# Company Overview

Founded in 2020, Husaina Metal began with a vision to redefine the metal wire manufacturing industry by delivering high-quality, reliable, and innovative products. Starting as a small venture, we have quickly grown to become one of the leading manufacturers in the industry, catering to a diverse clientele across various sectors such as construction, agriculture, laundry, packaging, and retail.

Our rapid growth is fueled by a commitment to excellence and customer-centric values. We prioritize building strong and lasting relationships with our clients, understanding their needs, and consistently exceeding their expectations. This dedication has earned us a reputation for reliability, quality, and trustworthiness. As we continue to expand our product range and capabilities, Husaina Metal remains focused on innovation, operational excellence, and delivering unmatched value to our customers. Our journey reflects our passion for growth and our unwavering dedication to being a trusted partner in success for businesses worldwide.

## OUR VISION

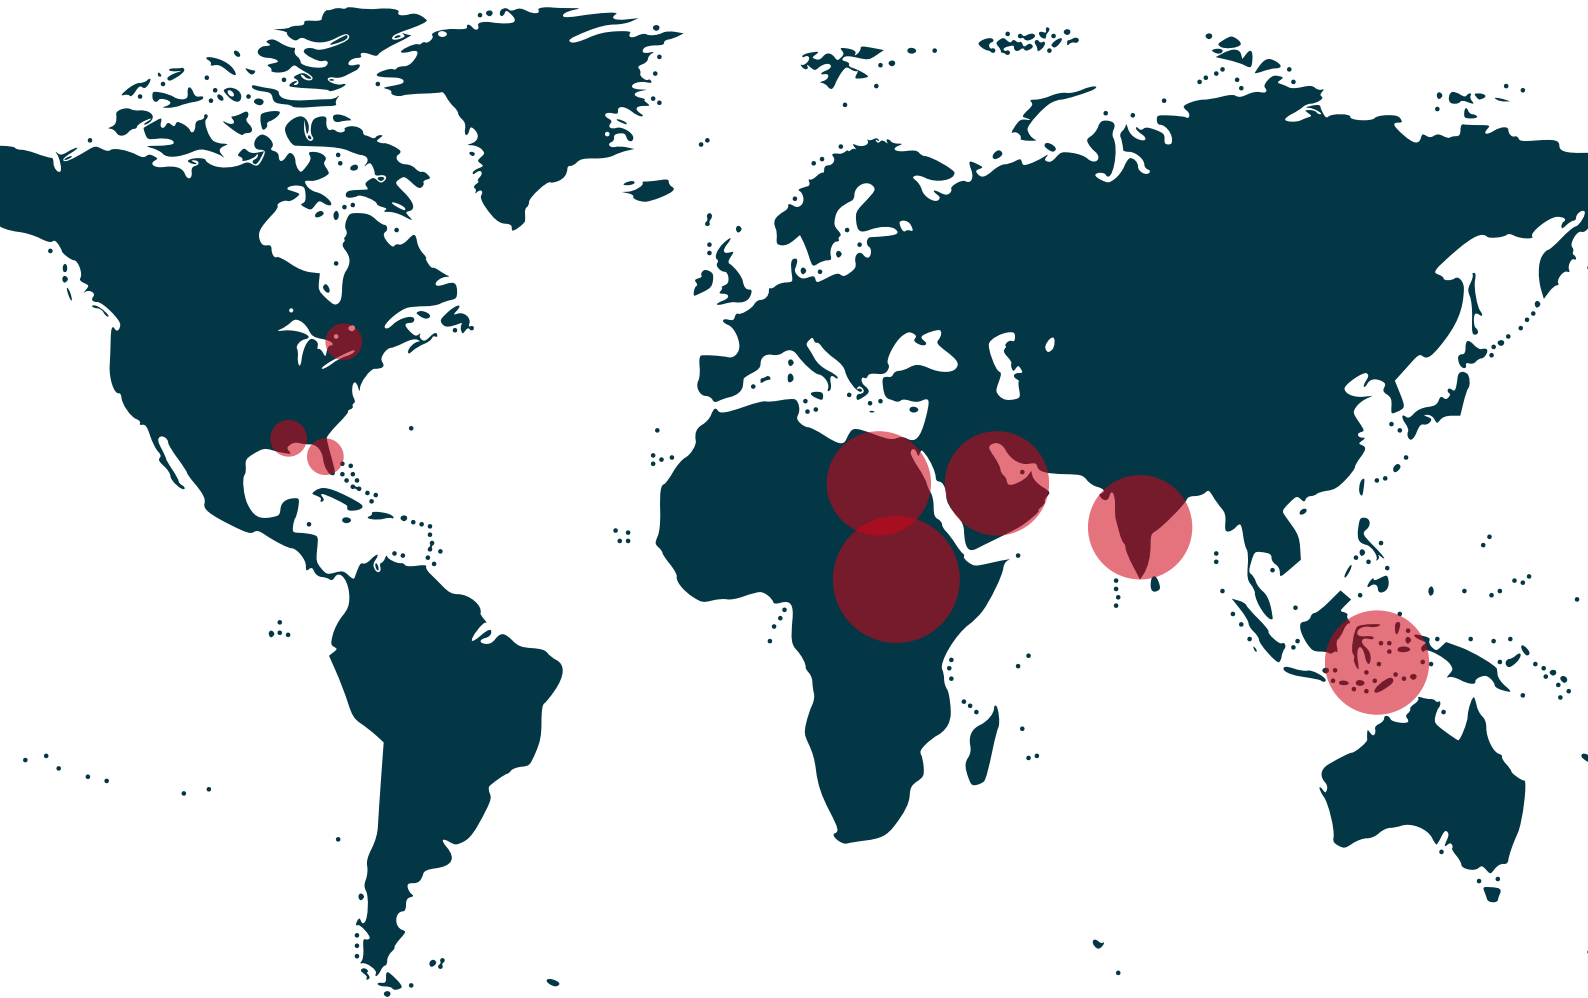

To become a global leader in the metal wire manufacturing industry, recognized for innovation, quality, and unwavering commitment to customer satisfaction. We aim to set the standard for excellence by delivering superior products that drive growth and success for our