TECHNOLOGIES INTERNATIONAL

## Veteran Focused, Community Driven

Destiny Technologies International (DTI) is a veteran-owned and operated 501(c)(3) non-profit organization dedicated to empowering veterans, families, and youth through IT services and employment support. Founded by Kyle Paskewitz, DTI focuses on creating employment opportunities and delivering high-quality IT solutions.

### Core Competencies

#### IT Support Services

IT expertise and comprehensive technical support for businesses and individuals.

#### Web Design & Development

Professional, custom website design and development services to enhance online presence.

#### Career Transition & Employment Support

Programs and services designed to support transitioning veterans, military spouses & families, and young adults.

### Differentiators

#### Non-Profit Status

Our mission is to assist and empower veterans, family members and youth by finding meaningful and positive work opportunities.

#### Veteran-Owned

We are veteran-owned & operated, allowing us to better serve our clients through military precision and strong commitment to service.

#### Comprehensive IT Solutions

Our team of experts covers a wide variety of IT services, from basic IT support to website design and development.

#### Community Focused

We are dedicated to empowering veterans, military spouses, families, and youth and fostering community growth.
