The department of Fish Genetics and Reproduction is one of the core departments of the College of Fisheries, CAU (I) and is at the forefront of seed production technologies and genetic improvement programme, fish biodiversity characterization for augmentation of aquaculture productivity in the northeastern region which is greatly deficit in local fish production as well as food & feed grain production. In this regard, the department is actively engaged in PG teaching and research as well as capacity building of the stake holder. Emphasis is always on to make all these programmes relevant to field conditions. The department has been offering "**Master of Fisheries Science in two disciplines, namely "Fish Genetics and Breeding" and "Fish Biotechnology"** programme w.e.f. Academic Year 2014-15 and **2019-20** (Intake: 5), respectively, as per the model PG syllabus of ICAR, New Delhi. The main focus of research efforts of the department is to refine/develop technologies and package of practice, quality seed production, trait improvement of indigenous fishes of aquaculture and ornamental value and fish biodiversity characterization for cataloguing and conservation. Towards this, the department has developed/is developing complete package of seed production of several fishes like indigenous carp, catfishes, giant freshwater prawn and ornamental fishes. Department has also barcoded (DNA) 166 fish species. Department has attracted eight (8) number of externally funded project from DBT, ICAR, NHM etc. Through molecular endocrinology research, department has identified molecular mechanism of pigmentation and traits to improve color in ornamental fishes. Department has also conducted active research in molecular endocrinology to enhance maturity and reproductive performance of cultivable species. In recent research, department has also developed BRICS technology for voluntary captive spawning of *Clarias magur*.

Objective of the degree programme

- To produce globally competitive postgraduates in Fish Biotechnology
- To promote the advancement of learning and persuasion of research in fisheries sciences
- To make the postgraduates competent to impart extension services to the stakeholders
- To meet the requirement of well-trained skilled manpower in the North-Eastern states
- To facilitate the startups, aqua-entrepreneurship, and also to undertake such other activities as it may deem fit from time to time

Accomplishments

The first batch students will pass out in July 2022.

6.4.2. Faculty Strength

S. No.	Sanctioned faculty		Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1	Professor	1	-	1	NA
2	Associate Professor	2	1	1	NA
3	Assistant Professor	5	4	1	NA
Total		**8**	**5**	**3**	**NA**

6.4.3. Technical and Supporting staff

The administrative and accounts supporting staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. The dedicated technical staff and supporting staff allotted to the department are as below:

S. No.	Designation	Staff in place
Technical staff		
1	Livestock cum Farm Assistant	01
2	Field cum Laboratory Assistant	02
Supporting staff		
3	Multi-Tasking Staff	01

In addition to the above staff, Skilled and Unskilled labours are hired on contractual basis.

6.4.4. Classrooms and laboratories

Apart from the common laboratory facilities of the college such as Central Instrumental Facility, Central Molecular Biology laboratory etc. the main laboratory, field and other facilities available for PG research of the department are as under:

S. No.	Name of the Lab / Facility	Major Equipments available/Particulars
1	PG Research Lab	• Molecular spectrophotometer • Electrophoresis apparatus • Gel doc • PCR machine • Cooling centrifuge • pH meter, incubator • Micropipettes • Realtime PCR

		• Blotting apparatus • Microinjector • Water bath • Laminar flow • Colour hunter lab • Gene sequencer
2	Hatchery and wet lab	• Cistern Carp eco-hatchery • Prawn hatchery • FRP tank (500-1000L):20 nos. • Glass Aquariums – 60 nos. of different sizes
3	Freshwater Fish Farm	• Eleven (15) Earthen Ponds of different sizes with total water area of 0.8 ha, • Paddle Wheel Aerators, • FRP boat, • Water pump sets, • Nets etc.

6.4.5. Conduct of practical and hands-on training

The department has well established laboratories and field facilities to support postgraduate research. A separate PG laboratory is in place which is fully dedicated for student's research purpose only. Additionally, the state-of-the-art Central laboratory and Molecular biology laboratory facilities setup under the Centre of Excellence (COE) programme supports hands-on practical knowledge to orient the scholar into futuristic research mind-sets. Considering the fact that the department is mostly focused on trait improvement-oriented research, experimental set-ups are carried out in fields (ponds/cemented tanks) to grasp an absolute understanding of the generated data. Under the compulsory course work allotted to the scholars, students are trained on various need-based and curriculum oriented hands-on practical. To assist the practical classes, the department has one laboratory assistant in place.

6.4.6. Supervision of students in PG programme

Sl. No.	No. of eligible faulty for guidance	Intake capacity	Faculty/Student ratio
1.	04	05	0.8

The department has started the postgraduate programme in Fish Biotechnology in 2019. All faculties in the department have Ph.D. and higher degree and are well qualified and eligible (Annexed below) for guiding the students as per the ICAR norms.

S. No	Name of Faculty	Designation	Qualification	Area of specialization

1	Dr. Sagar Chandra Mandal	Associate Professor & Head	B.F.Sc., M.F.Sc. (AQC), Ph.D.	Aquaculture
2	Dr. Himanshu Priyadarshi	Assistant Professor	B.F.Sc., M.F.Sc. (FGB), Ph.D.	Fish Genetics and Biotechnology
3	Dr. Anindya Sundar Barman	Assistant Professor	M.Sc. (Fisheries), Ph.D.	Fish Biotechnology
4	Dr. Janmejay Parhi	Assistant Professor	B.F.Sc., M.F.Sc. (FGB), Ph.D., Post Doc (Spain)	Fish Genetics and Biotechnology

S. No	Name of faculty	Post held	Highest qualification received	Teaching/ Work experience (in years)	Honors and awards	No. of students guided (PG/PhD separately)	Publication
1	Dr. Sagar Chandra Mandal	Associate Professor & Head	Ph.D.	19 years	01	PG-09	Research Paper – 46
2	Dr. Himanshu Priyadarshi	Assistant Professor	Ph.D.	13 years	01	PG-02	Research Paper – 14
3	Dr. Anindya Sundar Barman	Assistant Professor	Ph.D.	11 years	-	PG-06	Research Paper – 18
4	Dr. Janmejay Parhi	Assistant Professor	Ph.D., Post Doc. (Spain)	11 years	11	PG-09	Research Paper – 43

List of Students Awarded M.F.Sc. (Fish Biotechnology) Degree (2016-2020)

The first batch students will pass out in July 2021.

6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.)

The students have expressed their satisfaction on the various theoretical as well as field-based work they have rendered during their curricula. The field-based learning and integrated analysis of the various seed production technologies, and advanced molecular techniques has enhanced their skills and will be helpful to peruse higher studies. The existing infrastructures are optimally being utilized for teaching & research.

6.4.8. Student intake and attrition in the programme for the last five years

Name of the degree programme	Actual student admitted in the last five years					Attrition (%)				
	2016-17	2017-18	2018-19	2019-20	2020-21	2016-17	2017-18	2018-19	2019-20	2020-21
M.F.Sc. (Fish Biotechnology) *				4	4				75%	0%

* First Batch M.F.Sc. (Fish Biotechnology) will pass out in 2021

6.4.9. ICT application in curricula delivery

The department has a dedicated classroom with modern tools. Lectures are delivered using computer projected PPTs. ICT application are applied in form of online classes delivered via media like G-Meet, Skype are taken. The students are provided online materials for self-preparation.

I, **Prof. Ratan Kumar Saha** the Dean, **College of Fisheries, Lembucherra**, hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

6.4. Self-Study Report for Ph.D. Programme in Aquatic Animal Health

6.4.1. Brief history of the degree programme

The 'Department of Aquatic Health and Environment' under the College of Fisheries, Lembucherra started functioning since the inception of the college in 1998. The department was initially named as 'Fish Diseases & Environmental Monitoring Department' and later on renamed twice as 'Department of Fish Health and Environment' and 'Department of Aquatic Animal Health and Environment, respectively. It was only during 2014 that the present name was adopted. Besides Masters' programme, the department has also been offering **Ph.D. degree programme** in the discipline of '**Aquatic Animal Health**' since 2016. The department is also mandated with carrying out research in frontier areas of 'Aquatic Animal Health' and 'Environment' besides conducting training and other extension interventions for the end users.

Objective of the degree programme

- To produce globally competitive post graduates in Aquatic Animal Health.
- To promote the advancement of learning and persuasion of research in fisheries sciences.
- To make the graduates competent to impart extension services to the stakeholders.
- To meet the requirement of well-trained skilled manpower in the North-Eastern states.
- To facilitate the startups, aqua-entrepreneurship, and also to undertake such other activities as it may deem fit from time to time.

Accomplishments

Students of the Ph.D. programme in Aquatic Animal Health have already submitted their thesis and are waiting for the Viva-voce.

6.4.2. Faculty strength

S. No.	Sanctioned faculty		Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1	Professor	1	-	1	1
2	Associate Professor	1	1*	-	1
3	Assistant Professor	3	3	-	2
Total		**5**	**4**	**1**	**4**

***** Promoted to Professor under CAS

6.4.3. Technical and supporting staff

The administrative and accounts supporting staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. The dedicated technical staff and supporting staff allotted to the department are as below:

S. No.	Designation	Staff in place
Technical staff		
1	Livestock cum Farm Assistant	1
2	Field cum Laboratory Assistant	1
Supporting staff		
3	Multi-Tasking Staff	2

In addition to the above staff, Skilled and Unskilled labours are hired on contractual basis.

6.4.4. Classrooms and laboratories

S. No.	Name of the laboratory	Major Equipment available/Particulars
11.	UG Teaching Laboratory	• Automatic weather station, • Analytical Balance, • Moisture meter, • Muffle furnace,
12.	PG Research Laboratory	• Bomb calorimeter, • Multimode spectrophotometer, • ELISA reader, • CO2 incubator, • Research Microscopes with photography, • Auto Blood Analyzer, • Tissue Homogenizer.
13.	Water and Soil Chemistry Laboratory	• Multi Parameter Water Analyzer, • High Seeped Centrifuge, • Refrigerator, • Nitrogen evaporator, • Solid phase extraction unit, • Flame Photometer, • pH Meter, • S-T-C Meter, • BOD incubator,

		• Deep freezer (-20ºC)
14.	Microbiology Laboratory	• Laminar Flow Bench • Bacteriological incubator • Freeze • Cold Centrifuge • Vertical autoclave • CO2 incubator
15.	Molecular Biology Laboratory	• Refrigerated centrifuge • Gradient PCR • Real-Time PCR • Gel-Doc system • Electrophoresis Unit • Ice-flacking machine
16.	Pharmacology and Toxicology Laboratory	• Solid phase extraction unit • Nitrogen evaporator • Tissue Homogenizer • ELISA reader • ELISA washer • Bomb calorimeter • Automatic Bomb calorimeter
17.	Heamatology and Immunology Laboratory	• Auto Blood Analyzer • Refrigerated centrifuge • Ice-flaking machine • Multimode spectrophotometer
18.	Wet Laboratory	• Aquarium with stand and aeration facilities • FRP tanks • Syntex tanks
19.	Automatic Weather Station	• For monitoring and recording the weather parameter on regular basis.
20.	Mobile Fish Clinic	• For on field sampling and diagnosing/testing of fishes and water

6.4.5. Conduct of practical and hands-on training

The department has well established laboratories and wet laboratory to conduct practical classes and imparting hands-on training. The laboratories are well equipped with instruments and other facilities to support postgraduate research. Recently, three specific laboratories (Water and soil chemistry, Microbiology and Molecular Biology laboratories) have been developed in the dept though a NFDB funded Scheme 'Development of Aquatic Animal Health Laboratory'. Additionally, the state-of-the-art central laboratory and laboratory facilities under the Centre of Excellence (COE) programme supports hands-on practical knowledge to the research scholars. Under the compulsory course work allotted, the students are trained on various need-based and curriculum oriented hands-on practical on immunology, microbiology, molecular biology, disease diagnosis, and water and soil parameter analyses. To assist the practical classes, the department has two laboratory assistants in place.

6.4.6. Supervision of Students in Ph.D. programme

Sl. No.	No. of eligible faulty for guidance	Intake capacity	Faculty/Student ratio
1.	3	3	1.0

The department has started the Ph.D. programme since 2016. The number of scholars enrolled for this programme is 3 including the ICAR candidate. The faculties in the department are well qualified and eligible (Annexed below) for guiding the Ph.D. students as per the ICAR norms.

S. No.	Name of Faculty	Designation	Qualification	Area of specialization
1.	Dr. Ratan Kumar Saha	Professor	M.Sc., Ph.D.	Aquatic Environment, Fish Parasitology
2.	Dr. Dibyendu Kamilya	Assistant Professor (SS)	M.F.Sc., Ph.D.	Fish Immunology, Microbiology, Fish health Management

3.	Dr. Himadri Saha	Assistant Professor	M.F.Sc., Ph.D.	Fish Parasitology, Fish Nutra-pharmacology, Aquatic pollution & toxicology

Sl. No	Name of faculty	Post held	Highest qualification received	Teaching/ Work experience (in years)	Honors and awards	No. of students guided (PG/PhD separately)	Publication
1	Dr. Ratan Kumar Saha	Professor & Head	Ph.D.	> 35 years	10	PhD-2 PG-11	Research papers- 50
2	Dr. Dibyendu Kamilya	Assistant Professor	Ph.D.	14 years	5	PhD-1 PG-10	Research Paper – 39
3	Dr. Himadri Saha	Assistant Professor	Ph.D.	9 years	5	PG-3	Research Paper – 30

6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.)

The students of the department have expressed their satisfaction regarding various theoretical as well as practical knowledge that they have gained during their degree programme. Besides student, parents also sometimes express their happiness, particularly the way their wards have been trained. The students who come from a different university to join the department's PG and Ph.D. programme are overwhelmed to see the research and other infrastructural facilities. The faculties of the department impart training and conduct awareness programmes for the farmers. The request from the farmers to conduct training again after few months shows their satisfaction. In fact, many a times, they directly call the faculty members to solve their problems related to fish health and environment related aspects. It clearly shows their satisfaction from their first interaction with the faculty members. The feedbacks taken from them are critically examined and necessary measures are taken to address the issues.

6.4.8. Student intake and attrition in the programme for the last five years

Name of the degree programme	Actual student admitted in the last five years					Attrition (%)				
	2016-17	2017-18	2018-19	2019-20	2020-21	2016-17	2017-18	2018-19	2019-20	2020-21
Ph.D.* (Aquatic Animal Health)	2	2	2	2	3	0%	50%	0%	50%	0%

* Ph.D. (AAH) Thesis submitted; Viva-voce awaited

6.4.9. ICT application in curricula delivery

Computer-aided methods like PowerPoint Presentation are used as per need of the topic and for interactive teaching. Sometimes multimedia aids are also used to make things more plausible to the students, particularly short animation films depicting a scientific process are shown to the students.

I, **Prof. Ratan Kumar Saha** the Dean, **College of Fisheries, Lembucherra**, hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

6.5. SELF-STUDY REPORT FOR THE COLLEGE

Genesis of the College

The College of Horticulture and Forestry, Pasighat, Arunachal Pradesh was established on 7th March 2001 as a constituent College of the Central Agricultural University, Imphal, Manipur with the admission of 17 UG students in the first batch of B. Sc. Horticulture. Since then, the college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture in Fruits and Vegetable Science), M.Sc. (Forestry), and Ph.D. (Horticulture in Fruits and Vegetable Science). Doctor of Philosophy (Horticulture) in Fruit Science commenced from the academic session of 2015-16. The campus is located in a serene atmosphere at Pasighat, the educational capital of the state as well as the first Smart City of Arunachal Pradesh. The mighty Siang River flows in the northern vicinity of the campus which is about 2.5 km from the town. The College is spread over an area of 145 acres neighbouring one of the oldest institutes of NE India, the Jawaharlal Nehru College, established in 1964.

The college has well-equipped and man-powered 11 full-fledged departments. The curriculum and syllabi of all degree programs are updated and adopted as per the ICAR guidelines, the currently implemented syllabus being 5th Deans' Committee Recommendations since 2016.The prime objectives of this college include imparting horticulture and forestry education and meeting the research and extension needs of the NE Region in general and for each state of the region in particular.

Mandates

- To impart education in different branches of Horticulture & Forestry and allied Sciences
- To carry out research for promotion of Horticulture & Forestry and allied Sciences
- To undertake different extension programmes that help in the transfer of technologies generated to the end-users

Objectives

- Production of brilliant gradutes and post graduates who could serve the needs of the farmers/ Forest Department of the region.
- To undertake introduction of new fruit, vegetable and flower crops and new varieties of commonly grown fruit, selection and improvement in economically important Forest tree species, vegetable and flower crops including exotic, that are agro-climatically suitable in the region with constant monitoring by the College.
- To further the advancement of learning by undertaking research in fruit, vegetable, forest tree speecies and flower crops science to overcome the new challenges and develop new technologies pertaining to the growers of the region and industries at large with intervention of bio-technological tools.
- To strengthen the applied research in regional specific problems of fruit, vegetable and flower crops with an attempt to develop localized technologies
- To undertake the extension programmes of transferring proven technologies to all the stakeholders of horticulture in general in each of the states under the jurisdiction.
- To undertake such other activities as it may deem fit and responding to the call of the Government, University and farmers from time to time.

Goals

- The goal of establishing the College of Horticulture & Forestry is for the greater interest of socio-economic upliftment of the people of North eastern region by harnessing the technologies of horticulture and forestry. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills, and improve profitability and utilization in the field of horticulture and forestry in North-Eastern region. The college shall also endeavour to establish linkages with other scientific institutions of the ICAR and other zonal and national bodies in the fields of its domain, located in the region and outside.
- To produce globally competitive graduates and postgraduates in Horticulture & Forestry and allied sciences
- To develop sustainable and profitable farming system for improving productivity, production and profitability in the Horticulture & Forestry and allied sectors
- To educate the extension functionaries for effective dissemination of agro technologies to the farmers, entrepreneurs and agro based industries
- To be an important link in the chain for converting agriculture and allied vocations into profitable enterprises and providing food and nutritional security to the people of NE region

6.5.1. College Administration

The overall administration of the academic, research, extension, and other activities of the college including infrastructure development is monitored by the Dean, College of Horticulture and Forestry. The Dean is assisted by various teaching, non-teaching, and non-technical members of the institution. The flow chart of the organizational structure is given as follows:

Organizational Chart

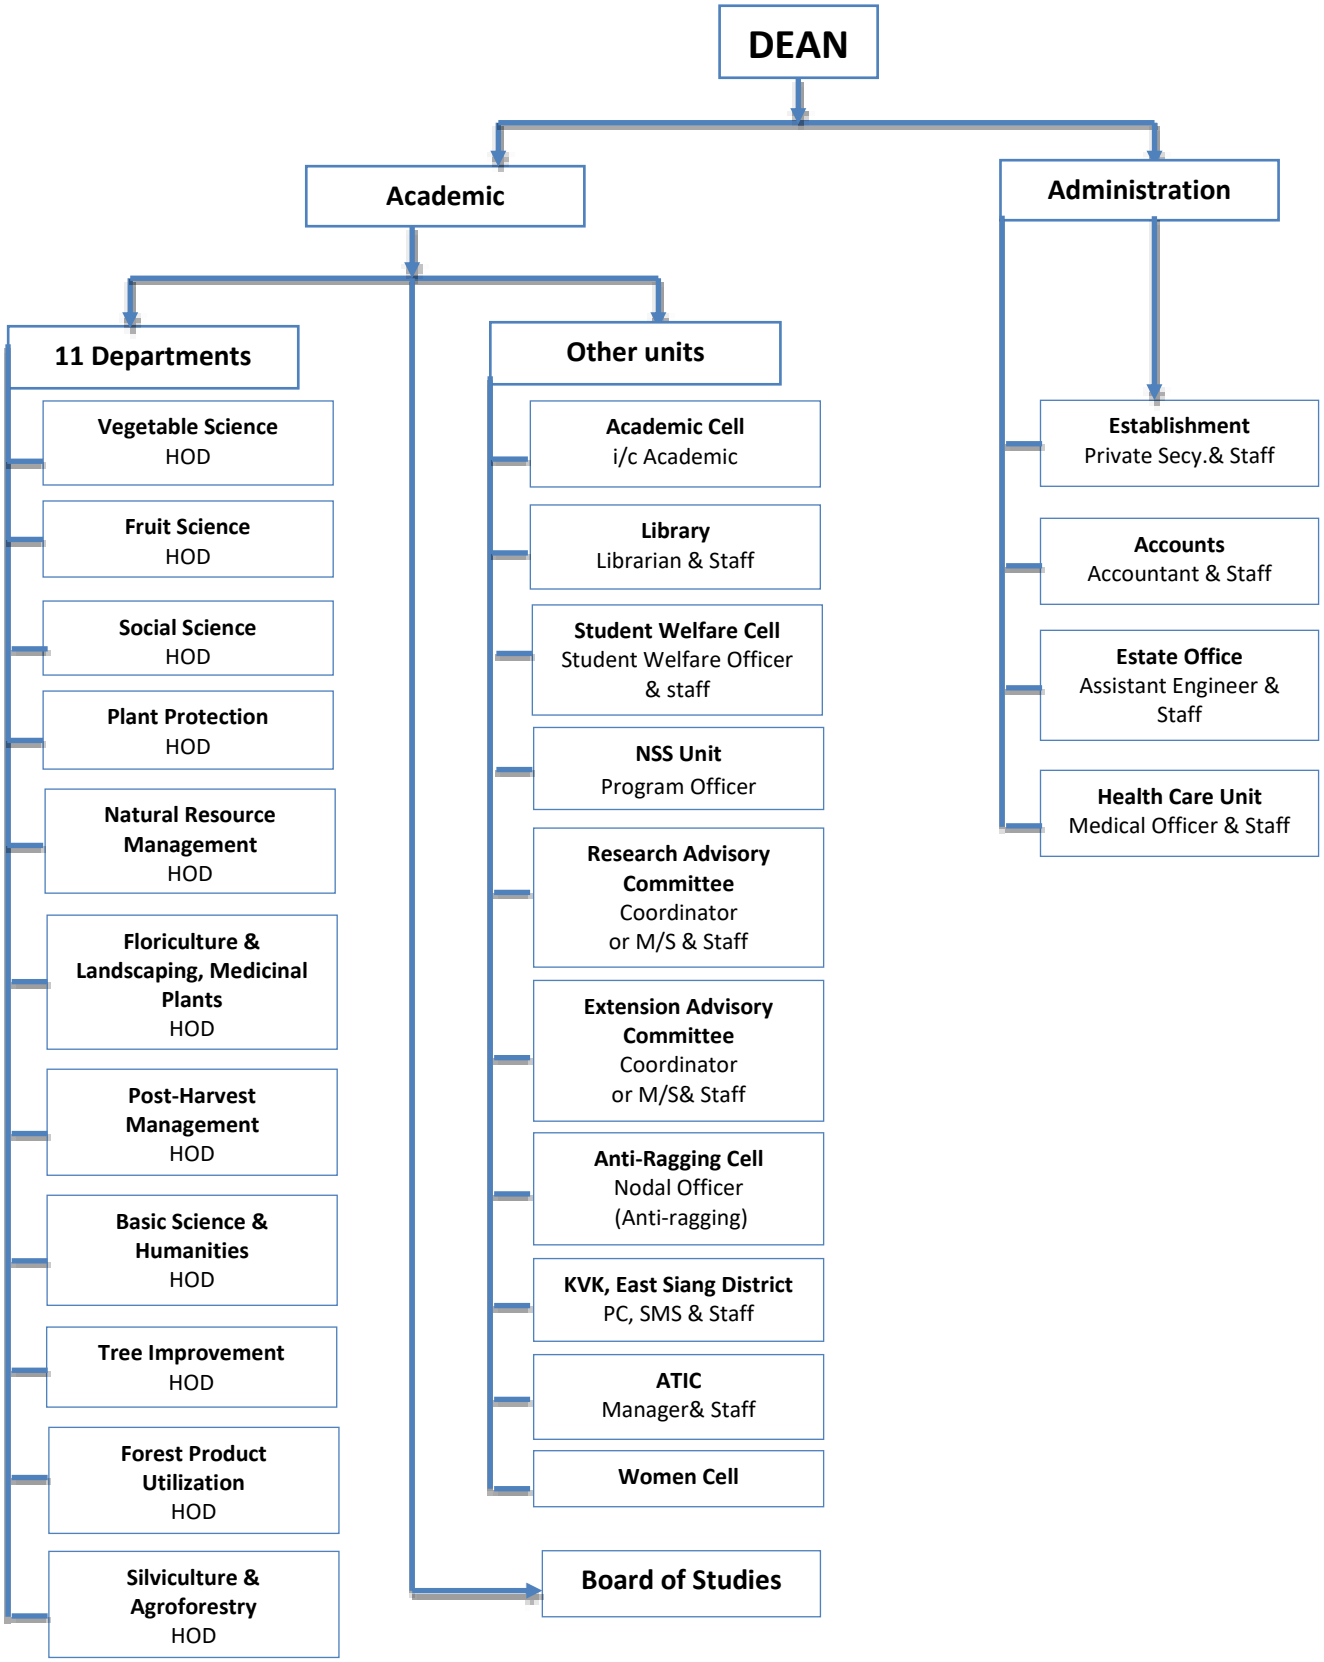

Figure 2. ATIC Building

Figure 3: Farm Machinery Shed

Figure 4: Auditorium Building

6.5.1.1. COLLEGE DEAN'S OFFICE ESTABLISHMENT

Table 1: College Details of Deans office

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines	Yes
2.	Date of selection/joining of present Dean	11.02.2019
3.	Mode of selection	Interview
4.	Tenure	5 years
5.	Total number of staff in Dean's office Technical staff Non-technical staff	 2 Nos. 2 Nos.
6.	Infrastructure facilities (Details on infra and networking facilities available)	• Computers, UPS, and printers are available at the Dean's office with internet connectivity • Copier facility is available with Wi-fi connectivity • CCTV camera is installed at Dean's office for effective monitoring of staff, students and visitors

6.5.1.2. MONITORING MECHANISMS FOR QUALITY EDUCATION (ON-LINE)

The college of Horticulture and Forestry, CAU, Pasighat is fully committed to providing quality education to the students admitted to different degree programs. In this regard, efforts are continuously made to impart the latest, up-to-date scientific information to the students as well as enhancing the scientific temperament of the faculty by allowing them to undergo different pieces of training, workshops, and seminars to meet the needs of the students. At present, the facilities available are adequate for online monitoring. Initiatives are periodically taken up at the institute level to monitor the quality of education based on UG, PG,and Ph.D.programs.

Undergraduate degree program

- The syllabus and curriculum followed are as per the V Dean'sCommittee recommendations.
- For every course, before starting the classes, a lesson plan is prepared by thecourse leader based on credit load and supplied to the student, Academic in-charge, and Dean of the college.
- The Head of the Department makes sure that the courses are completed as per the lesson plan.
- Mid-semester, practical and final theory examinations are conducted to assess the students.
- Assignments are regularly given to students in each of the courses related to the curriculum.
- The external system of evaluation followed for both theory and practical for each course related to the curriculum.
- Academic counseling is provided to students by assigned counselors *i.e*. the teaching faculties.

- Monthly quiz programs and group discussions are arranged for the students to ascertain their proficiencies and knowledge.
- Surprise visits by the Dean and the HOD's of the respective departments to the laboratories and classrooms for better teaching improvements.
- Practical manuals are prepared by the departments for all the courses and distributed at the beginning of each semester to the students.
- Each department is well established with laboratories and Research blocks for conducting the practical classes.
- Practical classes are conducted in batches for effective learning and students are taken to state/ central institutes /private organizations and farms of progressive farmers.
- During the degree program, State and All India Educational Study tours are conducted for visits to state/ central institutes /private organizations. A Report on the tour is prepared and presentations are made by the students.
- Students are involved in training programs, field visits, method demonstrations, and exhibitions in the villages during RHWE Programme.
- Mock tests are conducted for improving competence in the ICAR –JRF examination.
- The monthly staff meeting is conducted to review the status of quality education.
- Academically weak students are given special guidance and extra lectures are conducted for improvement

P.G. Degree Programme

- The Dean of the College of Horticulture and Forestry in coordination with theFaculties of the various departments regularly monitors thestudents' progress in their studies, dissertation works, thesis works, conduct of examinations including thesis evaluation.
- For the Masters's program, an advisory committee is formed with a minimum of 3 members and a maximum of 5 including the Head of the Department. The Head of the Department is the Ex-Officio Member of the Advisory Committee of all the PG students of the Department.
- For. Ph.D. program, an advisory committee is formed with a minimum of 4 members and a maximum of 5 including the Head of the Department. The Head of the Department is the Ex-Officio Member of the Advisory Committee of all the Ph.D students of the Department.
- The Advisory Committee of the PG and Ph.D. degree program looks after the finalization of the program of work, research plan, synopsis seminar, the conduct of comprehensive examination, thesis seminar, and viva-voce.
- The progress of the students in each semester is assessed in a meeting held before the end of the semester examinations by the advisory committee.
- The students of the entire degree program are required to attend 80% of the classes held in a course during the semester to be eligible to appear in the final examination.
- Each student in consultation with his/her Advisory Committee is required to prepare a plan of course work comprising of a detailed proposal of courses in the major, minor, and supporting fields along with the credits of each course in different semesters and semester-wise research credits. Five (5) (five) copies of the same in the prescribed format should be submitted through the Professor-in-charge of the Department and the Dean of the college to the Director of Instruction for approval within 10 weeks from the commencement of the first semester.
- The Advisory Committee of the student decides and proposes a research problem in presence of the Faculties of the College and the student shall submit 5 (five) copies of the Research Plan in prescribed proforma through the Head of the Department and Dean of the College to the Director of Instruction for necessary approval in the second semester.

- Mid-term, quizzes, practical and end-term theory examinations are conducted to assess the students.
- For the course work, the internal system of evaluation is followed for quizzes and mid-term, while it is external for final theory and practical evaluation.
- For the comprehensive qualifying examinations, question setting and viva-voce is external and evaluation is internal.
- For a Masters's degree program, the thesis is evaluated by one external examiner and viva-voce by an external and advisory committee.
- For the Ph.D degree program, thesis is evaluated by two external examiners and viva-voce by an external and advisory committee.
- Students should also present a seminar before the audience comprising of the Head of the Department, Advisory Committee members, all teaching faculties, and PG students of the department and is evaluated for the same.

Faculty Research

- The faculty are involved in research activities related to crop production, crop protection and crop improvement.
- The College Research Advisory Committee committee (CRAC) appraises the research proposals at college levels.
- The progress of the research is regularly monitored by the research evaluation committee.
- Review of progress of research worksare evaluated by the Dean, Director of Research and the Vice Chancellor, CAU during Research Review Committee meetings.
- Submission of annual report for ongoing and completed projects.

Extension

- Monitoring committee to assess the occurrence of insects and disease in the region.
- Participations in exhibitions organized by the Government, private and non-governmental organizations.
- Field visits by a team of scientists on need to diagnose problems and provide solutions and recommendations.
- Organize entrepreneurship development trainingprogramsfor farmers.
- Vocational training programs and short training programs are organized for farmers and
- unemployed youths.
- Distribution of agricultural accessories and planting materials to local farmers.
- Front Line Demonstrations and off-campus training at farmers' fields

Visit of Ministers To The College Campus

On 10thSeptember 2019, PG Girls' Hostel and Indoor Sports Complex was inaugurated by Shri Pema Khandu, Hon'ble Chief Minister, Arunachal Pradesh in the August presence of Shri Kiren Rijiju, Hon'ble Minister of State(Independent Charge), Ministry of Youth Affairs and Sport and Ministry of State in the Ministry of Minority Affairs, Government of India; Shri Pasang Dorjee Sona, Hon'ble Speaker, Legistative Assembly of Arunachal Pradesh; Shri Mama Natung, Hon'ble Ministry of Youth Affairs, Sports and Water Resources, Government of Arunachal Pradesh; Shri Kaling Moyong, MLA, Pasighat, East Siang District, Arunachal Pradesh and Prof. M. Premjit Singh, Hon'ble Vice Chancellor, Central Agricultural University, Imphal.

Figure 10:Inauguration of Girls' P.G. Hostel of College of Horticulture & Forestry

Measures taken to improve the quality of education, Measures taken to improve the quality of education, research and extension

Education

- Industrial and institute exposure visits related to the courses offered to the students
- Recognition and awards are given to best students at university level
- Guest lectures are arranged for the students in diversified areas related to agriculture
- Assignments are given on regular basis and exams are conducted on regular basis

Research

- Encouraging students to actively participate in workshops, webinars and conferences.

Extension

- Rural Horticultural Work Experience Programme (RHWE) and Forest Work Experience (FOWE) for students to understand the problems and prospects of the farming community and exposure and training on forest range and attached state departments
- Organizing group discussion programmes
- Conducting brain storming sessions for group approach

Impact of monitoring with reference to students' excelling in academics, research and extracurricular activities

Academics

Because of better co-ordination and effective monitoring by the staff, there is a congenial environment for students to clear many national level competitive exams like ICAR – JRF and SRF fellowship.

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection in different competitive exams
- Participation and selection for higher education in reputed National institutes
- The details of student's excellence in national level academic competitive exams is given below;

Table 2: Details of the students excellence

Figure 11: Inauguration of Arunachal Agri-Expo, 2019

Figure 12: Seed distribution cum awareness programme on buckwheat -2021

Figure 13:Training programme on "Organic Grower" 2021

Figure 14: Training on 'Protected cultivation high valued vegetable crops' 2021

Year	ICAR -JRF	ICAR -SRF	Admission in CIFE/IARI/IVRI/NDRI	Total
2016-17	**05**	**-**	**-**	**05**
2017-18	**02**	**01**	**01**	**03**
2018-19	**05**	**02**	**-**	**07**
2019-20	**02**	**-**	**-**	**02**
2020-21	**06**	**01**	**-**	**07**

Research

- Publication of research in peer reviewed journals by faculty members.
- Running of many intramural and external projects

Extracurricular

- Participation in NSS programmes at state and national levels
- Participation in sports and cultural events at state and national levels

Additional information on monitoring mechanism for quality education

- **Monthly meetings**: The Dean conducts monthly meetings with the Heads of various departments as well the project investigators to evaluate the progress in the field of teaching, research and extension. The Dean also organizes regular meetings with the course teachers to monitor and evaluate different courses.
- **Annual reports**: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for assessing the performances of the college during the particular yearand serve as guidelines for future action plan.
- **Student evaluation**: The Dean of the college conducts students meeting every semester. The Deanreceives the feedback from the students and gives direction to the faculties. The students provide the feedback of course teachers who handled the classes during a particular semester in a prescribed proforma. The feedback of the students are analysed and the inadequacies are properly addressed.

6.5.1.3. CC/BOARD OF STUDIES

Boards of Studies meeting are conducted where various academic issues are discussed and academic progress are monitored.

Table 3: Committee of Board of Studies

	Committee	Position
	Vice Chancellor of Central Agricultural University	Chairman
	Director of Instructions	Member
	Registrar	Member
	Director of Research	Member
	Director of Extension Education	Member
	Deans of all constituent colleges under CAU	Member
	Two external experts	Member
	Academic In-charges of all constituent colleges under CAU	Member
	Student Representative	Member

Table 4: Details of the recommendation in BOS meeting

Particulars	Year	Date and Place of the meeting	Major Recommendations
10th Board of Studies	2019-2020	15thMay, 2019 at College of Horticulture & Forestry, CAU,Pasighat, Arunachal Pradesh	1. Proposal for increasing seats in M.Sc Horticulture Program in Floriculture & landscape architecture was recommended to the academic council and was agreed and approved for 4 nos. of seats from CAU and none from ICAR. 2. Alteration of 1 content in the course of Forest Law Legislation and Policies of 2 +0 credit hours under Vth Dean committee syllabus B.Sc (Hons.) Forestry Degree Program was recommended to the academic council and approved by the academic council as resolution No. AC-19/17/2019
11th Board of Studies	2020-2021	24thApril, 2020 at College of Horticulture & Forestry, CAU, Pasighat, Arunachal Pradesh.(Online)	1. Extension of 2nd semester academic session due to the national Lockdown under the II-Phase against the spread of Corona Virus was proposed to the academic council and was approved.

6.5.1.4. Anti Ragging Cell

In pursuance to the Judgment of the Hon'ble Supreme Court of India dated 08.05.2009 in Civil Appeal No. 887/2009 the University Grants Commission has framed "UGC Regulations on curbing the menace of ragging in higher educational institutions, 2009" which have been notified on 41" July, 2009 in the Gazette of India. Following this regulation and subsequent guidelines, Anti Ragging Committee is constituted at the start of every academic session chaired by Dean and Student Welfare Officer as its Nodal Officer Anti ragging Cell. The committee consists of all the Wardens in addition to the Superintendent of Police, East Siang District, Pasighat, Mrs. Aini Taloh, (Social Worker), Mr. MaksamTayeng (Journalist) to curb the menace of ragging. Besides, an Anti-ragging Squad is constituted. The members are directed to keep a constant vigil bypatrolling and also advocated tokeep their mobile numbersactive all the time to avoid the menace of ragging in the college campus. The squad is also empowered to make surprise raids (any time of the day) in all the hostels and other places vulnerable to incidence and having the potential of ragging, on the spot enquiry into any such incidence of reported ragging and submit the report immediately along with the recommendations to the Anti-Ragging Committee for necessary further action. It is a matter of pride that not a single incidence of ragging has been reported/ noticed since the inception of the college. The anti-ragging squad comprises of:

Table 5: Details of the anti-ragging squad

Date	Members of Anti Ragging squad	Date	Membersof AntiRagging squad
15/6/2019	Dr. Bikram Singh, Mr. N. Devachandra, Dr. Shivani Dobhal	31/6/2019	Dr. Bikram Singh, Dr.Oken Singh, Dr.Surmina Devi

6.5.1.5. BIOLOGICAL WASTE DISPOSAL FACILITY

Efforts are being undertaken to effectively recycle the waste generated and properly dispose the waste which could not be recycled. The primary activity involves composting the plant waste and proper collection, segregation and disposal of waste. The following disposal mechanism is initiated and deployed:

Table 6: Details of the disposal mechanism initiated and deployed

Sl. No.	Type of waste material	Disposal mechanism
1.	Animal & insect anatomicalwaste	Incineration or deep burial
2.	Soiled waste	Incineration, autoclaving or deep burial as required
3.	Expired or discardedchemicals, pesticides and agro-chemicals	Expired or discardedpesticidesandagro-chemicals are disposed byincineration
4.	Microbial liquid waste	Autoclaving
5.	Waste sharps includingmetals	Autoclaving or dry heat sterilization
6.	Glassware	Disinfection (by soaking thewashed glass waste aftercleaning with detergent andSodium Hypochlorite treatment) or through autoclavingand then sent for recycling
7.	Waste water	The waste water released from the college is passed through a drainage system

6.5.1.6. INSTITUTIONAL ETHICS COMMITTEE FOR EXPERIMENT ON ANIMALS

The college, at present, is not undertaking any type of experiments on animals and hence the institutional ethics committee has not been constituted. However, if such experiments are undertaken,then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee (IAEC).

6.5.1.7. COMMITTEE FOR PREVENTION OF SEXUAL HARASSMENT OF WOMEN AT WORK PLACES

For the prevention of sexual harassment of women at work place the following two committees have been formed.

Table 7: Members of the Committee for Prevention of Sexual Harassment of Women

Sl. No.	Name of Faculty	Designation
1.	Dr.TisuTayeng, Assistant Professor	Chairman
2.	Dr. K. Ch. Momin, Assistant Professor	Member
3.	Dr. Shivani Dobhal, Assistant Professor	Member
5.	Mrs. YapangMibang,	Member

6.	Ms. OdiPanyang, FCLA	Member
7.	Mrs. NabumYadi, MTS	Member

The committee for prevention of sexual harassment of women has been formed to address all grievances pertaining to sexual harassment of women (teaching and non-teaching staff and labours) at the college. There was no complaint on sexual harassment in the college during last five years. However, details on sexual harassment of women at work place (Prevention, prohibition and redressal) Act, 2013 and a preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers

Table 8: Members of the Committee for resolving internal complaint in the work place

Sl. No.	Name of Faculty	Designation
1.	Dr. T. Shantibala, Associate Professor	Chairman
2.	Dr.TisuTayeng, Assistant Professor	Member
3.	Mrs .Bishwapati Devi, Assistant Professor	Member
4.	Dr. K. Ch. Momin, Assistant Professor	Member
5.	Dr. N. Surmina Devi, Assistant Professor	Member
6.	Dr. Shivani Dobhal, Assistant Professor	Member
7.	Dr. Denisha Rajkhowa, Assistant Professor	Member
8.	Mrs. YapangMibang	Member
9.	Mrs.Eloni Vida, SMS-KVK	Member Secretary

The committee for internal complaint hasbeen constituted vide Order No. CHF/CAU/ Estt.-FC/09/4812, dated February 23, 2021 to look after all the grievances related to sexual harassment of women at work place

6.5.2. FACULTY

The College of Horticulture and Forestry has 48faculties in various disciplines including 3 nos. teaching faculties from AICRP on MAPB to undertake the education, research and extension activities.All faculties have necessary qualifications and have enriched themselves over the years by undergoing training programmes in teaching, research and education, participation in conference and seminars and handling research projects. Various approaches are followed by the teachers so that students are able to learn and get hand on experience on various aspects of horticulture and forestry.

6.5.2.1. FACULTY STRENGTH

Table 9: Details of the faculties of CHF Pasighat

Particulars	Number of Post sanctioned	Position filled
Professor	9	03
Associate Professor	18	13
Assistant Professor	36	29

6.5.2.2. FACULTY PROFILE (DEPARTMENT WISE)

The faculty strengths of College of Horticulture and Forestryis sufficient for academic requirement of the college.

Table 10: Department wise faculty strength

S.No.	Department	Professor	Associate Professor	Assistant Professor
1.	Vegetable Science	-	2	2
2.	Fruit Science	1	1	4
3.	Post-Harvest Management	-	-	2
4.	Floriculture and Landscape Architecture	1	1	1
5.	Natural Resource Management	1	2	2
6.	Social Science	-	2	2
7.	Plant Protection	-	2	3
8.	Basic Science and Humanities	-	1	6

Table 11: Staff details of AICRP On MAPB

S.No.	Specialization	Assistant Professor
1.	Agricultural Entomology	1
2.	Post – Harvest Technology	1
3.	Plant Breeding & Genetics	1
	Total	**03**

6.5.2.3. Credentials of the Faculty

Almost all faculty members of the college are Ph.D holders and are qualified and competent in their respective field/ research areas to provide guidance and assistance to the students of UG, PG and PhD programs. The faculties are selected through national level advertisement and interview by experts in All India Level. The college has adequate proportion of experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities. The details of qualification, experience and professional licensure and certification and demonstrated competencies are detailed in Annexure 6.5.2.3.

6.5.2.4: TECHNICAL AND SUPPORTING STAFF

The technical staff are attached with the office of the Dean for administrative, convenience and they are allotted to other departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. The details of staff involved are listed below:

Table 12:Detailed list of technical and supporting staff of College of Horticulture & Forestry, Pasighat (IN POSITION)

Sl. No	Department	Technical Staff	Supporting Staff	Field Staff
1.	Vegetable Science	02	01	Nil
2.	Fruit Science	03	01	02
3.	Floriculture (O&MAP)	01	01	Nil
4.	Post Harvest Management	01	Nil	Nil
5.	Natural Resource Management	02	01	Nil
6.	Social Science	01	Nil	Nil
7.	Basic Science and Humanities	02	Nil	Nil
8.	Tree Improvement	01	Nil	Nil
9.	Silviculture and Agroforestry	Nil	01	Nil
10.	Forest Product Utilization	01	Nil	Nil
11.	Plant Protection	02	02	Nil
	Total	16	07	02

6.5.3. LEARNING RESOURCES

Faculties are provided with computers and high speed internet facilities to access the online open courses and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various software applications in agriculture. Learning resources are texted, video lessons, and other ICT related materials that teachers used to guide students to meet the expectation for learning defined by ICAR recommended curriculum.

6.5.3.1. COLLEGE LIBRARY

- **Location of Library:**

The Library of College of Horticulture and Forestry, Pasighat was established in 2001.The total built up area of the library is 231 m^2 .College maintains a very spatial library and it also subscribes a good number of national and international journals, magazines and newspapers. The library has four computer terminals and one separate library server. All the computers are connected with internet access. Under the ICAR project, the college library provides access to foreign periodicals through CeRa (Consortium for e-References in Agriculture, India). Through this service, the students and

faculty can access on-line Portals and Bouquet of journals from Publishers with full text of an articles such as Springerlink, Annual Reviews, CISRO (Australia) and JCCC (J-Gate Custom Content for Consortia).

- **Present Staff Position (in place):**

S.No.	Staff	Number
1.	Present staff	• 1 Librarian • 3 Library Assistants • 1 Clerk • 3 Multi-tasking Staffs

- **Availability of Wi-Fi:**
  Wi-fi facilities are available in the library with internet band width speed of 2Mbps from BSNL

- Books/ Reading material (in Number):

S.No	Particular	Number
1.	Books	17,925
2.	Newspapers	06
3.	Magazines	04
4.	Bound volumes	278

- **Periodicals/Research Journals(in Number)** : 17
- **Internet facility** :Internet band width speed of 32Mbps rom BSNL
- **No of Computers** : 06 nos
- **Seating Capacity** : 30 nos
- **Latest Technology in the library**:

The library of the college is equipped with internet facilities through which the staff and students can access OPAC (Online Public Access Catalogue) at www.chfcau.ideal.egranth.ac.in.
Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia for e-Resources in Agriculture)
Two Library Softwares in process: (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software
Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses are uploaded. It is open repository. URL: Krishikosh.egranth.ac.in
Commonwealth Agricultural Bureau (CAB) data base access facility (database from 1972 to 2005)

- **Stocking arrangements**:
  Book stocks arranged as per the subjects
  Stock racks are available in 2 sizes, 10 racks with size of 7.3 ft. and 31 racks with size of 6 ft.26 number of book cases are available

- **Collection of volumes on different subject**:

S.No	Particular	Number
1.	Genetics and Plant Breeding	436
2.	Ag. Economics	81
3.	Soil Science& Ag. Chemistry	393
4.	Horticulture	293
5.	Ag. Extension	172

6.5.3.2. LABORATORIES, INSTRUCTIONAL FARM, WORKSHOPS, DAIRY PLANT, VETERINARY CLINIC, HATCHERY, PONDS ETC.

The College of Horticulture and Forestry is spread over in an area of 58 hectares which includes research farm, instructional cum demonstration farm, KVK farmand experimental farms. The laboratories of all departments are well equipped with all the necessary equipments and facilities to accomplish the academic activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. The farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

Laboratories

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG, PG and PhD programmes (Fig. 16, 17& 18).

Table 13: The area covered under the laboratories of different departments are as follows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
9.	Post-harvest	90
10.	Floriculture	90
11.	Vegetable Science	90
12.	Fruit Science	90
13.	Statistics, Computer Application & IPR	59

The details of the laboratories in different departments of College of Horticulture and Forestry are as:

Plant Protection

- **Plant Pathology**

Practical classes are conducted for students on general plant pathological laboratory and field equipment's, study of disease symptoms and signs and host parasite relationships,identification and isolation of plant pathogens, Koch's postulates,preparation of fungicidal solutions, slurries, pastes and their applications.

- **Entomology**

The departmental laboratories are utilized for conducting practical classes on insect collection and preservation,identification of important insects,general body organization of insects,study on morphology of insects,preparation of permanent mounts of mouth parts, antennae, legs and wings,dissection of insectsto study the internal morphology,observations on metamorphosis of larvae and pupae.

Tree Improvement &Genetics and Plant Breeding

Practical classes are conducted for students on breeding objectives and techniques in important crops,floral biology: its measurement, emasculation, crossing and selfing techniques in major crops,determination of mode of reproduction in crop plants, handling of breeding material, segregating generations (pedigree, bulk and back cross methods), field layout& maintenance of experimental records in self & crosspollinated crops,demonstration of hybrid variation and production techniques,Hardy Weinberg Law and calculation, male sterility and incompatibility studies in agricultural crops, calculation of inbreeding depression, heterosis, heterobeltiosis, GCA, SCA, GA and heritability.

Natural Resource Management

- **Agronomy**

  The students are delivered practical classes on identification of field crop and tillage implements,preparation of seed beds, identification of fertilizers and manures, mixing chemical fertilizers, calculating fertilizer requirements,identification of green manure plants,identification of important weeds of the region with particular reference to forest plantations,preparation of weed herbarium,calculations of spray volume and herbicide concentrations,methods of application of herbicides,identification of horticultural crops, garden tools and implements. planning and layout of orchard and plantations,digging and filling of pits for fruit and plantation crops-planting systems, training andpruning of orchard trees-preparation and application of regulators, layout of different irrigation systems, identification and management of nutritional disorder in fruits-bearing habits and maturity standards, harvesting, grading, packaging and storage.

- **Soil Science**

  The department has laboratories for conducting practical classes on collection and preparation of soil samples, estimation of soil moisture, EC, pH & bulk density,textural analysis of soil, description of soil profile in the field,quantification of minerals and their abundance, determination of soil colour, estimation of water holding capacity & hydraulic conductivity of soils,estimation of infiltration rate using double ring infiltrometer method, estimation of soil moisture, soil compaction measurement, determination of pore space of soil, determination of filed capacity and permanent wilting point of soil, determination of soil water potential characteristic curves, aggregate size distribution analysis of soil and air capacity of soil.

Basic Science & Humanities

- **Plant Biotechnology**

  The laboratory is utilized to conduct practical classes on requirements for plant tissue culture laboratory,techniques in plant tissue culture,media components &preparations,sterilization techniques &inoculation of various explants,aseptic manipulation of various explants,callus induction &plant regeneration,micro propagation of important crops,anther, embryo &endosperm culture,hardening/acclimatization of regenerated plants,somatic embryogenesis & synthetic seed production,isolation of protoplast,demonstration of culturing of protoplast,demonstration of isolation of DNA,demonstration of gene transfer techniques: direct & indirect methods,demonstration of confirmation of genetic transformation,demonstration of gel-electrophoresis techniques andgreen synthesis of nano particles and their size characterization.

- **Plant Biochemistry**

  Practical classes are conducted on preparation of standard solutions and reagents,qualitative reactions of carbohydrates, estimation of starch, estimation of reducing & non-reducing sugars from fruits,reactions of amino acids,estimation of proteins, estimation of free fatty acids, determination of iodine number of vegetable oils,estimation of ascorbic acid,paperchromatography, thin layer chromatography,electrophoresis of pigments extracted from flowers, extraction of oil from oil seeds andenzyme assay& immobilization.

- **Statistics, Computer Application & IPR:**
  Practicals are delivered to students on exercises on binary number system, algorithm and flow chart, MS Word, MS Excel, MS Power Point, internetapplications, web Browsing, creation and operation of email account,analysis of fisheries data using MS Excel,handling of audio visual equipments,planning, preparation, presentation of posters, charts, overhead transparencies & slides andorganization of an audio-visual programme

Figure 16: Outlay of College of Horticulture and Forestry, Pasighat

Figure 17. Computer Laboratory

- **Post-harvest:** Practical classes are directed towards identification of equipments used in food processing units, physico-chemical analysis of fruits and vegetables,canning of fruits and vegetables, preparation of squash, RTS, cordial, syrup, jam, jelly, marmalade, candies, preserves, chutneys, sauces, pickles (hot and sweet),dehydration of fruits and vegetables – tomato product dehydration, refrigeration and freezing, cut out analysis of processed foods,processing of plantation crops andvisit to processing units
- **Floriculture:** Practical classes are conducted for students on identification and description of annuals, biennials, herbaceous perennials, climbers, shrubs, trees, indoor plants, ferns and selaginella, palms, cycads, cacti & succulents,planning and designing and establishment of garden features *viz*., lawn, hedge & edge, rockery, water garden, carpet bedding, shade garden, roof

garden, study and creation of terrariums, vertical garden, study and practice of different types of flower arrangements, preparation of floral bouquets, preparation of floral rangoli, veni*etc*., study of *Bonsai* techniques, *Bonsai* practicing and training, visit to nurseries & floriculture units

- **Vegetable Science:** The students are delivered practical classes on identification and description of tropical & sub-tropical vegetable crops, nursery practices & transplanting, preparation of field & sowing/planting for direct sown & planted vegetable crops,herbicide use in vegetable culture, top dressing of fertilizers & intercultural operations, use of growth regulators, identification of nutrient deficiencies,physiologicaldisorders,harvest indices & maturity standards, post-harvest handling and storage, marketing, seed extraction (cost of cultivation for tropical & sub-tropical vegetable crops) and project preparation for commercial cultivation
- **Fruit Science:**The department has laboratories for conducting practical classes on features of orchard, planning & layout of orchard, tools &implements, identification of various horticultural crops, layout of nutrition garden, preparation of nursery beds for sowing of vegetable seeds, digging of pits for fruit plants, planting systems, training & pruning of orchard trees, preparation of fertilizer mixtures & field application, preparation & application of growth regulators, layout of different irrigation systems, identification and management of nutritional disorder in fruits, assessment of bearing habits, maturity standards, harvesting, grading, packaging and storage.

Figure 18: College Laboratory

Besides these laboratories, the following facilities are also available atCollege of Horticulture and Forestry, Pasighat.

Table 14: Infrastructure facilities available in CHF Pasighat

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land

area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Table 15: Department wise infrastructural details of CHF Pasighat

Department/Section	Area (Sq.mtr.)	Facilities available
Natural Resource Management		
1. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
2. Agrometeorology Observatory	500	• Meteorological observation data for Research and Academic purpose
Forestry		
3. Silviculture Nursery	9100	• Nursery raised bed= 70 Nos. • Shade net house (5x1.5m) = 30 Nos. • Green Net House (9mx16.5mx 5.5m) • Tree Garden/ Collection of 250 species of tree species for research/academic • PG Research plots for germination exp • Plantation Blocks of diff. species • Water Pump with motor, Irrigation & electricity setups
4. Agroforestry Block	2100	• Compost (concrete) pit • PG Research plots under different spacing's of different species & different age
5. Bambusetum block	8000	• 67 spp. of different type of bamboos • Research, conservation & identification purpose

6. Rubber plantation block	20000	• Commercial genotypes of high yielding *Hevea brasiliensis*
7. NTFPs & High value timber block	25000	• Tans & dye yielding plants • Lac, Gums and resins plants • Drugs, spices and insecticides plants • Wild edible fruits trees
Horticulture		
8. Medicinal &Aromatic plant farm **9. Medicinal plant germplasm block**	12000	• Germplasm of Medicinal and AromaticPlants • Collection of rare and endangered spps. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
10. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
11. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
12. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.) • Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
13. Fruit Department	98525	• Fruit nursery block • Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.
14. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Plant Protection		
15. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots

		• Water Pump with motor, Irrigation & electricity setups
16. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
17. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation& electric facilities.
18. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

6.5.3.3. STUDENT READY/ IN-PLANT TRAINING / INTERNSHIP / EXPERIENTIAL LEARNING PROGRAMMES
FOR HORTICULTURE

Student READY Program is taken up during VII and VIII semesters and have the following components:

Semester - VII

Student READY- Rural Horticulture Work Experience (RHWE) & Placement in Industries. This program is taken up during the VII semester for a duration of 24 weeks and allotted0+20 credit hours. The program includes orientation, village stay, all India study tour, industrial placement program, report writing and final examination.

Semester –VIII

Student READY Experiential learning (Professional Package) is for the duration of 20 weeks and carries a weightage of 0+20 credit hours. Students can select any two modules from the following under STUDENT READY- Experiential Learning program depending on the facilities available at the college:

1. Commercial Horticulture
2. Protected cultivation of high value Horticulture crops
3. Processing of fruits and vegetables for value addition
4. Floriculture and landscape architecture
5. Bio-inputs: Bio-fertilizers and bio-pesticides
6. Mass multiplication of plant and molecules through tissue culture
7. Mushroom culture
8. Bee keeping

FOR FORESTRY

Semester -V

Student READY Experiential Learning Module – I (5 weeks) (0+5 credit hours). Any one of the modules to be taken up during V semester:

1. Production and Marketing of high value forest produce (FPU)
2. Raising Quality Planting Materials for forest regeneration (SAF/FBT)
3. Apiculture/Sericulture (FBU/NRM/WLS)
4. Ecotourism (BSS/WLS)
5. Wild Animal Health Management– WLS

Semester-VI

Student READY Experiential Learning Module – II (5 weeks) (0+5 credit hours). Any one of the modules to be taken up during VI semester:

1. Production and Marketing of high value forest produce (FPU)
2. Raising Quality Planting Materials for forest regeneration (SAF/FBT)
3. Apiculture/Sericulture (FBT/NRM/WLS)
4. Ecotourism (BSS/WLS)
5. Wild Animal Health Management – WLS

Semester –VII

Student READY Forestry Work Experience (FOWE) 24 weeks is taken up in semester VII with a credit load of 0+20 credit hours. The program have the following components:

1. Orientation
2. Forest Range Training Program
3. Industrial placement
4. Weapon Training and First-Aid Training
5. Socio-economic Surveys and Village Attachment
6. Socio-economic Surveys and Village Attachment
7. Report writing and presentations

Semester -VIII

Student READY Project Work & Dissertation 10 weeks (0+10 credit hours) is taken up in the last semester.

EVALUATION OF STUDENT READY PROGRAM

- Students are evaluated component-wise under village attachment/ agro-industrial attachment/ hands on training/skill development training/experiential learning/student projects.
- Each College of the University designates a Student READY Program Coordinator and component wise evaluation committees. These committees frame a method of evaluation depending upon the component undertaken giving due weightage to the observations made by the Scientists/Agro-industrial Officer and the Program Coordinator with whom they are attached.
- Since the Credit Hours allotted to the Student READY program are gradial, the minimum condition of attendance and grading system applies for the program as applicable to other courses.
- It is expected that at the end of Student READY program, the students should gain competency for entrepreneurship, which should be innovative and creative in nature. The evaluation committee

must ensure percentage increase in this competency at the end & successful organization of all Student READY programs.

Table: Profit sharing mechanism (AMOUNT) for each ELP unit for last 5 year

Sl. No.	Department	Year	No. of students trained	Total income generated in rupees	Total profit earning	Profit shared per student	Major skills imparted	Additional info (if any)
	B.Sc. (Hons) Horticulture							
1	Floriculture Landscape MAP	2015-16	7	Rs. 44410	Rs. 31956	Rs. 3423	Marketing skills, project formulation skills & production skills.

6.5.3.4. CURRICULA DELIVERY THROUGH IT (SMART CLASS ROOMS/INTERACTIVE BOARD ETC.)

The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos**. Of smart classrooms for teaching and practical purposes.

Figure 24: Smart Classroom with 84 nos. of sitting capacity

IT Activities

- The academic, research, extension activities of the college are made available at the the official website of the College of Horticulture & Forestry, Pasighat (http://chfcau.org.in) and University website (www.cau.ac.in).
- All the activities related to KVK are madeavailable in the websiteKVK East Siang,Pasighathttps://kvkeastsiang.chfcau.org.in/

Computer facility

- The College has well-furnished air-conditioned Computer Laboratory. It houses 15 numbers of Desktop Computers with high speed Internet facility.
- The laboratory is used for conducting Practical classes for B.Sc Horticulture, BSc Agriculture, B.Sc Forestry,P.G and Ph.D students.
- Students also use the Computer Lab for their research, statistical calculation and other academic activities.

Figure 25: Computer Laboratory

Internet Facility

- The college has recently upgraded to **34 Mbps** Leased line Internet connection from BSNL.
- The College will provide unlimited Internet facility to the staffs and students.

- Wi-Fi Internet hotspot facility will be provided at Academic building, Old College building, VC Camp, Guest House and allthe Hostels of the College
- Faculty members and students utilize internet and computer facility for carrying out academic research and extension activities.

Language Laboratory:

Recently the College has setup 30 seater Language Laboratory with 32 nos.of computers for teaching and practicals of the students.

A **language laboratory** is a dedicated space for foreign language learning where students access audio or audio-visual materials. They allow a teacher to listen to and manage student audio, which is delivered to individual students through headsets or in isolated 'sound booths.

Figure 26: Language Laboratory

6.5.4. STUDENT DEVELOPMENT

Nurturing the intellect and character of students by integrating in-class and extra-curricular activities has been the primary objective of the college. To accomplish this objective, the students are exposed to a wide range of educational and social experiences which leads to development of integrity and sincerity among the students.

6.5.4.1. STUDENT INTAKE AND ATTRITION

The College presently offers Under Graduate and Post Graduate and PhD Programme in Horticulture and Forestry .The annual intake of students to the college at UG& PG level has increased since the inception of the university.

Table 16: The details of the student intake capacity under UG program

Year	Degree Program	Intake capacity	Actual Student admitted	Attrition (%)
2016-17	B.Sc (Hons.) Horti.	53	47	-
	B.Sc (Hons.) Forestry	30	19	-
	M.Sc (Hons.) Horti.	10	10	-

	M.Sc (Hons.) Forestry	04	03	-
	Ph.D (Horticulture)	04	04	-
2017-18	B.Sc (Hons.) Horti.	53	47	-
	B.Sc (Hons.) Forestry	30	19	-
	M.Sc (Hons.) Horti.	10+1 (01 Foreign Student)	10	9.09
	M.Sc (Hons.) Forestry	04	04	-
	Ph.D (Horticulture)	04	04	-
2018-19	B.Sc (Hons.) Horti.	53	49	-
	B.Sc (Hons.) Forestry	30	22	-
	M.Sc (Hons.) Horti.	09 +02 + 02 (02 Foreign students + 02 ICAR student)	13	-
	M.Sc (Hons.) Forestry	4	04	-
	Ph.D (Horticulture)	5	04	20
2019-20	B.Sc (Hons.) Horti.	54	45	-
	B.Sc (Hons.) Forestry	30	25	-
	M.Sc (Hons.) Horti.	09 (01 Foreign students + 02 ICAR student)	12	-
	M.Sc (Hons.) Forestry	04	04	-
	Ph.D (Horticulture)	04	04	-

2020-21	B.Sc (Hons.) Horti.	61	46	6.2
	B.Sc (Hons.) Forestry	35	30	3.3
	M.Sc (Hons.) Horti.	12 + 02 ICAR students	12	14.2
	M.Sc (Hons.) Forestry	04	03	-
	Ph.D (Horticulture)	06	06	-

Name of the Degree Programme	Actual student admitted in last five years					Attrition (%)				
	Y1 (16-17)	Y2 (17-18)	Y3 (18-19)	Y4 (19-20)	Y5 (20-21)	Y1 (16-17)	Y2 (17-18)	Y3 (18-19)	Y4 (19-20)	Y5 (20-21)

	Ph.D (Horticulture)	06	06

6.5.4.3. ADMISSION PROCESS

B.Sc Degree Program

Admission requirement

- The candidates should have passed 10+2 examination with English as one of the subjects of study. The candidates much have attained 17 years of age on 31st December in year of admission. The selection or nomination of candidates is done through National Eligibility cum Entrance Test (NEET) conducted by the National Testing Agency (NTA). Students seeking admission to the above degree programme shall be permanent resident or domicile of any one of the north eastern states of India i.e., Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. The number of students to be admitted for each of the North Eastern states is notified by CAU from time to time.

PAYMENT SEATS

- The candidates to be sponsored for admission are from the merit list based on the entrance test
- 15% of the approved number of seats in the UG programme are filled by the candidates selected on the basis of All India Entrance Test conducted by ICAR or as amended from time to time by ICAR.The ICAR nominees are governed by the eligibility as prescribed by ICAR

  Date of admission

- The date of admission to a bachelor's degree programme is as per the announcement made in the prospectus or academic calendar or semester calendar which is duly notified by the Registrar, CAU

Registration process

- On admission, a student is provided four copies of registration cards having different colours; one for the student, one for the advisor, one for the Dean and one for the Registrar which is filled up and registered for the prescribed process for the first semester. The registration card is signed by the student, his advisor, Assistant Registrar (academic) and countersigned by the Dean of the college.
- On admission and registration, the students are provided with college identity cards with his/her photograph. The identity card is returned to the college by the students when the students leave the college after completion or discontinuation of the course
- Newly admitted studentsare given an admission number by the Dean of the college. This admission number is valid till individual registration number is allotted by the Registrar, CAU to the students
- An orientation programme is organized by the Dean of the college for the benefit of the newly admitted students immediately at the beginning of the first semester

P.G. and Ph.D degree programme

a) Master's Programme

- Candidates with Bachelor's degree in concerned/related subjects from a recognized University with OGPA of 6.60/10.00, 3.25/5.00, 2.6/4.00 for General/OBC/UPS candidates are eligible for admission to the Master's Degree programmes. SC/ST/PC candidates with OGPA of 5.60/10.00, 2.75/5.00, 2.20/4.00 in the Bachelor's degree programme shall be eligible for the admission.
- In case where Grade Points are not awarded, only marks are awarded, the candidates must have secured at least 60% marks for General/OBC/UPS category and 50% marks for SC/ST/PC category. Candidates possessing 10+6 B.Sc. (Hons.) Agriculture degree shall also be eligible for admission to M.Sc. (Agri.) & M.Sc. (Hort.) programme

b) Doctoral Programme

- Candidates with Master's degree in concerned/related subjects from a recognized University with OGPA of 6.50/10.00, 3.25/5.00, 2.6/4.00 are eligible for admission to the Doctoral programmes under General/OBC/UPS category. SC/ST/PC category candidates with OGPA of 5.50/10.00, 2.75/5.00, 2.20/4.00 in the Master's degree shall be eligible for admission.
- In case where Grade Points are not awarded, only marks are awarded, the candidates must have secured at least 60% marks for General/OBC/UPS category and 50% marks for SC/ST/PC category.

Selection of candidates for admission

- The selection of candidates for both Master's and Doctoral programmes will be based on the Entrance Examination marks (60% weightage) and academic performance in qualifying Degree Examination (40% weightage). 20% marks, with negative marking in the entrance examination will be the qualifying mark for short listing under all categories.
- Twenty five (25) per cent of total seats in each department shall be filled up by the candidates selected by ICAR through All India Entrance Test (AIET).
- Fifteen (15) percent, seven point five (7.5) percent and three (3) percent of the total number of seats shall be reserved for SC, ST and PC candidates respectively. In case enough candidates are

not available, SC/ST categories seats can be interchanged. Vacant seats under PC category will be filled by the merit from General category.

- Twenty seven (27) percent of the total numbers of seats are reserved for OBC excluding creamy layer. If the University does not find the candidate from OBC category, the vacant OBC seats shall be converted into General category i.e. unreserved seats.

Submission of application

- Application for admission to Master's degree and Doctoral degree programmes shall be made in prescribed application form obtainable from the office of the Registrar/Dean of constituent Colleges on issue of notification to this effect. The duly filled in application complete in all respects along with documents shall be submitted so as to reach the Registrar of the University on or before the prescribed date.
- Students who have appeared in the final examination of the qualifying degree course and whose results are awaited for declaration may also submit their applications on or before the prescribed date.
- Each candidate is required to submit the necessary documents in original before the Admission Committee constituted for the purpose.

Admission procedure

- All the shortlisted candidates shall present themselves for counselling on the prescribed date and time in respective courses with all original documents.
- Based on merit, provisional admission letter shall be issued to the candidate by the Registrar, CAU, Imphal.
- The provisionally selected candidate shall report to the Dean of concerned College along with all original documents on the prescribed date.
- The Dean shall get the original documents verified by a committee of three senior teachers and Asstt. Registrar (Academic). After being satisfied with genuineness of certificate, the students shall be admitted after payment of prescribed fee.
- All original documents shall be kept in safe custody of the Dean of the College.

Registration

The first day of the commencement of the semester shall be the date of registration by the students

Registration of newly admitted students

- On admission, a student shall be providedfour copies of Registration Cards having different colours, one for the student, one for the Advisor, one for the Dean and one for the Registrar.
- With registration cards in hand, the student shall report to the concerned Head of Department / Deptt. In-charge, who shall help the student for selection of courses and filling the cards.
- The Registration Cards shall be signed by the student, his/her Advisor/HOD, the Assistant Registrar (Acad.) and countersigned by the Dean of the College.
- On admission and registration, the student shall be provided with an identity card with his/her photograph. The identity card shall be returned to the College when the student leaves the College after completion/discontinuation of the course/being dropped from the College/University for a specified period for good.
- Each newly admitted student shall be given an Admission Number by the Dean of the concerned College and this Admission Number shall continue till allotment of Registration Number by the Registrar.

6.5.4.4. CONDUCT OF PRACTICAL AND HANDS ON TRAINING

Practical classes (Fig. 16),field visits and hands on training (Fig. 17) are conducted regularly as per the syllabi at College of Horticulture and Forestry, Pasighat campus and other nearby villages.

Mode of Conduct of Practical and hands on training in different courses in College of Horticulture & Forestry

1. Field visits are regularly arranged to farmers' field to understand the cultivation practices and management aspects of different Horticulture and Forestry related courses. Besides field visits, exposure visits to other research and educational institutes are arranged so that students may gain information on latest development in the field of agriculture.

Figure 27: Field Classes

2. Students are given practical classes on preparation of solution, pH & buffers, titration methods for estimation of amino acids/lipids, qualitative tests of carbohydrates and amino acids, paper chromatography/TLC demonstration for separation of amino acids and monosaccharides etc.

Figure 28: Bed Preparation

Figure 29: Practical classes conducted

3. Practical classes are conducted on dissection of floral parts and to prepare herbarium specimens of different families. Hands on training are provided to students on preparation of different stains, preparation of permanent slides of mitosis and meiosis stages, hybridization followed by selection in various crops, emasculation, crossing and selfing techniques of cytological studies etc.
4. The students are provided hands on training on preparation of culturing media, tissue culture, aseptic practices, micropropagation of crops, DNA fingerprinting using RAPD&PCR, callus

induction from various explants. The students are demonstrated on isolation of DNA, gel electrophoresis techniques and DNA finger printing.

5. The students are assigned topics on budgeting and farm planning, cost of cultivation, marketing operations and develop agrihorti-based business models, techno-economic parameters for preparation of projects, preparation of bankable projects for various agricultural products and its value-added products, seminar on selected topics, preparation and analysis of balance sheet etc.
6. Students are given practicals on preparation of contour maps, designing of grassed water ways, contour bunds, graded bunds & bench terracing system, familiarization with different components of tractors, learning of tractor driving, operation of power tiller, familiarization with different types of primary and secondary tillage implements, seed-cum-fertilizer drills, different types of sprayers and dusters, different inter-cultivation equipment, harvesting and threshing machinery.
7. Practical classes are conducted for students on graphical representation of data, measures of central tendency, correlation &regression analysis, application of t-test, chi-square test, analysis of variance, simple random sampling, study of computer components, use of MS-WORD and MS Power-point for creating, editing and presenting scientific documents, preparation of contingent crop planning etc.
8. The students are provided with hands on training in identifying and analysing the problems faced by the farmers, conduct awareness programmes to improve the skill, knowledge and attitude of farmers, brainstorm sessions to develop innovative ideas and prepare audio visual aids on specific topics.
9. Students are prepared for listening and note taking, writing skills, oral presentation skills, field diary and lab record, indexing, footnote & bibliographic procedures, reading and comprehension of general and technical articles, precise writing, summarizing, abstracting, individual and group presentations.
10. Hands on training is provided to students on aspects of bee keeping, lac culture, biocontrol agents, identification of different insect pests in field etc. Students are given exposure visits to nearest FCI godowns, research and training institutions devoted to beekeeping, sericulture, lac culture and natural enemies. Students are made to identify natural enemies and mass multiply them.
11. Hands on training is provided to students on planning, layout and planting of horticultural crops, different methods of propagation, IPM and INM packages for horticultural crops, post-harvest technologies, cultural operations etc.
12. Practical classes are conducted to identify and diagnose different diseases of crops, study of morphological features and identification of plant parasitic nematodes, sampling and extraction of nematodes from soil and plant material, preparation of nematode mounting, study of fungicides and their formulations, methods of pesticide application and their safe use, calculation of fungicide sprays concentrations etc.
13. Hands on training is provided to students on soil profiling and soil sampling. Practical classes are conducted on analysis of physico-chemical properties of soil such as organic carbon, alkaline hydrolysable N, soil extractable P, estimation of exchangeable K, Ca and Mg, soil extractable S, extractable Zn, N, K and S in plants.

6.5.4.5. EXAMINATION AND EVALUATION PROCESS

B.Sc Degree Program

The college strictly adheres to the examination and evaluation system as recommended by the VthDeans' Committee. As such, the college follows Uniform grading system with uniform OGPA requirements for award of degrees at all levels.A uniform conversion formula is followed for declaration of Ist, IInd and IIIrd divisions, distinctions etc.

Examination

The students are evaluated middle of the semester as well end of the semester through mid and end term examinations. Also, the students are evaluated continuously through class exercises and assignments. The examination system is a combination of 50% internal and 50% external components. The weightage to the theory and practical examinations are in the same proportion as the theory and practical credits allotted to different courses. Total marks obtained for a course for practical and theory examination are added and converted into percentage for calculating the cumulative grade point average.

Courses with Theory and Practical

- Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)

Courses with only Theory

- Mid-term Exam (40%) + Assignment (10%)

Courses with only Practical

- 100% Internal

Keeping this in view, the schedule and weightage to different examination are as follows:

Table 18: The schedule and weightage to different examination

Particulars	Course credits									
	2+1		1+1/2+2		1+2		1+0/2+0		0+1/0+2	
	T	P	T	P	T	P	T	P	T	P
Mid-term exam	30	-	30	-	30	-	30	-		
Quiz/Continuous evaluation	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

The question papersare set by externalswhileHODsof concerned departments ensure the coverage of syllabus. If needed,moderationsare done accordingly.

Table 19: Duration of exams

Mid-term theory exam	1½ hours
End-term theory exam	2½ hours
End-term practical exam	3 hours

Evaluation

Evaluation isdone internally by the faculty other than the Course Instructor. Syllabus of the concerned course is sent to an external examiner, who prepares the question papers. For practical, the examination is conducted by the course instructor(s) and one teacher nominated by the HOD. The answer books of end term theory examsareevaluated by external examiners nominated by the Hon'ble Vice Chancellor, CAU.A Ten-point grading system is adopted with minimum Grade Point Average (GPA) of 5.00 for passing a subject and Overall Grade Point Average (OGPA) of 5.50 for obtaining the degree.

Table 20: Method adopted for conversion of point to percentage

Degree	Percentage of Marks Obtained	Conversion into Points
B.Sc. (Hons.) Horticulture & Forestry	100	10 Points
	90 to <100	9 to <10
	80 to <90	8 to <9

	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (Fail)	<5
	Example 80.76	8.076
	43.60	4.360
	72.50 (but shortage in attendance)	Fail (1 point)

Table 21: The following ranking pattern is adopted to award the degrees:

OGPA	Division
5.000-5.999	Pass
6.000-6.999	II division
7.000-7.999	I division
8.000 and above	I division with distinction

Table 22: GPA, CGPA and OGPA are calculated as follows:

GPA	**=**	**Total points scored / Total credits (for 1 semester)**
CGPA	=	∑ Total points scored / Course credits
OGPA	=	∑ Total points scored (after excluding failure points)/ Course credits
Percentage of Marks	=	OGPA × 100/10

PG and Ph.D. Programme

Examination system

The examination system comprised of combination of 50% internal and 50% external components.

Examination schedule and weightage

Theweightagetothetheoryandpracticalexaminationsisinthesameproportion as the theory and practical credits allotted to different courses. The total marks obtained for a course for practical and theory examination is added and converted into percentage for working out the grade point. Keeping this in view, the schedule and weightage to different examinations is as follows:

Table 23: The schedule and weightage to different examinations

Particulars	Course Credits									
	2+1		**1+1/2+2**		**1+2**		**1+0/2+0**		0+1/0+2	
	Th.	**Pr.**	**Th.**	**Pr.**	**Th.**	**Pr.**	**Th.**	**Pr.**	**Th.**	Pr.
1. Mid-term Exam	30	--	30	--	30	--	30	--	--	**--**
2. Quiz*/Continuous evaluation	20	30	20	30	20	30	20	--	--	**30**
3. End-term Exam	50	70	50	70	50	70	50	--	--	**70**

4. Maximum Marks	**100**	**100**	**100**	**100**	**100**	**100**	**100**	**--**	**--**	**100**

*Thereshall be atleast four quizzes in a course.

Calculation of percentage of marks and Grade Point

Marks secured in a course in theory and practical is multiplied by number oftheorycredit(s)andpracticalcredit(s)ofthecourserespectivelyandaddedtogether. This sum is divided by total credits (Theory + Practical) of the said course to get percentage of marks, which is divided by 10 to obtain Grade Point (GP).

Duration of Examinations

Mid-term theory Exam :1 ½hours
End-term theory Exam: 2 ½hours
End-term practical Exam :3 hours

Table 24: Internal and External Components for Question Setting and Evaluation

Coursework

	ii)	Evaluation	**Internal**
	iii)	Viva-voce Examination	**External (With Advisory Committee)**
	Thesis		

Table 25: Masters and doctoral program evaluation

Sl.No.	Particulars	Master's Programme	Doctoral Programme
1	Submission	After thesis seminar and submission of manuscript for one research paper	After thesis seminar One research paper should have been accepted and second submitted or one application for patent filed out of thesis work.
2	Evaluation	One external examiner	Two external examiners
3	**Viva Voce**	**External (with Advisory Committee)**	External (with Advisory Committee)
A.	**Evaluation of seminar**		
	The student should present the seminar in the last one or two weeks of the		

	Semester before the audience comprising the Head of Department, Advisory Committee members and all the teaching staff and the PG Students of the department in which the student is majoring his study. The performance of the student in the seminar is to be evaluated by the Course-charge based on the following norms:		
	i)	Coverage of literature on the aspects of topic & Submission of write-up	25
	ii)	Mode of presentation	25
	iii)	Use of audio visual aids	25
	iv)	Ability to answer the questions	25
	Qualifying Examination		
B.	**Written Comprehensive Qualifying Examination**		
	a)	After completion of 75 percent of course work requirement separately in Major and minor subjects and on completion of minimum two semesters, the student are eligible to appear in the comprehensive qualifying examination. The qualify in examination is conducted as per the procedure outlined underclauses3.4.2.	
	b)	The written comprehensive examination comprises of two papers, one for Major and the other for minor and supporting courses.	
	c)	The question papers for the written examination are set externally and evaluated internally by the concerned teacher.	
	d)	A student should score a minimum of 60 percent marks (separately in Paper-I and II) to qualify the Comprehensive Qualifying Examination.	
C.	**Qualifying Viva-voce examination**		
	i)	On successful completion of the comprehensive qualifying written examination by scoring a minimum of 60 per cent marks, the student(s) are eligible for the comprehensive qualifying viva-voce examination, which is conducted by the Advisory Committee of the concerned student alongwith an External Examiner.	
	ii)	The performance of the student(s) in the qualifying viva-voce examination is graded as “Satisfactory” or “Unsatisfactory”. The Examination Committee may point out deficiencies, if any, in student’s performance in any course(s) with specific recommendations to overcome deficiencies. The Examination Committee also recommends whether the student shall be re-examined for viva-voce in case the result is “Unsatisfactory”.	
	iii)	A student failing in the comprehensive qualifying written viva-voce examination should apply to the Dean through his/her Chairperson for permission t Re-examination is held after a period of three months from the date of the First examination and a student can avail two chances including the first re-examination. A student, if becomes unsuccessful for the third time he/she is	

		debarred from student ship and is not be eligible for the degree.
D.	**Thesis Examination:**	
	Thesis Evaluation	
	i)	The thesis submitted by a student is evaluated by 1 (one) External Examiner (Masters Degree Programme) 2(two) External Examiners (Ph.D. Degree Programme), specialized in student's major field of study. The External Examiner(s) is required to send the report(s) to the Dean of the College with his/her/their opinion on the overall standard of the thesis clearly indicating whether it will be accepted for award of Master's degree/ Ph.D Degree of the student. In case the External Examiner(s) suggest some Correction and modifications, his/her/their detailed comments is to be endorsed to the student's Chairperson who will instruct the student to bring out necessary corrections and
		Modifications in the light of the examiner's suggestions and resubmit the Thesis for re-evaluation by the concerned examiner(s).
		Thesis Viva-voce examination
	i) ii)	On receiving the report with the recommendation of acceptance of the thesis for award of degree, the Chairperson should arrange the viva-voce examination and take into account the suggestions of the External Examiner, if any, and the Chairperson will give a certificate to the effect that necessary corrections/modifications have been made by the student as per suggestion of the External Examiner. The results of the viva-voce examination in the prescribed format, duly signed by all the members of the Advisory Committee and the External Examiner is to be forwarded to the Dean of the College through the Head of the Department. Upon completion of the viva-voce examination the student should submit four hard bound copies and one soft copy of the thesis to the Advisor. Unless final thesis copies are submitted, the results of the concerned student will not be declared.
	iii)	In case the student's performance in the viva-voce examination is unsatisfactory, he/she should appear the examination again after a period of one month. For the repeat examination the student have to deposit the re-examination fee and apply to the Dean through the Chairperson seeking permission for the repeat examination.
E.	**Appointment of external question setters and examiners**	

i) For appointment of question setters for the end-term examination of the major, minor and supporting courses and that of the comprehensive written examination, the Head of the Department should submit a panel of 8 (eight) names for each paper with the detailed address to the Dean of the College atleast three months earlier to the proposed date of examination through Director of Instruction for approval of the Vice-Chancellor. The Vice-Chancellor may select 3(three) names from the panel or may nominate out of the panel. For thesis evaluation and for comprehensive viva-voce examination, the Head of the Department in consultation with the Chairperson of Advisory Committee should submit a panel of 8 (eight) names to Dean of the College. The Dean will get approval of the panel of examiners from the Vice-Chancellor through Director of Instruction. One panel may be constituted forevery2-3 students within the same department.

F.	**Conduct of examinations**
	Mid-term and End-term examinations should be conducted centrally as per notification by Dean of the college. The concerned course teachers should conduct the quizzes for different courses. The dates of each examination should be as per the Semester Calendar circulated earlier. Ordinarily, there should not be any deviation in the examination programme specified in the Semester Calendar. However, the Dean, to his satisfaction of any valid reason(s), may change the examination schedule to a maximum period of seven days.

G.	**Grading System**	
For each course a student is graded on 10 point scale and his/her GP/GPA/CGPA/OGPA shall be notified.		
	Qualifying marks(grades) and academic probation	
	i)	A student should secure qualifying marks of 60% separately in theory and practical and earn grade point of 6.00 on 10 point scale in each course to pass the course.
	ii)	The minimum GPA/CGPA/OGPA required for promotion to the next semester to complete the degree programe is 6.50/10.00
	iii)	A student securing 'F' grade in more than two courses in a semester will not be promoted to the next semester and he/she will repeat the semester within his/her immediate junior batch students in the next academic session.
	iv)	Astudentfailinginoneortwocourseswillbeallowedtogotonextsemester,but he/she shallbeplaced onAcademicprobation.
	v)	Thestudentonacademicprobationwillbeallowedtoappearinthespecial examination in that particular course/courses in which he/she hasfailedwithin 30 days of commencementofthe semester.

	vi)	Thespecialexaminationwillbeconductedcentrallybyanexternalexaminer appointed by the Dean out of approved panel in theory only with50 marks and duration 2½ hours if he/she fails in only theory. However, ifa student has failed in final practical examination then special examinationwill be conducted for both theory (50 marks – 2½hours duration) andpractical(70marks–3hoursduration) involvingExternalExaminer(s).
	vii)	Theresultsofthespecialexaminationisdeclarednormallywithin15 days of the examination and if the student secures 60% or more marksseparately in theory and practical as the case may be in failed course(s)(one or two courses as the case may be) he/she shall be declared out ofprobationorotherwisehe/sheshallberevertedbackandhis/herregistration for the semester shall be cancelled and he/she shall be entitledforrefund ofentiresemesterfees.

Performance Classification

A student will be eligible for award of degree provided he/she has passed all thecourses and secured minimum OGPA of 6.50/10.00 at the end of final semester.The successful candidates of a degree programme shall be awarded the degreewiththefollowingclasses anddistinction based on theirperformance

Programme	Pass Marks	II Division	I Division	I Division with Distinction
Post-Graduate Programmes	**6.50**	**6.50-6.99**	**7.00 &above**	**-**

6.5.4.6. NCC/NSS/RVC UNITS

The NSS Unit of CHF was established during the academic session 2012-13. ***NSS CHF Unit was acknowledged as the Best Unit in the State during 2015-16.***

Post-Graduate Programmes	**6.50**	**6.50-6.99**	**7.00 &above**	**-**

Table 27: The passing marks range in NSS examination

Regular NSS and Students' activities of the Unit:

1. Observation of National Festivals viz. Republic and Independence Days every year on 26th January and 15th August.
2. Armed Force Flag Day during December First Week (7th December)
3. World Environment Day: 5th June. Theme of the Year 2013 was "Think-Eat-Save".
4. Actively participated in the International Day of Yoga on 21st June every year.
5. Organizing *Vanmohatsava* during July 1st Week in close collaboration with Divisional Forest Officer, Pasighat every year.
6. Volunteer donation drive was organized for the cause of victims of devastation at Uttarakhand due to Cloud Burst and flash flood in July, 2013. The generated fund was submitted to the Prime Minister's Relief Fund.
7. On spot painting competition on the theme: Alcohol-Drug Abuse and their harmful effects on 17th August, 2013.
8. Organizing football/ volley ball tournaments among the volunteers towards improvement of overall personality.
9. Observing NSS Day on 24th September every year taking NSS Pledge by the volunteers.
10. Organising National Blood Donors' Day: 1st October in close coordination with Arunachal Pradesh AIDS Control Society with their slogan- "No one shall suffer in our state for want of safe blood". With the support of General Hospital, Pasighat NSS Unit organises blood donation camps regularly at our Health Centre.
11. Observed Rashtriya Ekta Diwas (National Unity Day) on 31st October, 2017 on the birth anniversary on sardar Vallabhai Patel as instructed by the Ministry of Youth Affairs and Sports, GoI.
12. Erstwhile Hon. VC, Prof. S.N. Puri started the *Quami Ekta* (Community Harmony) Rally on 23rd November, 2013 coincidng with the campaign week 19th-25th November, 2013. The rally was started from the college campus and ended up at Gandhi Chowk at Pasighat town.
13. Conducted an essay competition of the NSS Volunteers on the topic "Are India's promises to Paris Climate Conference achievable and how?" on 27th April, 2014.
14. Organizing regular Cleanliness Drive under 'Swachh Bharat Abhiyan".
15. Taking part in the Mass Awareness rally on Intensified Mission Indradhanush (IMI) Programme 25th September, 2017.
16. Six volunteers took part in the Arunachal ATAL Conclave at Itanagar during August 2018.
17. Volunteers are actively engaged themselves in spreading awareness on Covid-19 Appropriate Behaviours amongst masses, villagers, family members since the outbreak of pandemic since March 2020.

Table 28: NSS Special Camp Organized since inception

Year	Village	Period	Theme of the Camp
2014-15	Bodak	8th-17th June, 2014	Youth and Agriculture
2015-16	Taki Lalung	7th-13th June, 2015	Swachh Bharat &Swastha Bharat
2016-17	Berung	16th-22ndJune, 2016	Youth for Smart farming
2017-18	Sibo-Siang	6th-12th June, 2017	Youth for Clean Environment
2017-18	Mirem	8th-14th Jan, 2018	Youth for Smart Village
2018-20	Paglek	6th -12th Jan, 2020	Youth-Warriors Against Intoxicants
***During the camps various activities were executed at the respective villages**			

Special Lecturers and educative movies arranged for the NSS Volunteers:

1. Environmental pollution and disaster management, by Dr. Debashish Sen, Asst. Prof. NRM, CHF, Pasighat on 23rd February, 2013.

2. Tuberculosis and its precautionary cum remedial measures, by Dr. Y. Perme, District TB Officer on 27th April, 2013.
3. Alcohol and Drug Abuse, by Dr. L.C. Darung, Psychiatrist, General Hospital, Pasighat on 17th August, 2013.
4. How to make a career in Civil Service?, by Sri Pushpendra Kumar, IAS, SP, east Siang on 30th November, 2013.
5. Traffic Rules and regulations, by Mr. Ahmad Officer in Charge, Pasighat Traffic Police on 30th January, 2016.
6. Role of Krishi Vigyan Kendra (KVK) in Agriculture Development, by Dr, M. Pathak, Prog, Coordinator, KVK, East Siang on 7th May, 2016.
7. Snake conservation, identification techniques and first aid measures, by Sri. Rajib Rudra Tariang, Asst. Prof. Dept. Of Zoology, Digboi College, Assam on 6th May, 2017.
8. Broadcasting of "*Ek Doctor kiMaut*" as an educative thought provocating movie for the volunteers on 3rd February, 2018.

6.5.4.7. LANGUAGE LABORATORY

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present Assistant Professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.) Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well qualified English teacher is engaged to conduct the English classes. The concerned course incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are accustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatma Gandhi Jayenti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

6.5.4.8. CULTURAL CENTRE

The college under the mentorship of Student Welfare Officer encourages students to explore, celebrate, and educate the campus community about the diversity among them who hail from length and breadth of the country not only from the eight NE States. The Annual College Week that falls during the autumn season (Oct-Nov) includes various cultural events wherein all the students belonging to different communities took active participation. Wards of the employees also participated in the cultural evenings. They enthusiastically exchange their cultural identities. The college offers an inclusive and reflective space, multicultural programming, and support services that encourage positive interaction, academic persistence, and growth among students,' faculty, and staff. There are separate in-charges of Cultural for boys and girls from the 3rd Year UG Program.

6.5.4.9. PERSONALITY DEVELOPMENT

Besides the four compulsory courses under the Dean's Committee syllabus which cater to the overall personality development of the students, the College of Horticulture & Forestry invites renowned achievers, entrepreneurs, social worker etc. from the different places from time to time to inspire and motivate the students. The courses in the present syllabus include comprehensive and communication skills in English, human values and ethics and communication skills and personality Development. These courses are being taught by experienced faculty members. Besides soft skill training programs, JRF coaching, mock test, group discussions are being organized at regular intervals. As a part of NSS activities, faculties arrange for sessions like learning body languages, English proficiency for good communication etc.

Table: Details of Personality Development programmes organized in College.

Sr. No.	Speaker/ organization	Topics/Aspect	Dates	No. of Participants
1	Mr. Ahmad c/o Traffic Police Pasighat Town	Traffic Rules and Regulations for Civilized Citizens	30.01.2016	135
2	Dr. Bikram Singh Asst. Professor, CHF	Paris Climate Conference and Global Concern	27.04.2016	141
3	Dr. N. Lyngdoh Asst. prof., CHF	Climate Change and Role of Youth	27.04.2016	141
4	Dr. Mukul Kumar Assc. Prof., CHF	India's promises to Paris Climate Conference	27.04.2016	141

5	Mr. Mahesh Pathak PC, KVK, East Siang	Role of KVK in Agriculture Development	07.05.2016	141
6	Sri. Ninong Ering Hon'ble MP, Lok Sabha Arunachal East	Youth for Smart Farming	16.06.2016	125
7	Sri. Panging Group Captain (Retd.) Indian Airforcwe, Pasighat	Leadership Skill	15.10.2016	165
8	Mr. Litan Bhowmick LBS Training & Consulting Services Pvt. Ltd. Agartala, Tripura	Emotional intelligence and its application for skill development	11.03.2017	185
9	Dr. (Mrs.) Lung Panging Medical Officer, CHF	Youth and Blood Donation	25.03.2017	47
10	Sri. Rajib Rudra Tariang Asst. Prof., Dept. of Zoology Digboi College, Assam	Snake conservation, identification techniques and first aid measures	06.05.2017	145

12	Dr. (Mrs.) Ps. Mariam Anal Asst. prof., CHF	Different facets of community services: *Shramdam* as part of students' life	17.02.2018	165
13	Mr. L. Shantikumar Asst. Prof. CHF	Avenues after UG Programs in Agri allied Courses	17.02.2018	165
14	Dr. Bikram Singh Assc. Prof, CHF	How extra is 'extra co-curricular activities for students	24.02.2018	165
15	Mr. Rinchin D. Bhutia PG Scholar, Dept. of Fruit Science, CHF	Possible cghallenges in Agriculture world for us	24.02.2018	165
16	Dr. Shivani Dobhal Asst. prof., CHF	Social Evils and their eradication	24.02.2018	165
17	Dr. N. Surmina Devi	Positive Thinking, Self Confidence, Self Esteem and Goal Setting	24.02.2018	165
18	Dr. Y. Oken Singh	Inter and intra personal communication skill for persoanality development	28.07.2018	165

19	Dr. Rajkumar Singh Librarian, CHF	Relevance of brick and wall library in today's digital world.	12.08.2018	135
20	Dr, Shivani Dobhal Asst. Prof, CHF	Volunteerism: Not me but you and its relevance	11.10.2019	46
21	Mrs. Aini taloh Social Worker & Founder AYANG Foundation, Pasighat	Youth and Responsibilities as Citizens	11.10.2019	46
22	Mr. Rohit Bori Arts of Living, Pasighat	Relevance of Yoga to lead a Smart Life	21.06.2019	65
23	Dr. Kalkame Ch. Momin Asst. Prof., CHF	Forests and Education	23.03.2019	125
24	Dr. Bikram Singh Assc. Prof. CHF	Forests and Life	23.03.2019	125
25	Mr. Umesh J. Panaria DGM (Financial Inclusion & Dev. Dept.), RBI, RO, Guwahati	Financial literacy programme & digital baking for youth	08.02.2019	135
26	Prof. B. N. Hazarika Dean, CHF	Relevance of dr. S. Radhakrishnan's ideology for students	05.09.2019	413
27	Mr. N. Devachandra Asst. Prof & i/c SWO CHF	Optimism in day to day life	11.11.2019	186

6.5.5. PHYSICAL FACILITIES

6.5.5.1. HOSTELS

Hostels of College of Horticulture & Forestry

Table 29: Number of hostel available & capacity: 09 (05 Boys + 04 Girls)

S.No.	Name of Hostel	Particular	Capacity	Nos. of students per room
1.	Sindhu Hostel	Boys	20 rooms	02
2.	Brahamaputra Hostel	Boys	24 rooms	02
3.	Ganga Hostel	Boys	23 rooms	02
4.	New Western Wing	Boys	12 rooms	02
5.	New PG Boys Hostel	Boys	23 rooms	01
6.	Salvia Hostel	Girls	18 rooms	03
7.	Daisy Hostel	Girls	41 rooms	03
8.	PG Lily Girls Hostel	Girls	20 rooms	01

Table 30: Facilities of hostels

S.No.	Name of Hostel	Mess cum Dinning Hall	TV Room	Indoor Game	Hygienic Drinkingwater

1.	UG Boys Hostel	01	01	01 Table Tennis room	03 Water cooler cum water purifier
2.	PGBoys Hostel	01	01	01 Table Tennis room	01 Water cooler cum water purifier
3.	UG Girls Hostel	03	03	01 Table Tennis room	01 Water cooler & 02 Water purifier
4.	PG Girls Hostel	01	01	01 Table Tennis room	01 Water purifier

6.5.5.2. EXAMINATION HALL

At present there are 13 nos. of classrooms at College of Horticulture and Forestry however separate exam halls are not available and hence normal classrooms are rearranged as exam halls during the time of exam, the details of which are:

Table 31: Intake capacity in classrooms of CHF Pasighat

Details		Particulars
No. of classrooms	**:**	**13**
Capacity	:	Varied capacity ranging from 20-40 sitting capacity
Facilities available	:	Chairs, writing desks, electrical fans and lights
Amenities	:	Washroom, wash basin and running water

6.5.5.3. SPORTS AND RECREATION FACILITIES

The college has one Multi Purpose Indoor Stadium that has Multi-Gymkhana, Badminton Courts (two in number), Room for Table Tennis and an outdoor sports facility for Football cum Cricket ground, Volleyball Court for the college students. While the Student Officer looks after the outdoor facilities in close coordination with the Student in-charges Sports (Boys and Girls); the indoor stadium is looked after by separate faculty, Dr.Arunkumar Ph. The facilities are fully utilized by the students, employees as well as the wards of the employees.

6.5.5.4. AUDITORIUM

The college has an auditorium of sitting capacity of 285 constructed during 2010-11. The facility is being utilized for the cultural, literary activities of the students especially during the Annual College Week. The venue is made available to institutional and Governmental functions with approval/ permission from University Authority. On an average, it is being utilized around 20-25 times in a year.

6.5.5.5. EXHIBITION HALL/MUSEUM

The College of Horticulture and Forestry organizes exhibition programmes related to agriculture and allied sectors in seminar halls and conference rooms in the form of models, charts, live specimens for benefit of students, farmers and extension personnel. Every year RAWE students exhibit models on modern as well as traditional technologies practiced by the farmers at their place of stay. Numerous school and college going students have visited the exhibitions organized by the college.

6.5.6. RESEARCH FACILITIES

The College of Horticulture and Forestry, Pasighat are well equipped to conduct research in the field of agriculture and allied subjects. The college receives funds from ICAR, DBT, AICRP, National Bee Board etc.

6.5.6.1. POSTGRADUATE LABORATORIES AND EQUIPMENT'S

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments,laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc.The list of instruments/equipments available in the laboratories is furnished below:

Table 32: Functional laboratories (Fruit Science & allied) : 13 nos.

Sr. No.	Department/Section	Area (Sqmtr)	Remarks
1.	**Fruit Science**		
	(i) Two Laboratories	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	**Vegetable Science**		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	**Floriculture, Landscape and MAP:**		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	**Post-Harvest Management**		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc. Equipment for processing of horticultural produces.
5	**Forest Product Utilization**		
	Medicinal and Aromatic Plants Laboratory	160	Equipped with all the modern equipments for practical, sitting arrangements, Distillation, extraction facilities, etc.
	Wood Products and Utilization Laboratory	90	Facilities for characterization of morphological, anatomical, mechanical & chemical properties of timber. Other work carried out -wood design, fabrication ,etc.
6	**Tree Improvement & PBG**		
	TIM Laboratory	72	Equipped with instruments for research &practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals..
7	**Basic Sciences**		
	UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	

	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
Sr. No.	**Department/Section**	**Area (Sqmtr)**	**Remarks**
8	**Plant Protection**		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
9	**Natural Resource Management**		
	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

a) List of major equipments:

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories is furnished below.

Table 33: Equipment details of Department of Fruit Science:

S.No	Name of the Equipment	S.No	Name of the Equipment

6.5.6.2. RESEARCH CONTINGENCY (ACCOUNTS)

As the College of Horticulture and Forestry is offering UG, PG and Ph.D programme, the funds received from CAU and externally funded schemes are used for conducting various activities. Adequate funds are available for meeting the recurring expenses incurred during the education programme. The year wise funds received for various education related activities are as follows:

Table 46: The year wise funds received for various education related activities

Year	Particulars	Amount (in Lakhs)
2016-17	Experimental farms	1.00
	Equipment (including machines, tools, livestock etc.)	20.00
2017-18	Experimental farms	20.00
2018-19	Experimental farms	10.00
2019-20	Experimental farms	2.00
	Equipment (including machines, tools, livestock etc.)	0.50

2020-21	Experimental farms	2.00
	Equipment (including machines, tools, livestock etc.)	34.23

6.5.7. OUTCOME/OUTPUT

The College of Horticulture & Forestry takes paramount interest in the performance of its students in the field of studies, sports, other extracurricular activities, employment and career growth. Alumni of the University are regularly consulted to get feedbacks on employment, performance in competitive exams, job selection process etc. Regular interactive talks are arranged between alumni and students so that students can get insights on different exams and personal interviews.

6.5.7.1. STUDENT PERFORMANCE IN NATIONAL EXAMINATIONS

Table 47: List of ICAR – JRF Holders

Year	ICAR -JRF	ICAR -SRF	Admission in CIFE/IARI/IVRI/NDRI	Total
2016-17	**05**	**-**	**-**	**05**
2017-18	**02**	**01**	**01**	**04**
2018-19	**05**	**02**	**-**	**07**
2019-20	**02**	**-**	**-**	**02**
2020-21	**06**	**01**	**-**	**07**

6.5.7.2. STUDENTS PLACEMENT PROFILE

Most of the students graduating from College of Horticulture & Forestry, Pasighat areplaced in academics/research institution for pursuing higher education (M.Sc./Ph.D.) inIndia and abroad.

Table 48: Performance of the pass out Students

Sl.No.	Placement	Total No. of Students
1.	**ARS/ Scientists**	**23**
2.	**Assistant Professor**	**13**
3.	**SMS in KVKs**	**06**
4.	**Extension Officers / HDOs**	**12**
5.	**Forest & Soil Department**	**05**
6.	**Private Firms**	**02**
7.	**Higher Studies (Abroads)**	**02**

6.5.7.3. AWARDS/RECOGNITIONS/CERTIFICATES

The details of the awards/ recognition/ certificates of the faculties and students of theCollege of Horticulture & Forestry, Pasighat are given in **Annexure 6.5.7.3.**

6.5.7.4. EMPLOYABILITY

Under the Placement Cell and Student Welfare Cell of College of Horticulture and Forestry, Pasighat, students are provided with ample opportunity enabling them to develop their overall personality. The Faculty of Language guides the students regarding preparation and updating resumes and biodata for the students. Interaction sessions organized for the personality development by inviting motivators, social worker, and entrepreneur inspire our students to be more employable. The college is regularly organising sufficient co-curricular and extracurricular activities for the students making them physically fit enough to take up any job challenges.The engagement of students in the READY Program- RAWE, FOWE, KVK and Village attachment provide ample exposure enabling them to face real life situation on placement. Exposure visit of students to Agro-based industries, tea factories, nurseries, artisans, banks and financial institutions help them understand the expectation of the industries. Interaction sessions with Subject Matter Specialists of KVKs motivated the students with the aspiration towards agri-professionals. An excellent opportunity is given to the students through ELP of the course curricula that enable them to take up their economically viable agri-preneurship such as commercial nurseries, agri-clinic agri-business centre (ACABC) under GoI initiative, primary processing units, agri start-ups etc. The degree program nurtures a student with the knowledge and skills that will help them to manage agri-entrepreneurship, to conduct research, work in agricultural field, conduct field surveys and manage different areas of farming practices.Alumni of the college are invited to guide the students of the college to share various scopes available after the UG and higher studies in their courses.

6.5.8. SSR OF THE COLLEGE MUST HAVE THE SSR OF ALL ITS DEGREE PROGRAMMES (FOLLOWING SECTION 6.4), THEN THE REPORT OF THE COLLEGES SHALL BE CONSIDERED

6.5.9. CERTIFICATE (APPLICABLE WHEN SSR IS SUBMITTED FOR PROGRAMMES& COLLEGE)

I, the Dean Dr. B.N. Hazarika, hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

Signature of the Dean of the college with Date & Seal

ANNEXURE 6.5.2.3

ANNEXURE 6.5.7.3

A. Faculties Award

Year	Name of the faculty	Name of the Award/ Recognition	Awarding Organization (Place/country)
2016- 2017	Prof. B.N. Hazarika, Dean,	Recognized as Member, Joint Inspection Team, Dept. of Agriculture, Cooperation& Farmers Welfare	Krishi Bhawan, New Delhi
	Dr. P. Debnath, Associate Professor	1st position for poster presentation	CHF, CAU, Pasighat
	Dr. S.K. Pattanaaik,	Govinda Chandra Sahu Award for the paper "Flood frequency Prediction using Gumbel's and Log-Pearson method for Siang river"	Institution of Engineers (India)
	Dr. S. Romen Singh, Assistant Professor	Best poster presentation on Genetic diversity of rambutan (*Nephelium lappaceumlinn.*) in East Siang district of Arunachal Pradesh"	CHF, CAU, Pasighat.
	Dr. P. Debnath, Associate Professor	Best Paper Award for conserving and utilizing rainwater for crop production.	26th National Conference on NRMCSSA-2017, 26th National Conference on NRMCSSA-2017, Soil Conservation Society of India, New Delhi and Central Agricultural University, Imphal, Imphal
	Dr. P. Debnath, Associate Professor	Best Paper Award entitled Growth and Development parameters of vegetable cowpea (*Vigna ungiculata*(L.) Walp) as influenced by mulching in the	26th National Conference on NRMCSSA-2017, Soil Conservation Society of India, New Delhi and Central Agricultural University, Imphal, Imphal
	Dr. P. Sarma, Associate Professor	Best Paper Award for conserving and utilizing rainwater for crop production.	26th National Conference on NRMCSSA-2017. 26th National Conference on NRMCSSA-2017, Soil Conservation Society of India,

			New Delhi and Central Agricultural University, Imphal, Imphal
	Dr. S.K. Pattanaaik,	Best Paper Award for conserving and utilizing rainwater for crop production.	26th National Conference on NRMCSSA-2017, 26th National Conference on NRMCSSA-2017, Soil Conservation Society of India, New Delhi and Central Agricultural University, Imphal, Imphal
	Dr. Anil Kumar, Assistant Professor	Awarded 2nd Position in Best Research Paper ward category along with Two Year membership of International Research Group on Wood Protection, Sweden	International Research Group on Wood Protection, Sweden
	Dr. Anil Kumar, Assistant Professor	Received Scientific assistance Programme (SAP) Award for IUFRO Div-5 Forest Product	Conference,Vancuover, Canada
	Dr. Kalkame Ch. Momin, Assistant Professor	Awarded the Best Poster (Group	Regional Training Workshop on Research Based Pedagogical Tools, JNC Pasighat
	Dr. N. Surmina Devi, Assistant Professor	Awarded the Best Poster (Group	Regional Training Workshop on Research Based Pedagogical Tools, JNC Pasighat
	Dr. Shivani Dobhal, Assistant Professor	Awarded the Best Poster (Group),	Regional Training Workshop on Research Based Pedagogical Tools, JNC Pasighat
	Dr. Shivani Dobhal, Assistant Professor	Awarded with ITS fellowship from Department of Scienece & Technology, New Delhi	To attend International Summer School in France Nancy in September 2017.
2018-2019	Dr. T.S. Mehra, Associate Professor	Adarsh Vidya SaraswatiRashtriyaPuraskar	Global Management Council, Ahmedabad 2018.
	Dr. T.S. Mehra, Associate Professor	Fellowship of International Society of Noni Sciences	Perungudi, Chennai, India

	Dr. S.K. Pattanaaik,	Banabihari Mohanty Memorial Award for the paper entitled "Deficit Irrigation under Drip System- A potential option for enhancing water productivity in fruit crop"	Institution of Engineers , India, Odisha State Centre, Bhubaneswar
		Second position in the poster presentation in National Conference on Horticulture in North East Region	CHF, Pasighat
	N. Devachandra, Assistant Professor	Succesfully Completed and Passed the Massive Open Online Course (MOOC) on Dynamic of Teaching-Learning	ICAR-NAARM, Rajendranagar, Hyderabad, Telangana.
	Dr. Helen Soibam, Assistant Professor	Best Scientist National Award in field of Teaching, research and publications	IRDP Group of Journals, Chennai, India
	Prof. B.N. Hazarika, Dean,	ISHRD Fellowship: Indian Society of Horticultural Research and Development	ISHRD, Uttarakhand
		Outstanding contribution to science Award	Chennai, India
		Dr. H.K. Jain- CAU Award (2016-17)	Central Agricultural University, Imphal
	Dr. Sunil Kumar, Professor	Fellow of Society for Horticultural Research and Development	(SHRD), Ghaziabad
		Best Faculty Award	EET CRS 7th Faculty Branding Awards
	Dr.A.S.Mailappa, Associate Professor	Best Agricultural Academician Award (Best Krishi Shikshak Award)	Sona College of Arts & Science, Salem, Tamil Nadu.
	Dr.Barun Singh, Assistant Professor	Distinguished Service Award for outstanding contribution in the field of Pomology	Prayagraj, U.P. India

		Fellowship	Chennai, India
	Ms. M. Bishwapati Devi, Assistant Professor	Scientists of the Year Award' for outstanding contribution in the field of Computer Science	Society of Biological Sciences and Rural Development, Prayagraj
	Dr. Kalkame Ch. Momin, Assistant Professor	Young Scientist Award	COBACAS, Uttar BangaViswavidyalaya, Pundibari Cooch Bihar, West Bengal
	Dr. Shivani Dobhal, Assistant Professor	Young Scientist Award	COBACAS, Uttar BangaViswavidyalaya, Pundibari Cooch Bihar, West Bengal
	Dr.Nangsol Dolma Bhutia	Awarded with Jagar Nath Raina Memorial for All India Best Research Award at Doctorate Level	Himachal Pradesh
		Awarded with Dwarika Nath Memorial Award-for best PhD Thesis	Varanasi, Uttar Pradesh
2020-2021	Dr. Sunil Kumar, Professor	Best Research paper award in Current Horticulture	-
		Best Academician Award in Agriculture	Borhawar, Murajhar, Hojai, Assam
		Outstanding Academic Leader Award	Guwahati Assam
	Dr P.Raja, Associate Professor	Received scientist award – 2020 for the commendable contribution to the Plant Pathology	Dr. B.Vasantharaj David Foundation. Chennai.
	Dr.A.S.Mailappa, Associate Professor	Award on "Excellence in Teaching achievements and accomplishment in the field of Agriculture & Allied	Samagra Vikas Welfare Society, "World Environment Day 2020 celebration"
	Dr.Kalkame Ch. Momin, Assistant Professor	Best paper award on Drying and Dehydration of Native Ornamental Plants of Arunachal Pradesh and its	Regional Seminar on Perspectives of Horti-business in development of North Eastern Region, organized by CHF, CAU Pasighat, NABARD

		value addition: A livelihood Opportunity'	Itanagar& ICAR-ATARI, Guwahati,
	Dr.Nangsol Dolma Bhutia	Awarded Jawaharlal Nehru Award for Outstanding Doctoral Thesis Research in Agricultural and Allied Sciences	ICAR-New Delhi
	Dr. Sunil Kumar, Professor	Outstanding Achievement Award	Agricultural Technology Development Society (ATDS) Ghaziabad, UP
	Dr. L. Wangchu, Associate Professor	3rd Position in Oral Presentation	National Seminar on Citrus, CAU, Imphal
	Dr. S. Romen Singh, Assistant Professor	Young Scientist Award	International Conference on New Paradisgms for Agriculture, Food and Sustainability Concerns, Raichur, Karnataka
	N. Devachandra, Assistant Professor	3rd Position in Oral Presentation	National Seminar on Citrus, CAU, Imphal
		Honorary Appreciation from ISTD, Guwahati Chapter &ARHAN	ISTD, Guwahati Chapter & ARHAN

B. Student Awards

Year	Name of the faculty	Name of the Award/ Recognition	Awarding Organization (Place/country)
2016-2017	Ms. Eden A. Sangma, B.Sc. Horticulture	First Prize in Collage Competition	17th All India Inter-Agricultural Universities Youth Festival – AGRI UNIFEST-2017, Rajasthan University of Veterinary & Animal Sciences, Bikaner during 25th-28th February, 2017.
2017-2018	Ms. OyimangTamuk, B.Sc. Forestry	Second prize in "BRAHMAPUTRA AAMANTRAN ABHIYAN 2020", Debate Competition	Inter-Collegiate Debate Competition on the topic "Ecotourism with Rivers" with the theme "Living with the river", College of Horticulture & Forestry and College of Agriculture, CAU, Pasighat

			in collaboration with the District tourism Department, Pasighat, East Siang
2019-2020	Ms. OyimangTamuk, B.Sc. Forestry	Second prize in "BRAHMAPUTRA AAMANTRAN ABHIYAN 2020", Debate Competition	Inter-Collegiate Debate Competition on the topic "Ecotourism with Rivers" with the theme "Living with the river", College of Horticulture & Forestry and College of Agriculture, CAU, Pasighat in collaboration with the District tourism Department, Pasighat, East Siang

6.4.9	ICT Application in Curricula Delivery	95

6.4. Self-Study Report for B.Sc. Horticulture Degree Programme:

6.4.1. Brief History of the Degree Programme:

The College of Horticulture and Forestry, Pasighat, Arunachal Pradesh was established on 7th March, 2001 as a constituent College of the Central Agricultural University, Imphal, Manipur with the admission of 17 UG students in the first batch of B Sc. Horticulture. The college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture in Fruits and Vegetable Science), M.Sc. (Forestry) and Ph.D. (Horticulture in Fruits and Vegetable Science). This campus is located in a serene atmosphere at Pasighat, the educational capital of the state as well as the first Smart City of Arunachal Pradesh. The mighty Siang River flows in the northern vicinity of the campus which is about 2.5 km from the town. The College is spread over an area of 145 acres neighbouring one of the oldest institutes of the NE India, the Jawaharlal Nehru College, established in 1964.

The college has well equipped and man-powered 11 full-fledged departments. The curriculum and syllabi of all degree programmes are updated and adopted as per the ICAR guidelines, the currently implemented syllabus being 5th Deans' Committee Recommendations since 2016.

The prime objectives of this college include imparting horticulture and forestry education and meeting the research and extension needs of the NE Region in general and for each state of the region in particular. The broad objectives are given hereunder:

a. To impart technical education in the field of Horticulture at under graduate level with high standards
b. To produce graduates of high calibre who can serve the needs of the farming community
c. To undertake outreach education programmes concerning agriculture and allied pursuits
d. To build a strong academic foundation amongst the scientific and technical manpower generated by the university
e. To undertake such other activities as it may deem fit and responding to the call of the Government, University and farmers from time to time.

Accomplishments

Because of better co-ordination and effective monitoring by the staff, there is a congenial environment for students in clearing many national level competitive exams like ICAR – JRF and SRF fellowship and securing jobs in public and private sectors.

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection in different competitive exams
- Participation and selection for higher education in reputed National institutes
- Participation in NSS programmes at state and national levels
- Participation in sports and cultural events at state and national levels
- Selection of students in private and public sectors as ADOs/HDOs, state civil scientist, professors, etc.
- The details of student's excellence in national level academic competitive exams is given below
- The details of student's excellence in national level academic competitive exams is given below;

Table 1: Performance of students at National Level Exam

Year	ICAR -JRF	ICAR -SRF	NTS	UMS/UIF	Total
2016-17	**05**	**-**	**10**	**7**	**21**
2017-18	**02**	**01**	**17**	**8**	**31**

2019-20	**02**	**-**	**24**	**39**	**71**
2020-21	**06**	**01**	**23**	**41**	**71**

6.4.2. Faculty Strength

Well experienced faculty members are available in the College. The Faculty is highly competent to offer under graduate degree programme in horticulture. The following table gives the present position of the faculty strength in the College.

Table 2. Faculty strength of the programme (as per ICAR guidelines) in various Departments:

Sl. No.	Sanctioned Faculty	Faculty in Place	Vacant Position	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
	Department of Fruit Science			
1.	Professor	1	-	1
2.	Associate Professor	1	1	2
3.	Assistant Professor	4	0	3
	Department of Vegetable Science			
1.	Professor	-	1	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	2	1	4
	Department of Floriculture & Landscape architecture			
1.	Professor	1	-	1
2.	Associate Professor	1	1	1
3.	Assistant Professor	2	1	2
	Department of Post Harvest Management			
1.	Professor	-	1	1
2.	Associate Professor	-	1	1
3.	Assistant Professor	2	-	2
	Department of Basic Science & Humanities			
1.	Professor	-	-	1
2.	Associate Professor	1	-	2
3.	Assistant Professor	6	-	6
	Department of Plant Protection			

1.	Professor	-	2	1
2.	Associate Professor	2	-	2
3.	Assistant Professor	3	1	3
	Department of Natural Resource Management			
1.	Professor	1	-	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	2	2	6
	Department of Social Science			
1.	Professor	-	-	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	3	-	5

As per the Faculty strength recommended by the ICAR/UGC/VCI/Other regulatory bodies, a total of 50 teaching staff are to be placed. However, the University has filled 38 regular teaching faculty post and 12 post are still vacant. Recently, a total of 3 nos. of faculties have been transferred to other constituent colleges of the University (CAU) and 6 nos. of faculties have been placed in higher position in other Universities.

6.4.3. Technical and Supporting Staff

The technical staff are attached with the office of the Dean for administrative, convenience and they are allotted to other departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. At present, the college has 127 technical and supporting staffs and 59 are vacant. However, additional charges are assigned to 7 faculties, 01 contractual recognized medical practitioner and 10 MTS assigned with specific duty. All the vacant post will be filled in due course as additional staffs are required for the overall development of the college. The details of staff involved are listed below:

Table 3. Strength in the College:

Sl. No.	Sanctioned staff	Staff in Place	Vacant post	Staff Recommended by the ICAR/UGC/ VCI/other regulatory bodies

* Indicate holding additional charge of minimum Assistant Professor Cadre

** Contractual Recognised Medical Practitioner

*** MTS with assigned specific duty

6.4.4. Classrooms and Laboratories:

The College of Horticulture and Forestry is spread over in an area of 58 hectares which includes research farm, instructional cum demonstration farm, KVK farm and experimental farms. The laboratories of all departments are well equipped with all the necessary equipments and facilities to accomplish the academic activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. The farm facilities, workshops and other instructional units are well designed with sufficient land area and building infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller,

rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

b) Number of class rooms: **13**

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board with duster are available in each class room for the use of teachers. A common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

c) Lists of major equipments:

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories are furnished below.

(i). Department of Fruit Science:

Sl.No.	Name of the equipment	S.No.	Name of the equipment
1.	Autoclave	**13.**	Hot Water Bath
2.	Digital Camera	**14.**	Polymerase Chain Reaction (PCR)
3.	Digital Weighing Balance	**15.**	Magnetic stirrer Atomic Absorption Spectrophotometer
4.	One Single Distillation Unit	**16.**	Hand refractometer
5.	One Double D.U	**17.**	Tissue culture lab Digit

Sr. No.	Department/Section	Area (Sq mtr)	Remarks
1.	***Fruit Science***		
	(i) Two Laboratories	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	***Vegetable Science***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture, Landscape and MAP:***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	***Post-Harvest Management***		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.

			Equipment for processing of horticultural produces.
6	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research & practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals..
7	***Basic Sciences***		
	UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	
	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
8	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
9	***Natural Resource Management***		
	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

d) **Laboratories**

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG programmes .

Table 4: The area covered under the laboratories of different departments are as follows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20

4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
i.	Post-harvest	90
ii.	Floriculture	90
iii.	Vegetable Science	90
iv.	Fruit Science	90
9.	Statistics, Computer Application & IPR	59

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat.

Table 5 : Infrastructure facilities available in CHF Pasighat

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Table 6.: Department wise infrastructural details of CHF Pasighat

Department/Section	**Area (Sq.mtr.)**	**Facilities available**
Natural Resource Management		
19. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump

		• Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
20. Agrometeorology Observatory	500	• Meteorological observation data for Research and Academic purpose
Horticulture		
21. Medicinal & Aromatic plant farm 22. Medicinal plant germplasm block	12000	• Germplasm of Medicinal and Aromatic Plants • Collection of rare and endangered spps. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
23. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
24. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
25. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.) • Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
26. Fruit Department	98525	• Fruit nursery block • Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.
27. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq. mtr.

		• Irrigation & electricity setups
Plant Protection		
28. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
29. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
30. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation & electric facilities.
31. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

(e) Justification:

The college has well equipped laboratories, nurseries, instructional farms, demonstration plots to cater and accomplish the theory and practical classes for horticulture degree programme. The Farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

(f) Theory and practical batches for the Degree Programme: the numbers of intake students are manageable due to limited number of seats. The batches of students are organised to ensure better delivery of information, encourage students' participation and active monitoring. The class rooms and laboratories are sufficient enough to meet course curricula requirement of the degree programme.

Table 7 : Details of the average number of student in theory and Practical Classes

Year	Degree Program	Batch of students in theory class	Batch of students in practical class
2016-17	B.Sc (Hons.) Horti.	1 Batch - 47	Batch 1- 24 Batch 2- 23
2017-18	B.Sc (Hons.) Horti.	1 Batch - 47	Batch 1- 24 Batch 2- 23
2018-19	B.Sc (Hons.) Horti.	1 Batch - 49	Batch 1- 25 Batch 2- 24
2019-20	B.Sc (Hons.) Horti.	1 Batch - 45	Batch 1- 22 Batch 2- 23
2020-21	B.Sc (Hons.) Horti.	1 Batch - 50	Batch 1- 25 Batch 2- 25

6.4.5. Conduct of Practical and Hands-on-Training:

The practical syllabus is formulated depending upon the need of the course curriculum. The student registered for a particular course has to necessarily attend 75 per cent classes conducted in order to appear in the final examinations. Practical classes are conducted in the field / experimental lab in the allotted practical hours by the course teacher. The practical exams are conducted as per the prescribed time table for the students who have registered the course. The students are exposed to hands on Training in gaining practical experience in field operations, identification and documentation of crops in the campus, handling of various equipments in the laboratory and estimation of various parameters based on the course requirement. The exposure visit to fields, research institutes, experimental fields and farmers' fields are a part of the curriculum and built in the syllabi. During the practical classes, the students are taught on the technology/ process and acquire skills through hands on training regularly.

6.4.6. Supervision of students in P.G/PhD:

Not applicable to B.Sc. (Hons.) Horticulture degree programme.

6.4.7. Feedback of stakeholders (Students, Parents, industries, employers, farmers etc)

The faculty usually get the feedback from the students who have graduated from the college on various aspects like the contents of the course, teaching skills of the faculty, learning experience, assessment process, etc. The feedback is also taken from the parents on the performance of the students and the facilities available in the college. The details of the feedback received from the students and parents are given in Appendix 1.

6.4.8. Student intake and attrition in B.Sc. (Hons) Horticulture programme for last five years:

The College presently offers Under Graduate and Post Graduate and PhD Programme in Horticulture and Forestry. The annual intake of students to the college at UG& PG level has increased since the inception of the university.

Table 49: The details of the student intake capacity under UG program

Year	Degree Program	Intake capacity	Actual Student admitted	Attrition (%)
2016-17	B.Sc (Hons.) Horti.	53	47	-
2017-18	B.Sc (Hons.) Horti.	53	47	-
2018-19	B.Sc (Hons.) Horti.	53	49	-
2019-20	B.Sc (Hons.) Horti.	54	45	-
2020-21	B.Sc (Hons.) Horti	61	46	6.2

6.4.9. ICT Application in Curricula Delivery:

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October, 2020 the computer centre is connected with 24x7 34 Mbps, Internet Access through BSNL . The facilities available in the computer lab are:

a) 24 hours x 7 days / week free Internet access (32 Mbps) to students
b) Wi-Fi enabled in the New Academic Block (since 2015) to use e-communications for students and staffs.
c) Students are trained to install open source software.

d) Computers with Internet access are available in all departments.
e) Academic buildings are linked with Administrative building through Optic Fibre Cable (OFC).
f) Total number of computers for public access: 15
g) Total numbers of printers for public access: 02
h) Internet band width/ speed: 34 Mbps through BSNL
i) The lab is used for conducting Practical classes for UG and PG students.
j) Students also use the Computer Lab for their research, statistical calculation and other academic activities.
k) The academic, research, extension activities of the college are updated regularly at the college website from time to time.

(b) The college **Library** is equipped with internet facilities with, through which staff and students would be able to access OPAC (Online Public Access Catalogue) URL = www.chfcau.ideal.egranth.ac.in.

a) The Library Two Software : (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software
b) Electronic Resource Management package for e-journals Access through CeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in
c) CAB data base: access facility (CAB data from 1972 to 2005)
d) Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses uploaded. It is open repository. **URL: Krishikosh.egranth .ac.in**
e) Library automation: under process through Koha Library management software
f) Total number of computers for public access in library: 06

c) The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos**. of smart classrooms for teaching and practical purposes.

d) Language Laboratory:

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present assistant professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.) Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well qualified English teacher is enaged to conduct the English classes. The concerned course incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are acoustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic

Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatmt Gandhi Jayanti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

6.4 SELF STUDY REPORT FOR M.SC. HORTICULTURE (VEGETABLE SCIENCE)

6.4.1 Brief History of the Degree Programme:

College of Horticulture & Forestry is a constituent College of the Central Agricultural University, Imphal, Manipur and was established on 7th March, 2001 at Pasighat, Arunachal Pradesh on the bank of beautiful river Siang. The college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture), M.Sc. (Forestry) and Ph.D. (Horticulture) with specialization in Fruits and Vegetable Science. The college has 11 departments. The curriculum and syllabi of all degree programmes are updated and implemented as per the ICAR – Vth Deans' Committee Recommendations.

M.Sc. (Horticulture) in Vegetable Science was started in August, 2009. The department is engaged in teaching, research and extension activities for promoting horticulture in general and Vegetable Science in particular. The objectives of the department are:

- ✓ To impart quality education for the undergraduate, postgraduate and Ph.D. level.
- ✓ To carry out research for standardization of agro techniques and identification/development of improved varieties in important vegetables of the region.
- ✓ To strengthen the research farm for post graduate and Ph.D. research works and practical teaching works for under graduate, post graduate and Ph.D. students.
- ✓ To disseminate the identified/proven technologies to the farming community through various extension activities.

Accomplishments:

34 (Thirty four) students have been awarded the degree of Master in Science (Horticulture) in Vegetable Science from this college. Another nine students are presently pursuing Master in Science (Horticulture) in Vegetable Science in the college.

Most of the passed out students from the college are pursuing Ph.D (Horticulture) in Vegetable Science from other reputed Universities while few of the students have joined banking sector and state administrative services, respectively.

6.4.2 Faculty Strength

Faculty Strength under the Dept. of Vegetable Science:

Sl. No.	Sanctioned Faculty	Faculty in Place	Vacant Position	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	1 (till 29th July, 2020)	1	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	2 (3 -till 25th Dec, 2020)	-	4

Faculty Strength of the Supporting Departments:

Sl.No.	Sanctioned Faculty	Faculty in Place	Vacant Position	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
	Department of Fruit Science			
1	Professor	-	1	1
2	Associate Professor	1	1	2
3	Assistant Professor	4	-	3
	Department of Basic Sciences & Social Science			
1	Professor	-	-	1
2	Associate Professor	2	-	2
3	Assistant Professor	9	-	6
	Department of Plant Protection			
1	Professor	1	-	-
2	Associate Professor	2	-	-
3	Assistant Professor	3	-	-
	Department of Natural Resource Management			
1	Professor	1	-	1
2	Associate Professor	2	-	2
3	Assistant Professor	2	-	4

6.4.3 Technical and Supporting Staff

Technical and Supporting staff under Dept. of Vegetable Science:

6.4.4 Classrooms and Laboratories:

Classrooms: Total thirteen classrooms are available in the college. All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board *etc*. are available in each class room for the use of teachers. A common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

Functional laboratories (Vegetable Science & allied) : 13 nos.

Sr. No.	Department/Section	Area (Sq mtr)	Remarks
1.	***Fruit Science***		
	(i) Two Laboratory	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	***Vegetable Science***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture (O&MAP)***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	***Post-Harvest Management***		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc. Equipment for processing of horticultural produces.
5	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research & practicals. Water basins fitted in the laboratory for

			proper drainage of water and chemicals..
6	***Basic Sciences***		
	UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	
	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
7	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
8	***Natural Resource Management***		
	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

d) Lists major equipments:

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories are furnished below.

(i). Department of Fruit Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
13.	Autoclave	**13.**	Hot Water Bath
14.	Digital Camera	**14.**	Polymerase Chain Reaction (PCR)

15. Digital Weighing Balance
16. One Single Distillation Unit
17. One Double D.U
18. Electronic Balance (two)
19. Precision Balance
20. Hot Air Oven
21. BOD Incubator
22. Ordinary Balance (Two)
23. Cooling Centrifuge
24. pH meter
15. Magnetic stirrer Atomic Absorption Spectrophotometer
16. Hand refractometer
17. Tissue culture lab Digit
18. Lux meter
19. Portable Penitrometer
20. Flame Photometer
21. Muffle Furnace
22. Microwave Oven
23. Tabletop Centrifuge (two)
24. Two Refrigerators (-20^{O}C)

(ii). Department of Vegetable Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
26.	pH meter	**27.**	Conductivity meter
28.	Deep freezer	**29.**	Magnetic stirrer

d) **Laboratories**

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG, PG and PhD programmes .

Table 50: The area covered under the laboratories of different departments are as follows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
v.	Post-harvest	90
vi.	Floriculture	90
vii.	Vegetable Science	90
viii.	Fruit Science	90
18.	Statistics, Computer Application & IPR	59

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat.

Table : Infrastructure facilities available in CHF Pasighat

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Department wise infrastructural details of CHF Pasighat

Department/Section	Area (Sq.mtr.)	Facilities available

Natural Resource Management		
32. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
33. Agrometeorology Observatory	500	• Meteorological observation data for Research and Academic purpose
Horticulture		
34. Medicinal & Aromatic plant farm 35. Medicinal plant germplasm block	12000	• Germplasm of Medicinal and Aromatic Plants • Collection of rare and endangered spps. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
36. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
37. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
38. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • 3 climate controlled polyhouses • 2 GI fabricated • Low cost polyhouses (1 no.) • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.)

		• Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
39. Fruit Department	98525	• Fruit nursery block • Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.
40. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Plant Protection		
41. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
42. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
43. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation & electric facilities.
44. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

Justification:

The laboratories, nurseries and demonstration units under the Department of Vegetable Science as well as those of all other supporting departments are well equipped with all the necessary equipments and facilities to accomplish the proposed research activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories, nurseries and orchards. The farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

Theory and practical batches for the Degree Programme: The numbers of intake students are manageable due to limited number of seats. Average number of students in theory & practical classes at any time of the year:

S.N.	Particulars of curricula	Batch of student in *Theory*	Batch of student in *Practical*
1.	Vegetable Science (Major)	5 (1batch)	5 (1batch)
2.	Supporting courses	5 (1batch)	5 (1batch)

The class rooms and laboratories are sufficient enough to meet course curricula requirement of the degree programme.

6.4.5 Conduct of Practical and Hands-on-training:

1. On the basis of academic calendar prepared by the university for the academic session for the effective implementation of the curriculum, the theory and practical classes are conducted at the experimental fields and laboratories of the Department of Vegetable Science and allied departments. The PG and Ph.D courses involve conducting practicals as per credits allotted to the specified courses and hands on training and field/lab practical's for courses.
2. Besides in-house projects, PG and Ph.D Scholars are sent as and when required by the college to reputed institutions such as AAU, Jorhat; BCKV, Kalyani; ICAR-RC-NEHR, Umiam; NEHU, Shillong;IIHR, Banglaore; IARI, New Delhi *etc*. to complete their analysis associated with their research projects or vital topics under curriculum.
3. With regular guidance of Statistics faculty of the college, hands-on-training for ICT tools and technology such as statistical softwares, MS office, LCD is encouraged in teaching learning and evaluation process.
4. PG and Ph. D Scholars are encouraged to participate in the in-house as well as off-campus conferences, seminars, workshops, brainstorming *etc*.

6.4.6 Supervision of students in PG/PhD programmes:

No. of students being supervised by the faculty:

Name of the Faculty	Designation	PG (Completed)	PG (On going)	Ph.D (Completed)	Ph.D. (Ongoing)
Dr. Chandra Deo	Associate Professor	16	-	1	4
Dr. Pranabjyoti Sarma	Associate Professor	4	2	-	3
Dr. Arwankie Shadap	Assistant Professor	-	3	-	-
Dr. Nangsol Dolma Bhutia	Assistant Professor	-	3	-	-

6.4.7 Feedback of Stakeholders:

The faculty usually get the feedback from the students who have graduated from the college on various aspects like the contents of the course, teaching skills of the faculty, learning experience, assessment process, etc. The feedback is also taken from the parents on the performance of the students and the facilities available in the college. The details of the feedback received from the students and parents are given in Annexure I.

6.4.8 Student Intake and Attrition in the Programme for the last five years:

Name of the degree programme	Actual student admitted in last five years					Attrition (%)				
	2015-16	2016-17	2017-18	2018-19	2019-20	2015-16	2016-17	2017-18	2018-19	2019-20
M.Sc (Horticulture) in Vegetable Science	4	5	5	5	5	0	0	0	0	0

6.4.9 ICT Application in Curricula Delivery

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October, 2020 the computer centre is connected with 24x7 34 Mbps, Internet Access through BSNL . The facilities available in the computer lab are:

- 24 hours x 7 days / week free Internet access (34 Mbps) to students
- Wi-Fi enabled at New Academic Block (since 2015) to use e-communications for students and staffs.
- Students are trained to install open source software.
- Computers with Internet access are available in all departments.
- Academic buildings are linked with Administrative building through Optic Fiber Cable.
- Total number of computers for public access: 15
- Total numbers of printers for public access: 02
- Internet band width/ speed: 34Mbps through BSNL
- The lab is used for conducting Practical classes for UG and PG students.
- Students also use the Computer Lab for their research, statistical calculation and other academic activities.
- The academic, research, extension activities of the college are updated at the college website.

(b) The **Library** of the college is equipped with internet facilities for staff and students to access OPAC (Online Public Access Catalogue)URL = www.chfcau.ideal.egranth.ac.in.

- Two Software are available : (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software
- Electronic Resource Management package for e-journals Access through CeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in
- CAB data base: access facility (CAB data from 1972 to 2005)
- Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses uploaded. It is open repository. URL: Krishikosh.egranth .ac.in
- Library automation: under process through Koha Library management software

Total number of computers for public access in library: 6

e) The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos**. of smart classrooms for teaching and practical purposes.

f) Language Laboratory:

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present assistant professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.) Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well qualified English teacher is enaged to conduct the English classes. The concerned course incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are acoustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatmt Gandhi Jayanti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

Facilities in Language Laboratory

Computer	32
LCD with screen	3
LED TV	7
Audio systems	3
Podium	2
Zoom Platform link for online classes	1

6.4 (E. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each unit of UG, PG and PhD Degree Programmes, separately, and to be generated College wise.

6.4.1 (... Since, the accreditation of Programmes is related to the All India Admissions from ICAR, and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.10 Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Prof. B.N. Hiregoudra hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and I agree correctness thereof.

SELF STUDY REPORT FOR M.SC. HORTICULTURE IN FRUIT SCIENCE

COLLEGE OF HORTICULTURE & FORESTRY

CENTRAL AGRICULTURAL UNIVERSITY, PASIGHAT ARUNACHAL PRADESH

SUBMITTED TO

NATIONAL AGRICULTURAL EDUCATION ACCREDITATION BOARD

ICAR, NEW DELHI

CONTENTS:

Sl.No.	Particulars	Page
6.4.1	Brief History of the Degree Programme	126
6.4.2.	Faculty Strength	128
6.4.3	Technical, Field and Supporting staff	129
6.4.4	Class rooms and Laboratories	131
6.4.5.	**Conduct of Practical and Hands-on-Training**	141
6.4.6	Supervision of students in PG/PhD programmes	141
6.4.7	Feedback of stakeholders (Students, parents, industries, employers, farmers etc.)	141
6.4.8	Student intake and attrition in the programme for last five years	141
6.4.9	ICT Application in Curricula Delivery	142

6.4. Self-Study Report for M.Sc. Horticulture in Fruit Science:

6.4.1. Brief History of the Degree Programme:

The College of Horticulture and Forestry, Pasighat, Arunachal Pradesh was established on 7th March, 2001 as a constituent College of the Central Agricultural University, Imphal, Manipur with the admission of 17 UG students in the first batch of B Sc. Horticulture. Since then, the college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture in Fruits and Vegetable Science), M.Sc. (Forestry) and Ph.D. (Horticulture in Fruits and Vegetable Science). Doctor of Philosophy (Horticulture) in Fruit Science was commenced from the academic session of 2015-16. This campus is located in a serene atmosphere at Pasighat, the educational capital of the state as well as the first Smart City of Arunachal Pradesh. The mighty Siang River flows in the northern vicinity of the campus which is about 2.5 km from the town. The College is spread over an area of 145 acres neighbouring one of the oldest institutes of the NE India, the Jawaharlal Nehru College, established in 1964.

The college has well equipped and man-powered 11 full-fledged departments. The curriculum and syllabi of all degree programmes are updated and adopted as per the ICAR guidelines, the currently implemented syllabus being 5th Deans' Committee Recommendations since 2016.

The prime objectives of this college include imparting horticulture and forestry education and meeting the research and extension needs of the NE Region in general and for each state of the region in particular. The M.Sc. programme in Fruit Science is conducted with strength of six students per year. The enrolled scholars are entitled with University fellowship of Rs.3000/- per month. At present, the department is empowered with one Professor (Dean), one Associate Professor and four Assistant Professors besides well qualified and highly experienced non-teaching staffs. Two of the teaching faculties in the department are alumni of this campus. The broad objectives of the Department of Fruit Science are given hereunder:

a) To impart need based quality education for the Under Graduates, Post Graduates and Ph. D Scholars in the stream of horticulture in general and Fruits Science in particular.
b) To undertake introduction of new fruit crops and new varieties of commonly grown fruit crops including exotic, that are agro-climatically suitable in the region with constant monitoring by the department.
c) To further the advancement of learning by undertaking research in fruit science to overcome the new challenges and develop new technologies pertaining to fruit growers of the region and fruit industries at large with intervention of bio-technological tools.
d) To strengthen the applied research in regional specific problems of fruit crops with an attempt to develop localized technologies.
e) To undertake the extension programmes of transferring proven technologies to all the stakeholders of horticulture in general and fruit cultivation in particular in each of the states under the jurisdiction.
f) To undertake such other activities as it may deem fit and responding to the call of the Government, University and farmers from time to time.

Accomplishments:

Thirty students have been awarded the degree of Master of Science (Horticulture) in Fruit Science from this college.

Sl. No.	Name of the student	Accomplishments	Year of Completion
1.	Mr. Getem Tamut	Lab. Technician in AICRP on Fruits, Pasighat Center, College of Horticulture and Forestry, CAU, Pasighat, Arunachal Pradesh	2016
2.	Ms. Leeniya Pertin	Horticulture Development Officer, Department of Horticulture, Govt. of Arunachal Pradesh	2016
3.	Mr. Mahesha N	Assistant Director of Horticulture, Govt. of Karnataka	2016
4.	Mr. Shangpong Konyak M	Pursuing Ph. D. in Horticulture at SASRD, Nagaland University, Medziphema, Nagaland.	2017
5.	Mr. Nikja Taha	Preparing for Arunachal Pradesh Public Service Commission	2017
6.	Mr. Devaraj R	Agriculture Field Officer in CANARA, Bank.	2017
7.	Ms. Rebika Padun	Cleared Arunachal Pradesh Public Service Commission mains and waiting for interview.	2017
8.	Ms. Susmita Das	Pursuing Ph.D. in Horticulture SKUAST, Jammu	2018
9.	Ms. Megha Raghvan	Pursuing Ph.D. in Horticulture (Fruit Science) in College of Horticulture and Forestry, CAU, Pasighat, Arunachal Pradesh	2018
10.	Ms. Hau Ngaih Lian	Pursuing Ph. D. in Horticulture at SASRD, Nagaland University, Medziphema, Nagaland.	2018
11.	Ms. Longing Basuk Langstieh	JRF in ICAR-NEHR, Umiam, Meghalaya	2018
12.	Ms. S. Bidyarani	Pursuing Ph.D. in Horticulture at UBKV, West Bengal	2018
13.	Mr. Rohullah Amin	Enterprise Development Specialist with UNICEF. (Foreign student)	2019
14.	Ms. Rosangpui Pachuau	Pursuing Ph.D. in Horticulture at MPKV, Rahuri, Maharastra.	2019

15.	Ms. R. Lalmuanpuii	Pursuing Ph.D. in Horticulture at MPKV, Rahuri, Maharastra.	2019
16.	Mr. Raju Debbarma	Preparing for Tripura Service Commission	2020
17.	Mr. Rinchen D. Bhutia	Agriculture Development Officer, Department of Agriculture, Govt. of Sikkim	2020
18.	Mr. Nasratullah	Principal, Higher Secondary School, Govt. of Afghanistan (Foreign student)	2020
19.	Mr. Sanaullah Arghistani	Agriculture Officer under Ministry of Agriculture, Govt. of Afghanistan (Foreign student)	2020
20.	Mr. M. Daisinlung	Horticulture Officer in Delhi Development Authority, New Delhi	2020
21.	Mr. Kripa Shankar	Pursuing Ph.D. in Horticulture in IARI, New Delhi	2020
22.	Mr. Songthat William Haokip	Pursuing Ph.D. in Horticulture (Fruit Science) in College of Horticulture and Forestry, CAU, Pasighat, Arunachal Pradesh	2020
23.	Ms. Omem Moyong	Preparing for Arunachal Pradesh Public Service Commission	2020
24.	Mr. Kh. Anush Sheikh	Pursuing Ph.D. in Horticulture (Fruit Science) in College of Horticulture and Forestry, CAU, Pasighat, Arunachal Pradesh	2020

6.4.2. Faculty Strength

Faculty strength of Ph. D (as per ICAR guidelines) in the Department of Fruit Science:

Sr. No.	**Sanctioned Faculty Position**	**Post Filled**	**Post Vacant**	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	-	2	1
2.	Associate Professor	2	1	2
3.	Assistant Professor	4	1	3
	Total	**6**	**4**	**6**

Faculty strength of the programme (as per ICAR guidelines) in the supporting Departments:

Sr. No.	Sanctioned Faculty	Faculty in Place	Vacant Position	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies

	Department of Vegetable Science			
1.	Professor	-	1	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	3	-	4
	Department of Floriculture (O &MAP)			
1.	Professor	1	0	1
2.	Associate Professor	1	0	1
3.	Assistant Professor	1	1	2
	Department of Post Harvest Management:			
1.	Professor	-	-	1
2.	Associate Professor	-	-	1
3.	Assistant Professor	2	-	2
	Department of Basic Sciences			
1.	Professor	-	-	1
2.	Associate Professor	1	-	2
3.	Assistant Professor	6	-	6
	Department of Plant Protection-			
1.	Professor	1	-	1
2.	Associate Professor	2	-	2
3.	Assistant Professor	3	-	3
	Department of Natural Resource Management			
1.	Professor	1	-	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	2	-	6
	Department of Social Science			
1.	Professor	-	-	1
2.	Associate Professor	1	-	1
3.	Assistant Professor	3	-	5

6.4.3. Technical and Supporting Staff

Strength in the Department of Fruit Science:

Sr. No.	**Sanctioned Faculty Position**	**Post Filled**	**Post Vacant**	**Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies**
1.	Field cum Lab Assistant	1	-	-
2.	MTS	1	-	-
3.	Contractual Labour (out sourced)	3 (Department) 2 (AICRP Palms) 4 (AICRP on Fruits)	-	-
	Total	**11**	**-**	**-**

Strength in the College:

Sl. No.	Sanctioned staff	Staff in Place	Vacant post	Staff Recommended by the ICAR/UGC/ VCI/other regulatory bodies
A.	***Establishment Branch***			
1.	Assistant Registrar (Estt.)	01	-	
2.	Assistant Registrar (Acad.)	-	02	
3.	Assistant Comptroller	-	01	
4.	Security Officer	-	01	
5.	Accountant	01	02	
6.	UDC	02	-	
7.	Clerk-cum-Typist/LDC	11	10	
8.	Computer operator	01	-	
9.	Security Guard	02	-	
B.	***Estate Branch***			
1.	Asstt. Engineer/Asstt. Estate Officer	01	-	
2.	Junior Engineer (Civil & Mechanical)	02	-	
3.	Electrician	01	-	
4.	Plumber	01	01	
5.	Drivers including Tractor Driver	05	04	
C.	***Library***			
1.	Librarian	01	-	
2.	Sr. Library Assistant	-	01	
3.	Library Assistant	03	-	
D.	***Health***			
1.	Medical Officer	01**	01	
2.	Compounder cum Dresser	01	-	
3.	Medical Attendant	02	-	
E.	***Student Welfare***			
1.	Students Welfare Officer	01*	01	
2.	Assistant	01	-	
F.	***Hostels***			
1.	Chief Warden	01*	-	
2.	Warden	05*	-	
3.	Caretaker/Helpers	10***		
G.	***Technical & Supporting Staff for Departments, Estate, Hostels & others***			
1.	Horticulture Assistant	01	-	

Sl. No.	Sanctioned staff	Staff in Place	Vacant post	Staff Recommended by the ICAR/UGC/ VCI/other regulatory bodies
A.	***Establishment Branch***			
2.	Live Stock Assistant/Farm Asstt.	04	01	
3.	Field-cum-Lab-Assistant	21	06	
4.	Multi Tasking Staff (MTS)	47	44	

* Indicate holding additional charge of minimum Assistant Professor Cadre

** Contractual Recognised Medical Practitioner

*** MTS with assigned specific duty

6.4.4. Classrooms and Laboratories:

e) **Number of class rooms**: 13

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board with duster are available in each class room for the use of teachers. A common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

b) **Functional laboratories (**Fruit Science & allied**)** : 13 nos.

Sr. No.	Department/Section	Area (Sq mtr)	Remarks
1.	***Fruit Science***		
	(i) Two Laboratory	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	***Vegetable Science***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture (O& MAP)***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	***Post-Harvest Management***		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.

			Equipment for processing of horticultural produces.
5	***Forest Product Utilization***		
	Medicinal and Aromatic Plants Laboratory	160	Equipped with all the modern equipments for practical, sitting arrangements, Distillation, extraction facilities, etc.
	Wood Products and Utilization Laboratory	90	Facilities for characterization of morphological, anatomical, mechanical & chemical properties of timber. Other work carried out -wood design, fabrication ,etc.
6	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research & practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals..
7	***Basic Sciences***		
	UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	
	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
8	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
9	***Natural Resource Management***		

	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

c) Lists major equipments:

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories are furnished below.

(i). Department of Fruit Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
1.	Autoclave	**13.**	Hot Water Bath
2.	Digital Camera	**14.**	Polymerase Chain Reaction (PCR)
3.	Digital Weighing Balance	**15.**	Magnetic stirrer Atomic Absorption Spectrophotometer
4.	One Single Distillation Unit	**16.**	Hand refractometer
5.	One Double D.U	**17.**	Tissue culture lab Digit
6.	Electronic Balance (two)	**18.**	Lux meter
7.	Precision Balance	**19.**	Portable Penitrometer

d) **Laboratories**

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG, PG and PhD programmes .

Table 51: The area covered under the laboratories of different departments are as follows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
ix.	Post-harvest	90
x.	Floriculture	90
xi.	Vegetable Science	90
xii.	Fruit Science	90
9.	Statistics, Computer Application & IPR	59

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat.

Infrastructure facilities available in CHF Pasighat

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Department wise infrastructural details of CHF Pasighat

Department/Section	Area (Sq.mtr.)	Facilities available
Natural Resource Management		
45. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System

		• WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
46. Agrometeorology Observatory	500	• Meteorological observation data for Research and Academic purpose
Horticulture		
47. Medicinal & Aromatic plant farm 48. Medicinal plant germplasm block	12000	• Germplasm of Medicinal and Aromatic Plants • Collection of rare and endangered spps. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
49. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
50. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
51. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.) • Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
52. Fruit Department	98525	• Fruit nursery block

		• Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.
53. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Plant Protection		
54. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
55. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
56. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation & electric facilities.
57. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

(e) Justification:

The laboratories, nurseries and orchards under the Department of Fruit Science as well as those of all other supporting departments are well equipped with all the necessary equipments and facilities to accomplish the proposed research activities. All the basic chemicals and instruments are available for doing practical and research work in all the laboratories, nurseries and orchards. The Farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

(f) Theory and practical batches for the M.Sc. Degree Programme: the numbers of intake students are manageable due to limited number of seats. Average number of students in theory & practical classes at any time of the year:

S.N.	Particulars of curricula	Batch of student in *Theory*	Batch of student in *Practical*
1.	Fruits (Major)	12 (1batch)	12 (1batch)
2.	Supporting courses	12 (1batch)	12 (1batch)

The class rooms and laboratories are sufficient enough to meet course curricula requirement of the degree programme.

6.4.5. Conduct of Practical and Hands-on-Training:

a) On the basis of academic calendar prepared by the university for the academic session for the effective implementation of the curriculum, the theory and practical classes are conducted at the experimental fields and laboratories of the Department of Fruit Science and allied departments. The PG and Ph.D courses involve conducting practical's as per credits allotted to the specified courses and hands on training and field/lab practical's for courses.

b) Besides in-house projects, PG and Ph.D Scholars are sent as and when required by the college to reputed institutions such as AAU, Jorhat, BCKV, Kalyani, ICAR-NEHR, Umiam, NEHU, Shillong, IIHR, Banglaore, IARI, New Delhi etc. to complete their analysis associated with their research projects or vital topics under curriculum. Educational trips of students to centres like State Horticulture Farm, Shergaon (West Kameng, Ar. Pradesh) not only provide practical exposure to students but also help in proper networking and interaction between the college and research institutions/ industries.

c) With regular guidance of Statistics faculty of the college, hands-on-training for ICT tools and technology such as statistical softwares, MS office, LCD is encouraged in teaching learning and evaluation process.

d) PG and Ph. D Scholars are encouraged to participate in the in-house as well as off-campus conferences, seminars, workshops, brainstorming etc.

6.4.6. Supervision of students in M.Sc. Fruit Science: (number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

S. No	**Department**	**Qualified faculty**	**Present nos. of students**	**Intake, as per guidelines (Max.)**		
				Assistant Professor	**Associate Professor**	**Professor**
1.	Fruits	6	12	4	5	6

6.4.7 Feedback of stakeholders (Students, Parents, industries, employers, farmers etc):

The faculty usually get the feedback from the students who have graduated from the college on various aspects like the contents of the course, teaching skills of the faculty, learning experience, assessment process, etc. The feedback is also taken from the parents on the performance of the students and the facilities available in the college. The details of the feedback received from the students and parents are given in Annexure 1.

6.4.8. Student intake and attrition in the M.Sc. (Horticulture) in Fruit Science programme for last five years:

Sl. No.	**Year (Session)**	**Student Intake**	**Student Attrition (%)**
1.	2016-17	6	0
2.	2017-18	6	0
3.	2018-19	6	0
4.	2019-20	6	0

5.	2020-21	6	0

The rate of attrition from the M.Sc. Fruit Science is Nil

6.4.9. ICT Application in Curricula Delivery:

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October,2020 the computer centre is connected with 24x7 34 Mbps ,Internet Access through BSNL . The facilities available in the computer lab are:

l) 24 hours x 7 days / week free Internet access (32 Mbps) to students
m) Wi-Fi enabled in the New Academic Block (since 2015) to use e-communications for students and staffs.
n) Students are trained to install open source software.
o) Computers with Internet access are available in all departments.
p) Academic buildings are linked with Administrative building through Optic Fibre Cable (OFC).
q) Total number of computers for public access: 15
r) Total numbers of printers for public access: 02
s) Internet band width/ speed: 34 Mbps through BSNL
t) The lab is used for conducting Practical classes for UG and PG students.
u) Students also use the Computer Lab for their research, statistical calculation and other academic activities.
v) The academic, research, extension activities of the college are updated regularly at the college website from time to time.

(b) The college **Library** is equipped with internet facilities with, through which staff and students would be able to access OPAC (Online Public Access Catalogue) URL = www.chfcau.ideal.egranth.ac.in.

g) The Library Two Software : (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software
h) Electronic Resource Management package for e-journals Access through CeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in
i) CAB data base: access facility (CAB data from 1972 to 2005)
j) Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses uploaded. It is open repository. **URL: Krishikosh.egranth .ac.in**
k) Library automation: under process through Koha Library management software
l) Total number of computers for public access in library: 06

Besides, the Department of Fruit Science takes keen interest in ICT application in curricula delivery through platforms like adoption of audio-visual aids in teaching and learning, engagement of online mode of teaching-learning through Google Meet, Zoom, Google Classroom, sharing of information and study materials using WhatsApp.

g) The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos**. of smart classrooms for teaching and practical purposes.

h) Language Laboratory:

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present assistant professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.) Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well qualified English teacher is enaged to conduct the English classes. The concerned course incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are acoustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatmt Gandhi Jayanti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

Facilities in Language Laboratory

Computer	32
LCD with screen	3

6.4.10. The information pertaining to 6.4.1 to 6.4.8 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the Accreditation of Programmes is relevant to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data pertained in the section 6.4 is liable to be verification at any stage.

6.4.12. Certificate (Applicable when SAR is submitted for Programme)

I, the Dean Dr. B.N. Hazarika hereby certify that the information contained in the Section 6.4.1 to 6.4.8 are furnished as per the records available in the college and nothing remaining untruthy.

6.4. Self-Study Report for Ph. D. Horticulture in Fruit Science:

6.4.1. Brief History of the Degree Programme:

The College of Horticulture and Forestry, Pasighat, Arunachal Pradesh was established on 7th March, 2001 as a constituent College of the Central Agricultural University, Imphal, Manipur with the admission of 17 UG students in the first batch of B Sc. Horticulture. Since then, the college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture in Fruits and Vegetable Science), M.Sc. (Forestry) and Ph.D. (Horticulture in Fruits and Vegetable Science). Doctor of Philosophy (Horticulture) in Fruit Science was commenced from the academic session of 2015-16. This campus is located in a serene atmosphere at Pasighat, the educational capital of the state as well as the first Smart City of Arunachal Pradesh. The mighty Siang River flows in the northern vicinity of the campus which is about 2.5km from the town. The College is spread over an area of 145 acres neighbouring one of the oldest institutes of the NE India, the Jawaharlal Nehru College, established in 1964.

The college has well equipped and man-powered 11 full-fledged departments. The curriculum and syllabi of all degree programmes are updated and adopted as per the ICAR guidelines, the currently implemented syllabus being 5th Deans' CommitteeRecommendations since 2016.

The prime objectives of this college include imparting horticulture and forestry education and meeting the research and extension needs of the NE Region in general and for each state of the region in particular. The Ph. D programme in Fruit Science is conducted with strength of two students per year till 2019-20 and three student per year since 2020-21. The enrolled scholars are entitled with University fellowship of Rs.5000/- per month. At present, the department is empowered with oneProfessor (Dean), one Associate Professor and four Assistant Professors besides well qualified and highly experienced non-teaching staffs. Two of the teaching faculties in the department are alumni of this campus. The broad objectives of the Department of Fruit Science are given hereunder:

a) To impart need based quality education for the Under Graduates, Post Graduates and Ph. D Scholars in the stream of horticulture in general andFruits Science in particular.

b) To undertake introduction of new fruit crops and new varieties of commonly grown fruit crops including exotic, that are agro-climatically suitable in the region with constant monitoring by the department.

c) To further the advancement of learning by undertaking research in fruit science to overcome the new challenges and develop new technologies pertaining to fruit growers of the region and fruit industries at large with intervention of bio-technological tools.

d) To strengthen the applied research in regional specific problems of fruit crops with an attempt to develop localized technologies.

e) To undertake the extension programmes of transferring proven technologies to all the stakeholders of horticulture in general and fruit cultivation in particular in each of the states under the jurisdiction.

f) To undertake such other activities as it may deem fit and responding to the callof the Government, University and farmers from time to time.

Accomplishments:

Five students have been awarded the degree of Doctor of Philosolphy(Horticulture) in Fruit Science from this college.

1. Dr. Lakidon Khonglah : Asst. Professor (C) at NEHU, Tura
2. Dr. Ashok Chhetri : Asst. Professor MMTC & VTC, Agartala
3. Dr. Nesara Begane : SRF at IIHR, Bengaluru, Karnataka
4. Dr. Thejangulie Angami : ARS Scientist posted at Basar, Arunachal Pradesh
5. Dr. Amrita Thokchom : JRF in a project Restoration and Conservation of Natural Silk dying techniques at CAU, Imphal.

6.4.2. Faculty Strength

Faculty strength of Ph. D (as per ICAR guidelines) in the Department of Fruit Science:

Sr. No.	Sanctioned Faculty Position	Post Filled	Post Vacant	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	-	2	1
2.	Associate Professor	2	1	2
3.	Assistant Professor	4	1	3
	Total	**6**	**4**	**6**

Faculty strength of the programme (as per ICAR guidelines) in the supportingDepartments:

Sr. No.	Sanctioned Faculty	Faculty in Place	Vacant Position	Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies
	Department of Vegetable Science			
1.	Professor	-	1	1
2.	Associate Professor	2	-	1
3.	Assistant Professor	3	-	4
	Department of Floriculture (O& MAP)			
1.	Professor	1	0	1
2.	Associate Professor	1	0	1
3.	Assistant Professor	1	1	2

	Department of Post Harvest Management:			
1.	Professor	-	-	1
2.	Associate Professor	-	-	1
3.	Assistant Professor	2	-	2
	Department of Basic Sciences			
1.	Professor	-	-	1
2.	Associate Professor	1	-	2
3.	Assistant Professor	6	-	6
	Department of Plant Protection-			
1.	Professor	1	-	1
2.	Associate Professor	2	-	2
3.	Assistant Professor	3	-	3
	Department of Natural Resource Management			
1.	Professor	1	-	1
2.	Associate Professor	2	-	1

3.	Assistant Professor	2	-	6
	Department of Social Science			
1.	Professor	-	-	1
2.	Associate Professor	1	-	1
3.	Assistant Professor	3	-	5

6.4.3. Technical and Supporting Staff Strength in the Department of Fruit Science:

Sr. No.	**Sanctioned Faculty Position**	**Post Filled**	**Post Vacant**	**Faculty Recommended by the ICAR/UGC/VCI/other regulatory bodies**
1.	Field cum Lab Assistant	1	-	-
2.	MTS	1	-	-

3.	Contractual Labour (outsourced)	3 (Department) 2 (AICRP Palms) 4 (AICRP on Fruits)	-	-
	Total	**11**	**-**	**-**

Strength in the College:

** Contractual Recognised Medical Practitioner

*** MTS with assigned specific duty

6.4.4. Classrooms and Laboratories:

a) **Number of class rooms**: 13

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board with duster are available in each class room for the use of teachers. A common generator facility supplies power to all theclassrooms to avoid interruption of the class during power failure.

b) **Functional laboratories (**Fruit Science & allied**)** : 13 nos.

Sr. No.	Department/Section	Area (Sq mtr)	Remarks
1.	***Fruit Science***		
	(i) Two Laboratory	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	***Vegetable Science***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture (O& MAP)***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	***Post-Harvest Management***		

	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc. Equipment for processing of horticultural produces.
5	***Forest Product Utilization***		
	Medicinal and Aromatic Plants Laboratory	160	Equipped with all the modern equipments for practical, sitting arrangements, Distillation, extraction facilities, etc.
	Wood Products and Utilization Laboratory	90	Facilities for characterization of morphological, anatomical, mechanical & chemical properties of timber. Other work carried out -wood design, fabrication ,etc.
6	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research & practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals..
7	***Basic Sciences***		
	UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	

	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
Sr. No.	**Department/Section**	**Area (Sq mtr)**	**Remarks**
8	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room,	144	Production of Mushroom spawn and other microbial research work carried-out.
	Boiling room)		
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
9	***Natural Resource Management***		
	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

b) Lists major equipments:

The laboratories are well equipped to conduct the practicals/hands on training tothe students with instruments, laboratory tables, basins, irrigation facilities,

electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories are furnished below.

(i). Department of Fruit Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
1.	Autoclave	13.	Hot Water Bath
2.	Digital Camera	14.	Polymerase Chain Reaction (PCR)
3.	Digital Weighing Balance	15.	Magnetic stirrer Atomic Absorption Spectrophotometer
4.	One Single Distillation Unit	16.	Hand refractometer
5.	One Double D.U	17.	Tissue culture lab Digit

d) Laboratories

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG, PG and PhD programmes .

Table 1: The area covered under the laboratories of different departments are as follows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
i.	Post-harvest	90
ii.	Floriculture	90
iii.	Vegetable Science	90
iv.	Fruit Science	90
9.	Statistics, Computer Application & IPR	59

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat.

Infrastructure facilities available in CHF Pasighat

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Department wise infrastructural details of CHF Pasighat

Department/Section	Area (Sq.mtr.)	Facilities available
Natural Resource Management		
1. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated bySolar Pump • Sprinkler Irrigation System operatedby solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
2. AgrometeorologyObservatory	500	• Meteorological observation data for Research and Academic purpose

Horticulture		
3. Medicinal & Aromatic plant farm 4. Medicinal plant germplasm block	12000	• Germplasm of Medicinal and Aromatic Plants • Collection of rare and endangered spps.

		• Nursery beds • Shade houses/roofs • Irrigation & electric facilities
5. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
6. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
7. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.) • Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
8. Fruit Department	98525	• Fruit nursery block • Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.
9. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos.

		• Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Plant Protection		
10. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
11. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
12. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation & electric facilities.
13. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

(e) Justification:

The laboratories, nurseries and orchards under the Department of Fruit Science aswell as those of all other supporting departments are well equipped with all the necessary equipments and facilities to accomplish the proposed research activities. All the basicchemicals and instruments are available for doing practical and research work in all the laboratories, nurseries and orchards. The Farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricityand required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

(f) Theory and practical batches for the Degree Programme: the numbers of intake students are manageable due to limited number of seats.

Average number of students in theory & practical classes at any time of the year:

S.N.	Particulars of curricula	Batch of student in *Theory*	Batch of student in *Practical*
1.	Fruits (Major)	6	6

2.	Supporting courses	6	6

The class rooms and laboratories are sufficient enough to meet course curricula requirement of the degree programme.

6.4.5. Conduct of Practical and Hands-on-Training:

a) On the basis of academic calendar prepared by the university for the academic sessionfor the effective implementation of the curriculum, the theory and practical classes areconducted at the experimental fields and laboratories of the Department of Fruit Science and allied departments. The PG and Ph.D courses involve conducting practical's as per credits allotted to the specified courses and hands on training and field/lab practical's for courses.

b) Besides in-house projects, PG and Ph.D Scholars are sent as and when required by thecollege to reputed institutions such as AAU, Jorhat, BCKV, Kalyani, ICAR-NEHR, Umiam, NEHU, Shillong, IIHR, Banglaore, IARI, New Delhi etc. to complete their analysis associated with their research projects or vital topics under curriculum. Educational trips of students to centres like State Horticulture Farm, Shergaon (West Kameng, Ar. Pradesh) not only provide practical exposure to students but also help in proper networking and interaction between the college and research institutions/ industries.

c) With regular guidance of Statistics faculty of the college, hands-on-training for ICT tools and technology such as statistical softwares, MS office, LCD is encouraged in teaching learning and evaluation process.

d) PG and Ph. D Scholars are encouraged to participate in the in-house as well as off- campus conferences, seminars, workshops, brainstorming etc.

