

## V-SAFE Reports with Symptom Keyword = STROKE

compiled by Craig Paardekooper

V-Safe is the largest collection of vaccine testimonies on the planet.

One of the reasons why the CDC was so reluctant to release the free-text entries of the V-Safe reports is because these entries are the personal testimonies of vaccine effects – numbering 390,000 per release, and numbering millions in total.

Having censored and erased hundreds of thousands of testimonies of vaccine injury from Facebook, the government was equally reluctant to be the provider of what is the largest collection of vaccine testimonies on the planet – collected by the CDC themselves !

Perhaps this is <<the longest story ever told>>, the testimony of 1 million people.

Many thanks to ICAN ( <https://icandecide.org/v-safe-data/> ) who pursued the CDC through the courts until they finally conceded and began to release this data on January 15th 2024.

Data is from all 4 releases, up until June 15th 2024, reported by 1,092,715 Covid <<vaccine>> recipients. The next release is on July 15th, 2024.

### Data

Data Source : V-SAFE (CDC) : download (June 2024) @ <https://icandecide.org/v-safe-data/>

Total number of V-Safe reports with symptom keyword STROKE = 262

Percentage of V-Safe reports with symptom keyword STROKE = 0.0144 %

(V-Safe) Total number of Covid <<vaccine>> recipients with this symptom = 219

(V-Safe) Percentage of Covid <<vaccine>> recipients with this symptom = 0.02004 %

### Limitations

This report shows the incidence of a symptom amongst a <<vaccinated>> population of 1092715 in the V-SAFE database. The onset of a high incidence after <<vaccination>> suggests possible cause - requiring further investigation of - 1) Other databases, such as VAERS and EUDRA, 2) Clinical literature and scientific papers.

## Sample of 262 Reports with Symptom Keyword = STROKE

stroke : Case 1: ID ZDZ-13863-05066

I had a slight headache this morning but it's no different than any other day after I work. I worked 2 days wearing an N95 for 12 hours, 2 code blues (hot as hades in there) and a code stroke plus regular shift stuff, then came home and knocked back half a bottle of Cab Franc, so the mild headache I had this morning I in no way attribute to the vaccine, it was honestly less than I usually wake up with after work

stroke : Case 2: ID APV-20359-81088

I went to the ED they thought I was having a stroke but symptoms passed after about an hour

stroke : Case 3: ID P74-23433-02017

Was discharged home today to follow up with pcp in a week

Left side of face still slightly numb feeling like novacaine wearing off. Work up for stroke was negative. Numbness feeling better than after shot was given yesterday but not totally gone yet.

stroke : Case 4: ID A83-13948-99240

Left side numbness entire body. Face swelling, per physicians, stroke symptoms. Currently in ICU

stroke : Case 5: ID 8TR-14790-50939

Since stroke I tire easy some days.

stroke : Case 6: ID 8TR-14790-50939

I am a stroke survivor.

stroke : Case 7: ID NZC-30466-54034

My dad had a stroke, I've felt terrible emotionally but physically fine

stroke : Case 8: ID SBC-15839-84016

I have been dealing with my mom who had a stroke and Covid sorry about previous days too busy

stroke : Case 9: ID 9A3-33286-25578

Unfortunately, I did not do this right away, as I was fine the first 8 hours then occupied with my moth-in-law having strokes. Latter in the evening, after my side effects started that night, I was too sick to think clearly enough to complete this. I ran a fever for 24 hours over 100 at highest Jan 1st. Vomited several times, severe muscle and joint pain and headache, fatigue. By yesterday the fever was gone, pain was minimal, but some nausea. Today, 1/3, still nauseated and eating only bland foods. Still fatigued but nothing like the first 48 hours. I figured today I'd submit this, hoping to maybe help with data collection. I DO intend to try and speak with a Moderna rep tomorrow. I'm very concerned that my reactions were worse due to having had covid 12/13/20. I'm quite concerned about getting the next vaccine, and wondering how long I could postpone #2 and have it be effective.

stroke : Case 10: ID 25P-82340-35289

I had a serious stroke 10 years ago and deal with fatigue from results of the stroke. My fatigue was more apparent Saturday and Sunday. I am feeling much better today.

stroke : Case 11: ID SAL-16758-72144

Small stroke

stroke : Case 12: ID MCZ-49817-71800

Diabetes high blood pressure 2 strokes

stroke : Case 13: ID 2DU-33596-62584

One quick stroke of dizziness, felt from the left eye and lasted a few seconds.

stroke : Case 14: ID W62-11610-41030

Work up as a stroke alert

1/8/2021 had 3 small strokes documented by MRI with no residual focal deficit.

stroke : Case 15: ID 3FF-28120-31974

Had to be rushed to ER last night for chest pain, stroke-like symptoms rapid heart rate and shortness of breath

stroke : Case 16: ID QD4-87119-36402

Have a history of stroke, migraine, heart attack

stroke : Case 17: ID ALD-26824-48241

Still have occasional heart palpitations, feet felt like possible clots forming in them. No signs of stroke or heart attack thank heavens.

