*"What good will it be for someone to gain the whole world, yet forfeit their soul? Or what can anyone give in exchange for their soul?"*

*Matthew 16:26 (NIV)*

# Preface

---

In July 2023 Elon Musk took over Twitter and replaced its icon with a plain X logo. A month later, in August 2023, this was replaced with a new X logo that appeared to be scratched or scuffed. A large central scratch ran vertically through the X and pointed to a strange mark above the X.

When magnified, it has been found that the scratch is not a scratch, but rather it consists of a series of letters and symbols arranged as a line - and it contains a message that is important for mankind.

Further, high-res images of the X icon reveal that the strange mark above the X is the image of a creature with humanoid features carrying a sword!

As crazy as all this seems, I can only invite you to view the data and make up your own minds.

I have provided links to the high-res image sources online, and a detailed description of the strange letters and markings.

It's strange to think this message is on everyone's phones, yet they don't realise.

## An unexpected scratch

---

Here is a screen shot of my phone taken on September 26<sup>th</sup> and recorded in my Telegram Prayer Diary on that day.

Notice that the X has a line or "scratch" through it. The line is approximately vertical.

I had just downloaded the X app onto my new phone and thought it unusual and unexpected that the App Store would use an image with aberrant markings.

An X with a vertical line through it is a traditional Christian symbol for Christ called an Iota Chi. <https://en.wikipedia.org/wiki/Christogram>

This was Christ's sign, so I took it as a good omen and didn't think much more about it. I added it as an entry in my prayer diary for 26<sup>th</sup> September 2024.

Then on the 9<sup>th</sup> of October 2024 I watched an interview of Elon Musk with Tucker Carlson - <https://x.com/TuckerCarlson/status/1843375397024485778>

Elon stated that he was all in for Trump, which I was glad to hear. He also said that he thought this would be the last election if the DEMS got in, since their policies were anti-democratic. I agreed with him.

But the abrupt appearance of Elon on the political scene and the extremity of the political situation prompted me to look again at his logo - the X symbol - which had been modified into an iota chi - a symbol for Jesus Christ.

I decided to post this oddity in my Telegram groups on October 10<sup>th</sup>, 2024

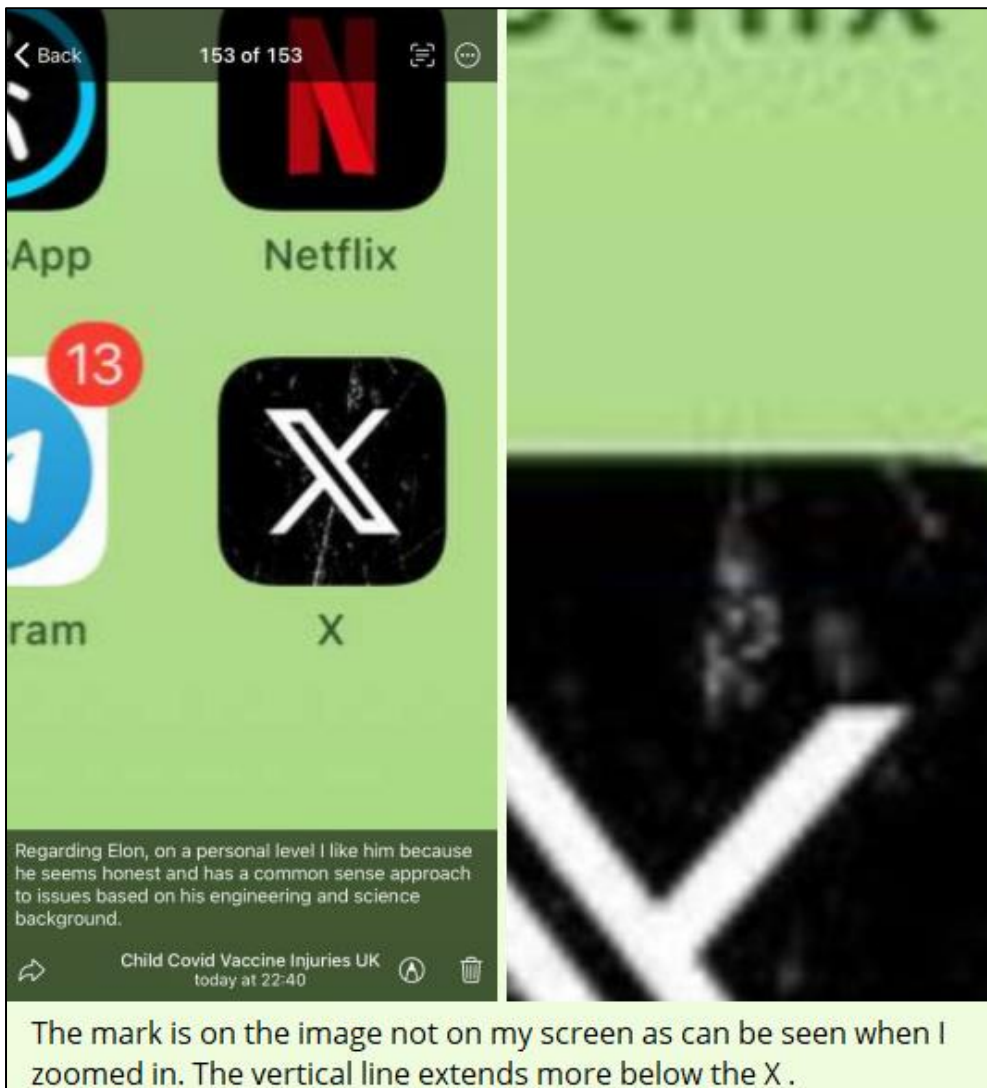

I want to mention a slightly odd occurrence . I downloaded the X app and the icon appeared as an X with a line through the centre. See picture below. This may mean nothing so forgive me if I am over extrapolating. A line through the centre forms an iota chi symbol which stands for Christ. To begin with I thought the line was a dirt mark on my screen but it wasn't. So what might be the meaning?

So, whatever. I am just putting this out there . At this strange time in history a man adopts the X symbol / iota chi. edited 21:17 ✓

## A face in the dark?

---

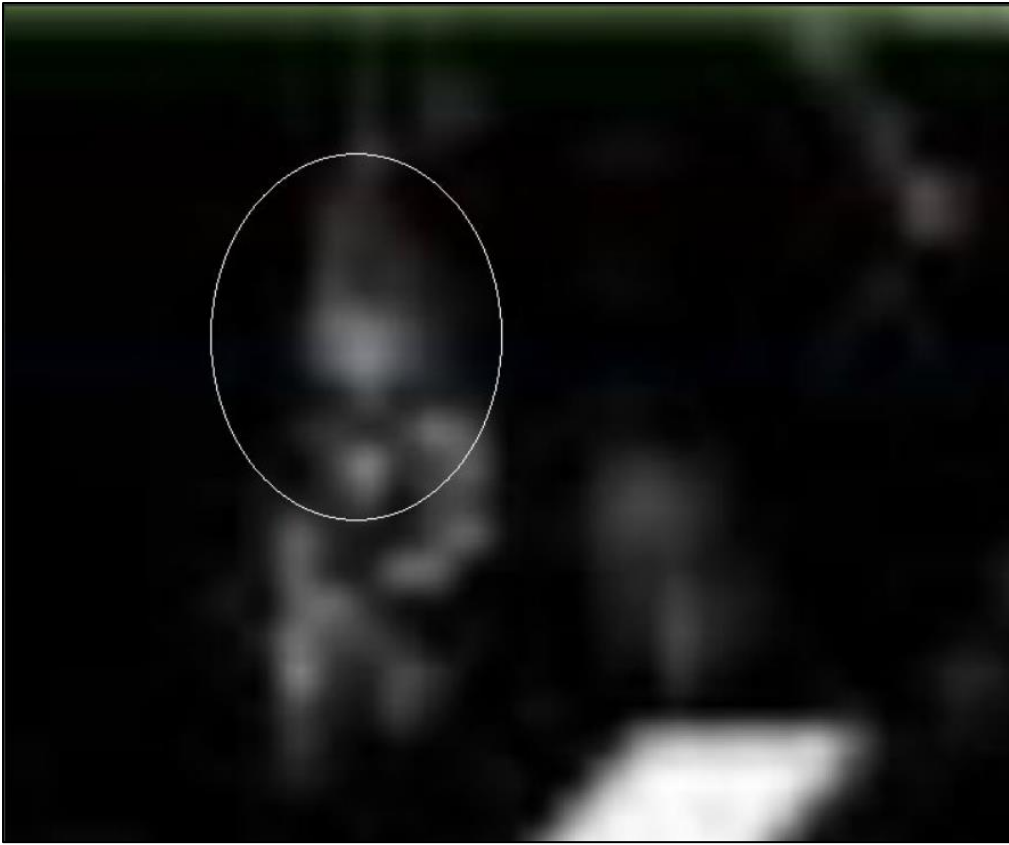

The vertical line through the X was pointing to a mark above the X. Out of curiosity I decided to zoom in on that mark.

The line pointed to a person. It was blurry, but I thought I could make out a face, shoulder and hand.

I asked my Telegram group ([t.me/howbadismybatch](https://t.me/howbadismybatch)) what they thought the mark could be.

I zoomed in again to get a clear view.

Below the face was what appeared to be a right hand in a thoughtful pose, and to the left of the face was what seemed to be the left shoulder, but it was blurred.

This image was suggestive but inconclusive. It sparked my curiosity but awaited a higher resolution image to see what was there.

# Dark magic?

---

I watched Elon on stage with Donald Trump, during which Elon declared himself to be "**Dark MAGA**". I know that MAGA is an acronym for Make America Great Again, but the word also has another meaning in spoken language.

A cool bit of trivia. "Dark Maga" literally means "Dark magic".