6.4.6. Supervision of students in PhD Fruit Science: (number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

S.No	Department	Qualified faculty	Present nos. of students	Intake, as per guidelines (Max.)		
				Assistant Professor	Associate Professor	Professor
1.	Fruits	4	8	4	5	6

6.4.7. Feedback of stakeholders (Students, Parents, industries, employers, farmersetc

The faculty usually get the feedback from the students who have graduated from the college on various aspects like the contents of the course, teaching skills of thefaculty, learning experience, assessment process, etc. The feedback is also taken fromthe parents on the performance of the students and the facilities available in the college. The details of the feedback received from the students and parents are givenin Annexure 1.

6.4.8. Student intake and attrition in the Ph. D. (Horticulture) in Fruit Science programme for last five years:

Sl. No.	Year (Session)	Student Intake	Student Attrition (%)
1.	2015-16	2	0
2.	2016-17	2	0
3.	2017-18	2	0
4.	2018-19	2	0
5.	2019-20	2	0
6.	2020-21	3	0

The rate of attrition from the Ph. D Fruit Science is Nil

6.4.9. ICT Application in Curricula Delivery:

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October,2020 the computer centre is connected with 24x7 34 Mbps ,Internet Accessthrough BSNL . The facilities available in the computer lab are:

a) 24 hours x 7 days / week free Internet access (32 Mbps) to students

b) Wi-Fi enabled in the New Academic Block (since 2015) to use e-communications for students and staffs.

c) Students are trained to install open source software.

d) Computers with Internet access are available in all departments.

e) Academic buildings are linked with Administrative building through OpticFibre Cable (OFC).

f) Total number of computers for public access: 15

g) Total numbers of printers for public access: 02

h) Internet band width/ speed: 34 Mbps through BSNL

i) The lab is used for conducting Practical classes for UG and PG students.

j) Students also use the Computer Lab for their research, statistical calculation and other academic activities.

k) The academic, research, extension activities of the college are updated regularly at the college website from time to time.

(b) The college **Library** is equipped with internet facilities with, through which staffand students would be able to access OPAC (Online Public Access Catalogue) URL = www.chfcau.ideal.egranth.ac.in.

a) The Library Two Software : (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software

b) Electronic Resource Management package for e-journals Access through CeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in

c) CAB data base: access facility (CAB data from 1972 to 2005)

d) Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. andPh.D. Theses uploaded. It is open repository. **URL: Krishikosh.egranth .ac.in**

e) Library automation: under process through Koha Library managementsoftware

f) Total number of computers for public access in library: 06

Besides, the Department of Fruit Science takes keen interest in ICT application in curricula delivery through platforms like adoption of audio-visual aids in teaching and learning, engagement of online mode of teaching-learning through Google Meet, Zoom, Google Classroom, sharing of information and study materials using WhatsApp.

c) The College of Horticulture and Forestry, Pasighat has upgraded to ***2*** **Nos**. of smartclassrooms for teaching and practical purposes.

d) Language Laboratory:

Recently the College has setup 30 seater Language Laboratory with 32 nos.of computers for teaching and practicals of the students. A **language laboratory** is a dedicated space for foreign language learning where students access audio or audio-visual materials. They allow a teacher to listen to and manage student audio, which is delivered to individual students through headsets or in isolated 'sound booths.

6.4.11 The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, as applicable, separately.

6.4.12 Since the accreditation of Programmes is related to the AI India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.13 Certificate (Applicable when SSR is submitted for Programmes)

I, the Dean Prof. [illegible] hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

6.4 SELF STUDY REPORT FOR PH.D. HORTICULTURE (VEGETABLESCIENCE)

6.4.1 Brief History of the Degree Programme:

College of Horticulture & Forestry is a constituent College of the Central Agricultural University, Imphal, Manipur and was established on 7th March, 2001 at Pasighat, Arunachal Pradesh on the bank of beautiful river Siang. The college offers B.Sc. (Hons.) Horticulture, B.Sc. (Hons.) Forestry, M.Sc. (Horticulture), M.Sc. (Forestry) and Ph.D. (Horticulture) with specialization in Fruits and Vegetable Science. The college has 11 departments. The curriculum and syllabi of all degree programmes are updated and implementing as per the ICAR – Vth Deans' Committee Recommendations.

Doctor of Philosophy (Horticulture) in Vegetable Science was started in August, 2014. The department is engaged in teaching, research and extension activities for promoting horticulture in general and Vegetable Science in particular. The objectives of the department are:

- ✓ To impart quality education for the undergraduate, postgraduate and Ph.D. level.
- ✓ To carry out research for standardization of agro techniques and identification/development of improved varieties in important vegetables of the region.
- ✓ To strengthen the research farm for post graduate and Ph.D. research works and practical teaching works for under graduate, post graduate and Ph.D. students.
- ✓ To disseminate the identified/proven technologies to the farming community through various extension activities.

Accomplishments:

Four students have been awarded the degree of Doctor of Philosophy (Horticulture) inVegetable Science from this college. Another eight students are presently pursuing Doctor of Philosophy (Horticulture) in Vegetable Science in the college. Details of the passed out students are as given below.

1. Dr. Lalhmingsanga is presently working as Asst. Professor (Horticulture) at MTTC & VTC, Mizoram under Central Agricultural University, Manipur.
2. Dr. A.K. Alice is presently working as Research Associate under AICRP on Potato, College of Horticulture & Forestry, AAU, Pasighat, Arunachal Pradesh.
3. Dr. Vikash Kumar is presently working as Subject Matter Specialist (SMS) at KVK, Nawada, Bihar.
4. Dr. Mohd Talha Ansari is presently working as Junior Research Fellow (JRF), DST SHRI Project, Department of Plant Protection, College of Horticulture and Forestry,CAU, Pasighat, Arunachal Pradesh.

6.4.2 Faculty Strength

6.4.4 Classrooms and Laboratories:

Classrooms: Total thirteen classrooms are available in the college. All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board *etc*. are available in each class room for the use of teachers. A common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

Laboratories: Section wise availability of laboratories are as given below:

a) **Functional laboratories (**Vegetable Science & allied**)** : 13 nos.

Sr. No.	Department/Section	Area (Sq mtr)	Remarks
1.	***Fruit Science***		

	(i) Two Laboratory	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2.	***Vegetable Science***		
	e Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture (O&MAP)***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
4.	***Post-Harvest Management***		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc. Equipment for processing of horticultural produces.
5	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research & practicals. Water basins fitted in the laboratoryfor proper drainage of water and chemicals..

6	***Basic Sciences***		
	UG Basic Science Laboratory	28	Biochemical, biotechnological& microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Laboratory	28	
	Tissue Culture Laboratory	47	
	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
7	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Laboratory :	85	
	Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
8	***Natural Resource Management***		

	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.

b) Lists major equipments:

The laboratories are well equipped to conduct the practicals/hands on training tothe students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/ equipments available in the laboratories are furnished below.

(i). Department of Fruit Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
1.	Autoclave	**13.**	Hot Water Bath
2.	Digital Camera	**14.**	Polymerase Chain Reaction (PCR)
3.	Digital Weighing Balance	**15.**	Magnetic stirrer Atomic Absorption Spectrophotometer
4.	One Single Distillation Unit	**16.**	Hand refractometer
5.	One Double D.U	**17.**	Tissue culture lab Digit
6.	Electronic Balance (two)	**18.**	Lux meter
7.	Precision Balance	**19.**	Portable Penitrometer
8.	Hot Air Oven	**20.**	Flame Photometer
9.	BOD Incubator	**21.**	Muffle Furnace
10.	Ordinary Balance (Two)	**22.**	Microwave Oven

11.	Cooling Centrifuge	**23.**	Tabletop Centrifuge (two)
12.	pH meter	**24.**	Two Refrigerators (-20OC)

(ii). Department of Vegetable Science:

S.No.	Name of the equipment	S.No.	Name of the equipment
1.	pH meter	**2.**	Conductivity meter
3.	Deep freezer	**4.**	Magnetic stirrer
5.	Hot air oven	**6.**	Olympus microscope (Binocular)
7.	Laminar flow	**8.**	Camera
9.	Seed germinator	**10.**	Computer with accessories
11.	Seed dryer	**12.**	Digital balance
13.	Distillation apparatus	**14.**	Lux meter
15.	Electronic balance	**16.**	Hand refractometer
17.	Horizontal autoclave	**18.**	Dissecting microscope
19.	Vertical autoclave	**20.**	Microscope trinocular stereo zoom model carl ziess stemi 2000 C
21.	Water bath	**22.**	AC fitted lab facilities
23.	Variable volume pipette	**24.**	Tissue culture lab
25.	Processing units		

(iii) Department of Floriculture (O& MAP)

S.No.	Name of the equipment	S.No.	Name of the equipment
1.	pH meter	**2.**	Incubator
3.	Refrigerator	**4.**	Magnetic stirrer

5.	Hot air oven	**6.**	Digital balance
7.	Seed germinator	**8.**	Camera
9.	Lux meter	**10.**	Computer with accessories
11.	Distillation apparatus	**12.**	Electronic balance
13.	Environmental test chamber	**14.**	Hot plate

iv) Department of Post Harvest management

c) Laboratories

College of Horticulture and Forestry, Pasighat which is well equipped to conduct practical classes for UG, PG and PhD programmes .

Table 5: The area covered under the laboratories of different departments are asfollows :

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	Horticulture	
i.	Post-harvest	90
ii.	Floriculture	90
iii.	Vegetable Science	90
iv.	Fruit Science	90
9.	Statistics, Computer Application & IPR	59

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat.

Table6: Infrastructure facilities available in CHF Pasighat

Infrastructure	Area in Sq Km.
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1500

The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc. The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose.

Instructional Farm

A total of 16 instructional farms are established under various departments of the college, the details of which are listed below:

Table 7: Department wise infrastructural details of CHF Pasighat

Department/Section	Area (Sq.mtr.)	Facilities available
Natural Resource Management		
1. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated bySolar Pump • Sprinkler Irrigation System operatedby solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
2. AgrometeorologyObservatory	500	• Meteorological observation data for Research and Academic purpose

Horticulture		
3. Medicinal & Aromatic plant	12000	• Germplasm of Medicinal and Aromatic

farm 4. Medicinal plant germplasm block		Plants • Collection of rare and endangered spps. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
5. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
6. Floriculture and Landscaping	20000	• 8 nos. polyhouses • Germplasm bank of orchids & native ornamental plants • Commercial cut flower block of orchids, anthurium, gerbera, and heliconia • Collection of indoors plants, cactus and annual flowers
7. Vegetables science	35543	• Demonstration block on nutrition garden and other vegetable crops • 3 climate controlled polyhouses • 2 GI fabricated • Low cost polyhouses (1 no.) • Turmeric and spices processing unit • Hi-tech poly house (3 nos.) • Naturally ventilated polyhouses (2 nos.) • Water harvesting tanks • Solar power operated sprinkler irrigation system • Local vegetable garden • Vegetable nursery block
8. Fruit Department	98525	• Fruit nursery block • Demonstration & experimental block of coconut, passion fruit block, litchi, Jack fruit, Aonla, cashewnut, Mango, banana, Oil palm, Pumello and Assam lemon.

9. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos.
		• Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Plant Protection		
10. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
11. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
12. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation & electric facilities.
13. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

Justification:

The laboratories, nurseries and demonstration units under the Department of Vegetable Science as well as those of all other supporting departments are well equipped withall the necessary equipments and facilities to accomplish the proposed research activities.

All basic chemicals and instruments are available for doing practical and research work in all the laboratories, nurseries and orchards. The farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

Theory and practical batches for the Degree Programme: The numbers of intake students are manageable due to limited number of seats. Average number of students in theory & practical classes at any time of the year:

S.N.	Particulars of curricula	Batch of student in *Theory*	Batch of student in *Practical*

1.	Vegetable Science (Major)	6	6
2.	Supporting courses	6	6

The class rooms and laboratories are sufficient enough to meet course curricula requirement of the degree programme.

6.4.5 Conduct of Practical and Hands-on-training:

1. On the basis of academic calendar prepared by the university for the academic session for the effective implementation of the curriculum, the theory and practical classes are conducted at the experimental fields and laboratories of the Department of Vegetable Science and allied departments. The PG and Ph.D courses involve conducting practicals as per credits allotted to the specified courses and hands on training and field/lab practical's for courses.
2. Besides in-house projects, PG and Ph.D Scholars are sent as and when required by thecollege to reputed institutions such as AAU, Jorhat; BCKV, Kalyani; ICAR-RC-NEHR, Umiam; NEHU, Shillong;IIHR, Banglaore; IARI, New Delhi *etc*. to complete their analysis associated with their research projects or vital topics under curriculum.
3. With regular guidance of Statistics faculty of the college, hands-on-training for ICT tools and technology such as statistical softwares, MS office, LCD is encouraged in teaching learning and evaluation process.
4. PG and Ph. D Scholars are encouraged to participate in the in-house as well as off-campus conferences, seminars, workshops, brainstorming *etc*.

6.4.6 Supervision of students in PG/PhD programmes:

No. of students being supervised by the faculty:

Name of the Faculty	Designation	PG (Completed)	PG (On going)	Ph.D (Completed)	Ph.D. (Ongoing)
Dr. Chandra Deo	Associate Professor	16	1	-	4
Dr. Pranabjyoti Sarma	Associate Professor	4	2	-	3
Dr. Arwankie Shadap	Assistant Professor	-	3	-	-
Dr. Nangsol Dolma Bhutia	Assistant Professor	-	3	-	-

6.4.7 Feedback of Stakeholders:

The faculty usually get the feedback from the students who have graduated from the college on various aspects like the contents of the course, teaching skills of the faculty, learning experience, assessment process, etc. The feedback is also taken from the

parents on the performance of the students and the facilities available in the college. The details of the feedback received from the students and parents are given in Annexure 1.

6.4.8 Student Intake and Attrition in the Programme for the last five years:

Name of the degree programme	Actual student admitted in last five years					Attrition (%)				
	2015 -16	2016 -17	2017 -18	2018 -19	2019 -20	2015 -16	2016 -17	2017 -18	2018 -19	2019 -20
Ph.D. (Horticulture) in Vegetable Science	1	2	2	2	2	0	0	0	0	0

6.4.9 ICT Application in Curricula Delivery

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October, 2020 the computer centre is connected with 24x7 34 Mbps ,Internet Access through BSNL . The facilities available in the computer lab are:

- 24 hours x 7 days / week free Internet access (34 Mbps) to students
- Wi-Fi enabled at New Academic Block (since 2015) to use e-communicationsfor students and staffs.
- Students are trained to install open source software.
- Computers with Internet access are available in all departments.
- Academic buildings are linked with Administrative building through OpticFiber Cable.
- Total number of computers for public access: 15
- Total numbers of printers for public access: 02
- Internet band width/ speed: 34Mbps through BSNL
- The lab is used for conducting Practical classes for UG and PG students.
- Students also use the Computer Lab for their research, statistical calculationand other academic activities.
- The academic, research, extension activities of the college are updated at thecollege website.

(b) The **Library** of the college is equipped with internet facilities for staff and students to access OPAC (Online Public Access Catalogue) URL = www.chfcau.ideal.egranth.ac.in.

- Two Software are available : (i) Alice for Window (Softlink Asia

pvt.ltd)Offline and (ii) Koha Library management Software

- Electronic Resource Management package for e-journals Access throughCeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in
- CAB data base: access facility (CAB data from 1972 to 2005)
- Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. andPh.D. Theses uploaded. It is open repository. URL: Krishikosh.egranth
  .ac.in
- Library automation: under process through Koha Library management software

Total number of computers for public access in library: 6

c) The College of Horticulture and Forestry, Pasighat has upgraded to ***2*** **Nos**. of smartclassrooms for teaching and practical purposes.

d) Language Laboratory:

Recently the College has setup 30 seater Language Laboratory with 32 nos.of computers for teaching and practicals of the students. A **language laboratory** is a dedicated space for foreign language learning where students access audio or audio-visual materials. They allow a teacher to listen to and manage student audio, which is delivered to individual students through headsets or in isolated 'sound booths.

6.4.13. The information pertaining to 6.4.1 to 6.4.8 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented in Degree-wise.

6.4.14. Since the accreditation of Programmes is related to the All India Admission Rank (CAR) and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.15. Certificate (Applicable when SSR is submitted for Re-accreditation)

I, the Dean, Prof. S. M. Hazarika, hereby certify that the information mentioned in the Section 6.4.1 to 6.4.8 are furnished as per the records available in the college and degree awarding university.

6.4.. Self-Study Report for B.Sc. Forestry

6.4.1 Brief History of the Degree Programme:

The college was inaugurated on 7th March, 2001 and started functioning from the academic year 2001. The graduate degree programmes in Forestry are being offered from the academic year 2007. This college is located in a serene atmosphere at Pasighat, vicinity to the mighty Siang river, which is 2.5 km from Pasighat town. The College is spread over an area of 145 acres. The prime objectives of this College are imparting Horticulture and Forestry education and meeting the research and extension needs of the NE Region. The graduate programme is conducted with average strength of 25 students in each year of UG level totalling to 103 students current year. At present, each and every department is headed by a Professor/Associate Professor and staffed with well qualified and highly experienced faculty. Many staffs are the alumni of this institution, where they were nurtured and trained. The core and allied departments of forestry are engaged in teaching, field orientation, laboratory studies, research and extension activities with the aim of development of forestry sector, agroforestry interventions and human resource development the NE Region. The objective and accomplishments of the forestry departments are:

- ✓ To impart quality education for the graduate in forestry and its allied sciences.
- ✓ To further the advancement of learning by undertaking courses in forestry to overcome the new challenges and develop new technologies.
- ✓ To strengthen the applied research/dissertation work/field based studies in different disciplines of forestry.
- ✓ To undertake the programmes of extension education in the states under the jurisdiction.
- ✓ To undertake such other activities as it may deem fit from time to time.

Accomplishments

Because of better co-ordination and effective monitoring by the staff, there is a congenial environment for students in clearing many national level competitive exams like ICAR – JRF and SRF fellowship and securing jobs in public and private sectors.

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection in different competitive exams
- Participation and selection for higher education in reputed National institutes
- Participation in NSS programmes at state and national levels
- Participation in sports and cultural events at state and national levels
- Selection of students in private and public sectorsasRangeOfficer,statecivilscientist, Professors, etc.
- Thedetailsofstudent'sexcellenceinnationallevelacademiccompetitiveexamsisgiven below

- The details of student's excellence in national level academic competitive exams is given below;

*Contractual (Assistant Prof.)

As per the Faculty strength recommended by the ICAR/UGC/VCI/Other regulatory bodies, a total of 50 teaching staff are to be placed. However, the University has filled 38 regular teaching faculty post and 12 post are still vacant. Recently, a total of 3 nos. of faculties have been transferred to other constituent colleges of the University (CAU) and 6 nos. of faculties have been placed in higher position in other Universities.

6.4.3. Technical and Supporting Staff

The technical staff are attached with the office of the Dean for administrative, convenience and they are allotted to other departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. At present, the college has 127 technical and supporting staffs and 59 are vacant. However, additional charges are assigned to 7 faculties, 01 contractual recognized medical practitioner and 10 MTS assigned with specific duty. All the vacant post will be filled in due course as additional staffs are required for the overall development of the college. The details of staff involved are listed below:

2019-20	B.Sc(Hons.)Forestry	1 Batch-30	1 Batch-30

6.4.5 ConductofPracticalandHands-on-Training:

- On the basis of academic calendar prepared by the university for the academic sessionforthe effective implementation of the curriculum, the theory and practical classes areconductedattheexperimentalfieldsandlaboratoriesoftheforestryandallieddepartments. The PG courses involve conducting practical's as per credits allotted tothe specified courses and hands on training and field/lab practical's for courses likeSilviculture,Biometry,Agroforestry,PlantationTechnology,TreeImprovement,ForestBiotechnology,WildLifeManagement,ForestProtection,WatershedManagement, Wood Productsand Utilization, ForestManagement,etc.
- Besides in-house dissertation work projects, UG students are sent as and when requireby the college to Forest Departmentto complete their STUDENT READY Programfor Forest Work Experience (FOWE) to understand the problems and prospects of therangetrainingandexposureandtrainingonforestrangetoattachedstatedepartments
- Takingstudentsforfieldsurveys/institutional/industrialvisitsnotonlyprovidepractical exposure to studentsbut alsohelp inproper networkingand interactionbetween thecollegeand research institutions/industries.
- Hands-on-trainingforICTtoolsandtechnologysuchasstatisticalsoftware,MSoffice, LCDand isencouraged in teaching learningand evaluation process.

6.4.6.SupervisionofstudentsinUGprogrammes: NotapplicabletoB.Sc(Hons.)ForestrydegreeProgram.

6.4.7. Feedback of stakeholders: The performance of an average score of various parameterwere rated on the scale from 1* to 5* on the basis of feedback parameters(AnnexureI)

S.No.	Numberofpassedout studentawardedUG degree	FeedbackMechanism	Feedbackissues
1.	Eight(12) Year(2017to2020)	Feedback form(**supported bythedocuments**)	Received feedback from 12 studentswith averagescoring(2.2)* indicating '**Very Good'**from thefeedback parameters.
			Issues: Some of the issues that haveraisedfromthestudentsthroughfeedbacklikeinternetfacilities,free onlineresearchjournals,offcampus

			studytourandstrengtheningofboththeteachingandnon-teachingstaffs wereaddressed.

(*1- Excellent,2- Verygood,3- Good,4- Fair,5- Poor)

Action:Feedbackevaluationandsuggestionsgivenbystudentsandalumniarediscussed with the members of the college advisory committee of concern course andnecessarychanges havebeen accomplished asbelow:

- Strength of thefaculty of coreand allied departmentshasbeen upgraded.
- Collegehaswell-equippedComputerlabwith24hoursx7days/weekfreeInternetaccess(34 Mbps) to students.
- Hostelsareprovided with computersystemfortheir research/academicpurpose.
- UGstudentsarewellfacilitatedwith virtualplatform.

6.4.8. Studentintakeandattritionintheprogrammeforthelastfiveyears:

Year	DegreeProgram	Intake capacity	ActualStudent admitted	Attrition (%)
2016-17	B.Sc(Hons.)Forestry	30	19	-
2017-18	B.Sc(Hons.)Forestry	30	19	-
2018-19	B.Sc(Hons.)Forestry	30	22	-
2019-20	B.Sc(Hons.)Forestry	30	25	-
2019-20	B.Sc(Hons.)Forestry	35	30	3.3

Student attrition: In general, the student attrition is nil and the retention of the studentsisvery high in thiscollege.

6.4.9. ICTApplicationinCurriculaDelivery:

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of80 square meter. The students are being taught about the IT facilities. The computercentreisequippedwithDesktopsfortheuseofstaffandstudentsofthisinstitute.Allthesedesktops andlaptops are connected with internet for browsing. Since October,2020the computer centre is connected with 24x7 34 Mbps, Internet Accessthrough BSNL.Thefacilitiesavailablein thecomputerlabare:

- 24 hoursx7days/week free Internet access(34 Mbps)tostudents
- Wi-FienabledatNewAcademicBlock(since2015) to usee-communicationsfor studentsand staffs.
- Studentsaretrainedto installopen sourcesoftware.
- Computerswith Internetaccessareavailablein alldepartments.

- Academicbuildings arelinkedwithAdministrativebuildingthroughOpticFiber Cable.
- Totalnumberof computersforpublicaccess:15
- Totalnumbersof printersfor publicaccess:02
- Internetbandwidth/speed:34MbpsthroughBSNL
- Thelabisused forconducting PracticalclassesforUGand PGstudents.
- StudentsalsousetheComputerLabfortheirresearch,statisticalcalculationand other academicactivities.
- Theacademic,research,extensionactivitiesofthecollegeareupdatedatthecollegewebsite.

(b) The **Library** of the college is equipped with internet facilities for staff andstudentstoaccessOPAC(OnlinePublicAccessCatalogue)URL=www.chfcau.ideal.egranth.ac.in.

- Two Software are available : (i) Alice for Window (Softlink Asia pvt.ltd)Offlineand (ii)KohaLibrarymanagementSoftware
- ElectronicResourceManagementpackagefore-journalsAccessthrough CeRAICAR (Consortiafore-Resourcesin Agriculture):www.cera.jccc.in
- CAB database:accessfacility(CAB datafrom1972 to2005)
- Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. andPh.D.Thesesuploaded.Itisopenrepository.URL:Krishikosh.egranth .ac.in
- Libraryautomation:underprocessthroughKohaLibrarymanagementsoftware
- Totalnumber of computersfor publicaccessin library:06
- The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos**. ofsmartclassroomsfor teachingand practicalpurposes.

(c) Language Laboratory:

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present assistant professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.)

Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well-qualified English teacher is enaged to conduct the English classes. The concerned course incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are acoustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatmt Gandhi Jayanti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Prof. B.N. Hazarika hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Action taken: Feedback highlighted the requirement of more opportunities in college Research activities with relevant practical classes which could be improved through collaborative research with various research institutes through short period exposure and learning in their laboratories. The laboratory upgradation is in initial stages and with subsequent funding programs and projects would be useful in providing advance facilities in the college also.

*Please give your valuable feedback on curriculum to improve quality of the programme. Select your ranking on the scale of 1 to 5 for each of the following parameters. (1- Excellent, 2- Very good, 3- Good, 4- Fair, 5- Poor)

Recommendations if any for course improvement :

1. **Introduce technology in the classroom** i.e., Using videos, free online resources and digital tools that can be easily implemented in the classroom. As students they are more adept with technological skills, so by integrating technology into the classroom it will instantly help students to learn better and faster.
2. **More Opportunities in the College for Research Activities & Relevance with Practical / Lab work** i.e., to invest in research. Due to lack of resources such as tools, implements and also lack of proper laboratory, a student is unable to perform his/ her research in a proper manner. Therefore, Investment in research is needed as it helps in improvement of institution's reputation not only that but also a good research work does help in the future of a student.

Action taken: Feedback highlighted the requirement of more ICT tools for smart classes, which is now available in our college. These smart classrooms are well equipped with digital setup including projectors, smart screens and digital sensor touch writing pads etc. research activities with relevant practical classes which could be improved through collaborative research with various research institutes through short period exposure and learning in their laboratories. The college is also under the process of improving wifi facilities with high internet speed data.

6.4. Self Study Report for M.Sc. Forestry (Silviculture)**, M.Sc. Forestry** (Forest Genetic Resources) and **M.Sc. Forestry** (Medicinal and Aromatic Plants)

Brief History of the Degree Programme:

The college was inaugurated on 7th March, 2001 and started functioning from the academic year 2001. The Postgraduate degree programmes in Forestry are being offered from the academic year 2015. This college is located in a serene atmosphere at Pasighat, vicinity to the mighty Siang river, which is 2.5 km from Pasighat town. The College is spread over an area of 145 acres. The prime objectives of this College are imparting Horticulture and Forestry education and meeting the research and extension needs of the NE Region. The postgraduate programme is conducted with strength of 2 students in eachdiscipline totalling to 6 students per year. This institute offers a fellowship of Rs.3000/- toall the postgraduate students who are admitted in this college. At present, each and every department is headed by a Professor/Associate Professor and staffed with well qualified and highly experienced faculty. Many staffs are the alumni of this institution, where they were nurtured and trained. The core and allied departments of forestry are engaged in teaching, research and extension activities with the aim of development of forestry sector, agroforestry interventions and human resource development the NE Region. The objective and accomplishments of the forestry departments are:

- ✓ To impart quality education for the postgraduate in forestry and its allied sciences.
- ✓ To further the advancement of learning by undertaking research in forestry toovercome the new challenges and develop new technologies.
- ✓ To strengthen the applied research in different disciplines of forestry.
- ✓ To undertake the programmes of extension education in the states under the jurisdiction.
- ✓ To undertake such other activities as it may deem fit from time to time.

1. DEPARTMENT WISE OBJECTIVES

a) Silviculture and Agroforestry

- To impart knowledge on regeneration and cultivating forest tree species.
- To conduct research on nursery and seed technology.
- To develop afforestation techniques and raising of site specific treebased agroforestry/farming systems.

- To accustom the State Forest Department/farmers/orchardists and other government/semi-government agencies with modern techniques of tree management..

b) Tree Improvement and Plant Breeding Genetics

- To survey the geographical area for selection of genotypes.
- To develop and enrich the available resources for further deployment.
- Management of forest genetic resources in the Eastern Himalayas.
- Characterization of forest tree species inNortheastern Himalayan hardwoods,softwoods, important shrubs and bamboos.
- Transfer of technology in the usage of superior genetic material for higherproductivity to end users like State Forest Department, NGOs and farmers.
- To carry out the various programmes tree improvement, forest genetic resources and forest ecology.

c) Forest Product Utilization

- Inventorisation and documentation of Non Timber Forest Product (NTFP)wealth of the state including traditional knowledge.
- Conservation and domestication of Non Timber Forest Product (NTFP) ofNorth-eastern States.
- Development of agro-techniques and chemical extraction techniques for NonTimber Forest Product (NTFP).
- Evaluation of wood characteristics of trees.

2. ACCOMPLISHMENTS

The overall performance of the CHF students in the competitive examination and employment ability has enhanced due to excellence guidance and support provided for their academic, administrative and research endeavours. The students have exceled in different National level competitive exams. The college has set-up a Placement Cell (*Student Welfare Section*) for the students which opens the doors for getting employment in the various organizations. The passed out students are working as Assistant Technology Manager (ATMA), Scientist in ICAR, and are placed in reputed positions in government and corporate sectors. Some are progressing to higher education and working as Research fellows in different institutes/universities.

6.4.2. Faculty Strength

F	***Department of Natural Resource Management***			
16	Professor	1	-	1
17	Associate Professor	2	-	2
18	Assistant Professor	2	-	4

*Contractual (Assistant Prof.)

As per the Faculty strength recommended by the ICAR/UGC/VCI/Other regulatory bodies, a total of 50 teaching staff are to be placed. However, the University has filled 38 regular teaching faculty post and 12 post are still vacant. Recently, a total of 3 nos. of faculties have been transferred to other constituent colleges of the University (CAU) and 6 nos. of faculties have been placed in higher position in other Universities.

6.4.3. Technical and Supporting Staff

The technical staff are attached with the office of the Dean for administrative, convenience and they are allotted to other departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. At present, the college has 127 technical and supporting staffs and 59 are vacant. However, additional charges are assigned to 7 faculties, 01 contractual recognized medical practitioner and 10 MTS assigned with specific duty. All the vacant post will be filled in due course as additional staffs are required for the overall development of the college. The details of staff involved are listed below:

Technical and Supporting Staff

6.4.4 . Classrooms and Laboratories:

a) **Number of class rooms**:13

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board etc. are available in each class room for the use of teachers. A common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

b) **Functional laboratories** (Forestry & allied) :13 nos.

S.No.	Department/Section	Area (Sqmtr)	Remarks
1	***Silviculture & Agroforestry***		
	(i) SAF Laboratory	98	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
2	***Forest Product Utilization***		
	(ii) Medicinal and Aromatic Plants Laboratory	160	Equipped with all the modern equipment's for practical, sitting arrangements, Distillation, extraction facilities, etc.
	(iii) Wood Products and Utilization Laboratory	90	Facilities for characterization of morphological, anatomical, mechanical & chemical properties of timber. Other work carried out -wood design, fabrication ,etc.
3	***Tree Improvement & PBG***		
	(iv) TIM Laboratory	72	Equipped with instruments for research &practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals..
4	***Basic Sciences***		

	(v) UG Basic Science Laboratory	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	(vi) PG Basic Science Laboratory	28	
	(vii) Tissue Culture Laboratory	47	
	(viii) Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 34Mbps.
5	***Plant Protection***		
	(ix) Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	(x) Entomology (IBDC) Laboratory :	85	
	(xi) Pathology Laboratory (Mushroom): (Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
6	(xii) Pathology (Mushroom inoculation):	45	For inoculating mushroom. The laboratory is also equipped with culturing and spawns production
	Natural Resource Management		
	(xiii) Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG, P.G and Ph.D) of Agriculture, Horticulture and Forestry.
7	Department of Floriculture (O & MAP) (xiii) Floriculture laboratory	90	The laboratory is equipped to conduct classes on identification and description of annuals, binneals,

			herbecius perenials, climbers, shurbs, trees, indoor plants, planning and designing

c) Lists major equipment:

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/equipments available in the laboratories are furnished below.

(i) Department of Silviculture & Agroforestry

(d) Farm facilities, workshops and other instructional units:16 nos.

S.N	Department/Section	Area (Sq.mtr.)	Facilities
1	***Silviculture & Agroforestry***		
	(i) Silviculture Nursery	9100	• Nursery raised bed= 70 Nos. • Shade net house (5x1.5m) =30 Nos. • Green Net House (9mx16.5mx 5.5m) • Tree Garden/ Collection of 250 species of tree species forresearch/academic • PG Research plots for germination exp • Plantation Blocks of diff.species

			• Water Pump with motor , Irrigation & electricity setups
	(ii) Agroforestry Block	2100	• Compost (concrete) pit • PG Research plots under different spacing's of diff.species & diff. age.
2	***Forest Product Utilization***		
	(iii)Medicinal & Aromatic plant farm (iv)Medicinal plant germplasm block	12000	• Germplasm of Medicinal Plants • Collection of rare & endangered spp. • PG research plots • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
	(v) Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
	(vi) Bambusetum block	8000	• 67 spp. of different type of bamboos • Research, conservation & identification purpose
	(vii) Rubber plantation block	20000	• Commercial genotypes of high yielding *Hevea brasiliensis*
	(viii) NTFPs & High value timber block	25000	• Tans & dye yielding plants • Lac, Gums and resins plants • Drugs, spices and insecticides plants • Wild edible fruits trees
3	***Tree Improvement & PBG farm***		
	(ix) TIM & PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq. mtr • Irrigation & electricity setups
4	***Plant Protection***		
	(x) Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor , Irrigation & electricity setups
	(xi) Entomology (IBDC) Farm	2023	• All equipments of beekeeping • Irrigation facility • Plots for nectar yielding plant

	(xii) Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds
			• irrigation & electric facilities.
	(xiii) Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species.
5	***Natural Resource Management***		
	(xiv) Forest Engineering Facility (xv) Farm Power & Irrigation Infrastructures	1500	• Runoff Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Laks Litters Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m ×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
	(xvi) Agrometerology Observatory	500	• Meterological observation data for Research and Academic purpose

(e) Justification:

The laboratories of all departments are well equipped with all the necessary equipments and facilities to accomplish the proposed research activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. TheFarm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farmimplements for day to day work and research purpose to meet the course curricula and research requirements.

(f) Theory and practical batches for the Degree Programme: The number of intake students are manageable due to limited number of seats. Average number of students in

theory & practical classes

S.N.	Particulars of curricula	Batch of student in *Theory* class	Batch of student in *Practical* class
1.	Forestry (Major)	1 batch (6)	1 batch (6)
2.	Supporting courses	1 batch (6)	1 batch (6)
3.	Forestry (Silviculture)	1 batch (2)	1 batch (2)
4.	Forestry (Forest Genetic Resources)	1 batch (2)	1 batch (2)
5.	Forestry (Medicinal & Aromatic Plants)	1 batch (2)	1 batch (2)

The class rooms and laboratories are sufficient to meet course curricula requirement of the degree programme.

6.4.5. Conduct of Practical and Hands-on-Training:

- On the basis of academic calendar prepared by the university for the academic session for the effective implementation of the curriculum, the theory and practical classes are conducted at the experimental fields and laboratories of the forestry and allied departments. The PG courses involve conducting practical's as per credits allotted to the specified courses and hands on training and field/lab practical's for courses like Silviculture, Biometry, Agroforestry, Plantation Technology, Tree Improvement, Forest Biotechnology, Wild Life Management, Forest Protection, Watershed Management, Wood Products and Utilization, Forest Management, etc.
- Besides in-house projects, PG students are sent as and when require by the college to reputed institutions to complete their research projects or vital topics under curriculum. Taking students for field surveys/institutional/industrial visits not only provide practical exposure to students but also help in proper networking and interaction between the college and research institutions/ industries.
- Hands-on-training for ICT tools and technology such as statistical softwares, MSoffice, LCD and is encouraged in teaching learning and evaluation process.
- PG students are encouraged to participate in conferences, seminars, workshops, brainstorming etc. and also asked to write reviews in reputed National/International journals.

6.4.6. Supervision of students in PG/PhD programmes: (number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

S.No	Department	Qualified faculty	Present nos. of students	Intake, as per guidelines		
				Asstt. Professor	Asssoc. Professor	Professor
1.	Silviculture & Agroforestry	1	2	4	5	6
2.	Forest Product Utilization	3	2	4	5	6
3.	Tree Improvement & PBG	2	2	4	5	6

6.4.7. Feedback of stakeholders: The performance of an average score of various parameterwere rated on the scale from 1* to 5* on the basis of feedback parameters (Annexure I)

S.No.	Number of passed out student awarded PG degree	Feedback Mechanism	Feedback issues
1.	Eight (12) Year (2017 to2020)	Feedback form (**supported by the documents**)	Received feedback from 07 students with average scoring (2.14)* indicating'Very Good' from the feedback parameters.
			Issues: Some of the issues that have raised from the students through feedback like internet facilities, free online research journals, off campus study tour and strengthening of both theteaching and non-teaching staffs were addressed.

(*1- Excellent, 2- Very good, 3- Good, 4- Fair, 5- Poor)

Action:Feedback evaluation and suggestions given by students and alumni are discussed with the members of the college advisory committee of concern course and necessary changes have been accomplished as below:

- Strength of the faculty of core and allied departments has been upgraded.
- College has well-equipped Computer lab with 24 hours x 7 days / week free Internet access (34 Mbps) to students.
- Aids to online research like Electronic Resource Management package for e-journals Access through CeRA, CAB data base: access facility and Krishikosh are available to the students.
- Hostels are provided with computer system for their research/academic purpose.

- PG students are well facilitated with virtual platform.

6.4.8. Student intake and attrition in the programme for the last five years:

Name of the degree programme	Actual student admitted in last five years					Attrition (%)				
M.Sc. Forestry	2016	2017	2018	2019	2020	2016	2017	2018	2019	2020
Silviculture/ Plantation Technology	1	2	2	1	2	-	-	-	-	-
Forest Genetic Resources	-	1	1	2	1	-	-	-	-	-
Medicinal & Aromatic Plants	-	-	1	1	1	-	-	25*	-	-

*One (01) student attrition i.e. 25%

Student attrition: In general, the student attrition is very low and the retention of the students is very high in this college.

6.4.9. ICT Application in Curricula Delivery:

(a) The college has well-equipped air conditioned **Computer lab** with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October,2020 the computer centre is connected with 24x7 34 Mbps ,InternetAccess through BSNL . The facilities available in the computer lab are:

- 24 hours x 7 days / week free Internet access (34 Mbps) to students
- Wi-Fi enabled at New Academic Block (since 2015) to use e-communications for students and staffs.
- Students are trained to install open source software.
- Computers with Internet access are available in all departments.
- Academic buildings are linked with Administrative building through Optic Fiber Cable.
- Total number of computers for public access: 15
- Total numbers of printers for public access: 02
- Internet band width/ speed: 34Mbps through BSNL
- The lab is used for conducting Practical classes for UG and PG students.

- Students also use the Computer Lab for their research, statistical calculation and other academic activities.
- The academic, research, extension activities of the college are updated at the college website.

(b) The **Library** of the college is equipped with internet facilities for staff and students to access OPAC (Online Public Access Catalogue) URL =www.chfcau.ideal.egranth.ac.in.

- Two Software are available : (i) Alice for Window (Softlink Asia pvt.ltd)Offline and (ii) Koha Library management Software
- Electronic Resource Management package for e-journals Access through CeRA ICAR (Consortia for e-Resources in Agriculture): www.cera.jccc.in
- CAB data base: access facility (CAB data from 1972 to 2005)
- Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses uploaded. It is open repository. URL: Krishikosh.egranth .ac.in
- Library automation: under process through Koha Library management software
- Total number of computers for public access in library:06

- The College of Horticulture and Forestry, Pasighat has upgraded to **2 Nos.** of smart classrooms for teaching and practical purposes.

(c) Language Laboratory:

The language laboratory has been established with the approval under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NAHEP) recently. At present assistant professor (sub: English) is looking after the language laboratory. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory set up consists of computer assisted language support system with multimedia hi-tech language laboratory for language teaching. The students will be trained in advanced writing skills in terms of assignment and report preparation. The students have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills. The medium of instruction in the college is English. As per V Dean's committee recommendation during the first semester of B.Sc (Hons.) Horticulture & B.Sc (Hons.) Forestry, two credit (1 theory and 1 practical) course on communication skills and personality development and 1 non-credit (practical) course on comprehension skills in English are offered. A well-qualified English teacher is enaged to conduct the English classes. The concerned course

incharge use recommended text books, online audio and video clippings. However, students from non-english medium of instruction are acoustomed comfortably by conducting extra class hours and personal care by academic advisors. In addition, SWO and NSS in-charges conduct various literary competitions such as debate, elocution, essay writing competition on various occasion *viz*., Republic Day, Independence Day, Dr. B. R. Ambedkar Jayanti, Mahatmt Gandhi Jayanti, College Day functions and other important events to encourage students to develop their language proficiency. Also, teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

Facilities in Language Laboratory

Computer	**32**
LCD with screen	3
LED TV	7
Audio systems	3
Podium	2
Zoom Platform link for online classes	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Prof. B.N. Hiregoudra hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

Practical / Lab w[illegible] due to lack of resources such as tools, implements and also lack of proper laboratory, a student is unable to perform his/ her research in a proper manner. Therefore, Investment in research is needed as it helps in improvement of institution's reputation not only that but also a good research work does help in the future of a student.

Date: 18-05-2021 Signature of the student

Action taken:

- Feedback highlighted the requirement of more ICT tools for smart classes, which is now available in our college.
- These smart classrooms are well equipped with digital setup including projectors, smart screens and digital sensor touch writing pads etc. research activities with relevant practical classes which could be improved through collaborative research with various research institutes through short period exposure and learning in their laboratories.
    - The college is also under the process of improving wifi facilities with high internet speed data
    - Classes along with hands on training also been conducted for better explanation of the concepts and fundamentals of the subject.

5.	Curriculum has prospects for supporting higher education, career oriented/employability.	3
6.	Overall Learning Experience	2

*Please give your valuable feedback on curriculum to improve quality of the programme. Select your ranking on the scale of 1 to 5 for each of the following parameters. (1- Excellent, 2- Very good, 3- Good, 4- Fair, 5- Poor)

Recommendations, if any, for course improvement: Need for adoption of an answer system where answers to each question are to be written within a specified word limit (as practiced in UPSC Main examinations). This will make students more mature to complete the answer while maintaining the word limit.

6.5.1. College Administration

6.5.1.1. College Dean's Office Establishment

The Dean's post has been sanctioned by the competent authority as per ICAR guidelines, and the tenure is for five (5) years. At present, no full-fledged Dean has been appointed, and the college is under the administrative control of Dr. Puspita Das, Professor and HOD, as In-Charge Dean.

In the Dean's office, there are two administrative Staff – one Assistant Registrar (Establishment) and one Assistant, along with two Multi-Tasking Staff (M.T.S.).

There is a separate Dean's chamber and two other rooms for the staff. There are basic provisions including Telephone, tele-fax, Computer with printer, photocopier, and internet facility.

Date of selection of present Dean	:	N.A.
Mode of selection	:	Nomination (complete charge was given by the competent authority of Central Agricultural University, Imphal)
Tenure	:	Till the appointment of a regular Dean

The Dean's office is well equipped & furnished along with computers having adequate internet connection. Printers, scanners, photocopying machines, an inverter, and telephones are available to facilitate their daily official activities.

6.5.1.2. Monitoring Mechanism for Quality Education (on-line)

The college has a Priority-Setting, Monitoring and Evaluation (PME) Cell comprising of the following members

Prof. Puspita Das	Ic. Dean	Chairperson
Dr. A. Jolly Devi	Assistant Professor	Member
Dr. H. Narmada	Assistant Professor	Member

The members are nominated by the Ic. Dean and duly approved by the university. The primary objective of the PME Cell is to plan and develop a system to improve the academic and administrative performance of the college. The cell works to promote measures towards quality enhancement through proper work culture and propagation of ethical practices. It also monitors the functioning of all the committees and cells of the college including the College Research Advisory Committee (CRAC), Academic Cell, and Extension Advisory Committee.

Due to paucity of manpower, responsibilities are delegated to faculty members to ensure the fulfillment of the purpose of this important monitoring and evaluation work. As the university mandates the college to carry out teaching, research and extension activities, different faculty members have taken additional responsibility to monitor these three activities.

(i) Teaching

For smooth conduct of teaching and all academic-related work, a faculty member is nominated as Assistant Registrar (Academic)/Academic In-charge to monitor all academic activities including admission, examination, scholarship, etc.

The courses are assigned before the beginning of each semester by the respective departments after due consultation and discussion among the faculty members. A strict monitoring on the minimum number of instructional days that are to be covered for each course is diligently done by the Academic In-charge and the Dean. The teachers maintain an attendance register and ensure that the students attend the required number of classes (80%). Whenever teachers avail leave, classes are adjusted among themselves.

Classes are usually scheduled regularly between 8:30 a.m. to 5:00 p.m. with a half-an-hour lunch recess. Library work is also encouraged to inculcate reading and note-making habits in the students.

The examination system comprises of 50% internal evaluation and 50% external for both practical and theory components. The students are made to submit assignments and also give presentations on topics encompassing the course outline provided in the Fifth Deans' Committee Report. Surprise and scheduled oral and written class tests are also conducted before and after the mid-term examination. Revision is also

done before the commencement of the end-term examination. Special classes for the weaker students are also taken by the teachers.

In the eighth semester, a committee is constituted to monitor the coaching classes that are taken for the final year students who are due to appear in the ICAR-JRF examination. As part of their preparation, frequent mock-tests are conducted by the teachers on the respective components. This has proved beneficial going by the results in the said examination. Details of the students' performance in the ICAR-JRF examination is shown under 6.5.7.1.

Presently, under the National Agricultural Higher Education Project (NAHEP), remedial measures to improve the English communication skills of the students are being taken starting with the categorization of the students into Good, Average and Weak based on the Cumulative grade point. A Language Instructor, appointed under the project, takes remedial classes, and literary competitions are frequently held to encourage students to develop confidence in public speaking and other soft skills. A Senior Research Fellow (SRF), appointed under the same project, plays a vital role in organizing various programmes for students and faculty like webinars on different themes, lecture series, personality development programmes, training to improve communication and interview skills, and literary activities like quizzes and poetry recitation. Programmes on gender sensitization, environmental issues, sustainable agriculture, start-ups and related constraints, career opportunities in Home Science, are also held.

As the college follows an Advisory System, the Dean of the college nominates a teacher to be the advisor for a group of students within 10 days of admission to monitor the performance of the students, and to counsel them at least once a week or whenever the need arises.

(ii) Research

To monitor, encourage, and evaluate research activities in the college, a College Research Advisory Committee (CRAC) is constituted comprising the following nominated faculty members:

1. Chairperson: Prof. Puspita Das, I/C Dean
2. Coordinator cum Member-Secretary: Prof. Swapnali Borah, HOD (FRM)
3. Member: Dr. Ranima Saikia, Asst. Prof. (FRM)
4. Member: Dr. Pavan Kumar S.T., Asst. Prof. (Basic Science & Humanities)

(iii) Extension

To plan, monitor, encourage, and evaluate extension activities in the college, an Extension Advisory Committee is constituted with the following nominated members:

Sl. No.	Name and Designation	Nominated Post
1.	Dean / Ic. Dean	Chairperson
2.	All HODs of the departments of the college	Members
3.	Two external experts nominated for a term of three years by the university	Members
4.	Programme Coordinator, KVK, West Garo Hills District (WGH), Tura	Member
5.	One farmers' representative and one Social Worker of the concerned state where the college is located	Members
6.	Nominees of the 4 (4) line departments of the concerned state 1. District Agriculture Officer, WGH, Tura 2. District Horticulture Officer, WGH, Tura 3. District Training Officer, WGH, Tura 4. District Industries Officer, WGH, Tura	Members

7.	One HOD of any department of the college nominated by the university for a term of three (3) years	Member

6.5.1.3. CC/Board of Studies

The Board of Studies of the college was first constituted in 2011 as per the provisions provided in the Central Agricultural University Act, 1992 (No. 40 of 1992) clause 16 (vide first amendment made as per Gazette notification, vide Registered No. DL (N)-04/0007/2003-5 dated July 15-July 21, 2006). The composition of the Board of Studies is as follows:

Sl. No.	Composition	
(i)	Dean of Faculty	Chairperson
(ii)	Director of Instruction	Member
(iii)	Director of Research	Member
(iv)	Director of Extension Education	Member
(v)	All Heads of department	Member
(vi)	One representative of the Academic Council not belonging to the particular faculty.	Member
(vii)	Two eminent Scientists from Agricultural Education System not belonging to the Central Agricultural University.	Experts
(viii)	One final year post graduate student with highest Overall Grade Point Average (CGPA).	Member
(ix)	Assistant Registrar (Academic) of the faculty	Member

The meeting of the Board of Studies is held every year on receipt of the notification from the headquarter before the annual Academic Council Meeting. Different agenda related to the 4(four) year degree programmes viz., B.Sc. (Hons.) Community Science, B.Sc. (Hons.) Food Nutrition & Dietetics, and Post-Graduate Programme in Food Science and Nutrition and Extension Education & Communication Management are proposed for discussion. The agenda items approved by Board of Studies are taken up in Academic Council for discussion. After receiving approval from the Academic Council, the changes/recommendations are implemented in the academic programme of the college.

The various meetings of the Board of the Studies conducted at College of Community Science, Tura, Meghalaya in last five years include

Sl. No.	Meeting held	Date	Major Recommendation(s)
1	3rd (Third) Meeting	May 6, 2015	➢ The College proposed for the introduction of Experiential Learning in three departments – Food and Nutrition, Home Science Extension and Communication Management and Family Resource Management. ➢ Introduction of Post-Graduate Programme in Food Science and Nutrition (AC-14/4/2015), Post-Graduate Programme in Home Science Extension and Communication Management (AC-14/5/2015), Post-Graduate Programme in Family Resource Management (AC-14/6/2015), opening an English Language Laboratory.

2	4th (Fourth) Meeting	August 26, 2016	➢ Ratification for the implementation of the Fifth Deans' Committee Report, nomenclatures of the degree programmes and Student READY Programme.
3	5th (Fifth) Meeting	April 28, 2018	➢ Ratification to change the name of the college, proposal for financial sanction to open an English Language Laboratory. ➢ Proposal for introduction of P.G. degree programme in Family Resource Management. ➢ Proposal for introduction of a Certificate course in Food Retailing. ➢ Proposal for upgradation of Laboratory Nursery School and appointment of temporary staff. ➢ Proposal for ratification to allot seats under open admission to the State of Nagaland.
4	6th (Sixth) Meeting	June 1, 2019	➢ Proposal for ratification to bifurcate course Communication Skills and Personality Development, Proposal for ratification to increase credit hours of the course technical writing ➢ Proposal for ratification of courses in view of the increase in total credit hours ➢ Proposal for ratification to increase total credit load of B.Sc. (Hons.) Food Nutrition and Dietetics from 172 to 180. ➢ Proposal for ratification to establish I.Q.A.C. ➢ Proposal for introduction of P.G. degree programme in Family Resource Management. ➢ Proposal for introduction of P.G. degree programme in Human Development and Family Studies.
5	7th (Seventh) Meeting	30th April 2020	➢ Proposal to merge the current semester's Mid-term and End-term Examinations for the courses which are not conducted. ➢ Proposal for substitution of course entitled RAWE 10(0+10) with individual project. ➢ Proposal for internal paper setting for End-term Examination for current semester January – June 2020. ➢ Proposal for exchange of semesters of B.Sc. (Hons) Nutrition and Dietetics

			4th year. ➢ Proposal for approval to run lower Kindergarten in Laboratory Nursery school during current year with existing man power and infrastructure of Human Development and Family Studies.

In 2020, four Academic Council meetings were held through online mode to brainstorm and plan the academic schedule of the university owing to the prolonged lockdown imposed due to the spread of Covid 19. As the meetings were usually urgent, the meeting of the Board of Studies could not be conducted prior to those meetings.

6.5.1.4. Anti-Ragging Cell

In accordance with *"UGC Regulations on curbing the Menace of Ragging in Higher Education Institutions, 2016"* Anti-Ragging Committee of the College of Community Science, CAU, Tura, Meghalaya, is formed every year at the beginning of the new Academic Session.

The Anti-Ragging committee comprises

1. Head of the Institute : Chairman
2. Senior Faculty : Co- Chairman
3. In-charge of Police Department : Member
4. Representative of NGO, Women Social Welfare Organisation : Member
5. Representative of Faculty & Non- teaching Staffs : 5 members
6. Student Welfare Officer : Co-ordinator
7. Representative of Students : 3 members

The committee functions as stipulated in "UGC regulations on curbing the menace of Ragging in Higher Educational Institutions, 2016" and is overall responsible for ensuring compliance with the provisions of the regulations specified therein, as well as, the provisions of any law for the time being in force concerning ragging.

Similarly, in accordance with *"UGC Regulations on curbing the Menace of Ragging in Higher Education Institutions, 2016"* Anti-Ragging Squad of the College of Community Science, CAU, Tura, Meghalaya is constituted every year at the beginning of the new Academic Session. Squad comprises of Teaching, Non-teaching and student members. A notification containing details of the Anti-Ragging Committee is displayed on the notice boards in the hostel and college.

At the time of admission in the first year, an undertaking from each student is taken in a stamp paper. Similarly, the students have to upload the undertaking on-line in the UGC Anti-Ragging portal. The major highlights of the anti-ragging act have been placed in the college and hostel premises.

The Anti-Ragging Committee frequently visits the hostel, and the Anti-Ragging Squad members visit the hostel daily in the months following new admission of students, to detect and curb any ragging activities. The responsibility of the committee is to submit a report(s), in the event of the detection of any form of ragging. During the visits to the hostel, the squad and committee members interact with the students to spread awareness on the provisions of anti-ragging. Through counseling, the students are also made aware of the different provisions of the UGC Anti-Ragging law. Banners and boards dissuading students from indulging in ragging activities are also displayed at prominent locations of the college.

6.5.1.4.1 Details of ragging-related complaints received in the last five years

Sl. No.	Subject	2016-17	2017-18	2018-19	2019-20	2020-21
1.	No. of complaints of ragging received during year	Nil	Nil	Nil	Nil	Nil
2.	No. of complaints disposed-off received during year	Nil	Nil	Nil	Nil	Nil
3.	No. of cases pending for more than 90 days	Nil	Nil	Nil	Nil	Nil
4.	No. of workshops on awareness programme against ragging conducted during the year	One awareness programme is held every year.				

6.5.1.5. Biological Waste Disposal facility

The college has made provisions to dispose garbage at various places in the campus for collection of biological waste. Under ICAR-NAHEP, two Automatic Sanitary Napkin vending machines, two automatic Sanitary Napkin disposal machines, and two exhaust pipes have been procured. The college also has engaged municipal garbage collectors to collect the waste for proper treatment. Green and blue coloured dustbins have also been installed at various locations to dispose biodegradable and non-biodegradable waste. An equipment to safely dispose solid and liquid laboratory waste is also used.

6.5.1.6. Institutional Ethics Committee for Experiment on Animals

Yes, an Institutional Ethics Committee has been constituted and is adhering to all guidelines related to the matter.

6.5.1.7. Committee for Prevention of Sexual Harassment on Women at Workplaces

At the college level, a 'Complaints Committee for Prevention of Sexual Harassment of Women at Workplace' is in place. The committee enquires into all complaints regarding sexual harassment on campus of female staff and students of College of Community Science, Tura. The composition of the meeting is mentioned below. Though no complaint has been received during last five years the Cell has organized awareness and lecture series on sexual harassment at work place. The composition of the Committee including the meeting(s) held in the last five years are

Sl. No.	Composition		Meeting(s) Held in last Five years
1	Head of the Institute	Chairperson	23rd February, 2015
2.	Two nominated external members from nearby educational institutes	Members

6.5.3. Learning resources

6.5.3.1. College Library (Digital)

Location of Library: The College Library is located on the northern side of the Administrative Block.

Present Staff Position:

Staff position / Post	Number
Senior Library Assistant	1
Library Assistant	3
Library Attendant	2

Availability of Wi-Fi: The library is connected to the college Wi-Fi networking system.

Sufficient Books and Other Reading Materials: Books and other reading materials are well-stocked and the collection is satisfactory. It also has sufficient numbers of Journals and periodicals.

Internet with sufficient numbers of Computers: The library has internet connection that is used for various purposes. Although there are no separate computers for the students in the library, there are adequate IT facilities in the IT lab and in the Language Lab to meet their requirement.

Seating Capacity: 60 users can be accommodated in the reading hall at a time.

Employing the latest Technology in Library Science: The library is using KOHA Library software.

Stocking Arrangement: Stocking of books and other reading materials is done Department and Subject-wise.

Collection of Volumes on different subject: The library has a wide range of collections on various subjects and the total currently stands at **6877**.

Latest Publications in the field of relevant subject: In the last five years, the number of publications added to the library's collection only for the Community Science disciplines are

Year	Number
2016-17	273
2017-18	31
2018-19	40
2019-20	29
2020-21	55
Total	428

Automation and User services through Computer: The library is fully automated with KOHA library software and database entries of all collections have been completed as of now. Circulation section of Issue return and users Card are all done through Barcode. OPAC (Online Public Access Cataloguing) service is provided to all users.

Opening Hours: Official Timing is from 9:00 AM to 5:00 PM but as per the students' request the said timing is always extended to meet their information requirements. The hostel also has a library and a reading room to augment the requirement of the students.

Subscription to Journals:

National Journals	16 Print Journals
International Journals	1 International Journal

In addition to the above Print Journals, the library has subscribed to CeRA online e-journals where all the reputed National and Internationals journals are available for the users.

National Dailies	2
Local Dailies	1
Periodicals	12

Library Committee Meetings: The Library Committee is headed by the Dean as Chairperson along with three nominated faculty members as executive members, and the Senior Library Assistant as a member. The Committee takes decisions on the functioning of the library in order to provide the best service to its users and conducts meetings as and when required. The library frequently takes feedback and suggestions from all stakeholders.

6.5.3.2. Laboratories, Instructional Farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds etc.

i. Laboratories, farms, etc.

1.	Biological waste disposal facility	Mechanism: ➢ The campus waste disposal facility [RCC bins] are already installed where the staff and students dispose waste within the campus. Employees of the Tura Municipal Board, Government of Meghalaya, collect the waste from the campus to further dispose it in the waste dumping ground. ➢ Portable green and blue coloured dustbins have also been installed at various locations to dispose biodegradable and non-biodegradable waste. ➢ An equipment to safely dispose solid and liquid laboratory waste is also used.
2.	Laboratories, Instructional farm, workshops, Dairy Plant, Veterinary Clinic, hatchery, Ponds, etc.	*Instructional Farm:* One (1) Green Polyhouse (100 sqm); Nine (9) Bee Keeping Boxes (Apiary); One (1) Mushroom Unit; One (1) Vermicompost Unit; One (1) Nutritional Garden One (1) Fish Pond (405sqm) which is under construction; One (1) Dairy Plant (251.30 sqm) which is under construction; One (1) Poultry shed (251.30 sqm) which is under construction. *Laboratories:* The Department of Food & Nutrition has 5 laboratories namely, Food Analysis lab, Food Preservation lab, Catering Management Lab, Cashew Nut Processing Unit, Food Science and Nutrition lab.

		The Department of Family Resource Management has 3 laboratories namely, Interior Enrichment lab, Household Equipment lab, Housing & Space management lab. The Department of Extension Education and Communication Management has 2 laboratories namely, Instructional Technology lab and Technology Dissemination Lab The Department of Human Development and Family Studies has 2 laboratories namely, Laboratory Nursery School and Psychology Testing lab. The Department of Textile and Apparel has 2 laboratories, one Vocational Training Room, and a Seminar room)
3.	Physical facilities including administrative building and land	Campus Area: 21.08 hectare Physical facilities include ➢ Academic Block with eight (8) lecture halls, two (2) seminar halls, a library, and fourteen (14) laboratories. ➢ Administrative Block containing VC's office, Dean's office, Academic Cell, Accounts Section, Estate Office, Medical Unit, and two (2) Conference Halls [one in the existing building and another in the Incubation Centre]. ➢ Hostel for girl students with 68 rooms and 136 accommodation capacity. ➢ Dean's residence, Type I, II, III and IV quarters for the faculty and staff. ➢ Guest House and Transit Hostel for guests and trainees, respectively. ➢ Playground, canteen, gymnasium, and other outdoor games facilities. ➢ Children's park with adequate play materials. ➢ Incubation Centre, Vocational Training Centre, Multi-Technology Testing Centre, Nursery School and a Daycare Center.

ii. Inauguration of new buildings and related achievements

In 2020-21, the recently-constructed Food Processing Centre, Vocational Training Centre, Multi-Technology Training Centre, the Library Annexe, new Medical Unit, and Nursery School were inaugurated by Shri Narendra Singh Tomar, Honourable Union Minister of Agriculture and Farmers' Welfare on March 8, 2021.

In March 2021, a Memorandum of Agreement was signed with the Government of Meghalaya to establish a 'Techno-Incubation Centre on Jackfruit' at the college. Rupees Two Crores has been sanctioned for procurement and installation of machinery and equipment required for the centre.

iii. Laboratory Nursery School and Day Care Centre

The Laboratory Nursery School run by the Department of Human Development and Family Studies was established in 2013 as a play school for the age group from 2 to 3 years-old. The purpose of the school is to study the development of children. The students of the college carry out observational studies on various aspects of child development as part of their course curriculum on child study. The preschool curriculum is based on learning through play. Enriched physical and social environment are provided for the children's exploratory learning, and the activities taught are developmentally appropriate and interesting to the children.

iv. Vermi-compost Unit

Vermi-composting today is a highly profitable venture. Given proper care, one can produce about 750 to 1000 kg (approx) of vermin-compost from a tank or pit of 6 m^2 size.

The college has one vermi-compost unit with regular production and sale of the compost. The unit has generated adequate revenue from this profitable unit owing to the large demand. Compost making started in the year 2018-19, and at the initial stage only 500-600 kg in a 4 m^2 size could be harvested. Presently, about 1000 kg (approx.) is harvested and sold at Rs.20/- kg both within and outside the campus.

Training to the farmers on vermi-composting is also organized frequently and this has had a considerable impact considering the success stories of local farmers who've taken it up as a venture.

v. Apiary, Mushroom Cultivation, and other activities

Bee boxes are also placed in various places of the campus and there is seasonal extraction and sale of honey. Sale of both *kharif* and *rabi* crops in the college farm, sale of fruits cultivated in the fruit orchards are initiates introduced to generate revenue for the college. A Mushroom cultivation unit is also in place and production and sale is satisfactory.

The construction of a fish pond, a poultry unit, and an animal shed is in the final stages and once completed, these units will not only improve revenue generation, but also provide practical exposure to the students and farmers on the benefits of Integrated Farming System.

vi. Nutritional Garden

A Nutritional Garden was started under AICRP-Home Science [Extension and Communication Management component] where practical and hands-on trainings are imparted frequently to the farming community on crop rotation, nutria-sensitive gardening. The garden is also used by the students as part of the practical component of some courses like 'Women in Agriculture'.

6.5.3.3. Student READY / In-Plant Training/ Internship/ Experiential learning Programme

There is considerable scope to provide practical / hands-on exposure to the students during the degree programme. As per the Fifth Deans' Committee recommendation, the final year students of B.Sc. (Hons.) Community Science are offered a Student READY programme, which contains two modules namely, Module 1 (Product Development and Entrepreneurship) and Module 2 (Community Science and Welfare). The students opt for any one of the two modules in the seventh semester (final year). The basic premise of the READY programme is to encourage the students to put the theoretical knowledge learned over the three years into practice. Students are oriented on the various aspects and skills required to run an enterprise, and engage in Experiential Learning, where they are encouraged to 'earn while they learn'.

In the eighth semester (final year), students undergo internship for two and half months followed by RAWE for another two and half months. During RAWE, students work closely with the village

community and teach the skills that they've learnt to the villagers. It is a humble attempt on the part of the students and college to alleviate the plight of villagers in the West Garo Hills region of Meghalaya by imparting hands-on training and practical knowledge to facilitate their income-generating options. The activities include PRA, baking, pickle-making, embroidery and apparel designing, etc.

During the internship, students are usually placed in either processing industries/units or hospitals based on the choice of the students. After the culmination of the internship, students return to the college and submit reports and give presentations based on their experience. For their internship programme, students have been placed in various institutes like the Indian Institute of Food Processing Technology (formerly known as Indian Institute of Crop Processing Technology), Tanjavur, Tamil Nadu; Assocom Institute of Bakery Technology and Management (AIBTM), Delhi; Bangalore Baptist Hospital (BBH), Bangalore; Downtown Hospital, Guwahati; and Excel Care Hospital, Guwahati.

6.5.3.4. Curricula Delivery through IT (smart classrooms/ interactive board etc.)

The college has four interactive white boards in the four main lecture halls, and in the 2020-21 session, and recently a smart classroom facilitated through NAHEP (Institutional Development Programme) has been set up. The Information Technology Laboratory with 17 computers and 10 mbps Wi-Fi internet facility caters to the practical courses of Computer Aided Interior Designing, Agricultural Informatics, and Statistics.

A Language Laboratory with 30 computers having 20 mpbs internet connection has also been established in an endeavor to improve the communication and life skills of the students. The computers and internet connection will also be utilized to meet the other requirements of the students.

6.5.4. Student Development

6.5.4.1. Student intake and Attrition

Name of the degree programme	Year	Sanctioned Intake Capacity				Admitted				Attrition

6.5.4.2. Average Number of Students in Theory and Practical Classes

Sl. No.	Name of the Degree programme	Number of students in theory class		Number of students in practical class	
1.	B.Sc. (Hons.) Community science	1st Year	27	1st Year	27
		2nd Year	24	2nd Year	24
		3rd year	33	3rd year	33
		4th Year	24	4th Year	24
2.	B.Sc.(Hons.) Food Nutrition and Dietetics	1st year	16	1st Year	16
		2nd year	10	2nd Year	10
		3rd year	16	3rd year	16
		4th year	13	4th Year	13

6.5.4.3. Admission Process

6.5.4.3.1 Eligibility for admission

I. B.Sc. (Hons.) Community Science & B.Sc. (Hons.) Food Nutrition and Dietetics

Candidates seeking admission to B.Sc. (Hons.) Community Science should be permanent residents or domiciles of any one of the 7 (seven) North-Eastern states of India, viz., Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. They must attain 16 years of age on 31st August of the admission year. They must pass the Higher Secondary (10+2) with minimum 50% marks in aggregate of Physics, Chemistry, Biology/Mathematics or Agriculture for General and OBC categories and 40% marks for SC/ST/PH/In-service categories

II. M.Sc. (Community Science)

A candidate seeking admission to M.Sc. (Community Science) in Food Science and Nutrition, or M.Sc. (Community Science) in Extension and Communication Management should

1. Have passed B.Sc. (Hons) Community Science, B.Sc. (Hons) Home Science or B.Sc. (Hons) Food Nutrition and Dietetics from an ICAR recognised institution.

2. Have obtained a minimum OGPA of at least 6.60/10.00 on a 10-point scale, 3.25/5.00 on 5-point scale, 2.60/4.00 on four-point scale for General, OBC or EWS categories, whereas for SC/ST/PC categories, the said requirement is an OGPA of at least 5.6 / 10.00, 2.75 / 5.00, 2.20 / 4.00, respectively. In other cases, where grade points are not awarded and only marks are awarded, the candidate must have secured at least 60% marks for General, OBC, and EWS categories, whereas for SC/ST/PC categories, the requirement is 50% marks.

6.5.4.3.2 Mode of admission

I. B.Sc. (Hons.) Community Science B.Sc. (Hons.) Food Nutrition and Dietetics

The college has adopted two modes of admission: Nomination from state governments of NE States [excluding Assam], nominations from ICAR, and Open Admission as per the number of seats allotted by the university.

i. The candidates seeking admission to the degree programme through the state governments of Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim or Tripura are sponsored by their respective state governments and such candidates are selected on merit, based on their performance in a Common Entrance Test conducted by the concerned states or National Eligibility cum Entrance Test (NEET) after fulfilling the eligibility norms.

ii. From the academic session 2013-14 onwards, the college, with the approval of University's Academic Council, started enrolment of students by Open Admission. Before the commencement of the new semester, eighteen (18) seats are advertised in leading newspapers and the university website which are to be filled by eligible candidates of the various NE states.

II. M.Sc. (Community Science)

i. 2 (seats) each in M.Sc. (Community Science) in Food Science and Nutrition, and M.Sc. (Community Science) in Extension and Communication Management are filled through an entrance examination conducted by Central Agricultural University, Imphal. The selection of candidates is based on marks secured in the Entrance Examination (60% weightage) and academic performance in qualifying degree examination (40% weightage). 20% marks, with negative marking in the entrance examination is the qualifying mark for short-listing under all categories.

ii. 1 (one) seat in each department is filled up by the candidate selected by ICAR through All-India Entrance Test (AIET). However, in 2020-21, the candidates were selected based on merit as the CAU Entrance Examination could not be conducted owing to the Covid 19 pandemic.

6.5.4.3.3 Fee Payment Mechanism

The college has adopted an online payment mechanism for both UG and PG programmes. Online payment of the registration and semester fee is done through SBI Collect.

6.5.4.3.4 Academic Schedule Publication

To maintain uniformity, the Academic Calendar is prepared at the university level and circulated at the beginning of the new academic session.

6.5.4.3.5 Intake capacity

The details of the number of seats under both nomination and open admission for B.Sc. (Hons.) Community Science and M.Sc. Community Science are as follows:

I. B.Sc. (Hons.) Community Science

Sl. No.	NAME OF STATES	STATE NOMINEES					OPEN ADMISSION	ICAR
		CATEGORIES						
		OBC	UR	ST	SC	TOTAL	TOTAL	TOTAL

1.	ARUNACHAL PRADESH	01	4 (UR+ST+SC)	5	02	05

6.5.4.4. Conduct of Practical and Hands-on Training

i. B.Sc. (Hons.) Community Science

A student has to study 180 credits to complete the UG degree programme. Out of the 180 credits, 91 credits are practical oriented, and 89 credit hours are for the theory component.

The five departments of Community Science offer a wide range of practical oriented courses including diet planning, preparing the diet that is planned, computer aided interior designing, apparel designing, information and communication technology, extension training management, project management, food analysis, among others. In the basic compulsory courses, the students are exposed to subjects like biochemistry, English and communication skills, statistics, economics, etc. An essential component suggested in the Fifth Deans' Committee Report is the Student READY [Rural Entrepreneurship Awareness Development Yojana] programme wherein the students in the seventh and eight semester undertake Experiential Learning, In-Plant Programme, and Rural Awareness Work Experience (RAWE). This is a major step that guarantees high-quality professional competence, practical work experience in real-life situation to the graduates.

In Experiential Learning, the students are exposed to production-oriented courses and practical exposure relating to the dynamics of entrepreneurship, and an understanding of market dynamics, thereby encouraging them to be job providers rather than job seekers.

In the first six semesters before undergoing the Student READY programme, the students learn the basic and advanced theoretical and practical concepts of the different courses in the five core disciplines of Community Science.

In the practical component of the courses, students are given hands-on practical exposure ranging from laboratory work, industrial visits, field visits, market surveys and the like. Bakery and confectionery, hospital dietetics, apparel designing, interior designing, project management are some among the many practical-oriented courses that the students learn in order to have a sound understanding about the course as a whole, and as preparation for the various activities under In-plant, Experiential Learning and RAWE. Under RAWE, the students interact largely with the local community and impart training to them. This ensures their exposure to community outreach and welfare programmes thus warranting hands-on training within the campus as well as outside it.

ii. B.Sc. (Hons.) Food Nutrition and Dietetics

Out of the 180 credits in the entire degree programme, 91 credits are practical oriented, and 89 are theory credit hours, i.e., fifty percent of the credit requirement is practical based.

The very concept of diet planning would not be possible without actually preparing or cooking the diet that is planned. The students are given hands-on-training on the basic concepts of measurements in terms of raw and cooked food. The analysis of the nutrients and mineral-content of food is taught to the students using sophisticated equipment available in the laboratories. The knowledge that is gained from the practical components of courses such as Food Preservation and Storage, Bakery and Confectionery, Nutraceuticals and Health Foods, etc., prepares the students for the Experiential Learning programme that is offered in the eighth semester. This encourages the students to consider establishing their own enterprise after completing their studies. The courses Sports Nutrition and Physical Fitness, and Diet and Nutrition Counselling also inculcates ideas on how to set up fitness and counselling centres.

The students are also exposed to community-based courses where they interact with the local community. They learn the art of rapport building and hands-on training on anthropometric measurements. This readies them for future community outreach and welfare programmes. Like the Community Science students, the Food Nutrition and Dietetics students are also exposed to community outreach and welfare programmes within and outside the college campus.

iii. M.Sc. (Community Science)

All practical classes of M.Sc. (Community Science) in Food Science and Nutrition, or M.Sc. (Community Science) in Extension and Communication Management are carried out in the laboratories available in the college, and nor separate facility exists at present. The M.Sc. students are under the direct supervision of the course instructor and effectively carry out the practical classes as provided in the course outline.

6.5.4.5 Examination and Evaluation Process

The college has adopted the recommendations of the Fifth Deans' Committee with regard to the examination and evaluation system as explained below:

6.5.4.5.1 Examination

External Theory (50%)
Internal theory + Practical (50%)

- **Courses with Theory + Practical**
  Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)
- **Courses with only Theory**
  Mid-term Exam (40%) + Assignment (10%)
- **Courses with only Practical**
  (100% Internal)

- For the End-term Examination, a panel of experts for all the courses offered in a semester is prepared by the college and sent to the university for selection of at least three paper-setters per course and approval.
- The Academic Section of the college coordinates with the selected experts and receives the question papers by email or speed post. Before commencement of the examination, the HOD ensures the coverage of syllabus and if the need arises, moderation of the question paper is done.
- The End-term Practical examination is conducted by course instructor(s) and one teacher nominated by HOD.

6.5.4.5.2 Evaluation

- Evaluation of test and mid-term papers are done internally by the course instructor.
- Evaluation of answer scripts on the End-term examination is done by a teacher of the concerned discipline other than the course instructor. For courses where there is only one teacher in the discipline, like English and Statistics, the scripts are sent to the paper setter for evaluation.
- The performance of the students is classified into the following way:

Degree	Percentage of Marks Obtained	Conversion into points
B.Sc. (Hons.) Community Science	100	10 points
	90 to <100	9 to <10

	80 to <90	8 to <9
	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (Fail)	<5
	Eg. 80.76	8.076
	43.60	4.360
	72.50 (but shortage in attendance)	Fail (1 point)

OGPA	**DIVISION**
5.000 – 5.999	Pass
6.000 – 6.999	II Division
7.000 – 7.999	I Division
8.000 and above	I Division with Distinction

GPA = Total points scored / Total credits (for 1 Semester)
CGPA= ∑ Total points scored /Course credits
OGPA= ∑ Total points scored (after excluding failure points)/ Course credits
% of Marks = OGPA x 100/10

6.5.4.6. NCC/NSS/RVC Units

NSS of 2(0+2) credit hours is offered as a course in B.Sc. 1st year 1st Semester. As part of the course, students engage in Social Welfare activities like cleaning drives and awareness campaigns to prevent spread of diseases, and the like. Most of the activities are conducted at villages, thereby, providing a lot of scope to the students to become ideal citizens with a holistic concern for fellow beings, and also develop a positive attitude towards conservation of the environment.
Cleaning and plantation drives, training on First-Aid with the help of the college's Medical Officer, training on Vermi-compost pit preparation, surveys on the socio-economic status of a selected village, hands-on training on embroidery, stitching, paper-bag making, etc., are organized every year. NSS volunteers also impart awareness programmes to the village or local people and school students on nutrition-related problems, traffic rules, consumer education, environment and cleanliness through Skits, Role Plays, Posters, Charts and Models.

Days of national and international importance such as National Voters' Day, International Women's Day, National Girl Child Day, Gandhi Jayanti, etc., are conducted to make the students aware about their responsibilities towards the society and nation as a whole.

6.5.4.7. Language Laboratory

The college has one language laboratory which is yet to be operationalized. So far, under the NAHEP-Institutional Development Programme, remedial classes are conducted and various literary competitions are held for the students to improve their communication skills.

6.5.4.8. Cultural Centre

The college does not have any center as such. However, students are provided with ample scope to showcase their talents during the celebration of College week in sports and co-curricular activities. They are also encouraged to participate in district level, university level, and inter-university national level competitions.

Under students' welfare activities, special training and classes on yoga and meditation, soft skills, and sports are also imparted by experts from nearby institutes.

6.5.4.9. Personality Development

Functional Grammar is included in the course General English - I which is offered in the first semester. In the second semester, the students study a course entitled Technical Writing in which applied grammar and various forms of writing like report writing, letter writing, proposal writing, etc., are included. In the fourth semester, the students also have to study Communication skills and Personality Development, a course which has been designed to help students develop the four essential communication skills – listening, speaking, reading and writing. All the mentioned courses have been designed to help develop the students' communication skills and hone their personality.

Further, various short term and long term offline and online personality development programmes are organized under Student Welfare Activities and NAHEP. Experts from the concerned field are invited to conduct many motivational programmes like stress management and counseling to facilitate the students in the best possible way. Besides, under NAHEP, national and international webinars are organized with different themes like entrepreneurship development, climate change, and different management techniques. Interactive sessions and lecture series are also organised for the students on various aspects of entrepreneurship, drafting of resume, inculcating competitive spirit, etc.

6.5.5. Physical Facilities

6.5.5.1. Hostel

The Girls' Hostel of the college is supervised by a Hostel Management Committee headed by the Dean, with the Warden, SWO, Academic I/c, Accounts Officer, Junior Engineer, and student representatives as members. The hostel has 68 rooms with a total capacity for 1360 occupants. Each room is provided with beds, tables, and chairs. It also has a common room, kitchen, dining, library, music room, and fitness-cum-Indoor Sports room. The mess is maintained by the students, and weekly menu is decided by the Mess-In-charge in discussion with students. The students are given good quality food, and opportunities to organize special functions/get-togethers within the hostel. Students are well-disciplined and they follow the time schedule strictly. Students are allowed to go to the local market (with prior permission) once a week for which a vehicle is provided by the college. They are also permitted to attend religious ceremonies on Sundays. All the hostellers are encouraged to participate in the maintenance of the nutritional kitchen garden within the hostel premises.

6.5.5.2. Examination Hall

Though there is no separate hall to conduct examinations, the lecture halls and seminar rooms are adequate to accommodate the students during examinations.

6.5.5.3. Sports and recreation facilities

The college has one field in which outdoor activities are held during the college week. Though, college does not have any indoor stadium or sports hall, there are adequate facilities for indoor games in the hostel. A music room is also set up in the hostel along with a good music system used for recreational purposes. There are a number of indoor and outdoor sports equipment that are used by the students. Prior to their participation in inter-college or national level events, special coaching is imparted to the selected students by professional coaches invited form nearby institutes and sport associations.

6.5.5.4. Auditorium:

The site for construction of auditorium has been identified and sanction for its construction has been included in the 13th Plan.

6.5.5.5. Exhibition Hall / Museum

Two (2) vocational training rooms located in two (2) departments are used for the above purpose as and when required for exhibitions. With the provision of a separate hall may add in showcasing the talent of the faculties and the trainees. Department of Textiles and Apparel Designing is maintaining a small Textile Museum with a collection attires of different communities and states.

The recently constructed Weaving and Spinning unit will be utilized for exhibition purposes encompassing the traditional garments of NE India, and also exhibit the creations of the students and vocational trainees.

6.5.6. Research Facilities

6.5.6.1. Postgraduate Laboratories and Equipment

There are no laboratories and equipment in the concerned departments which are exclusively meant for the PG programmes.

6.5.6.2. Research Contingency

Financial expenditure for research purposes is allotted from the recurring funds based on the demand, and the amount is sufficient.

6.5.7. Outcome /Output

6.5.7.1 Students' performance in National Examination

Year	No. of JRF Scholarship holder	Rank secured in ICAR-JRF Examination
2016-17	0	SC-4th (sans JRF) ST-7th (sans JRF)
2017-18	3	SC-1st (JRF) ST-1st (JRF) ST-6th (JRF)
2018-19	0	SC-4th (sans JRF) ST-7th (sans JRF)
2019-20	2	Overall- 1st (JRF) ST-3rd (JRF) ST-4th (sans JRF)
2020-21	1	ST-1st (JRF)

6.5.7.2. Students' Placement Profile

Year	Placement profile						
	Student undergone higher studies	Asst.Prof/ Lecturer/ KVK-SMS	Hospital-Dietician/Nutrition counsellor/ Psychologist	Other departments	Banking/ Pvt.Company/Pvt.-School/College/University	Govt. Funded Project (ATMA,	Self Employed

						AICRP)	
2016-17	14	3	1	2	3	3	-
2017-18	21	1	1	2	1	-	-
2018-19	17	-	2	1	3	4	1
2019-20	25	8	-	-	1	1	1
2020-21	19	-	-	1	2	3	-

6.5.7.3. Awards/Recognitions/ Certificates

Details of the award recognitions/certificates received by Faculty:

Sl. No.	Name of the faculty	Awards/recognitions/ certificates	Year	Awarded by
1.	Dr. Narmada Hidangmayum	Best Poster Award	2018	32 Biennial Conference of Home Science Association of India on 'Family and Community Science: A Catalyst for Sustainable Development Goals' Organized by College of Home Science, (Udaipur Chapter) MaharanaPratap University of Agriculture & Technology, Udaipur
2.	Dr. Pavana Kr. ST	Thesis Award	2019	Society for Scientific Development in Agriculture and Technology
3.	Prof. Puspita Das	Excellence in Research Award	2020	Asha Foundation, International conference on Agriculture, Allied and Applied Sciences (ICAAAS) 2020 27th January to 1st February 2020, Hotel Ramada D' Ma Petchburi Road 33 Bangkok 10400 Thailand.
4.	Prof. Puspita Das	INDO ASIAN – SEAMAN KNAPP Excellence award in Extension Education	2020	The International multi-disciplinary research foundation. For consistent superior performance in extension education
5.	Prof. Puspita Das	Outstanding Contribution in the field of Community Science	2021	Agricultural Technology Development Society (ATDS), Ghaziabad, Uttar Pradesh, India

Details of the award recognitions/certificates received by Student:

Sl. No.	Name of the student	Awards/recognitions/certificates	Year	Awarded by
1.	Ms. Laishram Maria Devi	2nd position in Rangoli competition Held at OUAT Bhubaneswar, 1st – 4th February, 2016	2015-16	All India Agri (Unifest)
2.	Ms. Lalhruaitluangi	2nd position in Women Badminton in 20th All India	2019-20	Sri Venkateswara Veterinary (SVVU),

		Inter Agricultural Universities Sports and Games meet		Tirupati 1st – 5th March, 2020
3.	1. B. Laldinpuii 2. Kh. Chanmisang Maring 3. W.L. Warni 4. Wingou Newmai 5. Shuhring Pashel 6. Jasmine Marak	2nd position in patriotic song (Indian) in the 20th All India Inter Agricultural Universities Youth Festival	2019-20	Indira Gandhi Krishi Vishwavidyalaya Raipur, 8th -12th February, 2020

6.5.7.4. Employability

The under-graduate degree programme in B.Sc. (Hons.) Community Science includes courses from the core disciplines of Community Science and also Basic courses like Human Physiology, Nutritional Biochemistry, Agricultural Informatics, English, Statistics, Rural Sociology and Entrepreneurship Development. Other courses are related only to nutrition like Food Analysis, Food Service Management, Nutrition through Life Cycle, Food Microbiology, Clinical Nutrition, Methods of Cookery, etc.

Although most students opt for higher studies after passing out from the college, some graduates have been absorbed in various private and public organizations like Food Industries, Hospitals, banking sector, NGOs, Child and Nutrition related organizations, Sports Authority of India, FSSAI, etc.

6.6.8 Financial Resource Management

The finance report of the college of community science for the last 5 years is given below,

Point No.	Particulars		Year (Rs. In Lakh)				
			2016-17	**2017-18**	**2018-19**	**2019-20**	**2020-21**

6.4.9. ICT APPLICATION IN CURRICULA DELIVERY 13

Summary

The Self-Study Report of College of Community Science, Sangsanggre, Tura, Meghalaya, encompasses a range of important information pertaining to the academic achievements of the college in B.Sc. (Hons.) Community Science over the last five years from the academic session 2016-17 to 2020-21.

The report has been prepared based on the data requested by the Indian Council of Agricultural Research (ICAR) in the pre-drafted proforma required to be furnished by any institute of higher learning in the field of agriculture and allied sciences that seeks accreditation from the ICAR-National Agricultural Education Accreditation Board (N.A.E.A.B.). The distinctly delineated report commences with a brief history of the college, faculty and staff strength, facilities available, administrative setup, admission procedure, examination and evaluation process, research and extension activities, monitoring and quality assurance, among others. It provides adequate information on financial resources and its management, admission and attrition of students, students' achievements in various competitions, and their placement profile.

It is inclusive of the information pertaining to the B.Sc. (Hons.) Community Science programme [all information under 6.4 of the profroma] and the report for the college [all information under 6.5 of the profroma] includes information on the two UG programmes - . B.Sc. (Hons.) Community Science and B.Sc. (Hons.) Food Nutrition and Dietetics – as well as its two PG programmes.

6.4. Self-Study Report for the Programme (B.Sc. (Hons.) Community Science)

6.4.1 Brief History of the Degree Programme

College of Community Science [erstwhile College of Home Science] a constituent college of Central Agricultural University, Imphal, Manipur, located in Sangsangre, Tura, started its first academic session for B.Sc. (Hons.) Community Science [erstwhile Home Science] in the year 2004-05. The first batch of ten girl students hailed from Arunachal Pradesh, Meghalaya, and Manipur, and the academic activities and administrative work were carried out in a temporary building at Dakopgre, Tura. Dr. Rita Singh Raghuvanshi was appointed as the Dean (on deputation). Four lecturers were hired on contractual basis and one joined on deputation during the initial phase. Regular appointments were made in the year following the college's establishment and in the subsequent years.

In 2006, Dr. K. Sheela was appointed as Dean of the college, and subsequently in 2009, the college relocated its academic and administrative work to its permanent campus at Sangsanggre, Tura. After Dr. Sheela's retirement in July 2015, Dr. Puspita Das, was appointed as In-charge Dean, followed by the appointment of Dr. Anurag Chaturvedi as regular Dean in December 2016. Following Dr. Chaturvedi's resignation in September 2017, Dr. Puspita Das was again appointed as In-charge Dean and she is the incumbent administrative head of the college.

The picturesque campus boasts of a host of facilities including accommodation facilities for students, faculty and staff; spacious classrooms, a seminar hall and a smart classroom; laboratories; a well-furnished Guest House; an IT lab with 10 mbps internet connectivity; well-equipped library; transit hostel; an incubation center and a vocational training center; a canteen; and a playground. Recently, a Language Laboratory with 30 computers having 20 mpbs internet connection has also been established in an endeavor to improve the communication and life skills of the students.

The four-year degree programme in B.Sc. (Hons) Community Science, is currently following the curriculum recommended by the ICAR Fifth Deans' Committee in the core disciplines of Community Science – Family Resource Management, Food and Nutrition, Home Science Extension and Communication Management, Human Development and Family Studies, and Textiles and Apparel Designing, and also those courses of the Department Basic Science and Humanities.

In the initial years, admission to B.Sc. (Hons) Community Science was only through nomination of candidates recommended by the respective state governments of the various North-Eastern states, and those selected by ICAR. However, in 2013-14, the college introduced an Open Admission system in order to increase the intake capacity and actual number of admitted students. At present, the total intake capacity is 55 (fifty-five) including state and ICAR nominations, and Open Admission. The average actual admission of students in each academic session is about 46-50% of the total capacity, and it is exclusively meant for girl students who are domicile of the seven North-Eastern states of India, excluding Assam.

Since its inception, thirteen (13) batches with 188 graduates have passed out from the college in B.Sc. (Hons) Community Science.

6.4.2. Faculty Strength

The current sanctioned, filled and vacant faculty strength are based upon the number recommended as per the ordinance of the college.

Sl. No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	2	3	07
2.	Associate Professor	4*	4	14
3.	Assistant Professor	11	12	28
Total permanent faculty		**17**	**19**	49

* One Associate Professor was promoted to the post of Professor through CAS, thus, one post is not considered as vacant.

At least two guest faculties are appointed from time to time in the Department of Food and Nutrition, and one guest faculty in Home Science Extension and Communication Management. There are no adjunct or contractual faculty members, and lately the university has engaged teaching faculty from other constituent colleges to teach basic courses and other courses in related disciplines.

Faculty teaching multiple programmes
The number of faculty assigned teaching responsibilities for multiple degree programmes are

Sl. No.	Name of the department	No. of faculty teaching multiple degree programmes
1.	Food Science and Nutrition	4
2.	Home Science Extension and Communication Management	1
3.	Family Resource Management	2
4.	Basic Science and Humanities	2
5.	Agriculture & Animal Science	1
Total		**10**

Deviation in Faculty Strength as per ICAR-FDC recommendation

As the faculty strength and nomenclature and number of departments are based as per the ordinance, the recommendation of the ICAR-Fifth Deans' Committee is yet to be implemented in toto. The faculty position w.r.t. the Fifth Deans' Committee Report recommendation and existing faculty strength is shown below:

Sl. No.	Department faculty strength as per recommendation of Vth Deans' Committee	No. of faculty recommended			No. of faculty at present			Deviation		
		Prof.	Assoc. Prof	Asst. Prof	Prof.	Assoc. Prof.	Asst. Prof.	Prof.	Assoc. Prof.	Asst. Prof.
1.	Food Science and	1	2	4	-	2	2	1	-	2

	Nutrition									
2.	Food Policy and Public Health Nutrition	1	2	4	-	-	-	1	2	4
3.	Apparel Design Management	1	2	4	-	-	-	1	2	4
4.	Textile Science and Design*	1	2	4	-	1	2	1	2	2
5.	Family Resource Management & Consumer Science**	1	2	4	1	-	2	-	2	2
6.	Human Development and Family Studies	1	2	4	-	1	2	1	-	2
7.	Extension Education and Communication Management	1	2	4	1	-	-	-	2	4
	TOTAL	**7**	**14**	**28**	**2**	**4**	**8**	**5**	**10**	**20**

* The current nomenclature is Textile and Apparel Designing ** The current nomenclature is Family Resource Management

6.4.3. Technical and Supporting Staff

The number of sanctioned and appointed Technical and Supporting staff of the college are enlisted below:

Sl. No.	Technical staff /Supporting staff	Sanctioned	In place
1.	Assistant Engineer	1	Nil
2.	Sr. Library Assistant	1	1
3.	Junior Engineer (civil)	1	2
4.	Field cum Lab. Assistant	15	13

5.	Farm Assistant /Livestock	8	4
6.	Library Assistant	3	3
7.	Electrician	2	1
8.	Plumber	1	1
9.	Carpenter	1	1
10.	Driver	6	3
11.	Supporting Staff	33	33

6.4.4. Classrooms and Laboratories

No. of lecture halls – 9 (Nine) Lecture halls including one (1) smart classroom
No. of seminar halls – 2 (Two) Seminar Halls

Laboratories of the college

Sl. No	Department	Name of laboratory	Major equipment
1.	Family Resource Management	Household Equipment Lab Housing and Space Management Lab Interior Enrichment Lab Vocational Training Lab	1. Bicycle Ergometer 2. Inclinometer Micro FE T6 3. 			18. Grinding mill
3.	Human Development and Family Studies	Laboratory Nursery School	There are no major equipment in the department
4.	Textiles and Apparel Designing	Garment Construction Lab	1. Sewing machine family model usha model & covers 2. LCD Projector Model NECVT 695G 3. Dry Cleaning Machine 4. Spectrophotometer Labtronics KOL-01 5. Counter Weighing Balance 6. Yarn Twist Tester
		Dyeing and Printing cum Textile Testing cum Lab	
		Vocational Training cum Experiential Learning room	
5.	Home Science Extension and Communication Management	Instruction Technology Lab Technology Dissemination Lab	1. L.C.D Projector 2. OHP Opaque Projector 3. Television LCD Sony Bravia 4. DSLR camera Cannon 5. DVD Recorder 6. Video Camera Handy Cam Sony

6.4.5. Conduct of Practical and Hands-on Training

B.Sc. (Hons.) Community Science

A student has to study 180 credits to complete the UG degree programme. Out of the 180 credits, 91 credits are practical oriented, and 89 credit hours are for the theory component.

The five departments of Community Science offer a wide range of practical-oriented courses including diet planning, preparing/cooking the diet that is planned, computer-aided interior designing, apparel designing, information and communication technology, extension training management, project management, food analysis, among others. In the basic compulsory courses, the students are exposed to subjects like biochemistry, English and communication skills, statistics, economics, etc. An essential component suggested in the Fifth Deans' Committee Report is the Student READY [Rural Entrepreneurship Awareness Development Yojana] programme wherein the students in the seventh and eight semester undertake Experiential Learning, In-Plant Programme, and Rural Awareness Work Experience (RAWE). This is a major step that guarantees high-quality professional competence, practical work experience in real-life situation to the graduates.

In Experiential Learning, the students are exposed to production-oriented courses and practical exposure relating to the opportunities and challenges of entrepreneurship, and an understanding of market dynamics, thereby encouraging them to be job providers rather than job seekers.

In the first six semesters before undergoing the Student READY programme, the students learn the basic and advanced theoretical and practical concepts of the different courses in the five core disciplines of Community Science.

In the practical component of the courses, students are given hands-on practical exposure ranging from laboratory work, industrial visits, field visits, market surveys and the like. Visits to media houses, printing press, weaving units, handloom office, Doordarshan Kendra, All India Radio, Food Processing Industries, Horticulture Hub, etc., are taken up in ever semester. Bakery and confectionery, hospital

dietetics, apparel designing, interior designing, project management are some among the many practical-oriented courses that the students learn in order to have a sound understanding about the course as a whole, and as preparation for the various activities under In-plant, Experiential Learning and RAWE. Under RAWE, the students interact largely with the local community and impart training to them. This ensures their exposure to community outreach and welfare programmes thus warranting hands-on training outside the campus as well as within it.

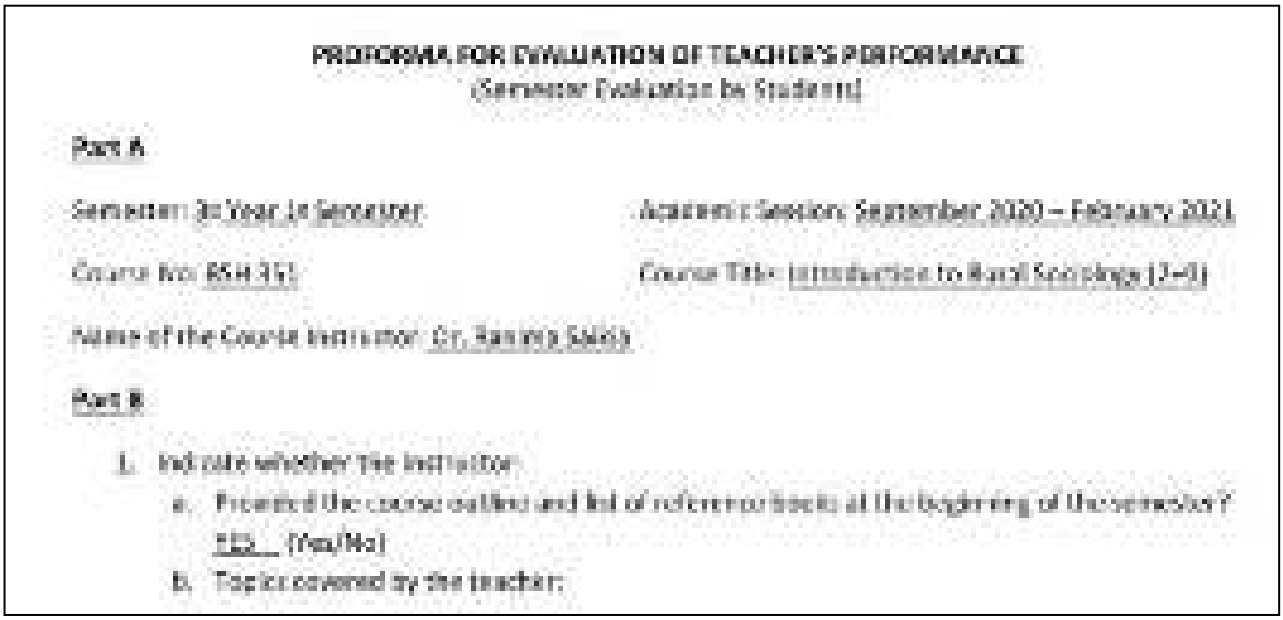
6.4.6. Supervision of Students in PG/PhD Programme

The information is provided in the separate report on M.Sc. Community Science programme.

6.4.7. Feedback of Stakeholders (Students, Parents, Industries, Employers, Farmers etc.)

The UG students provide feedback in a prepared proforma at the end of every semester pertaining to their learning experience, and their perception of the teacher's performance. A proforma is also provided to the alumnae and parents of the students wherein they provide feedback and suggestions to the college. The organisers of training programmes take feedback from farmers/participants after the culmination of each programme.

6.4.7.1 Samples of evaluation of teachers' performance taken at the end of every semester



PROFORMA FOR EVALUATION OF TEACHER'S PERFORMANCE
(Semester Evaluation by Students)

Part A

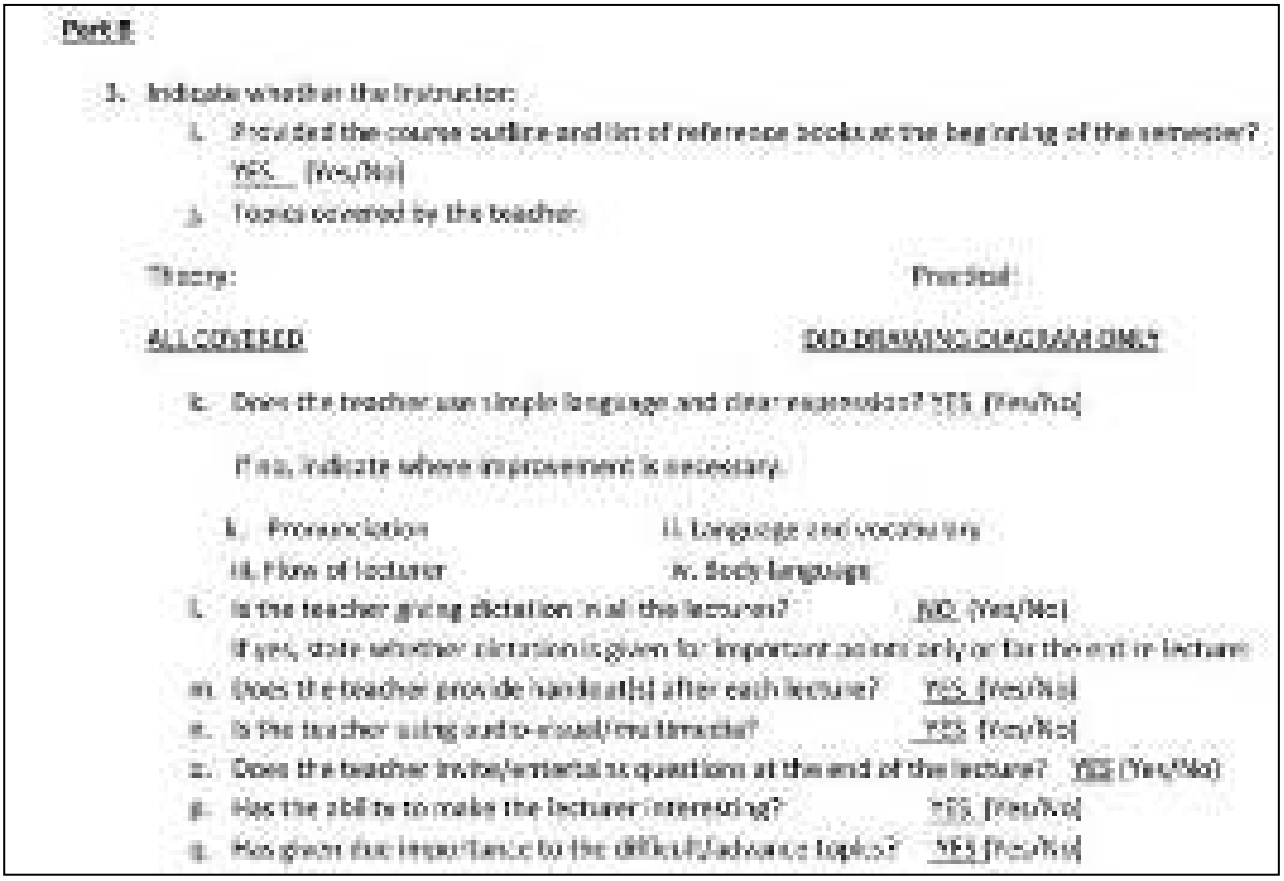
Semester: 3rd Year 1st Semester Academic Session: September 2020 – February 2021

Course No: BSH 311 Course Title: Introduction to Rural Sociology (2+0)

Name of the Course Instructor: Dr. Sarang Sahu

Part B

1. Indicate whether the instructor
   a. Provided the course outline and list of reference books at the beginning of the semester? YES (Yes/No)
   b. Topics covered by the teacher:



Part B

3. Indicate whether the Instructor:
   i. Provided the course outline and list of reference books at the beginning of the semester?
   YES [Yes/No]
   ii. Topics covered by the teacher:

Theory: Practical:

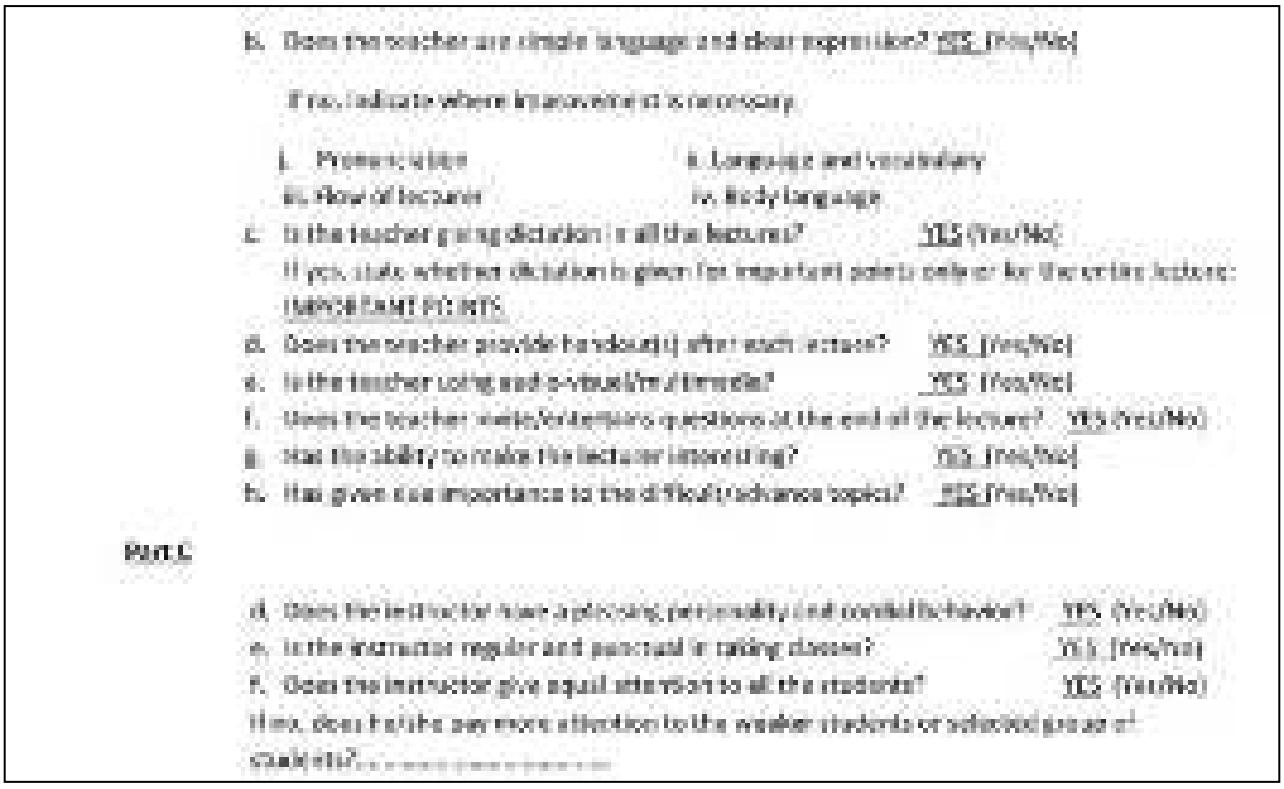
ALL COVERED DID DRAWING DIAGRAMS ONLY

iii. Does the teacher use simple language and clear expression? YES [Yes/No]

If no, indicate where improvement is necessary

i. Pronunciation ii. Language and vocabulary
iii. Flow of lecturer iv. Body language

iv. Is the teacher giving dictation in all the lectures? NO (Yes/No)
If yes, state whether dictation is given for important points only or for the entire lecture
v. Does the teacher provide handout[s] after each lecture? YES [Yes/No]
vi. Is the teacher using audio-visual/multimedia? YES [Yes/No]
vii. Does the teacher invite/entertain questions at the end of the lecture? YES (Yes/No)
viii. Has the ability to make the lecturer interesting? YES [Yes/No]
ix. Has given due importance to the difficult/advance topics? YES [Yes/No]



iii. Does the teacher use simple language and clear expression? YES [Yes/No]

If no, indicate where improvement is necessary

i. Pronunciation ii. Language and vocabulary
iii. Flow of lecturer iv. Body language

iv. Is the teacher giving dictation in all the lectures? YES (Yes/No)
If yes, state whether dictation is given for important points only or for the entire lecture:
IMPORTANT POINTS
v. Does the teacher provide handout[s] after each lecture? YES [Yes/No]
vi. Is the teacher using audio-visual/multimedia? YES [Yes/No]
vii. Does the teacher invite/entertains questions at the end of the lecture? YES (Yes/No)
viii. Has the ability to make the lecturer interesting? YES [Yes/No]
ix. Has given due importance to the difficult/advance topics? YES [Yes/No]

Part C

x. Does the instructor have a pleasing personality and cordial behavior? YES (Yes/No)
xi. Is the instructor regular and punctual in taking classes? YES [Yes/No]
xii. Does the instructor give equal attention to all the students? YES (Yes/No)
If no, does he/she pay more attention to the weaker students or selected group of students?

6.4.9. ICT Application in Curricula Delivery

For ease of internet access, Wi-Fi facility is made available in the college. The IT laboratory is used by students and faculty on all working days. It is equipped with 17 computers having 10 mbps internet connectivity. The classrooms also have LCD projectors with interactive smart boards. Recently, the college has set up a Smart Classroom to strengthen the teaching-learning experience. A Language Laboratory, augmented through the ICAR-NAHEP, with 30 new computers having 20 mpbs internet connection has been set up to facilitate various communication skills-related programmes and to fulfil the academic requirements of the students.

The students are encouraged to give power point presentations on various topics throughout their four-year stay in the college. Courses on Information Communication Technology and Agricultural Informatics are also offered at the UG level.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Prof. Puspita Das hereby certify that the information contained in Section 6.4 and Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

6.4. Self Study Report for the Programme: (2014-15 to 2020-21)

6.4.1. Brief History of the Degree Programme:

College of Community Science [erstwhile College of Home Science] a constituent college of Central Agricultural University, Imphal, Manipur, located in Sangsangre, Tura, started its first academic session only in B.Sc. (Hons.) Community Science [erstwhile Home Science] in the year 2004-05. The first batch of ten girl students hailed from Arunachal Pradesh, Meghalaya, and Manipur, and the academic activities and administrative work were carried out in a temporary building at Dakopgre, Tura. Subsequently in the year 2009 the college was shifted into its own campus.

In the Academic Session 2014-15, a parallel under-graduate degree programme in Food Nutrition and Dietetics was introduced in the college after approval of the Academic Council of Central Agricultural University. Prior to the implementation of the ICAR-Fifth Deans' Committee recommendation to introduce this particular in all agricultural universities, Punjab Agricultural University, Ludhiana had started B.Sc. Nutrition and Dietetics as a 3-year programme in 2009-10, which was upgraded to a 4-year programme in 2012-13. Subsequently, some colleges of the Agricultural Universities in India (C.A.U & S.A.U) introduced the four-year Undergraduate degree programme for Nutrition and Dietetics with the implementation of Fifth Deans' Committee of ICAR. Some government Universities like S.N.D.T Women's University, Mumbai & Delhi University, Delhi are providing 3 years' education for B.Sc. Nutrition and Dietetics. However, this course has been introduced also in some deemed and private universities in India, such as Chandigarh University, Chandigarh; Lovely Professional University, Jalandhar; Shoolini University, Himachal Pradesh; and Sharda University, Greater Noida.

B.Sc. (Hons.) Food Nutrition and Dietetics is a highly specialized course that aims to build a holistic understanding through study and research in core fields of nutritional biochemistry, food microbiology, human physiology, public health nutrition & a host of other fields. These topics offer students a much-needed avenue for comprehensive development. The syllabus of B.Sc. (Hons.) Food Nutrition and Dietetics consists of courses that lay a foundation stone for nutrition science and food quality control management.

In this course students learn about the effect of different foods on human health. Evidently, the ultimate aim of this program is to elucidate the ways in which one can lead a healthy life by minding his/her diet. Health is that facet of life which cannot be shunned at any cost. By intelligent consumption of the right and required food, one can prevent a variety of diseases and health hazards. With the aim of making more and more people healthy, dietetics has become a developing branch. When the target is big, one needs to have a big team and that became the reason behind B.Sc. (Hons.) Food Nutrition & Dietetics offering a myriad of job opportunities appended to it.

Along with nutritional recommendations it also focuses on research in medical dietary needs and human biosciences. Furthermore, it paves a way for individuals to venture into the thriving health, lifestyle and wellness industry. The new frontiers of research like nutraceuticals and functional foods, new concepts on glycaemic index, importance of vegetarian diets, nutritional requirements of AIDS patients are all given due importance in Food Nutrition and Dietetics course. Furthermore, Food Nutrition and Dietetics are basic to all developmental programmes.

Food Nutrition and Dietetics comprise the study of food management and primarily includes advanced learning to improve the quality of life, health and well- being of individuals by promoting healthy food habits together with researching healthier dietary changes. Globalization has affected the

society and changed the food habits and lifestyle of people. In this context, the demand for nutritionists/dieticians has significantly increased over the years.

After completing the B.Sc. (Hons.) Food Nutrition and Dietetics a candidate will not have to worry about future career graphs because a lot of career opportunities are available in this field. The most common roles the graduates work as are:

- Nutrition specialist- Holistic Nutritionist & Sports Nutritionist.
- Dietician- Registered and Personal.
- Food quality inspector
- Food processing manager
- Health Coach
- Public Health Nutritionist
- Nutrition Education & Research
- Paediatric dietician/nutritionist
- Community dietician/nutritionist

6.4.2. Faculty Strength:

6.4.2.1 Faculty Strength of the college

Sl. No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	2	3	07
2.	Associate Professor	4*	4	14
3.	Assistant Professor	11#	12	28
Total		**17**	**19**	49

6.4.2.2 Faculty Strength of the Department of Food and Nutrition

Sl. No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
4.	Professor	-	1	2
5.	Associate Professor	2	-	4
6.	Assistant Professor	2	1	8

Currently, the post of Professor is vacant. However, when the degree programme was started in the year 2014, there was one Professor, who was also the Dean of the College. At present there are four faculties in the Department 2(two) Associate and 2(two) Assistant Professors). In addition to it 1(one) Assistant Professor from the Department of Agriculture Engineering and Processing is also attached to the Department and is assigned subjects related to Food Processing. A biochemist from the Department of Basic Sciences (Assistant Professor in Biochemistry) is assigned all Biochemistry subjects till 2019, presently he is promoted and posted to Headquarter, Imphal. Since, a post of Assistant Professor vacant; a

Guest faculty has been engaged to take biochemistry related courses. These faculties are also responsible for teaching the students of Community Science, since the College runs two parallel degree programmes.

6.4.3. Technical and Supporting Staff:

Technical and Supporting staffs of the college are listed as under:

Sl. No.	Technical staff /Supporting staff	Sanctioned	In place
1.	Assistant Engineer	1	Nil
2.	Sr. Library Assistant	1	1
3.	Junior Engineer (civil)	1	2
4.	Field cum Lab. Assistant	15	13
5.	Farm Assistant /Livestock	8	4
6.	Library Assistant	3	3
7.	Electrician	2	1
8.	Plumber	1	1
9.	Carpenter	1	1
10.	Driver	6	3
11.	Supporting Staff	33	33

6.4.4. Classrooms and Laboratories

6.4.4.1 Classrooms and Laboratories of the college

No. of lecture halls – 9 (Nine) Lecture halls including one (1) smart classroom
No. of seminar halls – 2 (Two) Seminar Halls

6.4.4.2 Classrooms and Laboratories of the Department of Food and Nutrition

The classrooms and laboratories of the college are used by both Community Science (CS) students as well as Food Nutrition and Dietetics (FND) students. It can be mentioned that the final year students from both the degree programmes are engaged in in-plant/internships/Experiential Learning/RAWE activities.

Seminar Room

ELP Students working in FSN Lab

RAWE activities

The laboratories and equipment available in all the departments of the college are enlisted below:

Sl. No	Department	Name of laboratory	Major equipment
1.	Family Resource Management	Household Equipment Lab Housing and Space Management Lab Interior Enrichment Lab Vocational Training Lab	1. Bicycle Ergometer 2. Inclinometer Micro FE T6 3. Goniometer 4. Sewing Machine Fashion Maker 5. Skinfold Caliper 6. Heart Rate Monitor 7. Lux Meter 8. Hand Grip Dynamometer 9. Acuflex II 10. Digital Leg and Back Dynamometer 11. Quartz Matronome 12. Flexicurve 13. Hygrometer 14. Stopwatch and Pedometer 15. Air Sampler 16. Ergomaster 17. Harpendent Skinfold Caliper 18. Harpendent Anthropometer
2.	**Food and Nutrition**	**Food Science and Nutrition Laboratory** **Cashew Nut Processing Laboratory** **Catering Management Laboratory** **Food Analysis Laboratory** **Food Preservation Laboratory**	**1. 4.	Textiles and Apparel Designing	Garment Construction Lab	1. Sewing machine family model usha model & covers 2. LCD Projector Model NECVT 695G 3. Dry Cleaning Machine 4. Spectrophotometer Labtronics KOL-01 5. Counter Weighing Balance 6. Yarn Twist Tester
		Dyeing and Printing cum Textile Testing cum Lab	
		Vocational Training cum Experiential Learning room	
5.	Home Science Extension and Communication Management	Instruction Technology Lab Technology Dissemination Lab	1. L.C.D Projector 2. OHP Opaque Projector 3. Television LCD Sony Bravia 4. DSLR camera Cannon 5. DVD Recorder 6. Video Camera Handy Cam Sony

FSN Laboratory

Food Preservation Laboratory

Food Analysis Lab

In the Department of Food and Nutrition, minor equipments such as oven, toaster griller (OTGs), Microwave ovens, digital weighing balance etc are also available.

The practical classes are arranged in such a way that it does not warrant the need of the same laboratory at the same time.

6.4.5. Conduct of Practical and Hands-on Training:

A total of 180 credits are required to be completed for graduation. Out of the 180 credits, 91 credits are practical oriented however 89 credit hours have been given to theory. Fifty percent of the credit requirement is practical based. The very concept of diet planning would not be possible without actually preparing or cooking the diet that is planned. The students are given hands-on-training in the basic concepts of measurements in terms of raw and cooked foods. The analysis of the nutrients and mineral content of food is taught to the students using sophisticated equipments in the laboratories. Knowledge gained from the class practical's of subjects such as Food Preservation and storage, Bakery and Confectionary, Nutraceuticals and Health Foods etc prepares the students for experiential learning programmes. By the time the students reach the final semester, they have already mastered the knowledge of setting up their own enterprise. The subjects Sports Nutrition and Physical Fitness along with Diet and Nutrition Counselling also paves avenues for setting up/working in fitness centres and counselling centres. Professional counsellors are called to provide special sessions to boost the students' confidence. The students are also exposed to community-based studies where they learn to interact with the local community. They learn the art of rapport building and hands-on-training on anthropometric measurements. This readies them for future community outreach and welfare programmes. The students therefore receive practical hands-on-training on-campus as well as off-campus.

6.4.6. Supervision of Students in PG/PhD Programme

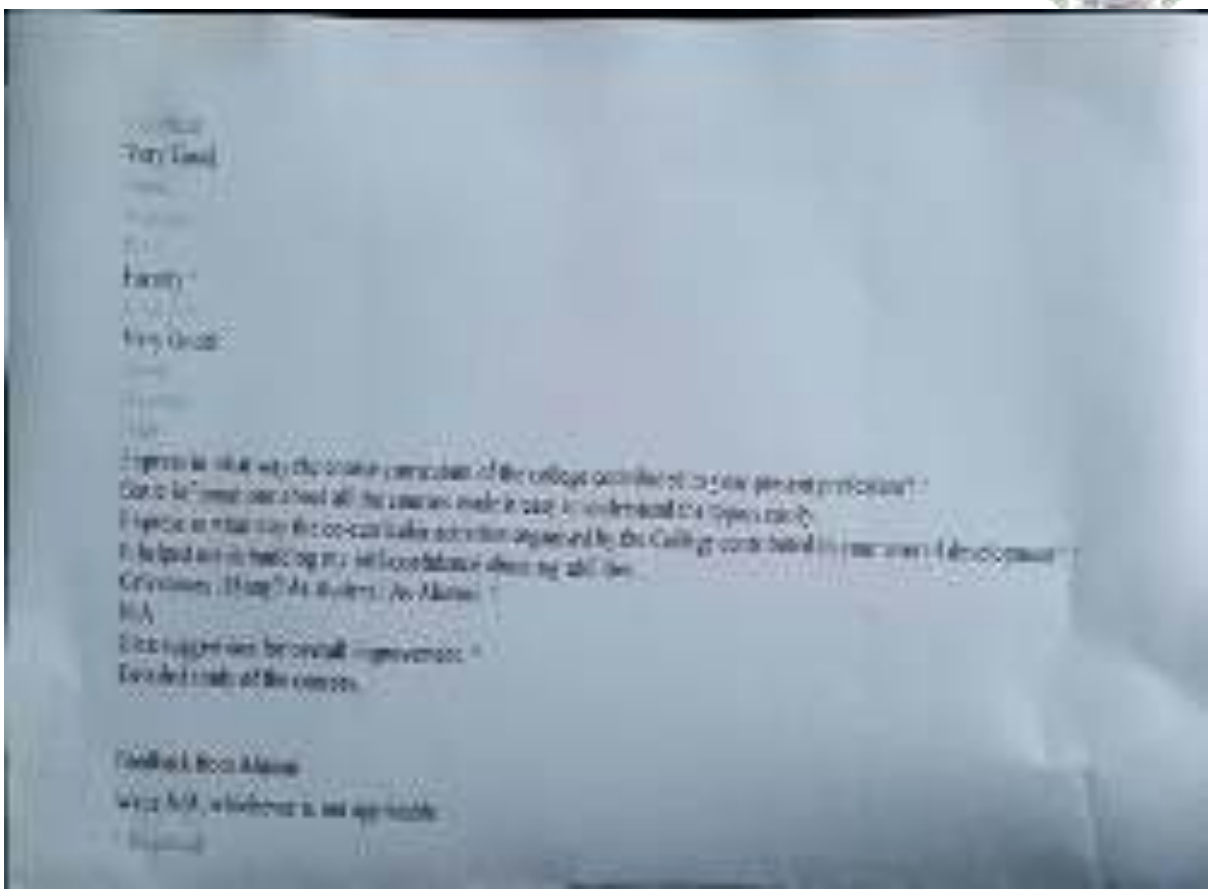
The information is provided in the separate report on M.Sc. Community Science programme.

6.4.7. Feedback of Stakeholders (Students, Parents, Industries, Employers, Farmers etc.)

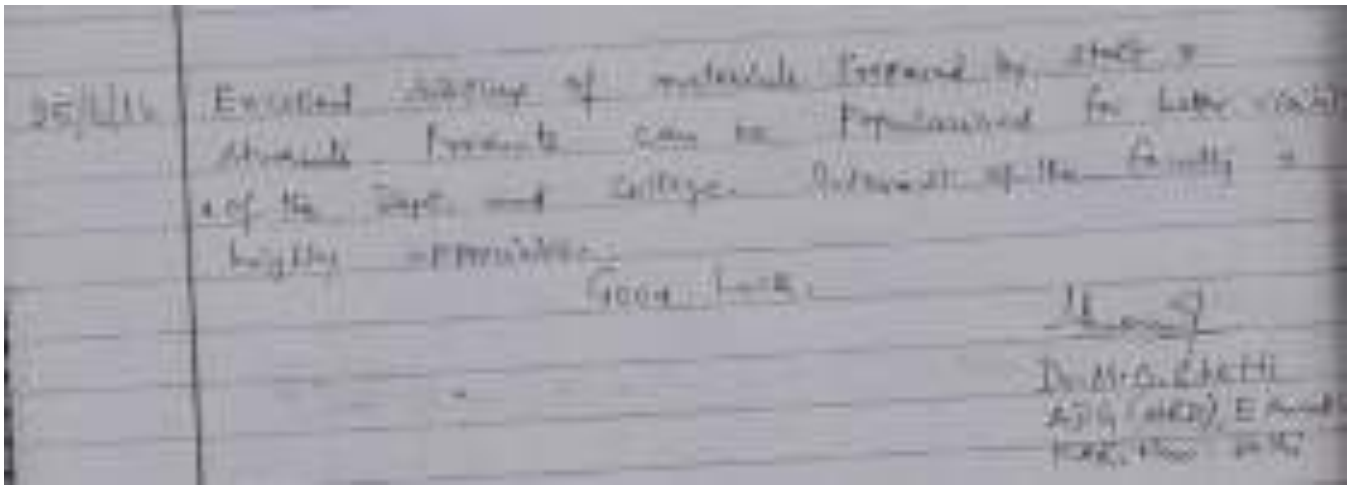
Feedback from stakeholders is often sought to improve the research, teaching and extension components of the College. After every semester, the students are given an evaluation form to evaluate teacher's performance which is duly filled and submitted to the Academic in-charge. A Performa is also provided to the alumnae and parents of the students wherein they provide feedback and suggestions to the college. The organizers of training programmes take feedback from farmers/participants after the culmination of each programme. (Enclosed)

6.4.7.1. Samples of evaluation of teachers' performance taken at the end of every semester

6.4.7.2. Samples of feedback from alumni



6.4.7.3 Feedback of visitors:



6.4.8. Student intake and attrition in the programme for last five years:

Name of the degree programme	Year	Sanctioned Intake capacity				Admitted				Attrition	
		Open Admission	State Nomination	ICAR	Total	Open Admission	State Nomination	ICAR	Total	Passed out	Dropped
B.Sc. (Hons.) Food Nutrition and Dietetics	2016-17	10	07	03	20	10	06	Nil	16	-	2
	2017-18	11	08	03	22	10	04	Nil	14	11	1
	2018-19	11	08	03	22	11	05	Nil	16	10	-
	2019-20	11	08	03	22	10	03	Nil	13	14	3
	2020-21	11	08	03	22	11	05	Nil	16	-	2

6.4.9. ICT Application in Curricula Delivery:

For ease of internet access, Wi-Fi facility is made available in the College. The IT laboratory is available to the students all day. It is equipped with computers with internet connectivity. The classrooms also have LCD projectors and an interactive smart board. The students are also encouraged to give their assignments via power point presentation on latest topics in the field of food, nutrition and dietetics. The laboratories are equipped with equipments which come with software installed in the computers, simplifying interpretation of results.

IT Laboratory

6.4.12. Certificate (Applicable when SSR is submitted for Programme).

I, the Dean Professor Puspita Das hereby certify that the information contained in Section 6.4 and Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

Summary

The Self-Study Report of College of Community Science, Sangsanggre, Tura, Meghalaya, encompasses a range of important information pertaining largely to the academic achievements of the college in its M.Sc. (Community Science) in Extension Education and Communication Management programme over the last five years from the academic session 2016-17 to 2020-21.

The report has been prepared based on the data requested by the Indian Council of Agricultural Research (ICAR) in the pre-drafted proforma required to be furnished by any institute of higher learning in the field of agriculture and allied sciences that seeks accreditation from the ICAR-National Agricultural Education Accreditation Board (N.A.E.A.B.). The distinctly delineated report commences with a brief history of the college, faculty and staff strength, facilities available, administrative setup, admission procedure, examination and evaluation process, research and extension activities, monitoring and quality assurance, among others. It provides adequate information on financial resources and its management, admission and attrition of students, students' achievements in various competitions, and their placement profile.

6.4. Self-Study Report for the Programme

6.4.1 Brief History of the Degree Programme

6.4.1.1 M.Sc. (Community Science) in Extension Education and Communication Management

College of Community Science [erstwhile College of Home Science] a constituent college of Central Agricultural University, Imphal, Manipur, located in Sangsangre, Tura, started its first academic session for B.Sc. (Hons.) Community Science [erstwhile Home Science] in the year 2004-05. The first batch of ten girl students hailed from Arunachal Pradesh, Meghalaya, and Manipur, and the academic activities and administrative work were carried out in a temporary building at Dakopgre, Tura. Dr. Rita Singh Raghuvanshi was appointed as the Dean (on deputation). Four lecturers were hired on contractual basis and one joined on deputation during the initial phase. Regular appointments were made in the year following the college's establishment and in the subsequent years.

In 2006, Dr. K. Sheela was appointed as Dean of the college, and subsequently in 2009, the college relocated its academic and administrative work to its permanent campus at Sangsanggre, Tura. After Dr. Sheela's retirement in July 2015, Dr. Puspita Das, was appointed as In-charge Dean, followed by the appointment of Dr. Anurag Chaturvedi as regular Dean in December 2016. Following Dr. Chaturvedi's resignation in September 2017, Dr. Puspita Das was again appointed as In-charge Dean and she is the incumbent administrative head of the college.

The picturesque campus boasts of a host of facilities including accommodation facilities for students, faculty and staff; spacious classrooms, a seminar hall and a smart classroom; laboratories; a well-furnished Guest House; an IT lab with 10 mbps internet connectivity; well-equipped library; transit hostel; an incubation center and a vocational training center; a canteen; and a playground. Recently, a Language Laboratory with 30 computers having 20Mbps internet connection has also been established in an endeavor to improve the communication and life skills of the students.

The college, at present, is offering two post-graduate degree programmes in Food and Nutrition, and Extension Education and Communication Management exclusively for female scholars/students. With the approval of the Academic Council of Central Agricultural University, the first academic session in M.Sc. (Community Science) Extension Education and Communication Management began in 2017-18. As per University guidelines, the programme has an intake capacity of three students [2 through University entrance examination + 1 ICAR nominee]. So far, two (2) students have completed their PG degree in Extension Education and Communication Management.

6.4.2. Faculty Strength

The current sanctioned, filled and vacant faculty strength are based upon the number recommended as per the ordinance of the college.

Sl. No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies	Guest Faculty/Adjunct Faculty/ Teacher from constituent colleges of CAU, Imphal
1.	Professor	-	1	**1**	**Adjunct faculty-2**
2.	Associate Professor	1*	0	**2**	**1 Associate Professor from CPGAS, Umiam**
3.	Assistant Professor	2	0	**4**	
Total permanent faculty		**3**	**1**	**7**	

* one Associate Professor was promoted to the post of Professor through CAS, thus, one post is not considered as vacant.
# one Assistant Professor, Dr. R.K. Dhanalaxmi Devi, has been absent from 2018 till date without tendering her resignation. The matter is pending at the headquarter.

At present there is 1 (one) regular faculty member in the Department of Home Science Extension Education and Communication Management. In order to augment the shortage of teachers, the university has provided provision to appoint adjunct and guest faculty of the related discipline from the other constituent colleges of Central Agricultural University, and other agricultural universities as well. The guest faculty and adjunct faculty are appointed directly by the university and also through the NAHEP-IDP in every semester.

6.4.2.1 Faculty teaching multiple programmes

The number of faculty assigned teaching responsibilities for multiple degree programmes are

Sl. No.	Name of the department	No. of faculty teaching multiple degree programmes
1.	Food Science and Nutrition	4
2.	Home Science Extension Education and Communication Management	1
3.	Family Resource Management	2
4.	Basic Science and Humanities	2
5.	Agriculture & Animal Science	1
Total		**10**

6.4.2.2 Deviation in Faculty Strength as per ICAR-FDC recommendation

As the faculty strength and nomenclature and number of departments are based as per the ordinance, the recommendation of the ICAR-Fifth Deans' Committee is yet to be implemented in toto. The

faculty position w.r.t. the Fifth Deans' Committee Report recommendation and existing faculty strength is shown below:

Sl. No.	Department faculty strength as per recommendation of Vth Deans' Committee	No. of faculty recommended			No. of faculty at present			Deviation		
		Prof.	Assoc. Prof	Asst. Prof	Prof.	Assoc. Prof.	Asst. Prof.	Prof.	Assoc. Prof.	Asst. Prof.
1.	Food Science and Nutrition	1	2	4	-	2	2	1	-	2
2.	Food Policy and Public Health Nutrition	1	2	4	-	-	-	1	2	4
3.	Apparel Design Management	1	2	4	-	-	-	1	2	4

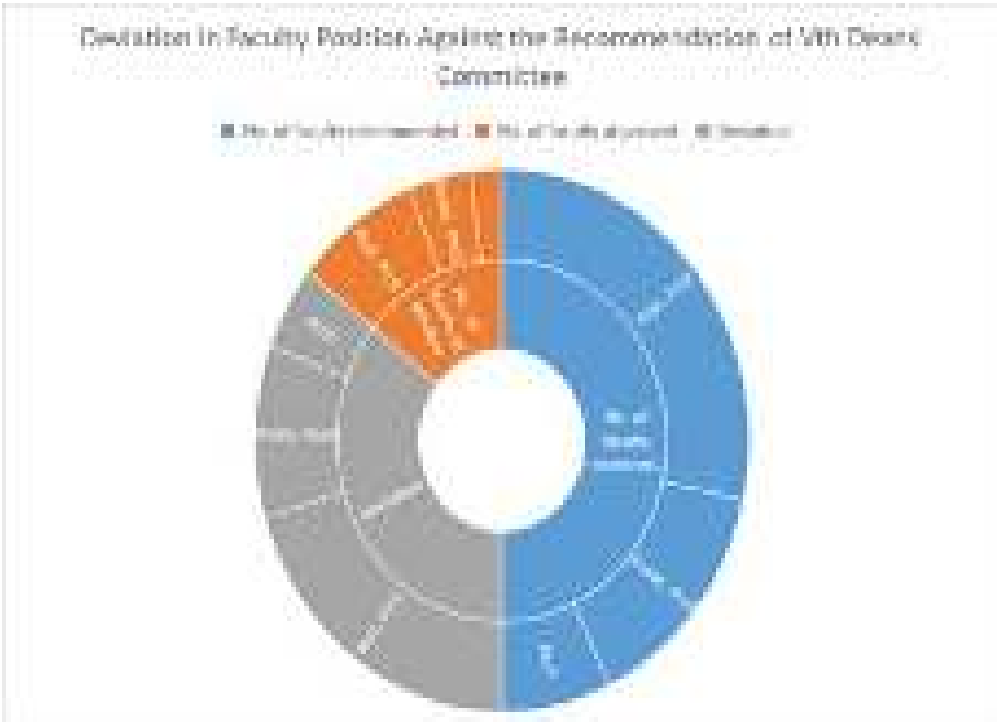
	TOTAL	**7**	**14**	**28**	**2**	**4**	**8**	**5**	**10**	**20**

* The current nomenclature is Textile and Apparel Designing ** The current nomenclature is Family Resource Management



Deviation in Faculty Position Against the Recommendation of 9th Deans' Committee

6.4.3. Technical and Supporting Staff

The number of sanctioned and appointed Technical and Supporting staff of the college are enlisted below:

Sl. No.	Technical staff /Supporting staff	Sanctioned	In place
1.	Assistant Engineer	1	Nil
2.	Sr. Library Assistant	1	1
3.	Junior Engineer (civil)	1	2
4.	Field cum Lab. Assistant	11	11
5.	Farm Assistant /Livestock	5	2
6.	Library Assistant	3	3
7.	Electrician	1	1
8.	Plumber	1	1
9.	Carpenter	1	1
10.	Driver	5	3
11.	Supporting Staff	32	30

6.4.4. Classrooms and Laboratories

No. of lecture halls – 9 (Nine) Lecture halls including one (1) smart classroom
No. of seminar halls – 2 (Two) Seminar Halls

Out of the nine lecture halls in the college, two lecture halls are used exclusively for M.Sc. classes, and the other rooms like the smart classroom and seminar halls are also utilized whenever the need arises.

6.4.4.1 Laboratories of the college

Sl. No	Department	Name of laboratory	Major equipment
1.	**Home Science Extension and Communication Management**	**1. Instruction Technology Lab** **2. Technology Dissemination Lab**	**1. L.C.D Projector** **2. OHP Opaque Projector** **3. Television LCD Sony Bravia** **4. DSLR camera Cannon** **5. DVD Recorder** **Video Camera Handy Cam Sony**

Audio Visual Lab

6.4.5. Conduct of Practical and Hands-on Training

6.4.5.1 M.Sc. (Community Science) Extension and Communication Management

All practical classes and experiments are conducted in the existing laboratories of the Department of Home Science Extension and Communication Management. It is ensured that the laboratory-related research work of the PG students is not hampered, and all support is extended to the students by the college and department.

Conducting practical

6.4.6. Supervision of Students in PG/PhD Programme

Candidates who have graduated from ICAR recognized institutions in Community Science/Home Science, and Food Nutrition & Dietetics are eligible to apply for the Master Degree programme in Extension and Communication Management. As per University guidelines, the programme has an intake capacity of three students [2 through University entrance examination + 1 ICAR nominee].

After admission to the college, each student is assigned under an Advisory Committee, comprising of a Chairperson or Major Advisor, Major Member belonging to the related discipline, and a member from a Minor discipline. The Major Advisor guides the PG student(s) in academic as well as research activities till the submission of the PG thesis.

The details of students supervised since 2017 are given below:

Year of admission	Name of student & programme enrolled for	Supervisor	Status
July 2017	1. Silkame N. Sangma [ECM] 2. Mikkimchi G. Momin [ECM]	Dr. Puspita Das	Degree awarded
July 2018	1. Huidrom Bliss [ECM]	Dr. Puspita Das	Thesis work in progress
Sept 2020	1. Aprilhrin Anal [ECM]	Dr. Puspita Das	1st year course work in progress

6.4.7. Feedback of Stakeholders (Students, Parents, Industries, Employers, Farmers etc.)

The UG and PG students provide feedback in a prepared proforma at the end of every semester pertaining to their learning experience, and their perception of the teacher's performance. A proforma is also provided to the alumnae and parents of the students wherein they provide feedback and suggestions to the college. The organisers of training programmes take feedback from farmers/participants after the culmination of each programme.

6.4.8. Student intake and attrition in the programme for last five years **(2016-17 to 2020-21)**

Name of the degree programme	**Year**	**Sanctioned Intake Capacity**			**Admitted**			**Attrition**	
		CAU Entrance Exam	**ICAR**	**Total**	**CAU Entrance Exam**	**ICAR**	**Total**	**Passed out**	**Dropped**
M.Sc. (Community Science) Extension Education and Communication Management	2016-17	02	01	03	Nil	Nil	0	-	Nil
	2017-18	02	01	03	02	Nil	02	-	Nil
	2018-19	02	01	03	01	Nil	01	-	Nil
	2019-20	02	01	03	Nil	Nil	00	02 (100%)	Nil
	2020-21	02	01	03	01	Nil	01	-	Nil

6.4.9. ICT Application in Curricula Delivery

For ease of internet access, Wi-Fi facility is made available in the college. The IT laboratory is used by students and faculty on all working days. It is equipped with 17 computers having 10 mbps internet connectivity. The classrooms also have LCD projectors with interactive smart boards. Recently, the college has set up a Smart Classroom to strengthen the teaching-learning experience. A Language Laboratory, augmented through the ICAR-NAHEP, with 30 new computers having 20Mbps internet connection has been set up to facilitate various communication skills-related programmes and to fulfil the academic requirements of the students.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Professor Puspita Das hereby certify that the information contained in Section 6.4 and Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

Summary

The Self-Study Report of College of Community Science, Sangsanggre, Tura, Meghalaya, encompasses a range of important information pertaining largely to the academic achievements of the college in M.Sc. (Community Science) in Food Science and Nutrition programme over the last five years from the academic session 2016-17 to 2020-21.

The report has been prepared based on the data requested by the Indian Council of Agricultural Research (ICAR) in the pre-drafted proforma required to be furnished by any institute of higher learning in the field of agriculture and allied sciences that seeks accreditation from the ICAR-National Agricultural Education Accreditation Board (N.A.E.A.B.). The distinctly delineated report commences with a brief history of the college, faculty and staff strength, facilities available, administrative setup, admission procedure, examination and evaluation process, research and extension activities, monitoring and quality assurance, among others. It provides adequate information on financial resources and its management, admission and attrition of students, students' achievements in various competitions, and their placement profile.

6.4. Self-Study Report for the Programme

6.4.1 Brief History of the Degree Programme

6.4.1.1 M.Sc. (Community Science)

College of Community Science [erstwhile College of Home Science] a constituent college of Central Agricultural University, Imphal, Manipur, located in Sangsangre, Tura, started its first academic session for B.Sc. (Hons.) Community Science [erstwhile Home Science] in the year 2004-05. The first batch of ten girl students hailed from Arunachal Pradesh, Meghalaya, and Manipur, and the academic activities and administrative work were carried out in a temporary building at Dakopgre, Tura. Dr. Rita Singh Raghuvanshi was appointed as the Dean (on deputation). Four lecturers were hired on contractual basis and one joined on deputation during the initial phase. Regular appointments were made in the year following the college's establishment and in the subsequent years.

In 2006, Dr. K. Sheela was appointed as Dean of the college, and subsequently in 2009, the college relocated its academic and administrative work to its permanent campus at Sangsanggre, Tura. After Dr. Sheela's retirement in July 2015, Dr. Puspita Das, was appointed as In-charge Dean, followed by the appointment of Dr. Anurag Chaturvedi as regular Dean in December 2016. Following Dr. Chaturvedi's resignation in September 2017, Dr. Puspita Das was again appointed as In-charge Dean and she is the incumbent administrative head of the college.

The picturesque campus boasts of a host of facilities including accommodation facilities for students, faculty and staff; spacious classrooms, a seminar hall and a smart classroom; laboratories; a well-furnished Guest House; an IT lab with 10 mbps internet connectivity; well-equipped library; transit hostel; an incubation center and a vocational training center; a canteen; and a playground. Recently, a Language Laboratory with 30 computers having 20Mbps internet connection has also been established in an endeavor to improve the communication and life skills of the students.

The college, at present, is offering two post-graduate degree programmes in Food and Nutrition, and Extension and Communication Management exclusively for female scholars/students. With the approval of the Academic Council of Central Agricultural University, the first academic session in M.Sc. (Community Science) Food and Nutrition commenced in 2016-17. As per University guidelines, the programme has an intake capacity of three students [2 through University entrance examination + 1 ICAR nominee]. So far, one (1) scholar has successfully completed her Post-Graduation in Food and Nutrition

6.4.2. Faculty Strength

The current sanctioned, filled and vacant faculty strength are based upon the number recommended as per the ordinance of the college.

Sl. No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies	Guest Faculty/Adjunct Faculty/ Teachers from constituent colleges of CAU, Imphal
1.	Professor	-	1	1	

2.	Associate Professor	2*	0	2	
3.	Assistant Professor	3	1	4	
Total permanent faculty		5	2	7	

* one Associate Professor was promoted to the post of Professor through CAS, thus, one post is not considered as vacant.

There are sufficient number of PG faculty teachers in the Department of Food and Nutrition. For the minor courses offered by the Department of Home Science Extension and Communication Management, the university has provided provision to appoint adjunct and guest faculty of the related discipline from the other constituent colleges of Central Agricultural University, and other agricultural universities as well. The guest faculty and adjunct faculty are appointed directly by the university and also through the NAHEP-IDP.

6.4.2.1 Faculty teaching multiple programmes

The number of faculty assigned teaching responsibilities for multiple degree programmes are

Sl. No.	Name of the department	No. of faculty teaching multiple degree programmes
1.	Food Science and Nutrition	4
2.	Home Science Extension and Communication Management	1
3.	Family Resource Management	2
4.	Basic Science and Humanities	2
5.	Agriculture & Animal Science	1
Total		**10**

6.4.2.2 Deviation in Faculty Strength as per ICAR-FDC recommendation

As the faculty strength and nomenclature and number of departments are based as per the ordinance, the recommendation of the ICAR-Fifth Deans' Committee is yet to be implemented in toto. The faculty position w.r.t. the Fifth Deans' Committee Report recommendation and existing faculty strength is shown below:

Sl. No.	Department faculty strength as per recommendation of Vth Deans' Committee	No. of faculty recommended			No. of faculty at present			Deviation		
		Prof.	Assoc. Prof	Asst. Prof	Prof.	Assoc. Prof.	Asst. Prof.	Prof.	Assoc. Prof.	Asst. Prof.
1.	Food Science and Nutrition	1	2	4	-	2	2	1	-	2
2.	Food Policy and Public Health Nutrition	1	2	4	-	-	-	1	2	4
3.	Apparel Design Management	1	2	4	-	-	-	1	2	4
4.	Textile Science and Design*	1	2	4	-	1	2	1	1	2
5.	Family Resource Management & Consumer Science**	1	2	4	1	-	2	-	2	2
6.	Human Development and Family Studies	1	2	4	-	1	2	1	1	2
7.	Extension and Communication Management	1	2	4	1	-	-	-	2	4
	TOTAL	**7**	**14**	**28**	**2**	**4**	**8**	**5**	**10**	**20**

* The current nomenclature is Textile and Apparel Designing ** The current nomenclature is Family Resource Management

6.4.3. Technical and Supporting Staff

The number of sanctioned and appointed Technical and Supporting staff of the college are enlisted below:

Sl. No.	Technical staff /Supporting staff	Sanctioned	In place
1.	Assistant Engineer	1	Nil
2.	Sr. Library Assistant	1	1
3.	Junior Engineer (civil)	1	2
4.	Field cum Lab. Assistant	11	11
5.	Farm Assistant /Livestock	5	2
6.	Library Assistant	3	3
7.	Electrician	1	1
8.	Plumber	1	1
9.	Carpenter	1	1
10.	Driver	5	3
11.	Supporting Staff	32	30

6.4.4. Classrooms and Laboratories

No. of lecture halls – 9 (Nine) Lecture halls including one (1) smart classroom
No. of seminar halls – 2 (Two) Seminar Halls

Out of the nine lecture halls in the college, two lecture halls are used exclusively for M.Sc. classes, and the other rooms like the smart classroom and seminar halls are also utilized whenever the need arises.

6.4.4.1 Laboratories of the college

Sl. No	Department	Name of laboratory	Major equipment
1.	Home Science Extension and Communication	1. Instruction Technology Lab	1. L.C.D Projector 2. OHP Opaque Projector

	Management	2. Technology Dissemination Lab	3. Television LCD Sony Bravia 4. DSLR camera Cannon 5. DVD Recorder Video Camera Handy Cam Sony
2.	Family Resource Management	Household Equipment Lab Housing and Space Management Lab Interior Enrichment Lab Vocational Training Lab	1. Bicycle Ergometer 2. Inclinometer Micro FE T6 3. 6.4.5. Conduct of Practical and Hands-on Training

6.4.5.1 M.Sc. (Community Science) Food Science and Nutrition

All practical classes and experiments are conducted in the existing laboratories of the Department of Food and Nutrition. It is ensured that the laboratory-related research work of the PG students is not hampered, and all support is extended to the students by the college and department.

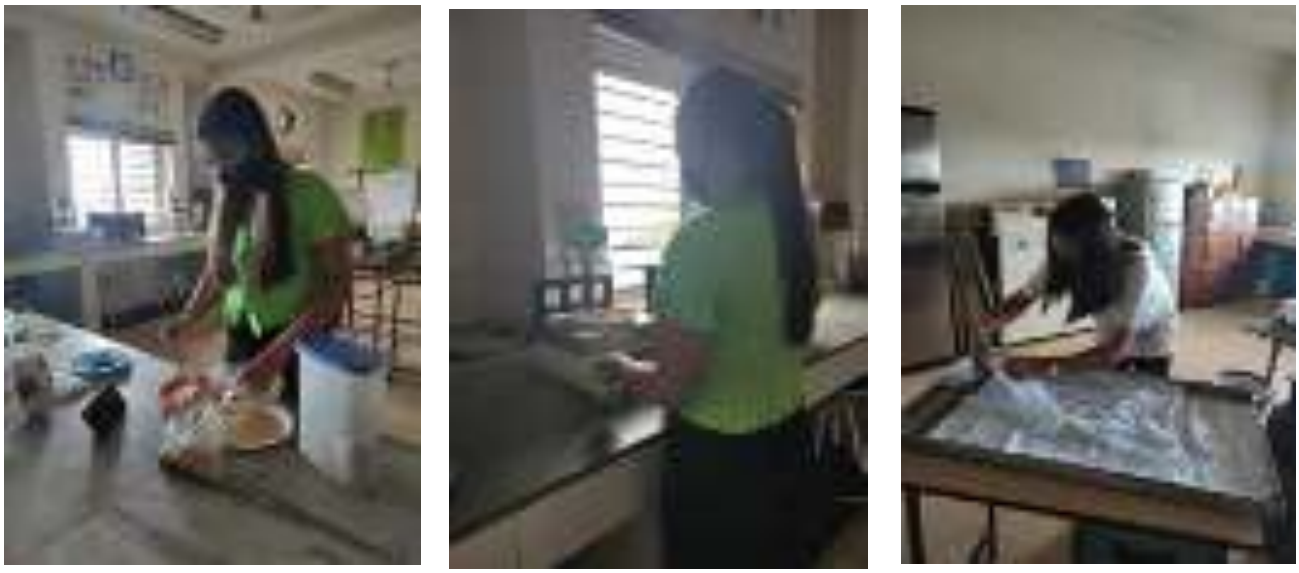

Fig. Students performing practicals in Food Science & Nutrition Lab.

6.4.6. Supervision of Students in PG/PhD Programme

Candidates who have graduated from ICAR recognized institutions in Community Science/Home Science, and Food Nutrition & Dietetics are eligible to apply for the Master Degree programme in Food and Nutrition. As per University guidelines, the programme has an intake capacity of three students [2 through University entrance examination + 1 ICAR nominee].

After admission to the college, each student is assigned under an Advisory Committee, comprising of a Chairperson or Major Advisor, Major Member belonging to the related discipline, and a member from a Minor discipline. The Major Advisor guides the PG student(s) in academic as well as research activities till the submission of the PG thesis.

The details of students supervised since 2016 are given below:

Year of admission	Name of student & programme enrolled for	Supervisor	Status
July 2016	1. Elvina Shongsir Monsang [FSN]	Dr. Namita Singh	Degree awarded
Oct 2018	1. Chungkham Nganthoibi [FSN] 2. Chungkham Chanu Malemnganbi [FSN]	Dr. Namita Singh	Thesis work in progress
Sept 2020	1. Fornia K. Sangma [FSN]	Dr. Namita Singh	1st year course work in progress

6.4.7. Feedback of Stakeholders (Students, Parents, Industries, Employers, Farmers etc.)

The UG and PG students provide feedback in a prepared proforma at the end of every semester pertaining to their learning experience, and their perception of the teacher's performance. A proforma is also provided to the alumnae and parents of the students wherein they provide feedback and suggestions to the college. The organizers of training programmes take feedback from farmers/participants after the culmination of each programme. (enclosed)

6.4.8. Student intake and attrition in the programme for last five years **(2016-17 to 2020-21)**

Name of the degree programme	Year	Sanction Intake Capacity			Admitted			Attrition	
		CAU Entrance Exam	ICAR	Total	CAU Entrance Exam	ICAR	Total	Passed out	Dropped
M.Sc. (Community Science) Food Science and Nutrition	2016-17	02	01	03	01	Nil	01	-	Nil
	2017-18	02	01	03	-	Nil	-	-	Nil
	2018-19	02	01	03	02	Nil	02	01 (100%)	Nil
	2019-20	02	01	03	Nil	Nil	-	-	Nil
	2020-21	02	01	03	01	Nil	01	-	Nil

6.4.9. ICT Application in Curricula Delivery

For ease of internet access, Wi-Fi facility is made available in the college. The IT laboratory is used by students and faculty on all working days. It is equipped with 17 computers having 10 mbps internet connectivity. The classrooms also have LCD projectors with interactive smart boards. Recently, the college has set up a Smart Classroom to strengthen the teaching-learning experience. A Language Laboratory, augmented through the ICAR-NAHEP, with 30 new computers having 20 mpbs internet connection has been set up to facilitate various communication skills-related programmes and to fulfil the academic requirements of the students.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Professor Puspita Das hereby certify that the information contained in Section 6.4 and Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

6.5 Self-Study Report for theCollege

The College of Agricultural Engineering and Post Harvest Technology (CAEPHT) was established on 20th May, 2006 as one of the constituent colleges of Central Agricultural University, Imphal, Manipur. Itis situated at Ranipool, Gangtok on National Highway 10 connecting Siliguri in West Bengal to Gangtok, the capital of Sikkim State. The campus of college is spread over an area of 7.71 ha. The total campus is located in mostly hilly terrain and sloppy and valley land at an altitude of approximately 914.4 m. (3000 ft.) above the mean sea level. Two rivers, namely *Rani-Khola* and *Basuk-Khola*, touch the college boundary towards the east side while the national highway NH- 10 is towards the west side of college campus. The college building, situated in the terraces and valleys and surrounded by rivers, provide an ideal atmosphere for academic and research activities.

The CAEPHT, Ranipool, Gangtok, Sikkim imparts education in different branches of Agricultural Engineering. The College started its first academic programme *i.e*., 4-year B. Tech. (Agricultural Engineering) programme from academic session 2006-07 with intake capacity of 20 students. B. Tech. (Food Technology) programme from academic session 2010-11 with intake capacity of 19 students

The course curriculum and syllabi of both the degree programme are based on the model academic regulations and syllabi as proposed by the 5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi. While designing curriculum, outmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers for emerging opportunities at national and international level.

At present 10+2+4 pattern which comprises Student READY programme (in summer break after semester IV: Skill Development training-I for 05 weeks; in summer break after semester VI Skill Development training-I for 05 weeks; in semester VII: Industrial attachment of 10 weeks, on campus Experience Learning for 10 weeks; in semester VIII: Project planning and Report Writing) is offered from the academic year 2016-17.

College started offering M.Tech.(FMPE) programme from 2013 in the department of FMPE with an intake capacity of 3 students. In 2015-2016 the M. Tech programme has been introduced in two more discipline in the departments of Soil and Water Engineering and Food Engineering. In the year 2017-18 the nomenclature of both the programmes has been changed to M.Tech. Soil and Water Conservation Engineering and M.Tech. Process and Food Engineering.

In the year 2016-17 the department of FMPE started PhD programme with an intake capacity of 2 followed by the department of PFE and SWCE with intake capacity of 1 in each department in the year 2017-18.

The College of Agricultural Engg.& PHT, Ranipool Gangtok Sikkim is an unique campus under the Central Agricultural University, Imphal with complete integration of all the three functions *viz.;* teaching, research and extension. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of agricultural engineering, not only in Sikkim but also in the entire North-Eastern Region. The college shall also endeavor to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. The mission and major objectives of the college are:

Mission

To train technical manpower, pursue high quality and high impact research, design and development of sustainable technologies/equipment related to agricultural engineering and disseminate the developed technology to the farmers' field/ agro- industries of NEH region of India.

Objectives

1. To establish and develop excellent academic facilities for offering undergraduate and postgraduate education in discipline of Agricultural Engineering and Post Harvest Technology, appropriate to various states of NEH region in particular and country in general.
2. To impart quality education so as to produce globally competitive graduates and post graduates in areas of Agricultural Engineering and Post Harvest Technology including inter disciplinary area so that confident and capable human resource, suitable for working as scientists, academics, managers, entrepreneurs etc., could be developed.
3. To establish specialized research laboratories fitted with state of art machineries equipment and instruments for taking up basic and applied research by the scientists/teachers and post-graduate students and experiential learning facilities including pilot plants for 'handson training' of undergraduate students.
4. To develop and demonstrate modern and mechanized farming system appropriate to NEH states which may help the farmers to improves their productivity and profitability while preserving and improving the environment.
5. To develop need based improved agro-technologies and equipment for NEH region for household and on farm operations, post-harvest management and utilization of renewable sources of energy.

6.5.1 College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Agricultural Engineering and Post-Harvest technology, Ranipool. The Dean is assisted by various teaching, non- teaching and non-technical members of the institution.

6.5.1.1 College Dean's Office Establishment

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned bythe appropriate authority as per ICAR Model Act/UGC guidelines	Yes
2.	Date of selection/joining of present Dean	28/12/2017
3.	Mode of selection	Through Interview
4.	Tenure	5 Years
5.	Total number of staff in Dean's office	One PA, One MTS for performing the official works.

6.	Infrastructure facilities (Details on infra and networking facilities available)	• Computers with printers are availableattheDean'sofficewith internet and UPSconnectivity • Copier facility is availablewith Wi-Fi connectivity

6.5.1.2. Monitoring Mechanism for Quality Education (on-line)

Teaching

At the beginning of every semester course registration is done immediately after getting admission. The conduct of theory and practical classes are reviewed by the Head of the Departments, Academic In-charge and the Dean, College of Agricultural Engineering and Post Harvest Technology, Ranipool.

Undergraduate, Master's and Doctoral degree programme

- Mid semester, practical and final theory examination are conducted to assess the studentsAssignments are regularly given to students in each of the courses related to thecurriculum
- Externalsystemofevaluationfollowedforboththeoryandpracticalforeachcourserelated to thecurriculum
- Academic counselling is done every week by assigned studentadvisors
- Monthly quiz programmes and group discussions are arranged for the students to ascertain their proficiencies andknowledge
- Students who are academically weak are given special guidance and extra lectures are conducted forimprovement
- Master's and Doctoral students are assigned to Advisory Committee under Chairperson from respective departments for conduction of courses, research activities, seminars. The progress of all activities is measured every semester through Progress seminar.

Faculty Research

There is an active College Research Advisory Committee (CRAC) has been functioning in the college which monitors various PG research activities, Institutional Research Projects including Intra-mural Research Projects and Externally Funded or Sponsored research Projects. For UG, PG and Ph.D. research projects, every student presents outline of research work, synopsis and prethesis seminars before faculty committees.The students of PG and Ph.D. have to publish research articles mandatorily in reputed Journals for final submission of thesis. The Review of progress of research work is evaluated by the Dean, Director of Research and the Vice Chancellor, CAU during Research Review Committeemeetings.

Extension

The faculty of College of Agricultural Engineering and Post-Harvest Technology has organized number of extension activities. These activities are monitored by the Dean and University Officers regularly and annually by obtaining reports.The activities are planned and supervised by the College level, Extension Advisory committee. The project entitled "Implementation of Mobile based Agro Advisory System (m4agri) in Sikkim sponsored by Ministry of Electronics and information Technology, Government of India is ongoing.

Figure in parenthesis indicates number of farmers

Measures taken to improve the quality of education, research and extension education

- ✓ Industrial and institute related exposure visits related to the courses offered to thestudents
- ✓ Recognition and awards are given to best students at university level
- ✓ Educational talk are arrange inviting experts from different fields
- ✓ Assignments and exams are conducted on regular basis

Research

- ✓ Encouraging students to actively participate in workshops, webinars and conferences

- ✓ Experimental learning programme of six different modules is conducted for 12 weeks and 10 weeks in plant training for skill generation
- ✓ Students undergo Research Work in B. Tech, M. Tech and Ph.D.

Extension

- ✓ Organizing more farmer trainings and group discussionprogrammes
- ✓ Conducting brain storming sessions for groupapproach
- ✓ Involvement of students in extension activities

Impact of monitoring with reference to students excelling in academics, research and extracurricular activities

CAEPHT Ranipool, since its inception has contributed significantly for the development of quality human resource which can be evidenced in the form of number of graduates, postgraduate and doctoral students, JRF's, SRF awardees, students employing state government, SAU's, central institutes, banking sector, private firms, MNC's and entrepreneurs. Placement cell of the college is facilitating carrier guidance and personality development programmes that aim at increasing employability of the students. Faculty are also encouraging students to appear for various competitive exams like ASRB, PSC, UPSC, IBPS, GATE, GRE, TOFFEL and CAT. The major highlights are

- ✓ Improved academic Performance of students with higher OGPA
- ✓ Admission to IIT's, NIT's, ICAR Institutions, SAU'S, CAU's and various reputed Institutes of National Importance
- ✓ Better performances in National Level Entrance Examinations
- ✓ Publications of Research articles in Reputed Journals
- ✓ Winning awards and recognition in various National& International conferences, competitions and program etc.

6.5.1.3. CC/Board of Studies:

The College of Agricultural Engineering and Post Harvest Technology, Ranipool is a constituent college of Central Agricultural University, Imphal and is governed by decisions of the statutory bodies *viz.,* Board of Studies (BOS) and Academic Council.The major recommendations have been made during the period of report are briefed in **Annexure 6.5.1.3.**

6.5.1.4. Anti-Ragging Committee:

The Anti- Ragging committee comprising of Dean, Warden's (Boy's Hostel & Girl's Hostel), Female Faculty members and Student Welfare Officer (SWO) is formed every year to inspect and to visit Hostels (both for Girl's & Boy's) at any time after the entry time. Each student is allotted withoneadvisertodiscusstheirproblemsandcounsellingisbeingdoneonweeklybasisforallthe students by their respective advisers. Meetings & Group discussion is being conducted regarding related Anti Ragging topic on quarterly basis.

6.5.1.5. Biological waste disposal facility: Yes

Chemical, Biological and recyclable wastes generated through a variety of research activities, clinical service, maintenance and cleaning operation at the college level have been disposed systematically. Field wastes are converted to compost. Food waste is used for compost pitstoprepare compost. Incineration unit has been installed in ladies' hostel and

soak pit facilities are being used. Compost and vermin-compost units are established for converting biological wastes. The laboratory chemical wastes are disposed by burying deep into the soil. Waste bins and Dust bins are maintained at regular distance.Regular cleaning and burying activities of the wastes accumulated is monitored by Swachh Bharat committee of college.

6.5.1.6. Institutional Ethics Committee for Experiment onAnimals:

The college is not undertaking experiments on Animals. However, if such experiments are undertaken in future, then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee(IAEC).

6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places:

The women cell for prevention of sexual harassment of women has been formed to address allgrievances pertaining to sexual harassment of women (students, teaching and non-teaching staff and labours) at the college. Dr. Sujata Jena I/c Women Cell looks after the problems. There was no complaint on sexual harassment in the college during last five years. However, details on sexual harassment of women at work place Act, 2013 and preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers.

6.5.2. Faculty

As per faculty recommended by ICAR/~~UGC/VCI/~~Other regulatory bodies the faculty strength is sufficient. Special focus is paid for all round development of student to show their hidden talent in addition to their educational programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and carrier. Annual College Week, Blood Donation Camp, Science Day, Awareness Programs, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students. The students also participate regularly inter collegiate event of University and National level competitive events.

6.5.2.1. Faculty strength sanctioned, vacant and recommended by ICAR

Sl. No.	Sanction Faculty	Faculty Sanctioned	Faculty in Place	Vacant Position	Faculty recommended By ICAR/UGC/VCI/Other regulatory bodies

6.5.2.4. Credentials of the Faculty:

Allfacultymembersofthecollegearequalified and recognized persons of their fields.Thecollegehasadequateproportionsof experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities. The details of qualification, experienceandprofessionallicensureandcertificationanddemonstratedcompetenciesaredetailed in Annexure**6.5.2.3.**

6.5.2.4. Technical and SupportingStaff:

The technical staff and other supporting staff of College of Agricultural Engineering and Post HarvestTechnologyareattached with the Dean'sofficefor administrative, convenience and being allotted to other departments for as per requirements and skills imparted. Other than these staffs some Skilled and Unskilled labours are hired on contractual basis. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office.

6.5.3. Learning resources:

Learningresourceslikebooks,photos,lifespecimenandaudio-visualaidslikepower-point presentation, videos are used to assist the students to meet the expectation for learning defined by ICAR recommended curriculum.Faculties are provided with computers to access the online open coursework and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, researchandextensionactivities. Studentsarealsoencouragedtoaccessvarioussoftware applications inagriculture.

6.5.3.1. College Library(digital):

The library provides circulation and reference services. All the in-house operations of the library are fully computerized using the networked version of the library software KOHA with Web OPAC facilities. The library also has access to online e-journals through CeRA. Photocopying and printing facility is also available in the library. Details of library are as given below:Area of Library: 2400 sq. ft. (223 sq. m.)

