

# Protecting Colleges and Universities with Modern Physical Security

## Overview

Verkada's cloud-based physical security platform speeds up investigations, improves emergency response, and simplifies operations for colleges and universities. Modernize your institution's security while protecting student privacy and enhancing cybersecurity.

## Trusted by top colleges and universities

## Protect students, faculty, and staff

### Search with AI

Quickly find critical incident footage across large campuses. Simply type a description or upload a photo of a person or vehicle to retrieve relevant video.

### Track a suspect's history

Instantly build a timeline of a suspect's appearances across multiple cameras or locations, with timestamped video clips to aid investigations.

### Seamless mobile entry

Students and staff can use their smartphones to unlock select doors with mobile NFC credentials or the Verkada Pass app.

### Atrium integration

For Atrium users, a pre-built integration provides residence hall access, allowing students to unlock Verkada-controlled doors with their Atrium ID cards.

### AI-powered threat detection

Get notified of after-hours trespassing. AI-enabled cameras spot known offenders and alert campus safety teams via SMS.

### Monitor parking lots

Easily monitor campus parking lots from anywhere by deploying cloud-based cameras with cellular gateways — no cabling needed.

## Transform emergency response

### Share intel with police

Stream camera feeds directly into campus security operations centers (SOCs), accelerating officer dispatch in response to critical incidents.

### Send live floorplans

Quickly send floorplans with embedded video feeds to campus safety teams or police via SMS, guiding officers to the location of the threat.

### Initiate an instant lockdown

Instantly lock down all critical exterior doors across campus with the press of a button from a smartphone or desktop.

### Grant door access remotely

Unlock doors using a smartphone or desktop to aid responders while keeping the rest of campus safely locked down.

### Unified security platform

Analyze Verkada's video data alongside insights from existing third-party cameras to improve situational awareness.

### Modernize blue light stations

Equip blue light stations with cloud-based cameras, video intercoms, and cellular or Wi-Fi gateways for reliable connectivity.

## Optimize campus operations

### Reduce burden on IT

Take the pressure off IT with a cloud-native platform — no NVRs or on-site servers required, and 24/7 technical support.

### Enhance cybersecurity

Restrict camera footage access to authorized users. Automatically track user activity across the organization with audit logs.

### Seamless visitor access

Issue temporary digital or physical credentials to visiting vendors or adjunct faculty for time-limited access to specific buildings.

## Why Verkada?

**No NVRs or DVRs**  
— up to 365 days of onboard storage

**Unlimited user seats**  
and cloud archiving

**Up to 10-year product warranty**  
and predictable renewal costs

**24/7 technical support**  
via email, phone or live chat

**Cybersecurity protection**  
SSO, 2FA, and Enterprise Controlled Encryption

**Automatic updates**  
to unlock features and maintain security

### Video Security

Record 24/7 with AI-enabled cameras that support privacy-sensitive features such as live face blur and privacy regions.

### Access Control

Remotely grant building access and automate door schedules with cloud-based access control.

### Alarms

Verkada Alarms acts as a virtual extension of campus security, with 24/7 professional monitoring and video verification.

### Intercom

Protect entrances with video intercoms — answer calls from anywhere with sharp video, clear audio, and four smart receiver methods.

### Guest

Simplify visitor check-ins at residence halls, student services centers, and alumni offices with a digital visitor management system.

### Air Quality Sensors

Set custom alerts for temperature, humidity, and other air quality indicators to minimize disruptions to campus operations.

### Mailroom

Optimize delivery management by tracking package drop-offs with a simple mobile scan and auto-notifying recipients upon delivery.

### Connectivity

Deploy Verkada devices with cellular or Wi-Fi gateways in hard-to-wire locations like parking lots, gates, and stadiums.

### Viewing Station

Stream up to 300 live camera feeds into one centralized location and gain instant visibility across distributed campuses.
