer calls, grant entry, and secure loading areas and entrances from anywhere. Deny access to flagged individuals with real-time alerts during calls.

Air Quality Sensor

Monitor noise, temperature, humidity, and air quality to maintain proper medication storage conditions. Access sensor data and alerts in Verkada or third-party VMS platforms via APIs or pre-built integrations.
