

## Verkada Wireless Locks

### Bring Access Control to Every Door

## Overview

The Verkada Wireless Lock empowers organizations to upgrade traditional lock-and-key systems with a smart, connected solution. With access control across every door, organizations can centrally manage all doors and immediately trigger changes — like initiating lockdowns — with a single click via web or mobile.

All locks can be easily set up right within Verkada Command, requiring no additional software. Admins can receive proactive alerts about low battery status, lock or hub disconnection, and change in door state. Coupled with over-the-air firmware updates, these features help maximize uptime.

End users can enjoy a seamless unlock experience, using a variety of credentials — including hands-free Bluetooth Intent Unlock — to access doors, with clear LED feedback to confirm the door's status.

Organizations can choose from two lock types, cylindrical and mortise, which each come in three variations to suit a range of key cores.

## Key features

### Automated latch bolt monitoring

Ensure doors are closed, locked, and latched with a built-in latch bolt monitor and door position indicator. Receive proactive alerts for when doors are held open.

### Long-range wireless connection

Using Verkada's VLink protocol, immediately connect up to 16 locks with the WH32 wireless hub. The hub is wired to an AC12 access controller and can support any lock within a 150 feet radius or up to 2000 feet with a clear line of sight.

### Local schedule override button

Trigger immediate changes to a door's schedule — like access controlled to unlocked, and unlocked back to access controlled — with a simple button press directly on the lock.

### Built to last

With a ten-year warranty, UL's three-hour fire rating (pending) and ANSI Grade 1 certification (pending), the AL54 is a robust solution for a variety of doors and environments.

### LF-, HF-, Bluetooth, and NFC support

Unlock doors with a wide array of credentials, from low-frequency proximity cards and high-frequency NFC credentials such as Apple Wallet. A built-in reflective sensor also supports Bluetooth Intent Unlock.

### Intuitive interior and exterior LED feedback

Gain instant visual confirmation of a door's status — access granted, access denied, lockdown states, and connectivity status — on either side of the door based on the color and blinking pattern of the LED indicator.

# End-to-end Cloud Management

## Key benefits

### Unified hardware and software

Oversee every component of an access control deployment from one platform, including locks, access controllers, wireless protocols, and management software. Admins and partners require only one system for configuring locks, setting door schedules and permissions, and managing devices and workflows.

### Quick action across doors

Trigger changes across doors in a matter of seconds. Locks are online and responsive to real-time updates in Command. Admins can control the state of doors, from initiating lockdowns during emergencies to adjusting door schedules for specific sites – all in just a few clicks.

### Proactive alerts

Receive proactive alerts for system health issues like offline devices, disconnected hubs or locks, or low batteries to help ensure locks are functional. Admins can also receive alerts for security events, including when doors are held or forced open. All alerts are customizable by recipient, schedule, and channel, so issues can be addressed in a timely manner.

### Instant cross-site visibility

Manage all devices and doors across sites in one place. Admins and partners can modify deployments and remotely troubleshoot issues from virtually anywhere, any connected device, with access to 24/7 support.

## Ordering Information

### Wireless Lock pricing

Model Number	Description	Cost (MSRP) USD
AL54-CY-CC-01-26-HW	AL54 Cylindrical Lock, Conventional Core	\$1,399
AL54-CY-FC-01-26-HW	AL54 Cylindrical Lock, Full Size Interchangeable Core	\$1,399
AL54-CY-SC-01-26-HW	AL54 Cylindrical Lock, Small Format Interchangeable Core	\$1,399
AL54-MS-CC-01-26-HW	AL54 Mortise Lock, Conventional Core	\$1,799
AL54-MS-FC-01-26-HW	AL54 Mortise Lock, Full Size Interchangeable Core	\$1,799
AL54-MS-SC-01-26-HW	AL54 Mortise Lock, Small Format Interchangeable Core	\$1,799

### Controller and Hub pricing

Model Number	Description	Cost (MSRP) USD
AC12-HW	AC12 One-Door Controller	\$799
WH32-HW	WH32 Wireless Hub	\$299

### Accessories pricing

Model Number	Description	Cost (MSRP) USD
ACC-RS485-2M	Verkada 2m RS485 Cable	\$10
ACC-DR-CY-1	AL54 Cylindrical Door Reinforcer (2.375" Backset, 1.375" Door Thickness)	\$99
ACC-DR-CY-2	AL54 Cylindrical Door Reinforcer (2.375" Backset, 1.75" Door Thickness)	\$99
ACC-DR-CY-3	AL54 Cylindrical Door Reinforcer (2.75" Backset, 1.375" Door Thickness)	\$99
ACC-DR-CY-4	AL54 Cylindrical Door Reinforcer (2.75" Backset, 1.75" Door Thickness)	\$99
ACC-DR-MS-1	AL54 Mortise Door Reinforcer (2.75" Backset, 1.75" Door Thickness)	\$99

## Ordering Information

### License pricing (New/Capacity Increase)

Model Number	Description	Cost (MSRP) USD
LIC-AC-1Y-CAP	1-Year Door License, Capacity Increase	\$249
LIC-AC-3Y-CAP	3-Year Door License, Capacity Increase	\$599
LIC-AC-5Y-CAP	5-Year Door License, Capacity Increase	\$999
LIC-AC-10Y-CAP	10-Year Door License, Capacity Increase	\$1,999

### License pricing (Renewal)

Model Number	Description	Cost (MSRP) USD
LIC-AC-1Y-RNW	1-Year Door License, Renewal	\$249
LIC-AC-3Y-RNW	3-Year Door License, Renewal	\$599
LIC-AC-5Y-RNW	5-Year Door License, Renewal	\$999
LIC-AC-10Y-RNW	10-Year Door License, Renewal	\$1,999