The word "maga" has different meanings in various languages:

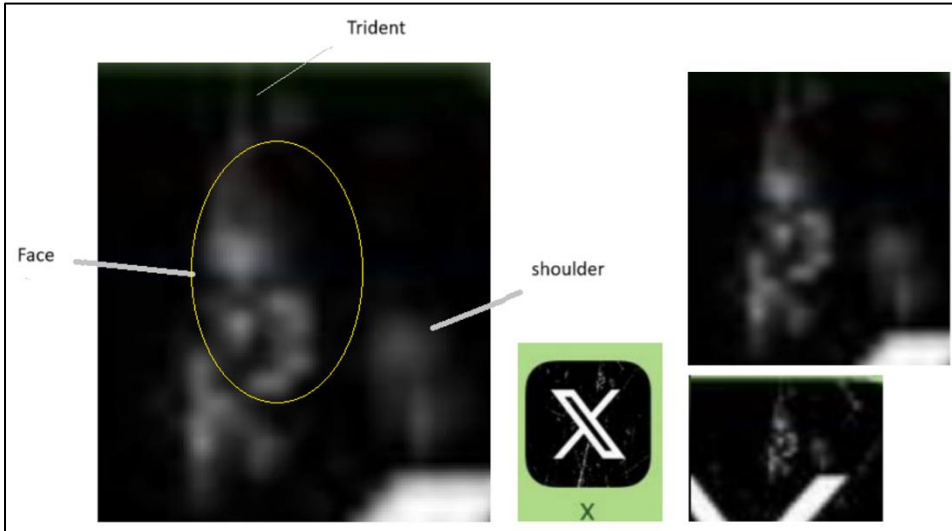

1. **Latin:** In Latin, "maga" is the feminine form of "magus," which means "magician" or "sorcerer." It refers to a woman with magical powers or someone who practices sorcery.
2. **Italian:** In Italian, "maga" is also used to mean "sorceress" or "witch," retaining a similar connotation to its Latin roots.
3. **Spanish:** In Spanish, "maga" can mean "sorceress" or "female magician," similar to its use in Latin and Italian.
4. **Other Languages:** In some Slavic languages, "maga" can refer to a "magician" or "sorcerer," but the context and usage may vary.

Overall, "maga" generally relates to themes of magic or sorcery across these languages.

# Names as puzzles

---

I posted this pdf to my friend Mark Griffin on Telegram

Me: "This is the icon that I downloaded when I installed X on my iPhone a few days ago"

Mark: "Spoooooooky!!"

Me: "Yeppp"

Mark: "Do you think they muddled up the image to make it look grungier? I mean what is the face-value reason for the blurry bits? Their excuse?"

At this point, I wasn't sure if anyone else had downloaded the same icon. I knew that I had downloaded mine from the Apple Store but wasn't sure if it was a fluke.

It resembled a ghostly spiritual impression like the ectoplasm photos of the 19<sup>th</sup> century. The combination of a goblin-like face, dark magic, and Christ symbol was intriguing, to say the least.

Mark reassured me that the image was there, objectively in the outside world - it wasn't just on my phone. I hoped others would be able to check if they were seeing the same things.

Mark works in the art and theatre industry, and he told me about Grimes.

Mark: "One of Elon's baby-mamas. Here she is some years ago, looking relatively un-Satanic. One or two years after this she gets record company funding, and her videos become studio set pieces with weird costumes."

Me: "Thanks for the Grimes video. She is wearing an inverted cross, which is a Satanic symbol. How is she connected to Elon?"

Mark: "They made babies. I think two. She has an inverted cross in that video? I never noticed."

Me: "Are they still together?"

Mark: "I think not. They gave their two unlucky children weird names. I see the inverted cross now. I thought she sounded rather sweet and fluffy in that early video. Slim chance I suppose that she was honouring Saint Peter, Christ's rock."

Then Mark told me the names of their children.

Mark: "Musk and Grimes have three children together.

Their first son, **X AE A-Xii**, was born in May 2020, and they welcomed their daughter, **Exa Dark Siderael**, via surrogate in

December 2021. It's uncertain when their third child, son **Techno Mechanicus**, was born."

"Look at the names ^^^. Poor babies."

<https://people.com/parents/everything-to-know-about-elon-musks-family-kids/>

People.com

### Elon Musk's 12 Children: All About His Kids and Their Mothers

Founder of SpaceX and Tesla, Elon Musk, is the father of 12 living children and one who passed away as an infant. Here's everything to know about his children.

Me: "The additional line added to the X (the one that points to the goblin) suggests an Iota Chi - which stands for Christ. The X alone is a symbol for Christ, and the iota stands for Jesus - except, of course, it is our goblin friend.

The association seems to go much deeper. Look at the names.

The first son's name, X AE A-Xii, is phonetically like Isaiah. Isaiah consists of two parts - Isa and Yah - meaning Jesus God. Isaiahii would therefore be the second version of Jesus. Marking his name with X at both its beginning and end emphasises this meaning and creates a strong association with the X-symbol.

Exa Dark Siderael means X Dark Star, but the Siderael part is modified with ael ending which indicates angel. So, her name means X Dark Angel. Once again, there is the inclusion and emphasis on X. Here, X is associated with a dark angel.

I saw that X was not adopted randomly by Elon. He had named both of his children after it. Even more so, Elon had given his firstborn a name related to Isaiah (Isa is the Muslim name for Jesus, and Yah means God), and he had bracketed that name between two Xs - creating a strong

association between Christ and the X symbol. Further, he had appended the number 2 to the end of the name - Jesus version 2.

His daughter's name "Exa Dark Siderael" suggests "X Dark Angel". This name associated the X symbol with a dark angel / star!

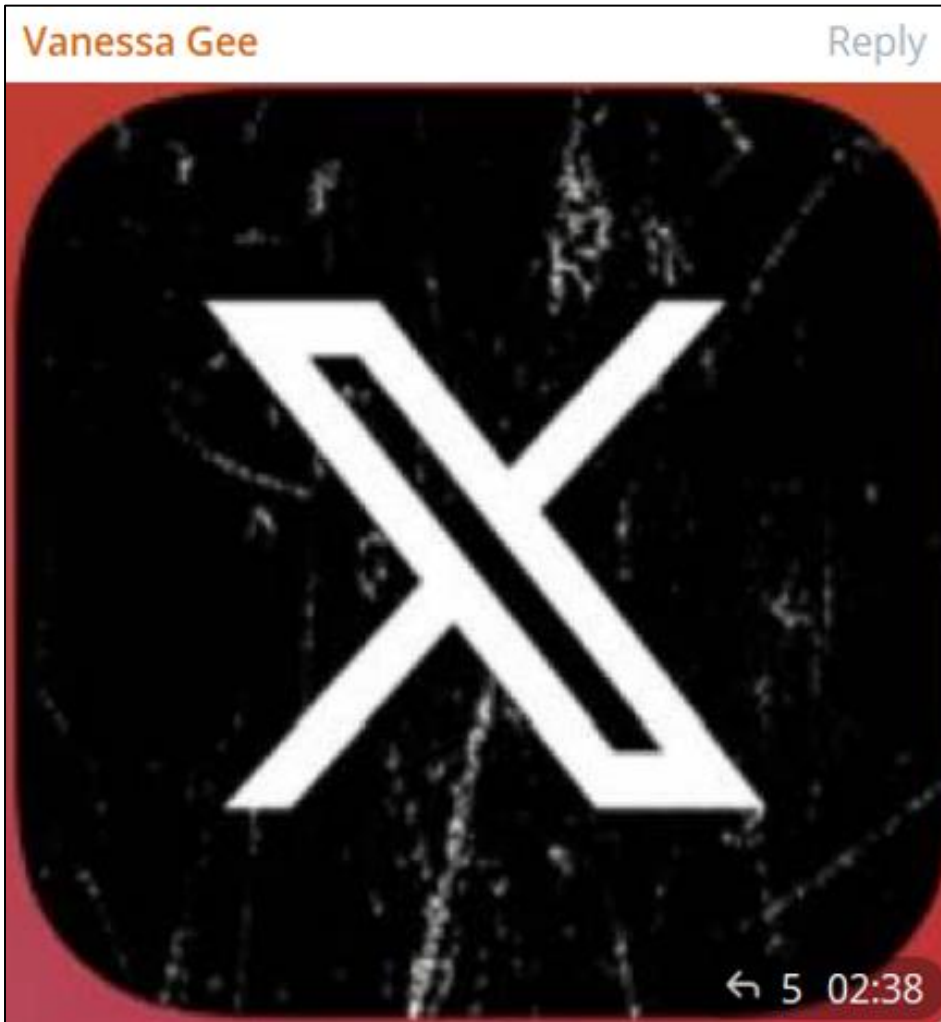

So, it seemed an unlikely coincidence that the X had a "scratch" - an additional line forming an iota chi, a traditional symbol of Jesus Christ.

## Higher-res images

---

I messaged my group, asking others to download the X icon from the app store, and let me know if they could confirm the images I was getting.

Two people responded -

Mary Keigh

Vanessa Gee  
Photo

The images from my group had a higher resolution from the one I had downloaded and zoomed on the 9<sup>th</sup> of October 2024.

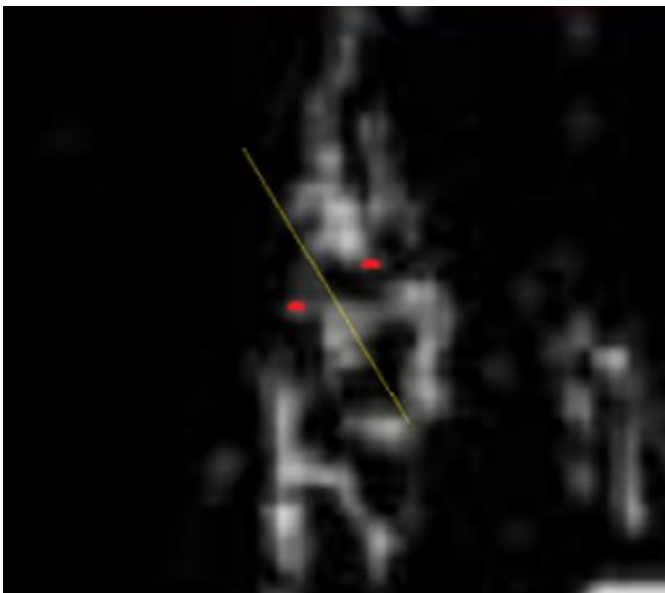

The face now appeared as if it were facing me, but one half was in shadow. It was tilted to its right at 20 degrees to the vertical, and it was slightly rotated to the right.

The second image has a higher contrast, which eliminates the softer shading and leaves a skeletal outline of the brightest areas of the image. This contrast effect erases the trident and breaks up the image a bit.

The chevrons on the creature's left shoulder are very clear. They are military insignia suggesting high rank - a Commander. There appears to be a sword shaped object in its right hand.

Here is the axis of facial symmetry. I have marked the eyes in red. The line of symmetry runs through the centre of the chin, the nasal cavity and is approximately centred between the two eyes - though the head is rotated slightly to its right.

