Monitoring System

WHO WE ARE

Role of renewable energy has been increasing in recent times with the growing concern for the country's energy security. With the limitation of the conventional resources, renewable energy has become the major driver and shall be playing vital role in every field replacing the earlier ones. APN Solar established in the year 2017, has been one of the pioneers in the rooftop solar regime & now an established player in Turkey Solar EPC Services.

The startup has now grown with 2000+ Franchise Partner in India and has a dedicated team which is known for quality & on time delivery services , APN Solar possess all relevant certifications like ISO 9001 & 2015 , ISO 45001:2018 , ISO 14001 : 2015 with MSME required for any player providing green technology & environmental friendly solutions.

Being a competitive Solar EPC company in India, it extends support exclusively in Consulting- Engineering – Contracting – Commissioning Services etc.

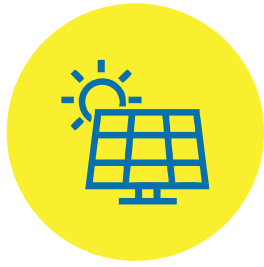

The young and Talented Team led by experienced senior leadership which is equally supported by young and dynamic promoters.

Valuing MISSION, the Company aims to provide green sustainable solution for generation to come.

Save Energy !!!

BUSINESS VERTICALS

SOLAR EPC & DEVELOPMENT

An established name running in the 6th year of its inception requires an introduction no more. Lead contributor to the country's National Solar Mission, both in the commercial and domestic segment has so far successfully commissioned projects within Mumbai and Started expanding its network in all major cities. A part of direct installation APN has been involved with 4 different companies as an Engineer partner.

E-MOBILITY SOLUTIONS

With Govt. of India setting its target for 30% electrification of transportation & mobility sector till 2030, India is set to see a paradigm shift and lead on the world stage in electric mobility. We at APN are developing ourselves to play a key role in developing the ecosystem with an R&D team , technology and creating the end to end sustainable solutions viz. Batteries, EV Charging stations, Swap Stations and sustainable transportation solutions with 2 wheelers, 3 wheelers & 4 wheelers for First & Last mile connectivity for businesses and individual.

ENERGY STORAGE SYSTEMS

Gaining energy from various renewable sources has become easy but, storing the same and reusing uninterruptedly yet another scope for further business opportunity. Marking its presence, the company has planned to develop or to join with a mechanism to store in the form of Li-ion batteries unlike the prevailing lead acid batteries, thus expanding its scope in the field of ESS-Energy Storage system. The company aims to provide friendly solutions to incorporate storage with solar energy to provide 24 hours uninterrupted power supply and become leader in battery technology, establishing self- owned manufacturing set up at a later stage.

HOW WE DO OUR PROJECT EXECUTION

Step 1 (Site Visit)

We make sure our client gets all the information on the very first day of our visit with the POA of our work.

Step 2 (Design & Documentation)