clients. Our vision is to foster sustainable growth, build long-term partnerships, and continually innovate to meet the evolving needs of the industries we serve. At Husaina Metal, we aspire to be synonymous with trust, reliability, and excellence worldwide.

# Our Presence

Husaina Metal Industries is a leading manufacturer of premium-quality hangers, baling wire, labana wire, and nails, with a solid presence across the USA, Europe, Africa, and the Middle East. Our products are crafted to meet the highest standards of strength, durability, and reliability – serving key industries including retail, agriculture, construction, and logistics. In the USA and Europe, we are known for delivering consistent quality and performance. Across Africa, we support fast-growing sectors with dependable wire and nail solutions, while in the Middle East, our region-specific expertise ensures products that withstand local demands. With a commitment to excellence and innovation, Husaina Metal Industries continues to deliver trusted metal solutions worldwide.

## ▶ Shirt Hanger

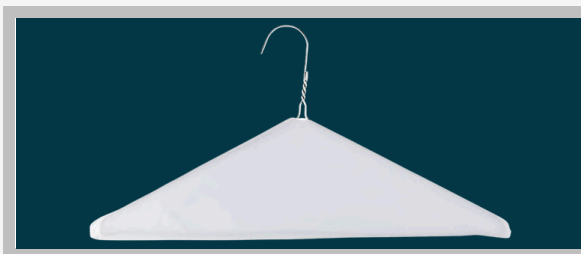

- » **Material:** Mild Steel (MS)
- » **Wire Thickness:** 1.8mm to 2.5mm
- » **Size:** 16 inch \ 18 inch

## ▶ Strut Hanger

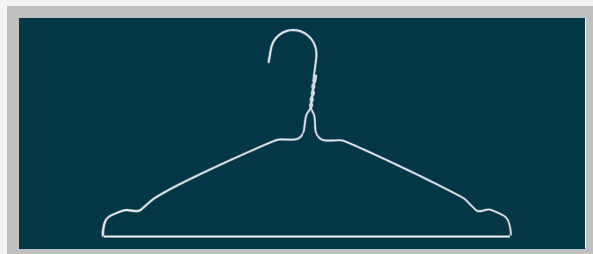

- » **Material:** Mild Steel (MS)
- » **Wire Thickness:** 1.8mm to 2.5mm
- » **Size:** 16 inch \ 18 inch