## Hidden message

---

One of the benefits of the higher resolution images provided by Mary and Vanessa was that they revealed a string of letters and numbers within the central line - the vertical line that intersects the X to form an iota chi. I noticed that there appeared to be writing within the line. I put a call out to my group to see if I could obtain a higher res image of the line to make it more readable.

Me: "This is not a regular "scratch". It contains discernible letters and symbols arranged in a sequence. Hopefully, a high-res image will resolve the letters more clearly.

This is a call out to everyone out there. Please download and zoom your X logo and please provide a high-res image. There is a message here - in this line - and it is vital that we decipher it.

Please post your image on Telegram in my group, or email it to me [craig@howbad.info](mailto:craig@howbad.info)"

A message was also sent out to my other groups

Me: "Just in: The vertical line of the iota chi contains discernible letters and symbols - it's a message. I need high-res image of this ASAP to decipher it. Anyone out there who is good with images - please get back to me quickly about this.

The symbols are possibly Greek or Egyptian. Whatever, this is made up of letters. It is not a random scratch but a deliberate line of "code".

I felt a growing sense of amazement, and shock. It was hard to put into words. These archane symbols, embedded within an iota chi, pointing to ...

The thing that came to mind was some form of ritual - like an incantation in symbolic form.

Me: "What is going on with X is beginning to look like ... witchcraft. Christ is supposed to be the iota in the iota chi. Instead we have the goblin figure and this line of code is pointing to him."

## Even higher-res images

---

I put out an immediate call to my group for anyone skilled in high resolution imagery. I needed a higher res image to decipher the message.

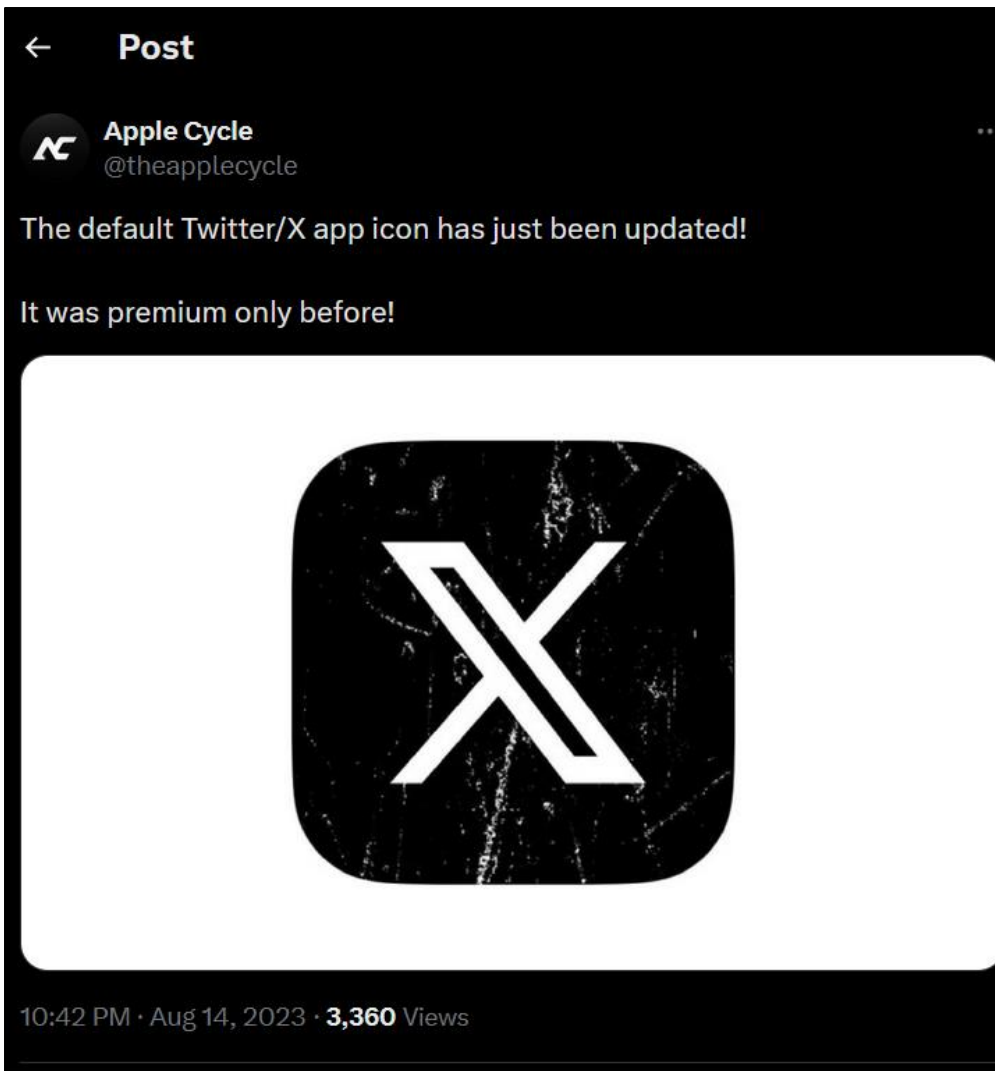

A member named **Mel Mel** said that they had found a high-res image.

You can view the image here -

<https://images.app.goo.gl/2bxQTddiyCw1nke58>

This image was uploaded to Twitter on 14th August 2023. It had been posted online for 14 months and had been viewed by 3360 people by the time I downloaded it.

<https://x.com/theapplecycle/status/1691203715028471809?mx=2>

The images used for much of the work in this book can be downloaded here

<https://howbad.info/Image-A.png>, <https://howbad.info/Image-B.png>,

<https://howbad.info/Image-C.jpg>

Below are the links to the images online. You should download the images directly, so you can see that I have not created these images myself, but that the images come from independent sources online, and that most of these images were originally posted online more than 1 year ago, in established publications with a wide readership.

A high-resolution image was recorded on other sites, besides the image on X itself, which was uploaded by @theapplecycle on 15<sup>th</sup> August.

**Uploaded 15<sup>th</sup> August 2023:**

<https://howbad.info/Image-F.bmp>

<https://howbad.infi/x-image-8.jpg>

The creature above the X is clearly visible, even at this low magnification. You can see the sword in its right hand and the chevrons on its left shoulder.

Below the X, the main "scratch" (pointing to the creature) consists of letters and symbols.

## Additional image sources

---

These are mostly lower res images but serve as a reference point showing the earliest dates when the "scratched" logo appeared online, generating much discussion.

# Number of the beast

---

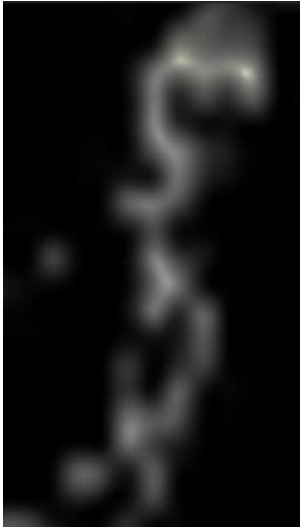

On **October 14<sup>th</sup>, 2024** I zoomed the image as best I could to see the letters  
- I noticed 3 repeating sections

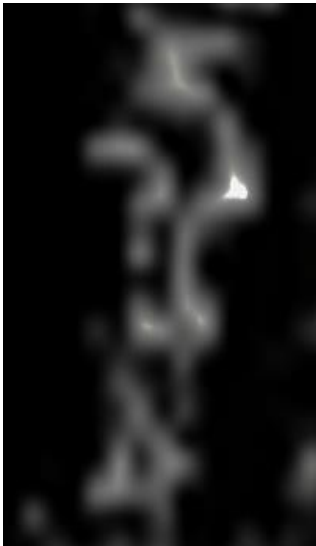

The first thing I noticed was the three "5" symbols - that identified a sequence that repeated 3 times (in the yellow boxes). Remarkably, these 3 sections spelled out **SIX, SIX, SIX**

# The first SIX

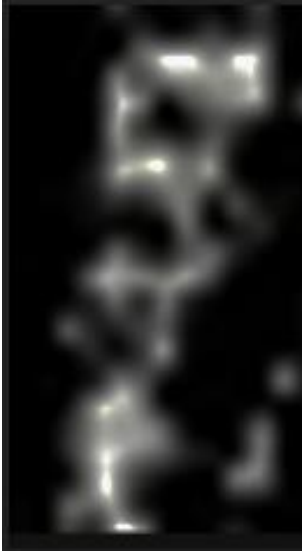

---

## The third SIX

---

The image of each "SIX" uses high contrast and low brightness to reduce "noise".

It is fascinating that the creator/s of this image used 3 variations of the letter x.

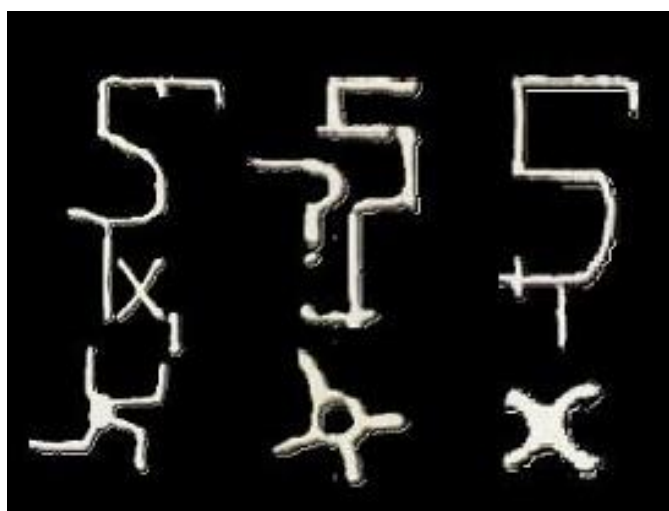

# Codex ephraemi rescriptus

---

*Codex Ephraemi Rescriptus*, give the number of the beast as  $\chi\iota\varsigma$  - that is Chi - Iota - Sigma. This is SIX written backwards - [https://en.wikipedia.org/wiki/Number\\_of\\_the\\_beast](https://en.wikipedia.org/wiki/Number_of_the_beast)

It seems like the writer of Revelations may have been trying to describe letters from our alphabet using their alphabet. It is curious that a three-letter sequence appears to repeat 3 times, and though there is extra noise in each repetition, the markings always include S I X.

It is also curious that the 3 "SIXES" encapsulate ALL the message except a figure of a beast - which I describe below. That ALL the letters should form JUST this pattern is remarkable. Here is a sketch of the sixes as they appear in the "scratch"

**XIS XIS XIS**

## Higher contrast

---

If this image is truncated on your tablet or phone, then please view the high-res images linked to in the section above.