stroke : Case 18: ID TGU-29547-05736

History of stroke migraines heart attack

stroke : Case 19: ID UHN-15380-16255

I had a stroke 3 weeks ago and i have high BP right now along with Cancer

stroke : Case 20: ID WSU-81837-38979

Stroke

stroke : Case 21: ID EEG-13191-58665

On dec 31 I had an episode of some vertigo and left sided numbness- ended up at ER to be sure not stroke. Did have sinus and weather change and took decongestant. Event odd. No stroke. Just thought I ought to add this for your FYI. Can give more info if you want.

stroke : Case 22: ID UZ8-25508-43132

Cat Scan. Blood work neurologist

Facial stroke symptoms ER CAT SCAN

stroke : Case 23: ID K5F-76464-39688

Just let you know so my health conditions ,I am in remission from multiple myeloma I had a stem cell transplant and I have R. arthritis , fibromyalgia Sjogren's and had a stroke in my right eye

stroke : Case 24: ID CBY-27766-13240

5 days after vaccine I was hospitalized with sudden onset of strokes in bilateral cerebellum

stroke : Case 25: ID CLF-16023-15787

Went ER for stroke evaluation and diagnosed with Bell's palsy/ right eye, Jaw and right shoulder and arm went numb

stroke : Case 26: ID 7N3-86804-61162

I had a stroke 8 years ago and 1 year after the stroke I had bariatric sleeve surgery but much better now

stroke : Case 27: ID HVQ-15951-75801

Had weird almost stroke like symptoms

stroke : Case 28: ID BGR-31840-55793

Stroke...in the hospital

stroke : Case 29: ID RCV-75940-67570

left side of face numb ,but stopped after 40 min,left foots numb and tingling worked it's way up chin to knee but then subsided after 1n left hand numb and cannot open and close like when I had my stroke 2 yrs ago hand has not gotten better yetr

stroke : Case 30: ID 87E-20361-08429

Stroke in hospital

stroke : Case 31: ID UE7-33841-96096

Side affected by previous stroke hurting morr

stroke : Case 32: ID HUZ-18499-75225

I developed sudden onset of blurred vision and pain in my left eye on 1:14/2021. Later noticed pain left eyebrow area, tingling sensation in front of left ear, head pain in left temporal and parietal region. Got admitted and tests negative for stroke, covid negative. No explanation other than possible inflammation, responded to IV steroids. Concern for mild case of Bells palsy

stroke : Case 33: ID RCV-75940-67570

My left side which was paralyzed from my stroke 2 yrs ago is still effected since shot left hand still numb and tingling and have lost about 20 % use of it

stroke : Case 34: ID Z7H-17082-43868

Vaccine given at work left arm on Friday 1:45 pm and felt like tight Blood Pressure cuff on my arm within 30 mins. This was constant pressure that lasted until I slept that night. went home after work, ate dinner, then sleep with my CPAP. Slept late, woke up 1:40pm with entire left arm numb, but still able to move it. (sleeping on right side) and numb tongue that felt swollen. Stroke? I got up and as time progressed over next 30 mins or so, I started coughing more, felt like sore throat, itchy, having trouble clearing my throat, some trouble breathing, tongue didn't look swollen, but it felt like scotch tape underneath my tongue with someone slowly pulling tape off. with top of tongue swollen and heavy. 2:25pm I took 25 mg Benadryl oral tablet and called 24/7 RN hotline and was told to go to ER and take another 25 mg Benadryl tablet which I did. I arrived at ER and was really coughing hacking repeatedly. Short of breath, kept trying to clear my throat. Seen in triage. No meds given, this was? <20 from time I took Benadryl. About an hour later I did have about 15 mins of feeling like I was wearing a very snug neck turtleneck with 2 brief cool sensations going down the middle of my throat and down both sides of my upper chest. I felt better when I kept my neck very straight versus looking down. I was later seen again and felt 75% better, given Dexamethasone and Pepcid. Discharged home. around 6:30pm. Took Benadryl 50 mg again 10 pm same night.

stroke : Case 35: ID PE5-32845-59750

Spent half day in emergency room on Han 16 after awaking with severe dizziness, true vertigo (never had vertigo before), nausea, vomiting, and dry heaves. Work up for stroke was negative with negative CT scan of the head.

stroke : Case 36: ID ZXX-22077-57611

I think i can close to stroke saturday

stroke : Case 37: ID WDV-98489-78497

Had to enter hospital with short term memory loss and high levels of Troponin. They thought I had a mini stroke and heart attack. It happened the day after the vaccine.