## ▶ Capped Hanger

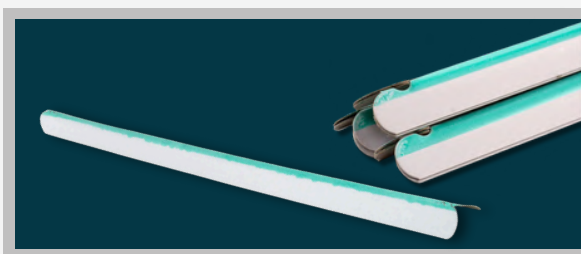

- » **Material:** Mild Steel (MS)
- » **Wire Thickness:** 1.8mm to 2.5mm
- » **Size:** 16 inch \ 18 inch

## ▶ Notched Hanger

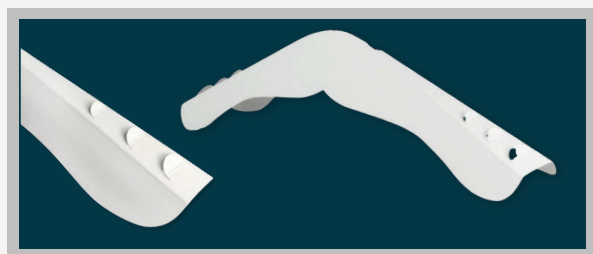

- » **Material:** Mild Steel (MS)
- » **Wire Thickness:** 1.8mm to 2.5mm
- » **Size:** 16 inch \ 18 inch