# Name of the beast

---

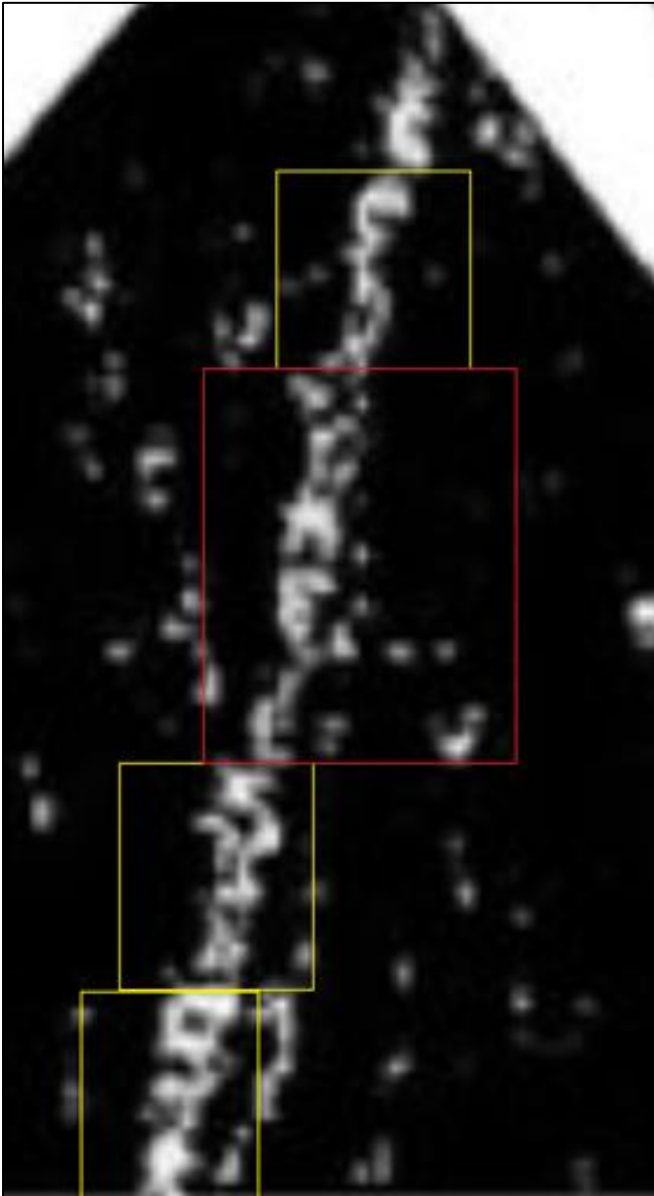

Between the first and second SIXES there is the following -

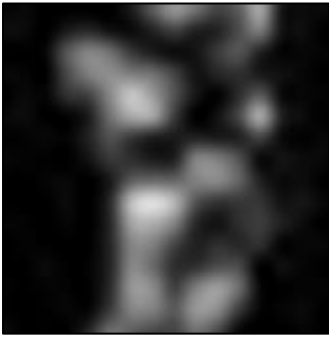

Look at the entire image. It depicts a person walking in shoes, but the person has a devil's head. Notice how the shoe in the bottom left is pushing off, and the shoe in the bottom right is stepping down - in a striding position.

The walking posture is significant because only humans walk upright like this, and only humans wear shoes, yet the head is of a beast. It is saying that it's a beast in the form of a man.

Notice how the three SIXES take up the entire line except for the section with the "walking beast"

The first character is a face. We can tell by its symmetry - 2 ears, 2 eyes, a nose and a mouth. It looks like a devil (beast) but not human.

The abdomen of the beast is also a face - a human one. The face is made of two letters that spell **ME** - as if to say, "**this is me**". In fact, if you zoom out, the word **ME** stands out as the most prominent feature.

The imposition of the Beast's head above the human one suggests the human is under the control of the Beast - a form of possession.

However, the bottom part of this face has been partitioned by a horizontal shadow, so that its illuminated side forms an E.

This E is followed by an L horizontally, then by two horizontal spaces for two more letters.

**E L \_ \_** (it's like a hang-man puzzle). The name might be E L O N.

The name issues from the mouth of the face in the abdomen.

According to some sources Elon was named El Elyon at birth - <https://play.anghami.com/episode/1136453114>. El Elyon means "God Most High".

In Revelations the Beast demands worship. So, it is interesting that the name in the X logo begins with El, which means God.

E L is also spelled vertically, then followed by two vertical spaces for two more letters. Notice the letter E at the top, and the letter L at the bottom.

Notice also the very large E sitting in the angle of the L.

Finally, the L itself is intersected by a horizontal line, giving the effect of an E placed on top of an L.

Since Elon Musk is the person who introduced this logo in August 2023, it is a bit odd that this beast figure should be labelled with what might be Elon's name.

And, as you have seen, this beast figure is positioned in between three sixes "SIX" "SIX" "SIX".

# Face of the beast

---

I took another look at the creature above the X. The higher resolution of this image revealed more details.

A face is still discernible that is symmetrical. It is tilted to its right, at about 20 degrees. It has pointed ears, and two piercing eyes. It seems to be holding a sword or weapon in its right hand. Chevrons seem to mark its left shoulder - indicating that it holds military rank - a commander. The sword also suggests command, since it is a symbol of rulership.

This creature is humanoid but does not look human. Its mouth is larger than a human mouth. The shape of the mouth is symmetrical but not round - dips in the centre. And there are two symmetrically placed indentations on either side of this central dip. Its chin is two-pointed. The forehead looks shortened, and the brows are ridged. It does not look youthful - but rather it looks old - ancient.

Could this be a digital image of Satan? If so it would be the only image of him in existence, and its appearance suggests that he is stepping out of the darkness and revealing himself - possibly in order to take the reins of power.

# Artistic depictions of human-dragon hybrid

---

In most artistic depictions, a humanoid dragon has

- A two-pointed chin
- pointed ears
- larger mouth than a human mouth
- shorter inclined forehead
- heavily ridged brows
- absence of facial hair

So, the face has non-human, perhaps reptilian, characteristics.

# Counting

---

Above the head is a curious number sequence which includes the numbers 1, 2, 3 and 4. A digital trail winding off into the ether above its head. Is this a symbol for digital transmission? (something like Neuralink?)

You can see the numbers ascending as you read DOWN the axis of the central line - the numbers visible in this picture are 1, 2, 3, and 4

The number 5 is visible on his hand where he holds the sword. Why is his weapon numbered 5?

**1, 2, 3, 4, 5**

Then we have the sequence mentioned previously - three words spelling **SIX-SIX-SIX**.

So, there is a unified meaning to both parts of the image. The part above the X is not a random mark, but rather is related semantically and sequentially to the part below the X.

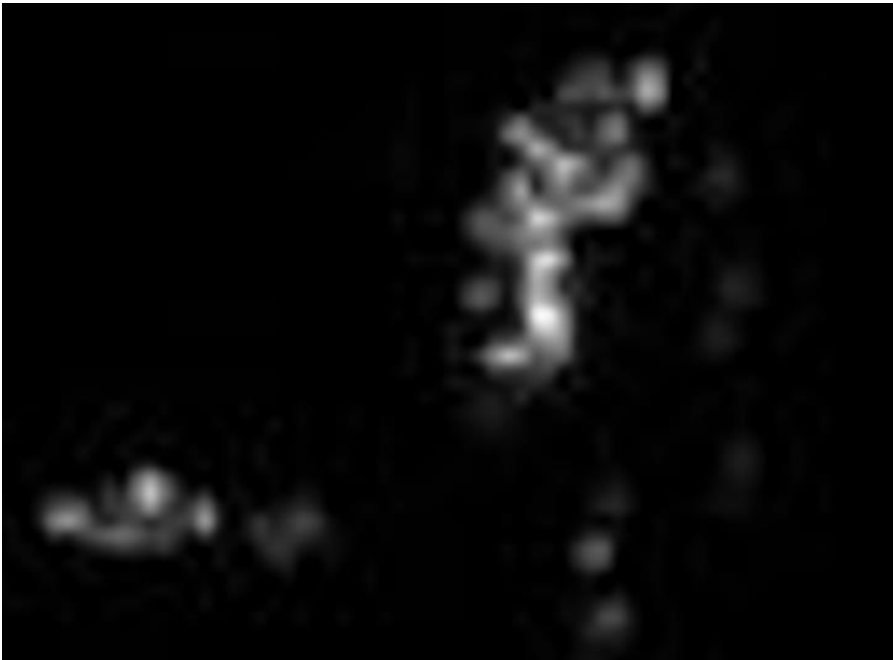

All this is happening on the central axis of an **iota chi** - suggesting that it is an incarnation of a "Christ".

The ascending sequence of numbers suggests a process - whereby the creature above the X is falling into or becoming incarnated into the person below the X - the person signified by **SIX-SIX-SIX**.

## Tools of the beast

---

Above the X on the left-hand side there appear to be images of a robot and a drone. See <https://howbad.info/x-image-8.jpg>

The robots neck looks tubular, and its head looks flattened and metallic. It has eyes. It is holding a spanner and is poised next to what may be a battery, since it has a battery shape. These images suggest that robots and AI might be used to implement the will of the beast.

# Qualifications of the beast

---

It's one thing to claim to be the beast, and another thing to qualify as it. Anyone can make a claim, but very few can measure up to the qualifications needed to fill that role.

Revelations 13 describes the beast as a man who has the resources to -

- Make a living image of another person
- Carry out global surveillance to detect dissent
- Bring fire down from heaven, and perform many wonders
- Control buying or selling
- Introduce a mark that allows buying and selling

So, who could possibly qualify as the Beast? Who has the necessary qualifications?

**AI:** to make a living image of another that is responsive to questions requires advanced AI. **xAI Corp** owns the world's most powerful AI supercomputer. Such a computer might also compute the most probable way of achieving any outcome and generate the appropriate policies.

*"Colossus, the world's largest AI supercomputer, is being used to train xAI's Grok family of large language models, with chatbots offered as a feature for X Premium subscribers. xAI is in the process of doubling the size of Colossus to a combined total of 200,000 NVIDIA Hopper GPUs."*

**Surveillance:** Global surveillance is one of the purposes of **StarShield** - a subsidiary of **Space X** - using 6230 satellites that can monitor communications and movements globally.

