

## V-SAFE Reports with Symptom Keyword = AUTOIMMUNE

compiled by Craig Paardekooper

V-Safe is the largest collection of vaccine testimonies on the planet.

One of the reasons why the CDC was so reluctant to release the free-text entries of the V-Safe reports is because these entries are the personal testimonies of vaccine effects – numbering 390,000 per release, and numbering millions in total.

Having censored and erased hundreds of thousands of testimonies of vaccine injury from Facebook, the government was equally reluctant to be the provider of what is the largest collection of vaccine testimonies on the planet – collected by the CDC themselves !

Perhaps this is <<the longest story ever told>>, the testimony of 1 million people.

Many thanks to ICAN ( <https://icandecide.org/v-safe-data/> ) who pursued the CDC through the courts until they finally conceded and began to release this data on January 15th 2024.

Data is from all 4 releases, up until June 15th 2024, reported by 1,092,715 Covid <<vaccine>> recipients. The next release is on July 15th, 2024.

### Data

Data Source : V-SAFE (CDC) : download (June 2024) @ <https://icandecide.org/v-safe-data/>

Total number of V-Safe reports with symptom keyword AUTOIMMUNE = 666

Percentage of V-Safe reports with symptom keyword AUTOIMMUNE = 0.03659 %

(V-Safe) Total number of Covid <<vaccine>> recipients with this symptom = 492

(V-Safe) Percentage of Covid <<vaccine>> recipients with this symptom = 0.04503 %

### Limitations

This report shows the incidence of a symptom amongst a <<vaccinated>> population of 1092715 in the V-SAFE database. The onset of a high incidence after <<vaccination>> suggests possible cause - requiring further investigation of - 1) Other databases, such as VAERS and EUDRA, 2) Clinical literature and scientific papers.

## Sample of 666 Reports with Symptom Keyword = AUTOIMMUNE

autoimmune : Case 1: ID R5D-22507-27967

Autoimmune

autoimmune : Case 2: ID 434-26936-46790

I have an autoimmune disease that i take immunosuppressants for. The fatigue is more than likely my disease. I do not typically get headaches.

autoimmune : Case 3: ID Q22-49255-45347

Light itching around joints...common with my autoimmune disease.

autoimmune : Case 4: ID WZY-15271-07381

I have an "unspecified inflammatory autoimmune disorder" but have had no issues at all. Only the expected mild pain and swelling at injection site.

autoimmune : Case 5: ID SMA-24062-56857

Chest tightness. I have autoimmune vasculitis with coronary vasospasm and it is that feeling, not shortness of breath

autoimmune : Case 6: ID SYP-11354-31193

I have autoimmune RA so joints always sore

autoimmune : Case 7: ID VB6-35645-15529

I have an autoimmune disorder so it's hard to differentiate

autoimmune : Case 8: ID 9UB-28292-66549

Joint pain could be from my autoimmune disease not from vaccine

autoimmune : Case 9: ID ZSN-14176-59222

Actually a severe autoimmune rash that I had before and sacralilitis Started clearing up same day as injection. I had negative antibodies test 2 days before and last nasal swab was 11/20/2020.

autoimmune : Case 10: ID ZE3-17855-34188

I'm an RN at a cardiovascular clinic so had my two directors, manager and a cardiologist all help me on-site

Lightheadedness and hypotension but may be from an autoimmune flare up I sometimes have. BP 64/42 at lowest. Almost passed out. They sent me home after I stabilized and canceled our patients.

autoimmune : Case 11: ID 9BT-87616-73041

I have an autoimmune disorder and take medication to suppress my immune system. The last time I took the medication was 11 days before the vaccine. My doctor cleared me for the vaccine.

autoimmune : Case 12: ID 8ZT-26689-65297

I have an autoimmune disorder. Feels like a flare!

autoimmune : Case 13: ID 99B-23217-99667

Not really a rash, more of livedo reticularis, and likely not due to the vaccine at all but an underlying autoimmune disorder

autoimmune : Case 14: ID RS4-29816-48281

I have autoimmune disease & the symptoms I've been reporting due to vaccine are mild & common for my condition.

