Addus Technologies

Addus Technologies is a trusted technology solutions company, established in **2020**, specialising in Blockchain development and Bots. With a strong team of **40+** skilled professionals, we help startups, enterprises, and global businesses transform their ideas into secure, scalable, and high-performance products. We deliver end-to-end blockchain solutions, including cryptocurrency exchanges, DeFi platforms, smart contracts, NFT ecosystems, Web3 applications, and custom blockchain integrations. Our expertise ensures high security, transparency, and performance across all blockchain implementations.

In addition to blockchain, Addus Technologies excels in building robust solutions for industries such as fintech, healthcare, logistics, e-commerce, ride-hailing, food delivery, and service marketplaces. Our solutions are designed for scalability, real-time performance, and seamless user experience.

Addus Technologies – Building trusted digital solutions powered by Blockchain and Innovation.

CEO, FOUNDER & MANAGING PARTNER

Ms. Priya Balan is the CEO, Founder, and Managing Partner of Addus Technologies, a bold and innovative leader who has successfully built the organization into a trusted technology company across South India and global markets. As the Managing Partner of the partnership firm, she plays a pivotal role in driving strategic direction, business growth, and operational excellence.

With a clear vision for digital transformation, she founded Addus Technologies to deliver reliable, secure, and future-ready solutions in Blockchain development and Bots application services. Under her leadership, the company has grown to a strong team of **40+** skilled professionals, delivering high-impact solutions to startups, enterprises, and international clients.

Ms. Priya Balan is recognized for her strong decision-making abilities, innovation-driven mindset, and people-first leadership approach. She combines deep business insight with emerging technologies to create scalable and trustworthy digital solutions. Her commitment to quality, transparency, and long-term client relationships has positioned Addus Technologies as a respected and reliable technology partner.

As a visionary woman entrepreneur, she continues to inspire innovation, empower teams, and lead Addus Technologies toward sustainable growth, setting new benchmarks in the blockchain and digital solutions industry.

Experience the Convenience of On-Demand Products: Instant Access, Personalized Selection, and Seamless Delivery

Our TechStacks

Our tech stack is the foundation, steel framework, and architectural design that supports innovation and scalability.

Our Cloud System

HIRE DEVELOPERS WITH HIGH EXPERTISE

OUR RESOURCES

HIRE DEVELOPERS WITH HIGH EXPERTISE

Ignite Innovation with Our Talent

Our developers are ready to bring your ideas to life, turning them into real-world solutions with creativity, skill, and speed.

With 2 to 10+ years of hands-on experience, our team drives your project forward by combining technical know-how with innovative problem-solving.

We offer top-tier expertise across technologies like JavaScript, React.js, React Native, Flutter, Android, iOS, PHP [Laravel], MySQL, Oracle, Node.js, Angular, Next.js, Blockchain, Smart Contracts, MongoDB, Golang, Haskell, Nuxt, OCaml, and more.

Let our talent and precision power your projects—delivering results that make your vision a reality.

Why Choose Us?

At Addus Technologies, we are committed to delivering innovative, secure, and scalable digital solutions that help businesses grow with confidence. Our approach combines technical excellence, transparency, and long-term partnership.

* PROVEN EXPERTISE

We specialize in blockchain development and on-demand software solutions, backed by a skilled team with real-world project experience across multiple industries.

* TRUST & RELIABILITY

We believe trust is built through clear communication, ethical practices, and consistent delivery. Our clients rely on us for dependable solutions and ongoing support.

* CUSTOMIZED SOLUTIONS

Every business is unique. We design tailor-made solutions aligned with your goals, ensuring flexibility, performance, and future scalability.

* PROVEN SECURITY-FIRST APPROACH

From architecture to deployment, security is our top priority—especially in blockchain and fintech projects—ensuring data protection and compliance.

* INNOVATION-DRIVEN TEAM

Led by visionary leadership, our team continuously adopts emerging technologies to deliver future-ready products.

* END-TO-END SUPPORT

From idea validation to deployment and maintenance, we provide complete lifecycle support, making us a reliable long-term technology partner.