*"Starshield is a business unit of SpaceX creating purpose-built low-Earth-orbit satellites designed to provide new "disruptive" military space capabilities to U.S. and allied governments.<sup>[1][2][3][4]</sup> Starshield was adapted from the global communications network Starlink but brings additional capabilities such as target tracking, optical and radio reconnaissance, and early missile warning."*

**Fire from heaven:** The **Space X** satellites communicate with each other and with ground stations using laser. This leads to fast communications necessary for providing information to weapons systems that can intercept missiles or ground targets.

See <https://interpret.csis.org/translations/starlink-militarization-and-its-impact-on-global-strategic-stability/>

**Transactions:** For online P2P payments, the predecessor of PayPal was a company called **X.com** - and they truly initiated the first person-to-person payment system that was online and electronic (circa 1999). And **X.com** was later renamed Paypal.

**Digital Mark:** A mark that allows transactions might be a card or digital passport, though the Bible suggests that the mark is on the hand or forehead - which suggests that it may be attached to the body or implanted. Neuralink is a chip implanted into the brain that acts as an interface linking a brain to a computer.

*Neuralink Corp.<sup>[4]</sup> is an American neurotechnology company that has developed, as of 2024, implantable brain-computer interfaces (BCIs). It was founded by Elon Musk and a team of seven scientists and engineers (Max Hodak, Benjamin Rapoport, Dongjin Seo, Paul Merolla, Philip Sabes, Tim Gardner, Tim Hanson, and Vanessa Tolosa).*

So, who could qualify? Who has advanced AI and surveillance capability, and experience of controlling digital transactions? Who could possibly mark people by implanting a digital interface that identifies them and relays information about them?

Very few.

# Centralised Digital Currency

---

Revelations 13 describes a system of surveillance and control created by the second beast - the one associated with the number SIX-SIX-SIX. This includes control of financial transactions.

How might this be implemented in the 21<sup>st</sup> century? Control of financial transactions is only possible if your currency is not accepted or if you are not accepted by a seller or buyer. People will always trade for cash regardless of the identity of the buyer, so it must be that the currency is not accepted, which suggests that it's validity must be tied to an individual's identity. Therefore, this system requires -

1. A cashless digital currency
2. The validity of which is controlled centrally
3. Tied to your identity
4. Conditional upon compliance with rules such as
  - a. what items you can buy
  - b. where you can buy from
  - c. how much you can buy
  - d. how long your currency is valid for
  - e. your social credit score

By limiting purchases to a geographical area, it will provide a means of also controlling movement.

If the sphere of control of the Beast is digital, then it will probably also include control of bank accounts, utilities (smart meters), information (internet access and social media).

# Control of Information

---

In previous times the government controlled people through mainstream media. With the arrival of the internet people began to hear alternative views. Then with the arrival of social media people were exposed to data, and evidence that were contrary to government narratives. As a result governments lost the trust of the people, and with it their power.

They want this power back. The only way to do so is to take control of all social media and the information highways. And this can be done using advanced AI that tells you what you want to hear (pacing) then leads you in their direction (leading).

## Using AI to Shape the News

The X platform has grown in significance since August 2023. In places like Africa it accounts for 90% of the alternative news content outside of mainstream media. Will it monopolize more of the market? Will X become the only social media?

Once X becomes the only alternative news media then AI may be used to shape the information you receive. AI, armed with data from global surveillance, and a deep analysis of your demographic, can calculate the pitch most likely to be believed for achieving any outcome. Then it can generate a plethora of articles, images and video content to create a convincing presentation, tailored to any group. AI can allow freedom of speech, yet limit freedom of reach, so dissident voices are confined to their own echo chamber, whilst giving the impression that they are being heard, using bots to "like" posts, and send realistic replies.

What we need to realize is that the AI is already used to determine what news content reaches you, and how far your own posts reach to others, for example Google search engines run algorithms that exclude results that are contrary to some government narratives. Facebook and YouTube do the same.

First and foremost we are in an information war. If governments learned anything from the "plan-demic" it is that they must control information if their agendas are to be successful. They must control social media - and an AI super-computer used for information control is the ultimate and most effective way of doing this.

During "Covid" the governments failed to win the media war because they lost control of social media. During the "post-Covid" era they might -

1. Consolidate social media into a single platform that they control
2. use more advanced AI to suppress the reach of dissident posts
3. use AI to impose immediate financial penalties upon dissident posters
4. use AI to generate believable news based on your personal preferences

# Why release this logo?

---

## 1. Mindset

The logo embodies many symbols from Revelations 13 - including -

1. the SIX-SIX-SIX
2. the Beast-man hybrid
3. the explicit image of a devil-like creature above the X
4. laid upon an iota chi in mimicry of Jesus Christ.

So, the image embodies satanic symbols found in Revelations 13.

The scratched X logo replaces the previous Twitter logo (that looked like a dove). The dove symbolises the Holy Spirit and mercy in Christian tradition. As you have seen, what replaces it is a symbol of the opposite - the symbol of an Evil Spirit.

The scratches themselves suggest a marring of the cross - as if an anger were being directed against it - showing irritation and pain - as if the scratches were inflicted to erase it or deface it.

The letters and words embedded in the central line are not of uniform size, but are irregular, and contorted as if scribbled by a disturbed mind - filled with inner rage - and yet the content is highly integrated - reflecting multiple meaning simultaneously.

The Beast seems to aspire to be God, hence its name E L \_ \_ . Perhaps this is why it seeks to erase the cross with scratches. A devil's head is above E L \_ \_ 's head suggesting E L \_ \_ is under the control of that devil - possessed.

## 2. Is it sincere or just art?

CHILDREN: Elon gave his children names that are related to the symbolic meaning of the X logo and embody the X itself.

HIMSELF: The logo indicates that the Beast has a 4-letter name beginning with EL. This may be ELON - if so then Elon would be identifying himself with the Beast.

BUSINESSES: Elon gave his businesses names that are related to the X logo.

- **X.com:** 1999 Musk co-founded the online banking platform, X.com, which allegedly sparked his obsession with the letter X, though

once the company merged with Confinity in 2002 was renamed what is now known as PayPal by 2001.

- **Space X:** 2002 Musk co-founded the Space Exploration Technologies Corporation, or [SpaceX](#), the aerospace company that manufactures aircraft and provides launch services and satellite communications and, according to CNBC, is now valued at [\\$150 billion](#) as of this month.
- **Model X:** 2015 Musk's automotive company Tesla debuted its third vehicle, the Model X, which has grown to be one of the best-selling electric vehicles, having accounted for—along with the Model S—[19,225](#) of the company's 466,140 deliveries this past quarter and 10,695 of its [422,875](#) deliveries in the first quarter of the year.
- **X.com:** 2017 Musk [tweeted](#) that he had purchased back the rights to X.com, saying it had "great sentimental value" to him.
- **X Corp:** April 18, 2023 Musk informed Twitter's corporate partners that the company would be operating as [X Corp](#) after court documents found that Twitter, Inc. no longer existed.
- **xAI Corp:** July 12, 2023 Musk, along with engineers at his fellow companies Tesla and OpenAI and other big tech companies Google and Microsoft, launched artificial intelligence company [xAI Corp](#) with a goal "to understand the true nature of the universe."
- **X:** July 23, 2023, Musk announced the rebranding of Twitter, a popular social networking company he acquired last year for \$44 billion, to X.

### 3. Consequences?

The X logo contains Satanic symbols, which would be expected to impact the perceived trustworthiness of whoever adopted this symbol as their logo. Further, the name of the beast EL \_\_, suggest that Elon may be identifying his name with the beast, and this would be expected to have an even stronger impact on perceived trustworthiness - affecting his X-business and his political machinations.

These potential consequences show that the adoption of this logo was not a trivial act, since he was taking a position that put his business reputation and political purposes at risk.

#### **4. How long has the logo been public?**

X replaced Twitter in July 2023. The initial X logo was replaced with this scratched one in August 2023, and it has been visible globally since then. It was introduced 42 months after lockdowns began in March 2020, and 3 months after the Covid "pandemic" officially ended.

During the Covid "pandemic" many authorities collaborated with doing evil - blind adherence to injecting a toxin into others whilst willfully ignoring its consequences, hiding truth, and forcing people with threats. Authorities had become godless, mindless, and heartless. Consequently, many died or were severely injured.

Soon afterwards, the logo was revealed - embodying symbols associated with the Evil Spirit - the Anti-Christ - and it replaced the symbol of the Holy Spirit - (Twitter's dove).

#### **5. Why release this logo at all?**

It makes me wonder why this X logo was made public at all. It would make abundant sense for Elon not to have used this logo if his aim were to appear as a normal trustworthy person. It is surely detrimental to his X business, and to his political machinations, to adopt a logo that might appear satanic.

The logo marked a significant transition. The tail-end of what many perceive to have been a global democide, coincided with the appearance of a symbol of absolute evil.

People who do not believe in either God or Satan would dismiss this logo as insignificant - just a cartoon. Believers, on the other hand, might perceive the logo as a warning sign.

So why would Elon provide a logo that might cause believers and good people a degree of concern? Possibly because to make a free conscious choice between the Beast and Christ, people will need to know who they are choosing - so the Beast has to declare itself openly.

# Putting it in context

---

There are two beasts described in Revelations 13. The first beast is an entity that has authority over all nations and peoples globally for a period of 42 months. We are told that it is given this authority by the Dragon (Satan) - so it is authority to do evil.

So if the X-logo marks the beginning of the second beast's time, then we should find that this was preceded by 42 months of the first beast - exercising global authority for the purpose of evil. Is this the case?

The X-logo appeared in August 2023

.

**QUESTION** : What happened during the 42 months from March 2020 till August 2023?

**ANSWER** : We had 42 months of tyrannical policy implemented globally by governments, with the sole aim of pushing a toxic jab. Governments appeared to lack any independence of thought, but did everything in lockstep, as if they were controlled by a central authority. The adverse effects of these jabs were censored, and people were punished for speaking out.

I find it a curious coincidence that a period of 42 months of global evil, and the manifestation of a one world government cabal, should be followed immediately by a declaration of the Beast - just as described in Revelations 13.

So the first beast has already passed. Now the second beast has arrived.

## **What we might expect**

The second beast will assume all the authority of the first beast to achieve all the goals of the first beast, and direct people to obey the first beast, but will use different means - surveillance, capital punishment and digital control - all of which will violate your legal and constitutional rights.

Whilst the purpose of the first beast was political control of leadership, the purpose of the second beast is grass-roots control, implemented through the take-over of independent media, the control of its content using AI, the close monitoring of every individual's online activity using AI, and the immediate implementation of punitive financial consequences using AI.

Though the duration of the second beast is not specified, it will probably be 42 months, since a total of 84 months makes a whole 7 years. So until February 2027.