autoimmune : Case 15: ID 8XV-10945-37626

No symptoms outside of what my normal autoimmune disorder causes

autoimmune : Case 16: ID 6F3-32561-58146

I have autoimmune disease, scleroderma

autoimmune : Case 17: ID 7P6-65226-37690

I should have reported initially that I have autoimmune hepatitis, and shortens syndrome.  
No issues whatsoever with this first dose!

autoimmune : Case 18: ID 5ZN-98567-34003

I have an autoimmune disease (ANCA vasculitis) and am on rituxan every 6 months, last dose was end of July. Wondering if I should be in on any surveillance for data collection on autoimmune disease and covid vaccine

autoimmune : Case 19: ID DJ5-24150-34166

I have Hashimoto's thyroiditis and it gave me an autoimmune response. I felt hot and cold and the same time. (I get milder versions a lot and we call them hotflashes). I had diarrhea. Night sweats (no fever). And a slightly lower blood sugar in the morning. (77. Im usually 90 but feel low when in the 70s). By the afternoon, I started feeling better. Not 100%, but maybe 90%. Not a lot of energy. A bit of brain fog.

Symptoms discussed via patient portal message center. I tried to find an ophthalmologist today but with it being a Friday and last minute I didn't have any success.

I have Grave's disease. Total thyroidectomy in 2002 and have not had an issue with my Graves disease eye symptoms since 2002. I receive my vaccine at 1040 and at 2100 I started have bilateral eye pressure, moderate amount of pain and photosensitivity. I have not had a single issue with my eyes in nearly 19 years. I did mention this with my endocrinologist today via email. He said that it would not surprise him if an occasional patient had issues regarding autoimmune disorders and the vaccine. I am not upset, as I am sure it will all be ok in a few days but I just want to make you guys aware of the situation. I am currently working as nurse in a level 1 trauma center emergency department, so my benefits of the vaccine definitely outweigh my risks. Please feel free to call me to discuss. I am trying to find an ophthalmologist to follow up with just in case the symptoms do not resolve on their own. I am thankful for the the vaccine.

autoimmune : Case 327: ID C4F-90560-43526

Telehealth with PCP

Flare up of autoimmune condition. Inflammation/pain in several areas of body

autoimmune : Case 328: ID VD8-29878-60093

I have significant autoimmune problems and did not see any worsening of these

autoimmune : Case 329: ID J58-20932-45891

Have autoimmune neuropathy and arthritis

autoimmune : Case 330: ID ET3-56886-60990

These are symptoms I had from my autoimmune response to the first vaccine that have not yet cleared prior to vaccine 2 today.

autoimmune : Case 331: ID UCX-25630-48235

No symptoms today. But on Sunday day after I received Modern Vaccine, I did feel suddenly nauseous, mid afternoon, diarrhea, stomach cramping and sudden fatigue. I laid down for a couple hours and symptoms passed. I was making late lunch when I suddenly felt ill and I was unable to eat. I was fine and ate after I got up from lying down for a couple hours. I do also have multiple autoimmune diseases, MCAS, inoperable (b)(6) Tumor (b)(6). I mentioned before I have Hypogammaglobulinemia & Polysaccharide Immune deficiency and receive Cuvitru IGG SCIG infusions weekly.

autoimmune : Case 332: ID PJW-10146-64606

Leaving site after 30 min wait I was really orthostatic (unsteady of feet, lightheaded). I have autoimmune dysautonomia so this happens at times but never this bad without a clear trigger like exercise or heat. Resolved quickly but remained very tired.

autoimmune : Case 333: ID LR6-24326-54983

Autoimmune

autoimmune : Case 334: ID UG9-17025-76706

I have an autoimmune condition that causes me to experience fatigue, nausea, joint pain, headache, etc. However, none of these have been worse than normal. Since these are my normal symptoms, I do not want to check them as being caused by the vaccine.

