

A close-up, low-angle photograph of several layers of grooved panels. The panels are made of a light brown, fibrous material, likely cardboard or a similar composite. They are stacked and offset, creating a strong sense of depth and perspective. The lighting is dramatic, highlighting the ridges and grooves of the panels. The background is a dark, solid color, which makes the light-colored panels stand out.

A close-up photograph of several rows of v-grooved panels. The panels are light beige or tan in color and are arranged in a grid pattern. The lighting creates a strong sense of depth, with the raised ridges of the panels catching the light and the grooves between them being in shadow. The perspective is slightly angled, showing the three-dimensional nature of the grooves.