## **Covid**

March 2020 to August 2023 - the Covid era.

During this time all nations walked in lockstep following a single plan - to lockdown their populations, then coerce them into taking a jab that was known to cause clots, strokes, menstrual disorder, cardiac damage and nerve damage - resulting in the murder and maiming of millions of men, women and children on a global scale by their own governments.

Every country acted in unison to censor and hide the jab's adverse effects, and continued administering it at warp speed, as if the intention was to cause harm.

But the evil was not confined to those governing society. It was far more pervasive.

Throughout 2020, 2021, 2022 and 2023 we saw the ability of seemingly "nice", "respected" people to flip into collaborating with and encouraging the poisoning of their patients or students or voters, and we saw the brutal suppression of the truth with threats of immediate dismissal from employment, denial of medical aid, threats of criminal prosecution, threats of isolation/incarceration or locking out from education - all enforced and supported by members of the public - by employers, by teachers, by church leaders, by doctors, by TV presenters, by judges, by retailers.

The level of deception, censorship, violation of rights, and deliberate harm during this period felt very unnatural, and very different from the behaviour that had preceded it.

Our rights and legal protections were simply cancelled overnight - the right to informed consent, bodily autonomy, even our right to breathe freely, to exercise, to be with family and friends, to work or study, to travel, to communicate.

In New York, prisons were built where healthy people could be incarcerated indefinitely and force medicated. Our rights were trampled upon.

It felt like there was a polarisation in society, a division, a separation between those who chose good and those who chose evil. The goats were separated from the sheep, the wheat from the tares . . . it felt like good and evil were becoming more distinct, as if people were picking a side.

## The Fatal Wound

Nero committed [suicide](#) by the sword at age 30.. This was almost fatal for the beast (Roman empire) - which collapsed into a period of civil war. 4 different emperors reigned with in a single year. The chaos within Rome was so great that Vespasian had to call off his siege of Jerusalem and march back to Rome to restore order.

<https://shreddingtheveil.org/2017/11/18/frequent-mistakes-part-i-rev-133-the-wounded-head/>

3 transient emperors reigned after Nero, the first of whom was named Galba. That's why the prophecy says "he must remain for only a little while".

After Nero's death in AD 68, Rome saw a quick succession of short-lived emperors ([Galba](#), [Otho](#), and [Vitellius](#)) and a year of [civil wars](#) until [Vespasian](#) eventually took control in AD 69. The Roman Empire destabilized so greatly that [Tacitus](#) reported: "Many believed the end of the empire was at hand".<sup>[30]</sup> According to [Suetonius](#), to the surprise of the world, "the empire which for a long time had been unsettled and, as it were, drifting through the usurpation and violent death of three emperors, was at last taken in and given stability by the [Flavian](#) family".<sup>[31]</sup> This may be a reference to the mortal wound on one of the heads of the beast "inflicted by the sword" which was later healed ([Revelation 13:3](#), [13:14](#)).<sup>[32]</sup> D. K. Wong (2003) wrote that the "healing of the wound" alludes to the so-called [Nero Redivivus legend](#) ("revival of Nero" myth). A rumour said that Nero had just disappeared to [Parthia](#), and would one day reappear.<sup>[33]</sup>

## Blasphemy

In [Revelation 13:5-8](#), the beast was given a mouth speaking in blasphemies against [God](#) and his name. Inscriptions have been found in Ephesus in which Nero is called "Almighty God" and "Savior".<sup>[27]</sup>

## Worship of the Beast

In verse 4, the beast is worshiped by the world alongside the dragon that gave it authority. Nero and [Caligula](#) "abandoned all reserve" in promoting emperor worship—they were the only two who demanded divine honors while still alive. Nero claimed to be the sun-god [Apollo](#).

## Persecutions

[Revelation 13:7](#) speaks of the power given to the beast to make war with the [saints](#). Nero was the first of the imperial authorities to persecute [Christianity](#). [Tacitus](#) records the scene in [Rome](#) when the [persecution of Christians](#) (or Chrestians)<sup>[28]</sup> broke out: "And their death was aggravated with mockeries, insomuch that, wrapped in the hides of wild beasts, they were torn to pieces by dogs, or fastened

to crosses to be set on fire, that when the darkness fell they might be burned to illuminate the night."<sup>[29]</sup>

## **42 months**

[Revelation 13:5](#) says that the beast would continue for 42 months. The Neronic persecution of Christians began in late AD 64 and lasted until his death in June AD 68, which is three and a half years, or 42 months.

So the first beast is Rome, and the Roman empire. But the first beast is also depicted as including the 10 horns.

## 10 Kingdoms of Western Europe

Revelations 17 v 12-14 tells us that 10 kings will emerge from the Roman empire in a future time and each will receive a kingdom. Although they are independent kingdoms, they will join together under a common head (called the beast), for a single purpose (to wage war against the Lamb).

<sup>12</sup> "The ten horns you saw are ten kings who have not yet received a kingdom, but who for one hour will receive authority as kings along with the beast. <sup>13</sup> They have one purpose and will give their power and authority to the beast. <sup>14</sup> They will wage war against the Lamb, but the Lamb will triumph over them because he is Lord of lords and King of kings—and with him will be his called, chosen and faithful followers."

<sup>15</sup> Then the angel said to me, "The waters you saw, where the prostitute sits, are peoples, multitudes, nations and languages. <sup>16</sup> The beast and the ten horns you saw will hate the prostitute. They will bring her to ruin and leave her naked; they will eat her flesh and burn her with fire. <sup>17</sup> For God has put it into their hearts to accomplish his purpose by agreeing to hand over to the beast their royal authority, until God's words are fulfilled. <sup>18</sup> The woman you saw is the great city that rules over the kings of the earth."

Revelation 17 v 15-18 tells us that these 10 kings will hate Rome. Rome is depicted as the woman who sits on the 7 hills - she is the prostitute.

The woman you saw is the great city that rules over the kings of the earth."

The 10 kings will burn Rome with fire. This shows that the 10 kings are not Romans, but are 10 kingdoms that bring about the destruction of Rome. This happened in 476 A.D. when the Germanic barbarians sacked Rome and deposed its emperor.

The next chapter, Revelation 18, then describes the fall of Rome and its complete destruction.

When the western Roman empire collapsed, 10 principle tribes took over, each establishing an independent kingdom. The groups that held Roman territories and formed their own kingdoms included the Franks, Huns, Visigoths, Ostrogoths, Heruli, Lombards, Anglo-Saxons, Suevi, Vandals, and Burgundians. Each of the kingdoms established were independent from each other. These became the principle nations of western Europe that we know today. These nations even kept the same names as their founding tribes. Franks - France, Alemanni-Germany, Angle-England.

See <https://www.newtonproject.ox.ac.uk/view/texts/normalized/THEM00200>

See <https://m.egwwritings.org/en/book/1136.212#212>

## Uniting the 10 Kingdoms

These kingdoms were independent and in conflict with each other. However, after two World Wars (1<sup>st</sup> & 2<sup>nd</sup>) these countries came together for the first time, because they wanted to prevent a re-occurrence of war, by uniting against any future aggressor.

8<sup>th</sup> May 1945                      The Second World War ends in Europe. The continent is devastated. Millions of people are dead, injured or displaced. Six million Jews have been murdered in the Holocaust.

1946                                Winston Churchill powerfully declared the tragedy of Europe could only be solved if the issues of ancient nationalism and sovereignty gave way to a sense of European national grouping. He said the path to European peace and prosperity on the world stage was clear: "We must build a United States of Europe."

1948                                At the Benelux Conference in Brussels, Belgium, a foundation was laid for a new organisation known as the European Economic Community. The meeting was attended by three nations - the **Netherlands, Luxemburg, and Belgium** - who saw unity as the only hope of survival in a post-world-war world.

4<sup>th</sup> April 1949                      North Atlantic Treaty Organization (NATO) is established, an intergovernmental security alliance between the **United States, Canada and 10 Western European countries**.

"NATO was founded in April 1949 by **10 Western European nations**, and the **United States** and **Canada**. It is an intergovernmental military organization based on a system of mutual and collective defence."

<https://europe.unc.edu/iron-curtain/history/the-cold-war-part-2/>

5<sup>th</sup> May 1949                      10 Western European countries create the Council of Europe to promote democracy and protect human rights and the rule of law. The European Convention on Human Rights comes into force on 3 September 1953.

"The Council of Europe was set up on 5 May 1949 by **10 countries** (**Belgium, Denmark, France, Ireland, Italy, Luxembourg, Netherlands, Norway, Sweden, United Kingdom**)"

<https://www.coe.int/en/web/tbilisi/the-coe/objectives-and-missions>

9 <sup>th</sup> May 1950	French Foreign Minister Robert Schuman <u>presents a plan</u> for deeper cooperation. He proposes integrating the coal and steel industries of Western Europe. Later, 9 May is celebrated by the European Union as ' <u>Europe Day</u> '.
18 <sup>th</sup> April 1951	Based on the <u>Schuman plan</u> , six countries sign a <u>treaty</u> to run their coal and steel industries under a common management. In this way, no single country can make the weapons of war to turn against others, as in the past. The six are <b>Germany, France, Italy, the Netherlands, Belgium and Luxembourg</b> . The European Coal and Steel Community comes into being in 1952.
25 <sup>th</sup> March 1957	Building on the success of the Coal and Steel Treaty, the 6 founding countries expand their cooperation to other economic sectors. They formalise this by signing <u>two treaties</u> , creating the European Economic Community (EEC), and the European Atomic Energy Community (Euratom). These bodies come into being on 1 January 1958.  A treaty was signed on Capitoline Hill, one of the seven famous hills of Rome. The agreement was called the Treaty of Rome. It brought together <b>Netherlands, Luxemburg, Belgium, Italy, France and Germany</b> .
19 <sup>th</sup> March 1958	The first meeting of the European Parliamentary Assembly, a forerunner of today's European Parliament, is held in Strasbourg, France, with Robert Schuman elected President. It replaces the Common Assembly of the European Coal and Steel Community and changes its name to the <u>European Parliament</u> on 30 March 1962.
1973	<b>England, Ireland and Denmark</b> joined the European Economic Community.
1981	<b>Greece</b> joined the EEC, which made it a 10-nation confederation
January 1 <sup>st</sup> 1986	<b>Spain and Portugal</b> were added, and the European Economic Community officially adopted the goal of a politically unified Europe.
1989	The Berlin Wall was dismantled.
1991	The Soviet Union was dissolved.
December 1 <sup>st</sup> 1992	The economic borders between the nations of the EEC were removed.