Details of Library

SlNo.	**Particulars**	**Details**
1.	Present staff	1 Senior Library Assistants 1 Library Assistants 3 Multi-tasking Staffs
2.	Availability of Wi-fi	Wi-fi facilities area available in the library with a band width speed of 1GBps from NIC-NKN network.
3.	Books	For College of Agricultural Engineering and Post-Harvest Technology: **7831 books**
4.	Other reading materials	National and local newspaper such as Dainik Jagran (Hindi), The Telegraph, The Times of India, Sikkim Express (English), Hamro Prajashakti (Nepali)etc. Magazines like India Today, Down To Earth, Pratiyogita Darpan, Civil Services Chronicle, Kurukshetra, Yojana, Agriculture Today, Economics and Political weekly.
5.	Research Journals	Students and faculty can access journals through online portal of CeRA, ICAR.

6.	Internet with computers	Two
7.	Sitting capacity	28numbers
8.	Latest technology in library	KOHA LMS is being used for Library Automation in CAEPHT Library. Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia fore- Resources in Agriculture)
9.	Stocking arrangement	Library adopted Open Access System for accessing library collection and classified according to Dewey Decimal Classification (DDC) scheme (22 Ed.) and arranged in APUPA pattern, stacked in different parts like, Subject books Kannada/Literature books General books Reference books Competitive Exam books Thesis Back volumes Seminar scripts
10.	Operating hours	10.00 AM to 05.00PM
11.	Books available in COH	Horticulture, Crop Physiology, Plant Biotechnology Genetics and Plant Breeding, Entomology, Microbiology, Agronomy, Plant Pathology, Crop Physiology, Soil Science & Ag. Chemistry, Agro forestry, Ecology, Text book of Advanced Pomology, Plant Biotechnology, Plant Biochemistry, Ag. Economics, Ag. Extension, Statistics, Computer Application & IPR, Botany, Floriculture, Pest management in vegetables, Handbook of Beekeeping.

6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Pondsetc.:

The College of Agricultural Engineering and PHT, Ranipool is having laboratories of all departments are well equipped with all the necessary equipment and facilities to accomplish the academic activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. The farm facilities,workshopsandotherinstructionalunitsarewelldesignedtomeetthecourse curricularand research requirements.

6.5.3.3. StudentREADY/ In-Plant Training /Internship/Experiential Learning Programmes: Yes

The practical of courses for B. Tech (Agricultural Engineering) and B. Tech (Food Technology) is carried out in the laboratories and fields fully equipped with desired

instrumentation and facilities. Student practical are conducted as per batches divided based on strength of admitted candidates and as per academic schedule. Students are allowed to perform practical after proper demonstration and skill presentation with precautionary measures. The laboratories and facilities for practical and hands-on-training are fully equipped with number of instruments allowing each individual student to perform practical.

The students of Agricultural Engineering discipline undergo Two five weeks Skill Development Trainings under Hands-on-training after IV and VI semesters. The industrial attachment training for 10 weeks and Experiential Learning on campus programme of 12 weeks is carried out in VII semester. The requisite facilities for conduction of experiential learning programme are provided to students to practically fulfill programme requirements and achieve desired skills. Within VIII semester students perform 12 Weeks Project planning and report writing as per ICAR guidelines. The facilities for project are provided to the students as per requirement.

Students have undergone the hands-on training for the skill development during the training programme to make them fit for demonstrating the responsibilities effectively in the professional career. During the training students developed the skill in the field of farm machinery training and testing, repair and maintenance, renewable energy, soil and water conservation, design structures, Irrigation and water management, food processing & value addition, post-harvest management etc.

6.5.3.4. Curricula Delivery through IT (smart class rooms/interactive boardetc.):

The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) Computer Laboratory, under Central Agricultural University (CAU), Imphal, is well-equipped with 2 smart classrooms having facilities of Interactive whiteboards for conduction of online lectures and smartboard allows projection of images, manipulation of images, dragging, clicking and copying of matter. Simultaneously Teacher is availed with facility to provide handwritten notes on board and same can be saved for later use.

6.5.4. Student Development:

6.5.4.1 Student Intake and Attrition:

The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) presently offers Under Graduate Programmes in Agricultural Engineering and Food Technology. B. Tech (Agricultural Engineering.) B. Tech (Food Technology) which is of 4 years duration.

Student intake and attrition in the programme for the five years

Name of the Degree Programme	Actual students admitted in last five years					Attrition (%)				
	2015-16	2016-17	2017-18	2018-19	2019-20	2015-16	2016-17	2017-18	2018-19	2019-20
B. Tech (Agril. Engg.)	30	40	36	33	39	3.33	2.5	8.33	0	12.82
B. Tech (Food Technology)	11	09	09	9	10	15	22.2	11.11	18.18	10

M. Tech (FMPE)	01	0	02	03	2	0	0	0	0	0
M. Tech (SWCE)	03	01	02	05	2	0	0	0	0	0
M. Tech (PFE)	02	02	02	04	2	0	0	0	0	0
M. Tech (IDE)	NA	NA	NA	NA	1	0	0	0	0	0
M. Tech (REE)	NA	NA	NA	NA	1	0	0	0	0	0
Ph.D. (FMPE)	-	1	-	1	2	0	0	0	0	0
Ph.D. (SWCE)	-	-	-	1	0	0	0	0	0	0
Ph.D. (PFE)	-	-	1	1	1	0	0	0	0	0

6.5.4.2 Average Number of Students in Theory and practical Classes:

The number of intake students is manageable due to limited number of seats.

Average number of students in theory and practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical
1.	Degree Programme B. Tech AE/FT	Full strength	2 batches of equal strength
2.	PG/PhD	Full strength	Full strength

The class rooms and laboratories are sufficient to meet course curricula requirement of the degree programme.

6.5.4.3 Admission Process:

For UG the present intake capacity for B. Tech A.E. and FT is 58 and 22 respectively. The University allocates and seeks nominations from respective North Eastern Hill states. The concerned departments of the respective state government nominate the students on the basis of competitive entrance examinations conducted by them. 10 students for B. Tech AE are admitted via centralized admission process through All India Entrance Examination for Admission conducted by ICAR, New Delhi.

Students Allocation UG programme

Sl. No.	Name of the College	Degree Programme	States									
			Arunachal Pradesh	Manipur	Meghalaya	Mizoram	Nagaland	Sikkim	Tripura	ICAR/VCI	Payment Seat	Total
1.	College of Agricultural Engineering	B. Tech. (Agril. Engg.)	06	08	06	05	05	05	08	10	05	**58**

2.	& Post Harvest Technology, Ranipool, Sikkim	B. Tech. (Food Tech.)	02	04	02	02	02	03	04	03	-	**22**

Students are informed to pay the admission fees through online mode using SBI Collect. On payment of admission fee and submission of duly filled in admission form, students are provided with Course registration cards. Students are instructed to submit duly filled in Registration cards to academic section.

For PG and Ph.D. programmes the admissions are made through All India Competitive Examination conducted by Central Agricultural University, Imphal, Manipur. Candidates are selected based on the performance in the entrance examination and academic record. There are some departments having reservation for ICAR PG entrance qualified candidates who are admitted via centralized admission process carried by ICAR. There are 5 PG Programmes namely M. Tech (Farm Machinery Power Engineering), M. Tech (Soil and Water Conservation Engineering), M. Tech (Processing and Food Engineering), M. Tech (Irrigation and Drainage Engineering) and M. Tech (Renewable Energy Engineering) and 3 PhD programmes viz. Ph.D. (Farm Machinery Power Engineering), Ph.D. (Soil and Water Conservation Engineering) and Ph.D. (Processing and Food Engineering) are running in the institute.

6.5.4.4 Conduct of Practical and Hands on Training: Yes

The practical classes are being conducted every day for minimum of two hours for each subject having practical credit hours. The practical of the students are designed in manner that it covers all the syllabus prescribed for curriculum. All of the departments are equipped with all related equipments and working models that can be assessed by students individually even in group. Most of the experiments are conducted by students individually with guidance of concerned teacher. Students are allowed to handle all farm equipments during field practical with proper care and precautions. Students are placed for hands on training

6.5.4.5 Examination and Evaluation Process:

The college strictly adheres to the examination and evaluation system as recommended by the V Deans' Committee. As such, the college follows Uniform Grading system with uniform OGPA requirements for award of degrees at all levels. A uniform conversion formula is followed for declaration of I, II and III divisions, distinction etc. The exam pattern consists of internal Assessment and External assessment both equally distributed with 50% weightage. The assessment pattern and weightages are as follows:

- ✓ Courses with Theory and Practical: Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)
- ✓ Courses with only Theory: 6Mid-term Exam (40%) + Assignment (10%)
- ✓ Courses with only Practical: 100% Internal

Particulars	**Course credits**				
	2+1	**1+1/2+2**	**1+2**	**1+0/2+0**	**0+1/0+2**

	T	P	T	P	T	P	T	P	T	P
Mid-term exam	30	-	30	-	30	-	30	-		
Quiz/Continuous evaluation	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

Duration of exams

Mid-term theory exam	1½ hours
End-term theory exam	2½ hours
End-term practical exam	3 hours

Evaluation

✓ The evaluation of students' performance is achieved by conducting Quizzes of 20 marks (Internal), Mid-Term Examination of 30 marks (Internal) and End-Term Examination (External)of 50 marks. The practical examination consists of 100 marks.

✓ The questions and answer scripts for quiz and Mid-term examinations are set and evaluated by concerned course teacher.

✓ The questions and answer scripts for End-term examinations are set and evaluated by external examiners selected duly from a list of panel members by the competent authority.

6.5.4.6 NCC/NSS/RVCUnits:

NSS unit in the college does not exist.

6.5.4.7 LanguageLaboratory:

The language laboratory is under construction at College of Agricultural Engineering and Post-HarvestTechnology, Ranipool campus. The audio-visual aids are planned to be used for modern teaching methods to teach the English language. The language lab will offer an exclusive result oriented and efficient English language learning process. The language lab will be developed on the methodology of LSRW (Listening, Speaking, Reading and Writing) skills. It also helps in developing skills in presentation, interviews, Group Discussions, Public Speeches and soft communication skills. The contents will include activities, exercises and home assignments with audio-visual modules. There will be a special module on preparation for online competitive exams such as GRE, TOEFL, and IELTS etc.

6.5.4.8 CulturalCentre:

The college has a Student Activity Centre which is exclusively empowered to explore and equipthe studentsformulti variedculturalactivities.TheCulturalCommitteeisformed comprising offaculties, staffandstudentsalongwiththe StudentWelfare OfficeroftheCollege. Differenttypes of clubs' function under the Committee such as the Music, Theatre, Literary and Fine Arts.

6.4.5.9 Personality Development:

Besides the four compulsory courses under the Dean's Committee syllabus which cater to the overall personality development of the students, the College of Agricultural Engineering and Post-Harvest Technology invites renowned achievers from the different places to interact with students for motivational talk and experience sharing. Various lecture series have been organized under NAHEP-IDP project for students.

6.5.5. Physicalfacilities:

6.5.5.1 Hostels:

The infrastructure of College of Agricultural Engineering and Post-Harvest Technology has various facilities like academic block, administrative block, and separate hostels for boys and girls, Auditorium. Basic medical facilities are centrally available at the Medical Unit of the college where basic medical amnesties such as antipyretics, antibiotics, anti-diarrheal etc. are available. Also, facilities forI.V.injectionsand fluidsandsutureneedles andmaterialsareavailableforminorsuturing.First aid kits areissuedtoallhostels. Medical experts areinvitedtodeliver speciallectures on self-hygiene,tobaccoanditstoxicity, nutritious foods for healthy living.

6.5.5.2 Examination Hall

Separate exam halls are unavailable and hence normal classrooms are rearranged as exam halls during the time of exam, the details of which are:

No. of classrooms	8
Capacity	Varied capacity ranging from 20-40 sitting capacity
Facilities available	Chairs, writing desks, electrical fans and lights
Amenities	Washroom, wash basin and running water

6.5.5.3 Sports and Recreation Facilities

The students are provided with all types of physical exercises during the classes and in physical experience class to keep them physically fit and healthy. In addition, the skill development in any one of the games such as badminton, volleyball, football, cricket, table tennis and athletics is contemplated in the physical education programme. Maintenance and cleaning of the ground are regularly done for use by the students. Matches are conducted for the students during the annual sports day and intercollegiate meets or any other specific days such as the Foundation Day, Republic Day etc. to improve and maintain their skills using ground facilities. Indoor games such as carom, chess, badminton and table tennis are also available.

6.5.5.4. Auditorium

The College of Agricultural Engineering and Post-Harvest Technology has full facilitated auditorium at present. The details of the auditorium are as follows:

Does the college have auditorium	Yes
Year of construction and sitting capacity	2013; 300 number sitting capacity

How frequently the auditorium is used and purpose for being use	College Day (Once a year), Republic Day (Once a year), Foundation Day (Once a year), Independence Day (Once a year), Inaugurationprogrammes (Numerous times a year), NationalandInternational workshops (Numerous times a year), Invited Lectures (Numerous times a year), Teachers Day, Fresher's Day

6.5.5.5. ExhibitionHall/Museum

College of Agricultural Engineering and Post Harvest Technology have established the Agricultural Technology Information Centre (ATIC) in 2008. This is a "**Single Window System"** to allow optimistic interaction between farmers, scientists and other stakeholders for effective technology transfer developed by the College and Central Agricultural University, Imphal. It has mandate for providing information and providing training on improved Agricultural Engineering and Post Harvest Technologies to the farmers, entrepreneurs and other stakeholders within the jurisdiction of the Central Agricultural University, Imphal, Manipur.

It has facilities of display of information, equipment/machineries, charts/photographs and college publications and sell of the technologies developed by the college through Agri.-Business Centre in addition to organizing trainings for farmers. The Agri.-Business Center of ATIC caters the need of farmers and other stakeholders through display and sale of improved/developed farm tools, processed and value-added products and farm products of Farmer's Producer's Organizations (FPOs), processed and other value-added products.

The Centre is working under the direct control of Dean of College, who arranges the necessary facilities to the scientists engaged in rendering regular service to the farmers of the NEH region including Sikkim. The Director of Extension Education of CAU Imphal, Manipur from time to time gives guidance to ATIC in organizing various activities.

6.5.6. Research Facilities

6.5.6.1 Postgraduate Laboratories and Equipment's

Currently college is offering Under Graduate, Post Graduate and DoctoralProgramme. Laboratories used for Undergraduate studies, same are being used as Post Graduate Laboratory. List of equipment available in college are as follows:

Number of laboratories available

Sl. No.	Section	No. of laboratories available for UG
1.	Farm Machinery	01
2.	Farm Power	01
3.	Ergonomics and Safety	01
4.	Soil Dynamics	01
5.	Farm Machinery Testing	01
6.	Thermodynamics and Heat Engine	01
7.	Theory of Machine	01
8.	Workshop	01
9.	Renewable Energy	01
10.	Renewable Energy Field Lab 1	01

11.	Renewable Energy Field Lab 2	01
12.	Surveying Lab	01
13.	Engineering Mechanics Lab	01
14.	Soil and water Conservation &Soil Mechanics Lab	01
15.	Strength of Material Lab	01
16.	Remote Sensing and GIS lab	01
17.	Engineering Drawing	01
18.	Fluid Mechanics & Irrigation Drainage Engg.	01
19.	Soil &Water Quality	01
20.	Food Engineering Laboratory	01
21.	Process Engineering Laboratory	01
22.	Agricultural Structures & Environmental Control Engineering Laboratory	01
23.	Food Analytics Laboratory	01
24.	Pilot Plant	07
25.	Farmers' Produce processing – cum – Skill Development Center	01
26.	Biochemistry and Microbiology Laboratory	01
27.	Electrical, Electronics and Instrumentation Laboratory	01
28.	Computer Laboratory	01
29.	Physics Laboratory	01

Department/Section wise Functional Laboratories available

Sl. No.	**Department/Section**	**Area (Sq. m.)**	**Remarks**
1.	***Farm Machinery and Power Engineering***		
	08 Laboratories	90 m^2 128 m^2 135 m^2 160 m^2 40 m^2 34 m^2 34 m^2 323 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*.
2.	***Soil and Water Conservation Engineering***		
2.	06 Laboratories	39 m^2 81 m^2 135 m^2 105 m^2 58.5 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Irrigation and Drainage Engineering***		
	02 Laboratories	225 m^2 40.32 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*.

4.	***Processing and Food Engineering***		
	06 Laboratory	228.28 m^2 92.77 m^2 80.71 m^2 93.24 m^2 124.03 201.51 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*. Equipment for processing of horticultural produces.
5.	***Renewable Energy Engineering***		
	01 Laboratory 02 Field Laboratories	140 m^2 75 m^2each	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*
6.	***Basic Engineering and Applied Sciences***		
	03 Laboratory	225 m^2 133.48 m^2 53.4 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*

a) **List of major Equipment:**

The laboratories are well equipped to conduct the practical/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The lists of instruments/ equipments available in the laboratories is as furnished below:

No.	Department	Equipments
1.	**Department of Farm Machinery and Power Engineering**	**Farm Machinery Laboratory** **Area: 90 m^2** Multi Crop Thresher, Self-Propelled Vertical Conveyor reaper , T/D inclined plate planter, Pedal cum power operated cleaner and grader, Rigid tyne cultivator, Spring loaded cultivator, Tractor mounted offset disc harrow, Tractor mounted disc plough, Tractor mounted M.B.plough, Modular inclined plate planter, Tractor mounted raised bed planter, Tractor mounted seed cum fertilizer drill, Multi crop plot thresher, Semi axial flow thresher (SAF 750), Auger digger, Power tiller operated seed cum fertilizer drill, Manual seed cum fertilizer drill, manual groundnut decorticators, Manual rice trans planters, Pre-germinated paddy seeder (4 rows), Manual hand tools and equipments like wheel hand hoe, Hand Ridger, Grubber weeder, Serrated sickle, Naveen Dibbler, hand maize sheller etc., knapsack prayers Rocking sprayer, Hand rotary duster, foot sprayer, Ganesh sprayer, Parth Hand Sprayer, and compression sprayer, Motorized knapsack mist blower cum duster, Pedal operated thresher, Power operated wire-loop thresher with winnower, Small power paddy thresher (hold-on type), Small power paddy thresher (Axial Flow type), Animal drawn patella harrow, Animal drawn patella puddler, Animal drawn three row seed drill, Animal drawn 3 row seed cum fertilizer drill, Animal drawn 2 row mustard drill, Animal drawn lug wheel puddler, Animal drawn ground nut digger, Mini power maize sheller, Mini power chaff shredder, Manual and motor operated chaff cutter **2. Farm Power Laboratory**

		Area: 128 m^2 Single cylinder two stroke petrol engine, Single cylinder 4 stroke diesel engine, Tractors (Mahindra B 275, New Holland), Power tillers (12 hp, 6.5 hp, 5.5 hp), Tractor Working Cut Model, Diesel fuel supply system model, Clutch system model, Brake System model, Steering mechanism of tractor model, Cut model of 2 stroke Diesel engine, Cut model of 4 stroke Diesel engine, Actual cut model of single cylinder 2-stroke engine, Cross section of cylinder block, Components of engine (crank shaft, piston, connecting rod, rocker shaft, valve, valve spring guide etc.) **3. Ergonomics and Safety Laboratory** **Area: 135 m^2** Integrated Composite anthropometer (ICA), computerized electric ergometer, Computerized human energy measurement system with telemetry (K4B2), Polar heart rate monitor, Strength measurement setup, Novatech load cell, Sphygmo manometer,Stethoscope, Thermometer (digital), Digital Camera **4.Soil Dynamics Laboratory** **Area: 160 m^2** Automated soil bin with sensors and digital control panel, Dynamometer, Motorized sieve shaker, IS Sieve set for soil analysis, soil analysis kit, Proving ring cone penetrometer **5. Farm Machinery Testing Laboratory** **Area: 40 m^2** Digital tachometer, digital soil moisture meter, Digital thermometer, Digital anemometer/barometer/humidity sensor, Digital weighing balance, Digital vibration and noise meter, Digital soil penetrometer, Digital energy logger, Spray patternator testing rig, Mini tractor (Kubota 21 hp), Rotavator for small tractor **6**. **Thermodynamics and Heat Engine Laboratory** **Area: 17 m^2** Multi-cylinder petrol engine test rig with electric dynamometer, Twin cylinder diesel engine test rig with electric dynamometer, Two stroke petrol engine test rig with rope brake dynamometer, Single stage air compressor test rig, Lancashire Boiler model, Cochran Boiler model, Cornish Boiler model, Vertical water tube boiler model, Locomotive Boiler model, Babcock & Wilcox Boiler Model, Model of steam engine, Boiler mountings and accessories model (Blow off cock,stopvalve,feed check valve,economiser,pressuregauge,watergauge, fusibleplug,dead weight safety valve,spring loaded safety valve) 7. **Theory of Machine Laboratory** **Area: 17 m^2** Universal Governor Apparatus, Cam Analysis Apparatus, Motorized Gyroscope, Static & Dynamic Balancing Apparatus, Coriolis component of acceleration apparatus and Epicycle Gear train apparatus **8. College Workshop** **Area: 323 m^2** HMT Lathe machine (05 Nos), wood working lathe machine, Power hacksaw machine, Radial drill machine, Overhead crank shearing

		machine, Hydraulic press, Arc welding machine (2 Nos), MIG welding machine, TIG welding machine, Gas welding setup, Pipe bending machine, Sheet rolling machine, Pedestal grinder machine, Chop saw machine, Work tables with bench vices, Carburizing furnace, Painting oven, Sheet sheering machine, Milling machine, Shaper machine, Smithy furnace with envils and swedge block
2.	**Department of Soil and Water Conservation Engineering**	**A. Surveying Laboratory** Metric Chain (20 m), Metric Chain (30m), Field Book, Optical Square, Plum Bob, Plane Table Set, Ranging Rod, Steel Scale, Steel Tape (5m), Cloth Tape (30m)Metallic Tape (30m), Abney Level, Automatic Level (Manual), Arrows, Cross Staff & its Rod, Levelling Staff(5m), Offset Rod, Plum Bob, Planimeter, Prismatic Compass with Stand, Ranging Rod (3m), Theodolite, Drop Arrows, Ghat Tracer with Stand, Plane Table Set with Stand, Ranging Rod (big), Ranging Rod, Ranging Rod (small), Meter Roll (measuring tape 3 m), Meter Roll (measuring tape 30m), Levelling Staff (6m, 3 parts), Dumpy Level with Stand, Guntur Chain, Revenue Chain, Engineer Chain, Line Ranger, Pedometer, Prime Square, Steel Band, Tangent Clinometer, Wooden Peg **Engineering Mechanics Laboratory** Bar-Pendulum & Compound Pendulum, Bar of Beam Apparatus, Bending Moment Apparatus, Bell Crank Lever, Compound Lever (Ambo/Usha), Crank Compound Lever, Friction Side Apparatus, Hook's Law, Young Modulus Apparatus, Worm & Worm Wheel, Link Polygon Apparatus, Joint of Roof Truss on Wheels, Law of Moment Apparatus, Law of Conservation of Mass Apparatus, Mechanism Model, Moment Disc Apparatus, Moment of Inertia of Fly Wheel Apparatus, Polygon of Forces Apparatus, Parallel Force Apparatus, Pulley Sets, 21.Parallelogram Law of Forces, Regidity of Wire Apparatus, Rope & Drive Belt Experiment Apparatus, Second Law of Motion Apparatus, Shear Leg Apparatus, Screw Jack Experiment , Stress in Beam Apparatus, Triangle Law of Forces, Torison Apparatus, Universal Force Table, Western Differential Pulley, Wheel & Wheel Axles **Soil Mechanics Laboratory** Drainage and Seepage Tank, Canopy Analyser, Automatic Sediment Analyser, Neutron Probe, Moisture Meter, Hydro Metrological Data Acquisition, Laser Leaf Areameter, Portable Turbidity Meter, Triaxial Cell Test, Anemometer, Barometer, Constant Temperature Water Bath, Consolidated Apparatus (single gang), Coshocton Wheel Silt Sampler 30cm, Determination of Grain Size Analysis, Hydrometer, Core Cuter, Cone Penetrometer & Plastic Limit, Vicat Apparatus, Hook Gauge & Point Guage, National Brand 'H' Flume, Laboratory Permeability Apparatus, Liquid Limit Apparatus, Model of Chute Spillway, Drop Inlet & Drop Spillway, Moisture Box, Rain Gauge (Self Recording), Rain Gauge (Non Recording), Soil Infiltrometer, Soil Grinder, Self Recording Rain Gauge, Stage Level Recorder, Standard Proctor, Shrinkage Limit,

		Top Pan Balance, Unconfined Compression Tester, Rapid Moisturemeter, Water Level, Meta Mini Water Level, Weighing Pan Top, Well Water/Level Meter, Shear Apparatus, Wet & Dry Bulb Temperature, Microprocessor Based Automatic Sampler **Strength of Material Laboratory** Fatigue Testing Machine, Hardness Test Machine, Universal Testing Machine **Remote Sensing and GIS Laboratory** Arc GIS, Plotter, ERDAS, Geometica Software, Scanner, Surface Water Modelling, Watershed Modelling System, GPS, Computers-10 nos.
3.	**Department of Irrigation and Drainage Engineering**	Francis Turbine, Hydraulic Bench, Pelton Wheel Turbine, Centrifugal Pump Test Set up, Determination of Bernoulli's Theorem, Darcy's Apparatus, Friction in Pipeline, Flow through Mouthpiece, Flow through Orifice, Reciprocating Pump Test Set-up, Flow Over Notch Apparatus, Gear Pump Test Set up, Hydraulic Rig Ram (closed circuit), Jet Pump Test Rig, Measurement of Irrigation Water, Manometer and Pressure Guage, Open Channel Apparatus(closed circuit), Reciprocating Pump Test Set up, Reynolds Apparatus, Set up for Pipe in Series, Set up for Pipe in Parallel, Set up for equivalent Length of Pipe, Tilting Hydraulic Flume, Mono Block Single Phase Pump, Kiloskar Pump, 26. Impeller (1220 , KDS 5212, Bronze,Sp3L), Flash Pump/Tube Well Pump, Ger Pump, Portable Turbity Meter, Oven, Electrical Conductivity Meter, Double Ring Infiltrometer, Ph Meter, Moisture Boxes, Augers, Sieve Shaker, Cut Section of Centrifugal Pump, Submersible Pump and Turbine Pump, Positive Placement Pump (Hand Pump), Water Level Meter and Pump Testing Rig
4.	**Department of Processing and Food Engineering**	**Food Engineering laboratory** **Area-** 228.28m^2 Steam Distillation set up, Fruit pulper, Feed mixer (planetary mixer, planatory mixer (vacuum jacketed), planatory mixer (heating jacketed), double cone mixer, Blender SVB, Cube Mixer, Lab Kneader, Powder Mixer, Agitator, Drum Hoop Mixer-SDHM, Lab mass mixer SLMM, horizontal main drive SHMD-A.C., Universal Gear), Spice processing plant a. Ginger /Turmeric peeler cum polisher b. Garlic Bulb Breaking Machine c. Garlic Clove Flaking Machine Coconut tree climber, Coconut dehusker, Pasta Extruder, Essential Oil distillation Unit i. Solid Liquid Extraction unit ii. Steam Distillation Set up Simple batch distillation unit, Refrigerated centrifuge with Microprocessor, Rotary vacuum filter & Leaf Filter,Refrigerated centrifuge CPR 24, Plate heat exchanger, Usha make Gerber Centrifuge, Usha make centrifuge separator, Vegetable Blancher,Vacuum Tray

		Dryer, General cycle refrigeration trainer, Heat transfer through lagged pipe apparatus, Heat transfer through composite walls apparatus, Mechanical heat pump trainer, Plate type heat exchanger, Recirculation type air conditioning trainer, Stefan Boltzmann apparatus, Thermal conductivity of insulating slabs by guarded hot plate method, Thermal conductivity of insulating powder and Micrometer Precise Thickness **Process Engineering laboratory** **Area-** 92.77m^2 Weighing balance, Shrink Wrapping Machine, Hand wrapper, Foot Sealer, Aspirator Cyclone Separator, Automatic Foam Fill Seal Packaging Machine, Rubber Roll Sheller, Rice Whitener/Polisher, Indented Cylinder Grader/ Separator, Vibratory Screen Grader, Freeze Dryer , Laboratory Spray Dryer , Cream Separator, Freeze Drier, Vacuum Packaging Machine, Steam Jacketed cooking kettle, Butter churn, Vacuum oven, Vacuum Tray Dryer, Laboratory Pasteurizer, Shrink Packaging Machine Model-CP-2030, Laboratory homogenizer, Micro Pulveriser (hammer mill), Feed and Fodder crusher, Feed Block Formation Machine, Food Extruder, Fruit and Vegetable Juice and paste Processing Plant, Automatic form fill seal packaging machine, Boerner conical divider, Bucket elevator, Multipurpose grain mill, Super critical fluid extraction unit, Foot Sealer, Fermenter, Hand sealer, Hand wrapper, Electronics Grain Moisture Meter, Angle of Repose **Agricultural Structures & Environmental Control Laboratory Engineering laboratory** **Area-** 80.71 m^2 Digital Humidity Sensor and Indicator, Hot Air Oven, Electronic weighing balance (2.2kg), Electronic weighing balance ZSP-350 (300g), Digital balance model –(A-224) make Contech Capacity-220gm, Digital Precision Electronic Balance , Apparatus for thermal conductivity of insulating powder, Convection apparatus (natural), Convection apparatus (forced), Concentric tube heat exchanger (finned tube type), Concentric tube heat exchanger (plain tube type), Emissivity measurement apparatus, Digital humidity Sensor and indicator, Digital temperature meter **Food Analytics laboratory** **Area-**93.24 m^2 Electronics Socs Plus Automatic Three Place Solvent Extraction Apparatus (Soxlet), Microscope-Ex-21 set Binocular Brand-OLYMPUS, Viscometer, Usha Make Centrifuge Separator, 5. Usha Make Gerber Centrifuge (2nos), Water Activity Meter, Auto Clave 1 set2"X20", Digital Sartorious Infra-red Moisture Meter, pH meter, Samsung Freeze with stand, Water Purification System, Milk analyzer Master Classic, Oxygen and CO2 Headspace Gas analyzer plus Flexible packaging kit, Microwave oven, Water Bath, Food texture analyzer, Rapid viscoanalyzer, BOD Incubator with shaker, Automatic Fibre Extraction

		system, Digital Refractometer PAL, Laminar Flow **Pilot Plant** **Area-** 248.06 m^2 Fruit and Vegetable Plant, Milk Processing Plant, Multi stage evaporator with aroma recovery system, Cottage scale soya paneer plant, Seed processing plant, Modern rice mill (0.5 t/h capacity) and Mini Dal Mill **Farmers' Produce processing – cum – Skill Development Center** Drier machine for Ginger, Cardamom, Chillies, Ginger Washing Machine, Vegetable Cutting Machine, Ginger Processing Machine (Complete Unit),Turmeric Grinder , Potato Slicer, Vegetable Washing Machine, Complete unit of Potato Chips Machine, Complete Unit of Biscuits Making Machine, Complete Unit of Noodle Making Machine, Ginger Paste and Powder Making Machine
5.	**Department of Renewable Energy Engineering**	Agni-star Gasifier, Air Quality Meter, Air Quality Monitor with Laptop, Aluminium Pots, Bio-gas Analyzer, Biogas Lamp, Biomass Cookstove i. Natural Draft biomass cookstove ii. Forced Draft biomass cookstove Bomb-Calorimeter, Box-type Solar Cooker, Cloud and Pour Point Apparatus, Cookstoves with Air Insulation, Data logger, Digital Anemometer, Digital Balance (15 kg), Digital Lux meter, Digital Multimeter, Digital PH meter, Digital Stop watch, Digital Tachometer, Digital Temperature Indicator, Digital Thermo-hygrometer, Digital Thermometer Non-contact type, Digital Wood moisture meter, Direct Type Solar Dryer, Double distillation Apparatus, Electric air blower, Electric weighing balance, Gas flow meter, Glass thermometer, Glass water distillation, Hand operated briquetting machine, High Precision balance, Hot Air oven, Hot wire Anemometer, IDB Gasifier stove (Ceramic), IDB Gasifier Stove (Smokeless), Improved downdraft biomass combustion device, Indirect type solar cabinet dryer, Lux meter, Mixed mode type solar dryer, Muffle furnace, Multichannel digital temp. indicator, Orsat Apparatus, Parabolic Dish Solar Cooker, pH meter, Pressure Gauge, Pyranometer, Ried Vapor Pressure Test apparatus Shakti-Surahi Bio methanation plant, Small scale box type biochar kiln, Solar Concentrator Training Kit, Solar Cooker Box type, Solar Lantern, Solar Power Photovoltaic training Kit, Solar Refrigerator, Solar Still, Solar Street light system, Solar water pumping system, Sound level meter, SPV Home lighting System, Sunshine Recorder, Test setup for thermosiphon system type solar water heater, Thermocouple base thermometer with display unit, Turbine type flow meter, Water bath shaker, Weighing balance, Wood moisture meter
6.	**Department of Basic Engineering and Applied Sciences**	**Biochemistry/Microbiology/ Agriculture Laboratory** **Area**: **225m^2** Analytical balance, Block digestion system, Colony counter, Vortex mixer, Chlorophyll meter, refrigerated circulator, High speed refrigerated centrifuge, Ultra quartz distillatory,Flame photometer, Hot plate, Hot air oven, Microcentrifuge, Magnetic stirrer, Rotary vacuum flask, Rotary

		shaker, Spectrophotometer UV/Vis Double Beam, Viscometer, Water bath shaker, Microwave oven, Bacteriological Incubator, Chromatographic oven, Monocular microscope, Compound microscope, Horizontal electrophoresis unit, Autoclave, BOD incubator, Water distillation plant, Quartz double distillation unit, Kjeldahl distillation and digestion unit, pH meter, Conductivity meter, Polarimeter, Refrigerator **Electrical, Electronics and Instrumentation Laboratory** **Area: 133.48 m ^{2}** i) Electrical Laboratory Cut section of DC motor, Cut section of single phase AC motor, Cut section of 3 phase AC motor, Single phase transformer of 1 KVA rating, Single phase Variac (0-260 Volt), DOL,StarDelta,Auto Transformer starter, DC machine with motor generator set.(for OCC of motor), AC split phase motor 1 HP, 3 phase squirrel cage induction motor with ponney brake (1 HP), 3 phase induction motor with ponney brake (2.2kW), Single phase Induction motor to study the effect of capacitor, 3 phase induction motor –generator set for load test of induction motor, DC series motor with ponney brake for load test of dc series motor, DC shunt motor(1 HP) for speed control, Control Panel board consisting of Under voltage and Earth fault relay, KCL,KVL trainer kit box, 3 phase control panel, 3 phase variac, 3 phase loading rheostat(10kVA,400 V), Resistive load (220 V,6.5A), LPF trainer, BPF trainer, K type(BRF) trainer, M derived filter, R-C,L-C trainer kit, Network theorem kit, DC regulated power supply (50V,5A), Wattmeter single phase, Wattmeter 3-phase, House wiring exercise table ii) Electronics & Instrumentation Laboratory Advance Trainer kit, CRO, Quadruple DC power supply, Analog cum Digital trainer kit, Rectifier trainer, Transistor trainer kit, Clipper & Clamper kit, Zener diode trainer kit, Digital to analog converter, 8-bit multiplying D to A converter, LVDT Bourdon tube trainer, LVDT inbuilt 4 kHz oscillator power supply, Load cell Demonstrator, DC permanent magnet motor set for position control system, Function generator **Computer Laboratory** **Area: 52.2 m ^{2}** HP Desktop 406 GT Mt with 18.5"TFT, HCL Infinity Global Server Line 17”TFT , HP 8300MT Desktop, HP DC 7900 Desktop 17”TFT External HDD 1 TB, Multimeter, D-link Wireless AC750 Dual band, Office Pro plus SNLG OLP NL Acd me (79P-05537), win Pro-10 SNLG Upgrd OLPNL Acdme(FQC-09512), Win Server (AL 2012 SNLG OLP NL Acdme DVLCAL(F18-04271|), Win Server Std2012 SNLG OLP NL Acdme 2 Pro C(F73-06272), 10 KVA Single online UPS, 12V 100AH, 16 Nos Excide Battery, 10 KVA Numeric online UPS with 12AHS Battery, 1 KVA UPS Microteck, DES 1024 D-Link 24 Port, 8 Port Switch TP Link , 24 Port Switch D-Link, Orpat Wall Fan, Battery Stand, HP LJ P1007, HP Printer LJP1606, HP Desktop Dx2280 with 15”TFT, Hardware Firewall 300ING, 3 years subscription, HP Scanner 7800, HP

		Scanjet G3010 Photot Scanner , 10 KVA Numeric online UPS with 12AHS Battery, 8 Port10/100 switch D-Link, Wireless AC750 Dual Band Router , Net WL Business Access Point, Netdbi Patch Panel Directional Antenna, Net WL Business Access, Net 8 Port SW/4 POE, Oth Spare Part, Net 9DBI Omni Antenna, Lightening/ Surge Arrestor **Physics Laboratory** **Area 95 m^2** Apparatus to study dielectric constant, Apparatus to measure the value of specific charge (e/m) for electrons by helical method, Apparatus for determination of ultrasonic wave velocity in liquid medium, Apparatus for the study of Electro-magnetic induction (e.m.f Vs velocity) , Apparatus to determine low resistance (Carey-Foster method), Apparatus to study variation of thermo e.m.f.of a copper constantan thermocouple with the temperature, Apparatus for study of LCR circuit, Apparatus for determination of co-efficient of viscosity by Stoke's law, Inerfaceable function generator and arbitrary waveform generator-1, Apparatus to find the frequency of a.c supply using electrical vibrator, Apparatus for determination of energy band gap in semiconductor using p-n junction diode, Apparatus for finding energy band gap by four probe method, Apparatus for obtaining hysteresis curve(B-H curve) and determination of related magnetic quantities, Apparatus to study the variation of magnetic field with distance along the axis of a current carrying circular coil, Apparatus for finding numerical aperture of an optical fiber, Apparatus to study fiber optic analog link, Apparatus to study fiber optic digital link, Digital Multimeter system -1 set (Two Nos.), Digital storage Oscilloscope, Drill machine, Dual trace oscilloscope Make: Scientific25 MHz, quadruple output d.c power supply Make: Microtech Industries, Digital multimeter Make: Metravi Model: 451, Function generator, Ammeter 0-500mA DC,Ammeter0-500mA AC, Rheostat 85 Ω, 2A, Rheostat 350 Ω, 2A,Voltmeter 0-30V DC

6.5.6.2 Research Contingency:

There is no specific head of Research contingency or no fund is provided as such for research contingency. The research activities of students under B. Tech, PG and PhD are funded from Recurring Contingency of College Fund. Adequate funds are available for meeting the recurring expenses incurred during the education programme.

6.5.7 Outcome/Output

6.5.7.1 Student Performance in National Examinations

Performance of the students during 2010 to 2020 is given in Table below

Particulars of students who qualified JRF/NET/ GATE (2015-2020)

Particulars	2015	2016	2017	2018	2019	2020
NET	-	-	-	-	01	
GATE	04	05	07	05	06	02

Ph.D.	-	-	01	03	01	
ICAR-JRF qualified	01	06	06	09	21	17
ICAR-JRF Received	-	-	-	01	-	01
ICAR-SRF	-	-	-	-	-	02

Performance of B. Tech (AE) students of CAEPHT, Sikkim in ICAR-JRF Examination 2020 and other PG entrance Examinations

Sl. No.	Name of the student	Stream	AIR	Category wise	UPS	M. Tech Admission	Mode of Admission
1.	Mr. Bharat Singh	AE	04	-	-	IIT, Mumbai	GATE
2.	Ms. Lalremmawii	AE	97	01 ST	01	PAU, Ludhiana	ICAR
3.	Ms. HamtoitiReang	AE	129	04 ST		G.B. Pant, Pantnagar	ICAR
4.	Ms. NajimaDebbarma	AE	182	06 ST	04	G.B. Pant, Pantnagar	ICAR
5.	Ms. Madhu	AE	48	18 OBC	-	BHU	BHU, PET
6.	Mr. TageTamo	AE	234	10 ST	10	NERIST, Itanagar	NERIST Entrance
7.	Ms. Laltangmawii	AE	237	12 ST		UAS, RAICHUR	ICAR
8.	Mr. Devi Charan Sharma	AE	194	-	07	CAEPHT, Sikkim	CAU Entrance
9.	Ms. Rima Das	AE	214	20 SC	09	RPCAU, Pusa, Bihar	ICAR
10.	Mr. Swapnajit Chowdhury	AE	335	-	12	BCKV, Mohanpur	ICAR
11.	Mr. C. Lalthlamuana	AE	452	15 ST		Mizoram University	Mizoram University Entrance
12.	Mr. Tapi Tada	AE	428	29 ST	14	NERIST, Itanagar	NERIST Entrance
13.	Ms. Naorem Nirmala Devi	AE	421	25 SC	--	NERIST, Itanagar	NERIST Entrance
14.	Mr. Arpan Rai	AE				CCSHAU, Hisar	ICAR
15	Biswajit Dey	AE				BHU	BHU, PET
16	Ms.NaoremNirmala Devi	AE				NERIST, Itanagar	NERIST Entrance

- Mr.Shivam Singh, B. Tech. AE selected for the campus Placement by the Mahindra and Mahindra Tractors Ltd. He also joined Indian Air Force through UPSC
- **The following students of Food technology have received fellowship/scholarship for higher education (M.Tech)**

Name of Degree programme	B. Tech. (Food Tech.)					
	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21
Actual student admitted	9	09	09	09	10	09
No. of Passed out student	5	7	9	6	5	10

Student received fellowship for M.Tech	2	-	5	1	2	3

6.5.7.2 Students Placement Profile:

Most of the students graduating from College of Horticulture are placed in academics/research institution for pursuing higher education in India and abroad. One Student qualified CAT Exam 2019 and got Admission in IRMA, Anand.

6.5.7.3 Awards/Recognitions/Certificates: Annexure**6.5.7.3**

6.5.7.4 Employability:

The students are acquainted with hands on practical related with various agricultural engineering activities related with Farm Power, Farm Machinery, Renewable Energy, and processing and value addition of various food products. Interactivesession swithentrepreneursoftheregionarebeingheldtimetotime. This allows the students to start up an enterprise at their ownlevel.The students are also furnished with knowledge both in theory and practical of agricultural engineering and allied activities.RobbartsNongmaithem, the student of College of Agricultural Engineering and Post Harvest Technology is an entrepreneur who has been working as the MD and Founder of Agro Solutions Pvt Ltd from 2018 and MD of Mapu Foods, Imphal west, Manipur since 2019.

Training and Placement Cell, CAEPHT organized the online test conducted by the Mahindra & Mahindra Ltd., Mumbai for the campus placement of B. Tech. (AG) final year students on 05.11.2019. Total 25 students were appeared for the interview and 05 students were qualified for the Final Interview.Mahindra& Mahindra Ltd., Mumbai conducted the interview on 26.11.2019. Out of five students, Mr. Shivam Singh was selected for the post of Graduate Agriculture Trainee. The details are:-

Placement of pass out students in different positions/organizations during 2017-18

Sl. No.	Name of College	Name of student	Year of passing from college	Positions/Organizations joined
1.	CAEPHT, Gangtok	SajeshChetrri	M Tech 2017	Zydus
2.		T.B Marak	M Tech 2017	CG Foods, Guwahati
4.		Mr Santosh Taynath	Expected M Tech, 2018	Got offer from Zydus
5.		Mr Vishal Kumar	Expected B Tech (FT), 2018	Got offer from Zydus

Placement of pass out students in different positions/organizations during 2018-19

Sl. No.	Name of College	Name of student	Year of passing from college	Positions/Organizations joined
1.	CAEPHT, Gangtok	Mr. Abhijit Kumar	2018	Trainee Engineer in Mahindra & Mahindra Ltd., Mumbai
2.		Mr. Kumar Priyank	2018	Trainee Engineer in Mahindra & Mahindra Swarag Division

Placement of pass out students in different positions/organizations during 2019-20

Sl. No.	Name of	Name of student	Year of	Organizations	Position/ joined as

	College		passing from college	joined	
1.	College of Agril. Engg. & PHT, Ranipool, Sikkim	1. Miss. Manisha Chettri	June 2019	C.G. Foods India Pvt. Ltd., Rangpo, Sikkim	Trainee Engineer (Quality Department)

Placement of pass out students in different positions/organizations during 2020

Sl. No.	Name of College	Name of student	Year of passing from college	Organizations joined	Position/ joined as
1.	College of Agril. Engg. & PHT, Ranipool, Sikkim	1. Mr. Shivam Singh	June 2020	Mahindra & Mahindra Ltd., Mumbai	Graduate Agriculture Trainee

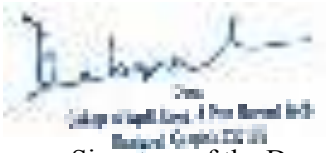
6.5.8. SSR for College along with Degree Programmes attached herewith.

SSRoftheCollegemusthavetheSSRofallitsDegreeProgrammes (followingsection 6.4), then the report of the Colleges shall beconsidered.

6.5.9.Certificate

(Applicable when SSR is submitted for Programmes &College)

I, **Parmendra Prasad Dabral**, the Dean **College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim**hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.



Signature of the Dean
of the college
With Date & Seal

6.5.10. All SSR with respect to Programme as mentioned in 6.5.8 are submitted along herewith.

Annexure 6.5.1.3

Details of CC/ Board of Studies

Composition of the BOS	Date of conduct (Years	Major recommendations made by the BOS
• 01Chairperson (DEAN, CAEPHT) • 01Co-chairperson (DEAN, COFT, Imphal) • All HOD's of CAEPHT Ranipool • Director of Instruction, Extension Education and Research's member • Academic in-charge of CAEPHT, Ranipool and COFT, Imphal • One representative of Academic Council nominated by Vice Chancellor • Two eminent scientists from Agricultural education system not belonging to CAU, Imphal.	3rd BOS Meeting February 13, 2015	Staring PhD programme in Farm Machinery and Power Engineering.
	4th BOS Meeting 20th July 2016	Starting of Ph.D. programme in Soil and water conservation Engineering and Processing and Food engineering disciplines. Change of Name of Department from Farm Power and Machinery Department to Farm machinery and Power Engineering Proposal of exchange of two courses of B. Tech Agril. Engg. From 1stsem to 2ndsem
	5th BOS Meeting 23rd May, 2017	• Approval for PG programme M. Tech in Renewable Energy and Irrigation Drainage Engineering with Intake capacity of 3 (2 CAU+ 1 ICAR). • Correction in title of Course Communication Skills and Personality Development of B. Tech food technology as per V Dean Committee. • Modification of 3 subjects Theory of machines, machine Design and Tractor systems & Control offered to B. tech (Agril. Engg.) • Tutorial Class for BEAS 1207 and BEAS 2107. • Proposal to start day scholar arrangement for interested students. • Fixing of date of renamed Degrees due to change in Nomenclature
	6th BOS Meeting 26th April, 2018	• Migration of Mr. Lenjachung Serto, b. Tech (Agril. Engg.) from 4th DEAN to 5th Dean recommended curriculum.
	7th BOS Meeting 13th May,2019	• Shifting of course entitled "Web designing and internet applications" from even semester to odd. • Modification of syllabus four courses of B. Tech food Technology. • Approval of course structures of M.Tech Renewable Energy engineering and Irrigation Drainage engineering.

		• Interchanging the semester of the B. Tech course Ground water wells and Pump and Drainage Engineering from semester VI to semester V. • Common course nomenclature for courses of Food technology of CAEPHT, Ranipool and COFT, Imphal
	8th BOS Meeting 29th April, 2020 Meeting through video conferencing online using Google Meet.	Approval for internal setting of question paper and evaluation for 2nd semester of Academic session 2019-2020. Combining Mid-term and end term examination for 2nd session of 2019-20 Conducting comprehensive viva-voce examination for PhD and PG students online during 2nd semester academic session 2019-20.

Faculty Data and Credentials

The Dean, CAEPHT, Ranipool

SI. No.	Name and designation	Year of Joining Central Agricultural University	Year of Joining College	Highest qualification and Department	Year of Achieving highest qualification (In service/ Not)	Related work experience in the field	Experience in otherareas
1	Prof. Parmendra Prasad Dabral DEAN	28-12-2017	28-12-2017	Ph.D.	1995	32 Years	32 years

Department of Basic Engineering and Applied Science

SI. No.	Name and designation	Year of Joining Central Agricultural University	Year of Joining College	Highest qualification and Department	Year of Achieving highest qualification (In service/ Not)	Related work experience in the field	Experience in otherareas
1	Dr A. B. Sherpa, Assistant Professor (Sr. Scale) of Agronomy	2007 (1st September)	2007 (1st September)	Ph. D. in Agronomy	2008	13+ Years in Permanent position	Experience in Educational administration (additional responsibilities) as 1. Security In-charge, CAU-CAEPHT, Ranipool for more than 5 years.

							2. Extension Officer in CAU-CAEPHT, Ranipool for more than 6 years and continue. 3. As Assistant Register (Academic), I/C, HoD, BEAS (BSH) Deptt. and Student Welfare Officer in CAU-CAEPHT during leave period of regular in-charge. 4. Presently looking after the In-charge HoD of BEAS Deptt., ATIC and Extension Officer of CAU-CAEPHT. Ranipool.
2	Dr Dhananjoy Roy, Assistant Professor (Sr. Scale) of English	2006 (October 3rd)	2006 (October 3rd)	Ph. D. in English (Humanities/ English)	2010 (In service)	14+ Years in Permanent position & 5+ years as Contractual/part-time faculty/ Research Fellow	Experience in Educational administration (additional responsibilities) as Assistant Registrar (Academic) in CAU-CAEPHT, Ranipool for more than 7 years; as Student Welfare Officer in CAU-CAEPHT for more than 1 year and as I/C, HoD, BEAS (BSH) Deptt. for more than 5 years.
3	Er.Nandita Sen Asst.Professor(Electrical Engg.)	01/11/2008	01/11/2008	M.Tech (Electrical Engg.)	2005,(Not in this service)	12 yrs 2 months	
4	Phuritshabam Robert, Assistant Professor, (Computer Science & Engineering) Currently Pursuing PhD.	11th April 2012	11th April 2012	M.Tech (Computer Science & Engineering)	2009(Not in Service)	8 years	8 years

5	Dr. Chakpram Birendrajit Assistant Professor (Soil Science)	12th April 2012	12th April 2012	Ph.D. (Soil Science) and Basic Engineering & Applied Science	2014 (In service)	Soil Fertility Management and Plant Nutrition; Biofortification of rice with zinc and iron	Pesticide Residue Analysis, Organic farming
6	Dr. Abujam Anuradha Devi, Assistant Professor (ABM)	07th , May, 2016	07th , May, 2016	Ph.D.(Agril. Econmics) /BEAS Dept.	2013	7 yrs one month	Teaching Associate at CoA, CAU, Imphal
7	Er. Rajiv Pradhan, Assistant Professor (Electronics Engineering & Instrumentation)	27/05/2016	27/05/2016	M.Tech, Basic Engg. & Applied Sciences (BEAS)	2011 (In service)	4 years, 8 months	
8	Dr. Srikanta Kumar Meher Assistant Professor (Mathematics)	2016	2016	PhD (Mathematics)	2012 (Not)	11 Years	NA
9	Smt.T. Loidang Chanu,Assistant Professor ,Statistics	17th Oct. 2016	17th Oct. 2016	M.Phil/BEAS Dept.	2009(Not inservice)	7yrs 6 months	
10	Dr. Sushma Gurumayum, Assistant Professor	24th November, 2017	24th November, 2017	Ph. D	2011 (not in service)	3 years	-

11	Dr. Ph. Baleshwor Sharma, Assistant Professor (Biochemistry)	22nd July 2019	22nd July 2019	Ph.D./BEAS Dept.	2016 (Not in service)	4 yrs 5 months	R&D

Department of Farm Machinery and Power Engineering

Sl. No	Name and Designation	Year of joining CAU, Imphal	Year of joining college	highest qualification and department	year of achieving highest qualification (In-service/Not)	related work experience in the field	experience in other area
1.	Dr. NS Chauhan	2008	2008	Ph.D	Not applicable	19 years	Nil
2	Dr. S N Yadav (Professor)	2007	2007	Ph. D. (Farm Machinery and Power Engineering)	2004	1. Extension activities of Agricultural Engineering as Technical Assistant, Technical Officer and Senior Technical Officer in **ICAR for about 24 years** including farm machinery production and workshop management and research coordination and management. Teaching of farm machinery courses at UG, PG and Ph.D. level as associate professor and Professor in **CAU for 14 years**	Nil
3	Dr. S.K. Satpathy	2007	2007	Ph.D	2018	16 years	Nil
4	Shankar Swarup	2008	2008	M. Tech.	2002	6 years in private engineering colleges (Oct. 2002-Oct-2008) and	--

	Das (Assistant Professor)			(Farm Machinery and Power Engineering)		12 years in CAU, Imphal (Oct 2008 to till date including 3 years study leave Jan 2016-Jan 2019)	
5	Sujeet Kumar Chauhan (Assistant Professor)	2012	2012	M. Tech. (Farm Machinery and Power Engineering)	2006	**(i)** As Assistant Agril. Engineer (FMP) Under AICRP on Utilization of Animal Energy in Agriculture (UAE) 4 Years 0 Month 24 days (w.e.f 09/04/2012 to 03/05/2016) **(ii)** Working as Assistant professor w.e.f 04-05-2016 till continue	
6	Ngangkham Devarani (Assistant Professor)	2016	2016	Masters in Design and Manufacturing	2013 (Not in service)	6 months teaching experience in NIT Silchar	Nil

Department of Processing and Food Engineering

Sl. No.	Name and designation	Year of Joining CAU	Year of Joining college	Highest qualification and Department	Year of Achieving highest qualification (In service/Not)	Related work experience in the field	Experience in other areas
1.	Dr. R.P. Misra Professor	2015	2015	Ph.D (Engineering)	1986 (In service)	44 years	Research, Teaching, Extension, Coordination, Management and Administration
2.	Dr. Sujata Jena	2007	2007	Ph. D.,	2006 (Not in service)	• Drying and storage of horticultural	• Administration and management

	Associate Professor			Processing and Food Engineering		crops • Osmotic dehydration of fruits and vegetables • Value addition of agro-horticultural crops	• Extension activities
3.	Dr B K Singh Assistant Professor	2001	2011	Ph D (Aquacultural Engineering)	2010 (In service)	Fish Processing, Meat, Poultry and egg processing	Waste water treatment and Aquacultural Engineering
4	Dr. Said P. P. Assistant Professor	2016	2016	Ph. D. Department of Processing and Food Engineering	2014 (Not in service)	Processing of horticultural crops, Cereals and pulses	• Experience as a subject matter specialist for conducting agricultural extension activities, • Reviewing of International and National Standards like ISO and BIS Consultation to entrepreneurs on DPR and Food regulations
5.	Dr. Rakesh Kumar Raigar Assistant Professor (Dairy Engineering)	2017	2017	Ph D Processing and Food Engineering	2017 (Not in service)	Processing of milk and milk products Processing of oilseeds and underutilized pulses.	

Department of Soil and water conservation Engineering

S. No.	Name & Designation	Year of Joining Central Agricultural	Year of Joining College	Highest qualification and Department	Year of achieving highest qualification (In service or	Related work experience in the field	Experience in other areas

		University			not)		
1	Dr. Deepak Jhajharia, Professor	25th May, 2016	25th May, 2016	Ph.D.	2012 (QIP)	19 years 7 months	Nil
2	Dr. Jagabandhu Panda, Associate Professor	28.12.2001	24.08.2016	Ph.D.	2004 (not in service)	19 years	Nil
3	Dr. Santosh Rangrao Yadav, Assistant Professor (Senior Scale)	March 05, 2007	March 05, 2007	Ph. D. (Hydrology)	2010 (In service)	13 years 10 months	Nil
4	Dr. Ghanashyam Singh Yurembam, Assistant Professor	July 20, 2016	July 20, 2016	Ph. D.	2016 (Not in service)	4 years 6 months	Nil

Department of Irrigation and Drainage Engineering

S. No.	Name and Designation	Year of joining Central Agricultural University Imphal	Year of joining college	Highest qualification and department	Year of achieving highest qualification (in-service/ Not)	Related work experience in the field	Experience in other areas
1	Dr. B C Kusre, Professor	2010	2010	Ph.D. Irrigation and Drainage Engineering	2008 (In service)	Teaching research and extension	GIS and Remote sensing
2	Dr. Ajay Kumar Vashisht, Associate Professor	2010	2010	Ph.D. Irrigation and Drainage Engineering	2004 (Not in Service)	1. Management of water resources (both quantitatively and qualitatively) in the North-Eastern and North-Western Himalayan region. 2. Management of Brackish aquifers.	Traditional agricultural practices

						3. Well hydraulics 4. Design of water filtration systems depending upon the function.	
3	Dr.Ghanshyam T. Patle, Assistant Professor	2007	2007	Ph.D. Irrigation and Drainage Engineering	2014 (in service)	Irrigation water management, Micro irrigation design, Groundwater modelling, Crop water estimation, Stochastic modelling , Watershed Hydrology modelling, Climate variability studies	Climate change and water requirement, Carbon foot print estimation, Water quality analysis, Organic farming
4	Dr. Shivam, Assistant Professor	2019	2019	Ph.D. Irrigation and Drainage Engineering	2017 (Not in Service)	Water Resources Management	Climate change, Hydrological modelling, Extreme events analysis

Department of Renewable Energy Engineering

Sl. No.	Name and designation	Year of Joining Central Agricultural University	Year of Joining College	Highest qualification and Department	Year of Achieving highest qualification (In service/ Not)	Related work experience in the field	Experience in other areas
1.	Prof. Mahendra S. Seveda Professor and Head-REE	03-02-2010	03-20-2010	Ph.D. Renewable Energy Engineering	Not	**16 years** Actively engage in teaching of B. Tech. (Agricultural Engineering/Food Technology), M. Tech. & Ph. D. (Renewable Energy Engineering/ Farm Machinery & Power Engineering/Processing & Food Engineering/Irrigation & Drainage	Organized International/National: Workshop/Seminar/Conference/Congress/Winter School: 07 (Last 05 Years)

						Engineering/Soil & Water Conservation Engineering), Research and Extension in the field of Agricultural Engineering and Renewable Energy Engineering. Accomplished many research projects on Biomass Energy, Solar Energy and Skill Development in Engineering and Technology sponsored by Petroleum Conservation Research Association (PCRA), Ministry of Petroleum and Natural Gas, Govt. of India and Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers' Welfare, Govt. of India.	
2.	S M Kamaruzzaman Assistant Professor	5th October 2006	5th October 2006	M.Tech (Energy Science and Technology). (After completing M.Sc. (Physics))	2005 (Regular)	**16 Years** Completed two IRP on Solar Tunnel Dryer. Successfully Completed design and development of one 500 KG capacity Solar tunnel dryer for commercial use.	--
3.	Dr. Narale Pradip Digambar Assistant Professor	20th July 2019	20th July 2019	Ph.D. (Renewable Energy Engineering)	2017 (Regular)	**4 years** Expertise in the field of Biogas Technology and its Utilization, Bioenergy	Experience in the field of Environmental Science & Waste Management Technologies, Rural Development and Agricultural Technologies.

						Engineering, Development of technologies for biomass to energy conversion. Development of solar dryers and green houses.	
4.	Dr. Kharpude Sudhir Narayan Assistant Professor	29th July 2019	29th July 2019	Ph.D. (Renewable Energy Engineering)	2017 (Regular)	**4 years** Study on Renewable energy technologies like biogas, biomass and solar and their multi-criteria analysis through energy, embodied energy, emergy, anergy, exergy, economics, environmental analysis and LCA technique application. Expert system design and evaluation	Climate change, farm power, energy in agriculture and organic farming, sustainable development

Department of Basic Engineering and Applied Science

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr A. B. Sherpa, Assistant Professor (Sr. Scale) of Agronomy & Extension Officer	CAEPHT (Central Agricultural University, Imphal), Ranipool, Sikkim	All types of college extension education activities Including training (formal and informal), Participated in the Exhibition cum Mela, Agri-Fair of CAU every year, State & ICAR Agril. Fair/Mela. Conducted different farmers interaction and Kishan Ghosti at college and university level.	Since last 5years and continue	
2	Dr Dhananjoy Roy, Assistant Professor (Sr. Scale) of English	Nil	Nil	Nil	
3	Er.Nandita Sen Asst.Professor (Electrical Engg.)	Nil	Nil	Nil	
4	Phuritshabam Robert, Assistant Professor, (Computer Science & Engineering) Currently Pursuing PhD.	Nil	Nil	Nil	
5	Dr. Chakpram Birendrajit Assistant Professor (Soil Science)	College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	1. Organized one day awareness programme on importance of soil health management on World Soil Day on 5th December from 2015-2020 2. Soil Health Card Distribution on World Soil Day on 5th December from 2015-2020 3. Delivered lecture entitled "Soil Testing and its importance in organic agriculture/ horticulture in NEH region" as a Resource Person at the Training Programme on "Integrated farming system for improved livelihood on Hills" during September 24-26th, 2014	From 2014 to 2020	

			4. Delivered lecture entitled "Nutrient Management in selected crops of Sikkim" as a Resource Person at the Training Programme on "Engineer Interventions for Sustainable Crop Production and Post Harvest Management for NEH Region" during March 10-14, 2015		
6	Dr. Abujam Anuradha Devi, Assistant Professor (ABM) and Co.PI	CAEPHT,CAU, Ranipool	• Attended and presented a research paper entitle "Trend analysis of organic produce and study of constraints in the marketing of organic produce in Sikkim" at Multidisciplinary International Conference on "A Perspective of Global Research Process: Present Scenario and Future Challenges" on 19th to 20th January, 2019 at Manipur University, Manipur, Imphal • Attended 15-Days Training program on "Organic Farming for SRLM Krishi Sakhis of Rural Management and Development Department, Govt. of Sikkim during July 22 to August 05, 2019 as a Resource Person to deliver talk on "Agribusiness Opportunities in Organics and Marketing strategies for Organic products" on 5th August, 2019 at ICAR-National Organic Farming Research Institute, Tadong, Gangtok. • ICAR Sponsored 21 days Summer School on "Agricultural Education, Entrepreneurship and Skill Development in India", from 27th August to 16th September, 2019 (21 days) organized by Directorate of Instruction, Central Agricultural University (CAU), Imphal, Manipur. • Attended and delivered lecture on "Secondary Agriculture: Scope for Income enhancement of Marginal Farmers" during Three (03) days CCS	2019-20	

			NIAM, Jaipur (Rajasthan) sponsored training programme on “Climate change risk mitigation for marginal farmers of Himalayan Regional in Sikkim” during 26th-28th, September, 2019. • Attended and Presented paper entitle “ Horti-Business Opportunities for livelihood security in Sikkim” in Regional Seminar of The Indian Society of Agricultural Economics (ISAE) on “Perspectives of Horti-Business Development in North East Region” during 24-25 February, 2020, organized by College of Horticulture & Forestry, CAU, Pasighat, co-organized by NABARD-Itanagar & in association with ICAR-ATARI, Guwahati and Rajiv Gandhi University, Itanagar. • Attended and Participated “State Credit Seminar for district wise Potential Linked Credit Plans (PLPs)” organized by NABARD, Sikkim Regional Office, Gangtok-737101 on 3rd March, 2020 at Summit Denzong, Conference Hall, Kazi Road, Gangtok. • Attended and delivered lecture as Resource Person during Three days online Skill development Training on “Value Chain Development” organized by CAEPHT, CAU (I), Ranipool, sponsored by IDP-NAHEP Project during 20th to 22nd July, 2020 • Attended and delivered lecture as Resource Person during Two days online Skill development Training on “Gender Analysis Skills for Agriculture and Allied Sectors” organized by CAEPHT, CAU (I), Ranipool, sponsored by IDP-NAHEP Project 7during 4th and 5th December, 2020 on the following topics:		

7	Er. Rajiv Pradhan, Assistant Professor (Electronics Engineering & Instrumentation)	Nil	Nil	Nil	Nil
8	Dr. Srikanta Kumar Meher Assistant Professor (Mathematics)	CAEPHT, CAU, Sikkim	Nil	Nil	Nil
9	Smt.T. Loidang Chanu,Assistant Professor ,Statistics	CAEPHT,CAU, Ranipool	Nil	Nil	Nil
10	**Dr. Sushma Gurumayum, Assistant Professor**	**CAEPHT**	Delivered lecture on "Mushroom cultivation" during three months Skill Development Programme on Low Cost Green House Technology in North East Hill Region, at CAEPHT, Ranipool	Sept 17-Dec 15, 2018.	**Resource person**
			One Day Workshop for sensitization on "Establishment of Agriclinics and Agri-business Centre" on 4th February, 2019 held at CAEPHT, Ranipool.	4th February, 2019	**Co-Coordinator**
			Hands on Training on Techniques in Microbial Analysis of Foods 18/03/19 - 20/03/19 organized by Department of Processing and Food Engineering, CAEPHT, Ranipool (Training organized under Biotech Hub)	18/03/19 - 20/03/19	**Resource Person**
			Hands on Training on Techniques in Microbial Analysis of Foods 23/03/18 - 26/03/18 organized by Department of Processing and Food Engineering, CAEPHT, Ranipool (Training organized under Biotech Hub)	23/03/18 - 26/03/18	**Resource Person**
			3 days training on "Intensive Dairy Farming and Energy Management" from 19th to 21st September 2019, sponsored	19th to 21st September 2019	**Resource Person**

			by CCS-NIAM Jaipur, Rajasthan for the farmers and unemployed youth.		
11	Dr. Ph. Baleshwor Sharma, Assistant Professor (Biochemistry)	CAEPHT, CAU, Ranipool	Nil	Nil	Nil

Department of Farm Machinery and Power Engineering

Sr. No.	Name and designation	institution	Details of work done	duration	Remark
1.	Dr. NS Chauhan Professor	CEAPHT (CAU), Ranipool, Sikkim	• Demonstration and training to farmers on gender-friendly hand tools improved tolls and equipment for mechanization of hill agriculture • Delivered more than 15 invited lectures in training programmes organized by different organizations in Sikkim	24/12/2014 to till date	
2.	Dr. S N Yadav Professor	CAU-CAEPHT Ranipool	1. Organization of short duration training programme on different aspects of hill farming mechanization – **12 courses** **2.** FLD on ergonomically designed and women friendly equipment **- 5 Nos.** 3. Three months vocational training on "Manufacturing Technology and Custom Hire Services of Agricultural Equipment for Self-Employment" **- 2 Nos** 4. North-East Agri fair. Organized by CAU, Imphal at Pasighat, Imphal, Tura and Sikkim **– 4 Nos.** • Technology and Machinery Demonstration mela **- 4**	-	-
3.	Dr. S.K. Satpathy, Asst. Professor	CEAPHT (CAU), Ranipool, Sikkim	• Demonstration and training to farmers on improved tolls and equipment for mechanization of hill agriculture • skill development training of unemployed youth in the job role of tractor operator	24/08/2007 to till date	

			skill development training of unemployed youth in manufacturing of farm tools and equipment			
4.	Shankar Swarup Das (Assistant Professor)	College of Agricultural Engineering and Post-Harvest Technology, Ranipool	Nil	Nil	Nil	
5.	Sujeet Kumar Chauhan (Assistant Professor)	College of Agricultural Engineering and Post-Harvest Technology, Ranipool	• THIRTY (30) number training/awareness/filed day on/off campus to farmers were conducted Eighty FLD of improved animal drawn implement were conducted on farmers field	2012-2021	1200 farmers familiarized with Improved Animal drawn implements and convinced for use their use and 1400 farmers familiarized with Improved Animal drawn implements during FLD programme	
6.	Ngangkham Devarani (Assistant Professor)	Nil	Nil	Nil	Nil	

Department of Processing and Food Engineering

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr. R.P. Misra, Professor	IARI, CARI, CIRG, ICAR HQ and CAEPHT	i) Farmers and entrepreneurs training programme ii) Survey works, Kisan Mela and Workshop iii) Coordinated, world bank/GEF funded three sustainability projects at NAIP	1976-2020 (44 years)	
2.	Dr. Sujata Jena Associate Professor	CAEPHT, Ranipool	• Acted as resource person in a DST funded training program on "Technology based Entrepreneurship development programme" organized during 12.02.09-	2007-tilldate	•

			20.02.09 by Sikkim Consultancy Centre, Gangtok at Ranipool,Sikkim. • Acted as resource person on "Nutritional Significance of Fruits, Food Spoilage and need for Fruit preservation, Different Methods of Fruit Preservation and their Principles" in a training programme organized during 15.04.08 – 19.04.08 by IGNOU at SIRD, Jorethang, Sikkim. • Member of various committees for organizing Agricultural fair (01- 03.12.08) and Farmers' day (25-26.05.08). • Served as resource person in a model training on "Advances in post harvest technology for spices and medicinal plants" organized during 15.02.10 – 22.02.10 by CAEPHT (CAU), Ranipool, Gangtok and funded by Directorate of Extension, Department of Agriculture and Cooperation, Ministry of Agriculture, Government of India. • Acted as resource person in a Farmers' training programme on "Storage grain pest and management", 25.03.10 at ICAR, NEH region, Tadong, Gangtok • Organization of farmers and delegates in CAU NE Agri Fair -2014 in the capacity of Chairman, Registration committee • Organized Training cum Demonstration on "Essential Oil Extraction from Aromatic Plants using Field Distillation Unit" on 26.07.14 • Acted as resource person and delivered lecture on "On-farm post harvest management techniques of selected fruits and vegetables of NEH region" during training on 14th March, 2015. • Conducted six days training on "Processing and value addition of horticultural crops of NEH region" during 14-03-2016 to 19-03-2016 sponsored by Sub Mission on Agricultural Mechanization (SMAM), Department of Food Security and Agriculture Development, Government of Sikkim, Gangtok. • Conducted a two days training cum demonstration		

			program on “Processing equipment and value added horticultural & bakery products” as course director at CAEPHT during 24.03.17-25.03.17. • Acted as resource person and delivered a lecture on “Process technology for value addition of horticultural crops” on 06.09.16 at CAEPHT in a training program funded by Directorate of Agriculture and Food Production, Govt. of Odisha • Conducted one day demonstration program on “Machineries for processing of horticultural and bakery products” under 'Jai Kisan Jai Vigyan' Week on 24.12.16. • Conducted a three days training cum demonstration program on “Bakery and processing machineries for horticultural and spice crops” as course coordinator at CAEPHT during 12.03.18-14.03.18 funded by Department of Food Security and Agriculture Development, Government of Sikkim, Gangtok • Conducted a five days Skill development training on “Processing and value addition of horticultural crops” as course coordinator at CAEPHT during 19.03.18-23.03.18 funded by SSB, Geyzing • Acted as resource person and delivered a lecture on “Post harvest management of horticultural crops in organic production system” on 30.05.17 at NOFRI, Tadong in a training program conducted by ICAR-National Organic Farming Research Institute, Tadong, Gangtok. • Conducted a five days training cum demonstration program on “Horticultural produce processing machines and bakery products” as course coordinator at CAEPHT during 21.05.18-25.05.18 funded by Department of Food Security and Agriculture Development, Government of Sikkim, Gangtok • Conducted a 90 days Skill development training on “Post harvest Processing of Horticultural Crops” as course director at CAEPHT during 26.11.18-23.02.19 funded by Power Finance Corporation Ltd., New Delhi. • Acted as resource person and delivered a lecture on “Post		

			harvest management of horticultural crops in organic production system" on 26.07.18 at NOFRI, Tadong. • Acted as resource person and delivered a lecture on "Technology for value added products from fruits and vegetables" on 30.08.18 in a training program conducted by SAMETI, FS&ADD, Govt. of Sikkim, Tadong. • Acted as resource person and delivered a lecture on "Post harvest management of horticultural crops" on 03.05.19 at NOFRI, Tadong in a training program for newly recruited development officers conducted by ICAR-National Organic Farming Research Institute, Tadong, Gangtok. • Facilitated Technology and Machinery Demonstration Mela as a Member, Organizing committee • Interacted with Farmers/villagers of Martham, Sikkim under Mera Gaon Mera Gaurav program to make them aware of various schemes of Govt of India for their upliftment and increase in income. • Acted as resource person during training on "Post harvest management of horticultural crops in organic production system" on 03.08.19, ICAR-NOFRI, Tadong, Gangtok.		
3.	Dr B.K singh		• As resource person in various training programme on followings: • Design and construction of fish farm and hatchery • Fish feed formulation and manufacturing • Fish processing and product development • Advances in food processing • Water quality management in fish farm and hatchery • Application of plastic in aquaculture and fisheries	10 years	•
4.	Dr. Said Prashant Pandharinath Assistant Professor (Food Technology)	CAU, Imphal	• Demonstration of Horticultural Produce processing machines and bakery products at Farmers' Produce Processing-cum-Skill Development Center • Skill Development Training on Processing and Value Addition of Horticultural crops (Course Coordinator) • 90 days skill development training programme on "Post	2016-till date	

			harvest Processing of Horticultural Crops” • Skill Development Training on Processing and Value Addition of Horticultural crops funded under Civic Action Programme, 36th Bn. SSB, Geyzing • Successfully co-ordinated, Farmers visits (on and off campus) • Training and Demonstrations of Horticultural produce processing machines and bakery products for Women of SSB officials • Delivered following lectures at different summer/winter training/ skill development and EDP programs/TED talks, etc • Food laws • Introduction to primary milk processing equipment • Post Harvest Management and value addition of horticultural produce with reference to Sikkim • Integrated approach of processing for climate change mitigation • Harvesting, Packing, storage and grading of mushroom • Hazards, risk and quality parameters associated with composting • Selection of important types of mushroom based on market demand, climate conditions of the farm, growing season and investment • Demonstration of Horticultural produce processing machines • Recent approaches in Pre and post harvest management of horticultural crops for enhanced farm income • Post Harvest Management and Value Addition • Post harvest Management of Horticultural crops in organic production system • Innovations in food processing technologies for better marketability • Post Harvest Management of turmeric and ginger		

5.	Dr. R K Raigar Assistant Professor (Dairy Engioneering)	CAEPHT Ranipool	• Organized 3 days training on "Intensive Dairy Farming and Energy Management" as Course Director during 19-21.09.19 sponsored by CCS- National Institute of Agricultural marketing (NIAM) Jaipur, Rajasthan • Organized 03 days training on "Design and construction of fish farm and hatchery" during 05.03.20-07.03.20 funded by CAU, Imphal	2017-till date	

Department of Soil and water conservation Engineering

Sl. No.	Name and Designation	Institution	Details of work done	Duration	Remarks

			6) Installation of Gravity-fed Irrigation system in the Green house of a local progressive farmer	3-6 feb, 2020	Hands on Training at Assam Lingzey, Sohreni

					Village, East Sikkim,

S. No.	Name and Designation	Institution	Details of work done	Duration	Remarks
1	Dr. B C Kusre Professor	CAEPHT Ranipool	Delivered Lecture on District Level Program on Jal Shakti Abhiyan at KVK Namthang	October 02, 2019	Organized by KVK Namthang
			Participated in KrishiMela organized by KVK, Namthang	September 03, 2019	Organized by KVK Namthang
			Organized 3 days training program on Planning for enhancing water use efficiency with emphasis on efficient utilization of Agricultural water	March 22-24, 2019	Sponsored by ATARI through CAU, Imphal
			Delivered lecture in training program on "Natural Resources Conservation and Management planning using open source software	November 29, 2018	CAEPHT
			Delivered lecture of "Water Management Strategies under organic farming" in training program on Advance Organic Technologies and its promotion through innovative extension approach at Kalimpong.	October 26, 2018	ICAR-Kalimpong
			Organized a two days regional workshop on Environmental Science and Management Development"	March 29-30, 2018	in collaboration with NERIWALM, Tezpur
			Delivered lecture on Significance of World Soil Day	December 05, 2017	World Soil Day
			Delivered lecture on Opportunities in Agricultural Sector	December 03, 2017	Agricultural Education Day
			Conducted workshop on water resources management and scope for future	May 03,	Sponsored by

			research and development in Sikkim	2017	NRDMS Division of DST
			Conducted Training program on Remote Sensing and GIS Application for Watershed Management and Development planning for the officers of State Government	February 28 to March 04, 2017	CAU
			Organized an interaction session of Students with Sri V K Agarwala on student career counselling	August 20, 2016	CAEPHT
			Organized one day workshop on "Problems, prospects and developing strategy for Water Resources Management in South Sikkim	June 16, 2016	Sponsored by NRDMS Division of DST
			Delivered lecture in one day seminar on Agro Textiles: Holistic alternative to enhance yield and profitability of horticulture and agriculture.	February 10, 2016	Organized by Ministry of Textiles, Government of Sikkim
			Delivered lecture on Roof top rain water harvesting and runoff estimation for design of water harvesting structure	September 17, 2015	Training sponsored by Government of Orissa
2	Dr. Ajay Kumar Vashisht, Associate Professor	CAEPHT Imphal	**Trainings organized** Organized one-week training program on "Water Management Through Sprinkler and Drip Irrigation & Water Savingdevices" under the Sub-Mission on Agricultural Mechanization (SMAM).	April 11-16, 2016	Sponsored by Govt. of Sikkim
			Organized one-day training on the topic "Water Management Strategies for Sikkim".	March 30, 2017	Sponsored by CAU Imphal
			Invited Lectures **Topic**: Groundwater management through skimming wells. Five-days capacity building program on "Sustainable Agriculture for Food Security & enhancing income to the farming community" for officers of agriculture department of Odisha	April 4-8, 2016	Sponsored by Govt. of Odisha

			Topic: Agro textiles: Productivity enhancement by protection of crops using crop covers. One-day seminar on "Holistic alternative to enhance yield and profitability of Horticulture and Agriculture".	February 10, 2016	Organized by Ministry of Textiles, Government of Sikkim
			Topic: Springs as a source of water and their rejuvenation. A 10-days training program on "Diversification of Hill Agriculture: An Approach for Climate Change Adaptation and Mitigation".	February 23, 2016	Organized by ICAR under the aegis of NICRA
			Topic: Soil moisture conservation strategies for improving waterproductivity. A 10-days training program on "Diversification of Hill Agriculture: An Approach for Climate Change Adaptation and Mitigation".	February 24, 2016	Organized by ICAR under the aegis of NICRA
			Topic: Soil moisture conservation strategies for improving water productivity. A 10-days training program on "Agro-Ecological Approaches for Sustainable Mountain Farming under Changing Climatic Scenario".	March 19, 2015	Organized by ICAR under the aegis of NICRA
3	Dr. Ghanshyam T. Patle, Assistant Professor	CAEPHT Imphal	1. Course coordinator of Capacity Building Programme on Sustainable Agricultural Production and Processing: Equipment and Technologies during September 14-18, 2015 sponsored by Agricultural and Food Department, Govt. of Odisha 2. Course coordinator of Dairy farming an option for improving livelihood of small and marginal farmers of Sikkim during September 8-10, 2015 3. Delivered a lecture on Efficient Water Management Technique for sustainable Hill Agriculture during the training programme on Sustainable Agricultural Production and Processing: Equipment and Technologies organized by CAEPHT, (CAU), Sikkim and Sponsored by the Directorate of Agriculture & Food Production, Govt. Of Odisha, Bhubaneswar duringSeptember 14-18, 2015 4. Lecture delivered on More crops per drop of Water in hill agriculture during one-day Seminar on Agro textiles: Holistic alternative to enhance yield and profitability of Horticulture and Agriculture organised by Ministry of Textiles & Government of Sikkim & COE- Agrotech, SASMIRA in	2015-2016	

			association CAEPHT on 10th February, 2016 5. Tour leader for Regional Agri Fair, 2016 held at C. V. Sc. & A. H., Aizawl, Mizoram organized by the CAU, Imphal during February, 03-05, 2016 for exhibiting the stall of CAEPHT (CAU), Ranipool, Sikkim 6. Tour leader for KrishiUnnatiMela, 2016 held at IARI campus, New Delhi organized by the Ministry of Agriculture and farmers' Welfare, GOI during March, 19-21, 2016 for exhibiting the stall of CAEPHT (CAU), Ranipool 7. Lead Speakerduring KisanGosthi: Farmers-Scientists Interaction session CAU Regional Agri-Fair, 2016 8. Rapporteur for farmers scientists Interaction forum on 04/02/2016 during CAU Regional Agri – Fair, 2016.		
			1. Course Coordinator of five days' capacity building training on sustainable agriculture for food Security and enhancing income to the farming community sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during April 4-8, 2016 2. Course Coordinator of five days' capacity building training on Conservation Agricultural practices and Post-harvest management for value addition sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during June 6-10, 2016 3. Course Coordinator of Awareness on Skill Development programs in Agricultural Engineering and Technology stream on July 31, 2016 4. Course Coordinator of five days' capacity building training on Integrated farming system for sustainable agriculture sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during September 5-9 2016 5. Course Coordinator of one week MTC on Adoption for secondary agriculture for employment generation Sponsored by the Ministry of Agriculture and Farmer's Welfare, GOI, New Delhi October 17-24, 2016 6. Course coordinator of training program on water management strategies for Sikkim held at CAEPHT on March 30 2017 **7. Lectures delivered:** - Resource person for five days' capacity building training on sustainable agriculture for food Security and enhancing income to the farming	2016-2017	

			community sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during April 4-8, 2016 - Resource person for five days' capacity building training on Conservation Agricultural practices and Post-harvest management for value addition sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during June 6-10, 2016 - Resource person for one-day awareness on Skill Development programs in Agricultural Engineering and Technology stream on July 31, 2016 - Resource person for five days' capacity building training on Integrated farming system for sustainable agriculture sponsored by Directorate of Agriculture and Food Production, Govt. of Odisha during September 5-9 2016 - Resource person for one week MTC on Adoption for secondary agriculture for employment generation Sponsored by the Ministry of Agriculture and Farmer's Welfare, GOI, New Delhi October 17-24, 2016 - Resource person for training program on water management strategies for Sikkim held at CAEPHT on March 30 2017. - Resource person for training organized by AICRP on Plasticulture Engineering and Technologies (PET), CAEPHT during March 23-24, 2017 - Resource person for ICAR Sponsored training under PanditDeenDayalUpadhyayUnnatiKrishiShikshaYojana on Organic Farming/ Natural Farming and Cow based economy held during 24-28 March, 2017. - Resource person for One day off campus training program on "Use of plastics on protected organic cultivation in Sikkim" Organized by AICRP on PET, CAEPHT on 06/01/2017. - Resource person for Training on Simulation Models in Irrigation, Drainage and Water Resources Management organized by College of Agricultural Engineering, Bapatla, Andhra Pradesh during 2-4 March, 2017		
			1. Course coordinator of training program on Livestock based Integrated Farming System during June 20-22, 2017 2. Course coordinator of training program on Integrated Farming System for Sustainable Hill Agriculture during September 18-20,2017 3. Course coordinator of training program on Planning for enhancing water	2017-2018	

			use efficiency with emphasis on efficient utilization of agricultural water during December 11-15, 2017 sponsored by Directorate of Extension Education, Imphal 4. Resource person for ICAR Sponsored Training under Pt. DeenDayalUpadhyayUnnatKrishiSikshaYojana, Organized by ICAR-NRC for Orchids, Pakyong, Sikkim during 13/03/2018 to 17/03/ 5. Resource person for Training program on Integrated farming system for sustainable hill agriculture during September 18-20, 2017. 6. Resource person for Training Program on Sustainable water management for boosting productivity in hilly region organized by Organized by ATMA, East Sikkim department of FS&ADD, Sikkim during 22.08.2017 & 28.08.2017		
			1. Convener of Local Organizing Committee of the 9th National Extension Education Congress-2018 on Climate Smart Agricultural Technologies: Innovations and Interventions held at CAPHET, Ranipool during November 15-17, 2018. 2. Organised one-day Agricultural Workshop as Organizing Secretary on Utilization of Fuel Efficient Water Pump and Solar PV Water Pump for Conservation of Petroleum Products sponsored by PCRA, Ministry of Petroleum and Natural Gas, Govt. of India held at CAEPHT Ranipool on 27.03.2019. 3. Course Coordinator: of 21 days Summer School on "Energy Efficient Agricultural technologies for climate change mitigation" sponsored by the ICAR and organized at CAEPHT, Ranipool, Gangtok, Sikkim during June 4-24, 2018 4. Co-course coordinator for training programme on "Planning for improving water use efficiency for enhanced crop production" Sponsored by ICAR-ATARI, ZONE-VII, Umiam and organised at CAEPHT, Ranipool, Sikkim during March 22-24, 2019 5. Four lectures delivered during ICAR sponsored 21 days Summer School on Energy Efficient Agricultural technologies for climate change mitigation organized at CAEPHT, Ranipool, Gangtok, Sikkim. During June 04-24, 2018	2018-2019	

			6. Three lectures delivered during Ninety days PFC sponsored Skill Development Training Programme on "Low-cost Greenhouse Technology in NEH Region" during September 17, 2018 to December 15, 2018 sponsored by Power Finance Corporation Limited, New Delhi 7. Resource person for Training program on Planning for improving water use efficiency for enhanced crop production during 22-24th March, 2019 sponsored by Sponsored by: ICAR-ATARI, ZONE-VII, Umiam; Meghalaya 8. Resource person for 25 days Skill Development Training on "Solar Pump Technician during February 14, 2019 to March 10, 2019 sponsored by Agriculture Skill Council of India (ASCI), New Delhi 9. Resource person for the One day Agricultural Workshop on Utilization of fuel efficient water pump and solar PV water pump for conservation of petroleum products		
			1. Organised one-day Agricultural Workshop as **Organizing Secretary** on "Utilization of Fuel Efficient Water Pump and Solar PV Water Pump for Conservation of Petroleum Products" sponsored by PCRA, Ministry of Petroleum and Natural Gas, Govt. of India held at CAEPHT Ranipool on February 22, 2020. 2. Course Coordinator of Three Days Training Programme on "Intensive Dairy Farming and Energy Management" sponsored by CCS-NIAM, Jaipur, Rajasthan and held at CAEPHT, Sikkim during September 19-21, 2019 3. Course Coordinator of Three Days Training Programme on "Climate Change Risk Mitigation for Marginal Farmers of Himalayan Region in Sikkim" sponsored by CCS-NIAM, Jaipur, Rajasthan and held at CAEPHT, Sikkim during September 26- 28, 2019 4. Course Coordinator of Awareness cum training programme on "Rainwater harvesting and use of micro irrigation" at Parkha Block of East district of Sikkim on 16.03.2020 5. Course Coordinator of one-day Training and Demonstration of Gravity fed drip irrigation system for hilly terrain at Nimthang, East district of Sikkim on 13.10.2019	2019-2020	

			6. Resource person for the three days Training Programme on Intensive Dairy Farming and Energy Management held at CAEPHT, Sikkim during September 19-21, 201 sponsored by CCS-NIAM, Jaipur. 7. Resource person for Three Days Training Programme on Climate Change Risk Mitigation for Marginal Farmers of Himalayan Region in Sikkim held at CAEPHT, Sikkim during September 26-28, 2019 sponsored by CCS-NIAM, Jaipur. 8. Resource person forOne Day Agricultural Workshop on Utilization of fuel efficient water pump and solar PV water pump for conservation of petroleum products sponsored by PCRA, Ministry of Petroleum and Natural Gas, Govt. of India on 22.02.2020 9. Resource person for National Workshop on Benchmarking of Irrigation Schemes organized by Water Resources Department, Nagaland at Kohima, Nagaland on 18.10.2019 10. Resource person for One day Seminar on low cost technologies for water conservation and solid liquid waste management organized by the MSME, Gangtok Centre at KVK, Namthang, South Sikkim on 30.08.201		
4	Dr Shivam Assistant Professor	CAEPHT, Ranipool	Presentation on snowmelt runoff modeling, NRSC, ISRO	April 2018	
			Delivered expert lecture at KVK South Sikkim, Namthang	September 15 2019	
			Delivered expert lecture on climate risk mitigation for marginal farmers of Himalayan region of Sikkim	September 26-28 2019	
			Delivered 2 expert lectures on application of mulch in vegetable cultivation	February 3-6 2020	

Department of Renewable Energy Engineering

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
			Conducted Training for State Govt. Official and FarmersOfficial and Farmers as Course Director/Coordinator (During Last 05 Years)		
1	Prof. Mahendra S.	College of	Double Pot Improved Biomass Cook Stoves Construction	July 29-31, 2015	**Total Number of**

	Seveda Professor and Head-REE	Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	in rural areas of Sikkim	(03 Days)	**Farmers/Govt. Official/Faculty Members/Unemployed Youth:** 406
			Sustainable Agricultural Production and Processing: Equipment and Technologies	September 14-18, 2015 (05 Days)	
			Utilization of Non-conventional Energy Sources in Agriculture	January 11-16, 2016 (One Week)	
			Sustainable Agriculture For Food Security & Enhancing Income to the Farming Community	April 4-8, 2016 (5 days)	
			Conservation Agricultural Practices and Post Harvest Management for Value Addition	June 06-10, 2016 (5 days)	
			Awareness on Skill Development Programmes in Agril. Engineering & Technology Stream	July 31, 2016 (1 Day)	
			Integrated Farming System for Sustainable Agriculture	September 05-09, 2016 (5 days)	
			Model Training Course on Adoption of Secondary Agriculture for Employment Generation	October 17-24, 2016 (8 days)	
			Awareness Programme on Skill Development on Greenhouse Technology including Solar Technology and Micro Irrigation Systems	Two days (July 28-29, 2018)	
			Skill Development Training On Job Role of Solar Pump Technician	25 Days (February 14, 2019 to March 10, 2019)	
			Intensive Dairy Farming and Energy Management.	3 days (September 19-21, 2019)	
			Climate Change Risk Mitigation for Marginal Farmers of Himalayan Region in Sikkim.	3 days (September 26-28, 2019)	
			Organized International/National:		On the Occasion of

			Workshop/Seminar/Conference/Congress/Winter School: 07 (Last 05 Years)		Silver Jubilee Year-2018 of Central Agricultural University, Imphal, Manipur, 21 days ICAR sponsored Summer School on "Adoption of energy efficient agricultural technologies for climate change mitigation" was Successfully Completed as Course Coordinator at College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim during June 04-24, 2018 &9th National Extension Education Congress-2018 on Climate Smart Agricultural Technologies: Innovations and Interventions was Successfully Organized as Organizing Secretaryat College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok,
			Workshop on Utilization of Energy Efficient Improved Biomass Cook Stoves	October 29, 2015	
			International Conference on Emerging Trends in Science, Technology, Agriculture & Management-2016	April 21-23, 2016	
			National Workshop on Soft Computing Modeling-Food Processing, Pharmaceutical Science & Export Management	April 21-23, 2016	
			Twenty-one days ICAR sponsored Summer School on "Adoption of energy efficient agricultural technologies for climate change mitigation	21 days (June 04-24, 2018)	
			9th National Extension Education Congress-2018 on Climate Smart Agricultural Technologies: Innovations and Interventions	November 15-17, 2018	
			Workshop on Utilization of Fuel Efficient Water Pump & Solar PV Water Pump for Conservation of Petroleum Products	March 27, 2019	
			Workshop on Utilization of Fuel Efficient Water Pump & Solar PV Water Pump for Conservation of Petroleum Products	February 22, 2020	

					Sikkim during November 15-17, 2018.
2.	S M Kamaruzzaman Assistant Professor	College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	1. Acted as Resource person for farmers training programmes. 2. Developed 3 solar dryer under PET AICRP 3. Designed & Developed a Solar Tunnel Dryer which was funded by Natures Gift RangpoSikkim . total cost was 2.50 lakhs	July 2006- Till date	Dissemination of Renewable Energy Technologies through lectures and training programmes
3.	Dr. Narale Pradip Digambar Assistant Professor	College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	1. Resource person for "Intensive Dairy Farming and Energy Management" program and delivered lecture on *"Biogas Production from Animal Waste",* Organised by NIAM, Jaipur Rajasthan during September 19-21, 2019. 2. Resource person for "Climate change mitigation in agriculture for NEH region of Sikkim" program and delivered lecture on *"Role of Biogas Technology for Climate Change Mitigation"* Organised by NIAM, Jaipur Rajasthan during September 26-28, 2019 3. Resource person for "Scope of plasticulture engineering technologies in agriculture and allied activities" and delivered lecture on *"Study of different components of the FRP based biogas plant in NEH region"* organised by AICRP on PET, CAEPHT, CAU, Ranipool, Gangtok Sikkim during 3-6 March 2020. 4. Organized One day Training Workshop on Utilization of Fuel Efficient Water Pump and Solar PV Water Pump for Conservation of Petroleum Products	July 2019- Till date	Popularization of Renewable Energy Technologies through lectures and training programmes

			as Organising Secretary on February 22,2020.		
4.	Dr. Kharpude Sudhir Narayan Assistant Professor	College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	1. Resource person for "Intensive Dairy Farming and Energy Management" program and delivered lecture on *Energy Conservation and management in Dairy farming*, Organised by NIAM, Jaipur Rajasthan during September 19-21, 2019. 2. Resource person for "Climate change mitigation in agriculture for NEH region of Sikkim" program and delivered lecture on *Climate change mitigation in agriculture by processing of Biomass (agricultural residues and by-product)* Organised by NIAM, Jaipur Rajasthan during September 26-28, 2019 3. Resource person for "Scope of plasticulture engineering technologies in agriculture and allied activities" and delivered lecture on *Application of solar tunnel dryer for value addition of spices* organised by AICRP on PET, CAEPHT, CAU, Ranipool, Gangtok Sikkim during 3-6 March 2020. 4. Organized One day Training Workshop on Utilization of Fuel Efficient Water Pump and Solar PV Water Pump for Conservation of Petroleum Products as Organising Secretary on February 22,2020.	July 2019- Till date	Popularization of Renewable Energy Technologies through lectures and training programmes

Department of Basic Engineering and Applied Science

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr A. B. Sherpa, Assistant Professor (Sr. Scale) of Agronomy	CAEPHT (Central Agricultural University, Imphal), Ranipool, Sikkim	AICRP on APA Scheme 1. Equipment and technology to mechanize conservation agriculture to protect the crop from stress on terraces under rainfed hill farming condition in Sikkim of NEH Region. As Co-PI 2. Feasibility study of round the year production of broccoli, brinjal and mushroom in low cost bamboo poly house structure. As PI of Sub- project 3. Feasibility study of round the year production of flower(Gerbera and Gladiolus) in low cost bamboo poly house structure. As Co-PI	03 yrs.(2010-2013)	Completed
			ICAR project entitle Development of equipment and technology to mechanize conservation agriculture (CA) on terraces under rain fed hill farming condition of NEH Region. As Co-PI	02 yrs.(2016 & 2017)	Completed
			IRP project entitle Genotypic variation in growth and yield parameters and nutrient uptake of rice genotype under aerobic and wetland rice cultivation in Sikkim. As Co-PI	03 yrs.(Since 2018)	Continue
2	Dr Dhananjoy Roy, Assistant Professor (Sr. Scale) of English	Nil	Nil	Nil	Nil
3	Er.Nandita Sen Asst.Professor (Electrical Engg.)	Nil	Nil	Nil	Nil
4	Phuritshabam Robert, Assistant Professor,	Nil	Nil	Nil	Nil

	(Computer Science &Engineering) Currently Pursuing PhD.				
5	Dr. Chakpram Birendrajit Assistant Professor (Soil Science)	College of Agricultural Engineering and Post Harvest Technology, (C.A.U.) Ranipool, Gangtok, Sikkim	Soil sampling, survey and analysis of physical and chemical properties of soil	College of Agricultural Engineering and Post Harvest Technology, (C.A.U.) Ranipool, Gangtok, Sikkim	Soil sampling, survey and analysis of physical and chemical properties of soil
6	Dr. Abujam Anuradha Devi, Assistant Professor (ABM) and Co.PI	ICAR (4.21 lakhs)	ICAR project entitled “Critical Analysis of Examination System in Agricultural Education in India” as Co. PI	One year (2017-18) completed on March, 2018	Completed
		ICAR-NIAP (49.00 lakhs)	ICAR-NIAP-CAU Collaborative Project “Policy Imperatives for Promoting Value Chains of Agricultural Commodities in India” as Co. PI	Three (03) years (2018-2020)	Ongoing extended till March, 2021
		National Mission On Himalayan Studies (NMHS) G.B. Pant National Institute of Himalayan Environment and Sustainable Development (GBPNIHESD), Uttarakhan (33 lakhs)	NMHS-SG project entitled "Livelihood Option for Small Land Holding Rural Farmers of Sikkim -Integrated Pyramidal Farming Model" as PI	Three (03) years Initiation of the project w.e.f. 10.01.2019	Ongoing
7	Er. Rajiv Pradhan, Assistant Professor (Electronics Engineering & Instrumentation)	Nil	Nil	Nil	Nil

8	Dr. Srikanta Kumar Meher Assistant Professor (Mathematics)	CAEPHT, CAU, Sikkim	Research Advisory Committee Member: Mr. Solanke Krishna Rustam Rao (PhD FMPE) Mrs. Patil Swati (PhD. Department of Farm Machinery and Power Engineering

Sr. No.	Name and designation	institution	Details of work done	duration	Remark
1.	Dr. NS Chauhan Professor	CEAPHT (CAU), Ranipool, Sikkim	• PI of AICRP on ESA (Since May 2017 to till date • Guided 6 B.Tech. students and 02 M.Tech. Students • Conducted Adoptive trials, front-line demonstrations and training of ergonomically designed farm tools and equipment • Development of ergonomically designed farm equipment matching to body dimensions and strength parameters of Sikkim workers • Research Papers published:2	24/12/2014 to Till date	

2.	Dr. S N Yadav Associate Professor /Professor	CAU-CAEPHT, Ranipool, Sikkim	1. Mechanization Status and its Impact on Production of Rice and Maize crops in Sikkim 2. Feasibility testing of manual four row pre-germinated rice seeder for improving the productivity and sustainability of rain fed rice cultivation of Sikkim 3. Development of light weight knapsack type surface residue chopper for adoption in no-tillage cultivation of crops in valley/terraces and hill slopes 4. Development of manually operated engine assisted light weight zero till drill for direct seeding on terraces for conservation mechanization 5. Production of charcoal briquettes from selected forest waste of Sikkim and their feasibility testing Studies on some relevant properties of large cardamom for conceptual design of harvester	9 months 01 year 1 year 3 months 1 year 1 year 1 year	Intramural Research project of CAU, Imphal	
		ICAR under NAIP	A value chain of aromatic crops of NE India	5 years	-	
		ICAR-AICRP	1. AICRP on Ergonomics and Safety in Agriculture AICRP on Utilization of Animal Energy in Agriculture (UAE)	2 years 1 year	-	
		ICAR	Development of equipment and technology to mechanize conservation agriculture on terraces under rainfed hill farming condition of NEH Region	2 years	-	

		Ministry of Agriculture and Farmer's Welfare	Establishment of Farm machinery Testing Centre	Continue	-	
3.	Dr. S.K. Satpathy, Asst. Professor	CEAPHT (CAU), Ranipool, Sikkim	• Completed one IRP project • Guided 11 B.Tech. students and 01 M. Tech. Student • Awarded Ph.D in 2018 from IIT Delhi • developed small farm equipments and machines suitable for hill agriculture prototype feasibility testing and front line demonstration of various small farm tools, equipment and machines	24/08/2007 to till date	I/C PI of AICRP on FIM w.e.f. 25/02/2015	
4	Shankar Swarup Das (Assistant Professor)	National Institute of Technology, Agartala (during Ph. D. study leave period)	Title of Research: 1. Study of Friction and Wear Behaviour of Hip Joint Prosthesis: Experiments and Analysis	3 years	06 published papers based on the research works.	
		College of Agricultural Engineering and Post-Harvest Technology, Ranipool	2. Initiated on new project on Foot stepped power generation for thresher machine as Co-PI of AICRP on ESA	2 years	proposed	
5	Sujeet Kumar Chauhan (Assistant Professor)	College of Agricultural Engineering and Post-Harvest Technology, Ranipool	1. Completed **09** sub projects, and 03 sub project are ongoing. 2. Developed 12 no. of Improved Animal drawn implements for North Eastern hill region 3.Research paper published in referred journals (15 number) 4.Research paper published in Non referred journals (33 numbers) 5.Popular Article: 13 No. 6. Technical bulletin 03 number	2012-2021	Working in the capacity PI AICRP on UAE w.e.f 05.05.2014 to till continue	

			7. Technical report 06 number			
6	Ngangkham Devarani (Assistant Professor)	Nil	Nil	Nil	Nil	

Department of Processing and Food Engineering

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr. R.P. Misra, Professor	IARI, CARI, CIRG, ICAR HQ.	i) Agricultural structures ii) Animal Environment interaction iii) Feeding and watering devices for small ruminant 1. iv) International and National training of scientists	1976-2015 (39 years)	During 1976-2020 I was also engaged in coordination, management and administration
2.	Dr Sujata Jena Associate Professor		• Technology development for production of hurdle processed passion fruit jam and jelly • Application of blending/mixture technology for development of different types of beverages using locally produced horticultural crops like Sikkim Mandarin, passion fruit and ginger etc. • Establishment of Institutional Level Biotech Hubs (IBThubs) by DBT under Special Programme for North Eastern States of India • Design and development of a	• 2009-2011 • 2009-2010 • 2014-2019	• Standardized process for production of passion fruit jam and jelly using passion fruit skin and pulp. • Standardized process for production of blended beverages like RTS and squash from Sikkim mandarin, passion fruit and ginger • One IBT hub was established at CAEPHT, Ranipool and about 128 students/staff were trained in microbial food analysis and fermentation.

			composite osmotic dehydrator for fruits and vegetables • Enhancing livelihood of farmers in Sikkim Darjeeling Himalayan belt thorough possible interventions in processing and value addition of underrated horticultural and spice crops	• Ongoing since 2017 • Ongoing since 2019	• Practical classes and research work of UG, PG and PhD were conducted utilizing the chemicals and glassware procured through the projects • DG set procured through the project is being utilized for providing uninterrupted power supply to various laboratories of the department. • A composite osmotic dehydrator skid is being developed. • Benchmark survey of selected villages is under process
3.	Dr B K Singh Assistant Professor		• Status of fishing gears and crafts of west and south districts of Tripura • Strategy and approach for comprehensive development of fisheries involving community based programs with special reference to NE region • Mapping of Fisheries Resources and Water quality of Major Rivers and Lakes of Sikkim		
4	Dr Said P P	CAU, Imphal	• Enhancing Livelihood of Farmers in	2016-till date	• Conducted survey in four districts

	Assistant Professor		Sikkim Through Process Standardization and Mechanization of Yak Milk Cottage Cheese (Hard Churpi) Processing • Enhancing livelihood of farmers in Sikkim Darjeeling Himalayan belt through possible interventions in processing and value addition of underrated horticultural and spice crops • Establishment of Institutional Level Biotech Hubs (IBT hubs) • Genotypic variations in growth and yield parameters and nutrient uptake of rice genotypes under aerobic and wetland rice cultivation in Sikkim		of Sikkim and Database of physiochemical properties of chayote, dalle, yalk milk were generated • Facilitated practical classes of B. Tech (Food Technology), M. Tech & PhD (Processing and Food Engineering) through chemicals and glassware procured through the hub • The Biotech Hub received Good rating amongst all Hubs and project got extension of a Year 2016-17 • Identified and reported four different species of Bixa plant
5.	Dr. Rakesh Kumar Raigar Assistant Professor (Dairy Engineering)	CAEPHT Ranipool	• Enhancing Livelihood of Farmers in Sikkim Through Process Standardization and Mechanization of Yak Milk Cottage Cheese (Hard Churpi) Processing. • Process standardization of Yak milk paneer • Development of Instant Herbal Black Tea Tablet • Development of Paneer Whey Enriched Fruit Beverage	2017 to till date	

			• Development of Micronutrient Fortified Energy Bar for Malnutrition children and Adolescent girls		

Department of Soil and Water Conservation Engineering

Sl.No.	Name and Designation	Institution	Details of work done	Duration	Remarks
1	Dr. Deepak Jhajharia, Professor	CAEPHT	1. Effect of organic manures and different moisture depletion levels on off season capsicum cultivation under poly house conditions in Sikkim. Funded by AICRP-PET, ICAR-CIPHET, Ludhiana 2. Effect of different types of soil less media on growth parameters and fruits yield of strawberry in eastern Himalayan region. Funded by AICRP-PET, ICAR-CIPHET, Ludhiana 3. Onion cultivation under low cost low tunnels for restricting over winter in eastern Himalayan region. Funded by AICRP-PET, ICAR-CIPHET, Ludhiana 4. Trends in Aridity Index over Northeast India – under Master's thesis 5. Drought analysis using Copula over Northeast India – under Master's thesis 6. Drought analysis over different districts of Arunachal Pradesh – B. Tech. Thesis. 7. Climatology of wind speed over Sikkim – B. Tech. Thesis. 8. Pan coefficient: analysis and trends identification over Northeast India 9. Estimation of monthly reference evapotranspiration and trend analysis: case studies from Northeast India	Three Years (2017-2020) -do- -do- 2017 2019 2019 2020 2020 2020	Completed
2	Dr. Jagabandhu Panda, Associate	CAEPHT	1. Developed regression model to predict the soil aggregate stability of Sikkim soils – under Master's thesis 2. Geomorphological analysis of Watersheds of Sikkim using RS	2 years each	Completed

	Professor		& GIS- under Master's thesis 3. Developing Geostatistics model to predict soil erodibility of Sikkim soils – under Master's research 4. Predicting Agricultural and meteorological drought using RS and GIS for Sikkim - under Master's thesis		
3	Dr. Santosh Rangrao Yadav		(1) ICAR, New Delhi funded AICRP on Plasticulture Engineering and Technologies (PET) (Myself as I/C PI) (2) ICAR, New Delhi funded ERP on 'Development of equipment and technology to mechanize conservation agriculture on terraces under rain fed hill farming condition of NEH Region' (Myself as Co-PI & I/C PI in the absence of regular PI) (3) Member of Organizing Committee of International Conference on Emerging Trends in Science, Technology and Management-2016 at CAEPHT-CAU, Ranipool (4) Member of Organizing Committee of National Workshop on Soft Computing Modeling- Food Processing, Pharmaceutical Science and Export Management at CAEPHT-CAU, Ranipool (5) Co-Course Coordinator of training GIS and Remote Sensing Application in Watershed Management and Developmental Planning	January 06, 2015 to June 04, 2016 November 2015 to September 2017 April 21-23, 2016 April 21-23, 2016 February 28 to March 4, 2017	
4	Dr. Ghanashyam Singh Yurembam, Assistant Professor	**CAEPHT**	1. "Effect of organic manures and different moisture depletion levels on off season capsicum cultivation under poly house conditions in Sikkim", AICRP, (C0-PI since 2016) 2. Development of a laboratory Model of Fog Harvesting Mechanism	**4 years** **2 Years**	**Completed** **Awaiting Sanction**

Department of Irrigation and Drainage Engineering

S. No.	Name and Designation	Institution	Details of work done	Duration	Remarks
1	Dr. B C Kusre Professor	CAEPHT Ranipool	Research papers published: 7 Books published: Nil	2015-2020	

			Book chapters: 1 Conference proceeding: 2		
			Conducted research project on"Determination of Hydraulic Performance of Micro irrigation System emitter for selection in Hilly Terrain of NE Region", Sponsored by Central Agricultural University.	Completed 2014	CAU sponsored research project
			"Natural Resources Mapping and Developing strategy for Water Resources Mapping" Sponsored by Natural Resources Data Management System (NRDMS) Division; Department of Science and Technology, Government of India.	Completed 2017	DST Sponsored research Project
			"Soil Moisture Characterization and its impact on productivity of large cardamom in Sikkim"; Sponsored by Science and Engineering Research Board (SERB); Department of Science and Technology, Government of India.	Completed 2018	SERB-DST Sponsored research Project
			As **Co- Principal Investigator-** Mapping of Fishery resources and water quality of major rivers and Lakes of Sikkim. Sponsored by Natural Resources Data Management System (NRDMS) Division; Department of Science and Technology, Government of India.	Completed 2019	DST Sponsored research Project
			Development of Soil Moisture Balance Models and Estimation of Water Foot prints of Major Crops in Sikkim.	2017	M Tech Project
			Developing Water Resource Management Strategy for Sikkim using Remote Sensing and GIS.	2015	B Tech Project
			Estimation of Soil Erodibility Indices of East Sikkim District.	2016	B Tech Project
			Rainfall characterization and its analysis for improving Water Use Planning for Agricultural Development in Meghalaya.	2017	B Tech Project
			Applicability of TRMM rainfall data andits spatial and temporal analysis over Sikkim.	2018	B Tech Project
			Development of Soil Moisture Index in Sikkim.	2020	B Tech Project
2	Dr. Ajay Kumar Vashisht, Associate Professor	CAEPHT Ranipool	Research papers published: 9 Books published: 2 Book chapters: 3 Conference proceeding: 1	2015-2020	
			As **Principal Investigator**: Prediction of lean season discharge of springsforefficiently managing it to fulfil water needs ofthe mountain inhabitants	2012-2017	DST Project
			As **Principal Investigator**:Managing natural resources of a watershed for its	2017-2020	IRP

			sustainable development		
			As **Principal Investigator**:Impact of particle size distribution of filtermaterial on water turbidity and flow rate for usein drip irrigation and ground water recharge	2015-2016	IRP
3	Dr.Ghanshyam T. Patle, Assistant Professor	CAEPHT, Ranipool	Research papers published: 19 Books published: 1 Book chapters: 6 Conference proceeding: Nil	2015-2020	
			CRP on Micro Irrigation Systems: **Project Investigator**	2020-2023	ICAR Funded Research Project
			Design development of micro irrigation system for hilly terrain. ICAR Network project on Engineering Intervention in Micro Irrigation Systems. (Amount: Rs. 23.35 Lakh) **Principal Investigator**	2018-2020	ICAR Funded Research Project
			Effect of different types of soil less media on growth parameters and fruit yield of strawberry in eastern Himalayan Region (Amount: 16.84 Lakh), **Co-PI**	2017-2019	ICAR-AICRP on PET
			Performance of Asparagus (Asparagus officinalis) cultivation within naturally ventilated polyhouse as compared to open condition (Amount: 9.40 lakh), **Co-PI**	2015-2017	ICAR-AICRP on PET
			Assessment of infiltration rate of a paddy growing area in a micro watershed of East Sikkim (Amount: 1.16 Lakh), **Project Investigator**	2017-2020	IRP
			Development and performance evaluation of roof water harvesting system of a polyhouse for vegetable production (Amount: Rs. 5 Lakh), **Project Investigator**	2017-2020	IRP
			Evaluating the effect of hydraulic head and slope on gravity fed drip irrigation system in hills of Sikkim (Amount: Rs. 2 Lakh), **Project Investigator**	2017-2019	IRP
			Development of Solar Photovoltaic Water Pumping System for Micro Irrigation in NEH Region of India. (Amount: Rs. 5 Lakh), **Co PI**	2017-2020	IRP
			Spatio-temporal trend analysis of total rainfall and one-day maximum rainfall and its influence on agriculture in terms of drought in northeast India. (Amount: Rs. 2 Lakh), **Co PI**	2017-2020	IRP
4	Dr. Shivam, Assistant Professor	Assistant Professor, CAEPHT, Ranipool, Sikkim	Published Research Papers: 4 Published Book Chapter: 4 Submitted Project Proposals: 1	August 2017 – 2020	

		Research Scientist NRSC, ISRO, Hyderabad	Snowmelt runoff modeling, irrigation water management using remote sensing data	December 2017 – August 2019	

Department of Renewable Energy Engineering

			Research Projects: Completed		
1.	Prof. Mahendra S. Seveda Professor and Head-REE	College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	Promotion of Energy Efficient Improved Biomass Cook Stoves in Rural Areas of Sikkim	Three Years Three Months (16-08-2012 to 31-10-2015)	**Renewable Energy Technologies Designed and Developed:** 09 Natural Convection type Solar Tunnel Dryer Natural Convection direct type Solar Dryer Portable PV Powered Forced Convection Solar Dryer Energy Efficient Double Pot Improved Biomass Cook Stove Mixed Mode Photovoltaic Powered Forced Convection Solar Dryer Solar Biomass Hybrid Dryer for Large Cardamom Drying Improved Large Cardamom Harvesting Knife Low-cost Gravity-based
			Design and development of the mixed model photovoltaic powered forced convection solar dryer of 10 Kg capacity for agro industrial application of NEH region	One Year (01-02-2014 to 31-01-2015)	
			Gap Analysis of Skill Development in Agricultural Engineering and Technology Education	One Year (01-04-2016 to 31-03-2017)	
			Critical Analysis of Quality of Post Graduate Research in Physical Sciences of Agricultural Education System	One Year (01-04-2016 to 31-03-2017)	
			Impact of Information and Communication Technologies (ICTs) in Agricultural Education in India	One Year Two Months (29-01-2016 to 31-03-2017)	
			Value Chain Analysis of Ginger (Zingiber Officinale L.) in North Eastern Hill Region of India	One Year One Month (01-03-2016 to 31-03-2017)	
			Critical Analysis of Examination System in Agricultural Education in India	One Year (01-04-217 to 31-03-2018)	

					ropeway for Transportation of Agricultural Produce and Inputs Portable side Feed Smokeless Cook Stove
			Research Projects: Ongoing		
			Development of Solar Photovoltaic Water Pumping System for Micro Irrigation in NEH Region of India	Started on 01-08-2017	Solar PV water pumping system was developed and installed at Instructional Farm of College of Agricultural Engineering and Post-Harvest Technology, Ranipool, Gangtok, Sikkim for micro irrigation. The system consists of 2 nos. of solar PV modules (wattage: 40 watt each), DC motor (120 Watt capacity) water pump, Controller, cable, suction pipe, delivery pipe and drip irrigation system (100 m^2). Both the solar PV modules were connected with parallel. The solar PV array generated 12 to 18 voltage current of 5 Ampere.
			Performance Analysis of Solar Photovoltaic Module with changing Solar Insolation, Temperature and Tilt Angle on the Basis of Indoor and Outdoor Conditions in Sikkim	Started on 23-12-2019	
2.	**S M Kamaruzzaman** **Assistant Professor**	College of Agricultural Engineering & Post Harvest Technology,	development of walk in type solar tunnel dryer useful for Sikkim performance analysis of polycarbonate covered walk in type solar tunnel dryer	October 2006 to Till date	Student Research projects

		Ranipool, Gangtok.	design & performance analysis of elevated absorber type solar tunnel dryer design of an elevated absorber solar tunnel dryer design and development of semi automatic type sun tracking solar tray dryer performance evaluation of elevated absorber solar tunnel dryer study of solar thermal water pump suitable for hilly region of Sikkim design amd fabrication of solar thermal water pump		
		Jadavpur University Kolkata as JRF in DRDO project	Study of variation of thermal diffusivity of advanced composite materials of E-Glass fiber reinforced plastic(GFRP) in Temperature range 5-300K thermal diffusivity of advanced composite materials of e-Glass fiber reinforced plastic in Temperature range 5-120K	February 2004 to September 2005	Published in Refereed journal: Indian journal of Pure and Applied Physics (Vol: 47 No4 April.2009) Indian journal of Pure and Applied Physics (Vol: 47 No4 April.2009)
		College of Agricultural Engineering & Post Harvest Technology, Ranipool, Gangtok.	Application of Effective Scattering theory for validating Effective Thermal Diffusivity of Glass Epoxy Composite in the temperature range 50K-300K. Design of Inclined Absorber Modified Walk in Type Solar Tunnel Dryer.	October 2006 to Till date	Published in non-Refereed journal: Teachers' Journal, Vol II, 116-128ISSN No. 2395-5627 Teachers' Journal , Vol-III :223-232ISSN No. 2395-5627
3.	**Dr. Narale Pradip Digambar**	College of Agricultural	Development of small scale portable biochar kiln for biochar production from agricultural waste	4 December 2019 – 19 July 2019	The research work was carried out under AICRP

	Assistant Professor	Engineering, Birsa Agricultural University, Ranchi, Jharkhand.	residue. Bio-methanation study of piggery waste, poultry waste and goat/sheep waste in co-digestion with kitchen waste.		on EAAI scheme of ICAR at BAU Ranchi.
		College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	Design and economic analysis of community size floating drum biogas plant for NEH region of India. Sizing and economic evaluation of solar off-grid photovoltaic system for household electrification.	20 July 2019- Till date	The work was carries out under student research projects.
4.	**Dr. Kharpude Sudhir Narayan** **Assistant Professor**	Dadasaheb Mokashi CAE&T, Rajmachi, Maharashtra (affiliated MPKV Rahuri)	Development of DSS for Silo Design Development of Expert System for Drip Irrigation System Design Performance Evaluation and Comparative Analysis of Improved Metallic Biomass Cookstove with Traditional Cookstove Performance Evaluation Of Box Type Solar Cooker	January 2017 – July 2019	Student Research projects
		College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim	Life cycle impact, costing and embodied energy analysis of Double Mirror reflector box type solar cooker	January 2020- July 2020	Student Research project Student Research project

Farm facilities

Farm facilities, workshops and other instructional units

Sl. No.	Name of the Department	Farm Area (ha)	Irrigated / No irrigated (ha)	Crops grown
1	Irrigation and Drainage Engineering	0.07	Irrigated	Cauliflower, Broccoli, Coriander,
2	Soil and Water Conservation Engineering (under AICRP On PET)	0.01 (under 4 greenhouses)	Irrigated	Cauliflower, Broccoli, Tomato, Onion, Garlic, Capsicum,
3	Renewable Energy Engineering	0.004	Irrigated	Tomato
4	Farm section	0.004	Irrigated	Flowers

Poly house and Shade nets

Poly house and Shade nets available area wise and crop details

Sl. No.	particulars	Total available numbers	Area (m2)	Crops grown
1	Polyhouse	07 (4 in AICRP PET, 1 in IDE, 1 in REE,1 under Farm section)	30 sq. m. to 120 sq. m	vegetable crops
2	Shadenet	02 under AICRP PET	10 sq. m.	Seedlings

Facilities available in farm section: available Facilities to farm section

Sl. No.	Facility	Remarks
1	10hp motor	For supply and water pumping
2	Drip irrigation systems	For irrigation of land and polyhouses
3	Solar water pumping system with farm pond source	For supply and water pumping from farm pond and tanks
4	Water supply tanks	Water storage and supply

Diary Plant, water storage ponds, Farm equipment and Meteorological units:

List of available facilities under Diary Plant, water storage ponds, Farm equipment and Meteorological units

Sl. No.	Particulars	Details	Remarks/ Area
1	Dairy Plant	Available	

2	Vermicomposting	1 No.	For production of organic compost to field supply
3	Farm Equipment	Hand tools	Used by farm sections for farming and maintenance of campus
		Grass cutters	
		Utilize equipments from FMPE department	
4	Farm ponds/water tanks	1 farm pond SPV powered water pumping unit	For supply and water pumping from farm pond and tanks
		Water Tank – 2 Nos	Water storage and supply
5	Meteorological units	1 full-fledged Weather monitoring station (In Collaboration with ISRO)	Recording of weather conditions
6	Misc.	Pilot Plant for Milk Processing including Dairy Technology Lab, chiller unit, spray dryer unit & milk reception unit etc.	201.51 m^2
		Pilot Plant for Fruits and Vegetable including Cottage scale soya paneer plant	124.03 m^2
		Multi stage evaporator with aroma recovery system	20.9m^2
		Shed for Feed and Fodder crusher and seed processing unit etc	119.66 m^2
		Mini Rice Mill	148.65m^2
		Farmer's Produce Processing cum Skill Development Centre	Area 265.26 m^2) (consisting of Ginger & Turmeric Processing Plant – Area 72 m^2, Unit of Minimal Processing of Fruits and Vegetable– Area 17.84m^2, Bakery unit– Area 23.78m^2, Noodles unit– Area17.84 m^2, Potato Chips unit –Area 17.84 m^2, store–Area 25.65 m^2, kitchen –Area 17.84 m^2, class room–Area 27.87 m^2, training hall –Area 44.6 m^2)

Farm Workshop cum Vehicle shed

Details of Farm workshop, Implement shed and vehicle shed

Facility	Particulars	Remarks
Farm Workshop	1	The workshop of college is used for fabrication and repairing of farm tools and equipment
Implement shed	1	Farm implements are placed in the Farm Machinery department passage and used by farm section on need basis.
Vehicle shed	0	As such vehicle shed is not available. Vehicles are parked on free space available near college workshop and parking space allotted for various vehicles.

Annexure 6.5.3.3

Student Ready/In-plant/Experiential Learning

Experiential Learning Modules for B. Tech (Agricultural Engineering)

Department	Module for B. Tech (Agricultural Engineering)
IDE	Layout of irrigation system on field and its cost estimation Planning, design and installation of pressurized irrigation systems. Maintenance and Management of Pressurized Irrigation Systems. Cropping pattern and irrigation management in canal command for major/minor/medium irrigation projects Irrigation and Nutrient Management in Greenhouse
SWCE	Watershed Planning, Development and Evaluation Design & Development of Rainwater Harvesting
FMPE	Farm Mechanization Manufacturing of Agricultural Tools & Implements
REE	Drying of Different Vegetables using Solar dryer Preparation of Briquettes for Furnaces, & Cook Stoves
PFE	Processing and value addition of Milk Products Processing of Horticultural crop Bakery Products Production of Soya Products

Major skills imparted through Experiential Learning Modules for B. Tech (Agricultural Engineering) implemented during 2015-16 and 2019-20

Sl. No.	Year	No. of students trained	Major skills imparted
1	2015-16	07	a) Formulation and manufacture of value added products b) Operation and maintenance of processing equipments

			c) Development of managerial skills under protected environment d) Skill to develop Detailed Project Proposal to start entrepreneurship- e) Registration and licensing enterprise to run business
2	2016-17	06	a) Formulation and manufacture of value added products b) Operation and maintenance of processing equipments c) Development of managerial skills under protected environment d) Skill to develop Detailed Project Proposal to start entrepreneurship e) Registration and licensing enterprise to run business
3	2016-17	04	a) Concept of Venn diagram was developed. SWOT analysis and problem identification in village b) Information on Indigenous and technological knowledge were also obtained
4	2017-18	07	a) Formulation and manufacture of value added products b) Operation and maintenance of processing equipments c) Development of managerial skills under protected environment d) Skill to develop Detailed Project Proposal to start entrepreneurship e) Registration and licensing enterprise to run business
5	2017-18	04	Design and installation of gravity Drip Irrigation
6	2017-18	04	Fabrication of improved farm implement
7	2017-18	04	Learned about drying mechanisms and dryer design, installations and utilization
8	2018-19	04	Skill was imparted to design and Construction of naturally ventilated polyhouse
9	2018-19	06	a) Formulation and manufacture of value added products b) Operation and maintenance of processing equipments c) Development of managerial skills under protected environment d) Skill to develop Detailed Project Proposal to start entrepreneurship e) Registration and licensing enterprise to run business
10	2018-19	04	Installation, Maintenance and Hydraulic Evaluation of Drip Irrigation system
11	2018-19	03	Learned about drying mechanisms and dryer design, installations and utilization
12	2018-19	06	• Understanding the components in a machine e.g. Paddy thresher

			• Determining the accurate dimensions of the machine components • Development of 3D models of the machine components using CATIA V6 • Assembly of the components developed to make the 3D model of the machine Understanding the working mechanism of the machine
13	2019-20	06	a) Formulation and manufacture of value added products b) Operation and maintenance of processing equipments c) Development of managerial skills under protected environment d) Skill to develop Detailed Project Proposal to start entrepreneurship e) Registration and licensing enterprise to run business
14	2019-20	07	Fabrication of Parshall Flume, Layout of Irrigation System on field, Cost estimation
15	2019-20	07	Learned about drying mechanisms and dryer design, installations and utilization
16	2019-20	07	• Understanding the components in a machine e.g. Paddy thresher • Determining the accurate dimensions of the machine components • Development of 3D models of the machine components using CATIA V6 • Assembly of the components developed to make the 3D model of the machine Understanding the working mechanism of the machine
17	2019-20	04	Study was carried out to obtain information of the natural resource conservation and management by local community

6.4. Self-Study Report for the Degree Programme, College of Agricultural Engineering and Post Harvest Technology, Ranipool, Gangtok, Sikkim,

For the college offering degree programme as per recommendations of 5thDean'sCommittees of ICAR/VCI/BSMA

6.4.1. Brief History of the Degree Programme:

The College of Agricultural Engineering and Post Harvest Technology (CAEPHT) was established on 20th May, 2006 as one of the constituent colleges of Central Agricultural University, Imphal, Manipur. It is situated at Ranipool, Gangtok on National Highway 10 connecting Siliguri in West Bengal to Gangtok, the capital of Sikkim State. The campus of college is spread over an area of 7.71 ha. The total campus is located in mostly hilly terrain and sloppy and valley land at an altitude of approximately 914.4 m. (3000 ft.) above the mean sea level. Two rivers, namely Rani-Khola and Basuk-Khola, touch the college boundary towards the east side while the national highway NH- 10 is towards the west side of college campus. The college building, situated in the terraces and valleys and surrounded by rivers, provide an ideal atmosphere for academic and research activities.

The CAEPHT, Ranipool, Gangtok, Sikkim imparts education in different branches of Agricultural Engineering. The College started its first academic programme i.e., 4-year B. Tech. (Agricultural Engineering) programme from academic session 2006-07 with intake capacity of 20 students. Afterwards, a new degree programme was initiated as B.Tech in Food Process Engineering during 2010 with with intake capacity of 19 students. As per the ICAR Policy, this Degree Programme was renamed as B.Tech in Food Technology during 2012 and this programme is running since then.

The course curriculum and syllabi of both the degree programme are based on the model academic regulations and syllabi as proposed by the 5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi. While designing curriculum, outmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers for emerging opportunities at national and international level.

At present 10+2+4 pattern which comprises Student READY programme (in summer break after semester IV: Skill Development Training-I for 05 weeks; in summer break after semester VI Skill Development Training-I for 05 weeks; in semester VII: Industrial attachment of 10 weeks, on campus Experience Learning for 10 weeks; in semester VIII: Project planning and Report Writing) is offered from the academic year 2016-17.

College started offering M.Tech.(FMPE) programme from 2013 in the department of FMPE andProcess and Food Engineeringwith an intake capacity of 3 students. In 2015-2016 the M Tech programme has been introduced in the department of Soil and Water Engineering. In the year 2017-18 the nomenclature of both the programmes has been changed to M.Tech. Soil and Water Conservation Engineering and M.Tech. Processing and Food Engineering. In the year 2016-17 the department of FMPE started PhD programme with an intake capacity of 2 followed by the department of PFE and SWCE with intake capacity of 1 in each department in the year 2017-18.From A.Y. 2019-20 two more M. Tech Programmes were started in Irrigation & Drainage Engineering and Renewable Energy Engineering.

Mandate of the Institution

The College of Agricultural Engg & PHT, Ranipool Gangtok Sikkim is a unique campus under the Central Agricultural University, Imphal with complete integration of all the three functions viz.; teaching, research and extension. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of agricultural engineering, not only in Sikkim but also in the entire North-Eastern Region. The college shall also endeavor to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. The mission and major objectives of the college are:

Mission

To train technical manpower, pursue high quality and high impact research, design and development of sustainable technologies/equipment related to agricultural engineering and disseminate the developed technology to the farmers' field/ agro- industries of NEH region of India.

Vision

In accordance with the vision of CAU, Imphal the vision of CAEPHT is to produce world class professionals who are equipped to meet the demands of global outfit, have analytical abilities and entrepreneurship for making career of self employment and as contributors, to livelihood and food/nutritional security.

Objectives

- To establish and develop excellent academic facilities for offering undergraduate and postgraduate education in discipline of agricultural engineering and post-harvest technology, appropriate to various states of NEH region in particular and country in general.
- To impart quality education so as to produce globally competitive graduates and post graduates in areas of agricultural engineering and post-harvest technology including inter disciplinary area so that confident and capable human resource, suitable for working as scientists, academics, managers, entrepreneurs etc., could be developed.
- To establish specialized research laboratories fitted with state of art machineries equipment and instruments for taking up basic and applied research by the scientists/teachers and post-graduate students and experiential learning facilities including pilot plants for 'hands – on training' of undergraduate students.
- To develop and demonstrate modern and mechanized farming system appropriate to NEH states which may help the farmers to improves their productivity and profitability while preserving and improving the environment.
- To develop need based improved agro-technologies and equipment for NEH region for household and on farm operations, post-harvest management and utilization of renewable sources of energy.

Accomplishments:

Performance of the students during 2010 to 2020 is given in Table 1.

Table 1: Database of Pass out students (UG) 2010-2020

Year	**No. of Student**	**Student undergo higher studies**		**Employment status**					
		State University/ National Institute	International Institute	State Department	Banking / Private Company / University	UPSC	Central Govt /ARS /Asst Professor	Entrepreneurs	Unemployed
2010	16 (AE)	04 (AE)	02 (AE)	08			01

6.4.4. Classrooms and Laboratories:

07 well-equipped classrooms for UG and 03 well-equipped classrooms for PG are made available with this college. There are 02 smart class rooms also for UG and PG Students. These are well equipped with audio-visual aids for effective teaching. Different department of this college also have well-equipped laboratories for conducting practical classes of the students. Since the laboratories are equipped with most of the instruments, it also enables staff of this college to carry out research.

Table: 6. Class room available

Class Room	Smart class room/interactive Board
UG 7 Nos.	Having Projector facility with Desktop
PG - 05 Nos.	--
English Lab (UG) .=01 nos.	Having Projector facility with Desktop
Smart Class Room (UG & PG) =-02	Having smartboard and interactive board
Total = 15	

Table: 7. Number of laboratories available

6.	***Basic Engineering and Applied Sciences***		
	03 Laboratory	225 m^2 133.48 m^2 53.4 m^2	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*

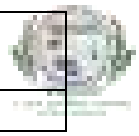
(d) Farm facilities, workshops and other instructional units:

Farm facilities

Table: 10. Farm facilities, workshops and other instructional units

Sl. No.	**Name of the Department**	**Farm Area (ha)**	**Irrigated / No irrigated (ha)**	**Crops grown**
1	Irrigation and Drainage Engineering	0.07	Irrigated	Cauliflower, Broccoli, Coriander,
2	Soil and Water Conservation Engineering (under AICRP On PET)	0.01 (under 4 green houses)	Irrigated	Cauliflower, Broccoli, Tomato, Onion, Garlic, Capsicum,

3	Renewable Energy Engineering	0.004	Irrigated	Tomato
4	Farm section	0.004	Irrigated	Flowers



Poly house and Shade nets

Table: 11.Poly house and Shade nets available area wise and crop details

Sl. No.	particulars	Total available numbers	Area (m2)	Crops grown
1	Polyhouse	07 (4 in AICRP PET, 1 in IDE, 1 in REE,1 under Farm section)	30 sq. m. to 120 sq. m	vegetable crops
2	Shadenet	02 under AICRP PET	10 sq. m.	Seedlings

Facilities available in farm section:

Table 12. Available Facilities to farm section

Sl. No.	Facility	Remarks
1	10hp motor	For supply and water pumping
2	Drip irrigation systems	For irrigation of land and polyhouses
3	Solar water pumping system with farm pond source	For supply and water pumping from farm pond and tanks
4	Water supply tanks	Water storage and supply

Diary Plant, water storage ponds, Farm equipment and Meteorological units:

Table 13. List of available facilities under Diary Plant, water storage ponds, Farm equipment and Meteorological units

Sl. No.	Particulars	Details	Remarks/ Area
1	Dairy Plant		
2	Vermicomposting	1 No.	For production of organic compost to field supply
3	Farm Equipment	Hand tools	Used by farm sections for farming and maintenance of campus
		Grass cutters	
		Utilize equipments from FMPE department	
4	Farm ponds/water tanks	1 farm pond SPV powered water pumping unit	For supply and water pumping from farm pond and tanks
		Water Tank – 2 Nos	Water storage and supply
5	Meteorological units	1 full-fledged Weather monitoring station (In Collaboration with ISRO)	Recording of weather conditions
6	Misc.	Pilot Plant for Milk Processing including Dairy Technology Lab, chiller unit, spray dryer	201.51 m^2

		unit & milk reception unit etc.	
		Pilot Plant for Fruits and Vegetable including Cottage scale soya paneer plant	124.03 m^2
		Multi stage evaporator with aroma recovery system	20.9m^2
		Shed for Feed and Fodder crusher and seed processing unit etc	119.66 m^2
		Mini Rice Mill	148.65m^2
		Farmer's Produce Processing cum Skill Development Centre	Area 265.26 m^2) (consisting of Ginger & Turmeric Processing Plant – Area 72 m^2, Unit of Minimal Processing of Fruits and Vegetable– Area 17.84m^2, Bakery unit– Area 23.78m^2, Noodles unit– Area17.84 m^2, Potato Chips unit –Area 17.84 m^2, store–Area 25.65 m^2, kitchen –Area 17.84 m^2, class room–Area 27.87 m^2, training hall –Area 44.6 m^2)

Farm Workshop cum Vehicle shed

Table 14. Details of Farm workshop, Implement shed and vehicle shed

Facility	Particulars	Remarks
Farm Workshop	1	The workshop of college is used for fabrication and repairing of farm tools and equipment
Implement shed	1	Farm implements are placed in the Farm Machinery department passage and used by farm section on need basis.
Vehicle shed	0	As such vehicle shed is not available. Vehicles are parked on free space available near college workshop and parking space allotted for various vehicles.

(f) Theory and practical batches for the Degree Programme: The number of intake students is manageable due to limited number of seats.

Table 15: Average number of students in theory and practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical
1.	B. Tech. (Ag. Engg.)	Full strength	2 batches of equal strength

The class rooms and laboratories are sufficient to meet course curricula requirement of the degree programme.

6.4.5. Conduct of Practical and Hands-On-Training:

The College of Agricultural Engineering and Post Harvest Technology is equipped well with different laboratories and equipments specified as per 5th Dean Syllabus and mentioned in 6.4.4. The conduction of practical courses for Undergraduate, Post-Graduate and Ph.D. is carried out through actual on-field and laboratory experimentation as per credits allotted to the specified courses and hands on training. Practical and Hands on training are carried out as per the syllabus of 5th DEAN committee. The Student Ready Programme for B. Tech (Agricultural Engineering) is performed as per the guidelines provided by the ICAR.

The practical of courses for B. Tech (Agricultural Engineering) is carried out in the laboratories and fields fully equipped with desired instrumentation and facilities. Student practical are conducted as per batches divided based on strength of admitted candidates and as per academic schedule. Students are allowed to perform practical after proper demonstration and skill presentation with precautionary measures. The laboratories and facilities for practical and hands-on-training are fully equipped with number of instruments allowing each individual student to perform practical.

The students of Agricultural Engineering discipline undergo Two five weeks Skill Development Trainings under Hands-on-training after IV and VI semester. The industrial attachment training for 10 weeks and Experiential Learning on campus programme of 12 weeks is carried out in VII semester. The requisite facilities for conduction of experiential learning programme are provided to students to practically fulfill programme requirements and achieve desired skills. Within VIII semester students perform 12 Weeks Project planning and report writing as per ICAR guidelines. The facilities for project are provided to the students as per requirement.

Students have undergone the hands on training for the skill development during the training programme to make them fit for demonstrating the responsibilities effectively in the professional career. During the training students developed the skill in the field of farm machinery training and testing, repair and maintenance, renewable energy, soil and water conservation, design structures, Irrigation and water management, food processing & value addition, post-harvest management etc.

6.4.6 Supervision of students in UG/PG / Ph. D Programmes:

(number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

This college have started PG programs in 2013 onwards and Ph. D. from 2016 onwards. Currently all departments are running PG programs and 3 departments are having PhD program.

Table. 18a) Number of PG/PhD students passed out till Academic year 2019-20

S. No	Degree	Discipline wise	Total
1	M. Tech. (Agril. Engg.)	FMPE- 5 SWCE- 6 PFE-6	17
2	PhD (Agril. Engg.)	0	0

Table. 18 b) Number of faculty eligible for PG and PhD supervision department wise

S. No	Degree	Department	Intake	Qualified faculty
1	M. Tech. (Agril. Engg.)	FMPE	3+2*	4
		SWCE	3+2*	4
		PFE	3+2*	4
		IDE	2+1#	4

		REE	2+1#	3
2	PhD (Agril. Engg.)	FMPE	2	3
		SWCE	2	2
		PFE	2	2
		IDE	0	2
		REE	0	1

**ICAR Quota (Currently available)*

 # ICAR Quota from CAU, Imphal allotted, Programmes will be opting for accreditation once first batch is passed out)

6.4.7.Feedback of stakeholders:(Students, Parents, Industries, Employers, Farmers *etc*.)

This college has kept suggestion and complaints box in college premises. Regular counseling meetings are organized and in emergency parents are also participated for the personality developments of students. This college has provided an excellent platform and infrastructure to establish rapport between students and teachers. The farmers, entrepreneurs and trainees from various Government, Private and public sector units, stakeholders and unemployed youth coming to various programme provide feedbacks through open platform available at programmes, through feedback books, emails, WhatsApp and available platforms. These feedbacks are taken righteously and proper discussion and action is taken by concerned persons and college authorities time to time.

6.4.8. Student intake and attrition in the programme for the last five years

Table: 19. Student intake and attrition in the programme for the five years

Name of the Degree Programme	Actual students admitted in last five years					Attrition (%)				
	2015-16	2016-17	2017-18	2018-19	2019-20	2015-16	2016-17	2017-18	2018-19	2019-20
B. Tech (Agril. Engg.)	30	40	36	33	39	3.33	2.5	8.33	0	12.82
B. Tech (Food Technology)	11	09	09	9	10	15	22.2	11.11	18.18	10
M. Tech (FMPE)	01	0	02	03	2	0	0	0	0	0
M. Tech (SWCE)	03	01	02	05	2	0	0	0	0	0
M. Tech (PFE)	02	02	02	04	2	0	0	0	0	0
M. Tech (IDE)	NA	NA	NA	NA	1	0	0	0	0	0
M. Tech (REE)	NA	NA	NA	NA	1	0	0	0	0	0
Ph.D. (FMPE)	-	1	-	1	2	0	0	0	0	0
Ph.D. (SWCE)	-	-	-	1	0	0	0	0	0	0

Ph.D. (PFE)	-	-	1	1	1	0	0	0	0	0

6.4.9. ICT Application in curricula delivery:

- **Interactive whiteboards and touch based computer system:**

The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) Computer Laboratory, under Central Agricultural University (CAU), Imphal, is well-equipped with 2 smart classrooms having facilities of Interactive whiteboards for conduction of online lectures and smartboard allows projection of images, manipulation of images, dragging, clicking and copying of matter. Simultaneously Teacher is availed with facility to provide handwritten notes on board and same can be saved for later use.

- **Computer facilities:**

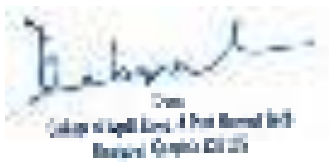
The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) Computer Laboratory, under Central Agricultural University (CAU), Imphal, is well-equipped with 20 computersfor computing facilities to all the students of the college, teaching and non-teaching staff members along with Internet connectivity.It also provides Internet facilities to all teaching staff, administrative staff and all students of the college. There are approximately more than 300 users who are availing the Internet and computing facilities.The Computer Centre supports a wide 1000 Mbps fiber optic network (OFN) that connects all the academic units, hostels, library, dispensary, residence and other central facilities to the Computer Centre. Users can use the computing resources of Computer Center from their offices, academics unit, hostels and residences. Login is provided to all the students, faculty and staff members for Internet browsing. Besides, Wi-Fi facility is provided to boys' hostel, girls' hostel, ATIC Building, guest house, dispensary, VC camp, and Dean's residence. LAN is provided through optical fiber connection in North Academic building, South Academic building, new girls' hostel, auditorium, staff quarter, medical unit and Farmers Produce Processing cum Skill Development Centre. The network Security is Provided through UTM/Firewall.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for UG programme *i.e.,* B.Tech.(Agricultural Engineering) of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate

I,Parmendra Prasad Dabral, the **Dean, College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim** hereby certify that the information contained in Sections 6.4.1 to 6.4.9 are furnished as per the record available in the college and degree awarding university.



(P. P. Dabral)

Dean

6.4. SELF STUDY REPORT FOR DEGREE PROGRAMME

6.4.1 Brief History of Degree Programme

Keeping in view the high potential of applications of agricultural engineering and post-harvest technological interventions in improving the agricultural scenario of NEH region and to address to the issues of shortage of trained human resource in this discipline, the College of Agricultural Engineering and Post Harvest Technology (CAEPHT) was established in May 2006 by Central Agricultural University (CAU), Imphal at Ranipool, Gangtok (Sikkim). In the first batch, 20 students were admitted in B.Tech. (Agril. Engg.) Programme, at the time of establishment in 2006. The college has marched ahead to offer two B.Tech. (Agri. Engg.&Food Tech.), five M.Tech. (Farm Power & Machinery, Soil & Water Engg., Processing& Food Engg., Irrigation and Drainage Engineering and Renewable Energy Engineering) and three Ph. D. (Farm Power & Machinery, Soil & Water Engg. and Processing & Food Engg.) degree programme.

Initially only one Degree Programme i.e. B.Tech. in Agricultural Engineering was running in the college. During the initial stages of the college a need was felt for the development of scientific man power in the area of Food Technology for NEH. To fulfill this need another area of Food Technology was aided. A new Degree Programme was initiated as B.Tech. in Food Process Engineering during 2010 with 19 students. As per the ICAR Policy, this Degree Programme was renamed as B.Tech.in Food Technology during 2012 and this programme is running since then.

At B.Tech level, students are admitted only from all the State of NEH. Few seats are filled on all India bases through ICAR quota. The quota of various States is fixed. The State Governments recommend students (on the basis of competitive examinations within their state) for admission. Similarly ICAR nominate (on the basis of all India competitive examination) students for their quota. The intake capacity, number of students admitted, number of students graduated number of fellowship received by the students in various academic years are given in following two tables.

Student Intake and passed out

1. UG (B. Tech. (Food Technology)

Sl. No.	Year	Intake capacity	No. of Student Admitted	No. of Student Graduated	No. of Students receiving NTS during the academic year (First year to final year)	No. of Students receiving Univ. Merit Scholarship/ Univ. Institutional Fellowship	Any other Scholarships during the academic year (First year to final year)
1.	2015-16	20	09	05	12	03	-

							Scholarship

The total no. of students of B.Tech.Food Technology (1st year, 2nd year, 3rd year & 4th year) available during various academic yearsis given below.

Year	1st	2nd	3rd	4th	Total no of student	Total scholarship
2015-16	14	06	09	07	36	15
2016-17	09	11	06	09	35	05
2017-18	10	6	10	6	32	14
2018-19	09	10	06	10	35	19
2019-20	12	07	09	05	33	12

6.4.2 Faculty Strength

College of Agricultural Engineering and Post Harvest Technology (CAEPHT) offer B. Tech Food Technology in addition to B. Tech. Agricultural Engineering program. **There is no separate sanctioned faculty strength and staff for the programme. Hence, all the departments, faculty and laboratories as required for a separate college under fifth deans' committee recommendations are not available. However, the faculties, laboratories and other facilities of CAEPHT are being utilized for smooth running of B. Tech., Food Technology program.**

Strength of Faculty members involved in teaching and guiding the students of B.Tech.(Food Technology) during 2015-2020are as follows:

Sl. No.	Faculty associated with Food Technology programme	Permanent	Guest faculty	Total
1.	Professor	2	1(on contract) 1(as guest)	4
2.	Associate Professor	2	1(as guest)	3
3.	Assistant Professor	22	2(as guest) 3 (sister organization-COH) 3 (on Contract)	30

** All the faculty were assigned the responsibility for the multiple programme (Bachelor level, PG level and Ph. D Levels)

6.4.3 Technical and Supporting Staff

The college is employing staff as per the recommendations of various Dean's Committee. All the Technical, Supporting, Administrative and Ministerial Staffs are **having responsibilities for multiple programs (B.Tech, M.Tech and Ph.D.)**. Along with the various teaching facilities the college is also having **well furnished/ equipped and well staffed**, separate hostels (including Mess) for Boys and Girls, Medical Unit (including one Medical Officer, Pharmacist, Male and Female Nurses), Gymnasium in Boys and Girls Hostel, Sports facilities (Indoor within the college and Outdoor in collaboration with Sikkim Government School/College) , Guest House, Canteen, Auditorium, Mini Auditorium, ATIC, Library, Farmers Produce Processing cum Skill Development Centre, Business Incubator, Academic Unit, Audit & Account Unit, Establishment Unit, Purchase Unit, Vehicle section (including one Big Bus , one Mini Bus, two trucks, one jeep and one Ambulance), Estate Section,

Security section, parking space, separate toilets(for ladies and gents) within the buildings and outside the buildings etc. All these facilities are available to the students. The hostels are managed by wardens (one male Professor for Boys Hostel and one female professor for Girls Hostel). There are facilities for Yoga and Meditation, Self Defence etc. A student welfare Officer had guided and helped the students during the period under report. Various laboratory/facilities are having one Field-cum-Lab Assistant and Multi-Tasking Staff. There are various outside funded projects including four All India Coordinated Research Projects & one Farm Machinery Testing Centre. Many University projects are also running in the various departments of the college. In these projects many technical personals and Multi Tasking staff are also working. Similarly many technical and supporting staffs are working in the college on contract. All these staff/ man power are available to the students during course of their Practical Work and Project Work.

6.4.4 Classrooms and Laboratories

There are four classrooms, which are exclusively being used by the students of B.Tech (Food Technology).The smart class room facility (consisting of interactive board, Wi-Fi, PA speaker and sound system, podium, projector etc.) is also being utilized by the students of Food Technology. There are various labs which are being utilized by various UG, PG & Ph.D. Programs. These labs are well equipped as per the recommendations of various Dean's Committee. The details are given below.

Sl. No.	Name of the Laboratory
1.	**Food Engineering laboratory** (consisting of Food Process Technology unit and Food Product Development unit)(Area- 228.28m^2)
2.	**Process Engineering laboratory** (consisting of unit operation lab, packaging unit etc.)(Area- 92.77m^2)
3.	**Food Analysis laboratory** (consisting of Food Rheology and sensory unit, Food Bio-Technology unit and Food Analytics unit etc.) (Area-93.24 m^2)
4.	**Agricultural Structures & Environmental Control Laboratory Engineering laboratory**(consisting of Heat, Mass & Refrigeration – Air Conditioning Unit)(Area- 80.71 m^2)
5.	**Pilot Plant for Milk& Milk Product Processing**including Dairy Technology Lab(Area-201.51m^2)
6.	**Pilot Plant for Fruits and Vegetable**including Cottage scale soya paneer plant(Area-124.03 m^2)
7.	**Multi stage evaporator with aroma recovery system**(Area-20.9m^2)
8.	**Shed for Feed and Fodder crusher and seed processing unit** etc.(119.66 m^2)
9.	**Mini Rice Mill**(Area 148.65m^2)
10.	**Farmer's Produce Processing cum Skill Development Centre**(Area 265.26 m^2) (consisting of Ginger & Turmeric Processing Plant – Area 72 m^2, Unit of Minimal Processing of Fruits and Vegetable– Area 17.84m^2, Bakery unit– Area 23.78m^2, Noodles unit– Area17.84 m^2, Potato Chips unit–Area 17.84 m^2, store– Area 25.65 m^2, kitchen –Area 17.84 m^2, class room–Area 27.87 m^2, training hall –Area 44.6 m^2)
11.	**Biochemistry Lab**
12.	**Microbiology Lab**
13.	**Thermodynamics & Heat Engg. Lab**
14.	**Irrigation Drainage & Fluid Mechanics lab**

15.	**Electrical , Electronics Engineering Instrumentation & Process Control Lab**
16.	**Engineering Drawing Lab**
17.	**Workshop**
18.	**Computer Lab**
19.	**Language Lab (Under development)**
20.	**ATIC including Technology Transfer Lab**

Major Equipment in Processing & Food Engineering Department

- Steam Distillation set up
- Fruit pulper
- Feed mixer (planatory mixer,
- planatory mixer (vacuum jacketed), planatory mixer (heating jacketed), double cone mixer, Blender SVB, Cube Mixer, Lab Kneader, Powder Mixer, Agitator, Drum Hoop Mixer-SDHM, Lab mass mixer SLMM, horizontal main drive SHMD-A.C., Universal Gear)
- Coconut tree climber
- Coconut dehusker
- Pasta Extruder
- Essential Oil distillation Unit
  - Solid Liquid Extraction unit
  - Steam Distillation Set up
  - Simple batch distillation unit
- Refrigerated centrifuge with
- Micro processor
- Rotary vacuum filter & Leaf Filter
- Refrigerated centrifuge CPR 24
- Plate heat exchanger
- Usha make Gerber Centrifuge
- Usha make centrifuge separator
- Vegetable Blancher
- Vacuum Tray Dryer
- General cycle refrigeration trainer
- Heat transfer through lagged pipe apparatus
- Heat transfer through composite walls apparatus
- Mechanical heat pump trainer
- Plate type heat exchanger
- Recirculation type air conditioning trainer
- Vacuum Packaging Machine
- Steam Jacketed cooking kettle
- Butter churn
- Vacuum oven
- Vacuum Tray Dryer
- Laboratory Pasteurizer
- Shrink Packaging Machine Model-CP-2030
- Laboratory homogenizer
- Micro Pulverizer (hammer mill)
- Feed and Fodder crusher
- Feed Block Formation Machine
- Food Extruder
- Fruit and Vegetable Juice and
- paste Processing Plant
- Boerner conical divider
- Bucket elevator
- Multipurpose grain mill
- Super critical fluid extraction unit
- Foot Sealer
- Fermenter
- Hand sealer
- Electronics Grain Moisture Meter
- Angle of Repose apparatus
- Digital Humidity Sensor and Indicator
- Hot Air Oven
- Electronic weighing balance (2.2kg)
- Electronic weighing balance ZSP-350 (300g)
- Digital balance model –(A-224) make Contech Capacity-220gm
- Digital Precision Electronic Balance
- Apparatus for thermal conductivity of insulating powder
- Convection apparatus (natural)
- Convection apparatus (forced)
- Concentric tube heat exchanger

- Stefan Boltzmann apparatus
- Thermal conductivity of insulating slabs by guarded hot plate method
- Thermal conductivity of insulating powder
- Micrometer Precise Thickness
- Shrink Wrapping Machine
- Aspirator/ Cyclone Separator
- Automatic Foam Fill Seal packaging Machine
- Rubber Roll Sheller
- Rice Whitener/Polisher
- Indented Cylinder Grader/ Separator
- Vibratory Screen Grader
- Freeze Dryer
- Food texture analyzer
- Rapid visco analyzer
- BOD Incubator with shaker
- Automatic Fibre Extraction system
- Digital Refractrometer PAL
- Laminar Flow
- Fruit and Vegetable Plant
- Milk Processing Plant
- Multi stage evaporator with aroma recovery system
- Cottage scale soya paneer plant
- Seed processing plant
- Modern rice mill (0.5 t/h capacity)
- Mini Dal Mill
- Milk analyzer Master Clasic
- Oxygen and CO_2 Headspace Gas analyzer plus Flexible packaging kit
- Microwave oven
- Water Bath
- Laboratory Spray Dryer
- Cream Separator
- Freeze Drier
- Digital Satorious Infra-red Moisture Meter
- pH meter
- Chroma meter
- Autoclave

(finned tube type)

- Concentric tube heat exchanger (plain tube type)
- Emissivity measurement apparatus
- Digital temperature meter
- Electronics Socs Plus Automatic Three Place Solvent Extraction Apparatus (Soxlet)
- Microscope-Ex-21 set Binocular Brand-OLYMPUS
- Viscometer
- Usha Make Centrifuge Separator
- Usha Make Gerber Centrifuge (2nos)
- Water Activity Meter
- Samsung Freeze with stand
- Water Purification System
- Ginger Washing Machine
- Vegetable Cutting Machine
- Spice processing plant
  - Ginger /Turmeric peeler cum polisher
  - Garlic Bulb Breaking Machine
  - Garlic Clove Flaking Machine
- Ginger Processing Machine (Complete Unit)
- Turmeric Grinder
- Potato Slicer
- Vegetable Washing Machine
- Complete unit of Potato Chips Machine
- Complete Unit of Biscuits Making Machine
- Complete Unit of Noodle Making Machine
- Ginger Paste and Powder Making Machine
- OTG Oven

6.4.5 Conduct of Practical and Hands on Training

Theory and Practical batches for the Degree Programme

There are manageable number of students (Maximum 22)who are kept in one batch during Theory & Practical classes to ensure better delivery of information, encourage students' participation and active monitoring.**We have provided practical as well as hands on training to students of various other universities, such as Sikkim University, CAU(COFT, COH), NIFTEM, Mizoram University etc. also.**

Year	B.Tech. (Processing and Food Engineering)	
	Batch of students in theory class	Batch of students in practical class
2015-16	05	05
2016-17	07	07
2017-18	09	09
2018-19	06	06
2019-20	10	10
2020-21	05	05

Short duration training/visit

During the course of study students also visited the following industries for short duration training.

- FCI Go Down, Sikkim
- Yuksom Breweries ltd, Sikkim
- CG Foods India Pvt. Ltd., Sikkim
- Tripti's Bakery, Sikkim
- Temi Tea Estate, Sikkim

Study Tour

Under student ready program in VIII Semester students were deputed for Study Tour (two – three weeks).Earlier all the students during course of their study used to undertake study tour twice (two to three weeks duration each time), one to NEH region and one to All India.The tour to NEH region was stopped after implementation of 5th Dean's committee. Now students are going only on All India Study Tour. However, due to covid-19 the tour couldn't be undertaken during 2020-21. The details of various tours undertaken by the students are given below.

NE Study Tour

Year	Places visited
2016-17	• NEHARI (Brahmputra board), Guwahati • IIT, Guwahati • IICPT, Guwahati • CPGS-CAU, Barapani • ICAR Research Complex for NE Region, Umiam, Barapani • NEHU, Shillong • Don Bosco Centre for Indigenous cultures (Agricultural gallery) • CPRI, Shillong • Tezpur University, Tezpur • NERIWALM, Tezpur • FMTTI, Biswanath Chariali
2017-18	• CPGS-CAU, Barapani • ICAR Research Complex for NE Region, Umiam, Barapani • Meterological station, Sohra, Meghalaya • NEHU, Shillong • CPRI, Shillong • Don Bosco Centre for Indigenous cultures (Agricultural gallery)

	• CAU, Imphal • Krishi Vigyan Kendra, Research farm, Andro, Imphal • Thangjam Agro Industry Pvt. Ltd.(Food processing unit), Imphal • Nilkuthi Fod Park .(Food processing unit), Imphal • Multi crop cold storage, Ukhrul, Manipur • Loktak Downstream Hydroelectric corporation ltd, Manipur • NEHARI (Brahmputra board), Guwahati • IIFPT, Guwahati • Annapurna group industry (Food processing unit), Guwahati

All India Study Tour

Year	Places visited
2016-17	• NIRJAFT (National Institute of Research on Jute and Fibre Technology, Kolkata) • CIFE (Central Institute for Fisheries Education), Versova, Mumbai • M/s Jain Irrigation Systems Ltd. Jalgaon, Maharashtra • CIRCOT (Central Institute for Research on Cotton Technology), Mumbai • Tractor Division Mahindra & Mahindra Ltd., Worli, Mumbai • ICAR- Central Coastal Agricultural Research Institute, Goa • M/s. Sagar Feeds and food processing industry, Cuncolim, Goa • M/s Nestle India Ltd., Goa • Hindustan Foods, Usgaon, Ponda, Goa
2017-18	• PJ Telangana State Agriculture University, Hyderabad • Central Research Institute for dry land agriculture, Hyderabad • Directorate of Rice Research, Rajendra nagar, Hyderabad • CIFE (Central Institute for Fisheries Education), Versova, Mumbai • Tractor Division Mahindra & Mahindra Ltd., Worli, Mumbai • Central Coastal Agricultural Research Institute, Goa • Krishi Vigyan Kendra, Panjim, Goa • Botanical Garden, Goa
2018-19	• NIRJAFT (National Institute of Research on Jute and Fibre Technology, Kolkata) • Agricultural and Food Engineering Department of IIT Kharagpur • M/s Jain Irrigation Systems Ltd. Jalgaon, Maharashtra • CIRCOT (Central Institute for Research on Cotton Technology), Mumbai • ICAR- Central Coastal Agricultural Research Institute, Goa
2019-20	• CIFT (Central Institute of Fisheries Technology), Andhra Pradesh • CMFRI ((Central Marine Fisheries Research Institute), Andhra Pradesh • ICAR- IIOR, Rajendranagar, Hyderabad • PJ Telangana State Agriculture University, Hyderabad • CIFE (Central Institute for Fisheries Education), Versova, Mumbai • CIRCOT (Central Institute for Research on Cotton Technology), Mumbai • Mumbai Veterinary College, Mumbai • CSMT, Mumbai • National Library, Kolkata

Conduct of the hands on training under STUDENT READY programme
Within the Country

A. Hand on training within the college

Under student ready program in VII semester students of B.Tech. (Food Technology) are being provided hands on training (**Skill Development/In-plant training**) in the following pilot plants.

- Milk & Milk Product Processing plant
- Fruit and vegetable processing plant
- Farmers Produce Processing cum Skill Development Centre
- Rice Mill

B. Hands on training outside the college

a) Research institute

i) Under student ready program in VIII Semester students were deputed to **CSIR-Central Food Technological Research Institute, Mysore (In-plant/Skill Development II for 13 weeks in Semester VIII)** for working in their various research projects. Few students undertook training at College of Agriculture Imphal, Manipur.

ii) Under summer training programme students used to be deputed to Institutions of higher learning and various industries. During 2015 students were deputed to Indian Institute Technology, Kharagpur, for their training.

b) Industries

Under student ready program, students were also deputed to the following industries for In-plant training in Semester VIII,related to milk processing and product development, fruits & vegetable processing and their products, spices processing and their products etc.

- Sikkim Milk Union Ltd., Sikkim
- Govt. Fruit Preservation factory (Sikkim Supreme), Sikkim
- Zydus healthcare pvt. Ltd., Sikkim
- Mehsana Dairy & Food Products ltd, Mehsana, Gujrat

Considering the input/work of the students two industries namely Govt. Fruit Preservation factory (Sikkim Supreme), Sikkim & Zydus healthcare pvt. Ltd., Sikkim has paid students a handsome amount.

6.4.6 Supervision of Students

There is a provision of advisory systems for Undergraduate degree programme. TheDean of the college nominates a teacher as the advisor for a group of 5-10 students within 10days of the admission. The advisor once nominated continues till the concerned studentscomplete their degree programme. The advisor explains students about various academicregulations and guides them in planning their academic programme. The meeting ofindividual advisory group of the UG students under each teacher is conducted for one hour inevery week by the advisor. Combined meeting of all advisory groups of individualdepartments is conducted by HOD once in two months. Combined meeting of all advisorygroups of all departments is conducted by Dean in each semester.

All the students of B.Tech. (Food Technology) are given project work for one semester. During this project work they are allotted a guide/supervisor and a topic for research work. After completion of the research work they analyze the data and submit the report. They make a presentation also on the work carried out by them.

6.4.7 Feedback of Stake Holders

In our University most of the faculty members are made Advisor of about 10 students. There has to be at least one meeting(mostly on Saturday) of the students with their Advisors. Students raised their various problems (academic, personal etc.) with the Advisor. The Advisors helped the students to solve their problem. In case, help of some particular faculty member/ staff/ Dean were needed, Advisors took their help and solved the problem.

There was / is a register with the Student Welfare Officer of the College, in which any student can raise their problems (related to academic, hostels etc.). The Student Welfare Officer brought the problem to the notice of the Dean of the College. Dean discussed the issue with the Student/ Group of Students/faculties/officials and took remedial measures.

For example fourteen complaints were received on 10/08/16. Most of the complaints were regarding repair of electrical items and civil work in Hostels which was promptly attended by AE (Civil) and JE (Electrical). Few problems were related to Wi-fi lan etc. which was tackled by computer operator. There was a suggestion regarding digitalization of library which was already in progress. On 22/0/16 a complaint was received regarding issue of identitycard which was immediately attended. On 21/10/16 complaints were received regarding practical of two courses. Chemicals etc were purchased and practical were completed within a week. On 08/12/16 a complaint was received regarding water purifier in Girl's Hostel which was attended and rectified in due course of time. On 24/03/18 a complaint was received regarding non- working of lan in New Girl's Hostel which was immediately attended by computer operator. During Farewell of the final year students they sometimes raised the problem faced by them during their stay of four years in the college. After knowing their problems Dean and Faculty tried to implement their suggestions. In every Semester there was a meeting of Dean with representative of Students to discuss their problems related to teaching, hostels, etc. Generally Students raised their issue which used to be discussed in the meeting. The issues which can be solved at the College level were settled in the College itself. The issues which needed the attention of the Vice-Chancellor weresent to him for satisfactory solution.

CAU organized Agricultural Fair every year in various states of NEH. During these fair many parents visited these fairs. Many times parents also visited the college or talked to various officials over phone. During these visits and discussions they appreciate the facilities and academic atmosphere of the college. Sometimes they also made various suggestions. Many times college implemented these suggestions. Every Year College also organized Technology Demonstration Mela / Farmers' Agriculture Fair. Many farmers of NEH region visited these Mela /Fair. During their visit interaction between various faculties and farmers were held and we got their opinion regarding various academic works, hostels and other facilities of the college**.**

Extension council meeting of the college and University were regularly held every year. During these meeting, progressive farmers, members of FPO, members of SHG, state government officials, entrepreneurs etc. participated and gave their feedbacks and suggestion.

