## Overview

The CD22 dome camera provides essential 3MP coverage in a variety of indoor spaces. With its 1 / 2.8" progressive CMOS image sensor and 10 meters / 33 feet of IR range, the CD22 offers reliable visibility for organizations seeking quick and scalable deployments. The CD22 includes an onboard CV25S Ambarella processor to detect and alert on the presence of people and vehicles. The CD22 is optimized for covering spaces like storage closets and store aisles where supplemental visibility is necessary.

The CD22's sleek design and IK08 impact rating enable organizations to deploy a durable, tamper-resistant camera while also keeping aesthetics top-of-mind. Installation is simple and intuitive, and setup is easy to track with an LED status indicator. The included mount plate additionally allows the camera to be mounted to a wall or ceiling without any additional hardware.

1. All our cameras record in "adaptive quality," capturing both standard (SQ) and high quality (HQ) streams. SQ video is stored up to the amount of retention specified by the customer. The amount of HQ video stored on the camera will depend on the amount of motion detected by the camera over time. 2. Lens Distortion Correction (LDC) crops the sensor field of view to deliver a rectified, undistorted output image.

3. Frame rate can be adjusted by support.

4. Extended temperature range includes operating temperatures below -10°C / 14°F and assumes IR will be enabled.
