ABOUT ACMASOFT TECHNOLOGIES

The ACMASOFT TECHNOLOGIES team creates PHP solutions that are enriched with topmost front-end technologies like ReactJS, AngularJS, Redux, Vuejs, Vuex, etc. A website is useless without a strong database, and we make that possible by using robust database management tools.

Today PHP is accepted everywhere as the universal language for custom web development as well as for creating web portals.

Our squad performs on numerous clients' projects based on PHP operation such as Analysis, Design, Development, Maintenance, Testing, Implementation and Support for your website.

OVERVIEW

Established in 2008, ACMASOFT TECHNOLOGIES has seen itself rapidly evolve into one of the optimum Web Development Companies in India. We pride ourselves in offering the best web services to our clients at highly affordable prices.

As a leading PHP Service provider in India, we understand the significance and the challenges of retaining a brilliant standard of web applications using PHP Framework.

OUR MISSION

Our mission is to expand our customer reach and stand out in the CustomPHP solutions realm on a global scale.

OUR VISION

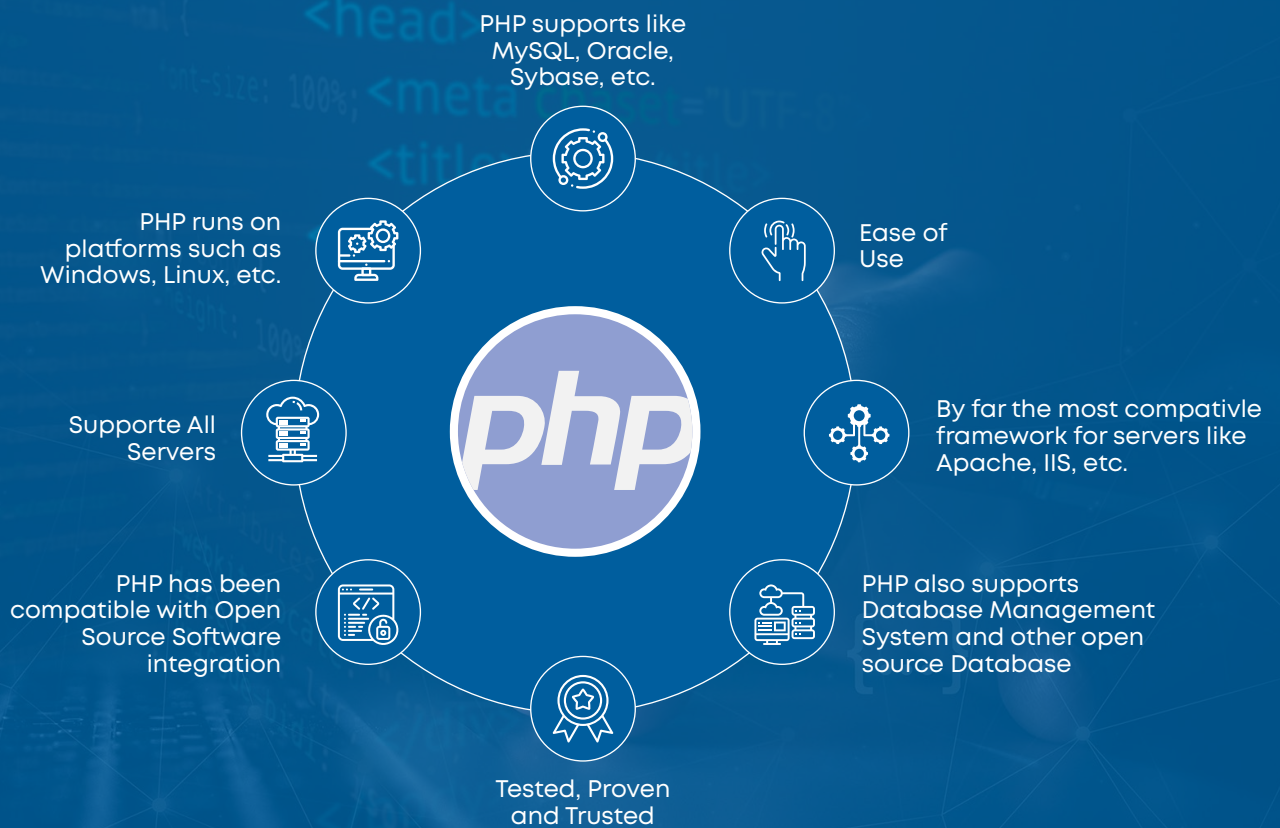

We envision our business to reach the upper echelons of success on the foundation of our quality of PHP based solutions and work integrity.