During hands on training students interacted with various industries. During discussion of owners/ officials of these industries with various faculty members they appreciated the theoretical, practical knowledge and hard work of the students.**Govt. Fruit Preservation Factory (Sikkim Supreme) and Zydus Healthcare Pvt. Ltd., Sikkim have paid students a handsome amount during their hands on training.** During their hands on training students interacted/ worked with entrepreneurs, farmers, FPO, SHG etc. During discussion with the faculty members these people appreciated the help, knowledge and hard work of the students.

A brain storming session was held in Dec 2020 at CAEPHT, Sikkim to discuss and finalize the researchable issues related to Post Harvest Technology for Central Agricultural University. All the faculty member of various colleges and KVK related to Post Harvest Technology participated in this session. **Two expert's namely Dr. Suvendu Bhattacharya, Professor, ACSIR & Chief Scoientist (Retd.), Central Food Technological Research Institute, Mysore, and Dr. Abhijit Kar, Principal**

Scientist, Division of Food Science & Post Harvest Technology, Indian Agricultural Research Institute, New Delhi, also participated in this session. Their suggestions have been incorporated.

6.4.8 Student Intake and Attrition in the Programme for Last FiveYears

In our university admission is given to the students of NEH region. The Quota for various states of NEH and ICAR are fixed. Various State Governments and ICAR take competitive examination and nominate selected candidate for admission in CAU. We have to admit these students if they are fulfilling the eligibility requirements.

State Wise Quota for B.Tech. (Food Technology)

State	Arunachal Pradesh	Manipur	Meghalaya	Mizoram	Nagaland	Sikkim	Tripura	ICAR	Total
No. of students	02	04	02	02	02	03	04	03	22

Name of Degree programme	Actual student admitted in last five years						Attrition (%)					
	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21
B. Tech. (Food Tech.)	9	09	09	09	10	09	41	41	41	41	45	41

6.4.9 ICT application in curricula delivery

College is having a well equipped Computer Lab with Internet LAN Connection, 10 KVA UPS, 20 Computers. All the six departments and various externally funded Projects are having Computer facilities which were usedfor teaching, practical, project work analysis etc of students. The college is having a system (e- collection) through which students deposited their fees etc. online itself. All the funds either from the University or from various funding agencies for various outside funded projects were/are deposited in the college account through Public Finance Management System. Wi-Fi availability and internet services are available in the whole campus (Academic buildings including class rooms, hostels, residential colony).

Our Library is having more than 7832 Books for use by the Students. It is also having various facilities where student can go through various Journals, Books etc. online either in the Library or Class Rooms or Departments or in their Hostel rooms etc. The Library provides Circulation and reference services. All the in-house operations of the Library are fully computerized using the network version of the library software KOHA with web OPAC (Online Public Access Catalogue) facilities. The library has also access to online e-journals through CERA (Consortium for e-Resources in Agriculture) and IP address has been activated to access the online journals through CERA in entire CAEPHT Campus. Plagiarism check for M.Tech & Ph.D. thesis was/is done through Ant plagiarism software URKUND in library. Photocopying & Printing facilities are also available in the library.Students used all these facilities during the period under report.

Furthermore, occasionally college organized various courses on Computer programming and on their use. During 2015-16 a course on Computer Aided Design was organized for the students. Er. B. K. Garg, Retired Principal Scientist, Central Institute of Agricultural Engineering, Bhopal

coordinated this training. For data analysis students used software viz., Design Expert, Origin etc. related to statistical analysis. Use of CATIA software by students for 3D modeling and design of processing equipment was very useful for them.

Workshop on 'Online Safety: social surfing 30' was organized on 18.11.17. There were/are many videos on various topics related to various subjects and machines. These videos are prepared by faculties of renowned organization such as Indian Institute of Technology. Our faculties have also prepared many videos, presentations (slide with audio). These videos (mostly available in YouTube) are being used by various faculty members for teaching various courses.

In view of the above it is clear that Degree programme in B.Tech (Food Technology) is meeting the expectations of ICT application in curricula delivery.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for UG programme *i.e.,* **B.Tech (Food Technology)** of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12

CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

6.4. SELF STUDY REPORT FOR POST GRADUATEDEGREE NPROGRAMME

6.4.1 Brief History of the M.Tech (Farm Machinery and Power Engineering) Degree Programme

Background Information

College of Agricultural Engineering & Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal) to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, pertaining to natural resource management, farm mechanization, post-harvest technology, processing & value addition, utilization of renewable sources of energy, creation of agro-industries etc. in the region.

The department of Farm Machinery and Power Engineering (FMPE)started M.Tech. program in Farm Machinery and Power Engineering in 2013 with an initial intake capacity of three students, which was later increased to five students. The activity of the department pertains to the areas of small farm mechanization, conservation agriculture machineries, soil dynamics in tillage and traction, ergonomics and safety in farm machinery, effective utilization of animal energy and testing of farm equipment. FMPE department gives exposures about different aspects of farm machinery design, computer aided design, ergonomics study, soil dynamics study and conservation agriculture machineries.

The Department of Farm Machinery and Power Engineeringis mainly engaged in teaching to under graduate, post graduate and Ph.D. students. The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers and entrepreneurs. The faculty of the department has completed 01Extra Mural Research Project and 8 Intra Mural Research Project.The Department of Farm Machinery and Power Engineering is having three All India Coordinated Research Projects since 2009 namely Farm Implements and Machinery, Ergonomics and safety in Agriculture and Utilization of Animal Energy. The department has also established a farm machinery testing center in 2012 to cater to the need of manufacturers for testing of farm machineries in the region.

To date, 7 students have completed post- graduation from the department and 05 students are presently undergoing their M Tech (Agri Engg) with specialization in Farm Machinery and Power Engineeringin the department. The department also hosted one international student for M.Tech. program in 2017-19.

FMPE department is having Farm Machinery, Farm Power, Soil Dynamics, Testing, Ergonomics, Theory of Machine and Thermodynamics laboratories provide practical knowledge to the students and also to demonstrate and organize training to farmers and field engineers, entrepreneurs etc. The department also has a well equipped mechanical workshop to cater to the need of PG research of the department as well as college. The Workshop is also sued for imparting practical training to UG students as well as trainees. The resources of the AICRPs of the department are helpful in the conduct of PG research.

Sl. No.	Name of the Post	No. of Post	Actual Filled
1	Field cum Lab Assistant	3	3
2	Technician (T1)	8	8
3	Technician (T2)	1	1
4	MTS	2	2
Total		**14**	**14**

6.4.4 Classrooms & Laboratory

Classrooms

Sl. No.	Class room No.	Area (sq. m)	Seating capacity	Other facilities (LCD, Projectors, Computers, Smart board etc.)
1.	PG classroom 1	14.00	8	Whiteboard, Chairs

The department has one LCD projector which is used by the faculty for delivering lectures and seminars

Laboratory

The Department of Farm Machinery and Power Engineering has7 laboratories and one workshop to

carry out UG/ PG practical as well as PG research. All the laboratories are well equipped with all facilities to carry outresearch.

(a) Details of Laboratories available

Sl. No.	Name of laboratory	Area (Sq m)	Remarks
1	Farm Machinery Laboratory	90	Well-equipped will all necessary equipment to conduct hands on training and practical classes for the UG students. The laboratories are also equipped with up-to-date equipment which are useful for the research activities. The lists of the equipment available are given below.
2	Farm Power Laboratory	128	
3	Ergonomics And Safety Laboratory	135	
4	Soil Dynamics Laboratory	160	
5	Farm Machinery Testing Laboratory	40	
6	Thermodynamics and Heat Engine Laboratory	17	
7	Theory Of Machine Laboratory	17	
8	Workshop	323	

(b) Lists major Equipments:

The laboratories are well equipped to conduct the practical/hands on training to the students and carry out PG research. The lists of instruments/ equipments available in the laboratories are furnished below.

Table 7: List of major equipment in department of Farm Machinery and Power Engineering

1. Farm Machinery Laboratory
1. Multi Crop Thresher, Self Propelled Vertical Conveyor reaper, T/D inclined plate planter 2. Pedal cum power operated cleaner and grader 3. Rigid tyne 4. ted thresher 5. Power operated wire-loop thresher with winnower 6. Small power paddy thresher (hold-on type) 7. Small power paddy thresher (Axial Flow type) 8. Animal drawn patella harrow 9. Animal drawn patella puddler 10. Animal drawn three row seed drill 11. Animal drawn 3 row seed cum fertilizer drill 12. Animal drawn 2 row mustard drill 13. Animal drawn lug wheel puddler 14. Animal drawn ground nut digger 15. Mini power maize sheller 16. Mini power chaff shredder 17. Manual and motor operated chaff cutter
2. Farm power laboratory

1. Single cylinder two stroke petrol engine
2. Single cylinder 4 stroke diesel engine
3. Tractors (Mahindra B 275, New Holland)
4. Power tillers (12 hp, 6.5 hp, 5.5 hp)
5. Tractor Working Cut Model
6. Diesel fuel supply system model
7. Clutch system model
8. Brake System model
9. Stearing mechanism of tractor model
10. Cut model of 2 stroke Diesel engine
11. Cut model of 4 stroke Diesel engine
12. Actual cut model of single cylinder 2-stroke engine
13. Cross section of cylinder block
14. Components of engine (crank shaft, piston, connecting rod, rocker shaft, valve, valve spring guide etc.)

3. Ergonomics And Safety Laboratory

1. Integrated Composite anthropometer (ICA)
2. computerized electric ergometer
3. Computerized human energy measurement system with telemetry (K4B2)
4. Polar heart rate monitor
5. Strength measurement setup
6. Novatech load cell
7. Sphygmo manometer
8. Stethoscope
9. Thermometer (digital)
10. Digital Camera

4. Soil Dynamics Laboratory

1. Automated soil bin with sensors and digital control panel
2. Dynamometer
3. Motorized sieve shaker
4. IS Sieve set for soil analysis
5. soil analysis kit
6. Proving ring cone penetrometer

5. Farm Machinery Testing Laboratory

1. Digital tachometer
2. Digital soil moisture meter
3. Digital thermometer
4. Digital anemometer/barometer/humidity sensor
5. Digital weighing balance
6. Digital vibration and noise meter
7. Digital soil penetrometer
8. Digital energy logger
9. Spray patternator testing rig
10. Mini tractor (Kubota 21 hp)

Rotavator for small tractor 
6. Thermodynamics And Heat Engine Laboratory
1. Multi-cylinder petrol engine test rig with electric dynamometer 2. Twin cylinder diesel engine test rig with electric dynamometer 3. Two stroke petrol engine test rig with rope brake dynamometer 4. single stage air compressor test rig 5. Lancashire Boiler model 6. Cochran Boiler model 7. cornish Boiler model 8. Vertical water tube boiler model 9. Locomotive Boiler model 10. Babcock & Wilcox Boiler Model 11. Model of steam engine 12. Boiler mountings and accessories model (Blow off cock, stop valve, feed check valve, economiser, pressure gauge, water gauge, fusible plug, dead weight safety valve, spring loaded safety valve)
7. Theory Of Machine Laboratory
1. Universal Governor Apparatus 2. Cam Analysis Apparatus 3. Motorized Gyroscope 4. Static & Dynamic Balancing Apparatus 5. Coriollis component of acceleration apparatus 6. Epicycle Gear train apparatus
8. Workshop 1. HMT Lathe machine (05 Nos) 2. wood working lathe machine 3. Power hacksaw machine 4. Radial drill machine 5. Overhead crank shearing machine 6. Hydraulic press 7. Arc welding machine (2 Nos) 8. MIG welding machine 9. TIG welding machine 10. Gas welding setup 11. Pipe bending machine 12. Sheet rolling machine 13. Pedestal grinder machine 14. Chop saw machine 15. Work tables with bench vices 16. Carburizing furnace 17. Painting oven 18. Sheet shearing machine 19. Milling machine

20. Shaper machine Smithy furnace with envils and swedge blocks

(c) Average Number of Students in Theory and Practical Classes

Postgraduate students are less in number and are grouped into one theory batch and one practical batch.

Sl. No.	Name of the department	Theory Batch	Practical Batch
1.	Farm Machinery and Power Engineering	Full strength	Full strength

6.4.5Conduct of Practical and Hands-On-Training

Course curriculum for master degree programme has been designed with special emphasis on novel areas of farm machinery and power engineering.Systematically planned practical classes are conducted for the students in the department as per the credit assigned for the course. Whenever required, hands-on-training are also conducted for courses like system simulation and computer aided problem solving in engineering for PG students of the department. Further as a part of their course curriculum, the PG students are sent for training for twenty days to different research institutes, industries. Besides, the students are also sent to progressive farmers' field to gain a firsthand experience and exposure to the practical problems in farming especially in hilly terrain conditions.The students also get exposure to farmers and interact with them during Technology and Machinery Demonstration Mela organized by the college every year.

6.4.6. Supervision of students in PG Programme:

The number of students supervised by Faculty in the Department of Farm Machinery and Power Engineering as per the guidelines is listed below.

Table 10: Number of students supervised in last five years in FMPE department

Name of the Degree Programme	year				
	2015-16	2016-17	2017-18	2018-19	2019-20
Number of M. Tech (FMPE) students	1	-	1	2	3
PG Recognized teacher	3	3	2	3	3
student to teacher ratio	1:3	-	1:2	2:3	1:1

Table 11: Details of the Master thesis supervised in FMPE

Sl. No.	Title of the Thesis	Name of the Student	Year of Completion
1.	Design and Development of Mechanically Metered Self Propelled Rhizome Planter	Mr. Kshitij Adhikari	2015
2.	Design and Development of Solar - Biomass Hybrid Dryer for Large Cardamom Drying	Mr. Vishnu Sankar A	2017
3.	Development of Ergonomically Designed Pedal Operated Maize Sheller for Sikkim Women Workers	Ms. Vusa Manisha	2019
4.	Optimization of Operating Parameters of Rotavator for Soil Tillage Quality of Medium Textured Soil under Soil Bin Condition	Mr. Philipo William Kulaya	2019
5.	Design, Development and Performance Evaluation of Zero-Till Planter Matching to Mini Tractor for Small Farm Mechanization	Mr. Lilesh Patel	2020
6.	Development of Ergonomically Designed Cashew Nut Sheller	Mr. Rahul Nath	2020
7.	Design and Development of a buckwheat thresher for small farm mechanization	Mr. M. Mohammad Sohail	2020

Faculty profile

Sl. No.	Name of the faculty	Designation	Qualification	Experience, Years	No. of students guided/guiding		
					B.Tech	M.Tech	Ph.D
1.	Dr. S. N. Yadav	Professor	Ph.D.	38	11	4	2
2.	Dr. N. S. Chauhan	Professor	Ph.D.	19	14	3	1
3.	Dr. S. K. Satpathy	Assistant Professor	Ph.D.	16	8	2	0
4.	Er. S. S. Das	Assistant Professor	M.Tech*	18	6	0	0
5.	Er. S. K. Chauhan	Assistant Professor	M.Tech	9	10	0	0
6.	Er. Ng. Devrani	Assistant Professor	M.Tech*	4	3	0	0

***PursuingPh.D. program**

6.4.7. Feedback of stakeholders: (Students, Parents, Industries, Employers, Farmers *etc*.)

- Regular advisory meetings are conducted for the students by their respective supervisors and collect feedbacks from the students.

- Every year in in the month of Feb-March, Technology and Machinery Demonstration Mela is being organized by the department where a farmer-scientist interaction meeting is organized for getting feedback from the farmers
- Improved technologies developed by the department are being demonstrated to the farmers and through Front line demonstration programmes under AICRPs and farmers feedback are obtained for further improvement in the machines, if needed.
- Interface meetings with line department officials, KVKs, ICAR -NOFRI, are organized for planning of future research and extension activities of the department.

6.4.8 Student Intake and Attrition in the Programme for Last FiveYears

Year wise information on sanctioned strength, actual intake and attrition during the last five years of the degree programme are furnished in the tabular form. This attrition is due to students getting regular jobs in their respective state government etc.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2015-16	Farm Machinery and Power Engineering	3	1	0	0
2016-17		5	1	1	100
2017-18		5	2	0	0
2018-19		5	3	0	0
2019-20		5	2	0	0

6.4.9 ICT Application in Curricula Delivery

ICT enabled teaching-learning encompasses a variety of techniques, tools, content and resources aimed at improving the quality of learning and variety of options are available to the teacher and students to utilize various ICT tools at CAEPHT, Ranipool for effective teaching and learning. Teachers participate in selection and critical evaluation of digital content and resources. They are also encouraged to develop their own digital resources, sharing them with colleagues and students through the digital repositories. For this each individual staff allotted with high configured computer system and connected with high-speed Internet facilities for sharing digital contents. During the time of corona pandemic, the classes were conducted totally via online mode using Google meet, zoom etc.

Below Mentioned ICT facilities are well established in the college during the period of 2015-16 to 2020-21. Detailed ICT Lab facilities are listed below:

S. No.	Name of Lab/facility	Equipment	Usage
1.	ICT Enabled smart Class Rooms	1 PG Class rooms with Computer Systems and LCD Projectors	For educational video, PPT, conferencing, teaching and learning
2.	AUTO CAD Lab	CATIA (V6) installed in 17 computers in the central computer lab	used for practical class, imparting trainings and used by the students and faculty for 3D modeling and designing

3.	ICT Enabled Seminar Hall	High Speed Internet Line connectivity, Computer Systems and LCD Projectors camera	For online interaction with university key officials by students and staff, online interaction with different subject experts in different streams

Our Library is having more than 7832 Books for use by the students. It is also having various facilities where student can go through various Journals, Books etc. online either in the Library or Class Rooms or Departments or in their Hostel rooms etc. The library provides Circulation and reference services. All the in-house operations of the library are fully computerized using the network version of the library software KOHA with web OPAC (Online Public Access Catalogue) facilities. The library has also access to online e-journals through CERA (Consortium for e-Resources in Agriculture) and IP address has been activated to access the online journals through CERA in entire CAEPHT Campus. Plagiarism check for M.Tech & Ph.D. thesis was/is done through Ant plagiarism software URKUND in library. Photocopying & Printing facilities are also available in the library. Students used all these facilities during the period under report.For data analysis students used software viz., Design Expert, Origin etc. related to statistical analysis.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* M.Tech. (Agricultural Engineering) in Farm Machinery and Power Engineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All-India Admission from ICAR and also having weightage for college accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12 CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

6.4: Self-Study Report for M. Tech. (Agril. Engg.) With Specialization in Irrigation and Drainage Engineering at CAEPHT, RANIPOOL, SIKKIM.

6.4.1 Brief History of the Degree Program

College of Agricultural Engineering & Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, about natural resource management, farm mechanization, utilization of renewable sources of energy, creation of agro-industries, etc. in the region.

The Department of Soil and Water Engineering (SWE) started offering M. Tech. (Agril. Engg.) with specialization in **Soil and Water Engineering** during the academic year 2015-16, later the degree name changed to M. Techwith specialization in **Irrigation and Drainage Engineering(IDE**)with the bifurcation of Soil and Water Conservation Engineering (SWCE) department from the previous SWE department in the academic year 2016-17.The activity of the department includes the areas ofirrigation water management, drainage engineering, groundwater hydrology, well hydraulics, irrigation systems and pumps, and GIS and remote sensing.

The Department of Irrigation and DrainageEngineering is mainly engaged in teaching undergraduate and post-graduate and Ph.D. students. It offers various courses of PG like Open Channel Flow, Design of Farm Irrigation Systems, Groundwater Engineering, Agricultural Drainage Systems, Water Quality, and Pollution Control, and Design of Pumps for Irrigation and Drainage,etc. to the PG students.

The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers, and entrepreneurs. The faculty of the department has completed **5 Extra Mural Research Projects** (4 as PI and 1 as Co-PI) and **9 Intra Mural Research Projects** (7 as PI and 2 as Co-PI). Presently the faculty of the department is handling **1**Extra Mural Research Project.To date, **2** students have completed post-graduation from the department and **3** students are presently undergoing their M Tech (Agril. Engg.) with specialization in Irrigation and DrainageEngineering in the department.

Irrigation and Drainage Department has four laboratories namely Fluid Mechanics, Pump Engineering, Irrigation and Drainage, and Soil and Water Quality. Other than these laboratories, the department also conducts field experiments on terraces (in the college)and the river bed (flowing at the periphery of the college).

Statistics of Master's degree program (2015-16 to 2019-20)

3.	PG classroom 3		4	Computer room

Laboratory

The Irrigation and Drainage Engineering department has 4 laboratories to carry out UG/ PG practical as well as PG research. Three laboratories are up to mark and the fourth one is under development stage.

S. No.	Name of the laboratory	Area (sq.m)	Seating capacity
1.	Fluid Mechanics Lab	112.50	25
2.	Irrigation and Drainage Lab.	56.00	25
3.	Pump Engineering Lab.	56.00	25
4.	Soil and Water Quality Lab.	55.00	25
5.	Computer Lab	9.00	5
Field Laboratories			
6.	Field demonstration facility for gravity-fed micro-irrigation system on terraces	700.00	Any strength
7.	Rooftop rainwater harvesting system for	40.00	Any strength

	low-cost poly-house with drip irrigation system.		
8.	The river bed of the 0.68 km long river flowing at the periphery of the college campus	2040.00	Any strength

Major equipment

S. No	Particulars	No.
1.	Hot Air Oven	2
2.	Sieve shaker	2
3.	Tensiometers	10
4.	Hydrocyclone filter	1
5.	Rain gun	1
6.	Core cutters	2
7.	Canopy analyzer (Make Kaizen, Imperial, India)	1
8.	Hand-Held GPS (Orgeon 650 Garmin)	1
9.	Automatic Weather Station (Model- WS 501, Make OTT Hydromet, Germany)	1
10.	Turbidity meter	1
11.	High sensitivity thermometer	1
12.	Escherichia Coli counting set up (including hot water bath, vacuum pump, flasks, Petri dishes, Kovac's indole agent, Coliform agar, and Escherichia coli detects)	1 set
13.	Francis Turbine	1
14.	Hydraulic Bench	1
15.	Pelton Wheel Turbine	1
16.	Centrifugal Pump Test Set up	1
17.	Determination of Bernoulli's Theorem	1
18.	Darcy's Apparatus	1
19.	Friction in Pipeline	1
20.	Flow-through Mouthpiece	1
21.	Flow-through Orifice	1
22.	Reciprocating Pump Test Set-up	1
23.	Flow Over Notch Apparatus	1
24.	Gear Pump Test Set up	1
25.	Hydraulic Rig Ram (closed circuit)	1
26.	Jet Pump Test Rig	1
27.	Measurement of Irrigation Water	1
28.	Manometer and Pressure Guage	1
29.	Open Channel Apparatus(closed circuit)	1
30.	Reciprocating Pump Test Set up	1
31.	Reynolds Apparatus	1
32.	Set up for Pipe in Series	1
33.	Set up for Pipe in Parallel	1

34.	Set up for equivalent Length of Pipe	1
35.	Tilting Hydraulic Flume	1
36.	Mono-Block Single Phase Pump	1
37.	Kirloskar Pump	1
38.	Impeller (1220, KDS 5212, Bronze,Sp3L)	1
39.	Flash Pump/Tube Well Pump	1
40.	Gear Pump	1
41.	Portable Turbidity Meter	1
42.	Electrical Conductivity Meter	1
43.	Double Ring Infiltrometer	1
44.	Ph Meter	1
45.	Moisture Boxes	1
46.	Cut Section of Centrifugal Pump, Submersible Pump, and Turbine Pump	1
47.	Positive Placement Pump (Hand Pump)	1
48.	Water Level Meter	1
49.	Pump Testing Rig	1

Average Number of Students in Theory and Practical Classes

Postgraduate students are less in number and are grouped into one theory batch and one practical batch.

S. No.	Name of the department	Theory Batch	Practical Batch
1.	Irrigation and Drainage Engineering	Full strength	Full strength

6.4.5. CONDUCT OF PRACTICAL AND HANDS-ON-TRAINING

The course curriculum for the master's degree program has been designed with special emphasis on novel areas of Irrigation and Drainage engineering. Further, as a part of their course curriculum, the PG students are taken to exposure visits to different research institutes, progressive farmers' fields, private industries,and state government agencies. Industry/ Institute Training as a part of their course curriculum is mandatory for the students. Several exposure visits organized by the department arealso contributing toa better understanding of the subject and enriching their practical knowledge.

Practical Credit details

S.No.	Discipline	Number of credits for practical	Percent of time spent	
			In laboratory	Infield
1.	Open channel flow	1	40	60
2.	Design of Farm Irrigation Systems	1	40	60
3.	Agricultural Drainage Systems	1	40	60
4.	Groundwater Engineering	1	40	60
5.	Design of Pumps for irrigation and Drainage	1	80	20

6.	Water Quality and Pollution Control	1	60	40

6.4.6. SUPERVISION OF STUDENTS IN PGPROGRAM

S. No.	Year	Department	No. of PG recognized teachers		Student to teacherratio		
				Total	M.Tech.	Total (PG students)	
1.	2015-16	Soil and Water Engineering#	06	06	03	03	1:2
2.	2019-20	Irrigation and Drainage Engineering	04	04	02	01	1:2
3.	2020-21		04	04	02	02	1:2

 # During 2015-16, two students were guided by the faculty of Soil and Water Engineering later on shifted to the bifurcated department of Irrigation and Drainage Engineering

6.4.7. FEEDBACK OF STAKEHOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS ETC.)

S. No.	Feedback	Action taken
Farmers :		
1.	There was feedback from the farmers of the Manipur that because of the turbidity of the water, the filters of the drip irrigation system get choked frequently and become out of service.	The department has taken an IRP and proposed one horizontal flow filter that can be fabricated with the locally available material and reduces the turbidity level of natural stream and unlined pond water to a considerable extent so that it could not interfere with the irrigation system.
2.	Cost-free running of irrigation system	The department has standardized the gravity-fed irrigation system.

6.4.8. STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR THE LAST FIVEYEARS

Year-wise information on sanctioned strength, actual intake, and attrition during the last five years of the Degree Program are furnished in tabular form. This attrition is due to students getting regular jobs in their respective state government etc.

M Tech (Agri Engg) with specialization in Irrigation and Drainage Engineering in the department.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2015-16	Soil and Water Engineering	5	3#	0	0
2019-20	Irrigation and Drainage Engineering	3	1	0	0
2020-21		3	2	0	0

During 2015-16, two students were guided by the faculty of Soil and Water Engineering later on shifted to the bifurcated department of Irrigation and Drainage Engineering

6.4.9. ICT APPLICATION IN CURRICULADELIVERY

ICT-enabled teaching-learning encompasses a variety of techniques, tools, content and resources aimed at improving the qualityare a variety of options available to the teacher and students to utilize various ICT tools at CAEPHT, Ranipool for effective teaching and learning. Teachers participate in selection and critical evaluation of digital content and resources. They are also encouraged to develop their own digital resources, sharing them with colleagues and students through the digital repositories. For this each individual staff allotted with high configured computer system and connected with high speed Internet facilities for sharing digital contents. During the time of corona pandemic, the classes were conducted totally via online mode using Google meet, zoom etc.

Below Mentioned ICT facilities are well established in the college during the period of 2015-16 to 2020-21. Detailed ICT Lab facilities are listed below:

S.No.	Name of Lab	Equipment	Usage
1.	ICT Enabled Class Rooms	1 PG Classrooms with Computer Systems and LCD Projectors	For educational video, PPT, conferencing, teaching, and learning
2.	ICT Enabled Seminar Hall	High-Speed Internet Line connectivity, camera	For online interaction with University key officials by students and staff, online interaction with different subject experts in different streams

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* M.Tech. (Agricultural Engineering) in Renewable Energy Engineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All-India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12 CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

6.4. SELF STUDY REPORT FOR POST GRADUATEDEGREE PROGRAMME

6.4.1 Brief History of the M.Tech. (Processing and Food Engineering) Degree Programme

Keeping in view the high potential of applications of agricultural engineering and post-harvest technological interventions in improving the agricultural scenario of NEH region and to address to the issues of shortage of trained human resource in this discipline, the College of Agricultural Engineering and Post Harvest Technology (CAEPHT) was established in May 2006 by Central Agricultural University (CAU), Imphal at Ranipool, Gangtok (Sikkim). Initially 20 students were admitted in B.Tech. Agril. Engg. Programme, at the time of establishment in 2006. The college has marched ahead to offer two B.Tech. (B.Tech. Agri. Engg. and B.Tech. Food Tech.), five M.Tech. (Farm Power & Machinery, Soil & Water Engg., Processing & Food Engg., Irrigation and Drainage Engineering and Renewable Energy Engineering) and three PhD(Farm Power & Machinery, Soil & Water Engg. and Processing& Food Engg.) degree programme

After initiation of college in 2006 with B. Tech. in Agricultural Engineering degree programme and starting Food Technology from year 2010 and when three Batches of B.Tech in Agricultural Engineering were passed out a need was felt to initiate M.Tech. Programme in Food Engineering. Hence, a new programme entitled M.Tech (Food Engineering) was initiated during 2013. The program was renamed as Agricultural Engineering with specialization in Processing and Food Engineering after fifth dean's committee recommendation.

Statistics of Master's degree programme (2015-16 to 2019-20)

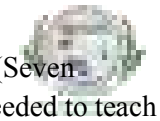
6.4.2 FACULTYSTRENGTH



As per the Fifth Dean Committee report by ICAR, **Forty Four faculty members** (Seven Professors, Thirteen Associate Professors and Twenty Four Assistant Professors) are needed to teach and guide the students of B. Tech., M.Tech. and Ph.D. courses related to Agricultural Engineering. The sanctioned strength of various faculties at this college is **Forty Six**. At this College the following faculty members were involved in teaching and guiding the students of Two B.Tech., Five M.Tech. and Three Ph.D. level courses during 2015-2020.

Faculty	Number	Permanent	On contract/from other sister organizations/guest	Faculty recommended by the ICAR/5th Dean's Committee	Faculty involved in teaching of M.Tech. (PFE)
Professor	7 including Dean	5 including Dean	1 (On Contract) 1(as guest)	7 including Dean	4
Associate Professor	4	3	1(as guest)	13	1
Assistant Professor	34	26	2(as guest) 3 (sister organization-COH) 3 (on Contract)	24	11

** All the faculty were assigned the responsibility for the multiple programme (Bachelor level, PG level and Ph. D Levels)*

However, fifteen faculties (Four professors, One Associate Professor and Ten Assistant Professor) were involved in teaching and guiding the student in M.Tech (Processing & Food Engineering). Information regarding the designation and qualification of various faculty members are given below.

Faculty involved in teaching and guiding the student in M.Tech.(Processing & Food Engineering)

Faculty	Number
Professor	04
Associate Professor	01
Assistant Professor	10
Total	15

Information regarding faculties teaching and guidingM.Tech. (Processing and Food Engineering) programme

Area	Course Title &No. of Credits	Faculty	Qualification
Major Courses (Core)	Engineering Properties of Food Materials3 (2+1)	Dr. R.P. Misra, (Prof.) Dr. S. Jena (Associate. Prof.) (Late) Dr. A.I. Singh (Asst. Prof.)	Ph.D Ph.D Ph.D
	Unit Operations in Food Process	Dr. Sujata Jena	Ph.D

	Engineering3 (2+1)	(Associate Prof.)	
	Advanced Food Process Engineering3 (2+1)	Dr. Sujata Jena (Associate Prof.)	Ph.D
	Transport Phenomena in Food Processing 3 (2+1)	Dr Rakesh Kumar Raigar (Asst. Prof.)	Ph.D
	Agro energy audit and management 2 (2+0)	Prof. M. S. Seveda (Professor)	Ph.D

	Agro-energy audit and management3(2+1)	Dr. N.P. Digambar (Asst. Prof.)	Ph.D
	Design and analysis of renewable energy conversion systems3 (3+0)	Dr. M. S. Seveda (Professor)	Ph.D
Compulsory Courses (Non Credit)	Library and Information Services1(0+1)	Mr. Pawan Kumar (Library Incharge)	M.Sc
	Agricultural Research, Research Ethics and Rural DevelopmentProgrammes1(1+0)	Dr. M. S. Seveda (Professor)	Ph.D
	Computer Applications in Agriculture 1 (0+1)	Er. Rajiv Pradhan (Asst. Prof.), Dr S R Yadav (Asst. Prof.) Mrs. T. LoidangChanu (Asst. Prof.)	M.Tech Ph.D M.Sc
	Technical Writing and Communications Skills 1(0+1)	Dr. D. Roy (Asst. Prof.)	Ph.D
	Basic Concepts in Laboratory Techniques 1(0+1)	Dr. Said P.P. (Asst. Prof.)	Ph.D
	Disaster Management1(1+0)	Dr. B.C.Kusre (Professor)	Ph.D
	Intellectual Property and its Management in Agriculture1(1+0)	Dr. S. N Yadav (Professor)	Ph.D
Seminar	Master's Seminar1 (1+0)	Dr. R. P. Misra (Professor) Dr. S. Jena (Associate Prof.) Dr. B. K. Singh	Ph.D Ph.D Ph.D

		(Asst. Prof.)	
Supporting Courses	Data Analysis using Statistical Packages 3 (2+1)	Mrs. T. LoidangChanu (Asst. Prof.) Dr. S. K. Meher(Asst. Prof.)	 M.Sc Ph.D

6.4.3 TECHNICAL AND SUPPORTING STAFF

Strength of Technical & Supporting Staff: Available posts and actual filled

Sl. No.	Name of the Post	No. of Post	Actual Filled	Vacancy
1	Field Cum Lab Assistant	04	04	00
2	MTS **(Multi-tasking staff)**	03	03	00

6.4.4 CLASSROOMS & LABORATORY

There are two classrooms, which are exclusively being used by the students of M.Tech (Processing & Food Engineering). The smart class room facility is being also utilized by the students of M.Tech (Processing & Food Engineering). There are various labs which are being utilized by various UG, PG & Ph.D. Programs. These labs are well equipped as per the recommendations of various Dean's Committee.

Sl. No.	Name of the Laboratory
21.	**Food Engineering laboratory** (consisting of Food Process Technology unit and Food Product Development unit) (Area- 228.28m^2)
22.	**Process Engineering laboratory** (consisting of unit operation lab, packaging unit etc.) (Area- 92.77m^2)
23.	**Food Analysis laboratory** (consisting of Food Rheology and sensory unit, Food Bio-Technology unit and Food Analytics unit etc.) (Area-93.24 m^2)
24.	**Agricultural Structures & Environmental Control Laboratory Engineering laboratory** (consisting of Heat, Mass & Refrigeration – Air Conditioning Unit)(Area- 80.71 m^2)
25.	**Pilot Plant for Milk Processing** including Dairy Technology Lab, chiller unit, spray dryer unit& milk reception unit etc.(Area-201.51 m^2)
26.	**Pilot Plant for Fruits and Vegetable** including Cottage scale soya paneer plant (Area-124.03 m^2)
27.	**Multi stage evaporator with aroma recovery system**(Area-20.9m^2)
28.	**Shed for Feed and Fodder crusher and seed processing unit**etc.(119.66m^2)
29.	**Mini Rice Mill** (Area 148.65m^2)
30.	**Farmer's Produce Processing cum Skill Development Centre** (Area 265.26 m^2) (consisting of Ginger & Turmeric Processing Plant – Area 72 m^2, Unit of Minimal Processing of Fruits and Vegetable– Area 17.84m^2, Bakery unit– Area 23.78m^2, Noodles unit– Area17.84 m^2, Potato Chips unit –Area 17.84 m^2, store–Area 25.65 m^2, kitchen –Area 17.84 m^2, class room–Area 27.87 m^2, training hall –Area 44.6 m^2)
31.	**Biochemistry Lab**
32.	**Microbiology Lab**
33.	**Workshop**
34.	**Computer Lab**

Mini Dal Mill	Vegetable Washing Machine
Milk analyzer Master Clasic	Complete unit of Potato Chips Machine
Oxygen and CO_2 Headspace Gas analyzer plus Flexible packaging kit	Complete Unit of Biscuits Making Machine
Microwave oven	Complete Unit of Noodle Making Machine
Water Bath	Ginger Paste and Powder Making Machine
Laboratory Spray Dryer	OTG Oven
Cream Separator	
Freeze Drier	
Digital Satorious Infra-red Moisture Meter	
pH meter	
Chromameter	
Autoclave	

6.4.5 CONDUCT OF PRACTICAL AND HANDS-ON-TRAINING

Theory and Practical batches for the Degree Programme

There are manageable number of students who are kept in one batch during Theory & Practical classes to ensure better delivery of information, encourage students' participation and active monitoring. Students conducted their practical training in various Laboratory, Pilot plants and Farmers Produce Processing Cum Skill Development Centre of the college. We have provided practical as well as

hands on training to students of various other universities, such as Sikkim University, CAU(COFT, COH), NIFTEM, Mizoram University etc.

Average number of students in theory and practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical
1.	**M.Tech. (Processing and Food Engineering)**	Full strength	Full strength

Conduct of the hands on training

A. Hands on training outside the college

a) In research institute

Students were deputed to the following research institute for undertaking advance training in latest instruments related to their project work.

- ICAR-Central Institute of Post Harvest Engineering & Technology (CIPHET) Ludhiana, Punjab
- Indian Institute of Food Processing TechnologyThanjavur, Tamil Nadu
- ICAR-The National Dairy Research Institute, Karnal, Haryana
- ICAR-Central Institute of Fisheries Technology, Visakhapatnam
- College of Agriculture, Central Agricultural University, Imphal.

b) Industries

Students were also deputed to the Thangjam Agro Industries Pvt.Ltd. (Likla) Chingmeirong, Imphal East, Manipur, a reputed industry for hands on training related to their project work.

6.4.6 SUPERVISION OF STUDENTS IN PGPROGRAMME

There are sufficient numbers of qualified and experienced faculties who are guiding M.Tech students in the area of Processing & Food Engineering. The names of the faculties who are entitled to guide M.Tech students are given below.

Sl. No.	Name of the faculty	Designation	Qualification	Experience	No. of students guided/guiding		
					B.Tech	M.Tech.	Ph.D
7.	Dr. R. P. Misra	Professor	Ph.D.	44 years	5	-	-
8.	Dr.(Mrs.)Sujata Jena	Associate Professor	Ph.D.	15 years	32	5	1
9.	Dr. B. K. Singh	Assistant Professor	Ph.D.	25 years	33	3	2
10.	Late Dr. A. I. Singh	Assistant Professor	Ph.D.	15 years	25	-	-
11.	Dr. Said P. P.	Assistant Professor	Ph.D.	6 years	11	2	-
12.	Dr. Rakesh Kr. Raigar	Assistant Professor	Ph.D.	6 years	7	2	-

Title of the Thesis by M.Tech students

S. No.	Title	Student Name
1	Standardization of Vacuum Drying Parameters for Drying Green and Red cherry Paper (Dalley)	Er. Sajesh Chhetri
2	Optimization of vacuum drying paramters for production of ginger powder from Gorubathanevarietry of Sikkim	Er. ThameridusMarak
3	Standardization of Process Technology for the Manufacture of Intermediate Moisture Foods from Chayote (Sechium edule)	Er. Taynath Santosh Jagannath
4	Functional Design and Development of a Simple Batch Type Osmotic Dehydrator for Horticultural Crops	Er. JitsonAchom
5	Standardization of Process for Development of Composite Flour Based Multi-Grain Pasta	Er. Vijay Shankar Kushwaha
6	Development of foam mat vacuum dried pomelo juice powder	Er. Sophia ChanuWarepam
7	Optimization of peeling method and process parameters for chayote peeling	Er.ChukkaluruHima Bindu
8	Development of Commercial Fish Feed for Grass Carp utilizing Local Materials.	Er. Devarakonda Rajesh
9	Process Standardization for Extraction of Oligosaccharides from Rice bean	Er. Bharat Bhushan

6.4.7 FEEDBACK OF STAKE HOLDERS

In our University most of the faculty members are made Advisor of about 10 students. There has to be at least one meeting (mostly on Saturday) of the students with their Advisors. Students raised their various problems (academic, personal etc.) with the Advisor. The Advisors helped the students to solve their problem. In case, help of some particular faculty member/ staff/ Dean were needed, Advisors took their help and solved the problem.

There was / is a register with the Student Welfare Officer of the College, in which any student can raise their problems (related to academic, hostels etc.). The Student Welfare Officer brought the problem to the notice of the Dean of the College. Dean discussed the issue with the Student/ Group of Students/faculties/ officials and took remedial measures.

For example fourteen complaints were received on 10/08/16. Most of the complaints were regarding repair of electrical items and civil work in Hostels which was promptly attended by AE (Civil) and JE (Electrical). Few problems were related to Wi-fi LAN etc. which was tackled by computer operator. There was a suggestion regarding digitalization of library which was already in progress. On 22/10/16, a complaint was received regarding issue of identity card which was immediately attended. On 21/10/16 complaints were received regarding practicals of two courses. Chemicals etc. were purchased and practicals were completed within a week. On 08/12/16. a complaint was received regarding water purifier in Girl's Hostel which was attended and rectified in due course of time. On 24/03/18 a complaint was received regarding non- working of LAN in New Girl's Hostel which was immediately attended by computer operator.

During Farewell of the final year students they sometimes raised the problem faced by them during their stay of four years in the college. After knowing their problems Dean and Faculty tried to implement their suggestions.

In every Semester there was a meeting of Dean with representative of Students to discuss their problems related to teaching, hostels, etc. Generally Students raised their issue which used to be

discussed in the meeting. The issues which can be solved at the College level were settled in the College itself. The issues which needed the attention of the Vice-Chancellor were sent to him for satisfactory solution.

CAU organized Agricultural Fair every year in various states of NEH. During these fair many parents visited these fairs. Many times parents also visited the college or talked to various officials over phone. During these visits and discussions they appreciate the facilities and academic atmosphere of the college. Sometimes they also made various suggestions. Many times college implemented these suggestions. Every Year College also organized Technology Demonstration Mela / Farmers' Agriculture Fair. Many farmers of NEH region visited these Mela /Fair. During their visit interaction between various faculties and farmers were held and we got their opinion regarding various academic works, hostels and other facilities of the college.

Extension council meeting of the college and University were regularly held every year. During these meeting, progressive farmers, members of FPO, members of SHG, state government officials, entrepreneurs etc. participated and gave their feedbacks and suggestions.

During hands on training students interacted with various industries. During discussion of owners/ officials of these industries with various faculty members they appreciated the theoretical, practical knowledge and hard work of the students. Govt. Fruit Preservation Factory (Sikkim Supreme) and Zydus Healthcare Pvt. Ltd., Sikkim have paid students a handsome amount during their hands on training.

During their hands on training students interacted/ worked with entrepreneurs, farmers, FPO, SHG etc. During discussion with the faculty members these people appreciated the help, knowledge and hard work of the students.

A brain storming session was held in Dec 2020 at CAEPHT, Sikkim to discuss and finalize the researchable issues related to Post Harvest Technology for Central Agricultural University. All the faculty member of various colleges and KVK related to Post Harvest Technology participated in this session. Two experts viz., Dr. Suvendu Bhattacharya, Professor, ACSIR & Chief Scoientist (Retd.), Central Food Technological Research Institute, Mysore, and Dr. Abhijit Kar, Principal Scientist, Division of Food Science & Post Harvest Technology, Indian Agricultural Research Institute, New Delhi, also participated in this session. Their suggestions have been incorporated.

We have trained (through demonstration, short duration training, vocational training, training in the field etc.) many entrepreneurs & farmers (around 1000 numbers) during last five years in preparation of various food products such as paneer, ice-cream, cream, ice-candy, jam, jelly, sauces, RTS, squash, candy, osmo-dehydrated pineapple rings, pasta, pickle, turmeric powder, ginger flex & powder, potato chips, noodles, yacon syrup (prepared from ground apple) minimal processing of fruits & vegetables, cookies, cake etc. At the initial stage some of the entrepreneurs used our facilities for commercial manufacturing of these items. After few years they have established their own production units. Few of the entrepreneurs/farmers have received awards also. For example Shri. Shisir Khadka (established Sundar Sikkim) and Shri Kailash Rana used the facilities available at Farmers Produce Processing cum Skill Development Centre, CAEPHT, Ranipool for few years (2015-2018) under the guidance of faculty and technical staff. Shri. Shisir Khadka was bestowned with "AIFA Progressive Farmers Award" during 2017. He was also issued an appreciation letter and appointed as State Coordinator of SEED Cell (Sikkim Entrepreneurship and Economic Development Cell) by the Sikkim Government during 2020-21.He was also made member of extension council of CAU.

Furthermore, considering the facilities, faculty, other resources, ability and interest of the college in training the farmers, entrepreneurs, and subject matter specialist, Government of Sikkim requested for conducting six training in various areas. The Government had sanctioned Rs. 7.5 lakhs for these six trainings. It was also requested to establish a Farmers' produce processing-cum-skill development center at CAEPHT, Ranipool. The Sikkim Government handed over machines (11 units, costing

approximately 100 lakhs) for processing of ginger, turmeric, vegetables, potato, bakery and noodles to the center for imparting training to farmers, entrepreneurs, students and scientists. Government of Sikkim also sectioned Rs. 9.90 lakhs for conducting 20 rounds of trainings/demonstrations in this center. The college has provided trainings to about 1000 beneficiaries. Sashastra Seema Bal had also deputed, youths from border region of the Sikkim for attending the training on processing of horticulture crops. The SSB also had sectioned fund for the training programme. Women self-help group from SSB were also provided training at the FPPSDC.

Considering the facilities, faculty, other resources, ability and interest of the college in training the Government of Orissa deputed five batches of state government officials for model development programme and provided necessary fund for the cause.

In addition to this, Power Finance Corporation ltd. sponsored three 90 days vocational training programme for Youth of North-Eastern states of India. The National Skill Development Council, New Delhi, has sponsored two one month duration vocational trainings.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR LAST FIVEYEARS

Name of the Degree Programme	Actual students admitted in last five years						Attrition (%)					
Year	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21
M. Tech. (PFE)	02	02	02	04	2	05	00	00	50	00	00	20

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY

College is having a well-equipped Computer Lab with Internet LAN Connection, 10 KVA UPS, 20 Computers. All the six departments and various externally funded Projects are having Computer facilities which were used for teaching, practical, project work analysis etc. of students. The college is having a system (e- collection) through which students deposited their fees etc. online itself. All the funds either from the University or from various funding agencies for various outside funded projects were/are deposited in the college account through Public Finance Management System. Wi-Fi availability and internet services are available in the whole campus (Academic buildings including class rooms, hostels, residential colony).

Our Library is having more than 7832 Books for use by the Students. It is also having various facilities where student can go through various Journals, Books etc. online either in the Library or Class Rooms or Departments or in their Hostel rooms etc.. The Library provides Circulation and reference services. All the in-house operations of the Library are fully computerized using the network version of the library software KOHA with web OPAC (Online Public Access Catalogue) facilities. The library has also access to online e-journals through CERA (Consortium for e-Resources in Agriculture) and IP address has been activated to access the online journals through CERA in entire CAEPHT Campus. Plagiarism check for M.Tech.& Ph.D. thesis was/is done through Ant plagiarism software URKUND in library. Photocopying & Printing facilities are also available in the library. Students used all these facilities during the period under report..

Furthermore, occasionally college organized various courses on Computer programming and on their use. During 2015-16 a course on Computer Aided Design was organized for the students. Er.

B. K. Garg, Retired Principal Scientist, Central Institute of Agricultural Engineering, Bhopal coordinated this training.

For data analysis students used software viz., Design Expert, Origin etc. related to statistical analysis. Use of CATIA software by students for 3D modeling and design of processing equipment was very useful for them.

Workshop on 'Online Safety: social surfing 3.0' was organized on 18.11.17. There were/are many videos on various topics related to various subjects and machines. These videos are prepared by faculties of renowned organization such as Indian Institute of Technology. Our faculties have also prepared many videos, presentations (slide with audio). These videos (mostly available in YouTube) are being used by various faculty members for teaching various courses.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* M.Tech. (Agricultural Engineering) in Processing and Food Engineering of College of Agricultural Engg.& PHT, CAU, Ranipool, Gangtok, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4 Self-Study Report for M. Tech. (Agricultural Engineering) with Specialization in Renewable EnergyEngineering at College of Agricultural Engineering and Post Harvest Technology,Ranipool, Gangtok, Sikkim

6.4.1 Brief History of the Degree Programme

College of Agricultural Engineering and Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal) to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, pertaining to natural resource management, farm mechanization, post-harvest technology, processing & value addition, utilization of renewable sources of energy, creation of agro-industries etc. in the region.

The Department of Renewable Energy Engineering (DREE) focuses on teaching, research and extension in the field of renewable energy engineering for the development of sustainable energy systems and energy efficient technologies for the future. The department is actively involved in teaching of B. Tech. (Agricultural Engineering) & B. Tech. (Food Technology) and (Agricultural Engineering) with specialization in Renewable Energy Engineeringstudents, research in the field of solar thermal energy, solar photovoltaic energy, passive solar architecture, biomass energy, waste management, wind energy, hydro power, hydrogen production from renewable sources, fuel cell technology, energy audit, energy modeling, energy conservation and management, energy planning and policy and extension activities in diverse areas of renewable energy engineering.

The Department of Renewable Energy Engineering (REE) started offering M Tech (Agricultural Engineering) with specialization in Renewable Energy Engineering during the academic year 2019-20.The activity of the department includes the areas of renewable energy, energy conservation, farm energy management, auditing, development of efficient energy sources, and value addition of food products through renewable energy utilization.

Renewable Energy Engineering department gives exposures about different energy sources like solar energy, wind energy, biomass energy, improved cookstoves, biomass briquetting, biogas technology, fuel cell technology and various alternate energy sources and various harnessing technologies, etc. The Department of Renewable Energy Engineering (REE) is mainly engaged in teaching to under graduate and post graduate and Ph.D. students. It offers various courses of PG and PhD like Agro-energy Audit and management, Biomass energy sources and utilization of wastes, solar energy utilization, etc to M. Tech and PhD programmes run by various departments of College of Agricultural Engineering and Post Harvest Technology, Ranipool. Also, courses of REE offered by B. Tech (Agricultural Engineering) are also covered as per fifth Dean'sSyllabus. UG students are offered various projects in the VIII semester and experiential learning during VII semester.

The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers and entrepreneurs. The faculty of the department has completed in total 9 research projects i.e., 6 Extra Mural Research Project and 3 Intra Mural Research Project. Presently the faculty of the department is handling 2 Intra Mural Research Project. The faculty members of the department have also designed and developed 09 renewable energy technologies (solar energy conversion technologies and biomass energy conversion technologies).The faculty members have published 100 research papers in journals and conference proceedings of national and international reputes and conference proceedings. The faculty members have also published 04 books on Renewable Energy and published 15 book chapters in the international and national reputed books. The faculty members have organized 26 International and National conferences, seminars, workshops, summer school and trainings.The department is continuously arranging various training and extension activities for farmers and officials and stakeholders. To date, 02 students are presently undergoing their M Tech (Agricultural Engineering) with specialization in Renewable EnergyEngineering in the department.

Statistics of Master's degree programme (2019-20 to 2020-21)

6.4.12. CLASSROOMS AND LABORATORIES:

Classrooms

Sl. No.	Class room No.	Area (sq. m)	Seating capacity	Other facilities (LCD, Projectors, Computers, Smart board etc.)
1.	PG classroom: 1	16.00	8	Whiteboard and Computer Facility

Laboratory

The Renewable Energy Engineering department has 4 laboratories to carry out UG/ PG practical as well as PG research. All the laboratories are well equipped with all facilities to carry out research.

Sl. No.	Name of the laboratory	Area (sq.m)
1.	Renewable Energy – Bioenergy Laboratory	145
2.	Renewable Energy Laboratory- Solar Yard Section 1 and 2	75.00 each
3.	Renewable Energy Field Laboratory with Polyhouse and Poly tunnel dryer	85.00
4.	Physics Laboratory	95.00

Major equipment

2. Agni-star Gasifier	35. Hot wire Anemometer
3. Air Quality Meter	36. IDB Gasifier stove (Ceramic)
4. Air Quality Monitor with Laptop	37. IDB Gasifier Stove (Smokeless)
5. Aluminium Pots	38. Improved downdraft biomass combustion device
6. Bio-gas Analyzer	39. Indirect type solar cabinet dryer
7. Biogas Lamp	40. Lux meter
8. Biomass Cookstove	41. Mixed mode type solar dryer
i. Natural Draft biomass cookstove	42. Muffle furnace
ii. Forced Draft biomass cookstove	43. Multichannel digital temp. indicator
9. Bomb-Calorimeter	44. Orsat Apparatus
10. Box-type Solar Cooker	45. Parabolic Dish Solar Cooker
11. Cloud and Pour Point Apparatus	46. pH meter
12. Cookstoves with Air Insulation	47. Pressure Gauge
13. Data logger	48. Pyranometer
14. Digital Anemometer	49. Ried Vapor Pressure Test apparatus
15. Digital Balance (15 kg)	50. Shakti-SurahiBiomethanation plant
16. Digital Lux meter	51. Small scale box type biochar kiln
17. Digital Multimeter	52. Solar Concentrator Training Kit
18. Digital PH meter	53. Solar Cooker Box type
19. Digital Stop watch	54. Solar Lantern
20. Digital Tachometer	55. Solar Power Photovoltaic training Kit
21. Digital Temperature Indicator	56. Solar Refrigerator
22. Digital Thermo-hygrometer	57. Solar Still
23. Digital Thermometer Non-contact type	58. Solar Street light system
	59. Solar water pumping system
	60. Sound level meter
24. Digital Wood moisture meter	61. SPV Home lighting System
25. Direct Type Solar Dryer	62. Sunshine Recorder
26. Double distillation Apparatus	63. Test setup for thermosiphon system type solar water heater
27. Electric air blower	
28. Electric weighing balance	64. Thermocouple base thermometer with

29. Gas flow meter Glass 30. thermometer 31. Glass water distillation 32. Hand operated briquetting machine 33. High Precision balance 34. Hot Air oven	display unit 65. Turbine type flow meter 66. Water bath shaker 67. Weighing balance 68. Wood moisture meter

Average Number of Students in Theory and Practical Classes

Postgraduate students are less in number and are grouped into one theory batch and one practical batch.

Sl. No.	Name of the department	Theory Batch	Practical Batch
1.	Renewable Energy Engineering	Full strength	Full strength

6.4.13. CONDUCT OF PRACTICAL AND HANDSONTRAINING

Course curriculum for master degree programme has been designed with special emphasis on novel areas of Renewable Energy engineering. Further as a part of their course curriculum, the PG students are taken to exposure visits to different research institutes, progressive farmers' field, private industries and state government agencies. Industry/ Institute Trainings as a part of their course curriculum is mandatory for the students. Several exposure visits organized by department is also contributing for better understanding of the subject and to enrich their practical knowledge.

6.4.14. SUPERVISION OF STUDENTS IN PGPROGRAMME

Sl. No.	Year	Department of Renewable Energy Engineering	No. of PG recognized teachers		Student to teacher ratio		
			For M. Tech	Total Available faculty	M.Tech. Students admitted	M. Tech students remained due to attrition	
1.	**2019-20**		03	04	01	01	1:3
2.	**2020-21**		03	04	02	01	1:3

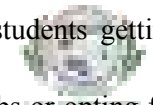
6.4.15. FEEDBACK OF STAKEHOLDERS (STUDENTS,PARENTS, INDUSTRIES, EMPLOYERS, FARMERSETC.)

College has kept suggestion and complaints box in college premises. Regular counseling meetings are organized and in emergency parents are also participated for the personality developments of students. This college has provided an excellent platform and infrastructure to establish rapport between students and teachers. The farmers, entrepreneurs and trainees from various Government, Private and public sector units, stakeholders and unemployed youth coming to various programme provide feedbacks through open platform available at programmes, through feedback books, emails, WhatsApp and available platforms. These feedbacks are taken righteously and proper discussion and action is taken by concerned persons and college authorities time to time.

6.4.16. STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR LAST FIVEYEARS

Year wise information on sanctioned strength, actual intake and attrition during the last five years of

the Degree Programme are furnished in the tabular form. This attrition is due to students getting regular jobs in their respective state government etc.



Thestudent discontinued their degree programme due to appointment in State govt. jobs or opting for civil service examinations.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2019-20	Renewable Energy Engineering	3	1	0	0
2020-21		3	2	1	50

6.4.17. ICT APPLICATION IN CURRICULADELIVERY

Interactive whiteboards and touch based computer system:

The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) Computer Laboratory, under Central Agricultural University (CAU), Imphal, is well-equipped with 2 smart classrooms having facilities of Interactive whiteboards for conduction of online lectures and smart board allows projection of images, manipulation of images, dragging, clicking and copying of matter. Simultaneously Teacher is availed with facility to provide handwritten notes on board and same can be saved for later use.

Computer facilities:

The College of Agricultural Engineering and Post-Harvest Technology (CAEPHT) Computer Laboratory, under Central Agricultural University (CAU), Imphal, is well-equipped with 20 computers for computing facilities to all the students of the college, teaching and non-teaching staff members along with Internet connectivity. It also provides Internet facilities to all teaching staff, administrative staff and all students of the college. There are approximately more than 300 users who are availing the Internet and computing facilities.

The Computer Centre supports a wide 1000 Mbps fiber optic network (OFN) that connects all the academic units, hostels, library, dispensary, residence and other central facilities to the Computer Centre. Users can use the computing resources of Computer Center from their offices, academics unit, hostels and residences. Login is provided to all the students, faculty and staff members for Internet browsing. Besides, Wi-Fi facility is provided to boys' hostel, girls' hostel, ATIC Building, guest house, dispensary, VC camp, and Dean's residence. LAN is provided through optical fiber connection in North Academic building, South Academic building, new girls' hostel, auditorium, staff quarter, medical unit and Farmers Produce Processing cum Skill Development Centre. The network Security is Provided through UTM/Firewall.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* M.Tech. (Agricultural Engineering) in Renewable EnergyEngineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12

CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

6.5 Self-Study Report for M. Tech. (Agri Engg) with Specialization in Soil and Water Conservation Engineering at CAEPHT, RANIPOOL, SIKKIM.

6.4.1 Brief History of the Degree Programme

College of Agricultural Engineering & Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal) to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, pertaining to natural resource management, farm mechanization, post-harvest technology, processing & value addition, utilization of renewable sources of energy, creation of agro-industries etc. in the region.

The Department of Soil and Water Engineering (SWE) started offering M Tech (Agri Engg) with specialization in Soil and Water Engineering during the academic year 2015-16, later the degree name changed to M. Techwith specialization in Soil and Water Conservation Engineering (SWCE)with the bifurcation of Irrigation and Drainage (IDE) Engineering department from the previous SWE department in the academic year 2016-17. The activity of the department includes the areas of soil and water conservation, irrigation water management, hydrology, watershed management, ground water hydrology, irrigation systems and pumps and GIS and remote sensing.

SWCE department gives exposures about different techniques for rain water harvesting, soil conservation, water conservation, degraded land reclamation, water quality analysis and modelling, remote sensing and GIS, waste water management, watershed management, etc.

The Department of Soil and Water Conservation Engineering is mainly engaged in teaching to under graduate and post graduate and Ph.D. students. It offers various courses of PG like Watershed Hydrology, and GIS and Remote Sensing for Land & Water Resource Management,open channel hydraulics, Water quality and pollution control, Soil and Water Conservation Structures, etc. to the PG students.

The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers and entrepreneurs. The department has completed various Extra Mural Research Project and Intra Mural Research Project. Presently the faculty of the department is handling 2 Extra Mural Research Project of which one is ongoing and another is awaiting sanction.In addition, the department is also handling the AICRP on PET in the department. To date, 6 students have completed post- graduation from the department and 11 students are presently undergoing their M Tech (Agri Engg) with specialization in Soil and Water Conservation Engineering in the department.

SWCE department is having Soil Water Conservation & Soil Mechanics Lab, Remote Sensing & GIS Lab, Surveying and Levelling Laboratory, Strength of Materials Lab, Applied Mechanics Lab and AICRP on PET Lab to provide practical knowledge to the students and also to demonstrate and organize training to farmers and field engineers, entrepreneurs etc. Many farmers, women and local peoples, NGO and others often visit the department to gain knowledge of different soil and water engineering aspects.

6.4.23. FEEDBACK OF STAKEHOLDERS (STUDENTS,PARENTS, INDUSTRIES, EMPLOYERS, FARMERSETC.)

Sl. No.	Feed back	Action taken
2017-18		
Farmers :		
1.	Exposure visitto PG students to sub-watersheds units/ progressive/ awardee farmers' fields to enrich the practical knowledge on implementation of SAU's/ICAR Institutes/farmers innovative technologies.	Exposure visits for PG students are being made to the sub-watersheds units/ progressive/awardee farmers' fields.

2.	Polyhouse inaugurated on 23rd Dec., 2017 during celebration of the "Kisan Diwas" to commemorate the birthday of Former PM of India, Shri. Choudhary Charan Singh and handed over to the family of farmer Shri. Mitralal Sharma, Ward No 1. Assam Lingzey, East Sikkim.	The programme was attended by almost 25 farmers of the ward Assam Lingzey.
2018-19		
3.	Two days awareness programme on "Skill development on greenhouse technology including solar technology and micro-irrigation systems" during July 28-29, 2018	The awareness programme was organized by AICRP-PET at CAEPHT, Ranipool. Around 30 farmers attended the programme.
2019-20		
1.	B. Sc. (Hort.) students from Department of Horticulture, Sikkim University visited AICRP-PET Research farm for the exposure of the students in Protected Cultivation and team of AICRP-PET demonstrated the protected cultivation of capsicum, onion cultivation under low tunnel and vertical farming of strawberry in soilless media on May 28th, 2019.	The students (22 in nos) was attended by the department of SWCE and AICRP-PET, Ranipool.
2.	Installation and demonstration of solar dryers requested by a famer SovyaDiyali from Soureni, East Sikkim.	19 * 11 square feet solar dryers were installed at the resident of the farmer under SCSP scheme. The farmers adopted the dryer for drying cardamom, ginger, broom grass, meat etc.
3.	Exposure to construction of low cost polyhouse by final year students	As a part of their experiential learning programme, B.Tech Final year AE students were exposed to the construction and full time harvesting of crops

6.4.24. STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR LAST FIVEYEARS

Year wise information on sanctioned strength, actual intake and attrition during the last five years of the

Degree Programme are furnished in the tabular form. This attrition is due to students getting regular jobs in their respective state government etc.

M Tech (Agri Engg) with specialization in Soil and Water Conservation Engineering in the department.

Thestudent discontinued their degree programme due to appointment in State govt. jobs.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2015-16	**Soil and Water Conservation Engineering**	5	3	0	0
2016-17		5	1	0	0
2017-18		5	2	0	0
2018-19		5	5	0	0
2019-20		5	2	0	0
2020-21		5	5	1	20

6.4.25. ICT APPLICATION IN CURRICULADELIVERY

ICT enabled teaching-learning encompasses a variety of techniques, tools, content and resources aimed at improving the qualityare a variety of options available to the teacher and students to utilize various ICT tools at CAEPHT, Ranipool for effective teaching and learning. Teachers participate in selection and critical evaluation of digital content and resources. They are also encouraged to develop their own digital resources, sharing them with colleagues and students through the digital repositories. For this each individual staff allotted with high configured computer system and connected with high speed Internet facilities for sharing digital contents. During the time of corona pandemic, the classes were conducted totally via online mode using Google meet, zoom etc.

Below Mentioned ICT facilities are well established in the college during the period of 2015-16 to 2020-21. Detailed ICT Lab facilities are listed below:

S.No.	Name of Lab	Equipment	Usage
1.	ICT Enabled Class Rooms	1 PG Class rooms with Computer Systems and LCD Projectors	For educational video, PPT, conferencing , teaching and learning
2.	PG –R & GIS Computer Lab	10 Computers Systems	For working with different watershed, rainfall-runoff simulation
3.	ICT Enabled Seminar Hall	High Speed Internet Line connectivity, camera	For online interaction with University key officials by students and staff, online interaction with different subject experts in different streams

Different ICT Software's Used at CAEPHT, SWCE department

S. No	ICT Application	Usage
1.	Arc GIS software	ArcGIS is a geographical information system (GIS) software that allows handling and analyzing geographic information by visualizing geographical statistics through layer building maps like climate data or trade flows.

2.	ERDAS	image processing software package that allows users to process both geospatial and other imagery as well as vector data. Erdas can also handle hyperspectral imagery and LiDAR from various sensors. Erdas also offers a 3D viewing module (VirtualGIS) and a vector module for modeling.
3.	Geometica Software	a complete and integrated desktop **software** that features tools for remote sensing, digital photogrammetry, geospatial analysis, map production, mosaicking and more.
4.	Surface Water Modelling	SMS (surface-water modeling system) is a comprehensive environment for one, two, and three dimensional hydrodynamic modeling.
5.	Watershed Modelling System	A proprietary water modelling software application used to develop watershed computer simulations. The software provides tools to automate various basic and advanced delineations, calculations, and modeling processes.
6	Ansys Academic Mechanical	The software is being used by the master's students in the design of a greenhouse.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,*Ph.D. (Agricultural Engineering) in Soil and Water Conservation Engineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4. SELF STUDY REPORT FOR POST GRADUATE DEGREE PROGRAMME

6.4.1 Brief History of the P.Hd. (Farm Machinery and Power Engineering) Degree Programme

Background Information

College of Agricultural Engineering & Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal) to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, pertaining to natural resource management, farm mechanization, post-harvest technology, processing & value addition, utilization of renewable sources of energy, creation of agro-industries etc. in the region.

The department of Farm Machinery and Power Engineering (FMPE) started Ph.D program in Farm Machinery and Power Engineering in 2016 with an initial intake capacity of two students. The activity of the department pertains to the areas of small farm mechanization, conservation agriculture machineries, soil dynamics in tillage and traction, ergonomics and safety in farm machinery, effective utilization of animal energy and testing of farm equipment. FMPE department gives exposures about different aspects of farm machinery design, computer aided design, ergonomics study, soil dynamics study and conservation agriculture machineries.

The Department of Farm Machinery and Power Engineering is mainly engaged in teaching to under graduate, post graduate and Ph.D. students. The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers and entrepreneurs. The faculty of the department has completed 01 Extra Mural Research Project and 8 Intra Mural Research Project. The Department of Farm Machinery and Power Engineering is having three All India Coordinated Research Projects since 2009 namely Farm Implements and Machinery, Ergonomics and safety in Agriculture and Utilization of Animal Energy. The department has also established a farm machinery testing center in 2012 to cater to the need of manufacturers for testing of farm machineries in the region.

In Ph.D presently three students are perusing Ph.D in the department. To date, 7 students have completed post-graduation from the department and 05 students are presently undergoing their M Tech (Agri Engg) with specialization in Farm Machinery and Power Engineering in the department. The department also hosted one international student for M.Tech. program in 2017-19.

FMPE department is having Farm Machinery, Farm Power, Soil Dynamics, Testing, Ergonomics, Theory of Machine and Thermodynamics laboratories provide practical knowledge to the students and also to demonstrate and organize training to farmers and field engineers, entrepreneurs etc. The department also has a well equipped mechanical workshop to cater to the need of PG research of the department as well as college. The Workshop is also sued for imparting practical training to UG students as well as trainees. The resources of the AICRPs of the department are helpful in the conduct of PG research.

6.4.4 Classrooms & Laboratory

Classrooms

Sl. No.	Class room No.	Area (sq. m)	Seating capacity	Other facilities (LCD, Projectors, Computers, Smart board etc.)
1.	PG classroom 1	14.00	8	Whiteboard

The department has one LCD projector which is used by the faculty for delivering lectures and seminars

Laboratory

The Department of Farm Machinery and Power Engineering has 7 laboratories and one workshop to carry out UG/PG/Ph.D practical as well as PG/Ph.D research. All the laboratories are well equipped with all facilities to carry out research.

(a) Details of Laboratories available

Sl. No.	Name of laboratory	Area (Sq m)	Remarks
1.	Farm Machinery Laboratory	90	Well-equipped will all necessary equipment to conduct hands on training and practical classes for the UG students.
2.	Farm Power Laboratory	128	
3.	Ergonomics And Safety Laboratory	135	

4.	Soil Dynamics Laboratory	160	The laboratories are also equipped with up-to-date equipment which are useful for the research activities. The lists of the equipment available are given below.
5.	Farm Machinery Testing Laboratory	40	
6.	Thermodynamics and Heat Engine Laboratory	17	
7.	Theory Of Machine Laboratory	17	
8.	Workshop	323	

(b) Lists major Equipments:

The laboratories are well equipped to conduct the practicals/hands on training to the students and carry out PG/Ph.D research. The lists of instruments/ equipments available in the laboratories are furnished below.

Table 7: list of major equipment in department of Farm Machinery and Power Engineering

1. Farm Machinery Laboratory
1. Multi Crop Thresher
2. Self Propelled Vertical Conveyor reaper
3. T/D inclined plate planter
4. Pedal cum power operated cleaner and grader
5. Rigid tyne cultivator
6. Spring loaded cultivator
7. Tractor mounted offset disc harrow
8. Tractor mounted disc plough
9. Tractor mounted M.B.plough
10. Modular inclined plate planter
11. Tractor mounted raised bed planter
12. Tractor mounted seed cum fertilizer drill
13. Multi crop plot thresher
14. Semi axial flow thresher (SAF 750)
15. Auger digger
16. Power tiller operated seed cum fertilizer drill
17. Manual seed cum fertilizer drill
18. manual groundnut decorticators
19. Manual rice transplanters
20. Pre-germinated paddy seeder (4 rows)
21. Manual hand tools and equipments like wheel hand hoe, Hand Ridger, Grubber weeder, Serrated sickle, Naveen Dibbler, hand maize sheller etc.
22. Knapsack sprayers
23. Rocking sprayer
24. Hand rotary duster
25. foot sprayer
26. Ganesh sprayer
27. Parth Hand Sprayer
28. Hand compression sprayer
29. Motorized knapsack mist blower cum dusterr
30. Pedal operated thresher
31. Power operated wire-loop thresher with winnower

32. Small power paddy thresher (hold-on type)
33. Small power paddy thresher (Axial Flow type)
34. Animal drawn patella harrow
35. Animal drawn patella puddler
36. Animal drawn three row seed drill
37. Animal drawn 3 row seed cum fertilizer drill
38. Animal drawn 2 row mustard drill
39. Animal drawn lug wheel puddler
40. Animal drawn ground nut digger
41. Mini power maize sheller
42. Mini power chaff shredder
43. Manual and motor operated chaff cutter
2. Farm power laboratory
15. Single cylinder two stroke petrol engine
16. Single cylinder 4 stroke diesel engine
17. Tractors (Mahindra B 275, New Holland)
18. Power tillers (12 hp, 6.5 hp, 5.5 hp)
19. Tractor Working Cut Model
20. Diesel fuel supply system model
21. Clutch system model
22. Brake System model
23. Stearing mechanism of tractor model
24. Cut model of 2 stroke Diesel engine
25. Cut model of 4 stroke Diesel engine
26. Actual cut model of single cylinder 2-stroke engine
27. Cross section of cylinder block
28. Components of engine (crank shaft, piston, connecting rod, rocker shaft, valve, valve spring guide etc.)
3. Ergonomics And Safety Laboratory
11. Integrated Composite anthropometer (ICA)
12. computerized electric ergometer
13. Computerized human energy measurement system with telemetry (K4B2)
14. Polar heart rate monitor
15. Strength measurement setup
16. Novatech load cell
17. Sphygmo manometer
18. Stethoscope
19. Thermometer (digital)
20. Digital Camera
4. Soil Dynamics Laboratory
7. Automated soil bin with sensors and digital control panel
8. Dynamometer
9. Motorized sieve shaker
10. IS Sieve set for soil analysis
11. soil analysis kit
12. Proving ring cone penetrometer
5. Farm Machinery Testing Laboratory
11. Digital tachometer

12. Digital soil moisture meter
13. Digital thermometer
14. Digital anemometer/barometer/humidity sensor
15. Digital weighing balance
16. Digital vibration and noise meter
17. Digital soil penetrometer
18. Digital energy logger
19. Spray patternator testing rig
20. Mini tractor (Kubota 21 hp)
21. Rotavator for small tractor
6. Thermodynamics And Heat Engine Laboratory
13. Multi-cylinder petrol engine test rig with electric dynamometer
14. Twin cylinder diesel engine test rig with electric dynamometer
15. Two stroke petrol engine test rig with rope brake dynamometer
16. single stage air compressor test rig
17. Lancashire Boiler model
18. Cochran Boiler model
19. cornish Boiler model
20. Vertical water tube boiler model
21. Locomotive Boiler model
22. Babcock & Wilcox Boiler Model
23. Model of steam engine
24. Boiler mountings and accessories model (Blow off cock, stop valve, feed check valve, economiser, pressure gauge, water gauge, fusible plug, dead weight safety valve, spring loaded safety valve)
7. Theory Of Machine Laboratory
7. Universal Governor Apparatus
8. Cam Analysis Apparatus
9. Motorized Gyroscope
10. Static & Dynamic Balancing Apparatus
11. Coriollis component of acceleration apparatus
12. Epicycle Gear train apparatus
8. Workshop
21. HMT Lathe machine (05 Nos)
22. wood working lathe machine
23. Power hacksaw machine
24. Radial drill machine
25. Overhead crank shearing machine
26. Hydraulic press
27. Arc welding machine (2 Nos)
28. MIG welding machine
29. TIG welding machine
30. Gas welding setup
31. Pipe bending machine
32. Sheet rolling machine
33. Pedestal grinder machine
34. Chop saw machine
35. Work tables with bench vices

36. Carburizing furnace
37. Painting oven
38. Sheet shearing machine
39. Milling machine
40. Shaper machine
41. Smithy furnace with envils and swedge blocks

(c) Average Number of Students in Theory and Practical Classes

Postgraduate students are less in number and are grouped into one theory batch and one practical batch.

Sl. No.	Name of the department	Theory Batch	Practical Batch
1.	Farm Machinery and Power Engineering	Full strength	Full strength

6.4.5 Conduct of Practical and Hands-On-Training

Course curriculum for master degree programme has been designed with special emphasis on novel areas of farm machinery and power engineering. Systematically planned practical classes are conducted for the students in the department as per the credit assigned for the course. Whenever required, hands-on-training are also conducted for courses like system simulation and computer aided problem solving in engineering for PG/Ph.D students of the department. Besides, the students are also sent to progressive farmers' field to gain a firsthand experience and exposure to the practical problems in farming especially in hilly terrain conditions. The students also get exposure to farmers and interact with them during Technology and Machinery Demonstration Mela organized by the college every year. Glimpses of the laboratory facilities and students activities are presented below.

6.4.6. Supervision of students in PG Programm:

Ph.D program started in the department in 2015-16 with intake capacity of two students. The first Ph.D student admitted in 2016-17 and is yet to submit thesis. The number of students supervised by Faculty in the Department of Farm Machinery and Power Engineering as per the guidelines is listed below.

Table 10: Number of students supervised in last five years in FMPE department

Name of the Degree Programme	year				
	2015-16	2016-17	2017-18	2018-19	2019-20
Number of Ph.D (FMPE) students	-	1	-	1	2
Ph.D Recognized teacher	0	1	1	2	2
student to teacher ratio	-	1:1	-	1:2	1:1

Table 11: Details of the Master thesis supervised in FMPE

Sl. No.	Title of the Thesis	Name of the Student	Year of Completion
1.	Design and Development of Mechanically Metered Self	Mr. Kshitij Adhikari	2015

	Propelled Rhizome Planter		
2.	Design and Development of Solar - Biomass Hybrid Dryer for Large Cardamom Drying	Mr. Vishnu Sankar A	2017
3.	Development of Ergonomically Designed Pedal Operated Maize Sheller for Sikkim Women Workers	Ms. Vusa Manisha	2019
4.	Optimization of Operating Parameters of Rotavator for Soil Tillage Quality of Medium Textured Soil under Soil Bin Condition	Mr. Philipo William Kulaya	2019
5.	Design, Development and Performance Evaluation of Zero-Till Planter Matching to Mini Tractor for Small Farm Mechanization	Mr. Lilesh Patel	2020
6.	Development of Ergonomically Designed Cashew Nut Sheller	Mr. Rahul Nath	2020
7.	Design and Development of a buckwheat thresher for small farm mechanization	Mr. M. Mohammad Sohail	2020

Faculty profile

Sl. No.	Name of the faculty	Designation	Qualification	Experience, Years	No. of students guided/guiding		
					B.Tech	M.Tech	Ph.D
13.	Dr. S. N. Yadav	Professor	Ph.D.	38	11	4	2
14.	Dr. N. S. Chauhan	Professor	Ph.D.	19	14	3	1
15.	Dr. S. K. Satpathy	Assistant Professor	Ph.D.	16	8	2	0
16.	Er. S. S. Das	Assistant Professor	M.Tech*	18	6	0	0
17.	Er. S. K. Chauhan	Assistant Professor	M.Tech	9	10	0	0
18.	Er. Ng. Devrani	Assistant Professor	M.Tech*	4	3	0	0

***Persuing Ph.D program**

6.4.7. Feedback of stakeholders: (Students, Parents, Industries, Employers, Farmers *etc*.)

- Regular advisory meetings are conducted for the students by their respective supervisors and collect feedbacks from the students.
- Every year in in the month of Feb-March, Technology and Machinery Demonstration Mela is being organized by the department where a farmer-scientist interaction meeting is organized for getting feedback from the farmers
- Improved technologies developed by the department are being demonstrated to the farmers and through Front line demonstration programmes under AICRPs and farmers feedback are obtained for further improvement in the machines, if needed.
- Interface meetings with line department officials, KVKs, ICAR -NOFRI, are organized for planning of future research and extension activities of the department.

6.4.8 Student Intake and Attrition in the Programme for Last Five Years

Year wise information on sanctioned strength, actual intake and attrition during the last five years of the degree programme are furnished in the tabular form. This attrition is due to students getting regular jobs in their respective state government etc.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2015-16	**Farm Machinery and Power Engineering**	2	0	0	0
2016-17		2	1	0	0
2017-18		2	0	0	0
2018-19		2	1	1	100
2019-20		2	2	0	0

6.4.9 ICT Application in Curricula Delivery

ICT enabled teaching-learning encompasses a variety of techniques, tools, content and resources aimed at improving the quality of learning and variety of options are available to the teacher and students to utilize various ICT tools at CAEPHT, Ranipool for effective teaching and learning. Teachers participate in selection and critical evaluation of digital content and resources. They are also encouraged to develop their own digital resources, sharing them with colleagues and students through the digital repositories. For this each individual staff allotted with high configured computer system and connected with high speed Internet facilities for sharing digital contents. During the time of corona pandemic, the classes were conducted totally via online mode using Google meet, zoom etc.

Below Mentioned ICT facilities are well established in the college during the period of 2015-16 to 2020-21. Detailed ICT Lab facilities are listed below:

S.No.	Name of Lab/facility	Equipment	Usage
1.	ICT Enabled smart Class Rooms	1 PG Class rooms with Computer Systems and LCD Projectors	For educational video, PPT, conferencing , teaching and learning
2.	AUTO CAD Lab	CATIA (V6) installed in 17 computers in the central computer lab	used for practical class, imparting trainings and used by the students and faculty for 3D modeling and designing
3.	ICT Enabled Seminar Hall	High Speed Internet Line connectivity, Computer Systems and LCD Projectors camera	For online interaction with University key officials by students and staff, online interaction with different subject experts in different streams

Our Library is having more than 7832 Books for use by the Students. It is also having various facilities where student can go through various Journals, Books etc. online either in the Library or Class Rooms or Departments or in their Hostel rooms etc.. The Library provides Circulation and reference services. All the in-house operations of the Library are fully computerized using the network version of the library software KOHA with web OPAC (Online Public Access Catalogue) facilities. The library has also access to online e-journals through CERA (Consortium for e-Resources in Agriculture) and IP address has been activated to access the online journals through CERA in entire CAEPHT Campus. Plagiarism check for M.Tech & Ph.D. thesis was/is done through Ant plagiarism software URKUND in library. Photocopying & Printing facilities are also available in the library. Students used all these facilities during the period under report. For data analysis students used software viz., Design Expert, Origin etc. related to statistical analysis.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* Ph.D.

(Agricultural Engineering) in Farm Machinery and Power Engineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12

6.4. SELF STUDY REPORT FOR DOCTORAL DEGREE PROGRAMME

6.4.1 Brief History of the Ph. D. (Processing and Food Engineering) Degree Programme

Keeping in view the high potential of applications of agricultural engineering and post-harvest technological interventions in improving the agricultural scenario of NEH region and to address to the issues of shortage of trained human resource in this discipline, the College of Agricultural Engineering and Post Harvest Technology (CAEPHT) was established in May 2006 by Central Agricultural University (CAU), Imphal at Ranipool, Gangtok (Sikkim). Initially 20 students were admitted in B.Tech. Agril. Engg. Programme, at the time of establishment in 2006. The college has marched ahead to offer two B.Tech. (B.Tech. Agri. Engg. and B.Tech. Food Tech.), five M.Tech. (Farm Power & Machinery, Soil & Water Engg., Processing & Food Engg., Irrigation and Drainage Engineering and Renewable Energy Engineering) and three PhD (Farm Power & Machinery, Soil & Water Engg. and Processing & Food Engg.) degree programme.

Since, 2006, B.Tech in Agricultural Engineering is continuing. B.Tech in Food Technology is also continuing since 2010. After three Batches of B.Tech in Agricultural Engineering were passed out a need was felt to initiate a M.Tech Programme in Processing &Food Engineering. Hence, a new programme entitled M.Tech (Processing & Food Engineering) was initiated during 2013. After four years of M.Tech Programme a need was felt to initiate a Ph.D. programme in Processing & Food Engineering. **Since 2017-18** a Ph.D. programme in Agricultural Engineering with specialization in Processing & Food Engineering is running in the College of Agricultural Engineering & Food Technology.

6.4.2 FACULTY STRENGTH

As per the Fifth Dean Committee, **Forty Four faculty members** (Seven Professors, Thirteen Associate Professors and Twenty Four Assistant Professors) are needed to teach and guide the students of B.Tech, M.Tech and Ph.D. courses related to Agricultural Engineering. The sanctioned strength of various faculties at this college is **Forty Six**. At this College the following Faculty members were involved in teaching and guiding the students of Two B.Tech, Five M.Tech and Three Ph.D. level courses during 2015-2020.

Faculty	Number	Permanent	On contract/ from other sister organizations/ guest	Faculty recommended by the ICAR/5th Dean's Committee	Faculties involved in teaching of Ph.D (PFE)
Professor	7 including Dean	5 including Dean	1 (On Contract) 1(as guest)	7 including Dean	2
Associate Professor	4	3	1(as guest)	13	2
Assistant Professor	34	26	2(as guest) 3 (sister organization- COH) 3 (on Contract)	24	5

** All the faculty were assigned the responsibility for the multiple programme (Bachelor level, PG level and Ph. D Levels)*

However, nine faculties (Two professors, Two Associate Professor and Five Assistant Professor) were involved in teaching and guiding the student in Ph.D. (Processing & Food Engineering). Information regarding the designation and qualification of various faculty members are given below.

Information regarding faculties teaching and guiding Ph.D. (Processing and Food Engineering) programme

Classification of Courses	Title of Course	Faculty	Qualification
Major Subject	Textural and rheological characteristics of food materials (2+1)	Dr. Said Prashant P. Asst. Prof.	Ph.D
	Advances in Food Processing (3+0)	Dr. Sujata Jena, Associate Prof.	Ph.D
	Agricultural Waste and By-Products Utilization (2+1)	Dr. Said Prashant P. Asst Prof.	Ph.D
	Mathematical Models in Food Processing (3+0)	Dr. Sujata Jena, Associate Prof.	Ph.D
	Advances in Drying of Food Materials (2+1)	Dr. Sujata Jena, Associate Prof.	Ph.D
Minor Subject	Water quality and pollution control(3+1)	Dr. G.S. Yurembam Asst.	Ph.D

		Prof.	
	Agro-energy audit and management 3(2+1)	Prof. M. S. Seveda Professor	Ph.D
	Design of Bins and Silos (2+1)	Dr. J Panda, Associate Prof.	Ph.D
Supporting Subjects	Mathematical methods for applied sciences (2+0)	Dr S. K. Meher Asst. Prof.	Ph.D
	Statistical Methods for Applied Sciences (3+1)	Mrs. T. Loidang Chanu Asst. Prof.	M.Sc
Seminar	Doctoral Seminar-I (1+0)	Dr. R.P. Misra, Professor Dr. S. Jena Associate Prof.	Ph.D Ph.D
	Doctoral Seminar-II (1+0)	Dr. R.P. Misra, Professor Dr. S. Jena Associate Prof.	Ph.D Ph.D
Research	Doctoral Research (0+45)	Dr. Sujata Jena(Associate Professor) Dr. B. K. Singh(Assistant Professor)	Ph.D Ph.D

6.4.3 TECHNICAL AND SUPPORTING STAFF

The college is employing staff as per the recommendations of various Dean's Committee. All the Technical, Supporting, Administrative and Ministerial Staffs are **having responsibilities for multiple programs (B.Tech, M.Tech and Ph.D.)**. Along with the various teaching facilities the college is also having **well furnished/ equipped and well staffed**, separate hostels (including Mess) for Boys and Girls, Medical Unit (including one Medical Officer, Pharmacist, Male and Female Nurses), Gymnasium in Boys and Girls Hostel, Sports facilities (Indoor within the college and Outdoor in collaboration with Sikkim Government School/College) , Guest House, Canteen, Auditorium, Mini Auditorium, ATIC, Library, Farmers Produce Processing cum Skill Development Centre, Business Incubator, Academic Unit, Audit & Account Unit, Establishment Unit, Purchase Unit, Vehicle section (including one Big Bus , one Mini Bus, two trucks, one jeep and one Ambulance), Estate Section, Security section, parking space, separate toilets(for ladies and gents) within the buildings and outside the buildings etc. All these facilities are available to the students. The hostels are managed by wardens (one male Professor for Boys Hostel and one female professor
for Girls Hostel). There are facilities for Yoga and Meditation, Self Defence etc. A student welfare Officer had guided and helped the students during the period under report.

Various laboratory/facilities are having one Field-cum-Lab Assistant and Multi-Tasking Staff. There are various outside funded projects including four All India Coordinated Research Projects & one Farm Machinery Testing Centre. Many University projects are also running in the various departments of the college. In these projects many technical personals and Multi Tasking staff are also working. Similarly many technical and supporting staffs are working in the college on contract. All these staff/ man power are available to the students during course of their Practical Work and Project Work.

6.4.4 CLASSROOMS&LABORATORY

There are sufficient classrooms in various divisions, which are being used by the students of Ph.D. (Processing & Food Engineering). The smart class room facility is being also utilized by the students of Ph.D. (Processing & Food Engineering). There are various labs which are being utilized by various UG, PG & Ph.D. Programs. These labs are well equipped as per the recommendations of various Dean's Committee.

Details of the Laboratory and the equipment being used are given below.

Sl. No.	Name of the Laboratory
35.	**Food Engineering laboratory** (consisting of Food Process Technology unit and Food Product Development unit) (Area- 228.28m^2)
36.	**Process Engineering laboratory** (consisting of unit operation lab, packaging unit etc.) (Area- 92.77m^2)
37.	**Food Analysis laboratory** (consisting of Food Rheology and sensory unit, Food Bio-Technology unit and Food Analytics unit etc.) (Area-93.24 m^2)
38.	**Agricultural Structures & Environmental Control Laboratory Engineering laboratory** (consisting of Heat, Mass & Refrigeration – Air Conditioning Unit)(Area- 80.71 m^2)
39.	**Pilot Plant for Milk Processing** including Dairy Technology Lab, chiller unit, spray dryer unit& milk reception unit etc.(Area-201.51 m^2)
40.	**Pilot Plant for Fruits and Vegetable** including Cottage scale soya paneer plant (Area-124.03 m^2)
41.	**Multi stage evaporator with aroma recovery system**(Area-20.9m^2)
42.	**Shed for Feed and Fodder crusher and seed processing unit** etc.(119.66 m^2)
43.	**Mini Rice Mill** (Area 148.65m^2)
44.	**Farmer's Produce Processing cum Skill Development Centre** (Area 265.26 m^2) (consisting of Ginger & Turmeric Processing Plant – Area 72 m^2, Unit of Minimal Processing of Fruits and Vegetable– Area 17.84m^2, Bakery unit– Area 23.78m^2, Noodles unit– Area17.84 m^2, Potato Chips unit –Area 17.84 m^2, store–Area 25.65 m^2, kitchen –Area 17.84 m^2, class room–Area 27.87 m^2, training hall –Area 44.6 m^2)
45.	**Biochemistry Lab**
46.	**Microbiology Lab**
47.	**Workshop**
48.	**Computer Lab**

Major equipment in Processing & Food Engineering Department

- Steam Distillation set up
- Fruit pulper
- Feed mixer (planatory mixer, planatory mixer (vacuum jacketed), planatory mixer (heating jacketed), double cone mixer, Blender SVB, Cube Mixer, Lab Kneader, Powder Mixer, Agitator, Drum Hoop Mixer-SDHM, Lab mass mixer SLMM, horizontal main drive SHMD-A.C., Universal Gear)
- Coconut tree climber
- Coconut dehusker
- Pasta Extruder
- Essential Oil distillation Unit
  - Solid Liquid Extraction unit
  - Steam Distillation Set up
  - Simple batch distillation unit
- Refrigerated centrifuge with Micro processor
- Rotary vacuum filter & Leaf Filter
- Refrigerated centrifuge CPR 24
- Plate heat exchanger
- Usha make Gerber Centrifuge
- Usha make centrifuge separator
- Vegetable Blancher
- Vacuum Tray Dryer
- General cycle refrigeration trainer
- Heat transfer through lagged pipe apparatus
- Heat transfer through composite walls apparatus
- Mechanical heat pump trainer
- Plate type heat exchanger
- Recirculation type air conditioning trainer
- Stefan Boltzmann apparatus
- Thermal conductivity of insulating slabs by guarded hot plate method
- Thermal conductivity of insulating powder
- Micrometer Precise Thickness
- Shrink Wrapping Machine
- Aspirator/ Cyclone Separator
- Automatic Foam Fill Seal packaging
- Vacuum Packaging Machine
- Steam Jacketed cooking kettle
- Butter churn
- Vacuum oven
- Vacuum Tray Dryer
- Laboratory Pasteurizer
- Shrink Packaging Machine Model-CP-2030
- Laboratory homogenizer
- Micro Pulverizer (hammer mill)
- Feed and Fodder crusher
- Feed Block Formation Machine
- Food Extruder
- Fruit and Vegetable Juice and paste Processing Plant
- Boerner conical divider
- Bucket elevator
- Multipurpose grain mill
- Super critical fluid extraction unit
- Foot Sealer
- Fermenter
- Hand sealer
- Electronics Grain Moisture Meter
- Angle of Repose apparatus
- Digital Humidity Sensor and Indicator
- Hot Air Oven
- Electronic weighing balance (2.2kg)
- Electronic weighing balance ZSP-350 (300g)
- Digital balance model –(A-224) make Contech Capacity-220gm
- Digital Precision Electronic Balance
- Apparatus for thermal conductivity of insulating powder
- Convection apparatus (natural)
- Convection apparatus (forced)
- Concentric tube heat exchanger (finned tube type)
- Concentric tube heat exchanger (plain tube type)
- Emissivity measurement apparatus

Machine • Rubber Roll Sheller • Rice Whitener/Polisher • Indented Cylinder Grader/ Separator • Vibratory Screen Grader • Freeze Dryer • Food texture analyzer • Rapid visco analyzer • BOD Incubator with shaker • Automatic Fibre Extraction system • Digital Refractrometer PAL • Laminar Flow • Fruit and Vegetable Plant • Milk Processing Plant • Multi stage evaporator with aroma recovery system • Cottage scale soya paneer plant • Seed processing plant • Modern rice mill (0.5 t/h capacity) • Mini Dal Mill • Milk analyzer Master Clasic • Oxygen and CO_2 Headspace Gas analyzer plus Flexible packaging kit • Microwave oven • Water Bath • Laboratory Spray Dryer • Cream Separator • Freeze Drier • Digital Satorious Infra-red Moisture Meter • pH meter • Chromameter • Autoclave	• Digital temperature meter • Electronics Socs Plus Automatic Three Place Solvent Extraction Apparatus (Soxlet) • Microscope-Ex-21 set Binocular Brand-OLYMPUS • Viscometer • Usha Make Centrifuge Separator • Usha Make Gerber Centrifuge (2nos) • Water Activity Meter • Samsung Freeze with stand • Water Purification System • Ginger Washing Machine • Vegetable Cutting Machine • Spice processing plant ○ Ginger /Turmeric peeler cum polisher ○ Garlic Bulb Breaking Machine ○ Garlic Clove Flaking Machine • Ginger Processing Machine (Complete Unit) • Turmeric Grinder • Potato Slicer • Vegetable Washing Machine • Complete unit of Potato Chips Machine • Complete Unit of Biscuits Making Machine • Complete Unit of Noodle Making Machine • Ginger Paste and Powder Making Machine • OTG Oven

6.4.5 CONDUCT OF PRACTICAL ANDHANDS-ON-TRAINING

Theory and Practical batches for the Degree Programme

There are manageable number of students who are kept in one batch during Theory & Practical classes to ensure better delivery of information, encourage students' participation and active monitoring. Students conducted their practical training in various Laboratory, Pilot plants and Farmers Produce Processing Cum Skill Development Centre of the college. **We have provided practical as well as hands on training to students of various other universities, such as Sikkim University, CAU (COFT, COH), NIFTEM, Mizoram University etc.**

Average number of students in theory and practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical

1.	**Ph.D. (Processing and Food Engineering)**	Full strength	Full strength

6.4.6 SUPERVISION OF STUDENTS IN Ph.D. PROGRAMME

There are sufficient numbers of qualified and experienced faculties who are guiding Ph.D. students in the area of Processing & Food Engineering. The names of the faculties who are entitled to guide Ph.D students are given below.

Sl. No.	Name of the faculty	Designation	Qualification	Experience	No. of students guided/guiding		
					B.Tech	M.Tech	Ph.D
19.	Dr. R. P. Misra	Professor	Ph.D.	44 years	6	-	-
20.	Dr.(Mrs.)Sujata Jena	Associate Professor	Ph.D.	15 years	32	5	1
21.	Dr. B. K. Singh	Assistant Professor	Ph.D.	25 years	33	3	2
22.	Late Dr. A. I. Singh	Assistant Professor	Ph.D.	15 years	25	-	-
23.	Dr. Said P. P.	Assistant Professor	Ph.D.	6 years	11	2	-
24.	Dr. Rakesh Kr. Raigar	Assistant Professor	Ph.D.	6 years	7	2	-

6.4.7 FEEDBACK OF STAKE HOLDERS

In our University most of the faculty members are made Advisor of about 10 students. There has to be at least one meeting (mostly on Saturday) of the students with their Advisors. Students raised their various problems (academic, personal etc.) with the Advisor. The Advisors helped the students to solve their problem. In case, help of some particular faculty member/ staff/ Dean were needed, Advisors took their help and solved the problem.

There was / is a register with the Student Welfare Officer of the College, in which any student can raise their problems (related to academic, hostels etc.). The Student Welfare Officer brought the problem to the notice of the Dean of the College. Dean discussed the issue with the Student/ Group of Students/faculties/ officials and took remedial measures.

For example fourteen complaints were received on 10/08/16. Most of the complaints were regarding repair of electrical items and civil work in Hostels which was promptly attended by AE (Civil) and JE (Electrical). Few problems were related to Wi-fi LAN etc. which was tackled by computer operator. There was a suggestion regarding digitalization of library which was already in progress. On 22/10/16, a complaint was received regarding issue of identity card which was immediately attended. On 21/10/16, complaints were received regarding practicals of two courses. Chemicals etc. were purchased and practicals were completed within a week. On 08/12/16 a complaint was received regarding water purifier in Girl's Hostel which was attended and rectified in due course of time. On 24/03/18, a complaint was received regarding non- working of LAN in New Girl's Hostel which was immediately attended by computer operator.

During Farewell of the final year students they sometimes raised the problem faced by them during their stay of four years in the college. After knowing their problems Dean and Faculty tried to implement their suggestions.

In every Semester there was a meeting of Dean with representative of Students to discuss their problems related to teaching, hostels, etc. Generally Students raised their issue which used to be discussed in the meeting. The issues which can be solved at the College level were settled in the College itself. The issues which needed the attention of the Vice-Chancellor were sent to him for satisfactory solution.

CAU organized Agricultural Fair every year in various states of NEH. During these fair many parents visited these fairs. Many times parents also visited the college or talked to various officials over phone. During these visits and discussions they appreciate the facilities and academic atmosphere of the college. Sometimes they also made various suggestions. Many times college implemented these suggestions. Every Year College also organized Technology Demonstration Mela / Farmers' Agriculture Fair. Many farmers of NEH region visited these Mela /Fair. During their visit interaction between various faculties and farmers were held and we got their opinion regarding various academic works, hostels and other facilities of the college.

Extension council meeting of the college and University were regularly held every year. During these meeting, progressive farmers, members of FPO, members of SHG, state government officials, entrepreneurs etc. participated and gave their feedbacks and suggestions.

During hands on training students interacted with various industries. During discussion of owners/ officials of these industries with various faculty members they appreciated the theoretical, practical knowledge and hard work of the students. **Govt. Fruit Preservation Factory (Sikkim Supreme) and Zydus Healthcare Pvt. Ltd., Sikkim have paid students a handsome amount during their hands on training.**

During their hands on training students interacted/ worked with entrepreneurs, farmers, FPO, SHG etc. During discussion with the faculty members these people appreciated the help, knowledge and hard work of the students.

A brain storming session was held in Dec 2020 at CAEPHT, Sikkim to discuss and finalize the researchable issues related to Post Harvest Technology for Central Agricultural University. All the faculty member of various colleges and KVK related to Post Harvest Technology participated in this session. **Two experts viz., Dr. Suvendu Bhattacharya, Professor, ACSIR & Chief Scientist (Retd.), Central Food Technological Research Institute, Mysore, and Dr. Abhijit Kar, Principal Scientist, Division of Food Science & Post Harvest Technology, Indian Agricultural Research Institute, New Delhi,** also participated in this session. Their suggestions have been incorporated.

We have trained (through demonstration, short duration training, vocational training, training in the field etc.) many entrepreneurs & farmers (around 1000 numbers) during last five years in preparation of various food products such as paneer, ice-cream, cream, ice-candy, jam, jelly, sauces, RTS, squash, candy, osmo-dehydrated pineapple rings, pasta, pickle, turmeric powder, ginger flex & powder, potato chips, noodles, yacon syrup (prepared from ground apple) minimal processing of fruits & vegetables, cookies, cake etc. At the initial stage some of the entrepreneurs used our facilities for commercial manufacturing of these items. After few years they have established their own production units. Few of the entrepreneurs/farmers have received awards also. For example Shri. Shisir Khadka (established Sundar Sikkim) and Shri Kailash Rana used the facilities available at Farmers Produce Processing cum Skill Development Centre, CAEPHT, Ranipool for few years (2015-2018) under the guidance of faculty and technical staff. Shri. Shisir Khadka was bestowned with "**AIFA Progressive Farmers Award**" during 2017. He was also issued an appreciation letter and appointed as **State Coordinator of SEED Cell** (Sikkim Entrepreneurship and Economic Development Cell) by the Sikkim Government during 2020-21. **He was also made member of extension council of CAU.**

Furthermore, considering the facilities, faculty, other resources, ability and interest of the college in training the farmers, entrepreneurs, and subject matter specialist, Government of Sikkim requested for conducting six training in various areas. **The Government had sanctioned Rs. 7.5 lakhs for these six trainings.** It was also requested to establish a Farmers' produce processing-cum-skill development center

at CAEPHT, Ranipool. **The Sikkim Government handed over machines (11 units, costing approximately 100 lakhs)** for processing of ginger, turmeric, vegetables, potato, bakery and noodles to the center for imparting training to farmers, entrepreneurs, students and scientists. **Government of Sikkim also sectioned Rs. 9.90 lakhs for conducting 20 rounds of trainings/demonstrations in this center**. The college has provided trainings to about 1000 beneficiaries. **Sashastra Seema Bal had also deputed, youths from border region of the Sikkim for attending the training on processing of horticulture crops.** The SSB also had sectioned fund for the training programme. Women self help group from SSB were also provided training at the FPPSDC.

Considering the facilities, faculty, other resources, ability and interest of the college in training the **Government of Orissa deputed five batches of state government officials for model development programme and provided necessary fund for the cause.**

In addition to this, Power Finance Corporation ltd. sponsored three 90 days vocational training programme for Youth of North-Eastern states of India. The National Skill Development Council, New Delhi, has sponsored two one month duration vocational trainings.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR LAST FIVEYEARS

Name of the Degree Programme	Actual students admitted in last five years				Attrition (%)			
Year	2017-18	2018-19	2019-20	2020-21	2017-18	2018-19	2019-20	2020-21
Ph.D. (PFE)	01	01	01	01	0	0	0	0

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY

College is having a well-equipped Computer Lab with Internet LAN Connection, 10 KVA UPS, 20 Computers. All the six departments and various externally funded Projects are having Computer facilities which were used for teaching, practical, project work analysis etc. of students. The college is having a system (e- collection) through which students deposited their fees etc. online itself. All the funds either from the University or from various funding agencies for various outside funded projects were/are deposited in the college account through Public Finance Management System. Wi-Fi availability and internet services are available in the whole campus (Academic buildings including class rooms, hostels, residential colony).

Our Library is having more than 7832 Books for use by the Students. It is also having various facilities where student can go through various Journals, Books etc. online either in the Library or Class Rooms or Departments or in their Hostel rooms etc. The Library provides Circulation and reference services. All the in-house operations of the Library are fully computerized using the network version of the library software KOHA with web OPAC (Online Public Access Catalogue) facilities. The library has also access to online e-journals through CERA (Consortium for e-Resources in Agriculture) and IP address has been activated to access the online journals through CERA in entire CAEPHT Campus. Plagiarism check for M.Tech. & Ph.D. thesis was/is done through Ant plagiarism software URKUND in

library. Photocopying & Printing facilities are also available in the library. Students used all these facilities during the period under report.

Furthermore, occasionally college organized various courses on Computer programming and on their use. During 2015-16 a course on Computer Aided Design was organized for the students. Er. B. K. Garg, Retired Principal Scientist, Central Institute of Agricultural Engineering, Bhopal coordinated this training.

For data analysis students used software viz., Design Expert, Origin etc. related to statistical analysis. Use of CATIA software by students for 3D modeling and design of processing equipment was very useful for them.

Workshop on 'Online Safety: social surfing 30' was organized on 18.11.17. There were/are many videos on various topics related to various subjects and machines. These videos are prepared by faculties of renowned organization such as Indian Institute of Technology. Our faculties have also prepared many videos, presentations (slide with audio). These videos (mostly available in YouTube) are being used by various faculty members for teaching various courses.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* Ph.D. (Agricultural Engineering) in Processing and Food Engineering of College of Agricultural Engg & PHT, CAU, Ranipool. Gangtok, Sikkim is correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12

CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

6.4 Self-Study Report for Ph. D in Soil and Water Conservation Engineering at CAEPHT, RANIPOOL, SIKKIM.

6.4.1 Brief History of the Degree Programme

College of Agricultural Engineering & Post Harvest Technology, Ranipool was established during the year 2006 under the administration of Central Agricultural University, Imphal) to address the issue of shortage of trained manpower (human resource) in the disciplines of agricultural engineering and post-harvest technology besides other issues, pertaining to natural resource management, farm mechanization, post-harvest technology, processing & value addition, utilization of renewable sources of energy, creation of agro-industries etc. in the region.

The Department of Soil and Water Conservation Engineering (SWCE) started offering Ph.D. in Soil and Water Conservation Engineering degree during the **academic year 2018-19.** The activity of the department includes the areas of soil and water conservation, irrigation water management, hydrology, watershed management, ground water hydrology, irrigation systems and pumps and GIS and Remote sensing.

SWCE department gives exposures about different techniques for rain water harvesting, soil conservation, water conservation, degraded land reclamation, water quality analysis and modelling, remote sensing and GIS, waste water management, watershed management, etc.

The Department of Soil and Water Conservation Engineering is mainly engaged in teaching to under graduate and post graduate and Ph.D. students. It offers various courses of PG like Watershed Hydrology, and GIS and Remote Sensing for Land & Water Resource Management, open channel hydraulics, Water quality and pollution control, Soil and Water Conservation Structures, etc. to the PG students.

The faculty of the department is actively engaged in academic, research as well as extension activities based on local and future needs of the farmers, field engineers and entrepreneurs. The faculty of the department has completed 4 Extra Mural Research Project and 6 Intra Mural Research Project. Presently the faculty of the department is handling 2 Extra Mural Research Project of which one is ongoing and another is awaiting sanctioned.In addition, the department is also handling the AICRP on PET in the department. The Ph.D. programme started in the academic year 2018-19. To date, 2 students are presently undergoing their Ph. D in Soil and Water Conservation Engineering in the department.

SWCE department is having Soil Water Conservation & Soil Mechanics Lab, Remote Sensing & GIS Lab, Surveying and Levelling Laboratory, Strength of Materials Lab, Applied Mechanics Lab and AICRP on PET Lab to provide practical knowledge to the students and also to demonstrate and organize training to farmers and field engineers, entrepreneurs etc. Many farmers, women and local peoples, NGO and others often visit the department to gain knowledge of different soil and water engineering aspects.

Statistics of Ph.D.degree programme (2018-19 to 2020-21)

Average Number of Students in Theory and Practical Classes

Ph.D.students are grouped into one theory batch and one practical batch.

Sl. No.	Name of the department	Theory Batch	Practical Batch
1.	Soil and Water Conservation Engineering	Full strength	Full strength

6.4.5. CONDUCT OF PRACTICAL AND HANDS-ON-TRAINING

Course curriculum for **Ph.D.** Degree programme has been designed with special emphasis on novel areas of soil and water conservation engineering. Further as a part of their course curriculum, the Ph.D. students are taken to exposure visits to different research institutes, progressive farmers' field, private industries and state government agencies. Industry/ Institute Trainings as a part of their course curriculum is mandatory for the students. Several exposure visits organized by department is also contributing for better understanding of the subject and to enrich their practical knowledge.

Practical Credit details

Sl.No.	Discipline	Number of credits for practical	Per cent of time spent	
			In laboratory	In field*
1.	Soil and Water Systems' Simulation and Modelling	1	40	60
2.	Modelling Soil Erosion Processes	1	60	40

6.4.6. SUPERVISION OF STUDENTS IN PGPROGRAMME

Every student shall have Advisory Committee with a Chairperson, Major Advisor, Minor Advisor and at least four members among whom two members shall be from outside the major field of specialization. Programme of Research proposed by the Advisory Committee and approved by the Director of Instruction(DI) will be carried out by the student under the supervision of Advisory Committee.

Sl. No.	Year	Department	No. of PG recognized teachers		Student to teacher ratio		
				Total	Ph.D.	Total (Ph. D. students)	
1.	**2018-19**	**Soil and Water Conservation Engineering**	02	02	01	01	1:2
2.	**2019-20**		02	02	-	-	-
3.	**2020-21**		02	02	01	01	1:2

6.4.7. FEEDBACK OF STAKEHOLDERS (STUDENTS,PARENTS, INDUSTRIES, EMPLOYERS, FARMERSETC.)

Sl. No.	Feed back	Action taken
Farmers/Student :		
2019-20		
1.	Hands on practical for Installation of Gravity-fed Irrigation system in the Green house of a local progressive farmer.	The installation was done with the Ph.D. student along with faculty members of SWCE and IDE department at Assam Lingzey, Sohreni Village, East Sikkim,
2.	Installation and request for providing farm pond at	In-situ demonstration of installation of farm pond was done at the farm land of Mr. Girimaan Dahal, a resident of Tashiding, west Sikkim. (pics at the glimpses)

6.4.8. STUDENT INTAKE AND ATTRITION IN THE PROGRAMME FOR LAST FIVEYEARS

Year wise information on sanctioned strength, actual intake and attrition during the last five years of the Degree Programme are furnished in the tabular form.

Ph.D. in Soil and Water Conservation Engineering in the department.

Year	Departments	Sanctioned seats	Actual intake	Attrition	Attrition Percentage
2018-19	**Soil and Water Conservation Engineering**	1	1	0	0
2019-20		1	-	0	0
2020-21		1	1	0	0

6.4.9. ICT APPLICATION IN CURRICULADELIVERY

ICT enabled teaching-learning encompasses a variety of techniques, tools, content and resources aimed at improving the qualityare a variety of options available to the teacher and students to utilize various ICT tools at CAEPHT, Ranipool for effective teaching and learning. Teachers participate in selection

and critical evaluation of digital content and resources. They are also encouraged to develop their own digital resources, sharing them with colleagues and students through the digital repositories. For this each individual staff allotted with high configured computer system and connected with high speed Internet facilities for sharing digital contents. During the time of corona pandemic, the classes were conducted totally via online mode using Google meet, zoom etc.

Below Mentioned ICT facilities are well established in the college during the period of 2018-19 to 2020-21. Detailed ICT Lab facilities are listed below:

S.No.	Name of Lab	Equipment	Usage
1.	ICT Enabled Class Rooms	1 PG Class rooms with Computer Systems and LCD Projectors	For educational video, PPT, conferencing , teaching and learning
2.	PG –R & GIS Computer Lab	10 Computers Systems	For working with different watershed, rainfall-runoff simulation
3.	ICT Enabled Seminar Hall	High Speed Internet Line connectivity, camera	For online interaction with University key officials by students and staff, online interaction with different subject experts in different streams

Different ICT Software's Used at CAEPHT, SWCE department

S. No	ICT Application	Usage
1.	Arc GIS software	ArcGIS is a geographical information system (GIS) software that allows handling and analyzing geographic information by visualizing geographical statistics through layer building maps like climate data or trade flows.
2.	ERDAS	image processing software package that allows users to process both geospatial and other imagery as well as vector data. Erdas can also handle hyperspectral imagery and LiDAR from various sensors. Erdas also offers a 3D viewing module (VirtualGIS) and a vector module for modeling.
3.	Geometica Software	a complete and integrated desktop **software** that features tools for remote sensing, digital photogrammetry, geospatial analysis, map production, mosaicking and more.
4.	Surface Water Modelling	SMS (surface-water modeling system) is a comprehensive environment for one, two, and three dimensional hydrodynamic modeling.
5.	Watershed Modelling System	A proprietary water modelling software application used to develop watershed computer simulations. The software provides tools to automate various basic and advanced delineations, calculations, and modeling

		processes.
6	Ansys Academic Mechanical	The software is being used by the master's students in the design of a greenhouse.

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for PG programme *i.e.,* M.Tech. (Agricultural Engineering) in Soil and Water Conservation Engineering of College of Agricultural Engg & PHT, CAU, Ranipool Gangtok Sikkim, Sikkim is provided correctly.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12

CERTIFICATE

I the Dean, P. P. Dabral, College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim, hereby certify that the information contained is furnished as per the records available in the college and degree awarding university.

Date:

(P. P. Dabral)
Dean

SELF STUDY REPORT

2016-2021

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Contents

6.4 SELF STUDY REPORT FOR THE PROGRAM 5
6.4.1 Brief History of the Degree Program: 5
6.4.2. Faculty Strength 15
6.4.3 Technical and Supporting staff: 15
6.4.4 Classrooms and Laboratories: 16
6.4.5 Conduct of Practical and Hands-on-Training 16
6.4.6 Supervision of students in PG/Ph.D programs: 16
6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.) 18
6.4.8 Students intake and attrition in the program for last five years 18
6.4.9 ICT Application in Curricula Delivery 22
6.4.12 Certificate (Applicable when SSR is submitted for Programme) 22
6.5 SELF STUDY REPORT FOR THE COLLEGE 23
6.5.1. COLLEGE ADMINISTRATION: 23
6.5.1.1 College Dean's Establishment: 23
6.5.1.2 Monitoring Mechanism for Quality Education 23
6.5.1.3 CC/ Board of Studies: 24
6.5.1.4 Anti Ragging Cell: 25
6.5.1.5 Biological waste disposal facility: 25
6.5.1.6 Institutional Ethics Committee for Experiment on Animals 25
6.5.1.7 Committee for Prevention of Sexual Harassment of Women at work place 25
6.5.2 FACULTY 26
6.5.2.1. Faculty strength: 26
6.5.2.2. Faculty Profile (department-wise): 26
6.5.2.3 Credential of the Faculty: 26
6.5.2.4. Technical and Supporting staff: 28
6.5.3 LEARNING RESOURCES 28
6.5.3.1 College Library (digital): 28
6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds, etc 31
6.5.3.3 Student READY/In-Plant Training/Internship/Experiential Learning Programmes 32

6.5.3.4 Curricula Delivery through IT (smart class rooms/interactive board etc): 33
6.5.4 STUDENT DEVELOPMENT 33
6.5.4.1 Student Intake and Attrition: 33
6.5.4.2 Average Number of Students in Theory and Practical Classes 34
6.5.4.3 Admission Process: 35
6.5.4.4 Conduct of Practical and Hand-on-Training: 37
6.5.4.5 Examination and Evaluation Process 37
6.5.4.6. NSS/NCC/RVC Unit: 38
6.5.4.7: Language Laboratory: 39
6.5.4.8: Cultural Center: The following facilities are available for student cultural and sports activities. 39
6.5.4.9:Personality Development: 39
6.5.5 PHYSICAL FACILITIES 39
6.5.5.1 Hostels: 39
6.5.5.2 Examination Hall: 40
6.5.5.3: Sports and Recreation Facilities: 40
6.5.5.4: Auditorium construction in progress 40
6.5.5.5: Exhibition Hall/Museum: No 40
6.5.6 RESEARCH FACILITIES 40
6.5.6.1 Postgraduate Laboratories and Equipments: 40
6.5.6.2. Research Contingency 45
6.5.7 OUTCOME/OUTPUT 45
6.5.7.1: Student Performance in National Examination 45
6.5.7.2 Students Placement Profile: 45
6.5.7.3 Awards/Recognitions/Certificates: 45
6.5.7.4 Employability: 56
6.5.9 Certificate (Applicable when SSR is submitted for Programmes & College) 56
6.6.3 ANNEXURE I 57
6.6.3.3 Technology developed and its Adoption: 57
6.6.3.4 ANNEXURE II 58
6.6.4ANNEXURE III 73
6.6.4.1. Extension Council: 73

6.6.4.2. Directorate of Extension Education: 74
6.6.4.3. Extension Planning and Technological Impact: 74
6.6.4.4. Implementation of National Initiatives: 74
6.6.4.5. Innovation and Best Practices: 75
6.6.4.6. Consultancy/Certification/Testing: 75
6.6.5 ANNEXURE IV 76
6.6.6 ANNEXURE V 77
6.6.6.1 Scholarships/Stipend: 77
6.6.6.2 Extra and Co-curricular Activities: 78
6.6.6.3 Health Facilities: 80
6.6.6.4 Sports and Cultural Facilities: 80
6.6.6.5 Student counseling and Placement Cell: 81
6.6.6.6 Disabled Friendly Facilities: 81
6.6.7 ANNEXURE VI 81
6.6.7.1 Physical facilities including administrative building and lands: 81
6.6.7.2 IT Infrastructure: 81
6.6.7.3 Students and Staff Amenities: 82
6.6.8. FINANCIAL RESOURCE MANAGEMENT: 83
6.6.8.1 Budget Allocation: 83
6.6.8.3. Internal resource generation of the last five years 83

Self Study Report

College of Post Graduate Studies in Agricultural Sciences, CAU (I), Umiam, Meghalaya

6.4 SELF STUDY REPORT FOR THE PROGRAM

6.4.1 Brief History of the Degree Program:

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) To impart postgraduate education in different branches of Agriculture,
2) To further the advancement of learning and prosecution of research in Agriculture, and
3) To undertake such others activities as it may deem fit, from time to time, to uplift the socio-economical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The following degree programs are currently running at CPGSAS.

Program	Duration
Undergraduate Level	Not applicable
Post-graduate level a. M.Sc. in Agriculture b. PhD in Agriculture c. MBA in agribusiness management	 2 years full-time master's program 3 years full-time doctoral program 2 years full-time master's program

Table: Different disciplines of P.G. and Ph.D program offered

S.N.	Name of School		Master's program/ Disciplines	Ph.D. Program
1	School of Natural Resource Management	i.	Agronomy	Agronomy
		ii.	Soil Science & Agril. Chemistry	Soil Science & Agril. Chemistry
2.	School of Crop Improvement	i.	Genetics & Plant Breeding	Genetics & Plant Breeding
		ii.	Plant Molecular Biology & Biotechnology	Plant Molecular Biology & Biotechnology
3.	School of Crop Protection	i.	Entomology	-
		ii.	Plant Pathology	Plant Pathology
		iii.	Nematology	-
4.	School of Social Sciences	i.	Agricultural Economics	Agricultural Economics
		ii	Agricultural Extension	Agricultural Extension
		iii	MBA in Agri Business Management	-

In the last five years(2016-17 upto 2020-21)a total number of 189 M.Sc students and 37 Ph.D students have passed out*(details in section 6.4.8).*Out of the total passed out students,26 PG students have secured jobs in Central/State/Autonomous bodies/Banks, etc. Many students have also qualified in CSIR/ICARNET/SRF examination each year (details in *6.5.7)*. There is an increasing trend with respect to the master level students opting for higher education and 45 students are currently pursuing Ph.D degree in reputed national universities and deemed universities.

During the past five years, the college has also published 165 peer-reviewed scientific publications with 5.0 or above NAAS Rating (rating as per 2021) (detailed list is available in section 6.6.3.4).

Besides, the teachers of CPGS successfully competed at national level for acquiring research funds through externally funded projects (ERPs) sanctioned by DBT, DST, MoEF, National Funds of ICAR, DBT, DeIT, NABARD, MoA, etc. In the last five years, faculty members have completed 30 research projects. Twenty one research projects funded by the above organizations along with two AICRPs on Maize and rice are currently ongoing. The approximate total funds obtained through externally funded projects are7.2 crores.

List of ERPs at College of Post Graduate Studies in Agricultural Sciences, Umiam, Meghalaya

I. ONGOING

	Title of the project	**Principal Investigator** Email and Mobile Number	**Funding Organisation**	**Sanction Order and date**	**Duration**	**Budget (Lakhs)**
1.	Molecular mapping and construction of linkage maps for improving aluminium tolerance and phosphorus acquisition efficiency in lentil for cultivation in acidic soils of North East Hill States	Dr. K. Noren Singh Email: norensingh27@gmail.com Mobile No.: 9436890653	DBT, GOI	BT/PR25565/NER/95/1254/2017 Dated.11.09.2018	3 years	56.70

2.	Mapping and inheritance studies for Northern Corn Leaf Blight resistance in maize (*Zea mays* L.) population generated from landraces of North East Hill Region (NEHR) of India	Dr. Devyani Sen Email: devyani.sen@gmail.com Mobile No. 9402196116	DBT, GOI	BT/PR25763/NER/95/1302/2017 Dated. 18/09/2018	3 years	54.60
3.	From QTL to variety: Genomics assisted introgression and field evaluation of rice varieties with genes/QTLs for yield under drought flood and salt stress	Dr. Mayank Rai Email: mrai.cau@gmail.com Mobile No.:9436336008	DBT, GOI	BT/PR18611/AGIII/103/921/2016 Dated.01.04.2018	3 years	32.3
4.	DBT North East center for agricultural biotechnology (NECAB) satellite laboratory for biotechnology inputs	Dr. Dwipendra Thakuria Email: thakuria.dwipendra@yahoo.co.in Mobile No.:9436767009	DBT, NECAB, AAU, Jorhat	DBT-NECAB/AAU/14/2018-19 dtd. 08-05-2019	2 years	15.0
5.	Bio-efficacy and phytotoxicity evaluation of new fungicide Fluopyram 250 g/l + Trifloxystrobin 250 g/l (Luna sensation) against three diseases of Apple	PI: Dr. Pranab Dutta Email: pranabdutta74@gmail.com Mobile No: +91 9678906650/+91 9101551247	Bayer Crop Science ltd.	No. BCS/2/CAU/20 Dated 06-08-2020	2 years	14.0
6.	Bio-efficacy and phytotoxicity evaluation of Fosetyl Al 80% WP (Aliette 80% WP) in Cardamom	PI: Dr. Pranab Dutta Email: pranabdutta74@gmail.com Mobile No: +91 9678906650/+91 9101551247	Bayer Crop Science ltd.	No. BCS/2/CAU/20 Dated 29-06-2020	2 years	12.72
7.	Establishment of mass production unit of biocontrol agents and skill development of farmers/rural youths	PI: Dr. Pranab Dutta Email: pranabdutta74@gmail.com Mobile No: +91 9678906650/+91 9101551247	ICAR-NBAIR, Bengaluru	No. CAU/DEE/217/NBAIR/Bud.Exp/20-21/1460 Dated 15-07-2020	1 year	3.40
8.	Evaluation of NNI-1702 30% WG [NNI-1501 10% + Pymetrozine 20% WG] to control BPH/ WBPH in Rice	PI: Dr. Mahesh Pathak Email: maheshpathak@rediffmail.com Mobile No: +91 8132873756	Nichimo India Pvt. Ltd.	Nichino India Pvt Ltd./ U24100TG2013PTC091502, Dated 14/07/2020	2 years	7.08

9.	IPM on rice and horticultural crops in NEH region (NCIPM)	PI: Dr. Mahesh Pathak Email: maheshpathak@rediffmail.com Mobile No: +91 8132873756	ICAR-NCIPM	F.No. 1 (89)/2018/NEH Region/ IPM/600, Dated: 04/02/2020	1 Year	3.0
10.	Estimation of production and utilization pattern of milk and milk products in India	Dr. Ram Singh Email: ramsingh.cau@gmail.com Mobile No.: 9402197624/ 8787343965	NDRI, Karnal	EFT No. 67259-67264 Dated 28.04.20	2 years	3.69
11.	Integration and application of UAV for crop health assessment and monitoring with IIDS in providing evidence based agro-advisory services to farmers of North- East India.	Dr. R.K.Josmee Singh Email: josndri@gmail.com Mobile No.: 7005444989	Digital India Corporation, Ministry of Electronics and Information Technology, GOI	No.DIC/Projects/CAU/DNER/2019-20 Dated 18.09.20	2 years	43.96
12.	Policy Imperative for promoting value chain of organically produced major spices in NEHR	Dr. Ram Singh Email: ramsingh.cau@gmail.com Mobile No.: 9402197624/ 8787343965	NAIP	No. 29(63)2017-projec t (NAIP) Dated 18/12/2017	4years	44.70
13.	Promotion of Dairy Farming for uplift of Socio-Economic Status of Tribal farmers through technological intervention in Meghalaya	Dr. J. K. Chauhan Email: jkcagra@gmail.com Mobile No: 9759045777	NDRI-Karnal	No. CAU-DR4-GC/PG/2012 Vol.II/4410, Dated 20/11/2020	2 years	5.6
14.	Assessment of water poverty index for safe and equitable access of water in Meghalaya	Dr. Lala I P Ray	DST, GoI	Sanction Order dated: 23/12/2020	3 years	51. 45
15.	Understanding the *Citrus tristeza virus* resistance mechanisms in citrus species and development of disease-free quality planting material of Khasi mandarin (*Citrus reticulata* Blanco) from	Dr. Ng. TombisanaMeetei, tombisana.ci.cpgsas@cau.ac.in	DBT, GoI	Sanction No. BT/PR39878/ NER/ 95/ 1660/2020 dtd 28/01/2021	3 years	53.57

	North East India	Mob: 9402196140				
16.	Network Project for Establishment of disease free elite Khasi mandarin and Sweet Orange genetic stocks through shoot tip grafting (STG) and mass production of quality planting material for Northeastern states of India	Dr. Ng. TombisanaMeetei, tombisana.ci.cpgsas@cau.ac.in Mob: 9402196140	DBT, GoI	Sanction No. BT/ PR40114/NER/ 95/1657/2020 dtd 10/02/2021	3 years	55.62
17.	Collection, conservation and morpho-phenological characterization of citrus germplasm of North East India	Prof. D. Thakuria (Soil Microbiology) 9436767009 / 8787343877	DBT, GoI, New Delhi	DBT/PR39933/ NER/95/1658/2020 dtd. 16.02.2021	3 years	97.5
18.	Development of diagnostic Kits for quick detection of CTV, HLB and Phytophthora rot diseases in Citrus of North East India	Prof. D. Thakuria (Soil Microbiology) 9436767009 / 8787343877	DBT, GoI, New Delhi	DBT/PR39897/ NER/95/1667/2020 dtd. 04.02.2021	3 years	63.55
19.	Skill development on identified bioinoculant technologies and on-farm mass production through model organic farm in North East India	Prof. D. Thakuria (Soil Microbiology) 9436767009 / 8787343877	ICAR-NBAIM, MAU, UP	File No. 4(2)/Bank/Fin/2020-21/2513 dtd. 11.03.2021	1 year	36.4
20.	Molecular signature dynamics in aphid stylet probed vascular sap and aphid's salivary gland for the elevated levels of resistance in *Brassica* and its wild sp. against *Liphaphis erysimi*	Dr. Hossain Ali Mondal	DST, GoI	CRG/2019/004764 Dated: 25/3/21	3 years	61.78
21.	Exploring diversity of Bacillus thuringiensis in NER for mining novel insecticidal genes	Dr. Kennedy Ningthoujam	DBT, GOI	BT/PR32360/NER/95/1497/2019 Dated: 23/3/21	3 years	55.00

II. COMPLETED

	Title of the project	**Principal Investigator** Email and Mobile Number	**Funding Organisation**	**Sanction Order and date**	**Duration**	**Remarks**
1.	NAIP on "Bioprospecting and allele mining for abiotic stress tolerance" Component-IV	Dr. Wricha Tyagi Email: wtyagi.cau@gmail.com Mobile No.:9436336009	ICAR (NAIP), New Delhi (National)	No. NAIP/Comp-4/C30033s/2008-09 Dated 4.5.2009	5 years	Collaborative
2.	Improvement of locally adapted rice cultivars of North East Hill Region by incorporating Blast Resistance Genes through Marker Assisted Backcrossing	Dr. Mayank Rai Email: mrai.cau@gmail.com Mobile No.:9436336008	DBT, GOI	No. BT/PR13258/AGR/02/693/2009 Dated 30.11.2009	5 years	Individual
3.	From QTL to Variety: Marker assisted breeding of abiotic stress tolerant rice varieties with major QTLs for drought, submergence and salt tolerance	Dr. Mayank Rai Email: mrai.cau@gmail.com Mobile No.:9436336008	DBT, GOI	No. BT/PR14544/AGR/02/745/2010 Dated 5.10.2010	3 years	Collaborative
4.	Screening for Turcicum blight resistance in indigenous non elite lines of maize in North East India	Dr. Devyani Sen Email: devyani.sen@gmail.com Mobile No. 9402196116	DBT, GOI	dPD-FS(FIPF Project)/2012-13 Dated. 30.04.2012	3 years	Collaborative
5.	Establishment of Biotech hubs	Dr.V.K. Khanna Email: khannavk@rediffmail.com	DBT, GOI	No. BT/04/NE/2009 Dated 21.09.2010	3 years	Collaborative
6.	Assessment of consequences of extreme climatic variability on men and women farmers in ensuring food security and sustaining livelihoods: a case study in rice based farming in North east India	Dr. Ram Singh Email: ramsingh.cau@gmail.com Mobile No.: 9402197624/ 8787343965	IFAD	DPPC2006-79 Dated 20.12.2010	1 year	Collaborative
7.	Functioning of Micro-Credit Scheme of RMK in North Eastern States of India	Dr. S. M. Feroze Email: ferozendri@gmail.com	Planning Commission	Dated 16.08.2011	3 years	Individual

8.	Characterization of *Zanthomonas oryzae pv. Oryzae* stains causing bacterial blight in rice from North Eastern region with respect to cultural, biochemical, molecular and virulence profiles	Dr. Dipali Majumder Email: dipali_assam@yahoo.co.in Mobile No: + 1 (270) 955-3892	DBT, GOI	No.102/IFD/SAN/3535/2011-12 Dated 15/12/2011	3 years	Collaborative
9.	Phenomics of moisture deficit and low temperature stress tolerance in rice	Dr. Wricha Tyagi Email: wtyagi.cau@gmail.com Mobile No.:9436336009	NFBSFARA, ICAR, New Delhi	No.NFBSFARA/Phen-2015/ 2010-11 Dated 23.2.2011	3 years	Collaborative
10.	Development of expert system to diagnose rice diseseas in Meghalaya	Ms. P. Mercy Nesa Rani Email:mercyranip@gmail.com Mobile No.: 8787884283	NABARD, Meghalaya Regional Office	DPD-FS(FIPF Project)/2012-13 Dated 30.04.2012	2 years	Individual
11.	Endophytic diversity of wild vs. cultivated rice across environmental gradients of North East India	Dr. Dwipendra Thakuria Email: thakuria.dwipendra@yahoo.co.in Mobile No.:9436767009	DBT, GOI	Bt/PR15208/AGR/021/332/2011 Dated 02.07.12	3.5 years	Individual
12.	Development of pod borer resistant transgenic pigeonpea and chickpea	Dr. Wricha Tyagi Email: wtyagi.cau@gmail.com Mobile No.:9436336009	National Fund for Basic, Strategic and Frontier Application Research in Agriculture (NFBSFARA)	No. NFBSFARA/PB-2010/2010-11 Dated 24.1.11	3 years	Collaborative
13.	Development and deployment of mobile based agro advisory system in North East India (M4agriNEI)-Phase-I	Dr. Ram Singh Email: ramsingh.cau@gmail.com Mobile No.: 9402197624/ 8787343965	Deptt. of Information Technology, Min. of Communication & Information technology, Govt. of India	No. MLA/PROJECTS/CAU/M4agriNEI/2012-13/01/01 Dated 23.4.2012	2 years	Individual
14.	Derived crop co-efficients for enhancing water productivity of	Dr. P.K. Bora Email: pradip66@gmail.com Mobile No.:	DBT, GOI	No. SR/S4/AS-73/2001	3 years	Individual

	important crops of Meghalaya	7031934705		Dated 17.8.2011 Com: 6-1-2012		
15.	Cost and return in milk production: Development of standardized methodology and estimate for various production systems	Dr. S. M. Feroze Email: ferozendri@gmail.com	Dept. of Animal Husbandry & Dairying, MoAFW	No. 26-326/spl study(cost of milk pod.) NDR/2010-AHS Dated 9/2/2012	2 years	Individual
16.	Assessment of habitat specific environmental micro bacterial population in North East India	Dr. Dwipendra Thakuria Email: thakuria.dwipendra@yahoo.co.in Mobile No.:9436767009	Ministry of Environment Govt. of India (National)	No. 387/IFD/E/2012 Dated 05.03.2012	3 years	Individual
17.	Impact assessment of jhumming on soil microbiota resources and development of microbial inoculants for ecological restoration of jhum agroecosystem	Dr. Dwipendra Thakuria Email: thakuria.dwipendra@yahoo.co.in Mobile No.:9436767009	DBT, GOI	No. DBT-NER/Agri/14/2012 Dated 31.10.2012	4+1 years	Individual
18.	Climate change impacts on hill agriculture in North eastern Himalaya: A Socio- economic Analysis	Dr. S. M. Feroze Email: ferozendri@gmail.com	ICSSR, New Delhi	RESPRO/04/ICSSR/2012-2013/RPS Dated 29.03.13	2 years	Individual
19.	Techno-Economic Feasibility of Gravity – fed Drip Irrigation System in Hilly Regions of Meghalaya	Dr. Lala Iswari Prasad Ray Email: liprbabu4u@gmail.com Mobile No.: 9436336021	DST, New Delhi	COMPT/DST/DIS/COPG/2013/1242 Dated 28.13.2013	3 years	Individual

6.4.4 Classrooms and Laboratories:

5 Classrooms, 1 Seminar and 1 conference Room attached with LCD Projector

Sl. No.	Departments/ Schools	Name of laboratories
1	**SNRM**	1. Analytical Lab 2. Biogeochemistry Lab 3. Microbial Ecology Lab 4. GIS and Remote Sensing Lab 5. Hydraulics lab 6. Farm Lab 7. Biofertilizer production unit
2	**SCI**	1. Molecular Biology and Biotechnology Lab 2. Cytogenetics and Molecular Marker Lab 3. Media Preparation Room 4. Tissue Culture and Genetic Transformation Lab 5. Green house facilities 6. Genetics and plant breeding lab
3	**SCP**	1. Plant Pathology Lab 2. Molecular Lab 3. Biopesticide production unit 4. Mushroom production unit 5. Entomology Lab 6. Nematology Lab 7. Insectry 8. Polyhouse
4	**SSS**	1. Computer Lab 2. Multimedia Lab 3. ABM Seminar Room

6.4.5 Conduct of Practical and Hands-on-Training

The four Schools conduct practicals in PG programs as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks weightages. Sometime courses which are appealing for visiting farmer fields, accordingly provisions are there to visit farmer's fields.

6.4.6 Supervision of students in PG/Ph.D programs:

The allotment of students is PG and Ph.D is as per CAU regulationwith a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Crop Improvement and School of Social Sciences hastwo faculty from ICAR-RC for NEH, Umiam each and two from ICAR-ATARI for School of Social Sciences with specialization in genetics and plant breeding and in Agricultural Economics and Agricultural Extension, respectively recognized for teaching and guidance of the students. The allotment of students is by

lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher etc (feedback proforma enclosed for ready reference).for the last five years:

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for various MSc Agric., PhD and M.B.A.program is given in table below:

Academic year 2016-17

Name of the Degree Program	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

6.4.12 Certificate (Applicable when SSR is submitted for Programme)

I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date and Seal

6.5 SELF STUDY REPORT FOR THE COLLEGE

6.5.1. COLLEGE ADMINISTRATION:

6.5.1.1 College Dean's Establishment:

Yes, the position of Dean of the College is a sanctioned post. The post of Dean at present is vacant due to the superannuation of the former Dean, Dr. N.B. Singh (31-7-2020). The University has floated advertisement for the appointment of Dean. The mode of Selection to eligible candidate is by open competitive for tenure of 5 years or attaining the age of 65 whichever is earlier.

The Dean's Secretariat consists of the following sections

Sl. No.	Name of Section	No. of employees
01.	PA's office	04
02.	Establishment Section	04
03.	Account Section	06
04.	Academic Section	03
05.	Store & Purchase	04
06.	Engineering Section	07
07.	Medical Section	04
08.	SWO	01
09.	Farm Section	04
10	I.T. Cell	02
11.	Vehicle Section	04

In all the above mentioned sections adequate infrastructure, equipments and furniture are available.

6.5.1.2 Monitoring Mechanism for Quality Education

The College is following ICAR course curriculum for every programmes. Wherever a modification in course curriculum is required within the permissible limit, a due process is followed and the matter is first presented before the Board of Studies and after its recommendation, due approval of CAU academic council is taken. All the course instructors are submitting a comprehensive lesson plan covering entire syllabi for each course and adhered to their plan during the entire semester. As per the need, besides referring the quality books in college library text material is also provided by the teachers. To assess their understanding about the subject, frequent assignments with the time limit of their submission by the students is followed. These assignments are timely evaluated and returned to the students for further improvements. Only the validated and quality materials available online is referred to the students. In addition, a number of national and international quality journal available online over CERA/DELCON are referred to the students.

Before starting the research work, every student has to present the synopsis of their proposed research program before the entire school and the advisory committee. After inclusion of the suggestion, the programme is send to the Director of Instruction, CAU, Imphal for his approval. The implementation of the approved student's research program is further duly monitored by their advisory committee and every semester they have to submit the progress report of their research work. Before the thesis submission, students again presented his/her research report before the entire school including the advisory committee. Plagiarism in their research programm if any, is checked using urkund software in college library and submission is allowed only if

plagiarism is within the permissible limit (10% or less). Their thesis is allowed to submit after inclusion of suggestions and send for external evaluation for further improvement. Final submission is allowed only after inclusion of the suggestions/comments made by Director of Instruction, CAU, Imphal office and the external examiners.

Extracurricular activities for students are organized by the college through the Student Welfare officer and they are encouraged to participate in various college level, university level, regional and national level cultural and sport events.

Academic progress of the students is evaluated by semester long evaluation process. For theory courses, 50% evaluation is done by the concern course teacher/s and for remaining 50%, question paper is set by an external examiner selected from the panel approved by the competent authority of the university. However, end term question paper is evaluated by the teacher other than the course instructor in the discipline. Two quizzes are conducted in each course by the concerned teacher at periodic intervals before the midterm exam. Next two quizzes are conducted after midterm but before end term exam. Midterm and end term examinations are organized as per the academic calendar of the CAU, Imphal. Almost 50% course is completed before midterm and the entire syllabi are completed before the end term exam. If required, teacher may conduct extra classes for timely completion of the course curriculum. Hands on training, practical experience learned during the semester in each course is evaluated at regular interval in each class by regular checking of their practical records and observing the progress made by the students in the laboratory during practical class. End term practical exam is evaluated by a committee of the senior faculty of the concerned school.

6.5.1.3 CC/ Board of Studies:

The Academic council, Central Agricultural University, Imphal, Manipur is the competent authority for decision making processes in academic matters and reserve the rights to approve/or disapprove proposals related to academic matters. The discipline-wise experts are also invited in the Academic council for scrutinizing the academic related proposals. The college adopts the semester system of education for both M.Sc. and Ph.D. degree programmes. The college follows the New and Restructured PG Curricula and Syllabi, 2009 framed by the Education Division of Indian Council of Agricultural Research, New Delhi. The common academic regulations as defined in the ICAR New and Restructured PG Curricula, 2009 are applicable for CPGS with some minor changes to suit the regional needs. The college adopts external evaluation system for course as well as comprehensive examinations both at M.Sc. and Ph.D. levels. This is implemented in order to maintain quality of education.

A board of studies for faculty of agriculture constituting four agriculture colleges, in which CPGSAS is a constituent member was reconstituted as per CAU/DI/92(i)/10-11 order dated 5-4-2018. The members of board of studies include the dean of four colleges; directors of instruction, research and extension education, CAU; internal members (3 from CoA, Imphal; 3 from CoA, Pasighat; 4 from CoA, Krydemkulai and 4 members from CPGSAS); two external experts nominated by Hon' Vice Chancellor; one representative of academic council (nominated by Hon' Vice Chancellor); one final year PG student with highest OGPA with in charge academic, CoA, Imphal as member secretary.

In last five years following meetings have been organized:

Sl.No.	Academic council (AC)/Board of studies (BOS)	Date
1	5thBOS	2-5-2018
2	6th BOS	22-5-2019
3	7thBOS	27-4-2020 (online)
4	15th AC	2-9-2016
5	16th AC	6-6-2017
6	17th AC	17-5-2018
7	18th AC	9-1-2019
8	19th AC	17-6-2019
9	20th AC	8-6-2020

10	21st AC	13-11-2020
11	22nd AC	15-12-2020

(Representative proceedings provided in Appendix-CPGS-A)

The major resolutions of BS have been pertaining to:

a) intake of MSc and PhD students in each discipline in consecutive academics sessions
b) Recognition of adjunct faculty
c) Starting of MSc program in Agriculture nematology, PhD program in entomology and masters' program in agribusiness management.

6.5.1.4 Anti Ragging Cell:

In pursuance to the "UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009", the Anti-ragging Committee of the College of Post Graduate Studies, Central Agricultural University, Umiam is constituted in every academic year as per UGC Regulations. Apart from that, the college also constituted Anti Ragging Squad with faculty members and non-teaching staff residing in the campus for keeping constant vigil, patrolling and to remain alert in order to curb any instances of ragging in the College campus.

(Representative orders provided in Appendix-CPGS-B1)

6.5.1.5 Biological waste disposal facility:

Biological wastes are treated, autoclaved at laboratory level before being disposed.

6.5.1.6 Institutional Ethics Committee for Experiment on Animals

- NA -

6.5.1.7 Committee for Prevention of Sexual Harassment of Women at work place

The college constituted Internal Complaint Committee for safety of women employees and students compose of women faculty members, non-teaching staff, external member and students for a period of three (3) years.

Committees Constituted	Date of Constitution	Date of meeting
Dedicated Taskforce on Women's Welfare	CAU/CPGS/Estt-15/13-14/1865 dated 4/02/2013	05/04/2013

02	Professor	11	11	Nil
03	Associate Professor	16	7	09
04	Assistant Professor	14	10	04
Total		**45**	**28**	**17**

During the last five years 19 faculty positions have been recruited directly. This includes Dean, eight professors, five associate Professors, and four Assistant Professors.

6.5.2.2. Faculty Profile (department-wise):

The department-wise or School-wise faculty profiles are given in tabular form below. The college has sufficient faculty position to meet the academic requirement of the College.

1. School of Natural Resource Management

Sl No.	Position of faculty	No. of faculty
01.	Professor	04
02.	Associate Professor	01
03.	Assistant Professor	02.

2. School of Social Science

Sl No.	Position of faculty	No. of faculty
01.	Professor	03
02.	Associate Professor	02
03.	Assistant Professor	03

3. School of Crop Improvement

Sl No.	Position of faculty	No. of faculty
01.	Professor	03
02.	Associate Professor	01
03.	Assistant Professor	03

4. School of Crop Protection

Sl No.	Position of faculty	No. of faculty
01.	Professor	03
02.	Associate Professor	03
03.	Assistant Professor	02

6.5.2.3 Credential of the Faculty:

Yes. The University has employed competent faculty members to the College to accomplish its mission and goal of the institution. All faculty members of the College are having Ph.D. degree in relevant fields/subjects.

Sl. No	Name of Faculty	Post held	Highest qualification	Teaching / Work Experience	Honors & Award	No. of Students Guided	No. of publications in NAAS

				(In Years)	s	PG	PhD	rated Journals
01	Wricha Tyagi	Professor	Ph.D.	16	08	14	04	41

6.5.2.4. Technical and Supporting staff:

The position of technical/laboratory/farm staff are given below in tabular form.

Sl. No	Department/Section	Technical Staff	Supporting Staff	Field Staff
01	School of Natural Resource Management	-	02	02
02	School of Crop Improvement	-	02	01
03	School of Crop Protection	-	02	02
04	School of Social Sciences	-	02	-
05	Engineering Section	05	02	-
06	Medical Section	04	-	
07	Library	02	01	-
08	Farm	-	01	02
09	IT section	01	01	-
10	Vehicle section	03	01	-

Besides the above, 18 Nos. of field labours are outsourced from outsourcing agency

6.5.3 LEARNING RESOURCES

6.5.3.1 College Library (digital):

Staff Position

1	Library In-charge (Senior faculty)	1
2	Senior library assistant	1
3	Library assistant	1
4	MTS	1

Location of the library:	The College library is housed on the top floor of a 230 sq. meter (approx.) Library cum Mess Block building (2 floor building)
Present staff Position:	Sr. Library Asst. =1, Library Asst. = 1, MTS = 1
Availability of Wi Fi:	Yes. The Library is Wi Fi enabled.
Books / Reading Material(in Number)	5479 (course and reference books)
Periodicals / Research Journals (in Number)	**55** Periodicals/ Research journals subscribed and **2794** e-journals, databases such as Agristat, Krishi Prabha and Krishi Kosh Repository and eBooks through a consortium approach
Internet Facility:	Yes. LAN and Wi-Fi.
No of computers:	11 (8 user access and 3 staff access)
Seating Capacity:	45 seating capacity in the Reading Hall.

Latest technology in the library:	The Library is using Koha Integrated Library Management Software.
Stocking Arrangement:	The Library is following the Dewey Decimal Classification 23rd edition.
Collection of volumes on different subject:	Yes. The library has been building the collection in all subjects being offered in the College. Books are being procured on the recommendation of the course faculty.
Latest publications in the field of relevant subject:	Relevant new editions and up-to-date titles are being procured as per requirement.
Opening Hours:	9.30 AM - 4.30 PM on all working days of the College.
Subscription of journals of national & International repute national dailies / magazines (provide List)	The library subscribes to a total of 71 numbers of Indian published journals, 12 International journals, newspapers, magazines, etc. (List enclosed below).The subscription of International journals which are available through CeRA consortium has been discontinued.

Details of subscription of journals, national dailies, magazines, etc. subscribed by library

6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds, etc.

The college is spread out across an area of 7.29 ha only. Being a Post-Graduate college, area available is being utilized to the maximum for student research purposes. Other activities like pond digging have commenced in Kyrdemkulai and are at the initial stages. The schools are equipped with laboratories to meet the research requirements of both the students and faculty.

Area under crop/farm	**2 acres** including upland and lowland in-campus CPGS

Area suitable for crop/fam	**500 sq.m** in mushroom cultivation, vermin composting and protected cultivation. **2 acres** in campus (3 acre in ICAR+farmers' field)
Area under pond	**20x10sqm**

Sl. No.	Departments	No. of laboratories
1	SCI	6
2	SNRM	7
3	SCP	8
4	SSS	3

6.5.3.3 Student READY/In-Plant Training/Internship/Experiential Learning Programmes

CPGSAS being a PG college there is no ELP running here. However, the MBA students of SSS are sent for internship programmes to expose them to industries/institutes and further improve their skills. The details of the internship programs attended by the students are as shown below;

Sl. No.	Title	Date	Organized
1	Production of food Beverage	06.06.2018 to 14.07.2018	Thangjam Agro Industries PVT Ltd. Imphal East Manipur
2	Manipur Milk Producer's Co-operative union limited, Central Dairy Plant.	04.06.2018 to 14.07.2018	Central Dairy Plant, Porompat, Govt. of Manipur
3	Study on activities of the 1917 iTeams (ITEAS)	June to July, 2018	Meghalalya Institute of Entrepreneurship, Govt. of Meghalaya.
4	Production and processing of cashew nut	6. 06. 2018 to 12.07.2018	B. R. Industries, Phulbari, West Garo Hills, Meghalaya.
5	Training on Rubber woods production, rubber wood seasoning and preservation in treatment plant, Carpentry and Bamboo Crafts, other wood products manufacturing etc.	07.06 2018 to 13.07.2018	TFDPC Industrial Estate, Anandanagar, West Tripura.
6	Fruit preservation centre	7. 06. 2019 to 18. 07.2019	Fruit Preservation Centre Dainadubi, North Garo Hills, Govt. of Meghalaya.
7	Dairy Processing Techniques and operationalization procedures of Dairy plant.	7. 06. 2019 to 19. 07.2019	Aane Dairy Plant, Pasighat and Arun Dairy Plant, Karsingsa (Nirjuli).Under the Department of A.H.Vety &Dairy Development, Govt. of Arunachal Pradesh. Nirjuli
8	Lamjingba Dairy Private Limited	13.06.2019 to 18.07.2019	Lamjingba Dairy Private Limited,
9	Training on Mushroom Cultivation	15. 12. 2020 to 28.01.2021	Horticulture Research Complex, Nagicherra, West Tripura, Govt. of Tripura, Dept. of Agriculture and Farmer's Welfare.

6.5.3.4 Curricula Delivery through IT (smart class rooms/interactive board etc.):

All the class rooms in the college as discussed above have one big size, good quality white board, internet connectivity and equipped with LCD projectors. One each seminar and conference room are also having internet connectivity and equipped with LCD projectors. In addition, one classroom in the School of Social Science is also equipped with interactive white board. The students can also avail the internet connectivity for retrieval of scientific information from the college library as well as from their hostel room. All the faculties are also equipped with a computer connected with the internet and a printer for helping them to conduct online classes, retrieve the scientific information for converting their teaching into a learning process for the students.

***reserved for ICAR nominee**

6.5.4.3 Admission Process:

For PG. Degree Program: Candidates with Bachelor's degree in concerned/related subjects from a recognized university with OGPA of 6.00/10.00 or equivalent percentage of marks for General and OBC and 5.50 in case for SC/ST shall be eligible for admission.

For MBA (Agri. Business Management Degree Program: Candidates with Bachelor's degree from any Agri. Univ./Institutions recognised by the ICAR/UGC in Agriculture and allied disciplines/Agri-Business Management/Commercial Agriculture, Agriculture Marketing and Agricultural Finance with OGPA of 6.00/10.00 or equivalent percentage of marks for General/ OBC/UPS and 5.60/10.00 in case for SC/ST/PC shall be eligible for admission.

For Ph.D. Degree Program: Candidates with Master's degree in concerned/related subjects from a recognized university with OGPA of 7.00/10.00 or equivalent percentage for General and OBC and 6.5/10 in case for SC/ST/PH. shall be eligible for admission.

Selection of candidates for admission:

i. The selection of candidates for both Master's and Doctoral Programs is based on the entrance examination marks (60% weightage) and academic performance in qualifying Degree Examination (40% weightage) 20% marks with negative marking in the entrance examination will be the qualifying mark for short listing under all categories.
ii. 25% of total seats in each department are filled up by the candidates selected by ICAR through all India Entrance Test (AIET).
iii. 15% 7.5% and 3% of the total number of seats are reserved for SC, ST and PC candidates respectively. In case enough candidates are not available, SC/ST categories seats are interchanged. Vacant seats under PC category are filled by the merit from General category.
iv. 27% of the total numbers of seats are reserved for OBC excluding creamy layers. If the University does not find the candidate from OBC category, the vacant OBC seats are converted into General category i.e. unreserved seats.

Note: Vacant seats under reserved/unreserved category shall be filled-up by the candidates on merit basis from the waiting list.

Payment of fees

The selected candidates pay the prescribed fee at the time of admission.

Admission procedure:

i. All the shortlisted candidates present themselves for counselling on the prescribed date and time in respective courses with all original documents.
ii. Based on merit, provisional admission letter is issued to the candidate by the Registrar, CAU, Imphal.
iii. The provisionally selected candidate report to the Dean of concerned College along with all original documents on the prescribed date.
iv. The Dean gets the original documents verified by a committee of three senior teachers and Asstt. Registrar (Academic). After being satisfied with genuineness of certificate, the students are admitted after payment of prescribed fee.
v. All original documents are kept in safe custody of the Dean of the College.

Refusal of admission: The Vice Chancellor reserves the right to refuse admission to any candidate whose admission in his/her opinion is detrimental to the interest of the University.

Registration:

The first day of the commencement of the semester is the date of registration by the students.

Registration of newly admitted students

i. On admission, a student is provided with four copies of Registration Cards having different colours, one for the student, one for the Advisor, one for the Dean and one for the Registrar.
ii. With registration cards in hand, the student report to the concerned Head of the Department/Dept. Incharge, who helps the student for selection of courses and filling the cards.
iii. The Registration Cards is signed by the student, his/her Advisor/HOD, the Assistant Registrar (Acad.) and countersigned by the Dean of the College.

iv. On admission and registration, the student is be provided with an identity card with his/her photograph. The identity card is returned to the College when the student leaves the Colleges after completion/discontinuation of the course/being dropped from the College/University for a specified period for good.
v. Each newly admitted student is given an admission Number by the Dean of the Concerned College and this Admission Number shall continue till allotment of Registration Number by the Registrar.

6.5.4.4 Conduct of Practical and Hand-on-Training:

At the end of every semester the end-term exam of the offered course being conducted as per scheduled of the CAU. Exam of theory as well as practical record consisting of practical exercises is being evaluated by the course leader in the presence of the school Head along with Viva-voce of practical learning. Accordingly, students are being judged and evaluated by assigning out of at least 20 marks. All the practical records prepared by the respective students in respective course are being maintained and deposited to the course leader.

6.5.4.5 Examination and Evaluation Process

Degree Programme	Mid Term Examination	Quiz (#4 in number)	End Term		Comprehensive Qualifying Written Examinations			Thesis	
			Setting of QP	Answer sheet Evaluation	Setting of QP	Answer sheet Evaluation	Viva-voce examination	Evaluation	Conducting thesis Viva-voce
P.G. Degree Programme	Internal	Internal	External	Internal	External	External	Internal	External	Internal
Ph.D. Programme	Internal	Internal	External	Internal	External	External	External	External	External

Academic progress of the students for various courses registered by them during a degree programme is evaluated by semester long evaluation process. For theory courses, 50% evaluation is done by the concern course teacher/s and for remaining 50%, question paper is set by an external examiner selected from the panel approved by the competent authority of the university. However, end term question paper is evaluated by the teacher other than the course instructor in the discipline. Two quizzes are conducted in each course by the concerned course teacher at periodic intervals before the midterm exam. Next two quizzes are conducted after midterm but before end term exam. Midterm end end term exams are of one and half hours and two and half hours, respectively, are organized as per the academic calendar of the CAU, Imphal. Almost 50% course is completed before midterm and entire syllabi are completed before the end term exam. If required, teacher may conduct extra classes for timely completion of the course curriculum. Hands on training, practical experience learned during the semester in each course is evaluated at regular interval in each class by regular checking of their practical records and observing the progress made by the students in the laboratory during practical class. End term practical exam is evaluated by a committee of the senior faculty of the concern school. Marks

secured in a course in theory and practical are multiplied by number of theory credit(s) and practical credit(s) of the course respectively and added together. This is divided by the total credits (theory +practical) of the said course to get the percentage of marks, which will be divided by the 10 to obtain the grade Point (GP).

Evaluation of credit seminar:

Every master student is required to present a one credit seminar in the last one or two week of the semester before the audience comprised of the concern School In charge, member of their advisory committee and all the teaching staff and PG students of the school/college. The performance of the student in the seminar is evaluated by the course in charge, giving average weightage to the marks given by the evaluation committee. Parameters of assessments are-

i. Coverage of literature on the aspects of the topic and the write up- 25
ii. Mode of presentation-25
iii. Use of audiovisual aids-25
iv. Ability to answer the questions-25

Comprehensive qualifying examination:

Every students have to qualify in two question papers by ensuring at least 65% marks separately in both the papers. One question paper is for the major discipline in which they are pursuing their degree and another one for minor and supporting subjects chosen by them as per the needs of the research work and on the advice of the advisory committee. Both the question papers are set by the external examiners selected from the approved panel of the competent authority of CAU, Imphal. The same examiners evaluate these question paper and after qualifying both the papers every student has to appear in comprehensive viva voce exam conducted by the advisory committee in presence of the School in charge and a Dean's nominee who is one among the senior faculty from another school.

Evaluation of the thesis research:

Every student has to submit their thesis for evaluation as per the procedure give below-

S.No.	Particulars	Master's program (M.Sc. Agric. and MBA in ABM)	Doctoral program (Ph.D.)
1	Submission	After thesis seminar and submission of manuscript for one research paper	After thesis seminar and acceptance of two research papers based on the thesis research or one application for patent filed out of research work
2	Evaluation	One external examiner	Two external examiner
3	Viva voce	External examiner (with advisory committee)	Advisory committee in presence of the Dean's nominee

6.5.4.6. NSS/NCC/RVC Unit:

- Non existent

6.5.4.7: Language Laboratory:

- NA

6.5.4.8: Cultural Center: The following facilities are available for student cultural and sports activities.

1. Multipurpose Student Utility Center

2. A 250 seater auditorium is nearing completion ***(Annual Report 2020-21)***

Cultural programmer organized during Annual College Week, Independence day, republic day, Gandhi Jayanti, World food day etc.

1. Inter-house dance competition
2. Skits
3. Individual and group singing
4. Rangoli
5. Clay modeling
6. Painting

6.5.4.9: Personality Development:

Eminent speakers, faculty, Scientist invited to deliver lecture on personality development, how to face competitive exams and interviews.

Events	2016-17	2017-18	2018-19	2019-20	2020-21

6.5.5 PHYSICAL FACILITIES

6.5.5.1 Hostels:

There are two Girl's Hostel and one Boy's hostel inside the college campus with separate mess facilities and a student canteen which is run by the college authority. The college has two girls' hostels with capacity of 112 students and one boys' hostel with capacity for 116 students. Boys' and Girls' hostels have separate mess facilities serving regional and Indian cuisines. The students' messes are run by the students supported by college by providing manpower for cooking and cleaning.

Girls Hostel	**Boys Hostel**	
PG: No. of room = 44 **Ph.D. :** No. of room= 15	**PG:** No. of room = 48 **Ph.D.:** No. of room= 20	1. Localised Wifi Facilities are available in hostels 2. Television room 3. Students Mess (2) 4. Hostel gyms (2) 5. Table tennis (2)

6.5.5.2 Examination Hall:

A fifty seater seminar hall and classrooms act as examination halls

6.5.5.3: Sports and Recreation Facilities:

One indoor/Badminton court, Basketball court, volleyball ground. Time schedule is maintained for students during morning and evening time. Regular competitions are conducted for students.

1. Multipurpose Student Utility Center
2. Badminton court
3. Basketball court
4. Volleyball court
5. Football ground (at ICAR-RC for NEH)

6.5.5.4: Auditorium construction in progress

6.5.5.5: Exhibition Hall/Museum: No

6.5.6 RESEARCH FACILITIES

6.5.6.1 Postgraduate Laboratories and Equipments:

The four schools of the college are well equipped with laboratories utilized by both faculty and students for research work. Each school houses individual laboratories as indicated below;

Sl. No.	Departments	Name of laboratories
1	**SNRM**	1) Analytical Lab 2) Biogeochemistry Lab 3) Microbial Ecology Lab 4) GIS and Remote Sensing Lab 5) Hydraulics lab 6) Farm Lab. 7) Biofertilizer production unit
2	**SCI**	1) Molecular Biology and Biotechnology Lab 2) Cytogenetics and Molecular Marker Lab 3) Media Preparation Room 4) Tissue Culture and Genetic Transformation Lab 5) Green house facilities 6) Genetics and plant breeding lab
3	**SCP**	1) Plant Pathology Lab 2) Molecular Lab 3) Biopesticide production unit 4) Mushroom production unit 5) Entomology Lab 6) Nematology Lab 7) Insectry 8) Polyhouse
4	**SSS**	1) Computer Lab 2) Multimedia Lab 3) ABM Seminar Room

The list of equipments and facilities available in the college for undertaking research activities are as shown below

S.N.	Particulars of Asset	Quantity
1	Water Bath Shaker, Model: NUV ST402	1 no.
2	Refrigerator, Make: Vestfrost Model: FKG371	1 no.
3	Microprocessor Research Cooling Compufuge, Model: RM-12CBL, Make: REMI	1 no.
4	Microcentrifuge	1 no.
5	Dissecting Microscope, Make: Olympus, Model: 13/ MS24	1 no.
6	Stereo Binocular Microscope, Make: Olympus, Model: MSZ-BI	1 no.
7	PC Based Double Beam UV-VIS Sectrophotometer, Model: 2202, Make: Systronics	1 no.
8	Laminar Air Flow Hood, Make: Klenzaids, Model: 1500C-72-24-24	1 no.
9	Phase Contrast with Epifluores-cence Attachment and Stabilizer, Model: Axio Scope A1, Make: Carl Zeiss	1 no.
10	Auto Loop Sterilizer, Make: Himedia,	1 no.
11	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
12	Conductivity Meter Cyberscan 510, Eutech make	1 no.
13	Colony Counter; Cat # 0671	2 nos.
14	Autoclave Portable, Cat # 7407 PAD	2 nos.
15	Portable Oil Free Vacuum Pump, Tarsons: Rocker-400	1 nos.
16	Vortex General Purpose (Shaker), Tarsons	5 nos.
17	Water Double Distillation Plant, Make: JSGW	1 no.
18	Water Single Distillation Plant, Medica:	2 nos.
19	Willy Mill, Secor Make	1 no.
20	High Precision Water Bath, Medica	1 no.
21	Double Ring Infiltrometer Set	1 Set
22	Soil Auger (Euro design) 5 cm dia, 1m long with handle, Screw Augers 2.5 cm dia and 5 cm dia, 1m long with handle, extension rod 1m long Wrench (1 pair)	2 nos.
23	Soil Core Sampler complete with 10 SS rings, 60 mm dia, 100 cc internal volume with end caps and one nylon headed shock absorbing hammer	1 no.
24	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
25	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
26	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
27	Fume Hood, NSW Brand, Cat No. 203	1 no.
28	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
29	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
30	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
31	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
32	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
33	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
34	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
35	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
36	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
37	Autoclave Vertical, Make: Equitron	1 no.
38	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
39	Student Microscope, Labomed, Model: VISION2000	4 nos.
40	Seed Germinator with Stabilizer, Remi Make	1 no.
41	5332 000.014 Mastercycler Personal (Thermocycler) with accessories	1 no.

42	5811 000.010 Centrifuge 5810R with accessories	2 nos.
43	Electronic Balance, Denver Make, Model SI 234DE	2 nos.
44	Hot Air Oven, Equitron Medica Make, Model: # 7053	1 no.
45	Vortex-Genie ® 2 Vortex (220V) 12112009-220	1 Set
46	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 8000	2 nos.
47	Uniline 2 KVA/168V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	3 nos.
48	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	3 nos.
49	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
50	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
51	Isotherm Kit, Isotherm Systems & PCR Cooler 0.2 MI Starter Set	1 no.
52	Digital Burette (Top Burette M), 2.5 ml	1 no.
53	5350 000.013 Thermomixer Compact	1 no.
54	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
55	Electronic Automatic KELPLUS Microprocessor Based Twelve Place Macro Block Digstion System, Model: KES 12L with accessories, Electronic Acid Neutraliser 'Scrubber', Electronic Superior Automatic Distillation System	1 Set
56	Bench Top Cooler (0°C), Tarson Make	2 nos.
57	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
58	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
59	Nanodrop Spectrophotometer, Make: Thermo, Model: ND-2000	1 no.
60	Electronic Balance, Denver Make, Model: SI 234DE	1 no.
61	Genogrinder, Mikrodismembrator-S Accessories, Sartorius Make	1 no.
62	Soil Moisture Meter (Mini Trase Kit with Bluetooth Aircable, Iowa State Tension Infiltro meter, Guelph Permeameter Kit	1 Set
63	Uniline Online UPS with isolation transformer suitable for single phase AC input and single phase AC output with rating of UPS 5.0 KVA and indicative back-up time 240 minutes, with minimum VAH 32000	1 no.
64	Refrigerating & Heating Circular, Model 9201, 240/50Hz, Polyscience Make	1 no.
65	Denaturing Gradient Gel Electrophoresis Apparatus Set; IV-1030 Complete system for DGGE,CDGE,TGGE, Model: IPU-S, Make: Ingeny	1 no.
66	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
67	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
68	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
69	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
70	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
71	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
72	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
73	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
74	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
75	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.

