AI & Data Acceleration Program for Transformation (ADAPT)
## Powered by the AWS Generative AI Innovation Center

Accelerate your AI journey

Together with the AWS Generative AI Innovation Center we have developed ADAPT to help businesses accelerate their AI goals through increased performance, speed, scale, and cost-effectiveness. As a Premier and Validated AWS Well-Architected Partner, with both Data and Generative AI AWS Competencies, Devoteam has guided **over 250 organisations** on AWS, helping them achieve greater and more sustainable business value.

The ADAPT Journey

ADAPT offers businesses an accelerated journey to identify, prototype, validate, and launch AI solutions on AWS with a proven methodology.

- Work backwards from how you and your business envision integrating Generative AI use cases that move the needle in day-to-day operations
- Validate, prove and demonstrate feasibility, value, and Return on Investment (ROI) upfront
- Access strategic investment and funding throughout the program
- Leverage a library of accelerators from AWS & Devoteam