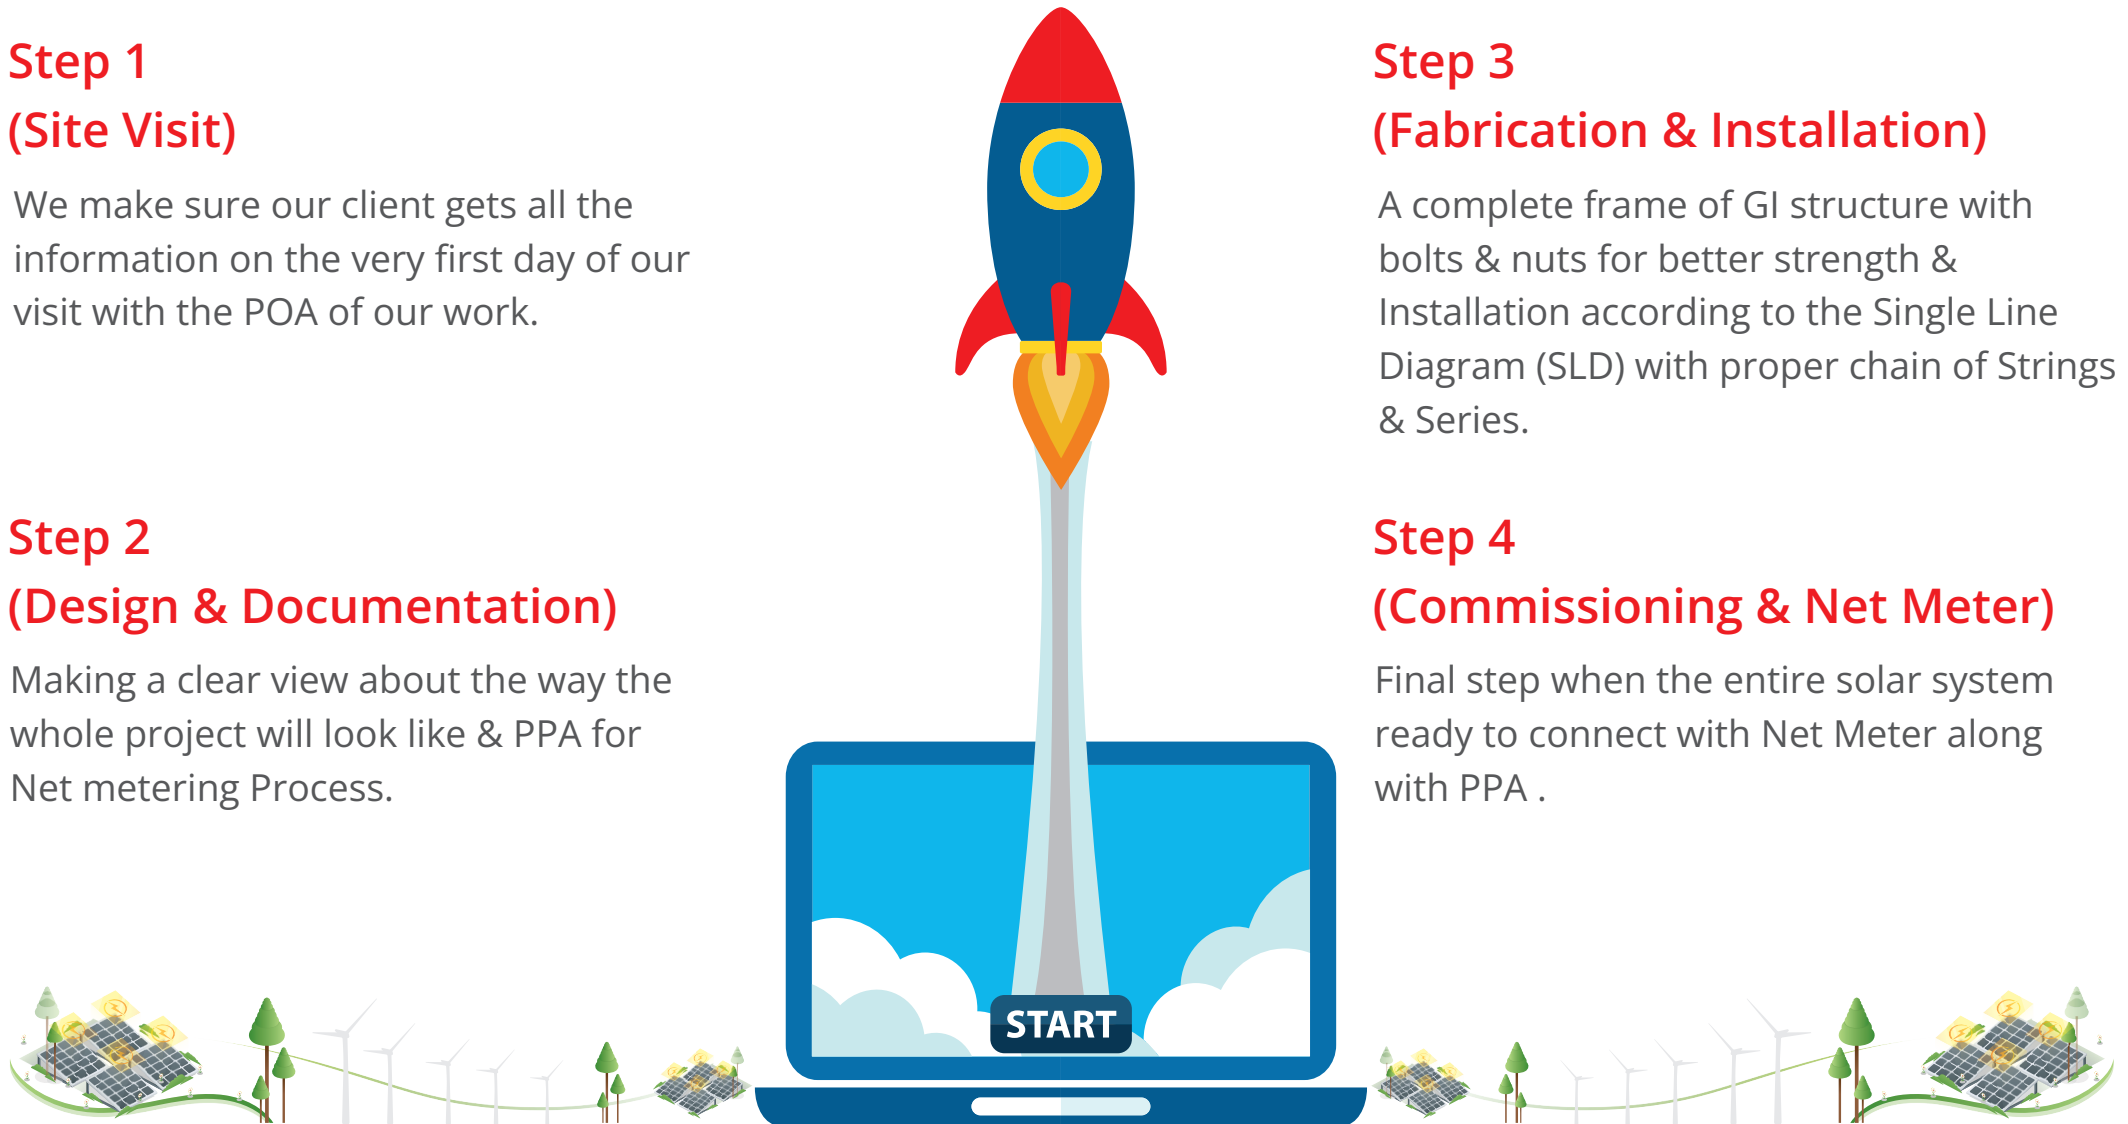

Making a clear view about the way the whole project will look like & PPA for Net metering Process.

Step 3 (Fabrication & Installation)

A complete frame of GI structure with bolts & nuts for better strength & Installation according to the Single Line Diagram (SLD) with proper chain of Strings & Series.

Step 4 (Commissioning & Net Meter)