76	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
77	Student Compound Microscope, MLX-B Binocular (Pathological), Brand: Magnus	6 nos.
78	Top Pan Electronic Balance (PL60001-S EL. Precision Balance), Brand: Mettler	1 no.
79	pH Meter, Brand: Eutech, Model: PHTEST 10	1 no.
80	Electronic Laboratory Shaker Variable RPM, Model: Rotek LSV	1 no.
81	Environmental Shaker, Electronic Laboratory Shaker Variable RPM, Model: Roteck LES with accessories	3 nos.
82	Gel Dryer, Genei Make, Model-Junior, Gel Drying Surface, 25x35 cm Model: GDJ, Sl.No. 1011318	2 nos.
83	Chlorophyll Meter, CCM200	1 no.
84	Automatic Weather Station Complete System, Model: Vanatage Pro2 plus, Brand: Cole Parmer	1 no.
85	Refractometer, Model No. 2812, Sl. No.B024602	1 no.
86	Data Logging Moisture Meter with Humidity (Seed Moisture Meter), Sl.No. 03-11.0002	1 no.
87	Elisa-Cum-UV-VIS Spectrophotometer, (Multiskan Spectrum Reader, Cat No. 51118650) with accessories	
88	Quantum Meter Brand: Spectrum Model: 3415F	1 no.
89	Soil Compaction Meter, Brand: Spectrum, Model: 6101, Sl. No. 669	1 no.
90	Deep Freezer, upto -30°C Net capacity: 308L	1 no.
91	Single Distillation Unit (Cat No. 72230050), Make: Reviera	1no.
92	Multiparameter Water Quality Meter, Make: M/s Hanna Instruments, USA, Model: HI 98280	1 no.
93	Semi Dry/Dry Transfer Assembly, Cat No. V10-SDB, Sl.No. 30020934, Make: Sciplas	1 no.
94	Orion 5 KVA/168V OL UPS 5KVA On Line UPS System with 120 Minutes Battery Back Up Time Using SMF Batteries	1 no.
95	Fastprep Homogeneizer, Make Thermo Scientific, Model: FP120-230	
96	Geo Media Educational Kit (5 User License)	
97	ERDAS Imagine Software, ERDAS Imagine v2011 Educational Kit (5 User License)	
98	Vertical Dual Sided High Thorough Put SSR Electrophoresis System: Imperial Life Science Brand, Model: C-DASG-400-50	
99	Samsung: Double Door System Refrigerator (345 ltrs.), Model: RT35CDLBI/XTL/2012	2 nos.
100	Hybridyzation Oven, Model: 6240 Shake 'n' Stack LIBSNSR220 6240	1 no.
101	Biosafety Cabinet, Model: 1386	1 no.
102	Microtome with accesories, Make: Leica, Germany, Model: RM2245	1 no.
103	Flame Photometer, Make: Systronic, Model: 128	1 no.
104	Dual Vertical Mini-Gel System, CE, 2-Place, 11.3 cm. (w) x 10 cm (H): Imperial Life Sciences Brand, Cat. No. MGV-202	1 no.
105	Multiple Mini Vertical Gel Casting Chamber: Imperial Life Sciences Brand, Cat. No. GCC-204 Caster	1 no.
106	Mini Power Supply: Imperial Life Sciences Brand, Cat. No. EPS-300-X	2 nos.
107	Midi Horizontal Productivity Package Gel Dimension of 14 (W) x 16 cm (L): Imperial Life Sciences Brand, Cat. No. GCMGU-602T	1 no.
108	Infrared Thermometer, Model: 2956, Make: Spectrum Technologies Inc., USA	1 no.
109	Lux Meter (Rod Type), Operating Temperature: 0-40°C , Model: 3415FX, Make: Spectrum	1 no.

110	Permeameter (Constant Head) Model: Constant Head & Falling Head, Make: Roorkee Inds.	1 no.
111	Weighing Balance Model: TTB31 Wensar	2 nos.
112	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
113	Line Quantum Sensor, Model: MQ-301, Make: Apogee Instruments	2 nos.
114	Table Top Microcentrifuge, Model: Heraeus Fresco21, Make: Thermo Fisher Scientific	1 no.
115	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00, Model No. CPHTUTOR, Eutech Make	1 no.
116	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
117	96 well PikoREAL qPCR system, Batch No. PR0961400950	1 no.
118	Compound Light Microscope CH 20i Binocular Microscope, Brand: Olympus, Model CH20i	3 nos.
119	Laboratory Refrigerator, 380 lt. capacity with glass door, frost free, 72.8x23.4x23.4 dimensions with 2 KVA Voltage Stablilizer Model: FKG-400, Make: Celfrost	1 no.
120	BOD Incubator, Precise electronic digital temperature controller with timer with cooling system, Make: Ikon Instruments, Model: IK120	1 no.
121	LN2 (Liquid Nitrogen) Container, Cat. No. CK509X2, Make: Thermo Scientific	1 no.
122	Stereo Microscope, Model: EZ4, Make: Leica, Germany, No. 10447197	1 no.
123	UV Transilluminator, Tarsons: Make, Wavelength: 254 mm, 312 mm, Filter size: 200x210mm, 200x240mm, Dia: 380 x 242 x 114mm, 380 x 242 x 112mm	2 nos.
124	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	10 nos
125	Intel Core i5 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RKP882	11 nos
126	Senior Precision Rotary Microtome, Radical, Model-30	1 no.
127	Soil Augur, Make: Roorkee Industries, India	1 no.
128	Digital Burette, Make: Titrettee/Tarsons	1 no.
129	Soil Core Sampler, Make: AIC	1 no.
130	EC-TDS Meter, Model: CM 183	1 no.
131	Flame Photometer, Model: CL 378, Sl. No. 02358/198	1 no.
132	Global Positioning System (GPS), Model: eTrex 30	1 no.
133	pH cum mV Meter, Model: LI-614	1 no.
134	Soil Penetrometer Compaction Meter (Imported Parts), Make: Roorkee Industries	1 no.
135	Laboratory Shaker, Make: Alliance, Brand: Lunar, India	1 no.
136	Double Beam Atomic Absorption Spectrophotomter, Model: SL-194	1 no.
137	Double Beam UV-VIS Spectrophotomter, Model: SL-210 with PC Configurable Software	1 no.
138	Constant Voltage Stabilizer, 3 KVA, (Zodin) Model: CVR-350	1 no.
139	Rotary Vacuum Pump, Model: SD-45-DS	1 no.
140	Top Pan Weighing Balance, Model: CA3102, Contech Make	1 no.
141	Analytical Balance, High Precision, Model: CA-234, Contech Make	1 no.
142	Thermo Hygrometer Digital Clock 288 CTH Jambo Brand: General	
143	Thermo Hygrometer Manual	
144	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
145	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

146	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

6.5.6.2. Research Contingency

The research contingency is divided amongst the four schools, viz., School of Crop Improvement, School of Natural Resource Management, School of Crop Protection and School of Social Sciences. The money is primarily utilized for research activities taken up by three of the four schools (SCI, SNRM &SCP), whereas the contingency is utilized by SSS for conducting surveys and other extension activities.

Sl. No.	School	2015-16 (Rs.)	2016-17 (Rs.)	2017-18 (Rs.)	2018-19 (Rs.)	2019-20 (Rs.)
1	Natural Resource management	476877.5	735798.5	341035.75	297744.5	74267.25
2	Crop Improvement	476877.5	735798.5	341035.75	297744.5	74267.25
3	Crop Protection	476877.5	735798.5	341035.75	297744.5	74267.25
4	Social Studies	476877.5	735798.5	341035.75	297744.5	74267.25
	Total (Rs.)	19,07,510	29,43,194	13,64,143	11,90,978	2,97,069

6.5.7 OUTCOME/OUTPUT

6.5.7.1: Student Performance in National Examination

Name of Exams	No. of Students qualified				
	2016	2017	2018	2019	2020
SRF	-	-	-	3	2
NET	20	10	7	5	-
ARS	-	-	-	1	-
UGC NET	2	4	-	1	-
CSIR NET	-	1	-	2	-

6.5.7.2 Students Placement Profile:

Name of Exams	Students qualified				
	2016	2017	2018	2019	2020
ARS	-	-	-	1	-
State Govt./ Bank jobs			7	11	-
Ph.D. or higher education	12	12	7	14	11

6.5.7.3 Awards/Recognitions/Certificates:

Information on Awards/Recognitions/Certificates for the last five years

Awards/Recognitions/Certificates for Staff for the last five years

Sl.no	Name of the department	Name of the Faculty	Designation	Details of Awards/recognition received
2016-17				
1	School of	Dr. Sanjay	Associate	Best Paper Presentation Award:

	Natural Resource Management	Swami Associate Professor	Professor	Presented my paper entitled in the 8th National Extension Education Congress, 2017 on Nutrition-Sensitive Agriculture: Changing Role of Extension, January 28-31, 2017 at ICAR-NAARM, Hyderabad and received Best Paper Presentation Award
				Best Worker Award in 8th National Extension Education Congress, 2017 on Nutrition-Sensitive Agriculture: Changing Role of Extension, January 28-31, 2017 at ICAR-NAARM, Hyderabad for extending extra-ordinary assistance in all the Congress related assignments
				Member of Editorial Board Journal of Agricultural Science, ISSN: ISSN 1916-9752 Sustainable Agriculture Research, ISSN: ISSN 1927-050X
2	School of Crop Protection	Dr. D. Majumder	Assoc. Professor	Councilor for East Zone of the Indian Society of Plant Pathologists Executive Council (2013-15)
3	School of Social Sciences	Dr. Ram Singh	Associate Professor	North-East Extension Meritorious award and it was presented by Hon'ble Vice-Chancellor, CAU, Imphal jointly with Dr. R.P. Singh, Former VC, MPUAT, Udaipur and President of SEE, Agra during 8th NEE Congress on 28-31 January, 2017 at ICAR-NAARM, Hyderabad
				Reviewer excellence award as reviewer of Indian Journal of Agricultural Research and Legume research-An international Journal, ARCC, Karnal during 2016-17
				Member Executive Committee in Indian Society of Agricultural Economics, Mumbai, (India) during 76th Annual Conference, AAU, Jorhat held on 21-23rd November, 2016
2017-18				
1	School of Social Sciences	Dr. Ram Singh	Associate Professor	Vice-president of Indian Society of Agricultural Economics, Mumbai, (India) during 77th Annual Conference at CPGS, CAU (Imphal), Umiam held on 12-14th October, 2017
2018-19				
Sl.no	Name of the Department	Name of the Faculty	Designation	Details of Awards/recognition received

Sl.no	Name of the Department	Name of the Faculty	Designation	Details of Awards/recognition received
1.	School of Crop Improvement	Dr. Konjengbam Noren Singh	Professor	Bharat Ratna Indira Gandhi Gold Medal Award conferred by GEPRA, New Delhi for their excellency in Education and Research on 9th March, 2019.
2.	School of Crop Protection	Dr.R.K.Thombisana Devi	Professor	Chaired the technical session National Symposium on "Role of Plant Pathology in empowering and doubling farmers' income". 25-27 October, ICAR Research Complex for NEH Region, Umiam, Meghalaya
3.	School of Natural Resource Management	Dr. Sanjay Swami	Associate Professor (Soil Science & Agrill. Chemistry)	**SCSI Leadership Award:** Soil Conservation Society of India (SCSI), New Delhi honoured for consistent contribution in the field of Natural Resource Management, especially Soil and Water Resource Management in Hilly tracts during 27th National Conference of SCSI on "Sustainable Management of Soil and Water Resources for Doubling Farmers' Income" held at AAU, Jorhat, Assam w.e.f. October 25-27, 2018.
	School of Natural Resource Management	Dr. Sanjay Swami	Associate Professor (Soil Science & Agrill. Chemistry)	**Best Oral Paper Award** for his paper entitled "Doubling Tribal Farmers' Income through Location Specific Integrated Farming Systems in North Eastern Hill Region of India" during Technical Session VI of the 27th National Conference of SCSI on "Sustainable Management of Soil and Water Resources for Doubling Farmers' Income" held at AAU, Jorhat, Assam w.e.f. October 25-27, 2018.
	School of Natural Resource Management	Dr. Sanjay Swami	Associate Professor (Soil Science & Agrill. Chemistry)	**Young Scientist Award:** Society of Extension Education conferred for consistent contribution in the field of Extension of Natural Resource Management Practices, especially Soil and Water Resource Management in Hilly tracts during 9th National Extension Education Congress-2018 on "Climate Smart Agriculture Technologies: Innovations and Interventions" at held at CAEPHT, Ranipool, Sikkim w.e.f. November 15-17, 2018.
	School of	Dr. Sanjay	Associate	**Reviewer Excellence Award as Reviewer**

Sl.no	Name of the Department	Name of the Faculty	Designation	Details of Awards/recognition received
	Natural Resource Management	Swami	Professor (Soil Science & Agrill. Chemistry)	of the journal *Agricultural Science Digest* by Agricultural Research Communication Center, Karnal, Haryana
	School of Natural Resource Management	Dr. Sanjay Swami	Associate Professor (Soil Science & Agri. Chemistry)	**Reviewer Excellence Award as Reviewer** of the *Indian Journal of Agricultural Research* by Agricultural Research Communication Center, Karnal, Haryana
		Dr. Sanjay Swami	Associate Professor (Soil Science & Agri. Chemistry)	**Best Poster Award:** The research paper entitled "Biochar for enhancing crop productivity and sustaining soil health" authored by O. Srikanth Yadav, Sanjay-Swami, T.V. Sowjanya and P.V. Shilpa was adjudged as Best Poster in the Technical Session –IV of the 27th National Conference of SCSI on "Sustainable Management of Soil and Water Resources for Doubling Farmers' Income" held at AAU, Jorhat, Assam w.e.f. October 25-27, 2018.
		Dr. Sanjay Swami	Associate Professor (Soil Science & Agri. Chemistry)	**Oral Paper Presentation Prize:** The research paper entitled "Biochar: Managing acidic soil in North Eastern Hill region of India" authored by O. Srikanth Yadav, Sanjay-Swami, and T.V. Sowjanya was adjudged as 3rd in the Technical Session on Managing Soil Health and Quality of the All India Post Graduate Students' Research Convention in Soil Science held at BAU, Sabour, Bhagalpur w.e.f. March 15-16, 2019.
		Dr. Dwipendra Thakuria	Professor (Soil Microbiology)	Recognized as Editor of the Journal of the India Society of Soil Science for a period of 2 years (2017 and 2018).
		Dr. Dwipendra Thakuria	Professor (Soil Microbiology)	Supervisor of the DBT-Research Associateship Programme on the topic "Endophyte metabolomics of rice in response to habitat-adaptive fitness against abiotic stresses" by the Indian Institute of Sciences, Bangalore.
		Dr. Dwipendra Thakuria	Professor (Soil Microbiology)	Mr. Sagolshem Kalidas-Singh was awarded Young Investigator's Award for the research presentation on "Phosphorus Management for Transplanted Rice in Acid Soil: Seedling-Root-Dipping in SSP-Soil Slurry Method" authored by Kalidas-Singh S. and Thakuria D. in the 3rd International

Sl.no	Name of the Department	Name of the Faculty	Designation	Details of Awards/recognition received
				Symposium on Rice Science in Global Health, 2018, Kyoto Japan.
5.	School of Social Science	L. Devarani Student: Neyoni Nkululeko	Assistant Professor	Best Paper Award during the National Agri - Business Entrepreneurship Conclave held at ICAR-RC-NER during 9-11 February 2019
		Dr. Ram Singh,	Professor	Elected as Vice-president of Indian Society of Agricultural Economics for 3 years
		Dr. Ram Singh,	Professor	Elected as an executive member in the Indian Society of Agricultural Marketing at ISEC, Bengaluru November, 2018
		Dr. Ram Singh	Professor	Reviewer Excellence Award as Reviewer of the journal *Agricultural Science Digest* by Agricultural Research Communication Center, Karnal, Haryana

2019-20

Sl.no	Name of the Department	Name of the Faculty	Designation	Details of Awards/recognition received
1	School of Crop Protection	Dr. Mahesh Pathak	Professor Entomology	Best KVK Award for effective Implementation of Cluster Frontline Demonstration (CFLD) programme in Toria (*Rabi* 2018-19)conferred by ICAR-ATARI, Zone-VI, Guwahati, Assam in Annual Review Meeting of KVKs 2019-20 held at ATARI Guwahati, Assam, 29-31st May, 2019.
		Dr. Kennedy Ningthoujam	Assistant Professor Entomology	Appreciation certificate for outstanding participation on "Production Protocol for Biocontrol agents (Predators, Parasitoids and Microbial Bio pesticides) and Biofertilizers" held at NIPHM, Hyderabad
2		Dr. Pranab Dutta	Associate Professor	Best Poster Presentation Award (Jointly) for the paper "Green synthesis of silver nanoparticles, its characterization and study the efficacy against *Fusarium oxysporum*" in IPSCONF 2020 held at ICAR-IARI, New Delhi, India during January 16-20, 2020
	School of Natural Resource Management	Dr. Pradip K. Bora	Professor	Reviewer of Research Papers by the Transactions of American Society of Agricultural and Biological Engineers (ASABE), USA
		Dr. Pradip K. Bora	Professor	Reviewer of SAINS TANAH - Journal of Soil Science and Agroclimatology (STJSSA)-A scopus rated internationaljournal published from Indonesia.

		Dr. Dwipendra Thakuria	Professor	American Phytopathological Society Travel Grant (North Eastern Zone, IPS) was awarded to Mr. Hubert Jones Shullai in the symposium "Sustainable Plant Health Management on North East India" during 6-7 November, 2019 at ICAR-RC for NEH Region, Umiam, Meghalaya
		Dr. Dwipendra Thakuria	Professor	Best Poster Presentation Award by Miss Lipa Dev in the 7th International Conference "Phytopathology in achieving UN Sustainable Development Goals" (IPSCONF2020) held on January 16-20, 2020 at ICAR-IARI, New Delhi, India
		Dr. Sanjay Swami	Professor	Agricultural Technology Development Society (ATDS), Ghaziabad awarded with the ***Outstanding Achievement Award*** for his outstanding contribution in the field of Soil Science and Agricultural Chemistry during 3rd International Conference on "Global Initiatives in Agricultural and Applied Sciences for Eco Friendly Environment (GIASE-2019)" held at Tribhuvan University, Kathmandu, Nepal w.e.f. June 16-18, 2019.
		Dr. Sanjay Swami	Professor	Pragati International Scientific Research Foundation, Meerut awarded with the ***Distinguished Scientist Award*** for his outstanding contribution in the field of Soil Science and Agricultural Chemistry during International Conference on "Sustainable Agriculture Production for Food, Nutritional and Livelihood Security: A Challenge for Asian Farmers" held at Pattaya, Thailand w.e.f. September 25-27, 2019.
		Dr. Sanjay Swami	Professor	Agricultural & Environmental Technology Development Society (AETDS), U.S. Nagar, UK with its prestigious the ***Fellow Award*** for his outstanding contribution in the field of Soil Science and Agricultural Chemistry during International Conference on "Global Perspective in Agricultural and Applied Sciences for Food and Environmental Security (GAAFES-2019)"w.e.f. December 01-02, 2019 at Kumaun University, Nainital, UK, India.
		Dr. Sanjay Swami	Professor	Agricultural Research Communication Center (ARCC), Karnal, Haryana honored with its prestigious the ***Reviewer Excellence Award*** for his outstanding contribution in meticulously reviewing research papers.

		Dr. Sanjay Swami	Professor	***Appreciation Award*** by the Soil Conservation Society of India (SCSI) New Delhi in recognition of his sincere, dedicated and hard work for successful organization of the 4th International Conference during the 4thInternational Conference of Soil Conservation Society of India (SCSI) on "Soil and Water Resources Management for Climate Smart Agriculture, Global Food and Livelihood Security" at NASC Complex, New Delhiduring November 05-09, 2019.
		Dr. Sanjay Swami	Professor	"Location Specific Traditional Practices *vis-à-vis* Soil and Water Conservation in North East India" awarded with ***Best Oral Presentation*** in the 4th International Conference of Soil Conservation Society of India (SCSI) on "Soil and Water Resources Management for Climate Smart Agriculture, Global Food and Livelihood Security" at NASC Complex, New Delhi during November 05-09, 2019.
		Dr. Sanjay Swami	Professor	"Biochar: Managing acidic soil in North Eastern Hill region of India" authored by O. Srikanth Yadav, **Sanjay-Swami,** and T.V. Sowjanya was adjudged as 3rd in the Technical Session on "Managing Soil Health and Quality" in the All India Post Graduate Students' Research Convention in Soil Science held at BAU, Sabour, Bhagalpur w.e.f. March 15-16, 2019.
		Dr. Sanjay Swami	Professor	The Visitor of Manipur University, His Excellency, The President of India nominated as a Member of the Fifth Court of Manipur University under Section 22(1) read with Amended Statute 10(5) of Manipur University Act, 2005 for a term of three years
		Dr. Sanjay Swami	Professor	The National Research Development Corporation (NRDC), Department of Scientific and Industrial Research, Ministry of Science & Technology, Government of India, New Delhi nominated as an expert for evaluating the applications of NRDC National Meritorious Invention Awards.
		Dr. Sanjay Swami	Professor	Guest Editor for the Special Issue of *Journal of Environmental Biology* (NAAS Rating 6.73) on the theme "Agricultural and Applied Sciences for Food, Nutritional and Environmental Security."
		Dr. Sanjay	Professor	Associate Editor, *Global Academic Journal of Agriculture and Bio Sciences* (An

		Swami		International Journal), ISSN (Print): 2706-8978, ISSN (Online): 2707-2568Published by Scholars Middle East Publishers, Dubai, UAE.
		Dr. Sanjay Swami	Professor	Associate Editor, *Current Advances in Agricultural Sciences* (An International Journal), Print ISSN: 0975-2315, Online ISSN: 2394-4471 Published by The Society of Agricultural Professionals, Chandra Shekhar Azad University of Agriculture & Technology, Kanpur-208002 (India).
		Dr. Sanjay Swami	Professor	Reviewer, *Journal of Agricultural and Crop Research,*ISSN: 2384-731x, Science Web Publishing
		Dr. Sanjay Swami	Professor	Reviewer, *Indian Journal of Agricultural Research,* Print ISSN: 0367-8245, Online ISSN: 0976-058X, Agricultural Research Communication Centre, Karnal, Haryana. https://arccjournals.com/journals/indian-journal-of-agricultural-research
		Dr. Sanjay Swami	Professor	Reviewer, *Legume Research,* Print ISSN: 0250-5371, Online ISSN: 0976-0571, Agricultural Research Communication Centre, Karnal, Haryana.
		Dr. Sanjay Swami	Professor	Reviewer, *Agricultural Science Digest,* Print ISSN: 0253-150X, Online ISSN: 0976-0547, Agricultural Research Communication Centre, Karnal, Haryana.
		Dr. N. J. Singh	Asst. Professor	Reviewer panel of Journal of Environmental Biology, Volume 40(5).
		Dr. N. J. Singh	Asst. Professor	Best Master Thesis Award-2019 from International Conference on "Global Perspective in Agricultural and Applied Sciences for Food and Environment Security (GAAFES 2019)"1-2 December, 2019 held at UGC-HRDC Hall, Kumaun University, Nainital, UK, India

2020-21

Sl.no	**Name of the Department**	**Name of the Faculty**	**Designation**	**Details of Awards/recognition received**
1	School of Crop Improvement	Dr. Wricha Tyagi	Professor	**5th H.K. Jain CAU Award (2018-19)**awarded on 8th March, 2021 in Agri-Fair held at CAU, Imphal during 8-10th March, 2021
2	School of Social Sciences	Dr. Ram Singh	Professor	**6th H.K. Jain CAU Award CAU (2019-2020)**awarded on 8th March, 2021 in Agri-Fair held at CAU, Imphal during 8-10th

				March, 2021

Awards/Recognitions/Certificates (Students) for the last five years

Sl. No	Name of college/ School	Name of student	Year	Details of Awards
2016-17				
1	School of Crop Improvement	Dr. Suvendhu Shekhar Dutta Ph.D. scholar	2016	Market-trait association for low light intensity tolerance in rice genotypes from Eastern India in students 'symposium on 54-genomics-based next generation crop improvement approached held at ICARI, New Delhi from 11-12 November, 2016
2	School of Social Sciences	Ms. D.Rymbai, Ms. Chipang and Mr. D.J. Samuelnavaraj. (Ph D Scholar, Economics)	2016	Best paper presentation award to three Ph D Scholar (Ms. D. Rymbai, Ms. S. Chipang and Mr. D.J. Samuelnavaraj) in 76th Annual Conference at AAU, Jorhat During 21-23 November, 2016
		Ms. Alethea Dympep (Ph D Scholar, Extension)	2016	Best paper award in the ISEE National Seminar held at Rajmata Vijayaraje Scindia Krishei Vishwavidyalay, Gwalior, November 28-30, 2016
2017-18				
1	School of Crop Improvement	Dr. Sudip Das Ph.D. scholar	2017	Best poster award in Third International Conference on Bioresource and Stress Management' held at Jaipur, Rajasthan, from 11-12 November, 2017
2		Dr. Karma L. Bhutia Ph.D. scholar	2017	Best poster award in National Conference on Plant Breeding in Genomics Era" held at University of Agricultural Science, Bengaluru from 15- Sept,2017
3	School of Social Sciences	Ms. Monika Aeibam Ph D Scholar, Economics	2017	Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14th October, 2017
		Mr. N. K. Meena (Ph D Scholar, Economics)	2017	Best paper award in International Conference on 'conservation and Management of Agricultural and Natural Resources: Strategies for food security in Developing Countries' held on 8-9th Nov, 2017 at CP University, Kota.
				Best paper award in 26th National conference on Natural Resource Management for climate smart sustainable agriculture held at CPGS-AS, Umiam from 11-13th Sept, 2017
				Best paper award in 8th National

				Extension Education Congress, held in ICAR-NAARM, Hyderabad, Telangana during 28-31th Jan, 2017
				Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14th October, 2017
				Best poster presentation award during 8th National Extension Education Congress, held at ICAR-NAARM, Hyderabad, Telangana during 28-31th Jan, 2017
		Ms. Nivetina Laitonjam (Ph D Scholar, Economics)	2017	Best paper oral presentation award in SFEIES at ICAR, Umiam from 19-21st September 2017.
				Best paper award in 26th National conference on Natural Resource Management for climate smart sustainable agriculture held at CPGS-AS, Umiam from 11-13th Sept, 2017
		Mr. S. Evalwell Dkhar Ph.D. (Extension)	2017	Best paper oral presentation award at SFEIES at ICAR, Umiam from 19-21st September 2017.
				Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14th October, 2017
		Ms. Victoria Devi Ph.D. (Extension)	2017	Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14thOctober, 2017
				Best paper award in the ISEE National Seminar held on BHU, Sabour, Bhagalpur, Bihar, From28-30th November 2017
		Singyala Chiphang Ph D Scholar, Economics	2017	Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14th October, 2017
		Mun Yocha M.Sc (Economics)	2017	Best paper award in the 77th conference of ISAE, held at CPGS-AS, Umiam, on 12-14th October, 2017
2018-19				
1	School of Natural Resource Management	Mr. O. Srikanth Yadav	2018	The research paper entitled "Biochar for enhancing crop productivity and sustaining soil health' in the Technical Session –IV of the 27th National Conference of SCSI on "Sustainable Management of Soil and Water Resources for Doubling Farmers' Income" held at AAU, Jorhat, Assam w.e.f. October 25-27, 2018
2	School of Social Sciences	Mr. Ereneus MarbaniangPh.D (Extension)	2019	Innovative article award 2019

		Mr.Pynbiang Kharumnuid Ph.D. (Extension)	2019	Innovative article award for article "Urban Agriculture: A strategy for poverty alleviation, food security and environmental sustainablility" on 2019
2019-20				
1	School of Natural Resource Management	Sowjanya T. B. Msc. (Soil Science& Agril. Chemistry)	2019	Best Master Thesis Award 2019 Title of Thesis "Temporal soil nitrogen availability and its influence on rapeseed (*Brassica campestris* L.) under varying nitrogen sources" Agricultural and environment technology development society (AETDS), U.S Nagar, Uttarakhand, India held at UGC-HRDC Hall, Kumaun University, Nainital, UK, India from 1-2 December, 2019
2	School of Crop Protection	Miss Lipa Deb Ph.D. (Plant Pathology)	2020	Best Poster in the 7th International Conference "Phytopathology in achieving UN Sustainable Development Goals" (IPSCONF2020) held on January 16-20, 2020 at ICAR-IARI, New Delhi, India
3	School of Social Sciences	Ms. Jeemoni Gogoi Ph.D. (Economics)	2020	Best paper presentation in Regional Seminar on 'Perspectives of Horti-Busines in Development of North Eastern Region', February 24-25th, 2020, CoHF (CAU), Pasighat, Arunachal Pradesh.
		Ms. Dipriya lyngkhoi Ph.D. (Economics)	2020	Best paper presentation in Regional Seminar on Perspectives of Horti-Business in Development of North Eastern Region. February 24-25th, 2020, CoHF (CAU), Pasighat, Arunachal Pradesh.
		Mr. Baiarbor Nongbri Ph.D. (Economics)	2020	Best paper presentation in Regional Seminar on Perspectives of Horti-Business in Development of North Eastern Region, February 24-25th, 2020, CoHF (CAU), Pasighat, Arunachal Pradesh.
		Mr. Hehlangki Tyngkan Ph.D. (Economics)	2020	Award as 1st Position in Idea Challenge competition on National Science Day 2020 held at ICAR, Umiam on 28th February 2020
		Mr.Pynbiang Kharumnuid Ph.D. (Extension)	2020	Best paper presentation in Regional Seminar on "Perspectives of Horti-Business in Development of North Eastern Region" held on February 24-25th, 2020, at CoHF (CAU), Pasighat, Arunachal Pradesh
		Mr.Pynbiang	2020	1st Best poster Award in Global Potato

		Kharumnuid Ph.D. (Extension)		Conclave 2020 held during 28-31st Jan, 2020
		Mr.Pynbiang Kharumnuid Ph.D. (Extension)	2020	2nd Best poster Award in Global Potato Conclave 2020 held during 28-31st Jan, 2020 at Mahatma
		Mr. Ereneus Marbaniang Ph.D. (Extension)		Best article award for article entitled Agricultural knowledge and information system (AKIS)
		Mr. Hehlangki Tyngkan Ph.D. (Economics)	2020	Best oral presentation award in 3 days National conference on" Agricultural Resource Management for Atmanirbhar Bharat' on 17-19 July, 2020 through online platform.
		Mr. P. Sai Priyanka M.Sc (Extension)	2020	Best oral presentation award in 3 days National conference on" Agricultural Resource Management for Atmanirbhar Bharat' on 17-19 July, 2020 through online platform.

6.5.7.4 Employability:

The employability skills for college students need to have good communication i.e. the ability to listen effectively and communicate appropriately and accurately, leadership quality, innovative ideas. Time management, professionalism like work ethic e.g., punctuality, working productively with others, and time workload management, and understand the impact of non-verbal communication on professional work image. Ability to demonstrate integrity and ethical behaviour, act responsibly with the interests of the larger community in mind, and ability to learn from mistakes. The list of students already engaged in various institutes is summarized below:

Name of Exams	**Students qualified**				
	2016	2017	2018	2019	2020
ARS	-	-	-	1	
State Govt./ Bank jobs			7	11	-
Ph.D. or higher education	12	12	7	14	

6.5.9 Certificate (Applicable when SSR is submitted for Programmes & College)

I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date and Seal

Annexure-I

6.6.3 RESEARCH SUPPORT

6.6.3.3 Technology developed and it's Adoption:

Sl. No	Source of the technology	Year	Name of the technology
1	School of Natural Resource Management	2016	CAU-*JHUM* Bioenhancer (Liquid biofertilizer for mixed crops of *Jhum* fields)
2	School of Natural Resource Management	2018	**Biofortified Enriched Compost (BEC) for pulse promotion in acid soil**
3	School of Crop Protection	2020	***Um Comb*:** A Liquid Consortial Bio formulation of fungal antagonists, entomopathogens and plant growth promoters
4	School of Crop Improvement	Under ICAR AICRIP AVT1 trials	Improved line CAUS 107(IET28210) of paddy
5	School of Crop Improvement	Under multi-localational trials	Improved line CAUS 105 (IET27496) of paddy

Annexure-II

6.6.4 EXTENSION SUPPORT

6.6.4.1. Extension Council:

CPGS-AS has a College Extension and Advisory Committee (CEAC). The present composition of the committee (constituted vide letter No. CAU/DE/27/EEC/2016-17/6408 dated the 30th September 2016) is as under

1.	Dean, CPGS	Chairperson
2.	Chairman, School of Crop Improvement, CPGS	Member
3.	Chairman, School of Social Sciences, CPGS	Member
4.	Chairman, School of Crop Protection, CPGS	Member
5.	Chairman, In-charge School of Natural Resource Management, CPGS	Member
	External Experts	
6	Dr. R.B. Dympep, Former Director of Agriculture, Govt. of Meghalaya	Member
7	Dr. A.K. Singha, Principal Scientist, ATARI, Umiam, Meghalaya	Member
	Farmer representative and Social Worker	
8	Mrs. Rose Mary, Farmer Representative, Bhoirymbong	Member
9	Mr. Tambor Lyngdoh, Mawphlang Welfare Society, EKH district	Member
	PC, KVK	
10	Dr. Md. Mokidul Islam, Sr. Scientist and Head, KVK, Ri-Bhoi	Member
	Line dept nominees	
11	Director, MAMETI, Govt. of Meghalaya	Member
12	Director, Deptt. Of Vety. And Animal Husbandry, Govt. of Meghalaya	Member
13	Joint Director of Agri (Resh and Trg), Deptt of Agri., Govt. of Meghalaya	Member
14	District Horticulture Officer, R-Bhoi, Deptt. Of Horticulture, Govt. of Meghalaya	Member
15	Dr. Ram Singh, Professor (Agri Economics), School of Social Sciences, CPGS	Member Secretary

The committee normally meets once a year to discuss the annual extension plan for the current financial year. Till now, there have been three CEAC meetings.

Sl. No	Name of the meeting	Date	Venue
1	1st CEAC meeting of CPGS-AS	23rd May 2018	Conference Room, Farmers' Hostel, CPGS-AS
2	2nd CEAC meeting of CPGS-AS	17th May 2019	Conference Room, Farmers' Hostel, CPGS-AS
3	3rd CEAC meeting of CPGS-AS	28th May 2020	Online

6.6.4.2. Directorate of Extension Education:

Present establishment and extension coordination mechanism: In the college level, a faculty member is assigned the charge of Extension Coordinator. The role of extension coordinator is to facilitate and coordinate the extension activities of the college.

Extension and technology dissemination system Types of extension activities conducted in the college are: Adoption of villages as part of MGMG and TSP program, mobile based agro-advisory services to farmers through the m4agriNEI, skill development and vocational trainings for rural youth and farmers, need/ demand based or supply based awareness/ training program for farmers and extension personnels, facilitation of linkages for farmers with various backward and forward stakeholders.

Contribution in academic programs:

- Field level problems identified during extension programs form the basis of many PG and Ph. D research problems of the students.
- Doctoral students are engaged to assist many on-farm and on-campus extension activities.
- PG and Ph. D students conduct field trials in farmers' field. This encourages farmer participatory research and technology evaluation.

6.6.4.3. Extension Planning and Technological Impact:

An annual extension plan is prepared in consultation with all the schools of the college. The CEAC members evaluate the plan and suggest necessary modifications. The Annual plan is finally sent for approval by the EEC at university level

Planning ensures target setting and smooth execution of the activities in terms of who will do what and when. Also, it ensures incorporation all important farmers' problems and technological innovations which needs to be addressed

All extension projects implemented has an inbuilt impact evaluation mechanism. Case studies of successful farmers are documented. Every skill development programmes are evaluated on the basis of outcome on knowledge and skill of trainees.

6.6.4.4. Implementation of National Initiatives:

Mention the status of implementation of Student Ready, green initiatives, Farmers First Scheme, Mera Gaon Mera Gaurav, NICRA and other similar schemes.

<table>
<tr><th>Sl. No.</th><th>Name of the Initiative</th><th>Status of Implementation</th></tr>
<tr><td>1</td><td>MGMG</td><td>Adopted a total of 22 villages by 4 teams of scientists Activities involve periodic visits for problem identification, advisory and training services, input supply, sample testing etc.
<table>
<tr><th>Year</th><th>No. of visits</th><th>No. of clients served</th></tr>
<tr><td>2016-17</td><td>43</td><td>453</td></tr>

</table>

6.6.4.5. Innovation and Best Practices:

What are the innovative efforts of an institution that help inits excellence in extension?
Some of the innovative extension models/ projects adopted by the college are provided below:

Sl. No	Name of the program/ project	Funded by	Major achievement
1.	m4agriNEI (Development and deployment of mobile based agro-advisory service in NEI (2012-2017)	MeITY	• Mobile based agro-advisory service for farmers of Meghalaya • Project Period: June 2012-March 2018 • 10,647 farmers registered from 4 districts • 7287 agro-related queries received and answered and 150 bulk SMSs sent
2.	3 months Distance Education Certificate Program in Piggery (2016)	CAU, Imphal	• Out of 93 farmers enrolled, 75 farmers successfully completed the programme to receive certificate
3.	3 months residential vocational training on mushroom cultivation (2018)	Power Finance Corporation-CSR	• 20 farmers trained in mushroom cultivation. 6 of which have started mushroom farming on a large scale.
4.	Integration and application of VAV for crop health assessment and monitoring with IIDS in providing evidence based agro-advisory services to farmers in north-east India (DhaBReT) (2020-22)	MeITY	Expected benefits: • Near real time précised agro-advisory service • Yield forecasting etc.

6.6.4.6. Consultancy/Certification/Testing:

Mention about the resources generated through Consultancy/Certification/Testing etc. in last five years. Give details of all activities. Give summary of participation of faculty in Consultancy/Certification/Testing and outreach program.

Outreach Programmes:

Type of outreach Programme	2016-17	2017-18	2018-19	2019-20	2020-21	Technologies disseminated
One day awareness programme field days	9 (287)	18 (752)	20 (431)	25 (844)	11 (343)	• Spawn production andcultivation of oyster, button and shitakae mushroom • Crop related • CAU R varieties related • Zero tillage cultivation of rapeseed and mustard • Pest management of major crops • Soil nutrient management related • FAW related • Specialty corn related • Bio-control (bio-pesticides) related • Extension methodology • Use of ICT for extension • Group formation and book keeping • Plant Tissue culture, • PPVFR, • irrigation and water harvesting
3-5 days Training programme for farmers	1 (39)	-	-		1 (15)	
6-10 days Training programme for farmers	-	-	2 (21)	-	-	
One day training/ awareness programme for extension personnel	-	-	-	-	-	
3-5 days Training programme for extension personnel	-	-	-	1 (25)	2 (40)	
6-10 days Training programme forextension personnel	-	1 (22)	-	-	-	
1 day training programme					1(25)	"Shitake mushroom cultivation

* Figure outside parentheses indicate number of events and figure inside parentheses indicate total number of participants

6.6.6.2 Extra and Co-curricular Activities:

- Yes

Year	Activity	Date	Brief outline of program
2016	College week	01.10.16-07.10.16	College week was organised during 1st-7th Oct. 2016. Sports, literary, fine arts and cultural activities were conducted.
	3rd inter college youth festival	24.11.16-26.11.16	The 3rd inter college youth festival was held at College of Horticulture and Forestry, Pasighat during 24 to 26 November ,2016. A team of 27 numbers participated in the youth fest. Students bagged medals in poster making, quiz, elocution, extempore and in group song and dance.
	Republic Day		Cricket and volleyball match were organised for students and staff
2017	4th inter college games and sports meet, 2017	16.02.17-19.02.17	4th inter college games and sports meet, 2017 was held during 16 to 19 Feb at COF, Lembucherra. A team of 22 students and 3 official participated and students bagged 1 gold, 4 silver and 3 bronze medals.
	17th AGRIUNIFEST, 016-17	22.02.17-25.02.17	Mr. Nowang Wangnow and Mr. Shaikh Tabrez bagged the 2nd place in quiz competition
	College week	13th to 18th Nov,2017	College weekwas organised during 13th to 18th November,2017.
	4th Inter College Youth Festival	15.01.17-17.01.17	A team of 26 members including faculty, staff and 23 students participated in the 4th Inter College Youth Festivalheld at College of Agriculture, Iroisemba,Imphal. Students bagged prizes in Rangoli, Quiz and Elocution.
2018	18th AgriUnifest,2017-18	12.02.18-16.02.18	Mr. Nitin Hugar Participated and bagged 2nd position in the quiz competition at the 18th AgriUnifest,2017-18 held at Sri Venkateswara Veterinary University, Tirupati
	College week	08.10.2018-12.10.2018	College week was organised during 8th to 10th October 2018. Sports, literary, fine arts and cultural events were organised.
	5th Inter College Youth festival	19.11.18-21.11.18	5th Inter College Youth festival was held at College of Vety.Sc. & A.H. Selesih Mizoram. A team of 12 students participated in the youth festival. Students bagged prizes in quiz and elocution.
2019	19th Agri. Univ. Games and Sports Meet	02.01.2019-05.01.2019	Mr. Sugumar participated in shotput and discus throw in the 19th Agri. Univ. Games and Sports Meet held at PAU, Ludhiana during 2nd to 5th January, 2019

	College Week	21st to 28th September	College Week 2019was celebrated during 21st to 28th September.Sports, literary, fine arts and cultural activities were conducted during the college week. The valedictory function was held on 28th September, Dr. B.C. Deka, Director, ICAR, ATARI, Umiam, Meghalaya graced the function as the Chief Guest.
	6th Inter-Collegiate Youth Festival cum Games & Sports Meet	6th to 10th November,2019	The 6thInter-Collegiate Youth Festival cum Games & Sports Meet was held at College of Agriculture, Iroisemba during 6th to 10th November, 2019. A team of 15 contingent including 13 students, Ms. Evaphimon Kalwing,Medical Attendant and Dr.Dhanabati, SWO as team leader participated in the 6th Inter Collegiate Youth Festival cum Games & Sports Meet, 2019 during 18.11.19 to 21.11.19 held at COA, Imphal, CAU. Students bagged medals in Debate,Quiz, Extempore, Rangoli, Javelin, Shot put, 200m race
2020	Republic Day	26.01.20	Republic day was celebrated on 26th January by hoisting the National Tricolor by Dr. N.B. Singh, Dean, CPGS at the Academic building of the College of Post-Graduate Studies. Painting competition and fancy dress competition were organised for the children. A friendly volleyball match was also conducted between the staffs and the students.
	20th Agriunifest, 2019-20	8th to 12th February, 2020	Mr. Rizwan Participated the debate competition at the 20th AGRIUNIFEST, 2019-20 held at IGKV, Raipur, Chhatisgarh during 8th to 12th February,2020

6.6.6.3 Health Facilities:

The College has a medical unit with a permanent doctor, one compounder and two nurses.The unit has OPD Consultation, Supply of medicines, Ambulance for transporting patients, equipped with oxygen cylinder,mask. Nebulizer for airway related problems, Availability of Blood pressure, Hemoglobin Meter, Blood glucose Test,Pulse Oxymeter for oxygen saturation recording, Autoclave for sterilization of instruments, Minor OT procedures available like suturing,incision and drainage,excision under Local Anaesthesia, Fogging machine for fumigation of room, Vaccines available for Rabies,Tetanus, Anti- venom,Hepatitis B, etc, Two bedded observation room, Refrigerator for storage of vaccines. Apart from routine check-up and treatment the medical unit of the college has organized voluntary Blood Donation Camp.

6.6.6.4 Sports and Cultural Facilities:

One indoor/Badminton court or Students' Utility Centre, Basketball court, volleyball ground is available for Sports and cultural programs.

6.6.6.5 Student counseling and Placement Cell:

Proceedings of the Twenty-first Meeting of Academic Council of Central Agricultural University, Imphal held on 13th November, 2020 at CAU Headquarters, Lamphelpat, Imphal through Webinar/Videoconference

Agenda Item No. 5 – Starting Ph.D. programme in Entomology. (AC 21/5/2020)

Preamble:

The proposal to start Ph.D. Programme in Entomology with intake capacity of 2 seats in the academic session 2020-21 at College of Post Graduate Studies in Agricultural Sciences, Umiam, Meghalaya was discussed in the 18th Meeting of the Academic Council held on 8th June, 2018. It was approved in principle subject to production of details of syllabus and faculty position. The requisite documents were received from the College after the admission notification for long vacation. Accordingly, it was intimated to the College that the Ph.D. Programme in Entomology may be started from the next academic session 2020-21. Hence, the Agenda was placed before the Hon'ble Members of the Academic Council for kind approval.

Resolution:

The proposal was discussed by the Members of the Academic Council and it was approved to start from the next academic session 2020-21.

Agenda Item No. 6 (AC 21/6/2020) – Provision for pursuing Ph.D. Programme in constituent Colleges under CAU, Imphal.

Preamble:

There has been many requests for the SMS working in KVKs under CAU, Imphal and faculties of University to pursue Ph.D. Programmes in constituent Colleges under the University. If they are permitted, it will strengthen research and extension activity of the University. It is also highlighted that in other universities like Assam Agricultural University, Jorhat, faculties and KVK SMSs are allow to undergo Ph.D. programme in their University.

At present, University sponsored some limited number of faculties/SMS every year to undergo Ph.D. programme in the universities with which university has MoU with a condition that after completion of course work, research work will be carried out in their place of posting so that they can also enroll the student officially there. So far, there is no policy decision of the university that faculties/SMS of university who are willing to do Ph.D. in our university will be allowed or not.

Since our admission procedure for Ph.D. programme is open competitive admission, therefore SMS of our university may be allowed to appear our competitive examination for Ph.D. admission and if they are selected, they may be allow to undergo Ph.D. course in our university. The Agenda was placed before the Academic Council for deliberation and appropriate decision.

Resolution:

The proposal was discussed by the Members of the Academic Council and it was deferred.

Imphal, the 27th December, 2019

Sub: Specific guidelines to undertake the course of Special Problems for PG & Ph.D. students in the CAU Academic Regulations, 2016.

No. CAU/Reg/UG&PG/Ch.AC(19)/[illegible]: In pursuance of the decision of the Academic Council recorded in its 20th Meeting held on 27.28.03.19 at College of Agril. Engg. & PHT, Barapani, Meghalaya under Agenda Item No. 20, the Vice Chancellor, CAU, Imphal is pleased to issue notification for incorporation of the following provisions under Clause No. 2.15(B)(iv) of words of CAU Academic Regulations 2016 for Master and Ph.D. Degree Programmes.

2.15 Plan of work

2.15.3 "The course of Special Problem will be offered by the Advisor of Student's Advisory Committee in the second semester or later. The student has to submit a brief synopsis of the work to be done through the Chairman of the Student's Advisory Committee to Dean within 30 days of offering the course. A final report on the special problem will be submitted by the student, in his/her hands, which will be sent to Dean along with the evaluation report indicating marks in prescribed format".

The above revised clause shall be applicable from the ensuing academic session 2019-20.

Agenda Item No. 16 (AC 17/6/2018)	Introduction of best Thesis award at the University level across all the disciplines in the Faculty of Agriculture.

Preamble:

Awards are always a source of encouragement. It is more so when it is due to academic excellence conferred at the young age with impartial judgment done in a transparent manner. A student doing excellent work in Central Agricultural University if goes out of the University with accurate appreciation and award, it will definitely help the student to excel in research in particular and in life and consequently will contribute immensely to the University as well as to the society at large.

Proposal: It is proposed that an award for the best thesis be started at the University level for M.Sc. and PhD. works judged by a committee of external experts after initial screening at the college level. The college level screening may be done by a committee of senior faculty from all the disciplines and a total of five theses will be selected for final evaluation by the external experts. A citation may be given to the awardee in the convocation.

The Board of studies discussed the proposal in details and recommended that best thesis award will be given for all schools and referred to Academic Council for approval.

Resolution: (AC 17/6/2018)

The Academic Council discussed the proposal in length and decided to constitute a committee to prepare the detail guidelines.

Agenda Item No. 17 (AC-17/7/2018)	Pre-Requisite Courses for Agri-Business Management in CPGS.

Preamble:

As the admission to ABM is taken from allied disciplines also, there is a requirement for offering pre-requisite course in order to equip the students to fundamentals of basic economics relevant to Management courses.

Proposal:

Keeping in view the importance of the pre-requisite courses, the same may be offered as non-credit courses to those students who did not take the subject during their B.Sc. Degree programme.

Sl. No.	Course Code and Title	Credit
1.	AGECON 241 Agricultural Marketing, Trade and Prices	3 (2+1)
2.	ABM (Elective)- Agri-Business Management	3 (2 + 1)

The Board of studies discussed the proposal in details and forwarded the matter to Academic Council for further approval.

Resolution: (AC-17/7/2018)

The Academic Council discussed the agenda and approved as proposed.

Agenda Item No. 28 (AC-17/8/2018)	Renaming of College of Post Graduate Studies as Post Graduate College in Agricultural Sciences (PGCAS)

Preamble:

As listed in the recommendation of Expenditure Management Committee (EMC) of CAU, Imphal (Sl. No. 01), the College of Post Graduate Studies is to be renamed as College of Post Graduate Studies in Agricultural Sciences and the matter is to be put up in the Board of Studies of the Faculty/Academic Council Meeting.

Proposal:

The College of Post Graduate Studies may be renamed as Post Graduate College in Agricultural Sciences (PGCAS) and not as College of Post Graduate Studies in Agricultural Sciences as recommended.

The Board of studies discussed the proposal in details and recommended that the name of the college should be College of Post Graduate Studies in Agricultural Sciences and matter may be put to Academic Council for further approval.

Resolution: (AC 17/8/2018)

The Academic Council discussed the agenda and approved as proposed.

All the wardens of the Boys' and Girls' Hostels are requested to remain vigilant and alert to the students during the period. The squad members are requested to make surprise visit in hostels and other hot spots of ragging. The squad members and invited members are also requested to immediately report any act of ragging to the Anti-Ragging Committee for taking necessary course of action.

(Dean)
Umiam, the 3rd Aug 2018

Memo No. CAU/CPGS/Anti-ragging/2018-19/[illegible]

Copy to:

1. The Hon'ble VC for kind information of Hon'ble Vice-Chancellor, CAU, Imphal.
2. The Director of Instruction, CAU, Imphal, for kind information.
3. The Registrar, CAU, Imphal, for kind information.
4. All the concerned members for information and necessary action.
5. The Nodal Officer, Anti-Ragging Committee, CPGS, CAU, Umiam for needful action.

(Dean)

OFFICE ORDER

Dated, the 1st April, 2013

No. CAU/CPGS/Committees/2012-13/[illegible] In continuation to this office order No. CAU/CPGS/Committees/2012-13/[illegible], dated [illegible] March, 2013, on the orientation of certain committees, this is to further convey the constitution of the Internal Complaints Committee which would be consisting of the following members:

1. Dr. Wrichu Tyagi	Chairperson
2. Mr. Lalita Nath	Member
3. Dr. Hemi Mekenda	Member
4. Student' Welfare Officer	Member
5. Military M. Sylem	Member
6. Mr. Tilottoy Nath	External Member

Terms of Reference:

1. Preventive and redressal of complaints of harassment of women at workplace.
2. To ensure a safe, free and peaceful working environment for women.
3. To meet periodically to consider issues on the prevalence of grievances related to gender issues.

During the absence of the Chairperson, the responsibility of holding that charge will automatically be vested with the member next in order so as to avoid any slackness in the safe performance of the Committee's / Cells.

The order will come into force from 1st April, 2013 and will remain effective until it is superseded by relevant orders in that regard.

All the members are requested to kindly comply.

In-charge Dean

Memo No. CAU/CPGS/Committees/2012-13/[illegible] Dated, the 31st March, 2013

Copy to:-

1. The Secretary to Vice-Chancellor, for kind information to the Hon'ble Vice-Chancellor, CAU, Imphal.
2. All Chairmen & members of the Committee for necessary action.
3. All the In-charges of Cells for information.
4. All faculty for information.

In-charge Dean

OFFICE ORDER

Dated, 11th February, 2021

No. CAU/CPGSAS/ICC/2020-21/ : In supersession of the previous order, the **External Complaint Committee** has been reconstituted with the following members and terms and conditions.

1.	Dr. Lenkham Devanand, Assoc. Prof.	**Chairperson**
2.	Dr. Reyani Sen, Asstt. Prof.	Faculty Member
3.	Dr. Brojala Laloo, Asstt. Prof.	Faculty Member
4.	Ms. Ramolarai M. Marbaniang	Member- Non-teaching
5.	Mrs. Durlin Kharsyntiew	Member- Non-teaching
6.	Ms. Balarisha Lyngdoh, (NGO- Keeping Her Nature's Gift)	External Member

Terms of References:

1. Prevention and redressal of complaints of harassment of women at work place
2. To ensure a safe, ideal and peaceful working atmosphere for women
3. To meet periodically to sensitize women on the provisions for redressal of grievances related to gender issues.
4. The duration of the committee will be for 3 (three) years.

(P. K. Dora)
Dean In-charge

No. CAU/CPGSAS/ICC/2020-21/ 512-5 **Dated 11th February, 2021**

Copy to:

(CENTRAL AGRICULTURAL UNIVERSITY)
UMROI ROAD, UMIAM – 793 103 (MEGHALAYA)

No. CAU/CPGS/Estt-16/13-94/1956 Dated: 4th February, 2013

OFFICE ORDER

As per the order No. CAU/Reg/326/Misc-TS/2013/375 Dated 1st February, 2013 of the Registrar, CAU, the following Dedicated Taskforce is constituted with immediate effect for ensuring the safe working environment for women employees and girl students of the college:

1. Dr. R. J. Ravindra, Dean – Chairman
2. Dr. V. K. Khanna, Chairman SCI – Member
3. Dr. P.K. Bora, Assoc. Prof. NRM – Member
4. Dr. Nivedita Tyagi, Assoc. Prof. SCI – Member
5. Ms. Lorina Syiemlieh, Sr. Library Asstt. – Member
6. Ms. Julie Sawkar Yvonne – Student Representative Member
7. Dr. Dipali Majumdar, Assoc. Prof. SCP – Convener

1. The mandate of the committee is to meet every month to collect feedback information on the safety and accessibility of the environment for women employees and girl students.
2. Recommend proposals for improving gender based facilities and security for the lady staff and students.
3. Regarding the movement of students and visitors to the Girls' Hostel.

(R.J. Ravindra)
Dean

4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for MSc. (Ag) Soil Science and Agricultural Chemistry Programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Soil Science and Agricultural Chemistry currently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Natural Resource Management since 2009.

In the last five years (2016-17 upto 2020-21) a total number of 23M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Soil Science and Agricultural Chemistry) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Bondre Vaibhao Uttam	2016	Evaluation of Soil Test Methods for Available Zinc in Acidic Soils
Ms. E. Precila Patton	2016	Formulation of Liquid Biofertilizer Using Multifaceted Plant Growth Promoting Microbial Consortium
Ms. Labuhty Giri Mawlong	2016	Soil Biochemical Properties Under Nutrient Management Regimes in Acid Soil
Ms. Thungjano Tsopoe	2016	Aluminum, Phosphorus and Lime Interaction on Pea (*Pisum sativum* L.) in Acid Soil
Mr. Bhukya Naresh	2017	Aluminum Toxicity Tolerance of Maize (*Zea mays* L.) Cultivars of North East India
Mr. Alok Maurya	2017	Critical Limits of Available Phosphorus for Rapeseed (*Brassica campestris* var. *toria*) Growing Acidic Soils of Meghalaya
Mr. Basant Tamang	2017	Effect of Phosphorus and Sulphur on Nutrient Uptake of Black Gram (*Vigna mungo* L. Hepper) in Acid Inceptisol
Mr. Manjunatha R.L.	2017	Effect of Fallow Age of Jhum on Soil Properties in West Garo Hills District, Meghalaya
Mr. Techi Tagung	2017	Rhizosphere Based Phosphorus Management for Broccoli Grown in Acid Soil
Ms. Bidisha Borpatragohain	2018	Phosphorus Fixation Capacity and Release Pattern in Dominant Soil Orders of North East India
Mr. Chingak PW Konyak	2018	Effect of Organic and Inorganic Nutrient Sources on Performance of Cabbage (*Brassica oleracea* L. var*capitata*) in Inceptisol
Mr. Manish Olaniya	2018	Development of Soil Erodibility Index Map for Ri-Bhoi District of Meghalaya
Ms. Pukhrambam Helena Chanu	2018	Land use Effects on Aggregation of Acid Soils under Humid Sub-Tropics
Ms. Shamulaitpam Shidayaichenbi Devi	2018	Screening of Rice Endophytes for ACC-deaminase Activity and Rice Growth Promotion Under Acidity Stress
Mr. Shubham Singh	2018	Effect of Nitrogen Application through Urea and Azolla on Growth, Yield of Rice (*Oryza Sativa* L.) and Temporal Soil Phosphorus Availability
Mr. Libi Robin P.	2019	Comparison of Infiltration Models for Suitability on Hilly Slopes-
Mr. Oguboyana Srikanth Yadav	2019	Biochar as Component of Integrated Nutrient Management and its Significance in Tomato (*Solanum lycopersicum*L.) Productivity in Acid Soil
Ms. Sowjanya T. V.	2019	Temporal Soil Nitrogen Availability and its Influence on Rapeseed (*Brassica campestris* L.) Under Varying Nitrogen Sources

Ms. VanlalmalsawmiSailo	2019	Performance of Pea (*Pisum sativum* L.) under Phytoremediated Heavy Metal Polluted Soil with Residual Phosphorus
Ms. Muddana Sri Sai Charan Satya	2020	Response of Black Gram (*Vigna mungo* L. Hepper) to Phosphorus and Boron Fertilization and their Temporal Availability in Acid Inceptisol
Ms. Shilpi Gupta	2021	Dynamics of Soil Nitrogen and Phosphorus vis-à-vis Nutrient Regimes in Lowland Rice Field
Ms. Narang Ampi	2021	Development of Soil Physico-Chemical Quality Index of Rice-Fish Farming System in Apatani Plateau
Ms. Anindita Das	2021	Assessment of Soil Biochemical Quality Indices of Rice-Fish Farming System in Apatani Plateau

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	4	Nil	1
2.	Associate Professor	1	1	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	2	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**6**

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Analytical Lab
2. Biogeochemistry Lab
3. Microbial Ecology Lab
4. GIS and Remote Sensing Lab
5. Hydraulics lab
6. Biofertilizer production unit

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Portable Oil Free Vacuum Pump, Tarsons: Rocker-400	1 nos.
7	Vortex General Purpose (Shaker), Tarsons	5 nos.
8	Water Double Distillation Plant, Make: JSGW	1 no.
9	Water Single Distillation Plant, Medica:	1 nos.
10	Willy Mill, Secor Make	1 no.
11	High Precision Water Bath, Medica	1 no.
12	Double Ring Infiltrometer Set	1 Set
13	Soil Auger (Euro design) 5 cm dia, 1m long with handle, Screw Augers 2.5 cm dia and 5 cm dia, 1m long with handle, extension rod 1m long Wrench (1 pair)	2 nos.
14	Soil Core Sampler complete with 10 SS rings, 60 mm dia, 100 cc internal volume with end caps and one nylon headed shock absorbing hammer	1 no.
15	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
16	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
17	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
18	Fume Hood, NSW Brand, Cat No. 203	1 no.
19	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
20	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
21	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
22	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
23	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
24	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
25	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
26	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
27	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
28	Autoclave Vertical, Make: Equitron	1 no.
29	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
30	Student Microscope, Labomed, Model: VISION2000	4 nos.
31	Seed Germinator with Stabilizer, Remi Make	1 no.
32	5332 000.014 Mastercycler Personal (Thermocycler) with accessories	1 no.
33	5811 000.010 Centrifuge 5810R with accessories	1 nos.
34	Electronic Balance, Denver Make, Model SI 234DE	2 nos.
35	Hot Air Oven, EquitronMedica Make, Model: # 7053	1 no.
36	Vortex-Genie ® 2 Vortex (220V) 12112009-220	1 Set
37	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 8000	1 nos.
38	Uniline 2 KVA/168V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
39	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	3 nos.
40	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative	1 nos.

	Back Up Time 60 minutes, Minimum VAH 8000	
41	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
42	Isotherm Kit, Isotherm Systems & PCR Cooler 0.2 MI Starter Set	1 no.
43	Digital Burette (Top Burette M), 2.5 ml	1 no.
44	5350 000.013 Thermomixer Compact	1 no.
45	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS	3 nos.
46	Electronic Automatic KELPLUS Microprocessor Based Twelve Place Macro Block Digstion System, Model: KES 12L with accessories, Electronic Acid Neutraliser 'Scrubber', Electronic Superior Automatic Distillation System	1 Set
47	Bench Top Cooler (0°C), Tarson Make	2 nos.
48	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
49	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
50	Nanodrop Spectrophotometer, Make: Thermo, Model: ND-2000	1 no.
51	Electronic Balance, Denver Make, Model: SI 234DE	1 no.
52	Soil Moisture Meter (Mini Trase Kit with Bluetooth Aircable, Iowa State Tension Infiltro meter, Guelph Permeameter Kit	1 Set
53	Uniline Online UPS with isolation transformer suitable for single phase AC input and single phase AC output with rating of UPS 5.0 KVA and indicative back-up time 240 minutes, with minimum VAH 32000	1 no.
54	Refrigerating & Heating Circular, Model 9201, 240/50Hz, Polyscience Make	1 no.
55	Denaturing Gradient Gel Electrophoresis Apparatus Set; IV-1030 Complete system for DGGE,CDGE,TGGE, Model: IPU-S, Make: Ingeny	1 no.
56	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
57	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
58	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
59	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
60	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
61	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
62	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
63	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
64	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
65	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
66	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
67	Top Pan Electronic Balance (PL60001-S EL. Precision Balance), Mettler	1 no.
68	pH Meter, Brand: Eutech, Model: PHTEST 10	1 no.
69	Electronic Laboratory Shaker Variable RPM, Model: Rotek LSV	1 no.
70	Environmental Shaker, Electronic Laboratory Shaker Variable RPM, Model: Roteck LES with accessories	3 nos.
71	Gel Dryer, Genei Make, Model-Junior, Gel Drying Surface, 25x35 cm Model: GDJ, Sl.No. 1011318	2 nos.
72	Chlorophyll Meter, CCM200	1 no.
73	Automatic Weather Station Complete System, Model: Vanatage Pro2 plus, Brand: Cole Parmer	1 no.
74	Refractometer, Model No. 2812, Sl. No.B024602	1 no.
75	Data Logging Moisture Meter with Humidity (Seed Moisture Meter), Sl.No. 03-11.0002	1 no.
76	Elisa-Cum-UV-VIS Spectrophotometer, (Multiskan Spectrum Reader, Cat No. 51118650) with accessories	1 no.
77	Quantum Meter Brand: Spectrum Model: 3415F	1 no.
78	Soil Compaction Meter, Brand: Spectrum, Model: 6101, Sl. No. 669	1 no.
79	Deep Freezer, upto -30°C Net capacity: 308L	1 no.
80	Single Distillation Unit (Cat No. 72230050), Make: Reviera	1no.
81	Multiparameter Water Quality Meter, Make: M/s Hanna Instruments, USA,	1 no.

	Model: HI 98280	
82	Semi Dry/Dry Transfer Assembly, Cat No. V10-SDB, Sl.No. 30020934, Make: Sciplas	1 no.
83	Orion 5 KVA/168V OL UPS 5KVA On Line UPS System with 120 Minutes Battery Back Up Time Using SMF Batteries	1 no.
84	FastprepHomogeneizer, Make Thermo Scientific, Model: FP120-230	1 no.
85	Geo Media Educational Kit (5 User License)	1 no.
86	ERDAS Imagine Software, ERDAS Imagine v2011 Educational Kit (5 User License)	1 no.
87	Lux Meter (Rod Type), Operating Temperature: 0-40°C , Model: 3415FX, Make: Spectrum	1 no.
88	Permeameter (Constant Head) Model: Constant Head & Falling Head, Roorkee Inds.	1 no.
89	Weighing Balance Model: TTB31 Wensar	2 nos.
90	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
91	Line Quantum Sensor, Model: MQ-301, Make: Apogee Instruments	2 nos.
92	Table Top Microcentrifuge, Model: Heraeus Fresco21, Make: Thermo Fisher Scientific	1 no.
93	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00, Model No. CPHTUTOR, Eutech Make	1 no.
94	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
95	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	5nos
96	Intel Core i5 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RKP882	4nos
97	Senior Precision Rotary Microtome, Radical, Model-30	1 no.
98	Soil Augur, Make: Roorkee Industries, India	1 no.
99	Digital Burette, Make: Titrettee/Tarsons	1 no.
100	Soil Core Sampler, Make: AIC	1 no.
101	EC-TDS Meter, Model: CM 183	1 no.
102	Flame Photometer, Model: CL 378, Sl. No. 02358/198	1 no.
103	Global Positioning System (GPS), Model: eTrex 30	1 no.
104	pH cum mV Meter, Model: LI-614	1 no.
105	Soil Penetrometer Compaction Meter (Imported Parts),	1 no.
106	Laboratory Shaker, Make: Alliance, Brand: Lunar, India	1 no.
107	Double Beam Atomic Absorption Spectrophotomter, Model: SL-194	1 no.
108	Double Beam UV-VIS Spectrophotomter, Model: SL-210	1 no.
109	Constant Voltage Stabilizer, 3 KVA, (Zodin) Model: CVR-350	1 no.
110	Rotary Vacuum Pump, Model: SD-45-DS	1 no.
111	Top Pan Weighing Balance, Model: CA3102, Contech Make	1 no.
112	Analytical Balance, High Precision, Model: CA-234, Contech Make	1 no.
113	Thermo Hygrometer Digital Clock 288 CTH Jambo Brand: General	1 no.
114	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
115	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag) Soil Science and Agricultural Chemistry**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. P. K. Bora	10	1
Dr. Dwipendra Thakuria	14	3
Dr. Sanjay Swami	7	4
Dr. N. Janaki Singh	6	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher, etc for the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years:

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) Soil Science and Agri. Chemistry**program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	1	5
2017-18	2+2*	4	-	4
2018-19	5+2*	6	-	8
2019-20	5+2*	5	-	2
2020-21	5+2*	7	-	4

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

SELF STUDY REPORT
for degree accreditation
MSc. (Ag)
Agronomy

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the MSc. (Ag) Agronomy**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Agronomy currently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Natural Resource Managementsince 2009.

In the last five years (2016-17 upto 2020-21) a total number of 21M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Agronomy) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Saphina Mary Kurkalang	2016	Nitrogen management for maize-legum intercropping in acidic soil
Ms. DaphibanriDonbarLyngdoh	2016	Effect of Intercropped Legumes and their Planting Pattern on the Performance of Maize Based Cropping System
Ms. HoineichongSingson	2016	Zinc Biofortification in Rice Grain Through Zinc Fertilization
Mr. Joy Kumar Dey	2016	Evaluation of Potato Varieties under different Irrigation Methods in Mid Altitude of Meghalaya
Mr. PemThinley	2016	Micro-climatic Characterization of *Kharif* Maize (*Zea mays* L.) Under Different Dates of Sowing at Mid Hill Condition of Meghalaya
Mr. YearbokMarwein	2016	Influence of Organic Mulching on Soil Moisture and Yield of Rajma (*Phaseolus vulgaris* L.) Varieties Under Mid Altitude of Meghalaya
Mr. Kamal Kant	2017	Response of Lowland Rice Cultivars to Nitrogen Application – A modeling approach
Ms. Meghna Gogoi	2017	Planting time and irrigation scheduling on the performance of potato in Ri-Bhoi, Meghalaya
Mr. Santosh Basant Korav	2017	Seasonal Variation of Critical Period for Crop-Weed Competition in Groundnut (*Arachishypogaea* L.)
Mr. TelkarShivkumar Gajanan	2017	Effect of Population Proportion of Component Crops on the Productivity of Maize-Soybean Intercropping
Ms. Yami Bei	2017	Influence of Micro-climate on Performance of *kharif* Black gram (*Vigna mungo* L.)
Mr. MayanglambamBishonath Singh	2018	Effect of Sowing Time on Summer Pulse(s) in Lowland Rice Fallows
Ms. PhurailatpamMenaka Sharma	2018	Effect of Integrated Nitrogen Management and Planting Geometry on Yield and Quality of Lowland Black Rice var. *Chakhao Poireiton*
Mr. Laishram Platini Singh	2018	Agronomic Evaluation of Rice Cultivars Under Delayed Transplanting Condition in Midhills of Meghalaya
Ms. MesayaRangsaMarak	2018	Simulating Effect of Climate Change on Growth and Yield of Maize under Varying N-Application in the Sub-tropical Hills of Meghalaya-

Ms. ShayanaLaishram	2018	Development of Nitrogen Dilution Curve for Baby Corn Based on Leaf and Plant Dry Matter
Ms. Shreyosi Roy	2018	Dynamics of Mineralization of Crop Residues Under Baby Corn-Baby Corn System
Mr. Tage Lampung	2018	Effect of Climate Change on the Performance of Lowland Rice (*Oryza sativa* L.) under N-levels through DSSAT CERES-Rice Model
Ms. Jolyne Margaret Mawthoh	2019	Performance of Potato (*Solanum tuberosum* L.) under Different Irrigation Scheduling and Organic Manure in Mid Hills of Meghalaya
Ms. Dhivya R.S.	2019	Performance of Black Gram (*Vigna mungo* L. Hepper) with Organic Amendments under Mid Hills of Meghalaya
Mr. SidharthaPriyatam	2019	Evaluation of Sweet Corn Hybrids under Varied Date of Sowing in Mid Hill of Meghalaya
Ms. Sushree Panda	2020	Integrated Nutrient Management in Groundnut (*Arachishypogaea* L.) in Acidic Soils of Meghalaya

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	4	Nil	1
2.	Associate Professor	1	1	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	2	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**6**

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Analytical Lab
2. Biogeochemistry Lab
3. Microbial Ecology Lab
4. GIS and Remote Sensing Lab
5. Hydraulics lab
6. Biofertilizer production unit

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Portable Oil Free Vacuum Pump, Tarsons: Rocker-400	1 nos.
7	Vortex General Purpose (Shaker), Tarsons	5 nos.
8	Water Double Distillation Plant, Make: JSGW	1 no.
9	Water Single Distillation Plant, Medica:	1 nos.
10	Willy Mill, Secor Make	1 no.
11	High Precision Water Bath, Medica	1 no.
12	Double Ring Infiltrometer Set	1 Set
13	Soil Auger (Euro design) 5 cm dia, 1m long with handle, Screw Augers 2.5 cm dia and 5 cm dia, 1m long with handle, extension rod 1m long Wrench (1 pair)	2 nos.
14	Soil Core Sampler complete with 10 SS rings, 60 mm dia, 100 cc internal volume with end caps and one nylon headed shock absorbing hammer	1 no.
15	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
16	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
17	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
18	Fume Hood, NSW Brand, Cat No. 203	1 no.
19	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
20	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
21	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
22	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
23	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
24	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
25	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
26	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
27	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
28	Autoclave Vertical, Make: Equitron	1 no.
29	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
30	Student Microscope, Labomed, Model: VISION2000	4 nos.
31	Seed Germinator with Stabilizer, Remi Make	1 no.
32	5332 000.014 Mastercycler Personal (Thermocycler) with accessories	1 no.
33	5811 000.010 Centrifuge 5810R with accessories	1 nos.
34	Electronic Balance, Denver Make, Model SI 234DE	2 nos.
35	Hot Air Oven, EquitronMedica Make, Model: # 7053	1 no.
36	Vortex-Genie ® 2 Vortex (220V) 12112009-220	1 Set
37	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 8000	1 nos.
38	Uniline 2 KVA/168V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
39	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative	3 nos.

	Back Up Time 120 minutes, Minimum VAH 9600	
40	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
41	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
42	Isotherm Kit, Isotherm Systems & PCR Cooler 0.2 MI Starter Set	1 no.
43	Digital Burette (Top Burette M), 2.5 ml	1 no.
44	5350 000.013 Thermomixer Compact	1 no.
45	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
46	Electronic Automatic KELPLUS Microprocessor Based Twelve Place Macro Block Digstion System, Model: KES 12L with accessories, Electronic Acid Neutraliser 'Scrubber', Electronic Superior Automatic Distillation System	1 Set
47	Bench Top Cooler (0°C), Tarson Make	2 nos.
48	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
49	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
50	Nanodrop Spectrophotometer, Make: Thermo, Model: ND-2000	1 no.
51	Electronic Balance, Denver Make, Model: SI 234DE	1 no.
52	Soil Moisture Meter (Mini Trase Kit with Bluetooth Aircable, Iowa State Tension Infiltro meter, Guelph Permeameter Kit	1 Set
53	Uniline Online UPS with isolation transformer suitable for single phase AC input and single phase AC output with rating of UPS 5.0 KVA and indicative back-up time 240 minutes, with minimum VAH 32000	1 no.
54	Refrigerating & Heating Circular, Model 9201, 240/50Hz, Polyscience Make	1 no.
55	Denaturing Gradient Gel Electrophoresis Apparatus Set; IV-1030 Complete system for DGGE,CDGE,TGGE, Model: IPU-S, Make: Ingeny	1 no.
56	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
57	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
58	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
59	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
60	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
61	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
62	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
63	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
64	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
65	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
66	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
67	Student Compound Microscope, MLX-B Binocular (Pathological), Magnus	6 nos.
68	Top Pan Electronic Balance (PL60001-S EL. Precision Balance), Mettler	1 no.
69	pH Meter, Brand: Eutech, Model: PHTEST 10	1 no.
70	Electronic Laboratory Shaker Variable RPM, Model: Rotek LSV	1 no.
71	Environmental Shaker, Electronic Laboratory Shaker Variable RPM, Model: Roteck LES with accessories	3 nos.
72	Gel Dryer, Genei Make, Model-Junior, Gel Drying Surface, 25x35 cm Model: GDJ, Sl.No. 1011318	2 nos.
73	Chlorophyll Meter, CCM200	1 no.
74	Automatic Weather Station Complete System, Model: Vanatage Pro2 plus, Brand: Cole Parmer	1 no.
75	Refractometer, Model No. 2812, Sl. No.B024602	1 no.
76	Data Logging Moisture Meter with Humidity (Seed Moisture Meter), Sl.No. 03-11.0002	1 no.
77	Elisa-Cum-UV-VIS Spectrophotometer, (Multiskan Spectrum Reader, Cat No. 51118650) with accessories	1 no.
78	Quantum Meter Brand: Spectrum Model: 3415F	1 no.

79	Soil Compaction Meter, Brand: Spectrum, Model: 6101, Sl. No. 669	1 no.
80	Deep Freezer, upto -30°C Net capacity: 308L	1 no.
81	Single Distillation Unit (Cat No. 72230050), Make: Reviera	1no.
82	Multiparameter Water Quality Meter, Make: M/s Hanna Instruments, USA, Model: HI 98280	1 no.
83	Semi Dry/Dry Transfer Assembly, Cat No. V10-SDB, Sl.No. 30020934, Make: Sciplas	1 no.
84	Orion 5 KVA/168V OL UPS 5KVA On Line UPS System with 120 Minutes Battery Back Up Time Using SMF Batteries	1 no.
85	FastprepHomogeneizer, Make Thermo Scientific, Model: FP120-230	1 no.
86	Geo Media Educational Kit (5 User License)	1 no.
87	ERDAS Imagine Software, ERDAS Imagine v2011 Educational Kit (5 User License)	1 no.
88	Lux Meter (Rod Type), Operating Temperature: 0-40°C , Model: 3415FX, Make: Spectrum	1 no.
89	Permeameter (Constant Head) Model: Constant Head & Falling Head, Make: Roorkee Inds.	1 no.
90	Weighing Balance Model: TTB31 Wensar	2 nos.
91	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
92	Line Quantum Sensor, Model: MQ-301, Make: Apogee Instruments	2 nos.
93	Table Top Microcentrifuge, Model: Heraeus Fresco21, Make: Thermo Fisher Scientific	1 no.
94	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00, Model No. CPHTUTOR, Eutech Make	1 no.
95	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
96	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	5nos
97	Intel Core i5 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RKP882	4nos
98	Senior Precision Rotary Microtome, Radical, Model-30	1 no.
99	Soil Augur, Make: Roorkee Industries, India	1 no.
100	Digital Burette, Make: Titrettee/Tarsons	1 no.
101	Soil Core Sampler, Make: AIC	1 no.
102	EC-TDS Meter, Model: CM 183	1 no.
103	Flame Photometer, Model: CL 378, Sl. No. 02358/198	1 no.
104	Global Positioning System (GPS), Model: eTrex 30	1 no.
105	pH cum mV Meter, Model: LI-614	1 no.
106	Soil Penetrometer Compaction Meter (Imported Parts), Make: Roorkee Industries	1 no.
107	Laboratory Shaker, Make: Alliance, Brand: Lunar, India	1 no.
108	Double Beam Atomic Absorption Spectrophotomter, Model: SL-194	1 no.
109	Double Beam UV-VIS Spectrophotomter, Model: SL-210	1 no.
110	Constant Voltage Stabilizer, 3 KVA, (Zodin) Model: CVR-350	1 no.
111	Rotary Vacuum Pump, Model: SD-45-DS	1 no.
112	Top Pan Weighing Balance, Model: CA3102, Contech Make	1 no.
113	Analytical Balance, High Precision, Model: CA-234, Contech Make	1 no.
114	Thermo Hygrometer Digital Clock 288 CTH Jambo Brand: General	
115	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
116	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag)Agronomy**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Vishram Ram, Professor	8	3
Dr. Lala I.P. Ray, Assoc. Prof.	6	2
Dr. A. K. Singh, Asst. Prof.	11	5

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) Agronomy**program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	6	1	5
2017-18	2+2*	4	1	7
2018-19	3+2*	5	1	5
2019-20	3+2*	5	1	4
2020-21	5+2*	8	_-	-

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles

5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

SELF STUDY REPORT
for degree accreditation
MSc. (Ag) in
Agricultural Economics

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the MSc. (Ag) in Agricultural Economics**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Agricultural Economics currently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Social Sciencessince 2009.

In the last five years (2016-17 upto 2020-21) a total number of 20 M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Agri. Eco) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Astha Barman	2016	Economics of Chow-Chow (*sechium edule*) Cultivation in West Khasi Hills District of Meghalaya
Ms. A. Tovinoli Shohe	2016	Economics of large Cardamom Production in Zunheboto District of Nagaland
Mr. Baiarbor Nongbri	2016	Risk to Drought in Nagaland: An Empirical Study of Farm Households
Ms. Juicy Debbarma	2016	Economic Analysis of Pineapple Production in Triupra
Ms. Singyala Chiphang	2016	Economic Assessment of Lemon Production in Ukhrul District of Manipur
Ms. Ainy Taloh	2017	Production and Marketing of Kiwi in West Kameng District of Arunachal Pradesh: Economic Analysis
Ms. Mun Yomcha	2017	Rice Cultivation Under Climate Change in West Siang District of Arunachal Pradesh: An Economic Study
Mr. N. Chinglen Meitei	2017	Value Chain Analysis of Fish in Loktak Lake of

		Manipur
Mr. Sukheimon Passah	2017	Economics of Khasi Mandarin in East Khasi Hills and West Khasi Hills District of Meghalaya
Mr. Limasunep Ozukum	2018	Valuation of Alder Based Farming System in Nagaland
Ms. Sedeno Chale	2018	Value Chain Analysis of Dairy Industry in Nagaland
Mr. Kunchum Suresh Krishna	2018	Consumer Behaviour of Tourists for Agri-Products in Meghalaya
Mr. Shaikh Tabrez	2018	Socio-Economic Study on Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) in Ri-Bhoi District of Meghalaya
Mr. Nowang Wangnow	2019	Economics of Tea Cultivation in Tirap District of Arunachal Pradesh
Ms. Minam Gamoh	2019	Performance of Agriculture in Sikkim: Assessing the Satisfaction of Farmers"
Mr. Rizwan Ahmed	2020	An Evaluation of the Public Distribution System in Kamrup (Rural) District of Assam
Ms. Kota Karuna Sri	2020	Economic Analysis of Cabbage Production in East Khasi Hills District of Meghalaya
Mr. Evans Kiprono Kemboi	2020	Economic Analysis of Milk Production in Ri-Bhoi District of Meghalaya
Mr. Mumadi Rajavardhan	2020	A Study on Marketing Pattern of Potato in Meghalaya: Special Reference to East Khasi Hills District
Mr. Jabir Ahmed	2020	Economic Analysis of Milk Production in East Khasi Hills District of Meghalaya
Mr. Mridupaban Das	2020	Economic Analysis of Milk Production in West Khasi and South-West Khasi Hills Districts of Meghalaya

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	2	1	1
2.	AssociateProfessor*	2	Nil	2
3.	AssistantProfessor	3	1	3

* Associate professors (#2) promoted to Professor and two assistant professors to associate level.

For School of Social Science ie., Agricultural Economics and Extension Education. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
Group-C			
1	Clerk-cum-Typist/LDC/UDC	1	-
2	MTS	4	2
Grand total		**5**	**2**

For School of Social Science ie., Agricultural Economics and Extension Education.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available; Computer Lab and Multimedia Lab

The facilities available includewell-furnished Computer Lab which is well equipped with the computer of 20 nos. The Lab has 5 numbers of SPSS users license which is updated time to time.

6.4.5 Conduct of Practical and Hands-on-Training
The practicals in PG program (**MSc. (Ag) in Agricultural Economics**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage. For some of the courses which require visits to farmer fields, provisions are made accordingly for such visits.

6.4.6 Supervision of students in PG programs
The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Social Sciences has two faculty each from ICAR-RC for NEH, Umiam and ICAR-ATARI, Umiam with specialization in Agricultural Economics and Agricultural Extension recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Ram Singh	11	4
Dr. Sheikh Mohammad Feroze	8	0
Dr. S. Basanta Singh	1	0
Dr. Anandkumar Singh	0	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)
At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi,

student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) in Agricultural Economics** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	2	4
2017-18	1+2*	1	-	4
2018-19	3+2*	6	-	6
2019-20	2+2*	4	-	6
2020-21	5+2*	4	-	-

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

SELF STUDY REPORT
for degree accreditation
MSc. (Ag)
Entomology

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the MSc. (Ag) Entomology**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Entomology currently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Crop Protectionsince 2009.

In the last five years (2016-17 upto 2020-21) a total number of 28 M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Entomology) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Khrieketou Kuotsu	2016	Development of DNA Barcodes of Insect Pests and Natural Enemies of Major Cereal Crops in Mid Hills of Meghalaya
Ms. K. Lalruatsangi	2016	Eco-friendly Management of Major Insect Pest of Tomato in Mid-Hills of Meghalaya
Mr. Partha Debnath	2016	Screening of Germplasms and Evaluation of Botanicals Against Mustard Aphid, *Lipaphis erysimi* (Kaltenbach) in Mustard in Mid Hills of Meghalaya
Mr. Pitchaimurugan M	2016	Ecological Aspects and Management of Fruit Infesting Tephritids in Guava (*Psidium guajava* L.)
Mr. Remiioo Newyear Bamon	2016	Pollination Biology of Honey Bee in Chow-chow (*Sechium edule* Jacquez) and its Impact on Yield at Mid Hills of Meghalaya
Mr. Ajit Tripura	2016	Seasonal Incidence and Bio-rational Management of Shoot and Fruit borer (*Leucinodes orbonalis* Guenee) of Brinjal in Mid-Hills of Meghalaya
Mr. Along Bryan M. Sangma	2017	Studies on Major Soil Borne Insect Pest and Parasitic Nematodes Affecting Potato Crop and Their Management
Mr. Kaleeswaran G.	2017	Insecticidal Activities of *Zanthoxylum armatum* Extract Against Major lepidopteran Defoliators of Vegetables
Ms. Lency Tangu	2017	Studies on Aphidophagous Coccinellids of Cowpea Ecosystem

		in Mid Hills of Meghalaya
Mr. Sakil Dhamala	2017	Studies on Bio-Efficacy, Persistency and Non-Target Toxicity of Chlorfenapyr and Indoxacarb in Brinjal and Cabbage
Mr. Sankarganesh E	2017	Development of DNA Barcodes for Major Insect Pests and Natural Enemies of Solanaceous Crops Ecosystem in Mid Hills of Meghalaya
Ms. Arensungla Pongen	2018	Development of DNA Barcodes for Major Insect Pests and Natural Enemies of Cucurbitaceous Crops in Mid Hills of Meghalaya
Ms. Baiamon Sutnga	2018	Bioefficacy and Dissipation of Imidacloprid and Thiacloprid in/on Chilli (*Capsicum annuum* L.)
Mr. Challa Girish Kumar	2018	Assessment of Toxicity of Bio-pesticides to the Indian Honey Bee, *Apis cerana indica* (Fabricius) in Oilseed Brassica
Ms. Pebam Inija Devi	2018	Effect of Plant Extracts and Essential Oils on Major Lepidopteran Pests of Cruciferous Crops
Mr. Yengkhom Suraj Singh	2018	Studies on Various Histological Changes in Haemocytes Associated with NPV Infection in *Helicoverpa armigera* Hübner)
Ms. Balguri Lavanya Sravani	2018	Effect of Different Temperatures and Plant Oils on Bruchid, *Callosobruchus maculatus* (Fab.) and Curculionid, *Sitophilus zeamais* (Mots.)
Mr. Debanand Biswas	2019	Insect Biodiversity and Seasonal Incidence of Major Insect Pests of Apple (*Malus sylvestris* Mill.) in Mid Hills of Meghalaya
Mr. Krishna Kumar. S.	2019	Investigation on Role of Insect and Nematode Pests for Decline of Khasi Mandarin in East and West Khasi Hills Districts of Meghalaya
Mr. Penumajji Ganesh Kumar	2019	Insect Biodiversity and Seasonal Abundance of Major Insect Pests of Black Gram (*Vigna mungo* L. Hepper) Ecosystem in Mid-Hills of Meghalaya
Ms. Sonali Nakambam	2019	Arthropod Diversity in Rice Ecosystem with Special Reference to Spiders in Mid-hills of Meghalaya
Mr. Wankitkupar Fernando Nadon	2019	Insect Biodiversity and Seasonal Incidence of Major Insect Pests in Wheat (*Triticum aestivum* L.) Ecosystem in Mid-hills of Meghalaya
Mr. Jyotim Gogoi	2020	Arthropod Diversity in Agricultural, Horticultural and Silvicultural Ecosystems with Special Reference to Spiders in Mid-Hills of Meghalaya
Mr. Nitin Hugar	2020	Studies on Population Dynamics and Monitoring Insect Pests in Potato Agro-Ecosystem Through Different Pheromone Traps and Lures in the State of Meghalaya
Mr. Harish R.	2020	Diversity and Morphometric Study of Termites in Mid-hills of Meghalaya
Ms. Adhikari Mounika	2020	Biodiversity and Molecular Characterization of Insect pests and Natural Enemies of Potato ecosystem in Mid Hills of Meghalaya
Mr. Thota Narendrakumar	2020	Spatial and Temporal Distribution of Stingless Bees in Mid Hills of Meghalaya
Mr. Karthik R	2020	Dietary Influence on the Biology and Susceptibility of Fall

		Armyworm, *Spodoptera frugiperda* (J.E. Smith) to Cry Toxins from *Bacillus thuringiensis*
Ms. Deepika Gadaily	2020	Study on Biodiversity of Soil Arthropods in Mid-Hills of Meghalaya

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	Associate Professor	3	Nil	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Crop Protection ie., Plant Pathology and Entomology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	0
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**5**

For School of Crop Protection ie., Plant Pathology and Entomology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Plant Pathology Lab
2. Molecular Lab
3. Biopesticide production unit
4. Mushroom production unit
5. Entomology Lab
6. Nematology Lab
7. Insectry
8. Polyhouse

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.

2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Vortex General Purpose (Shaker), Tarsons	5 nos.
7	Water Single Distillation Plant, Medica:	2 nos.
8	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
9	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
10	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
11	Fume Hood, NSW Brand, Cat No. 203	1 no.
12	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
13	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
14	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
15	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
16	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
17	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
18	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
19	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
20	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
21	Autoclave Vertical, Make: Equitron	1 no.
22	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
23	Student Microscope, Labomed, Model: VISION2000	4 nos.
24	Seed Germinator with Stabilizer, Remi Make	1 no.
25	Mastercycler Personal (Thermocycler) with accessories	1 no.
26	Centrifuge 5810R with accessories	1 nos.
27	Electronic Balance, Denver Make	2 nos.
28	Hot Air Oven, Equitron Medica Make	1 no.
29	Vortex-Genie ® 2 Vortex (220V)	1 Set
30	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
31	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
32	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
33	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
34	Bench Top Cooler (0°C), Tarson Make	2 nos.
35	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
36	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
37	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
38	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
39	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
40	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
41	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
42	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
43	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
44	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
45	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
46	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
47	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.

48	Student Compound Microscope, MLX-B Binocular (Pathological), Brand: Magnus	6 nos.
49	Weighing Balance Model: TTB31 Wensar	2 nos.
50	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
51	Table Top Microcentrifuge	1 no.
52	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00	1 no.
53	Water Single Distillation Plant	1 no.
54	Compound Light Microscope CH 20i Binocular Microscope, Brand: Olympus, Model CH20i	
55	Laboratory Refrigerator, 380 lt. capacity with glass door, frost free, 72.8x23.4x23.4 dimensions with 2 KVA Voltage Stablilizer Model: FKG-400, Make: Celfrost	3 nos.
56	BOD Incubator, Precise electronic digital temperature controller with timer with cooling system, Make: Ikon Instruments, Model: IK120	1 no.
57	Stereo Microscope, Model: EZ4, Make: Leica, Germany, No. 10447197	1 no.
58	UV Transilluminator, Tarsons: Make	1 no.
59	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	2 nos.
60	Top Pan Weighing Balance, Model: CA3102, Contech Make	5 nos
61	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
62	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	1 no.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag)Entomology**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Mahesh Pathak	0	4
Dr. N. Kennedy	7	5
Dr. N. S. Azad Thakur	5	0

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher, etc for the last five years.

(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) Entomology** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	1	5
2017-18	5+2*	7	_	5
2018-19	5+2*	5	_	6
2019-20	2+2*	2	_	7
2020-21	5+2*	7	_	5

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

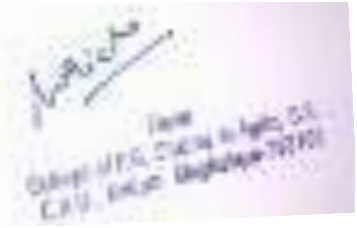
Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.



Signature of Dean of the College with Date & Seal

SELF STUDY REPORT
for degree accreditation
MSc. (Ag) in
Agricultural Extension

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the MSc. (Ag) in Agricultural Extension**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Agricultural Extensioncurrently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Social Sciencessince 2009.

In the last five years (2016-17 upto 2020-21) a total number of 24M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Agri. Ext.) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Konjengbam Monika Devi	2016	A Study on Information Management Behaviour (IMB) of Rice Farmers in Imphal West District of Manipur
Ms. Inne Lego	2016	Training Needs Assesment of Agricultural Extension Personnel in Arunachal Pradesh
Ms. Muthulakshmi B	2016	Social Networks of Farmers on Climate Change Mitigation and Adaptation in Western Agro-Climate Zone of Tamil Nadu
Mr. Pankaj Kumar Meghwal	2016	Farmers' Mitigation and Adaptation of Climate Change in Moderate and High Vulnerable Districts of Madhya Pradesh: A Stakeholder Analysis
Mr. AchinKharmudai	2017	Communication Behaviour of the Farmers Enrolled in m4agriNEI-
Mr. Deena Dayalan .S.K.	2017	A Study on Attitude of Agriculture Collegian towards opting Farming as a Profession

Ms. Ditolyn Sumi	2017	Usage of ICT in Agriculture by the Farmers and Extension Personnel in Dimapur District of Nagaland
Ms. Mayalanglambam Victoria Devi	2017	Usage of Information and Communication Technologies (ICTs) by Rural Youth of Manipur
Mr. Meghajit Sharma Shijagurumayum	2017	Gender Differences in Economics Empowerment in Farm-Households of Manipur
Mr. Samir Medhi	2017	A Study on Effectiveness of Training Programmes Conducted by Krishi Vigyan Kendra (KVK) West Garo Hills of Meghalaya on Socio-Economic Improvement of Rice Growers
Ms. Chekame A. Sangma	2018	A Study on Entrepreneurial Behaviour of the Members of Women Self Help Groups in West Garo Hills District of Meghalaya
Ms. Debjani Das	2018	Adoption Behaviour of Rice Growers on Improved Rice Technology Through Krishi Vigyan Kendra (KVK) in Khowai District of Tripura
Mr. Guruprasad Nagesh Hedge	2018	Assessment of Child Poverty in Rural Farm Households of Garo Hills, Meghalaya
Mr. Irshad Hussain	2018	Agro-Advisory Effectiveness of m4agriNEI on Climate Sensitive Sustainable Agriculture: An Evaluative Study
Mr. Salam Prabin Singh	2018	Ascertaining m4agriNEI Farmers' Innovations on Climate-Smart Agriculture: A Case Study
Mr. Biswajit Debnath	2018	A Study on Entrepreneurial Behaviour of Tribal Farmers in Adoption of Improved Pig Farming Practices in Dhalai District of Tripura
Mr. Sachin V R	2018	A Study on Organizational Climate as Perceived by the Employees of District Agricultural Offices in Meghalaya
Mr. Nikhil .J.	2019	A Study on E-Readiness of Extension Personnel in Agricultural Institutions in Ri-Bhoi District of Meghalaya
Ms. Sengmitchi D. Sangma	2019	Analysis of Innovation System of Horticulture in Meghalaya
Mr. Kungumaselvan.T.	2019	Impact of Horticulture-Hubs on the Farmers of Meghalaya
Mr. Elly Kipkorir Kirwa	2020	Dynamics of Design Thinking on Climate Smart Agriculture by Under-Graduate Students in Agriculture under Central Agricultural University Imphal
Mr. NkululekoNyoni	2020	Nutrition Competencies of Agricultural Extension and Advisory Service (AEAS) Providers in Meghalaya
Ms. Pagadala Sai Priyanka	2020	Community Participation and Perceptions in Rural Tourism: A Study in Khasi Hills of Meghalaya
Ms. PolasaBhuvanasri	2020	Mapping Informal Networks of Mera Gaon Mera Gaurav (MGMG) Beneficiary Farmers in Ri-Bhoi District on Adoption of Climate-smart Agricultural Practices

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other

				regulatory bodies
1.	Professor	2	1	1
2.	AssociateProfessor*	2	Nil	2
3.	AssistantProfessor	3	1	3

* Associate professors (#2) promoted to Professor and two assistant professors to associate level.

For School of Social Science ie., Agricultural Economics and Extension Education. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
Group-C			
1	Clerk-cum-Typist/LDC/UDC	1	-
2	MTS	4	2
Grand total		**5**	**2**

For School of Social Science ie., Agricultural Economics and Extension Education.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available; Computer Lab and Multimedia Lab

The facilities available include well-furnished Computer Lab which is well equipped with the computer of 20 nos. The Lab has 5 numbers of SPSS users license which is updated time to time.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag) in Agricultural Economics**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage. For some of the courses which require visits to farmer fields, provisions are made accordingly for such visits.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Social Sciences has two faculty each from ICAR-RC for NEH, Umiam and ICAR-ATARI, Umiam with specialization in Agricultural Economics and Agricultural Extensionrecognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of

advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Loukham Devarani	11	3
Dr. R. Josmee Singh	9	2
Dr. A. K. Singha (ATARI)	3	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) in Agricultural Extension**program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	-	4
2017-18	1+2*	3	-	6
2018-19	2+2*	6	1	7
2019-20	2+2*	1	1	5
2020-21	5+2*	7	-	2

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475

8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the Programme (MSc. (Ag) in Genetics and Plant Breeding**

6.4.1. Brief History of the Degree Programme:

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Genetics and Plant Breedingcurrently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Crop Improvement since 2009.

In the last five years (2016-17 upto 2020-21) a total number of 29M.Sc students have passed out. The research work has lead to several publications. The details of which are given below:

A. FULL length RESEARCH PAPERS

Singh R, … Rai M…Singh NK (2016) From QTL to variety-harnessing the benefits of QTLs for drought, flood and sal tolerance in mega rice varieties of India through a multi-institutional network. *Plant Science* 242: 278-287
Tyagi W, Rai M (2017) Root transcriptomes of two acidic soil adapted Indica rice genotypes suggest diverse and complex mechanism of low phosphorus tolerance. *Protoplasma* 254:725–736

List of MSc. (GPB) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title	Advisor's Name
Ms. Pungdila Valentina	2016	Hybridization and genetic diversity studies in Brinjal	V.K. Khanna
Ms. Babuhlin Kharjana	2016	Genetic divergence study in selected germplasm lines of *Mucunaprurien*susing morphological, biochemical and molecular markers	K.P. Mohapatra
Ms Backiyalakshmi C.	2016	Combining ability studies of a set of QPM (Quality Protein Maize) inbred lines under acidic soil conditions	Devyani Sen
Ms. Baltachina. G. Momin	2016	Evaluation of full sib families for aluminium and water logging stress in a set of identified maize *(Zea mays* L.) landraces	Devyani Sen
Ms. Bharati Lap	2016	Assessment of geneticdiversity in Job's Tears germplasm using morphological and SSR markers	Avinash Pandey
Ms. Pungdila Valentina	2016	Hybridization and genetic diversity studies in brinjal	V.K. Khanna
Mr. HiralalDebbarma	2017	Response to selection for yield contributing traits in *Brassica campestris*under acidic upland soils	K.P.Mohapatra
Ms. Anni Lego	2017	Morphological and molecular characterization of upland rice germplasm and screening for the presence of fertility restorer genes	Avinash Pandey
Ms. YengkhomSanatombi Devi	2017	Assessment of genetic diversity in ricebean (*Vigna umbellata*) germplasm using morphological and molecular markers	Avinash Pandey
Mr. ShimreisoVashum	2017	Characterization of identified maize Inbred lines for resistance to northern corn leaf blight (NCLB)	Vijay K. Chowdhury
Mr. Santhosh B. L.	2017	Standardization of *in vitro*regenaration protocol, crossability and genetic diversity studies in bottle gourd (*Lagenariasiceraria* (Mol.) Standal.)	V.K. Chowdhury
Mr. Pawan Kumar Khati	2018	Tryptophan content analysis in $F_{2:3}$ families of six quality protein Maize crosses	Devyani Sen

Mr. PuyamTondonbasingh	2018	Crossability studies and genetic diversity in black gram using molecular markers	V.K. Khanna
Mr. I. Gopinath	2018	Molecular characterization of advanced breeding lines of loland rice and their evaluation for grain quality traits	Mayank Rai
Ms. Chumki Dutta	2018	Morphological characterization and *in vitro* regeneration in strawberry (*Fragaria sp.*)	Devyani Sen
Mr. Ashish Rai	2018	Characterization and evaluation of advanced breeding lines of lowland rice with respect to agro-morphological traits	Mayank Rai
Mr. Mariyappan. S. B.	2018	Selection for hard endosperm, tryptophan content and yield contribution traits in $F_{3:4}$ QPM families	Devyani Sen
Mr. Wadbok Rani	2018	Grain quality characterization and molecular diversity analysis of aromatic rice (*Oryza sativa* L.) genotypes using SSR markers	K. Noren Singh
Mr. Pramod Kumar	2019	Agro-morphological characterization and genetic diversity analysis of aromatic rice (*Oryza sativa* L.) genotypes using SSR Markers	K. Noren Singh
Mr. PuyumTondonba Singh	2019	Crossability Studies and Genetic Diversity in Blackgram Using Molecular Marker	V. K. Khanna
Mr. Samuthirapandi S.	2019	Molecular characterisation and evaluation of a panel of aromatic mutant-M_7 rice (*Oryza sativa* L.) for yield performance and blast resistance	K. Noren Singh
Mr. Shanmugam A	2019	Genetic analysis of elite rice breeding lines for allelic status of agronomically important genes and combining ability	Mayank Rai
Mr. Harsha Vardhan Rayudu Jamedar	2019	Combining ability studies for yield and yield attributing traits in maize (*Zea mays* L) inbred lines developed from north eastern hill region (NEHR) of India	Devyani Sen
Ms. ViolinaBharali	2019	Generation Mean Analysis for inheritance of Northern Corn Leaf Blight Resistance in maize of North East Hill condition	Devyani Sen
Ms. Bezil M	2020	Evaluation of *Linumusitatissimum* genotypes and F1 hybrids under acidic upland conditions of Meghalaya	Mayank Rai
Ms. Dake Deepika	2020	Marker assisted pyramiding of drought tolerant QTLs qDTY1.1 and qDTY3.1 in rice variety Samba Mahsuri Sub-1	Mayank Rai
Mr. Sugumar. S	2020	Phenotypic and genotypic characterization in segregating bi-parental population of maize (*Zea mays* L.) for *Turcicum*blight resistance	Devyani Sen

Mr. Mallikarjun P. K.	2020	Evaluation of Citronella (*CymbopogonWinterianus*Jowitt.) Genotypes for Their Oil Yield and Essential Oil Content under Meghalaya Conditions	K. Norem Singh
Ms. Puthem Victoria Devi	2020	Assessment of genetic variation in Lentil (*Lens culinaris*Medik) for its agronomic performance, aluminium tolerance and phosphorus uptake efficiency	K. Norem Singh

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	AssociateProfessor*	1	1	2
3.	AssistantProfessor	3	Nil	3

* Associate professors (#3) promoted to Professor.

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff: The position of the technical and supporting staff of the Degree Programme including farm and field workers need to be mentioned for both sanctioned and in- place.

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**8**	**6**

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available

1.Molecular Biology and Biotechnology Lab
2.Cytogenetics and Molecular Marker Lab
3.Media Preparation Room

4.Tissue Culture and Genetic Transformation Lab
5.Green house facilities

The list of equipments and facilities available in the various laboratories are listed below

Sl.No.	Name of equipment
1	Mega Gel High Throughput Electrophoresis System
2	DNA Extraction System with centrifuge
3	Binocular (Pathological) (Qty1)
4	Refrigerators (Qty 4)
5	Mastercycler (Qty5)
6	Gel Documentation System
7	Horizontal Gel electrophoresis with power supply (Qty5)
8	pH meters, Bench top
9	1 KVA online UPS with 2 hr. backup. Make: Orion
10	Table top Centrifuge machine (Qty5)
11	Refrigerators (Qty4)
12	Deep Freezer, upto-20°C (Qty4)
13	Biosafety hood
14	UV – Transilluminator
15	Top pan electronic balance
16	Growth Chamber with controlled environment light and temperature
17	Spinnix-Vortex Shake
18	Microwave Oven
19	Hot plate cum Magnetic Stirrer
20	pH meters, Bench top
21	Hot Air Ovens (Qty 4)
22	Vertical Autoclave
23	Seed Germinator
24	Refrigerator ready dessicators
25	Mini Bead Beater with 96 well Micro plate and stainless steel beads
26	Tensiometer
27	CTD Infrared Gun
28	Auto Desicator Cabinets
29	Rocker Vacuum Pump
30	Weighing balances
31	Liquid nitrogen cans
32	Realtime PCR machine
33	Laminar hoods
34	Vertical gel electrophoresis system
35	Phase contrast microscope
36	Students' microscopes

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag) in Genetics and Plant Breeding**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Crop Improvement has two faculty from ICAR-RC for NEH, Umiam with specialization in genetics and plant breeding recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Mayank Rai	11	1
Dr. K. Noren Singh	10	3
Dr. Hossain Ali Mondal	0	1
Dr. Dr. Devyani Sen	11	3
Dr. Bingiala Laloo	0	1
Dr. Amit Kumar (ICAR-RC, NEH)	0	2
Dr. Philanim Shimray (ICAR-RC, NEH)	0	1

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher, etc for the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) in Genetics and Plant breeding** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	_	4

2017-18	3+2*	5	_	6
2018-19	3+2*	5	_	7
2019-20	5+2*	5	_	7
2020-21	5+2*	8	1	5

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

SELF STUDY REPORT
for degree accreditation
MSc. (Ag)
Plant Pathology

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for MSc. (Ag) Plant Pathology**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Plant Pathologycurrently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Crop Protectionsince 2009.

In the last five years (2016-17 upto 2020-21) a total number of 28M.Sc students have passed out. The research work has led to several publications. The details of which are given below:

List of MSc. (Plant Pathology) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Korla Saratbabu	2016	Characterization of *Papaya ring spot virus* Pathotype P from Mid-Hills of Meghalaya
Ms. Lopi Rebi Kojum	2016	Evaluation of antagonistic potential of native *Trichoderma* spp. against major soil borne pathogens
Ms. R. Saveinai	2016	Pathogenicity of *Rhizoctonia solani* Kuhn on Major Weeds Prevalent in Rice and Maize Ecosystem in Meghalaya
Ms. Rimikini Laloo	2016	Host plant resistance against *Rhizoctonia solani* Kuhn causing foliar blight in soybean (*Glycine max* L. Merril) in Meghalaya
Mr. Tirumuru Ganesh	2016	Virus and virus like pathogens associated with citrus decline of khasi mandarin (*Citrus reticulata* Blanco) in Meghalaya
Ms. Yashi Umbrey	2016	Identification and characterization of yellow mosaic virus (s) associated with yellow mosaic disease of legumes in mid-hills of Meghalaya
Mr. Abdel Baset Hassan Mohhammed Mohmoud	2016	Evaluation of biocontrol potential of bacterial endophytes against major diseases of rice
Mr. Abhishek Gowda M.N.	2017	Evaluation of microbial antagonists against major plant pathogens and development of microbial consortium in liquid formulation
Mr. Emanuel M.	2017	Studies on *Pesalotiopsis versicolor* (Speg.) Steyaert Causing

Sangma		Yellow Leaf Spot of Guava in Meghalaya and its Management *in vitro*
Ms. LeezaLoya	2017	Studies on the Antagonistic Potential of *Metarhizium*spp. Against Major Soil Borne Pathogens
Ms. Lipa Deb	2017	Studies on antagonistic potential of *Beauveria* spp. against major soil borne pathogens
Mr. Pamala Prince Jayasimha	2017	Pathogenecity of major soil borne plant pathogens on common weeds in Meghalaya
Ms. T. Lalnunsangi	2017	Studies on morphology, cultural and physiological variability of *Colletotrichum capsici* (Sydow.) butler and bisby isolates causing chilli anthracnose
Ms. B.K. Namriboi	2018	Studies on *Ascochyta phaseolorum* Sacc. causing ascochyta blight on cowpea and its management
Mr. Heipormi Papang	2018	Management of *Alternaria* spp. causing black leaf spot of cauliflower in Meghalaya
Ms. Moakala Jamir	2018	Variability Studies of *Phomopsisvexans* (Sacc. & Syd.) Harter and Eco-friendly Management of Fruit Rot of Brinjal
Mr. MeshankiBamon	2018	Evaluation of bacterial endophytes against ginger rhizome rot
Mr. Pranab Malakar	2018	Evaluation of potential bacterial endophytes against major vegetable pathogens
Ms. Sushanti Thokchom	2018	Formulation of bacterial endophyte consortium for the management of alternaria blight of mustard
Ms. Ashwini E.	2019	Incidence of bacterial soft rot of carrot in Meghalaya and ecofriendly postharvest management
Ms. Bhashwati Sharma	2019	Incidence of postharvest fruit rot of chilli (*Capsicum annum* L.) and its management in Meghalaya
Mr. Madhan N.	2019	Cultivation of Shiitake Mushroom (*Lentinula edodes* (Berk.) Pegler) in Wood Logs under Net House Conditions of Meghalaya
Mr. M. Roopesh	2019	Cultivation of *Ganodermalucidum* (W. Curt.:Fr.) P. Karst and its Antifungal Properties Against Phytopathogenic Fungi
Mr. Nandeesha S.V.	2019	Standardization of Shiitake Mushroom (*Lentinula edodes* (Berk.) Pegler) Production Technology in Meghalaya
Ms. Anjana Rai	2020	Management of *Alternaria brassicae* (Berk.) Sacc. Causing Alternaria Blight of Mustard in Meghalaya
Ms. Liza Kalita	2020	Studies on post-harvest fruit rot of banana caused by *Colletotrichummusae* Corda in Meghalaya
Ms. Shaik Munnysha	2020	Management of Pod Rot of French bean (*Phaseolus vulgaris* L.) incited by *Sclerotium rolfsii*Sacc
Ms. Madhusmita Mahanta	2020	Incidence, severity and management of turmeric leaf spot disease (*Colletotrichum* spp.) in Meghalaya
Mr. Ellendula Pradeep Kumar	2020	Management of *Alternaria* Leaf Blotch of Apple
Ms. Jyotismita Das	2021	Phytopathogenic microflora associated with rice grains and their management
Ms. Chinka Sireesha	2021	Exploitation of endophytes for the management of Ascochyta blight of cowpea

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	Associate Professor	3	Nil	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Crop Protection ie., Plant Pathology and Entomology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	0
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**5**

For School of Crop Protection ie., Plant Pathology and Entomology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Plant Pathology Lab
2. Molecular Lab
3. Biopesticide production unit
4. Mushroom production unit
5. Entomology Lab
6. Nematology Lab
7. Insectry
8. Polyhouse

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Vortex General Purpose (Shaker), Tarsons	5 nos.
7	Water Single Distillation Plant, Medica:	2 nos.
8	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
9	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
10	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
11	Fume Hood, NSW Brand, Cat No. 203	1 no.

12	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
13	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
14	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
15	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
16	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
17	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
18	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
19	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
20	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
21	Autoclave Vertical, Make: Equitron	1 no.
22	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
23	Student Microscope, Labomed, Model: VISION2000	4 nos.
24	Mastercycler Personal (Thermocycler) with accessories	1 no.
25	Centrifuge 5810R with accessories	1 nos.
26	Electronic Balance, Denver Make	2 nos.
27	Hot Air Oven, EquitronMedica Make	1 no.
28	Vortex-Genie ® 2 Vortex (220V)	1 Set
29	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
30	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
31	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
32	Shaker Incubator, Electronic Laboratory Incubator Shaker, (Rotek LIS)	3 nos.
33	Bench Top Cooler (0°C), Tarson Make	2 nos.
34	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
35	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
36	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
37	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
38	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
39	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
40	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
41	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
42	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
43	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
44	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
45	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
46	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
47	Student Compound Microscope, MLX-B Binocular (Pathological)	6 nos.
48	Weighing Balance Model: TTB31 Wensar	2 nos.
49	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
50	Line Quantum Sensor	2 nos.
51	Table Top Microcentrifuge	1 no.
52	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00	1 no.
53	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
54	Compound Light Microscope CH 20i Binocular Microscope, Brand: Olympus, Model CH20i	6 nos.
55	Laboratory Refrigerator, 380 lt. capacity with glass door, frost free, 72.8x23.4x23.4 dimensions with 2 KVA Voltage Stablilizer Model: FKG-400, Make: Celfrost	3 nos.

56	BOD Incubator, Precise electronic digital temperature controller with timer with cooling system, Make: Ikon Instruments, Model: IK120	1 no.
57	Stereo Microscope, Model: EZ4, Make: Leica, Germany, No. 10447197	1 no.
58	UV Transilluminator, Tarsons: Make	1 no.
59	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	2 nos.
60	Top Pan Weighing Balance, Model: CA3102, Contech Make	5nos
61	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
62	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	1 no.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag) Plant Pathology**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc. **(Ag.) Plant Pathology** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	7	1	4
2017-18	5+2*	7	1	6
2018-19	5+2*	7	-	6

2019-20	2+2*	2	1	6
2020-21	5+2*	7	-	6

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the Programme (MSc. (Ag) in Plant Molecular Biology and Biotechnology**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.
MANDATES of CPGS are:
1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.
Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MSc. degree program in Plant Molecular Biology and Biotechnologycurrently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Crop Improvement since 2009.

In the last five years (2016-17 upto 2020-21) a total number of 20 M.Sc students have passed out.Several publications have resulted from the research work conducted.

Mr. Ebenazar Gympad	2018	Characterization of a panel of contrasting rice genotypes for low phosphorous tolerance using morphological and molecular markers	Wricha Tyagi
Ms. Flamia Chimachi R. Marak	2018	*In vitro* regeneration and genetic variation analysis using molecular markers in selected banana cultivars of Meghalaya	V.K. Chowdhury
Ms. Vedulla Usha Tejaswini	2019	Standardisation of *in vitro* regeneration protocol and genetic diversity analysis in Blackgram using RAPD markers	V. K. Khanna
Ms. Sakuonuo Theunuo	2019	*In vitro* regeneration and genetic diversity analysis in soybean using SSR markers	V. K. Khanna
Ms. Saumika Bhattacharjee	2019	Production of virus free quality planting material in chilli var. Dallekhursani by *in vitro* meristem tip culture	Ng. Tombisana Meetei
Ms. Magar Sayali Ganesh	2019	Evaluation of curcumin content and genetic diversity using molecular marker in turmeric genotypes cultivated in North East India	V.K. Chowdhury
Mr. Balaji S.	2020	Genetic variability analysis of Faba bean (*Vicia faba* L.) Genotypes of North East Hill region of India using Morphological Characteristics and SSR markers	Ng. Tombisana Meetei

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	Associate Professor*	1	1	2
3.	Assistant Professor	3	Nil	3

* Associate professors (#3) promoted to Professor.

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology. Additionally, Scientists from ICAR are recognized by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	1
2	Clerk-cum-Typist/LDC/UDC	1	-

3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**8**	**6**

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available

1.Molecular Biology and Biotechnology Lab
2.Cytogenetics and Molecular Marker Lab
3.Media Preparation Room
4.Tissue Culture and Genetic Transformation Lab
5.Green house facilities

The list of equipments and facilities available in the various laboratories are listed below

Sl. No.	Name of equipment
1	Mega Gel High Throughput Electrophoresis System
2	DNA Extraction System with centrifuge
3	Binocular (Pathological) (Qty1)
4	Samsung – Refrigerators (Qty 4)
5	Mastercycler (Qty5)
6	Gel Documentation System
7	Horizontal Gel electrophoresis with power supply (Qty5)
8	pH meters, Bench top
9	1 KVA online UPS with 2 hr. backup. Make: Orion
10	Table top Centrifuge machine (Qty5)
11	Refrigerators (Qty4)
12	Deep Freezer, upto-20°C (Qty4)
13	Biosafety hood
14	UV – Transilluminator
15	Top pan electronic balance
16	Growth Chamber with controlled environment light and temperature
17	Spinnix-Vortex Shake
18	Microwave Oven
19	Hot plate cum Magnetic Stirrer
20	pH meters, Bench top
21	Hot Air Oven (Qty 4)
22	Vertical Autoclave
23	Seed Germinator
24	refrigerator ready dessicators
25	Mini Bead Beater with 96 well Micro plate and stainless steel beads
26	Tensiometer

27	CTD Infrared Gun
28	Auto Dessicator Cabinets
29	Rocker Vacuum Pump
30	Weighing balances
31	Liquid nitrogen cans
32	Realtime PCR machine
33	Laminar hoods
34	Vertical gel electrophoresis system
35	Phase contrast microscope
36	Students' microscopes

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**MSc. (Ag) in Plant Molecular Biology and Biotechnology**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks weightages.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Crop Improvement has two faculty from ICAR-RC for NEH, Umiam with specialization in genetics and plant breeding and in Agricultural Economics recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Wricha Tyagi	13	4
Dr. Mayank Rai	4	0
Dr. Hossain Ali Mondal	0	1
Dr. Ng. Tombisana Meetei	2	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for MSc**(Ag.) Plant Molecular Biology and Biotechnology** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	5+2*	6	_	3
2017-18	3+2*	5	1	6
2018-19	3+2*	3	_	6
2019-20	3+2*	4	_	4
2020-21	5+2*	6	3	1

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MSc. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

SELF STUDY REPORT
for degree accreditation
MBA (Agri Business Management)

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for the MBA (Agri. Business Management)**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The MBA degree program in Agri Business Management currently running at CPGSAS is a 2 years full-time master's program following the ICAR course curriculum and has been offered at School of Social Sciencessince 2017.

In the last five years (2016-17 upto 2020-21) a total number of 8 MBA students have passed out. The details of which are given below

List of MBA (Agri. Business Management) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Oliver Uchoi	2019	Tripura Forest Development and Plantation Corporation and Livelihood Security of Tribals: A Study of Corporate Social Responsibility
Ms. Missal Elbe Ch Momin	2019	Value Chain Analysis of Honey in Meghalaya - A Case Study
Mr. Hijam Thoiba Meitei	2019	A Study on Value Chain of Tea in Manipur
Ms. Amenri Thongam	2019	Value Chain of Agro Products in Manipur-A Case Study

Ms. Iarasa Lakiang	2019	Scope of Value Chain Management of Agri-Products in Meghalaya
Mr. Thoudam Umashankar Singh	2020	Study of Machal Spices Industry in Manipur
Mr. Albert Schweitzer R Sangma	2020	Scope of Value Chain Management of Agri-Products in Meghalaya
Ms. Dogin Mamung Anjalee	2020	A Study of Lambu-Subu Food and Beverages in Arunachal Pradesh

6.4.2. Faculty Strength

The ABM discipline in School of Social Sciences started during 2017-18 with 3 number of sanctioned faculty (Professor, Associate Professor and Asstt. Professor) and all were Ph D in agricultural Economics. Two more faculties were there in the discipline of agricultural economics. Hence, collectively 5 faculties were running the ABM and Agricultural Economics programme in the school. Later on one faculty retired and presently two faculties are there in ABM. But the discipline of Agricultural Economics at present there are 3 faculties (Professor-1 and Asstt Prof.-2), hence in total there are 5 faculties to run the ABM as well as the discipline of Agricultural Economics. The details are as under

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	2	Nil	1
2.	Associate Professor	0	1	2
3.	Assistant Professor	3	Nil	3

Including faculty from agricultural economics. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
Group-C			
1	Clerk-cum-Typist/LDC/UDC	1	-
2	MTS	4	2
Grand total		**5**	**2**

For School of Social Science

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available; Computer Lab and Multimedia Lab
The facilities available includewell-furnished Computer Lab which is well equipped with the computer of 20 nos. The Lab has 5 numbers of SPSS users license which is updated time to time.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program **MBA (Agri. Business Management)** are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage. For some of the courses which require visits to farmer fields, provisions are made accordingly for such visits.

The MBA students are sent for internship programmes for exposure. The details of the internships programs attended by the students are indicated below.

Sl No.	Title	Date	Organized
1	Production of food Beverage	06.06.2018 to 14.07.2018	Thangjam Agro Industries PVT Ltd. Imphal East Manipur
2	Manipur Milk Producer's Co-operative union limited, Central Dairy Plant.	04.06.2018 to 14.07.2018	Central Dairy Plant, Porompat, Govt. of Manipur
3	Study on activities of the 1917 iTeams (ITEAS)	June to July, 2018	Meghalalya Institute of Entrepreneurship, Govt. of Meghalaya.
4	Production and processing of cashew nut	6. 06. 2018 to 12.07.2018	B. R. Industries, Phulbari, West Garo Hills, Meghalaya.
5	Training on Rubber woods production, rubber wood seasoning and preservation in treatment plant, Carpentry and Bamboo Crafts, other wood products manufacturing etc.	07.06 2018 to 13.07.2018	TFDPC Industrial Estate, Anandanagar, West Tripura.
6	Fruit preservation centre	7. 06. 2019 to 18. 07.2019	Fruit Preservation Centre Dainadubi, North Garo Hills, Govt. of Meghalay.
7	Dairy Processing Techniques and operationalization procedures of Dairy plant.	7. 06. 2019 to 19. 07.2019	Aane Dairy Plant, Pasighat and Arun Dairy Plant, Karsingsa (Nirjuli).Under the Department of A.H.Vety&Dairy Development, Govt. of Arunachal Pradesh. Nirjuli
8	Lamjingba Dairy Private Limited	13.06.2019 to 18.07.2019	Lamjingba Dairy Private Limited,
9	Training on Mushroom Cultivation	15. 12. 2020 to 28.01.2021	Horticulture Research Complex, Nagicherra, West Tripura, Govt. of Tripura, Deptt of Agriculture and Farmer's Welfare.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor

are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Ram Singh	1	0
Dr. Binodini Sethi	4	3
Dr. Anju Chaudhary	4	0
Dr. Anandkumar Singh	0	1

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)
At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for **MBA (Agri. Business Management)** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2017-18	**5**	**5**	**-**	**-**
2018-19	**5**	**3**	**-**	**-**
2019-20	5	**1**	**-**	**7**
2020-21	**5**	**4**	**-**	**1**

6.4.9 ICT Application in Curricula Delivery
All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for MBA students

Sl. No.	Facility exist	Status

SELF STUDY REPORT
for degree accreditation
Ph.D.
(Soil Science and Agricultural Chemistry)

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Soil Science and Agricultural Chemistry Programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGSAS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGSAS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Soil Science and Agricultural Chemistry currently running at CPGSAS is a 3 years full-time doctoral program following the ICAR course curriculum and has been offered at School of Natural Resource Management since 2011.

In the last five years (2016-17 upto 2020-21) a total number of 7 Ph.D. students have passed out. The research work has led to several publications. The details of which are given below:

List of Ph.D. (Soil Science and Agricultural Chemistry) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Henry Saplalrinliana	2016	Plant litter-soil enzyme interactions and biochemical index of soil fertility in *Jhum* agroecosystem
Ms. Christy Berylnight K. Sangma	2018	Development of native rhizobium compatible enriched compost for use in lentil (*Lens culinaris* Medik.) grown in acid soil
Ms. Mayanglambam Homeshwari Devi	2018	Effect of phosphorus, zinc and silicon amended root-dip methods on rice in acid soils
Ms. Euwanrida Adleen Shylla Lyngdoh	2019	Phytoremediation of heavy metal polluted soils of coal mine areas of Jaintia Hills and determination of critical limit of phosphorus for maize (*Zea mays* L.)
Mr. Kabir Debbarma	2020	Soil Organic Carbon Mapping and Carbon Sequestration of Hill Agro-Ecosystems of Ri-Bhoi District
Mr. Chandan Goswami	2021	Hyperspectral spectroscopic study of soil properties in acid soils of North East India
Mr. Markynti S. Lyngdoh	2021	Effect of amelioration practices on soil productivity of coal mine affected lowland field

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	4	Nil	1
2.	Associate Professor	1	1	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	2	1

2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**6**

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Analytical Lab
2. Biogeochemistry Lab
3. Microbial Ecology Lab
4. GIS and Remote Sensing Lab
5. Hydraulics lab
6. Biofertilizer production unit

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Portable Oil Free Vacuum Pump, Tarsons: Rocker-400	1 nos.
7	Vortex General Purpose (Shaker), Tarsons	5 nos.
8	Water Double Distillation Plant, Make: JSGW	1 no.
9	Water Single Distillation Plant, Medica:	1 nos.
10	Willy Mill, Secor Make	1 no.
11	High Precision Water Bath, Medica	1 no.
12	Double Ring Infiltrometer Set	1 Set
13	Soil Auger (Euro design) 5 cm dia, 1m long with handle, Screw Augers 2.5 cm dia and 5 cm dia, 1m long with handle, extension rod 1m long Wrench (1 pair)	2 nos.
14	Soil Core Sampler complete with 10 SS rings, 60 mm dia, 100 cc internal volume with end caps and one nylon headed shock absorbing hammer	1 no.
15	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
16	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
17	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
18	Fume Hood, NSW Brand, Cat No. 203	1 no.
19	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
20	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
21	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
22	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
23	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
24	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
25	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
26	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
27	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
28	Autoclave Vertical, Make: Equitron	1 no.
29	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
30	Student Microscope, Labomed, Model: VISION2000	4 nos.

31	Seed Germinator with Stabilizer, Remi Make	1 no.
32	5332 000.014 Mastercycler Personal (Thermocycler) with accessories	1 no.
33	5811 000.010 Centrifuge 5810R with accessories	1 nos.
34	Electronic Balance, Denver Make, Model SI 234DE	2 nos.
35	Hot Air Oven, EquitronMedica Make, Model: # 7053	1 no.
36	Vortex-Genie ® 2 Vortex (220V) 12112009-220	1 Set
37	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 8000	1 nos.
38	Uniline 2 KVA/168V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
39	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	3 nos.
40	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
41	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
42	Isotherm Kit, Isotherm Systems & PCR Cooler 0.2 MI Starter Set	1 no.
43	Digital Burette (Top Burette M), 2.5 ml	1 no.
44	5350 000.013 Thermomixer Compact	1 no.
45	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
46	Electronic Automatic KELPLUS Microprocessor Based Twelve Place Macro Block Digstion System, Model: KES 12L with accessories, Electronic Acid Neutraliser 'Scrubber', Electronic Superior Automatic Distillation System	1 Set
47	Bench Top Cooler (0°C), Tarson Make	2 nos.
48	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
49	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
50	Nanodrop Spectrophotometer, Make: Thermo, Model: ND-2000	1 no.
51	Electronic Balance, Denver Make, Model: SI 234DE	1 no.
52	Soil Moisture Meter (Mini Trase Kit with Bluetooth Aircable, Iowa State Tension Infiltro meter, Guelph Permeameter Kit	1 Set
53	Uniline Online UPS with isolation transformer suitable for single phase AC input and single phase AC output with rating of UPS 5.0 KVA and indicative back-up time 240 minutes, with minimum VAH 32000	1 no.
54	Refrigerating & Heating Circular, Model 9201, 240/50Hz, Polyscience Make	1 no.
55	Denaturing Gradient Gel Electrophoresis Apparatus Set; IV-1030 Complete system for DGGE,CDGE,TGGE, Model: IPU-S, Make: Ingeny	1 no.
56	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
57	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
58	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
59	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
60	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
61	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
62	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
63	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
64	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
65	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
66	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
67	Student Compound Microscope, MLX-B Binocular (Pathological), Magnus	6 nos.
68	Top Pan Electronic Balance (PL60001-S EL. Precision Balance), Mettler	1 no.
69	pH Meter, Brand: Eutech, Model: PHTEST 10	1 no.
70	Electronic Laboratory Shaker Variable RPM, Model: Rotek LSV	1 no.
71	Environmental Shaker, Electronic Laboratory Shaker Variable RPM, Model: Roteck LES with accessories	3 nos.

72	Gel Dryer, Genei Make, Model-Junior, Gel Drying Surface, 25x35 cm Model: GDJ, Sl.No. 1011318	2 nos.
73	Chlorophyll Meter, CCM200	1 no.
74	Automatic Weather Station Complete System, Model: Vanatage Pro2 plus, Brand: Cole Parmer	1 no.
75	Refractometer, Model No. 2812, Sl. No.B024602	1 no.
76	Data Logging Moisture Meter with Humidity (Seed Moisture Meter), Sl.No. 03-11.0002	1 no.
77	Elisa-Cum-UV-VIS Spectrophotometer, (Multiskan Spectrum Reader, Cat No. 51118650) with accessories	1 no.
78	Quantum Meter Brand: Spectrum Model: 3415F	1 no.
79	Soil Compaction Meter, Brand: Spectrum, Model: 6101, Sl. No. 669	1 no.
80	Deep Freezer, upto -30°C Net capacity: 308L	1 no.
81	Single Distillation Unit (Cat No. 72230050), Make: Reviera	1no.
82	Multiparameter Water Quality Meter, Make: M/s Hanna Instruments, USA, Model: HI 98280	1 no.
83	Semi Dry/Dry Transfer Assembly, Cat No. V10-SDB, Sl.No. 30020934, Make: Sciplas	1 no.
84	Orion 5 KVA/168V OL UPS 5KVA On Line UPS System with 120 Minutes Battery Back Up Time Using SMF Batteries	1 no.
85	FastprepHomogeneizer, Make Thermo Scientific, Model: FP120-230	1 no.
86	Geo Media Educational Kit (5 User License)	1 no.
87	ERDAS Imagine Software, ERDAS Imagine v2011 Educational Kit (5 User License)	1 no.
88	Lux Meter (Rod Type), Operating Temperature: 0-40°C , Model: 3415FX, Make: Spectrum	1 no.
89	Permeameter (Constant Head) Model: Constant Head & Falling Head, Make: Roorkee Inds.	1 no.
90	Weighing Balance Model: TTB31 Wensar	2 nos.
91	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
92	Line Quantum Sensor, Model: MQ-301, Make: Apogee Instruments	2 nos.
93	Table Top Microcentrifuge, Model: Heraeus Fresco21, Make: Thermo Fisher Scientific	1 no.
94	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00, Model No. CPHTUTOR, Eutech Make	1 no.
95	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
96	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	5nos
97	Intel Core i5 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RKP882	4nos
98	Senior Precision Rotary Microtome, Radical, Model-30	1 no.
99	Soil Augur, Make: Roorkee Industries, India	1 no.
100	Digital Burette, Make: Titrettee/Tarsons	1 no.
101	Soil Core Sampler, Make: AIC	1 no.
102	EC-TDS Meter, Model: CM 183	1 no.
103	Flame Photometer, Model: CL 378, Sl. No. 02358/198	1 no.
104	Global Positioning System (GPS), Model: eTrex 30	1 no.
105	pH cum mV Meter, Model: LI-614	1 no.
106	Soil Penetrometer Compaction Meter (Imported Parts),	1 no.
107	Laboratory Shaker, Make: Alliance, Brand: Lunar, India	1 no.
108	Double Beam Atomic Absorption Spectrophotomter, Model: SL-194	1 no.
109	Double Beam UV-VIS Spectrophotomter, Model: SL-210	1 no.
110	Constant Voltage Stabilizer, 3 KVA, (Zodin) Model: CVR-350	1 no.
111	Rotary Vacuum Pump, Model: SD-45-DS	1 no.
112	Top Pan Weighing Balance, Model: CA3102, Contech Make	1 no.
113	Analytical Balance, High Precision, Model: CA-234, Contech Make	1 no.
114	Thermo Hygrometer Digital Clock 288 CTH Jambo Brand: General	1 no.

115	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
116	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program **Ph.D.(Soil Science and Agricultural Chemistry**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. P. K. Bora	0	1
Dr. Dwipendra Thakuria	4	1
Dr. Sanjay Swami	1	3
Dr. N. Janaki Singh	3	1

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D. **(Soil Science and Agri. Chemistry)**program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	**2+1***	**1**	**1**	**-**
2017-18	**1+1***	**1**	**-**	**1**
2018-19	**2+1***	**3**	**1**	**1**
2019-20	**1+1***	**2**	**1**	**1**
2020-21	**2+1**	**3**	**1**	**3**

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

* Required

1. Academic year *

SELF STUDY REPORT
for degree accreditation
Ph.D.
(Agronomy)

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Agronomy) Programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Agronomy currently running at CPGSAS is a 3 years full-time doctoral program following the ICAR course curriculum and has been offered at School of Natural Resource Management since 2013.

In the last five years (2016-17 upto 2020-21) a total number of 3 Ph.D. students have passed out. The research work has led to several publications. The details of which are given below:

List of Ph.D. (Agronomy) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Mr. Sanjenbam Dayananda Singh	2017	Evaluation of urine as an alternative fertilizer source for crop production in North East India
Ms. Yanglem Sofia Devi	2017	Seed priming of pea (*Pisum sativum* L.) and residual soil moisture conservation in rice (*Oryza sativa* L.) fallow
Mr. Samborlang K. Wanniang	2018	Integrated nutrient management in vegetable pea-maize cropping sequence

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	4	Nil	1
2.	Associate Professor	1	1	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	2	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**6**

For School of Natural Resource Management ie., Agronomy and Soil Science & Agricultural Chemistry.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Analytical Lab
2. Biogeochemistry Lab
3. Microbial Ecology Lab
4. GIS and Remote Sensing Lab
5. Hydraulics lab
6. Biofertilizer production unit

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Portable Oil Free Vacuum Pump, Tarsons: Rocker-400	1 nos.
7	Vortex General Purpose (Shaker), Tarsons	5 nos.
8	Water Double Distillation Plant, Make: JSGW	1 no.
9	Water Single Distillation Plant, Medica:	1 nos.
10	Willy Mill, Secor Make	1 no.
11	High Precision Water Bath, Medica	1 no.
12	Double Ring Infiltrometer Set	1 Set
13	Soil Auger (Euro design) 5 cm dia, 1m long with handle, Screw Augers 2.5 cm dia and 5 cm dia, 1m long with handle, extension rod 1m long Wrench (1 pair)	2 nos.
14	Soil Core Sampler complete with 10 SS rings, 60 mm dia, 100 cc internal volume with end caps and one nylon headed shock absorbing hammer	1 no.
15	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
16	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
17	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.

18	Fume Hood, NSW Brand, Cat No. 203	1 no.
19	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
20	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
21	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
22	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
23	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
24	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
25	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
26	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
27	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
28	Autoclave Vertical, Make: Equitron	1 no.
29	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
30	Student Microscope, Labomed, Model: VISION2000	4 nos.
31	Seed Germinator with Stabilizer, Remi Make	1 no.
32	5332 000.014 Mastercycler Personal (Thermocycler) with accessories	1 no.
33	5811 000.010 Centrifuge 5810R with accessories	1 nos.
34	Electronic Balance, Denver Make, Model SI 234DE	2 nos.
35	Hot Air Oven, EquitronMedica Make, Model: # 7053	1 no.
36	Vortex-Genie ® 2 Vortex (220V) 12112009-220	1 Set
37	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 8000	1 nos.
38	Uniline 2 KVA/168V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
39	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	3 nos.
40	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
41	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
42	Isotherm Kit, Isotherm Systems & PCR Cooler 0.2 MI Starter Set	1 no.
43	Digital Burette (Top Burette M), 2.5 ml	1 no.
44	5350 000.013 Thermomixer Compact	1 no.
45	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
46	Electronic Automatic KELPLUS Microprocessor Based Twelve Place Macro Block Digstion System, Model: KES 12L with accessories, Electronic Acid Neutraliser 'Scrubber', Electronic Superior Automatic Distillation System	1 Set
47	Bench Top Cooler (0°C), Tarson Make	2 nos.
48	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
49	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
50	Nanodrop Spectrophotometer, Make: Thermo, Model: ND-2000	1 no.
51	Electronic Balance, Denver Make, Model: SI 234DE	1 no.
52	Soil Moisture Meter (Mini Trase Kit with Bluetooth Aircable, Iowa State Tension Infiltro meter, Guelph Permeameter Kit	1 Set
53	Uniline Online UPS with isolation transformer suitable for single phase AC input and single phase AC output with rating of UPS 5.0 KVA and indicative back-up time 240 minutes, with minimum VAH 32000	1 no.
54	Refrigerating & Heating Circular, Model 9201, 240/50Hz, Polyscience Make	1 no.
55	Denaturing Gradient Gel Electrophoresis Apparatus Set; IV-1030 Complete system for DGGE,CDGE,TGGE, Model: IPU-S, Make: Ingeny	1 no.
56	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
57	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
58	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
59	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.

60	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
61	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
62	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
63	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
64	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
65	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
66	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
67	Student Compound Microscope, MLX-B Binocular (Pathological), Brand: Magnus	6 nos.
68	Top Pan Electronic Balance (PL60001-S EL. Precision Balance), Brand: Mettler	1 no.
69	pH Meter, Brand: Eutech, Model: PHTEST 10	1 no.
70	Electronic Laboratory Shaker Variable RPM, Model: Rotek LSV	1 no.
71	Environmental Shaker, Electronic Laboratory Shaker Variable RPM, Model: Roteck LES with accessories	3 nos.
72	Gel Dryer, Genei Make, Model-Junior, Gel Drying Surface, 25x35 cm Model: GDJ, Sl.No. 1011318	2 nos.
73	Chlorophyll Meter, CCM200	1 no.
74	Automatic Weather Station Complete System, Model: Vanatage Pro2 plus, Brand: Cole Parmer	1 no.
75	Refractometer, Model No. 2812, Sl. No.B024602	1 no.
76	Data Logging Moisture Meter with Humidity (Seed Moisture Meter), Sl.No. 03-11.0002	1 no.
77	Elisa-Cum-UV-VIS Spectrophotometer, (Multiskan Spectrum Reader, Cat No. 51118650) with accessories	1 no.
78	Quantum Meter Brand: Spectrum Model: 3415F	1 no.
79	Soil Compaction Meter, Brand: Spectrum, Model: 6101, Sl. No. 669	1 no.
80	Deep Freezer, upto -30°C Net capacity: 308L	1 no.
81	Single Distillation Unit (Cat No. 72230050), Make: Reviera	1no.
82	Multiparameter Water Quality Meter, Make: M/s Hanna Instruments, USA, Model: HI 98280	1 no.
83	Semi Dry/Dry Transfer Assembly, Cat No. V10-SDB, Sl.No. 30020934, Make: Sciplas	1 no.
84	Orion 5 KVA/168V OL UPS 5KVA On Line UPS System with 120 Minutes Battery Back Up Time Using SMF Batteries	1 no.
85	FastprepHomogeneizer, Make Thermo Scientific, Model: FP120-230	1 no.
86	Geo Media Educational Kit (5 User License)	1 no.
87	ERDAS Imagine Software, ERDAS Imagine v2011 Educational Kit (5 User License)	1 no.
88	Lux Meter (Rod Type), Operating Temperature: 0-40°C , Model: 3415FX, Make: Spectrum	1 no.
89	Permeameter (Constant Head) Model: Constant Head & Falling Head, Make: Roorkee Inds.	1 no.
90	Weighing Balance Model: TTB31 Wensar	2 nos.
91	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
92	Line Quantum Sensor, Model: MQ-301, Make: Apogee Instruments	2 nos.
93	Table Top Microcentrifuge, Model: Heraeus Fresco21, Make: Thermo Fisher Scientific	1 no.
94	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00, Model No. CPHTUTOR, Eutech Make	1 no.
95	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
96	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	5nos
97	Intel Core i5 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RKP882	4nos
98	Senior Precision Rotary Microtome, Radical, Model-30	1 no.
99	Soil Augur, Make: Roorkee Industries, India	1 no.

100	Digital Burette, Make: Titrettee/Tarsons	1 no.
101	Soil Core Sampler, Make: AIC	1 no.
102	EC-TDS Meter, Model: CM 183	1 no.
103	Flame Photometer, Model: CL 378, Sl. No. 02358/198	1 no.
104	Global Positioning System (GPS), Model: eTrex 30	1 no.
105	pH cum mV Meter, Model: LI-614	1 no.
106	Soil Penetrometer Compaction Meter (Imported Parts), Make: Roorkee Industries	1 no.
107	Laboratory Shaker, Make: Alliance, Brand: Lunar, India	1 no.
108	Double Beam Atomic Absorption Spectrophotomter, Model: SL-194	1 no.
109	Double Beam UV-VIS Spectrophotomter, Model: SL-210 with PC Configurable Software	1 no.
110	Constant Voltage Stabilizer, 3 KVA, (Zodin) Model: CVR-350	1 no.
111	Rotary Vacuum Pump, Model: SD-45-DS	1 no.
112	Top Pan Weighing Balance, Model: CA3102, Contech Make	1 no.
113	Analytical Balance, High Precision, Model: CA-234, Contech Make	1 no.
114	Thermo Hygrometer Digital Clock 288 CTH Jambo Brand: General	1 no.
115	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
116	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	3 nos.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**Ph.D. (Agronomy**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Vishram Ram, Professor	4	4
Dr. Lala I.P. Ray, Assoc. Prof.	0	1
Dr. A. K. Singh, Asst. Prof.	1	2

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.

(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D.(**Agronomy**)program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	3	-	2
2017-18	1+1*	-	-	_
2018-19	1+1*	3	_-	1
2019-20	0+1*	-	-	-
2020-21	2+1*	2	1	**-**

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	M.Sc. And Ph.D. Theses	356 MSc 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

* Required

2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Agricultural Economics) programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Agricultural Economics currently running at CPGSAS is a 3years full-time doctoral program following the ICAR course curriculum and has been offered at School of Social Sciences since 2013.

In the last five years (2016-17 upto 2020-21) a total number of9Ph.D. students have passed out. The research work has led to several publications. The details of which are given below:

List of Ph.D. (Agri. Eco) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Leishangthem Geetarani Devi	2016	Sustainability of Rice Farming in Manipur: An Economic Analysis
Mr. Ningombam Anandkumar Singh	2016	Economic Analysis of Pineapple in Manipur
Ms. Dayohimi Rymbai	2016	Adaptation to Climate Change: An Economic Study of Cereal Crops in Eastern Himalaya
Mr. Pallab Debnath	2016	An Empirical Study on Economics of Rice Production in Tripura
Ms. Monika Aheibam	2017	Crop Diversification and its Impact on Farming Households of Manipur: A Micro-Level Study
Ms. Nivetina Laitonjam	2019	Vulnerability and Adaptation to Climate Change: A Study of Rice Farms in Manipur
Mr. Narendra Kumar Meena	2019	Economics of Solar Powered Pumping System in Major Crops of Rajasthan: A Comparative Study

Ms. Singyala Chiphang	2020	Livelihood Security through Organic Farming in North East Hill Region of India: An Economic Analysis
Mr. Baiarbor Nongbri	2020	Food and Nutritional Security at Farm Household Level in Meghalaya: Impact of Government Schemes

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	2	1	1
2.	Associate Professor*	2	Nil	2
3.	Assistant Professor	3	1	3

* Associate professors (#2) promoted to Professor and two assistant professors to associate level.

For School of Social Science ie., Agricultural Economics and Extension Education. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
Group-C			
1	Clerk-cum-Typist/LDC/UDC	1	-
2	MTS	4	2
Grand total		**5**	**2**

For School of Social Science ie., Agricultural Economics and Extension Education.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available; Computer Lab and Multimedia Lab

The facilities available include well-furnished Computer Lab which is well equipped with the computer of 20 nos. The Lab has 5 numbers of SPSS users license which is updated time to time.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in Ph.D. program (**Ph.D. in Agricultural Economics**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the

respective course incharges by giving marks/weightage. For some of the courses which require visits to farmer fields, provisions are made accordingly for such visits.

6.4.6 Supervision of students in Ph.D. programs

The allotment of students is PhD is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Social Sciences has two faculty each from ICAR-RC for NEH, Umiam and ICAR-ATARI, Umiam with specialization in Agricultural Economics and Agricultural Extension recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Ram Singh	7	2
Dr. Sheikh Mohammad Feroze	2	0
Dr. S. Basanta Singh	0	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher, etc for the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D.(**Agricultural Economics**)program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	3	-	3
2017-18	1+1*	-	-	1
2018-19	1+1*	3	1	2
2019-20	1+1*	2	1	1
2020-21	2+1*	3	_-	2

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

6.4. **Self-Study Report for Ph.D. (Agricultural Extension) Program**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region.This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Agricultural Extensioncurrently running at CPGSAS is a 3 years full-time doctoral program following the ICAR course curriculum and has been offered at School of Social Sciencessince 2013.

In the last five years (2016-17 upto 2020-21) a totalofninePh.D. students have passed out. The research work has led to several publications. The details of which are given below:

List of Ph.D. (Agri. Ext.) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Suchiradipta Bhattacharjee	2016	A micro-level study on dimensions of emerging livelihood pattern of rural tribal youth in Tripura
Ms. Khumukcham Stina	2016	A study on impact assessment of the employment and livelihood linked programmes in Manipur
Ms. Alethea Dympep	2017	Social networks of agricultural stakeholders on climate-smart agriculture in Meghalaya: A structural equation modelling
Ms. Punitha P.	2017	*Jhumias* of Manipur in North-East India: A Livelihood Analysis
Ms. Jyothi SSP	2019	Understanding the technological information networks in diffusion of improved rice varieties in Manipur
Mr. Sao Evalwell Dkhar	2019	Organisational climate and performance of Krishi Vigyan Kendras in Meghalaya
Ms. Deepa Thangjam	2019	Livelihood security of farmers in Meghalaya under

		Tribal Sub-Plan: A result-based evaluation
Mr. Termaric Oinam	2019	Implications of mobile phone applications in farming by tribal rural youth of Meghalaya
Mr. Bai Koyu	2020	Modeling e-learning for climate-smart horticulture on high value horticultural crops of Arunachal Pradesh: A quasi-experimental approach

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/ other regulatory bodies
1.	Professor	2	1	1
2.	Associate Professor*	2	Nil	2
3.	Assistant Professor	3	1	3

* Associate professors (#2) promoted to Professor and two assistant professors to associate level.

For School of Social Science ie., Agricultural Economics and Extension Education. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
Group-C			
1	Clerk-cum-Typist/LDC/UDC	1	-
2	MTS	4	2
Grand total		**5**	**2**

For School of Social Science ie., Agricultural Economics and Extension Education.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available; Computer Lab and Multimedia Lab

The facilities available include well-furnished Computer Lab which is well equipped with the computer of 20 nos. The Lab has 5 numbers of SPSS users license which is updated time to time.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in Ph.D. program (**Ph.D. in Agricultural Extension**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage. For some of the courses which require visits to farmer fields, provisions are made accordingly for such visits.

6.4.6 Supervision of students in Ph.D. programs

The allotment of students is PhD is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Social Sciences has two faculty each from ICAR-RC for NEH, Umiam and ICAR-ATARI, Umiam with specialization in Agricultural Economics and Agricultural Extension recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Loukham Devarani	4	2
Dr. R. Josmee Singh	3	3

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D(**Agricultural Economics**)program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	3	_	2
2017-18	1+1*	1	_	2
2018-19	1+1*	1	_	-
2019-20	1+1*	2	_	5
2020-21	2+1*	3	_	-

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20

4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

Student Feedback Form

Please limit to 1 feedback for each course taken.

SELF STUDY REPORT
for degree accreditation
Ph.D.
(Genetics And Plant Breeding)

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Genetics and Plant Breeding) Programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The PhD degree program in Genetics and Plant Breedingcurrently running at CPGSAS is a 3 years full-time program following the ICAR course curriculum and has been offered at School of Crop Improvement since 2013.

In the last five years (2016-17 upto 2020-21) a total number of five Ph.D. students have passed out. The research work has led to several publications. The details of which are given below:

A. Full length RESEARCH PAPERS

Singh R, … Rai M…Singh NK (2016) From QTL to variety-harnessing the benefits of QTLs for drought, flood and salt tolerance in mega rice varieties of India through a multi-institutional network. *Plant Science* 242: 278-287
Tyagi W, Rai M (2017) Root transcriptomes of two acidic soil adapted Indica rice genotypes suggest diverse and complex mechanism of low phosphorus tolerance. *Protoplasma* 254:725–736

Yumnam JS, Rai M,Tyagi W(2017) *In silico* characterisation of novel rice transcripts expressed only in phosphorus deficient conditions suggests role of multiple abiotic stress. *Acta BiologicaHungarica*68:398–411.

Yumnam JS, Rai M, Tyagi W (2017) Allele mining across two low-P tolerant genes PSTOL1 and PupK20-2 reveals novel haplotypes in rice genotypes adapted to acidic soils. *Plant Genetic Resources: Characterization and Utilization*; 15:221-229

Name of the student	Year of passing	Thesis Title	Advisor's Name
Mr. Shiva Kumar K	2017	Marker assisted selection of transgressive segregants for high yield under acidic soil conditions	Mayank Rai
Mr. Sapam Rajesh Kumar Singh	2017	Evaluation of lentil (*Lens culinaris* ssp. *CulinarisMedikus*) germplasm under low-input acidic soil conditions of North East India	V. K. Khanna
Mr. Ashim Debnath	2018	Genetic analysis of leaf and neck blast resistance in rice	Mayank Rai
Mr. Naveen Kumar	2019	Divergence and combining ability studies in a set of inbreds developed from maize landraces of North Eastern Hill (NEH)	Devyani Sen
Mr. TalomDabi	2019	Crossability embryo rescue and genetic diversity studies in *Oryza*	V. K. Khanna

6.4.2. Faculty Strength

S.No.	SanctionedFaculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	AssociateProfessor*	1	1	2
3.	AssistantProfessor	3	Nil	3

* Associate professors (#3) promoted to Professor.

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**8**	**6**

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available

1.Molecular Biology and Biotechnology Lab
2.Cytogenetics and Molecular Marker Lab
3.Media Preparation Room
4.Tissue Culture and Genetic Transformation Lab
5.Green house facilities

The list of **equipments and facilities** available in the various laboratories are listed below

Sl.No.	Name of equipment
1	Mega Gel High Throughput Electrophoresis System
2	DNA Extraction System with centrifuge
3	Binocular (Pathological) (Qty1)
4	Refrigerators (Qty 4)
5	Mastercycler (Qty 5)
6	Gel Documentation System
7	Horizontal Gel electrophoresis with power supply (Qty 5)
8	pH meters, Bench top
9	1 KVA online UPS with 2 hr. backup. Make: Orion
10	Table top Centrifuge machine (Qty 5)
11	Refrigerators (Qty 4)
12	Deep Freezer, upto-20°C (Qty 4)
13	Biosafety hood
14	UV – Transilluminator
15	Top pan electronic balance
16	Growth Chamber with controlled environment light and temperature
17	Spinnix-Vortex Shake
18	Microwave Oven
19	Hot plate cum Magnetic Stirrer
20	pH meters, Bench top
21	Hot Air Ovens (Qty 4)
22	Vertical Autoclave
23	Seed Germinator
24	Refrigerator ready dessicators
25	Mini Bead Beater with 96 well Micro plate and stainless steel beads
26	Tensiometer
27	CTD Infrared Gun
28	Auto Desicator Cabinets
29	Rocker Vacuum Pump
30	Weighing balances
31	Liquid nitrogen cans
32	Realtime PCR machine
33	Laminar hoods

34	Vertical gel electrophoresis system
35	Phase contrast microscope
36	Students' microscopes

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in Ph.D. program (**Ph.D. (Genetics and Plant Breeding**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks weightages.

6.4.6 Supervision of students in Ph.D. programs

The allotment of students is Ph.D. is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Crop Improvement has two faculty from ICAR-RC for NEH, Umiam with specialization in genetics and plant breeding recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Mayank Rai	3	4
Dr. K. Noren Singh	0	4
Dr. Dr. Devyani Sen	1	2

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for PhD.(**Ag.) in Genetics and Plant breeding** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	**3**	**2**	**1**
2017-18	2+1*	**3**	**2**	**_-**
2018-19	2+1*	**3**	**-**	**2**
2019-20	2+1*	**3**	**-_**	**2**
2020-21	2+1	**2**	**-**	**-**

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc;37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

SELF STUDY REPORT
for degree accreditation
Ph.D. (Plant Pathology)

College of Post Graduate Studies in Agricultural Sciences
Central Agricultural University (Imphal)
Umiam, Umroi Road, Meghalaya - 793 103

Telefax: 0364-2570030
e-mail: dean.cpgsas@cau.ac.in/deancpgs@gmail.com website: www.cpgsas.ac.in

	Particulars
1.	Sections 6.4
2.	Sections 6.4.2 to 6.4.3
3.	Section 6.4.4 to Section 6.4.6
4.	Section 6.4.7 to 6.4.8
5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Plant Pathology)**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Plant Pathology currently running at CPGSAS is a 3 years full-time doctoral program following the ICAR course curriculum and has been offered at School of Crop Protection since 2013.

In the last five years (2016-17 upto 2020-21) a total number of 2 Ph.D. students have passed out. The research work has led to several publications. The details of which are given below:

List of Ph.D. (Plant Pathology) theses submitted (2016-2021)

Name of the student	Year of passing	Thesis Title
Ms. Janshame Tariang	2019	Management of *Penicillium* rot of khasi mandarin (*Citrus reticulata* Blanco) by using native *Bacillus subtilis* isolates
Ms. Markidahun Biam	2019	Bio-efficacy of *Trichoderma* formulation against damping-off caused by *Pythium* spp. and *Rhizoctonia solani* Kuhn. on tomato (*Solanum lycopersicum*)

6.4.2. Faculty Strength

S.No.	Sanctioned Faculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	Associate Professor	3	Nil	2
3.	Assistant Professor	2	1	3

* Assistant professor (#1) promoted to Assoc. Professor and three associate professors promoted to Professor level.

For School of Crop Protection ie., Plant Pathology and Entomology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	0
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**9**	**5**

For School of Crop Protection ie., Plant Pathology and Entomology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available. Following labs are available

1. Plant Pathology Lab
2. Molecular Lab
3. Biopesticide production unit
4. Mushroom production unit
5. Entomology Lab
6. Nematology Lab
7. Insectry
8. Polyhouse

List of equipments and facilities available are as mentioned

S.N.	Particulars of Asset	Quantity
1	Auto Loop Sterilizer, Make: Himedia,	1 no.
2	Microwave Oven, Samsung-32 ltrs. Model No. CE117ALF	1 no.
3	Conductivity Meter Cyberscan 510, Eutech make	1 no.
4	Colony Counter; Cat # 0671	2 nos.
5	Autoclave Portable, Cat # 7407 PAD	2 nos.
6	Vortex General Purpose (Shaker), Tarsons	5 nos.
7	Water Single Distillation Plant, Medica:	2 nos.
8	Microcentrifuge, Spinwin: 'Tarsons' Brand, Model: MC-01	1 no.
9	Pipette Controller, Tarsons Brand , Cat No. 2003	2 nos.
10	Dancing Shaker, Tarsons Brand, Cat No. 3040	2 nos.
11	Fume Hood, NSW Brand, Cat No. 203	1 no.
12	Digital Turbidity Meter: Systronics Brand (Type: 132)	1 no.
13	Heating Mantles, Jindal Brand, Capacity-500 ml, 200 Watt	1 no.
14	Heating Mantles, Jindal Brand, Capacity-1 lt., 300 Watt.	1 no.
15	Heating Mantles, Jindal Brand, Capacity-2 lt., 450 Watt.	1 no.
16	UV-Transilluminator, Brand: UVP Ltd (UK), Model: LMS-20	1 no.
17	Top Pan Weighing Balance, Model: GE7101, Make: Sartorius	2 nos.
18	Laminar Air Flow, ACCO Make, Cat: AC071-02	1 no.
19	Laminar Air Flow, ACCO Make, Cat: AC071-04	1 no.
20	Autoclave Vertical, 7451PAD, Make: Equitron	1 no.
21	Autoclave Vertical, Make: Equitron	1 no.
22	BOD Incubator, Cat#7140-250, Make: Equitron	2 nos.
23	Student Microscope, Labomed, Model: VISION2000	4 nos.
24	Seed Germinator with Stabilizer, Remi Make	1 no.
25	Mastercycler Personal (Thermocycler) with accessories	1 no.
26	Centrifuge 5810R with accessories	1 nos.
27	Electronic Balance, Denver Make	2 nos.

28	Hot Air Oven, EquitronMedica Make	1 no.
29	Vortex-Genie ® 2 Vortex (220V)	1 Set
30	Uniline 3 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 120 minutes, Minimum VAH 9600	2 nos.
31	Uniline 5 KVA/180V OL UPS Systems, with isolation Transformer Indicative Back Up Time 60 minutes, Minimum VAH 8000	1 nos.
32	Deep Freezer, Brand: Cryo-Scientific, Model: URC-V-380-2	1 no.
33	Shaker Incubator, Electronic Laboratory Incubator Shaker, Model: LIS (Rotek LIS)	3 nos.
34	Bench Top Cooler (0°C), Tarson Make	2 nos.
35	Gel Electrophoresis-101 (Mini and Wide Midid Horizontal) With Power Supply System, Brand: Scieplus (Axygen Make), Model: HU10, HU25 and EV243	1 no.
36	Precision Hot Air Oven, Model: O-OGS -2436A, Brand: OVFU, Model CF549	3 nos.
37	Binocular Microscope Model: LEICA DM 750 + accessories, PC with Core 2 dual Processor, 2 GB RAM, 250 GB HDD, 17 inch TFT Monitor and Colour Photo Quality printer	3 nos.
38	U9260-0001 Premium Upright Freezer U410 with accessories, Model: U410-86	2 nos.
39	Gel Electrophoresis (Mini & Wide midi horizontal) with power supply system, Axygen Make	1 no.
40	Uniline 5 KVA/168V OL UPS Systems with 120 minutes Battery Back-Up Time Using SMF Battery	5 nos.
41	Microcentrifuge, Tarsons-1030 Spinwin MC-02, Make-Tarsons	1 no.
42	Microcentrifuge, Tarsons-3020 Spinix, Make-Tarsons	2 nos.
43	Microscope-HB Monocular, Brand-Olympus, Model-HB	8 nos.
44	Tarsons-7011-Rocker Vacuum Pump, Cat No. 7011	2 nos.
45	Hort Air Oven-Mechanical Convection, Brand OVFU 250 L, Model: 508	2 nos.
46	Hot Air Oven-O-OGS-1518 (D), Brand-OVFU	2 nos.
47	Dancing Shaker, Tarsons-3040, SP 0-60 RPM	2 nos.
48	Student Compound Microscope, MLX-B Binocular (Pathological), Brand: Magnus	6 nos.
49	Weighing Balance Model: TTB31 Wensar	2 nos.
50	Electronic Balance, Model: MAB220, Wensar, Sl. No. 29640	1 no.
51	Line Quantum Sensor	2 nos.
52	Table Top Microcentrifuge	1 no.
53	pH Meter, Microprocessor based, pH measuring range: 0.00 to 14.00	1 no.
54	Water Single Distillation Plant, Barnstead Type, Stainless Steel, 4.5 litres/hr. 3500 W, Model No. #7655, Medica Make	1 no.
55	Compound Light Microscope CH 20i Binocular Microscope, Brand: Olympus, Model CH20i	6 nos.
56	Laboratory Refrigerator, 380 lt. capacity with glass door, frost free, 72.8x23.4x23.4 dimensions with 2 KVA Voltage Stablilizer Model: FKG-400, Make: Celfrost	3 nos.
57	BOD Incubator, Precise electronic digital temperature controller with timer with cooling system, Make: Ikon Instruments, Model: IK120	1 no.
58	Stereo Microscope, Model: EZ4, Make: Leica, Germany, No. 10447197	1 no.
59	UV Transilluminator, Tarsons: Make	1 no.
60	Intel Core i7 Windows 8 Desktop Computer, Make: DELL, Model: Optiplex 9020MT, Sl. No. 6RWJ882	2 nos.
61	Top Pan Weighing Balance, Model: CA3102, Contech Make	5nos
62	Hot Plate Cum Magnetic Stirer, Model: MS-H-280 Pro, Make: Dlab	1 no.
63	pH Meter, Model: LMPH 10, Sl.No. 11672, Cat No. L11541, Make: Wenser	1 no.

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in PG program (**Ph.D. Plant Pathology**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in PG programs

The allotment of students is PG is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. R. K. Tombisana Devi	0	7
Dr. T. Rajesh	1	2
Dr. Pranab Dutta	0	1

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D. **Plant Pathology** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	3	1	-
2017-18	1+1*	2	-	-
2018-19	1+1*	1	-	-
2019-20	1+1*	2	1	**2**
2020-21	2+1*	3	-	**-**

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433

2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi** hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

5.	Section 6.4.9 to Section 6.4.12

6.4. **Self-Study Report for Ph.D. (Plant Molecular Biology and Biotechnology)Programme**

6.4.1. Brief History of the Degree Programme

The North Eastern India is experiencing rapid population growth which has crossed 45 million mark. In order to attain economic, food and nutritional security, it is imperative to impart quality agricultural education and have sustained agricultural development in the states of northeastern region. This region is constrained by lack of adequate infrastructure, low productivity, inadequate marketing and lack of knowledge on modern farm technologies. With this genesis in background, the Central Agricultural University, Imphal established the College of Post Graduate Studies in Agricultural Sciences (**CPGSAS**) at Umiam, Meghalaya on 21st December, 2006.

MISSION of CPGSAS is to achieve excellence in teaching, research and extension education in the field of agriculture.

MANDATES of CPGS are:

1) to impart postgraduate education in different branches of Agriculture,
2) to further the advancement of learning and prosecution of research in Agriculture, and
3) to undertake such others activities as it may deem fit, from time to time, to uplift the socioeconomical status of farmers in the North Eastern Region.

Objectives of CPGS are:

1) To produce globally competitive postgraduates in the field of agriculture
2) To develop robust agricultural technologies to help Indian farming systems, particularly in the northeastern region of India to be sustainable and profitable, and
3) To transform agriculture and allied activities into profitable enterprises and thereby create food and nutritional security for people of northeastern region of India.
4) The postgraduates of CPGS who are educated and trained in recent advances in agriculture and allied sciences, are expected to bring about a quantum change in the agricultural research and development systems in their respective states and also contribute towards strengthening the National Agricultural Research System.

The Ph.D. degree program in Plant Molecular Biology and Biotechnology currently running at CPGSAS is a 3 years full-time program following the ICAR course curriculum and has been offered at School of Crop Improvement since 2011.

In the last five years (2016-17 upto 2020-21) a total number of six PhD students have passed out. The research work has led to several publications. The details of which are given below:

A. Full length RESEARCH PAPERS

Singh R, … Rai M…Singh NK (2016) From QTL to variety-harnessing the benefits of QTLs for drought, flood and salt tolerance in mega rice varieties of India through a multi-institutional network. *Plant Science* 242: 278-287
Tyagi W, Rai M (2017) Root transcriptomes of two acidic soil adapted Indica rice genotypes suggest diverse and complex mechanism of low phosphorus tolerance. *Protoplasma* 254:725–736
Yumnam JS, Rai M, Tyagi W(2017) *In silico* characterisation of novel rice transcripts expressed only in phosphorus deficient conditions suggests role of multiple abiotic stress. *Acta BiologicaHungarica*68:398–411.