stroke : Case 38: ID RCV-75940-67570

left hand still has tingling and numbness since I got shot feels like when I had my stroke also foot pain and chin pain like the day I got shot

stroke : Case 39: ID RCV-75940-67570

All the pains that I have worked hard to illuminate severe pain for last 2 yrs SINCE MY STROKE at PT abd 5 days after shot The pain is not going away numbness in my left hand is still here since shot and muscle weakness

stroke : Case 40: ID PTB-30825-08636

i had to go to the ER today. i had a small acute left anterior lacunar thalamus stroke

stroke : Case 41: ID 2HE-13864-37124

I had a bad reaction about an hour after I got the vaccine. Stroke like. Hands were numb, lost my balance.

stroke : Case 42: ID DGW-56145-36482

Telephone call with Dr. office

2 days later I went to hospital ER with eye expropriation of left eye. Was evaluated for TIA/Stroke with blood work , EKG, CT scan - which was inconclusive ? showed nothing major. Recommendation for MRI which is scheduled on Feb 8th. Am doing ok.... assume a little off or occasional light headed ness due to some anxiety about findings on MRI... or an odd reaction to vaccine. Thank you.

stroke : Case 43: ID DRD-18376-10068

Had a small stroke tuesday. In the hospital.

stroke : Case 44: ID RCV-75940-67570

continuing numbness in left hand and left foot like when I had my stroke & lots of pain in left shoulder and right arm

stroke : Case 45: ID CP3-23684-57471

My mom is currently my mom is in the hospital for stroke and a UTI

stroke : Case 46: ID 3GC-28382-13985

I had a stroke on Monday, January 18th. Could there be any connection to my shot.

stroke : Case 47: ID DJW-16040-89663

Stroke like symptoms 30 minutes after refining shot

stroke : Case 48: ID U2N-27075-28041

Fatigue might be due to the fact that I had a stroke in November and completed radiation treatments for lung cancer the last week of December.

stroke : Case 49: ID QKS-22158-71139

I survived a brain hemorrhage and hemorrhagic stroke so fatigue is common.

stroke : Case 50: ID D74-21661-12407

Stroke

stroke : Case 51: ID Q7R-18913-70199

Numbness on left side of face and bodyHad to go to emergency room for concerns about possible stroke or Bells palsy Received an MRI was told I am have a neurological migraine

stroke : Case 52: ID JEN-22296-91176

Stroke day before yesterday

stroke : Case 53: ID A43-13899-06692

Stroke

stroke : Case 54: ID 2C7-21387-46257

I have had a worsening of pain from a thalamic stroke. Not sure if it has to do with the vaccination

stroke : Case 55: ID APV-15408-26545

Starting this morning, the left side of my face has gone numb. There is a charlie horse like feeling in my left cheek, which is now also present in my left jaw. The left side of my tongue is numb with slight pain, and my bottom lip is numb on the left side, and the feeling stops at the middle like there were a line drawn down my face. My upper left cheek and the side of my left eye have a constant, moderate burning feeling. The shot was in my left arm. The Dr. at urgent care said it was not stroke, so that's good. It has now been 13 hours since these symptoms started. I have never experienced anything like this before.

stroke : Case 56: ID RCV-75940-67570

left hand still experiencing numbness and weakness on left side of body from returning stroke symptoms & left neck and shoulder pain are continuing sing shot...major severe fatigue continues

stroke : Case 57: ID A43-13899-06692

Possible stroke or bell's palsy

stroke : Case 58: ID VXW-15599-28048

Patient is admitted for observation following administration of TPA for blood clot. This event is a new episode of a chronic CVA diagnosis (newly found per imaging tests), & not related to covid vaccine.

Went to ER last night. Around 10 : 40 p.m., began nausea with vomiting, slurred speech, weakness in limbs left side. Diagnosed as having a stroke, confirmed by CT scan, & MRI. Covid test done & was negative. BP very high, Blood sugar very high. O2 sat normal.

stroke : Case 59: ID 5RQ-15523-40782

Patient suffered recent stroke and following vaccinations be experienced burning in neck. After 3 days constant facial and headache, including balance issue. Sleeps constantly.

stroke : Case 60: ID 4ZS-33014-75882

I had hemiplegic migraine on Thursday, 1/21/2021 that required ER visit. I have history of ischemic Stroke on March 7, 2019.

stroke : Case 61: ID UQH-13440-43248

Had mini stroke and am in the hospital. Could be just age related. Had a mini stroke 10 years ago

stroke : Case 62: ID HMM-96807-91386

This is a stroke and fibromyalgia patient

stroke : Case 63: ID A43-13899-06692

Bell's palsy or stroke

stroke : Case 64: ID BT3-60283-85910

Had a stroke

stroke : Case 65: ID RB5-21893-38539

Had a small stroke 3 days later.

stroke : Case 66: ID 4ZS-33014-75882

I have hx of ischemic stroke, AFib and take Eliquis. Refer to prior notes regarding headache 38 hours after Covid 19 vaccine requiring ER visit and Stroke protocol enacted. Should I get 2nd Covid Vaccine???

