

Cookie Policy

This Website uses cookies and/or similar technologies, its own and third parties, that store and retrieve information when you browse. In general, these technologies can serve very different purposes, such as recognizing you as a user, obtaining information about your browsing habits, statistical purposes or personalizing the way in which the content is displayed. These cookies and/or similar technologies provide the user with a greater experience.

Below you can consult the cookies and/or similar technologies used on this Website and manage them according to your preferences.

OWN COOKIES

Technical or necessary – These cookies will always be activated

Technical or strictly necessary cookies are those that allow the user to navigate through a website and use the different options or services offered therein, such as, for example, controlling traffic and data communication, identifying the session, access restricted access parts, remember the elements that make up an order, carry out the purchase process of an order, manage payment, control fraud linked to the security of the service, make the request for registration or participation in a event, use security elements during navigation, store content for broadcasting videos or sound, enable dynamic content (for example, animation of loading a text or image), share content through social networks or customize the user interface as long as he is the one who chooses the customization options he wants. The legal basis that legitimizes this treatment is the execution and maintenance of the service requested by the user. These cookies will remain active as long as the user remains on the Website.

Preference or customization

Preference or personalization cookies are those that allow the user to remember information so that the user can access the service with certain characteristics that can differentiate their experience from that of other users, such as, for example, the language, the number of results to be shown when the user performs a search, the appearance or content of the service depending on the type of browser through which the user accesses the service or the region from which the user accesses the service, etc. The duration of these cookies is the time the user remains on the Website (session). The information is stored exclusively in the user's browser and is not used for any reason other than to manage the user's preferences. The legal basis that legitimizes the treatment is the express consent given by the user.

THIRD PARTY COOKIES

Analysis or measurement

Analysis or measurement cookies are those that allow the person responsible for them to monitor and analyze the behavior of the users of the Websites to which they are linked, including the quantification of the impacts of the advertisements. The information collected

through this type of cookies is used to measure the activity of the Website, application or platform, in order to introduce improvements based on the analysis of the usage data made by users of the service. The legal basis that legitimizes the treatment is the express consent given by the user. You can obtain more information about these cookies as well as their retention period by following the “More information” link(s).

More information about third parties:

Behavioral advertising

Behavioral advertising cookies are those that store information on user behavior obtained through continuous observation of their browsing habits, which allows the development of a specific profile to display advertising based on it. The legal basis that legitimizes the treatment is the express consent given by the user. You can obtain more information about these cookies as well as their retention period by following the “More information” link(s).