Yumnam JS, Rai M, Tyagi W (2017) Allele mining across two low-P tolerant genes PSTOL1 and PupK20-2 reveals novel haplotypes in rice genotypes adapted to acidic soils. *Plant Genetic Resources: Characterization and Utilization*; 15:221-229

In the proceeding of international conference on "emerging trends in science, technology, agriculture and management-2016" held at College of Engineering and Post-harvest technology, CAU (Imphal), Raniphool, Sikkim, from 21-23 April, 2016 (ISBN 978-93-84124-70-0; pp7).

[16] Dutta SS, Pale G, Poholong J, Aochen C, Pandey A, Tyagi W, Rai M (2016) Marker-trait association for low light intensity tolerance in rice genotypes from Eastern India. Students' symposium on "genomics-based next generation crop improvement approaches" held at IARI, New Delhi (11-12 November, 2016). Recipient of the best poster award

Name of the student	Year of passing	Thesis Title	Advisor's Name
Ms. Julia S Yumnam	2015	Identification of novel alleles for acidity tolerance in rice	Wricha Tyagi
Mr. Sudip Das	2016	Understanding molecular biology of acidity tolerance in rice: A case study of phosphorus deficiency and iron toxicity tolerance in Shahsarang	Wricha Tyagi
Mr. Suvendhu Sekhar Dutta	2017	Molecular mapping for low light intensity tolerance in rice	Mayank Rai
Mr. Satish Kumar Verma	2017	Isolation and characterization of tissue-specific promoter from pigeon pea	Wricha Tyagi
Mr. Karma Landup Bhutia	2019	Role of *Oryza sativa* G2-like transcription factor family in low P tolerance in acidic soil adapted rice genotypes	Wricha Tyagi
Mr. Billy Cherian	2019	Crossability, embryo rescue and genetic diversity studies using molecular markers in cultivated soybean and its wild relatives	V. K. Khanna

6.4.2. Faculty Strength

S.No.	SanctionedFaculty	Faculty in place#	Vacant position	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	3	Nil	1
2.	Associate Professor*	1	1	2
3.	Assistant Professor	3	Nil	3

* Associate professors (#3) promoted to Professor.

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology. Additionally, Scientists from ICAR are recognized as faculty by the academic council and as per MOU.

6.4.3.Technical and Supporting staff

Sl. No.	Name of post sanctioned	No. of post sanctioned	Filled position
1	Livestock/Farm Assistant	1	1
2	Clerk-cum-Typist/LDC/UDC	1	-
3	Field-cum-Lab. Assistant	2	1
4	MTS	4	2
Grand total		**8**	**6**

For School of Crop Improvement ie., Genetics & Pant Breeding and Plant Molecular Biology & Biotechnology.

6.4.4. Classrooms and Laboratories: 5 Classrooms, 1 Seminar and 1 conference room attached with LCD Projector are available.
Following laboratories and facilities are available

1.Molecular Biology and Biotechnology Lab
2.Cytogenetics and Molecular Marker Lab
3.Media Preparation Room
4.Tissue Culture and Genetic Transformation Lab
5.Green house facilities

The list of **equipmentsand facilities** available in the various laboratories are listed below

Sl.No.	Name of equipment
1	Mega Gel High Throughput Electrophoresis System
2	DNA Extraction System with centrifuge
3	Binocular (Pathological) (Qty1)
4	Refrigerators (Qty 4)
5	Mastercycler (Qty 5)
6	Gel Documentation System
7	Horizontal Gel electrophoresis with power supply (Qty 5)
8	pH meters, Bench top
9	1 KVA online UPS with 2 hr. backup. Make: Orion
10	Table top Centrifuge machine (Qty 5)
11	Refrigerators (Qty 4)
12	Deep Freezer, upto-20°C (Qty 4)
13	Biosafety hood
14	UV – Transilluminator
15	Top pan electronic balance
16	Growth Chamber with controlled environment light and temperature
17	Spinnix-Vortex Shake
18	Microwave Oven
19	Hot plate cum Magnetic Stirrer
20	pH meters, Bench top
21	Hot Air Ovens (Qty 4)
22	Vertical Autoclave
23	Seed Germinator
24	Refrigerator ready dessicators
25	Mini Bead Beater with 96 well Micro plate and stainless steel beads
26	Tensiometer
27	CTD Infrared Gun
28	Auto Desicator Cabinets
29	Rocker Vacuum Pump
30	Weighing balances
31	Liquid nitrogen cans
32	Realtime PCR machine
33	Laminar hoods
34	Vertical gel electrophoresis system

35	Phase contrast microscope
36	Students' microscopes

6.4.5 Conduct of Practical and Hands-on-Training

The practicals in Ph.D. program (**Ph.D. (Plant Molecular Biology and Biotechnology**) are conducted as per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course incharges by giving marks/weightage.

6.4.6 Supervision of students in Ph.D. programs

The allotment of students is Ph.D. is as per CAU regulation with a cap of maximum six students for Professor, five students for Associate Professor and four students for Assistant Professor are being allotted in the school. Apart from the above mentioned, School of Crop Improvement has two faculty from ICAR-RC for NEH, Umiam with specialization in genetics and plant breeding recognized for teaching and guidance of the students. The allotment of students is by lottery and in constitution of advisory committee and allotment of research title, the interest of the student is always kept in mind.

Name of Faculty	Number of students guided	Number of students being guided
Dr. Wricha Tyagi	4	2
Dr. Mayank Rai	1	0
Dr. Hossain Ali Mondal	0	1
Dr. Ng. Tombisana Meetei	0	1

6.4.7 Feedback of stakeholders (students, parents, industries, employers, farmers etc.)

At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher,etcfor the last five years.
(Representative documents are provided in Appendix-CPGSAS-C)

6.4.8 Students intake and attrition in the program for last five years

Year wise information for the last five academic years (2016-17 to 2020-21) for Ph.D.**(Ag.) in Plant Molecular Biology and Biotechnology** program is given in table below:

Academic year	Intake Capacity	Number of admitted student	Attrition (%)	Passed Out
2016-17	2+1*	3	2	2
2017-18	1+1*	2	2	1
2018-19	1+1*	1	1	1

2019-20	2+1*	2	1	**1**
2020-21	2+1	3	1	**-**

*** To be filled by ICAR candidate**

6.4.9 ICT Application in Curricula Delivery

All the class rooms, seminar and conference rooms are well equipped with LCD projectors. As per the needs of the course, power point presentation is given before the students for better explanation. Online and faculty made audio/videos are also presented to the students.

Table: A brief summary of existing facility in the College Library for Ph.D. students

Sl. No.	Facility exist	Status
1	Availability of books (Nos.)	5433
2	Access to print copy of Indian Journals (Nos.) and Periodicals	20
4	Access to Indian on-line journals	2 titles
5	Consortia	2794 e-journals through CeRA consortium
6	MSc. And PhD Theses	356 MSc; 37 PhD
7	Research Reports and Technical Bulletins	475
8	CDs	85
9	Magazines	8
10	Newspapers (national and local)	8
11	Statistical Database	1
12	Analytical Software	1

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme) I, the Dean **Dr. Wricha Tyagi**. hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

6.5. Self Study Report for the College

Genesis of the College

College of Agriculture, Pasighat, Arunachal Pradesh is a constituent college of Central Agricultural University (CAU), Manipur which was established on 26th November, 2013. Its first flagship 4-year degree programme was started with 24 students. The intake capacity has increased from 24 to 34 students at present. As the infrastructure construction and other developmental activities of the college are undergoing at full swing at an allotted site, the degree program of the college is presently operating with the College of Horticulture and Forestry, Pasighat, another constituent college of CAUand the Multi Technology Testing center & Vocational Training Center (MTTC &VTC) under CAU to support agricultural development in the region.The College of Agriculture has 11 departments *viz*., Agronomy, Plant Biochemistry, Plant Biotechnology, Agricultural Economics, Agricultural Engineering, Statistics, Computer Application & IPR, Extension Education, Entomology, Horticulture, Plant Pathology and Soil Science & Agricultural Chemistry to cater the academic and research needs, provide technical support and inputs to farmers to contribute overall agricultural development in the region. The college is also engaged in dissemination of technologies from laboratory to farmer's field. The college presently offers only one undergraduate programme in B.Sc. (Hons.) Agriculture. The curriculum of the degree programme is updated, and implemented as per the ICAR- Deans' Committee recommendation. Inclusion of M.Sc. and Doctoral programmes are under consideration.

The Government of Arunachal Pradesh has transferred 86.2 acres of land to CAU to establish a separate campus for College of Agriculture at Pasighat which is approximately 2km from College of Horticulture and Forestry, Pasighat campus. The land possession activities are completed and farms & infrastructure developmental works have been started with the existing resource available with College of Horticulture and Forestry. The new campus is located near the banks of Siang river, approximately 3km away from Pasighat town towards North-West direction and about 300km from Itanagar, the state capital of Arunachal Pradesh. The campus is situated at 28.0619° N latitude and 95.3260° E longitude at an elevation of 152 m. Once operational, the college will function as a fully independent college under CAU with avenues for introduction of new courses and higher degree programmes.

Mandate

- To impart education in different branches of Agriculture and allied Sciences
- To carry out research for promotion of Agriculture and allied Sciences
- To undertake different extension programmes that help in the transfer of technologies generated to the end-users

Objectives

- To impart education in different branches of agriculture and allied science as it may deem fit
- To further the advancement of learning and conducting of research in agriculture and allied sciences
- To undertake extension education programme in the states under its jurisdiction
- To undertake such other activities, as it may deem fit, from time to time

Goals

- To produce globally competitive graduates and postgraduates in agriculture and allied sciences
- To develop sustainable and profitable farming system for improving productivity, production and profitability in the agriculture and allied sectors
- To educate the extension functionaries for effective dissemination of agro technologies to the farmers, entrepreneurs and agro based industries
- To be an important link in the chain for converting agriculture and allied vocations into profitable enterprises and providing food and nutritional security to the people of NE region, and the world

6.5.1. College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Horticulture and Forestry who is also looking after the College of Agriculture, CAU, Pasighat. The Academic and Administrative building of College of Agriculture, Pasighat is near completion at the selected site **(Fig. 1)**. The Dean is assisted by various teaching, non-teaching and non-technical members of the institution.

Fig. 1. Academic and Administrative building of College of Agriculture

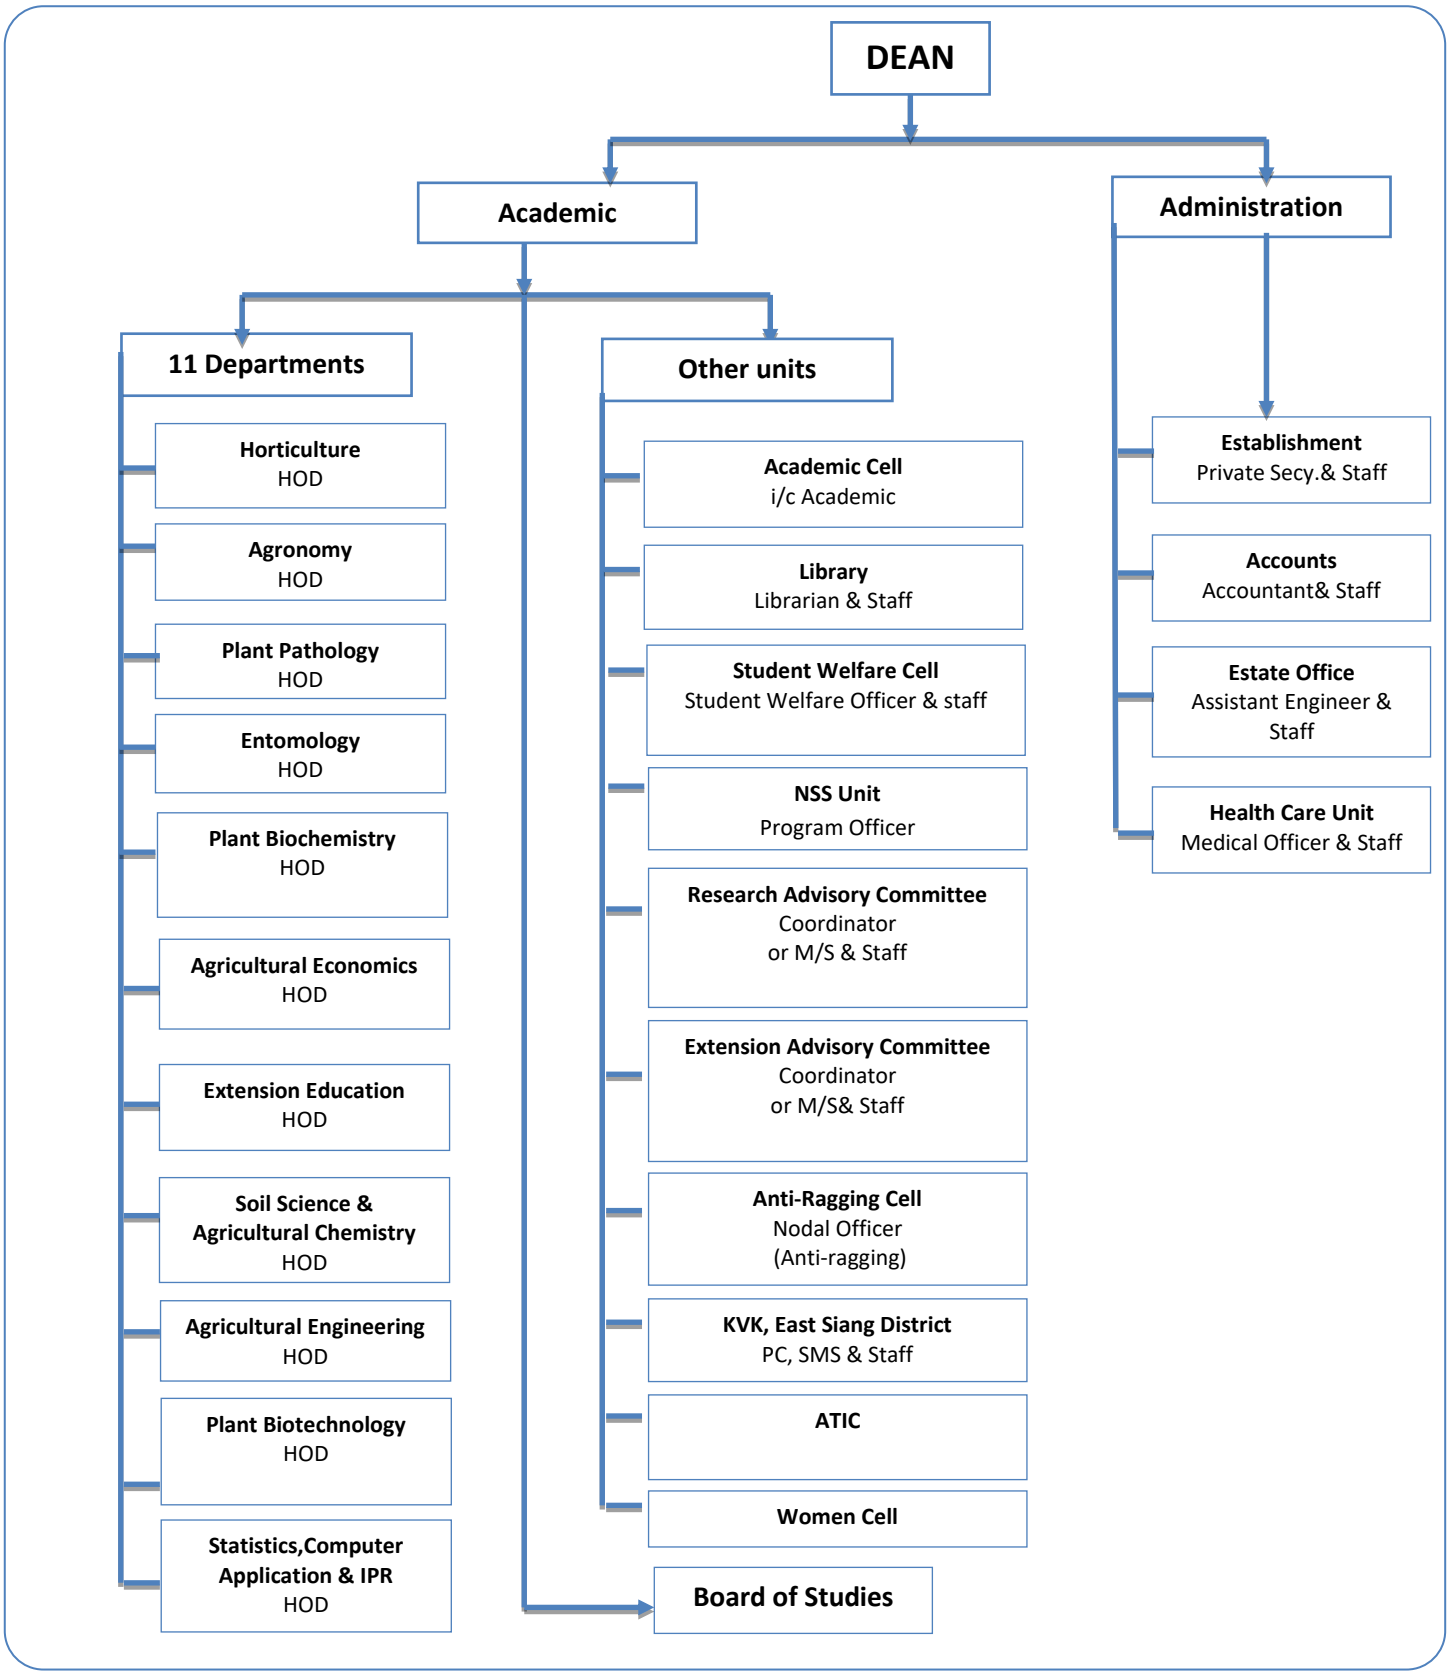
Students of B.Sc(Hons)Agri, CoA, CAU, Pasighat

6.5.1.1. College Dean's Office Establishment

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines	Yes
2.	Date of selection/joining of present Dean	Regular Dean (10.11.2017 to 11.02.2019)& then looked after by the Dean, CHF, CAU, Pasighat
3.	Mode of selection	Interview
4.	Tenure	5 years
5.	Total number of staff in Dean's office	The staff under College of Agriculture is yet to be appointed. However, the staff appointed under College of Horticulture and Forestry are performing the official works.
		2 Nos.
	• Technical staff :	2 Nos.
	• Non-technical staff :	
6.	Infrastructure facilities (Details on infra and networking facilities available)	• Computers with printers are available at the Dean's office with internet and UPS connectivity • Copier facility is available with Wi-fi connectivity • CCTV camera is installed at Dean's office for effective monitoring of staff, students and visitors

Organizational Chart



6.5.1.2. Monitoring Mechanisms for Quality Education (On-line)

Teaching

The registration of courses for each semester is made immediately after admission. The conduct of theory and practical classes are reviewed by the concerned Head of the Departments and the Dean, College of Agriculture.

Undergraduate degree programme

- Mid semester, practical and final theory examination are conducted to assess the students
- Assignments are regularly given to students in each of the courses related to the curriculum
- External system of evaluation followed for both theory and practical for each course related to the curriculum
- Academic counselling is provided to students by assigned counsellors *i.e*. the teaching faculties
- Monthly quiz programmes and group discussions are arranged for the students to ascertain their proficiencies and knowledge
- Students who are academically weak are given special guidance and extra lectures are conducted for improvement

Faculty Research

- The faculty are involved in research activities related to crop production, crop protection and plant improvement
- The research project evaluation committee appraises the research proposals at college levels
- The progress of the research is regularly monitored by the research evaluation committee
- Review of progress of research work from are evaluated by the Dean, Director of Research and the Vice Chancellor, CAU during Research Review Committee meetings
- Submission of annual report for ongoing and completed projects

Presently, the faculty of College of Agriculture are conducting research activities pertaining to cultivation and assessment of performance of different cultivars of rice, developing package of practices for rice production in the region, ascertaining the production and productivity of potato, millets and turmeric in the region, developing integrated pest and disease management programmes for maize and rice, bee keeping and honey production, floriculture etc.

Extension

- Monitoring committee to assess occurrence of insects and disease in the region
- Participations in exhibitions organized by the Government, private and non-governmental organizations
- Field visit by team of scientists on need to diagnose problems and provide solutions and recommendations

- Organize entrepreneurship development training programmes for farmers
- Vocational training programmes are organized for farmers and unemployed youths
- Distribution of agricultural accessories and planting materials to local farmers

The faculty of College of Agriculture in association with College of Horticulture and Forestry and Krishi Vigyan Kendra, Pasighat have organized the following programmes (Fig. 2, 3, 4 & 5):

- Organized the Arunachal Agri-Expo, 2019 during February 25th-27th, 2019
- Organized a 7-day training programme from 12th-18th March, 2019 on Entrepreneurship Development for Farmers
- Organized a 3-day training programme for farmers on 'Advances in Production Technology of Major Fruit Crops" from 19th-21st March, 2019
- Organized a 3-day training programme for farmers on 'Integrated Farming System for Doubling Farm Income' from 25th-27th March, 2019
- Organized a 2-day training programme for farmers on "Vermicomposting" on 29th-30th March, 2019
- Organized a 3-day training programme for farmers on "Advances in production technology of oil seed crops" from 13th-15thFebruary, 2020
- Organized a vocational training programme on **"**Horticulture nursery as production enterprise**"** for three months from 1st February, 2020 to 30th April, 2020
- Field day on "Popularization of Small Millets Cultivation in Lower Dibang valley" on 26.02.2021 at KVK, Balek, East Siang district, Arunachal Pradesh
- Field day organised on "Popularization of Small Millets Cultivation in East Siang" on 28.03.2021 at KVK, Pasighat.
- Vocational Training conducted on "Horticulture as an Enterprise" from 27.01. 2012 to 27.03.2021 (Two Months) for unemployed youths by COA, Pasighat.
- Organised 21 days online National Training Programme on "Technology Interventions Towards Transformation of Agriculture, Sericulture, Animal Husbandry and Allied Sectors into Sustainable Enterprises for Atmanirbhar Bharat" during October11-31, 2020. Organised by Gireesh Chand as Coarse Coordinator, COA (CAU), Pasighat sponsored by Agro Environmental Development Society (AEDS), India.
- Organised two days Webinar on "Protected cultivation on horticultural crops: opportunities for youths entrepreneurship" during 16-17 February, 2021 for students, entrepreneur, scientists and faculties organised by COA (CAU), Pasighat sponsored by IDP-NAHEP, CHF, CAU.
- Organised two days Webinar on "Creating awareness about intellectual property rights protection for the start-ups and entrepreneur in Agri-horti sectors" from 26-27 March, 2021 to students,

entrepreneur, scientists and faculties organised by COA (CAU), Pasighat sponsored by IDP-NAHEP, CHF, CAU.

- The College have conducted the training programme on "Formation and Promotion of Farmer Producer Organizations (FPOs) Sponsored by ICAR-ATARI, ZONE-VII, Umiam, Barapani Meghalaya for extension personals, KVKs and was organized by College of Agriculture, CAU, Pasighat, Arunachal Pradesh from 11th-13th Sept, 2020.

Measures taken to improve the quality of education, research and extension

Education

- Industrial and institute relatedexposure visits related to the courses offered to the students
- Recognition and awards are given to best students at university level
- Guest lectures are arranged for the students in diversified areas related to agriculture
- Assignments and exams are conducted on regular basis

Research

- Encouraging students to actively participate in workshops, webinars and conferences

Extension

- Rural Agricultural Work Experience Programme (RAWEP) for students to understand the problems and prospects of the farming community
- Organizing group discussion programmes
- Conducting brain storming sessions for group approach

Impact of monitoring with reference to students' excelling in academics, research and extracurricular activities

Academics

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection in different competitive exams
- Participation and selection for higher education in reputed National institutes

Research

- Publication of research results in peer reviewed journals by faculty members

Extracurricular

- Participation in NSS programmes at national participate
- Participation in sports and cultural events at state and national levels

Additional information on monitoring mechanism for quality education

- Monthly meetings: The Dean conducts monthly meetings with the Heads of various departments as well the project investigators to evaluate the progress in the field of teaching, research and extension. The Dean also organizes regular meetings with the course teachers to monitor and evaluate different courses
- Annual reports: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for measuring the performances of the college during the particular year and serve as guidelines for future action plan
- Student evaluation: The Dean of the college may conduct students meeting every semester. He receives the feedback from the students and gives direction to the faculties. The students are providing the feedback of course teachers who handle the classes during a particular semester in a prescribed proforma. The feedback of the students is analysed and the inadequacies are properly addressed

6.5.1.3. CC/Board of Studies

Boards of Studies meeting are being conducted where various academic issues are discussed and academic progress monitored.

Committee for Board of Studies

Vice Chancellor of Central Agricultural University	Chairman
Director of Instructions	Member
Registrar	Member
Director of Research	Member
Director of Extension Education	Member
Deans of all constituent colleges under CAU	Member
All Head of Department of the faculty not below the rank of Associate Professor	Member
Two eminent Scientists from Agril Education System not belonging to CAU, Imphal (nominated by VC)	Member
One final Year PG student with highest overall Grade point Average (OGPA)	Member
Academic In-charges of all constituent colleges under CAU	Member

Particulars	Year	Date and Place of the meeting	Major Recommendations
1st Board of Studies	2017-18	2nd May, 2018 at College of Agriculture, CAU, Imphal	As per the recommendation of the Vth Deans' committee, the course "Fundamentals of Plant Biochemistry and Biotechnology" was separated into two different disciplines for the B.Sc. (Hons) Agriculture programme. The committee further recommended that the Deans of all agricultural colleges should prepare detailed course syllabus for each discipline which was to be put forward to the Academic Council for approval.
2nd Board of Studies	2018-19	22nd May, 2019 at College of Agriculture, CAU, Imphal.	The requisition for appointment of faculties in certain disciplines for College of Agriculture, Pasighat was dropped as the

		committee members recommended that the faculty positions will be advertised shortly.
3rd Board of Studies	2019-20	27th April, 2020 through online mode (due to Covid19 pandemic)	The committee suggested to extend the 2nd semester Academic session of 2019-20 as 40 instructional days of the semester was lost due to Covid 19. All India tour for final year students was also cancelled. The members of the committee approved the proposal of internal setting of question papers and evaluation.

6.5.1.4. Anti Ragging Cell

College of Agriculture, CAU, Pasighat follows the rules and regulations as per the University Grants Commission framework on UGC regulations on "Curbing the menace of Ragging in Higher Educational institution (Third Amendment),Regulations, 2016". The faculty members of the college are unanimously and unequivocally are committed to prevent ragging of first year students and several measures are taken by the college to ensure a pleasant and encouraging environment for the students. The students have to give undertaking in a prescribed proforma for not involving in ragging activities. Anti-ragging banners are placed on notice boards of hostels and departments. The anti-ragging squad comprises of:

Date	Members of AntiRagging squad	Date	Members of AntiRagging squad
15/6/2019	Dr. Bikram Singh, Mr. N. Devacharndra, Dr. Shivani Dobhal	31/6/2019	Dr. Bikram Singh, Dr. Oken Singh, Dr. Surmina Devi

30/6/2019	Dr. S. K.Pattanaaik, Dr. N. D. Bhutia, Dr. Shivani Dobhal	15/7/2019	Dr. Shivani Dobhal, Ms. Eloni Vida, Mr. N. Devachandra

The members of the squad are on constant vigil and patrol the campus while keeping their mobile active at all times to curb the menace of ragging. The squad is empowered to make surprise raids in all the hostels

and other places vulnerable to incidence and having the potential of ragging. On spot inquiry on such incidents of ragging and submission of immediate report is carried out by the Anti-Ragging Committee. The Committee also takes appropriate decision in regard to punishment or otherwise, depending on the facts of each incident of ragging and nature & gravity of the incident of ragging established in the recommendations of Anti Ragging Committee which are:

1. Suspension from attending classes and academic privilege
2. Withholding/ withdrawing scholarship/ fellowship and other benefits
3. Debarring from appearing in any test/ examination or other evaluation process
4. Withholding results
5. Debarring from representing the institution in any regional/ national/ international meet /tournament/ youth festivals
6. Suspension/ expulsion from the hostel
7. Rustication from the Institution for period up to three years
8. Cancellation of admission
9. Expulsion from the institution and cancellation of admission and consequent debarring from admission to any other Institution for a period of three years
10. Forfeiting campus placement opportunity or recommendations
11. Imposition of fine upto Rs 25000.00 provided that where the persons committing or abetting the act of ragging are not identified by the institution shall resort to collective punishment

6.5.1.5. Biological waste disposal facility

Efforts are undertaken to effectively recycle the waste generated and properly dispose the waste which could not be recycled. Presently, the college is utilizing the facilities available at College of Horticulture and Forestry, Pasighat campus to recycle and dispose the waste generated. The primary activity involves composting the plant waste and proper collection, segregation and disposal of waste. The following disposal mechanism is initiated and deployed:

Sl. No.	Type of waste material	Disposal mechanism
1.	Animal & insect anatomical waste	Incineration or deep burial
2.	Soiled waste	Incineration, autoclaving or deep burial as required
3.	Expired or discarded chemicals, pesticides and agro-chemicals	Expired or discarded pesticides and agro-chemicals are disposed by incineration
4.	Microbial liquid waste	Autoclaving
5.	Waste sharps including metals	Autoclaving or dry heat sterilization

6.	Glassware	Disinfection (by soaking the washed glass waste after cleaning with detergent and Sodium Hypochlorite treatment) or through autoclaving and then sent for recycling
7.	Waste water	The waste water released from the college is passed through a drainage system

Green initiatives at the college

The college is committed to ecological sustainability and thrives to establish a clean and green campus (Fig. 6). Accordingly, *Swaach Bharat* mission is undertaken every month and the campus and departments are cleaned by the faculty members and students (Fig. 7). The faculty members routinely plant trees around the campus and steps are undertaken to encourage planting of trees on World Environment Day, Independence Day and Republic Day. Landscaping and tree planting have helped transform the campus in to a lush green campus. Such steps have also improved the floral biodiversity in the campus.

Fig. 6. Clean and green campus

Fig. 7. Campus cleanliness drive by faculty and students

6.5.1.6. Institutional Ethics Committee for Experiment on Animals

The college, at present, is not undertaking any type of experiments on animals and hence the institutional ethics committee has not been constituted. However, once established as a full-fledged independent college, if such experiments are undertaken, then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee (IAEC).

6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places

Members of the Committee for Prevention of Sexual Harassment of Women comprises of:

Sl. No.	Name of Faculty	Designation
1.	Dr. Tisu Tayeng	Chairman

2.	Dr. K. Ch. Momin	Member
3.	Dr. Shivani Dobhal	Member
4.	Dr. Ps. Marial Anal	Member
5.	Mrs. Yapang Mibang	Member
6.	Ms. Odi Panyang	Member
7.	Mrs. Nabum Yadi	Member

The committee for prevention of sexual harassment of women has been formed to address all grievances pertaining to sexual harassment of women (teaching and non-teaching staff and labours) at the college. There was no complaint on sexual harassment in the college during last five years. However, details on sexual harassment of women at work place (Prevention, prohibition and redressal) Act, 2013 and a preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers.

6.5.2. Faculty

The College of Agriculture has 8 faculties in various disciplines to undertake the education, research and extension activities. However, as the College of Agriculture is presently utilizing the facilities of College of Horticulture and Forestry, Pasighat campus, 38teaching faculties of College of Horticulture and Forestry and Multi Technology Testing Center and Vocational Training Center (MTTC & VTC) are also conducting the classes for College of Agriculture.All faculties have necessary qualifications and have enriched themselves over the years by undergoing training programmes in teaching, research and education, participation in conference and seminars and handling research projects. Various approaches are followed by the teachers so that students are able to learn and get hand on experience on various aspects of agriculture. Guest lecturers are regularly invited to handle the courses based on necessity.

6.5.2.1. Faculty Strength

Since the College is newly established college, the regular faculties are very less but the following no of post has been proposed for the college. Out of the proposed faculty strength, only 6 teaching faculties (Assistant Professor) has been sanctioned by DoE and 2 professors are filled in place.

Sl. No.	Sanction Faculty	Faculty in Place	Vacant Position	Faculty recommended By ICAR
1.	Professor	02	04	3
2.	Associate Professor	-	-	8
3.	Assistant Professor	11	-	34

	Total	**13**	**04**	**45**
4.	CHF Faculty	35	-	
Total		**48**		

6.5.2.2. Faculty Profile (Department wise)

Department wise faculty strength of College of Agriculture& MTTC/VTC

Sl. No.	Department	Sanctioned Faculty	Filled post	Vacant post	Faculty recommended by the ICAR
1.	Agronomy	Professor	1	-	1
		Associate Professor	-	-	1
		Assistant Professor	2	-	5
2.	Genetics & Plant Breeding	Professor	-	1	1
		Associate Professor	-	-	1
		Assistant Professor	2	-	3
3.	Plant Pathology	Professor	1	-	0
		Associate Professor	-	-	1
		Assistant Professor	1	-	2
4.	Agricultural Economics	Professor	-	1	0
		Associate Professor	-	-	1
		Assistant Professor	1	-	5
5.	Agricultural Entomology	Professor	-	1	0

11.	Crop Physiology	-	-	01
Total		**03**	**08**	**23**

The existing faculty strengths of College of Agriculture, College of Horticulture and Forestry and MTTC & VTC is sufficient for academic requirement of the college.

6.5.2.3. Credentials of the Faculty

Almost all faculty members of the college are PhD holders. The college has adequate proportion of experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities. The details of qualification, experience and professional licensure and certification and demonstrated competencies are detailed in Annexure 6.5.2.3.

COLLEGE OF AGRICULTURE, CAU, PASIGHAT

Sl. No.	Name of the faculty	Post held	Highest qualification	Teaching/ work experience (in years)	Honors & Awards	No. of Students Guided (PG / Ph.D separately)	No. of publications in NAAS rated Journals

6.5.2.4: Technical and Supporting Staff

Since the College is newly established college, the regular faculties are very less but the following no of post has been proposed for the college. Out of the proposed faculty strength, only 6 teaching faculty (Assistant Professor) has been sanctioned by DoE and 2 Professors, one Assistant, 1 Account Assistant and 1 FCLA are filled in place. Since the College is under construction, the College is still attached with the College of Horticulture and Forestry in the same campus.

The advertisement for recruitment of the sanctioned regular technical and supporting staff of the College of Agriculture has been initiated. Till then the faculty of the College of Horticulture and Forestry has been utilized as both the colleges are under same campus. The technical staff for the College of Horticulture and Forestry were utilized for the College of Agriculture too and allottedin different departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. The details of staff involved are listed below:

COLLEGE OF AGRICULTURE, PASIGHAT

Sl.No	Department	Technical Staff	Supporting Staff	Field Staff
1.	Establishment section (Assistant)	01	-	-
2.	Account (Account Assistant)	01	-	-
3.	Account (FCLA)	-	01	-

6.5.3. Learning Resources

Faculties are provided with computers to access the online open courseware and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various software applications in agriculture. Learning resources are texted, video lessons, and other ICT related materials that teachers used to guide students to meet the expectation for learning defined by ICAR recommended curriculum.

6.5.3.1. College Library

Fig. 8. The Library at College of Horticulture and Forestry, Pasighat

Location of Library:

The Library of College of Horticulture and Forestry, Pasighat was established in 2001.The total built up area of the library is 231 m^2 .College maintains a very spatial library and it also subscribes a good number of national and international journals, magazines and newspapers. The library has four computer terminals and one separate library server. All the computers are connected with internet access. Under the ICAR project, the college library provides access to foreign periodicals through CeRa (Consortium for e-References in Agriculture, India). Through this service, the students and faculty can access on-line Portals and Bouquet of journals from Publishers with full text of an articles such as Springerlink, Annual Reviews, CISRO (Australia) and JCCC (J-Gate Custom Content for Consortia).

- **Present Staff Position (in place):**

S.No.	Staff	Number
1.	Present staff	• 1 Librarian • 3 Library Assistants • 1 Clerk • 3 Multi-tasking Staffs

4.	Bound volumes	278

- **Periodicals/Research Journals(in Number)** : 17
- **Internet facility** :Internet band width speed of 32Mbps rom BSNL
- **No of Computers** : 06 nos
- **Seating Capacity** : 30 nos
- **Latest Technology in the library**:

The library of the college is equipped with internet facilities through which the staff and students can access OPAC (Online Public Access Catalogue) at www.chfcau.ideal.egranth.ac.in.

Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia for e-Resources in Agriculture)

Two Library Softwares in process: (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software

Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses are uploaded. It is open repository. URL: Krishikosh.egranth.ac.in

Commonwealth Agricultural Bureau (CAB) data base access facility (database from 1972 to 2005)

- **Stocking arrangements**:
  Book stocks arranged as per the subjects
  Stock racks are available in 2 sizes, 10 racks with size of 7.3 ft. and 31 racks with size of 6 ft.26 number of book cases are available

- **Collection of volumes on different subject**:

S.No	Particular	Number
1.	Genetics and Plant Breeding	436
2.	Ag. Economics	81
3.	Soil Science& Ag. Chemistry	393
4.	Horticulture	293
5.	Ag. Extension	172
6.	Statistics, Computer Application & IPR	26
7.	Agronomy	365
8.	Crop Physiology	71
9.	Plant Pathology	103
10.	Plant Biotechnology	32

6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic, Hatchery, Ponds etc.

Since the college of Agriculture is under construction, the college is still attached with the College of Horticulture in the same campus. The utilization of faculties and the facilities are very much needful for the functioning of the college and for the welfare of the students. The College of Horticulture and Forestry is spread over in an area of 58 hectares which includes research farm, instructional cum demonstration farm, KVK farm and experimental farm.

The laboratories of all departments are well equipped with all the necessary equipment and facilities to accomplish the academic activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. The farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purpose to meet the course curricula and research requirements.

Laboratories

Under College of Agriculture, 10 laboratories occupying a total area of 860 sq.m.was approved, the construction works of which are almost complete at the allotted siteof 86 acres of land at Pasighat. At present, the college is jointly utilizing the laboratory facilities of College of Horticulture and Forestry, Pasighat which are well equipped to conduct practical classes for UG (Fig. 9, Fig. 10).

The details of the laboratories in different departments of College of Horticulture and Forestry are as:

Sl. No.	Laboratories under different departments	Area (sq. meter)
1.	Soil Science& Ag. Chemistry	150
2.	Plant Pathology	95
3.	Entomology	20
4.	Genetics and Plant Breeding	74
5.	Agronomy	90
6.	Plant Biotechnology	90
7.	Plant Biochemistry	90
8.	**Horticulture**	
	• Post-harvest	90
	• Floriculture	90
	• Vegetable Science	90

- Fruit Science 90
- Statistics, Computer Application & IPR 59

Fig. 9. Computer Laboratory

Fig. 10. Department of Horticulture Laboratory

Soil Science& Agricultural Chemistry

The department has laboratories for conducting practical classes on collection and preparation of soil samples, estimation of soil moisture, EC, pH & bulk density, textural analysis of soil, description of soil profile in the field, quantification of minerals and their abundance, determination of soil colour, estimation of water holding capacity & hydraulic conductivity of soils, estimation of infiltration rate using double ring infiltrometer method, estimation of soil moisture, soil compaction measurement, determination of pore space of soil, determination of filed capacity and permanent wilting point of soil, determination of soil water potential characteristic curves, aggregate size distribution analysis of soil and air capacity of soil.

Plant Pathology

Practical classes are conducted for students on general plant pathological laboratory and field equipment's, study of disease symptoms and signs and host parasite relationships, identification and isolation of plant pathogens, Koch's postulates, preparation of fungicidal solutions, slurries, pastes and their applications.

Entomology

The departmental laboratories are utilized for conducting practical classes on insect collection and preservation, identification of important insects, general body organization of insects, study on morphology of insects, preparation of permanent mounts of mouth parts, antennae, legs and wings, dissection of insects to study the internal morphology, observations on metamorphosis of larvae and pupae.

Genetics and Plant Breeding

Practical classes are conducted for students on breeding objectives and techniques in important crops, floral biology: its measurement, emasculation, crossing and selfing techniques in major crops,

determination of mode of reproduction in crop plants, handling of breeding material, segregating generations (pedigree, bulk and back cross methods), field layout& maintenance of experimental records in self & cross pollinated crops, demonstration of hybrid variation and production techniques, Hardy Weinberg Law and calculation, male sterility and incompatibility studies in agricultural crops, calculation of inbreeding depression, heterosis, heterobeltiosis, GCA, SCA, GA and heritability.

Agronomy

The students are delivered practical classes on identification of field crop and tillage implements, preparation of seed beds, identification of fertilizers and manures, mixing chemical fertilizers, calculating fertilizer requirements, identification of green manure plants, identification of important weeds of the region with particular reference to forest plantations, preparation of weed herbarium, calculations of spray volume and herbicide concentrations, methods of application of herbicides, identification of horticultural crops, garden tools and implements. planning and layout of orchard and plantations, digging and filling of pits for fruit and plantation crops-planting systems, training and pruning of orchard trees-preparation and application of regulators, layout of different irrigation systems, identification and management of nutritional disorder in fruits-bearing habits and maturity standards, harvesting, grading, packaging and storage.

Plant Biotechnology

The laboratory is utilized to conduct practical classes on requirements for plant tissue culture laboratory, techniques in plant tissue culture, media components & preparations, sterilization techniques & inoculation of various explants, aseptic manipulation of various explants, callus induction & plant regeneration, micro propagation of important crops, anther, embryo & endosperm culture, hardening/acclimatization of regenerated plants, somatic embryogenesis & synthetic seed production, isolation of protoplast, demonstration of culturing of protoplast, demonstration of isolation of DNA, demonstration of gene transfer techniques: direct & indirect methods, demonstration of confirmation of genetic transformation, demonstration of gel-electrophoresis techniques and green synthesis of nano particles and their size characterization.

Plant Biochemistry

Practical classes are conducted on preparation of standard solutions & reagents, qualitative reactions of carbohydrates, estimation of starch, estimation of reducing & non-reducing sugars from fruits, reactions of amino acids, estimation of proteins, estimation of free fatty acids, determination of iodine number of vegetable oils, estimation of ascorbic acid, paper chromatography, thin layer chromatography, electrophoresis of pigments extracted from flowers, extraction of oil from oil seeds and enzyme assay & immobilization.

Horticulture

- **Post-harvest:** Practical classes are directed towards identification of equipments used in food processing units, physico-chemical analysis of fruits and vegetables, canning of fruits and vegetables, preparation of squash, RTS, cordial, syrup, jam, jelly, marmalade, candies, preserves, chutneys, sauces, pickles (hot and sweet), dehydration of fruits and vegetables – tomato product dehydration, refrigeration and freezing, cut out analysis of processed foods, processing of plantation crops and visit to processing units
- **Floriculture:** Practical classes are conducted for students on identification and description of annuals, biennials, herbaceous perennials, climbers, shrubs, trees, indoor plants, ferns and selaginella, palms, cycads, cacti & succulents, planning and designing and establishment of garden features *viz*., lawn, hedge & edge, rockery, water garden, carpet bedding, shade garden, roof garden, study and creation of terrariums, vertical garden, study and practice of different types of flower arrangements, preparation of floral bouquets, preparation of floral rangoli, veni *etc*., study of *Bonsai* techniques, *Bonsai* practicing and training, visit to nurseries & floriculture units.
- **Vegetable Science:** The students are delivered practical classes on identification and description of tropical & sub-tropical vegetable crops, nursery practices & transplanting, preparation of field & sowing/planting for direct sown & planted vegetable crops, herbicide use in vegetable culture, top dressing of fertilizers & intercultural operations, use of growth regulators, identification of nutrient deficiencies, physiological disorders, harvest indices & maturity standards, post-harvest handling & storage, marketing, seed extraction (cost of cultivation for tropical & sub-tropical vegetable crops) and project preparation for commercial cultivation
- **Fruit Science:** The department has laboratories for conducting practical classes on features of orchard, planning & layout of orchard, tools & implements, identification of various horticultural crops, layout of nutrition garden, preparation of nursery beds for sowing of vegetable seeds, digging of pits for fruit plants, planting systems, training & pruning of orchard trees, preparation of fertilizer mixtures & field application, preparation & application of growth regulators, layout of different irrigation systems, identification and management of nutritional disorder in fruits, assessment of bearing habits, maturity standards, harvesting, grading, packaging and storage
- **Statistics, Computer Application & IPR:** Practicals are delivered to students on exercises on binary number system, algorithm and flow chart, MS Word, MS Excel, MS Power Point, internet applications: web Browsing, creation and operation of email account, analysis of fisheries data using MS Excel,handling of audio visual equipments, planning, preparation, presentation of posters, charts, overhead transparencies & slides and organization of an audio-visual programme

Besides these laboratories, the following facilities are also available at College of Horticulture and Forestry, Pasighat which are also accessed by students of College of Agriculture.

Infrastructure	Area (sq. meter)
Workshop	1000
Dairy Plant	90
Poultry Unit	72
Pond	1105 (At College of Agriculture) 1500 (At College of Horticulture and Forestry)

Regular income is generated through sale of milk and sale of poultry for meat from the Dairy Plant (Fig. 11) and Poultry Unit, respectively. The water from the pond is used for the purpose of drip and sprinkler irrigation, gravity fed irrigation etc (Fig. 12). The workshop which is maintained by the Engineering Unit is well designed with sufficient land area and build infrastructure with required farm machineries such as tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work related to research purpose (Fig. 13).

Instructional Farm

The students of College of Agriculture are presently utilizing the different instructional farms which are already present at College of Horticulture and Forestry (Fig. 14). Altogether, a total of 16 instructional farms are established under 5 departments of the college, the details of which are listed below:

Department/Section	Area (Sq.mtr.)	Facilities available
Agronomy		
1. Forest Engineering Facility 2. Farm Power & Irrigation Infrastructures	1500	• Run-off Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Lakh Litre Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
3. Agrometerology	500	• Meteorological observation data for

Observatory		Research and Academic purpose
4. Silviculture Nursery	9100	• Nursery raised bed= 70 Nos. • Shade net house (5x1.5m) = 30 Nos. • Green Net House (9mx16.5mx 5.5m) • Tree Garden/ Collection of 250 species of tree species for research/academic • PG Research plots for germination exp • Plantation Blocks of diff. species • Water Pump with motor, Irrigation & electricity setups
5. Agroforestry Block	2100	• Compost (concrete) pit • PG Research plots under different spacing's of different species & different age
Horticulture		
6. Medicinal & Aromatic plant farm 7. Medicinal plant germplasm block	12000	• Germplasm of Medicinal Plants • Collection of rare & endangered spp. • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
8. Herbal garden	10000	• More than 160 species • Research, conservation & identification purpose
9. Bambusetum block	8000	• 67 spp. of different type of bamboos • Research, conservation & identification purpose
10. Rubber plantation block	20000	• Commercial genotypes of high yielding *Hevea brasiliensis*
11. NTFPs & High value timber block	25000	• Tans & dye yielding plants • Lac, Gums and resins plants • Drugs, spices and insecticides plants • Wild edible fruits trees
Genetics and Plant Breeding		
12. PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m)

		• Tokko patta shade roofs: 10 nos. • Arboretum 1100 sq. mtr. • Irrigation & electricity setups
Entomology		
13. Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor, Irrigation & electricity setups
14. Entomology (IBDC) Farm	2023	• All equipment's of beekeeping • Irrigation facility • Plots for nectar yielding plant
Plant Pathology		
15. Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • irrigation& electric facilities.
16. Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species

Fig. 12. Pond at CoA

Fig. 13. Workshop at CHF

Fig. 14. Instructional Farm at CoA

6.5.3.3. Student READY/ In-Plant Training / Internship / Experiential Learning Programmes

The college has already implemented the Student's READY Programme as per the directions and guidelines of Central Agricultural University, Imphal. The Rural Agricultural Work Experience Programme (RAWEP), Agro-industrial Attachment(AIA) and Experiential Learning Programme (ELP) are under the Students READY Programme for B.Sc. (Hons.) Agriculture. Through this programme, students are given hands on experience and practical training in agriculture and allied areas. The programme helps to develop confidence, skills and to acquire knowledge of agricultural systems.

RAWE & AIA programme: RAWEP is organized for every year for the undergraduate students of College of Agriculture in the 4th Year, 1st semester of every academic session the with a credit load of0+10. The objective of the RAWEP is provide opportunities to the students to study the rural agricultural system through direct farm experiences by personally visiting the farms and interacting with the farmers. The students also gain experience and knowledge about the extension activities carried out by the Govt. and private agencies and non-governmental organizations. The students undergoing the programme are expected to learn different components of agriculture and allied activities, conduct method demonstration and training, organize exhibition and prepare reports on their experiences gained. The students are expected to learn day to day farming activities of farmers and general village conditions during their stay at the villages.

The AIA programme (credit load of 0+10) provides hands on training to students about the managerial and commercial aspects of Agri-based business. Interaction with experienced entrepreneurs/businessman helps them to understand the practical aspects of business and motivates students to become entrepreneurs themselves. The students are placed in fertilizer industries, bio-fertilizer production units, vermicomposting units, food processing units etc. The students are expected to undertake the following activities:

- Acquaintance with industry and staff
- Study of structure, functioning, objective and mandates of the industry

- Study of various processing units and hands-on trainings under supervision of industry staff
- Ethics of industry
- Employment generated by the industry
- Contribution of the industry promoting environment
- Learning business network including outlets of the industry
- Skill development in all crucial tasks of the industry
- Documentation of the activities and task performed by the students
- Performance evaluation, appraisal and ranking of students

The details of the programme are as:

Sl. No.	RAWE & AIA		
	Activities	**Weeks**	**Credit hrs**
1.	General orientation & on campus training by different faculties	1	
2.	Village attachment	8	14
3.	Unit attachment in Univ./ College KVK/ Research Station	5	
4.	Plant clinic	2	2
5.	Agro-Industrial Attachment	3	4
6.	Project Report Preparation, Presentation and Evaluation	1	
Total weeks for RAWE & AIA		**20**	**20**

- Agro- Industrial Attachment: The students would be attached with the agro-industries for a period of 3 weeks to get an experience of the industrial environment and working
- Educational tour will be conducted in break between IV & V Semester or VI & VII Semester

RAWE Component-I

Village Attachment Training Programme

Sl. No.	Activity	Duration
1.	Orientation and Survey of Village	1 week
2.	Agronomical Interventions	1 week
3.	Plant Protection Interventions	1 week
4.	Soil Improvement Interventions(Soil sampling and testing)	1 week
5.	Fruit and Vegetable production interventions	1 week
6.	Food Processing and Storage interventions	1 week
7.	Animal Production Interventions	1 week
8.	Extension and Transfer of Technology activities	1 week

RAWE Component –II

Agro Industrial Attachment

- Students shall be placed in Agro-and Cottage industries and Commodities Boards for 3Weeks
- Industries include Seed/Sapling production, Pesticides-insecticides, Post harvest-processingvalue addition, Agri-finance institutions, etc

Activities and Tasks during Agro-Industrial Attachment Programme

- Acquaintance with industry and staff
- Study of structure, functioning, objective and mandates of the industry
- Study of various processing units and hands-on trainings under supervision of industry staff
- Ethics of industry
- Employment generated by the industry
- Contribution of the industry promoting environment
- Learning business network including outlets of the industry
- Skill development in all crucial tasks of the industry
- Documentation of the activities and task performed by the students
- Performance evaluation, appraisal and ranking of students

Modules for Skill Development and Entrepreneurship: A student has to register 20 credits opting for two modules of (0+10) credits each (total 20 credits) from the package of modules in the VIII semester

Sl. No.	Title of the module	Credits
1.	Production Technology for Bioagents and Biofertilizer	0+10
2.	Seed Production and Technology	0+10
3.	Mushroom Cultivation Technology	0+10
4.	Soil, Plant, Water and Seed Testing	0+10
5.	Commercial Beekeeping	0+10
6.	Poultry Production Technology	0+10
7.	Commercial Horticulture	0+10
8.	Floriculture and Landscaping	0+10
9.	Food Processing	0+10
10.	Agriculture Waste Management	0+10
11.	Organic Production Technology	0+10
12.	Commercial Sericulture	0+10

Note: In addition to above ELP modules other important modules may be given to the students by the University

Evaluation of Experiential Learning Programme

Sl. No.	Parameters	Maximum Marks
1.	Project Planning and Writing	10
2.	Presentation	10
3.	Regularity	10
4.	Monthly Assessment	10
5.	Output delivery	10
6.	Technical Skill Development	10
7.	Entrepreneurship Skills	10
8.	Business networking skills	10
9.	Report Writing Skills	10
10.	Final Presentation	10
	Total	**100**

Profit sharing mechanism (AMOUNT) for each ELP unit for last 5 year is mentioned below:

COLLEGE OF AGRICULTURE, CAU, PASIGHAT

Sl. No.	Department	Year	No. of students trained	Total income generated in rupees	Total profit earning	Profit shared per student	Major skills imparted	Additional info (if any)
B.Sc. (Hons.) Agriculture								
1	Crop Production (IVth Dean)	2016-17	-	Nil	Nil	Nil	Marketing skills, project formulation skills & production skills.	
		2017-18	3	Rs. 7500	Rs. 4750	Rs. 1187.5

6.5.3.4. Curricula Delivery Through IT (smart class rooms/interactive board etc.)

3 numbers of smart classrooms have been already constructed at the allotted site for College of Agriculture and 1 smart classroom is under construction. The smart classrooms will be provided with LCD projectors and audio-visual aids for better delivery of lectures. A table, podium, whiteboards/screen, black board with duster will be available in each class room for the use of teachers. A common generator facility will be made available to power all the classrooms to avoid interruption of the class during instance of power failure. At present, the teachers and students are accessing the smart classrooms of College of Horticulture and Forestry for regular classes. The smart classrooms available at College of Horticulture and Forestry are as:

Number of smart classrooms	:	13
Classrooms and halls with Wi-fi	:	13
Classrooms with computers and projectors	:	13
Classrooms with interactive boards	:	13
Practical laboratories	:	13

Measures taken to instruct students on IT facilities

- Students are suggested to refer to web sources like e-papers and e-books to collect information on their course syllabi and assignment related works
- Students are instructed to use online video platforms for gathering additional information related to the course syllabi and assignments

ICT tools for various courses

- Online video lectures and group discussion
- Online training manuals
- Kisan web portal
- E-extension methods
- Exposure to websites related to export and domestic market such as APEDA and Commodity Boards

- Use of statistical software MSTAT and AGRISAT
- Accessibility to OPAC (Online Public Access Catalogue) at www.chfcau.ideal.egranth.ac.in
- Electronic Resource Management package for e-journals through CeRA ICAR (Consortia for e-Resources in Agriculture) at www.cera.jccc.in
- CAB data base access facility (CAB data from 1972 to 2005)
- Access to Krishikosh (e-theses etc. Institutional Repository of ICAR) at Krishikosh.egranth.ac.in

6.5.4. Student Development

Nurturing the intellect and character of students by integrating in-class and extracurricular activities has been the primary objective of the college. To accomplish this objective, the students are exposed to a wide range of educational and social experiences which leads to development of integrity and sincerity among the students.

6.5.4.1. Student Intake and Attrition

The College presently offers only Under Graduate Programme in Agriculture *i.e*. B.Sc. (Hons.) Agriculture which is of 4 years duration.The annual intake of students to the college at UG level has increased since the inception of the university.

Name of the Degree Programme	Actual student admitted in last five years					Attrition (%)				
	Y1 (16-17)	Y2 (17-18)	Y3 (18-19)	Y4 (19-20)	Y5 (20-21)	Y1 (16-17)	Y2 (17-18)	Y3 (18-19)	Y4 (19-20)	Y5 (20-21)
B.Sc (Hons.) Agriculture	19	18	19	18	32	-	5.56	-	-	15.62

Admission of the programme is open to the students of North Eastern states under its jurisdiction and ICAR nominees. Based on the population of each constituent state, intake quota is fixed for the undergraduate programmes (Fig. 15) and admission is given to the candidates sponsored by the respective states based on the common entrance test conducted by CAU, Imphal. The student belonging to states other than North East are also admitted to the college through the All India Entrance Exam conducted by ICAR with 15% of total seats reserved for such candidates.

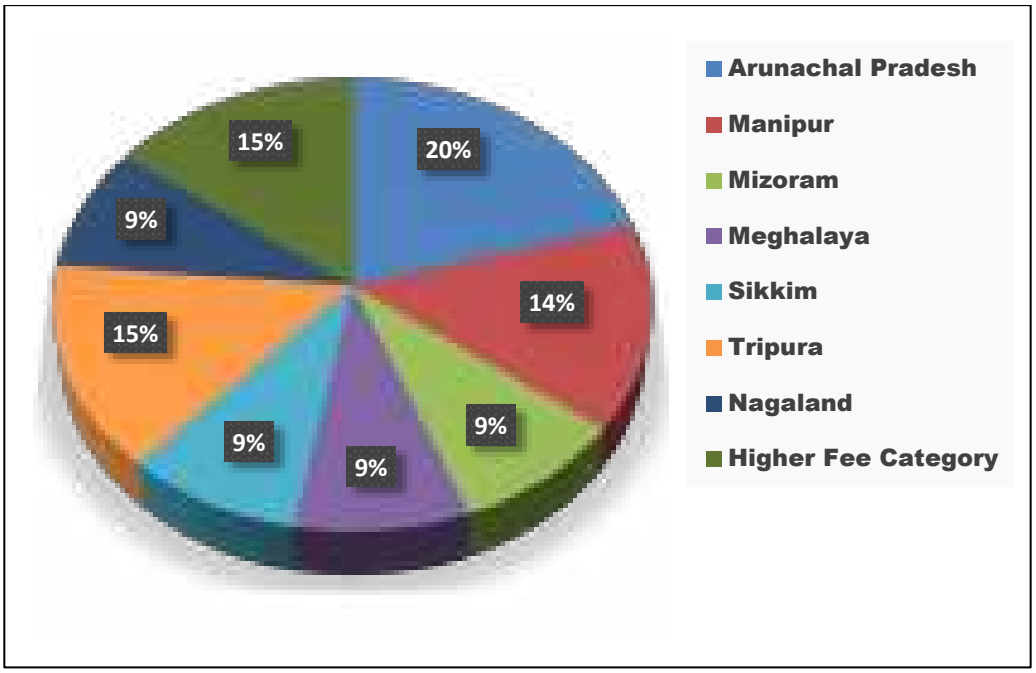

Fig. 15. State wise allotment of seats

In recent years, some signatory states are, however, seeking more allocation of seats to their students which might be because of the impressive performance of the students who have already passed out in last 4 years. Out of a total 112 students passing out, 90 per cent of the students have secured first class position in their final exams which is an impressive achievement for the college and a moral boost for the faculty involved. The post-academic performance of the graduated students at national level also speaks about the credibility of the college.

6.5.4.2. Average Number of Students in Theory and Practical Classes

The batches of students are organised to ensure better delivery of information, encourage students' participation and active monitoring.

S.NO	Year	Name of the Degree Program	Total Intake/year	Batch of students in theory class	Batch of students in practical class
1.	2016-17	B.Sc.(Hons) Agriculture	24	1 batch (19 students)	1 batch (19 students)
2.	2017-18	B.Sc.(Hons) Agriculture	24	1 batch (18 students)	1 batch (18 students)
3.	2018-19	B.Sc.(Hons) Agriculture	24	1 batch (19 students)	1 batch (19 students)
4.	2019-20	B.Sc.(Hons) Agriculture	24	1 batch (18 students)	1 batch (18 students)
5.	2020-21	B.Sc.(Hons) Agriculture	34	1 batch (18 students)	1 batch (18 students)

6.5.4.3. Admission Process

Admission requirement

- The candidates should have passed 10+2 examination with English as one of the subjects of study. The candidates much have attained 17 years of age on 31st December in year of admission. The selection or nomination of candidates is done through National Eligibility cum Entrance Test (NEET) conducted by the National Testing Agency (NTA). Students seeking admission to the above degree programme shall be permanent resident or domicile of any one of the north eastern states of India *i.e*., Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. The number of students to be admitted for each of the north eastern states is notified by CAU from time to time
- The candidates to be sponsored for admission shall be from the merit list based on the entrance test
- 15% of the approved number of seats in the UG programme shall be filled by the candidates selected on the basis of All India Entrance Test conducted by ICAR or as amended from time to time by ICAR.The ICAR nominees shall be governed by the eligibility as prescribed by ICAR

Date of admission

- The date of admission to a bachelor's degree programme shall be as per the announcement made in the prospectus or academic calendar or semester calendar which is duly notified by the Registrar**,** CAU

Registration process

- On admission, a student is provided four copies of registration cards having different colours; one for the student, one for the advisor, one for the Dean and one for the Registrar which is filled up and registered for the prescribed process for the first semester. The registration card shall be signed by the student, his advisor, Assistant Registrar (academic) and countersigned by the Dean of the college.
- On admission and registration, the students are provided with college identity cards with his/her photograph. The identity card is returned to the college by the students when the students leave the college after completion or discontinuation of the course
- Newly admitted studentsare given an admission number by the Dean of the college. This admission number is valid till individual registration number is allotted by the Registrar, CAU to the students
- An orientation programme is organized by the Dean of the college for the benefit of the newly admitted students immediately at the beginning of the first semester

6.5.4.4. Conduct of Practical and Hands on Training

Since the college of Agriculture is under construction, the college is still attached with the College of Horticulture in the same campus. The utilization of faculties and the facilities are very much needful for the functioning of the college and for the welfare of the students.

Practical classes (Fig. 16),field visits and hands on training (Fig. 17) are conducted by most of the departments of College of Agriculture with the existing facilities available at College of Horticulture and Forestry, Pasighat campus.

Fig. 16. Practical classes conducted

Fig. 17. Hands on training for students

Agronomy

Field visits are regularly arranged to farmers' field to understand the cultivation practices and management aspects of different crops cultivated at field level. Besides field visits, exposure visits to other research and educational institutes are arranged so that students may gain information on latest development in the field of agriculture. Students are provided hand on training on rice nursery preparation and transplanting, sowing of field crops, identification of weeds in *rabi*and *khariff* season crops etc.

Plant Biochemistry

Students are given practical classes on preparation of solution, pH & buffers, titration methods for estimation of amino acids/lipids, qualitative tests of carbohydrates and amino acids, paper chromatography/TLC demonstration for separation of amino acids and monosaccharides etc.

Genetics and Plant Breeding

Practical classes are conducted on dissection of floral parts of crops. Students are made to prepare herbarium specimens of crops of different families. Hands on training are provided to students on preparation of different stains, preparation of permanent slides of mitosis and meiosis stages, hybridization followed by selection in various crops, emasculation, crossing and selfing techniques of crops etc.

Plant Biotechnology

The students are provided hands on training on preparation of culturing media, tissue culture, aseptic practices, micropropagation of crops, DNA fingerprinting using RAPD&PCR, callus induction from

various explants. The students are demonstrated on isolation of DNA, gel electrophoresis techniques and DNA finger printing.

Agricultural Economics

The students are assigned topics on budgeting and farm planning, cost of cultivation, marketing operations and develop agri-based business models, techno-economic parameters for preparation of projects, preparation of bankable projects for various agricultural products and its value-added products, seminar on selected topics, preparation and analysis of balance sheet etc. Students are given exposure visits to commercial & cooperative banks and cooperative societies to acquire first-hand knowledge of their management, schemes and procedures.

Agricultural Engineering

Students are given practicals on preparation of contour maps, designing of grassed water ways, contour bunds, graded bunds & bench terracing system, familiarization with different components of tractors, learning of tractor driving, operation of power tiller, familiarization with different types of primary and secondary tillage implements, seed-cum-fertilizer drills, different types of sprayers and dusters, different inter-cultivation equipment, harvesting and threshing machinery.

Statistics, Computer Application & IPR

Practical classes are conducted for students on graphical representation of data, measures of central tendency, correlation &regression analysis, application of t-test, chi-square test, analysis of variance, simple random sampling, study of computer components, use of MS-WORD and MS Power-point for creating, editing and presenting scientific documents, preparation of contingent crop planning etc.

Extension Education

The students are provided with hands on training in identifying and analysing the problems faced by the farmers, conduct awareness programmes to improve the skill, knowledge and attitude of farmers, brainstorm sessions to develop innovative ideas and prepare audio visual aids on specific topics. Students are prepared for listening and note taking, writing skills, oral presentation skills, field diary and lab record, indexing, footnote & bibliographic procedures, reading and comprehension of general and technical articles, precise writing, summarizing, abstracting, individual and group presentations.

Entomology

Hands on training is provided to students on aspects of bee keeping, lac culture, biocontrol agents, identification of different insect pests in field etc. Students are given exposure visits to nearest FCI godowns, research and training institutions devoted to beekeeping, sericulture, lac culture and natural enemies. Students are made to identify natural enemies and mass multiply them.

Horticulture

Hands on training is provided to students on planning, layout and planting of horticultural crops, different methods of propagation, IPM and INM packages for horticultural crops, post-harvest technologies, cultural operations etc.

Plant Pathology

Practical classes are conducted to identify and diagnose different diseases of crops, study of morphological features and identification of plant parasitic nematodes, sampling and extraction of nematodes from soil and plant material, preparation of nematode mounting, study of fungicides and their formulations, methods of pesticide application and their safe use, calculation of fungicide sprays concentrations etc.

Soil Science& Agricultural Chemistry

Hands on training is provided to students on soil profiling and soil sampling. Practical classes are conducted on analysis of physico-chemical properties of soil such as organic carbon, alkaline hydrolysable N, soil extractable P, estimation of exchangeable K, Ca and Mg, soil extractable S, extractable Zn, N, K and S in plants.

6.5.4.5. Examination and Evaluation Process

The college strictly adheres to the examination and evaluation system as recommended by the Vth Deans' Committee. As such, the college follows Uniform Grading system with uniform OGPA requirements for award of degrees at all levels. A uniform conversion formula is followed for declaration of Ist, IInd and IIIrd divisions, distinctions etc.

Examination

The students are evaluated middle of the semester as well end of the semester through mid and end term examinations. Also, the students are evaluated continuously through class exercises and assignments. The examination system is a combination of 50% internal and 50% external components. The weightage to the theory and practical examinations are in the same proportion as the theory and practical credits allotted to different courses. Total marks obtained for a course for practical and theory examination are added and converted into percentage for calculating the cumulative grade point average.

Courses with Theory and Practical

- Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)

Courses with only Theory

- Mid-term Exam (40%) + Assignment (10%)

Courses with only Practical

- 100% Internal

Keeping this in view, the schedule and weightage to different examination are as follows:

Particulars	**Course credits**									
	2+1		**1+1/2+2**		**1+2**		**1+0/2+0**		**0+1/0+2**	
	T	**P**	**T**	**P**	**T**	**P**	**T**	**P**	**T**	**P**
Mid-term exam	30	-	30	-	30	-	30	-		
Quiz/Continuous evaluation	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

The question papers are set by externals while HODs of concerned departments ensure the coverage of syllabus. If needed, moderations are done accordingly.

Duration of exams

Mid-term theory exam	:	1½ hours
End-term theory exam	:	2½ hours
End-term practical exam	:	3 hours

Evaluation

Evaluation is done internally by the faculty other than the Course Instructor. Syllabus of the concerned course is sent to an external examiner, who prepares the question papers. For practical, the examination is conducted by the course instructor(s) and one teacher nominated by the HOD. The answer books of end term theory exams are evaluated by external examiners nominated by the Hon'ble Vice Chancellor, CAU.A Ten-point grading system is adopted with minimum Grade Point Average (GPA) of 5.00 for passing a subject and Overall Grade Point Average (OGPA) of 5.50 for obtaining the degree.

Degree	Percentage of Marks Obtained	Conversion into Points
B.Sc. (Hons.) Agriculture	100	10 Points
	90 to <100	9 to <10
	80 to <90	8 to <9
	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (Fail)	<5
	Example 80.76	8.076
	43.60	4.360
	72.50 (but shortage in attendance)	Fail (1 point)

The following ranking pattern is adopted to award the degrees:

OGPA	Division
5.000-5.999	Pass
6.000-6.999	II division
7.000-7.999	I division
8.000 and above	I division with distinction

GPA, CGPA and OGPA are calculated as follows:

GPA	=	Total points scored / Total credits (for 1 semester)
CGPA	=	∑ Total points scored / Course credits
OGPA	=	∑ Total points scored (after excluding failure points)/ Course credits
Percentage of Marks	=	OGPA × 100/10

6.5.4.6. NCC/NSS/RVC Units

As the College of Agricultureis a newly established college, the NSS Units for the B.Sc (Hons) Agriculture students is attached to and functions jointly with the students of the College of Horticulture and Forestry, Pasighat.Students of 1st and 2nd year, pursuing B. Sc. (Hons) Agriculture programme, are enrolled as NSS volunteers for 4 semesters along with mandatory participation in a 7-day special NSS camp conducted in an adopted village.The NSS unit regularly organizes orientation sessions for newly inducted student volunteers. Events such as *Swachh Bharat Abhiyan*, Fit India Run, mass tree plantation, donation drive for victims of natural calamities, blood donation camps, felicitation of aged vendors, events for school children, etc are important mandates of the NSS unit.

Activities of NSS units

- Members of the NSS unit participated in Arunachal ATAL Conclave in August, 2018
- Members of the NSS unit participated in the Annual Sports Week of the college in October, 2019
- Members of the NSS unit participated in the 6th CAU Intercollegiate Youth and Sports' Meet in November, 2019
- The NSS unit organized a 7-day Special NSS Camp on the theme "Youth-Warriors Against Intoxicants" at Paglek, East Siang from 6th Januaryto 12th January, 2020. The program was attended by 120 NSS volunteers and more than 200 students and teachers of different schools and other representatives of village councils. Activities at the camp included cleanliness drive, landscaping and plantation, voluntary teaching, special sessions on fruits & vegetables processing, sessions on importance of bees & other beneficial insects, mushroom cultivation & consumptions and blood donation camp at BP General Hospital, Pasighat in collaboration with AYANG, a local NGO

- The NSS unit celebrated the Swami Vivekananda Jayanti on 12th January, 2020 at the college
- The NSS unit celebrated the Republic Day on 26th January, 2020 at the college. Chess and carom tournament were organized among the students as a part of the celebration and winners were awarded with certificates
- Members of the NSS unit participated in Walkathon arranged in Pasighat area as a part of Fit India on (Fig. 18)
- The NSS unit launched a "Voluntary Blood Donors" Club in collaboration with AYANG, an NGO on 7th February, 2020 (Fig. 19)
- Members of the NSS unit participated in the All India Agriculture University Sports Meet held in March, 2020

Fig. 18. Joint participation of NSS units of CHF & CoA in Fit India Run

Fig. 19. Joint participation of NSS units of CHF & CoA in blood donation camps

6.5.4.7. Language Laboratory

The language laboratory is under construction at College of Horticulture and Forestry, Pasighat campus which will be also accessible to the students of College of Agriculture. The laboratory has been approved under Institutional Development Plan-National Agricultural Higher Education Project (IDP-NHEP) under ICAR. The purpose of constructing the laboratory is to teach students to have a good command of the language for effective communication with clarity and accuracy. The laboratory will have conventional, computer assisted language laboratory and multimedia hi-tech language laboratory for language teaching. The students will also be trained in advanced writing skills in terms of assignment and report preparation. The students will have access to study materials related to group discussion, interview skills, brain storming, and simulation and negotiation skills.

The medium of instruction in the college in English. the classes in both theory and practical are offered as per the V Deans' Committee Recommendation during the 1st semester of B.Sc(Hons) Agriculture as Comprehension and Communication skills in English of 2+1 Credit Hr are offered. A well-qualified

English teacher is engaged to conduct the classes. The concerned course in-charge recommended good books online audio-visual and video clipping. However students from non-english medium of instruction are accustomed comfortably by conducting extra classes and personal care by the academic advisors.

In addition to this the Student Welfare Officer and NSS in charge conduct various literally competitions such as Debate, elocution, essay writing competition on various occasion viz., Republic Day, Independence Day, Dr. B.R. Ambedkar Jayanti, Mahatma Gandhi Jayanti, College Foundation Day and other important events to encourages students to develop their language proficiency. Also teachers in their respective courses encourage students to present the seminar on course topics to have command on English and improve public speaking skills.

6.5.4.8. Cultural Center

The college has a Student Activity Center which is exclusively empowered to explore and equip the students for multi-varied cultural activities. The college also has a Cultural Council to promote different talents of the students. The Council works under the guidance of the Student Welfare Officer of the College. Different types of clubs' function under the Cultural Council such as the Music Club, Theatre Club, Literary Club and Fine Arts Club. The Theatre Club organizes cultural events for the students at inter and intra collegiate levels and students are encouraged to participate in intercollege cultural events. An Alumni Association is formed centrally at Central Agricultural University which conducts alumni meets and invite alumina of the college for guest lectures, student interactive meetings and curricula development.

6.5.4.9. Personality Development

Besides the four compulsory courses under the V Dean's Committee syllabus which cater to the overall personality development of the students, the College of Agriculture invites renowned achievers from the different places such as Mr. Litan Bhowmik, motivator from Tripura, Mr. Pangin of M/s Elam Industry, successful entrepreneur and social worker, Mrs. Aini Taloh of AYANG from time to time to inspire and motivate the students. The courses in the present syllabus includescomprehensive and communication skills in english, agricultural heritage, human values and ethics and communication skills and personality Development. These courses are being taught by experienced faculty members. Besides soft skill training programs, JRF coaching, mock test, group discussions are being organized at regular intervals. As a part of NSS activities, faculties arrange for sessions like learning body languages, English proficiency for good communication etc. Students of College of Agriculture participate in different competitions held at different places. For example, Ms. Mumdi Pertin, a student of the college bagged the 1st prize while Ms. Shefa Mahroze won the running trophy at the Annual Inter-College Debate competition on 28th February, 2018 held at J.N. College, Pasighat. Ms. Shefa Mahroze also took part in the ATAL Conclave at Itanagar in August, 2018 which was organized by the Govt. of Arunachal Pradesh wherein student volunteers were selected to participate in the brainstorming session addressed by the Chief Minister, Sri. Pema Khandu.

Table: Details of Personality Development programmes organized in the College.

Sr. No.	Speaker/ organization	Topics/Aspect	Dates	No. of Participants
1	Mr. Ahmad c/o Traffic Police Pasighat Town	Traffic Rules and Regulations for Civilized Citizens	30.01.2016	135
2	Dr. Bikram Singh Asst. Professor, CHF	Paris Climate Conference and Global Concern	27.04.2016	141
3	Dr. N. Lyngdoh Asst. prof., CHF	Climate Change and Role of Youth	27.04.2016	141
4	Dr. Mukul Kumar Assc. Prof., CHF	India's promises to Paris Climate Conference	27.04.2016	141
5	Mr. Mahesh Pathak PC, KVK, East Siang	Role of KVK in Agriculture Development	07.05.2016	141
6	Sri. Ninong Ering Hon'ble MP, Lok Sabha Arunachal East	Youth for Smart Farming	16.06.2016	125
7	Sri. Panging Group Captain (Retd.) Indian Airforcwe, Pasighat	Leadership Skill	15.10.2016	165
8	Mr. Litan Bhowmick LBS Training & Consulting Services Pvt. Ltd. Agartala, Tripura	Emotional intelligence and its application for skill development	11.03.2017	185

10	Sri. Rajib Rudra Tariang Asst. Prof., Dept. of Zoology Digboi College, Assam	Snake conservation, identification techniques and first aid measures	06.05.2017	145
11	Sri. Ninong Ering Hon'ble MP Lok Sabha Arunachal East	Youth for Clean Environment	06.06.2017	127
12	Dr. (Mrs.) Ps. Mariam Anal Asst. prof., CHF	Different facets of community services: *Shramdam* as part of students' life	17.02.2018	165
13	Mr. L. Shantikumar Asst. Prof. CHF	Avenues after UG Programs in Agri allied Courses	17.02.2018	165
14	Dr. Bikram Singh Assc. Prof, CHF	How extra is 'extra co-curricular activities for students	24.02.2018	165
15	Mr. Rinchin D. Bhutia PG Scholar, Dept. of Fruit Science, CHF	Possible cghallenges in Agriculture world for us	24.02.2018	165
16	Dr. Shivani Dobhal Asst. prof., CHF	Social Evils and their eradication	24.02.2018	165
17	Dr. N. Surmina Devi	Positive Thinking, Self Confidence, Self Esteem and Goal Setting	24.02.2018	165
18	Dr. Y. Oken Singh	Inter and intra personal	28.07.2018	165

		communication skill for persoanality development		
19	Dr. Rajkumar Singh Librarian, CHF	Relevance of brick and wall library in today's digital world.	12.08.2018	135
20	Dr, Shivani Dobhal Asst. Prof, CHF	Volunteerism: Not me but you and its relevance	11.10.2019	46
21	Mrs. Aini taloh Social Worker & Founder AYANG Foundation, Pasighat	Youth and Responsibilities as Citizens	11.10.2019	46
22	Mr. Rohit Bori Arts of Living, Pasighat	Relevance of Yoga to lead a Smart Life	21.06.2019	65
23	Dr. Kalkame Ch. Momin Asst. Prof., CHF	Forests and Education	23.03.2019	125
24	Dr. Bikram Singh Assc. Prof. CHF	Forests and Life	23.03.2019	125
25	Mr. Umesh J. Panaria DGM (Financial Inclusion & Dev. Dept.), RBI, RO, Guwahati	Financial literacy programme & digital baking for youth	08.02.2019	135
26	Prof. B. N. Hazarika Dean, CHF	Relevance of dr. S. Radhakrishnan's ideology for students	05.09.2019	413
27	Mr. N. Devachandra Asst. Prof & i/c SWO CHF	Optimism in day to day life	11.11.2019	186

6.5.5. Physical facilities

6.5.5.1. Hostels

The boys' hostel and the girls' hostel as well as transit hostel construction have almost completed but the college is under construction which will be functioning after completion of the college.

Therefore**,** at present, the students of College of Agriculture are accommodated in hostels of College of Horticulture and Forestry. However, a separate girl's hostel has been allotted to the girl students of B.Sc. Agriculture programme in the college while the boys are accommodated in the same hostels along with the students of College of Horticulture and Forestry. All hostels are provided with televisions, common rooms, medical facilities, indoor games, good mess (with cooks and menials), drinking water for the students.

The infrastructure of College of Agriculture *viz*., academic block, administrative block, separate hostels for boys (Fig. 20) and girls (Fig. 21), transit hostel (Fig. 22) *etc*. are under construction at the allotted site and major works are nearing completion.

Fig. 20. Boys hostel under construction at CoA

Fig. 21. Girls hostel under construction at CoA

Fig. 22. Transit hostel under construction at CoA

Hostel	No. of rooms	No. of students
Boys		
Sindhu	15	2 students per room
Ganga	20	1 student per room
Brahmaputra	15	2 students per room
New Boys Hostel	23	1 student per room
Girls		
P.G. Hostel	20	1 student per room
Daisy	42 (41 for students and 1 office room)	3 students per room
Daffodil (Exclusively for girls of B.Sc. Agriculture)	24	2 students per room
Silvia	16	3 students per room

Lily	21 (18 for students and 3 for guests)	1 student per room

Basic medical facilities are centrally available at the Medical Unit of the college where basic medical amnesties such as antipyretics, antibiotics, antidiarrheal etc. are available. Also, facilities for I.V. injections and fluids and suture needles and materials are available for minor suturing. First aid kits are issued to all hostels. Time to time health awareness campaigns are organized by the NSS units. Medical experts are invited to deliver special lectures on self-hygiene, tobacco and its toxicity, nutritious foods for healthy living etc.

6.5.5.2. Examination hall

Since the College of Agriculture is under construction, the examination halls of College of Horticulture and Forestry are utilized for conducting exams for the students of College of Agriculture. Separate exam halls are unavailable and hence normal classrooms are rearranged as exam halls during the time of exam, the details of which are:

No. of classrooms	:	13
Capacity	:	Varied capacity ranging from 20-40 sitting capacity
Facilities available	:	Chairs, writing desks, electrical fans and lights
Amenities	:	Washroom, wash basin and running water

6.5.5.3. Sports and Recreation Facilities

The students are facilitated to equip themselves for all types of physical exercises during the classes and in other play hours to keep them physically fit and healthy. In addition, the skill development in any one of the games such as badminton, volleyball, football, cricket, table tennis and athletics is contemplated in the physical education programme. Ground preparation, cleaning and maintenance are regularly done for use by the students. Regularly matches are conducted for the students during the annual sports day and intercollege meets or any other specific days such as the Foundation Day, Republic Day etc. to improve and maintain their skills using ground facilities. Facilities for playing indoor games such as carom, chess, badminton and table tennis are also available.

Student's Participation

Name of sport	**Level of participation**		
	University	**Zonal**	**National**
Foot Ball	Annual College Week	East Zone Football Men Tournament	-
Athletics Events	CAU Inter-collegiate	-	All India Inter Agri

	Sports Meet			University Sports Meet at Assam Agricultural University, Jorhat
Table Tennis	CAU Sports Meet	Inter-collegiate	-	-
Badminton	CAU Sports Meet	Inter-collegiate	-	-

6.5.5.4. Auditorium

Newly established college, so the auditorium is also under construction for the College. The auditorium is constructed at the allotted site with plinth size of 500 sq. mtr. The college is presently utilizing of the auditorium present at College of Horticulture and Forestry. The details of the auditorium at College of Horticulture and Forestry are as follows:

Does the college have auditorium	Yes
Year of construction and sitting capacity	2013; 300 number sitting capacity
How frequently the auditorium is used and purpose for being use	• College Day (Once a year) • Republic Day (Once a year) • Foundation Day (Once a year) • Independence Day (Once a year) • Inauguration programmes (Numerous times a year) • National and International workshops (Numerous times a year) • Invited Lectures (Numerous times a year)

6.5.5.5. Exhibition Hall/Museum

The College of Agriculture is presently utilizing the exhibition halls present at College of Horticulture and Forestry. The College of Horticulture and Forestry organizes exhibition programmes related to agriculture and allied sectors in seminar halls and conference rooms in the form of models, charts, live specimens for benefit of students, farmers and extension personnel. Every year RAWE students exhibit models on modern as well as traditional technologies practiced by the farmers at their place of stay. Numerous school and college going students have visited the exhibitions organized by the college.

Exhibitions organized as part of Events

- Organized a 7-day training programme from 12th-18th March, 2019 on Entrepreneurship Development for Farmers
- Organized a 3-day training programme for farmers on 'Advances in Production Technology of Major Fruit Crops from 19th-21st March, 2019
- Organized a 3-day training programme for farmers on 'Integrated Farming System for Doubling Farm Income' from 25th-27th March, 2019
- Organized a 2-day training programme for farmers on "Vermicomposting" on 29th-30th March, 2019
- Organized a 3-day training programme for farmers on "Advances in production technology of oil seed crops" from 13th-15thFebruary, 2020
- Organized a vocational training programme on **"**Horticulture nursery as production enterprise**"** for three months from 1st February, 2020 to 30th April, 2020

6.5.6. Research Facilities

The College of Agriculture is presently utilizing the laboratories of College of Horticulture and Forestry which are well equipped to conduct research in the field of agriculture and allied subjects. The college receives funds from ICAR, DBT, AICRP, National Bee Board etc.

6.5.6.1. Postgraduate Laboratories and Equipments

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The list of instruments/equipments available in the laboratories are furnished below:

Agronomy

Sl. No.	Name of equipment	Sl. No.	Name of equipment
1.	Autoclave	24.	Increment Borers
2.	Bark Gauge	25.	Incubator
3.	Binocular	26.	Lux Meter
4.	Binocular microscope	27.	Ordinary Balance
5.	Clinometer	28.	pH meter
6.	Digital Camera	29.	Refrigerator
7.	Digital Weighing Balance	30.	Relaskop
8.	Distillation apparatus	31.	Seed drier
9.	Electronic Balance	32.	Seed Germinator
10.	Haga Altimeter	33.	Starter Compass
11.	High Limb Chainsaw	34.	Water Bath

12.	Hot Air Oven	35.	Weighing Balance
13.	Double water distillation machine	36.	Godrej refrigerator
14.	Optical microscope with computer	37.	Hot oven
15.	Essential oil distillation machine	38.	Compound microscope
16.	Binocular microscope	39.	Combine wood working machine
17.	Dissecting microscope	40.	UV Photo spectrometer
18.	Motor chain saw	41.	Universal testing machine
19.	Microtone machine	42.	Hot and cold press machine
20.	Seed germinator	43.	pH cum conductivity met
21.	Weighing balance	44.	Digital weighing balance

6.5.6.2. Research Contingency

As the College of Agriculture is presently offering only one under graduate programme in Agriculture, the funds received from CAU and externally funded schemes are used for conducting undergraduate educational activities, especially for practical classes, wherever applicable. Adequate funds are available for meeting the recurring expenses incurred during the education programme. The year wise funds received for various education related activities are as follows:

Year	Particulars	Amount (in Lakhs)
2017-18	Experimental farms	5.00
	Equipment (including machines, tools, livestock etc.)	10.00
2018-19	Equipment (including machines, tools, livestock etc.)	10.00
2019-20	Experimental farms	4.00
	Equipment (including machines, tools, livestock etc.)	10.00

6.5.7. Outcome/Output

The College of Agriculture takes paramount interest in the performance of its students in the field of studies, sports, other extracurricular activities, employment and career growth. Alumni of the University are regularly consulted to get feedbacks on employment, performance in competitive exams, job selection process etc. Regular interactive talks are arranged between alumni and students so that students can get insights on different exams and personal interviews.

6.5.7.1. Student Performance in National Examinations

List of ICAR – JRF Holders, 2018

Sl. No	Name of the student	Admission No.	Discipline
1.	Mr. Ricky Winner Mylliemngap	01A-14	Agriculture
2.	Mr.BijoyDebnath	07A-14

Sl. No.	Name of the student	Rank	Discipline
1.	Saibal Bishwas	IARI	Agriculture
2.	KojHaniya	IARI	Agriculture

6.5.7.2. Students Placement Profile

Most of the students graduating from College of Agriculture, Pasighat are placed in academics/research institution for pursuing higher education (M.Sc./Ph.D.) in India and abroad. Two students have been successfully placed in Government sector through state level examinations as well as interviews while 1 student is presently serving in the banking sector.

List of student qualified State Level Examination

Sl. No.	Name of the student	State Level Examination
1.	Mr. Babu Taloh	Agricultural Development Officer (AAPSC)
2.	Ms. Tumpi Lollen	Agricultural Development Officer (AAPSC)

Student qualified other examination

Sl. No.	Name of the student	State Level Examination
1.	Mr. Babu Taloh	Agriculture Field Officer (Canara Bank)

Number of students passed out and placed in various sectors from 2016-17 to 2020-21

5.	2020-21	02	-	-	06	02	19

6.5.7.3. Awards/Recognitions/Certificates (Annexure 6.5.7.3.)

6.5.7.4. Employability

The Placement Cell under the Student Welfare Cell of College of Horticulture and Forestry, Pasighat also look after the students of the College of Agriculture. The students are provided with ample opportunity enabling them to develop their overall personality. The Faculty of Language guides the students regarding preparation and updating resumes and biodata for the students. Interaction sessions organized for the personality development by inviting motivators, social worker, and entrepreneur inspire our students to be more employable. The college is regularly organising sufficient co-curricular and extracurricular activities for the students making them physically fit enough to take up any job challenges.The engagement of students in the READY Program- RAWE, KVK and Village attachment provide ample exposure enabling them to face real life situation on placement. Exposure visit of students to Agro-based industries, tea factories, nurseries, artisans, banks and financial institutions help them understand the expectation of the industries. Interaction sessions with Subject Matter Specialists of KVKs motivated the students with the aspiration towards agri-professionals. An excellent opportunity is given to the students through ELP of the course curricula that enable them to take up their economically viable agri-preneurship such as commercial nurseries, agri-clinic agri-business centre (ACABC) under GoI initiative, primary processing units, agri start-ups etc. The degree program nurtures a student with the knowledge and skills that will help them to manage agri-entrepreneurship, to conduct research, work in agricultural field, conduct field surveys and manage different areas of farming practices. Alumni of the college are invited to guide the students of the college to share various scopes available after the UG and higher studies in their courses. One of the alumni, Mr. Babu Taloh, is presently employed as Agricultural Field Officer at Canara Bank.

6.5.8. SSR of the College must have the SSR of all its Degree Programmes (following section 6.4), then the report of the Colleges shall be considered: Enclosed

6.5.9. Certificate (Applicable when SSR is submitted for Programmes& College)

I, the Dean ..... hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

Signature of the Dean of the college with Date & Seal

ANNEXURE 6.5.2.3

College of Agriculture

Sl. No.	Name and designation	Highest qualification and Department	Year	Related work experience in the field	Award/ recognition/certificate	Experience in other areas
1.	Dr. Gireesh Chand Professor	Ph. D. (Ag) Plant Pathology	2005	Studies on Alternaria leaf spot of Broccoli	• Venus International Faculty Award-2016 • Best Oral Paper Presentation Award-2017 • SAID Fellow Award-2017 Zonal President of IPS-2018	Molecular Plant pathology and Mushroom Production
2.	Dr. Sanjoy K. Bandyopadhyay Professor	Post Doc. (Agronomy)	2017	Farm scale strategies to maximize the value of nitrogen sources in India	• Technical Advisory Member, Krishna Water Dispute Tribunal, Ministry of water Resources, Govt of Andhra Pradesh. 2018-2019 • Expert Reviewer of Prime Minister's Science, Technology and Innovation Advisory Council (PM-STIAC), 2019, Reviewer of National Mission proposals and documents • Visiting Scientist /Fellow (2017) under NEWS India-UK Fellowship 2017-18 at the Institute of Biological & Environmental Sciences, University of Aberdeen, Scotland, United Kingdom.	Climate change

3.	Dr. L. Geetarani Devi Assistant Professor	Ph.D (Economics)	2016	Sustainability of rice farming in Manipur: An Economic Analysis	• Dr. N.A. Mujumdar Award, 2017 • Young Professional Award, 2018 • Young Scientist Award, 2018 • Women Researcher Award, 2020	Teaching, Research and Extension for 3 years Academic-In-Charge PFMS Approver and RTI Officer
4.	Dr. Kh. Lily Devi Assistant Professor	Ph.D. (Floriculture)	2018	Studies on the quality planting material production in-vitro and the effect of bio-control agents and bio-fertilizers in the quality production of Gladiolus (*Gladiolus* sp.) through organic farming and the influence of plant growth regulators in the post-harvest life of cut flowers in the Terai region of West Bengal	• Young Scientist Award (2018) • Best paper presentation (2018 & 2020)	Organic farming, surface covered cultivation, etc.
5.	Dr. Denisha Rajkhowa Assistant Professor	Ph.D. (Agri.) Entomology	2017	Species characterization and behavioural study of bee predatory wasp in Assam	• Md. Shariffulah gold medal • INSPIRE fellowship	Co-research Coordinator of CoA Additional responsibility of assisting the Technical Cell
6.	Dr. Bapsila Loitongbam Assistant professor	Ph.D in Genetics and Plant breeding	2019	QTL mapping for zinc deficiency tolerance in RIL population of rice (*Oryza sativa* L.)	• Best Thesis Award" (2018) • Outstanding oral presentation Award (2018) • Young Scientist Award (2020)	JRF in IRRI-STRASA Project for 2years
7.	Dr. Mahesh Kumar Assistant	Ph.D. (Agricultural and Food	2018	"Perturbations of metabolites and antioxidative	-	-

	Professor	Engineering)		responses in hairy roots and regenerated plantlets of Nicotiana tabacum L. upon expression of a β-cryptogein gene"		

Experience in teaching/research/extension

Teaching

Sl. No.	Name and designation	Institution	Details (UG/PG)	Duration	Total experience
1.	Dr. Gireesh Chand Professor	BAU, Sabour	APP-301, APP-423, PL PATH-501, PL PATH-504, PL PATH-506, PL PATH-520, PL PATH-517, PL PATH-508, PL PATH-601	2012-2019	8 Years
		COA, CAU, Pasighat	PP-124, PP-353	2020-Till date	1 Year
2.	Dr. Sanjoy K. Bandyopadhyay Professor	IARI, New Delhi	Supervised 2 M.Sc. and 1 Ph.D. student as the Chairman of the Advisory Committee; and Non-Advisee Graduate Student Committees: have served on more than 10 graduate student committees in agronomy, Engineering, Environmental Sciences graduate program of the P.G. School, Indian Agricultural Research Institute during 1992 - 2020	1992-2020	28 years
3.	Dr. L. Geetarani Devi Assistant Professor	CoA, CAU, Pasighat	Teaches UG programmes of B.Sc. (Hons) Agriculture, B.Sc. (Hons) Horticulture and B.Sc. Forestry and PG classes. Supervising 2 M.Sc. Agri students and 2 M.Sc. Forestry Students	2017-till date	2years
4.	Dr. Kh. Lily Devi Assistant Professor	College of Agricultural Engg. & Post Harvest Technology, CAU, Ranipool, Sikkim	FT211 & FT224, B. Sc. (Hort.), FLS-111, BSH-113, NRM-112, VSC-121, BSH -123 & FLS-211	2015-2016	1 year
		CoA, CAU, Pasighat	HORT (OC)-242, (ELECT) (2+1), ELP (0+10), Hort-112, FLS – 221,	Dec, 2019-	11 months

			FLS – 322, FLS-211, FLS – 111, NR 3212, M.Sc. (Floriculture), FLA 502, FLA – 504 & FLA – 507	Till date	
5.	Dr. Denisha Rajkhowa Assistant Professor	CoA, CAU, Pasighat,	Taking both CoA and CHF UG courses. ENT-353, ENT-362, PPS-321, PPS-322, PPS-211, RAWEP	Dec, 2019-Till date	11 months
6.	Dr. Bapsila Loitongbam Assistant professor	Ph.D in Genetics and Plant breeding	BSH-123, GPB-223, GPB-112, GPB-243, GPB-123	Dec, 2019-Till date	11 months
7.	Dr. Mahesh Kumar Assistant professor	CoA, CAU, Pasighat,	Crop Physiology, Elementary Plant Biochemistry, Plant Biochemistry	Jan, 2020-Nov 2020	11 months

Research

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr. Gireesh Chand, Professor	BAU, Sabour	1. Sabour Agrim-Cauliflower 2. Suitable substrate for Mushroom production 3. New record of *Meloidogyne* sp. 4. Substrate and supplements for sustainable cultivation of Oyster mushroom in Bihar	2012-2019	• Economically feasible and easily accessibility to the farming community • Economically feasible and easily accessibility to the farming community • First time reported in Bihar on caster • Economically feasible and easily accessibility to the mushroom growers.
		COA, CAU, Pasighat	New report of marbling disease of Pineapple.	2020-Till date	• First time reported in Arunachal Pradesh
2.	Dr. Sanjoy K. Bandyopadhyay, Professor	IARI, New Delhi	Involved in various research activities in the field of Agronomy	1992-2020	• 28 years of experience
3.	Dr. L. Geetarani Devi, Assistant Professor	CoA, CAU, Pasighat	• Policy Imperative for Promoting value chain of Agricultural Commodities in India sponsored by ICAR-	2017-till date	• 3 years of experience

			NIAP-CAU Project • Roadmap for Marketing and Value Chain Development of Ginger and *Khasi* Mandarin Orange sponsored by NABARD, Itanagar		
4.	Dr. Kh. Lily Devi, Assistant Professor	College of Agricultural Engg. & Post Harvest Technology (CAEPHT, CAU), Ranipool, Sikkim	Performance of Asparagus (*Asparagus officinalis*) cultivation within naturally ventilated polyhouse as compared to open field condition. Effect of organic manures and different moisture depletion levels on off season capsicum cultivation under poly house conditions in Sikkim Effect of different types of soil less media on growth parameters and fruits yield of strawberry in eastern Himalayan region Effect of post-harvest treatments and modified atmosphere packaging (MAP) on vase life of Cymbidium orchid of Sikkim Effect of different colour shade and growing media on growth and yield of anthurium (*Anthurium andreanum*)	2015-2019	• 4 years & 8 months of experience
		CoA, CAU, Pasighat	Research focus on flowers and vegetables both in open & protected cultivation	Dec. 24th 2019- Till date	• 10 months
5.	Dr. Denisha Rajkhowa, Assistant	AAU, Jorhat, Assam	Development of gamma induced mutant strain of honey bee resistant to insecticides	2017-19	• 2 years, 5 months
		CoA, CAU, Pasighat	Scientific beekeeping	Dec,2019-till now	10 months
6.	Dr. Bapsila Loitongbam, Assistant	Banaras Hindu	Junior Research Fellow (JRF) in IRRI-STRASA	2016-2018	2 years

	Professor	University	Project for 2years		
7.	Dr. Mahesh Kumar, Assistant Professor	Indian Institute of Technology Mandi, Kamand campus, H.P., India	Research and other related work of the Indo-German project entitled "Cellulosic waste to high value products by integrating microbial bioprocessing and pyrolysis techniques"	2018-2019	Working on Research papers and technology patent

Extension

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Dr. Gireesh Chand, Professor	BAU, Sabour	• Mushroom Cultivation	5th -7th Oct, 2017	25 trainees
			• Mushroom Production	9th -13th Oct, 2017	40 trainees
			• Vegetable and Mushroom Production	16th-20th Oct, 2017	35 trainees
		CoA, CAU, Pasighat	Technology interventions towards agriculture into sustainable enterprises for *Atmanirbhar Bharat*	11th-30th Oct, 2017	30 participants
2.	Dr. Sanjoy K. Bandyopadhyay, Professor	IARI, New Delhi	Involved in various extension activities in the field of Agronomy	1992-2020	28 years of experience
2.	Dr. L. Geetarani Devi, Assistant Professor	CoA, CAU, Pasighat	• Organized Workshop on Organic Farming Issues and Strategies (10thMarch, 2018) • Organized a training programme on Entrepreneurship Development for farmers(12th to 18thMarch, 2019) • Organized a training on Advances in Production Technology of Major Fruit Crops(19th to 21stMarch, 2019) • Organized a training on Integrated Farming System for Doubling Farm Income(25thto 27thMarch, 2019) • Organized a training on Vermicomposting (29thMarch, 2019) • Organized a Awareness programme on SRI (30thMarch, 2019) • Organized a training on Marketing and value chain analysis of spices in Arunachal Pradesh (5th- 7th September, 2019	2017-2020	3 years of experience

			(sponsored by NIAM, Jaipur) • Organized training on Advances in production technology of oilseed crops (13th -15th Feb, 2020) • Organized a vocational training programme on "Horticulture Nursery as Production Enterprise" (1st Feb-1st April, 2020) • As a Resource person in Training on "Scientific Bee Keeping for Farmers/Beekeepers" for 7 days organized by College of Horticulture and Forestry, CAU, Pasighat • As a Resource person in Training on "Mushroom Production technology" for 40 days organized by the Department of Agriculture, SAMETI, Government of Arunachal Pradesh • As a Resource person in Training on " Production technology of Mushroom" for 9 days organized by College of Horticulture and Forestry, CAU, Pasighat • As a Resource person in Training on "Scientific Mushroom Cultivation" for 3 months organized by College of Horticulture and Forestry, CAU, Pasighat • As a Resource person in Training on "Entrepreneurship Development for farmers" for 7 days organized by College of Agriculture, CAU, Pasighat. • As a Resource person in 26th Annual Conference on "Agriculture and Sustainable Development Goals" for 3 days organized by Agricultural Economics Research Association (AERA) • As a Resource person in Workshop on "Policy Imperative for promoting Value Chains of Agricultural Commodities in India" for 1 day organized by ICAR-NIAP-CAU Collaboration • As a Resource person in Training		

			on Good horticultural practices for enhancing productivity and farmer's income for 3days organized by College of Agriculture, CAU, Pasighat.		
3.	Dr. Kh. Lily Devi, Assistant Professor	College of Agricultural Engg. & Post Harvest Technology, CAU, Ranipool, Sikkim	• Demonstration of low-cost poly-house suitable for round the year cultivation of vegetables and flowers for higher productivity during three days training program on "Integrated Farming System for sustainable Hill Agriculture" at CAEPHT (September 19, 2017) • Organized off-campus 3 days training program on Current Development in plasticulture engineering technologies as Course Director by AICRP-PET, CAEPHT (CAU) Centre (May 28-30, 2018) • Organized 2 days training program on Skill development on greenhouse technology including solar technology and micro-irrigation systems as Course Director by AICRP-PET, CAEPHT (CAU) Centre (July 28-29, 2018) • Organized 90 days Skill Development Training Program on Low-cost Greenhouse Technology in NEH Region sponsored by Power Finance Corporation Ltd., New Delhi at CAEPHT, Ranipool, Sikkim as Course Coordinator (Sept. 17 - Dec. 15, 2018)	2015-2019	4 years & 8 months of experience
		CoA, CAU, Pasighat,	• Organized training on "Avenues in floriculture for livelihood" as Course Co-ordinator by CHF, Pasighat (Feb. 17 – 19, 2020) • Organized training on "Introductory to some commercially exploitable MAPs and their marketing strategies in the region" as Course Co-ordinator by CHF, Pasighat (March 5 – 7, 2020) • Delivered three lectures on "Production technology of bulbous flowers" during 6 months Certified Foundation	Dec.2019-till date	10 months

			Training for HFAs during training organized by District Hort. Office, Pasighat, East Siang, Arunachal Pradesh • Delivered a lecture on "Scope of flower production under protected condition" during training programme on "Protected cultivation of high value vegetable crops" organized by KVK CHF (CAU), Pasighat, Arunachal Pradesh (Feb. 24 – 29, 2020) • Delivered a lecture/ demonstration on "Propagation of ornamental plants" during vocational training programme on "Horticulture nursey as production interprise" organized by COA, Pasighat, Arunachal Pradesh (Feb 1 – April 1, 2020)		
4.	Dr. Denisha Rajkhowa, Assistant Professor	CoA, CAU, Pasighat	• Organized training on Advances in production technology of oilseed crops (13th -15th Feb, 2020) • As resource person, 6 months Certified Foundation Training for HFAs from 6th January,2020 organized by Department of Horticulture, East Siang, Pasighat, Govt. of Arunachal Pradesh (28th Jan and 5th Feb, 2020) • As resource person, 2 days training programme on "Boosting farmer's income through spices cultivation in Arunachal Pradesh" from 5th - 6th February, 2020 organized by CHF, CAU, Pasighat (6th Feb, 2020) • As resource person, 3 days training programme on "Production technology of underutilized vegetables and value addition for income generation" from 19th -21st February, 2020 organized by CHF, CAU, Pasighat (18th Feb, 2020) • As resource person, 3 days training programe on "Capacity building programme for	24th, Dec. 2019-till date	10 months of experience

			extension functionaries on Integrated farming system" from 2nd - 4th March organized by KVK, East Siang, Pasighat (4th March, 2020) • As resource person, 3 months vocational training programme on "Horticulture nursery as production enterprise" from 1st February-1st April, 2020 organized by College of Agriculture, CAU, Pasighat (6th March, 2020) • As resource person in Foundation Training of Horticulture Field Assistants 15th September, 2020 (On going)		
5.	Dr. Bapsila Loitongbam Assistant Professor	CoA, CAU, Pasighat	• Resource person in vocational training programme on Horticulture Nursery as Production Enterprise • Resource person in Advances in Production Technology of Oilseed Crop	Dec, 2019-till now	10 months of experience
6.	Dr. Mahesh Kumar, Assistant Professor	CoA, CAU, Pasighat	• As instructor in - 3 days Farmers' Training on "Advances in Production technology of oilseed crops" February 2020 • 3 months Vocational training programme on "Horticulture nursery as production enterprise"	Feb, 2020-till date	10 months of experience

College of Horticulture and Forestry

Sl. No.	**Name and designation**	**Highest qualification and Department**	**Year**	**Related work experience in the field**	**Award/recognition/certificate (Year)**	**Experience in other areas**
1.	Prof. B.N. Hazarika, Dean	Ph.D. in Horticulture	1999	Acclimatization of aseptically cultured citrus plants for in vivo condition	• Recognized as Member, Joint Inspection Team • ISNS Fellowship- for 2018 & 19 International Society for Noni Science • Creative Scientist Award • Outstanding contribution to Science Award-2019 • Dr H K Jain- CAU Award 2016-17	Enhancing socio-economic status and livelihood security of tribal farmers of North East States through agricultural interventions

2.	Dr. Sunil Kumar, Professor	Ph.D. in Horticulture	2002	15 years	• Best Teacher Award, 2016 • Outstanding Achievement Award, 2017 • Outstanding Achievement Award, 2018 • Best Researcher Award, 2018 • Distinguished Scientist Award, 2018 • Fellow SHRD, 2018 • Fellow SAS, 2019 • Best Academician Award, 2019 • Best Faculty Award, 2019 • Best Research paper award, 2019 • Outstanding Academic Leader Award, 2020	Extension activities of 15 years
3.	Dr. L. Wangchu Associate Professor	Post-Doctorate, Horticulture	2011	Selection of Superior Jackfruit Genotypes and their identification through electrophoretic banding patterns of isozymes"	Nil	• Completed one DBT funded project on Vermicomposting. • Completed one DST project on Anthurium • Experienced on Marker Assisted selection of Horticulture Crops.
3.	Dr. Bikram Singh, Associate Professor	Ph. D. in Silviculture	2007	Evaluation of new clones of *Populus deltoides* Bartr. developed from U.S.A. germplasm	-	Agroforestry
4.	Dr. Pranabjyoti Sarma, Associate Professor	Ph.D. in Horticulture	2010	Biometrical studies in colocasia (*Colocasia esculenta* (*L.*) Schott.) germplasm	-	• Additional duty as Drawing and Disbursing Officer of

						ICAR, AP Centre (from 4.11.2011 to 17.03.2012) • PI of AICRP on Potato • PI of CSS-MIDH
5.	Dr. Chandra Deo, Associate Professor	Ph.D. in Horticulture	2002	Nature of Gene Action for Yield and Yield Traits in Okra	Scientist of the year 2012 awarded by the Academy of Environmental Biology, India	-
6.	Dr. Ps. Mariam Anal Assistant Professor	Ph.D in Horticulture	2013	Influence of chemical fertilizers, organic manures and biofertilizer on yield and quality of okra (*Abelmoschus esculentus*)	Chaudhury Devi Lal Oustanding AICRP Award-2017" for Best AICRP was given to AICRP on Spices, Kozhikode, Kerala including Pasighat Voluntary centre (contributed) by ICAR, N/Delhi during 2018-19	• AICRP on Rapeseed-mustard from 2004 to 2016 • As PI in AICRP on Spices from 2016 to till date. • As PI in Intra Rural Project on vegetable peas from 2017 to till date
7.	Dr. T. Shantibala, Associate Professor	Ph.D (Entomology)	2003	Studies on bio-ecology and management of pod borer, *Lampides boeticus* (Linnaeus) (Lepidoptera: Lycaenidae) in Manipur	• Women Scientist Award, 2019. • Dr. B. Vasantharaj David Foundation, Women Scientist Excellence Awards, 2019	Edible and Medicinal Insect bioresources, Sericigenous, Insect Genetic Characterization and Insect Pest management
8.	Dr. Aatish Kumar Sahu, Associate Professor	Ph.D. (Agricultural Statistics)	2011	Near Neighbour analysis Near Neighbor Balanced BIBD and BIBRC designs	-	Agricultural Economics
9.	Mr.	M. Sc.	200	Synergistic	University Gold Medal	Worked at SBI

	Nongthombam Devachandra, Assistant Professor	Horticulture in Pomology	6	effect of AMF and bioformulations on germination, seedling growth, graftake and drought stress on Jamun *Syzygium cuminii.*	(2006)	as Farm Sector Technical Officer (Horticulture) from 2007-June, 2016.
10.	Dr. Kalkame Ch. Momin, Assistant Professor	Ph.D. in Floriculture and Landscaping	2013	Effect of nutrient management on cutting production, storage and rooting of carnation	• BEST RBPT Poster Award (2017) • COBACAS Young Scientist Award 2018-4th National Conference on Diversified Farming System: Sustainable Livelihood and Doubling Farmer's Income' • Best Oral Presentation Award, 2020 Regional Seminar of Indian Society of Agricultural Economics (AISAE) on 'Perspectives of Horti-Business in Development of North Eastern Region'	-
11.	Dr. Arwankie Shadap, Assistant Professor	Ph.D. (Horticulture) in Spices and Plantation Crops	2016	Bio-organic and micronutrient management along with germplasm evaluation in ginger (*Zingiber officinale* Rosc.)	• B.Sc.: Gold Medal (2008), • M.Sc.: University Gold Medal (2010)	-
12.	Dr. Arunkumar Phurailatpam, Associate Professor	Ph. D Dept. of Floriculture and Landscape Architecture (MAP)	2010	Survey, collection, documentation and Morpho chemical characterisation of Medicinal and Aromatic Plants	-	Breeding and cytogenetics, underutilized plants
13.	Dr.	PhD in		Studies on the	26th April, 2016	GIS and

	Asieleavio John Assistant Professor	Forestry	2016	efficiency of different wood coatings in controlling moisture exchange.		Remote sensing, Carbon Stock Estimation, Computer Application.
14.	Dr. Pushpendra Kumar, Assistant Professor	PhD, Post Harvest Management	2018	Post-harvest Management of Horticultural Crops	-	-
15.	Dr. N. Surmina Devi Assistant Professor	Ph.D (Agriculture) in Plant Pathology	2013	Study of Fungi (mycology) and Plant disease management	1st Position -Research Based Pedagogical tools in three days regional workshop	Detection and diagnosis of plant disease. Isolation of Biological Control Agents
16.	Dr. Thiyam Jefferson Singh, Assistant Professor	Ph. D.	2018	Progeny analysis in Wild Pomegranate (*Punica granatum* L.)	-	Forestry
17.	Dr. Priyanka Irungbam, Assistant Professor	Ph.D (Agri.) in Agronomy	2019	Effect of integrated weed and nutrient management on weed dynamics productivity of rice (direct seeded)-rapeseed (zero tilled) cropping system under rainfed condition	Recipient of Maulana Azad National Fellowship for Minority Students (MANF) from UGC.	-
18.	Dr. Ajaykumara K. M., Assistant Professor	Ph.D. (Entomology)	2018	Title of Ph. D. Thesis: "Management of *Helicoverpa armigera* (Hubner) Using Biorationals and Low-cost traps in Chickpea"	• Received ICAR-JRF (11th rank) during M. Sc. (Agri. Entomology) (2013-2015) • Received ICAR-SRF (5th rank) during Ph.D. (Entomology) (2015-2018) • First position in Poster presentation, 2018 • Best Research Scholar Award-2018 (Agricultural	-

					Entomology) • Best Ph.D. thesis award-2018 (Entomology) • Best Ph.D. Student Award-2018	

Experience in teaching/research/extension

Teaching

Sl. No.	Name and designation	Institution	Details (UG/PG)	Duration	Total experience
1.	Prof. B.N. Hazarika, Dean	CHF, CAU, Pasighat	Took both Ug and PG classes	2002- till date	20 years
2.	Dr. Sunil Kumar, Professor	Department of Horticulture, North Eastern Hill University, Tura Campus	Took both PG classes	2013-2018	5 years and 6 months
		CHF, CAU, Pasighat	Took both Ug and PG classes	2018-till date	
3.	Dr. L. Wangchu, Associate Professor & Head	College of Horticulture and Forestry, CAU, Pasighat	B.Sc. (Horticulture) B.Sc. (Agriculture) B.Sc. (Forestry) M.Sc. (Horticulture) Ph.D. (Horticulture)	2002-till date	18 years
4.	Dr. Bikram Singh, Associate Professor	CHF, CAU, Pasighat	Took both UG And PG courses of Forestry	2008-2020	12.5 years
5.	Dr. Pranabjyoti Sarma, Associate Professor	CHF, CAU, Pasighat	• Took courses of B.Sc. (Hons.) Horticulture and B.Sc. (Agriculture) • Took courses of M.Sc. (Horticulture) and Ph.D. (Horticulture); Guiding PG &Ph.D students	2016-till date	4 years 4 months
6.	Dr. Chandra Deo, Associate Professor	NDUAT, Kumarganj, Faizabad (UP)	Took both UG and PG courses	2008-2016	8.6 Years
		CHF, CAU, Pasighat	Took both UG and PG courses	2016-2020	4.5Years
7.	Dr. T. Shantibala Associate Professor	IBSD, DBT	Guide of 6 students	2008-2018	10 years and 9 months

		CHF, CAU(Imphal)	B. SC, (Agriculture, Horticulture &Forestry) M.Sc.(Forestry)	2018-till date	2 years 2 months
8.	Dr. Aatish Kr Sahu, Associate Professor	SASRD, Nagaland University	Took 2 courses of UG and 5 courses of PG	2011-2020	8 years
		CHF, CAU, Pasighat	Took 4 courses of UG and 2 courses of PG	Jan 2020 till	< 1 year
9.	Dr. Ps. Mariam Anal, Assistant Professor	CHF, CAU, Pasighat	• Took Courses for B. Sc (Hons.) Horticulture and Agriculture including ELP, NSS courses • Took Courses for M. Sc in Vegetable Science and Ph D Horticulture, also Guiding M.Sc. Scholars	2016-till date	4 years
10.	Nongthombam Devachandra, Assistant Professor	CHF, CAU, Pasighat	• Took Courses for B.Sc (Hons.) Horticulture, Forestry and Agriculture including ELP, NSS and Physical Education courses • Took Courses for M.Sc (Hort.) in Fruit Science and Guiding M. Sc. Scholar	2016-till date	4 Years and 5 months. Additional Charge of SWO since December, 2018 to till date.
11.	Dr. Kalkame Ch. Momin, Assistant Professor	CHF, CAU, Pasighat	FLS-111, FLS-221, FLS-211, FLS-322, READY 421, NR-3212, HORT (ELEC)- 2+1 Landscaping, HORT(ELECT) 2+1 Hi-tech Horticulture, FLA 501, FLA 502 (2+1), FLA 504, FLA 503, FLA 505, FLA 506 FLA 507	2016-till date	4 years 4 months
12.	Dr. Arwankie Shadap, Assistant Professor	Centurion University of Technology & Management, Paralekhemundi, Orissa	Took courses of B.Sc. Agri. Hons	17.10.16 -22.12.16	2.5 months
		Lovely Professional University, Phagwara, Punjab	• Took courses of B.Sc. Agri. Hons • Took courses of M.Sc. (Horticulture, Vegetable Science) and Guidance of M.Sc	2017-2018	1 year 9 months

			Students		
		CHF, CAU, Pasighat	• Took courses of B.Sc. Hort. Hons, B.Sc. Agri. Hons including ELP, NSS, Physical Education Courses • Took courses of M.Sc. (Horticulture, Vegetable Science) and Guidance of M.Sc Students	2018-till date	2 years and continuing
13.	Dr. Arunkumar Phurailatpam, Associate Professor	CHF, Pasighat	• Teaching of theory and practical • Student's advisor • Members of various committees for conducting students related functions and programmes • Teaching of theory and practical • Student's advisor • Members of various committees for conducting a • Students related functions and programmes • Co guides of MSc. students	2010-till date	10 years
14.	Asieleavio John Assistant Professor	CHF, CAU Pasighat	4 classes of UG and 3 classes of PG	2016-till date	4yrs
15.	Pushpendra Kumar, Assistant Professor	CHF, CAU, Pasighat	Took both UG and PG courses	Oct, 2018-till date	2 Year
16.	Dr. N. Surmina Devi, Assistant Professor	CHF, CAU, Pasighat	PPS-311, VSC-509, PPS-214, FOR-507, PPS-211, PPATH-523, PPS-121, PPS-243, BSH-114, PP-353, PPS-223, READY- RAWE(PP)-472, RHWE-425, PP-48PP	2016-ill date	4 years
17.	Dr. Thiyam Jefferson Singh, Assistant Professor	CHF, CAU, Pasighat	Took Forestry courses	Dec,2019 -till date	10 Months 18 Days

18.	Dr. Ajaykumara K. M., Assistant Professor	CHF, CAU, Pasighat	Ento-124, NR-1203, PPS-122, PPS-322 (2+1), ELP (0+10), PPS-211, PP(PD)-353, Ento-353 (2+1), RAWE component	Dec 2019-till date	11 months

Research

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Prof. B.N. Hazarika, Dean	CHF, CAU, Pasighat	Have done various research work in the field of horticulture	2002- till date	20 years of experience
2.	Dr. Sunil Kumar, Professor	Department of Horticulture, North Eastern Hill University, Tura Campus	• Evaluation of Zinnia (*Zinnia elegans* L.) genotypes under West Garo Hills District, Meghalaya • Evaluation of chrysanthemum (*Chrysanthemum morifolium* Ramat) genotypes under West Garo Hills District, Meghalaya • Evaluation of gladiolus (*Gladiolus grandiflorus* L.) genotypes under West Garo Hills District, Meghalaya • Production potential and economics of marigold (*Tagetes erecta* L.) cv. Pusa Narangi Gainda as influenced by organic fertilizers • Effect of Nutrients and Growth Regulator on Growth, Flowering, Quality and Seed Yield in Calendula (*Calendula officinalis* L,) cv. Bon Bon • Integrated Nutrient Management in China aster (*Callistephus chinenesis* L. Nees) cv. Kamini • Response of Farm Yard Manure and Vermicompost on vegetative, flowering and quality parameters in tuberose (*Polianthes*	2013 - 2018	5 years and 6 months of experience

			tuberosa Linn.) cv. Prajwal • Response of Farm Yard Manure and Vermicompost on vegetative, flowering and quality parameters in tuberose (*Polianthes tuberosa* Linn.) cv. Arka Nirantara		
		CHF, CAU, Pasighat	• *In vitro* propagation of dendrobium orchid	2018-till date	2 years of experience
3.	Dr. L. Wangchu, Associate Professor	CHF, CAU, Pasighat	• Post-Harvest Treatments of Khasi Mandarin in East Siang District of Arunachal Pradesh • Effect of stockosorb on water and nutrient management of *Citrus reticulata* • Effect of Hydrogel on Water and Nutrient Management of *Citrus limon.* • Low cost hydroponic seed germination technique for Rangpur lime (*Citrus limonia*) • Standardization of season, shoot etiolation and growth regulators in air-layering of guava (*Psidium guajava* L.) var. L-49 under east Siang district of Arunachal Pradesh. • Forced flowering of pineapple (*Ananas comosus* cv. Kew) in response to cold stress, ethephon, calcium carbide and activated charcoal. • Studies on Genetic Variability of Pummelo(*Citrus grandis* L.) in East Siang District of Arunachal Pradesh, India. • 33 different genotypes of citrus have been collected after surveying in different location in NE region and maintained in the college farm	2002-2020	18 years of experience
4.	Dr. Bikram Singh, Associate Professor	CHF, CAU, Pasighat	Three (03) IRP Projects	2009-2011	7 years of experience
			PG Research guidance	2015-2020	
5.	Dr. Pranabjyoti Sarma, Associate	ICAR-RC-NEH Region, Umiam, Meghalaya	Research works of Central Sector Scheme MM-I	2001-2006	Standardization of agro-techniques of tomato,

	Professor				capsicum, passion fruit, orange, pineapple, ginger, turmeric *etc*.
		CHF, CAU, Pasighat	As a PI/Incharge of AICRP on Potato conducting research trials of the project as per technical programmes	2016-till date	Involved as Associated Scientist in development of the potato variety Kufri Ganga released in 2018 from ICAR-CPRI, Shimla.
6.	Dr. Chandra Deo Associate Professor	NDUAT, Kumarganj, Faizabad, UP	Various research works has been done in Vegetable Crops	2008-2016	8.6 years of experience
		CHF CAU, Pasighat,	Various research works has been done in Vegetable Crops	2016-2020	4.5 years of experience
7.	Dr. T. Shantibala, Associate Professor	CHF, CAU, Pasighat	Systematic inventorization, use profiles and molecular cataloguing for the sustainable management of edible insect's resource for enhancing the livelihood opportunities of local people of Himalayan range of Manipur, North east India''	2018-2021	5 years of experience
			Restoration and conservation of natural silk dyeing technique and ethnic design of silk's cultural heritage of Manipur	2019-2021	
			Chemical Ecology of the North-East Region (NER) of India: A collaborative programme Linking NER and Bangalore Researchers	2015 to till date,	
			Bioresource and Sustainable Livelihood in North East India: Documentation and Sustainable management of insect bioresources of NE India with special reference to edible insects and wild sericigeneous insects.	2018-2021	
			Exploration of wild silk moth biodiversity in Manipur and their genetic characterization	2011-2015	

			using molecular markers		
			Development of composite sericulture in Imphal districts: Sustaining ST & SC women livelihood	2014-2018	
8.	Dr. Aatish Kr. Sahu, Associate Professor	SASRD, Nagaland University	Guided 4 M.Sc (Ag) scholars	2014-2019	
			Two Consultancy service (NABARD and DES, Govt. of Nagaland)	2015-2017	
9.	Dr. Ps. Mariam Anal, Assistant Professor	CHF, CAU, Pasighat	• Conducting trials on turmeric, ginger, and germplasm collection, evaluation and conservation of various spices including under AICRP on Spices have been undertaken.	2016- till date	4 years
				2018-2019	
			• Established Climate Controlled Poly house	2020-till date	
			• Establishing processing unit for turmeric and ginger • Intra mural Research Project on "Collection and evaluation of indigenous vegetable peas (*Pisum sativum* L.) under NEH region"	2017-till date	3 years
10.	Nongthombam Devachandra, Assistant Professor	CHF, CAU, Pasighat	Successfully completed a study on mango seed germination with respect to sowing depth and GA_3 (PGR).	2017-2018	4 years
			Evaluation of three tea cultivars for Foothills of Arunachal Pradesh.	2018-2019	
			• Screening of citrus rootstocks. • Germination in Jamun.	2020-till date	
11.	Dr. Kalkame Ch. Momin, Assistant Professor	North Eastern Hill University, Tura Campus, Meghalaya	Morphological and biochemical characterization of blood fruit (*Haematocarpus validus*) of Garo Hills region of Meghalaya	2016-2017	2 years
		CHF, CAU, Pasighat,	AICRP on Floriculture Project No. 1.5.1: Collection, characterization, evaluation and maintenance of tropical Orchids germplasm	2018-Ongoing	
			Project No. 2.4.1: Testing of genotypes in tuberose	2018-Ongoing	

			Project No. 2.2.1: Testing of genotypes in gladiolus	2018-Ongoing	
			Project No.2.3.1: Crop Improvement- Testing of genotypes in tuberose	2017-2019	2 years
			Standardization of drying and dehydration techniques of native wild ornamentals of Arunachal Pradesh	2019-Ongoing	
			Establishment of Herbal garden and MAP nursery	2019-Ongoing	
12.	Arwankie Shadap, Assistant Professor	CHF, CAU, Pasighat	Research carried out under AICRP on Palms (Oilpalm)	2010-2011	10 months
13.	Dr. Arunkumar Phurailatpam, Associate Professor	CHF, CAU, Pasighat	Biotechnological approaches for conservation and Eco- restoration of *Paris polyphylla* and *Kaempheria parviflora* – A highly traded endangered medicinal plant species in Arunachal Pradesh	2018-2021	
			Establishment of Herbal Garden and MAP Nursery	2019-2022	
			Systematic Identification, documentation and conservation of the medicinal plants used by the traditional medicinal practitioners of Siang district of Arunachal Pradesh	2020-2021	
			Collection, Maintenance, Documentation and Development of Agro Techniques of Some Underutilized Vegetables with Medicinal Properties Consumed by the Tribal People of East Siang District, Arunachal Pradesh	2019-2022	
			Collection, Maintenance, Documentation and Development of Agro Techniques of Some Underutilized Vegetables with Medicinal Properties Consumed by the Tribal People of East Siang District, Arunachal Pradesh	2017-2020	
14.	Dr. N. Surmina Devi, Assistant Professor	CHF, CAU, Pasighat	Collection and evaluation of indigenous vegetable pea (Pisium sativa L.) under NEH region.As Co-PI.	2017- till date	3years

			Integrated Bee Keeping Development Centre (IBDC)/Centre of Excellence (CoE). As Co-PI	Completed	
15.	Dr. Ajaykumara K.M. Assistant Professor	UAHS Shivamogga, Karnataka	Bio efficacy of different animal urine and botanicals-based formulations against insect pests	2018-2019	12 months
		CHF, CAU, Pasighat	Field trials and Laboratory experiments under AICRP on Biological Control of Crop Pests and Diseases	June 2020- Nov 2020	05 months

Extension

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Prof. B.N. Hazarika, Dean	CHF, CAU, Pasighat	Have done various extension work in the field of horticulture	2002- till date	20 years of experience
2.	Dr. Sunil Kumar, Professor	CHF, CAU, Pasighat	• Awareness about importance of commercial flowers and motivated farmers to start commercial floriculture at Pasighat, Arunachal Pradesh. • Provided adequate knowledge among the progressive & elite farmers about Protected Cultivation of Anthurium • Soilless cultivation of anthurium under low cost polyhouse using arecanut shell, coconut chips, charcoal, rice husk, wood shaves at Farmers' field. • Resource person for Certified Foundation Training for HFAs organized by District Horticulture Office, East Siang, Pasighat, Arunachal Pradesh, January 06, 2020 to February 29, 2020. • Resource person for Training programme on Vermicomposting Technology organized by SMAETI, Pasighat, Arunachal Pradesh, November 14, 2019 to December 23, 2019. • Resource person in CAU Regional Agri Fair-2019 at College of Horticulture & Forestry, Pasighat, November 11-13, 2019.	2018- till date	20 years of experience

			• Resource person for Demonstration cum Training Programme on Floriculture organized by ATMA, Pasighat, August 21, 2019. • Participation in Arunachal Agri Expo-2019 at CHF, CAU, Pasighat, March 25-27, 2019. • Judge for the event flower show in Arunachal Agri Expo-2019 at CHF, CAU, Pasighat, March 25-27, 2019.		
3.	Dr. L. Wangchu, Associate Professor	CHF, CAU, Pasighat	• Organized trainings on different topics with duration varying from 1 day to 90 days to the farmers and state officers. • Nursery management and plant propagation. • Food processing • Citrus orchard Management • Fruit drop control • Loranthus eradication • Vermicomposting • Fruit Nursery a soaring business • Hydroponic seed germination techniques in citrus • Sub-tropical and tropical fruit production, etc. • Conducted study tours of the students to other NE states and apple orchards in the state. • Participated in Rural Horticulture work experience of students every year. • Front line demonstration of different fruit cultivation techniques in different villages. • Conducted trainings of line department officers. • Initiated development of FPO's in two villages. • Developed two model fruit villages. • Adopted three villages under MGMG • Completed one DBT project (3 years) on Training and demonstration of Vermicomposting technology to rural youth, women and farmers. • Conducted entrepreneurship development programmes on	2002-2020	18 years of experience

			Nursery management and plant propagation for rural youth and School dropouts etc.		
4.	Dr. Bikram Singh Associate Professor	CHF, CAU, Pasighat	• As capacity of Course Director and Course Co-Coordinator conducted 05 nos. (five) of Training programme to the personnels of state forest departments • Acted as Resource Person for various training programmes conducted for farmers, personnel of line departments, etc.	2009-2017	8 years of experience
5.	Dr. Pranabjyoti Sarma, Associate Professor	KVK, Cachar, Assam Agricultural University	• Overall management of the institute coordinating various extension programmes	2013-2016	Produced Foundation and Certified seeds of improved paddy varieties and supplied to the farmers of entire Barak valley of Assam; Renovated office building, auditorium, staff quarters and developed one storage godown.
		KVK, West Siang, ICAR, Arunachal Pradesh Centre	Conducting various extension programmes	2006-2013	Involved in popularization of citrus rejuvenation technology, double row planting of pineapple, high density planting in pineapple, popularization of ginger variety Nadia and turmeric variety Megha Turmeric-1 *etc*.

6.	Dr. Chandra Deo, Associate Professor	Central Institute of Horticulture, Medziphema, Dimapur, Nagaland	Training for the trainers and farmers and extension work	2006-2007	09 Month of experience
		ICAR Research Complex for NEH Region. Ranipul, Gangatok, Sikkim	Training and Extension	2007-2008	10 Month of experience
		NDUAT, Kumarganj, Faizabad (UP)	Training	2008-2016	8.6 years of experience
		CHF, CAU, Pasighat, Arunachal Pradesh	Training and Demonstration	2016-2020	4.5 Years of experience
7.	Dr. T. Shantibala Associate Professor	CHF, CAU, Pasighat	3rd SAC and PSC meeting of DBT's Chemical Ecology Network Programme "Chemical Ecology of the North East Region (NER) of India: A Collaborative Programme Linkage NER and Bangalore Researchers", IBSD, Imphal, Manipur.	2017-2019	3 years of experience
			Two days online workshop on Agro-tourism through underutilized ethnic foods" • Significant of underutilized Traditional/ethnic Food resources • Nutritional Health benefit and immune boosting • 3. Economic empowerment by ethnic food tourism		
			Introductory Meet of the composite Seri-Farmer		
			Hands on training program on rearing and post-cocoon technology in composite sericulture		
			Cost effective production of silk yarn		
			Three days hand on training programme on "Reeling and Twisting of Silkyarn and Dyeing Techniques of Phige and Muga phi" at IBSD		
			5 Days Hand-on-training on Venture of Edible silkworm to post cocoon technology in Pasighat, Arunachal Pradesh		
8.	Dr. Ps.	CHF, CAU,	Conducting training programmes on	2017-till	4 years

	Mariam Anal Assistant Professor	Pasighat	• Production technology of Exotic vegetables. • Package of practice of Winter Vegetables. • Organic Farming in Vegetables. • As resource person in various training programmes for Horticulture/Agriculture district officers, Field Assistant of state department and farmers • Active involvement in implementation of RAWE/RHWE for UG students in different Villages. • Organizing Special NSS Camps in Villages for Student Volunteers in adopted villages.	date	
9.	Dr. Kalkame Ch. Momin Assistant Professor	CHF, CAU, Pasighat	As Course Director • Commercial Flower Production • Value Addition of Flowers • Ornamental Gardening and Landscaping • Avenues in Floriculture for livelihood As Course Coordinator • Nutritional and biochemical importance of locally available underutilized crops • Good Horticultural Practices for Enhancing Productivity and Farmers Income • Popularizing Medicinal and Aromatic Crop Cultivation Amongst the Local Farmers of East Siang District • Introduction to Some Commercially Exploitable MAPs and their Marketing Strategies in the region: Cultivation and Marketing As resource person • Exposure Visit to Polyhouse Block of Floriculture Farm • Skill Development Training for Doubling Farmers Income • Commercial Horticulture for Doubling Farmers Income in North Eastern States of India • Preparation of 'Decorative Materials and Soft Toys for Entrepreneurship Development • Ornamental Properties of	2018-till date	Organized 4 trainings as course director, 7 as course-coordinator and 9 as resource person

			Mushroom • Entrepreneurship Development for Farmers • Good Practices in Floriculture for Sustainable Production • Socio-economic development of horticultural farmers through contract farming • Preparation of soap, candle and decorative articles for entrepreneurship development		
10.	Arwankie Shadap, Assistant Professor	CHF, CAU, Pasighat	Crop calendar and cropping systems as intercrop in citrus fruit crop sponsored by ASCI - Skill development training programme on Cirus Fruit Growers	2019-till date	2 Years 1 month experience
			Organic production of ginger and turmeric in 3 days training programme on "Organic farming in Vegetables"		
			Processing of ginger and turmeric in 2 days training programme on "Boosting Farmer's income through ginger and turmeric farming" under CSS-MIDH		
			Vertical farming of vegetable crops in "Model training course on Protected Cultivation of Vegetable Crops- a source of employment in NEH Region		
			Training and pruning of vegetable crops grown under protected cultivation in "Model training course on Protected Cultivation of Vegetable Crops- a source of employment in NEH Region		
			Production technology of leafy vegetables in containers in a training programme 'Container vegetable gardening'		
			Production technology of underutilized solanaceous vegetables, in a farmers training programme on 'Production Technology of underutilized vegetables and value addition for income generation'		
			Production technology of pea, root and other crops in a 'one day training cum seed distribution programme on winter season vegetable crops' for the farmers at siluk village, East Siang, A.P		
11.	Dr. Arunkumar	CHF, CAU, Pasighat	Nutritional and biochemical importance of locally available	2016-till date	4 years of experience

	Phurailatpam, Associate Professor		underutilized crops		
			Scientific Mushroom Cultivation		
			Ornamental gardening and landscaping		
			Commercial production of Flowers, Medicinal & Aromatic Plants		
			Importance of agro techniques of some local underutilized vegetables with medicinal properties		
			Processing and value addition of Horticultural Crops		
			4th International symposium on Minor fruits and MAP		
			Prospects and potential of wild edible vegetables with their medicinal properties		
			Enhancement of Horticulture in the North East Region for Nutritional Security and Prosperity		
			Production Technology of High value Horticultural Crops of North East Region' in the 3 days capacity building programme for extension functionaries of line departments, KVKs, SAUs and ICAR Institutes of NE region		
12.	Pushpendra Kumar, Assistant Professor	CHF, CAU, Pasighat	Post Harvest Management of Horticultural Crops	2018-till date	2 Year
13.	Dr. N. Surmina Devi, Assistant Professor	CHF, CAU, Pasighat	As Course Director: 1.IDM on Vegetable Crops 2.IDM on Vegetable Crops	2017-till date	4 years
			As Co-Course Director: • Cultivation, Spawn Production and Processing of Oyester Mushroom. • Advances in Diseases Diagnostic Technique. • Vocational Training on Scientific Mushroom cultivation • Scientific Beekeeping for the farmers • Scientific Beekeeping for the farmers • Scientific Beekeeping for the farmers • Production Technology of Mushroom • IDM of Vegetable crops • Production Technology of		

			Mushroom • Training for 7 days on 'Scientific Beekeeping for the farmers/beekeepers'		
			As resource person in 36 training		
14.	Dr. Ajaykumara K. M., Assistant Professor	UAHS Shivamogga, Karnataka	Method demonstrations and training to farmers on Zero Budget Natural Farming under southern transition zone (07) of Karnataka	Jan 2018-Dec 2019	12 months
		CHF, CAU, Pasighat	Front line demonstrations under AICRP on Biological Control of Crop Pests and Diseases	June 2020-Nov 2020	05 months

MTTC & VTC

Sl. No.	Name and designation	Highest qualification (Department and year)	Year	Related work experience in the field (M.Sc./PhD research topic)	Award/recognition/certificate (Year)	Experience in other areas
1.	Ms. Tasso Yatung, Assistant Professor	M.Sc. (Hort.) Horticulture	2010 - 2012	Genetic Diversity and Seed Protein Electrophoresis in Chilli (*Capsicum annuum* L.)	University (CAU) scholarship, Batch topper, 2010-12	2 years' experience as Research Assistant cum consultant
						1-year experience as SRF
						5 months experience as Agricultural Demonstrator
						1 year & 10 months as Junior Horticulturist
2.	Dr. Rajib Das, Assistant Professor	Ph.D (Agri) Plant Breeding and Genetics	2017	• Genetic Divergence Studies in Finger Millet (*Eleusine corocana (L.) Gaertn*) Germplasm • Genotyping of *rf* (restoring fertility)	**Award:** • UGC-JRF(RGNF) • UGC-SRF(RGNF) • Qualified ICAR SRF examination **Certificate:** • General course on Intellectual property • Diploma in Intellectual Property Rights'	Delivered a lecture on "Biotechnological tool in maize improvement: A methylome based approach" as an invited speaker in nation seminar on "Promotion of Maize in North-

				loci of rice varieties of kerala using molecular markers'		East India: Opportunities and Strategies"
3.	Dr. Veluru Bhargav, Assistant Proferssor	Ph.D. (Horticultur e)	2018	1 year	• 2nd position in the Poster presentation in National conference on 'Ornamental Horticulture to Uplift the Rural Economy' • CAR-IARI, Merit medal (Gold Medal)	-
4	Mr. Premaradhy a, N Assistant Professor	M.Sc. (Agri.) in Agronomy	2012	Effect of sulfhydryl bio regulator on growth, yield and productivity of lentil (*Lens culinaris*) under restricted irrigation condition	• Received Best Poster Presentation Award in 2016. • Awarded Jawaharlal Nehru Scholarship for pursuing doctoral studies, in the year 2018-19 • Received Best Research Scholar Award -2018 • 4. Received Best Oral presentation award in the year 2018-19	-

Research

Sl. No.	Name and designation	Institution	Details of work done	Duration	Total experience
1.	Tasso Yatung, Assistant Professor	State Horticulture Research and Development Institute, Department of Horticulture, Govt. of Arunachal Pradesh	Research and consultation	2014-2017	3 years of experience
		AICRP-Potato, College of Horticulture and Forestry	Research and extension	2018-2019	1 year and 10 months of experience
2.	Dr. Senpon Ngomle, Assistant Professor	KVK, Anjaw and Longding, under ICAR RC for NEH Region AP Centre,	• Trial on Integrated disease management in large Cardamom • Trial on control of citrus trunk borer in citrus • Application of *trichogramma* in Rice field for pest management • Trial on integrated disease	2015-2020	5 Year 10 Months of experience

		Basar, Arunachal Pradesh	management in Potato. • Introduction and adaptability studies of CAU R-2 and CAUR-1 in Longding district of Arunachal Pradesh. • NABARD funded project on Mushroom.		
		MTTC and VTC, CHF, Pasighat.	• Coordinated and supervised the data collection under IIMR Project entitled " Development of National database on Millets" in Longding district of Arunachal Pradesh	Jan, 2020-till date	10 months of experience
3.	Dr. Rajib Das, Assistant Professor	DBT-AAU Centre, Assam Agricultural University, Jorhat	• Phenotyping of 400 germplasms for different drought tolerant traits. Leaf samples of these Germplasm was sent for Genotyping through GBS for identification Markers associated with drought tolerant allele. • Phenotyping of F_5 population of drought tolerant and susceptible lines for different drought tolerant traits in field as well as in rain-out shelter. Leaf samples of was sent for sequencing to identify SNP variation. • Introgression of existing major water stress tolerance (drought and submergence) and disease resistance (BLB, Blast) QTL's into the important rice varieties of Assam.	16.11.2018-24.12.2019	1.1 years of experience

Extension

Sl. No.	Name and designation	Institution	Details of work done	Duration	Remarks
1.	Ms. Tasso Yatung, Assistant Professor	CHF, CAU, Pasighat	• Field day & training on Cultivation of Onion in Arunachal Pradesh • Farmers training on Improved Production Technology in Potato resource person • Training on Integrated disease management of vegetables • Training programme on Scientific production technology of Ginger and Turmeric	2019-till date	2 years 8 months of experience

			• Boosting Farmer's Income through Ginger and Turmeric Farming • Training programme on Organic farming in Vegetables • Model Training course on Protected cultivation of Vegetable Crops: A source of Employment in NEH Region		
		MTTC & VTC, CHF, Pasighat	• Training on Post harvest management, value addition and storage of potato • Training on Boosting Farmer's Income through Spices Cultivation in Arunachal Pradesh • Training on Container Vegetable Gardening • Training on Production Technology of underutilized vegetables and value addition for income generation • Training on Protected Cultivation of High Value Vegetable Crops • As a resource person for Foundation Training of Horticulture Field Staff of line department • Webinar on Strategies and technological intervention for sustainable horticulture in North Eastern • Region • Three days webinar on Post-harvest Management and Value addition in Horticultural crops for budding start-ups under • NAHEP for students of CHF, CAU • Two days webinar on Promoting potential minor fruit crops: A sustainable new venture for North Eastern India under NAHEP for students of CHF, CAU • One day webinar on Banana tissue culture production: Opportunities for new entrepreneur' under NAHEP for students of CHF, CAU • Two days webinar on Nursery Production and Management of Horticultural Crops for Young Entrepreneurs' under NAHEP for		

			students of CHF, CAU • Webinar on Quality Organic Spices and its business opportunities in North-East Region under NAHEP for students of CHF, CAU		
2.	Dr. Senpon Ngomle, Assistant Professor	KVK, Anjaw and Longding, ICAR RC for NEH Region AP Centre, Basar, Arunachal Pradesh	<u>Training Programmes:</u> • Mushroom cultivation (10 nos) • IDM and IPM in Large Cardamom (8 nos) • IDM and IPM in Citrus (9 nos) • IDM and IPM in Rice (8 nos) • IDM and IPM in summer vegetables (4 nos) • IDM and IPM in cole crops(4 nos) • IDM and IPM in winter vegetables (4 nos) <u>Front Line Demonstration</u>: • Mushroom cultivation • Sericulture. • Bordeaux mixture preparation. • Low cost spawn production laboratory • Use of biocontrol agents. <u>Extension activities</u> • Field Day (20 nos) • Kisan Sammelan (1 nos) as committee member. • Plant Health camp (15 nos) • Advisories services (500) • Diagnostic visit (20 nos) • Farmer Scientist interaction (12 nos) • Newspaper coverage (18 nos) • Exhibition (8 nos) • Co-editor of KVK Newsletter, Vol 1 -2015 and Vol 11 2016. • Develop E –learning material on Oyster Mushroom cultivation and uploaded in you tube.	2015-2020	5 Year 10 Months of experience
		MTTC and VTC, CHF, CAU, Pasighat	• Acted as resource person under Training on “Disease and its management in container vegetable gardening” organized by College of Horticulture and Forestry, CAU, Pasighat.	Jan, 2020-till date	10 months of experience

			• Acted as resource person under Training on "Awareness in MAP cultivation and its profit in MAP business." organized by College of Horticulture and Forestry, CAU, Pasighat. • Acted as resource person under Training on ".Disease and its management in some selected fruit crops of nursery – in context to Arunachal Pradesh and Plant protection measures against disease infecting nursery of vegetables.." under vocational training horticultural nursery as a production enterprise organized by College of Horticulture and Forestry, CAU, Pasighat. • Co organizing secretary of webinar on "Technological intervention for Horticultural crops in NEH Region". • Co organizing secretary of webinar on "Quality organic spices and its opportunities in North east region.		
3.	Dr. Rajib Das, Assistant Professor	MTTC & VTC, CHF, Pasighat	• Organizing Secretary in an online workshop on "Quality Organic Spices and its Business opportunities in North-East region", organized in Collaboration with IDP-NAHEP • Actively involved in a webinar on "Nursery Production and management of Horticultural Crops for young Entrepreneurs" organized in Collaboration with IDP-NAHEP • Delivered a Lecture on "Maintenance of seed quality/and its positive impact on oil seed crop" in the occasion of training programme for farmer on "Advances in production technology of oil seed" • Delivered a Lecture on "Organic Seed production approaches for Maize and Rice in Arunachal Pradesh" in the occasion of a training programme for farmer on "Organic farming: opportunities and Management" • Delivered lecture on "Production of	Jan, 2020-till date	10 months of experience

			Quality planting materials of fruit crops" in a vocational training for farmer on "Horticultural nursery as a production enterprise. • Co-organizing secretary a webinar on "Strategies and Technological Intervention for Sustainable Horticulture in NE Region"		
4.	Dr. Veluru Bhargav Assistant Professor	MTTC & VTC, CHF, CAU, Pasighat	• Avenues in Floriculture for livelihood (Women farmers) • Foundation Training of Horticulture Field Assistants • Three days webinar on 'Strategies and technological intervention for sustainable horticulture in NE region' • Three days webinar on 'Post-harvest Management and Value Addition in Horticultural Crops for Budding Startups' under NAHEP for students of CHF, CAU • Two days webinar on 'Promoting potential minor fruit crops: A sustainable new venture for North Eastern India' under NAHEP for students of CHF, CAU • One day training programme on 'Banana tissue culture production: Opportunities for new entrepreneur' under NAHEP for students of CHF, CAU • Two days training programme on 'Nursery Production and Management of Horticultural Crops for Young Entrepreneurs' under NAHEP for students of CHF, CAU • Three days training programme on 'Quality organic spices and its business opportunities in North East region' under NAHEP for students of CHF, CAU	Feb 2020-till date	9 months of experience
5.	Mr. Premaradhya N. Assistant Professor	MTTC and VTC, CHF, CAU, Pasighat,	• Acted as resource person under Training on Pipe composting and its benefits in container gardening organized by College of Horticulture and Forestry, CAU, Pasighat • Acted as resource person under Training on Post-harvest	24th Dec,2020-till date	10 months of experience

			management and value addition of major oilseed crops organized by College of Horticulture and Forestry, CAU, Pasighat • Acted as resource person under Training on Nursery raising and cultivation practices of Rice organized by College of Horticulture and Forestry, CAU, Pasighat • Acted as resource person under Training on Crop diversification and its benefits in Hill Ecosystem organized by College of Horticulture and Forestry, CAU, Pasighat • Acted as resource person under Training on Organic Weed Management in Horticultural Nursery Raising organized by College of Horticulture and Forestry, CAU, Pasighat • Acting as resource person under Training for Horticulture Training staff conducting by state Department of Horticulture, Pasighat • Acted as Co organizing secretary of webinar on One Week National Webinar on Resurgence of Agriculture and Allied Sector Industries in North Eastern Region of India in a Post Covid-19 Scenario • Acted as Co organizing secretary of webinar on "Technological intervention for Horticultural crops in NEH Region" • Acted as Co organizing secretary of webinar on "Quality organic spices and its opportunities in North east region

6.4. Self Study Report for the Degree Programme, College of Agriculture, Pasighat

6.4.1. Brief History of the Degree Programme:

The College of Agriculture, Central Agricultural University, Pasighat was established on 26th November, 2013 as one of the constituent colleges of Central Agricultural University, Imphal, Manipur. The beautiful campus of College of Agriculture comprising of 86 acres of land is located on the picturesque bank of mighty river, Siang at the foothills of Eastern Himalayas, Pasighat. It is situated on the NH-52 between Ruskin and Aalo which is about 6 km from Pasighat town towards North-West direction and about 300 km from the state capital of Arunachal Pradesh, Itanagar.Murkongselek (MZS), DibrugarhTown (DBRT) and Dibrugarh (DBRG) are the nearest railway stations located 40 km, 152 km and 156 km respectively away from the college campus. It is well connected to Kolkata, Mumbai, New Delhi and Chennai by train. Moreover, it is also well connected with Pasighat Airport as well as Dibrugarh Airport. As far as Pasighat weather is concerned, the average annual rainfall is 2500-3500 mm, with average maximum temperature of 37 ºC in the month of May and average minimum temperature in the month of January is10ºC. Here, in winter, afternoons are pleasant and nights are cold. This region comes under at 28º05'N latitude and 94º19'Elongitudes with an elevation of 153 m MSL. The various infrastructures of college *viz*. academic block, administrative block, hostel for girls and boys, transit hostel, *etc.* are under construction and will be completed very soon.

The College of Agriculture, Pasighat, impart education in different branches of Agriculture and its allied sciences. The College of Agriculture started its first flagship academic programme*i.e*., 4 year B.Sc. (Hons) Agriculture programme from academic session 2013-14 with intake capacity of 20 students. The course curriculum and syllabi are based on the model academic regulations and syllabi as proposed by the 5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi. While designing curriculum, outmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers for emerging opportunities at national and international level.

The college offers only under graduate (UG) programme. The curricula of the said academic programme are those suggested by 5th Dean's Committee's of ICAR.

Now a day's 10+2+4 pattern which comprises one Semester (7th) of Rural Agriculture Work Experience (RAWE) programme and Experiential Learning Programme for 8thsemester from the academic year 2013-2014.

Mandate of the Institution

The College of Agriculture, Pasighat is a unique campus under the Central Agricultural University, Imphal with complete integration of all the three functions *viz.;* teaching, research and extension. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of agriculture, not only in Arunachal Pradesh but also in the entire North-Eastern Region. The college shall also endeavour to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. But, the major mandates of the college are:

i) Making provision for imparting education in Agriculture.
ii) Advancement of learning and conducting research particularly in Agriculture and other allied sciences / technologies especially for the rural people of the state in general.
iii) Undertaking activities pertaining to major mandates *via*, education, research and extension as directed by the University time to time.

Objectives

i) To undertake teaching for UG in Agriculture.
ii) To carryout research to generate technology and extension of technology to the farmers and professionals.
iii) To undertake the policy programme of state and central government related to agriculture education, research and extension.
iv) To undertake such other activities as it may deem fit from time to time.

Accomplishments

Initially, the enrolment of students in the program was low. During recent past, however, some –signatory states are seeking for more allocation of seats for their students. The main reason might be the impressive performance shown by the students of this college at national level. A total of 20 students from 02 passed out batches for B.Sc. (Agriculture) degree programme. On an average, 90 per cent of students secure first class in their final examination which is a moral boost and an achievement for all.

Students of this college have shown outstanding performance in the national level examinations. In 2018 and 2020, the University/college ranked 2nd in terms of ICAR –JRF holder.

List of Toppers of B.Sc. Agriculture, Since Inception

Sl. No.	Name	Year of Passing

1.	Mr.Arif -Ur-RahmanChowdhury	2017
2.	Mr.BijoyDebnath	2018
3.	Ms. Ng. Pusparani	2019

List of ICAR – JRF Holders, 2018

List

1.	Mr. Ricky Winner Mylliemngap	01A-14	Agriculture
2.	Mr.BijoyDebnath	07A-14	

of ICAR – JRF Holders, 2019

List

Sl. No.	Name of the student	Admission No.	Discipline
1.	Ms. O. Ricky Devi	09A-14	Agriculture

of ICAR – JRF Holders, 2020

Sl. No.	Name of the student	Rank	Discipline
3.	SaibalBishwas	IARI	Agriculture
4.	KojHaniya	IARI	Agriculture

During 2016- 2017 first batch has been passed out. The following students qualified / placed in various sector

Table: 1.Number of students passed and placed various sectors in 2016-17 to 2019-20

Sl. No.	Year	Number of students qualified/Number of students placed					Number of students passed out
		JRF	SRF	NET	M. Sc.	Other	
1.	2016-17	02	-	-	04	04	20
2.	2017-18	02	-	-	04	04	20
3.	2018-19	02	-	-	04	04	20
4.	2019-20	01	-	-	-	-	20

6.4.2. Faculty strength

For the welfare of the students and less sanction faculties of the college, the College of Agriculture, CAU, Pasighat is utilizing the faculties of the College of Horticulture and Forestry as the students and the faculties stay in the same campus with the same facilities of the college of Horticulture and Forestry, CAU, Pasighat.

Table: 2. Faculty strength

Sl. No.	Sanction Faculty	Faculty in Place	Vacant Position	Faculty recommended By ICAR
1.	Professor	02	04	3
2.	Associate Professor	-	-	8
3.	Assistant Professor	11	-	34
	Total	**13**	**04**	**45**
4.	CHF Faculty	35	-	
Total		**48**		

As per faculty recommended by ICAR/~~UGC/VCI/~~Other regulatory bodies the faculty strength are not sufficient. However, the CHF faculties are being assigned to complete the curriculum of the undergraduate degree programme. The teaching pedagogy include a judicious blend of different teachings modules, classroom-based teaching with an equal weightage on practical training and exposure to inculcate pragmatic skills and perk up student's confidence to meet requirement of various client organization as well as higher education in other national and international academic institutions. At present the College of Agriculture is utilizing the existing facilities of College of Horticulture and Forestry, CAU, Pasighat. The existing faculty of College of Agriculture *i.e.,* 1 Assistant Professor (c), College of Horticulture and Forestry including the Dean of the College of Horticulture and Forestry, CAU, Pasighat is handling all the courses till appointment of faculty of the college. Special focus is paid for all round development of student to show their hidden talent in addition to their educational programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and carrier. Annual College Week, Blood Donation Camp, Science Day, Awareness Programs, NSS, Physical Education, Sports, Literary activities etc are also organized to give the opportunity to the students. The students also participate regularly inter collegiate event of University and National level competitive events.

6.4.2.2. Faculty Profile (Department wise)

Since the College is newly established college, the regular faculties are very less but the following no of post has been proposed for the college. Out of the proposed faculty strength, only 6 teaching faculties (Assistant Professor) has been sanctioned by DoE and 2 professors are filled in place. Further 05 Assistant Professors of MTTC & VTC are also utilized at College of Agriculture.

Table: 3.College of Agriculture& MTTC/VTC

Sl. No.	Department	Sanctioned Faculty	Filled post	Vacant post	Faculty recommended by the ICAR
9.	Agronomy	Professor	1	-	1
		Associate Professor	-	-	1
		Assistant Professor	2	-	5
10	Genetics & Plant Breeding	Professor	-	1	1
		Associate Professor	-	-	1
		Assistant Professor	2	-	3
11	Plant Pathology	Professor	1	-	0

* At present the College of Agriculture is utilizing the existing facilities of College of Horticulture and Forestry, MTTC & VTC, CAU, Pasighat and for teaching and other administrative works. The existing faculty of College of Agriculture, College of Horticulture and Forestry, MTTC &VTC including the Dean of the College of Horticulture and Forestry, CAU, Pasighat is handling all the courses till appointment of faculty of the college.

6.4.3. Technical & Supporting Staff

Since the College is newly established college, the regular faculties are very less but the following no of post has been proposed for the college. Out of the proposed faculty strength, only 6 teaching faculty (Assistant Professor) has been sanctioned by DoE and 2 Professors, one Assistant, 1 Account Assistant and 1 FCLA are filled in place. Since the College is under construction, the College is still attached with the College of Horticulture and Forestry in the same campus.

The advertisement for recruitment of the sanctioned regular technical and supporting staff of the College of Agriculture has been initiated. Till then the faculty of the College of Horticulture and Forestry has been utilized as both the colleges are under same campus. The technical staff for the College of Horticulture and Forestry were utilized for the College of Agriculture too and allotted in different departments whenever need arises. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office. The details of staff involved are listed below:

Table: 6. Information of Technical & Supporting Staff

Sl. No.	Name of the Post	No. of Post	Actual Filled
1.	Dean	01	01
A.	**Establishment**		
2.	Asstt. Admin Officer(Asstt. Regt.)	01	00
3.	Asstt. Academic Officer (AS)	-	*
4.	Assistant Accounts Officer	01	*
5.	Assistants (one for each AAO) (OS)	01	01
6.	Steno/Computer Operators	01	01

26.	Medical Attendant	1	-

6.4.4. Classrooms and Laboratories:

For the welfare of the students and less sanction faculties of the college, the College of Agriculture, CAU, Pasighat is utilizing the faculties of the College of Horticulture and Forestry as the students and the faculties stay in the same campus with the same facilities of the college of Horticulture and Forestry, CAU, Pasighat.

Since the college is under construction, the College of Horticulture and Forestry, CAU, classroom is giving good facilities to our students. Four well-equipped classrooms are made available with this college (CHF). These are well equipped with audio-visual aids for effective teaching. Different sections of this college also have well-equipped laboratories and separate instrument cell for conducting practical classes of the students. Since the laboratories are equipped with most of the instruments, it also enables staff of this college to carry out research.

Table: 7. Class room available

Class Room	Smart class room/interactive Board
UG Hall-1	Smart class room

UG Hall-2	Smart class room
UG Hall-3	Smart class room
UG Hall-4	Smart class room

Table: 8. Number of laboratories available

Sl. No.	Section	No. of laboratories available for UG
1.	NRM	2 Laboratory / Practical hall
2.	Horticulture	1 Laboratories / Practical hall
3.	Vegetable Science	1 Laboratories / Practical hall
4.	Soil Science &Agril. Chemistry	1 Laboratory / Practical hall
5.	Basic Science	1 Laboratory / Practical hall
6.	Agril. Entomology	1 Laboratory / Practical hall
7.	Plant Pathology	1 Laboratory / Practical hall
8.	Post Harvest Technology	1 Laboratory / Practical hall
9.	Agro Forestry	1 Laboratory / Practical hall
10.	Tissues Culture	1 Laboratory / Practical hall

Table: 9. Average number of students in theory and practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical
1.	B.Sc. (Agri.)	1 batch (24no.)	1 batch (24no.)

The class rooms and laboratories are sufficient to meet course curricula requirement of the degree programme.

6.4.4. Details of Classrooms and Laboratories:

a) **Number of class rooms**: (UG 4+PG 8)=12

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board etc. are available in each class room for the use of teachers. A

common generator facility supplies power to all the classrooms to avoid interruption of the class during power failure.

b) **Functional Laboratories (Agriculture& allied):**13 nos.

Table: 10.Department/Section wise Functional Laboratories available

Sl.No.	Department/Section	Area (Sqmtr)	Remarks
1.	***Fruit Science***		
	Two Laboratory	98 and 82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*.
	Vegetable Science		
2.	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements etc.
3.	***Floriculture, Landscape and MAP***		
	One Laboratory	82	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*.
4.	***Post-Harvest Management***		
	One Laboratory	72	Equipped with all necessary instruments & lab infrastructure with basins, water, electricity, sitting arrangements *etc*. Equipment for processing of horticultural produces.
5.	***Basic Sciences & Humanities***		
	UG Basic Science Lab	28	Biochemical, biotechnological & microbiological practical & research needs of students are being fulfilled.
	PG Basic Science Lab	28	
	Tissue CultureLab	47	
	Computer Laboratory	48	The lab is used for conducting Practical classes for PG students equipped with 15 computer & 2 printers for student access. Internet band width/ speed: 32Mbps.
6.	***Plant Protection***		
	Entomology (Biocontrol) Laboratory:	72	Facilities equipped for research work on crop pests management & production of biocontrol agents
	Entomology (IBDC) Lab:	85	
	Pathology Laboratory Mushroom(Sterlization room, Boiling room)	144	Production of Mushroom spawn and other microbial research work carried-out.
	Pathology (Mushroom inoculation)	45	Inoculating mushroom. The laboratory is also equipped with culturing and spawns production
7.	***Natural Resource Management***		
	Soil Science & Agricultural Chemistry Laboratory	100	The laboratory is equipped with various facilities to analyse the soil samples, related to various degree programmes (UG and PG) of Agriculture, Horticulture and Forestry.
8.	***Forest Product Utilization***		

	Medicinal and Aromatic Plants Laboratory	160	Equipped with all the modern equipments for practical, sitting arrangements, Distillation, extraction facilities, etc.
	Wood Products and Utilization Laboratory	90	Facilities for characterization of morphological, anatomical, mechanical & chemical properties of timber. Other work carried out -wood design, fabrication ,etc.
9.	***Tree Improvement & PBG***		
	TIM Laboratory	72	Equipped with instruments for research &practicals. Water basins fitted in the laboratory for proper drainage of water and chemicals.

a) **Lists of major Equipments:**

The laboratories are well equipped to conduct the practicals/hands on training to the students with instruments, laboratory tables, basins, irrigation facilities, electrical and ventilations, adequate wooden furniture etc. The lists of instruments/ equipments available in the laboratories are furnished below.

(i) Department of Horticulture

S.No.	Name of the equipment	S. No.	Name of the equipment

(d) Farm facilities, workshops and other instructional units: 16 nos.

Table: 11.Farm facilities, workshops and other instructional units

Sl. No.	Department/Section	Area (Sq. mtr.)	Facilities
1.	***Horticulture***		
	(i) Fruit Nursery	9100	• Nursery raised bed= 30 Nos. • Shade net house (5x1.5m) = 15 Nos. • Green Net House (9mx16.5mx 5.5m) • Fruit germplasm collection of 100 species of tree species for research/academic • Water Pump with motor, Irrigation & electricity setups.
	(ii) FruitBlock	2100	• Fruit plantation and garden blocks of different crops. • Water Pump with motor, Irrigation & electricity setups.
2.	***Vegetable Science***		
	(i) Vegetable Nursery	1200	• Nursery raised bed= 30 Nos. • Shade net house (5x1.5m) = 15 Nos. • Green Net House (9mx16.5mx 5.5m) • Water Pump with motor , Irrigation & electricity setups
	(ii) VegetableBlock	9100	• Vegetable and spices seed production blocks of different crops. • Water Pump with motor, Irrigation & electricity setups.
3.	***Floriculture and Landscape Architecture***		
	(i) Flower Nursery	1000	• Nursery beds = 50 Nos. • Greenhouse/ Polyhouse (15 m x 10 m) = 1 No. • Plantation/ Germplasm Blocks of different flowers species. • Water Pump with motor, Irrigation & electricity setups
	(ii) Flower Block	8400	• Shade Net House (20 m x 15 m) = 4 Nos. • Shade Net House (25 m x 20 m) = 9 Nos. • Bougainvillea block = 1000 m^2

			• Tuberose block = 200 m^2 • Gladiolus block = 500 m^2
4.	***Silviculture& Agroforestry***		
	(i) Silviculture Nursery	9100	• Nursery raised bed= 70 Nos. • Shade net house (5x1.5m) = 30 Nos. • Green Net House (9mx16.5mx 5.5m) • Tree Garden/ Collection of 250 species of tree species for research/academic • PG Research plots for germination exp • Plantation Blocks of diff. species • Water Pump with motor , Irrigation & electricity setups
	(ii) Agroforestry Block	2100	• Compost (concrete) pit • PG Research plots under different spacing's of diff. species& diff. age.
5.	***Forest Product Utilization***		
	(iii)Medicinal& Aromatic plant farm (iv)Medicinal plant germplasm block	12000	• Germplasm of Medicinal Plants • Collection of rare & endangered spp. • PG research plots • Nursery beds • Shade houses/roofs • Irrigation & electric facilities
	(v) Herbal garden	10000	• More than 160 species • Research, conservation& identification purpose
	(vi) Bambusetum block	8000	• 67 spp. of different type of bamboos • Research, conservation& identification purpose
	(vii) Rubber plantation block	20000	• Commercial genotypes of high yielding *Heveabrasiliensis*
	(viii) NTFPs & High value timber block	25000	• Tans & dye yielding plants • Lac, Gums and resins plants • Drugs, spices and insecticides plants • Wild edible fruits trees
6.	***Tree Improvement & PBG farm***		
	(ix) TIM& PBG farm	1800	• Nursery raised bed= 20 Nos. • Shade net house (15x15m) • Tokkopatta shade roofs: 10nos. • Arboretum 1100 sq.mtr • Irrigation & electricity setups

7.	***Plant Protection***		
	(x) Entomology (Biocontrol) Farm	4047	• Nursery Beds, Research plots • Water Pump with motor , Irrigation & electricity setups
	(xi) Entomology (IBDC) Farm	2023	• All equipments of beekeeping • Irrigation facility • Plots for nectar yielding plant
	(xii) Pathology Farm	1083	• Disease Diagnostic Field • Students demonstration plot • Nursery beds • Irrigation& electric facilities.
	(xiii) Paddy straw boiling unit and mushroom House	1350	• Boiling unit • Facilities for mushroom culture & production • Unit has more than 250 species of edible and poisonous mushroom species.
8.	***Natural Resource Management***		
	(xiv) Forest Engineering Facility (xv) Farm Power & Irrigation Infrastructures	1500	• Runoff Experiment Facility • Rain water Harvesting Based Integrated Horticulture Farming System • WHP=5 Laks Litters Capacity • 5Hp Solar Pumping System • Naturally Ventilated Greenhouse= 30m ×7m • Drip irrigation system operated by Solar Pump • Sprinkler Irrigation System operated by solar pump • Gravity fed drip Irrigation System in 500sq.m area • Basic Power Machineries available
	(xvi) Agrometerology Observatory	500	• Meterological observation data for Research and Academic purpose

(e) Justification:

The laboratories of all departments are well equipped with all the necessary equipments and facilities to accomplish the proposed research activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratories.The Farm facilities, workshops and other instructional units are well designed with sufficient land area and build infrastructure, irrigation, electricity and required farm machineries supported with tractors, power tillers, cultivators, leveller, rotavator, and other farm implements for day to day work and research purposeto meet the course curricula and research requirements.