autoimmune : Case 335: ID FA2-21466-58528

I have autoimmune issues, of which fatigue is a major component.

autoimmune : Case 336: ID A46-26195-41128

Flare-up of an inflammatory dry eye condition, autoimmune in nature. Could be completely unrelated to vaccine.

autoimmune : Case 337: ID DKN-12031-02594

autoimmune

autoimmune : Case 338: ID 2FY-23198-26385

I have multiple autoimmune diseases. Im not surprised by these reactions

autoimmune : Case 339: ID 7L4-32705-07552

I have active ankylosing spondylitis, so have chronic pain and other autoimmune symptoms on the regular

autoimmune : Case 340: ID UCY-83741-28305

Flare up of autoimmune skin condition

autoimmune : Case 341: ID Q79-11861-99405

I have an autoimmune condition that feels like it is minorly flaring...joint pain, headache, mild malar rash

autoimmune : Case 342: ID QY2-20799-08590

I have a rare autoimmune disease RSDS/CRPS

autoimmune : Case 343: ID DKN-12031-02594

Autoimmune

autoimmune : Case 344: ID 4BQ-27500-49561

My tiredness and droopiness are probably due to my autoimmune issues.

autoimmune : Case 345: ID 94Z-29593-30072

These symptoms are my normal baseline prior to the vaccine due to autoimmune condition

autoimmune : Case 346: ID FKH-16430-36108

Still feela like an autoimmune flare, albeit dairly mild today

autoimmune : Case 347: ID HSC-10865-73636

Yesterday (one day after 2nd shot) was rough. I have autoimmune markers, but am generally asymptomatic. I wonder if that's why I had so much joint and muscle pain?

autoimmune : Case 348: ID 7Q4-19466-90397

Light tryptophobia usually associated with my thyroid if off balance. 2 years since last occurrence. It's possibly an autoimmune response.

autoimmune : Case 349: ID K2L-17539-81185

I have these type of rashes prior to getting vaccines, maybe a autoimmune issue. Also my elbow and ankles retained fluid last night. But lymphnodes seemed inflamed under the armpit where I had the vaccine

autoimmune : Case 350: ID Z4Z-38907-16151

Flare up of all autoimmune issues!

autoimmune : Case 351: ID AAN-21770-09031

I have an autoimmune disease, being treated with rituximab.. on 2mg daily prednisone. I am getting prednisone energy rushes daily since injection.

autoimmune : Case 352: ID NS6-32269-21209

Autoimmune/CVID

autoimmune : Case 353: ID A7D-21650-20096

I have an autoimmune so I am trying to report only unusual fatigue or aches

autoimmune : Case 354: ID XFH-87345-53291

Possible autoimmune disease(RA) so joint pains might be from that

autoimmune : Case 355: ID QNR-16845-74344

Mild tightness in my breathing. Autoimmune dx

autoimmune : Case 356: ID UG9-17025-76706

Have an autoimmune disease, associated with joint pain, nausea, and fatigue- these symptoms are not worse than normal (so likely not due to vaccine)

autoimmune : Case 357: ID T9L-58486-19060

I have UC and autoimmune Pancreatitis but am not currently in a flare was in a flare 4 weeks ago

autoimmune : Case 358: ID RA8-28395-80175

I am having an ankylosing spondylitis flare, with tendinitis. Not saying it's from the vaccine, but it would be kind of interesting to know how or if it impacts autoimmune disorders.

autoimmune : Case 359: ID W8C-64091-41554

First dose of vaccine coincided with an activation of my autoimmune-related joint pain symptoms. Within 24 hours of the second dose I had significant joint swelling.

autoimmune : Case 360: ID QPN-59663-57887

Autoimmune disease

autoimmune : Case 361: ID 637-23484-48126

Dry eyes and dry mouth due to autoimmune Sjogrens Syndrome seem to be worse.