stroke : Case 67: ID CBL-27863-71744

But more from stroke problem than vaccination

stroke : Case 68: ID GWQ-33286-23651

Stroke/heart attack possibly linked to vaccine

stroke : Case 69: ID PYC-12041-18802

Basel ganglion stroke on 1/25/21

He is in ICU due to stroke on 1/25/21 (this is his daughter)

stroke : Case 70: ID N84-20869-48875

Numbness of arm, hand and leg. I am in hospital to check if it is a stroke

stroke : Case 71: ID VXW-15599-28048

This patient had a stroke on 1/22/2021. Admitted to & still in a hospital. This event has been determined to be unrelated to the 1st dose of vaccine. Symptoms listed here are due to the stroke.

stroke : Case 72: ID RUZ-15389-00039

Mild stroke

stroke : Case 73: ID Q9C-68032-47463

Only if the shingle/vasculitis/stroke could be related

Dx with shingles in my spinal fluid, but I had Shingles in Oct, 2020, that caused vasculitis which caused a stroke, could any of this be related to the vaccine?

stroke : Case 74: ID GWQ-33286-23651

Stroke/heart attack possibly provoked by vaccine

stroke : Case 75: ID X9E-86992-33804

Stroke like symptoms be 45 minutes after the vaccine last Thursday, resolved within 3 minutes.

stroke : Case 76: ID HMM-96807-91386

Stroke survivor

stroke : Case 77: ID JFK-10677-33865

Nothing related to the shot. I had a stroke a while ago.

stroke : Case 78: ID JEF-13154-79220

Stroke like symptoms that affected eyesight but not brain. Unrelated to vaccine

stroke : Case 79: ID 9DE-32885-54007

Bells palsey/ stroke. Currently in ER.

stroke : Case 80: ID GWQ-33286-23651

In hospital for stroke

stroke : Case 81: ID T9G-14127-01258

Having a mini stroke

I was admitted 2 days later, to the hospital, for a mini stroke

stroke : Case 82: ID TP7-14832-02270

Tingling in my left hand fingers. They were affected by a hemorrhagic stroke three years ago. I have latent neuropathy in the fingers. It got noticeably worse after the shot, but went away within 8 hours.

stroke : Case 83: ID DAD-33626-31716

Went to the hospital early morning, due to disorientation, speech problems and such. MRI suggests that I suffered mini strokes.

stroke : Case 84: ID 277-97175-36675

My arm that received shot on Tuesday went limp from fingers to shoulder. An MRI was conducted and no indication of stroke. The paresthesias dissipated after about two hours. More tests scheduled. Dont know if

stroke : Case 85: ID 4RC-31840-85415

My neck symptoms have improved but I continue to have pain, some swelling and redness, and hypersensitivity along the posterior/superior aspect of my neck into my hairline and occipital region. My head still hurts and eyes still hurt to move (but these are less painful today) and I still feel slightly unsteady at times. Cervical extension is still difficult and a few times today Ive had random shooting pains down both of my arms which only last forever a few seconds. When someone gently stroked over the back of my neck it caused a painful sensation all the way down my spine and legs that caused me to drop to my knees. I felt ok again after 5-10 minutes. I was able to go to work today but unable to finish my entire day of treating patients.

stroke : Case 86: ID V5T-16373-18202

She had a stroke on 1/27. Not related to vaccine

stroke : Case 87: ID 6QH-29896-38521

Stroke like symptoms

stroke : Case 88: ID YMF-17117-34077

I suffered a mil stroke on Tuesday 1/26/21

stroke : Case 89: ID NNR-33511-90320

Going through a recovery for a stroke. So trying to determine is some of my issues is due to vaccine or result of stroke

stroke : Case 90: ID KTL-15887-52621

On Wednesday the day of the shot that evening I had a pounding heartbeat that I thought I was going to have a heart attack or a stroke. I did take an extra high blood pressure pill that evening. I've never felt anything like that before and I don't want to ever experience that again

stroke : Case 91: ID SJ8-25605-51292

In hospital... had a stroke

stroke : Case 92: ID 6B6-49023-40378

Numbness, pins and needles entire left side. Was seen in hospital ER to assess for stroke.

stroke : Case 93: ID YHQ-21956-90999

Really bad headache for 48 hours after the first moderna vaccine. It still concerns me. I am fearful of getting the 2nd moderna shot. I have had strong reactions to vaccines before but this is the first time i felt fearful of getting a booster shot. The headach after the vaccine felt likecdeeo pressure all around my head. I wondered if i could end up habing a stroke. I wonder if I could get the Pfizer vaccine instead as my uderstanding from several pharماسists that it has less side effects.

