

Guiding Star Lyrics

A SONG BY *I DRAW SLOW*

Guiding Star Lyrics for the Guiding Star Challenge

A Song By - I Draw Slow

I wish you a dream where you wake singing
Open your eyes to find gold spinning
Into a room where there's peace living
Water is warm, there's milk for tea

I wish you the time to keep thoughts waiting
Nothing in mind but that sky paling
Follow the curl of the steam rising
Innocent now as you'll ever be

Wherever you are
You've got a guiding star
To sing your own sunrise
Your morning lullaby
Your morning lullaby

I know that you've been to some dark places
Trailing behind as your mind races
Caught in the drag of the moon's phases
Worried the world might shake you free

But I can be heard when your mind's quiet
I'm coming to you when you're not trying
Everyone's born in this pure silence
Radical love will always be

Wherever you are
You've got a guiding star
To sing your own sunrise
Your morning lullaby
Your morning lullaby
