STM Learning's medical and forensic content is a print, ebook, and online library of information about identifying, interpreting, reporting, and preventing violence and abuse against vulnerable populations. Topics include:

- **Domestic and Intimate Partner Violence**
- **Sexual Violence & Assault**
- **Child Maltreatment & Abuse**
- **Fatality**
- **Sexually Transmitted Infection**
- **Mental Health**
- **Prevention**

eLibrary Subscription is available at www.stmlearning.com/elibrary.

Core Competencies

- STM Learning, Inc. is a St. Louis-based publisher that has worked for over 32 years creating evidence-based, peer-reviewed content for professionals working with victims of abuse and assault.
- Each book STM Learning produces is backed by the latest research and techniques identified by more than 1,300 prominent authors and contributors that work with the company.
- STM Learning's products are designed to be relevant in both classroom and professional settings; they have been useful in all stages of dealing with interpersonal violence, from prevention to treatment and prosecution.
- STM Learning's authors are a multinational, multidisciplinary cohort of professionals from across the medical, legal, social work, and education fields. This range of expertise allows readers to learn about a wide variety of approaches to working with victims of abuse and assault.
- STM Learning's materials are available for purchase in eLibrary, ebook, and print formats through the STM Learning, Inc. website or Amazon.

Differentiators

- **Provide long history of forensic education:** STM Learning, Inc. has been serving the medical, legal, social work, law enforcement, and education markets since 1992.
- **Pioneer for underserved market:** In 1994, the company designed, developed, and published Child Maltreatment, a classic work on child maltreatment and neglect. This project addressed a market that had previously been underserved by the medical publishing community. It was exceptionally well reviewed by medical and child advocacy groups.
- **Unique mission:** STM Learning's mission is unique among publishers. The company strives to become the world leader in publishing and information services on child abuse, maltreatment, sexual assault, and interpersonal violence, seeking to heighten awareness of the issues and provide relevant information to professionals and consumers.
- **Organization specialists:** STM Learning has a long history of providing educational and training resources to some of the country's largest military bases, hospitals, and government entities.
