

International Public Notice: Notification of Liability

By Anna Von Reitz

We recently reposted news of an important Circuit Court reversal that affirmed the literal fact that mRNA injections are not "vaccines" by function and definition, and covered expert testimony from the creator of the mRNA product admitting that it is a bioweapon covered under the domestic biowarfare program that these mercenaries have attempted to legalize.

[Today](#), we bring more good news from the Fifth Circuit Court of Appeals -- the First Amendment guarantees owed to American Physicians have been upheld.

They cannot be muzzled and punished and prevented from bringing forward their analysis of Covid-19 or anything else by unelected and unauthorized medical certification boards threatening to take away their medical credentials.

As Americans, we are wondering exactly how such a situation could ever be allowed to exist, wherein certification boards issuing credentials for medical professionals could be turned into and used as instruments of political coercion.

This, like so many other terrible institutions, comes to us directly from J.D. Rockefeller and his progeny, misusing their private fortunes to promote political and social and economic injustice.

For those who are unacquainted with history, J.D. Rockefeller was the Chairman and lead shareholder of Standard Oil. Standard Oil was not really an oil company despite the name. It was a pipeline company in the business of building and installing and connecting oil pipelines and oil transfer systems.

Rockefeller gained a choke hold and dictatorial power over who could move oil where and when and how much, and so, established an oil transfer monopoly by which he could dictate the ability of actual oil companies to deliver on their contracts.

Standard Oil was busted as a monopoly in the 1920's. The disgraced moguls retreated to Europe and started the International Monetary Fund (IMF)--- and together with their European friends, the Rothschilds, they did the same thing to the banking industry that they had already been convicted of doing to the oil industry.

These transfer control monopolies are unlawful, illegal, and immoral, but unbelievable as this is, they got away with it again in another industry, and weren't called out for it until 2015.

They used Standard Oil to create a transfer and use monopoly on oil, and a transfer and use monopoly in the banking industry by controlling bank transfers through SWIFT....

Look around and what do you see? Public utility monopolies. Public transit monopolies.

These are all very much in the same vein:

In all these cases, a vital commodity -- oil, money, electricity, telecommunications, transportation -- is monopolized indirectly by controlling access to it.

Could you indirectly monopolize the supply of medical doctors and apply coercion to them to assure that they recommend (and by omission of other options, induce the Public to buy) your drugs, your therapies and approved "countermeasures"?

Enter the American Medical Association, the American Board of Internal Medicine, the American Board of Family Medicine, the American Board of Obstetrics and Gynecology -- and, of course, the Food and Drug Administration.

Here's your pipeline system on steroids, controlling the supply and therefore access to medical services, defining the kind of medical service available, and dictating the availability and use of drugs and therapeutic protocols.

All these "Professional Associations" and "Credential Boards" have been bank-rolled on Rockefeller money and "Federal" Grants -- that have also been largely awarded based on compliance with "standards" imposed by these same bogus "industry authorities" and promoted by the same monopoly interests.

These "Professional Associations" and "Credential Boards" and unaccountable "Administrations" were sold to the Public as watch dogs acting in the Public Interest.

Instead, they have acted in the interest of unscrupulous and largely veiled corporate monopoly interests for profiteering and purposes of political coercion.

As usual, the Perpetrators have used "storefronts" and proxies to do their dirty work, setting up these sanctimonious hidden monopolies to excuse, whitewash, and promote their criminal profiteering and political agendas.

These self-important Associations and Agencies purportedly here to protect the Public from quackery and incompetence, dangerous drugs and fraud, have instead willingly promoted all the above, and worse, have expedited and unleashed an actual biowarfare program against the American Public -- for profit.

Over the past five years these hidden monopolies have murdered millions of innocent people and maimed and poisoned millions more for profit -- and laughed all the way to the bank in the name of protecting the victims.

They even charged you for killing your family, your friends, and your neighbors. Ask Joe Biden and Donald Trump about the billions (with a "b") of Covid injections and PCR Tests they bought. Who paid for that? Who profited from that?

Their fellow-franchise pals in the Mockingbird Media have helped out by trying to cover it all up. Down play it. Spin it. Bury it, like the victims.

These organizations are identified as Criminal Monopoly Interests so far as the American Government is concerned. They failed to protect the Public Interest to such a fantastical degree that there is no coming back.

Like the American Bar Association, the American Medical Association needs to be dismantled and held accountable, along with these politicized Certification Boards, and the complicit Agencies.

This Notification of Liability is not limited to pandemic injuries and may be freely applied to private monopolies and corporate government offices, agencies, and departments that create regulatory monopolies -- and which as incorporated entities, do not enjoy any degree of State Immunity.

This Notification of Liability also applies to any incorporated court, insurance fund, or pension fund profiting from a direct or indirect monopoly.

Promotion of Monopoly Interests, establishment of Monopolies, control of Monopoly Interests, creating a Monopoly by indirect means, obstructing the free flow of trade and commerce, impersonating a public government institution, office, department, or agency, establishing or enforcing fraudulent regulatory controls, engaging in monopoly inducement, and profiting from a monopoly are all Federal Crimes.

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals.