stroke : Case 94: ID A6X-52702-08143

Ongoing chronic pain fatigue related to stroke cZU had 4 years ago

stroke : Case 95: ID BW5-22987-80138

Yesterday had early Symptoms of Bells palsy on left side of face droopy eye numb mouth and lip today the symptoms have a baited yesterday I spent the day in the emergency room to rule out stroke

stroke : Case 96: ID SJ8-25605-51292

Had stroke yesterday

The symptoms are from the stroke I had yesterday not from the shot.

stroke : Case 97: ID 5MM-45722-30362

Approx 16 days after my first dose I experienced what may have been a small MR negative stroke (docs are still working up my case/have not arrived at a final dx). Im assuming it is entirely unrelated and was cleared by my doctors to receive the 2nd dose, but just reporting on the off chance that it has happened to others as well.

stroke : Case 98: ID JLM-15661-21376

My heart rate shot up into the 180s and 190s and two over 200/117. I had to go to the emergency room because I was fearful of a heart attack or a stroke.

Yesterday an hour and a half after my injection my blood pressure shot up to the 180s one 90s and 200/117. I had to go to the emergency room because I was afraid of having a heart attack or a stroke.

stroke : Case 99: ID DAD-33626-31716

Primary care physician

Left dealing with the aftermath of a stroke

stroke : Case 100: ID 7RN-58209-19332

Stroke

stroke : Case 101: ID 3NE-30871-96063

Stroke

stroke : Case 102: ID MA5-23166-37621

I didnt get a chance to notify you that I have been diagnosed with Parkinsons Disease, also I have had several minor strokes. My blood was already thin before I had the strokes and since then I take baby aspirin resulting in easy bruising of my hands and arms.

stroke : Case 103: ID ZND-15475-06344  
3.5 year stroke survivor

stroke : Case 104: ID CBX-23841-10771  
Stroke

stroke : Case 105: ID QVK-21887-20066  
tingling left arm, halo vision, stroke symptoms on left side of body

stroke : Case 106: ID UBS-17101-02466  
Forcing myself to work- Exponential exacerbation of paresthesias, burning numbness of tongue, left face, heaviness, eye feeling droopy/watery. I had to make sure my face didnt look like I had a stroke

stroke : Case 107: ID E3Z-26093-58934  
Ihadastroke y aterday

stroke : Case 108: ID VVE-19804-45259  
I am a type one diabetic of about fifty years duration. Ive had a massive heart attack and a stroke. I was on dialysis for awhile and I have asthma. None of this is related to the vaccine, I know but thought you might like that background for your tesearch

stroke : Case 109: ID 6YE-18311-32099  
8 hours after receiving the vaccine I was barely able to lift my arm. It felt heavy and although I have never had a stroke that is how I imagined it would feel, almost lifeless.

stroke : Case 110: ID 4BE-52877-50874  
I think I had a mini stroke today!

stroke : Case 111: ID EB4-25253-15574  
Francisco is post hemorrhagic stroke x4 and aphasia. Just redness on chest and stomach area.

stroke : Case 112: ID 6ER-25915-95585

Stroke

stroke : Case 113: ID NUQ-20416-33212

small symptoms from stroke 15 months ago have slightly recurred, as it does when an infection is imminent

stroke : Case 114: ID 7PQ-12944-31592

Loss of vision in left eye from eye stroke

stroke : Case 115: ID BQL-12546-60756

Shot received in left arm, numb sensation felt from ear lobe to knee. A bit strange, questioned if having a stroke.

stroke : Case 116: ID RUR-97927-49075

Not sleeping well since 2nd vaccine dose. I'm hot and cold all night, and waking up frequently. Also, I am immunocompromised, had a stroke 2018, and do not have a pituitary.

stroke : Case 117: ID NUQ-20416-33212

still feeling resurfaced small effects from stroke 15 months ago

stroke : Case 118: ID Y4L-26568-15863

(b)(6) suffers from frontal temporal dementia. She had 2 seizures this morning. They may be strokes or epileptic type seizures shes had before. Not sure if they are related to the vaccine. She has suffered with this condition for 12-13 years.

stroke : Case 119: ID Y38-26112-60193

Had mild stroke (b)(6). So I am still dealing with rehab from that

stroke : Case 120: ID DWH-84315-75479

Stroke related, weakness, drooling, right sided numbness

stroke : Case 121: ID N2D-63262-83296

The numbness and tingling on the left side of my face that started about 30 minutes after the injection and then proceeded to go down my left arm as well is totally gone after three days. Every day after injection it got better. I did see a post on Facebook or someone else had that exact same symptom so it seems like it should possibly be added to the side effects so that no one worries that theyre having a stroke or something equally alarming.

stroke : Case 122: ID DLC-31554-21617

Balance issues due to old stroke

stroke : Case 123: ID 9HT-23216-13334

Significant stiffness in left leg affecting gait. Husband initially concerned Id had a stroke.

stroke : Case 124: ID GYJ-61894-47848

interestingly, my injection site soreness had gone away the last 2 days, but after i did only 3 minutes of a cardio exercise workout this morning, using upper body punching strokes, that site soreness was felt strongly again.

stroke : Case 125: ID 5JD-93333-74975

Parkenson, Diabetic and Stroke in 2019

stroke : Case 126: ID F7Y-27830-91358

Possible Stroke

stroke : Case 127: ID S3V-30366-89263

Did not get any attention . It finally cleared up after about an hour. My husband has dementia and I could not relate to him to call anyone.

