

Dynamic Resurfacing Facial Pads

SMOOTHES, RESURFACES, EXFOLIATES

- Powered by ELEMIS patented Tri-Enzyme Technology, these dual-action Dynamic Resurfacing Facial Pads gently smooth & brighten the skin
- Measured amount of enzyme essence in every pad helps to resurface skin
- Woven side delivers physical exfoliation, whilst the enzymes provide a chemical exfoliation
- Targets look of pores, uneven skin tone, uneven texture
- Gentle enough to use twice daily
- Reveals a brighter, smoother, glass-like complexion

60pads £45.00/\$64.00

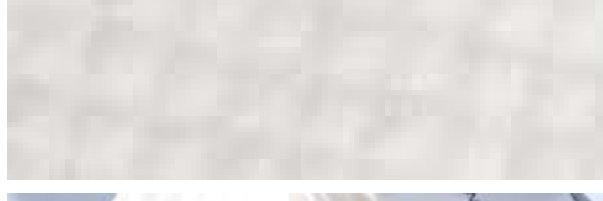

Dynamic Resurfacing Facial Pads

How to use

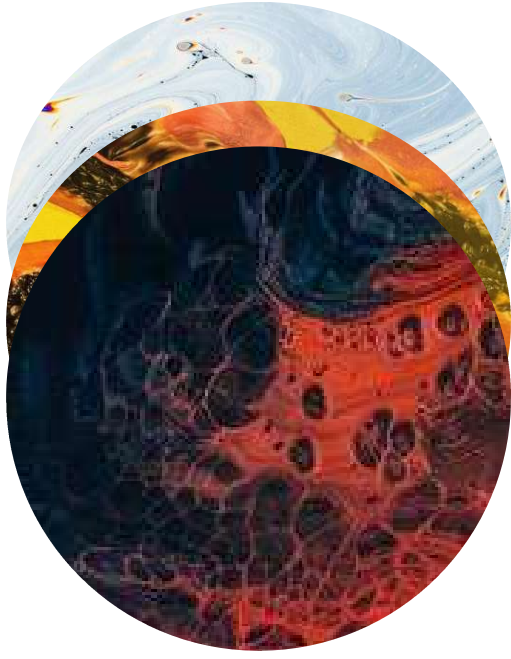

- Use twice per day, morning and evening, after cleansing
- Smooth pad, woven side down, over the face in a circular motion
- For maximum benefit, use after Dynamic Resurfacing Facial Wash, and follow with Dynamic Resurfacing Serum
- Always use an SPF during daylight hours and avoid UV exposure whilst using the Resurfacing program

Who will love this?

- Formulated for all skin types, good for sensitive, delicate skin
- Brightens dull, uneven skin
- Visibly improves look of pores

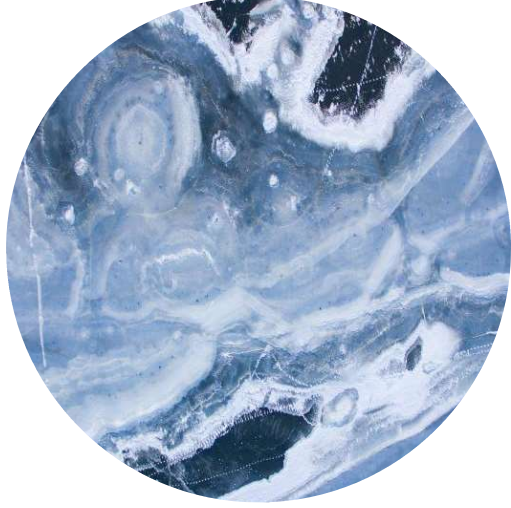

Dynamic Resurfacing Facial Pads Ingredients

Patented Tri-Enzyme Technology

RESURFACING

- A complex of three unique enzymes, Papain, Protease and Subtilisin, to encourage natural cell renewal
- Gently yet effectively resurfaces the skin

Lactic Acid

SMOOTHING

- A mild AHA, helps smooth the skin's surface whilst hydrating
- Hydrates by drawing in moisture from the environment as well as from deep within skin

Probiotic Ferment Complex

RADIANCE BOOSTING

- Encourages skin's natural renewal cycle
- Promotes the physical shedding of dead skin resulting in more radiant skin
- Shown to reduce trans-epidermal water loss & increase moisture barrier function
