

# What Is a CEU?

A **Continuing Education Unit (CEU)**, also known as Continuing Education Credit (CEC), is a **vital measure in ongoing education programs**, helping professionals maintain their licenses, or, in ASPE's case, their credential (CPD or CPDT).

The primary purpose of the CEU is to **provide a permanent record of the educational accomplishments** of a plumbing engineer/designer who has completed a significant noncredit educational experience.

CEUs also give plumbing engineers/designers a **means to be recognized as experts in their fields**.

## Proving Your CEUs

In most cases, you must successfully pass a quiz to verify what you learned before CEUs are issued.

For the CEUs to be considered valid for ASPE's purposes, you must obtain a certificate that lists the name of the course and the number of continuing credit units issued.

## Acceptable CEUs

Chapter meetings  
Webinars  
Workshops  
ASPE Tech Symposium sessions  
ASPE Convention & Expo sessions/walking the floor

## Non-Acceptable CEUs

Factory tours  
Non-educational Chapter events
