What you'll need

- A compatible Verkada Intercom
- A #2 Phillips screwdriver or power drill with a #2 Phillips driver bit
- A Cat5 or Cat6 Ethernet cable with a 0.2-0.25 inch diameter (5-6.5mm)

Compatible Products

- TD53
- TS12-N
- TS12-N-RB
- TS12-N-R2B

Placement

Use as adapter plate with blue light emergency poles.

Installation

Mounting 1/3

Use T20 tamper-resistant flat head screws to fix the Adapter Plate on the surface.

Loosen the security screw and remove the mount plate from device.

Mounting 2/3

Use the #8 screws and washer to secure the wall mount plate onto the Adapter Plate using the B hole pattern.

Note: The washer should be between Wall Mount Plate the Adapter Plate to create a waterproof surface seal.

Route the ethernet cable through the mount plate and plug it into the device.

Connect the TS12 or TD53 to your network using the Ethernet port located behind the cable door on the device.

For easy registration and setup, scan the QR code on the product.

If you prefer to manually register your product, please proceed to:
verkada.com/start

Enter the serial number printed on the back of the device, the packaging, or the order number.

Mounting 3/3

Hook the device onto the mount plate.

Tighten the security screw with the T10 Torx Security Screwdriver.

Appendix