One hour after injection, I got confused, could not speak for about 1 hour. Thought I was having a stroke. Finally felt okay after an hour. This happened about at least 1 hour after the injection. Im healthy and have no serious health issues . This was so scary.

stroke : Case 128: ID H93-18375-20012

Stroke on 2/3/2021

stroke : Case 129: ID 6T8-34771-18730

Minimal tingling around mouth, tongue - are that was affected by stroke

stroke : Case 130: ID 7GT-11396-48982

Dizziness. Tingling in arms. After the first injection, I went to an urgent care facility, who immediately sent me to the emergency room four stroke symptoms. I had a CT scan with contrast and bloodwork and an EKG. Neither the emergency room doctor or the urgent care doctor that the symptoms had anything to do with the injection. I fully recovered with this exact same symptoms after a week. I was surprised to have the exact same symptoms come crashing down within hours of my second injection.

stroke : Case 131: ID QNX-17890-44932

Stroke from arterial dissection

stroke : Case 132: ID 9YU-15715-96489

Stroke on 2/6/from plaque build up carotid artery blocked

stroke : Case 137: ID Q84-24542-99628  
Hospitalized within hours of getting vaccine.

Stroke, paralization of left arm sane day as vaccine received

stroke : Case 138: ID 2C7-21387-46257  
Stroke pain worsened like last time

stroke : Case 139: ID DHY-10043-65546  
my oxygen sats are above 95% and i have ards and had a right hemispheric stroke in 2008

stroke : Case 140: ID AWM-21990-61637  
A stroke.

stroke : Case 141: ID M4G-25390-21089  
Was hospitalized for a stroke 15 hours after second vaccination.

stroke : Case 142: ID Q84-24542-99628  
Day 4 of hospitalization after getting vaccine

Stroke, paralyzed left arm

stroke : Case 143: ID ZC9-91693-36401  
Same yesterday tightness around lips and around right side of face like a mini stroke

stroke : Case 144: ID F2B-15356-87276  
I reported yesterday that I had stroke or TIA symptoms. I got back my CT and MRI results, which were negative. Probably Bell's Palsy. Surprised that showed so like a TIA. The

fatigue from yesterday continues , but less noticeable. Last night I slept for 12 hours. This afternoon I took a short nap (25 minutes).

stroke : Case 145: ID 78C-26073-79419

I feel very exhausted I know my pons stroke in May is still cause many issues. Along with all other health problems.

stroke : Case 146: ID NZ2-28243-58593

My arm is a bit stiff. (This arm was affected by a stroke 4 1/2 years ago)

stroke : Case 147: ID SL5-31341-20281

Stroke 3 days after 1st dose

stroke : Case 148: ID Q84-24542-99628

Had a stroke right after getting vaccine

stroke : Case 149: ID BM3-46385-31239

Most likely unrelated but stroke between first and second dose. Stroke 02/02/21

stroke : Case 150: ID Q84-24542-99628

Stroke after vaccine given

Stroke, paralyzation in arm after shot

stroke : Case 151: ID DQM-24336-78763

Stroke

stroke : Case 152: ID ADF-16766-70912

Lost all feeling of arm with shot/ mini stroke possible, lower side lip drooped about one second, in hospital overnight

stroke : Case 153: ID 5EL-30008-53682

Stroke like symptoms after shot #2

stroke : Case 154: ID WKR-26075-75952

I had a stroke 3 days after vaccination #2

stroke : Case 155: ID SVK-14168-68462

A day after my first dose, my swollen gum(absys) healed, my problematic hemorrhoids shrunk and my breathing got better ( had a stroke 2017).

stroke : Case 156: ID XQ5-15765-25212

Yesterday felt very disoriented like when she had a TIA STROKE for approx 5 min

stroke : Case 157: ID SZA-24042-67401

Mini stroke

stroke : Case 158: ID 77P-33838-07925

Your site is not set up so i can report symptoms not on your checklist. I suffered a small stroke two days after my covid vaccination. It has affected my left side. I am wheelchair bound due to a traumatic brain injury in (b)(6). I am permanently disabled and take anti seizure medication. I am currently in the hospital for medical support and to receive physical therapy. I had a major stroke several years ago and was in a therapy center for stroke victims for two weeks. I'm suspicious this stroke was precipitated by the covid shot.