1993	The European Union was formed. The EEC joined the European Union and was renamed the European Community.
1995	Three more members were added to the European Union: <b>Austria, Finland, and Sweden</b>
2002	80 billion coins were produced for use in the 12 participating nations, introducing what we know as the Euro.
1 <sup>st</sup> May 2004	<b>Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, and Slovenia</b> all became members of the European Union. These expanded the population of the European Union to 450 million people, surpassing North America as the world's largest economic zone.
2007	<b>Romania and Bulgaria</b> joined the European Union
2009	The European Community's institutions were absorbed into the European Union and ceased to exist.
2013	<b>Croatia</b> joined the European Union.

Since Europe was now united in military, law, industry and trade, it became a coalition of cooperating countries - governed by the central bodies of the European Parliament, the EEC, the Council of Europe and NATO.

### **Which Modern-day Countries Correspond to the Western Roman Empire?**

The Western Roman Empire included parts of **10 modern-day countries**, including:

- **Italy:** The Roman province of Italia
- **France:** The Roman province of Gaul
- **Spain and Portugal:** The Roman provinces of Hispania Baetica, Hispania Lusitania, and Hispania Tarraconensis
- **Belgium, the Netherlands, and Luxembourg:** The Roman province of Gallia Belgica
- **Switzerland:** Part of the Roman Empire
- **Germany:** Part of the Roman Empire
- **Britain:** Much of Britain was part of the Roman Empire

So we have established the identity of the first beast as the Roman empire and the 10 kingdoms that succeeded it - to become Western Europe. The Bible depicts **both of these** as part of the first beast.

The current manifestation of the first beast began with 10 nations of western Europe + US and Canada, and has since grown to encompass far more countries. The nations of western Europe became united to form a super-state or modern empire.

Europe has ambitions for globalism, and from its inception has been allied to another beast - the 2 horned beast of USA and Canada.

We are told that during a period of 42 months 10 leaders from this union are given a global authority over all other nations by the Dragon (Satan), so these leaders are Satanic, and they give their power to the union for the sole purpose of waging war against the Lamb.

After these 42 months, the second beast assumes the authority of the first, to push the agenda of the first - using AI to impose stealth censorship, surveillance, and sanctions.

## Appendix 2: Background to this discovery

---

The following entries in my prayer diary show what happened -

### September 4th

This morning, I prayed to God and **a line of code** appeared. It was constantly morphing from one letter into another. The line was continuous without breaks and I could feel as each letter changed. I do not know what language it was written in, but the symbols were not English. It was a new sensation feeling the letters change.

### September 8<sup>th</sup>

Yesterday was the sabbath and I spent the entire day thinking and writing about **the names of God**. I defined all the distinct kinds of names - which include personal names, numerical names, symbolic shapes, family names, etc.

However, my focus yesterday was on **numerical names**. My idea was that a person could be represented by a number. In the case of God that number would be a prime number - an indivisible unity. I looked at evidence of these numerical symbolic names in Genesis 1.

The next morning was Sunday morning, and I set off to go on my 20km jog through the mountains, but stopped at a neighbor on the way to ask her if she would cook some potatoes in exchange for a share of the potatoes. She agreed, but as I was about to leave, she handed me a small square piece of hardboard with a number neatly painted upon it - and said, "This is your number". It looked like a face with two eyes and a mouth, but when rotated 90 degrees it read 08, and when rotated again it looked like 0 to infinite.

It was as if **God was giving me a number** that represented me as a person.

### September 9<sup>th</sup>

I prayed this morning using autosuggestion that repeated a phrase using different words.

*"I receive your words. Your messages are clear. I **receive your wisdom**. Your words are heard. I listen to your words. We are in communication. Your thoughts are shared, etc."*

Then I heard a voice -

*".... **has gone out to no creatures on the earth.**"*

I did not know what had not gone out, so I prayed again.

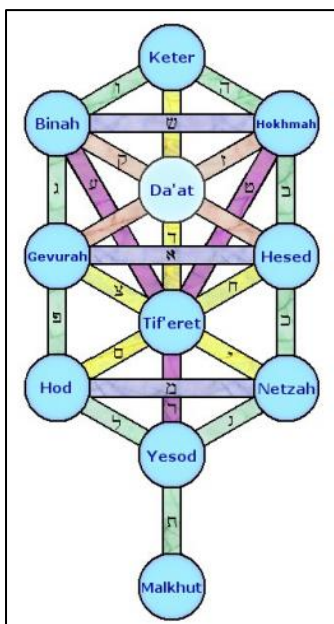

Then I heard a single word

**"Chabad"**

I did not know what it meant. So, I looked it up on Google.

The name **"Chabad"** (חב"ד) is an acronym formed from the three Hebrew words—

**Chokmah, Binah, Da'at**— (<https://en.m.wikipedia.org/wiki/Da%27at>) for the first three sefirot of the kabbalistic Tree of Life after Keter: חכמה, דעת, בינה, **"Wisdom, Understanding, and Knowledge"**.

This is interesting because the content of my prayer was for understanding, wisdom, and knowledge through sharing Gods thoughts, hearing his words and receiving his messages.

The response felt like it came from something non-human since the responder referred to people as creatures. This implied that there are non-terrestrial creatures, or non-creatures - i.e., un-created beings (that is not created during the 7 days).

### **September 21<sup>st</sup>**

I explored the patterns relating the books, chapters, and verses in the Bible. These are related to wisdom also by Pi, and they are related to truth also by Pi.

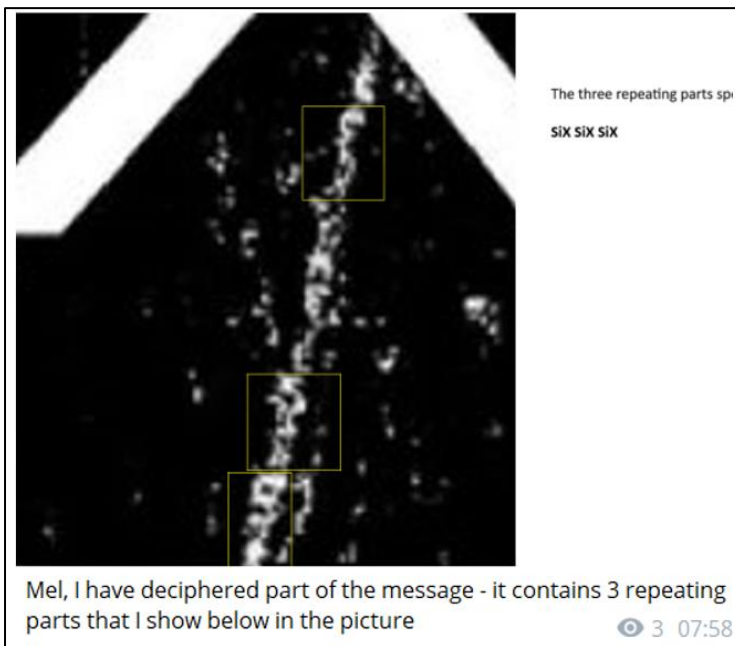

<https://howbadismybatch.com/wisdom3.pdf>

September 26<sup>th</sup>

I noticed the x has a vertical line through it. This is the iota chi.

October 14<sup>th</sup>

October 18<sup>th</sup> 2024

A remarkable atmospheric phenomena, as yet unexplained. It was sunset the 18th October 2024 - 6:19pm. Location was North Tanzania. On a daily jog through the mountains, I stopped to take a picture. The sun was still too bright to discern anything when looking directly, but it looked "different". When I used a phone camera it automatically adjusted the light so the contours of the hills were visible. When it did this the sun was embodying a shape - like a burning cross. I may have put this down to an optical aberration, a could effect - but I have never seen anything like this happen before, and this coincided with the discovery of a message in X only a few days earlier. Doesn't this look a bit like the diagram of the Chabad.

The weird shape was also like an atomic explosion - a mushroom shape. Since the sun sets in the West, I thought this might be a message that I should not return back to the UK (which is in the West) yet.

After sharing this on social media, a commentator pointed out the strange aurora surrounding the sun in my photo. He said that the sun would need to be much brighter to generate such an aurora ... but it was the sun ... and within it was a brighter shape.

I reduced picture hue and contrast to get a clearer image of the shape inside the sun.

I noticed that there were markings in the aurora surrounding the Sun. I could make out the word S I X to the left of the Sun, and an 8 lying on its side above the Sun.

The SIX was the number of the beast I had found in the X-logo 4 days earlier, and 08 was my number.

#### **In summary**

- On September 5th: I saw a line of morphing code.
- On September 8th: that **God could be represented by a number** - then I was given a number.
- On September 9th: prayer for wisdom - and I had a message about Chabad.
- On September 26th: X-symbol - I noticed the iota chi
- On October 12th: Goblin image appears.
- On October 14th: that the **Beast was represented by SIX SIX SIX**

So, over this period, my prayer for **wisdom** took me from understanding that **God could be represented by a number**, to being given my own number, to understanding **the number and name of the Beast**.

"This calls for *wisdom*: *Let the one who has understanding calculate the number of the beast, because it is the number of a person. Its number is 666.*" Revelations 13 v 18

## Appendix 3: Preparation

---

As a Christian, my personal opinion is that this image provides a warning sign **to those who believe**. I suspect that **the time described in Revelations 13 has arrived**.

### Spiritual Fitness

So, it is important to develop spiritual strength against what may come. It is also important to prepare for the return of Christ, and our subsequent accountability by -

- Walking in faith
- Living in righteousness

### Prayer

Passive consent is assumed when we do nothing. You can withdraw consent to all evil authority through prayer.

### Spiritual Fighting

- Oppose darkness with light by sharing truth.
- Oppose illegal laws and policies with peaceful non-compliance.
- Oppose hatred with love.
- Celebrate what is coming soon.

### Preparation for Restrictions on Transactions

- Store food supplies, and products for washing
- Prepay rent
- Prepay utilities
- Protect your cash (accounts will be frozen)
- Create a hidden safe room in your house
- Add security to doors and windows - strengthen them and add infrared sensors.
- Prepare a getaway location (office, lodge, summer house, garage etc)

The duration of these restrictions is said to be 42 months.

## Appendix 4: Know Your Creator

---

It occurs to me that the main challenge of the Beast reign is to decide who to worship. The challenge of this stage is to remain allied to the true God.

The most effective antidote would therefore be to know who is the true Creator. The X logo answers this because it is a scratching or marring of the true iota chi . It seeks to mimic what is truly God.