(f) Theory and practical batches for the Degree Programme: The number of intake students is manageable due to limited number of seats.

Table: 12. Average number of students in theory & practical classes

Sl. No.	Name of the degree programme	Batch of student in theory	Batch of student in practical
1.	B.Sc. (Agri.)	1 batch (24no.)	1 batch (24no.)

The class rooms and laboratories are sufficient to meet course curricularequirement of the degree programme.

6.4.5. Conduct of Practical and Hands-on-Training:

The undergraduate courses involve conducting practical's as per credits allotted to the specified courses and hands on training and field/lab practical are for courses. Since the college is under construction, the College of Horticulture and Forestry, CAU, is giving good facilities to our students. The practical classes and Hands-on-Training were conducted in different laboratories, field, nursery *etc*, with the support of the faculties of the College of Horticulture and Forestry, CAU, Pasighat

In plant biotechnology the technique of micro propagation in banana, strawberry and vegetables are demonstrated. Propagation methods demonstrated. Production Technology of Vegetables and Flower Crops: Maximization of vegetable yield by *viz*., staking, turning, blanching, earthling up. Vegetable Production: commercial production and marketing of various vegetables & preparation of value added products.

Plant protection measures for technologies of IPM/IDM of different crops are demonstrated to the effective management of crops losses by pest and diseases. Apart from IPM/IDM students also learned mushroom production, biopesticides production and honey bee keeping at commercial level to helpful for entrepreneurship development.

Soil analysis for different micro and macro nutrient demonstrated by practically. The agro-industries visits comprise of fruit processing, cold storage, post harvest and marketing management (sorting, grading, packing), rice mill, poultry (layer, broiler and indigenous breeds), poultry feed, sugar mill, dairy (co-operative and private), milk collection, chilling, processing; processing mill, nursery (government and private), agro-service centre, etc.

6.4.6. Supervision of students in UG/~~PG / Ph. D~~Programmes: (number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

This college do not have PG/Ph. D. programme because the College of Agriculture is a newly established College under Central Agricultural University, Imphal, there are no students enrolled in PG/Ph.D programme. However, there is regular monthly counseling meetings are conducted to discuss regarding overall academic progress of undergraduate

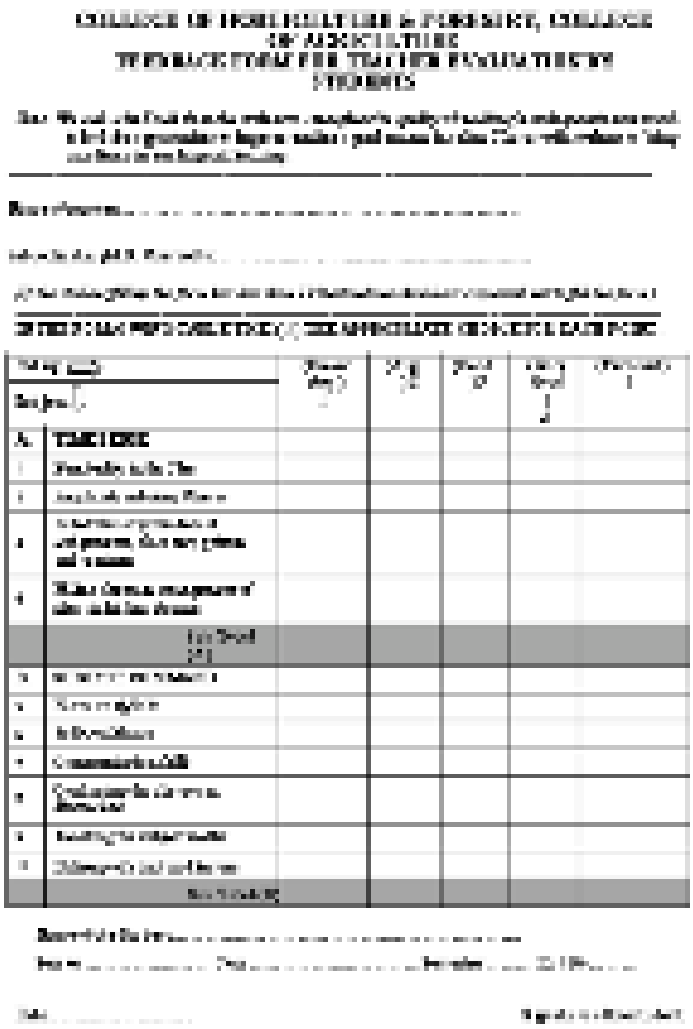
students, behavior, economical and personal development. In emergency/ misbehaviors of students, student health problems are regularly monitored.

6.4.7. Feedback of stakeholders: (Students, Parents, Industries, Employers, Farmers *etc*.)

This college is especially for the 80% tribal students & gives opportunities to the tribal students for the career development in Agriculture sector. This college has kept suggestion and complaints box in college premises. Regular counseling meetings are organized and in emergency parents are also participated for the personality developments of students. This college has provided an excellent platform and infrastructure to establish rapport between students and teachers.

Few feedback form are taken to explain the issues raised by the respondents

1. **Scanned Copy of Feedback form 1**

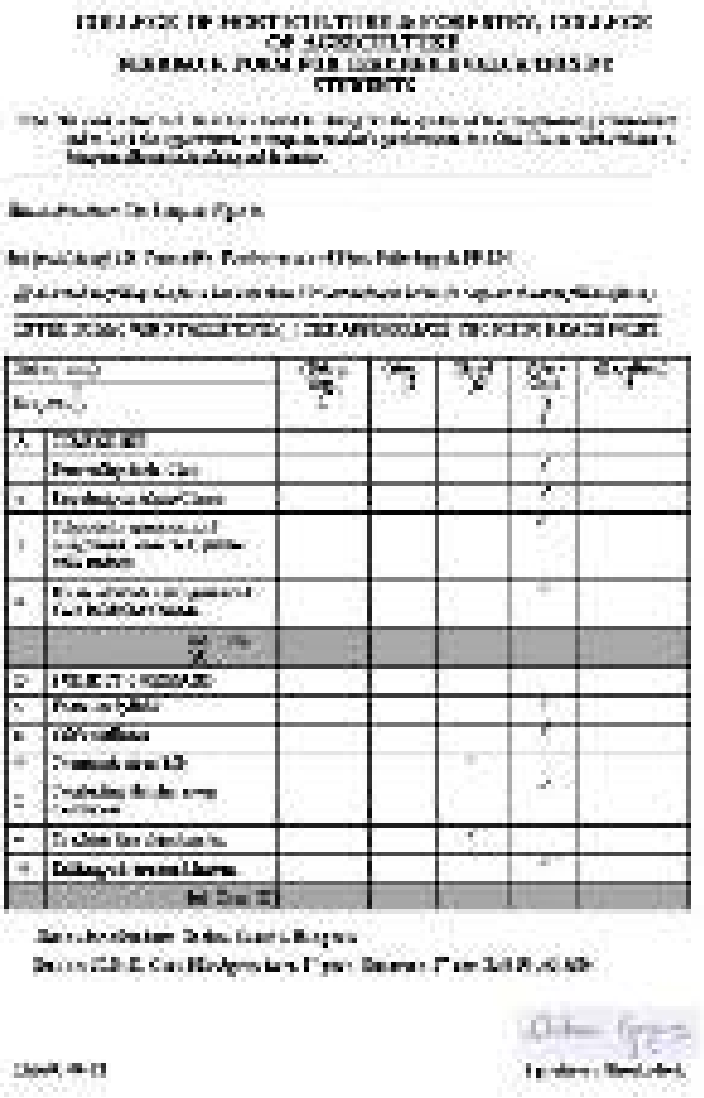


Action taken: Feedback highlighted the requirement of more emphasis on the employability of the students graduating from the college. Smart classroom have been set up and initiated for preparation of JRF and other competitive exams.

2. Scanned copy of feedback form 2

Action taken: Classes along with hands on training also been conducted for better explanation of the concepts and fundamentals of the subject.

3. **Scanned Copy of Feedback form 3**



Action taken: Feedback highlighted the requirement of more relevant practical classes which could be improved through knowledge with various research institutes through short period exposure and learning in their laboratories. The laboratory up gradation is in initial stages and improvement is necessary l in providing advance facilities in the college also.

6.4.8. Student intake and attrition in the programme for the last five years

Table: 13. Student intake and attrition in the programme for the five years

Year	Degree Program	Intake capacity	Actual Student admitted	Attrition (%)
2015-16	B.Sc.(Hons) Agriculture	20	19	-
2016-17	B.Sc.(Hons) Agriculture	24	19	-
2017-18	B.Sc.(Hons) Agriculture	24	18	5.56 (1 student)
2018-19	B.Sc.(Hons) Agriculture	24	19	-
2019-20	B.Sc.(Hons) Agriculture	24	18	-
2020-21	B.Sc.(Hons) Agriculture	34	32	15.62 (5 students)

6.4.9. ICT Application in curricula delivery:

Since the college is under construction, the College of Horticulture and Forestry, CAU, is giving good facilities to our students. It will be initiated after the completion of the construction of the college.

(a) Computer facilities:

The students and the faculties were utilizing the computers laboratory/facilities of the College of Horticulture and Forestry, CAU, Pasighat. The College of Horticulture and Forestry provides unlimited Internet facility to the staffs and students. Wi-Fi Internet hotspot facility has been provided at Academic building, Old College building, VC Camp, Guest House and Daisy Girl's Hostel.The Faculty members and students utilize internet and computer facility for carrying out academic research and extension activities. The lab is also used for conducting Practical classes for the students of B.Sc. (Hons.) Agriculture. They also use the Computer Lab for their research, statistical calculation and other academic activities.

The college has well-equipped air conditioned Computer lab with a plinth area of 80 square meter. The students are being taught about the IT facilities. The computer centre is equipped with Desktops for the use of staff and students of this institute. All these desktops and laptops are connected with internet for browsing. Since October, 2020 the computer centre is connected with 24x7 34 Mbps ,InternetAccess through BSNL . The facilities available in the computer lab are:

- 24 hours x 7 days / week free Internet access (34 Mbps) to students
- Wi-Fi enabled at New Academic Block (since 2015) to use e-communications for students and staffs.
- Students are trained to install open source software.
- Computers with Internet access are available in all departments.

- Academic buildings are linked with Administrative building through Optic Fiber Cable.
- Total number of computers for public access: 15
- Total numbers of printers for public access: 02
- Internet band width/ speed: 34Mbps through BSNL
- The lab is used for conducting Practical classes for UG and PG students.
- Students also use the Computer Lab for their research, statistical calculation and other academic activities.
- The academic, research, extension activities of the college are updated at the college website.

(b) Library Services:

Location of Library:

The Library of College of Horticulture and Forestry, Pasighat was established in 2001.The total built up area of the library is 231 m^2 .College maintains a very spatial library and it also subscribes a good number of national and international journals, magazines and newspapers. The library has four computer terminals and one separate library server. All the computers are connected with internet access. Under the ICAR project, the college library provides access to foreign periodicals through CeRa (Consortium for e-References in Agriculture, India). Through this service, the students and faculty can access on-line Portals and Bouquet of journals from Publishers with full text of an articles such as Springerlink, Annual Reviews, CISRO (Australia) and JCCC (J-Gate Custom Content for Consortia).

- **Present Staff Position (in place):**

S.No.	Staff	Number
1.	Present staff	• 1 Librarian • 3 Library Assistants • 1 Clerk • 3 Multi-tasking Staffs

- **Availability of Wi-Fi:**
  Wi-fi facilities are available in the library with internet band width speed of 2Mbps from BSNL

- Books/ Reading material (in Number):

S.No	Particular	Number
5.	Books	17,925
6.	Newspapers	06
7.	Magazines	04
8.	Bound volumes	278

- **Periodicals/Research Journals(in Number)** : 17
- **Internet facility** :Internet band width speed of 32Mbps rom BSNL
- **No of Computers** : 06 nos
- **Seating Capacity** : 30 nos

- **Latest Technology in the library**:

The library of the college is equipped with internet facilities through which the staff and students can access OPAC (Online Public Access Catalogue) at www.chfcau.ideal.egranth.ac.in.

Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia for e-Resources in Agriculture)

Two Library Softwares in process: (i) Alice for Window (Softlink Asia pvt.ltd) Offline and (ii) Koha Library management Software

Krishikosh (e-theses etc. Institutional Repository of ICAR) all M.Sc. and Ph.D. Theses are uploaded. It is open repository. URL: Krishikosh.egranth.ac.in

Commonwealth Agricultural Bureau (CAB) data base access facility (database from 1972 to 2005)

- **Stocking arrangements**:

Book stocks arranged as per the subjects

Stock racks are available in 2 sizes, 10 racks with size of 7.3 ft. and 31 racks with size of 6 ft.26 number of book cases are available

- **Collection of volumes on different subject**:

S.No	Particular	Number
19.	Genetics and Plant Breeding	436
20.	Ag. Economics	81
21.	Soil Science& Ag. Chemistry	393
22.	Horticulture	293

6.5.1.2. Monitoring Mechanism for Quality Education (on-line):

Students' excelling in academics, research and extracurricular activities.

The College is following ICAR course curriculum for every programmes. Wherever a modification in course curriculum is required within the permissible limit, a due process is followed and the matter is first presented before the Board of Studies and after its recommendation, due approval of CAU academic council is taken. All the course instructors are submitting a comprehensive lesson plan covering entire syllabi for each course and adhered to their plan during the entire semester. As per the need, besides referring the quality books in college library text material is also provided by the teachers. To assess their understanding about the subject, frequent assignments with the time limit of their submission by the students is followed. These assignments are timely evaluated and returned to the students for further improvements. Only the validated and quality materials available online is referred to the students. In addition, a number of national and international quality journal available online over CERA/DELCON are referred to the students in association with CPGS-AS, Umiam campus.

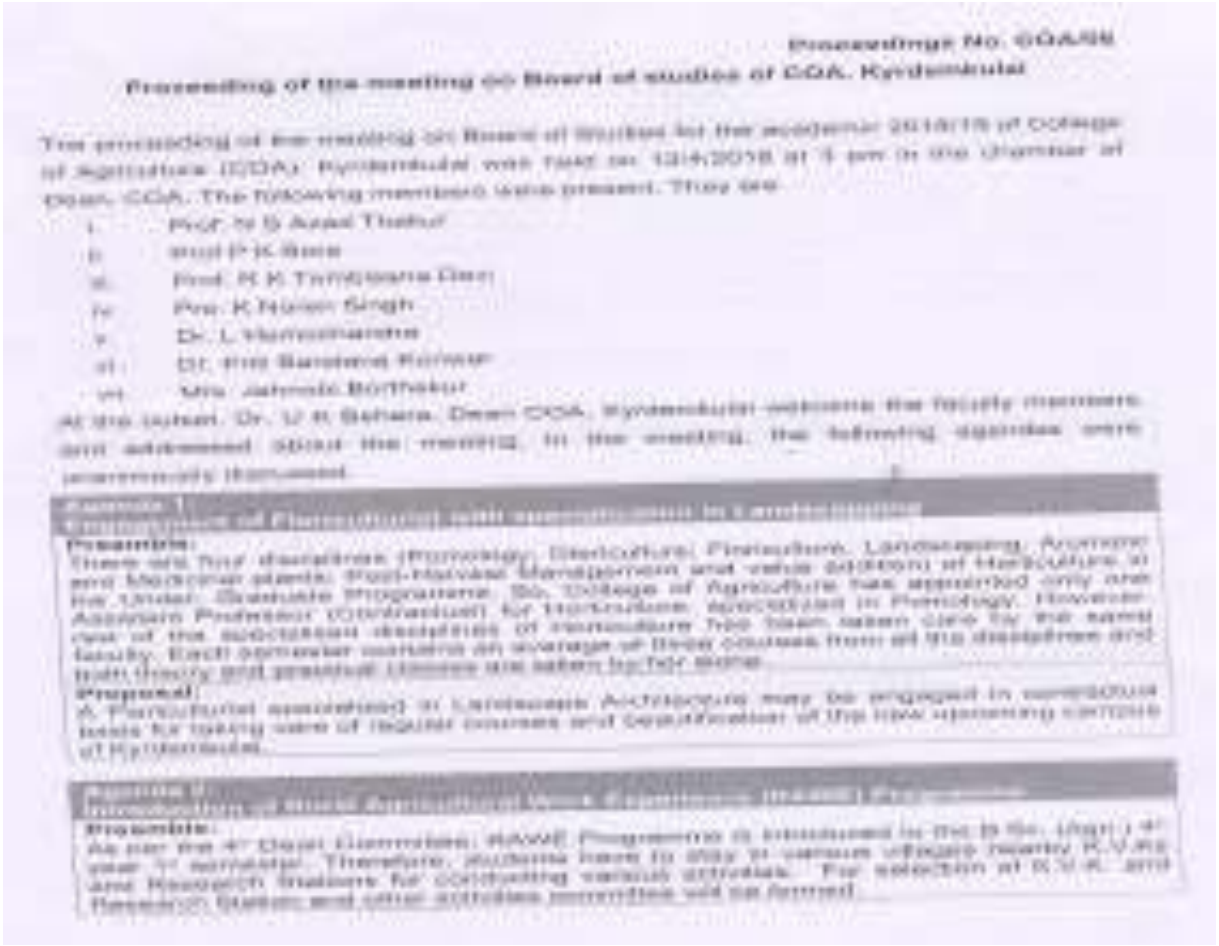
Extracurricular activities for students are organized by the college through the Student Welfare officer and they are encouraged to participate in various college level, university level, regional and national level cultural and sport events.

Academic progress of the students is evaluated by semester long evaluation process. For theory courses, 50% evaluation is done by the concern course teacher/s and for remaining 50%, question paper is set by an external examiner selected from the panel approved by the competent authority of the university. However, end term question paper is evaluated by the teacher other than the course instructor in the discipline. Two quizzes are conducted in each course by the concerned teacher at periodic intervals before the midterm exam. Next two quizzes are conducted after midterm but before end term exam. Midterm and end term examinations are organized as per the academic calendar of the CAU, Imphal. Almost 50% course is completed before midterm and the entire syllabi are completed before the end term exam. If required, teacher may conduct extra classes for timely completion of the course curriculum. Hands on training, practical experience learned during the semester in each course is evaluated at regular interval in each class by regular checking of their practical records and observing the progress made by the students in the laboratory during practical class.

6.5.1.3. CC/Board of Studies:

The Academic council, Central Agricultural University, Imphal, Manipur is the competent authority for decision making processes in academic matters and reserve the rights to approve/or disapprove proposals related to academic matters.

- 1st Board of studies meeting held on 12-04-2018 at chamber of Dean, COA, Kyrdemkulai.



Proceedings No. COA/BS

Proceeding of the meeting of Board of studies of COA, Kyrdemkulai

Proposal:
Budget for the RAWEP may be placed before authority for sanction at the college level well in advance. A multidisciplinary team of faculties may be constituted in advance.

Agenda 3:
Introduction of Experiential Learning Programme (ELP)

Preamble:
As per the 4th Dean Committee, ELP is introduced to the B.Sc (Agri.) 4th year 2nd semester. Therefore, group of students have to be engaged in various activities like Mushroom production, Vermicompost unit establishment, Production of Commercial Horticultural Crops, Nursery management, Biofertilizer production etc. In ELP, students have to do all the activities right from production to marketing of the produce by themselves. The facilities for conducting such type of practices are not yet developed in the new campus of College of Agriculture, Kyrdemkulai. For successful completion of ELP minimum facilities have to be provided.

Proposal:
Budget for the ELP may be sanctioned for the next semester.

Agenda 4: Engagement of English teacher on contractual basis as per CAU rule

Preamble:
In the U.G. Programme there are two English courses in two semesters according to 5th Deans's committee that course has been taken under care of one private teacher from Meghalaya. As per CAU rule the teacher should be from state govt./ central govt./Kendriya Vidyalaya.

Proposal:
Committee suggested to engage one Govt. teacher may be engaged for teaching English course.

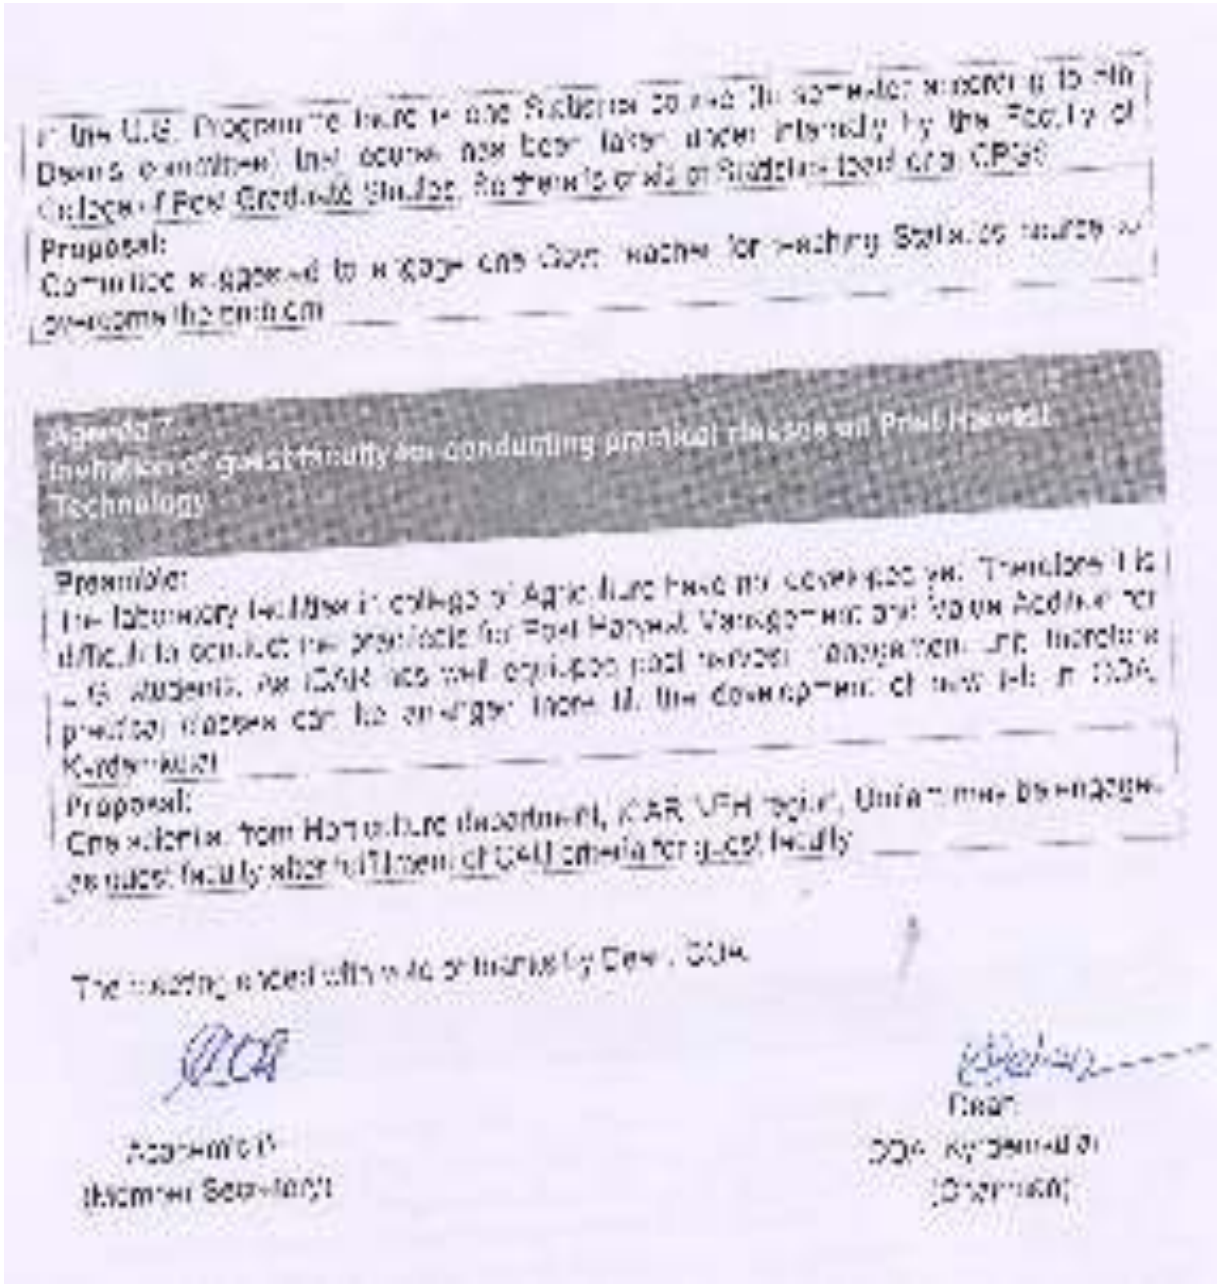
Agenda5: Engagement of Mathematics teacher on contractual basis as per CAU rule

Preamble:
In the U.G. Programme there is one mathematics course (1st year 1st semester according to 5th Dean's committee) that course has been taken by internal arrangement by the Faculty of College of Post Graduate Studies.

Proposal:
Committee suggested to engage one Govt. teacher for teaching Mathematics course.

Agenda 6: Engagement of Statistics teacher on contractual basis as per CAU rule

Preamble:



- 2ndBoard of studies meeting held on 22-05-2019 at COA, Imphal (CAU/CA (Acad)-8/BOS/2012-260. Dt. 15th May, 2019)
- 3rdBoard of studies meeting held on 27-04-2020 through video conferencing and the documentary proof of the same (proceedings) attached below.

PROCEEDINGS OF THE THIRD BOARD OF STUDIES MEETING OF FACULTY OF AGRICULTURE, CENTRAL AGRICULTURAL UNIVERSITY (IMPHAL), IMPHAL, MANIPUR HELD ON 27TH APRIL, 2021 THROUGH VIDEO CONFERENCING.

The third Board of Studies Meeting of Faculty of Agriculture, Central Agricultural University, Imphal, Manipur was started at 11.30 am on 27th April, 2021 @ the Conference Hall of the College under the Chairmanship of Dr. Indira Saranathan, Dean, Faculty of Agriculture, CAU, Imphal, Manipur.

The members present in the meeting were:

i. Dr. V.M. Salokhe, Former Vice-Chancellor, Sardar Krishi Vishwavidyalaya (BCKV), Mohanpur, W.B. [Online]

ii. Dr. C. Singh, Ex-Dean and Professor of Agronomy, Institute of Agricultural Sciences, Banaras Hindu University, U.P. [Online]

iii. Dr. S. Ayanaba Singh, Director (Research), CAU, Imphal, Manipur [Online]

iv. Dr. Gopi Samanta Sena, Director (Extension Education), CAU, Imphal, Manipur [Online]

v. Dr. N. Ramesh, Head, School of Post Graduate Studies (SPGS), Umiam, Barapani, Meghalaya [Online]

vi. Dr. U.C. Lakra, Dean, College of Agriculture, Kyrdemkulai, Meghalaya [Online]

vii. Dr. B.N. Tripathi, Dean, College of Agriculture, Pasighat, Arunachal Pradesh [Online]

viii. Dr. Lalita Sanajaoba Devi, College of Agriculture (CAU), Imphal, Manipur

ix. Dr. Pramod Kumar Choudhary, Prof. & Head, Plant Pathology Department, CAU, Imphal, Manipur

x. Dr. L. Nabachandra Singh, Professor, Agronomy Department, CAU, Imphal, Manipur

xi. Dr. R.K.D. Singh, Prof. & Head, Genetics & Plant Breeding Department, CAU, Imphal, Manipur

xii. Dr. N. Devendra Singh, Academic Officer, Maize Section, ICAR, CAU, Imphal, Manipur

xiii. Ms. Rahana Ch., M.Sc. (Agri.), First Year Student of 2020, CAU, Imphal, Manipur

xiv. Dr. Pravin Rathi, Associate Professor, Agricultural Economics, Department, CAU, Imphal, Manipur (Rapporteur)

COLLEGE OF AGRICULTURE, KYRDEMKULAI, MEGHALAYA

Agenda Item No.9	Shifting of the course "Fundamentals of Plant Biotechnology (PHBTmeckEL)" from 1st year 1st semester to 2nd year 1st semester of B.Sc (Agri.) Hons programme

As per the Directive of Hon'ble Dy. CM, Meghalaya this proposal was circulated to all the concerned colleges of the University.

Dr. [illegible] has opposed the proposal.

Dr. N.D. Singh proposed that if the proposed course could be accommodated with Land Management in completely virtual

Dr. [illegible] suggested to keep it in the 1st year proposed course as per the academic credit

Recommendation: Keeping view of the above facts, the members of the house agreed to approve the proposal and agreed to place as an agenda in the next academic council with proper justification.

Agenda Item No.10	Experiential Learning Programme- Filling decision for completion of ELP programme under present scenario

Dr. S. Jeyaraj stated that the proposed [illegible] in the Academic Council Immediately after the Inter-departmental [illegible] for approval of the University Authority

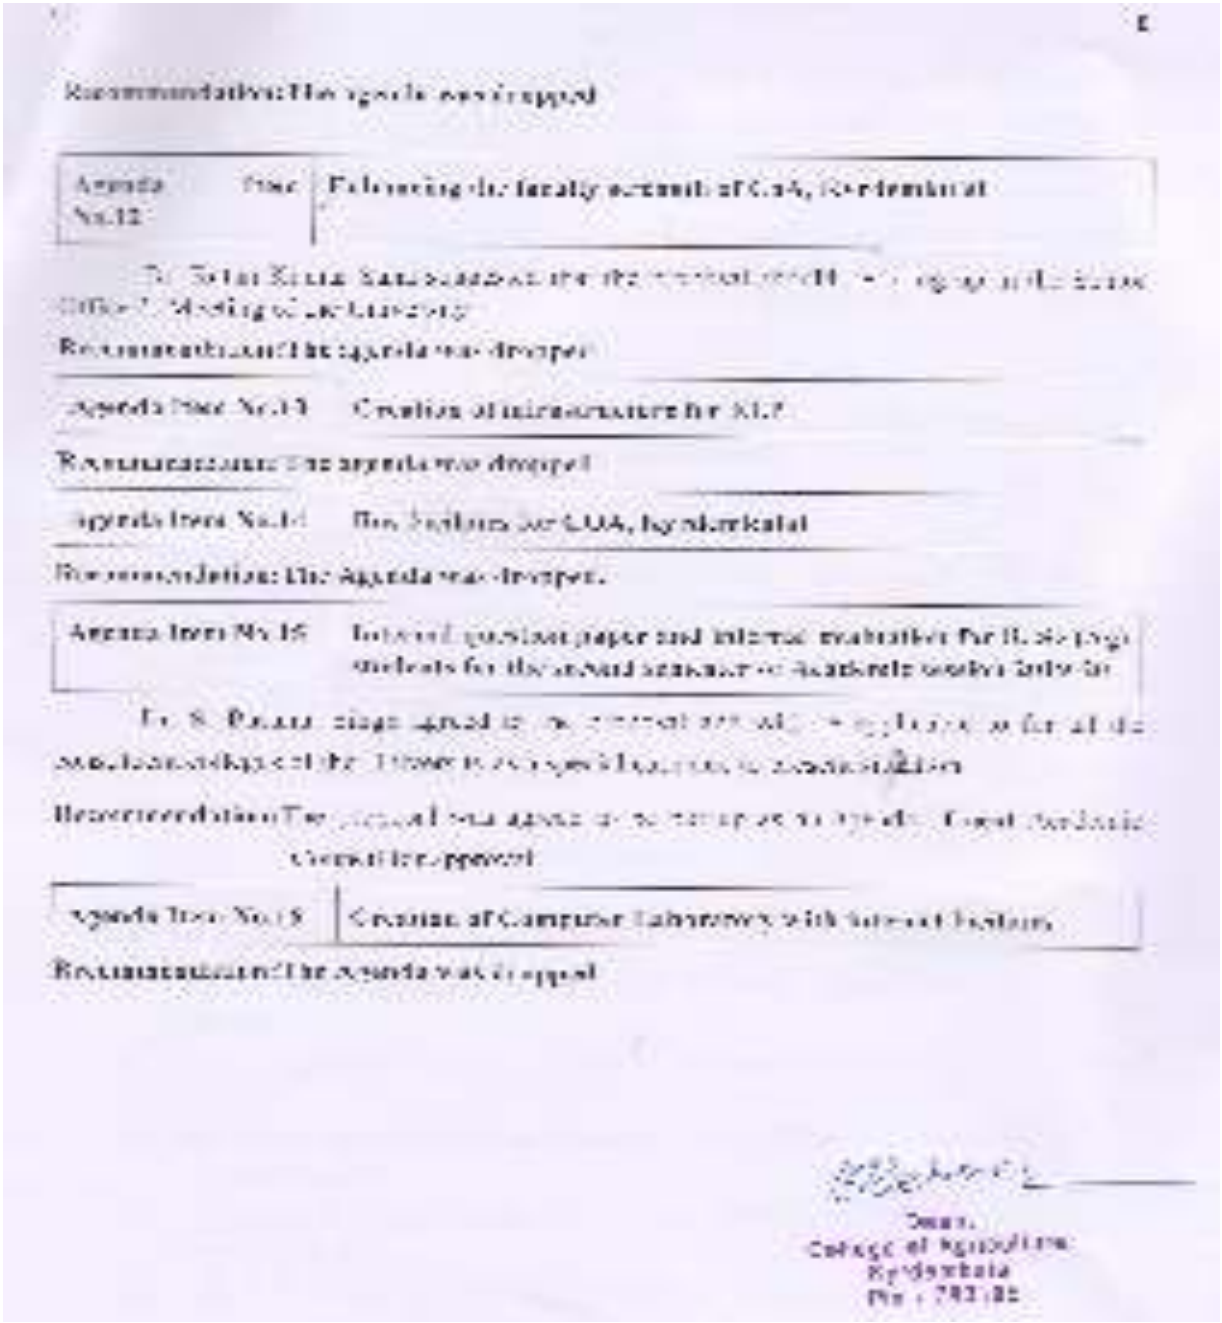
Participating the discussion Dr. K.M. Sahay highlighted that all the constituent colleges are situated in the different [illegible] so it is impossible to [illegible] the University

Recommendation: the proposal was dropped.

Agenda Item No.11	Increase of the student's strength in UG courses for COA, Kyrdemkulai

Dr. [illegible] the proposal [illegible] the [illegible] data [illegible] the number of students in the college with regards to [illegible]

Dr. N.B. Singh [illegible] the [illegible] faculty in [illegible] of students [illegible] proposal could be accepted



- A board of studies for faculty of agriculture constituting four agriculture colleges, in which CoA-K is a constituent member as per reconstitution no. CAU/DI/92(i)/10-11/74 order dated 22-4-2021. The members of board of studies include the dean of four colleges; directors of instruction, research and extension education, CAU; internal members (3 from CoA, Imphal; 3 from CoA, Pasighat; 4 from CoA, Krydemkulai and 4 members from CPGSAS); two external experts nominated by Hon' Vice Chancellor; one representative of academic council (nominated by Hon' Vice Chancellor); one final year PG student with highest OGPA with incharge academic, CoA, Imphal as member secretary.

Member: Dr. A. A. Shahane, Assistant Professor, COA-K
Dr. G. BhuvanaPriya, Assistant Professor, COA-K

6.5.1.4. Anti Ragging Cell:

In pursuance to the "UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009", the Anti-ragging Committee of the College of Agriculture, Kyrdemkuylai, Central Agricultural University, is constituted in every academic year as per UGC Regulations. Apart from that, the college also constituted Anti Ragging Squad with faculty members and non-teaching staff residing in the campus for keeping constant vigil, patrolling and to remain alert in order to curb any instances of ragging in the College campus.

6.5.3. Learning resources:

6.5.3.1 College Library (digital):

Location of the library:	The College library is housed on the top floor of a 230 sq meter (approx) Library cum Mess Block building (2 floor building)
Present staff Position:	Sr. Library Asst. =1, Library Asst. = 1, MTS = 1
Availability of Wi Fi:	Yes. The Library is Wi Fi enabled.
Books / Reading Material (in Number)	5479 (course and reference books)
Periodicals / Research Journals (in Number)	**55** Periodicals/ Research journals subscribed and **2794** e-journals, databases such as Agristat, KrishiPrabha and KrishiKosh Repository and ebooks through a consortium approach
Internet Facility:	Yes. LAN and Wi-Fi.
No of computers:	11 (8 user access and 3 staff access)
Seating Capacity:	45 seating capacity in the Reading Hall.
Latest technology in the library:	The Library is using Koha Integrated Library Management Software.
Stocking Arrangement:	The Library is following the Dewey Decimal Classification 23rd edition.
Collection of volumes on different subject:	Yes. The library has been building the collection in all subjects being offered in the College. Books are being procured on the recommendation of the course faculty.
Latest publications in the field of relevant subject:	Relevant new editions and up-to-date titles are being procured as per requirement.
Opening Hours:	9.30 AM - 4.30 PM on all working days of the College.
Subscription of journals of national & International repute national dailies / magazines (provide List)	The library subscribes to a total of 71 numbers of Indian published journals, 12 International journals, newspapers, magazines,etc (List enclosed below).The subscription of International journals which are available through CeRA consortium has been discontinued.

Details of subscription of journals, national dailies, magazines, etc subscribed by library

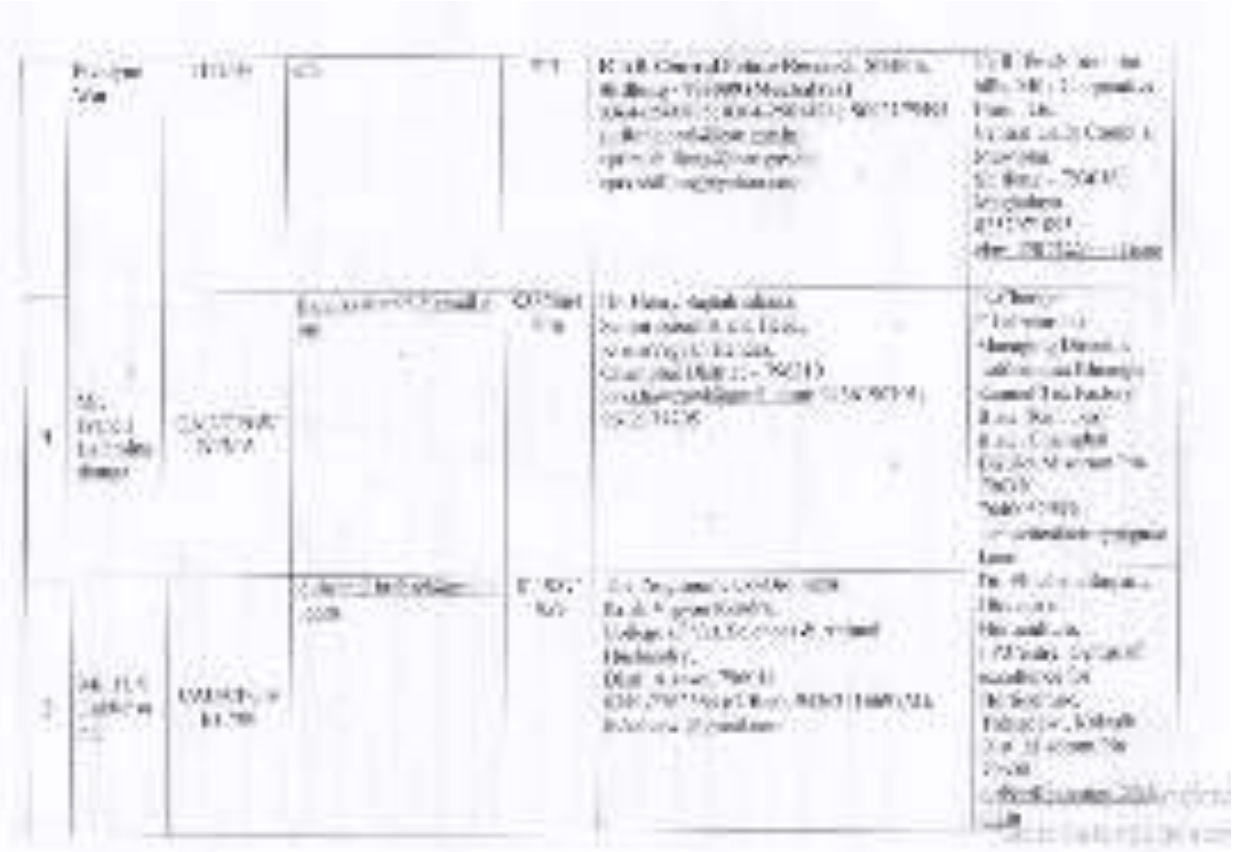
6.5.3.3. Student READY/ In-Plant Training / Internship / Experiential Learning Programmes:
Clearly mention about the implementation of Student READY/ In-plant training/ Internship/Experiential Learning programmes and learning outcomes as per the guidelines of ICAR. Profit sharing mechanism (amount) shall be mentioned for each ELP unit sanctioned by the ICAR for the college.

Implementation of Student READY programme (as per fifth Dean's committee):

		No. of weeks	
1	General orientation & On campus training by different faculties	1	14
2	Village attachment	8	
	Unit attachment in Univ./ College. KVK/ Research Station Attachment	5	
3	Plant clinic	2	02
	Agro-Industrial Attachment	3	04
4	Project Report Preparation, Presentation and Evaluation	1	
	Total		**20**

RAWE Component (Village attachment&Agro- Industrial Attachment): for the academic year 2020-21 (01-10-2020 to 28-02-2021)
For AIA, the students would be attached with the agro-industries for a period of 3 weeks to get an experience of the industrial environment and working.



Modules of ELP implemented in COA, Kyremkulai:

- For academic year 2018-19: Mushroom production (PP-48PP), Crop production (Agron-48A) and Integrated farming system (Agron-48B)
- For academic year 2019-20: High value crops (Module-1), Vermi-composting (Module-2), Mushroom (Module-3) and Planting material (Module-4)
- From academic year 2020-21: Production technology of bioagent and biofertilizers (SSAS-4810A), Mushroom Cultivation Technology (PP-4810B), Poultry Production Technology (AH-4810C), Agricultural Waste Management (SSAC-4810D), Organic Production Technology (Agron-4810E) and High tech Horticulture and planting material (Hort-4810F)

S.No	Name of the module	Amount during (Year) in Rs.				
		2016	2017	2018	2019	2020
1	Mushroom Production				20,000	10,000
2	IFS				30,000	40,000
3	Vermicompost				10,000	10,000

Learning outcomes:

- Implementation of Student Ready/ELP programme for B.Sc., Agriculture, facilitates the students in understanding actual situation at village/farmers level by undergoing interventions in differents aspects of agriculture like agronomy, plant protection interventions, soil testing, fruit and vegetable production interventions, animal production interventions, food processing and storage interventions and extension and technology transfer activities. Attachment of students to agro-industries, enables them to understand the structure, function, objective and mandate of the industry to which they are attached. Students study various methods of processing, processing units established at the industries and hands-on training with the assistance of industry staff. This creates an opportunity to the students about the actual industrial aspect of entrepreunership through skill development, learning business network etc.,
- Experiential Learning Programme (ELP) necessiates the students to involve themselves in a particular module and gaining the hands-on experience right from the beginning of the establishment of a particular module to a final output of that module. Doing this activity, helps the students to know the practical aspect of any module to which they are enrolled, and generate income out of it, which eventually be an employment opportunity for them in future.

6.5.3.4. Curricula Delivery Through IT (smart class rooms/interactive board etc.):

All the class rooms in the college have one good quality white board. One conference room having internet connectivity and equipped with LCD projectors. Smart class rooms facility availed from CPGS-AS, Umiam. All the class rooms in the college above have one big size, good quality white board, internet connectivity and equipped with LCD projectors. In addition, one classroom in the School of Social Science is also equipped with interactive white board. The students can also avail the internet connectivity for retrieval of scientific information from the college library as wellas from their hostel room. All the faculties are also equipped with a computer connected with the internet and a printer for helping them to conduct online classes, retrieve the scientific information for converting their teaching into a learning process for the students.

6.5.4. Student Development:

6.5.4.1. Student Intake and Attrition:

Name of the degree programme	**Actual student intake in last five years**					**Attrition (%)**				
B.Sc., Agri (Hons)	**2016-17**	**2017-18**	**2018-19**	**2019-20**	**2020-21**	**2016-17**	**2017-18**	**2018-19**	**2019-20**	**2020-21**
	12	18	18	18	22	0	0	0	0	4.55

6.5.4.2. Average Number of Students in Theory and Practical Classes:

S.No	**Name of the degree programme**	**Batch of students in theory class**	**Batch of students in practical class**
1	B.Sc., Agri. (Hons.)	01	01

6.5.4.3. Admission Process:

Our College is one of constituting college of Central Agricultural University, Imphal and hence the students' admission procedure is conducted by university. Our college of has getting the nominees from different north eastern states as well as from ICAR every year to fill all seats from the university headquarters. The college do not have payment seat. The fee payment structure is as per the CAU, Imphal published in prospects and we are accepting fee of registration in online mode in account section of

college. The academic schedule and date of onset and end of semester is as per the University schedule which was released every year.

6.5.4.4. Conduct of Practical and Hands on Training:

At the end of every semester the end-term exam of the offered course being conducted as per scheduled of the CAU. Exam of theory as well as practical record consisting of practical exercises is being evaluated by the course leader along with Viva-voce of practical learning and assignments. Accordingly, students are being judged and evaluated by assigning out of at least 20 marks. All the practical records prepared by the respective students in respective course are being maintained and deposited to the course leader.

6.5.4.5. Examination and Evaluation Process:

Degree Programme	**Mid Term Examination**	**Quiz (#4 in number)**	**End Term (Theory)**		**End term (Practicals)**
			Setting of QP	**Answer sheet Evaluation**	100 marks Internal setting of question paper and evaluation
B.Sc., Degree Programme	Internal (30 marks)	Internal (20 marks each)	External Theory – 50 marks	Internal	

Academic progress of the students for various courses registered by them during a degree programme is evaluated by semester long evaluation process. For theory courses, 50% evaluation is done by the concern course teacher/s and for remaining 50%, question paper is set by an external examiner selected from the panel approved by the competent authority of the university. However, end term question paper is evaluated by the teacher other than the course instructor in the discipline. Two quizzes are conducted in each course by the concerned course teacher at periodic intervals before the midterm exam. Next two quizzes are conducted after midterm but before end term exam. Midterm end endterm exams are of one and half hours and two and half hours, respectively, are organized as per the academic calendar of the CAU, Imphal. Almost 50% course is completed before midterm and entire syllabi are completed before the end term exam. If required, teacher may conduct extra classes for timely completion of the course curriculum. Hands on training, practical experience learned during the semester in each course is evaluated at regular interval in each class by regular checking of their practical records and observing the progress made by the students in the laboratory during practical class. Endterm practical exam is evaluated by the course teacher itself. Marks secured in a course in theory and practical are multiplied by number of theory credit(s) and practical credit(s) of the course respectively and added together. This is divided by the total credits (theory +practical) of the said course to get the percentage of marks, which will be divided by the 10 to obtain the grade Point (GP).

6.5.4.6. NCC/NSS/RVC Units:

Extracurricular activities and other activities related to NSS are carried out by the enrolled students at College of Agriculture, Kyrdemkulai annually under the course instructor assigned.

6.5.4.7. Language Laboratory:

– NO -

6.5.4.8. Cultural Centre:

Cultural program are organized during Annual College Week.

6.5.4.9. Personality Development:

Eminent speakers, faculty, Scientist invited to deliver lecture on personality development, how to face competitive exams and interviews. The college has provided provisions for inclusion of functional grammar in standard English, speaking skills, reasoning, group discussions interview skills, personal interviews, quantitative ability, verbal ability, mock tests and some special sessions to promote the personality development in the students as part of the related courses offered.

6.5.5. Physical facilities:

6.5.5.1. Hostels:

There are one Girl's Hostel and one Boy's hostel inside the college campus with separate mess facilities and a student canteen which is run by the college authority (CPGS-AS, Umiam). The college has one girls' hostels with capacity of approx.., 50 students and one boys' hostel with capacity of approx.., 50 students. Boys' and Girls' hostels have separate mess facilities serving regional and Indian cuisines. The student's messes are run by the students supported by college by providing manpower for cooking and cleaning.

Indoor games facility – Yes (Badminton court)
Emergency medical unit – Yes
Cleaning of hostel premises – Yes, Done timely

6.5.5.2. Examination hall:

The two seminar rooms and 4 class rooms of CPGSAS are utilized for conducting examination.

6.5.5.3. Sports and Recreation Facilities:

Utilization of facility available at CPGS-AS, Umiam campus. One indoor/Badminton court, Basketball court, volleyball ground. Time schedule is maintained for students during morning and evening time. Time to time match conducted for students

6.5.5.4. Auditorium:

Does the college has auditorium? Mention its year of construction, sitting capacity and how frequently being used for the College functions. – NO-

6.5.5.5. Exhibition Hall/Museum:

Does the college have the Exhibition Hall/Museum? Mention about its use and special events being conducted in these units. – NO-

6.5.6. Research Facilities

6.5.6.1. Postgraduate Laboratories and Equipments:

- NA-

6.5.6.2. Research Contingency:

–NA-

6.5.7. Outcome/Output

6.5.7.1. Student Performance in National Examinations:

Provide detailed information in tabular form about student performance in JRF/SRF/NET/ARS/and other national examinations for last five years. Only those students receiving fellowships should be mentioned here.

Sl. No.	Name of student	Selected institute	Fellowship/ Scholarship
	2019-20 pass out batch		
1	Ms.Laltharmawii	IARI, New Delhi	IARI Fellowship

9	Dr.Sabyasachi Majumdar	1.Certificate of appreciation by Honorable VC, UAS, Bangalore (2019); ISSS Best Doctoral Research Presentation Award with Gold Medal (2019); ISSS-South Zone Best Doctoral Research Presentation Award (2019); 2.Second-best oral presentation Award for Doctoral Research programme under the theme "Crop Production" in Post Graduate Science Week (2017) by UAS, Bangalore; 3.International Travel Grant Award by IRD, Aix en Provence, France (2016) 4.INSPIRE Fellowship Award by DST, New Delhi, Government of India (2015); 5.76th Indian Society of Soil Sciences (ISSS) Convention Commemoration Gold Medal for securing first rank during Master's degree (2015); 6.University of Agricultural Sciences Gold Medal for securing first rank during Master's degree (2015) 7.University of Agricultural Sciences Merit Scholarship (2012)
10	Dr. H.G.	1.2nd prize for best exhibition stall award in 1st International

	Kencharaddi	Agro Biodiversity Congress" held at New Delhi 2. Best poster presentation award for paper presentation in national seminar on "Genetics and Cyto Genetics" organized by UAS, Dharwad during 2015. 3. Awarded Indo-American hybrid seeds Research fellowships for Ph. D degree program from University of Agricultural Sciences, Dharwad , Karnataka, India. 4. Best poster presentation award for paper presentation in national seminar" Contemporary approaches to crop improvement" organized by Indian society of genetics and plant breeding during 2011
11	Dr. Priyadarshani Mohapatra	Young scientist award -1 Best poster and oral presentation - 3

6.5.7.4. Employability:

College of Agriculture, Kyrdemkulai through implementation of Student Ready Programme and ELP is providing knowledge, skills and management practices and creating employment opportunity vision to the students for their successful carrier. Exposure of students to Agro-industries, animal husbandry farms motivates them to become entrepreneurs and understand the scientific knowledge behind this which benefits their own family, community and economically.

6.5.8. SSR of the College must have the SSR of all its Degree Programmes

(following section 6.4), then the report of the Colleges shall be considered.

6.5.9. Certificate (Applicable when SSR is submitted for Programmes & College)

I, the Dean .Dr. U.K Behera hereby certify that the information contained in
Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

(U. K. Behera)

SELF STUDY REPORT

FOR

B.Sc. (Hons.) Agriculture

Submitted by

College of Agriculture, Kyrdemkulai, Meghalaya

CAU, Imphal

Submitted to

National Agricultural Accreditation Board

Indian Council of Agricultural Research

College of Agriculture, Kyrdemkulai

6.4.1. Brief History of the Degree Programme

The college was established in 200 acres of area located in Kyrdemkulai tribal village. The campus of college is completely organic and free from use of any agro-chemicals and geo- crops. The college is holding 3 externally funded projects from different agencies. The college developed temporary infrastructure at Kyrdemkulai in which class rooms and academic block as well as students' hostel (boys and girls) were included. The college is building the research capacities such as production of quality planting material, mushroom production, vermicomposting unit, medicinal and aromatic plant cafeteria, crop cafeteria. The major thrust area include development of farming system model for marginal and small farmers from North East Region. The college is focussing on organic farming and hosting the Advanced Centre for Organic Farming.

The degree programme B.Sc., Agri (Hons.) was started on academic year 2015-16with 13 number of students. The institute impart B.Sc., Agriculture for students' holistic development to make effective contribution to the society in a dynamic environment. The college has intake capacity of 30 students from different North Eastern states of India. As per the guidelines of 5th Dean's committee, College of Agriculture is developing in respect to teaching facilities, laboratories, research field and other activities.

The objective of the degree programme is to impart education in Bachelor of Science in Agriculture as it deem fit.

Accomplishments:

S.No	Academic Accomplishments
1	The college has pass out two batches of students in academic year 2018-19 and 2019-20 with total 27 students.
2	The college has increased student strength from 22 to 30 from academic year 2020-21 and currently 76 students are enrolled in college.
3	One student (Ms.Laltharmawii) from 2018-19 pass out batch got admitted in ICAR-Indian Agricultural Research Institutes, New Delhi for masters degree.
4	Another student (Ms.Khumbarti Debbarma) from 2018-19 pass out batch secured JRF and got admission in UAS Bangalore.
5	One student Mr.Mr. Raja Garam (2018-19 pass out batch) joined as Assistant Technical Manager (ATM) in Agricultural Technology Management Agency (ATMA) in Arunachal Pradesh.
6	College has established pre-fabricated structure for classroom and hostels.

6.4.2 Faculty Strength:

S.No	Faculty in position	Vacant	Faculty recommended by by the ICAR/UGC/VCI/ other regulatory bodies
Professor	0	07	3
Associate Professor	00	00	8
Assistant Professor	10	02	34
Total		09	45
CPGSAS Faculty	18		

*05 Assistant Professors were deputed from College of Community Sciences, Tura, Meghalaya

6.4.3. Technical and Supporting staff:

Sl.No.	Sanctioned	In position	Vacant
1	17	01	16

***** The vacant positions are filled up by contractual workers and technical and administrative staffs from CPGSAS, Umiam

Sl. No.	Name of Section	No. of employees
01.	Establishment Section	04
02.	Account Section	02
03.	Academic Section	03
04.	Store & Purchase	04
05.	Engineering Section	07
06.	Medical Section	04
07.	SWO	01
08.	Farm Section	04
09	I.T. Cell	02
10.	Vehicle Section	03
	TOTAL	**34**

Functions combinedly with CPGS-AS, Umiam

6.4.4. Classrooms and Laboratories:

Name of the degree programme	No. of class rooms	No. of laboratories
B.Sc., Agri (Hons.)	04	12

The available classrooms and laboratories at makeshift campus and CPGSAS, Umiam are sufficient for running BSc Agriculture degree

Major equipment

S.No	List of Equipments	Quantity
1	Weighing balance	03
2	Vortex shaker	1
3	Microcentrifuge machine	1
4	Micropipette set	1
5	Autoclave 35 litre capacity	1
6	Hot air oven	03
7	Binocular microscope	1
8	Bacteriological incubator	1
9	Insect box	15
10	Deep Freezer	01
11	Refrigerator	03
12	Power tiller	02
13	Tractor	01
14	Machine operated weeder	01

Note: Apart from these equipment at COA-K campus, some of the equipment are at CPGSAS, Umiam

List of laboratories

S.No	Name of the laboratory
01	Agronomy Lab
02	Soil science laboratory
03	Microbiology and Molecular laboratory
04	Biofertilizer production unit
05	Analytical Lab
06	Biogeochemistry Lab
07	Molecular Biology and Biotechnology Lab
08	Genetics and plant breeding lab
09	Plant Pathology Lab
10	Entomology Lab
11	Insectry
12	Horticulture Lab

Farm facilities:

Workshops and other instructional units:

Following are the instructional units at College of Agriculture, Kyrdemkulai in which the college also organizes workshops and training to the students and farmers

1. Orchid Production Unit and training facility centre
2. Integrated Farming System Model
3. Agrometrological observatory
4. Mushroom production unit
5. Poultry unit

6. Biomass recycling Unit
7. Biofertilizer and Biopesticide unit
8. Dairy unit

Theory and Practical batches for the Degree Programme: 01 batches for both theory and practical as the total student strength in every year is 18-22 nos.

6.4.5. Conduct of Practical and Hands-on-Training:

As per the ICAR course curriculum. Practical and hands-on training are conducted as per the list included in the syllabi and records for all the courses are maintained and evaluated by the respective course in charge by giving marks weightages. Sometime courses which are appealing for visiting farmer fields, accordingly provisions are there to visit farmer's fields.

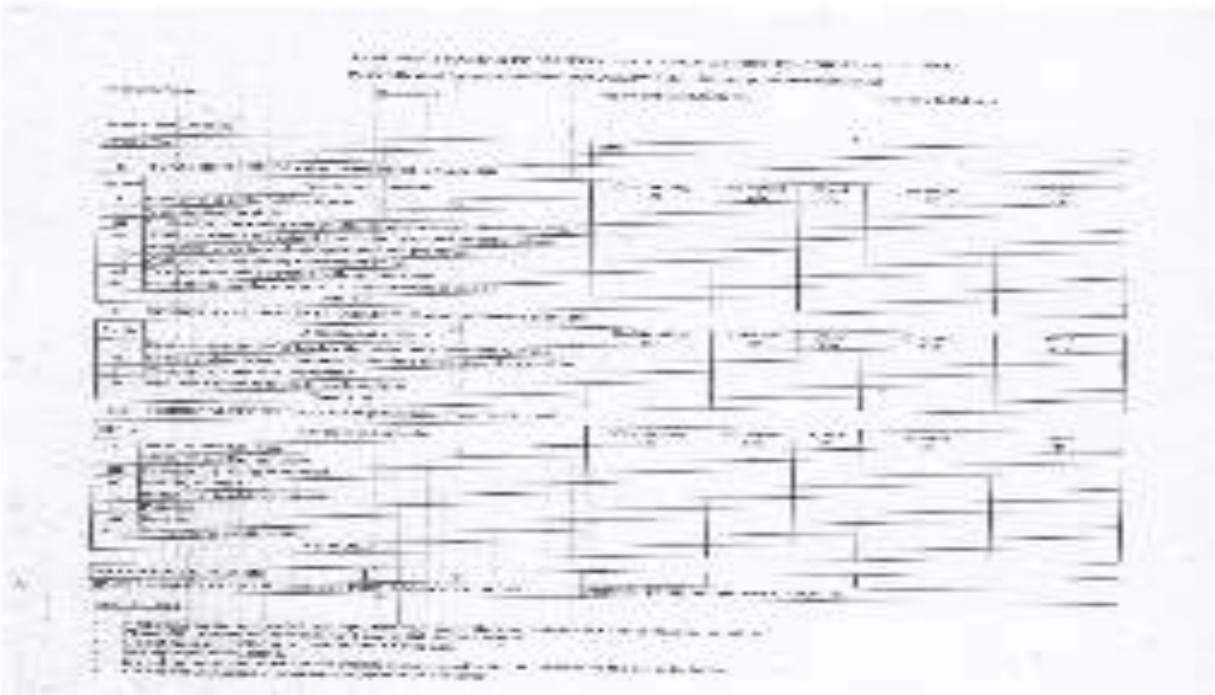
- Hands-on training on 'Improved Production practices of organic rice'
- Hands on training on 'Mushroom cultivation'
- Hands on training on 'Orchid Production'
- On Field practical for four courses are going on (Practical crop Production I & II, Crop production Technology I & II)
- On field ELP practical

6.4.6. Supervision of students in PG/PhD programmes:

- NA -

6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.):

Yes, we take feedback from students every year. At the end of the each semester and before the end term exam, a comprehensive feedback for each course is taken from students. The feedback includes competency of the teacher in the subject, updating the current status of the subject by the teacher, timely covering of syllabi, student teacher interactions, creating interest among the students about the course, attitude towards weak students, punctuality of the teacher etc (feedback proforma enclosed for ready reference).for the last five years



6.4.8. Student intake and attrition in the programme for last five years:

Name of the degree programme	Actual student intake in last five years					Attrition (%)				
B.Sc., Agri (Hons	**2016-17**	**2017-18**	**2018-19**	**2019-20**	**2020-21**	**2016-17**	**2017-18**	**2018-19**	**2019-20**	**2020-21**
	12	18	18	18	22	0	0	0	0	4.55

6.4.9. ICT Application in Curricula Delivery:

Use of various online/virtual platforms like Zoom, Google meet etc., is being utilized for online teaching. LED Projectors, Computer (PCs) are used for curricula delivery. The computer laboratory at the School of Social Science is utilized for different online classes and conductance of computer courses. The laboratory is well equipped with 20 computers and different software.

6.4.10.

The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PG and PhD Degree Programmes, separately, and to be presented College-wise.

6.4.11.

Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean, Dr. U.K. Behera hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

(U. K. Behera)

6.5. Self-Study Report for the Colleges

College of Horticulture, Bermiok, Sikkim was established on 21st May 2015 which falls under the beautiful landscape of Namchi Block of South Sikkim. The state itself falls under one of the biodiversity hotspots, the eastern Himalayas which are bestowed with beautiful landscape with rich diversity of variant species of flora and fauna. It is situated in the Southern mountain ranges of the Eastern Himalayas between Northern Latitudes 27 º 4′45″ to 28 º 7′ 45N latitudes ″ and 88 º 45″ to 88 º 35′ 15″ E longitudes. The state enjoyed varied agro-climatic zones ranging from sub-tropical in the lower valley to alpine in the upper ranges. It is the home of many orchid species.

The site of the college is situated at Tokal, Bermiok, at an elevation of 867 meters with a longitude and latitude of 88º 46.8' 92.7" and 27º 23.2' 36.3". It comes under the sub-tropical hill zone having a maximum temperature of 30 and minimum of 12 º C with an average rainfall of 1600 mm. It is congenial to grow many horticultural crops like French bean, garden pea, sweet potato, potato, cardamom, tea, ginger, solanaceous vegetables, turmeric, kiwi, apricot, peach, pear, many species of chilli, persimmon, plum, walnut, nectarin, aonla, ber, passion fruit, mango, guava, citrus, low chilling varieties of apple, orchids, anthurium, gladiolus, gerbera, rose, marigold and carnation. At present, the college is camped at College of Agricultural Engineering and Post-Harvest
Technology, Ranipool.

Mandate:

(i) Development of appropriate human resource for carrying out various horticultural activities inthe state of Sikkim
(ii) Development of relevant technologies suitable for horticultural sector aiming to welfare offarming community of Sikkim
(iii) Dissemination of horticultural technologies for the development of sustainable, scientific and profitable horticultural sector among the various stake holders.

Objectives

The College has been established with following broad objectives

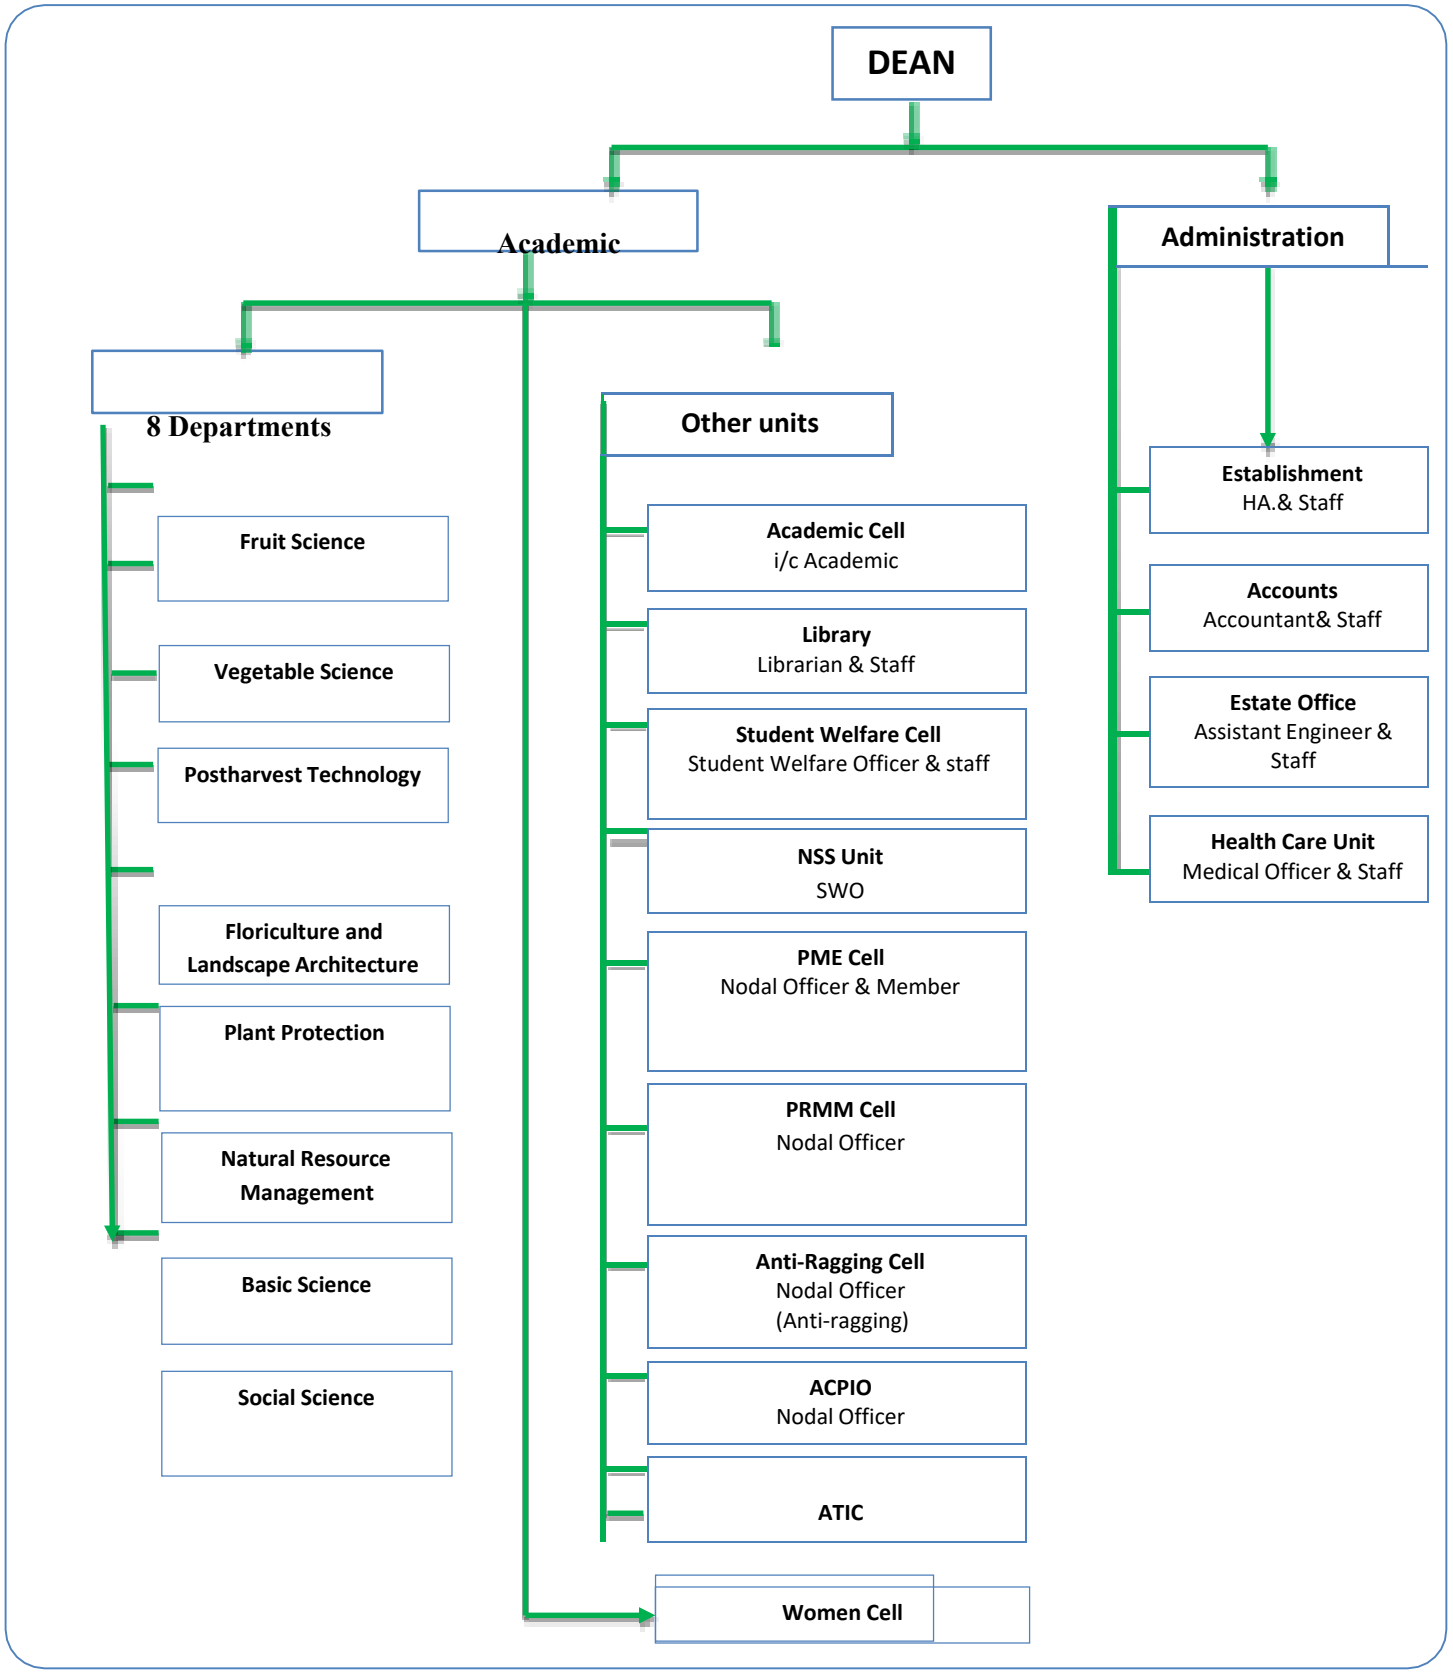
- To impart education in different branches of horticulture and allied sciences
- To further the advancement of learning by undertaking research in horticulture and alliedsciences
- To undertake the programmes of extension education in the state of Sikkim and others in the jurisdiction of CAU, Imphal and
- To undertake such other activities as it may deem fit from time-to-time.

6.5.1. College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Agricultural Engineering and Post-Harvest technology who is also looking after the College of Horticulture, CAU, Ranipool. The Academic and Administrative building of College of Horticulture, Ranipool is near completion at the selected site **(Fig. 1)**. The Dean is assisted by various teaching, non- teaching and non-technical members of the institution.

Fig. 1 Administration and Academic Building

Organizational Chart



6.5.1.1 College Dean's Office Establishment:

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR ModelAct/UGC guidelines	Yes
2.	Date of selection/joining of present Dean	01.04.2019
3.	Mode of selection	Nominated
4.	Tenure	Till appointment of regular Dean
5.	Total number of staff in Dean's office	One Account Assistant and One Assisted is appointed. However, the staff appointed under CAEPHT are performing the official works
6.	Infrastructure facilities (Details on infra andnetworking facilities available)	• Computers with printers are available at the Dean's office with internet and UPS connectivity • Copier facility is available with Wi-fi connectivity

6.5.1.2. Monitoring Mechanism for Quality Education (on-line):

Teaching

The online classes are conducted by the respective teachers according to the scheduled time Table. Online quiz exams are conducted on e-Google form platform with strict vigilance by respective teachers.

Internal quality assurance system	Dean and Assistant Registrar (I/c Academic) holds the responsibility for the quality assurance of online classes.
Effectiveness of monitoring quality assurance and quality enhancement activity:	The teachers submit the weekly class report and attendance to the Assistant Registrar. The monitoring system is effectively conducted with reports from the class teachers from time to time.
Impact of monitoring on the outcome of the College with reference to students excelling in academics, research.	With the current monitoring systems the online classes are running effectively. Mid semester, practical and final theory examination are conducted to assess the students. Assignments are regularly given to students in each of the courses related to the curriculum. External system of evaluation followed for both theory and practical for each course related to the curriculum.

	Academic counselling is done every week by assigned students advisors. Monthly quiz programmes and group discussions are arranged for the students to ascertain their proficiencies and knowledge. Online-JRF mock tests are conducted for the aspiring students for ICAR-JRF Exams.

Faculty Research

- The faculty are involved in research activities related to crop production, crop protectionand plant improvement.
- The PME cell appraises the research proposals at college levels.
- The progress of the research is regularly monitored by the PME cell.
- Review of progress of research work are evaluated by the Dean, Director of Research andthe Vice Chancellor, CAU during Research Review Committee meetings
- Submission of annual report for ongoing projects.

Presently, the faculty of College of Horticulture are conducting research activities on

- Collection, evaluation and characterization of chayote, dale chilli.
- Exploration and documentation of underutilized and wild edible vegetables of Sikkim
- Cultivation of gerbera under protected cultivation
- Studies on insect pest of citrus and other important horticultural crops; bee keeping
- Production of quality planting material of Kiwi fruit by cutting using low cost propagation structure

Extension

- Regular monitoring to assess occurrence of insects and disease in the region
- Participations in exhibitions organized by the Government, private and NGO
- Field visit by team of scientists on need to diagnose problems and provide solutions and recommendations
- Organize entrepreneurship development training programmes for farmers
- Awareness and training programmes are organized for farmers and unemployed youths
- Distribution of agricultural, horticultural accessories and planting materials to local farmers
- Adoption of village as model villages

The faculty of College of Horticulture in association with College of Agricultural Engineeringand Post Harvest Technology, have organized the following programmes (Fig. 2, 3, 4, 5, 6 & 7):

- A three days Health awareness programme was held on 7th April 2017 in association with the Healthy Life and Healthy Food Committee, medical unit and NSS Team
- Organization of Swachhata Pakhwada from 1st to 15th August 2017
- Organization of "Swachhata hi Sewa" campaign on 18th August 2017

- Technology and machineries Demostration Mela on 20th February 2018
- Organized IX National Extension Congress 2018 in association with Society of Extension Education and CAEPHT
- Exhibition/ Krishi Unnati Mela from 18th November 2019 to 21st November 2019
- Every year the collage celebrate Soil Health Day by distributing Soil Health Cards to farmers
- Organized a one day training cum awareness programme on Fruit Fly infesting Horticultural Crops on 8th October 2018 for Farmers
- Organized a one day training programme on Soil fertility management in organic farmingon 5th November 2019 for Farmers
- Organized a one day training programme on Training and pruning practices of fruit cropson 7th November 2019 for Farmers
- Organized a one day training programme on Beekeeping on 12th December 2019 forFarmers
- Organized a one day training programme on Production technology of Gerbera andCarnation on 1st February 2020 for Farmers
- Organized a one day training programme on Management of important diseases of Horticultural crops on 2nd February 2020 for Farmers
- Organized a one day training programme on Important insect pest of horticultural crops andtheir management on 28th February 2020 for Farmers
- Organized a one day training programme on Practice of crop regulation in Guava (*Psidium guajava*) on 29th February 2020 for Farmers
- Organized a one day training programme on Intellectual property rights in plant breeding on5th March 2020 for Progressive farmers and Rural youths
- Swachhata Abhiyan at CAEPHT Campus on 5th June 2020
- Celebration of International Yoga Day on 21st June 2020
- Two days on line skill Development Workshop on "Motivational Talk: Employability and Entrepreneurship Skills" for UG students of CAEPHT and COH Bermiok under NAHEP- IDP was organized from June 19-20, 2020.
- Organized a one day training cum awareness programme on Infestation of Thrips and leaf minor infestation in Onion on 7th December 2020 for farmers
- Organized a one day training cum awareness programme on Identification and management of Red Ants on 9th December 2020 for farmers
- Organized a Three day National Webinar on Sustaining Organic Farming During and Post COVID-19 during 03rd - 05th August 2020
- Organized a one day webinar on "Awareness programme against Drug Problems on 28th November 2020 for youths

Fig. 2. Inauguration of Technology and Machinery Demonstration Mela , 2018

Fig. 3. One day training cum Awareness Program on Red Ants

Fig. 4. 1-day training cum field demonstration on Fruit Fly

Fig. 5. 2-days Yoga Fest

Fig. 6. Students after performing Swachta Pakhwada along with SWO

Fig. 7. Dean and faculty along with Ex DG of ICAR Dr. Mangala Rai during CAU Agri Fair

Measures taken to improve the quality of education, research and extension

Education

- Industrial and institute related exposure visits related to the courses offered to the students
- Recognition and awards are given to best students at university level
- Educational talk are arrange inviting experts from different fields
- Assignments and exams are conducted on regular basis

Research

- Encouraging students to actively participate in workshops, webinars and conferences
- Experimental learning programme of six different module is conducted for six months

Extension

- Rural Horticultural Work Experience Programme (RHWEP) for students to understand the problems and prospects of the farming community
- Organizing group discussion programmes
- Conducting brain storming sessions for group approach

Impact of monitoring with reference to students' excelling in academics, research andextracurricular activities

Academics

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection for higher education in reputed National institutes

Research

- Publication of research results in peer reviewed journals by faculty members

Extracurricular

- Participation in NSS programmes at national participate
- Participation in sports and cultural events at state and national levels

Additional information on monitoring mechanism for quality education

- Monthly meetings: The Dean conducts monthly meetings with the faculties to evaluate the progress in the field of teaching, research and extension.
- Annual reports: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for measuring the performances of the college during the particular year and serve as guidelines for future action plan

- Student evaluation: Students advisory meeting is conducted every week by respective advisors and every month Students Advisory meeting is held along with the Dean of the college. He receives the feedback from the students and gives direction to the faculties. The students are providing the feedback of course teachers who handle the classes during a particular semester in a prescribed proforma. The feedback of the students is analysed and the inadequacies are properly addressed

6.5.1.3. CC/Board of Studies:

Boards of Studies meeting are being conducted where various academic issues are discussedand academic progress monitored (Documentary support in Annexure 6.5.1.3).

Composition of the BOS	**Date of conduct of meetings for last five years**	**Major recommendations made by the BOS**
• 01 Chairperson • 01 Co-chairperson • Dean's representative • BOS members from different constituent colleges of CAU • Member Secretary and invitee.	8th BOS meeting held on 04.12.2017 at College of Horticulture & Forestry, Pasighat	-
	9th BOS meeting held on 20.04.2018 at College of Horticulture & Forestry, Pasighat	Formation of Departments for College of Horticulture, Bermiok as follows: • Department of Fruit Science • Department of Vegetable Science • Department of Post- Harvest Technology • Department of Floriculture & Landscape Architecture • Department of Plant Protection • Department of Natural Resource Management • Department of Basic Science • Department of Social Science
	10th BOS meeting on15.05. 2019 at College of Horticulture & Forestry, Pasighat	• No any Agenda for College of Horticulture, Bermiok
	On 24-04-2020, College attended "11th Board of Studies" meeting through video conferencing on line using Google Meet.	-

6.5.1.4. Anti-Ragging Cell: Yes

The Vigilance Committee comprising of Dean, Warden's (Boy's Hostel & Girl's Hostel), Female Faculty members and Student Welfare Officer (SWO) of both colleges CAEPHT, Ranipool and COH, Bermiok is formed every year to inspect and to visit Hostels (both for Girl's & Boy's) at any time after the entry time. Each student is allotted with one adviser to discuss their problems and counselling is being done on weekly basis for all the students by their respective advisers. Meetings & Group discussion is being conducted regarding related Anti Ragging topic on quarterly basis (Documentary support in Annexure 6.5.1.4).

Members of Anti Ragging squad	**Date**
Dr. B.K. Singh, Dr. P. Bhumita , M. Sanju Singh	15-07-2019 to 31-8-2019

Er. Satpathy, Er. S.K. Chauhan, Dr. Anuradha Devi	
Dr. Dhananjoy Roy, Er. S.S. Das, Dr. Diana S	
Dr. A.K. Vashisht, Dr. B.C. Khusre, Dr. Dinganggana Talukdar	
Dr. Rakesh Kr. R., Dr. CH. Birendrajit, Dr. Sushma Gurumayum	

Dr. S.R. Yadav, Dr. Srikant Kr. Mehr , Dr. Dinganggana Talukdar	
Dr. G.T. Patle, Er. Rajiv Pradhan, Dr. M. Chanchan	
Dr. B.K. Singh, Er. N. Devrani, Dr. Y. Ghanasyam Singh	

6.5.1.5. Biological waste disposal facility: Yes

Collection, cleaning and burning of waste products. The college is committed to ecological sustainability and thrives to establish a clean and green campus (Fig. 8). As mention earlier regular cleaning and planting of tress and other plants is done regularly. Such steps have also improved the floral biodiversity in the campus.

Fig.8. Students cleaning the campus

6.5.1.6. Institutional Ethics Committee for Experiment on Animals:

The college is not undertaking experiments on Animals. However, if such experiments are undertaken in future, then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee (IAEC).

6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places:

The women cell for prevention of sexual harassment of women has been formed to address all grievances pertaining to sexual harassment of women (students, teaching and non-teaching staff and labours) at the college. Dr. P. Bhumita I/c Women Cell looks after the problems. There was no complaint on sexual harassment in the college during last five years. However, details on sexual

harassment of women at work place Act, 2013 and a preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers (Documentary support in Annexure 6.5.1.7).

6.5.2. Faculty

The College of Horticulture has 6 faculties in various disciplines to undertake the education, research and extension activities. However, the College of Horticulture is presently utilizing the facilities of College of Agricultural Engineering and Post-Harvest Technology, Ranipool campus. 29 teaching faculties of CAEPHT and Multi Technology Testing Centre and Vocational Training Centre (MTTC & VTC) are also taking the classes for College of Horticulture. All faculties have necessary qualifications and have enriched themselves over the years by undergoing training programmes in teaching, research and education, participation in conference and seminars and handling research projects. Various approaches are followed by the teachers so that students are able to learn and get hand on experience on various aspects of agriculture.

6.5.2.1. Faculty Strength:

Mention the Faculty position (both in sanctioned and in-position) at the College.

Faculty Position	
Sanctioned	**In-position**
19	11

6.5.2.2. Faculty Profile (department wise):

Department wise faculty strength of CoH, Bermiok

Sl.No.	Department	Sanctioned Faculty	Filled post	Faculty recommended by ICAR
1.	Fruit Science	Professor	-	1
		Associate Professor	-	2
		Assistant Professor	1	3
2.	Vegetable Science	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	4
3.	Floriculture & Landscape architecture	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	1	2
4.	Post harvest	Professor	-	1

	Technology	Associate Professor	-	1
		Assistant Professor	-	2
5.	NRM	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	6
6.	Social Science	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	5

		Associate Professor	-	2
		Assistant Professor	2	6
8.	Plant Protection	Professor	-	1
		Associate Professor	-	2
		Assistant Professor	2	3
		Total	**6**	

The existing faculty strengths of College of Horticulture, College of Agricultural Engineering and Post-Harvest Technology is sufficient for academic requirement of the college. The numbers of faculties who are involved in teaching activities are given below.

Faculty member utilized from College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim				
Department in COH Bermiok	Department in CAEPHET, Ranipool	**Prof.**	**Assoc. Prof.**	**Assistant Prof.**
	Basic Engineering Applied Sciences	-	-	8
	Irrigation and Drainage Engineering	1	-	1
	Farm Power & Machinery	1	1	1
	Soil Water Conservation	1	-	-
PHT	Process and	2	-	2

	Engineering			
	Total	5	1	12

6.5.2.3. Credentials of the Faculty:

All faculty members of the college are PhD holders. The college has adequate proportion of experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities. The details of qualification, experience and professional licensure and certification and demonstrated competencies are detailed in Annexure **6.5.2.3.**

6.5.2.4. Technical and Supporting Staff:

The technical staff and other supporting staff of College of Agricultural Engineering and Post-Harvest Technology are being attached with the Dean's office for administrative, convenience and being allotted to other departments whenever need arise. Other than these staffs some Skilled and Unskilled labours are hired on contractual basis by the College of Horticulture. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office.

6.5.3. Learning resources:

Learning resources like books, photos, life specimen and audio-visual aids like power-point presentation, videos are used to assist the students to meet the expectation for learning defined by ICAR recommended curriculum.

Faculties are provided with computers to access the online open coursework and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various softwareapplications in agriculture.

6.5.3.1 College Library (digital):

The College of Horticulture is presently utilizing the facilities of the library of College of Agricultural Engineering & Post-Harvest Technology, Ranipool.

Fig.9. The Library at College of Agricultural Engineering & Post-Harvest Technology		
1.	Present staff	• 1 Senior Library Assistants • 1 Library Assistants • 3 Multi-tasking Staffs
2.	Availability of Wi-fi	• Wi-fi facilities are available in the library with a band width speed of 1GBps from NIC-NKNnetwork.
3.	Books	• For College of Horticulture: **2058 books** • For College of Agricultural Engineering and Post-Harvest • Technology: **7831 books**
4	Other reading materials	• National and local newspaper such as Dainik Jagran (Hindi), The Telegraph, The Times of India,Sikkim Express (English), Hamro Prajashakti (Nepali) etc. • Magazines like India Today, Down To Earth, Pratiyogita Darpan, Civil Services Chronicle, Kurukshetra, Yojana, Agriculture Today, • Economics and Political weekly.
5	Research Journals	• Students and faculty can access journals • through online portal of CeRA, ICAR.
6	Internet with computers	• Two
7	Sitting capacity	• 28 numbers
8	Latest technology in library	• KOHA LMS is being used for Library Automation in CAEPHT Library. Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia for e-Resources in Agriculture)
9	Stocking arrangement	• Book stocks arranged as per the DDC21
10	Operating hours	• 10.00 AM to 05.00 PM
11	Books available in COH	• Horticulture, Crop Physiology, Plant Biotechnology Genetics and Plant Breeding, Entomology, Microbiology, Agronomy, Plant Pathology, Crop Physiology, Soil Science & Ag. Chemistry, Agroforestry, Ecology, Text book of Advanced Pomology, Plant Biotechnology, Plant Biochemistry, Ag. Economics, Ag. Extension, Statistics, Computer Application & IPR, Botany, Floriculture, Pest management in vegetables, • Handbook of Beekeeping.

6.5.3.2. Laboratories, Instructional farm, Workshops, Dairy Plant, Veterinary Clinic,Hatchery, Ponds etc.:

The College of Horticulture is presently utilizing the laboratory facilities of CAEPHT campus and farms of the College of Horticulture, Bermiok. The laboratories of CAEPHT, Ranipool campus of all departments are well equipped and COH, Bermiok students are available for utilization when needed. All basic chemicals and instruments are available for doing practical and research work in all the laboratories. The farm facilities, workshops and other instructional units are well designed to meet the course curricula and research requirements (Fig. 9, 10, 11,12,13, 14). Total area of 6 hectare land available for garden and farms in Bermiok.

Fig.9. High Tech Poly House in Bermiok campus

Fig.10. Students preparing land in Bermiok Farm

Fig. 11. Students during Practical class in Basic Science Laboratory at CAEPHT, Ranipool

Fig.12. Students during Plant Biochemistry Practical class at CAEPHT, Ranipool

Fig. 13. Mandarine in Reasearch Farm in Bermiok	Fig.14. Sweet Orange in Farm in Bermiok

Farm Facilities

- Availability of Farm equipment viz. Brush cutter
- All the essential garden tools viz. Hedge shear, Pruning Secateurs, Digging trowel, water cane, Pruning and budding knife, Khurpi, spade, garden rake, measuring tape and Hand sprayers etc. are available for maintaining the farm
- The Low-cost poly-houses and Hi-Tech Greenhouse has been established in the farm for growing various seasonal and annual vegetables
- Availability of water supply to the farm
- Development of demonstration farm cum research block for vegetable, spice crops and flower where the practical work can be done smoothly.
- Development of Orchard for demonstration of practical classes for fruit crops.

6.5.3.3. Student READY/ In-Plant Training / Internship / Experiential Learning Programmes: Yes

Student READY Experiential Learning (Professional Package) will be for the duration of 20 weeks and Student READY Programme will be taken up during semesters VII and VIII.

All the guidelines given by ICAR for Student READY Experiential Learning is strictly followed by the college (Fig. 15, 16, 17,18)

Student READY was first implemented in the year 2018-19. The Rural Horticulture Work Experience Programme (RHWEP), Industrial Attachment (IA) and Experiential Learning Programme (ELP) are under the Students READY Programme for B.Sc. (Hons.) Horticulture. Through this programme, students are given hands on experience and practical training in horticulture and allied areas. The programme helps to develop confidence, skills and to acquire knowledge of horticultural systems. RHWEP is organized for every year for the undergraduate students of College of Horticulture in the 4th Year, 1st semester of every academic session the with a credit load of 0+10. It provide opportunities to the students to study the rural agricultural system through direct farm experiences by personally visiting the farms and interacting with the farmers. The students also gain experience and knowledge about the extension activities carried out by the Govt. and private agencies and non-governmental organizations. The students undergoing the programme are expected to learn different components of agriculture and allied activities, conduct method demonstration and training, organize exhibition and prepare reports on their experiences gained. The students are expected to learn day to day farming activities of farmers and general village conditions during their stay at the villages.

Fig.15. Students during 2019 RHWE Program

Fig.16. Students during 2020 RHWE Program

Fig.17. Students during IA Program

Fig.18. Students during ELP Program

The IA programme (credit load of 0+10) provides hands on training to students about the managerial and commercial aspects of Horticultural products. The students are placed in Agro food industries, food processing unit, fertilizer industries, bio-fertilizer production units, vermicomposting units, etc. These help the students in gaining practical knowledge and experiencefirst-hand in industry.

ELP profit sharing Mechanism:

50% of the profit will be distributed among the final year students. Faculty share will be 10% of the profit, faculty includes teaching and non-teaching staff responsible for conducting of hands-on training programme. CAU, Imphal will get 20% of the profit and which will be included in the central training fund of the university. Associate staff including ministerial staff and ClassIV will share the 10% of the profit. Remaining 10% of the profit will be utilized for the development of facilities by head of the institution.

Table: ELP Profit sharing Year-wise.

Profit sharing for the year 2019-20.	
Particulars	**Amount (Rs.)**
Total Earning	27291.00
Share to College of Horticulture, Bermiok account	13505.00
Share to CAEPHT, Ranipool account	13789.00
Profit sharing for the year 2020-21.	
Total Earning	12535.00
Cost of production	5520.00
Net profit	7015.00
Students share 50% of 7015.00	3507.50
Per student share	3507.5/5= 701.5
University's share 20% of 7015.00	1403.00
Faculty's share 10% of 7015.00	701.50
Associate staff's share 10% of 7015.00	701.50
College 10% of 7015.00	701.50
Amount to be deposited in the college [20% (Univ) +10% (Asso)]	1403.00+701.50+ 701.50 =2806.00

DETAIL WORK OUT PLAN FOR STUDENT READY

Semester-VII

S.N.	Course Title	Credit Hours
1	STUDENT READY- Placement in Industries	0+10
2	STUDENT READY- Horticultural Work Experience	0+10
	Total	**20(0+20)**

S.N.	Student READY Programme Schedule	Duration
1.	Orientation programme	2 weeks
2.	Industrial placement	4 weeks
3.	Village stay-Horticultural work experience	12 weeks
4.	Report writing & Final Examination	3 weeks
5.	All India Study Tour	3 weeks
		24 weeks

- Study tour will be conducted during semester break

Semester-VIII

S.N.	Course Title	Credit Hours
1	Experimental Learning programme	**20(0+20)**

Experimental Learning programme: A student has to register 20 credits opting for two modulesof (0+10) credits each (total 20 credits) from the package of modules in the VIII semester

Sl. No.	Title of the module	Credits
1.	Commercial horticulture	0+10
2.	Protected cultivation of high value Horticulture crops	0+10
3.	Processing of fruits and vegetables for value addition	0+10
4.	Floriculture and landscape architecture	0+10
5.	Bio-inputs: Bio-fertilizers and bio-pesticides	0+10
6.	Mass multiplication of plant and molecules through tissue culture	0+10
7.	Mushroom culture	0+10
8.	Bee keeping	0+10

6.5.3.4. Curricula Delivery through IT (smart class rooms/interactive board etc.):

At present, the teachers and students are accessing the smart classrooms of College of Agricultural Engineering and Post-Harvest Technology. There is a provision of construction of Smart class in College of Horticulture, Bermiok Campus and it will be avail to the students after shifting to the Bermiok Campus.

6.5.4. Student Development:

6.5.4.1. Student Intake and Attrition:

The College presently offers only Under Graduate Programme in Horticulture *i.e.* B.Sc. (Hons.) Horticulture which is of 4 years duration. The annual intake of students to the college at UG level has increased since the inception of the university.

Year	Intake capacity	Actual students admitted	Attrition
2015-16	20	15	-
2016-17	20	20	-
2017-18	20	19	-
2018-19	22	16	-
2019-20	22	19	-

6.5.4.2. Average Number of Students in Theory and Practical Classes: Mention the Degree

Year	B.Sc. (Hons) Agriculture	
	Batch of students in theory class	Batch of students in practical class
2015-16	15	15
2016-17	20	20
2017-18	19	19
2018-19	16	16
2019-20	19	19

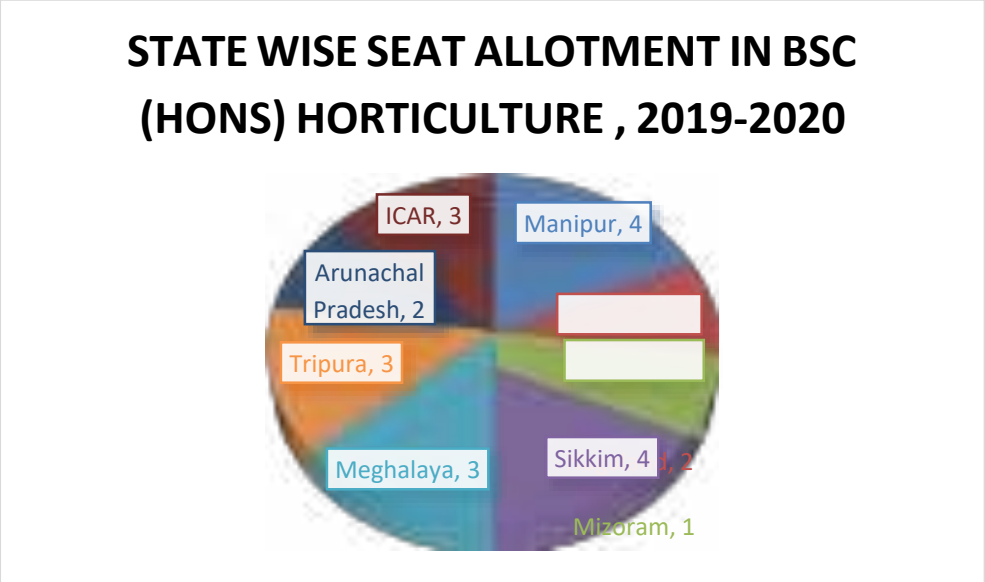
6.5.4.3. Admission Process:

Admission requirement

- The candidates should have passed 10+2 examination with English as one of the subjects of study. The candidates much have attained 17 years of age on 31st December in year of admission. The selection or nomination of candidates is done through National Eligibility cum Entrance Test (NEET) conducted by the National Testing Agency (NTA) or through state common entrance exam. Students seeking admission to the above degree programme shall be permanent resident or domicile of any one of the north eastern states of India *i.e.*, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. The number of students to be admitted for

each of the north eastern states is notified by CAU from time to time

- The candidates to be sponsored for admission shall be from the merit list based on the entrance test
- 15% of the approved number of seats in the UG programme shall be filled by the candidates selected on the basis of All India Entrance Test conducted by ICAR or as amended from time to time by ICAR. The ICAR nominees shall be governed by the eligibility as prescribedby ICAR



Date of admission

- The date of admission to a bachelor's degree programme shall be as per the announcement made in the prospectus or academic calendar or semester calendar which is duly notified by the Registrar**,** CAU

Registration process

- On admission, a student is provided four copies of registration cards having different colours; one for the student, one for the advisor, one for the Dean and one for the Registrar which is filled up and registered for the prescribed process for the first semester. The registration card shall be signed by the student, his advisor, Assistant Registrar (academic) and countersigned by the Dean of the college.
- On admission and registration, the students are provided with college identity cards with his/her photograph. The identity card is returned to the college by the students when the students leave the college after completion or discontinuation of the course.
- Newly admitted students are given an admission number by the Dean of the college. This admission number is valid till individual registration number is allotted by the Registrar, CAU to the students
- An orientation programme is organized by the Dean of the college for the benefit of the newly admitted students immediately at the beginning of the first semester

6.5.4.4. Conduct of Practical and Hands on Training: Yes

The practical classes is being conducted every day for minimum of two hours for each subjects

Fig. 19. Students during practical classes

Presently, the college is camped at College of Agricultural engineering and Post-harvest Technology, Ranipool of the constituent college of Central Agricultural University, Imphal. Therefore, it is utilising the facilities available at the camped college for conducting the practical for all the courses needed at the Basic sciences laboratory. Field/ orchard visit for identification and practical of horticultural crops were done at the orchard, vegetable and floriculture block. As needed the students are taken to nearby institutes like ICAR-National Research Centre-orchids, Pakyong, Sikkim, Model Floriculture, Govt. Of Sikkim, Temi Tea Garden and ICAR-NOFRI, Tadong, Sikkim for acquiring the requisite practical knowledge.

6.5.4.5. Examination and Evaluation Process:

The college strictly adheres to the examination and evaluation system as recommended by the Vth Deans' Committee. As such, the college follows Uniform Grading system with uniform OGPA requirements for award of degrees at all levels. A uniform conversion formula is followed for declaration of Ist, IInd and IIIrd divisions, distinctions etc.

Examination

Semester system is being followed for UG programmes and evaluation is given weightage as50% internal and 50% external.

Courses with Theory and Practical

- Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)

Courses with only Theory

- Mid-term Exam (40%) + Assignment (10%)

Courses with only Practical

- 100% Internal

Keeping this in view, the schedule and weightage to different examination are as follows:

Particulars	Course credits									
	2+1		1+1/2+2		1+2		1+0/2+0		0+1/0+2	
	T	P	T	P	T	P	T	P	T	P
Mid-term exam	30	-	30	-	30	-	30	-		
Quiz/Continuous evaluation	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

Duration of exams

Mid-term theory exam	:	1½ hours
End-term theory exam	:	2½ hours
End-term practical exam	:	3 hours

Evaluation

- The evaluation of students' performance is achieved by conducting Quizzes of 20 marks (Internal), Mid-Term Examination of 30 marks (Internal) and End-Term Examination (External) of 50 marks. The practical examination consist of 100 marks.
- The questions and answer scripts for quiz and Mid-term examinations are set and evaluated by concerned course teacher.
- The questions and answer scripts for End-term examinations are set and evaluated by external examiners selected duly from a list of panel members by the competent authority.

Degree	Percentage of Marks Obtained	Conversion into Points
B.Sc. (Hons.) Agriculture	100	10 Points
	90 to <100	9 to <10
	80 to <90	8 to <9
	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (Fail)	<5
	Example 80.76	8.076
	43.60	4.360
	72.50 (but shortage in attendance)	Fail (1 point)

The following ranking pattern is adopted to award the degrees:

OGPA	Division
5.000-5.999	Pass
6.000-6.999	II division
7.000-7.999	I division
8.000 and above	I division with distinction

GPA, CGPA and OGPA are calculated as follows:

GPA	=	Total points scored / Total credits (for 1 semester)
CGPA	=	∑ Total points scored / Course credits
OGPA	=	∑ Total points scored (after excluding failure points)/ Course credits
Percentage of Marks	=	OGPA × 100/10

6.5.4.6. NCC/NSS/RVC Units:

NSS unit in the college is operational since 2015 under the guidance of Student Welfare officer. The unit is doing various activities like cleaning and sanitation of the college laboratories, campus and classroom from time to time. Planting of trees, hedges and other ornamental crops is also undertaken as part of the programme. Demonstration from the fire safety regulators and giving first aids in case of any calamities are being held for the students.

Fig.20. Students during NSS Classes

6.5.4.7. Language Laboratory:

A language laboratory is constructed at CAEPHT, Campus under NAHEP-IDP Project which is accessible to the students of College of Horticulture, Bermiok.

6.5.4.8. Cultural Centre:

The college has a Student Activity Centre which is exclusively empowered to explore and equip the students for multi-varied cultural activities. The Cultural Committee is formed comprising of faculties, staff and students along with the Student Welfare Officer of the College. Different types of clubs' function under the Committee such as the Music, Theatre, Literary and Fine Arts.

Fig. 21. Students Performing Mime in College

6.5.4.9. Personality Development:

Besides the four compulsory courses under the Dean's Committee syllabus which cater to the overall personality development of the students, the College of Horticulture invites renowned achievers from the different places to interact with students for motivational talk and experience sharing.

Under NAHEP-IDP project of CAEPHT, Ranipool several online personality development and entrepreneurship is being conducted and students of COH, Bermiok is also participated in the same.

6.5.5. Physical facilities:

6.5.5.1. Hostels:

The infrastructure of College of Horticulture *viz*., academic block, administrative block, separate hostels for boys and girls (transit hostel) *etc*. are under construction at the allotted site and major works are nearing completion (Fig. 21, 22, 23, 24, 25, 27, 28)

Particulars	Plinth Area (Sq. m)	Number of rooms	Remarks
Boys Hostel	1988	21	Under construction at College Horticulture, Bermiok, South Sikkim
Girls Hostel	2146	21	Under construction at College Horticulture, Bermiok, South Sikkim

- At present Girls & Boys Hostel is temporary camped at CAEPHT, Ranipool with full strength of 42 (Girls) & 22 (Boys)

Fig. 21. Academic Building

Fig. 22. Administrative Building

Fig. 23. Girls Hostel

Fig. 24. Boys Hostel

Fig. 25. Transit Hostel

Fig. 26. Prefabricated Girls Hostel

Fig. 27. Prefabricated Boys Hostel

Fig. 28. Prefab Admin/Acad. Building

Basic medical facilities are centrally available at the Medical Unit of the college where basic medical amnesties such as antipyretics, antibiotics, antidiarrheal etc. are available. Also, facilities for I.V. injections and fluids and suture needles and materials are available for minor suturing. First aid kits are issued to all hostels. Time to time health awareness campaigns are organized by the NSS units. Medical experts are invited to deliver special lectures on self-hygiene, tobacco and its toxicity,nutritious foods for healthy living etc.

6.5.5.2. Examination hall:

Since the College of Horticulture is under construction, the examination halls of CAEPHT, Ranipool are utilized for conducting exams for the students of College of Horticulture. Separate exam halls are unavailable and hence normal classrooms are rearranged as exam halls during the time of exam, the details of which are:

No. of classrooms	:	4
Capacity	:	Varied capacity ranging from 20-40 sitting capacity
Facilities available	:	Chairs, writing desks, electrical fans and lights
Amenities	:	Washroom, wash basin and running water

6.5.5.3. Sports and Recreation Facilities:

The students are provided with all types of physical exercises during the classes and in physical experience class to keep them physically fit and healthy. In addition, the skill development in any one of the games such as badminton, volleyball, football, cricket, table tennis and athletics is contemplated in the physical education programme. Maintenance and cleaning of the ground are regularly done for use by the students. Matches are conducted for the students during the annual sports day and intercollege meets or any other specific days such as the Foundation Day, Republic Day etc. to improve and maintain their skills using ground facilities. Indoor games such as carom, chess, badminton and table tennis are also available.

Fig. 29. Best Cultural Parade Team and 1st Runner's Up in Youth Festival 2018

Fig. 30. 2nd in Cultural Parade During Youth Festival 2019

6.5.5.4. Auditorium:

Fig. 31. Auditorium of CAEPHT

The auditorium under College of Horticulture is under construction at the allotted site. The college is presently utilizing of the auditorium present at College of Agricultural Engineering and Post-Harvest Technology. The details of the auditorium at CAEPHT are as follows:

Does the college have auditorium	Yes
Year of construction and sitting capacity	2013; 300 number sitting capacity
How frequently the auditorium is used andpurpose for being use	• College Day (Once a year) • Republic Day (Once a year) • Foundation Day (Once a year) • Independence Day (Once a year) • Inauguration programmes (Numerous times a year) • National and International workshops (Numerous times a year) • Invited Lectures (Numerous times a year) • Teachers Day • Fresher's Day

6.5.5.5. Exhibition Hall/Museum:

Agricultural Technology Information Centre (ATIC) is functional at the site of the college. The centre is accessible to all the visiting officers, farmers and students. Sixteen leaflets and nine flexes were put on displayed containing information regarding the organic practices of various

horticultural crops viz., Sikkim mandarin, large cardamom, anthurium, tomato etc. Models of protected cultivation, different garden types prepared by the students were also displayed. Specimens of insects were also collected and displayed.

The college is also utilizing the ATIC of CAEPHT. Different farmers training, lectures and seminars are organised in the conference hall of the ATIC. Different leaflets and different tools and implement are available in the museum.

6.5.6. Research Facilities

6.5.6.1. Postgraduate Laboratories and Equipment's:

Currently college is offering only Under Graduate Programme.List of equipment available in college are as follows:

Sl. No.	NAME	QUANTITY
1.	Analytical Weighing Balance	02
2.	Weighing balance	01
3.	Electrical Conductivity meter	02
4.	Rotary Shaker	01
5.	Water Bath	01
6.	Automatic Nitrogen Digestion & Distillation System	01
7.	Compound Microscope	04
8.	Trinocular Microscope	01
9.	Flame Photometer	01
10.	Leaf Area Meter	01
11.	Horizontal Laminar Air Flow	01
12.	pH Meter	02
13.	Magnetic Stirrer	02
14.	Centrifuge	01
15.	Double Distillation Unit	01
16.	BOD Incubator	01
17.	UV-VIS Spectrophotometer	01
18.	Magnus Monocular Microscope	04
19.	Dissecting Microscope	01
20.	Olympus Trinocular Microscope	01
21.	Hot Plate	01
22.	Soil-Tensiometer (Irrometer)	07

23.	GPS	01
24.	Digital refractometer	01
25.	Laminar Air Flow	01
26.	Gel doc	01

Apart from these instruments food processing technology laboratories, farm power machineries, soil and water conservation laboratories, etc are utilised by College of Horticulture.

6.5.6.2. Research Contingency:

As the College of Horticulture is presently offering only one under graduate programme in Horticulture, the funds received from CAU are used for conducting undergraduate educational activities, especially for practical classes, wherever applicable. Adequate funds are available for meeting the recurring expenses incurred during the education programme. The year wise funds received for various education related activities are as follows:

Year	Particulars	Amount (in Lakhs)
2016-17	Experimental farms	5 lakh
2017-18	Experimental farms	30 lakh
2018-19	Experimental farms	28.4 lakh
2019-20	Experimental farms	30 lakh

6.5.7. Outcome/Output

The College of Horticulture takes paramount interest in the performance of its students in the field of studies, sports, other extracurricular activities, employment and career growth. Alumni of the University are regularly consulted to get feedbacks on employment, performance in competitive exams, job selection process etc.

6.5.7.1. Student Performance in National Examinations: List of ICAR – JRF Holders, 2019

Sl. No.	Name of the student	Discipline	ICAR- JRF RANK	Seat Allotted
1.	Ms. L. Mashine	Horticulture	UPS-9, ST-24	MPKV, Rahuri Horticulture

List of ICAR – JRF Holders, 2020

Sl. No.	Name of the student	Discipline	ICAR- JRF RANK	Seat Allotted
1.	Mr. Brendon Lalchawimia	Physical Science	ST-5	IARI, New Delhi Agricultural Chemicals

2.	Ms. Rajshree Chand	Plant Biotechnology	AIR-53	PAU, Ludhiana Plant Biotechnology
3.	Ms. Tingku Soram	Plant Science	UPS-6	Dr. RPCAU, Pusa Plant Breeding & Genetics
4.	Ms. Daffylabeth L. Chyne	Horticulture	UPS – 8, ST-18	PAU, Ludhiana Olericulture
5.	Ms. Losa Lajeo	Horticulture	ST-27, UPS-14	VNMKV, Prabhani Olericulture

6.5.7.2 Students Placement Profile:

Most of the students graduating from College of Horticulture are placed in academics/research institution for pursuing higher education in India and abroad.

Name of the student	Exam qualified	Alloted seat
Mr. Amiya Das	CAT	IRMA, Anand, Gujarat

6.5.7.3. Awards/Recognitions/Certificates: Annexure **6.5.7.3**

6.5.7.4. Employability:

The students are acquainted with hands on practical for processing and value addition of horticultural crops. Interactive sessions with entrepreneurs of the region are being held time to time. This allows the students to start up an enterprise at their own level.

The students are also furnished with knowledge both in theory and practical in production technology and various practices of horticultural crops.

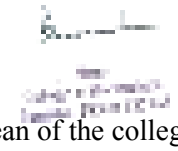
One alumni of the college Mr. Jesonkere Sutnga of Meghalaya have started broom grass farm since 2019, he have got a good return and continuing the business. Besides these he got admission for M.Sc. Agril. Entomology in SASARD, Nagaland University from this academic session 2020-2021.

Fig.32. Harvesting of Broom Grass and curing done by Mr. Jesonkere Sutnga in Jaintia Hills, Meghalaya

6.5.8. SSR of the College must have the SSR of all its Degree Programmes (following section 6.4),then the report of the Colleges shall be considered.

6.5.9. Certificate (Applicable when SSR is submitted for Programmes & College).

I, the Dean Prof. P.P.Dabral hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awardinguniversity.



Signature of the Dean of the college with Date & Seal

ANNEXURE 6.5.2.3

College of Horticulture, Bermiok, Sikkim

Sl. No.	Name and designation	Highest qualification and Department	Year	Related work experience in the field	Award/ recognition/certificate	Experience in other areas
1	Dr. Diggangana Talukdar Assistant Professor	Ph.D (Agri) Plant Pathology	2015	Pathogenic variability and epidemiology of Alternaria blight of Rapeseed and Mustard	• Merit award on poster presentation – 2013 • Second prize in oral presentation – 2014 • Best poster award- 2016 • Nominated for Prof. M.J. NarasimhanMerit Academic Award- 2016 • Young Scientist award ICFA – 2018 • Young Scientist Awardn NEE congress - 2018	• Mycology, Molecular plant pathology, epidiomology • SRF in DBT (extramural project) for 1 year1 month
2	Dr. Dipika Sarmah Assistant Professor	Ph.D (Hort) Floriculture & Landscaping	2016	*In-vitro* cloning of *Phalenopsis*	• Assam Agricultural University under-graduate merit scholarship (2006-2010) • Assam Agricultural University Post–graduate merit scholarship (2010-2012) • Second prize poster presentation - 2013	Production technology of flowers, Plant tissue culture

3	Dr. Pukhram Bhumita Assistant Professor	Ph.D (Agri)Entomology	2016	Bio-ecology of Erythrina gall wasp (EGW), *Quadrastichus erythrinae* Kim. (Hymenoptera: Eulophidae), a new aggressive and invasive gall inducing pest in India".	• Central Agricultural University merit Scholarship (2008 -10) • BCKV, University Research Fellowship (2011-2014) • Second prize in shashya suraksha yuva pratibha award- 2016 • Eminent scientist award-2018 • Young entomologist award-2020 • Third Prize in Oral presentation- 2020	Economic entomology, Taxonomy,
4	Dr. Yamuna Pandey Assistant Professor	Ph.D (Hort) Fruit Science	2019	Nutraceuticals Potential of Underutilized Fruits ofSikkim	-	• Production technology and Breeding • RA in National Horticulture Mission Project for 11 months • JRF in BARC project on Irradiation Technology for 6 months • Technical Officer in ICAR- GKMS

						Project for 3 months
5	Dr. Sapam Rajeshkumar Singh Assistant Professor	Ph.D (Agri) Plant Breeding and genetics	2018	Evaluation of Lentil (Lens culinaris L) germplasm under low input acidic soil conditions of North east India	• ICAR-NTS scholarship-2006 • Jawaharlal Nehru Memorial Fund scholarship for Doctoral studies-2016	Biotechnology, Agricultural statistics, plant tissue culture, plant physiology
6	Dr. Haobijam Sanjita Devi Assistant Professor	Ph. D. (Biochemistry)	2019	Chronobiological study	• CSIR-UGC-JRF Fellowship • CSIR-JRF Fellowship	Circadian rhythm and melatonin, Molecular biology, Project Assistant at IISc Bangalore for 9 months

Experience in teaching/research/extension
Teaching

Sl. No.	Name and designation	Institution	Details (UG/PG)	Duration	Total experience
1	Dr. Diggangana Talukdar Assistant Professor	College of Horticulture (CAU-I), Bermiok, Sikkim	Taking all the UG courses of plant pathology and environmental science course of COH, Bermiok and general microbiology, food microbiology, industrial microbiology and food safety courses of CAEPHT, Ranipool	18.08.2016 to till date	4 years 4 months
2	Dr. Dipika Sarmah Assistant Professor	School of Agriculture, Centurion University of Technology and	Took UG courses of both the subject of Floriculture and Fruit science	28.12.2015-31.8. 2017	1 year 8 months

		Mangaement, Odisha			
		College of Horticulture (CAU-I), Bermiok, Sikkim	Taking all the UG courses of Floriculture and Landscaping department	04.09.2017 to till date	3 years 3 months
3	Dr. Pukhram Bhumita Assistant Professor	College of Horticulture (CAU-I), Bermiok, Sikkim	Taking all the UG courses of Entomology, environmental science, organic farming of COH, Bermiok Horticulture and plant protection of Agri-Engineering course and environmental science of Food technology course	11.08.2016 to till date	4 years 4 months
4	Dr. Yamuna Pandey Assistant Professor	Sikkim University Department of Horticulture	Took UG courses of agronomy and soil science	03.08.2015-16.12.2015	5 months
		College of Horticulture (CAU-I), Thenzawl, Mizoram	Took all UG courses of fruit science and spice and condiment course	18.09.2017-20.12.2019	2 years 3 months
		College of Horticulture (CAU-I), Bermiok, Sikkim	Taking all UG courses of fruit science	23.12.2019 to till date	1 year
5	Dr. Sapam Rajeshkumar Singh Assistant Professor	College of Horticulture (CAU-I), Thenzawl, Mizoram	BSH-115, BSH-123, BSH-211, FSC-222, VSC-311, VSC-321 & FLS-322	30.08.2016-22.12.2019	3 years 4 months

		College of Horticulture (CAU-I), Bermiok, Sikkim	Taking all UG courses of breeding and genetics	23.12. 2019 to till date	1 year

CENTRAL AGRICULTURAL UNIVERSITY
IMPHAL, MANIPUR

Dated, the 20th March, 2018

The DCoF
College of Horticulture
Keretok, Thoubal District
Manipur

Sub: Nomination of Faculty member/Teaching Associate for Board of Studies reg.

Sir,

In reference to your letter no. [illegible] dated, 2nd February, 2018 on the above subject, I am directed to convey the approval of the following candidate for Board of Studies representing your college for the Faculty of Horticulture & Forestry which was notified vide Revised Order No. CAU/Estt/2013-14/1005, dated 9/1/18, for taking further necessary action. Please.

Sl. No.	Name & address with Designation	Position
1	Dr. [illegible] Assistant Professor (Soil Science), ICAR Deptt. CAHNRT & Ex-Asst. Engineer (Agril.), College of Horticulture, Keretok, Thoubal	Member
2	Dr. [illegible] Teaching Associate (Horticulture) College of Horticulture, Keretok, Thoubal	Member

Yours faithfully,

(Y. Ranjana Devi)
Deputy Director of Instruction
Imphal, the 20th March, 2018

No. COH/SC/Cir-777/ Dated: 25.02.2021

OFFICE ORDER

Internal Complaint Committee

In compliance with the letter No. CAU/Reg/191(3)/2021/Estt.(Vig)/6292/2020 dated 22nd February 2021 and No. CAU/Reg/191(3)/2021/Estt.(Vig)/6292/2020 dated 23rd February 2021, received from Registrar, CAU, Imphal on "Internal Complaint Committee" has been constituted by the undersigned with the following members for College of Horticulture as per the guidelines on Sexual Harassment of Women at Workplace.

1.	Dr. Dilip Kumar	Assistant Professor	Presiding Officer
2.	Dr. Pabitra Kumar	Assistant Professor	Member
3.	Dr. Digvijaya Tripathi	Assistant Professor	Member
4.	Dr. N. Priyobarta Singh	Assistant Professor	Member
5.	Dr. M. Sanjita Devi	Assistant Professor	Member
6.	Dr. Yumnam Faiza	Assistant Professor	Member
7.	Miss. Elizabeth K. George	Assistant Librarian	Member
8.	Smt. Monalisa Pan	Technical Staff, SAG group, Antifungal Biologicals	Member

All the members will act according to the guidelines regarding prevention of Sexual harassment of working women in work place issued by GoI.

Yours faithfully,

(Prof. P. P. Dabral)

6.4. Self Study Report for the Degree Programme, College of Horticulture, Bermiok.

For the college offering degree programme as per recommendations of 5th Dean's Committeesof ICAR/VCI/BSMA

6.4.1. Brief History of the Degree Programme:

College of Horticulture, Bermiok, Sikkim was established on 21st May 2015 on the beautiful landscape of Tokal, South Sikkim. The state is bestowed with varied agro-climatic zones ranging from alpine region to sub-tropical hill areas. This favours cultivation of diverse agricultural and horticultural crops. The region is also one of the diversity hotspots i.e., Eastern Himalayas of the world allowing many diverse species of flora and fauna.

The land is the home of horticultural crops like large cardamom and many species of orchid. The region has huge scope of horticultural crops like off-season vegetables, ginger, turmeric, anthurium roses, Sikkim mandarin, tomato, cole crops. The activities relating to promotion of non- traditional practices like bee keeping and mushroom cultivation, plantation of bamboo and medicinal plants have added diversification to horticultural activities. The significance of horticulture in improving land use, promoting crop diversification, generating employment and providing nutritional security to people has been recognized by and large by common people, policy farmers and programme implementers. Hence, horticulture features as an important area in the overall policy frame work for development in the state.

At present, the college is camped at College of Agricultural Engineering and Post-Harvest Technology, Ranipool.

Mandate:

(i) Development of appropriate human resource for carrying out various horticultural activities in the state of Sikkim
(ii) Development of relevant technologies suitable for horticultural sector aiming to welfare of farming community of Sikkim
(iii) Dissemination of horticultural technologies for the development of sustainable, scientific and profitable horticultural sector among the various stake holders.

Objectives

The College has been established with following broad objectives

- To impart education in different branches of horticulture and allied sciences
- To further the advancement of learning by undertaking research in horticulture and allied sciences
- To undertake the programmes of extension education in the state of Sikkim and others inthe jurisdiction of CAU, Imphal and
- To undertake such other activities as it may deem fit from time-to-time.

Achievements of the College:

- Various equipments for laboratory and furniture (Enclosure B) were purchased for smooth functioning of the college.
- Renovation of the Hi-tech polyhouses, low cost polyhouse and horticultural crops like capsicum, rai sak, tomato, palak, gerbera were grown.
- Sixteen leaflets and twenty-five flexes were published containing the information of various organic practices for horticultural crops viz., large cardamom, Sikkim mandarin, Guava,

Kiwifruit, Papaya, chayote, anthurium, Dalle khorsani (Chilli), etc. for disseminating to the farmers and students.

- Establishment of the demonstration cum Research block of Temperate fruits were initiated in the year 2018 and 60 plants of temperate fruits crops consisting of apple var. Anna, apple var. HRMN-99, Pear var. Babugosha, Peach var. Red Heaven, Kiwi var. Allison, Apricot var. New Castle, Nectarine var. Silver King, Plum var. Santa Rosa, Persimmon var. Hachiya, Walnut var. Local. These plants were planted from 12.01.2018 to 16.01.2018. All the crops are well established and acclimatised. Flowering and fruiting was observed during February-March 2019 of apple, nectarine persimmon and kiwi.
- Establishment of the demonstration cum research block of Tropical and subtropical fruit crops were also taken up during the year 2018-19. Various tropical and subtropical fruit crops like litchi, Gulab Jamun, Wood apple, Bael, Aonla, Jackfruit, Lemon, Jamun, Hogplum, sapota and avocado were planted on 26.09.18 and 01.12.18. The materials were procured from UBKV, Cooch Behar and IIHR, Bengaluru.
- Demonstration cum research block of floriculture was established. Gerbera, poinsettia, tuberose, croton, bougainvillea, gardenia plants and heliconia were planted. The materials were collected from Model Floriculture Unit, Govt. of Sikkim, Horticulture Research Station, Guwahati, Assam and Horticulture farm of CAEPHT, Ranipool, Sikkim.
- Demonstration cum research block of vegetables and spice crops was established. Annual vegetables like cowpea, okra, amaranthus, french bean were grown as intercrop with temperate fruit crops. Curcubits viz., cucumber, brinjal and dalle were grown as sole crops. Beet root was grown as an intercrop with temperate fruit crops 13kg was harvested and sold @₹60/kg. Capsicum var. California Wonder was sown on 06.02.2019. In total 580 plants were grown under hi tech polyhouse.
- Adoption of model village for plantation of fruit crops such as Pear, Peach and Guava was done in uncultivated areas of Passi, Pabong and Chalamthang villages, respectively under south Sikkim in the year of 2020.
- Adoption of model village for cultivation of vegetable crops such as cauliflower, Broccoli and Cabbage was done in the village of Passi, Pabong and Chalamthang villages, respectively under south Sikkim in the year of 2020.
- During the 4th Inter-collegiate Youth Festival of CAU 2017-18, College of Horticulture, Bermiok, Sikkim bagged 2 gold medals, 4 silver medals, 1 bronze medal and 1 consolation prize leading to overall runner's trophy among the 13 constituent colleges of Central Agricultural University, Imphal. The college also won the best cultural procession.
- During the 5th Inter-Collegiate Youth Festival of CAU 2018, College of Hortculture, Bermiok, Sikkim bagged the best cultural procession. Mr Alokesh Gangopadhyay, 2nd Year, 14/Hort/17, got 1st position in light vocal and ex-tempore and 2nd position in clay modelling. He also received the best male participant.

  Students of this college have shown outstanding performance in the AIEE (All India Entrance Examination for ICAR- JRF).

List of ICAR – JRF Holders, 2019

Sl. No.	Name of the student	Discipline	ICAR- JRF RANK	Seat Allotted
1.	Ms. L. Mashine	Horticulture	UPS-9, ST-24	MPKV, Rahuri Horticulture

List of ICAR – JRF Holders, 2020

Sl. No.	Name of the student	Discipline	ICAR- JRF RANK	Seat Allotted
1.	Brendon Lalchawimia	Physical Science	ST-5	IARI, New Delhi Agricultural Chemicals
2.	Rajshree Chand	Plant Biotechnology	AIR-53	PAU, Ludhiana Plant Biotechnology
3.	Ms. Tingku Soram	Plant Science	UPS-6	Dr. RPCAU, Pusa Plant Breeding & Genetics
4.	Ms. Daffylabeth L. VChyne	Horticulture	UPS – 8, ST- 18	PAU, Ludhiana Olericulture
5.	Ms. Losa Lajeo	Horticulture	ST-27, UPS-14	VNMKV, Prabhani Olericulture

List of Toppers of B.Sc. (Hons.) Horticulture, Since Inception

Sl. No.	Name	Year of Passing
1.	Ms. L Mashine	2019
2.	Mr. Afad Akbar	2020

6.4.2. Faculty Strength:

Sl. No.	Sanctioned Faculty	Faculty Place	Faculty recommended by the ICAR/UGC/VCI/other regulatory bodies
1.	Professor	Nil	8
2.	Associate Professor	Nil	11
3.	Assistant Professor	06	31
Total		06	50

As per faculty recommended by ICAR regulatory bodies the faculty strength are not sufficient. However, the CAEPHT and MTTC & VTC faculties are being assigned to complete the curriculum of the undergraduate degree programme. At present the College of Horticulture is utilizing the existing facilities of College of Agricultural Engineering and Post-Harvest Technology, Ranipool. Special focus is paid for all round development of student to show their hidden talent in addition to their educational programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and carrier. Annual College Week, Blood Donation Camp, Science Day, Awareness Programs, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students. The students also participate regularly inter collegiate event of University and National level competitive events.

6.4.2.1. Faculty Profile (department wise):

Department wise faculty strength of CoH, Bermiok

Sl.No.	Department	Sanctioned Faculty	Filled post	Faculty recommended by ICAR
9.	Fruit Science	Professor	-	1
		Associate Professor	-	2
		Assistant Professor	1	3
10.	Vegetable Science	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	4
11.	Floriculture & Landscape architecture	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	1	2
12.	Post harvest Technology	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	2
13.	NRM	Professor	-	1
		Associate Professor	-	1
		Assistant Professor	-	6
14.	Social Science	Professor	-	1
		Associate Professor	-	1

		Assistant Professor	-	5
15.	BSH	Professor	-	1
		Associate Professor	-	2
		Assistant Professor	2	6
16.	Plant Protection	Professor	-	1
		Associate Professor	-	2
		Assistant Professor	2	3
		Total	06	

The existing faculty strengths of College of Horticulture, College of Agricultural Engineering and Post-Harvest Technology is sufficient for academic requirement of the college. The numbers of faculties who are involved in teaching activities are given below.

Faculty member utilized from College of Agricultural Engineering & Post Harvest Technology, Ranipool, Sikkim				
Department in COH Bermiok	Department in CAEPHET, Ranipool	Prof.	Assoc. Prof.	Assistant Prof.
	Basic Engineering& Applied Sciences	-	-	8
	Irrigation and Drainage Engineering	1	-	1
	Farm Power & Machinery	1	1	1
	Soil Water Conservation	1	-	-
PHT	Process and Food Engineering	2	-	2
	Total	5	1	12

23.	GPS	01	
24.	Digital refractometer	01	
25.	Laminar Air Flow	01	
26.	Gel doc	01	

Farm Facilities
• Availability of Farm equipment viz. Brush cutter • All the essential garden tools viz. Hedge shear, Pruning Secateurs, Digging trowel, water cane, Pruning and budding knife, Khurpi, spade, garden rake, measuring tape and Hand sprayers etc. are available for maintaining the farm • The Low-cost polyhouses and Hi-Tech Greenhouse has been established in the farm for growing various seasonal and annual vegetables. • Availability of water supply to the farm • Development of demonstration farm cum research block for vegetable, spice crops andflower where the practical work can be done smoothly. • Development of Orchard for demonstration of practical classes for fruit crops. • Development of High Density Orchard of Guava is done for Research and Educationalpurpose. • Establishment of Temperate fruit Block (Orchard) has been done in college campus. • Establishment of Tropical and Sub-tropical fruit block is done.

6.4.5. Conduct of Practical and Hands-on-Training:

Presently, the college is camped at College of Agricultural engineering and Post harvest Technology, Ranipool one of the constituent college of Central Agricultural University, Imphal. Therefore, it is utilising the facilities available at the camped college for conducting the practicals for all the courses needed at the Basic Engineering and Applied Sciences laboratory. Field/ orchard visit for identification and practical of horticultural crops. As needed the students are taken to nearby institutes like ICAR-National Research Centre-orchids, Pakong, Sikkim, Model Floriculture, Govt. Of Sikkim, Temi Tea Garden and ICAR-NOFRI, Tadong, Sikkim for acquiring the requisite practical knowledge.

6.4.6. Supervision of students in PG/PhD programmes: NA

6.4.7. Feedback of stakeholders (Students, parents, industries, employers, farmers etc.): This college is especially for the 80% tribal students & gives opportunities to the tribal students for the career development in Agriculture sector. This college has kept suggestion and complaints box in college premises. Regular counselling meetings are organized and in emergency parents are also participated for the personality developments of students. This college has provided an excellent platform and infrastructure to establish rapport between students and teachers. During extension activities the farmer's feedback and problems are dully recorded to solve the problems**. The detail of the feedback forms are attached as Annexure 6.4.7**

6.4.8. Student intake and attrition in the programme for last five years:

The College presently offers only Under Graduate Programme in Horticulture *i.e.* B.Sc. (Hons.) Horticulture which is of 4 years duration. The annual intake of students to the college at UG level has increased since the inception of the university.

Name of the Degree Programme	**Actual student admitted in last five years Attrition (%)**					**Attrition (%)**				
B.Sc. (Hons.) Horticulture	Y1	Y2	Y3	Y4	Y5	Y1	Y2	Y3	Y4	Y5
	15	20	19	16	19	6.66	10	5.26	0	0

6.4.9. ICT Application in Curricula Delivery: Yes

Since the college is under construction, the College of Horticulture and Forestry, CAU, is giving good facilities to our students. Student are fully equipped with computer with internet facilities during their computer classed and other time whenever they required. A smart classroom with one LCD projector and audio-visual aids for better delivery of lectures. All the four class room have LCD projector, a table, podium, whiteboards/screen, black board with duster will be available in each class room for the use of teachers.

Wi-Fi facilities ar available in the library with a band width speed of 1GBps from NIC- NKN network. KOHA LMS is being used for Library Automation in CAEPHT Library. Necessary steps have been initiated for accessing online journals and study materials at Electronic Resource Management package for e-journals access through CeRA (Consortia fore-Resources in Agriculture).

6.4.10. The information pertaining to 6.4.1 to 6.4.9 shall be provided for each one of UG, PGand Ph. D Degree Programmes, separately, and to be presented College-wise: **Yes**

6.4.11. Since the accreditation of Programmes is related to the All India Admission from ICARand also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate (Applicable when SSR is submitted for Programme)

I, the Dean Prof. P. P. Dabral hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college, and degree awarding university.

Signature of Dean of the College with Date & Seal

SELF-STUDY REPORT (SSR) FOR THE COLLEGE OF FOOD TECHNOLOGY, CAU, LAMPHELPAT, IMPHAL, MANIPUR

6.5. Self-Study Report for the College

The College of Food Technology was established during May, 2015 as one of the constituent Colleges of Central Agricultural University, Imphal, Manipur. It is situated at Lamphelpat, Imphal West District of Manipur at 24º82'N latitude and 93º90'E longitudes at an approximate altitude of 790 metres above MSL. The campus of College spreads over an area of 3 acres on the foothills of Langol Reserved Forest area. On the eastern boundary of the campus, Mary-Kom Road approaching from the Office of Deputy Commissioner (DC), Imphal West passes through towards the Asian Games Village adjoining the Langol Hill on the northern side of the campus. On the southern and western fronts, the College is surrounded by the Central Farm of the Central Agricultural University, Imphal. The alluring hillside view and serenity of the campus provides for an excellent peaceful learning centre and an ideal atmosphere for academic and research activities.

The College of Food Technology, Imphal imparts education in the form of Bachelor of Technology (B. Tech.) in Food Technology. The College started its first academic programme *i.e.,* 4 year B. Tech. (Food Technology) programme from academic session 2015-2016 with intake capacity of 20 students.

The course curriculum and syllabi of the degree programme are based on the model academic regulations and syllabi as proposed by the 5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi. While designing curriculum, utmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers and entrepreneurs for emerging opportunities of food technology and food processing at national and international level.

At present 10+2+4 pattern which comprises Student READY Experiential Learning Programme (ELP) I and II and Students READY Research Project and report writing for 3 weeks each in semester VII and also Students READY Seminar for personality development in the same semester are offered to the students. The whole of VIII semester is offered in the form of In-plant training of the students for 10 weeks in different industries and research institutes at national level. So far, students have been exposed to different skills and hands on training in different places including CSIR-Central Food Technological Research Institute (CFTRI), Mysuru, Amul, Anand, Gujarat, Patson Foods, Ahemadabad, Nilon's, Guwahati, etc. Moreover, the ELP have been conducted in food producing units of the state of Manipur which includes Thangjam Agro, Imphal, Meira Foods, Imphal, Modern Foods, Takyel Industrial Estate, etc. in different skill categories.

Fig. 1: Satellite Image (Google Maps) of the campus of College of Food Technology, Lamphelpat, Imphal

The College of Food Technology, Imphal is an unique campus under the Central Agricultural University, Imphal with complete integration of all the three functions *viz.;* teaching, research and extension. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of food processing, packaging, storage and distribution of food product not only in Manipur but also in the entire North-Eastern Region of India. The college shall also endeavour to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. The major mandates of the College are:

i) Making provision for imparting education in food science and engineering.

ii) Advancement of learning and conducting research particularly in Food Technology and other allied sciences / technologies especially for the rural people of the state in general.

iii) Undertaking activities pertaining to major mandates *via*, education, research and extension as directed by the University from time to time.

Mission

To train technical manpower, pursue high quality and high impact research, design and development of sustainable technologies/equipment related to food technology and disseminate the developed technology to the farmers' field/ entrepreneurs of NEH region of India.

Objectives:

1) To establish and develop excellent academic facilities for offering undergraduate and

postgraduate education in the discipline of food technology, appropriate to various states of NEH region in particular and the country in general.

2) To impart quality education so as to produce globally competitive graduates and post graduates in areas of food technology including inter disciplinary areas so that confident and capable human resource, suitable for working as scientists, academics, managers, entrepreneurs etc., could be developed.
3) To establish specialized research laboratories fitted with state of art machineries equipment and instruments for taking up basic and applied research by the scientists/teachers and post-graduate students and experiential learning facilities including pilot plants for 'hands - on training' of undergraduates students.
4) To carryout research to generate technology and extension of technology to the micro food processing unit and professional body.
5) To develop and demonstrate modern and advanced food processing system appropriate to NEH states which may help the farmers to improves their productivity and profitability while preserving and improving the environment.
6) To develop need based improved agro-technologies and equipment for NEH region for household and on farm operations, post-harvest management and utilization of renewable sources of energy.

6.5.1 College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Food Technology, Imphal. The Academic and Administrative building of College is depicted in Fig. 3. The Dean is assisted by various teaching, non- teaching and non-technical members of the institution.

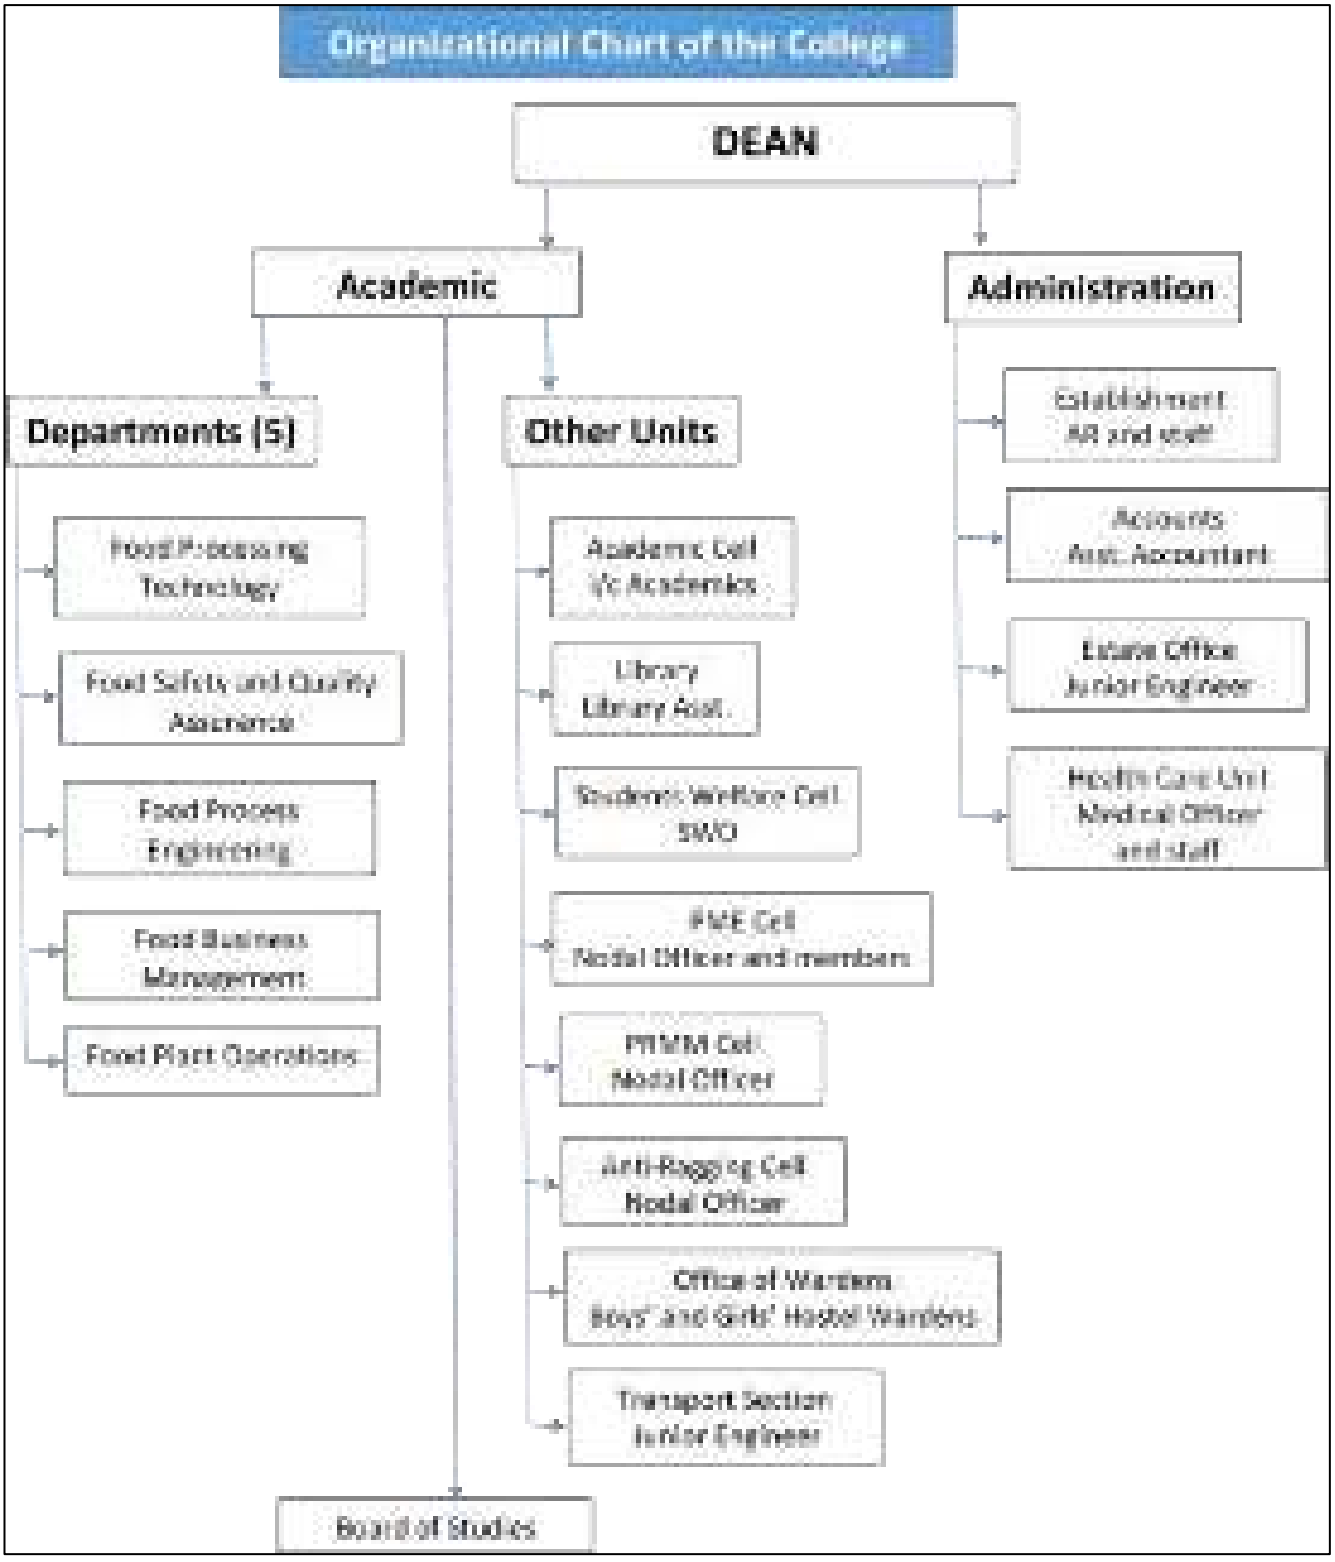

Fig. 2: Organizational structure of the College of Food Technology

Fig 3: Administrative and Academic Building of the College

6.5.1.1. College Dean's Office Establishment:

The Dean's post of the College of Food Technology is sanctioned by the appropriate authority as per the ICAR Model Act for a tenure of five years. The present Dean Dr. Ng. Joykumar Singh was appointed as Dean In-charge of the College on 28th October 2020 vide order number VC/CAU/54/95-(A) VoL-VI/2236, dated Imphal, the 28th October, 2020.

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines	: Yes
2.	Date of selection/joining of present Dean	: 28th Oct., 2020
3.	Mode of selection	: Nomination; and serve as I/C Dean until regular Dean is appointed
4.	Tenure of the regular Dean	: 5 years
5.	Total number of staff in Dean's office	: One PA (Y. Ricky Singh)
6.	Infrastructure facilities (Details on infrastructure and networking facilities available)	• Computers with printers are available at the Dean's office with internet and UPS connectivity • Copier facility is available with Wi-Fi connectivity

Staff availability in the Dean's Secretariat:

Academic:

Sl. No.	Name of the staff	Designation
1.	M. Biren Singh	MTS

Library:

Sl. No.	Name of the staff	Designation

Engg. Section	2	1	1	-	-
Academic Section	2	1	-	1	-
Library	1	1	-	-	-

6.5.1.2. Monitoring Mechanism for Quality Education (on-line):

The college, under the direct supervision of the Dean, implements online monitoring mechanism for quality education of the students. Presently, the Dean monitors a WhatsApp group comprised of all the teachers conducting classes of the undergraduate students of the college. Every teacher reports the status of class taken indicating time of class, duration of class, name (s) of topic covered and attendance of students in the WhatsApp group immediately after the completion of the class. If any student (s) was found absent from the class, then the teacher is instructed to ascertain the reason for the absence and remedial measures are taken up so that the student (s) does not lag behind in the syllabus covered. Apart from that, regular online assessment in the form of quiz and assignments are conducted by the concerned teacher and is also reported in the group.

In addition to the above (specifically during this pandemic period) the college is fulfilling an internal quality assurance system in the areas of teaching, research and extension of the college.

Teaching

At the beginning of every semester course registration is done immediately after getting admission. The conduct of theory and practical classes are reviewed by the Academic In-charge and the Dean, College of Food Technology, Imphal. Academic Management System (AMS) is being implemented at college level, College of Food Technology, CAU, Imphal as part of student portal, an initiative of Agricultural Education Division of ICAR. The data generated by the system is used for generating reports of the university.

Fig. 4 Online class monitoring of the college

Undergraduate degree programme (B. Tech. Food Technology)

The College presently offers undergraduate degree programme as B. Tech. (Food Technology) only and there are no post-graduate and Ph. D. degree programmes. The examination system of the undergraduate degree programme is a combination of internal and external i.e. (1) Internal assessment (2) External (Annual Composite examination). Examination and Evaluation of Annual Comosite examination are done by external examiner from learned faculty members outside the University as per VCI, Minimum standard Veterinary Education, 2008 &2016.Students are asked to submit assignment in each subject. Academic progress of each student is monitored and supervised by a faculty as Advisor.

The present mechanism of teaching can be summarized as follows.

- Mid semester, practical and final theory examination are conducted to assess the students. Assignments are regularly given to students in each of the courses related to the curriculum
- External system of evaluation followed for both theory and practical for each course related to the curriculum
- Academic counseling is done every week by assigned student advisors
- Monthly quiz programmes and group discussions are arranged for the students to ascertain their proficiencies and knowledge
- Students who are academically weak are given special guidance and extra lectures are conducted for their improvement.

Faculty Research

a) Externally funded projects

1. "Development and Evaluation of Drying Systems for Important Spices of North Eastern States" funded by DST Govt. of India. Project cost= Rs.27.00 lakhs[P.I.]
2. "Establishment of CAU-BDT rural cluster project of processing and value addition to pineapple in chandel district of Manipur" funded by DBT, Govt. of India, Project cost = 41.45 lakhs. 2018 [P.I.]

3. Tribal Sub Plan Project as "Enhancing Socio-economic status and livelihood security of Tribal farmers of North East Hill States through Agricultural Interventions" [Project Member].
4. PFDC sponsored by NCPAH, New Delhi.
5. Farmers first Project [Project Member]

Intramural projects:

- "Design and Fabrication of Low Cost Solar Cabinet Dryer" sponsored by CAU, Imphal [P.I.] Project cost= Rs.30,000/-(completed)
- "Development and Performance Evaluation of Low Cost Drying Technology for Some Important Spices of Manipur" sponsored by CAU, Imphal [P.I.] Project Cost=Rs.1.25 Lakh (completed)
- "Development and performance Evaluation of manually operated pineapple harvester" sponsored by CAU, Imphal [P.I.], Project cost = Rs.85,000/- (completed Project)
- Solar Assisted poultry incubator sponsored by CAU, Imphal [P.I.], Project cost = Rs.1, 55,000/- (On-going Project)

Students' research guided by Teachers

Sl. No.	Year	Title of report	Name of the students	Place of work
1	2018	Development and formulation of Chak-hao (Black rice) based GulabJamun	Ngangom Sweety Chanu and Arvind Kumar Yadav	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
2	2018	Development and formulation of Chak-hao (Black rice) based noodle	Bharat Singh Irom and Monika Konsam	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
3	2018	Development and sensory evaluation of deep fried chayote chips	Manojkumar Pheiroijam and Wahengbam Athoi	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
4	2018	Development of supplementary food from Chak-hao	Niamcha Lowang and Laishram Bhaktaraj Singh	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
5	2019	Development and Formulation of Sugar Free GulabJamun by Using Bulk Sweetener (Maltitol Syrup)	Ngangom Sweety Chanu	CSIR-Central Food Technological Research Institute (CFTRI), Mysuru
6	2019	Studies on Development of Omega-3 Fatty Acids Enriched Halwa, A Traditional Indian Confection	Bharat Singh Irom	CSIR-Central Food Technological Research Institute (CFTRI), Mysuru
7	2019	Development and nutritional evaluation of ready to eat products from sweet potato	Monika Konsam	CSIR-Central Food Technological Research Institute (CFTRI), Mysuru

8	2019	Development and Quality Evaluation of Ready to Eat (Rte) Gel Like Intermediate Moisture Product From Juice Blend of Pineapple (*AnanasComosus*) and Watermelon (*CitrullusLanatus*)	Pheiroijam Manojkuar Singh	CSIR-Central Food Technological Research Institute (CFTRI), Mysuru
9	2019	Studies on the Development of Value Added Products using Culantro (*EryngiumFoetidum*) and others Spices	Laishram Bhaktaraj Singh	CSIR-Central Food Technological Research Institute (CFTRI), Mysuru
10	2019	Development of Black Rice (Chak-hao) cake	Lalhruaichhungi and Sorokhaibam Romita Devi	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
11	2019	Development and Sensory Evaluation of aromatic black rice Idli	Bhavesh Datla and Rebika Salam	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
12	2019	Development of Instant Soup Powder using Heikak (Water caltrop) as Base Material	Alok Das, DaniNado and U. Priyambada	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur
13	2019	Thermal analysis on boiling of egg	Evenstar Kharbani, Rohan Singh, and Banteilang Kharbani	College of Food Technology, Central Agricultural University, Lamphelpat, Imphal, Manipur

Extension

The faculty of College of Food Technology has organized a number of extension activities. These activities are monitored by the Dean and University Officers regularly and annually by obtaining reports.

Table 1: Extension activities of the college

Activity	**2017-18**	**2018-19**	**2019-20**
Participation in CAU Regional Agri Fair	01	Nil	01
COVID Awareness Programme	Nil	Nil	01
Skill imparting training programme on Bakery	Nil	02 nos. (06 days each)	01 (06 days)

Measures taken to improve the quality of education, research and extension

Education

- Industrial and institute related exposure visits related to the courses offered to the students
- Recognition and awards are given to best students at university level
- Educational talk are arranged inviting experts from different fields
- Assignments and exams are conducted on regular basis

Research

- Encouraging students to actively participate in workshops, webinars and conferences
- Experimental learning programme of two different modules is conducted for 12 weeks each and 10 weeks in plant training for skill generation at different industries and research institutes in India
- Students undergo Research project as part of the syllabus during VII semester under the guidance and supervision of the faculty. As part of the work, project reports are prepared and submitted to the college by the students.

Impact of monitoring with reference to students' excelling in academics, research and extracurricular activities

Academics

Since its inception, the College of Food Technology, Central Agricultural University, Imphal has produced 18 (eighteen) B. Tech. Graduates in Food Technology. The passed out students are constituted mainly from the North-eastern states of India. There were students from other parts of the country including Uttar Pradesh, Bihar and Rajasthan who admitted through ICAR nomination. Although small in number, the college has been able to contribute towards the development of quality human resources in the form of graduate and subsequently higher studies and other competitive examinations. Of the 18 students graduated from the college, 12 are currently undergoing M. Tech. degree course in Food Technology in reputed national institutions like Anand Agricultural University, Anand, Indian Institute of Technology Kharagpur, Indian Institute of Technology Varanasi, Central Agricultural University, Imphal and Tezpur University, Assam. One student is preparing for the Union Public Services Examination (UPSC) while the other three students are pursuing for employment opportunities in appropriate places. So far, two (2) of the students graduated received ICAR JRF during their M. Tech. studies while five (5) students are enjoying GATE fellowship and another 6 (six) students received respective state government fellowships during their M. Tech. studies. Faculties are also encouraging the passed out and current students to appear for various competitive examinations including ICAR-JRF, ARS, UPSC, GATE, GRE, TOEFL, etc. Besides, placement cell of the college is facilitating career guidance and personality development programmes that aimed at higher employability of the students in their future.

Table 2: Academic achievements of students graduated from the College

Year	No. of students	Students in higher studies (M. Tech.)	Employment status
2019	08 (B. Tech.)	07	-
2020	10 (B. Tech.)	05	-

Research

Research activities of this college is starting to make significant contributions in the development of innovative and high impact food production technologies. The research activities carried out mainly during the Student READY Experiential Learning Programme, Student READY research programme and Student READY In-plant Training Programme as part of the recommended syllabus of the ongoing degree programme are benefitting the students to gain practical knowledge and skills in a major way. Different value addition technologies and innovative methods of food processing are developed during the above mentioned research programmes. The technologies developed during these programmes have been a regular content in the CAU Research Bulletin and other referenced national journals for the last few years.

Table 3: Technologies designed and developed in the college during the last five years (2015-2020)

Sl. No.	Title of the Technology
1	Standardized blended RTS beverage using pineapple and ginger
2	Standardized lemon RTS with local medicinal herbs
3	Standardized chak-hao (black scented rice) noodle
4	Standardized chak-hao (black scented rice) gulabjamun
5	Formulation and Standardization of chak-hao (black scented rice) super kabok (puffed rice) with chia seeds and flax
6	Standardized chak-hao (black scented rice) cookies
7	Formulation and Standardization of chak-hao (black scented rice) instant baby food
8	Standardized dehydrated ready to cook mixed vegetable
9	Ginger, garlic and U-morok (King chilli) pickle
10	Formulation and standardization of water chestnut (caltrop) soup with local medicinal herbs
11	Standardized Heimang (Rhuschinensis) balls
12	Standardized squash chips
13	Standardized chak-hao (black scented rice) cakes and cookies
14	Pineapple powder production
15	Formulation and standardization of Chak-hao (black scented rice) instant kheer mix

One of the most significant achievements of the technologies developed by the college is formulation and standardization of Chak-hao (black scented rice) instant kheer mix. This technology has become a commercial success after the memorandum of understanding signed between the CAU and RIMA Foods, Imphal in the month of January 2021. Moreover, the pineapple powder produced in the college is expected to be one of the major innovations considering the preferred quality of the fruit and marketing constraints due to difficult access to the pineapple growing areas in the hilly regions of the state.

Accomplishments

At B. Tech. level, students are admitted from all the State of NEH. Few seats are filled on all India basis through ICAR quota. The quota of various States for admission to the college is fixed. The State Governments recommend students (on the basis of competitive examinations within their state) for admission. Similarly ICAR nominate (on the basis of all India competitive examination) students for their quota. The intake capacity, number of students admitted, number of students graduated number of fellowship received by the students in various academic years are given in following two tables.

Student enrollment in the College has been getting increased gradually for each academic year. During recent past, however, some –signatory states are seeking for more allocation of seats for their students. The main reason might be the impressive performance shown by the students of this college at national level. Altogether, 18 students from two batches have already achieved their B. Tech. degree from the College. On an average, 100 per cent of passed out students secured first class in their final examination which is a morale booster and an achievement in itself. Students of this college have shown outstanding performance in the national level examinations. The following table highlights some of the major achievements of the passed out students in terms of ICAR-JRF and GATE examinations en route to their M. Tech. study in different IITs and other universities all over India.

Table 4: Performance of the students during the academic year 2015 to 2020

Sl.	Year	Intake	No. of students	No. of students	No. of students receiving

No.		capacity	admitted	graduated	scholarships
1	2015-16	20	08	08	01 merit scholarship, 07 state scholarship
2	2016-17	20	10	10	01 merit scholarship, 09 merit scholarship
3	2017-18	20	08	-	01 merit scholarship, 07 state scholarship
4	2018-19	27	07	-	01 merit scholarship, 06 state scholarship
5	2019-20	27	11	-	07 state scholarship, 03 NEC scholarship
6	2020-21	27	16	-	-

Table 5: Total number of students available during various academic years

Year	1st	2nd	3rd	4th	Total no. of students	Total scholarship
2015-16	08	-	-	-	08	08
2016-17	10	08	-	-	18	18
2017-18	08	10	08	-	26	26
2018-19	07	08	10	08	35	35
2019-20	11	07	08	10	36	35
2020-21	16	11	07	08	42	25

Table 6: Milestones achieved by the students of the College since its inception in 2015

S. No.	Name of Student	Year of passing out	ICAR-JRF	GATE	Major Subject	M. Tech.
1	Niamcha Lowang	2018	2019-20 ST – 1st UPS – 2nd Overall – 144th	-	Food Technology	Anand Agricultural University, Anand, Gujarat
2	SweetyNgangom	2018	-	2019	Food Technology	Tezpur University, Assam
3	Monika Konsam	2018	2020-21 UPS – 1st OBC – 33rd Overall – 91st	2020	Food Technology	Jadavpur University, West Bengal
4	BhaveshDatla	2019	-	2020 Overall – 19th in Engineering Sciences;	Food Technology	Indian Institute of Technology, Kharagpur

				Overal l – 1st in Food Techn ology		
5	Alok Das	2019	-	2020	Food Technology	Indian Institute of Technology, Varanasi
6	Rebika Salam	2019	2020-21 UPS – 2nd	-	Food Technology	Tezpur University, Assam
7	W. Athoi	2018	-	2020	Food Technology	Tezpur University, Assam

Table: 7.Number of students passed and secured M. Tech. in 2018-19 to 2019-20

Sl. No.	Year	Number of students qualified/Number of students placed					Number of students passed out
		JRF	SRF	GATE	M. Tech.	Other	
1.	2018	01	-	03	06	-	08
2.	2019	02	-	02	05	-	10

Extracurricular activities:

As part of the academic activities of the college, the students have participated actively in every extra-curricular activities during various events organized in and outside the University. Some of the remarkable achievements of the students in extra-curricular activities have been listed below.

Table 8: Extra-curricular activities participated by the students of the college

Sl. No.	Events (sports/literary/cultural meets)	State/regional /national level	Year	Position
1	Inter-collegiate Youth Festival of Central Agricultural University at College of Veterinary Sciences, Thenzawl, Mizoram	Regional	2018	Folk dance (group) – 2nd On-the-spot painting – 2nd (Ksh. Amitkumar Singh) Elocution – 2nd (RohanSingha) Mime (group) – 4th
2	Inter-collegiate Youth Festival of CAU at College of Agriculture, Iroisemba, Imphal	Regional	2019	Cultural procession (group) – 2nd Folk dance (group) – 3rd Quiz – 3rd (L. Bikramjit Singh and BhaveshDatla)
3	Inter-collegiate Sports Meet of CAU at College of Agriculture, Iroisemba, Imphal	Regional	2019	100 m race – 2nd (ArrowalSyngkon) 200 m race – 1st

				(ArrowalSyngkon) Discus throw – 3rd (L. Bikramjit)
4	OUGRI Night of National Institute of Technology, Manipur	Regional	2019	Debating competition – 3rd (RohanSingha)
5	National AgriUnifest at Raipur, Chhatisgarh	National	2020	Represented and participated in elocution, debating competition and ex-tempore speech (RohanSingha)

Additional information on monitoring mechanism for quality education

- Monthly meetings: The Dean College of Food Technology conducts monthly meetings with the faculties to evaluate the progress in the field of teaching, research and extension.
- Annual reports: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for measuring the performances of the college during the particular year and serve as guidelines for future action plan

Student evaluation:

Students' advisory meeting is conducted every week by respective advisors and every month students advisory meeting is held along with the Dean of the college. He receives the feedback from the students and gives direction to the faculties. The students are providing the feedback of course teachers who handle the classes during a particular semester in a prescribed proforma. The feedback of the students is analyzed and the inadequacies are properly addressed.

Special focus is paid for all round development of student to show their hidden talents in addition to their academic programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and career. Annual College Week, Blood Donation Camp, Agricultural Education Day, Mahatma Gandhi's Anniversary programme, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students. The students also participate regularly inter collegiate event of University and National level competitive events.

6.5.1.3. CC/Board of Studies

The College of Food Technology, Imphal is a constituent college of Central Agricultural University, Imphal and is governed by decisions of the statutory bodies viz., Board of Studies (BOS) and Academic Council. The college has duly constituted and functional Board of studies since its inception in 2015. Composition of Board of Studies and major recommendations made by BOS for the last five years are laid down in **Annexure 6.5.1.3.**

6.5.1.4. Anti-Ragging Committee

In pursuance to the Judgment of the Hon'ble Supreme Court of India dated 08.05.2009 in Civil Appeal No. 887/2009, the University Grants Commission has framed "UGC Regulations on curbing the menace of ragging in higher educational institutions, 2009" which have been notified on 4th July, 2009 in the Gazette of India. Accordingly, College has been following this regulation and subsequent guidelines are issued in every year. Every student compulsorily registered to the Anti-ragging cell of UGC and submits Affidavit signed by student and parents in this regard. Anti-ragging committees were formed in the last five years (2016-2021) for prohibiting the ragging offenses in the college campus as per the U.G.C. "Regulations on curbing the menace of ragging in Higher Educational Institutions, 2009". The following anti-ragging committees were formed in the last five years (2016-2021) for prohibiting the ragging offenses in the college campus as per the U.G.C. "Regulations on curbing the menace of ragging in Higher Educational Institutions, 2009".Details of the notification issued to prevent the menace of ragging are **annexed in 6.5.1.4.**

6.5.1.5. Biological Waste Disposal Facility:

Since the college has been shifted to its present temporary campus in the month of January 2020, a biological waste disposal facility of the college is yet to be established. However, for the different kinds of perishable waste generated from the various works undertaken during food processing experiments, a pilot biogas plant is in the pipelines to be developed at the earliest. Apart from that, a fully functional biological waste disposal facility for various chemical, biological and recyclable wastes generated through a variety of research activities, clinical service, maintenance and cleaning operation at the college level is required in the near future. Currently, food wastes generated from both the hostels are disposed in compost pits in the backyard of the hostels. The laboratory chemical wastes are disposed by burying deep into the soil. Waste bins and dust bins are maintained at regular distances in the administrative cum academic building, boys' hostel and girls' hostel. Regular cleaning and burying activities of the wastes accumulated is monitored by outsourced staff of the college.

6.5.1.6. Institutional Ethics Committee for Experiments on Animals

The college does not undertake experiments on animals. However, if such experiments are undertaken in future, then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee (IAEC).