stroke : Case 159: ID T8D-30769-81770

Shaking a lot at 1 am, felt feverish. Around 6am was out of it and had some difficulty walking. I am covid survivor and had a stroke 10 years ago and am disabled. I don't have feeling in my right side of my body. I always need the help of someone else to try and walk, but around 6 am it was extremely difficult and I couldn't move my legs a lot. My caregiver gave me a Tylenol at 1 am.

stroke : Case 160: ID 3FD-23240-92667

Stroke/Memory Loss -severe

stroke : Case 161: ID 77P-33838-07925

Some stromger from a stroke i had 2 days after my covid shot

stroke : Case 162: ID F76-22160-46215

I take 325 mg aspirin daily along with other medications to help prevent heart attack and stroke. I forgot to not take it the day of 1st vaccine. I am sorry I forgot, what harm have i done. Confirm that I should not take it for 2nd vaccine. My doctor was not sure. I will put sticky notes by my medications. Thank you

stroke : Case 163: ID XCB-32311-80746

Lots of inflammation went to er fir numbness in left arm mouth check and left leg. Ct scan says no stroke waiting on mri. Probably an inflammatory response from my Sjorgens and degenerative disc problems

stroke : Case 164: ID CGS-19181-61796

Left side of my body went numb the day after the shot I was in ER apparently a small brain stroke

stroke : Case 165: ID 5GC-30686-36863

Chorea like movements of the right upper and right lower extremities. (Intermittent twitches/spasms of the right lower and upper extremities). Visited ER, tests were negative for stroke, infection, bleeding, and tumor. Visited PCP, thought it could be related to vaccine as symptoms started 2 days after the 2nd covid shot.

stroke : Case 166: ID 5G5-69753-35998

Suffered stroke 01/27 after 1st vaccine

stroke : Case 167: ID XE4-52418-34710

Stroke today but unrelated to vaccine

stroke : Case 168: ID Z7K-93610-28905

unrelated minor stroke

stroke : Case 169: ID 77P-33838-07925

On recovery from a stroke that occurred 2 days after my 1st covid shit

stroke : Case 170: ID CGS-19181-61796

Left side of my body is completely numb Spent a night in ER Thalamic stroke

stroke : Case 171: ID F7G-22346-96664

Will be admitted to hospital as inpatient, days plus plus of rehab.

Legs gave out, fell, had a bad stroke this AM.

stroke : Case 172: ID 97H-22648-22301

I am a stroke victim and it did seem as tho my muscle tightness regressed to where I was years ago, effecting my speech and mobiliy

stroke : Case 173: ID XE4-52418-34710

Stroke recovery

stroke : Case 174: ID ZH4-17035-39773

Stroke

stroke : Case 175: ID XQ5-15765-25212

Seemed to have a small TIA mini stroke within a few hours of injection which I stated on the next day. Thank

stroke : Case 176: ID CAE-29547-45071

Post stroke intractable migraine worsened noticeably for several days.

stroke : Case 177: ID Z7K-93610-28905

I had a stroke on the 16th

stroke : Case 178: ID P8P-10857-91479

I have experienced a fib from 2 days after the vaccination until yesterday when I had a mini stroke resulting from the a fib. I was hospitalized and they ran a battery of tests and the mri verified the stroke Dr said it resulted from the a fib. Dont believe it is related to the vaccination.

stroke : Case 179: ID Z7K-93610-28905

recovering from a minor stroke on the 14th

stroke : Case 180: ID F5X-10130-78253

Admitted to hospital due to stroke

Ive had a stroke & Im admitted to hospital

stroke : Case 181: ID CBL-27863-71744

But due to stroke not COVID

stroke : Case 182: ID 9CQ-24053-17901

last night i had almost stroke symptoms- visual waves, Couldnt process what I was reading, couldnt say a few words. lasted about 30 minutes and have been OK since. Is this a side effect?

stroke : Case 183: ID XQ5-15765-25212

Mini stroke first day. TIA

stroke : Case 184: ID LE3-23885-69641

I want to report how I felt on Feb 13. Headache, Joint pains, Body aches , Fatigue, Nausea, Vomiting and Diarrhea. This was my first vaccine. I had the COVID virus April of 2020. I was wondering if I had such a response to the vaccine because I may have had antibodies? This concerns me because I am scheduled to receive my second vaccine on March 12. I cant emphasize enough how sick I was. The headache was so intense I thought I was having a stroke. I am NOT one to complain and have a high tolerance to pain. I am very concerned about receiving the second vaccine. I would really like to speak to someone about this.

