

# International Public Notice: Crashing the Federal Reserve -- and Blaming It on Us

By Anna Von Reitz

It has been the plan of the bankers-military schemers to crash the Federal Reserve and blame it on us for fifty years.

It is their habit to crash their own banks.

Listen and repeat: it is their habit to crash their own banks.

As anti-intuitive as this is, this is how they cheat you and yours.

They crash their own banks, set up new banks, and skate right on with the same old criminals in control.

That is what the QFS system is. THEIR replacement for the Federal Reserve System.

They are advertising for people to hurry up and establish their accounts in the QFS System so that you will be locked down and dependent on them and their "digital" imaginary money.

And things will only get worse if we don't all see through this and expose them and their "QFS" for what it is.

The fact is that we, the living people, own every Federal Reserve Note either printed as a paper bill or entered into a ledger as "Money of Account" and we

have paid for those Federal Reserve Notes many, many, many times over, so that the actual debt that these Miscreants owe us is even greater than the bank balance sheets show.

Britain is behind this. The Government of Westminster is behind this (Inner City of London). To some extent, the Vatican System is behind this.

They are deliberately crashing the Federal Reserve because the lies and illegal processes underlying it became too obvious and too much of a liability.

That's why they promoted the whole "transhumanism" agenda to create more "new" assets by reducing living people to the status of Genetically Modified Organisms owned by the patentholders -- DARPA.

Instead, DARPA needs to be liquidated and all such claims recognized as the result of malevolent fraud against the living people.

The QFS system similarly needs to be bankrupted upon inception, because it is again dealing in illegal securitization of living flesh and purloining our assets and making False Claims in commerce to the effect that they are "representing" the owners of the Federal Reserve Debt when they are not.

This can easily be demonstrated that none of the bank's assets were ever put at risk in the scam they perpetuated against us. Our assets were put at risk, pillaged and plundered. Not theirs.

We own the debt of the Federal Reserve and we own the QFS as Successors of the Federal Reserve and we are calling for them to be arrested for criminal malfeasance, breach of trust, fraud, conspiracy against the Constitutions, inland piracy, unlawful conversion, and international bank fraud.

All assets being shifted to the QFS System are our purloined assets. All those assets need to be shifted to the Global Family Bank without exception.

It is imperative to the welfare of all countries on earth that these crooks be stopped.