autoimmune : Case 362: ID VD8-29878-60093

These are typical symptoms of my autoimmune diseases

autoimmune : Case 363: ID G7P-11658-27248

Very high blood pressure associated with autoimmune disease

autoimmune : Case 364: ID DQS-18219-47875

I have a few autoimmune conditions

autoimmune : Case 365: ID DKN-12031-02594  
autoimmune

autoimmune : Case 366: ID DGE-14187-26291  
Exrreme irritability, exacerbation of autoimmune arthritis.

autoimmune : Case 367: ID HUA-71161-05187  
Some of this is probably due to my autoimmune disorder. I'm due for my next Remicade infusion in 4 days.

autoimmune : Case 368: ID FKH-16430-36108  
I still feel as if i am in an autoimmune flare (Sjogren's Disease), although diarree6usually is not part of a flare.

autoimmune : Case 369: ID RLL-21725-02194  
I felt slightly under the weather, and I have inflammation (from an autoimmune issue) where I wouldnt normally have it at this point in my injection cycle but nothing super awful. Just noticeable

autoimmune : Case 370: ID SQY-19371-65735  
Im on IVIG therapy for an autoimmune flare

autoimmune : Case 371: ID G7P-11658-27248  
Very high blood pressure again, presumably due to autoimmune reaction

autoimmune : Case 372: ID BU9-32192-57974  
Sore throat, cough. Cold like symptoms. I have an autoimmune disorder

autoimmune : Case 373: ID DKN-12031-02594  
Autoimmune

autoimmune : Case 374: ID UG9-17025-76706

Have autoimmune condition that causes several of these symptoms- about equal severity (joint pain a little worse), not necessarily because vaccine

autoimmune : Case 375: ID BZB-21470-60821

Swollen saliva gland, however I do have an autoimmune condition.

autoimmune : Case 376: ID 5DP-10048-72322

I have an autoimmune disease called Polymyalgia Rheumatica which makes me prone to exaggerated inflammatory reactions.

autoimmune : Case 377: ID FDH-32987-22418

My autoimmune skin condition has flared up since I got the shot.

autoimmune : Case 378: ID 3JP-28242-92381

My fatigue is chronic, due to autoimmune diseases. It was increased by vaccine, but has returned to baseline.

autoimmune : Case 379: ID BE4-23491-33625

May be due to my autoimmune disorder

autoimmune : Case 380: ID 779-28661-92456

It seems to affect my autoimmune issues. Psoriasis, psoriatic arthritis, thyroid and rosacea and heighten their issues and sensitivity.

autoimmune : Case 381: ID 45S-16334-31585

Feel somewhat flu-like. I believe rash is an autoimmune reaction I have occasionally. Typically will be followed in 3-4 weeks with desquamation of soles of feet and palms of hands.

autoimmune : Case 382: ID Q3G-11523-96262

Still unable to focus. No additional cyst but original ones still there. My hair has continued to thin to the point of seeing my scalp. I did not report these conditions before because I dont know if they related. I have dermatographia autoimmune so?

autoimmune : Case 383: ID Q79-11861-99405

Mild autoimmune disease flare

autoimmune : Case 384: ID DKN-12031-02594

Autoimmune

autoimmune : Case 385: ID VD8-29878-60093

I saw Dr today due to severe rash. He believes it is my autoimmune disease in a flare up because Im off my usual Methotrexate while getting the vaccines

autoimmune : Case 386: ID G7P-11658-27248

High blood pressure. I think vaccine triggered serious autoimmune reaction

autoimmune : Case 387: ID MAB-13263-60071

I have autoimmune diseases so hard to discern cause of symptoms

autoimmune : Case 388: ID UNU-23547-04592

All of my symptoms are also related to my autoimmune conditions and were present before the vaccine.

autoimmune : Case 389: ID WZL-10149-73457

Rash around my face, likely an autoimmune response from a preexisting allergy.

autoimmune : Case 390: ID 2CR-27584-54042

I have had IBS for years, have had autoimmune hepatitis but have haf normal enzyme levels for the past two years or so and my last liver biopsy 3 years ago showed no hepatitis cells. I was diagnosed with Sjogrens syndrome over a year ago. I am answering these post-

vaccination questions and take into consideration symptoms that are beyond what i feel or experience on a daily basis.