(b)(6)

stroke : Case 185: ID CD5-21407-02629

A sharp localized pain in my head and a brief feeling of dizziness afterwards. Enough that I was worried I had a stroke (but quickly resolved)

stroke : Case 186: ID Z7K-93610-28905

had a small stroke, impaired movement

stroke : Case 187: ID 5H6-25486-65825

I had mild stroke on July 1, 2018

stroke : Case 188: ID A3G-29079-51437

called both my GP and cardiologist

After 1st shot: severe finger pain, symptoms of stroke or TIA,

stroke : Case 189: ID PSF-18438-81606

A unique experience last night. The same place I had my headache on Saturday- left over eye. Last night it started to pulsate and I had visions of TV shows I have watched in the last week. It was very strange. I thought, Am I having a stroke or an epileptic attack. It didnt last too long but it was not normal. I have no idea if this is related.

stroke : Case 190: ID N6J-19640-55835

Had stroke in hospital

stroke : Case 191: ID 5SB-24023-65421

I had some facial and are numbness...had it checked for possible stroke, discovered major aneurism!

stroke : Case 192: ID JHH-11169-70424

Went the ER due to a stroke

stroke : Case 193: ID SJ8-25605-51292

I am fatigued, I think it relates to a stroke I had after my 1st Covid-19 shot.

stroke : Case 194: ID JTJ-12760-88313

Two weeks ago my wife found me disoriented and confused. She took me to the hospital where they saw that my blood pressure was dangerously high, and they determined that I was having a TGA. After doing a CatScan, an EKG, an MRI, and an echocardiogram, they decided that I had not had a stroke, but that I needed to be on blood pressure meds. I didnt think to report this because I didnt think that there was any connection to the vaccination, but my wife encouraged me to do so. I apologize for not reporting this two weeks ago.

stroke : Case 195: ID P6Z-29776-64138

Stroke

stroke : Case 196: ID ZB3-80967-21390

On 2/17 approx 18 hours after vaccination #2 and about 2 hours into a hemodialysis treatment I experimced a trans corny episode of receptive and expressive aphasia. During that time I was attempting to text with my sister who was concerned and texted beck wondering if I was having a stroke. I was unable to read her inquiry at the time. Other staff at the dialysis center noted me acting oddly. The episode spontaeously resolved after about 2.5 hours with no apparent residual effects. There have been no repeated episodes during subsequent treatments.

stroke : Case 197: ID JCQ-18989-46191

Had a stroke

stroke : Case 198: ID 355-18841-44325

Aching as result of arthritis. Recent stroke.

stroke : Case 199: ID E2W-17535-25466

DKA with stroke like symptoms on second day of vaccination

stroke : Case 200: ID 57M-18081-14389

I feel like I had a stroke. I went to ER 2/12/21. CT showed no stroke but recommended I see neurologist and get MRI

stroke : Case 201: ID GGV-48293-30982

I have tremors from a 3 year old stroke and they are much worse today.

stroke : Case 202: ID RCP-20969-64720

Stroke

stroke : Case 203: ID WX7-24481-63071

I had a stroke over the weekend.

stroke : Case 204: ID LPP-13596-61342

In the ER now. Not sure if getting admitted.

Confusion, stroke like symptoms. This is he son filling out form. We are in the ER now.

stroke : Case 205: ID P6Z-29776-64138

In hospital with a stroke

stroke : Case 206: ID NWC-22182-25375

You waited a week to send me updates. The vaccine had a horrible reaction in me with a very high heart rate in my sleep and an intense headache in the middle of the night. I thought I was having a stroke. A week later I feel mostly fine

stroke : Case 207: ID EZT-65575-07480

On the 2nd day after receiving the vaccine, Sat., February 20, 2021, i woke with severe heDache and extremely sick to my stomach. I could keep nothing down. At about 7:30, i began exhibiting sttroke systems. 911 taken as stroke victim, ER stroke response, catscans, MRI, etc. Neurologist discerned, not stroke but severe migraine. Stoke symptoms dissipated...Advisrd not to have 2nd vaccine ( which is sceduled for March 18). Follow up for presemce of covid antibodies in 3 weeks and visit to nerologist and cardiologist. By Monday I was ok.ks;

stroke : Case 208: ID FNT-19280-91132

My skin itched so much that I was unable to sleep; very dizzy this am; slurring my words - went to ER in case I was having a stroke; I didn't.

stroke : Case 209: ID QUZ-46558-88692

In hospital because of possible stroke

stroke : Case 210: ID KRG-93833-88138

After 5 days had a stroke mild one had 2nd shot 5th day became very dizzy but went away

stroke : Case 211: ID 64G-86635-66462

He has had a stroke. Hospitalized.

stroke : Case 212: ID TU5-24367-08083

Im in the ER, diagnosed with TIA yesterday, now a mini-stroke

stroke : Case 213: ID QUZ-46558-88692

Stroke

stroke : Case 214: ID WB8-31583-37720

Had the second shot on Feb 12, on Feb 14 I suffered a stroke just submitting this information just in case it happens to other people

stroke : Case 215: ID TU5-24367-08083

In (b)(6) Hospital with a stroke

stroke : Case 216: ID P6Z-29776-64138

I am in the hospital with a stroke