## ▶ Trouser Guard

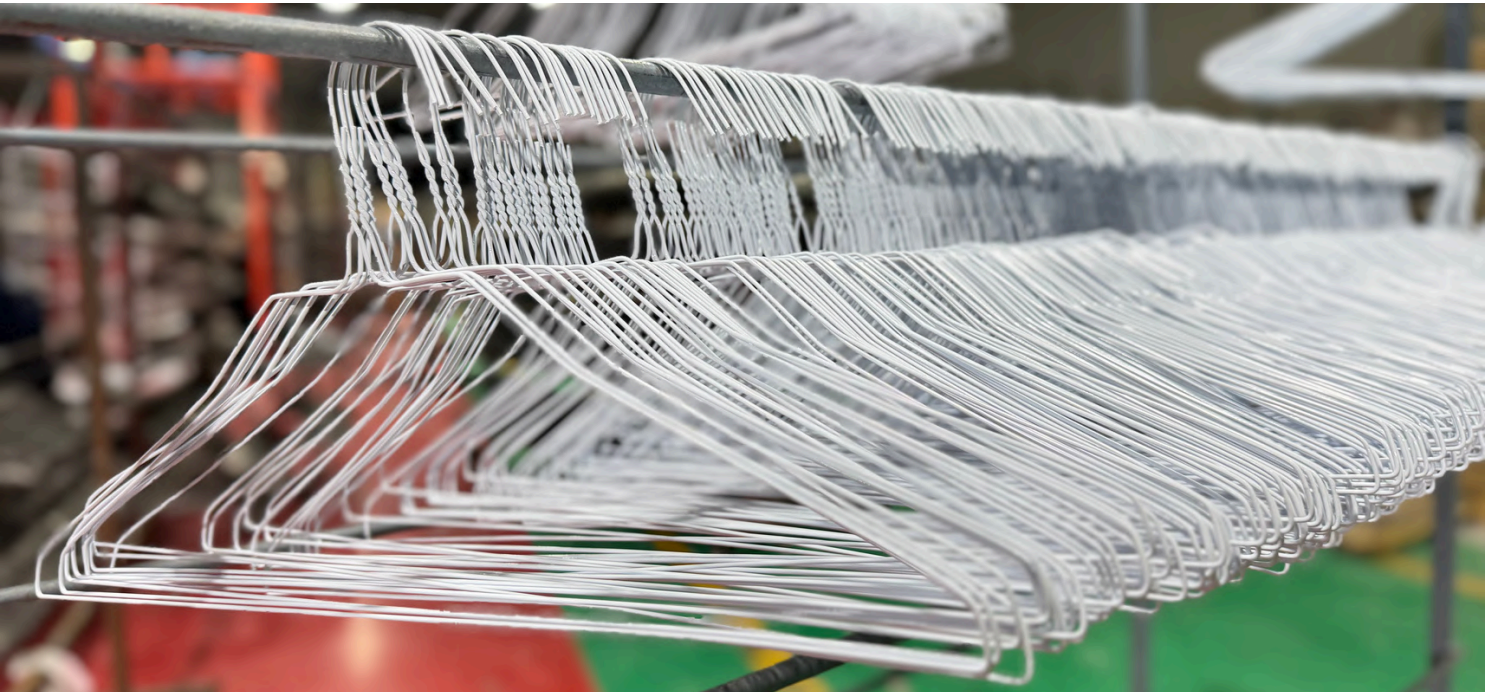

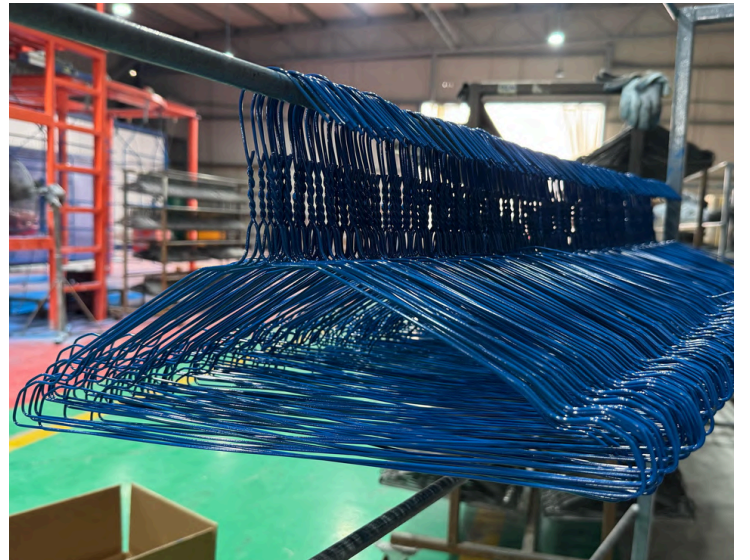

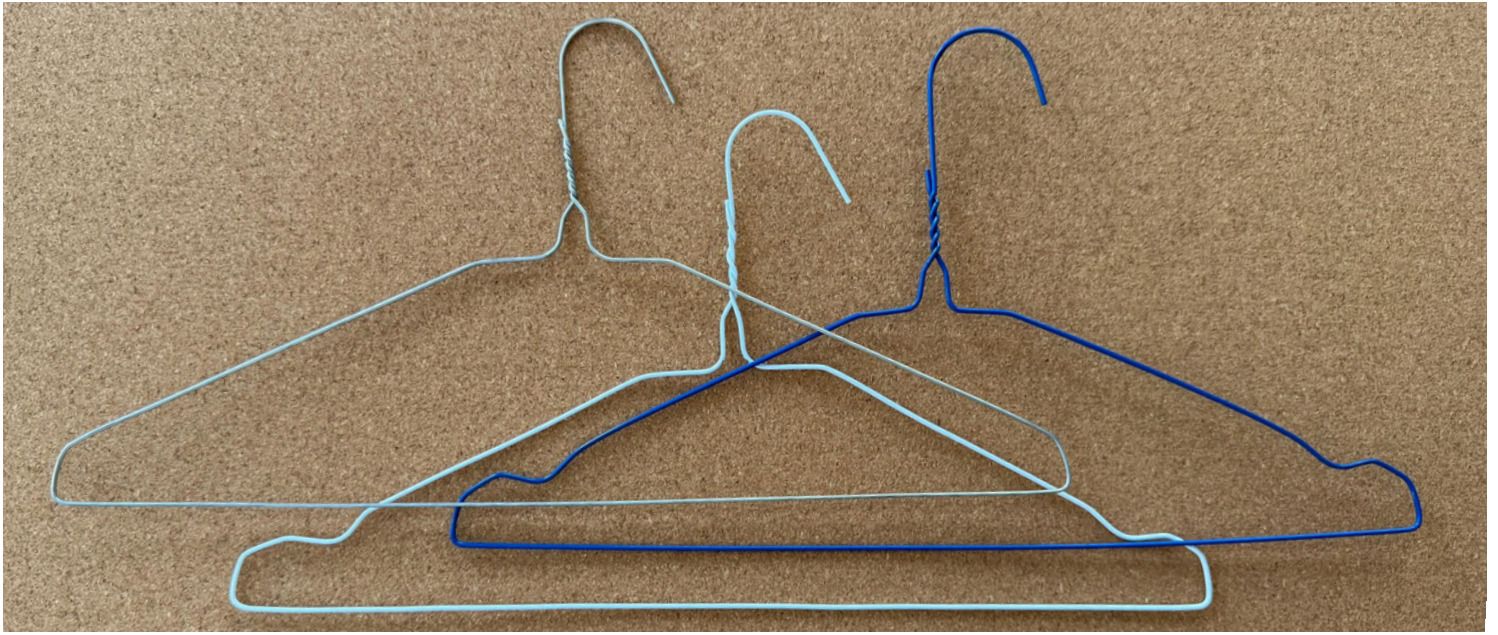

- » **Material:** Paper
- » **Size:** 16 inch \ 18 inch

## ▶ Shoulder Guard

- » **Material:** Paper
- » **Size:** 16 inch \ 18 inch

# Binding Wire

Binding wires are essential components in construction, packaging, and various industrial applications. Known for their flexibility, strength, and durability, these wires are designed to hold materials securely together, ensuring efficiency and reliability across different tasks. Below is a detailed overview of our binding wire products.

## ► Black Annealed Wire

**Description:** Black Annealed Binding Wire is a versatile and cost-effective product commonly used in construction for tying rebars, as well as in agriculture and general-purpose applications. It is made from mild steel and undergoes annealing to achieve enhanced flexibility and durability.

### Features:

- » Accurate strength for secure binding.
- » Smooth finish to avoid material damage.
- » Easy to bend and work with.

## ► PVC Binding Wire

**Description:** PVC Binding Wire is coated with a layer of PVC for added protection, durability, and flexibility. It is highly resistant to environmental factors, making it suitable for prolonged outdoor use.

### Features:

- » PVC coating for enhanced weather resistance.
- » Flexible and easy to handle.
- » Available in multiple colors for better organization and identification.

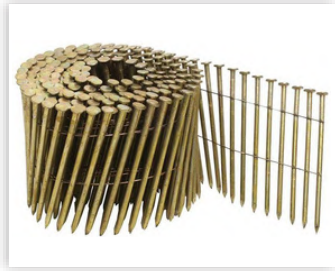