autoimmune : Case 391: ID 69H-86391-76544

Joint pain due to autoimmune disease

autoimmune : Case 392: ID XSL-10749-03234

I failed to previously mention that I gave two diagnosed autoimmune conditions for which I take a biologic and DMARD medication.

autoimmune : Case 393: ID QNR-16845-74344

Swelling under my injection arm. Autoimmune chest tightness

autoimmune : Case 394: ID RCD-22878-56206

Slight Runny nose; I have an autoimmune condition

autoimmune : Case 395: ID T9L-58486-19060

I have UC and autoimmune Pancreatitis but not currently in a flare

autoimmune : Case 396: ID TR7-90350-97956

autoimmune : Case 399: ID 225-18815-24119

Mouth aphthous ulcer started 4 days ago, nearly resolved now. Forgot to mention. Was largest I ever had and last one was a couple years ago. Unclear if correlate but my last

recollection of etiology was unknown but speculation about autoimmune so perhaps triggered by 2nd injection thanks

autoimmune : Case 400: ID JXX-10719-26490

These symptoms are due to my chronic autoimmune disease - felt before second injection today

autoimmune : Case 401: ID AHW-30914-94266

I have an autoimmune disease and take Mycophenolate ( Celcept)

autoimmune : Case 406: ID 3YE-17249-85949

Neck, back,knees joints hurt. I am autoimmune patient

autoimmune : Case 407: ID R9X-83698-71718

Muscle pain normal for me; I have an autoimmune disease.

autoimmune : Case 408: ID 27R-29380-73720

I have psoriatic arthritis, ulcerative colitis, and several other autoimmune diseases, so it seems like my joint pain is from those and not the vaccine.

autoimmune : Case 409: ID UEK-56213-09091

I have autoimmune disorder, have had triple negative breast cancer with double mastectomy, chemo and radiation in 2017.

autoimmune : Case 410: ID D2W-29688-82103

Night of and day after, moderate to severe achiness. Improved with Celebrex, which I take daily for autoimmune inflammation.

autoimmune : Case 411: ID PFS-99228-58995

autoimmune : Case 414: ID 478-11367-04787

I have an autoimmune condition named CVID, common variable immuno deficiency (hypo gamma globulin anemia) that causes fatigue as well.

autoimmune : Case 415: ID 9L7-12881-36679

Just feel yucky from my autoimmune disease. I dont think its related to my vaccine.

autoimmune : Case 416: ID YEU-31986-72692

Have been just feeling sleepy, I have an autoimmune disease, and expected that I would have some fatigue. Its been on and off- not a big deal.

autoimmune : Case 417: ID UYE-28580-02606

I have an autoimmune thyroid condition and am a type 2 diabetic

autoimmune : Case 418: ID K2Q-30292-26141

autoimmune : Case 419: ID H5R-10156-78160

I have know autoimmune diseases so definitely having a flare

autoimmune : Case 420: ID PFS-99228-58995

Loss of appetite. Runny nose, junky cough. Sore, red eyes. Diagnosed autoimmune disease, prescribed and taking hydroxychloroquine

autoimmune : Case 421: ID SST-53452-18321

Idk if these are bc of my autoimmune diseases or the vaccine

autoimmune : Case 422: ID XLB-29880-03622

I have an autoimmune disease and my symptoms were no worse than others

autoimmune : Case 423: ID 6JC-17557-70106

I have had pain under my chin on my neck where my glands are - they feel swollen. All of my sinuses hurt. I am being evaluated for potential autoimmune issues (maybe rheumatoid arthritis, fibromyalgia, etc). The joints that have been causing me issues with that, have been exponentially worse since the vaccine. I also sometimes get a rash on one side of my face - this also presented after my shot. The pain, nausea, and headache are persistent, but also worsen to an intolerable level in waves ever since last night. I went to work anyway since I didnt have a fever and Im a teacher and thats just how it is in this culture.