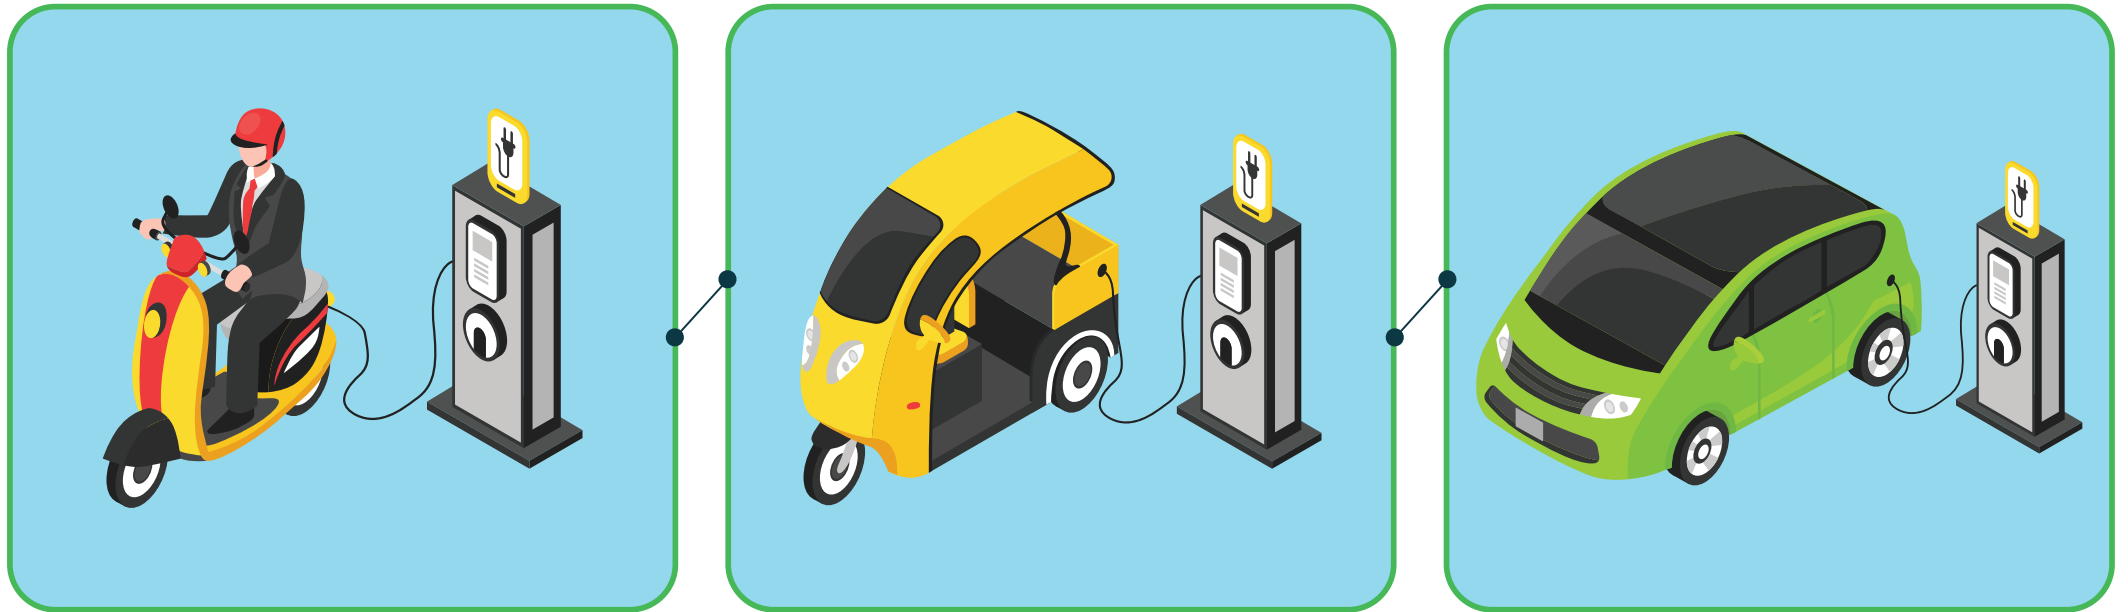

Final step when the entire solar system ready to connect with Net Meter along with PPA .

EV CHARGER

The EV charging station market is expected to grow 5 to 7 times in the next 5 years. It was valued at 5 billion dollars in 2020 and optimistic predictions see it reach around 35 billion by 2026, which would make EVs represent 15% of all car sales worldwide within 5 years.

Our low cost, compact and smart IoT (Internet of things) powered electric vehicle charging station – APN EV Chargers can be hosted by small shops, restaurants, homeowners, offices, PGs and those looking to earn an additional income. It is an affordable charging station compatible with electric car, electric scooter and electric autos.

BUSINESS EXPANSION NETWORK

The solar power industry in India is growing every year and is projected to become the second largest solar market globally. There is tremendous opportunity for entrepreneurs and businesses to participate in this market which is approx. Rs. 2.4 lakh crore and growing.

This franchise partner program has been started based on the people who look forward to start up business with minimum budget of investment and want to have a bright future in Solar business.