In this final section, I therefore include evidences for Creation.

### **Sabbath Cycle and Creation**

There are patterns in Israel's history - patterns in the timing of events.

Ref : <https://howbad.info/weeks7.pdf>,

Ref : <https://howbad.info/6a-visiondaniel.pdf>

For example, there were  $777.7 \times 777.7$  days from Creation to the destruction of the first world with the Flood, which is equivalent to  $7 \times 24 \times 60 \times 60 = 7$  "days".

After the Flood, God declared that the Rainbow, with its seven colors, would be a sign that he would have mercy and never again bring a flood upon the earth - and from that time on we find that every covenant is spaced by 430 years = 61.4 sabbath years + 8.6 jubilee years = 70 sabbath years.

Each Sabbath cycle marked a new beginning, a new covenant, just as the first Sabbath cycle marked a new Creation. Each Sabbath cycle also marks the end and judgement of what was before.

So, the major events of Israel's history follow a Sabbath cycle. Their history was shaped in this way for a reason - I suggest that God is reminding us that He is the Creator who establishes new beginnings - and the Sabbath is a symbol for starting again. And this reminder is found in the repeating Covenant cycle in Israel's history, and in the timing of major events.

### **Evidence of Reduced Vitality and Diversity of Species over Time**

Ref : <https://howbad.info/lifespan.pdf>

Ref : <https://howbad.info/lifespan-nations.pdf>

After the Flood there was a steady reduction of lifespan. There was also a depletion of the gene pool, with many species of plants and animals disappearing and going extinct. For example, almost the entire mega-fauna disappeared. Life was more diverse and richer in the past.

Reduced lifespan and extinction are both symptoms of genetic entropy, due to gene loss / information loss.

### **DNA Error Correction**

The error rate for copying nucleotides in human cells is estimated to be 1 in 100,000.

"DNA polymerase enzymes are amazingly particular with respect to their choice of nucleotides during DNA synthesis, ensuring that the bases added to a growing strand are correctly paired with their complements on the template strand (i.e., A's with T's, and C's with G's). Nonetheless, these enzymes do make mistakes at a rate of about 1 per every 100,000 nucleotides. That might not seem like much, until you consider how much DNA a cell has. In humans, with our 6 billion base pairs in each diploid cell, that would amount to about 120,000 mistakes every time a cell divides!"

<https://www.nature.com/scitable/topicpage/dna-replication-and-causes-of-mutation-409/>

Your body makes 3.8 million cells every second, so the total number of copying mistakes per second is 3.8 million x 120,000.

If these mistakes persisted, they would lead to the death of the creature in a very short time, and to the extinction of the species.

However, error correcting mechanisms are in place to remove the mistakes.

[https://www.youtube.com/watch?v=YN8d2O\\_rDoI](https://www.youtube.com/watch?v=YN8d2O_rDoI)

<https://www.youtube.com/watch?v=ODsBTJ1KZY0>

<https://www.youtube.com/watch?v=sX6LncNjTFU>

So, the DNA copying mechanisms must have appeared simultaneously with the error correction mechanisms - otherwise life would have ceased soon after it appeared.

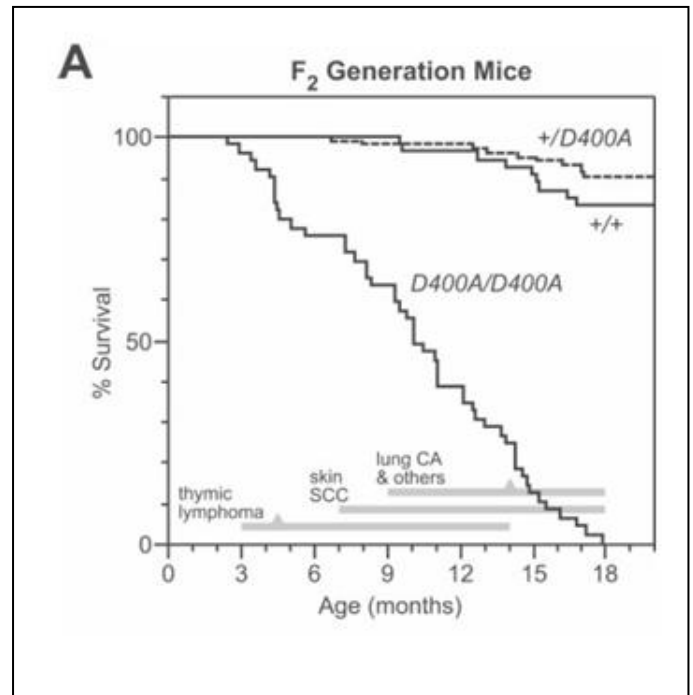

If a cell gathers 120,000 mistakes with each replication without any error correction, then after 1000 duplications it would have enough errors to fill an entire chromosome. Without an error correction mechanism existing, life would have gone extinct within its first generation.

## What happens to a creature when error correction is deactivated?

Ref : <https://www.pnas.org/doi/epdf/10.1073/pnas.232340999>

In this experiment, mice were split into two groups, a control group and a group that received a point mutation that deactivated the proof-reading function of polymerase. These were the results -

- All the deactivated mice were dead by 18 months (1.5 years)  
80% of the control mice were still alive
- 94% of the deactivated mice had tumors / cancer  
3% of the control mice had tumors / cancer

In the chart you can see that higher mortality began at 3 months of age. The first type of cancer to emerge was thymic lymphoma at 3 months. Then, at 7 months skin cancer began. Finally, at 9 months, lung cancer began. These mice developed lymphomas at a young age and a high incidence of epithelial tumors later in life.

So, if the first cell acquired the ability to replicate, yet did not simultaneously acquire the ability to proof read its DNA, then that cell would die prematurely of DNA copying mistakes.

So, both replication and error correction must have appeared simultaneously. Without error correction the first generation of life would be doomed to a premature cancerous fate, and subsequent extinction.

And if both replication and error correction appeared simultaneously, then this is very strong evidence of intelligent design.

## Irreducible Complexity - DNA Replication

Ref : <https://jonathanmclatchie.com/the-dna-replisome-a-paradigm-of-design/>

DNA replication is necessary for natural selection to even work, so you cannot appeal to natural selection to account for the origins of DNA replication without assuming the existence of the very thing you are attempting to explain.

Across the three domains of life, the key enzymes (in particular the replicative polymerases) are not homologous, which has led to the suggestion that DNA replication may have arisen more than once.

All the components listed below must have been in place for DNA replication of the first cell. The simultaneous appearance of all these components is the strongest evidence for Creation.

**DNA POLYMERASE** : copies the DNA

**PRIMASE** : Enables copying to start - synthesizes and attaches RNA primers

**SLIDING CLAMP** : Clamps the polymerase to the DNA, so it does not fall off.

**SLIDING CLAMP LOADER** : Opens and attaches the clamp

**HELICASE** : Unzips the DNA

**SINGLE-STRANDED BINDING PROTEINS** : Stops the DNA from re-zipping

**TOPOISOMERASE** : Stops the DNA from coiling

**LIGASE** : Joins each Okazaki fragment on the lagging strand

**RNA EXCISION ENZYMES** : Removes primers. Carried out by exonucleases.

### **Genetic Entropy :**

Ref : <https://www.icr.org/article/genetic-clocks-verify-recent-creation/>

Entropy is the universal tendency for things to run down or fall apart. This also operates in the gene pool as "genetic entropy" - causing the gradual accumulation of mutations and eventual extinction of species.

**Fact 1** : The mutation rate has been measured in humans and found to be 75 - 175 mutations per generation.

**Fact 2** : 90% of harmful mutations fail to be removed over time, and are passed on to subsequent generations.

**Fact 3** : Over 80% of genetic variability is considered to be harmful because it is associated with heritable disease.

If the rate of accumulation of good mutations is less than the rate of accumulation of bad mutations then it is certain that a species will go extinct. But good mutations won't be able to cancel bad mutations if bad mutations occur in a different organ system, different organ components or in different proteins.

So, the information content of the genome is progressively declining, due to the accumulation of mutations, generation after generation. The vast majority of mutations are deleterious.

1. If there are 75 mutations per generation, and 80% are harmful, then there are 60 harmful mutations per generation and 15 neutral/beneficial mutations.
2. If 90% of harmful mutations are not removed then 54 harmful mutations per generation are not removed.
3. Rate of harmful mutations ( $R_h$ ) = 54 per generation
4. Rate of neutral/beneficial mutations ( $R_b$ ) = 15 per generation
5. Since  $R_h > R_b$  we are going extinct.

But  $R_h$  and  $R_b$  do not cancel each other out anyway, since they occur in different functional units, and in different components of those units.

The analogy would be taking a book, and misspelling 100 words each time it is copied. Some may acquire more accurate spellings by chance, but more words and sentences will become unreadable.

Key words : GENETIC ENTROPY, MUTATION RATE, MUTATIONS PER GENERATION, ERROR CATASTROPHE, DECLINING LIFESPAN, MUTATION ACCUMULATION, WEAK PURIFYING SELECTION, COMPUTER SIMULATION STUDIES, EXPLOSION OF GENETIC VARIANTS, MOLECULAR CLOCK RESEARCH, MUTATION RATES IN MITOCHONDRIAL GENOMES, mtDNA MUTATION RATES.

### **Errant Academia**

For 150 years, we have been taught that life is a random event in a meaningless universe. Such a view not only defies God, it undermines purpose, values, and meaning.

- Is there any meaning to life in a world that is a product of chance and accident?
- Can there be anything of true value worth striving for - or does all our striving count for nothing - just the posturing and hot air of creatures born out of an accidental collision of atoms?
- Is there anything of real value, or is beauty, love and justice merely wishful thinking, the imposition of our own desperate desires upon an indifferent world?
- Do we have a soul, or are we just material bodies with a fleeting existence, destined to fade into nothing?

The result is an existential crisis, which slips into bleak nihilism.

The aim of this section, is to show that there is a Creator, and to celebrate this fact.

The components of replication and error correction must all have been present in the first living creature, and the simultaneous appearance of so many orchestrated components is the strongest evidence for creation. During the ages after creation, the natural tendency has been genetic entropy.

Creation means that Wisdom is the foundation of our universe. We are artifacts of a Mind - children of a greater God.

It also tells us that our future goes on beyond death, because a Creator preceded all biological life, so exists independent of any physical body. These discoveries mark the resurrection of belief in our aspirations, ideals and values, and a foundation for a new and better world.