autoimmune : Case 424: ID WNU-29389-60239

Autoimmune and pregnancy

autoimmune : Case 425: ID 8MB-15715-44132

I have many autoimmune diseases so although I have muscle pains today, I'm tired and I just don't feel well, I don't know whether to attribute it to the Pfizer Vaccine side effects or just my autoimmune diseases (Sjogren's Syndrome, R.A. etc.). My arm is definitely better today than it was yesterday. Overall, other than my arm, I felt better yesterday than I do today.

autoimmune : Case 426: ID SQY-19371-65735

As reported being in an active autoimmune flare I have these sx's at varying degrees

autoimmune : Case 427: ID R9X-83698-71718

I'd like to have joint pain with my autoimmune disease.

autoimmune : Case 428: ID XS7-12835-78753

Not sure whether or not this is related to the vaccine, but I am a relatively newly ( 2 years ago ) diagnosed with autoimmune diabetes type 1 . My blood sugars have been running on the high side for 3 days now . ( like they do when I am sick ) I am not yet concerned as I am thinking that this is my immune system reacting as it should .

autoimmune : Case 429: ID ZSB-10114-59103

I have autoimmune hepatitis

autoimmune : Case 430: ID DRR-75281-17462

Moderate because of autoimmune condition, not vaccination

autoimmune : Case 431: ID 27R-29380-73720

I have psoriatic arthritis and other autoimmune diseases, so some of my symptoms could be from that.

autoimmune : Case 432: ID BLR-29631-30014

All symptoms due to autoimmune illness

autoimmune : Case 433: ID 8MB-15715-44132

The pain in my arm is very mild and the itching is almost gone. The swelling and redness are gone. I believe the muscle aches and body aches are from my autoimmune diseases not from side effects of the Vaccine although it could have caused a small flare-up of my autoimmune disease symptoms.

autoimmune : Case 434: ID 22Z-19250-24213

I also have an autoimmune neuromuscular disorder so that must be considered

autoimmune : Case 450: ID JXX-10719-26490

HX of autoimmune - re headache and joint pain

autoimmune : Case 451: ID T4B-28425-62315

I had a severe reaction after 12 hours of receiving the second vaccine. I did not react to the MMR vaccine because I didn't have the vaccine. Instead, I had measles (red & German), mumps, chicken pox, whooping cough. Thinking that my natural immunity was strong and this vaccine got an immediate autoimmune response with the second vaccine. The CDC survey guidelines needs to be revised to ask if you had the MMR vaccine and did you get a reaction. If not, then the risk is unknown. This might account for the older people having more severe autoimmune reactions than the younger people who have not acquired immunity through infection.

I believe the pain I feel today is due to my autoimmune illness, and perhaps not to the vaccination. The day after the first dose, I had injection site pain (for many days), and felt a little achy and in pain for about a day, but okay to work. The day of the second dose, felt chilled and a little achy for about 3 hours. Day of the second dose and the day after, I had more nasal congestion than usual and mild sore throat and coughed a few times which I never do.

autoimmune : Case 497: ID CTE-20759-57900

I have body aches and pain / joint hurt but I believe it is all from my autoimmune disease NMO so I have always separated it out from shot. The shot has not increased it. I feel after each shot about 4 days after shot my muscles and pains have lessen, only a few days last time see about this time today they were less. Not sure if it has anything to do with it. Will mention to my drs.

autoimmune : Case 498: ID TB5-26878-17719

Wasn't sure if I should report all health conditions I have. Major concerns are: asthma, chronic migraine, peripheral neuropathy, autoimmune issues- likely Rheumatoid Arthritis and taking Plaquenil, frequently/regularly tachycardic, peripheral vascular issues, Raynaud's phenomenon.

autoimmune : Case 510: ID PDY-72829-12225

Muscle aches could be classified as severe. I am experiencing moderate pain that is breaking through the 10/325 oxycodone/acetaminophen that I normally take six times per day. Fatigue from yesterday has subsided. In that regard I feel much better. The muscle pain of my fibromyalgia and autoimmune diseases is definitely worse today.
