Only you or a person authorized to act on your behalf may make a consumer request related to your Personal Information. We may require an agent to provide verification that they are acting on your behalf.

The request must:

- (1) Provide sufficient information to allow us to reasonably verify you are the person about whom we collected Personal Information or an authorized representative.
- (2) Describe your request with sufficient details to allow us to properly understand, evaluate, and respond to it.

d. Response Timing and Format

Our goal is to respond to a verifiable consumer request within up to 45 days of its receipt, unless otherwise required by applicable laws. If we require more time, we will inform you of the reason and extension period in writing within the first 45 days' period (or any shorter period, is required by applicable law). We will deliver our written response, by mail or electronically, at your option. Any disclosures we provide will cover only the 12-month period preceding the request. If reasonably possible, we will provide your Personal Information in a format that is readily useable and should allow you to transmit the information without hindrance.

We do not charge a fee to process or respond to your verifiable consumer request unless it is excessive, repetitive, or manifestly unfounded. If we determine that the request warrants a fee, we will tell you why we made that decision and provide you with a cost estimate before completing your request.

In case of rejection, the response we provide will explain the reasons for which we cannot comply with your request.

Please note that these CCPA rights are not absolute and requests are subject to any applicable legal requirements, including legal and ethical reporting or document retention obligations.

e. Record Keeping

We will maintain records of consumer requests made pursuant to the CCPA and our responses to said requests for a minimum period of 24 months. Such information will not be used for any other purpose other than records keeping requirements under the CCPA or other legal requirements such as law, court order, subpoena, warrant or other legal judicial process, and in order to ensure compliance.
