Whether it's a family member, a friend or your own personal fight, cancer has impacted us all in one way or another. While we're extremely proud of the over \$1,000,000 we've already donated to Breast Cancer Awareness over the years, Le-Vel has been inspired to take the fight to cancer year round!

TAC DFTs are a new and versatile addition to Le-Vel's WEARABLE NUTRITION. For every pack sold, LV will donate \$5 to an outstanding organization committed to fighting against a certain type of cancer we've designated for that particular month.

Maybe you just want a great looking DFT that covers all the bases. The **TAC DFT** may be the perfect "step 3" of your THRIVE Experience for: weight management, energy support, mood support, antioxidants, enhanced delivery technology, and nutritional support. TAC is the most powerful engineered DFT yet!

One of three different TAC color themes will be featured as you place orders throughout the year. Better yet, add **TAC DFT** to your autoship and the colors will change up for you automatically when each new theme is in production. Either way, \$5 will go toward the fight against cancer for each pack of TAC DFTs you purchase. **WE THRIVE WITH PURPOSE!**