## ► GI (Galvanized Iron) Binding Wire

**Description:** Galvanized Iron Binding Wire is treated with a zinc coating to resist corrosion, making it ideal for outdoor and high-moisture environments. It provides excellent durability and long-lasting performance.

# Nails

Our high-quality nails are designed for strength and precision, ideal for construction and woodworking:

## Coil Nails

Suitable for automated nailing systems, ensuring consistent performance and efficiency.

## Thread Nails

Designed with threads for enhanced grip and holding power.

## Concrete Nails

Made from hardened steel, perfect for securing materials to concrete surfaces.

## Plastic Strips Nails

Compatible with plastic collated nailing systems for quick and reliable installation.

# Baling Wire

Perfect for bundling and securing materials, our baling wire products ensure maximum efficiency and reliability:

## Baling Wire (سلك لبانة) :

Strong and versatile, used for securing large bales in agriculture and recycling.

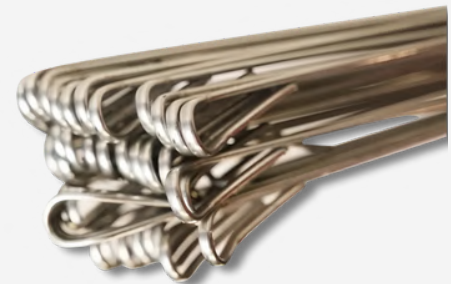

## Single Loop Baling Wire:

Easy to use, offering consistent performance for manual baling.

## Double Loop Baling Wire:

Provides extra strength and security for heavy-duty applications.

# Wire Rod

We provide top-grade wire rods, ensuring superior performance in various industrial applications:

## **SAE1006 Wire Rod:**

Low-carbon steel wire rod ideal for drawing and forming applications.

## **SAE1008 Wire Rod:**

Offers excellent ductility and strength, suitable for a variety of wire products.

## **SAE1010 Wire Rod:**

High-quality wire rod for precision manufacturing and industrial use.