6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Place

A Committee for prevention of Sexual Harassment of Women at Workplace was established vide order No.COFT/CAU/139/ICC/2021/ on 26th February, 2021 – **Annexure 6.5.1.7**

Details of measures taken up by the committee on 'Prevention of Sexual Harassment of Women at Workplace'

Proceedings of a meeting held on 03-03-2021

1. Duty of security guards for 24 hours in girls' hostels
2. Hostel Gate Closure Time is 6.00 pm in summer and 5.30 pm in winter in girls' hostels. No girls are permitted to go outside the hostel after gate closure without permission from the warden.
3. Security guards to be posted at the exit of the campus for 24 hours and night patrolling in the campus.
4. One lady MTS is to be posted in girl's hostel to look after the welfare of the borders in addition to her normal duty as a cook.
5. Regular counseling of girl students by student advisors.
6. One Complaint Register is to be maintained at Dean's office for lodging complaints of sexual harassment.
7. CCTV to be installed at the hostel entrance

Action taken report on 7th March 2021

1. Duty of security guards for 24 hours in girls' hostels
2. Hostel Gate Closure Time is 6.00 pm in summer and 5.30 pm in winter in girls' hostels. No girls are permitted to go outside the hostel after gate closure without permission from the warden.
3. Security guards are posted at the exit of the campus for 24 hours and night patrolling in the campus.
4. Regular counseling of girl students by student advisors has been in practice.

5. Committee also resolved certain measures for the safety of girls and women in the campus

Activities being performed/practiced to prevent Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal)

1. Duty of security guards for 24 hours in girls' hostels
2. Hostel Gate Closure Time is 6.00 pm in summer and 5.30 pm in winter in girls' hostels. No girls are permitted to go outside the hostel after gate closure without permission from the warden.
3. Security guards are posted at the exit of the campus for 24 hours and night patrolling in the campus.
4. One lady MTS is to be posted in girl's hostel to look after the welfare of the borders in addition to her normal duty as a cook.
5. Regular counseling of girl students by student advisors.

The women cell for prevention of sexual harassment of women has been formed to address all grievances pertaining to sexual harassment of women (students, teaching and non-teaching staff and labours) at the college. Dr. L. Sophia I/c Women Cell looks after the problems. There is no complaint on sexual harassment in the college during last five years. However, details on sexual harassment of women at work place Act, 2013 and a preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers.

6.5.2 Faculty

As per faculty recommended by ICAR/UGC/VCI/Other regulatory bodies the faculty strength is yet to be filled to its full strength. Special focus is paid for all round development of student to show their hidden talent in addition to their educational programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and career. Annual College Week, Blood Donation Camp, important international and national Days, Awareness Programs, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students. The students also participate regularly in inter collegiate events of the University and represent the college in National level competitive events.

6.5.2.1. Faculty Strength sanctioned, vacant and recommended by ICAR

As per the Fifth Dean Committee, **Five (05) Professors, Ten Associate Professors (10) and Thirty (30) Assistant Professors** are needed to teach and guide the students of B. Tech. Food Technology, M. Tech Food Technology and Ph. D. Food Technology. We are offering only **B. Tech. (Food Technology)** at present. At this College the following Faculty members were involved in teaching and guiding the students of B. Tech. Food Technology during 2015-2020. As per the recommendations by ICAR/UGC/VCI/Other regulatory bodies, the present faculty strength of the college is yet to be filled up to its full strength.

Table 9: Present status of faculty strength of the College

Sl. No.	Faculty	Faculty in place	Sanctioned post	Vacant Position	Faculty recommended By ICAR/UGC/VCI/Other regulatory bodies
1.	Professor	05 (Guest lecturers, CoA)	04	*04	05

2.	Associate Professor	06 (Guest lecturers, CoA)	00	00	10
3.	Assistant Professor	07(contract) 24 (Guest Lecturers)	06	**06	30
Total		**42**	**10**	**10**	**45**

*& **The above statement regarding the vacancy of Professor and Assistant Professor is as per the advertisement published by the University Authority and **the selection process is in progress**.

List of Guest Lecturers (2020-21):

Sl. No.	Name	Department and Institute	Courses Covered
1.	Dr. Thokchom Subhaschandra Singh	Assistant Professor Dept. of Mechanical Engineering NIT Manipur	Food Thermodynamics (Theory and practical)
2.	Er. Laishram Birjit Singh	Technical Assistant Dept. of Mechanical Engineering NIT Manipur	Food Thermodynamics and Heat and Mass Transfer (Practical classes)
3.	Dr. Thiyam Tamphasana Devi	Assistant Professor Dept. of Civil Engineering NIT Manipur	Fluid Mechanics (Practical classes)
4.	Dr. Shuma Adhikari	Assistant Professor Dept. of Electrical Engineering NIT Manipur	Basic Electrical (Practical classes)
5.	Er. Asem Nabadavis	Assistant Professor Dept. of Mechanical Engineering MTU Manipur	Food Thermodynamics (Theory)
6.	Er. Jimmy Laishram	Assistant Professor Dept. of Computer Engineering MTU Manipur	Computer Programming (Theory and practical)

As per faculty recommended by ICAR/~~UGC/VCI/~~ Other regulatory bodies the faculty strength are not sufficient. However, faculties from other constituent colleges including College of Agriculture, Iroisemba, Dhanamanjuri College of Arts, Dhanamanjuri College of Science, Churachandpur College, scientists from AICRP and ICAR are being assigned to complete the curriculum of the undergraduate degree programme of this college. The teaching pedagogy include a judicious blend of different teachings modules, classroom-based teaching with an equal weightage on practical training and exposure to inculcate pragmatic skills and perk up student's confidence to meet requirement of various client organization as well as higher education in other national and international academic institutions. At present the College of Food Technology is running with two regular teachers (One Associate Professor, one Assistant Professor

(Sl. Grade) and seven (07) Assistant Professors (contract).

6.5.2.2. Faculty Profile (Department wise)

The names of various faculties (permanent, on contract, from sister organization, guest etc.) their qualification and various courses taught by them is given below. As mentioned, these faculties are assigned the responsibility for the B. Tech. programme only.

Sl.No.	Department	Sanctioned Faculty	Filled post*	Vacant post	Faculty recommended by the ICAR
1	Food Process Technology	Professor	0	1	1
		Associate Professor	0	0	2
		Assistant Professor	0	1	4
2	Food Process Engineering	Professor	0	1	1
		Associate Professor	0	0	2
		Assistant Professor	0	4	9
3	Food Safety and Quality Assurance	Professor	0	1	1
		Associate Professor	0	0	2
		Assistant Professor	0	1	7
4	Food Business Management	Professor	0	1	1
		Associate Professor	0	0	2
		Assistant Professor	0	0	7
5	Food plant operation	Professor	0	0	1
		Associate Professor	0	0	2
		Assistant Professor	0	0	4
Total			**0**	**10**	**46**

*7 contractual Assistant Professors were recruited. The faculties of COA, Imphal also impart classes in relevant subjects viz., English, Biochemistry, Animal Sciences etc. In addition to that 35 Guest faculties from NIT Manipur, MTU Manipur and DM University also offers different courses regularly.

Table 10: Information regarding faculties, their qualification and courses taken for the B. Tech. (Food Technology)

Area	Since 2015 to 2020		
	Subject	Taught by	Highest qualification
Food Process Technology	Fundamentals of Food Processing	Dr.AngamRaleng (Assistant Professor) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D. M. Sc.
	Processing Technology of Cereals	Dr.A.K. Mishra, (Deputy Director Research) Dr. Ng. Joykumar Singh (Dean)	Ph. D.
	Processing Technology of Legumes and Oilseeds	Dr.AngamRaleng (Assistant Professor) Dr.A.K. Mishra, (Deputy Director Research) Dr. N Renuka (Associate Professor)	Ph. D.
	Processing	Dr. L. Sophia Devi, (Junior Scientist)	Ph. D.

	Technology of Fruits and Vegetables	Dr. Mariam Anal (Assistant Professor)	
	Processing Technology of Liquid Milk	Dr.M. Norjit Singh, (Assistant Professor) Dr.Angam Raleng (Assistant Professor)	Ph. D.
	Processing Technology of Dairy Products	Dr.M.Norjit Singh, (Assistant Professor) Dr.Angam Raleng (Assistant Professor)	Ph. D.
	Processing Technology of Beverages	Dr.A.K. Mishra, (Associate Professor) Dr. L. Pilloo (Associate Professor)	Ph. D.
	Processing of Spices and Plantation Crops	Dr. L. Sophia Devi, (Junior Scientist) Dr. Mariam Anal (Assistant Professor)	Ph. D.
	Processing of Meat and Poultry Products	Dr. M. Norjit Singh, (Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Processing of Fish and Marine Products	Dr.Wanglar Chimwar, (Junior Scientist) Dr.Bashuda Devi (Senior Scientist)	Ph. D.
	Bakery, Confectionery and Snack Products	Mr.H.Dayanidhi Singh (Assistant Professor) Dr. L. Pilloo (Associate Professor)	M. Sc.
	Food Packaging Technology and Equipment	Dr.Angam Raleng (Assistant Professor) Dr.A.K. Mishra, (Deputy Director Research)	Ph. D.
	Sensory Evaluation of Food Products	Dr.Angam Raleng (Assistant Professor) Mr.H.Dayanidhi Singh (Assistant Professor)	Ph. D.
	Fundamental of food Technology	Dr.Angam Raleng (Assistant Professor) (Dr. Ng. Joykumar Singh (Dean)	Ph. D.
Food Safety and Quality Assurance	General Microbiology	Dr.Punyakishore M. (Assistant Professor) Dr.Lokesh Mishra (Associate Professor)	Ph. D.
	Food Microbiology	Dr.Punyakishore M. (Assistant Professor) Dr.P.K. Sarangi, (Scientist)	Ph. D.
	Industrial Microbiology	Dr.P.K. Sarangi, (Scientist) Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Chemistry of Macronutrients	Mr.H.Dayanidhi Singh (Assistant Professor) Dr.Angam Raleng (Assistant Professor)	M. Sc.
	Food Chemistry of Micronutrients	Mr. H. Dayanidhi Singh (Assistant Professor) Dr.A.K. Mishra, (Deputy Director	M. Sc.

		Research)	
	Food Biochemistry and Nutrition	Dr.Punyakishore M. (Assistant Professor) Dr. Th. Anand Singh (Scientist)	Ph. D.
	Biochemistry	Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Biotechnology	Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Additives and Preservatives	Mr. H. Dayanidhi Singh (Assistant Professor) Dr.A.K. Mishra, (Deputy Director Research)	M. Sc.
	Instrumental Techniques in Food Analysis	Dr. Th. Anand Singh (Scientist) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D.
	Food Plant Sanitation	Dr.Th.Gopeshwor Singh(Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Food Quality, Safety Standards and Certification	Mr. H. Dayanidhi Singh(Assistant Professor) Dr. L. Pilloo (Associate Professor)	M. Sc.
Food Process Engineering	Food Thermodynamics	Dr. S. Sunderlal Singh (Assistant Professor) Dr. Th. Subhaschandra Singh (Assistant Professor, **NIT, Manipur**)	Ph. D.
	Fluid Mechanics	Dr. S. Sunderlal Singh (Assistant Professor) Dr.Thiyam Tamphasana Devi, (Assistant Professor, **NIT, Manipur**)	Ph. D.
	Post-Harvest Engineering	Dr. Ng. Joykumar Singh (Dean) Dr.A.K. Mishra, Guest	Ph. D.
	Heat and Mass Transfer in Food Processing	Dr. L. Sophia(Assistant Professor) Dr. S. Sunderlal Singh (Assistant Professor)	Ph. D. Ph. D.
	Unit Operations of Food Processing - I	Dr. Ng. Joykumar Singh (Dean) Dr.Angam Raleng (Assistant Professor)	Ph. D.

	Environmental Sciences and Disaster Management	Dr. Th. Gopeshwor Singh (Assistant Professor)	Ph. D.
	Statistical Methods and Numerical Analysis	Shri N. Gopimohon Singh, (Associate Professor), Guest Dr. N. Okendro Singh, (Professor), Guest	M. Sc. Ph. D.

6.5.2.3. Credentials of the Faculty:

All faculty members of the college are qualified and recognized persons of their fields. The college has adequate proportion of experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities. The details of qualification, experience and professional experience and demonstrated competencies are listed in **Annexure 6.5.2.3.**

6.5.2.4. Technical and Supporting Staff

The technical staff and other supporting staff of College of Food Technology are attached with the Dean's office for administrative, convenience and being allotted to other departments as per requirements and skills imparted. Other than these staffs some Skilled and Unskilled labours are hired on contractual basis. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office.

Table: 11. Information of Technical and Supporting Staff of College of Food Technology

	In position	Vacant
COFT, Imphal	14	2

Some staffs are commonly shared from COA, Imphal at present.

Since the college is newly established, only some technical staff (permanent) has been assigned the responsibilities for the multiple activities related to the College. Apart from that 20 outsourced contractual staff is engaged based on the skills required.

6.5.3. Learning Resources

Learning resources like books, photos, life specimen and audio-visual aids like power-point presentation, videos are used to assist the students to meet the expectation for learning defined by IC3.AR recommended curriculum.

Faculties are provided with computers to access the online open coursework and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various software applications in food technology.

6.5.3.1. College Library (Digital)

The Library provides circulation and reference services. The Library also has access to online e-journals through ICAR web portal. Photocopying and printing facility is also available in the Library. Details of library are as given below:

Table12: Details of the College library

Sl. No.	Particulars	Details
1	Area	48.5 sq. m.
2	Present staff	Library assistant – 01, MTS -01
3	Availability of Wi-Fi	Wi-fi facilities area available in the library with a band width speed of 50 Mbps from BSNL network.
4	Books	For College of Food Technology: **1477 books**
5	Other reading materials	National and local newspaper such as The Sangai Express, The Telegraph, The Times of India, etc. Magazines like India Today, Down To Earth, PratiyogitaDarpan, Civil Services Chronicle, Kurukshetra, Yojana, Agriculture Today, etc.
6	Research journals	Students and faculty can access journals through online portal of ICAR
7	Internet with computers	Two
8	Sitting capacity	10
9	Stocking arrangement	The College library adopted Open Access System for

		accessing library collection and classified according to Dewey Decimal Classification (DDC) scheme (22 Ed.) and arranged in APUPA pattern, stacked in different parts like, Subject books Literature books, General books, Reference books, Competitive Exam books, Thesis, Back volumes, Seminar scripts, etc.
10	Operating hours	9:30 am to 4:30 pm
11	Books available in the library	Food Science, Food Engineering, Processing of Vegetables, Processing of Fruits, Processing of Dairy products, Microbiology, Biotechnology, Food Chemistry, Nutrition, Environmental Science and Disaster Management, Civil Engineering, Mechanical Engineering, Electrical Engineering, Biochemistry, Chemistry of Micronutrients, Food Process Engineering, Business Management, Entrepreneurship Development, Project Preparation, etc.

Fig 9 Library facilities at the College

6.5.3.2. Classrooms, Laboratories, Dean's room, Instructional Farm, Practical, Training halls, Workshops, Ponds, etc.

The regular teachings are conducted in the pre-fabricated college classrooms and laboratory. The College of Food Technology has a functional laboratory to conduct basic practical experiments. It is presently equipped with necessary equipment and facilities to accomplish the academic activities. All basic chemicals and instruments are available for doing practical and research work in all the laboratory.

Details of Classrooms and Laboratories:

a) **Number of class rooms**: (UG = 4)

Fig. 10 UG Classroom of the College

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board etc. are available in each class room for the use of teachers.

b) **Functional Laboratory:**

At present, there is a common laboratory for the practical experiments of the students. Apart from that, major experiments are conducted in other nearby institutes including NIT, Manipur, Manipur Technical University, Imphal, S.K. Womens' College, Nambol and CAEPHT, CAU, Sikkim.

Farm Facility

The College has a nutritional farm for students' research and demonstration purposes. It is located on the western boundary of the college. The farm has been in operation since the month of January, 2021.

Table 13: Details of the Nutri-Garden of the College

Particular	Farm Area (ha)	Irrigated/Non Irrigated (ha)	Crops grown
Nutritional Garden of the College of Food Technology, Imphal	3.0 acres	Irrigated with sprinkler and drip irrigation systems	Banana, papaya, potato, cabbage, cauliflower, tomato, coriander, methi, pumpkin, corn, beans, peas, Capsicum, King Chilli, mustard, etc.

Table 14: Facilities available at the Nutri-Garden of the College

Sl. No.	Facility available	Remarks
1	4.5 hp water pumping set (2 nos.)	For supply and water pumping to the crops
2	Drip irrigation system	For irrigation of crops grown
3	Sprinkler irrigation system	For irrigation of crops grown
4	Water reservoirs (under raised and sunken system of farming)	Water storage and supply

Fig 26: Nutri-Garden of the College

Fig. 27 Papaya orchard (Red Lady variety) at the college farm

The college also maintains a pond with an approximate area of (400 sq. m.) just behind the administrative building. Presently, the bank of the pond is planted with pineapple and the pond itself is maintained as aquaculture of common carp varieties. Both the farm and pond are regularly monitored by one farm manager and MTS staff of the college under the direct supervision of Dean.

Fig. 28Practical / Training Hall of the College

6.5.3.3. Student READY/ In-Plant Training / Internship/Experiential Learning Programmes: Yes

The practical of courses for B. Tech (Food Technology) is carried out in the laboratories equipped with desired instrumentation and facilities. Since the number of students admitted is small in number, practical classes are conducted in a single batch generally as per academic schedule. Students are allowed to perform practical after proper demonstration and skill presentation with precautionary measures. The available facilities for practical and hands-on training are equipped with adequate number of instruments allowing each individual studentto perform practical.

The students of B. Tech. (Food Technology) undergo Two five weeks Experiential Learning Programme during VII Semester. The requisite facilities for conduction of experiential learning programme are provided to students to practically fulfill programme requirements and achieve desired skills. During VIII Semester, students of the college compulsorily undergo a 12 weeks In-plant Industrial Training Programme in reputed industries and research institutes across the country. Students have undergone the hands on training for the skill development during the training programme to make them fit for demonstrating the responsibilities effectively in the professional career. During the training students developed the skill in the field of food processing and value addition, post-harvest management, etc.

The project activities conducted by the students under the different modules of Student READY and In-plant Training programmes are approached under an accepted profit sharing mechanism approved by the competent authority of the university vide order no. CAU/FT (Acad)-5(ST)/2017/dt. the 4th Nov.2020 **[Annexure : 6.5.3.3]**

CIRCULAR

Imphal, the 4th November, 2020

No.CAU/FT(Acad)-5(ST)/2017/ : It is for information of all the ELP supervisors that the students undergoing Student READY-Experiential Learning Programme (ELP) of the 4th year B.Tech. (Food Tech.) in the 7th sem. are needed to submit the cost-profit statement/report of the programme at the end of the semester.

Further, it is to mention that the profit arising out of the ELP is to be distributed as per the sharing pattern shown below:

1.	Students	: 75%
2.	Department	: 10%
3.	Faculty & other staff Involved in the execution of the programme	: 15% of profit

Yours faithfully,

(Dr.Ng. Joykumar Singh)
i./c. Dean

Memo No.CAU/FT(Acad)-5(ST)/2017/ Imphal, the 4th November, 2020

Copy to:

1. All the ELP Supervision, COFT, CAU, Imphal for information.

6.5.4. Student Development:

6.5.4.1. Student Intake and Attrition:

The College of Food Technology presently offers Under Graduate Degree Programme in Food Technology i.e., B. Tech. (Food Technology) which is of 4 years duration. The admission to the college is given preference to students of NEH region. The quota for various states of NEH and ICAR are fixed for each academic year. State governments and ICAR take competitive examination and also nominate selected candidates for admission in CAU. If the desirous student fulfills the eligibility criteria, then they can be admitted to the college.

Table: 17. Student intake and attrition in the programme for the last five years

Name of the Degree Programme	Actual students admitted in last five years					Attrition (%)				
B. Tech. (Food Technology)	2015-16	2016-17	2017-18	2018-19	2019-20	2015-16	2016-17	2017-18	2018-19	2019-20
	10	08	10	07	16	0	0	0	0	0

6.5.4.2. Average number of students in Theory and Practical Classes

The number of intake students is manageable due to limited number of seats. Presently, the classrooms and laboratory are sufficient to meet the prescribed course curricula requirement of the degree programme.

Table: 18Number of students in theory and practical classes

Sl. No.	Name of the programme	Total intake per year	Batch of student in *Theory* class	Batch of student in *Practical* class
1.	B. Tech. (Food Technology)	12	1	1

6.5.4.3. Admission Process:

Admission requirements

Candidates seeking admission to various UG degree programmes of the University must have secured not less than 50% marks in aggregate in the relevant subjects as shown below at Higher Secondary/10 + 2/Intermediate examination for General/OBC/UPS category and 40% marks in aggregates for SC/ST including physically challenged/in-service candidates.

The relevant subjects for various UG programmes of B.Tech.(Food Technology): *PCM/PCMB*

B = Biology C= Chemistry M = Mathematics P = Physics

Candidates should have passed 10 + 2 examination with English as one of the subject of study. The candidates must have attained 16 years of age on 31stAugust of the admission year. The selection/nomination of candidates should be made through Common Entrance Test conducted by the concerned State. Students seeking admission to any of the above degree programmesshall be permanent resident or domicile of any one of the seven North East States of India, *viz.,* Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. The number of students to be admitted from each of

the seven North East States mentioned to different degree programmes shall be as notified by the University from time to time.

Selection of candidates for admission

The candidate to be sponsored for admission to different degree programmes shall be from the merit list based on the Common Entrance Test conducted by the concerned states.

Students seeking admission to the above degree course shall be a permanent resident or domicile of any one of the seven North Eastern States of India. The number of students to be admitted from each of the seven states mentioned to the degree programme shall be as notified by the University from time to time.

Selection of candidates for admission

The candidate to be sponsored for admission to the degree programme shall be from the merit list based on the Common Entrance Test conducted by the concerned states. Fifteen percent of the approved number of seats in all U.G. programmes except B.V.Sc. & A.H. shall be filled up by the candidates selected on the basis of All India Entrance Test (AIET) conducted by the ICAR or as amended from time to time by ICAR. The ICAR/VCI nominees shall be governed by the eligibility as prescribed by the ICAR/VCI.

Date of admission

The date of admission to a Bachelor's degree programme shall be as per the announcement made in the Prospectus/Academic Calendar/Semester Calendar and notified by the Registrar.

Documents required at the time of admission

Each student seeking admission in the University shall submit an application in the prescribed form with the following certificates and documents in original before the Admission Committee constituted for the purpose.

(i) Pass Certificate for 10+2 Examination
(ii) Marks sheet of 10+2 Examination
(iii) Certificate of High School pass Examination in support of date of birth
(iv) Migration/Transfer certificate from the Board/Council/University where the candidate studied last
(v) College/School leaving certificate from the authority of the college/school where the candidate studied last
(vi) Conduct certificate from the Principal of the College/School where the candidate studied last
(vii) Permanent residency/domicile certificate of concerned state
(viii) Certificate from competent authority, incase admission is sought under reserved category
(ix) Medical certificate from a Medical Officer not below the rank of Asst. Surgeon in support of physical fitness of the candidate
(x) Any other documents (as per prospectus/notification) that may be required at the time of admission

Registration

The first day of the commencement of the semester shall be the date of registration by the students.

Registration of newly admitted students

i) On admission, a student shall be provided four copies of Registration Cards having different colours, one for the student, one for the advisor, one for the Dean and one for the Registrar, which he shall fill up and register for the prescribed courses for the first semester. The Registration Cards shall be signed by the student, his advisor, the Assistant Registrar (Acad.) and countersigned by the Dean of the College.

ii) On admission and registration, the student shall be provided with an Identity Card with his photograph. The Identity Card shall be returned to the College, when the student leaves the college after completion/discontinuation of the course.

iii) Each newly admitted student shall be given an Admission Number by the Dean of the concerned college and this Admission Number shall continue till allotment of Registration Number by the Registrar.

Note: An orientation programme shall be organized by the Dean of the college for the benefit of the newly admitted students immediately after the commencement of the semester.

Registration of continuing students

On successful completion of a semester, the continuing students shall register for subsequent semester on the date specified in the Academic/Semester Calendar or specifically notified. The following procedures shall be adopted while registering for the second and subsequentsemesters of the degree programme:

(i) Students shall register the requisite course in person. In absentia registration will not be permitted under any circumstances.

(ii) Submission of no due certificates from all the departments and units of the college

(iii) Payment of prescribed fees

(iv) Submission of the prescribed Registration Cards duly filled in and signed by all concerned.

6.5.4.4. Conduct of Practical and Hands-on-Training: **Yes**

Theory and Practical batches for the Degree Programme

There are manageable number of students (Maximum 16) who are kept in one batch during Theory & Practical classes to ensure better delivery of information, encourage students' participation and active monitoring.

The undergraduate courses involve conducting practical experiments as per credits allotted to the specified courses and hands on training and field/lab practical are for courses.

Table 17 Number of students in theory and practical classes of the college

Year	B. Tech. (Food Technology)	
	Batch of students in theory class	**Batch of students in practical class**
2015-16	08	08
2016-17	09	09
2017-18	10	10
2018-19	07	07
2019-20	11	11
2020-21	16	16

Short duration training/visit

During the course of study students also visited the following industries for short duration training. These industries include Thangjam Agro (Likla Foods), Imphal, Meira Foods, Imphal, Korouhanba Spices, Imphal, Modern Foods, Imphal, etc.

In order to conduct the practical classes of the students of the College, the students along with the concerned faculty undergo regular visit to other established colleges and institutes for conducting practical classes, namely NIT Manipur, CAEPHT Sikkim and S. K. Womens' College Nambol, Manipur with due approval of the University authority.

Study Tour

Under student ready program in VII Semester students were deputed for Study Tour (two - three weeks). Earlier all the students during course of their study used to undertake study tour twice (two to three

weeks duration each time), one to NEH region and one at places outside North-east (All India Tour). The tour to NEH region was stopped after implementation of 5th Dean's committee. Now students are going only on All India Study Tour. However, due to covid-19 the tour couldn't be undertaken during 2020-21. The details of various tours undertaken by the students are given below.

Table 18: Details of study tour of the students during 2016-20

Year	Places Visited
2016-17	• NEHU, Shillong • ICAR Research Complex for NE Region, Umiam, Barapani • CPGS, Barapani (CAU) • IIT, Guwahati • Tezpur University, Assam • NERIST, Arunachal Pradesh
2017-18	• NEHU, Shillong • Tezpur University, Assam • Yak Centre, Birang, Arunachal Pradesh • KVK, Tawang, Arunachal Pradesh • Kiwi Winery, Bomdilla, Arunachal Pradesh • ICAR Research Complex, Medziphema, Nagaland
All India Study Tour	
2017-18	• Parle Industries, Bhuj, Gujarat • Amul, Anand, Gujarat • Anand Agricultural University, Anand, Gujarat • ICAR-Central Institute of Fisheries Technology, Mumbai • KVK and Agricultural Fair, Goa
2018-19	• Sri Jagannath Flour Mill, Orissa • University of Agricultural Sciences, Bangalore • Pelagic Foods, Bangalore • National Institute of Agricultural Extension Management (MANAGE), Hydearabad
2019-20	• CSIR-Central Food Technology Research Institute (CFTRI), Mysuru • Bakery Heaven, Mysuru • University of Agricultural Science, Bangalore • ICAR-Central Institute of Fisheries Technology, Cochin, Andhra Pradesh

Conduct of the hands on training

(a) Hand on training within the college

Under student ready program in VII semester students of B. Tech (Food Technology) are being provided hands on trainingunder Skill Development Experiential Learning Programme I and II (Skill Development/In-plant training) in the following pilot plants.

Table 19 Details of the Experiential Learning programme of B. Tech. (Food Technology)

Year	Name of the students	Title of Experiential Learning
2018	SweetyNgangom, Bharat Singh Irom, Konsam Monika, NiamchaLowang, W. Athoi, Arvind Kumar Yadav, L. Bhaktaraj, Ph. Manojkumar Singh	Chak-hao (Black scented rice) processing leading to development of different products including Chak-hao noodle, Chak-hao cookies, Chak-haoGulabJamun,

		Chak-hao based instant baby food, squash chips, fish processing, Pineapple powder production, bakery products including cup cakes, cookies, water chestnut soup mixture
2019	S. Romita, BhaveshDatla, Rebika Salam, U. Priyambada, Alok Das, EvenstarKharbani, DaniNado, BanteilangKharbani, RohanSingha, Lalhruaichhungi	Processing of ginger to produce ginger candy, dried ginger, amla candy, guava rolls, pomelo juice, lemon RTS, U-morok (King Chilli) pickle, bakery products including cup cakes, cookies
2020	SuchitraKeisham, M. Hareena Devi, Nillachandra Y., Y. Nikhil, L. Bikramjit Singh, L. Paikhomba Singh, Sober Soibam, Ksh. Amitkumar, ArrowalSynkon, TyngshainmiKharsoh	Bakery products including cookies, cakes, buns; processing of ginger to produce ginger candy and dried ginger pickle, amla+ginger pickle, chak-haokabok (puffed rice), heimang (*Rhuschinensis*) balls, dehydrated ready to cook vegetable mix, indigenous fruits and vegetable processing

Fig 31: ELP conducted by the students of the College

Fig 32: ELP conducted by the students of the college

a) Hands on training outside the college

The students of Food Technology discipline undergo Two five weeks Skill Development Trainings under Hands-on-training after IV and VI semester. The industrial attachment training for 10 weeks and Experiential Learning on campus programme of 12 weeks is carried out in VII semester. The requisite facilities for conduction of experiential learning programme are provided to students to practically fulfill programme requirements and achieve desired skills. Within VIII semester students perform 12 Weeks Project planning and report writing as per ICAR guidelines. The facilities for project are provided to the students as per requirement.

Students have undergone the hands on training for the skill development during the training programme to make them fit for demonstrating the responsibilities effectively in the professional career. During the training students developed the skill in the field of testing, food processing & value addition etc.

All the students of B.Tech. (Food Technology) are given project work for one semester. During this project work they are allotted a guide/supervisor and a topic for research work. After completion of the research work they analyze the data and submit the report. They make a presentation also on the work carried out by them. The titles of the thesis/report submitted by student are given below.

Table 20: Reports submitted by the students under Student-READY Research Programme

Sl. No.	Year	Title of report	Name of the students
1	2018	Development and formulation of Chak-hao (Black rice) based Gulab Jamun	Ngangom Sweety Chanu and Arvind Kumar Yadav
2	2018	Development and formulation of Chak-hao (Black rice) based noodle	Bharat Singh Irom and Monika Konsam
3	2018	Development and sensory evaluation of deep fried chayote chips	Manojkumar Pheiroijam and Wahengbam Athoi
4	2018	Development of supplementary food from Chak-hao	Niamcha Lowang and Laishram Bhaktaraj Singh
5	2019	Development of Black Rice (Chak-hao) cake	Lalhruaichhungi and Sorokhaibam Romita Devi
6	2019	Development and Sensory Evaluation of aromatic black rice Idli	BhaveshDatla and Rebika Salam
7	2019	Development of Instant Soup Powder using Heikak (Water caltrop) as Base Material	Alok Das, Dani Nado and U. Priyambada

6.5.4.5. Examination and Evaluation Process:

The college strictly adheres to the examination and evaluation system as recommended by the V Deans' Committee. As such, the college follows Uniform Grading system with uniform OGPA requirements for award of degrees at all levels. A uniform conversion formula is followed for declaration of I, II and III divisions, distinction etc.

Examination

Semester system is being followed for UG programmes and evaluation is given weightage as 50% internal and 50% external.

6.5.4.5.1. Courses with Theory and Practical

Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%).

6.5.4.5.2. **Courses with Theory only**

Mid-Term Examination (40%) + Assignment (10%).

6.5.4.5.3. **Courses with Practical only**

100% Internal.

Keeping this in view, the schedule and weightage to different examination are as follows:

Table 21: Weightage of marks allotted to different credits

Particulars	Course credits									
	2+1		1+1/2+2		1+2		1+0/2+0		0+1/0+2	
	T	P	T	P	T	P	T	P	T	P
Mid-term exam	30	-	30	-	30	-	30	-	-	-
Quiz/Continuous evaluation*	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

Duration of exams

Mid-term theory exam : One and half hours
End-term theory exam : Two hours
End-term practical exam : Three hours

Evaluation

- The evaluation of students' performance is achieved by conducting Quizzes of 20 marks (Internal), Mid-Term Examination of 30 marks (Internal) and End-Term Examination (External) of 50 marks. The practical examination consists of 100 marks.
- The questions and answer scripts for quiz and Mid-term examinations are set and evaluated by concerned course teacher.
- The questions and answer scripts for End-term examinations are set and evaluated by external examiners selected duly from a list of panel members by the competent authority.

Table 22: Marks conversion pattern of the examinations

Degree	Percentage of marks obtained	Conversion into points
B. Tech. (Food Technology)	100	10 points
	90 to <100	9 to <10
	80 to <90	8 to <9
	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (fail)	<5

The following ranking pattern is adopted to award the degrees:

OGPA	**Division**
5.000-5.999	Pass
6.000-6.999	II division
7.000-7.999	I division
8.000 and above	I division with distinction

GPA, CGPA and OGPA are calculated as follows:

GPA = Total points scored / Total credits (for 1 semester)

CGPA = X Total points scored / Course credits

OGPA = X Total points scored (after excluding failure points)/ Course credits

Percentage of Marks = OGPA x 100/10

6.5.4.6. NCC/NSS/RVC Units

NCC/NSS/RVC units in the college carried social service activities in Imphal Bazar road side cleaning show on 1st October, 2020. The Student welfare office (Dr. M. Punyakashore Singh, Assistant Professor) was given additional charge of NSS units of the College since September, 2020. Several activities of tree plantation and world environment cleaning drive were organized involving active participation of the college students.

6.5.4.7. Language Laboratory

The College has a language laboratory well equipped with 04 computers, amplifier system and LCD projectors for the conduct of language classes. Each computer is pre-installed with language learning software. All the computers have internet connectivity through WiFi (50Mbps of minimum internet speed).The language lab will offer an exclusive result oriented and efficient English language learning process. The language lab is developed on the methodology of LSRW (Listening, Speaking, Reading and Writing) skills. It will also help in developing skills in presentation, interviews, group discussions, public speaking and soft communication skills. The contents include activities, exercises and home assignments with audio-visual modules. There is a special module on preparation for online competitive exams such as GRE, TOEFL, and IELTS etc.

6.5.4.8. Cultural Centre

The students of the college have been actively participating in multi-varied cultural activities, both within the university and at state and national levels. A cultural committee is formed comprising of faculties, staff and students along with the Student Welfare Officer of the College. Under the committee, different categories of cultural activities are functioned. They include music, dance, literary, theatre and fine arts.

6.5.4.9. Personality Development

The personality development programme of the students is taken care of in the college. The language classes conducted by the language instructor covers various topics of English Grammar, Speaking skills, Phonetics and Writing skills. Besides the compulsory four courses offered under the Dean's Committee syllabus which cater to the overall personality development of the students, the College also invites

renowned achievers from different fields and places to interact with our students for motivational talk and experience sharing. Various lecture series have been organized under NAHEP-IDP project for students. Yoga sessions were also conducted regularly to help the students develop mentally in their academic endeavour at the college. Our students also took part in the 15th National Youth Parliament Competition organized on 17th October, 2018 at the College of Veterinary Sciences and Animal Husbandry, Aizawl which helped them gained valuable knowledge on parliamentary activities.

6.5.5. Physical Facilities

The infrastructure of College of Food Technology has various facilities like academic block, administrative block, conference hall and separate hostels for boys and girls. Basic medical facilities are centrally available at the Medical Unit of the college where basic medical amenities such as antipyretics, antibiotics, anti-diarrheal etc. are available. Also, facilities for I.V.injections and fluids and suture needles and materials are available for minor suturing. First aid kits are issued to all hostels. Medical experts are invited to deliver special lectures on self-hygiene, tobacco and its toxicity, nutritious foods for healthy living, etc.

6.5.5.1. Hostels

The College has one separate hostel each for boys and girls in the campus. Each hostel has an area of 1400 sq. m. with student capacity of 28 students.

Fig 31: Girls' Hostel building of the college

Fig 32: Boys' Hostel building of the college

S. No.	Name of the Hostel	Area (Sq. m.)	Type of Hostel	Capacity	Students per room accommodated
1	Boys' Hostel	1400 Sq.m	Boys'	28	02
2	Girls' Hostel	1400 sq. m.	Girls'	28	02

6.5.5.2. Examination Hall

Separate examination halls are unavailable and hence normal classrooms are rearranged as examination halls during the time of examination.

Table 23: Facilities available in the classrooms of the college

No. of classrooms	04
Capacity	Varied capacity ranging from 12 to 30 sitting capacity
Facilities available	Chairs, writing desks, electrical fans and lights

6.5.5.3. Sports and Recreation Facilities

Presently, a sports ground is under construction in the college. The students are regularly engaged in different types of physical exercises and sports during the classes and in physical experience class to keep them physically fit and healthy. In addition, the skill development in any one of the games such as badminton, volleyball, football, cricket, table tennis and athletics is contemplated in the physical education programme. Maintenance and cleaning of the ground are regularly done by the students. Matches are conducted for the students during the annual sports day and intercollegiate meets or any other specific days such as the Foundation Day, Republic Day etc. to improve and maintain their skills using ground facilities. Indoor games such as carom, chess, badminton and table tennis are also available.

6.5.5.4. Auditorium

The college does not have auditorium at present. However, the conference hall of the college is being used for various gatherings and activities from time to time.The College has a conference hall with an area of 107.5 sq. m. and sitting capacity of 50 people. The hall is equipped with multimedia LCD projector and sound system for multiple uses in different events.

Table 28: Utilization of Conference Hall of the college

How frequently the conference hall is used and purpose for being use	Republic day (once a year) College foundation day (once a year) Independence Day (once a year) Inauguration programmes (numerous times a year) Workshops and trainings (numerous times a year) Teachers' Day (once a year) Students' fresher's day (once a year)

Fig 33: Conference Hall of the College

6.5.5.5. Exhibition Hall/Museum

The college does not have an exhibition hall or museum at present.

6.5.6. Research Facilities

6.5.6.1. Post-graduate Laboratories and Equipment

For the time being, the College of Food Technology does not offer post-graduate courses. Hence, the laboratory set up in the college is used for under graduate course only.

The laboratory is equipped with some of the basic and advanced equipment needed for the experiments as recommended in the academic regulation of the 5th Deans' Committee. So far, the necessary laboratory furnishings have yet to be installed permanently as the College is under construction.

Equipment available in the laboratory are enlisted below.

S.No.	Name of the equipment
1.	Tray dryer (12 trays)
2.	Autoclave (40 Litres)
3.	Double distillation unit (2.5 L)
4.	Bench top pH meter
5.	Analytical balance
6.	Hot air oven
7.	Digital Weighing Balance
8.	Wet grinding machine
9.	Vegetable cutting machine
10.	Dough kneading machine
11.	Microwave oven
12.	Oscilloscope
13.	Frequency counter
14.	Logic gate analyser
15.	Pulveriser/Gravy machine (2HP)
16.	Tray dryer (24 trays)
17.	Solar cabinet dryer
18.	Vacuum sealing machine
19.	Form Fill packaging machine
20.	Nitrogen estimation unit
21.	Dietary fibre estimation unit
22.	Fat estimation unit
23.	Double deck bread making oven
24.	Incubator
25.	Digital moisture meter
26.	Colour lab hunter machine

6.5.6.2. Research Contingency

There is no specific head of Research contingency or no fund is provided as such for research contingency. The research activities of students under B. Tech. are funded from Recurring Contingency of College Fund. Adequate funds are available for meeting the recurring expenses incurred during the education programme.

6.5.7. Outcome/Output

6.5.7.1. Students' Performance in National Examinations

Performance of the students during the year 2015 to 2020 is given below.

Table 29: Particulars of students who qualified JRF/NET/GATE (2015-2020)

Particulars	2015	2016	2017	2018	2019	2020
NET	-	-	-	-	-	-
GATE	-	-	-	-	01	03
ICAR-JRF Qualified	-	-	-	-	01	-
ICAR-JRF Received	-	-	-	-	01	-

The following students of B. Tech. (Food Technology) have received fellowship/scholarship for higher education (M. Tech.) in different institutes.

Table 30: Particulars of students who received fellowship during their M. Tech.

Name of Degree Programme	B. Tech. (Food Technology)					
	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21
Actual student admitted	08	10	10	07	11	16
No. of student passed out	08	10	-	-	-	-
Student received fellowship for M. Tech.	06	05	-	-	-	-

6.5.7.2. Student Placement Profile

Since its inception, the College have produced two batches (18 nos.) of B. Tech. (Food Technology) Degree students. Among the 18 passed out students, 11 (eleven) students are pursuing M. Tech. Degree courses in different institutes in India. These institutes include Indian Institute of Technology, Kharagpur, Indian Institute of Technology, Varanasi, Anand Agricultural University, Anand, Gujarat, Tezpur University, Assam, Jadavpur University, West Bengal and Central Agricultural University, Imphal (CAEPHT, Ranipool). One of the passed out students is preparing for Union Public Service Commission's Civil Services Competitive Examination while the remaining passed out students are in pursuit of appropriate employment opportunities.

6.5.7.3. Awards/Recognitions/Certificates:

Sl. No.	Name of Faculty	Name of the award/ recognition	Awarding organisation (place/country)	Year	National/international/ professional society
1.	Dr. Ng. Joykumar Singh, Dean, i/c	Best paper presentation award, , in National Seminar organized by ICAR, Lamphelpat, Imphal	ICAR, NEH Region, Manipur Centre, Imphal	2017	National
		Best paper presentation award in National Seminar organized by Indian Association of Hill farming and ICAR, Barapani	Indian Association of Hill farming and ICAR for NEH Region, Barapani	2018	National
		Best Centre Award of AICRP-PHET at TNAU, Coimbatore sponsored by ICAR, New Delhi.	ICAR, New Delhi.	2019	National
		Best Centre Award of AICRP-PHET at JNKV, Jabalpur, sponsored by ICAR, New Delhi.	ICAR, New Delhi.	2020	National
		Distinguished Service Award (Agril. Engg.)	Bioved Research Institute of Agriculture Technology & Sciences Prayagraj-211002	2020	Professional society
2	Dr.Punyakishore Maibam, Assistant Professor (Contract)	Laboratory Quality System Management and Internal Audit as per ISO/IEC-17025:2017	National Institute of Plant Health Management, Hyderabad	2021	National
3	Dr.ThangjamGopeshwor Singh, Assistant Professor (Contract) of Environmental Science and Disaster Management	Nil	Nil	Nil	
4	Dr. L. Sophia, Assistant Professor (Contract)	Nil	Nil	Nil	

5	Mr. H. Dayanidhi Singh Assistant Professor (Contract)	Nil	Nil	Nil	
6	Mr.SarojBehera Assistant Professor (Contract)	Nil	Nil	Nil	
7	Dr.AngamRaleng Assistant Professor (Contract)	Nil	Nil	Nil	
8	Dr. S. Sunderlal Singh Assistant Professor (Contract)	Nil	Nil	Nil	

6.5.7.4. Employability

The students are acquainted with hands on practical related with processing and value addition of various food products.Interactivesessionswithentrepreneursoftheregionarebeingheld from timetotime regularly. This allows the students to start up an enterprise at their own level. The students are also furnished with knowledge both in theory and practical of food technology. This will enhance the employability opportunity of the passed out students in any organizations they wish to join.

6.5.8. SSR for College along with Degree Programme attached herewith.

SSR of the College must have the SSR of all its Degree Programmes (following section 6.4), then the report of the College shall be considered.

6.5.9. Certificate (Applicable when SSR is submitted for Programmes and College)

I, **NgangkhamJoykumar Singh**, the Dean**, College of Food Technology, Lamphelpat, Imphal, Manipur**hereby certify that the information contained in Sections 6.4 and Sections 6.51 to 6.5.7.4 are furnished as per the record available in the college and degree awarding university.

28th May, 2021

(Dr. Ng. Joykumar Singh)
Dean,
College of Food Technology, CAU, Imhal

6.5.10.
All SSR with respect to Programme as mentioned in 6.5.8 are submitted along herewith.

Sl. No.	Particulars
1. 3rd BOS Meeting February 13, 2015	
	Recommendations
	Staring PhD programme in Farm Machinery and Power Engineering.
2. 4th BOS Meeting 20th July, 2016	
	Starting of Ph.D. programme in Soil and water conservation Engineering and Processing and Food engineering disciplines. Change of Name of Department from Farm Power and Machinery Department to Farm machinery and Power Engineering Proposal of exchange of two courses of B. Tech Agril. Engg. From 1st sem to 2nd sem
3. 5th BOS Meeting 23rd May, 2017	
	• Approval for PG programme M. Tech in Renewable Energy and Irrigation Drainage Engineering with Intake capacity of 3 (2 CAU+ 1 ICAR). • Correction in title of Course • Communication Skills and Personality Development of B. Tech food technology as per V Dean Committee. • Modification of 3 subjects Theory of machines, machine Design and

	Tractor systems & Control offered to B. tech (Agril. Engg.) • Tutorial Class for BEAS 1207 and BEAS 2107. • Proposal to start day scholar arrangement for interested students. • Fixing of date of renamed Degrees due to change in Nomenclature
4. 6th BOS Meeting 26th April, 2018	
5. 7th BOS Meeting 13th May, 2019	
	• Shifting of course entitled "Web designing and internet applications" from even semester to odd. • Modification of syllabus four courses of B. Tech food Technology. • Approval of course structures of M.Tech Renewable Energy engineering and Irrigation Drainage engineering. Interchanging the semester of the B. Tech course Ground water wells and Pump and Drainage Engineering from semester VI to semester V. • Common course nomenclature for courses of Food technology of CAEPHT, Ranipool and COFT, Imphal
6. 8th BOS Meeting 29th April, 2020 through video conferencing online using Google Meet	
	Approval for internal setting of question paper and evaluation for 2nd semester of Academic session 2019-2020. Combining Mid-term and end term amination for 2nd session of 2019-20 Conducting comprehensive viva-voce examination for PhD and PG students online during 2nd semester academic session 2019-20.

ELP Module for B. Tech. (Food Technology) from 2015-2020

2017-18

A. Processing and value addition of fish and fish products

During the academic year 2017-18, eight students (first batch) participated in ELP (skill module). In this module, students have successfully learned and achieved skills to process local indigenous fishes which are popular among the people of Manipur. Various products of processed fish were made during the module. These included fish pickles, dehydrated fish cubes, dried fish, ready to serve fish curry, etc. In addition, they have been imparted skills of operation and maintenance of processing equipment, development of art and science of production and managerial skills under protected environment. Students also learned and acquired skills of analysis of these products as per FSSAI standards.

B. Processing and value addition of Chak-hao (black scented rice)

Chak-hao (black scented rice) is an indigenous rice variety of Manipur. It is highly nutritious rice with high contents of antioxidants, mainly anthocyanin and other valuable minerals. It is also recommended as a therapeutic food. During this ELP module, eight (08) students participated to produce a number of value added products of Chak-hao. These include Chak-hao noodle, Chak-hao cookies, Chak-haogulabjamun, Chak-haoidli andChak-haoinstant baby food mix. Recognizing the beneficial values of Chak-hao, the products have high promises in the market. In addition, they have been imparted skills of operation and maintenance of processing equipment, development of art and science of production and managerial skills under protected environment. Students also learned and acquired skills of analysis of these products as per FSSAI standards. They also acquire knowledge to register and get license from FSSAI to start food business.

2018-19

A. Processing and value addition of indigenous fruits of Manipur

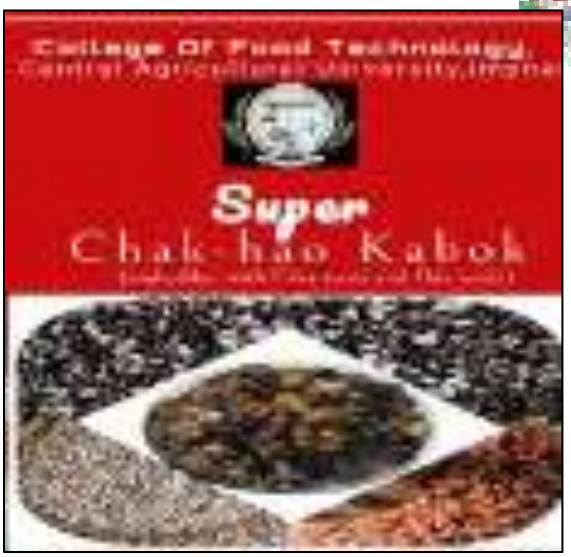
During the academic year 2018-19, ten (10) students participated in the ELP (skill module). As part of the module, students learned processing and value addition of selected indigenous fruits found in Manipur. Some of the products of the module included ready to serve RTS of lemon with the addition of local medicinal herbs, value added pomelo juice, amla candy, guava roll, amla and ginger candy, pineapple RTS, star fruit pickle, etc. In addition, they have been imparted skills of operation and maintenance of processing equipment, development of art and science of production and managerial skills under protected environment. Students also learned and acquired skills of analysis of these products as per FSSAI standards. They also acquire knowledge to register and get license from FSSAI to start food business.

B. Processing and value addition of horticultural crops

Ten (10) students participated in this ELP (skill module). During the module, students learned processing and value addition of selected horticultural crops including king chili, cassava, ginger, jackfruit, etc. The major products of this module included king chilly pickle with ginger and garlic, cassava flour, ginger candy, dried ginger pickle, jackfruit candy, etc. . In addition, they have been imparted skills of operation and maintenance of processing equipment, development of art and science of production and managerial skills under protected environment. Students also learned and acquired skills of analysis of these products as per FSSAI standards. They also acquire knowledge to register and get license from FSSAI to start food business.

C. Production of bakery products

Ten (10) students were participated in ELP (Skill module). In this module studentshavesuccessfully learned and achieved skills to develop various bakery products using various preparation methods. They did proximate composition analysis of the products by usingdifferentequipments available in the lab. They also performed cost analysis of the product. In addition they have imparted skills of operation and maintenance of processing equipment, development of art and science of production and managerial skills under protected environment, skill to develop detailed project proposal to start entrepreneurship. Student also learned and acquired skills of analysis of these products as per FSSAIstandards. They also acquired knowledge to register and get license from FSSAI to start food business.



2019-20

A. Processing and value addition of Chak-hao

Ten (10) students participated in this ELP (skill module). During the module, students successfully learned and achieved skills to develop Chak-hao based value added products. The products include Chak-hao super kabok (puffed rice) with the addition of flax and chia seeds, Chak-hao noodles and Chak-hao cakes. Chak-hao super kabok is a very promising value added product combining all the goodness of Chak-hao with those of flax and chia seeds. Students successfully formulated and standardized the product so that the beneficial components of the product can be retained with longer shelf life. In addition they have imparted skills of operation and maintenance of processingequipments, development of art and science of production and managerial skills under protected environment, skill to develop detailed project proposal to start entrepreneurship. Student also learned and acquired skills of analysis of these products as per FSSAIstandards. They also acquired knowledge to register and get license from FSSAI to start food business.

B. Processing and value addition of indigenous fruits

Ten (10) students participated in this ELP (skill module). During the module, students successfully learned and achieved skills to process and produce value added products of indigenous fruits. Indigenous fruits processed during this module include heimang (*Rhuschinensis*), a fruit having high medicinal properties. Heimang balls were formulated and standardized retaining its aroma and quality. The product was displayed and sold in the recently concluded CAU Regional Agricultural Fair, 2020-21 as one of the highly demanded items of the stall of the college. Apart from that, some other indigenous fruits processed and value added included chorphon, boroi and thambou (lotus root). In addition they have imparted skills of operation and maintenance of processingequipments, development of art and science of production and managerial skills under protected environment, skill to develop detailed project proposal to start entrepreneurship. Student also learned and acquired skills of analysis of these products as per FSSAIstandards. They also acquired knowledge to register and get license from FSSAI to start food business.

SELF STUDY REPORT

FOR

B.TECH. DEGREE PROGRAMME IN

FOOD TECHNOLOGY

COLLEGE OF FOOD TECHNOLOGY

CENTRAL AGRICULTURAL UNIVERSITY,

LAMPHELPAT, IMPHAL

PREFACE

India faced the challenge of providing food security to millions of its people soon after independence. The Research and Development initiatives taken by the Government of India resulted in the 'Green revolution' in the late 60s and early 70s. As a result of 'Green revolution' and various other efforts, India has made significant achievement through production of food grains, fruits and vegetables, milk, livestock production, fish production etc. and gained self-sufficiency in most of the areas of Indian Agriculture. However, contribution of engineering inputs (irrigation, soil and water conservation, farm mechanization, processing, reduction of harvest and post harvest losses, processing of milk, meat and fish and development of their products, farm structures, housing / shelter for livestock, fish ponds, utilization of renewable energy sources, utilization of agricultural, livestock fish waste and by-product, environment and agricultural interaction etc.) in these efforts were not optimum. But considering the nutritional security, livelihood security, economic sustainability and high generation of employment, a need was felt to develop and provide these engineering inputs.

Keeping in view the high potential of applications of food technology and value addition interventions in improving the agricultural scenario of NEH region and to address to the issues of shortage of trained human resource in this discipline, the **College of Food Technology (COFT)** was established in May 2015 by Central Agricultural University (CAU), Imphal at College of Agriculture, Imphal, Iroisemba as a twin College. Initially, B.Tech. Food Technology, Programme, was started during 2015 at College of Agriculture campus and later on shifted to CAU Central Farm, Lamphelpat during May, 2019.

At B.Tech level, students are admitted only from all the State of NEH. Few seats are filled on all India bases through ICAR quota. The quota of various States is fixed. The State Governments recommend students (on the basis of competitive examinations within their state) for admission. Similarly ICAR nominate (on the basis of all India competitive examination) students for their quota

Students of this college have excelled not only in curriculum but also in extracurricular activities and national level competitive examinations and the college is making continuous efforts to improve the quality of education offered here. The ICAR has introduced the procedure of accreditation, which help in assessing facilities available to impart the quality education offered by the college.

Since the college is due for accreditation since its inception, the present report provides all the necessary information about the college activities performed during last five years.

The University Level Task Force and the college level Task Force have done a great job in compiling information and bringing out this report to be submitted to Accreditation Board of ICAR. I convey my heartfelt thanks to all those, who are involved in preparation of this report.

(Ng. Joykumar Singh)
Dean i/c

6.4. SELF STUDY REPORT for the Degree Programme

SELF-STUDY REPORT FOR THE B. TECH. DEGREE PROGRAMME, COLLEGE OF FOOD TECHNOLOGY, CAU, LAMPHELPAT, IMPHAL (MANIPUR)

For the College offering degree Programme, as per recommendation of the 5Th Dean's Committees of ICAR/VCI/BSMA

6.4.1 Brief History of the Degree Programme

The College of Food Technology was established in the year 2015 as one of the constituent Colleges of Central Agricultural University, Imphal, Manipur. It is situated at Lamphelpat, Imphal West District of Manipur at 24º82'N latitude and 93º90'E longitudes with an approximate altitude of 790 metres above MSL. The campus of college spread over an area of 3 acres on the foothills of Langol Reserved Forest area. On the eastern boundary of the campus, Mary Kom road approaching from the Office of Deputy Commissioner, Imphal West passes through towards the Asian Games Village adjoining the Langol Hill on the northern side of the campus. On the southern and western fronts, the college is surrounded by the Central Farm of the Central Agricultural University, Imphal. The alluring hillside view and serenity of the campus provides for an excellent peaceful learning centre and an ideal atmosphere for academic and research activities.

The College of Food Technology, Imphal imparts education in the form of Bachelor of Technology (B. Tech.) in Food Technology. The College started its first academic programme *i.e.,* 4 year B. Tech. (Food Technology) programme from academic session 2015-2016 with intake capacity of 20 students. The course curriculum and syllabi of the degree programme are based on the model academic regulations and syllabi as proposed by the **5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi.** While designing curriculum, utmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers and entrepreneurs for emerging opportunities of food technology and food processing at national and international level.

At present 10+2+4 pattern which comprises Student READY Experiential Learning Programme (ELP) I and II and Students READY Research Project and report writing for 3 weeks each in semester VII and also Students READY Seminar for personality development in the same semester are offered to the students. The whole of VIII semester is offered in the form of In-plant training of the students for 10 weeks in different industries and research institutes at national level. So far, students have been exposed to different skills and hands on training in different places including CSIR-Central Food Technological Research Institute (CFTRI), Mysuru, Amul, Anand, Gujarat, Patson Foods, Ahemadabad, Nilon's, Guwahati, etc. Moreover, the ELP have been conducted in food producing units of the state of Manipur which includes Thangjam Agro, Imphal, Meira Foods, Imphal, Modern Foods, Takyel Industrial Estate, etc. in different skill categories.

Fig. 1: Satellite Image of the Campus of College of Food Technology, Lamphelpat, Imphal

The College of Food Technology, Imphal is an unique campus under the Central Agricultural University, Imphal with complete integration of all the three functions *viz.;* teaching, research and extension. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of food processing, packaging, storage and distribution of food product not only in Manipur but also in the entire North-Eastern Region of India. The college shall also endeavour to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. The major mandates of the college are:

iv) Making provision for imparting education in food science and engineering.

v) Advancement of learning and conducting research particularly in Food Technology and other allied sciences / technologies especially for the rural people of the state in general.

vi) Undertaking activities pertaining to major mandates *via*, education, research and extension as directed by the University from time to time.

Mission

- To train technical manpower, pursue high quality and high impact research, design and development of sustainable technologies/equipment related to food technology and disseminate the developed technology to the farmers' field/ entrepreneurs of NEH region of India.

Vision

- In accordance with the vision of CAU, Imphal the vision of College of Food Technology is to produce world class professionals who are equipped to meet the demands of global outfits, have analytical abilities and entrepreneurship for making career of self employment and as contributors, to be livelihood and food/nutritional security.

Objectives:

- To establish and develop excellent academic facilities for offering undergraduate and postgraduate education in the discipline of food technology, appropriate to various states of NEH region in particular and the country in general.
- To impart quality education so as to produce globally competitive graduates and post graduates in areas of food technology including inter disciplinary areas so that confident and capable human resource, suitable for working as scientists, academics, managers, entrepreneurs etc., could be developed.
- To establish specialized research laboratories fitted with state of art machineries equipment and instruments for taking up basic and applied research by the scientists/teachers and post-graduate students and experiential learning facilities including pilot plants for 'hands - on training' of undergraduates students.
- To carryout research to generate technology and extension of technology to the micro food processing unit and professional body.
- To develop and demonstrate modern and advanced food processing system appropriate to NEH states which may help the farmers to improves their productivity and profitability while preserving and improving the environment.
- To develop need based improved agro-technologies and equipment for NEH region for household and on farm operations, post-harvest management and utilization of renewable sources of energy.

Fig.2 Inauguration of College of Food Technology, Lamphelpat on 2nd Feb., 2019

Fig.3 Inauguration of College of Food Technology, Lamphelpat on 2nd Feb., 2019 by DG, ICAR (Dr. Mahapatra) & Dr. R.S. Paroda, Chairperson, TAAS & Ex-Secretary, DARE.

Accomplishments

At B.Tech. level, students are admitted only from all the State of NEH. Few seats are filled on all India bases through ICAR quota. The quota of various States is fixed. The State Governments recommend students (on the basis of competitive examinations within their state) for admission. Similarly ICAR nominate (on the basis of all India competitive examination) students for their quota. The intake capacity, number of students admitted, number of students graduated number of fellowship received by the students in various academic years are given in following two tables.

Student enrollment in the College has been getting increased gradually for each academic year. During recent past, however, some –signatory states are seeking for more allocation of seats for their students. The main reason might be the impressive performance shown by the students of this college at national level. Altogether, 18 students from two batches have already achieved their B. Tech. degree from the College. On an average, 100 per cent of passed out students secured first class in their final examination which is a morale booster and an achievement in itself. Students of this college have shown outstanding performance in the national level examinations. The following table highlights some of the major achievements of the passed out students in terms of ICAR-JRF and GATE examinations en route to their M. Tech. study in different IITs and other universities all over India.

Table 1: Performance of the students during the academic year 2015 to 2020

Sl. No.	Year	Intake capacity	No. of students admitted	No. of students graduated	No. of students receiving scholarships

2016-17	10	08	-	-	18	18
2017-18	08	10	08	-	26	26
2018-19	07	08	10	08	35	35
2019-20	11	07	08	10	36	35
2020-21	16	11	07	08	42	25

Table 3: Milestones achieved by the students of the College since its inception in 2015

S. No.	Name of Student	Year of passing out	ICAR-JRF	GATE	Major Subject	M. Tech.
1	Niamcha Lowang	2018	2019-20 ST – 1st UPS – 2nd Overall – 144th	-	Food Technology	Anand Agricultural University, Anand, Gujarat
2	SweetyNgangom	2018	-	2019	Food Technology	Tezpur University, Assam
3	Monika Konsam	2018	2020-21 UPS – 1st OBC – 33rd Overall – 91st	2020	Food Technology	Jadavpur University, West Bengal
4	Bhavesh Datla	2019	-	2020 Overall – 19th in Engineering Sciences; Overall – 1st in Food Technology	Food Technology	Indian Institute of Technology, Kharagpur
5	Alok Das	2019	-	2020	Food Technology	Indian Institute of Technology,

						Varanasi
6	Rebika Salam	2019	2020-21 UPS – 2nd	-	Food Technology	Tezpur University, Assam
7	W. Athoi	2018	-	2020	Food Technology	Tezpur University, Assam

Table: 4.Number of students passed and secured M. Tech. in 2018-19 to 2019-20

Sl. No.	Year	Number of students qualified/Number of students placed					Number of students passed out
		JRF	SRF	GATE	M. Tech.	Other	
1.	2018	01	-	03	06	-	08
2.	2019	02	-	02	10	-	10

Extracurricular activities:

As part of the academic activities of the college, the students have participated actively in every extra-curricular activities during various events organized in and outside the University. Some of the remarkable achievements of the students in extra-curricular activities have been listed below.

Table 5: Extra-curricular activities participated by the students of the college

Sl. No.	Events (sports/literary/cultural meets)	State/regional /national level	Year	Position
1	Inter-collegiate Youth Festival of Central Agricultural University at College of Veterinary Sciences, Thenzawl, Mizoram	Regional	2018	Folk dance (group) – 2nd On-the-spot painting – 2nd (Ksh. Amitkumar Singh) Elocution – 2nd (Rohan Singha) Mime (group) – 4th
2	Inter-collegiate Youth Festival of CAU at College of Agriculture, Iroisemba, Imphal	Regional	2019	Cultural procession (group) – 2nd Folk dance (group) – 3rd Quiz – 3rd (L. Bikramjit Singh and Bhavesh Datla)
3	Inter-collegiate Sports Meet of CAU at College of Agriculture, Iroisemba, Imphal	Regional	2019	100 m race – 2nd (ArrowalSyngkon) 200 m race – 1st (ArrowalSyngkon) Discus throw – 3rd (L. Bikramjit)
4	OUGRI Night of National Institute of Technology, Manipur	Regional	2019	Debating competition – 3rd (Rohan Singha)
5	National AgriUnifest at Raipur, Chhatisgarh	National	2020	Represented and participated in elocution,

				debating competition and ex-tempore speech (Rohan Singha)

Additional information on monitoring mechanism for quality education

- Monthly meetings: The Dean College of Food Technology conducts monthly meetings with the faculties to evaluate the progress in the field of teaching, research and extension.
- Annual reports: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for measuring the performances of the college during the particular year and serve as guidelines for future action plan

Student evaluation:

Students' advisory meeting is conducted every week by respective advisors and every month Students Advisory meeting is held along with the Dean of the college. He receives thefeedback from the students and gives direction to the faculties. The students are providing the feedback of course teachers who handle the classes during a particular semester in a prescribed proforma. The feedback of the students is analyzed and the inadequacies are properly addressed.

Special focus is paid for all round development of student to show their hidden talents in addition to their academic programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and career. Annual College Week, Blood Donation Camp, Agricultural Education Day, Mahatma Gandhi's Anniversary programme, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students. The students also participate regularly inter collegiate event of University and National level competitive events.

College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Food Technology, Imphal. The Academic and Administrative building of College is depicted in **Fig. 2**. The Dean is assisted by various teaching, non- teaching and non-technical members of the institution.

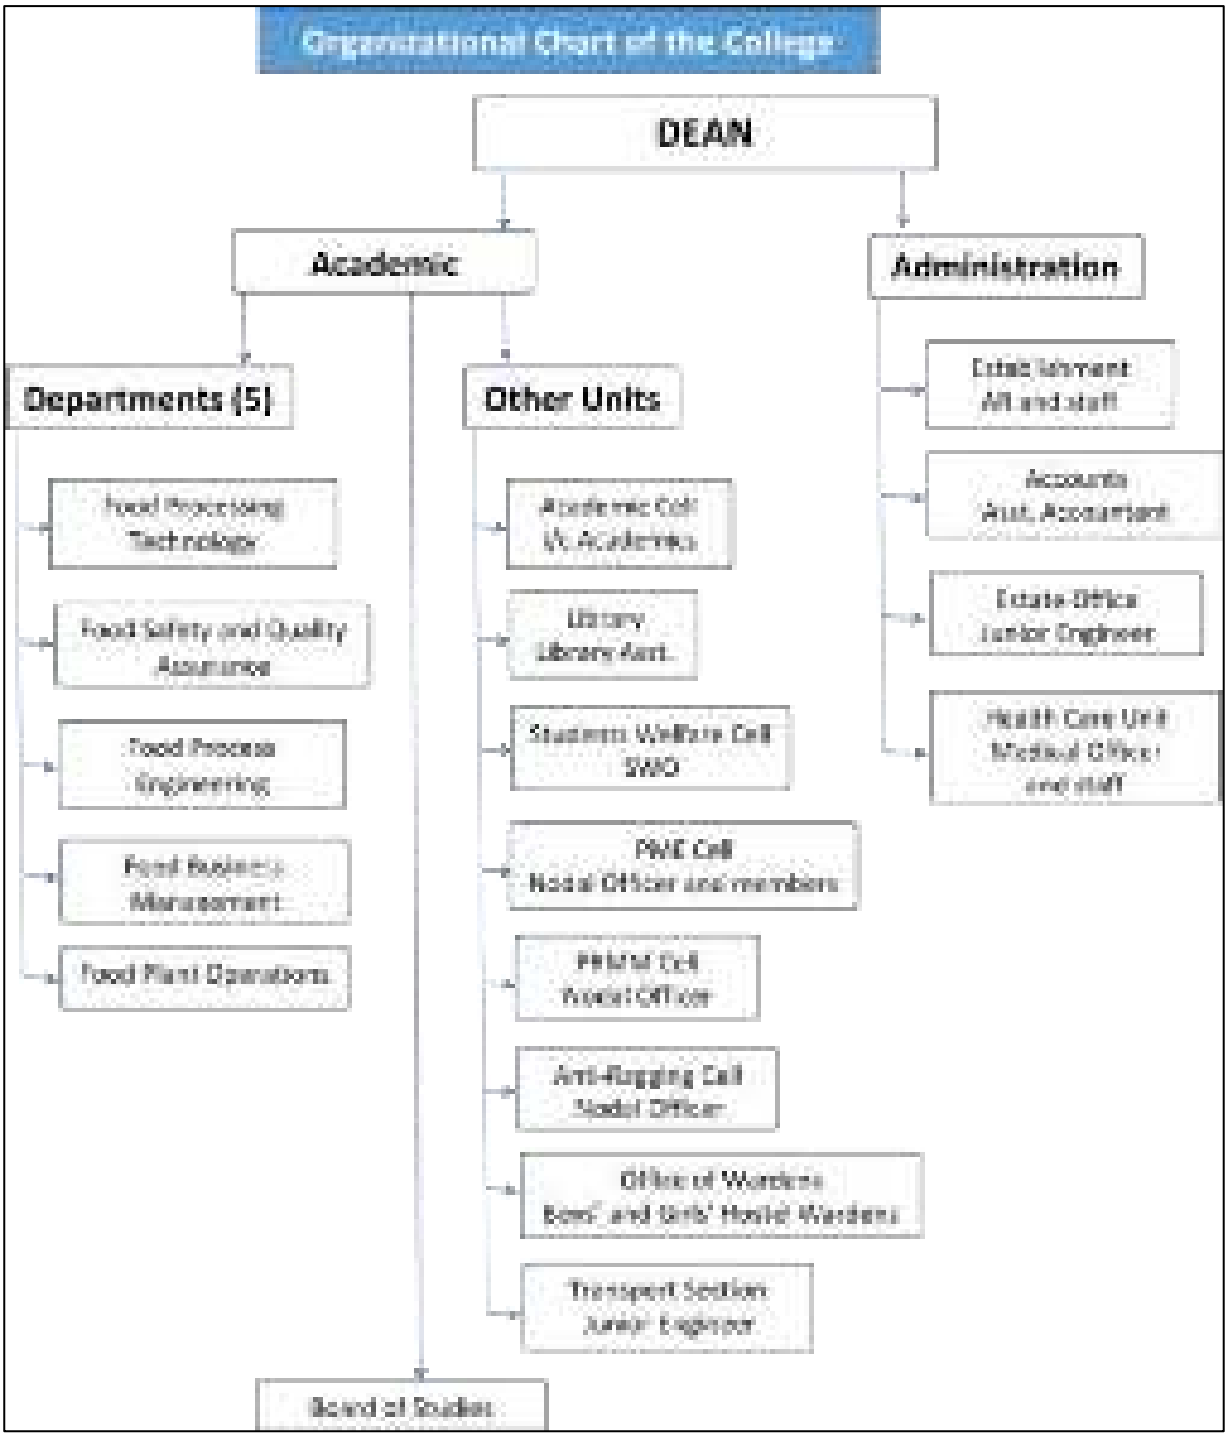

Fig. 4: Organizational structure of the College of Food Technology

Fig 5: Administrative and Academic Building of the College

College Dean's Office Establishment:

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines	: Yes
2.	Date of selection/joining of present Dean	: 28th October, 2020
3.	Mode of selection	: Nomination
4.	Tenure	: (In-charge)
5.	Total number of staff in Dean's office	: One PA (Y. Ricky Singh)
6.	Infrastructure facilities (Details on infrastructure and networking facilities available)	• Computers with printers are available at the Dean's office with internet and UPS connectivity • Copier facility is available with WiFi connectivity

6.4.2 Faculty

College of Food Technology initially was started as twin College with College of Agriculture, CAU, Iroisemba and hence some related departments, faculty and laboratories as required under fifth dean's committee recommendations are being utilized for smooth running of B.Tech in Food Technology programme.

As per the Fifth Dean Committee, Five Professors, Ten Associate Professors and Thirty One Assistant Professors are needed to teach and guide the students of B. Tech. Food Technology, M. Tech Food Technology and Ph. D. Food Technology. We are offering only B. Tech. (Food Technology) at present. At this College the following Faculty members were involved in teaching and guiding the students of B. Tech. Food Technology during 2015-2020. As per the recommendations by ICAR/UGC/VCI/Other regulatory bodies, the present faculty strength of the college is yet to be filled

up to its full strength. As per faculty recommended by ICAR/~~UGC/VCI/~~Other regulatory bodies the faculty strength are sufficient. However, faculties from other constituent colleges including College of Agriculture, Iroisemba, Dhanamanjuri College of Arts, Dhanamanjuri College of Science, Churachandpur College, scientists from AICRP and ICAR are being assigned to complete the curriculum of the undergraduate degree programme of this college. The teaching pedagogy include a judicious blend of different teachings modules, classroom-based teaching with an equal weightage on practical training and exposure to inculcate pragmatic skills and perk up student's confidence to meet requirement of various client organization as well as higher education in other national and international academic institutions..

The names of various faculties (permanent, on contract, from sister organization, guest etc.) their qualification and various courses taught by them is given below. As mentioned, these faculties are assigned the responsibility for the B. Tech. programme only.

Table 6: Present status of faculty strength of the College

Sl. No.	Faculty Associated with Food Technology programme	Faculty in place	Vacant Position	Faculty recommended By ICAR/UGC/VCI/Other regulatory bodies
1.	Professor	05 (Guest lecturers, CoA)	*04	05
2.	Associate Professor	00(Sanctioned Post) 06 (Guest lecturers, CoA)	00	10
3.	Assistant Professor	07(contract) 24 (Guest Lecturers)	*06	30
Total		**42**	**10**	**45**

*The above statement regarding the vacancy of Professor and Assistant Professor is as per the advertisement published by the University Authority.

Table 6(b): List of Guest Lecturers (2020-21):

Sl. No.	Name	Department and Institute	Courses Covered
7.	Dr. Thokchom Subhaschandra Singh	Assistant Professor Dept. of Mechanical Engineering NIT Manipur	Food Thermodynamics (Theory and practical)
8.	Er. Laishram Birjit Singh	Technical Assistant Dept. of Mechanical Engineering NIT Manipur	Food Thermodynamics and Heat and Mass Transfer (Practical classes)
9.	Dr. Thiyam Tamphasana Devi	Assistant Professor Dept. of Civil Engineering NIT Manipur	Fluid Mechanics (Practical classes)
10.	Dr. Shuma Adhikari	Assistant Professor	Basic Electrical

		Dept. of Electrical Engineering NIT Manipur	(Practical classes)
11.	Er. Asem Nabadavis	Assistant Professor Dept. of Mechanical Engineering MTU Manipur	Food Thermodynamics (Theory)
12.	Er. Jimmy Laishram	Assistant Professor Dept. of Computer Engineering MTU Manipur	Computer Programming (Theory and practical)

Table 7: Information regarding faculties, their qualification and courses taken for the B. Tech. (Food Technology)

Area	Since 2015 to 2020		
	Subject	**Taught by**	**Highest qualification**
Food Process Technology	Fundamentals of Food Processing	Dr.AngamRaleng (Assistant Professor) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D. M. Sc.
	Processing Technology of Cereals	Dr.A.K. Mishra, (Associate Professor) Dr. Ng. Joykumar Singh (Dean)	Ph. D.
	Processing Technology of Legumes and Oilseeds	Dr.AngamRaleng (Assistant Professor) Dr.A.K. Mishra, (Associate Professor) Dr. N Renuka (Associate Professor)	Ph. D.
	Processing Technology of Fruits and Vegetables	Dr. L. Sophia Devi, (Junior Scientist) Dr. Mariam Anal (Assistant Professor)	Ph. D.
	Processing Technology of Liquid Milk	Dr.M. Norjit Singh, (Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Processing Technology of Dairy Products	Dr. M.Norjit Singh, (Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Processing Technology of Beverages	Dr.A.K. Mishra, (Associate Professor) Dr. L. Pilloo (Associate Professor)	Ph. D.
	Processing of Spices and Plantation Crops	Dr. L. Sophia Devi, (Junior Scientist) Dr. Mariam Anal (Assistant Professor)	Ph. D.
	Processing of Meat and Poultry Products	Dr. M. Norjit Singh, (Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.

	Processing of Fish and Marine Products	Dr.WanglarChimwar, (Junior Scientist) Dr. Bashudev Devi (Senior Scientist)	Ph. D.
	Bakery, Confectionery and Snack Products	Mr.H.Dayanidhi Singh (Assistant Professor) Dr. L. Pilloo (Associate Professor)	M. Sc.
	Food Packaging Technology and Equipment	Dr.AngamRaleng (Assistant Professor) Dr.A.K. Mishra, (Associate Professor)	Ph. D.
	Sensory Evaluation of Food Products	Dr.AngamRaleng (Assistant Professor) Mr.H.Dayanidhi Singh (Assistant Professor)	Ph. D.
	Fundamental of food Technology	Dr.AngamRaleng (Assistant Professor) (Dr. Ng. Joykumar Singh (Dean)	Ph. D.
Food Safety and Quality Assurance	General Microbiology	Dr.Punyakishore M. (Assistant Professor) Dr. Lokesh Mishra (Associate Professor)	Ph. D.
	Food Microbiology	Dr.Punyakishore M. (Assistant Professor) Dr.P.K. Sarangi, (Scientist)	Ph. D.
	Industrial Microbiology	Dr.P.K. Sarangi, (Scientist) Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Chemistry of Macronutrients	Mr.H.Dayanidhi Singh (Assistant Professor) Dr.AngamRaleng (Assistant Professor)	M. Sc.
	Food Chemistry of Micronutrients	Mr. H. Dayanidhi Singh (Assistant Professor) Dr. L. Mishra (Associate Professor)	M. Sc.
	Food Biochemistry and Nutrition	Dr.Punyakishore M. (Assistant Professor) Dr. Th. Anand Singh (Scientist)	Ph. D.
	Biochemistry	Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Biotechnology	Dr.Punyakishore M. (Assistant Professor)	Ph. D.
	Food Additives and Preservatives	Mr. H. Dayanidhi Singh (Assistant Professor) Dr. L. Mishra (Associate Professor)	M. Sc.
	Instrumental Techniques in Food Analysis	Dr. Th. Anand Singh (Scientist) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D.
	Food Plant Sanitation	Dr. Th.Gopeshwor Singh(Assistant Professor) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Food Quality, Safety Standards and Certification	Mr. H. Dayanidhi Singh(Assistant Professor) Dr. L. Pilloo (Associate Professor)	M. Sc.
Food Process Engineering	Food Thermodynamics	Dr. S. Sunderlal Singh (Assistant Professor) Dr. Th. Subhaschandra Singh (Assistant Professor, **NIIT, Manipur**)	Ph. D.
	Fluid Mechanics	Dr. S. Sunderlal Singh(Assistant Professor) Dr. Thiyam Tamphasana Devi, (Assistant Professor, **NIIT, Manipur**)	Ph. D.

	Post-Harvest Engineering	Dr. Ng. Joykumar Singh (Dean) Dr.A.K. Mishra, Guest	Ph. D.
	Heat and Mass Transfer in Food Processing	Dr. L. Sophia(Assistant Professor) Dr. S. Sunderlal Singh (Assistant Professor)	Ph. D. Ph. D.
	Unit Operations of Food Processing - I	Dr. Ng. Joykumar Singh (Dean) Dr.AngamRaleng (Assistant Professor)	Ph. D.
	Unit Operations of Food Processing - II	Dr. Ng. Joykumar Singh (Dean) Dr.A.K. Mishra, (Associate Professor)	Ph. D.
	Food Refrigeration and Cold Chain	Dr. L. Sophia(Assistant Professor) Dr. S. Sunderlal Singh(Assistant Professor)	Ph. D. Ph. D.
	Food Storage Engineering	Dr.AngamRaleng(Assistant Professor) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D.
	Food Process Equipment Design	Dr. S. Sunderlal Singh(Assistant Professor) Mr. H. Dayanidhi Singh (Assistant Professor)	Ph. D.
	Instrumentation and Process Control in Food Industry	Dr. S. Sunderlal Singh(Assistant Professor) Dr.A.K. Mishra, (Associate Professor)	Ph. D.
Food Business Management	Business Management and Economics	Dr. S. Bhogin Singh, (Associate Professor) Prof. Y. Chakravarty (Professor)	Ph. D.
	ICT Applications in Food Industry	Dr. Shuma Adhikari, Assistant Professor **Dept. of Electrical Engineering** **NIT Manipur** Er. Saroj Kumar Behera (Assistant Professor)	Ph. D. M. Tech.
	Marketing Management and International Trade	Dr.Angad Prasad, (Professor) Prof. L. Nabachandra Singh (Professor)	Ph. D.
	Project Preparation and Management	Dr. S. Bhogin Singh, (Associate Professor) Dr. Y. Chakraverthy (Professor- Economics)	Ph. D.
	Communication and Soft Skills Development	Dr.Dayaram, (Assistant Professor) Prof. Angad Prashad (Extension –professor)	Ph. D.
	Entrepreneurship Development	Dr.Dayaram, (Assistant Professor) Prof. N. Okendro Singh (Professor –Stats)	Ph. D.
Food Plant Operations	Student READY-Experiential Learning Programme - I	Dr. Ng. Joykumar Singh (Dean) Dr. Feroze Hussian (Associate Professor)	Ph. D.
	Student READY-Experiential Learning Programme - II	Dr. Ng. Joykumar Singh (Dean) H. Dayanidhi Singh (Associate Professor)	Ph. D.

	Student READY – Research Project	Dr. Ng. Joykumar Singh Dr. Th. Gopeshwor Singh (Assistant Professor)	Ph. D. Ph. D.
	Student READY - Seminar	Dr. Th. Gopeshwor Singh(Assistant Professor) Dr. L. Sophia(Assistant Professor) Dr.Punyakishore M. (Assistant Professor)	Ph. D. Ph. D. Ph. D.
Basic Engineering	Engineering Drawing and Graphics	Dr. L. Sophia(Assistant Professor) Er. Asem Nabadavis, Assistant Professor **Dept. of Mechanical Engineering** **MTU Manipur**	Ph. D.
	Basic Electrical Engineering	Er. Saroj Kumar Behera(Assistant Professor) Dr. Shuma Adhikari, Assistant Professor **Dept. of Electrical Engineering** **NIT Manipur**	M. Tech.
	Workshop Technology	Dr. L. Sophia(Assistant Professor) Dr. Ng. Joykumar Singh	Ph. D. Ph. D.
	Computer Programming and Data Structure	Er. Saroj Kumar Behera(Assistant Professor) Er. Jimmy Laishram, Assistant Professor **Dept. of Computer Engineering** **MTU Manipur**	M. Tech.
	Basic Electronics Engineering	Er. Saroj Kumar Behera(Assistant Professor) Er. Jimmy Laishram, Assistant Professor **Dept. of Computer Engineering** **MTU Manipur**	M. Tech.
Basic Sciences and Humanities	English Language	Dr. K. Maheshwari Devi, (Assistant Professor)	Ph. D.
	Crop Production Technology	Dr.R.K. Dilip Singh, Guest Dr.A.K. Bijaya Devi, Guest Dr. Edwin Luikham, Guest Dr.JamkhoginLhungdim, Guest	Ph. D. Ph. D. Ph. D. Ph. D.
	Engineering Mathematics -I	Er. Saroj Kumar Behera(Assistant Professor) Prof. Gangmei Sobha (Prof.-Maths)	M. Tech.
	Engineering Mathematics -II	Er. Saroj Kumar Behera(Assistant Professor) Prof. Gangmei Sobha (Prof.-Maths)	M. Tech.
	Environmental Sciences and Disaster Management	Dr. Th. Gopeshwor Singh(Assistant Professor)	Ph. D.
	Statistical Methods and Numerical Analysis	Shri N. Gopimohon Singh, (Associate Professor) Dr. N. Okendro Singh, (Professor)	M. Sc. Ph. D.

Credentials of the Faculty:

All faculty members of the college are qualified and recognized persons of their fields. The college has adequate proportion of experienced and young faculty members. Many faculty members in the college have received awards for their excellence in teaching and research activities.

6.4.3 Technical and Supporting Staff

The technical staff and other supporting staff of College of Food Technology are attached with

the Dean's office for administrative, convenience and being allotted to other departments as per requirements and skills imparted. Other than these staffs some Skilled and Unskilled labours are hired on contractual basis. The administrative and accounts staff are centralized in the college and are operating under the direct control of the Dean as part of Dean's office.

Table: 8. Information of Technical and Supporting Staff of College of Food Technology

	In position	Vacant
COFT, Imphal	14*	2

* These staffs are commonly shared from COA, Imphal at present.

Since the college is newly established, only some technical staff (permanent) has been assigned the responsibilities for the multiple activities related to the College. Apart from that 20 outsourced contractual staff is engaged based on the skills required.

6.4.4. Classrooms, Laboratories, Dean's Room:

The regular teachings have being conducted in the four numbers pre-fabricated classroom and two laboratories in the college. Since a permanent structure is yet to be erected, the required practical classes are conducted at different laboratories in nearby campuses or under CAU constituent colleges namely NIT Manipur campus, CAEPHT Sikkim etc.

1. UG Class room : Four (04) well furnished with projector facility and desktop
2. UG Practical Room : Two (02) with laboratory equipments

Training Hall: One (01) with well furnished chairs and tables

Fig. 6.Dean's Room

Details of Classrooms and Laboratories:

c) **Number of class rooms**: (UG = 4)

Fig 7: Classroom of the College

Fig 8: Practical / Training Hall of the College

All class rooms are provided with LCD projectors and audio-visual aids for better delivery of lectures. The faculty use power point presentations to make the concepts/techniques clearly understandable to the students. The important lectures are taught with videos. A table, podium, whiteboards/screen, black board etc. are available in each class room for the use of teachers.

a) **Functional Laboratory: 2** no.

List of major Equipment:

The laboratory is equipped with some of the basic and advanced equipments needed for the experiments as recommended in the academic regulation of the 5th Deans' Committee. So far, the necessary laboratory furnishings have yet to be installed permanently as the College is under construction.

The available equipments are enlisted below.

Table 9: Major Equipment in Processing & Food Engineering Department

▪ Dietary fibre extraction unit	▪ Coconut tree climber
▪ Colour lab hunter	▪ Coconut dehusker
▪ Refrigerated centrifuge CPR 24	▪ Foot Sealer
▪ Steam Jacketed cooking kettle	▪ Fermenter
▪ Fruit and Vegetable Juice and paste Processing Plant	▪ Hand sealer
▪ Electronics Grain Moisture Meter	▪ Angle of Repose apparatus
▪ Vacuum Packaging Machine	▪ Vacuum oven
▪ Shrink Packaging Machine Model-CP-2030	▪ Micro Pulverizer (hammer mill)
▪ Steam Distillation set u	▪ Fruit pulper
▪ Angle of Repose apparatus	▪ Digital Humidity Sensor and Indicator
▪ Electronic weighing balance ZSP-350 (300g	▪ Automatic Foam Fill Seal packaging Machine
▪ Micrometer Precise Thickness	▪ Rubber Roll Sheller
▪ Aspirator/ Cyclone Separator	▪ Shrink Wrapping Machine
▪ Automatic Fibre Extraction system	▪ Digestion Unit
▪ BOD Incubator with shaker	▪ Electronic Balance
▪ Digital Precision	▪ Digital balance model –(A-224) make Contech Capacity-220gm
▪ Digital Refractrometer PAL	▪ Vibratory Screen Grader
▪ Tray dryer (12 trays)	▪ Pulverizer/Gravy machine (2HP)
▪ Autoclave (40 Litres)	▪ Logic gate analyzer
▪ Double distillation unit (2.5 L)	▪ Frequency counter
▪ Digital Weighing Balance	▪ Oscilloscope
▪ Infra-red Moisture Meter	▪ Microwave oven
▪ Hot air oven	▪ Dough kneading machine
▪ Analytical balance	▪ Vegetable cutting machine
▪ Bench top pH meter	▪ Wet grinding machine
▪ pH meter	▪ Water Bath
▪ Pilot plant Spray Dryer	▪ OTG Oven
▪ Complete Unit of Biscuits Making Machine	▪ Ginger Paste and Powder Making Machine
▪ Complete unit of Potato Chips Machine	▪ Complete Unit of Noodle Making Machine
▪ Mini Dal Mill	▪ Vegetable Washing Machine
▪ Seed processing plant	▪ Potato Slicer
▪ Turmeric Grinder	▪ Ginger Processing machine (Complete Unit)
▪ Cottage scale soya paneer plant	▪ Multi stage evaporator with aroma recovery system
▪ Laminar Flow	▪ Ginger /Turmeric peeler cum

	▪ polisher
▪ Plate count	▪ Corking machine
▪ Digital refractometer	▪ Induction sealing machine

Theory and practical batches for the Degree Programme:

The number of intake students is manageable due to limited number of seats.

Table: 10. Average number of students in theory and practical classes

Sl. No.	Particulars of curricula	Batch of student in *Theory* class	Batch of student in *Practical* class
1	B. Tech. (Food Technology)	16	16

The class rooms and laboratories are sufficient to meet course curricula requirement of the degree programme

6.4.5 Conduct of Practical and Hands-on-Training:

Theory and Practical batches for the Degree Programme

There are manageable number of students (Maximum 16) who are kept in one batch during Theory & Practical classes to ensure better delivery of information, encourage students' participation and active monitoring.

The undergraduate courses involve conducting practical experiments as per credits allotted tothe specified courses and hands on training and field/lab practical are for courses.

Table 11: Number of students in theory and practical classes of the college

Year	B. Tech. (Food Technology)	
	Batch of students in theory class	Batch of students in practical class
2015-16	08	08
2016-17	09	09
2017-18	10	10
2018-19	07	07
2019-20	11	11
2020-21	16	16

Short duration training/visit

During the course of study students also visited the following industries for short duration training. These industries include Thangjam Agro (Likla Foods), Imphal, Meira Foods, Imphal, Korouhanba Spices, Imphal, Modern Foods, Imphal, etc.

In order to conduct the practical classes of the students of the College, the students along with the concerned faculty undergo regular visit to other established colleges and institutes for conducting

practical classes, namely NIT Manipur, CAEPHT Sikkim and S. K. Womens' College Nambol, Manipur with due approval of the University authority.

Study Tour

Under student ready program in VII Semester students were deputed for Study Tour (two - three weeks). Earlier all the students during course of their study used to undertake study tour twice (two to three weeks duration each time), one to NEH region and one at places outside North-east (All India Tour). The tour to NEH region was stopped after implementation of 5th Dean's committee. Now students are going only on All India Study Tour. However, due to covid-19 the tour couldn't be undertaken during 2020-21. The details of various tours undertaken by the students are given below.

Table 12: Details of study tour of the students during 2016-20

Year	Places Visited
2016-17	• NEHU, Shillong • ICAR Research Complex for NE Region, Umiam, Barapani • CPGS, Barapani (CAU) • IIT, Guwahati • Tezpur University, Assam • NERIST, Arunachal Pradesh
2017-18	• NEHU, Shillong • Tezpur University, Assam • Yak Centre, Birang, Arunachal Pradesh • KVK, Tawang, Arunachal Pradesh • Kiwi Winery, Bomdilla, Arunachal Pradesh • ICAR Research Complex, Medziphema, Nagaland
All India Study Tour	
2017-18	• Parle Industries, Bhuj, Gujarat • Amul, Anand, Gujarat • Anand Agricultural University, Anand, Gujarat • ICAR-Central Institute of Fisheries Technology, Mumbai • KVK and Agricultural Fair, Goa • NIRJAFT (National Institute of Research on Jute and Fibre Technology, Kolkata) • CIRCOT (Central Institute for Research on Cotton Technology), Mumbai
2018-19	• Sri Jagannath Flour Mill, Orissa • University of Agricultural Sciences, Bangalore • Pelagic Foods, Bangalore • National Institute of Agricultural Extension Management (MANAGE), Hydearabad • M/s. Sagar Feeds and food processing industry, Cuncolim, Goa • ICAR- Central Coastal Agricultural Research Institute, Goa
2019-20	• CSIR-Central Food Technology Research Institute (CFTRI), Mysuru • Bakery Heaven, Mysuru • University of Agricultural Science, Bangalore • ICAR-Central Institute of Fisheries Technology, Cochin, Andhra Pradesh • CIFE (Central Institute for Fisheries Education), Versova, Mumbai

Conduct of the hands on training

a) Hand on training within the College

Under student ready program in VII semester students of B. Tech (Food Technology) are being provided hands on training under Skill Development Experiential Learning Programme I and II (Skill Development/In-plant training) in the following pilot plants.

Table 13: Details of the Experiential Learning programme of B. Tech. (Food Technology)

Year	Name of the students	Title of Experiential Learning
2018	▪ SweetyNgangom, ▪ Bharat Singh ▪ Irom, Konsam Monika, ▪ NiamchaLowang, ▪ W. Athoi, ▪ Arvind Kumar Yadav, ▪ L. Bhaktaraj, ▪ Ph. Manojkumar Singh	▪ Chak-hao (Black scented rice) processing leading to development of different products including Chak-hao noodle, Chak-hao cookies, Chak-hao GulabJamun, Chak-hao based instant baby food, ▪ Squash chips, fish processing, ▪ Pineapple powder production, ▪ Bakery products including cup cakes, cookies, water chestnut soup mixture
2019	▪ S. Romita, ▪ BhaveshDatla, ▪ Rebika Salam, ▪ U. Priyambada, ▪ Alok Das, ▪ EvenstarKharbani, ▪ DaniNado, ▪ BanteilangKharbani, ▪ Rohan Singha, ▪ Lalhruaichhungi	▪ Processing of ginger to produce ginger candy, dried ginger, ▪ Amla candy, ▪ Guava rolls, ▪ Pomelo juice, lemon RTS, ▪ U-morok (King Chilli) pickle, ▪ Bakery products including cup cakes, cookies
2020	▪ SuchitraKeisham, ▪ M. Hareena Devi, ▪ Nillachandra Y., ▪ Y. Nikhil, L. ▪ Bikramjit Singh, ▪ L. Paikhomba Singh, ▪ Sober Soibam, ▪ Ksh. Amitkumar, ▪ ArrowalSynkon, ▪ TyngshainmiKharsoh	▪ Bakery products including cookies, cakes, buns; ▪ Processing of ginger to produce ginger candy and dried ginger pickle, amla+ginger pickle, ▪ Chak-haokabok (puffed rice), ▪ Heimang (*Rhuschinensis*) balls, ▪ Dehydrated ready to cook vegetable mix, ▪ Indigenous fruits and vegetable processing

The students of Food Technology discipline undergo Two five weeks Skill Development Trainings under Hands-on-training after IV and VI semester. The industrial attachment training for 10 weeks and Experiential Learning on campus programme of 12 weeks is carried out in VII semester. The requisite facilities for conduction of experiential learning programme are provided to students to practically fulfill programme requirements and achieve desired skills. Within VIII semester students perform 12 Weeks Project planning and report writing as per ICAR guidelines. The facilities for project are provided to the students as per requirement.

Students have undergone the hands on training for the skill development during the training programme to make them fit for demonstrating the responsibilities effectively in the professional career. During the training students developed the skill in the field of testing, food processing & value addition etc.

Fig.38: Industrial exposure during In-plant Training of the students

6.4.6. Supervision of students in UG/~~PG / Ph. D~~ Programmes: (number of qualified faculty in relation to the intake of students, as per the guidelines in the matter.)

There is no PG or Ph. D. programme in Food Technology. All the students of B.Tech (Food Technology) are given project work for one semester. During this project work they are allotted a guide/supervisor and a topic for research work. After completion of the research work they analyze the data and submit the report. They make a presentation also on the work carried out by them. The titles of the thesis/report submitted by student are given below.

Under student ready program in VIII Semester students were deputed to CSIR-Central Food Technological Research Institute, Mysore (Internship/In-plant/Skill Development II for 13 weeks in Semester VIII)for working in their various research projects. Few students undertook training at College of Agriculture Imphal, Manipur. The list of the report submitted by students on the basis of work undertaken at CFTRI during 2019 is given below.

Table 16: Title of Thesis/ Reports submitted by the students under Student-READY Research Programme

Sl. No.	Year	Title of report	Name of the students
1	2019	Studies on the development of value added products using cilantro (Eryngium Foetidum) and Other spices	Laishram Bhaktaraj Singh
2	2019	Studies on Development of Omega-3 Fatty Acids Enriched Halwa, A traditional Indian Confection	Bharat Singh Irom
3	2019	EMR based Drying of Vegetable for Improved Quality	Arvind Kumar Yadav

4	2019	Value added products from Bamboo leaves	Wahengbam Athoi
5	2019	Preparation of enzyme modified hen egg white powder	Niamcha Lowang
6	2019	Development and nutritional evaluation of ready to eat products from sweet potato	Monika Konsam
7	2019	Development and formation of sugar free gulab jamun by using bulk sweeteners (Malleitol syrup)	Ngangom Sweety Chanu
8	2019	Development and quality evaluation of ready to eat (RTE) gel like intermediate moisture product from juice blend of pineapple (ananas comosa) and water melon (citrullusblantus)	Ph. Manojkumar Singh

Table 17: Reports submitted by the students under Student-READY Research Programme

Sl. No.	Year	Title of report	Name of the students
1	2018	Development and formulation of Chak-hao (Black rice) based GulabJamun	NgangomSweetyChanu and Arvind Kumar Yadav
2	2018	Development and formulation of Chak-hao (Black rice) based noodle	Bharat Singh Irom and Monika Konsam
3	2018	Development and sensory evaluation of deep fried chayote chips	ManojkumarPheiroijam and WahengbamAthoi
4	2018	Development of supplementary food from Chak-hao	NiamchaLowang and LaishramBhaktaraj Singh
5	2019	Development of Black Rice (Chak-hao) cake	Lalhruaichhungi and SorokhaibamRomita Devi
6	2019	Development and Sensory Evaluation of aromatic black rice Idli	BhaveshDatla and Rebika Salam
7	2019	Development of Instant Soup Powder using Heikak (Water caltrop) as Base Material	Alok Das, DaniNado and U. Priyambada

12.5.3. Feedback of stakeholders :(Students, Parents, Industries, Employers, Farmers *etc*.)

In our college, the faculty members are made Student Advisors for the students admitted. There has to be at least one meeting (mostly on Saturday) of the students with their Advisors. Students raised their various problems (academic, personal etc.) with the Advisor. The Advisors helped the students to solve their problem. In case, help of some particular faculty member/ staff/ Dean were needed, Advisors took their help and solved the problem.

There is a register with the Student Welfare Officer of the College, in which any student can raise their problems (related to academic, hostels etc.). The Student Welfare Officer brought the problem to the notice of the Dean of the College. Dean discussed the issue with the Student/ Group of Students/faculties/officials and took remedial measures.

About 18 complaints were registered in the complaint register by the students with regard to repairing of electrical items and civil work in Hostels during the 2015-2020 such as sufficient water heater (Geysers) and fitting of extra lighting system in the girls' hostel premises which was attended and provided in 2-3 days' time. New dedicated internet Wi-Fi as well as LAN connection was provided with two nos. each in Boys' and Girls' hostel apart from college class rooms as requested by students. Digitalization of library books and journals as suggested by the fourth years were initiated and process is in progress. During first semester of academic year 2016 complaints was received regarding purchase of chemicals and sufficient glass wares conducting practical classes which were attended within a week. Few complaints on procuring of laboratory equipments for practical classes and experiential learning were received and later on were tackled by procuring the necessary equipments with approval of competent authority in 2020. On 10/09/2020 a complaint on providing water cooler and refrigerator was received from the Boy's and Girl's Hostel which was attended and rectified in due course of time. On 24/12/20 a complaint was received

regarding repairing of chairs and beds in New boys' and Girl's Hostel which was immediately attended by JE and his team.

During Farewell of the final year students they sometimes raised the problem faced by them during their stay of four years in the college. After knowing their problems Dean and Faculty tried to implement their suggestions.

In every Semester a meeting of Dean with representative of Students is conducted to discuss their problems related to teaching, hostels, etc. Generally Students raised their issue which used to be discussed in the meeting. The issues which can be solved at the College level were settled in the College itself. The issues which needed the attention of the Vice-Chancellor were sent to him for satisfactory solution.

CAU organized Agricultural Fair every year in various states of NEH. Many parents and guardians of the students visited these fairs. Moreover, parents also visited the college or talked to various officials over phone. During these visits and discussions they appreciate the facilities and academic atmosphere of the college. Sometimes they also made various suggestions. Many times college implemented these suggestions.

Extension council meeting of the college and University were regularly held every year. During these meeting, progressive farmers, members of FPO, members of SHG, state government officials, entrepreneurs etc. participated and gave their feedbacks and suggestions.

During hands on training students interacted with various industries. During discussion of owners/ officials of these industries with various faculty members they appreciated the theoretical, practical knowledge and hard work of the students. During their hands on training students interacted/ worked with entrepreneurs, farmers, FPO, SHG etc. During discussion with the faculty members these people appreciated the help, knowledge and hard work of the students.

Fig. 40 Visit of Hon'ble Union Minister of state, Agriculture Shri Mohanbhai Kundariya

6.4.8 Student Intake and Attrition:

The College of Food Technology presently offers Under Graduate Degree Programme in Food Technology i.e., B. Tech. (Food Technology) which is of 4 years duration. The admission to the college is given preference to students of NEH region. The quota for various states of NEH and ICAR are fixed for each academic year. State governments and ICAR take competitive examination and also nominate selected candidates for admission in CAU. If the desirous student fulfills the eligibility criteria, then they can be admitted to the college.

Table 18: State Wise Quota for B.Tech (Food Technology)

State	**Arunachal Pradesh**	**Manipur**	**Meghalaya**	**Mizoram**	**Nagaland**	**Tripura**	**Sikkim**	**ICAR**	**Total**

	10	08	10	07	16	0	0	0	0	0

6.4.9. ICT Application in curricula delivery:

The college strives to implement maximum incorporation of Information and Communication Technology (ICT) in its curricula delivery for effective academic activities of the students. At this juncture of the pandemic, the applications have become more suitable. For the purpose, the college has purchased three paid Zoom platforms which allows more convenient and effective monitoring of the online course delivery. Apart from that, there are audio-visual aids including LCD projectors, sound amplifier system and wireless internet connectivity in all the existing classrooms. For some particular courses, paid versions of softwares like MATLAB, Auto-CAD and COMSOL have been purchased for the use of teachers and students of the college.

Computer facilities:

A fully functional computer laboratory for the students is currently unavailable in the college. However, unlimited internet facility to the staff and students is provided. Wi-Fi Internet hotspot connectivity is installed and running at the Dean's Office, Academic building, administrative building and both the hostels since January, 2021. Internet connectivity procured through broadband connection of BSNL provides 50 Mbps WiFi internet connectivity in the College round the clock.

Fig. 41 Students' Computer Lab

Learning resources like books, photos, life specimen and audio-visual aids like power-point presentation, videos are used to assist the students to meet the expectation for learning defined by ICAR recommended curriculum.

Faculties are provided with computers to access the online open coursework and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various software applications in agriculture.

College Library

The Library provides circulation and reference services. The Library also has access to online e-journals through ICAR web portal. Photocopying and printing facility is also available in the Library. Details of library are as given below: Area of Library: 48.5 sq. m.

Table 20: Details of the College library

Sl. No.	Particulars	Details
1	Present staff	Library assistant – 01
2	Availability of Wi-Fi	Wi-fi facilities area available in the library with a band width speed of 50 MBps from BSNL network.
3	Books	For College of Food Technology: **1477 books**
4	Other reading materials	National and local newspaper such as The Sangai Express, The Telegraph, The Times of India, etc. Magazines like India Today, Down To Earth, PratiyogitaDarpan, Civil Services Chronicle, Kurukshetra, Yojana, Agriculture Today, etc.
5	Research journals	Students and faculty can access journals through online portal of ICAR
6	Internet with computers	Two
7	Sitting capacity	10
8	Stocking arrangement	The College library adopted Open Access System for accessing library collection and classified according to Dewey Decimal Classification (DDC) scheme (22 Ed.) and arranged in APUPA pattern, stacked in different parts like, Subject books Literature books, General books, Reference books, Competitive Exam books, Thesis, Back volumes, Seminar scripts, etc.
9	Operating hours	9:30 am to 4:30 pm
10	Books available in the library	Food Science, Food Engineering, Processing of Vegetables, Processing of Fruits, Processing of Dairy products, Microbiology, Biotechnology, Food Chemistry, Nutrition, Environmental Science and Disaster Management, Civil Engineering, Mechanical Engineering, Electrical Engineering, Biochemistry, Chemistry of Micronutrients, Food Process Engineering, Business Management, Entrepreneurship Development, Project Preparation, etc.

Fig 42: Library facilities at the college

Hostels:

The College has one separate hostel each for boys and girls in the campus. Each hostel has an area of 1400 sq. m. with student capacity of 28 students.

Fig. 43 Administrative Building

Fig 44: Girls' Hostel building of the college

Fig.45: Boys' Hostel building of the college

Sports and Recreation Facility:

The students are provided with different indoor and outdoor games for their physical activity and recreation to keep them physically fit and healthy. At present, a sports ground is under the process of construction at the earliest.

Fig.46: Students having recreation

Conference Hall:

The College has a conference hall with an area of 107.5 sq. m. and sitting capacity of 50 people. The hall is equipped with LCD projector and sound system for multiple uses in different events.

Fig. 49 College Seminar/Conference Hall

Table 21: Utilization of Conference Hall of the college

How frequently the conference hall is used and purpose for being use	Republic day (once a year) College foundation day (once a year) Independence Day (once a year) Inauguration programmes (numerous times a year) Workshops and trainings (numerous times a year) Teachers' Day (once a year) Students' fresher's day (once a year)

6.4.10. The information pertaining to 6.4.1 to 6.4.9 has been provided for UG programme *i.e.,* B. Tech. (Food Technology) of College of Food Technology, CAU, Imphal correctly.

6.4.11.Since the accreditation of Programmes is related to the All India Admission from ICAR and also having weightage for College accreditation, therefore the data presented in the section 6.4 is liable to the verification at any stage.

6.4.12. Certificate

I, the **Dean, College of Food Technology,CAU, Lamphelpat** hereby certify that the information contained in Sections 6.4.1 to 6.4.9 are furnished as per the record available in the college and degree awarding university.

28th May, 2021

(Dr. Ng. Joykumar Singh)
Dean (i/c),
College of Food Technology, CAU, Imphal

6.5. Self-Study Report for the Colleges

College of Horticulture, Thenzawl was established on 18th June 2016. Thenzawl is a growing town situated at the heart of Mizoram in Serchhip district. The road to Thenzawl has one of the most spectacular views with rolling green hills covered in clouds that float beneath the ridges like a misty sea with rich diversity of variant species of flora and fauna.

The site of the college is situated at Vengthar, Thenzawl, at an elevation of 8783 meters with a longitude and latitude of 92.7741ºE and 23.2808ºN. It comes under the sub-tropical hill zone having a maximum temperature of 33ºC and minimum of 8ºC. The rainy period of the year lasts for 9 months from February to November with a sliding 31 days rainfall of at least 0.5 inches. The most rain falls during the 31 days centered around July with an average total accumulation of 8.4 inches with an average rainfall of 1600 mm. It is congenial to grow many horticultural crops like Frenchbean, gardenpea, sweetpotato, solanaceous vegetables, bird eye chilli, mango, pineapple, orange, dragon fruit, marigold and bougainvillea.

Mandate:

(i) Development of appropriate human resource for carrying out various horticultural activities in the state of Mizoram.

(ii) Development of relevant technologies suitable for horticultural sector aiming to welfare of farming community of Mizoram.

(iii) Dissemination of horticultural technologies for the development of sustainable, scientific and profitable horticultural sector among the various stakeholders.

Objectives

The College has been established with following broad objectives

- To impart education in different branches of horticulture and allied sciences
- To further the advancement of learning by undertaking research in horticulture and allied sciences
- To undertake the programmes of extension education in the state of Mizoram and others in the jurisdiction of CAU, Imphal and
- To undertake such other activities as it may deem fit from time-to-time.

6.5.1. College Administration

The overall administration of the academic, research, extension and other activities of the college including infrastructure development is monitored by the Dean, College of Horticulture, Thenzawl. Currently, the college has been functioning at pre-fabricated building (Fig.1) and the permanent structure of Academic cum Administrative building of College of Horticulture, Thenzawl is near to its completion (Fig. 2). The Dean is assisted by various teaching, non-teaching and non-technical members of the institution.

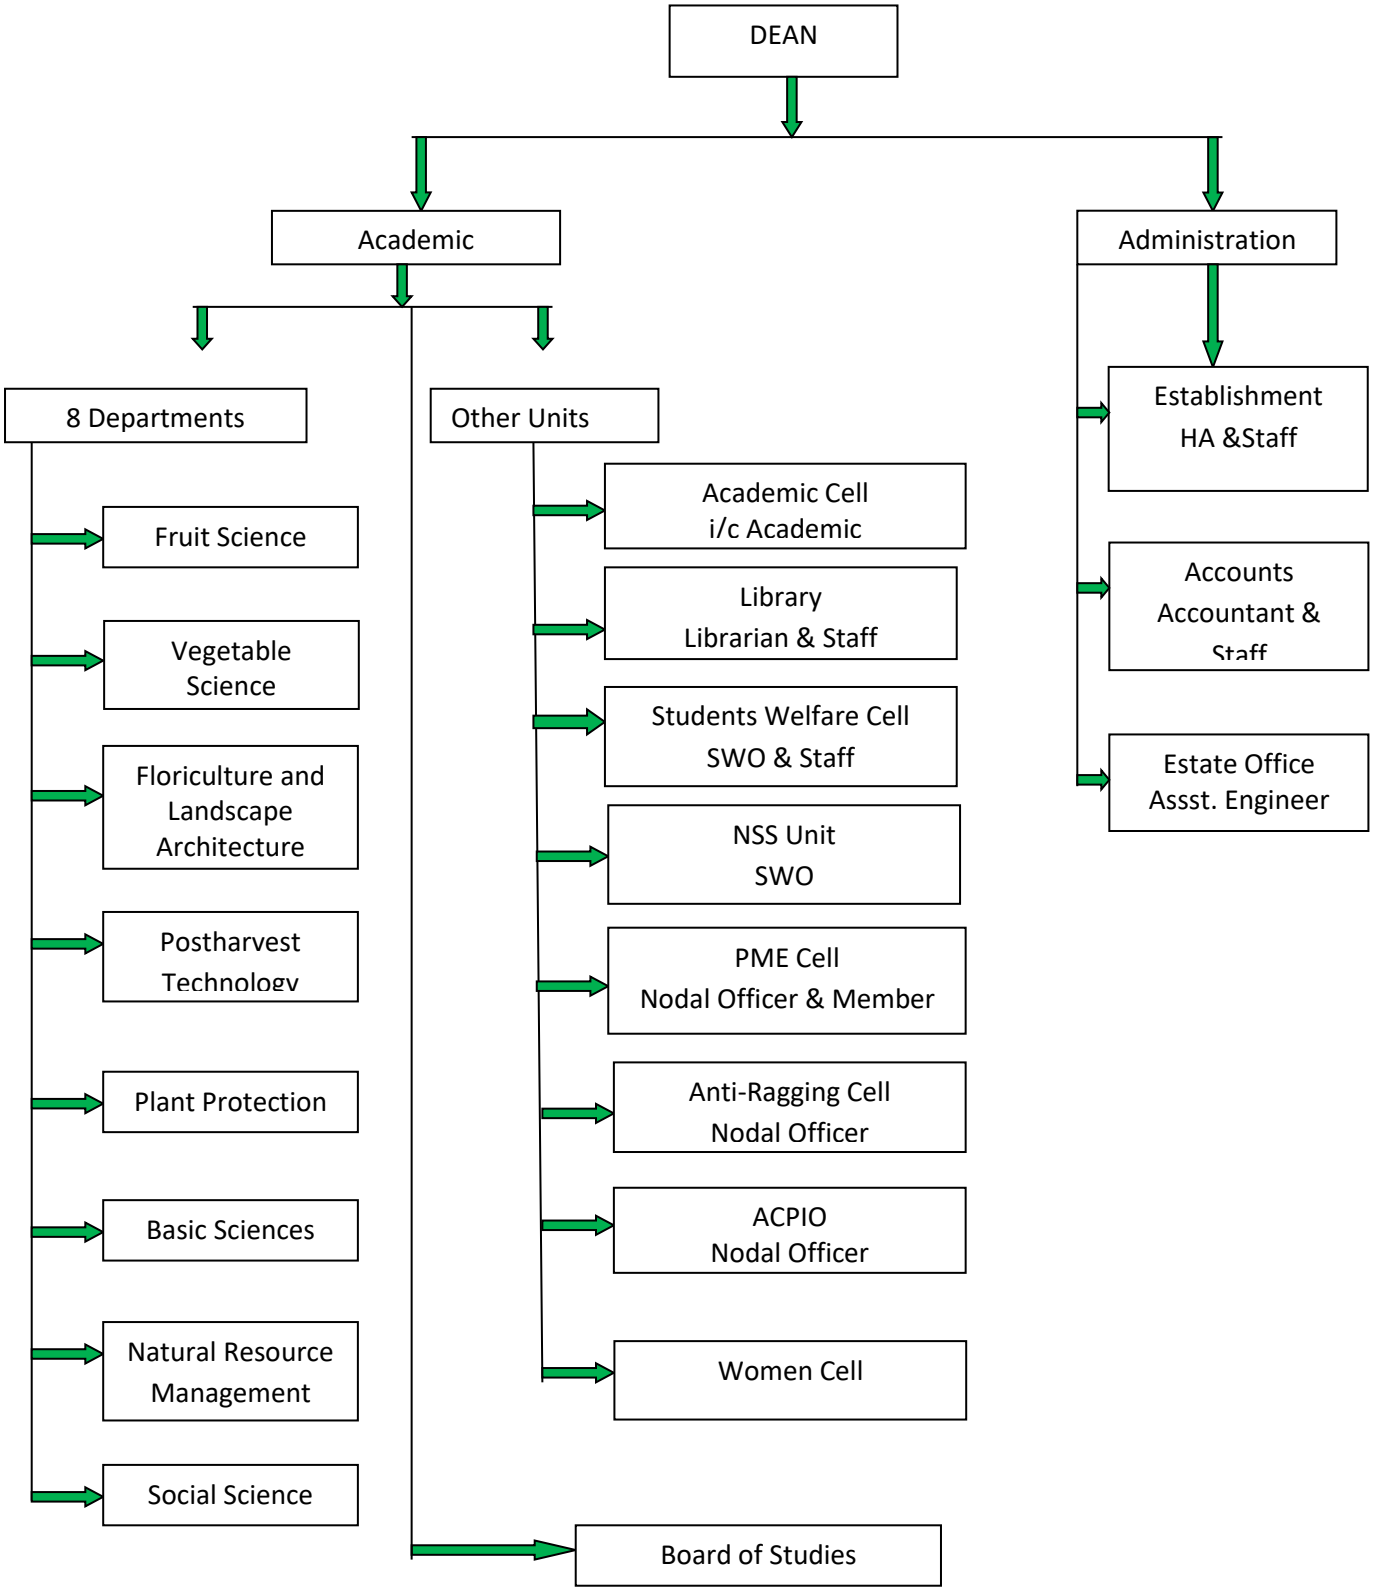
6.5.1.1. College Dean's Office Establishment

Sl. No.	Particulars	Response
1.	Whether Dean's post has been sanctioned by the appropriate authority as per ICAR Model Act/UGC guidelines	Yes
2.	Date of selection/joining of present Dean	No Regular Dean yet. The present Dean i/c has joined the post on 17.07.2020
3.	Mode of selection	Nominated
4.	Tenure	Till appointment of regular Dean
5.	Total number of staff in Dean's office	One Account Assistant and two contractual non-technical staffs for the official works.
6.	Infrastructure facilities (Details on infra and networking facilities available)	Computers with printers are available at the Dean's office with internet and UPS connectivity

Organizational Chart



6.5.1.2. Monitoring Mechanism for Quality Education(on-line):
Teaching

Academic Management System is being implemented at college level as part of Student Portal, an initiative of Agricultural Education Division of ICAR. The data generated by the system is used for generating reports of the university. The registration of the students for B.Sc (Hons.) Horticulture programme is done at the beginning of the year. Bringing quality education is one of the mandate of the College. In order to achieve this, efforts are continuously made to impart the latest, up-to-date scientific information/technology to the students as well as steps are taken up for enhancing scientific temperament of the faculty members of the college through refresher courses, training and encouraged for attending workshops and seminars. The institute has taken up the following as monitoring mechanism for bringing quality education of the undergoing **UG degree programme.**

- Syllabus is strictly based on the Vth Deans' Committee Report for UG programme.
- For the different offered courses concerned faculty members have prepared lesson plan.
- A committee comprising of HODs and Academic i/c screened the prepared lesson plan for approval.
- HODs monitored time to time the progress of the classes and how it is conducting.
- Considering the present Covid Pandemic, classes are taken through Google Meet/Zoom.
- Quiz/Mid-terms are taken internally. Assignment are also given as an alternative to quiz exam.
- Based on the performance of the Quiz /Mid Term exam, mid-term corrections are made through counselling and extra classes as and when needed.
- Dean made surprise visit of the departments and laboratories and discussed for improvement, if any.
- Practical manuals are also prepared and made available to the students before starting the practical classes.
- Exposure visits and study tours are also arranged for the students to aware of the recent advances.
- End term exam is conducted through external mode (question setting as well as evaluation).

- Mock tests are also arranged for the final year students for better success in ICAR JRF Examination.
- For experiential learning, different firms/NGOs are connected for better success.

Faculty Research

- The faculty are involved in research activities related to crop production, crop protection and plant improvement
- The PME cell appraises the research proposals at college levels
- The progress of the research is regularly monitored by the PME cell

Presently, the faculties of College of Horticulture are conducting research activities on

- Production of quality planting material of dragon fruit.
- Collection, evaluation and characterization of citrus.
- Exploration and documentation of underutilized and wild edible vegetables of Mizoram.
- Cultivation of mulberry for rearing of silk worm.
- Development of Integrated Farming System model.
- Studies on apiculture including meliponiculture .

Extension

- Regular monitoring to assess occurrence of insects and disease in the region
- Field visit by team of scientists on need to diagnose problems and provide solutions and recommendations
- Organize entrepreneurship development training programmes for farmers
- Awareness and training programmes are organized for farmers and unemployed youths
- Distribution of agricultural, horticultural accessories and planting materials to local farmers
- Adoption of village as model villages

The faculties of College of Horticulture, Thenzawl have organized the following programmes (Fig. 3, 4, 5, 6, 7&8):

- Organization of Training programme on Post Harvest Management of Horticultural

Crops on 5th – 8th Nov., 2018

- Organization of three days Training Programme on "Soil Fertility and Nutrient Management For Horticultural Crops" on 4, 5 & 6 February 2020 at College of Horticulture, Conference Hall, Thenzawl.
- Organization of Training Programme on "Horticultural Crops Suitable for Thenzawl Climatic Condition" on 11, 12 & 13 March 2020.
- Organization of one day workshop Programme on "Fuel Conservation on 11 March 2020.
- Organization of capacity building training programme on “Scientific Method of BeeKeeping” on 27-29 January, 2021
- Organization of capacity building training programme on “Scientific Cultivation and Management of Economically Potential Underutilized Horticultural Crops of Mizoram” on 15-17 February, 2021
- Organization of capacity building training programme on “Recent Trends on Integrated Pest Management of Major Fruits and Spice Crops with Emphasis on Biological Control” on 1-3 March, 2021
- Organization of capacity building training programme on “Integrated Pest Management” on 8-10 March, 2021
- Organization of capacity building training programme on “Important Pest and Nutrient Management of Summer Vegetable Crops” on 15-17 March, 2021
- Organization of capacity building training programme on “Biological Control of Major Pest of Solanaceous Vegetables” on 15-17 March, 2021
- Organization of capacity building training programme on “Biological Control of Major Pest of Cruciferous Vegetables” on 18-20 March, 2021

Fig. 8 Training programme on “Scientific Cultivation and Management of Economically Potential Underutilized Horticultural Crops of Mizoram”

Measures taken to improve the quality of education, research and extension

Education

- Industrial and institute related exposure visits related to the courses offered to the students
- Recognition and awards are given to best students at university level
- Educational talk are arrange inviting experts from different fields
- Assignments and exams are conducted on regular basis

Research

- Encouraging students to actively participate in workshops, webinars and conferences
- Experimental learning programme of six different module is conducted for six months

Extension

- Rural Horticultural Work Experience Programme (RHWEP) for students to understand the problems and prospects of the farming community
- Organizing group discussion programmes
- Conducting brain storming sessions for group approach

Impact of monitoring with reference to students' excelling in academics, research and extracurricular activities

Academics

- Higher academic performance of students with improved OGPA
- Improved enrolment of students each year
- Participation and selection for higher education in reputed National institutes

Research

- Publication of research results in peer reviewed journals by faculty members

Extracurricular

- Participation in NSS programmes.
- Participation in sports and cultural events.

Additional information on monitoring mechanism for quality education

- Monthly meetings: The Dean conducts monthly meetings with the faculties to evaluate the progress in the field of teaching, research and extension.
- Annual reports: Annual reports are prepared for the college based on teaching, research and extension education activities performed during the year in consideration. The reports are used for measuring the performances of the college during the particular year and serve as guidelines for future action plan.

- Student evaluation: Students advisory meeting is conducted every week by respective advisors and every month Students Advisory meeting is held along with the Dean of the college. He receives the feedback from the students and gives direction to the faculties. The students are providing the feedback of course teachers who handle the classes during a particular semester in a prescribed proforma. The feedback of the students is analysed and the inadequacies are properly addressed.

6.5.1.3. CC/Board of Studies:

The college has duly constituted Board of Studies. The Board of Studies has been functional since 2018-19. Composition of Board of Studies and major recommendation made by BOS for last three years are present below in detail:

Composition of Board of Studies

Year 2018

1. Dean, College of Horticulture & Forestry, Pasighat
2. Dean, College of Horticulture, Thenzawl
3. Dean, College of Horticulture, Bermiok
4. Director of Instruction, CAU, Imphal
5. Director of Research, CAU, Imphal
6. Director of Extension Education, CAU, Imphal
7. Dean, College of Post Graduate Studies, Barapani
8. Dr. A.N. Maurya, Ex. Director and Professor, Banaras Hindu University, Varanasi
9. Dr. K.K. Jindal, Ex- Director Research (CAU & UHF), Solan
10. All the head of the departments
11. Ms. Bidyarani Senjam, M.Sc 2nd Year, College of Horticulture & Forestry, Pasighat
12. Academic In-charges of College of Horticulture & Forestry, Pasighat, College of Horticulture, Thenzawl and College of Horticulture, Bermiok

Year 2019

1. Dean, College of Horticulture & Forestry, Pasighat
2. Dean, College of Horticulture, Thenzawl
3. Dean, College of Horticulture, Bermiok
4. Director of Instruction, CAU, Imphal
5. Director of Research, CAU, Imphal
6. Director of Extension Education, CAU, Imphal
7. Dean, College of Post Graduate Studies, Barapani
8. Dr. A.N. Maurya, Ex. Director and Professor, Banaras Hindu University, Varanasi
9. Dr. K.K. Jindal, Ex- Director Research (CAU & UHF), Solan
10. All the head of the departments

11. Ms. Sudeshna Kharga, Student, College of Horticulture & Forestry, Pasighat
12. Academic In-charges of College of Horticulture & Forestry, Pasighat, College of Horticulture, Thenzawl and College of Horticulture, Bermiok

Year 2020

1. Dean, College of Horticulture & Forestry, Pasighat
2. Dean, College of Horticulture, Thenzawl
3. Dean, College of Horticulture, Bermiok
4. Director of Instruction, CAU, Imphal
5. Director of Research, CAU, Imphal
6. Director of Extension Education, CAU, Imphal
7. Dean, College of Post Graduate Studies, Barapani
8. Dr. A.N. Maurya, Ex. Director and Professor, Banaras Hindu University, Varanasi
9. Dr. K.K. Jindal, Ex- Director Research (CAU & UHF), Solan
10. All the head of the departments
11. Mr. Kripa Shankar, 2nd Year M.Sc Student, College of Horticulture & Forestry, Pasighat
12. Academic In-charges of College of Horticulture & Forestry, Pasighat, College of Horticulture, Thenzawl and College of Horticulture, Bermiok

Sl.No	**Particulars of the Meetings**	
1.	Date of Board of Studies Meeting: 20th April, 2018	
	Agenda	**Resolution/ Recommendation**
	Confirmation of proceedings of 8th Board of Studies held on 4th December, 2017 at the College of Horticulture and Forestry, Pasighat.	The Hon'ble members of the Board confirmed the proceedings of 8th Board of Studies held on 4th December, 2017 at the College of Horticulture and Forestry, Pasighat.
	Review of the actions taken on the decision of the 8th Board of Studies held 4th December, 2017 at the College of Horticulture and Forestry, Pasighat	The action taken on various resolutions of the 8th Board of Studies held 4th December, 2017 at the College of Horticulture and Forestry, Pasighat was presented and Board of Studies took note of it.
	Appointment of teachers in the subjects of the forthcoming semesters.	The Hon'ble members of the Board suggested the Dean, CoH Mizoram to put up the matter to Registrar, CAU Imphal.
	Appointment of teachers in the subjects of 1st and 2ndyears B.Sc. Hort. (Hons.)	The Hon'ble members of the Board suggested the Dean, CoH Mizoram to put up the matter to Registrar, CAU Imphal.
2.	Date of Board of Studies Meeting: 15th May, 2019	
	Confirmation of proceedings of 9th Board of Studies held on 20th April 2018 at the College of Horticulture and Forestry, Pasighat	The Hon'ble members of the Board confirmed the proceedings of 9th Board of Studies held on 20th April 2018at the College of Horticulture and Forestry, Pasighat.
	Review of the actions taken on the	The action taken on various resolutions of

	decision of the 9th Board of Studies held 20th April 2018 at the College of Horticulture and Forestry, Pasighat	the 9th Board of Studies held 20th April 2018 at the College of Horticulture and Forestry, Pasighat was presented and Board of Studies took note of it.
	Detailed course content and syllabus approved by Academic Council of CAU.	The Chairperson of the Board of Studies for Horticulture shall prepare the detailed course content and syllabus and distribute accordingly
	The external question papers for the University for B.Sc.(Hons.)Horticulture to be set by some identified teachers of the University.	The Director of Instruction, CAU Imphal has informed the house that moderation of question paper shall start from the coming semester
	Lecture Schedule to be prepared based on the Credit Hours of the courses.	The Hon'ble members of the Board suggested for having a committee which can design lecture schedules for courses and recommends it to the Academic Council, CAU, Imphal for final approval
3.	Date of Board of Studies Meeting: 24th April, 2020	
	Confirmation of proceedings of 10th Board of Studies held on 15th May 2019 at the College of Horticulture and Forestry, Pasighat.	The Hon'ble members of the Board confirmed the proceedings of 10th Board of Studies held on 15th May 2019 at the College of Horticulture and Forestry, Pasighat.
	Review of the actions taken on the decision of the 10th Board of Studies held 15th May 2019 at the College of Horticulture and Forestry, Pasighat	The action taken on various resolutions of the 10th Board of Studies held 15th May 2019 at the College of Horticulture and Forestry, Pasighat was presented and Board of Studies took note of it.
	Appointment of teachers for the subjects: of Agricultural Statistics, Agricultural Engineering, Agricultural Biochemistry, Agricultural Extension Education, Plant Pathology, Crop Physiology and Floriculture	The Hon'ble members of the Board have suggested the Dean to contact the Registrar, CAU for engaging guest faculty or deputing teachers from other constituent colleges of CAU. Further they have recommended the proposal be proposed at Senior Officer meeting.
	The external question papers for the University for B.Sc Horti. (Hons.) to be set by some identified teachers of the University.	The Agenda was dropped
	Provision of separate fund for Student's READY Programme	The Hon'ble members of the Board have suggested the Dean to include the proposal in the college budget.
	Recruitment of non-teaching staff	The Hon'ble members of the Board have been informed that the recruitment process is underway. Therefore the agenda has been dropped

6.5.1.4. Anti-Ragging Cell:

The Vigilance Committee comprising of Dean, Warden's (Boy's Hostel & Girl's Hostel), Female Faculty members and Student Welfare Officer (SWO) is formed every year to inspect and to visit Hostels (both for Girl's & Boy's) at any time after the entry time. Each student is allotted withoneadvisertodiscusstheirproblemsandcounselingisbeingdoneonweeklybasisforallthe students by their respective advisers. Meetings & Group discussion is being conducted regarding related Anti Ragging topic on quarterly basis.

6.5.1.5. Biological waste disposal facility:

Collection, cleaning and burning of waste products. The college is committed to ecological sustainability and thrives to establish a clean and green campus. As mentioned earlier regular cleaning and planting of trees and other plants is done regularly. Such steps have also improved the floral biodiversity in the campus.

One composting unit is also established for decomposing the biological waste products in the campus.

6.5.1.6. Institutional Ethics Committee for Experiment on Animals:

The college is not undertaking experiments on Animals. However, if such experiments are undertaken in future, then the college will strictly adhere to CPCSEA guidelines and will constitute an Institutional Animal Ethics Committee (IAEC).

6.5.1.7. Committee for Prevention of Sexual Harassment of Women at Work Places:

The women cell for prevention of sexual harassment of women has been formed to address all grievances pertaining to sexual harassment of women (students, teaching and non-teaching staff and labours) at the college. Dr. Chingtham Chanbisana i/c Women Cell looks after the problems. There was no complaint on sexual harassment in the college during last five years. However, details on sexual harassment of women at work place Act, 2013 and a preamble of the Act and seeking remedy under this Act are clearly explained to the staff and farm workers.

6.5.2. Faculty

The College of Horticulture has 7 faculties (4 regular and 3 contractual) in various disciplines to undertake the education, research and extension activities. Besides, 5 attached Assistant Professors of Multi Technology Testing Centre and Vocational Training Centre (MTTC & VTC), 3 faculties from CVSc & AH, Selesih and 2 SMS of KVK, Selesih are also deputed to take the classes for College of Horticulture. All faculties have necessary qualifications and have enriched themselves over the years by undergoing training programmes in teaching, research and education, participation in conference and seminars and handling research projects. Various approaches are followed by the teachers so that students are able to learn and get hand on experience on various aspects of agriculture.

6.5.2.1. Faculty Strength:

Table: 1. Faculty Strength

2.	Security officer (Asstt. Prof.)		01
Total		**13**	**20**

* indicates permanent staff; others are contractual staff

6.5.3. Learning resources:

Learning resources like books, photos, life specimen and audio-visual aids like power-point presentation, videos are used to assist the students to meet the expectation for learning defined by ICAR recommended curriculum.

Faculties are provided with computers to access the online open coursework and online portal to use it for the curriculum delivery. Faculty members access various resources for use in teaching, research and extension activities. Students are also encouraged to access various software applications in agriculture.

6.5.3.1 College Library:

The College of Horticulture, Thenzawl has well equipped library with sufficient number of books, journals and periodicals.

Fig.9 College Library

Location of Library:

College of Horticulture, Thenzawl do not have a separate library building yet. However, the college library is located at Administrative cum Academic Block of the college. The college has well equipped library with sufficient number of books, journals and periodicals.

- **Present Staff Position (in place):**

S.No.	Staff	Number
1.	Present staff	• 1 Library Assistant • 2 Multi-tasking Staffs

- **Availability of Wi-Fi:**

Wi-fi facilities are available in the library with internet band width speed of 100Mbps from BSNL

- Books/ Reading material (in Number): 736 Books
- **Periodicals/Research Journals(in Number)** :
- **Internet facility** :Internet band width speed of 100Mbps from BSNL
- **No. of Computers** : 03 nos.
- **Seating Capacity** : 10 nos.
- **Latest Technology in the library**:

The library of the college is equipped with internet facilities through which the staff and students can access different kinds of reading materials.

- **Stocking arrangements**:

Book stocks arranged as per the subjects.

20 numbers of racks are available in the college library. There are 10 numbers of book cases, 5 numbers of double sided racks, 4 numbers of display racks and 1 number of periodical display racks.

- **Opening hours:** 10.00 AM to 5.00 PM
- **Subscription of journals of national & international repute national dailies/ magazines (provide list**):

Farm Facilities

- Availability of Farm equipment viz. grass cutter
- All the essential garden tools such as secateurs, digging trowel, hedge shear, Rose can, pruning and budding knife, garden rake, khurpi, measuring tape, sprayers and watering pump etc. are available for maintaining the farm.
- Low-cost polyhouse has been established in the farm for growing various seasonal and annual vegetables.
- Availability of water supply to the farm.
- Development of demonstration farm cum research block for vegetable, spice crops and medicinal plants.
- Development of Dragon fruit orchard for demonstration.
- Establishment of temperate, tropical and sub-tropical fruits has been done in the campus.
- Establishment of vermicomposting unit for training and demonstration for students and the farmers.
- Development of mulberry farm for rearing of silkworm.
- Integrated Farming System for demonstration purpose available in the campus.
- Breeding nursery of local vegetable germplasm also available in the campus.
- Establishment of apiculture including meliponiculture has been done.
- Mushroom house also constructed in the campus.

6.5.3.3. Student READY/ In-Plant Training/ Internship /Experiential Learning Programmes:

Student READY Experiential Learning (Professional Package) will be for the duration of 20 weeks and Student READY Programme will be taken up during semesters VII and VIII.

All the guidelines given by ICAR for Student READY Experiential Learning is strictly followed by the college (Fig. 19, 20, 21)

Student READY was first implemented in the year 2019-20 for the first batch of students (2016-17 Batch). The Rural Horticulture Work Experience Programme (RHWEP), Industrial Attachment (IA) and Experiential Learning Programme (ELP) are under the Students READY Programme for B.Sc. (Hons.) Horticulture. Through this programme, students are given hands on experience and practical training in horticulture and allied areas. The programme helps to develop confidence, skills and to acquire knowledge of horticultural systems.

RHWEP is organized for every year for the undergraduate students of College of Horticulture in the 4th Year, 1st semester of every academic session the with a credit load of

0+10. It provides opportunities to the students to study the rural agricultural system through direct farm experiences by personally visiting the farms and interacting with the farmers. The students also gain experience and knowledge about the extension activities carried out by the Govt. and private agencies and non-governmental organizations. The students undergoing the programme are expected to learn different components of agriculture and allied activities, conduct method demonstration and training, organize exhibition and prepare reports on their experiences gained. The students are expected to learn day to day farming activities of farmers and general village conditions during their stay at the villages.

Fig. 19 Students during Rural Horticulture Work Experience Programme

Fig. 20 Students during Industrial Attachment Programme

Fig. 21 Students during Experiential Learning Programme

The IA programme (credit load of 0+10) provides hands on training to students about the managerial and commercial aspects of Horticultural products. The students were placed in Thangjam Agro -Industries Pvt. Ltd., and Vedam Agro-Enterprises Pvt. Ltd. These help the students in gaining practical knowledge and experience first-hand in industry.

DETAIL WORK OUT PLAN FOR STUDENT READY

Semester-VII

S.N.	Course Title	Credit Hours
1	STUDENT READY- Placement in Industries	0+10
2	STUDENT READY- Rural Horticultural Work Experience	0+10
	Total	**20(0+20)**

S.N.	Student READY Programme Schedule	Duration
1.	Orientation programme	2 weeks

2.	Industrial placement	4 weeks
3.	Village stay-Horticultural work experience	12 weeks
4.	Report writing & Final Examination	3 weeks
5.	All India Study Tour	3 weeks
		24 weeks

- Study tour will be conducted during semester break

Semester-VIII

S.N.	Course Title	Credit Hours
1	Experimental Learning programme	**20(0+20)**

Experimental Learning programme: A student has to register 20 credits opting for two modules of (0+10) credits each (total 20 credits) from the package of modules in the VIII semester

Sl. No.	Title of the module	Credits
1.	Commercial horticulture	0+10
2.	Protected cultivation of high value Horticulture crops	0+10
3.	Processing of fruits and vegetables for value addition	0+10
4.	Floriculture and landscape architecture	0+10
5.	Bio-inputs: Bio-fertilizers and bio-pesticides	0+10
6.	Mass multiplication of plant and molecules through tissue culture	0+10
7.	Mushroom culture	0+10
8.	Bee keeping	0+10

Evaluation of Experiential Learning Programme

Sl. No.	Parameters	Maximum Marks
1.	Project Planning and Writing	10
2.	Presentation	10
3.	Regularity	10
4.	Monthly Assessment	10
5.	Output delivery	10
6.	Technical Skill Development	10
7.	Entrepreneurship Skills	10

8.	Business networking skills	10
9.	Report Writing Skills	10
10.	Final Presentation	10
	Total	**100**

Profit sharing mechanism (AMOUNT) for each ELP unit for last 5 year is given below:

Sl. No.	Department	Year	No. of students trained	Total income generated in rupees	Total profit earning	Profit shared per student	Major skills imparted	Additional info (if any)
B.Sc. (Hons.) Horticulture								
1.	Commercial Horticulture (Vth Dean)	2019-20	9	2140	-	-	Production skills, marketing skills and project formulation skills	
2.	Processing of fruits and vegetables for value addition	2019-20	8	400	-	-		
3.	Mushroom culture	2019-20	17	2170	-	-		

6.5.3.4 Curricula Delivery through IT (smart class rooms/interactive board etc.):

The classrooms are provided with LCD projectors for better delivery of lectures. A table, podium, whiteboards/screen, black boards with duster are available in each class room at the disposal of teachers. A common generator facility is available to power all the classrooms to avoid interruption of the class during instance of power failure.

6.5.4 Student Development:

6.5.4.1. Student Intake and Attrition:

The College presently offers only Under Graduate Programme in Horticulture *i.e.* B.Sc. (Hons.) Horticulture which is of 4 years duration. The annual intake of students to the college at UG level has increased since the inception of the university.

Name of the Degree Programme	**Actual student admitted in last four years Attrition**					**Attrition (%)**				
B.Sc. (Hons.) Horticulture	2016-17	2017-18	2018-19	2019-20	2020-21	2016-17	2017-18	2018-19	2019-20	2020-21
	20	17	20	19	24	15	0	30	31.58	12.50

Admission of the programme is open to the students of North Eastern states under its jurisdiction and ICAR nominees. Based on the population of each constituent state, intake quota is fixed for the undergraduate programmes (Fig. 21) and admission is given to the candidates sponsored by the respective states based on the common entrance test. The student belonging to states other than North East are also admitted to the college through the All India Entrance Exam conducted by ICAR with 14% of total seats reserved for such candidates.

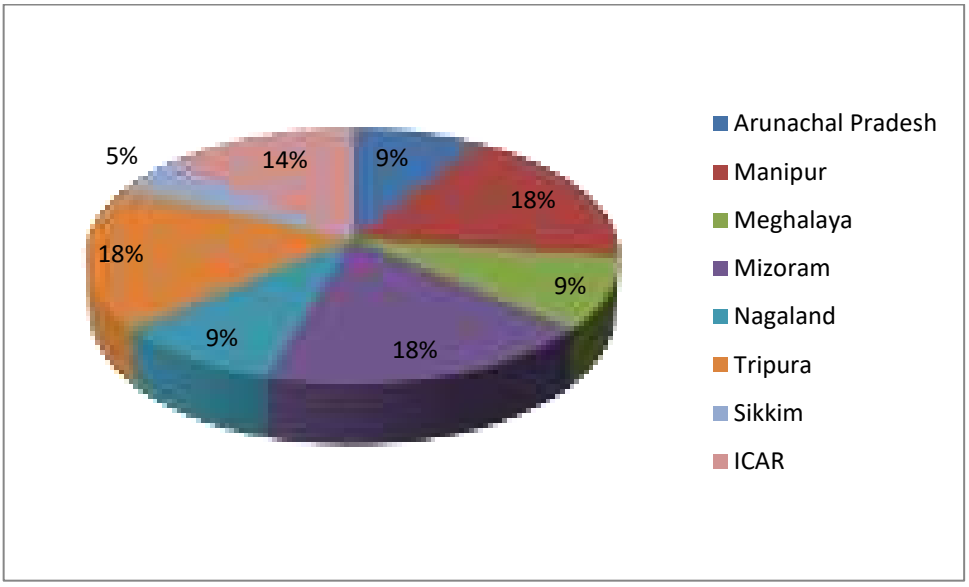

Fig.21 State Wise Seat Allotment of seat

6.5.4.2. Average Number of Students in Theory and Practical Classes

The batches of students are organised to ensure better delivery of information, encourage students' participation and active monitoring.

Year	B.Sc. (Hons) Horticulture	
	Batch of students in theory class	Batch of students in practical class
2016-17	17(1batch)	17(1batch)
2017-18	17(1batch)	17(1batch)
2018-19	14(1batch)	14(1batch)
2019-20	13(1batch)	13(1batch)
2020-21	21(1batch)	21(1batch)

6.5.4.3. Admission Process

Admission requirement

- The candidates should have passed 10+2 examination with English as one of the subjects of study. The candidates much have attained 17 years of age on 31st December in year of admission. The selection or nomination of candidates is done through National Eligibility cum Entrance Test (NEET) conducted by the National Testing Agency (NTA). Students seeking admission to the above degree programme shall be permanent resident or domicile of any one of the north eastern states of India *i.e.*, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and

Tripura. The number of students to be admitted for each of the north eastern states is notified by CAU from time to time.

- The candidates to be sponsored for admission shall be from the merit list based on the entrance test.
- 14% of the approved number of seats in the UG programme shall be filled by the candidates selected on the basis of All India Entrance Test conducted by ICAR or as amended from time to time by ICAR. The ICAR nominees shall be governed by the eligibility as prescribed by ICAR.

Date of admission

- The date of admission to a bachelor's degree programme shall be as per the announcement made in the prospectus or academic calendar or semester calendar which is duly notified by the Registrar, CAU

Registration process

- On admission, a student is provided four copies of registration cards having different colours; one for the student, one for the advisor, one for the Dean and one for the Registrar which is filled up and registered for the prescribed process for the first semester. The registration card shall be signed by the student, his advisor, Assistant Registrar (academic) and countersigned by the Dean of the college.
- On admission and registration, the students are provided with college identity cards with his/her photograph. The identity card is returned to the college by the students when the students leave the college after completion or discontinuation of the course.
- Newly admitted students are given an admission number by the Dean of the college. This admission number is valid till individual registration number is allotted by the Registrar, CAU to the students
- An orientation programme is organized by the Dean of the college for the benefit of the newly admitted students immediately at the beginning of the first semester.

6.5.4.4. Conduct of Practical and Hands on Training:

The practical classes are being conducted every day for minimum of two hours for each subject.

Field/ orchard visit for identification and practical of horticultural crops were done at the orchard, vegetable and floriculture block. As needed students are taken to nearby institutes like Centre of Excellence for fruits –Saichhoh, Zopar- Reiek, State Horticulture Farm, Chite,

Horticulture Centre Thiak, ICAR-Kolasib, Mizoram for acquiring the requisite practical knowledge.

6.5.4.5. Examination and Evaluation Process:

The college strictly adheres to the examination and evaluation system as recommended by the Vth Deans' Committee. As such, the college follows Uniform Grading system with uniform OGPA requirements for award of degrees at all levels. A uniform conversion formula is followed for declaration of Ist, IInd and IIIrd divisions, distinctions etc.

Examination

Semester system is being followed for UG programmes and evaluation is given weightage as 50% internal and 50% external.

Courses with Theory and Practical

Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)

Courses with only Theory

Mid-term Exam (40%) + Assignment (10%)

Courses with only Practical

100% Internal

Keeping this in view, the schedule and weightage to different examination are as follows:

Particulars	**Course credits**									
	2+1		**1+1/2+2**		**1+2**		**1+0/2+0**		**0+1/0+2**	
	T	**P**	**T**	**P**	**T**	**P**	**T**	**P**	**T**	**P**
Mid-term exam	30	-	30	-	30	-	30	-		
Quiz/Continuous evaluation	20	30	20	30	20	30	20	-	-	30
End-term exam	50	70	50	70	50	70	50	-	-	70
Maximum marks	100	100	100	100	100	100	100	100	-	100

* At least 4 number of quizzes are conducted for each course

Duration of exams

Mid-term theory exam	:	1½ hours
End-term theory exam	:	2½ hours
End-term practical exam	:	3 hours

Evaluation

- The evaluation of students' performance is achieved by conducting Quizzes of 20 marks

(Internal), Mid-Term Examination of 30marks (Internal) and End-Term Examination (External) of 50 marks. The practical examination consists of 100marks.

- The questions and answer scripts for quiz and Mid-term examinations are set and evaluated by concerned course teacher.
- The questions and answer scripts for End-term examinations are set and evaluated by external examiners selected duly from a list of panel members by the competent authority.

Degree	Percentage of Marks Obtained	Conversion into Points
B.Sc. (Hons.) Agriculture	100	10 Points
	90 to <100	9 to <10
	80 to <90	8 to <9
	70 to <80	7 to <8
	60 to <70	6 to <7
	50 to <60	5 to <6
	<50 (Fail)	<5
	Example 80.76	8.076
	43.60	4.360
	72.50 (but shortage in attendance)	Fail (1 point)

The following ranking pattern is adopted to award the degrees:

OGPA	Division
5.000-5.999	Pass
6.000-6.999	II division
7.000-7.999	I division
8.000 and above	I division with distinction

GPA, CGPA and OGPA are calculated as follows:

GPA	=	Total points scored / Total credits (for 1 semester)
CGPA	=	∑ Total points scored / Course credits
OGPA	=	∑ Total points scored (after excluding failure points)/ Course credits
Percentage of Marks	=	OGPA × 100/10

6.5.4.6. NCC/NSS/RVC Units:

NSS unit in the college is operational since 2016 under the guidance of Student Welfare officer. The unit is doing various activities like cleaning and sanitation of the college laboratories, campus and classroom from time to time. Planting of trees, hedges and other ornamental crops is also undertaken as part of the programme. Demonstration from the fire safety regulators and giving first aids in case of any calamities are being held for the students.

Fig.22 NSS activities of the college

6.5.4.7. Language Laboratory:

The language laboratory has started developing under IDP-NAHEP programme in order to impart good command of English and other major languages to the students for effective communication. The Laboratory has to set up with computer assisted language support system with multimedia high tech language. Full functioning of the language laboratory is yet to be awaited for another 2/3 months, so, the students are dependent of the College of Veterinary Sciences and Animal Husbandry, Selesih for the said programme.

6.5.4.8. Cultural Centre:

The college has a Student Activity Centre which is exclusively empowered to explore and equip the students for multi-varied cultural activities. The Cultural Committee is formed comprising of faculties, staff and students along with the Student Welfare Officer of the College. Different types of clubs' function under the Committee such as the Music, Theatre, Literary and Fine Arts.

Fig. 23 Students Performing painting competition in College

6.5.4.9. **Personality Development**:

The personality development programme of the students is taken care in the college. The language classes conducted by the language instructor cover the topics of English Grammar, Speaking skills, Phonetics and Writing skills. Besides the compulsory courses under the Dean's Committee syllabus which cater to the overall personality development of the students, the College of Horticulture invites renowned achievers from the different places to interact with students for motivational talk and experience sharing.

6.5.5 Physical facilities:

6.5.5.1. Hostels:

The College of Horticulture has four hostels, pre-fabricated and permanent hostels for boys and girls.

Particulars	Plinth Area (Sq. m)	Number of rooms
Permanent Boys Hostel	1500	32
Permanent Girls Hostel	1500	32
Pre-fabricated Boys Hostel	500	12
Pre-fabricated Girls Hostel	500	12

All hostels are having spacious kitchen, dining hall, reading room, common room etc. with all facilities like table tennis, carom, chess, TV etc. Each Hostel is having a mess run by the students under the supervision of respective Wardens. The College authority has provided sufficient menials to cook quality and hygienic food in the mess. Each and every Hostel has been provided with Water Filtration system and other kind of water filters for clean and safe drinking water. Facilities for indoor games are also available in the hostels e.g. carom, chess, T.T., dumbbell etc. Gym equipments

like treadmill and cycling and elliptical are also available in the hostels. All the hostel premises are regularly cleaned by engaged sweepers in the each Hostel. Transport facility is also extended as and when required for all the boarders residing in the Hostel. Medical doctor visits each hostel thrice in a week and each Hostel is provided with some general medicine in the hands of Sick monitors.

Fig. 25 Pre-fabricated Boys Hostel

Fig. 26 Pre-fabricated Girls Hostel

Fig. 27 Girls Hostel

Fig. 28 Boys Hostel

6.5.5.2 Examination hall:

As there are no separate examination hall in the College of Horticulture, normal classrooms are rearranged as exam halls during the time of exam, the details of which are:

No. of classrooms	:	4
Capacity	:	30-40
Facilities available	:	Chairs, writing desks, electrical fans and lights
Amenities	:	Washroom, wash basin and running water

6.5.5.3 Sports and Recreation Facilities:

The students are provided with all types of physical exercises during the classes and in physical experience class to keep them physically fit and healthy. In addition, the skill development in any one of the games such as badminton, volleyball, football, cricket, table tennis

and athletics is contemplated in the physical education programme. Maintenance and cleaning of the ground are regularly done for use by the students. Matches are conducted for the students during the annual sports day and intercollege meets or any other specific days such as the Foundation Day, Republic Day etc. to improve and maintain their skills using ground facilities. Indoor games such as carom, chess, badminton and table tennis are also available.

Fig. 30 Students participated in Youth Festival

6.5.6. Research Facilities

6.5.6.1. Postgraduate Laboratories and Equipment's:

Currently college is offering only Under Graduate Programme. The list of equipments available in the college is as follows

Sl. No.	NAME	QUANTITY
1.	Analytical weighing balance	01
2.	Weighing balance	02
3.	Electrical conductivity meter	01
4.	Ph Meter	02
5.	Laminar air flow	01

6.	Stereo binocular microscope	02
7.	Compound Microscope	05
8.	Autoclave	01
9.	Refractometer	02
10.	Digital Vernier caliper	01
11.	Vernier caliper hand held	01
12.	Thermometer	01
13.	Vacuum packing machine	01
14.	Ordinary sealing machine	01
15.	Hot air oven	01
16.	Microwave oven	01
17.	Incubator	01
18.	Distillation Unit	01
19.	Refrigerator	01
20.	Spectrophotometer	01
21.	Tray drier	01

6.5.6.2. Research Contingency:

As the College of Horticulture is presently offering only one under graduate programme in Horticulture, the funds received from CAU are used for conducting undergraduate educational activities, especially for practical classes, wherever applicable. Adequate funds are available for meeting the recurring expenses incurred during the education programme.

6.5.7. Outcome/Output

The College of Horticulture takes paramount interest in the performance of its students in the field of studies, sports, other extracurricular activities, employment and career growth. Alumni of the University are regularly consulted to get feedbacks on employment, performance in competitive exams, job selection process etc.

6.5.7.1. Student Performance in National Examinations:

List of ICAR – JRF (Rank Holders) 2020

Sl. No.	Name of the student	Rank	Discipline
1.	Ms.Haobam Alice Devi	1st UPS	Horticulture
2.	Ms.NgarikGamlin	7th ST	Horticulture

Result of JRF upto 1st Counseling

Sl. No.	Name of the student	Overall Rank	Discipline
1.	Ms.Haobam Alice Devi	207	Horticulture
2.	Mr.MalsawmtluangaHnialum	389	Entomology
3.	Mr.Pritam Das	1034	Horticulture
4R	Ms.NongmaithemAnjana Devi	1034	Plant Science

6.5.7.2. Students Placement Profile:

Most of the students graduating from College of Horticulture, Thenzawl are placed in academics/research institution for pursuing higher education in India.

6.5.7.3. Awards/Recognitions/Certificates:

A. Faculties Award

Year	Name of the faculty	Name of the Award/ Recognition	Awarding Organization (Place/country)
2016-17	Dr.Amarjeet Kumar	Young scientist Associate Award	Biological Research and Innovation Centre Pvt. Ltd. (BRICPL), INDIA atKathmandu(Nepal)
	Dr.Sawant Chandrakant Gyanoba	Awarded Certificate of Merit	Vasantrao Naik Marathwada Krishi Vidyapeeth, Parbhani (MS), India
		Awarded Late Gopal Kishan Kale Prize	
2017-18	Ms. Esther Lalruatsangi	University Gold Medal in Horticulture	College of Horticulture & Forestry, Pasighat
		National Fellowship for ST	National Fellowship for ST Ministry of Tribal Affairs
	Dr.Amarjeet Kumar	Outstanding M. Sc. Thesis Award	Society for Agriculture Innovation and Development (SAID), Ranchi, Jharkhand
	Mr. Rahul Sadhukhan	B.H.U Medal in 2017 for 1st position in M.Sc (Agronomy)	Banaras Hindu University, Varanasi, Uttar Pradesh-221005
		Dr.Mahatim Singh Gold	

		Medal in 2017 for 1st position in M.Sc (Agronomy)	
2018-19	Ms. B. Vanlalneihi	Young professional Award	Science and tech society for integrated rural improvement, Telangana, India
	Dr.Amarjeet Kumar	Excellence in Research Award	Society for Agriculture Innovation and Development (SAID), Ranchi, Jharkhand
	Dr.SawantChandrakantGyanoba	Awarded Best Doctoral Thesis	Society of Science and Technology for Integrated Rural Improvement, Thorrur, Warangal, (Telengana), India.
		Awarded Best Research Scholar	Agriculture Technology Development Society (ATDS), Ghaziabad, (UP), India.
	Mr. Rahul Sadhukhan	Award of INSPIRE Fellowship	Department of Science and Technology Technology Bhawan, New Mehrauli Road New Delhi-110016
2019-20	Dr. Lalrinsangpuii	Best Paper	Indian Society of Agricultural Economics
	Dr. Rojeet Thangjam	Best Oral Presentation	Directorate of Extension Education, CAU, Imphal
		Young Achiever Award 2020	Jointly Organized by the Agricultural & Environmental Technology Development Society (AETDS), U.S. Nagar, Uttarakhand, India; Bangladesh Agricultural Research Institute (BARI), Gazipur, Bangladesh; Shobhit Institute of Engineering & Technology (A NAAC Accredited, Deemed to be University), Meerut, India; Soils, Water and Environmental Res. Inst, (SWERI), Agriculture Research Center, (ARC) Giza, Egypt, Rajiv Gandhi Central University, Itanagar, and Corteva agri science
	B.Vanlalneihi	Young Women Scientist Award	Agricultural & Environmental Technology Development Society (AETDS), Uttarakhand, India
	Dr.ChingthamChanbisana	Best article Award with 3rd position, 2020	Agriculture Letters, Raichur, Karnataka
		Third position in Essay Competition	Agriculture Letters, Raichur, Karnataka
	R. Lalrinfeli	Best Master Thesis	Agricultural & Environmental Technology Development Society (AETDS) U.S. Nagar, Uttarakhand, India
		Best Entomologist Award 2020	Agricultural Technology Development Society (ATDS), Ghaziabad, UP, India

	Dr.Lalhmingsanga	Young Horticulturist Award-2020	Agricultural & Environmental Technology Development Society(AETDS), U.S. Nagar, Uttarakhand, India
		Best Horticulturist Award-2020	Agricultural Technology Development Society (ATDS), Ghaziabad, U.P, India
	Dr.Amarjeet Kumar	Best oral Presentation	DISHA-2019, BAU, Ranchi, Jharkhand
	Dr.SawantChandrakantGyanoba	Awarded Certificate Of Excellence	International Center for Culture and Education to educate, Inspire & Act against Climate Change.
		Certified As Member Of Green Army	Forest Department, Government of Maharashtra (INDIA).
2020-21	Dr.Lalrinsangpuii	Young Professional Award	Agriculture Letters, Raichur, Karnataka
	Dr.RojeetThangjam	Best Poster Presentation	Directorate of Extension Education, CAU (Imphal)
	Esther Lalruatsangi	Young Scientist Award-2020	Agricultural Technology Development Society (ATDS), Ghaziabad, Uttar Pradesh
		2nd Best Oral Presenter Award	Directorate of Research, CAU, Imphal
	Dr.Chingtham Chanbisana	Young Achiever Award-2021	Agriculture Letters, Raichur, Karnataka
		Young Women Scientist Award-2020	Agriculture Technology Development Society(ATDS) Ghaziabad, UP
	L. Devarishi Sharma	Best oral Presentation	Directorate of Research, CAU (Imphal), Manipur
	Dr.Sawant Chandrakant Gyanoba	Awarded Best Poster Presentation	Directorate of Extension Education, Central Agricultural University, Imphal, Manipur

6.5.7.4. Employability:

The students are acquainted with hands on practical for processing and value addition of horticultural crops. Interactive sessions with entrepreneurs of the region are being held time to time. This allows the students to start up an enterprise at their own level.

The students are also furnished with knowledge both in theory and practical in production technology and various practices of horticultural crops.

6.5.8. SSR of the College must have the SSR of all its Degree Programmes (following section 6.4), then the report of the Colleges shall be considered

6.5.9. Certificate (Applicable when SSR is submitted for Programmes & College).

I, the Dean…… hereby certify that the information contained in Sections 6.4 and Section 6.5.1 to 6.5.7.4 are furnished as per the records available in the college and degree awarding university.

Signature of the Dean of the college with Date & Seal

Annexure 6.5.2.3. Credentials of the faculty

INDIANCOUNCILOFAGRICULTURALRESEARCH

NEW DELHI-110011

6.4. Self-Study Report for the Degree Programme, College of Horticulture, Thenzawl

6.4.1. Brief History of the Degree Programme:

College of Horticulture (Thenzawl) is a Constituent College of Central Agricultural University, Imphal. The College was founded at College of Veterinary Sciences & Animal Husbandry Campus, Selesih on 18th June, 2016 by the then Hon'ble Union Agriculture & Farmers Welfare Minister Shri. Radha Mohan Singh. The College caters Undergraduate degree course in Horticulture. The college was housed in the KVK building (ATIC) of CVSc & AH Campus, Selesih for three years and it was shifted to its permanent campus at Thenzawl on 1st July, 2019. The total area of the campus is 120.08 ha. Thenzawl town is located in Serchhip district of Mizoram and is 90 km (56 miles) from Aizawl, the capital of the state. The various infrastructures available in the college are administrative cum academic block, hostel for girls and boys, type-II quarter and transit hostel.

The College of Horticulture, Thenzawl, impart education in different branches of Horticulture and its allied sciences. The College of Horticulture started its first flagship academic programme *i.e.*, 4 year B.Sc. (Hons.) Horticulture programme from academic session 2016-17 with intake capacity of 22 students. The course curriculum and syllabi are based on the model academic regulations and syllabi as proposed by the 5th Dean Committee of Indian Council of Agricultural Research (ICAR), New Delhi. While designing curriculum, outmost care has been taken to consider the global development in Science & Technology to equip graduates to meet new challenges thrown open as a result of economic globalization and climate changes and preparing farmers for emerging opportunities at national and international level.

The college offers only under graduate (UG) programme. The curricula of the said academic programme are those suggested by 5th Dean's Committee of ICAR.

Now a day's 10+2+4 pattern which comprises one Semester (7^{th}) of Placement in Industries and Placement in Villages and Experimental Learning Programme for 8^{th}semester from the academic year 2016-2017.

Mandate of the Institution

The College of Horticulture, Thenzawl has integrated programmes of teaching, research and extension education. The college has the mandate to develop, strengthen and promote the understanding, knowledge and skills to improve profitability and utilization in the field of horticulture, not only in Mizoram but also in the entire North-Eastern Region. The college shall also endeavour to establish linkages with other scientific institutions of ICAR, other zonal and national bodies in the field of its domain located in the region and outside the region. But, the major mandates of the college are:

i) Making provision for imparting education in Horticulture.

ii) Advancement of learning and conducting research particularly in Horticultural sciences / technologies especially for the rural people of the state in general.

iii) Undertaking activities pertaining to major mandates *via*, education, research and extension as directed by the University time to time.

Objectives

i) To undertake teaching for UG in Horticulture.

ii) To carryout research to generate technology and extension of technology to the farmers and professionals.

iii) To undertake the policy programme of state and central government related to horticultural education, research and extension.

iv) To undertake such other activities as it may deem fit from time to time.

Accomplishments

The first batch (2016-17) students have successfully completed their B.Sc. (Hons) Horticulture programme in the year 2019-2020 with approximately 90 per cent of students secure first class in their final examination.

List of Topper of B.Sc. Horticulture, Since Inception

Sl. No.	Name	Year of Passing
1.	Ms. Haobam Alice Devi	2020

List of ICAR – JRF (Rank Holders) 2020

6.	Assistant Professor, CVSc& AH, Selesih	-	02
Total			**10**

* indicates contractual faculty

As per faculty recommended by 5th Deans Committee, the faculty strength is not sufficient. However, the MTTC & VTC, CVSc & AH faculties are being assigned to complete the curriculum of the undergraduate degree programme. The teaching pedagogy include a judicious blend of different teachings modules, classroom-based teaching with an equal weightage on practical training and exposure to inculcate pragmatic skills and perk up student's confidence to meet requirement of various client organization as well as higher education in other national and international academic institutions. At present the College of Horticulture is also utilizing the existing facilities of College of Veterinary Sciences and Animal Husbandry, Selesih and SMS of KVK, Selesih. Special focus is paid for all round development of student to show their hidden talent in addition to their educational programme. The College organizes co-curricular and extra-curricular activities for overall development of student's personality and carrier. Annual College Week, Awareness Programs, NSS, Physical Education, Sports, Literary activities etc. are also organized to give the opportunity to the students.

Faculty Profile (Department wise)

The existing faculty strengths of College of Horticulture and MTTC & VTC are sufficient for academic requirement of the college.

Since the college is a newly established college, it has one permanent account assistant and some faculties have been assigned the responsibilities for the multiple activities and contractual staffs of the college are assisting them in the activities.

6.4.4 Classrooms and Laboratories:

Since the college is under construction, all the academic activities have been going on at the pre-fabricated building of the college. It has four well-equipped classrooms with LCD Projector in each for effective teaching. The college also has different laboratory equipments for conducting practical classes of the students. The instruments and equipments are also available for faculties for research purpose.

Farm Facilities

- Availability of Farm equipment viz. grass cutter
- All the essential garden tools such as secateurs, digging trowel, hedge shear, Rose can, pruning and budding knife, garden rake, khurpi, measuring tape, sprayers and watering pump etc. are available for maintaining the farm.
- Low-cost polyhouse has been established in the farm for growing various seasonal and annual vegetables.
- Availability of water supply to the farm.

- Development of demonstration farm cum research block for vegetable, spice crops and medicinal plants.
- Development of Dragon fruit orchard for demonstration.
- Establishment of temperate, tropical and sub-tropical fruits has been done in the campus.
- Establishment of vermicomposting unit for training and demonstration for students and the farmers.
- Development of mulberry farm for rearing of silkworm.

D.O. No. Edn.23(13)/2009-EQR
Dated the 21st July, 2015

Dear Dr. Singh,

Kindly refer to your Note No. PS/VC/CAU/173/2013 dated 8th April, 2013 regarding establishment of College of Horticulture under CAU, Imphal in the State of Mizoram. In this context, it is to inform that the Competent Authority has approved the site identified at Thenzawl for establishment of College of Horticulture. You are also requested to initiate necessary action to take over the proposed 120 ha of land from Mizoram Government to the CAU, Imphal under intimation to the undersigned at the earliest.

With regards.

Yours sincerely,

(S. Ayyappan)