Client satisfaction through our PHP services is our ultimate goal.

WHY CUSTOM PHP FRAMEWORK?

A custom PHP promotes Rapid Application Development (RAD). As the name suggests, this features is imperative in boosting your efficiency. A web application can only be so good if the framework's efficiency gets compromised.

This framework eliminates the need to write down multiple codes thereby proving to be a real time saver. Your web application as a result becomes more stable

‘A CODE FROM SCRATCH’ V/S ‘A PREMADE SCRIPT’ OR

- ⊙ A pre-made script/CMS saves you a hell lot of time.
- ⊙ Built-in themes and templates make it convenient to design your website.
- ⊙ The Drag and Drop feature again complements the time saving agenda.
- ⊙ No extensive knowledge of coding is required with a CMS.
- ⊙ Chances of human errors are eliminated, courtesy of CMS.

OUR PORTFOLIO

With a host of PHP frameworks available today, our company has assisted many firms in developing their web applications with efficiency

www.latienditamex.com

La Tiendita Max

MAGENTO, HTML5/CSS3, JQUERY & AJAX, PHP, MYSQL, CSS

LaTiendita is a Europe-based online grocery store for hard-to-find authentic Mexican food recipes and cooking tips online. Their website, however, was not enriched with the latest functionality. However, after they contacted our development team, we were able to fully reinvigorate their site outlook which directly resulted in better lead generation.

www.homeperfect.com

Home Perfect

MAGENTO, JQUERY & AJAX, HTML, CSS

From kitchen faucets to bath sinks, Home Perfect is one of the best utility suppliers to upgrade your home. As they launched their website, they immediately hired our development staff for bug-fixing and boosting their age rank through a fully-customized web design, and that's exactly what our WordPress + HTML team delivered.

www.mes-bonsplans.fr

Mes-bonsplans

PHP, HTML5/CSS3, JQUERY & AJAX, JS, APPCELERATORS, API

Plus2Deal is an innovative online portal that makes it easier for users to find offers and promotional codes from stores, sites, or online stores. Our team of web developers at FP was hired to improve the overall presentation of their services and boost their static online presence. We reinvigorated their web designs, packed the site with SEO-friendly content and infographics which yielded.

www.cleanteckpros.com

Mecenize

PHP, HTML5/CSS3, JQUERY & AJAX, JS, APPCELERATORS API

At Cleanteckpros, as the leading experts who are known for residential and commercial damage restoration services, their team of highly experienced and trained professionals are extremely well-versed in using high-tech cleaning equipment so that property owners can stand back on their feet after major water or fire accident. The company is also highly sought after by residents in.

LET'S WORK TOGETHER

You may be in need of the following CakePHP services

- ⦿ Providing CakePHP extension development.
- ⦿ Upgradation & Integration of CakePHP.
- ⦿ Building feature-rich customization for better functionality.
- ⦿ Developing impressive and user-friendly framework designs.
- ⦿ Providing a class-leading solution with Cake PHP e-commerce.
- ⦿ Creating new template designs.
- ⦿ Migration services from other frameworks to CakePHP.
- ⦿ Third party application integration.
- ⦿ Delivering Quick & Bug-Free Application solutions.

To get started/inquiry, simply share the following details

- ⦿ Your website's URL
- ⦿ Your current framework to be migrated (if it's there)
- ⦿ Project specifications and budget
- ⦿ Coding rules, standards, quality, and timelines
- ⦿ Theme preference
- ⦿ Additional requirements you want (if needed)

Why CakePHP is better than other MVC Frameworks?