STARTUP FRANCHISE

- Best for new commers

- No infrastructure required

- Can operate business from anywhere in India

ADVANCE DISTRIBUTOR FRANCHISE

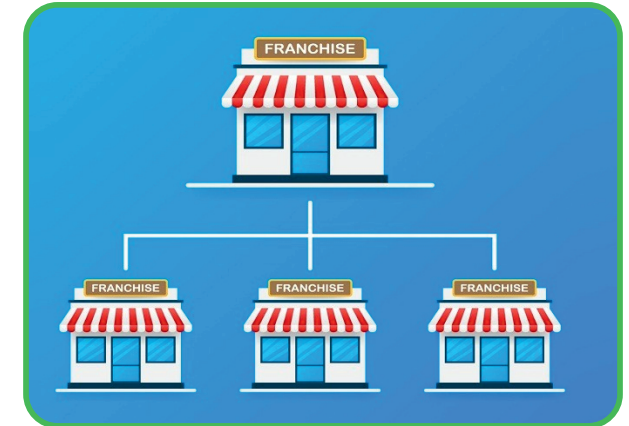

- Best for those who looking for parallel business

- Advantage of monopoly in locations

- Quick efficient growth with existing network

CHANNEL PARTNER

- A monopoly franchise opportunity

- Complete control of entire city

- Unlimited downline partners

ROOFTOP BUSINESS VERTICALS

We offer following two business Models to our customers to fit their requirements and based on our assessment

CapEx – Based Solution: End to end turnkey EPC services under a fixed price time execution model.

OpEx – Financing Solution: Subject to credit metrics, we arrange bank loan financing solution to customer to set-up- projects leading to only marginal investment by the customer as against entire capital cost.

ROOFTOP

VISION - 2025

PLAN - 2030

Aiming for Market
Leadership position

50MW capacity of
project executed

2GW capacity of Rooftop projects across
residential & Institution segments in
pan India

FUTURE ROAD MAP

	VERTICAL VISION	VISION 2025	PLAN 2030
 SOLAR EPC	Solar EPC & Development	• 50MW capacity of project executed • Significant Presence in International Market • Attractive portfolio of Projects with healthy operating finance metrics	• 2GW capacity of project executed • To become the best Solar EPC company in India • To Entered International Market
 E-MOBILITY	To contribute by reducing the consumption of conventional source of fuel	• Major Supplies of EV Charges to provide last mile connectivity	• Provide holistic EV Station solution • Swap Batteries Solution
 ENERGY STORAGE	To Master the Battery Technology through research & development	• To establish state of the art R&D centre of and integrate storage with solar to provide 24 hours solar power	• Become a leader in battery technology establishing own manufacturing setup

INDIA PRESENCE

APN has spread its network across and every corner of India with over 1500+ Franchise Partner we have multiple Channel Partner Business offices and most of the States

GLOBAL PRESENCE

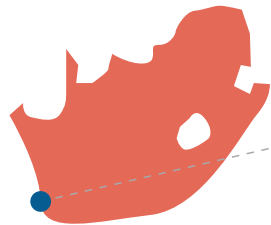

We have a wide presence across the globe with our partners in Kazakhstan, Poland, South Africa, Tanzania, Bangladesh, China, Myanmar and other South East Asian Countries.

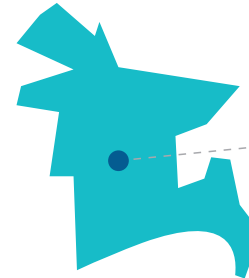

Almaty - Kazakhstan

Yangon - Myanmar

Cape Town - South Africa

Dhaka-Bangladesh

Nantong - China

CLIENTS FEEDBACK

Great teams to work with complete satisfy with the performance of solar energy and happy to be a part of green environment thanks to **APN Solar**.

HOTEL – DELHI DARBAAR INN

The installation process was very good indeed. I've been impressed with **APN Solar's** performance throughout and the people working for them did their jobs brilliantly.

SECONDARY SCHOOL

Absolute professional work, complete structure design, installation, commissioning with proper setup at best quality thanks to **APN Solar**.

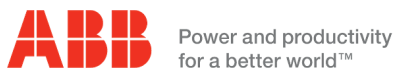

HOTEL FOUNTAIN INN

Overall, we were very happy with the service. The **APN Solar** Company made the whole process painless. We would definitely recommend them.