CakePHP is highly organized with perfect collection of elements. It has a lot of advantages over other frameworks like Codeigniter, Symphony or Zend. CakePHP offers various valuable reusable libraries for dealing with common tasks. CakePHP helps in creating robust and specialized websites with an easy process.

Once all the details are shared from your side, our Business Analyst team will get in touch with you within the next 24 working hours, and will also deliver you a **MOCKUP** or **TECHNICAL KNOW HOW** document for free as a mark of our appreciation. In the meantime, if you wish to get in touch with us then feel free to email us at sales@acmasoft.com

LOTS OF HAPPY CLIENTS

A thrilled client is the end goal for any successful establishment, and that certainly is the case for us. Nothing pushes us more than learning that we've accomplished our client's goals and vision just as or better than what they imagined.

Below, we've included a list of clients testimonials to demonstrate their satisfaction with the PHP projects that we have undertaken and fulfilled as per their needs-

Niranjan Gupta
PR Manager

ACMASOFT TECHNOLOGIES is a highly professional company. They did an excellent job for me, exceeding my expectations. I will definitely hire them again.

Ranjan Sahay
Marketing Manager

They are the BEST at creating apps. They consistently go above and beyond in their delivery, they are my go-to team for all my app projects. I highly recommend them!

Dr. Vivek Dubey
Founder

A great company for various projects. They excel technically and always meet or exceed expectations.

Surely recommend them..

Sheetal Murudkar
Project Head

Highly professional and accommodating team. Timely delivery and very satisfying results. Strongly recommended.

Even they are pretty responsive post project delivery as well.

Dr. Sanjeev Mishra
Consultant

A proficient group of developers who delivers once requirements are clear. Delighted with the end result.

keep it up guys , you're doing great work.

Sunil Keshri
Brand Consultant

Highly professional, experienced, and excellent project manager. They did a fantastic job. Strongly recommend.

They know how to take the project ahead.

PHP is the biggest development framework and our PHP developers ensure that they extract every last bit of functionality out of this vast system.

OUR DEVELOPMENT METHODOLOGY

Today modern businesses have the biggest challenge and it is amalgamating multidisciplinary and multipurpose expertise to ensure global success. If they have not marketing team to run research on their targeted audience and bring them on website/mobile app as well as convert them successfully into their loyal customers, the only web designing or programming team is useless.

Have an awesome idea? We will provide a quick analysis and free proposal for it. Don't worry, it is secure and confidential. [LET'S TALK](#)

MODELS LIST

We take unique approaches when the selection of development methodology is in question by considering aforementioned factors in evaluation of the project. No doubt, standard and popular development methods are our preferences, but required modifications are essential in each case. If we are going to list some of our development methodologies, we can enlist it in following ways:

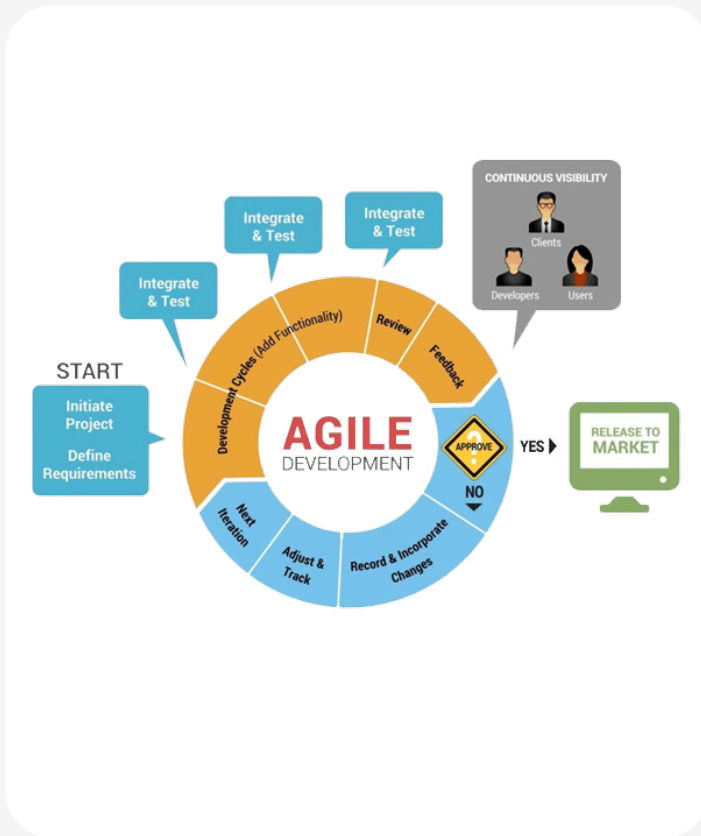

WATERFALL MODEL

No doubt, this one is classic model among modern popular development methodologies because it favours the process lifecycle with linear and sequential development methods. We generally apply this methodology in case of the businesses of any scale, be it small, medium, or large, which comes with definite goals and budget. As, we need to have definite goals for each development phase, we prepare project scopes with utmost care and define our understanding as well as functionality for the project or product. Our clients feel swift flow of development process from the concept to release and for post-production services. We accomplish each stage perfectly before jumping on the next and leave no scope to turn back.

AGILE MODEL

We use this methodology in majority of cases as it offers a time-boxed approach and suitable for modern projects. For the projects, we apply the methodology we predefine each step and most possibly divide major steps in to the smaller ones and bifurcate into phases with time duration to accomplish each phase. In this methodology, we target the objectives of clients and try to leverage the software or final product in the existing ecosystem at the client side. We keep coordination and communication between clients and our teams through a designated point of contact to drive process further and achieve defined goals. Therefore, we run highly planned strategies and create streamlined environment.

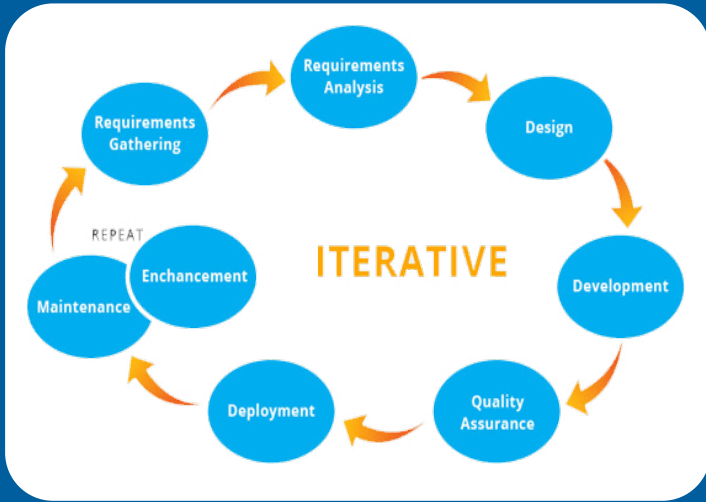

SPIRAL MODEL

At AcmaSoft, when we approach big, expensive, and intricate project proposals, we take route of spiral model as our development methodology. Through this model, we combine designing and programming elements in all stages. Therefore, designing and prototyping processes are visible on each stages of project lifecycle and remain up to end.

Thus, we combine advantage of top-down as well as bottom-up concepts through this model or say system development method. In this method, we divide development process in four major stages like planning, risk analysis, programming, and customer evaluation.

ITERATIVE MODEL

We know iterations are good for the software development because through iterations we correct previous mistakes and bugs in repetitive manners and tests the product frequently until we reach at the desire level of quality. Therefore, our majority of mobile and web development projects involve iterative model along with other development methodologies or as an independent model in many cases.

LET US SERVE YOU

We appreciate you taking the time and checking out our company's business pattern. If you have any business related idea or query, then feel free to discuss it with our experts. We guarantee a profitable service outcome to all our clients.

We'd love to hear from you, and invite you to contact us without hesitation.
